ADVANCES BY YARDS

Vigorous Counter - Attacks Summarily Eject Germans

early objectives.

True, some gains have been made by the Germans, but they are infinitesimal when compared with those of other attacks. Instead of in miles, they may be reckoned almost in yards. And from some of the positions captured the enemy has been ejected summarily under vicious counter-attacks delivered by the American troops fighting alone as a unit and fighting shoulder to shoulder with their French comrades in arms.

Berlin's Admission. Tacit admission that the enemy hordes have been retarded in their assaults, if not haulted, seemingly is contained in the latest German official communication which, in dealing with the fighting of Tuesday, asserts that the allied troops on the Marne front have delivered "violent counter-attacks," and that to the east of Rheims "the situation is any success by the Germans is that there were "some local successes to the southwest of Rheims."

The successes of the Americans and the French give back to them points of strategic value on the heights dominating the Marne valley. The Americans alone recaptured Fossoy and Cre-zancy, east of Chateau Thierry, and at one point near Fossoy drove back the anemy across the river, and took a French the recapture of St. Agnan, after. Hill 223, and La Chapelle-Monthodon, south of Dormans, was accomplished.

Thruout the region lying to the west of Rheims, especially south of the Marne, the Germans made desperate attempts on various sectors to inat a time—the French meeting their making the enemy pay dearly for every inch of ground he took.

Eastward from Rheims hard fighting is still going on almost to the western fringes of the Argonne forest, but apparently the enemy here also is meeting with ill-success. tacks attempted near Prunay and Suippes came to naught under French fire, while farther east, near Crosnes and Tahure, efforts to break the French lines were repulsed with

heavy losses. Claim Prisoners. The German official communication dealing with the fighting on Monday says the Germans took 13,000 priscrers. The French on their part ars reported to have taken thounds of captives and it is known that the Americans have made prisoner of between 1000 and 1500 Gerlans. In addition terrible losses ave been inflicted on the enemy by the accuracy of their cannon, machine gun and rifle fire.

Ottawa, July 15.—A continuance of the upward tendency in the cost of living is shown in the labor department's report on food prices for the month of June. The average cost of a family budget of staple foods in some 60 cities at the middle of June was \$12.77 as compared with \$12.66 for May, \$11.89 for June, 1917, and \$7.35 for June, 1914. In prices, the advance in meats, coal, wood, coal oil and eggs continued, but there were declines in butter milk and potatoes.

Washington, July 16 -- While military critics both here and abroad regard the Franco-Italian offensive along the coast of Albania as of little moment from a purely military viewpoint, some officials regard it as having possibilities from a political standpoint which ultimately may bear heavily on the military situation.

Reports reaching Washington from official circles indicate that the successes attained by the allied troops already have increased the hospitality of the Jugo-Slavs in southern Austria, who, with the Czecho-Slovaks and Poles, have proved thorns in the side of the dual monarchy thruout the

In the opinion of those officials military drive that could bring the allied armies in Albania into contact with the Jugo-Slavs might lead not only to an open revolt there, but also by the disaffected peoples in other parts of the dual monarchy.

Chatham, July 16.—The general dissatisfaction which has resulted to all users of natural gas in this district, as a result of the manner in which the situation has been handled by the Ontario railway and municipal board, has now seriously affected the hydre power question so far as local users, are concerned. Owing to the fact that the Chatham Gas Company is to cut off the supply of gas which they previously used, to develop electrical current for their two thousand odd customers, this number of customers have been forced to look to the hydro for electricity. The present shortage of power has made it impossible for the public utilities to offer them any relief, and a letter has been written by the utilities commission asking D. M. McIntyre, chairman of the railway board, what solution of the difficulty, resulting from the order, he can suggest. The utilities commission in their letter point out to the board, that the

MEN! YOU WILL SURELY BE INTERESTED

In the July Sale Specials on This Page; for They Mean Exceptional Qualities in Much Wanted Men's Wear at Money Saving Prices.

The past few days has illustrated the old adage once again, namely: "Everything comes to him who waits." The warm summer wave long awaited by crops and holidayers has at last arrived. And just as the little sprouts in answer to the warm invitation of "Old Sol" spring up almost

over night into blossoming plants, so, the felt hat and heavy spring clothing giving place, the "summer man" blossoms forth in his light cool summer "togs." If your summer wardrobe is not complete enough for such a quick change, have a look at these values and it will not for long remain in that condition.

NOW IF IT'S A HAT YOU LACK

How about these Sennit Boaters featured on this the third day of the July Sale of men's hats

For many men there is no hat that will ever quite take the place of the conventional straw boater. Those offered above are made from a good quality sennit straw, and are shown in shapes that are as attractive as to weight as they are for comfort and appearance. In addition to these features is the fact that the special reduction made for quick clearance today is offered at an opportune time—for the hottest part of the present season is yet to come, and those who purchase these good quality hats now will gain the benefit of their light weight in the hot weather, and also will have made a substantial saving. Sizes 6 5-8 to 7 1-2. Today, sale price, each, 75c.

Men's Chip Straw Hats, Each, 79c.

These hats are made in fedora and neglige shapes, with flaring brims. As they are very light in weight and durable, and have a brim just the right width to ensure protection from the sun, they would be ideal for farm use or outing wear, or would make a good work hat. Sizes 65% to 73%. Today, sale price, each, Children's Straw Hats, Each, 79c.

Here is an opportunity for early shoppers today to secure a hat for the children, made of Canton straw; these hats are in rah! rah! or sailor shape, with curling brim, and are trimmed with plain blue ribbon with bow at side. Some have name bands. Sizes 6 to 67/8. Today, sale price, each, 79c.

Grass Cattle Moving.

Cattle marketing, generally speaking, has been comparatively quiet during the week, altho Brant reports considerable cattle going on the local market at from 11 cents to 14 cents a pound. In Ontario County, grass cattle are beginning to move, with prices slightly easier, owing to the tendency of some to dispose of their animals before they are properly dinished.

The flow of milk having reached its flood ds slowly falling off with the decline in the condition of pastures. A number of creamery managers declare that so far this year they have beaten their own records for business.

Hogs range in price from \$17\$ to \$13\$, but too many are being marketed under weight. About sixty animals are being raised in the Town of Clinton. Small plgs are in good demand, fetching from \$7\$ to \$10 each, according to the owner. A meets have been lighter than was extended to the support of the year.

Feed Your Nerves

What tired nerves need is nourishment. Your blood has failed to supply this.

To get the system right again you must supply nutrition in condensed and easily assimilated form, as it is found in Dr. Chase's Nerve Food.

The blood is quickly enriched, the vigor of the nerves is restored, digestion is improved, and soon you feel through the whole body the energy and vigor of health.

DOROTHY DIX'S TALKS

GIVE THE CHILDREN A CHANCE

BY DOROTHY DIX The World's Highest Paid Woman Writer.

When they start out looking for work they find that nobody wants their unskilled services. Every employer's first question is: "Are you a good mechanic?" "Can you keep books?" "Are you a stenographer?" "Are you a salesman?" "Can you cook?" "Can you drive a car?" And when they answer "No," they are turned away, and the door of opportunity is shut in their faces.

They are like a merchant with empty shelves who is trying to sell goods that he does not possess. Nobody will be a worked ten years of time in climbing from the office boy's bench to the bookkeeper's stool that any good commercial school could have bridged for him in a six months' course.

shut.

But the real fault is with the parents. They are to blame. The children have a right to reproach them for crowding them out of the home nest without ever taking the trouble to teach them how to fly.

There are many fathers and mothers of Spartan mold who believe that the best way to teach a child independence and to harden its character is to chuck it out into the world and make it depend upon itself for its own salvation. Sometimes this plan works out admirably. Oftener it ends in disaster. But in any case it would seem the part of the sheerest humanity to throw some sort of a life raft out along with the poor little swimmer to which it could cling.

This consists in giving the boy or girl some sort of a trade, in teaching him or her some definite useful occupation by which he or she can make a living. To do that is to give the young one a fighting change in life.

DEPUTY FOR LYONS

Lyons, France, and formerly undersecretary for war, who was visiting Canada as a representative of the French Government, wrote the chairman of the central council of the Canadian Red Cross, from Noel Marletter expressing the gratitude of the republic for the assistance received

In hundreds of thousands of homes in this country there are boys and girls who have just graduated from high school, and who must now take upon their young shoulders the burden of earning their own livelihood.

They face the world with quaking hearts and bewildered eyes. They do not know which way to turn, and their parents are either too ignorant, or too careless and indifferent to point out the path they should take. They must find a job, but they have been taught no trade or profession, they have been fitted to do no particular line of labor.

When they start out looking for work they find that nobody heiped him; that nobody gave him any training; that he went out and found his first job himself and began by sweeping out the office, and now look at him. He is floor manager. Fine! Congratulations to father! But he doesn't reflect that times have changed, that business men are too busy now-a-days to train their cub office boys, and that there work work. These are the days of professional not amateur business. Which makes father's case no guide for John.

faces.

They are like a merchant with empty shelves who is trying to sell goods that he does not possess. Nobody will buy, and so the boy or girl sinks into doing the most menial, ill-paid and discouraging labor, or else joins the ranks of the loafers and idlers and I-can't-get-a-jobbers.

In all such cases the parents blame the children. Mother sighs and says that she is afraid that Johnnie and Mary are not going to amount to much, they don't seem able to find anything to do. Father looks black and grumbles that he isn't going to feed any lazy, trifling, good-for-nothings who go out looking for jobs with their eyes shut.

But the real fault is with the parents.

him or her some definite useful occupation by which he or she can make a living. To do that is to give the young one a fighting chance in life To fail to do it is to send it weapon less out to fight the hard battle of life. The parents who have their children taught the knowledge and skill with which to do some work for which the world is willing to pay have safeguarded their sons and daughters frortwant and misfortune as far as human protection can go. They have done their duty by their children.

But the parents who teach their children no special trade, who cultivate no especial skill for any art or craftin them, but who let them blunder along from one bunglingly performed job to another have utterly failed in living.

We then hoped Canada would lead, as we still hope she will follow, the United States, in hanking and currency reform. Sir Thomas White agreed with The World in August, 1914, when he provided for the rediscounting of merchantable paper for the chartered banks thru an issue of national currency. We had hoped that long before this he would have established a state bank of issue and rediscount and have done something toward the promotion of unit banks and agricultural credits.

The government should move in this matter. It would, in our opinion, largely solve the exchange situation, and make the national curcurrency of the United States, current everywhere on the continent. Paris, July 16.—The Germans apparently have from 60 to 70 divisions in position for the present offensive, of which some 40 have already been engaged. (This would mean a potenforce of approximately 950,000, with 540,000 engaged.) The allied resistance to the Germans in the present offensive has been so great, and the German losses consequently so heavy that enemy divisions which the Ger-man staff had not intended to utilize until tomorrow had to be thrown into the line by noon yesterday.

Mr. Snary is band secretary and Trumpet-Major H. Chessell is bandmaster. The other boys got consolation prizes.

EXPERT GIVES TALK TO POULTRY KEEPERS

C. E. Klough, of the Pratt Food Company, was the speaker at the regular monthly meeting of the Oakwood Poultry Association, held in Oakwood Hall. His subject was on the lines of sanitation, proper feeding, water, air and clean utensils for use in poultry culture. The best kind of poultry house was also touched upon and the various kinds of liquid sprays that should be made.

The speaker gave the members many pointers as to rajsing poultry for pleasure and profit. The best method in killing and dressing was also fully described by two members of the association, experts in this department. T. B. Grimshaw is president, T. F. Norman secretary and W. Rider treasurer of the Oakwood Association.

Controller McBride, Aldermen Brook Sykes and George Birdsall, of Ward 6, and others have been invited to the meet-ing in the city hall Wednesday evening to discuss the express rates question, which is being so vigorously taken up, not only in Earlscourt, but all over To-

ronto.

Mr. Sanderson, of Little York, together with delegations from all the ratepayers' associations of the city, will be present. The one room already spoken for the meeting is not expected to be large enough to hold the crowd to voice the interests of the people who are so vitally concerned in this proposed raise on the part of the three Toronto express companies.

As a result of the efforts of the East Toronto branch of the Women's Institute nearly \$480 was raised Monday in aid of the Secours National. Other amounts are promised which may swell the contributions from the East Toronto branch to the largest in the city. The women have practically suspended all forms of patrictle work during the summer holidays, with the exception of Red Cross work, which will be maintained.

MIMICO BUSINESS MEN DISCUSS AMALGAMATION

The amalgamation of Mimico and New Toronto is again to be debated at a meeting called by the Mimico Board of Trade, to be held in the assembly hall of the public library tomorrow evening. This question was raised by Mimico two years ago, and was rejected by the New Toronto Council, which did not see that there would be any advantage for the town in the arrangement. "If we decide to extend our boundaries, we shall go west," said the town clerk. He also declared that the council had had no notification of the proposed meeting until yesterday.

C. H. Carlisle, general manager of the Goodyear Tire Co., will present the arguments in favor of the amalgamation.

It flashed across my mind that perhaps Mrs. Sexton had been right when she told me, a long time before, that our own attitude toward people tinged theirs toward us, to a great extent that people usually responded in kind. Be that as it may, I certainly found myself enjoying her call. We chatted of the people we knew, and what had been soing on socially while George and I were away. She asked if we had seen Julia Collins, and when I told her "yes, frequently" (altho I omitted to mention anything

unpleasant), she said:
"I hear she is to marry a Mr. Lombard, a very wealthy Chicago Board of Trade man. Of course, she hasn't announced her engagement yet, and one never can be sure of Julia doing anything until after it is done." I was tempted to tell her of the man we had seen Mrs. Collins with, that night in the restaurant, but did not. Afterward, I was so glad I had restrained myself. If Julia married. Situation.

Ottawa, July 16.—The season of anxiety with regard to the food supply of the United Kingdom and the allied nations is not yet over. A conference of the food controllers of Great Britain, France and Italy with Herbert Hoover, United States food administrator, will be held on July 22 in London, when the situation will be fully discussed. Unfavorable weather has been causing concern about the British home-grown crops, and early estimates will have to be modified. early estimates will have to be modified. The labor shortage overseas is also acute. Some of the difficulties and problems are indicated in the following cable received tonight by the Canada Food Board from John R. Clynes, the new British food controller: "British agriculturists are seriously concerned about drought which has checked the growth of wheat here for six weeks, particularly on light soils. Barley and oats have also suffered, and even potatoes have been retarded by cold weather and lack of rain. Luckily the spell of unfavorable weather has now broken and rain is plentiful, but nevertheless it looks as if the early optims m about possibilities of the wheat crop in the United Kingdom will have to be modified, owing to the difficulties of newly-broken ground and lack of labor. It is true that women and children are

be modified, owing to the difficulties of newly-broken ground and lack of labor. It is true that women and children are being rapidly recruited for the forthcoming harvest, but even with the help of urban holiday workers and German prisoners farmers here are skeptical whether they will be able to get in that which they have raised.

Owing to early frosts and insect attacks on fruit the food controller is now also battling with an utterly unforseen shortage of jam for our armies and civilian population.

"There is still a shortage of cheese, and lard has just been formally rationed. "Hogs, too, have not been raised as rapidly on this side of the Atlantic as was hoped, owing to the abnormally high prices demanded for breeding sows and weanling pigs. Such is the situation despite the great outburst of municipal enterprise in connection with hog raising. "Generally the food situation in the United Kingdom is improved, but the season of anxiety is not yet over. The food controllers of all the allied countries will meet Mr. Hoover in conference on July 22." meet Mr. Hoover in conference on July

Attack. Ottawa, July 16.—The following is a review of operations on the Italian front cabled by the imperial ministry of information and issued here by the

director of public information. On the Italian front most suc-cessful operations were carried out cessful operations were carried out both on the northern front and on the lower Plave. After four days steady fighting the 23rd Italian Corps cleared the whole of the delta between the old and new branches of the river where Austrian troops had been established since November last. The Austrians offered strong resistance which only increased their losses and the Italian line is now shortened and strengthened and the Austrians have re-held twenty miles behind Venice which is practically safe from artillery fire.
Up in the mountains local successes gave the Italians several points which will be of the greatest use supposing the Austrians renew the offen-sive. It seems likely they will do so sive. It seems likely they will do so from the appointment of the German general, Von Below, to command the Austrian army on the Italian frontier, which sets the seal of Austria's slavery. It is impossible to prophesy his intentions, but it is thought his plans probably involve a heavy offensive. This is hardly possible either soon or even without considerable German aid.

SOCCER NOTES

The final tie for the Kenyon Cup between Old Country and Royal Canadian Dragoons at Varsity Stadium this evening, promises to be one of the best finals seen in a long time. A week or two age in a league game on the same ground, Old Country gained the verdict by the only goal scored and the "Drags" are not at all satisfied with the result of that game.

Old Country is the only undefeated team in the T. & D. League and the Dragoons are more than anxious to be the first to lower their colors, so a battle royal is expected. The whole squadron is turning out for the game, accompanied by the camp band, and the teams

LOSE ONE AND TIE THE OTHER STILL HOLD SECOND PLACE

Hagen Too Much for Leafs in First Game---Three Runs in Ninth Gave Leafs a Draw in Second Fixture.

The Leafs wound up their short home stay by staging two more games with the Hustlers yesterday. It was a different story from that recorded on Monday, and Dan's boys had to unfurl a fusillade of hits in the ninth inning of the second game to keep from going down under water for the second time during the afternoon.

Mr. Hagen, he of the length and the speedy curve, had the sign hung up in the first game. His benders baffled our boys, and Irwin applied the whitewash 2 to 0.

Hagen worked two innings of the second round also, and then gave way to Brogan. The Leafs were unable to do any damage until the ninth, and then they rushed over three runs to tie the score. The game was called to allow the teams to catch a train.

Both games were hotly contested, and the largest week-day crowd of the season had something to watch every minute during the double The players had several squabbles with his lordship the umps. Red Fisher was hit on the throat with one of Lewis' fast ones in the

side of the score, and just a little luck, gave Rochester the first game, 2 to 0. Hagen let the Howleyites down with four hits, and for five innings not the sign of a safety was registered off his delivery. Peterson opened poorly, steadied away, and was going better than Hagen at the finish. Peterson's start was a harvest of hits for the Hustlers, and they rushed over two runs so quick that it left the

I fans gasping. These were the only scores of the game, and a furious battle was waged for the next eight innings.

The Leafs did not have any success with the club until near the finish, but got together in the eighth, and a lucky double play cut down their chances of scoring. Umpire Lewis was again the target for much ragging, with the Hustlers doing the major part. He was into musses throut the whole game.

Brady was the first Rochester player to step up and he rapped a sharp hit into left. He galloped home on Kolseth's double, and Estes moved Kolseth to third with a sacrifice. Reeves cut a hit into centre for the other run. Dan chased a pitcher out to warm up just as Hagen cracked out a hit. Menze hit into a double play. Peterson steadied down after this and was working nicely right up to the time he gave way to a pinchhitter. It was an unfortunate start.

The first five innings were black for the Leafs. Not a hit was secured off Hagen. With one down in the sixth Reilley grabbed the first safety, but nobody could bring him home.

Lear opened the seventh with a single, but Purtell filed to left with the count two and nothing on him. Onslow rolled to third and Lear was called out at second on the throw. He howled loud and long and Lewis ordered him out of the game, but allowed him to stay when Howley pointed that he had nobody to fill the position. A fine was tacked on instead.

The eighth was our only real chance. Howley grabbed a hit to deep short and Fisher, batting for Peterson, singled neatly. Reilley forced Howley at third, and then Wagner hit one hard toward left. Kost grabbed it with one hand and pegged to second for the double play. It was a nice bit of luck to help out Hagen. The ninth had no excitement.

second on the throw-in and was allowed third by the umpire. The Rochester players howled long and loud about the run being allowed to score, and Whitehouse taking third, but Umpire Lewis was right in his decision. It is a standing rule. Lear drove a hit to right for the third run, and moved up to second on the throw-in. Purtell sacrificed him to third, but Onslow rolled out, and Callahan fanned. The game was then called.

was called.

Hagen elected himself for duty again in the second, but retired after working two innings. Brogan finished and had the Leafs well tamed until he hit the ninth. He was glad to see the third out in this round.

The visitors retired as they batted in the first three innings before Lewis sharp-breaking curve. He mixed them up well and handled himself like a high-class twirler.

The Leafs started well, but failed to score. Reilley dropped a hit in left and was out at third trying to make that corner on Wagner's good rap to left. The next two died easily.

Purtell started off the second with a double down the left field foul line, was sacrificed to third by Onslow, but died there when Callahan and Howley rolled out. Fisher was hit on the throat with a fast ball in the second and retired. Howley again donning the mask.

Brogan went to the mound for Rochester in the third. Rochester earned a run in the fourth. Brady opened with a hit. Kolseth flied out and Estes singled to centre. Brady was cut off at the plate on his unt to Lewis. Brogan douled for the tallq.

An error made it possible for Rochester to get their second counter in the 7th With one down Brogan bounced a hit off Lewis, and Menze got a life when Purtell booted his roller. O'Neill grounded out, and then Kost stepped in with a hit for the run. Lear's error let their third run score in the ninth.

The Leaflets did not let loose until the ninth. Reilley started the doings with a single, and Wagner tore off a hit to centre. Whitehouse's rap counted Reilley, and Wagner scored when Menze's throw to third to head him off went into the players' dugout. Whitehouse made second on the throw-in and was allowed third by the umpire. The Rochester players howled long and loud about the run being allowed to coore. And Whites

EXECUTORS' NOTICE TO CREDITORS.

NOTICE is hereby given that, pursuant tors and others having claims against the estate of Elizabeth Newborn, late of the City of Toronto, in the County of London, July 16.—The first steel vessel built without rivets, so far as known, has just been launched on the south coast of England. The production of this vessel, it is considered, may mark an epoch in shipbuilding. The plates being fused together by electric welding in one process, it is held, would speed up production, with an estimated saving of from 20 to 25 per cent. in both time and material.

The United States shipping board, it is understood, has been in close touch with the experiment, with the plates that arrangements are said to be in the clity of Toronto, in the County of York, deceased, who died on or about the fourteenth day of April, 1917, are required on or before the tenth day of August, 1916, to deliver to the undersigned, P. TORONTO MARKET

Number of Small Gains Are 2 Made — Russell Motor Shows Scarcity.

Minor gains were fairly numerous in yesterday's trading on the Toronto Exchange, the better tone in Wall street, inspired by the cheering tenor of the war news, being not without influence locally altho buying continued on a small scale only, and broken lots figured fargely in the dealings.

The Canada Steamships issues were again strong, a hundred share lot of the common stock selling % higher at 41, and the preferred being quoted ¼ higher at 75½ C.P.R. was more active than is its wont, the price ranging from 147% for a broken lot to 149% with the closing at 149% or % below the level of the previous sale some days ago. C.P.R. sold at 141¼ in New York. Twenty-five shares of Rusself Motor common sold at 70, equal to 77 on a cum-dividend basis, or an actual gain of two points, with 70½ bid for more and no stock offered. The "street" is evidentity of the belief that the Russell Motor directors will not await another year before announcing a dividend disbursement. Canada Bread was firm at 19, and small, fractional gains were made by Canada Permanect at 163½ and Brazilian at 34%. Consumers' Gas was unchanged at 145, and Cement was off ¼ at 60%. Wininjeeg Railway again sold at the minimum of 48.

While the first war loan eased ¼ to 95%, the second was ½ higher at 95½ and the third % better at 93%. The day's transactions: Shares, 462: war loans, \$6,000.

CROPS ARE HELPED

Corn and Oats Sell Off Sharply in the Chicago Market.

Soaking rains and big receipts did touch today to weaken the corn market. Altho at one time prices touched new high levels for the season, the close was heavy at 2 1-8c to 2 3-3c net decline, with August \$1.60 7-8 to \$1.61 1-4 and September \$1.60 7-8 to \$1.61 1-3. Oats lost 1-2c to 1 1-8c, in provisions the outcome varied from 50c down to 10c advance.

Advices that the moisture supply had been so heavy and widespread as to be likely to head off any dry weather talk for a considerable while led to a general selling with the pressure most unergetic around the opening and during the last half of the day. The fact that arrivals here were decidedly in excess of expectations and amounted to nearly 500 carloads acted also as a notable bearish factor. A transient at up in selling orders was taken advantage of by the pit traders, but the lulge which ensued was more than wiped out by greatly increased selling that lasted until the clore.

Oats were governed mainly by the action of corn. Only a limited amount of hedging was done.

Increases in the stock of ribs whereas a reduction had been looked for weakened provisions. Advances in the log market were ignored.

MONTREAL PRODUCE

Montreal, July 15.—The demand from outside buyers was somewhat limited, owing to the fact that they have filled their wants for the time being, and the volume of business was small.

The feature of the flour trade continues to be the good demand for substitutes for local and country account, but owing to the fact that supplies on fident. Bonds, including firench funds, were firmly maintained and Russian issues were slightly more active and harder. Shipping shares curtailed to some extent.

The condition of the market for milifed was unchanged, prices for all lines being maintained with a good steady demand for all supplies available.

There was no important change in the market for small quiet as the demand from local buyers is only for small lots to meet immediate to pending further developments, the tone today was quite confident. Bonds, including firench funds, were firmly maintained and Russian issues were slightly more active and harder. Shipping shares continued prominent, but. Cunards were easy. Marconi stock was strong on the declaration of a 20 per cent. dividend, the rate hald before the war.

Money was in good supply and discount rates were quiet.
