GERMANS WILL NOT GO AHEAD TO PETROGRAD

Aim of Blow Was Riga, Perhaps Reval, But No Farther.
HOW CITY WAS TAKEN
Russian Troops Were Contaminated by Propaganda of Pacifists.

Berlin, via London, Sept. 4.—The supplementary statement from general headquarters tonight says:

London, Sept. 4.—Reuter's Petrograd correspondent says the German attack on Riga had been anticipated for a considerable time, and that the evacuation of the principal establishments already had been proceeded with and the town, owing to the slight resistance expected from the troops on the northern front, was elsewhere.

The offensive began September 1. The artillery preparations commenced at five o'clock in the morning with sniping shells and gas waves. The bombardment lasted six hours, being particularly intense in the region of Uxkull. At eleven o'clock in the morning under cover of his artillery fire, the enemy threw his first pontoon across the Dvina. Two of his bridges were destroyed by Russian batteries.

The news of the evacuation of Riga produced a great impression in Petrograd and there was a considerable fall in prices on the bourse.

Colonel Shumsky, military critic of the Petrograd Bourse Gazette, who is on a visit to England, writes concerning the evacuation of Riga, says the German offensive there cannot be carried to a point at which it will seriously threaten Petrograd.

At five o'clock in the evening Riga was subjected to the fire of the main heavy artillery, which caused serious damage to the town and numerous casualties among the remaining population.

Colonel Shumsky says there are not sufficient German forces on the eastern front for a great expedition of the kind required to reach Petrograd and he doubts the idea of the Germans landing a big army for an attack.

CANADIAN PENSIONS WILL BE INCREASED

Order-in-Council Soon to Be Issued at Ottawa Will Provide for Sixty Per Cent. Additional Payments to Veterans.

A 60 per cent. increase in the pensions to be paid members of the Canadian expeditionary force is to be granted by an order-in-council, to be passed in Ottawa within the next few weeks.

BRITISH GUNS COMPEL CLEARING OF FLANDERS

Germans Evacuate Western Section as Far as Courtrai-Thourout Line—Roulers Continues Under Bombardment.

Paris, Sept. 4.—A despatch to the Havas Agency from Hazebrouck says: "Western Flanders is being evacuated as far as the line of Courtrai-Thourout (this line running to the east respectively of Ypres and Dixmude). It was learned today that many refugees are being cared for at Ghent, large numbers of them arriving from Roulers (eastward of Ypres), where the British are bombarding ceaselessly.

RUSSIANS TO STOP GERMAN ADVANCE

But Position of New Defensive Line Cannot Yet Be Stated.

PETROGRAD COMMENT
Newspapers Agree Capital is in No Immediate Danger.

Petrograd, Sept. 4.—The Petrograd morning papers agree on the gravity of the situation created by the fall of Riga, the only bright feature in which is a report from the commissary of the northern army to the council of deputies which declares that the army fought valiantly, although overwhelmed by the enemy's heavy artillery and gases, and, although compelled to retreat, preserves its fighting spirit.

Most of the newspapers are of the opinion that the fall of Riga in itself does not threaten Petrograd. For such an operation, says The Rech, Von Hindenburg has on the north only seven divisions. The Rech criticises the council of deputies for opposing the restoration of capital punishment at the rear.

The Russian Voila expresses fear that the next German operations will be against Minsk. Riga's fall, declares the paper, is the last warning. The Russian Voila expresses fear that the revolution, as the monarchists would exploit this misfortune for the purposes of agitation.

CANADIANS CARRY MORE LENS POSTS

Advanced Line Moves Forward Another Eighth of Mile.

BETTER OBSERVATION
Germans Abandon First-Line Trenches for Shell Holes.

By Stewart Lyon.
Canadian Headquarters, Sept. 4.—North of Lens, a most successful minor operation was carried out early this morning, which resulted in the penetration of the enemy's line and communication trenches on a front of about 800 yards, the establishing of a new outpost line well in advance of those formerly occupied, and the killing and wounding of many of the enemy. A number of prisoners were taken belonging to the second Prussian Guard Reserve Regiment. The result of the operation, which was carried out by men of Manitoba and Alberta battalions, with little loss, is that in the region due north of Lens our outpost line has been advanced some 250 yards nearer the city than before, and is in a more favorable position for observation.

CANADIANS PRESS ON OUTER EDGE OF LENS

Two Raiding Parties Drive in German Outposts Two Hundred and Fifty Yards in Attack in Bright Moonlight.

London, Sept. 4.—The Reuter correspondent at British headquarters in France sends the following: "About midnight the Canadians again hit upon the outer shell of Lens. In brilliant moonlight a raiding party went over from our front opposite Cite Sainte Elizabeth. While the enemy was busy dealing with this incursion, another party moved out further to the south and, along a front of about 600 yards, succeeded in establishing their posts 250 yards forward of their front line. A few prisoners of the Second Prussian Guard Reserve Regiment were brought back.

UNITED STATES URGED TO WAR ON AUSTRIA

Patriotic Education League Wants Vast Supply of Munitions Sent to Italy to Enable Her to Complete Victory.

Washington, Sept. 4.—A statement issued by the Patriotic Education Society urges that the United States should declare war immediately upon Germany's allies, asserting that the German secret service is relying largely upon Austrians and Bulgarians for information from this country and asking "if this is a war of democracy against autocracy, how can we maintain friendly relations with the most despotic of the great empires—Austria-Hungary?"

DINEEN'S DURING EXHIBITION.

Mr. William Dineen, President of the Messrs. W. & D. Dineen, furriers of Toronto, upon being asked why the firm did not have a display at the Canadian National Exhibition this year, replied that with their factories running at full strength the large number of wholesale orders being daily received, combined with their largely increased retail trade, it would have taxed their staff too heavily to have made an adequate display but Mr. Dineen remarked their company had made provision for the reception of their out-of-town customers at their store and showrooms at the corner of Yonge and Temperance streets, where a larger and more complete line of ladies' and men's furs could be seen than would be found in a fair exhibit. The President of this well-known fur and hat house, said they would be pleased to have their patrons call when in the city so that they might better appreciate the immense stock they have to choose from.

## Serge and Satin Dresses From Noted Paris Makers

Early Autumn Models, Chic as French Gowns Can Be, When Such Names as Paquin, Premet, Bernard, Lanvin and Drecol Are Inscribed On Their Waistbands

ANYONE WHO APPRECIATES French genius in gown-making would go into raptures over this little collection of Paris models just arrived in the Rose and Grey Rooms. They are full of chic from the collars of their flat, simple bodices to the hems of their straight and narrow skirts. Included are frocks for morning, afternoon and evening wear. Thus:

From Premet comes a clever model in navy serge, fashioned in Russian tunic style, the loose coat-like bodice embroidered in yellow beads and silk. Price, \$65.00.

Also in navy serge is a delightful model by Bernard, the skirt laid in pleats and the bodice embroidered in fine blue and red wool. Price, \$75.00.

Callot is the creator of an immensely smart one-piece model, in mignonette color gabardine, embroidered with tan and self-tone silks. Price, \$65.00.

Jeanne Lanvin, true to her reputation, has a very lovely and artistic creation—a simple, clinging, smock-like gown, in navy blue crepe de Chine, embroidered in ruby beads. Price, \$100.00.

Another Lanvin model is a dinner dress, in black charmeuse, founced with black tulle, and cleverly embellished with jet. The neck, which is cut square in front, is high in the back. The lace sleeves reach the elbow. Price, \$95.00.

Drecol, too, is represented by a gown in black charmeuse, a wonderfully smart production for afternoon wear, made in graceful red-gorget effect, with narrow underskirt. Price, \$100.00. —Third Floor, James St.

## Settling the First Question--the Corset

'Tis the Very Form and Foundation of the Smart Costume—the Tangible Assurance That Your Gown or Your Suit Will Appear at Its Best—That You, Yourself, Will Present a Trim, Trig Appearance. And Behold for Your Choosing This Wide Array of Models From Some of the Best-known Makers on This Continent—Corsets to Suit Every Type and Variety of Figure, Slender, Well-developed or Large:

BINNER NEMO GOSSARD

L'ADRIA SUCCESO LORETTA

SMART SET MODART AMERICAN LADY

LA CAMILLE FRANCO R. & G.

JURNA ACME P. N.

BRASSIERES—MODEL NATURE'S RIVAL AND KABO.

A. Nine out of ten women consider the brassiere a necessary supplement to the corset, and here is a prime favorite with stout and slim wearers alike. As shown in the drawing, it is of crepe de Chine—white or flesh pink—priced at \$2.00, and may be worn with or without a corset cover. It may be had also in pink and in white cotton picot at \$1.00 to \$1.50.

B. As much like a French corset as it well can be, while yet adapting itself to the needs of the American or Canadian figure, the "Jurna" assures you of a straight, modish hip-line and a nice "naturalness" of fit. For it is softly bound throughout with "whalon." It offers models for stout, medium and slight figures, also a special model for riding. Prices of the "Jurna" run from \$2.50 to \$5.00.

C. An attractive-looking corset, isn't it? And its looks are a true measure of its worth. It is the "Binner," famous from one end of America to the other—and far beyond—for its beautifully moulded hip-line and nicely curved back. Designed by Madame Binner, the well-known corset-maker of Fifth Avenue, it is cut along the lines of the French corset, while yet possessing the hygienic qualities demanded by comfort and health. The "Binner" is available in models to suit slender, medium and stout figures, the prices ranging from \$6.00 to \$10.00. Number 185—for average figures—which our artist has sketched, is in white brocade—price, \$10.00.

D. "American Lady" is the title borne by this very shapely pair of modern stays. It is a make noted for the style of its cut—its long, smooth hip-line and nicely curved back— together with its moderate price. It may be had in white or flesh pink, designed in a range of sizes for average figures, the prices ranging from \$2.00 to \$3.00. The model shown, Number 350, being \$3.00.

E. An answer to the ever-increasing demand for the corset that laces in front—the well-known Gossard. Foremost among its many advantages is that of variety—a variety of models that meets the needs of every type of figure. Short, tall and medium height—women of stout, slim and average proportions—there is a design for each. Prices range from \$2.50 to \$5.00. The model shown being \$2.50.

F. This pretty girl is wearing an "Acme"—the corset made in our own factories. Modeled along the lines of the higher-priced, imported corset, it shows the long, smooth-fitting skirt with elastic inset at the back. It may be had in sizes to fit all figures of usual proportions—priced from 35 cents to \$1.75; the "Acme" in the sketch above being Number 258, at \$1.25.

G. "The stout figure made comely and comfortable" would serve as a good title for this sketch labelled "G." And the "Nemo" is the means to the happy end. The model illustrated is Number 511, designed especially for one who is heavily developed below the waist-line. The skirt is equipped with bands of semi-elastic webbing and goes of semi-elastic cloth, producing extreme reduction of back, hips and lower limbs, while yet providing for the comfort of the wearer when seated. The price is \$6.50. Equally clever in construction are the Self-Reducing models for women who require a corset that will control excess flesh and re-mould the figure into shapely lines—prices \$4.50 to \$6.50; Back-resting models for those who suffer from backache—\$4.50 to \$12.00; Wonderlift models, for figures needing special abdominal support—\$6.50 to \$12.00; and slight-figure models—\$4.00 to \$5.50.

H. Patrons of the front-laced corset are innumerable. They like the straight back it ensures, and the ease with which the laces may be drawn in or let out in adjusting it to the figure. And in this "Modart," shown in the sketch, you have one of the most popular among corsets of this order. It is featured in sizes for all figures of average proportions, its prices ranging from \$3.50 to \$10.00. The model shown is Number 690, developed in pink and white brocade—price, \$7.50.

I. For a modish, easy-fitting corset of charming make-up, our corsetiers are very enthusiastic over the "Smart Set." Supple and lightly backed, it is fashioned of batiste, fine coutil and dainty brocades, the "fitting" being of feasible "Whalon." Many of the models have girde tops. Models for medium figures range in price from \$6.50 to \$12.00; for full figures, \$8.00 to \$12.00; and for slight, \$5.50 to \$12.00. The model illustrated—number 177—for medium figures—is of satin-finished coutil, the top edged with pointed d'epret—price, \$8.00.

K. Contrived of pale pink brocade, this "P.N." No. 1582, at \$8.50, is another notable example of a smart-looking, well-fitting corset at a small price. It is procurable also in models for slighter and for fuller figures, the prices from \$12.50 to \$6.00. The selection of materials includes white coutil and white brocade.

L. "It fits as you fasten" is the motto of this "Nemo" brassiere shown above. It is not meant to be decorative, but rather to achieve its chief end, namely, to control the superfluous flesh of back and bust and bring it into proportion to the rest of the body. Price, \$1.25.

### FALL WHEAT AREA BELOW AVERAGE

#### Late Harvest and Hard Soil Owing to August Drouth is Cause.

Following is a summary of weekly reports made by district representatives to the Ontario Department of Agriculture:

Plains have delayed harvesting, and considerable areas remain to be cut, or are in the shock. However, there has been practically no sprouting reported this season, and all the grains are as a rule well up to or above the weight of the measured bushel, as reported by threshing. A little hay is ready to be cut, and the grain is now growing rapidly, but it is still a week or two behind its usual development at this date.

The area of new fall wheat so far is not up to the average, owing to the late harvest, the hard surface of the soil in August owing to the drouth, and the lack of experienced plowmen. The government tractors are actively endeavoring to overtake this shortage.

Potatoes are promising a good yield, recent weather having been most favorable for them. Turnips, sugar beets and other roots are looking fine where well hoed and weeded. Nearly all vegetables have done well this season. Melons in Essex are now in full season, but the crop will be rather light.

#### Live Stock.

Prices for cattle and hogs are lower than owners care to take after the stiff figures prevailing recently. There is plenty of grain and other odds now on hand, and there is a likelihood of any animals being sacrificed this fall or winter.

Pastures have again picked up, and here is a good milk flow for the time of year.

The demand for farm labor, except for good plowmen, has not been so numerous during the past week, although a number of experienced ditchers, both hand and machine men, could find employment at good wages. The farmer's family has been a great factor in harvesting this season. The Wentworth representative reports seeing a farmer's wife, two daughters and an eight-year-old son drawing in oats. Some outdoor threshing has been necessitated on account of so much hay being in the barns. The demand for tractors continues strong.

#### MISS PANKHURST JAILED.

London, Sept. 4.—Adele Pankhurst, daughter of Mrs. Emmeline Pankhurst, the English suffrage leader, was sentenced today at Melbourne, Australia, to nine months' imprisonment for holding an unlawful demonstration. Miss Pankhurst has been engaged in propaganda in Australia against conscription.

The chief coroner decided that an inquest was not necessary, and the body was shipped to Charlton for burial.

### TRUSTEE WOULD BONUS TEACHERS

#### D. A. Carey Urges Separate School Board to Encourage Efficiency.

At the meeting of the separate school board last night Trustee Carey advocated that teachers in the separate schools of the city be paid a bonus as a mark of the board's appreciation of their efficient work. Not only had they labored faithfully in the past, he said, but their work would be largely augmented this fall because of the many new pupils in the separate schools.

In opposition to his suggestion it was pointed out that the finances of the board's disposal were limited and would not more than meet the current expenses. Among the additional financial burdens that the board would have to bear this year was the payment of the salary of \$180 a month of the recently appointed business agent; a coal bill \$700 greater than a year ago, and the additional sum of \$5000 for medical inspection.

Chairman Rev. Dean Hand suggested that the matter be left to the finance committee for discussion. The board, he stated, was not in a position to pay larger salaries because of its inability to collect its proportionate share of the city's taxes. If the government were approached and the board granted its rights then better salaries would be paid. Then a lengthy deliberation it was decided to leave the matter to the finance committee for settlement.

Following the opening of the meeting W. A. Menton took objection to the minutes, in which the appointment of the business agent was recorded. He contended that the business agent had been appointed without proper notice being given to the board. He was supported in his argument by Trustee Carey and Dean Hand. The board, however, decided to adopt the minutes as correct.

Every singer whose re-created songs are listed in the Edison Catalog can successfully make this comparison. Over thirty different singers, including Anna Case, Marie Rappold and Christine Miller, have appeared in public tests with the New Edison.

When artists of this caliber consent to identify themselves with the exploitation of

a musical instrument in this intimate and crucial way it means The Birth of a New Art, a New Chapter in Musical History.

There is but one literal Re-Creation of Music—Edison's.

Come and hear the performances of great musicians literally re-created. No obligation to buy.

#### SCORE OF NEW ROOMS OPENED IN SCHOOLS

Will Provide Accommodation for Increase in Attendance of About Thousand.

Every school principal's office was a busy hive about nine o'clock yesterday morning. It was the beginning of the school year. The enrolling of new names and the grading of classes were the big items of the day. There was very little of actual study. Exhibition plays have not had school attendance, and until the fall is over, there will be thousands of pupils absent from school. A score of new rooms are being opened this term. They will accommodate nearly 1000 pupils.

Chief Inspector E. H. Cowley was a busy man yesterday, having a little host of teachers and parents waiting to interview him in person, and by telephone. His teachers had responded well to the call to return to duty, but a large number of occasionalists had to be used. The high schools and the Technical School also opened their doors yesterday, and had a good attendance for the opening, although many of the boys and girls are still on the farms holidaying and harvesting.

The public health doctors and nurses commenced their work in connection with the public and separate schools of the city yesterday. Under the system, as now operated, there are no school nurses or doctors, the educational work being regarded as part of the general duties of the department of public health.

#### WEATHER INSURANCE MEN HOLD CONFERENCE

#### Owing to Severe Storms and Cutting of Timber Losses Have Been Heavy.

A conference of the Mutual Weather Insurance Companies, operating in Ontario, was held yesterday afternoon at the Walker House. Owing to the severe storms of recent years, and the country having been denuded of timber, the losses in some cases throughout the country have been heavy; and the growth of these companies, the first of which originated only 15 years ago, has been marvellous.

The insurance carried by them is now approximately twenty million dollars.

To give an idea of the amount of business done, and the assistance given, they paid in one year about one hundred thousand dollars for losses by wind storm. A number of common interests were discussed, notably: Amendments to the insurance act, rates, and the more economical working of the business of the companies.

#### THE NATIONAL ANTHEM OF FRANCE.

"La Marseillaise," the French national anthem, is probably the most inspiring song of its kind ever written. As sung by Frances Alga and the Metropolitan Opera Co. Chorus of mixed voices, reproduced on Victrola Record 64898 it is magnificent. Hear it played in the Victrola Parlors of Ye Olde Firm of Heintzman & Co., Ltd., Heintzman Hall, 193-195-197 Yonge street.

TOOK SIX HEATS TO DECIDE THE WINNER

Grand Circuit Racing on the Half-Mile Track at Hartford.

Hartford, Conn., Sept. 4.—The second day of the grand circuit meeting over the Charter Oak Park race track today was marked by races on the half-mile track, and there was nothing exceptional in the three events, except that it required six heats to decide a winner in the 2.24 trot. Bobby C. had an easy time in the 2.14 trot, taking the lead at the start and never being headed in any of the three heats. In the 2.15 pace John A. K. broke badly after winning the first heat. Seldine noted badly in the first two heats of the 2.24 trot, which was won by On the Rhine, but he won the third and fourth heats. The bay stallion apparently had the race won in the fifth heat when another break set him back and Crozier slipped into first place with Don Dix and clinched third money. In the sixth heat between the two horses Seldine lay in back of On the Rhine until the stretch and then passed Tallman as he pleased. Summary:

A Magnificent Exhibit

**THE CHALMERS** collection of fine motor cars is easily the most attractive exhibit at the Fair. With nothing spectacular, nothing to attract but the beauty of the cars themselves, the Chalmers exhibit stands out as a feature of the show. Motor critics should not miss this opportunity to judge Chalmers cars. There is the improved 5-passenger—the 1918 Chalmers. Here is a fine sample of Chalmers leadership in body styles. It is distinguished. Long, lithe, low-riding. A smart car and one clearly designed for delightfully easy spring-balance and comfort. The smoothness of the improved motor, the amazing reserves of power, you are invited to test. Remember, scores of hard traffic tests proved its wide flexibility, its economy, its stamina. But you must drive the car yourself to appreciate the high efficiency this motor has now achieved. Other fine models are being shown. Among them: a Cabriolet, Duplex, 7-passenger, Victoria.

**CABRIOLET**  
Upholstered in either grey imported cloth or fine leather; top of high-grade leather; compartment for five suit-cases; a wide, roomy body with space for three, the driver's seat being slightly advanced. Ideal for physicians or those whose business duties takes them out in all kinds of weather. Very handsomely finished in coupe green or motor blue.

**DUPLEX**  
A striking new four-passenger; a low-hung, racy speedster. This design is a decided break from the conservative in motor cars. Linked with a Chalmers motor, it has lightweight, wiry, high-speed performance that one could expect from its looks. Beautifully finished; comfortable and SPORTY.

**VICTORIA**  
An ultra-fashionable adaptation of the popular 5-passenger Chalmers. It is a charmingly distinctive type, rendered more attractive still by a wide selection of body finishes.

**RACING AT BELLEVILLE FAIR.**  
Belleville, Sept. 4.—The second and concluding day of the Belleville Fair was today and it was largely attended. In every respect it has been the most successful fair held in the city for years. ant a time as possible. They must have succeeded pretty well, judging from the sequel. Simla, in token of appreciation of the care bestowed on some of her sons, has started to gather a fund for the erection of a pavilion on the Brighton sea front, if funds permit of it. Simla's gift to Brighton is to be decorated with marble worked by the native craftsmen of India.

Mr. and Mrs. H. W. Fitton, Brantford, have returned from a short holiday spent in Atlantic City.

Col. and Mrs. R. E. Kent and Miss Ethel Kent are in town from Kingston.

Lady Shackleton, speaking at a fruit and vegetable preserving demonstration at Eshbourne, England, said that one of the greatest treats for the members of her husband's Antarctic expedition was a frozen onion eaten raw like an apple, which was served out once a week.

Among the host of women who in hospitals or courtrooms or elsewhere are doing war work, is Miss Ursula Chamberlain. She is the only daughter of Sir Henry Chamberlain, and has one brother. Perhaps hard-working women in Canada do not quite realize what it means for women who have been served all their days to take the place of unskilled laborers and bear with all the discomforts and unpleasantness that such a position involves. That this has been done by thousands and thousands of British gentlewomen makes us proud of the race to which we belong. Few things are tending more to the solution of many difficult problems in the future than that the womanhood of Great Britain is becoming one. The great change may only have begun, but a beginning is much.

Mrs. Gilbert MacIntyre, who has been at the Chateau Laurier for the last two weeks, has returned to Toronto, and will be in town for a few days before going on to her country house at St. Leonards, Lake of Bays, Muskoka, where she will spend the next fortnight.

PLAYS, PICTURES AND MUSIC

"PRETTY BABY" COMING.

Jimmae Hodges, with Jean Tynes, two famous funmakers, are coming to the Grand Opera House next week, at the head of their own company, presenting the charming musical comedy success, "Pretty Baby," a brand new pot-pourri of comedy, songs and dances, interspersed with many varied and unexpected surprises. The musical numbers alone run into the twenties. All are catchy and tuneful, providing a number of changes of elaborate costumes.

"YOU'RE IN LOVE."

"You're in Love," the joyous musical comedy by the popular authors of "The Fire Fly," "High Jinks," and "Kadinka," after a highly successful run of eight months at the Casino Theatre, New York, and two months at the Garrick Theatre, Chicago, will be presented at the Alexandra for one week commencing Monday evening, Sept. 10. Sale of reserved seats will be opened Thursday at the theatre.

AT THE STRAND.

On all sides there is a chorus of agreement that "Beware of Strangers," the startling and spectacular feature which created so great a sensation on Broadway, and which even staggered Chicago, is one of the most daring photoplays which have ever been shown in this city. The startling and sensational film as an exposure of the methods of the crook and the black-mailer is certainly thorough.

"THE BARRIER" AT REGENT.

Lovers of motion picture art have certainly welcomed "The Barrier" with open arms, and already all roads are leading to the Regent Theatre, where the epicization of the story is being shown. Exhibition visitors can have no difficulty in finding the "temple of the silent art" if they only follow the crowds.

GAVETY.

Artistic dancing is not the only accomplishment of Annetta Pines, chief danseuse of "The Behman Show," which comes to the Gayety next week for the usual engagement of one week with daily matinees. Her handsome chorus gowns which are one of the features of the "Behman Show" are all of original designs furnished by her.

REV. DR. MACGILLIVRAY RETIRES

Kingston Presbytery Accepts Resignation After a Pastorate of Thirty Years.

Special to The Toronto World. Belleville, Sept. 4.—A meeting of the Kingston presbytery was held in St. Andrew's Church in this city this afternoon. Rev. Mr. Rattray, of Tweed, was elected moderator to succeed Rev. A. S. Ken, of this city, who has held the position for two years. Rev. Dr. MacGillivray, who has been pastor of Chalmers Presbyterian Church for 30 years, asked to be relieved and retire from active ministry. His request was granted, to take effect on the last Sunday in October. Rev. E. C. Currie, of the John street church in this city, has received a call from St. John's Church, Hawkesbury, Ont., and the call was sustained. The proposed union between the congregations of St. Andrew's and John street churches was discussed, but the presbytery deferred action until the December session.

AMERICANS AND CANADIANS FRATERNIZE AT EXHIBITION

"American Day" More Significant Than Ever Before in History of Fair -- Quebec Also Shares in the Honors of the Day.

Yesterday's attendance at the Exhibition totaled 75,000, which is 1,500 better than for the same day last year. This brings the total for the fair so far up to 2,500 better than for the same period a year ago. In former years on "American Day" at the Canadian National Exhibition, the Union Jack, but it never had greater significance than it has had yesterday. Proudly it unfurled itself in company with the flag that has braved a thousand years. The combination was illustrative of something more than a fraternal spirit. It was convincing proof that the great people of the south have staked their life for the same principles as the British people stand for; that they are willing to accept the anguish and suffering as nobly borne by the allied nations and that they shall share in the most glorious sacrifices of war.

"Things have been in a bad shape here in my province, but in a month or so the people of Quebec will be as happy as I am," said the agitator who had the floor, but they have not expressed the real attitude of the people. The agitation is confined solely to the grounds where numerous motor cars sporting the American flag and hundreds of stars were on the streets in their buttonhole. The weather was ideal, and considering the tremendous crowd of Labor Day there were several hundred Special Forces marked the day. In the evening the band rendered a special program before a throng of thousands of people. The band was directed by the physical instructors from Camp Borden at the finish of their performance. FARMERS AND TRANSPORTATION HAVE JOINT DAY AT THE FAIR

Two Great Factors in Economic Life of Canada Honored by Directors--Have Many Interests in Common. This is farmers' and transportation day at the National Exhibition. These two great factors in the economic life of Canada go hand in hand in everyday life and their interests meet and fit at many points at the Toronto Fair.

Without transportation there would be little opportunity for the development of a great agricultural country like Canada, which promises to become more and more the great growing area of the world. The E.C.P. Association meet in Toronto today and will be the guests of the Exhibition at luncheon. Illustrating the progress along scientific lines, there will be a competition, in which 151 young men will act as judges in appraising fruit, vegetables and other natural products. Science is applying itself at no points more strongly than at the things that make for best farming and corresponding excellence in means of transportation. Today's program at the Exhibition, which deals so largely with both, should be of intense and general interest.

INVALID SOLDIERS FROM WHITBY VISIT THE FAIR

Guests of City and Exhibition Directors and Have Enjoyable Time. Two hundred and fifty returned invalid soldiers in charge of Major G. W. Weld, attended the Exhibition yesterday as the guests of the city. They came from Whitby Hospital by special train, and were met at the station by a military band. They marched, headed by a military band, through the grounds to the exhibition, where they were given the freedom of the grounds and the right of passage. They returned to Whitby last night.

GLIMPSE OF WHAT CANADA IS DOING FOR FIGHTERS

All Kinds of Comfortable Garments Contained in Secours National Exhibit. Filled with valuable hints as to what may be done to help the soldiers of our allies in France and the French Republic, the exhibition, which is the work of Canadian women, which will soon be sent overseas. The exhibit contains all kinds of comfortable garments for the men in the convalescent homes, among them shirts, socks, pyjamas, kit-bags. Then there are children's dresses and other garments and whole sets of beautifully-made layettes containing everything necessary for the infant. The exhibit cannot but increase the knowledge of what Canada is doing in this direction, and of the great need that exists for the work of the "Secours" on this side of the water.

Mr. Martin stated that the people of the United States and Canada were all in the same boat, and that the nations were now with the allies with their arms and their resources in the interests of humanity, small nations and great nations. MASSEY-HARRIS' LINE OF POWER MACHINERY

By night the big ball of light and by day the big white globe on the tower points the way to the Massey-Harris tent. This company has for years held an eminent position amongst the Canadian manufacturers of power machinery and all kinds of labor-saving devices for use on the farm. The Massey-Harris line of power machinery for all the various processes from plowing the land to the grinding of the grain are manufactured by the Massey-Harris Co. The business of this great Canadian concern is practically world-wide in its extent; and its products are exported to all countries where farming operations are carried on. Their business with Australia and the islands of the Pacific ocean has grown into great proportions. The Massey-Harris name is well and favorably known amongst the users of farm power machinery in these lands far away from the shores of Canada.

The Massey-Harris tent is located north of the east end of the grand stand, just at the focal point of the Exhibition, and all concerned in power machinery will be interested in seeing there a demonstration of the well-known Butterfly and all the things that make for best farming and corresponding excellence in means of transportation. Today's program at the Exhibition, which deals so largely with both, should be of intense and general interest.

Drawing large crowds. "Corita," the smallest lady demonstrator in the world, is daily drawing large crowds to the arcade of the grand stand building at the Exhibition, where she is demonstrating Dr. Gordon's foot soap. She is 31 years old, weighs 35 pounds and is 31 inches tall. "Corita" has gained quite an enviable reputation for being able to give any information to anyone regarding the use and benefits of Dr. Gordon's excellent preparations.

REAL CHAMPIONS AT HORSE SHOW

Equine Beauties at the Fair Among Finest on the Continent. STABLES ARE FULL Ontario Well Represented and Competition for Honors is Keen. "Horse full" is the metaphorical sign tacked on to the doorway of the horse section of the live stock exhibit. Never was there such a display of equine beauties. Farmers and stock breeders throughout Canada have striven their hardest and succeeded in breeding and rearing horses that in every class are second to none. Ontario is well to the fore in this exhibition of horseflesh, the district around the City of Toronto being well represented in respect to the number of horses exhibited by the breeders and rearing horses that in every class are second to none.
