beautiful pronounded of the Thierparties, and with the Iron cross primed on his breast. To the entit be wast the disple soldier—as modest and unsamming as when, an unknown inclusionant 70 years ago, he perfored his minutes of the Rochest of the R

The first the fi

At Manning, S.C., E. Hodoway, colored, the German arms. Seven days after the declaration of war, on July 19, the mobilization of the troops was complete. Eight days later the armies were drawn up between the Rhine and Sanr. All are familiar with the history of that war. Its great victories.—Mars-la-Tour, Gravelotte, Sodan and Metz—were, in a great measure, his victories.
Metz, too, capitulated on his birchday, when King William conferred upon him the title and dignity of count. Upon his return home, the Reichstag voted him a donation of 300,000 thalers; Emperor William appointed him field-marshal general, a life nomber of the Herren-Haus and knight of the order Pour le Merite; universities conferred degrees upon him; cities gave him diplomas of citizenship; forts and men-of-war were christened with his name. He left Berlin on July 31, 1870, the subject of a king; he entered Berlin on Marca 16, 1871, the citizen of an empire.

Happy, honored and beloved Motke resumed his duties in the office of the general staff. An era of peace had begun, however, and Motke turned also to the practice of civic duties. He was elected a member of the Reichstag and has been one of its met.

At Lexington, Va., James Crane, colored, was hanged for the murder of Charles Oliver at Brownsburg.

At Pt. Allen, La., Melville Johnson, colored, was hanged for the murder of David and dignity of count. Upon his return home, the Reichstag voted him a donation of 300,000 thalers; Emperor William appointed him field-marshal general, a life nometrod the middle of the murder of the maintage of the murder of the murder of the maintage of the murder of the maintage of the murder of the murder of the maintage of the murder of the murder of the maintage of the murder of the murder of the maintage of the murder of the maintage of the murder of the maintage of the murder of

Reward Clad in the Uniform He Always
3 o'clock and two were drowned, the others Wore, With the Iron Cross Pinned to His Breast.

Berlin, April 24.—Field Marshal Count Helmut Von Moltke, the man who has so often led the Prussian eagle to victory, the man whose praises all Germany has universally sung, whose name has been on every tongue for half a century, and upon whom honors unique in the history of the Estheviend wore chosened to describe the control of the steamer and the most terrible confusion ensued. The men fought amongst themselves for ropes and while the girls, seated in the stern, were shricking for help, a couple of these stalwart cowards fastened lines to themselves and were hoisted up. Two of the girls, Ethel Allen and Nellie McAllister, were drowned.

As the Result of Good Weather and Proday in his castle at Kraisau, near the New York, April 24.—Special telegrams beautiful promenades of the Thiergarten, to Bradstreet's very generally refer to more clad in the uniform which he always wore, settled weather and good crop prospects as and with the iron cross pinned on his breast. causes of increased activity in general trade.

To the end he was the simple soldier—as Improved weather has not aided the general

vancing on the Manipuris under Gen. Lockhardt reached a large native settlement in the Behagri Valley. The British force halted when within sight of the settlement, halted when within sight of the settlement, and sent scouts forward to inform the Manipuris that the British general was awaiting proposals of peace from the insurgent tribes. The rebels refused to answer, and the British troops were ordered to advance. The column pushed forward and burned twelve villages which had been occupied by the rebels. The latter in great force retreated to the hills. The British force then shelled the hills with shrappel, killing and wounding large numbers of the enemy. The latter are now believed to be completely cowed.

WHO'LL BE COMMODORE?

The Fight Between McGaw and Boswell is an Interesting One.

"The McGaw party have sprung a roorback on us," said a well-known member of the Royal Canadian Yacht Club and a supporter of Commodore Boswell yesterday.

"ECHOES FROM WOODBINE."

When the ¾ Mile Entries Close-The Pre-

sident Visits the Track,

therms proposed, duck which the general his position in his own club for the general good, would without question be duly recognized. Had they not been satisfied of this they would have unhesitatingly refused to entertain amaigamation. They, therefore, exspectfully submit that the just and wise course would have been for Mr. Boswell to have said to his friends, "Gentlemen, when we ourselves invited Mr. McGaw to join us and accepted him as our vice-commodore it was only natural that he should expect to succeed me as commodore. If we intended to keep him out of the commodore's chair we ought not to have asked him to join us, for if he and his friends had known then what we do not hesitate to tell them now they would certainly have prevented amalgamation.

THE BOARD OF TRADE,

ning Royalties Should Not Be Imposed at Present, if Ever. The council of the Board of Trade pro nounced on the proposed mining royalties at its meeting yesterday afternoon. Mr. Hugh william Forbes Elected President — Skips
For the Season.

The annual meeting of the ProspectsPark
Bowling Club was held last evening in the
club-rooms Prospect-street. There was a large
turnent. Fifteen new members were proship to over 50. The secretary, Mr. McCulloch, read the report for the past year,
which showed the club to be in a good position. The record of games won and lost was
not in the club's favor, though the members
expect to show a better front the coming
senson.

After adjournment the members sat down
to a fine apread provided by the winners of
the curling club trophies. After a very
legasnt evening, interspersed with speech
and song, the members dispersed, delighted
with the club's success and their hosts' hospitality.

The following officers were elected for the
ensuing year:

Presided. A deputation was present

A Cleveland street-car expert may be caned in for consultation.

Mr. Jennings expressed himself in somewhat hostile fashion touching the Cartwright tender. He said it meant in effect that the city pay \$15.000 for management and in addition give the company 15 per cents of the profits. "All I want," he said, "is the city to give me the capital and I will run it for \$15,000 without any percentage of profits; yes, and keep it clear of city management, too."

The committee did not accept the offer.

COLLEGE BASEBALL TO-DAY.

Wood, Somers, Wardell, Senkler, Schultz and Other Cracks at Rossedale.

The 'Varsity ball tossers took their last practice yesterday afternoon before meeting their big opponents to-day at Rossedale and appeared in good shape. Quick fielding is expected to wint the game for them from the old players if the heavy hitting of Pete Wood, "Kid" Somers, Tom Wardell, etc., does not prove disastrous.

Ex-President McConnel of the Toronto Club has loaned the gray uniform of his old professionals to the graduates. Their appearance on the field will thus remind the cranks of times. "Varsity hears are on the field will thus remind the cranks of them from the field will thus remind the cranks of times." "Varsity hears are on the field will thus remind the cranks of the Rossedale special in his stead. It was unanimetally agreed that the followers, through the cranks of times. GENTLEMEN -Wishing to testify to merits of Histogenetic Medicine for the cure of lung diseases, I submit the following stateor rung diseases, I submit the following state ment: Two years ago I found myself, as a result of exposure to cold and wet weather, taking frequent colds. I took a severe cough and got run down in vitality and had several spells of hemorrhage of the lungs. I coughed a great deal in the morning and some during the night. I consulted two or three physicians, one very clever Toronto physician. He treated me without medicine by hand rubbing and did me considerable ood, but in the course of time the hem

Two of the physicians I consulted considered mine a serious case, and one of them gave me to understand it hopeless, and I have no doubt that consumption would soon have caused my death. I heard about the new system of medicine and consulted Dr. Rear at the head office for Canada, 19 Yonge-Rear at the head office for Canada, 19 Yongstreet Market, who examined me very thoroughly and thought Histogenetic remedies would cure me in about six weeks. I commenced taking the medicine about Jan. 1. In two weeks the cough and breathing were better. The amount of sputa rapidly lessened. There was considerable bronchitis and it soon disappeared. My strength came again with astonishing rapidity and the rapid breathing disappeared. I have not had any nemorrhage since the first lot of medicine was taken. I have gained steadily in the was taken. I have gained steadily in the MILLINERY

oody generally as well as the lungs, and feel imost as well as I ever did. I can walk almost as well as I ever dId. I can walk fast now or do anything in a hurry and not get rapid breathing or palpitation. I am now following my usual employment and can stand any kind of weather. It is the best treatment for the lungs I have ever known, and I can conscientiously recommend it to my friends and acquaintances who may need lung treatment as far superior to any other lungs. How do we sell Millinery cheaper than the wholesale houses? how! how! Never mind how; we do, that's enough for you.

The

Mayes Found Guilty-Price Comes Up Next Session.

against William Hayes and Robert Price retired at 4.30 p.m. on Thursday to consider their verdict. The victim of the outrage was Minnie McKenna, a domestic employed in Toronto. At 6 p.m. yesterday the jury had failed to come to a decision. The court was adjourned until 9 p.m., when the prinoners were placed in the dock to hear the verdict. The jury found that Hayes was multy of the charge, but with reference to Frice they disagreed. This may have been due to the evidence given by three members of Price's family, their testimony going to prove an alibi. It may also be due to Price's exterme youth. He is a mere boy of 17. "I mm very thankful for the result," he said to his counsel, Mr. E. E. A. Du Vernet. His asse will now go on to the next assizes and Mr. Du Vernet will apply for bail.

The crime of rape when proven may be amidibable by death. The lowest punish-

Mr. Du Vernet will apply for bail.

The crime of rape when proven may be punishable by death. The lowest punishment is seven years' imprisonment. The leath penalty is but seldom pronounced. About the last sentence of death passed in Ontario for this crime was pronounced upon three men by Judge Rose at or near Ottawa. The victim of their crime was a highly-respectable young lady. The death sentence, however, was commuted to life impisonment.

Y.M.C.A. Board Meeting. The monthly meeting of the Board of

East York. The classes for Bible study continue to keep up in attendance and interest. During the month 52 young men were directed to suitable boarding Louses. Writing material was supplied to 125. Seven young men were introduced to associations in the United States and Canada. During the month 28 new members were received.

General Secretary McCulloch was appointed a delegate to represent the association at the international meeting of general secretaries, which will be held next week at St. Joseph, Mo. He will also represent the association at the international convention which will commence May 6 at Kansas City. The annual business meeting of the association will be held on Tuesday evening, May-19. The meeting to-morrow evening at 8.39 The meeting to-morrow evening at 8.30 will be addressed by Mr. Alfred Margarets, who will speak specially to young men of the subject, "Lessons from the Life of

Edward Hanlan, the celebrated oarsman found great efficacy in St. Jacobs Oil, and he says: "It is a reliable remedy for muscu-lar pains in arms and legs and invaluable to carsmen." All athletes use it.

YMCA Entertainment The gymnasium exhibition and concer which took place last evening in the West End Y.M.C.A. building was satisfactory in' the highest degree to the large audience attendance. The musical numbers were given with no less attention to technique than expression, and were heartily appreciated. The horizontal bar and mat work of Messrs, Hurst, Baker, Morgan, Russell and Barton was especially noticeable. The drill of the junior class was another feature of great explance, the hittle fellows, showing a great excellence, the little fellows showing are exactness and grace of movement. Th club-swinging was as well a most pleasin part of the entertainent. The pupils show marked interest in their work. The efficien and successful instructor, Mr. W. C. Chan ters, states that they have already formed three clubs and that there is a cohesiveness in the association not frequent in organizations

so young. A Remarkable Statement A gentleman largely interested in the Wholesale drag trade recently declared, "that from his extended knowledge of the business in Canada he could assert without fear of contrataction that the sales for Diamond Dyes in one mouth were equal to the total sales of all makes of common crude dyes for one year." There is no doubt, we think, about the correctness of this estimate. The hadies, who are the consumers, need of he minded of the great super-prity of Diamond Dyes. They are, as in the past, the only trustworthy and reliable dyes now sold for domestic dyein, and agent real is their business in Canada he could assert without for domestic dyein; and never fail in their work when properly used,

A Fashionable Business Street.
The suggestion made in yesterday's World that tracks be taken off King-street and an asphalt pavement put down met with directly opposite opinions. Some of the merchants thought well of it, others thought it would hurt their business. It would seem that quite a number of sacrifices, considerable expense and no little discussion would have to be gone through before the change could be made. But there is a street that can be turned at a very small cost into the most fashionable business thoroughfare in Toronto if properly taken up, and that is Victoria-street. The name, to begin with, is a good one. It runs from King to Gerrard, and at a small cost can be made to run to Carlton. It is parallel to Yonge and quite near it, and would form the great north and south avenue for all kinds of carriages and pleasure vehicles were it kept free from street railway tracks and a first-class asphalt pavement put down. The era of improvement on that street has already set in, as will be noticed by the sheep shouldings now in the great has already set in, as will be noticed by the sheep shouldings are steadily going twent anything projected for the last few years. Large buildings are steadily going at the string projected for the last few years. Large buildings are steadily going twent in the last few years. Large buildings are steadily going twent in the last few years. Large buildings are steadily going twent in the last few years. Large buildings are steadily going twent in the last few years. Large buildings are steadily going twent in the last few years. Large buildings are steadily going twent in the last few years. Large buildings are steadily going the then are in different lines of trade and which will be lasting or under on indifferent lines of trade and which will be lasting or an in different lines of trade and which will be lasting or an in different lines of trade and which will be lasting or which directly or indirectly or indirectly or and a first-class asphalt pavement put down. The era of improvement on that street has already set in as will be noticed by the three first-class buildings now in course of erection therein, and there is no doubt that other fine structures will soon follow. But the street will not accidentally develop into such an avenue as we have suggested unless the thing is gone about systaggested unless the thing is gone about property owners in that street is to take early steps to have it properly sewered, if that is not the case at present, to have all the gas and water pipes put in permanently and Toronto. She will start from Church-street

The control of the co

PHASES OF THE LAND MART

BUILDING PERMITS THIS WEEK AMOUNT TO OVER \$200,000.

House property and building lots have en selling this week in a manner very disfactory to holders and brokers. Leadsatisfactory to holders and brokers. Leading brokers report a large increase in the number of enquiries during the last few days—the first few days of really spring weather. The absence of speculation, such as characterized last spring's dealings, is noted by operators, and it is felt that the market is all the better for it. Solid investments are the order of the day. Productive property is in demand and daily finds purchasers at firm prices. The most important feature of the week was the decision come to at City Hall yesterday in regard to Ashbridge's Bay. Tenders are to be advertised for and the various syndicates will have an opportunity of showing open hands.

Prospective and Present Works.

Toronto is not by any means at a stand still. Building permits are rapidly increasing in number and value as the season advances.

Corner Lots.

Auditorium. REV.GEO. SEXTON, M.A.,LL.D the able and elequent apologist of Christianity, will preach to-morrow at both services. 3 p.m.—"The Pre-eminence of Christ." 7 p.m.—"Reason, Facts and Faith." Professional orchestra at evening service. N.B.—Dr. Sexton will be pleased to answer questions at afternoon service.

We study to preserve them and always advise doing so when practicable, but when they are past salvation will make a perfect-fitting artificial set for \$5 or \$8, guaranteed as perfect a fit as can be got anywhere at any price. Vitalized air only 80c and Teeth Extracted Positively Without Pain. We will not do anything but first-class work at any price. A practical lady assistant always in attendance

O.W. KENNEDY, L.D.S., Dentist 280 QUEEN-ST. WEST. Between Beverley and Soho-street.

Determine the case at present, to have all the gas and water pipes put in permanently and then to have a first-class pavement laid. There is no other street in town which will admit of such extensive improvements at so cheap a cost and without having to interfere with any existing interests or to quiet any objections. There is also an opportunity for Adelaide or Richmond-street running east and west to be improved in the same direction and to offer the same relieving street for King and Queen, which are encumbered with railway tracks.

The Godson case Adjourned.

The Godson case was begun yesterday before Co. Denison. E. F. B. Johnson, Q.C., and F. A. Hilton appeared for the oity and D'Alton McCarthy, Q.C., and D. M., Fasken for Godson. The charge of obtaining by fraud \$85.50 on Nov. 20. 1889, was first taken up. It is claimed by the prosecution that Godson received payment of the same account twice, having forged the vouchers on count twice, having forged the vouchers on the county of the same account twice, having forged the vouchers on the case at present, to have all the gas and from New trady on her regular trips to and from New trady on her regular trips to and from New trady on her regular trips to and from New trady on her regular trips to and from New trady on her regular trips to and from New trady on her regular trips to and from New trady on her regular trips to and from New trady on her regular trips to and from New trady on her regular trips to and from New trady on her regular trips to and from New trady on her regular trips to and from New trady on her regular trips to and from New trady on her regular trips to and from New trady of Linguistics and from New trady of Linguistics and the trady on her regular trips to and from New trady of Linguistics and trips to the property is a semi-

LABOR!

POPULATION

NEW TORONTO

The seat of great manufacturing enterprises-fast building up-centre of the attention of investors, builders and business men. There is no question of doubt a bout the future im_ mense growth of New Toronto. Up to date over \$200,000 in cash has been invested in factories and machinery; other extensive factories are striking root; over \$300,000 in cash has been invested by the Syndicate Company and houses and stores are going up on all hands.

REFLECT ON THESE FACTS

THE FACTORIES.

No such aggregation of factories in Canada ever concentrated their interests as those now planted at New Toronto. James Morrison's Brass Works has been in successful operation for many years, employing from 150 to 250 skilled artisans. This factory is now in no operation. T. McDonald's Queen City Galvanizing Works have built up a trade, extending operation. T. McDonald's Queen City Galvanizing Works have built up a trade, extending is to keep pace with the increasing trade. Ample room is now obtained, and ere long between to keep pace with the increasing trade. Ample room is now obtained, and ere long between to specific and 300 men will receive constant and paying employment. This factory is now in we operation. Sheridan Bros.' foundry manufactures castings for furnace building. The operation. Sheridan Bros.' foundry manufactures castings for furnace building. The principals are managers of the Pease Furnace Company, a strong firm of manufacturers, with headquarters at Syracuse, N.Y. This foundry is now in operation. The interior Decovith headquarters at Syracuse, N.Y. This foundry is now in operation. The interior Decovith headquarters at Syracuse, N.Y. This foundry is now in operation. The interior Decovith headquarters at Syracuse, N.Y. This foundry is now in operation. The interior Decovith headquarters at Syracuse, N.Y. This foundry is now in operation. The interior Decovith headquarters at Syracuse, N.Y. This foundry is now in operation. The interior Decovith headquarters at Syracuse, N.Y. This foundry is now in operation. The interior Decovith headquarters at Syracuse, N.Y. This foundry is now in operation. The interior Decovith headquarters at Syracuse, N.Y. This foundry is now in operation. And it is not the principals. The interior Decovith headquarters at Syracuse, N.Y. This foundry is now in operation. And it is not the principals are completed and nearly ready to the principals are principals. The interior Decovith headquarters at Syracuse, N.Y. This foundry is now in operation. And it is not the

OTHER BUILDINGS.

The establishment of the factories has caused a great activity in building operations. Houses are going up everywhere round about. Since last fall 46 have been built and 40 more are under contract. There is an urgent demand NOW for at least 200, and before the year is out many more will be needed. Stores are beginning to appear and the grocer and other business men are driving a fine trade.

HOUSES WANTED.

Many houses are now in great demand. Those at present built are paying from 10 to 12 per cent, on the investment. Special opportunities will be offered to builders for the next month. For particulars apply at the Company's Head Offices, 33 Toronto-street,

THE BACKBONE.

The backbone of New Toronto is its factories. Wherever large measures of highly paying employment is offered to labor there will labor go, and where artisans go in large numbers there will all the multifarious elements of society follow. A large amount of labor is now employed, and already it is attracting the builder, the investor, the grocer, the baker, the lawyer, the doctor, the blacksmith, the hotelkeeper and others in search of wealth, employment and business. Before this year closes from 700 to 900 men will be working steadily in the New Toronto factories, drawing large wages.

THE SITUATION.

No place in Ontario has better site than New Toronto. It is so close to the city that it totically enjoys all the benefits of the Metropolis. It is touched both by steamboat and lway and slopes gently to the lake.

INTERNAL MANAGEMENT.

New Toronto starts with advantages that no other town or city in Canada ever had. It will have ten immense factories without a cent of bonus being paid by the new town. It will not need to spend tens of thousands of dollars to build subways or straighten out any other railway difficulty, as it owns its own railway tracks and simply gives the railway running powers over them. In this way switches may be built anywhere it is deemed advantageous to build them, and the convenience to the manufactures and the saving of labor, cartage, etc., cannot be overestimated. Cars are loaded and unloaded at the very doors of the factories.

TO INVESTORS.

The Company's Head Office is at 38 Toronto-street. Builders, investors, business men and others interested will receive full information by personal interview there, or by correspondence.

Note change of address, Kerr & Cobbold, 51.

King east (Nasmith building).

Asphalt Street Pavement Of all pavements in use it is the most perfect sanitary pavement. Besides the surface cleanliness, so easily preserved it is impervious to any liquid fifth that falls on it; and, therefore, neither the pavement itself nor the ground beneath can become saturated with impurities to infect the air and spread the germs of disease.

Read what the eminent authority, Dr. Fordyce Barker, says of wood-block pavements:

"On sanitary grounds, therefore, I must earnestly protest against the use of wooden-block pavements. Such blocks, laid endwise, not only absorb water which dissolves out the abluminoid matter that acts as a putrefactive leaven, but also absorb an infusion of horse manure and a great quantity of horse urine dropped in the street. The lower ends of the blocks, resting on boards, clay or sand, soon become covered with an abundant fungoid growth. Thoroughly saturated with albuminous extracts and the excreta of animals, in a liquid, putrescible form, these wooden-block pavements undergo a decomposition in the warm season, and add to the unwholesomeness of the city....."

For all information about Asphalt apply to J. L. KERR. No. 4 King-st. east, Toronto,

The fifth is bodily health. This is promot the proper use of health-giving fluids, breakfast drink the Royal Dandelion Coffee, contains a proportion of German dandelion and fine coffee as a basis. It combines the cinal virtues of this well-known plant with the

PROPERTIES FOR SALE.

REAL ESTATE AND LOAN BROKERS OFFICES-18 Victoria-st., Toronto; 147 St.

We are in direct communication with loan companies who will advance money on good security at 5½, 6 and 6½ per cent. and we also have trust funds, which can be loaned at a very low rate of interest to pay off old mortgages, assist builders, etc. Good loans are negotiated without trouble and can be effected easily, and any applications made will receive prompt attention.

No better sign of Toronto's future can be found than the practically-expressed faith of her citizens.

Like all great cities we have our ups and downs, and the pessimists have always been ready to cry that we have reached the limit of growth. Some years ago the cry was in many mouths and not long ago it was repeated, but still the believing ones kept on believing and made money through their unshaken faith.

There is no reason why our Queen City should not prosper, owing to the many advantages she possesses and the many factories that are now in operation in and around it, and her prosperity is bound up with the future of this great Dominion, which is to-day preparing for another rapid stride forward. We publish The Real Estate Record, which contains a large list of property for sale and exchange in Toronto and suburbs and also the latest statistics and information pertaining to real estate. This journal reaches all parts of Ontario and will be mailed free to any address in or out of Toronto.

We make no charge for advertising property

We make no charge for advertising property that is placed in our hands for a period o time, and we employ a large staff of prac-tical salesmen who will give prompt atten-tion to all details of loans and valuations. CENTRAL PROPERTIES.

and assays. This is the time to invest in nickel properties, as there will be both American and English buyers here within two months, and good properties will then bring high prices.

Drummond & Brown received the following today over their private wire from La Montagne. Clarke & Co. of New York: Market opened lower, but after first few sales rallied and sold above closing prices. The market is entirely governed by bull sentiment, and there seems little use in looking for the reaction. Traders and bears who sold yesterday bought back today and went long. The grangers again advanced and the coalers took a spurt on the psobabilities of a strike in the bifuminous trade. The Great Northern people desired the cut in seaboard rates, which had more effect on prices than the announcement of the cut ever did. St. Paul was especially strong on a gain of \$22,000 for the third week in April. The whole market was broader and better sustained and shows no signs of any let-up. We see no use of walting to get in, as the reaction when it comes will probably only be of a temporary character, and buying now is likely to show large profits in the end. The exportation of \$1,700,000 gold by tomorow has had only a temporary effect on prices and seems to have no effect on money rates. We are estill believers in higher prices, although a sharp reaction is overdue, and likely to catch the list when least expected. We should buy on any weakness; leave N.P. pref alone, however.

CAMPBELL & MAY

Drummond & Brown quote the following quotations in New York cotton exchange: May, opening 8.71, highest 8.73, lowest 8.61, closing 8.62; June, opening 8.82, highest 8.83, lowest 8.70, closing 8.70; July, opening 8.90, highest 8.82, lowest 8.80, closing 8.79; August, opening 8.98, highest 8.99, lowest 8.87, closing 8.87. The Weekly Review.

There has been some improvement in trade during the week, but the failures in the Province of Quebec continue to give local dealers some measiness. As far as this province is concerned, business is in a healthy condition. There is no heave in prices and propriets are considered.

ESTATE NOTICES.

COR SALE block of 75 acres of best building land fronting on the west side of Yonge-st. in the Town of North Toronto, adjoining Bedford Park.

PROPERTIES FOR SALE.

High level land with nice views and good drainage. Brick house, &c., &c., with avenue and gardens. NEAR PRESENT TER-MINUS OF THE METRO-POLITAN ELECTRIC RAIL-

WAY. THE ELECTRIC CARS WILL, BAR ACCI-DENT, SOON PASS THE PROPERTY. Proposed plan of sub-division of the property into

15 Imperial Bank Buildings. Leader-Lane.

building lots on view. W. JAMES COOPER,

Payments fair.

HARDWARE.

There is considerably hore activity in trade this week. A better feeling exists. Prices are regarded as satisfactory and there does not appear to be any cutting. Prospects for trade in the immediate future are promising. Tin i plates remain very firm and scarce, and it has become a question whether stocks in hand will meet the demand which usually takes place early in May. Copper is a shade easier and prices favor buyers. Other metals are firm. There is a marked improvement in the Scotch iron market, warrants being quoted is 6d to 2s higher. There is no reason to complain of payments.

Money Below Market Rates R. K. SPROULE, 20 Wellington-Street East.

Trade shows some improvement and payments are more satisfactory. Sugars are quiet and unsettled owing to uncertainty with regard to tariff changes. It is improbable, however, that any change made during the coming session of Parliament would materially affect the market till after the sugar season is over. Granulated is unchanged at 6%c to 7c per 1b. and yellows are quoted from 5½c up. Canned goods in demand and firm. Canned tomatoes strong at \$1.45 to \$1.60 and the indications are that this line of goods will be exhausted before next senson's pack is ready for the market. Teas quiet and prices steady. Fruits firm, especially currants, which are higher outside; Velencia raisins seasonably quiet. Coffees in good demand; Rios scarce. Oranges slow at \$6 to \$6.25 per case for Valencias, Lemons in fair demand at \$4.50 to \$5 per box.

Miscellaneous.

Receipts wheat in Duluth 49.000 bushels, compared with receipts \$7,000 and shipments 1000 yesterday.

Receipts wheat in Detroit 21.000. shipments \$5,-

Receipts wheat in Tooloo and 21,000 respectively yesterday.

A round lot of No. 3 Manitoba hard is said to have been sold in Winnipeg to-day at equal to \$1.15 at North Bay.

Receipts wheat in Toledo 10,000 bushels, shipments 1000, against 21,000 and 2000 respectively yesterday; receipts corn 5000, shipments 3000, against 21,000 and 2000 respectively yesterday.

Receipts wheat in Toledo 10,000 bushels, shipments 1000, against 21,000 and 2000 respectively yesterday.

clamation of Ashbridge's Bay Be Pressed Forward. Be Pressed Forward.

Ashbridge's Bay Reclamation Committee met yesterday morning. Present were Ald. Hewitt (chairman), Bell, Allen, Macdonald, Jolliffe, Hall, Gowanlock, Leslie, Pape, G. Verral, Small, Assistant City Clerk Littlejohn, J. C. Beavis, Edward Blong, Nelson D. Mills and R. E. Kingsford. The business under discussion was the reading of the Engineer's specifications, under which it is proposed the syndicate shall do the work.

Ald. Small said this thing had been played with long enough. "Hamilton is offering the syndicate a bonus to locate there, and if it is accepted it will be a bad day for Toronto."

Ald. Verral: "Yee, and It we do not look out there are several things in which Hamilton may beat us. We ought to get up and work."

City Engineer Jennings dropped in and

ferred for settlement, as speculators would run up improvements and increase cost of expropriation.

The committee, after quite a lengthy discussion, resolved to recommend that the proposed road be paid for by the property owners and the city, the proportions to be settled by the council and the property owners, Ald. Bell dissenting. Ald. Hall was firm in the belief that there should be a sub-committee appointed to see what claims had to be considered before any further steps be taken. Ald. Small said "no," pass the specifications on to council and let the syndicate settle with the claimants. Ald. Hall carried his point, and succeeded in having the bond sighed by the property owners holding the city harmless from all damages referred to the City Solicitor to inquire into its legality. Mr. Kingsford, representing the syndicate, presented its case in an able speech and showed to the satisfaction of the committee that the syndicate's plan was the one the people of the East End wanted. "If it is not adopted," he said, "there will be a revolution down there. If there is much more delay in this thing the people who are holding their capital for this enterprise will get tired and divert it into other channels. They will not keep it locked up much longer. It ell you this, gentlemen, simply as a warning."

The Chairman: "As far as I am concerned

The Chairman: "As far as I am concerned I would support a motion that the work of reclamation be proceeded with at once. I feel assured that the city's position is safe."
Ald Allen: "I have no doubt there is someone behind all this who wants to stop the Ald. Allen:
you are all right."
Yes, Ald. Allen is right.
Ald. Small: "Yes, Ald. Allen is right. There is someone behind the scenes who is hostile to the work being completed. That is

A Deadly Foe Near Our Door. The people of Canada have lately been thoroughly aroused and, to a large extent, disturbed in mind regarding an editorial article which appeared in The Montreal Star

The article referred to gives the opinion of The article referred to gives the opinion of a London, Ont., physician regarding the terrible after-effects of that dreaded disease, mow so common and prevalent, known as "La Grippe." This insidious disease is now raging in the United States, and is of a more malignant form than has heretofore appeared on this continent. This year its ravages have been on a more extensive scale (than in preceding years, and the mortality and sad results more appaling than ever before. It has respected neither age nor condition and has seized its victims from all ranks.

it has been clearly shown, from close observation and carefully-gathered statistics, that "La Grippe," when not fatal, often leaves its victims in a terribly dangerous condition, and the greatest possible care is always needed to restore the ailing ones to perfect health again.

Those who have experienced the terrors of this unwelcome visitor know well the depressing influences and feelings which are experienced, as well as the torture of mind and body. The brain is heavy and confused, the mind is absent and terror-stricken and the whole tody is weak, helpiess and tortured. Is it any wonder, then, that the keen and practiced eye of the physician is enabled to not a tendency to morbidness and melanchella, and even dreaded insanity!

Can any sane individual, therefore, deny the fact "that we have now in our midst a most dangerous foe and invader"!

It comes to all like a thief in the night, when we are unprepared and unguarded. It ruthlessly lays hold of fathers and mothers, brothers and sisters—those we love dearest and best, and too often snatches them from it behooves us, therefore, to meet this lectricity, as applied by the Owen Eleo-

It behooves us, therefore, to meet this dread foe when it appears with our full armor girth on and with the proper arms of defence. Let us not under-estimate It behooves us, therefore, to meet this dread foe when it appears with our full armor girth on and with the proper sums of defence. Let us not under-estimate its power for evil; we must go into the contest for life or death.

Physicians in our land say without hesitation, judging from the terrible effects prevalent where "La Grippe" has been on tours of devastation and death, as in Chicago and other cities, that its next visit to Canada (soon to come) will be a most fatal one, unless great precautions are observed and perfect sanitary laws obeyed. All Canadians, old and young; all classes of society who are weak, nervous, sleepless, languid, worn out and dyspeptic and all who are naturally predisposed to disease will certainly be among the first victims of this fell destroyer.

The question is naturally asked: "What means can we adopt to avoid this disease, or how prepare to successfully battle with it is attacked?"

Experience for the past 18 months has clearly demonstrated the fact that all those who have maintained a healthy and active vitality, a clear and unclouded brain, a calm mind, cheerful disposition, good digestion and ability to enjoy sound, peaceful rest will, in 99 cases out of 100, entirely escape.

To Restore the sand Appliances

tric Belt and Appliances

it is now recognized as the greatest boon offered to suffering humanity. It has, does and will effect ours in seemingly hopeless cases where every other known means has falled. Rheumatism cannot exist where it is easily felt, it will cure:

Rheumatism, Sciatica, Femmle Complaints, Femmle Complaints, Sexual Oomplaints, Sexual Oomplaints, Sexual Oomplaints, Sexual Complaints, Sexual Complaint

Experience for the past 18 months has clearly demonstrated the fact that all those who have maintained a healthy and active vitality, a clear and unclouded brain, a calm mind, cheerful disposition, good digestion and ability to enjoy sound, peaceful rest will, in 99 cases out of 100, entirely escape.

To secure the above-mentioned blessings and complete disease-proof armor physicians and others have found that that now well-known and popular remedy, Paine's Celery Compound, has so far been the agent for protection and robust health. It has been found that whenever this grand remedy was used, "La Grippe" with its terrors passed harm-lessly by. This powerful and efficacious medicine prepares the weak, and all predisposed to disease, to resist the flercest attacks, builds them up in flesh, hone and muscleigives strength to the nervous system, and a clearness to the brain and thinking powers that "La Grippe" can never cope with or weaken.

It was clearly proved recently in Chicago

weaken.
It was clearly proved recently in Chicago and other western cities and towns that those who had fortified themselves by using Faine's Celery Compound were almost the only persons who escaped the dreadful

What a lesson, therefore, for the people of Canada! Will the opinions of the ablest bhysicians go unheeded? Can our people, with safety, throw aside the most positive and coavincing evidence ever offered? Being armed is to be prepared. Let us not then stand idly looking on as doubters; let us remember that this most deadly of modern epidemics is almost at our very doors!

CANADA'S POLICY

A demand for a form of Insurance in which there is more insurance and less investment has become an absolute necessity. This Company has therefore introduced and is operating most successfully what is known as the Ten-Twenty Plan. By this plan we can offer to that class who wish only protection, and who believe City Engineer Jennings dropped in and that they can invest their money to better advantage than any early company can for them, and are quite willing to take that part of strongly combatted. He claimed further that the road allowance should not be deferred for settlement, as speculators would run up improvements and increase cost of expropriation. those who cannot afford to pay the premium for Investment Insurance the plan is equally attractive. On the Term Plan the policyholder pays for what he gets; he does not tie up any portion TOHONTO COLLEGE OF MUSIC, LIMITED. of his capital in an investment which he does not require, and, during the years when insurance is most needed, the largest Musical Education in all its Branches amount can be secured for each dollar expended. By this plan 12 and 14 Pembroke-street. Or West End Branch, Mrs. Howson, 16 Brun wick-avenue. carrying the risk and may continue his insurance in either of the F.H. TORRINGTON - - Director following modes, at his option:

1st .-- As a Whole Life Policy. 2nd .-- As an Endowment Policy. On either of these the rate is guaranteed to be lower than charged by the Company for new policies at that time and age.

3rd.--If not satisfied with the offer the Company can make on the above options, he may continue his insurance for another ten which will give the most satisfaction is the option of the description of the continue the above options, he may continue his insurance for another ten which will give the most satisfaction of the continue that the option of changes, all the surplus and accumulation from his original policy will be applied to reduce the premium in the new policy. 3 well and

plain to be seen."

The City Solicitor will draw up a bond to be signed by property owners and the final clause in the specifications, asking a bonus of second clause in the specifications, asking a bonus of second clause in the specifications, asking a bonus of second clause in the specifications, asking a bonus of second clause in the specifications, asking a bonus of second clause in the specifications will draw up a bond to be signed by property owners and the final clause in the specifications, asking a bonus of second clause in the specifications, asking a bonus of second clause in the specifications, asking a bonus of second clause in the specifications will draw up a bond to be seen."

Castings.
Tenders must be made upon the proper form
attached to the specifications, which may be obtained at the office of the Waterworks Department.

A deposit, cash or marked cheque for the amount specified in the specifications must ac company each tender.

The lowest or any tender not necessarily ac cepted.

Claiman Committee on Waterworks. Chairman Committee on Waterworks
City Hall, Toronto, April 21, 1891.

TENDERS.

Sealed tenders addressed to the undersigned, and endorsed "Tender for Indian Supplies," will be received at this office up to noon of SATUR-DAY, 9th May, 1891, for the delivery of Indian Supplies, during the fiscal year ending 30th June, 1892, consisting of Flour, Beef, Bacon, Groceries, Ammunition, Twine, Agricultural Implements, Tools, &c., duty paid, at various points in Manitoba and the Northwest Perritories.

Forms of tender, containing full particulars relative to the Supplies required, dates of delivery, &c., may be had by applying to the undersigned, or to the Indian Commissioner at Regina, or to the Indian Office, Winnipeg.

Parties may tender for each description of goods or for any portion of each description of goods spenarately or for all the goods called for in the Schedules, and the Department reserves to itself the right to reject the whole or any part of a tender.

fiself the right to reject the whole of any part of a tender.

Each tender must be accompanied by an accepted cheque in favor of the Superintendent General of Indian Affairs, on a Canadian Bank, for at least five per cent of the amount of the tender, which will be forfeited if the party tendering declines to enter into a contract based on such tender when called upon to do so, or if he fails to complete the work contracted for. If the tender be not accepted, the cheque will be returned, and if a contract be entered into for a part only of the supplies tendered for an accepted cheque for five per cent. of the amount of the contract may be substituted for that which accompanied the tender; the contract security cheque will be retained by the Department until the end of the fiscal year. chisque will be retained by the Department until the end of the fiscal year.
Each tender must, in addition to the signature of the tenderer, be signed by two sureties accept-able to the Department for the proper perform-ance of the contract based on his tender.
This advertisement is not to be inserted by any newspaper without the authority of the Queen's Printer, and no claim for payment by any news-paper not having had such authority will be udmitted.

L. VANKOUGHNET, Deputy of the Superintendent-General of Indian Affairs.

GRATEFUL-COMFORTING. EPPS'S COCOA BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cooca, Mr. Bops has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundrods of subtle maladies are floating around us ready to attack wherever there is a week point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Grazette.
