

ABOUT SUNDAY OBSERVANCE

MR. CHARLTON RIDES HIS HOBBY INTO EVERETT FIELD.

But He Could Not Prevent Justice From Rendering Verdicts On the Subsequent Three Divorce Cases. A Kick Against Inducing Immigration From the United States to Canada.

OTTAWA, March 24.—This has been a fairly good working day, and although Mr. Charlton has lost a good deal of time in the afternoon, he has managed to get into the Criminal Code and into the appointments of World's Fair Commissioners, still a number of Government bills have been passed, and on the whole satisfactory progress has been made, so that the prospect of protraction taking place next Saturday remains good.

The bills respecting the inspection of petroleum and amending the act respecting land in the Northwest Territories were introduced and read a first time, but Mr. Foster explained with respect to the latter that it was not intended to press it this year.

The House went into committee on the bill amending the Criminal Code.

Mr. Charlton moved to repeal clause 729, which permits a court to receive a verdict from a jury of Sunday.

Mr. Davis thought the repeal of the clause might induce juries to give hasty judgments so as to get through before midnight on Saturday and avoid being locked up on Sunday.

Mr. Charlton objected to any judicial proceedings of any kind taking place on Sunday.

Mr. Davis thought it most unfair to lock the juries up on Sunday and prevent their going to church.

Mr. Tisdale thought that the judges could be depended on to see the law carried out in a Christian spirit. He did not think it would further Sabbath observance to lock a jury up over Sunday when the verdict may be ready a few minutes after midnight.

After some further discussion the amendment was lost by a vote in committee of 24 for to 55 against.

McMillen's Strange Idea.

Mr. McMillen offered an amendment that the verdict might be rendered, but no other judicial act be performed on the day.

Mr. Davis thought that the judge ought surely to be allowed to discharge a prisoner if he was found innocent, and the clerk of the court should record the judgment.

The amendment was lost and the committee rose and reported, as the bill was not a third time passed.

The House went into committee on the resolution to provide for the salaries of two commissioners to be appointed.

Hon. Mr. Foster explained that what was wanted was that a member of the House should be appointed to the Senate, and the resolution was finally amended by striking out the word "services" and substituting "expenses" and was sent back to appoint one of both commissioners from the members of the House.

Mr. Charlton moved an amendment to the effect that such payment of expenses be made conditional on the Canadian side of the fair being closed on order and the resolution was reported. Six o'clock.

Divorce Bills.

After recess a number of private bills were passed, including the divorce bills of James Frederic Doran, Annette Maron (now Mrs. Francis Schaller).

The House then went into committee on the railway subsidy resolutions and discussed them for a few minutes.

New Appointments.

To-morrow's Canada Gazette will contain the appointment of Chief Justice Lacombe as administrator of the Province of Manitoba, Quebec, under the absence of Lieut.-Governor Chaplain, and of Chief Justice Taylor, as administrator of the Province of Ontario, under the absence of Lieut.-Governor Schulz.

Mr. Hugh Mackenzie Wilson, Q.C., has been appointed Deputy-Judge of the County of Brant.

The postoffice at Alexandria in Glenora County was ordered on Tuesday night and stamps to the value of \$30 taken.

Manitoba Settlers.

In the committee on Agriculture this morning Mr. A. M. Burgess, Deputy Minister at the Interior, has been ordered to the steps taken to promote emigration from the United States. Mr. Carpenter thought that it was a waste of money to look after the health of the live stock of the country, and to whom all communications could be addressed from persons who had reason to believe that their herds were in any way affected. This officer was to be invested with full authority, on the receipt of such communication, to take immediate and prompt measures to arrest and eradicate the disease.

Another resolution was passed recommending the appointment of a competent veterinary surgeon, whose duty it would be to look after the health of the live stock of the country, and to whom all communications could be addressed from persons who had reason to believe that their herds were in any way affected. This officer was to be invested with full authority, on the receipt of such communication, to take immediate and prompt measures to arrest and eradicate the disease.

BIG PROHIBITION CONFERENCE.

Important Conference of the Various Temperance Leagues Yesterday—Provincial Meeting Called for August.

An important conference was held yesterday at the office of the Dominion Alliance in this city. It was the outcome of a resolution adopted at the annual session of the R. T. of T. held in Galt last month.

The chief officers of the W.C.T.U., Ont., Dominion Alliance, S. of T., L.O.G.T., R. T. of T. and advanced prohibitionists were present, also representatives of Christian Endeavor work.

Mr. W. W. Buchanan presided in the early part of the meeting, but was obliged to leave later in the day, and Rev. W. K. Kellwell took his place. F. S. Spence acted as secretary.

After a good deal of earnest consultation it was decided that a call should be issued for a representation of provincial prohibition workers to be held in Toronto on August 22 and 23 next to discuss the position of the prohibition cause in this province.

The call will be signed by the heads of the bodies named and will invite co-operation from every church, society, church, church league and other organization favorable to the temperance cause.

It is anticipated under the auspices under which the convention is to be held and the present critical situation will make the proposed meeting one of unusual magnitude and importance.

TIERED UP LIFE.

Richard Freeman Tried to Cut His Own Throat.

CHATEAUX, Ont., March 24.—For nearly two years old Dick Freeman, as he is known, has been in failing health and during the last six months has been confined to bed for the greater part of the time. Of late he has been in a more cheerful mood and has been in the habit of getting up in the morning, though it was not expected that he would attempt to take his own life.

While his brother-in-law, Mr. Thomas Hanbury, who has been attending him, has been in the habit of getting up in the morning, though it was not expected that he would attempt to take his own life.

Mr. Hanbury, who has been attending him, has been in the habit of getting up in the morning, though it was not expected that he would attempt to take his own life.

Mr. Hanbury, who has been attending him, has been in the habit of getting up in the morning, though it was not expected that he would attempt to take his own life.

THE CYCLONE DOWN SOUTH

ITS PATH WAS TWENTY MILES IN WIDTH.

It Cleans Out Towns, Kills Many People In Its Path, and Destroys Property Worth Millions of Dollars.

MEMPHIS, Tenn., March 24.—The path of the cyclone which entered Tennessee yesterday in a southerly direction from Mississippi appears to have been about 20 miles in width, although serious damage was confined to a much smaller area. The winds are down in all directions. There is no telegraphic communication with Nashville and intervening points, and little news is obtainable from places visited by the cyclone.

This city barely escaped. A heavy rain fell and a high wind blew at the time the cyclone raged, and it became dark as night for 30 minutes. Heavy damage was done to trees and small buildings. A train from Birmingham, Ala., arrived late last night, and reports much damage between here and Byhalma, 20 miles east. At 2:30 o'clock this morning the wire at Kelly, Miss., was tapped, and details telegraphed to Memphis, and the details were not exaggerated.

Nashville Suffered.

A despatch from Nashville, Tenn., says: Half of the state prison, which covers 80 acres of ground, was torn to pieces by the cyclone, entailing an enormous loss.

The convicts, 500 in number, were all moved out of the mess hall when the building collapsed.

W. Sanford Evans, president of the club, was the chairman, and the vice-chairman was J. M. Gibson, A. McRay, M. P. and Senators Maclean and Sanford. Mr. Gibson asked that his application be referred to the committee on the subject of the club.

There were only four toasts—the Queen, the Governor-General, Canada and the Canadian Club. The list was supplemented by three or four extra toasts.

Speeches were made by James Weir, Hon. J. M. Gibson, A. McRay, M. P. and Senators Maclean and Sanford. Mr. Gibson asked that his application be referred to the committee on the subject of the club.

SHOOT DEAD NEAR GANANOQUE.

THE RESULT OF A QUARREL OVER PROPERTY.

Two Old Men Attempt to Terminate Another by Shooting in Order to Secure Possession of a House—One Shot Through the Door and Killed the Other.

GANANOQUE, Ont., March 24.—A case of shooting occurred to-day about eight miles east of here, by which John Fitzsimmons lost his life. The ownership of a house and small piece of land in the locality mentioned and near the St. Lawrence River was in dispute. Fitzsimmons claimed it by right of purchase from all the heirs but one, and Mrs. Joles claimed it as the heir whose interest had not been purchased.

Three weeks ago Mrs. Joles' family moved into the house and took possession of the property, which was previous to that time unoccupied. They lived there undisturbed for two weeks, when one night John Fitzsimmons and three of his sons appeared at the house and forcibly ejected the Joles' family, throwing their effects out on the road.

There was considerable resistance, and the assault was the cause of several charges for affray, etc., at the police court here. The cases were tried here on Monday and Tuesday, when the Police Magistrate reversed his decision to-day.

This morning he dismissed all but two of the charges and fined John Fitzsimmons and one of the sons \$5 each and costs for assault.

A Dual Decision.

Whether this decision was taken as upholding Mr. Joles' rights to the property or not, is not known; but this forenoon the heirs and his husband took their effects back to the place where the shooting occurred, and he went over to the house. Just as they stopped at the door the door was opened from the inside and John Fitzsimmons appeared in the doorway and forbade them entering. Shipman attempted to parley with him and attempted to go in the house. Fitzsimmons, according to Shipman's story, fired several times with his revolver and the head with it. Shipman retreated and Fitzsimmons retired to an inner room and closed the door.

Retired Through the Door.

At this time Shipman, who had been hunting ducks, came along and took the gun and, going to the door, called out that he was not afraid, but as he could not get in, he fired at the door. The inside door, expecting Fitzsimmons would open suddenly and would be covered by the shot. But the door did not open and in the excitement the gun held by Shipman went off, accidentally, as he says, in the direction of the door. The shot hit the door, the shot having penetrated his chest.

Shipman then came to Gananoque and surrendered to the Police Magistrate. Shipman was badly cut about the head. His wounds were dressed, and he was taken to the hospital. He is now in charge of the chief constable, and will be taken to Brockville jail to-morrow.

First—By about a late afternoon he will hold an inquest. Fitzsimmons was a large man, 57 years old. One of his sons is a merchant and postmaster at Rockport.

ENGLISH MEMBERS TO BE PAID.

By a majority of 45 the British House of Commons has resolved to pay the salaries of its Members.

LONDON, March 24.—The House of Commons to-day, by a vote of 270 to 229, passed a resolution to pay the salaries of its Members.

PROBABLY ON A TOOT.

Baron Hastings Figures in a London Police Court and Has a Heavy Fine Imposed on Him.

LONDON, March 24.—George Manners Latley, who has a seat in the House of Lords as Baron Hastings, was arrested at the Marlborough Police Court to-day on a charge of having acted indecently toward a girl in Regent's Park.

His Lordship, who is about 35 years of age, looked very much ashamed of the charge. The evidence of his disgraceful conduct was so clear that the court found him guilty and sentenced him to pay a fine of £50 or be imprisoned for three months. The case has caused a great sensation, as Lord Hastings is the son of the Duke of Devonshire and the Duke of Wellington's son.

COLE SHEPARD DEAD.

One of the Leading Newspaper Men of New York.

New York, March 24.—Col. Elias Fitch Shepard, editor of the Mail and Express, died suddenly this afternoon at his home. His death followed the administration of other by Dr. McFarlane and the family physician, Dr. McLean, who were about to make an examination to ascertain whether the Colonel's condition was such as to justify the use of the anesthetic.

WOOLING MAYOR FLEMING.

MANY DEPUTATIONS WAIT UPON HIS WORDS.

Want the Wing at Queen's Wharf Engaged For the New Niagara Steamship-Permanent Quarters For the Provincial Station Show-Teachers For Teaching the Isolation Hospital.

Mr. E. B. Oiler was unsuccessful yesterday in his endeavor to persuade the Mayor to look favorably on a scheme for enlarging the wing of the Queen's wharf for the purpose of accommodating Hon. Frank Smith's huge new steamer. In consequence of the probable extension of the wharf out to the windmill line any arrangements which could be made would necessarily have to be of a temporary nature.

City Surveyor Sankey will report on the feasibility of constructing an extension of this nature at a small expense. The offer of the payment of 10 per cent. of the cost has been made by Mr. Smith's solicitor.

Permanent Quarters for the Horse Show. Messrs. John Snell, Brantford; Charles Rykert, St. Catharines, and Secretary Wade of the Agricultural and Arts Association formed the personnel of a deputation which waited on the Mayor yesterday morning to suggest that the city provide suitable accommodation for the holding of the association's annual horse and cattle shows.

The horse show was held this year in the Drill Shed, and the cattle exhibit took place in Guelph. Should suitable accommodation be furnished both would in future be held in Toronto. The Drill Shed is far too small for the purpose, and the Exhibition grounds are thought to be too far removed from the centre of the city. The Property Committee will be consulted in reference to the matter.

Ald. McMurrie's special committee will meet at 11 o'clock this morning, when Mr. Wragge of the G.T.R. will probably be sounded regarding the erection of the foot-bridge at the end of Bay-street.

Heating the Isolation Hospital. The Local Board of Health, with Ald. Carlyle in the chair, met yesterday and decided to lease the new Isolation Hospital by steam. Dr. Sheard asked that an inventory of all the property in the department be taken.

It was decided that the McEvoy Disinfecting Company's bill for extra appliances attached to the new disinfecting machine ordered by the Government for the city should be rendered to the Government, and that the board would take no action in the matter until it was definitely learned upon what authority Dr. Allen ordered the extra appliances.

Inspector Ball wrote saying that after carefully looking into the matter he had failed to ascertain if one of the other inspectors had acted in violation of the code for an excavation company. Ald. Hill stated that he would not withdraw his complaint, but intended to trace it up himself.

The board will join in the petition which is being circulated by the city of Ottawa asking for Government aid to Isolation hospitals.

The tenders for heating, plumbing, gas-fitting and ventilating the Isolation Hospital were opened. No award was made, however, but they were referred to a committee composed of Ald. Carlyle, Maloney, Hill and Bailey, Dr. Sheard and the architect, which will meet this morning at 10.30 o'clock in the Medical Health Office.

City Hall Gossip. The subcommittee appointed by the Board of Works to select a site for the city stables meets on King and Dufferin-streets at 2.30 this afternoon.

CASES AT THE HALL.

Miss Vincent's Suit to be Tried at the June Assizes. The master in chambers was yesterday asked to dismiss the action brought by Annie Vincent against Mrs. Ward, wife of Fishery Inspector Ward of Toronto Island. The plaintiff was employed in Mrs. Ward's house as a domestic and one day fell on the stairs, and for injuries so caused sued for \$5000 damages. The master directed the case to be tried at the June Assizes.

Suit Over a Bomb. In the Court of Appeal yesterday an appeal was argued from the order of Sir Thomas Galt dismissing a motion to quash a bylaw of the village of Lanark on the ground that it was contrary to the act of the legislature prohibiting bonuses. Coldwell owned a mill in the village, which was destroyed by fire, and being unable to put up another the village passed a bylaw giving him \$4000 to fit up an electric light plant, but one of the clauses of the bylaw provided that he should erect a flour mill of a certain description. Judgment was reversed.

The Charon's Affairs to be Investigated. Chief Justice Galt yesterday dissolved an injunction which he granted some time ago, restraining Dean Innes of London from issuing a commission to inquire into the affairs of Christ's Church, Amersburg. It could have arisen as to the appointment of the Rev. Mr. Wye as pastor of the congregation. The wardens obtained the injunction and did not wish the affairs of the congregation made public, as they alleged the dissatisfied members had left the church. The investigation may now proceed.

Wish to Empty Into Ashbridge's Bay. A motion was made to Chief Justice Galt on behalf of the city of Toronto to allow certain householders to connect their drains with Ashbridge's Bay, but the motion was enlarged before Mr. Justice MacMahon. While the injunction restraining the city from draining into Ashbridge's Bay is in force no new drain connection can be made without the consent of the court.

Registrar Ryan to be Examined. The master in chambers yesterday made an order for the examination of Peter Ryan, Peter Small, H. S. Mara and William Mara as transferees of Mike McConnell. These gentlemen will have to satisfy the court that certain transfers of property alleged to have been made to them by McConnell were bona fide.

The City Enters an Appeal. The city will appeal from the order of the master refusing to make the Church of the Redeemer parties defendant in the action of Henry Holden against the city.

Manchester Unity Oddfellows. At the quarterly of Metropolitan Lodge 854 last evening there was a large gathering of members, including the district officers and P. G. Sulley of the Montreal District. The all-absorbing topic was the amalgamation question of the district.

P. G. Beattie, P. G. Hatt, P. G. Edwards, P. G. Chesell and E. Secretary Ashcroft spoke strongly against amalgamation, and they wish to disband altogether rather than see such a consummation.

A resolution was carried unanimously by a standing vote against amalgamation, and that the deputation be instructed accordingly. P. G. Sidney Edwards and P. G. George Hatt were unanimously elected delegates to district meeting on Friday, April 3, in Canada Lodge room, Carlton West.

You cannot be happy while you have corn. Then do not delay in getting a bottle of Hallow's Corn Cure. It is the only cure that does not pain. Failure with it is unknown.

SABBATH DESTRUCTION.

A Cabman Fined for Driving a Fare on Sunday.

A week ago last Sunday John Somers, a driver for Charles Brown, the King-street liveryman, was summoned for driving on Sunday. The complaint was made by Robert Beddoe, who lives in Grange-avenue. It appears that Mr. Beddoe was once a driver himself, but had religious scruples against Sunday work of any kind and so, not feeling at liberty to work himself, determined that no one else should and sought to make a test case of this before the Police Court. When Somers was interfered with by the police he was driving Mrs. Worthington of the Queen's Park. The case came before the Police Magistrate on the following day and the defendant was remanded till yesterday. He appeared before John Factor, J.P., who, after hearing the evidence, thought that it was a case of violation of the statutes on that behalf made and ordered that Somers had been acting illegally and fined him \$2 and costs or ten days in jail.

C. M. Henderson & Co.'s Sales.

Attention is called to the list of auction sales for next week under the management of Messrs. Charles M. Henderson & Co. Parties furnishing would do well to note the list. Mr. Charles M. Henderson will personally conduct all sales.

Are Insurance Companies Responsible For Fires?

A direct charge has been made by a leading New York paper that the recent fire in Boston and others were "attributable to the insurance companies."

There is too much reason to fear that this contention is justified. The instance in question, and in many others, indeed it has been argued that if insurance were unknown there would be fewer fires, on the same principle that it there was no legal process for the recovery of debts there would be fewer losses by bad debts.

As the same conditions exist in Canada as those which are made responsible for the great Boston fire it will be well for insurance companies and the public to consider them and apply the obvious remedy.

Some time ago the New York underwriters agreed upon a standard premium rate, with a schedule of deductions to be made if certain safeguards were provided.

Whatever may be said against "combinations" of ordinary trade concerns, it is only to manifest that combined action on the part of fire insurance underwriters protects them, and protects the public, from such recklessness and carelessness as lead to fires.

As a local illustration of the enormous losses by fire which are wholly preventable by greater care in building, we find in one of the Ontario companies' reports that last year 29 fires arose from defective chimneys, causing losses that reached a total of \$14,000.

The Financial Outlook in the States. However much we may condemn "Commercial Union" as a fiscal system, we have to recognize the fact that, to an extent not familiar to most of our people, there is an actual commercial or financial connection between Canada and the States of the most intimate character.

This condition imposes upon us the necessity of watching closely the financial and trade movements of our neighbors, and of adapting ourselves to them. For our own protection, there is also an intimate connection with the Old Land, so that if the financiers of this country do not look both to London and to Washington, or New York, they would be like farmers who declined to take any note of weather indications, except those immediately over their own fields.

The single fact that our banks have 20 millions engaged in their business in the States is enough to show how intimate are our relations with that country. The further facts that all our foreign exchange is regulated by prices in that country, and that an immense business is done by our banks with Southern cotton growers and merchants, who draw upon England through Canadian agencies, also show how interlaced are the financial affairs of the two countries.

While then the whole commercial and financial conditions of the States are in a state of uncertainty and suspense, awaiting action of the new Government, it would have been extreme folly to have changed our fiscal system in any direction before knowing the changes impending which will affect our affairs.

FISHING LICENSES TO ISSUE.

THEIR WITHDRAWAL BY THE GOVERNMENT TEMPORARY.

The Fishermen Can Take Heart and Mead Their Nets, for the Present Regulations will probably be withdrawn before the time for commencing operations arrives.

The fishermen of this and other districts have been much exercised over a notice which has been served upon them by the various Fishery Inspectors stating that no licenses are to be granted this season.

Several American papers have poked a good deal of good-natured fun at the President's in England, but for four years Mr. Cleveland may set the people at defiance.

The proposal to construct an electric railway on the Island is generally approved by all classes of citizens. Since the project was re-opened by The World on Monday last people have been talking it over, and to-day the consensus of opinion is in favor of the Mayor and aldermen taking the matter in hand.

At the rooms of Messrs. Dickson & Townshend may be seen to-day one of the best collections of oil and water color paintings which have been offered for sale by auction for some time in this city.

In a Disgraceful State. The Toronto Railway Company should at once put Yorkville-avenue, from Yonge-street to the new car sheds, in proper repair.

The last free breakfast for the season will be held at the Richmond Hall to-morrow morning at 9 o'clock, and at 9.45 the Venerable Archbishop Boddy will give the closing address.

The Ontario Veterinary College maintains its distinguished reputation as one of the leading veterinary schools of the continent. Yesterday 145 students graduated.

At the time of the explosion in the Springfield, N.S., coal mine the council of business has created gigantic combinations, which were able to borrow money freely for a time, but now they are coming to grief one after another with severe losses.

RECOGNIZED STANDARD BRANDS

"Mungo" "Kicker" "Cable"

Universally acknowledged to be superior in every respect to any other brands in the market. Always reliable, as has been fully demonstrated by the millions that are sold annually and the increasing demand for them, notwithstanding an increased competition of over One Hundred and Twenty-five Factories.

As a result of the World's inquiries in the Provincial Fisheries Department, it was learned that the measure was merely a temporary one and that not long after the opening of the season, which usually begins on May 15, would have been restored to them.

For some time there has been an amicable dispute between the Dominion Parliament and the Ontario Legislature as to what was the real authority of each body over inland fisheries. To settle all perplexities on the subject the matter will be referred to the Supreme Court to define the extent and limitations of the respective jurisdiction of the federal and provincial fisheries departments over inland waters.
