TROUBLE IN OTTAWA OVER THE SCHOOLS

Separate Board Will Not Abide By The New Regulations

MATTER OF RELIGION

One Trustee Declares Orangemen Are Responsible for the Rules—Appointment of Protestant Inspectors Over Catholic Ones is Particularly Objected To

(Canadian Press)

Ottawa, Sept. 12.—The Ottawa separate school board will take a bold stand against the enforcement of bilingual school regulations recently put in force by the Ontario government. This was decided at a meeting which lasted until early this morning. A motion was passed stating that the board would decline to enforce such regulations. As to the effect of this stand several trustees said that the government could do no more than out of its grant of \$4,000,000 to the provinces, differ from them, and that should it so desire, the separate schools of the capital could be remedied more private institutions for which taxes could not be collected. Two motions were carried. The first, after pointing out that the mode of teaching prescribed by the new regulations was detrimental to the pupils, for the appointment of English Protestant inspectors over the heads of the bilingual Catholic ones was objectionable, had additional expense would be incurred, and that the board would be regretfully compelled to decline enforcing the instructions. The second motion, addressed to the department of education, drew attention particularly to the matter of the appointment of the Protestant inspectors. "The aim is not the education but the Anglicization of our children," said trustee Gessert, in the course of an eloquent address, in which he pointed out that the Orangemen are responsible for the regulations. "The highest penalty the government can enforce is to withdraw the grant of about \$4,000,000. We can collect our own taxes. Let us up to Catholics to stand by their guns. Let us demand our own colleges in Toronto and normal schools too."

THEY ARE VERY MUCH ELATED OVER IT

All Kinds of Predictions By Unionists Follow Midlothian Election

New York, Sept. 12.—A cable to the Tribune from London says: "The Midlothian election is regarded as more significant than the Northwest Manchester election, and sounds the doom of the government and the death knell to home rule. The Liberals, in their hour of disappointment, are endeavoring to show that a straight fight between Major Hope and Alexander Shaw, would result in a Liberal majority of 2,281. "Unionists and Laborites alike, respect this argument. The labor party is resolved to stand on its own legs and to have no alliance with the Liberals. Unionists are everywhere jubilant. Belfast received the news with acclamations of the profoundest joy, wild scenes were witnessed in the mills, shipyards, and factories, employers and operatives joining in resounding cheers, which were repeated over and over again. In view of the representative character of the Midlothian district, it is impossible to exaggerate the importance of the capture of the seat, which had been recognized ever since Gladstone's victorious campaign of 1880 as the stronghold of Liberalism in Scotland. "A unionist party official has stated that a general election now would result in the capture of 100 liberal seats, converting the coalition majority of 180 into a unionist majority of ninety-two, and the longer the appeal to the country is delayed the greater will be the fall of the government. "Unquestionably Lloyd George was largely responsible for the result of the election. The insurance act, which was the first experiment in this country of a general system of direct taxation, was very unpopular, and the election was fought mainly on the question of its merits and demerits. "The unionist press is jubilant over the capture of Gladstone's old seat for Midlothian as a knock-down blow to the government. The liberal morning papers demand that Premier Asquith himself in the next election reform bill a clause which, either by provision for an alternative vote or for a second ballot, will prevent a constituency from becoming represented by a minority vote."

UNIFORM LOBSTER LAW; CLOSE SEASON FOR OYSTERS

Important Statements By Local Men Before Dominion Shell Fish Commission in Session Here

Some important reforms were advocated by the fishermen and dealers who appeared before the Dominion Shell Fish Commission at their session here this morning. The commission has already completed a tour of Charlotte county and met in St. John today to hear those interested in St. John county. The members left at noon for Prince Edward Island and will meet in Summerside tomorrow. One of the chief causes of dissatisfaction among the local men is the different regulations of the Nova Scotia and New Brunswick regulations regarding the minimum size of lobsters. In Nova Scotia the minimum is nine inches, while in New Brunswick the fishermen are limited to ten and eleven inches. The fishermen are not in favor of the latter regulation, as it is nothing to prevent the sale of the smaller imported lobsters. The fishermen are anxious that the regulations be uniform and are almost unanimous in advocating the ten and one half inch minimum. A close season during February and March was also advocated on account of the damage done to young lobsters by the traps dragging on their beds in heavy storms. The serious depletion of Canadian oysters was discussed and fault was also found with the P. E. Island shippers for using undersized barrels, lack of uniformity in shipments and the loss occasioned by filling the barrels with oysters too small to be marketed. During this time they also urged that a close season of two or three years be enforced to allow the beds to be replenished. During this time they would want the duty taken off the imported oysters in the shell, but also urged a higher duty on shell oysters. Some were taken at once when the ice went out in the spring, but their favor was not as good then. He had kept oysters in tanks at Red Head but they were thin and lost their flavor. He urged that the fishermen be forced to return the seed oysters and advocated a higher duty on imported oysters and the removal of the duty on oysters in the shell, so as to protect the local oyster. Mr. Turner secured the supply of claims from Lepreux and from Digby. The American oysters were better graded and could be imported more cheaply. The prohibition of digging by non-residents had lessened the depletion of the beds and he did not know that the supply was decreasing. B. B. Brittain, local fishery inspector, said the chief complaint he heard among the fishermen was regarding the difference in laws for New Brunswick and Nova Scotia regarding the minimum size. David Tynes, of Chance Harbor, gave evidence regarding lobster fishing. He had seen five-groove lobsters only nine and one-half inches in length, but they were very scarce. He considered a catch of 2,000 a good season, and in this number he would not find more than a dozen spawners. He knew of no under-sized lobsters being sold. Joseph Stacey, of Miramichi, also gave evidence. His chief complaint was regarding the unfairness of allowing the Nova Scotia fishermen to compete in the local market with lobsters which could not be legally caught here. He thought the ten and one-half inch limit should be imposed in both provinces and advocated opening the season on October 1, instead of November 20, but closing during February and March, as during this period, many of

GOOD ROADS FOR MAINE

Portland, Sept. 11.—The passage of the constitutional amendment providing a state fund of \$2,000,000 for the building and maintenance of state highways was indicated by newspaper returns from many sections of the state Tuesday. Reports have been received from about one-third of the towns and a large majority of them voted strongly in favor of its adoption. The lobstermen were destroyed by the traps dragging in heavy storms. They were careful of seed lobsters and none are sold. He approved of license for fishermen which could be cancelled for violation of the law. J. E. Smith gave similar evidence to that of the other dealers in lobsters and clams and approved of their recommendations.

WHITE WIFE OF JACK JOHNSON ENDS HER LIFE

Was Lonely, She Said To Maids, Then Shot Herself

SHUNNED BY PEOPLE

Says This Was Treatment to Her Because She Married Negro—After Husband Went Out Last Evening She Prayed, Then Fired Fatal Shot

Chicago, Sept. 12.—Mrs. Jack Johnson, wife of the world's champion heavyweight pugilist, shot herself through the head last night and died this morning. She did not regain consciousness.

Facts that came out after Mrs. Johnson had shot herself showed that she had decided to commit suicide as soon as her husband left the house to go down town. She called Mrs. Veanie Rhodes, the pugilist's sister, on the telephone and asked her to come to her, as she had had something important to tell her. Mrs. Rhodes said she would and prepared to start. Then Mrs. Johnson called her two colored maids into her bedroom and told them she wanted them to join her in prayer. With an arm about each of them, she knelt at the bedside. The maids followed her example and the three prayed together for several minutes.

As they arose Mrs. Johnson, pressing her hands to her face, said: "God pity a poor woman who is lonely."

She sent each of the maids to other rooms on errands and before either had time to return, a shot was fired. When she came back they found her lying on the floor, fatally wounded. She was taken to a hospital where she died at half past three this morning.

On the recent trip to Las Vegas, where Johnson fought Jim Flynn, Mrs. Johnson is said to have remarked to friends that every one shunned her because she had married a negro, and that she was a poor woman who is lonely."

Mrs. Johnson was thirty-one years old, and the daughter of Mrs. David Taylor of Brooklyn. When she married Johnson she was the divorced wife of Clarence Duryea, a New York turfman.

Mrs. Johnson's death was attributed by her husband to a nervous attack, one of a series from which she had suffered for two years. Mrs. Johnson is also said to have shown symptoms of tuberculosis. She was to have left for Las Vegas, N. M. last night, but decided to abandon the trip. Her husband and seven other persons, mainly relatives of the negro pugilist, were at her bedside when she died. A Catholic priest administered extreme unction.

SAYS JEALOUSY WAS CAUSE OF MURDER OF MABEL SLAYTON

Boston, Sept. 12.—Inmate jealousy was the cause of the murder of Mabel Slayton, of Sydney, C. B., yesterday, in the opinion of the police. The girl was shot and killed by Frank I. Ogilvie, a young ice wagon driver of Melrose, who ended his life in the same way. The police say that Ogilvie had associated with Miss Slayton during the last year and was jealous of an employee of the hotel where the tragedy occurred.

TURKEY DOES NOT WANT ANOTHER WAR ON HER HANDS

London, Sept. 12.—Belief in the imminence of war is stronger in Sofia than in Constantinople. According to a despatch from the Turkish capital to the Daily Mail, the Porte does not believe that the Bulgarian cabinet will be carried away by popular clamour. The basis of this belief is the programme of reforms which the Porte proposes to grant to Macedonia and other Christian provinces. While the reforms do amount to autonomy, the respondent adds that assurances have been given that a constitution grant equal treatment to all nationalities will be put into operation in the fullest sense. Constantinople, Sept. 12.—An echo of non-combatant prisoners has been arranged for between Italy and Turkey.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, it became a constitutional disease and therefore required a constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 2 to 5 times a day. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case that fails to cure. Send for treatise and testimonials. Address: F. J. Something You Ought to Read

By RUTH CAMERON

So different are the colors of life as we look forward to the future or backward to the past, and so different the opinions and sentiments which this contrast of appearance produces that the conversation of old and young generally ends with content or pity on either side. One generation is always the scorn and wonder of the other; and the nature of the old and the young are like liquors of different quality and texture which never can unite.—Johnson.

We had been discussing the political situation and our political ideals. A very enthusiastic young man, radiant with youthful belief in a possible panacea that should promptly do away with all the trouble in the world, had been pronouncing some very progressive ideas.

"Does your father agree with you, David?" someone asked.

"Oh, no," said the young man with an evident touch of bitterness. "Of course he doesn't. Dad and I never agree. I think, because I'm a radical."

This young enthusiast evidently thought he was describing a peculiar condition of things due to his father's unusual temperament. As a matter of fact he was voicing the struggle of the ages, the eternal conflict between youth and age.

I haven't a doubt but that twenty-five or thirty years ago David's father was fulminating because his father was so unprogressive; and I'm equally sure that twenty-five or thirty years hence David's son—if he exists—will be just as bitter against his father's lack of progressiveness.

Now there is a certain great essay on this subject which I think would help every man and woman of us to read just about once a year. Probably many of you already know what I am going to say. I am speaking, of course, of Robert Louis Stevenson's essay on "Crabbed Age and Youth."

To be sure Mr. Stevenson is rather inclined to take the part of youth in this essay, but it seems to me that any old man or woman who has been young once will forgive him. And as for those old dry bones who never were young—what does it matter what they think, anyway?

Now I am not just saying all this to fill space. I really want you to see this essay; I believe it will give everyone, old and young, a wiser point of view on the whole matter.

When a firm wants to introduce a new product it not only advertises it by prices but also by samples. Please permit me to offer the following little sample of my wares.

"It is held," says Mr. Stevenson in the course of this essay, "to be a good taunt, and somehow or other to clinch the question logically, when an old gentleman waggles his head and says, 'Ah, so I thought when I was your age.' It is not thought an answer at all if the young man retorts: 'My venerable sir, so I shall most probably think when I am yours.' And yet the one is as good as the other. . . . When the old man wags his head and says, 'Ah, so I thought

TAKE 3 DAY CURE FOR DRINK HABIT

No Hypodermic Injections— No Injury to Health

Stimulants afford only temporary relief to tired nerves. When a man gets to the point where he begins to feel that he needs a brace before he tackles his job he ought to regard that as a danger signal. The effect of the brace passes away. The depression grows on what it feeds on. Depression is sure to follow. Next time the drink will be bigger; then it will take two and next three to brace up the system to the sticking point. The drink habit once acquired soon becomes the master of its victim. His friends fall from him as he goes downward. The road down hill is easy. It leads to unhappiness, to pauperism and to crime.

BUT—The habit can be cured. The poison can be eradicated from the system. Instead of a craving for liquor, a revulsion against it and a loathing for it may be set up. This has been demonstrated in the case of over three thousand patients who have taken the Neal Treatment. The Neal Cure is not a Gold Cure. It does not involve hypodermic injections, which leave the limbs, discolored, swollen and seared. No opiates or other powerful drugs are used. The Neal Cure is absolutely harmless and the Neal Cure is a sure cure. It never fails. It cures in just Three Days. It makes no difference whether the patient is a habitual drinker, whether his sprees are continuous or periodical, whether the habit is of long standing or whether he is merely in the first stages of alcoholism. In either case the Neal Cure eradicates the poison from the system. It sets the man who takes it on his feet. It makes him the master of the liquor habit instead of its slave. It is the greatest discovery of the age—a message of good cheer to men disheartened and to women hoping against hope for the victim whose weakness is destroying their happiness.

If you have a relative or one who is near and dear to you, a friend or acquaintance, who needs this treatment, persuade him to go to the

Bank of England rate unchanged. General rains have broken the drought in Eastern portion of cotton belt.

The sterling exchange rate broke forty points yesterday. While the rate is away above the gold import point, there is considerable talk of gold imports in the near future.

Call money yesterday was at the highest rate since December 1, 1911. Bank will call more loans.

The decline yesterday in the stock market was accelerated by the money conditions. A bear market at present is hardly possible, but stocks may decline further during the adjustment caused by the shifting of loans.

Market today likely to be irregular, rallies will come in stocks that are oversold, as many of them are about in that condition now. One man says business is good, but there is no stock market. The market at the present time is running itself. Some special stocks receive some consideration, but the general list is left to the professionals and the traders.

J. BRUCE ISMAY TO GIVE UP PRESIDENCY

Important Changes in International Mercantile Marine Co. Pending

New York, Sept. 12—News of impending changes of importance in the management of the International Mercantile Marine Company has reached here, confirming rumors to similar effect long current in England.

Mr. Ismay's place as executive head of the company will be taken, it is understood, by P. A. S. Franklin, now vice-president and head of the business in this country.

The stock of the International Mercantile Marine Company, which was incorporated in New Jersey years ago and has a capital of \$120,000,000, chiefly held by Americans, has always been in this city, and for the last two years of its existence, and the executive management was in the hands of an American, Clement Griegson, who resigned through ill-health and was succeeded by J. Bruce Ismay.

The stock of the International Mercantile Marine Company is controlled by J. P. Morgan, and in a lesser degree by Lord Pirbright, head of Harlan & Wolff, shipbuilding yard at Belfast, and F. G. Cullis, his partner. The proposed changes in administration, it is understood, were settled at a conference when Mr. Morgan was in London this summer, and Mr. Pirbright was called for and made a hurried trip to the other side.

Lord Pirbright is a director of the London & Northwestern Railroad for some years, and it is rumored in Liverpool, and he has resigned from the steamship company. This is expected to be announced in December officially in Liverpool.

PERU TALKS BACK

The Monthly Magazine entitled "Peru Today," in its issue for July, devotes its leading article to the rubber district cruelties of which so much has been heard since the report of Sir Roger Casement was recently published. Peru Today does not treat the matter quite as seriously as the press of England and the United States, although it admits that evils exist. For example it says:—"Questionably it is true, and the truth cannot be hidden, nor is it desired by this publication to hide it, that great wrongs were committed, and that as in all reforms it needed time, such as the campaign carried on by Hardenburg, the American engineer, who has bared the sore, and the exposure in Truth to bring the matter to a focus."

Having said this much, however, Peru Today directs the attention of critics to the half starved and morally dead dens of the slums of New York and London, and suggests that there would be less talk about the cruelties in Peru but that a well known banking house, of which a former president of Colombia is a partner, would like to secure the rubber concession business for itself, and destroy the Peruvian firm which now has control. It charges further that many of the greedy and bloodthirsty task masters in the rubber district are Barbados negroes and British subjects, and that conditions similar to those in Peru exist in the rubber districts of Brazil, Colombia, Ecuador, Venezuela and Bolivia. This magazine further says that the British government not long ago thanked that of Peru for its efforts to suppress the evil mentioned. These efforts followed the exposure made by Hardenburg, the American engineer. The Peruvian government sent Judge Paredes as a commissioner to the rubber districts, and his report was of so startling a character that it led to the appointment of a legislative commission, which sent the judge on a second visit to prepare a report which has lately been received and is soon to be published. Following this publication a law will be passed for the protection of the Indians in the rubber belt. In his report Judge Paredes says that the chief offenders have fled, and that conditions have greatly improved, and Peru Today expresses the view that a little more of such courage and persistent effort as he has put forth "will make the cruelties of the Amazon region a thing of the past, and the incident in the evolution of the continent for which Peru alone should not be made to bear the burden."

The birdmen will also hereafter be of those who prefer St. John to Halifax. The fine public spirit displayed by Mr. James H. Dunn, who has provided Bathurst with a well equipped hospital, is worthy of all praise. Mr. Woodrow Wilson says: "I would hesitate to advocate radical reductions in our tariff schedule if I thought it would interfere with the prosperity of the average American, but I believe it will double and treble our prosperity." And still another thrill. This time the mother country is thrilled by what Mr. Borden said when he arrived back in Canada, and Col. the Hon. Sam Hughes also touched the rejuvenating virtues. "England feels young," we are told. Why does the press continue to feed its readers on punk? Mr. Borden went to England for an expert to organize the Canadian civil service. Think of giving a job like that to an outsider when there are so many good Tories at home unprovided for. Also, observe the admission of tory incompetence which it involves. Of the reception of Mr. Borden at Montreal the Herald says:—"It is true that the spontaneous enthusiasm which does not always mark the entry of Sir Wilfrid Laurier on important occasions was lacking, but there was a sufficient number of admirers of the prime minister present to give him a very cordial and hearty greeting."

The Tories are to have another banquet. Of course. They must eat, drink and be merry, against the coming day of doom. They have not yet recovered from the shock of amazed delight with which they learned that at last things were coming their way. Hence there have been banquets ever since, and there is to be a noble night of feasting in Montreal on Sept. 21. "We have been in power," they will say, "for a whole year." Whereas a thrill will run through the assembly (Tories adore thrills) and the rafters will ring with glad acclaim. This business of governing a country by banquet is perhaps in no danger of being overdone, but of course it takes time to wear down the edge of an appetite that had attained the average of sixteen years, and we must be patient. There is a reference in the (U.S.) Testament somewhere to certain of the people "whose eyes stick out with fatness" and "whose god is their belly."

A PLEASING SPEAKER. The Women's Christian Temperance Union have been fortunate in securing as a speaker at the provincial convention in Campbellton on Sept. 18 to 20 Mrs. Deborah Knox Livingstone, state president of the Rhode Island W. C. T. U. Mrs. Livingstone is a very pleasing and forceful speaker, and is in great demand at state conventions in the New England states, as well as at conventions in Quebec and Ontario, where she is well known. Mrs. Livingstone will spend next Sunday in St. John, and will address two meetings here. Her arrival is looked forward to with keen anticipation by local members of the W. C. T. U. and temperance workers generally. So far back as 1500 a dictionary of slang was published.

GRAHAM AND FISHER SPEAK Referring to the naval question in speech in Brome county the other day, Hon. George E. Fisher said:—"The strongest, most trenchant speech ever made by the Hon. George E. Fisher was against a contribution to the Imperial navy. But Borden forsaw the policy the Conservatives had endorsed. Monk said we will have no navy. Hughes said it's a 'snipe' navy; we'll give you dreadnaughts. Then they declared for a plebiscite. Now we hear no more of that. What are they going to do? I don't know they know themselves." On the same occasion Hon. Sydney Fisher said:—"The Tories are rent in twain on navy question. We must assume the possibility of some naval work, as an 'ire unit. But we must crawl before

we walk. What can we do? The Liberals believed Canada was ready to do her share of the Empire's work at sea. We believed Canada should begin a navy of her own. Canadians will have no interest in that of which they are not part and parcel. We took the first steps at the moment of the change of government. Tenders for naval construction were under consideration. What has been done? These men got into power on a promise to 'see what Canada would do.' Have they gone on with the work? Nothing of the kind. They are in a dilemma—Monk in Quebec; Borden in Ontario."

Touching the trade question, Mr. Fisher said:—"When, during the campaign, I predicted a cleavage between the east and the west, should the east vote down reciprocity, I scarcely imagined my remarks would be borne out so soon. A danger of a ready rise of a conflict between the east and the west. I don't believe it can dismember the dominion, but it will hurt Canada's progress. The safety of the empire depends on the continued feeling of the people in its several empire units." On the same question Mr. Graham said: "Canada must get a larger market for her produce. We need no longer bring men into the country to produce unless we can find a market for the increasing products. The present government will be forced to go to the people with a proposition for a larger market. They need not call it reciprocity. Call it what you will—Canada must have a larger market. There is no getting away from it."

Mr. Woodrow Wilson says: "I would hesitate to advocate radical reductions in our tariff schedule if I thought it would interfere with the prosperity of the average American, but I believe it will double and treble our prosperity."

And still another thrill. This time the mother country is thrilled by what Mr. Borden said when he arrived back in Canada, and Col. the Hon. Sam Hughes also touched the rejuvenating virtues. Bilious, Throbbing Headache Means Bowels are Clogged and Liver Stagnant—You Need Cascarets

You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes, your tips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and what you need is a cleaning up inside. Remember that most disorders of the stomach, liver and intestines can be quickly cured by morning with gentle, thorough Cascarets—they work while you sleep. MORNING NEWS OVER THE WIRES

Lieut. S. C. Bert, an army aviator in Saxony, was killed in a fall with his aeroplane yesterday. A London paper, "Truth," is authority for the statement that Premier Borden has engaged Sir George Murray to come to Canada to direct the work of the administrative departments of the civil service. The new London paper, Eng., a former resident of Bathurst, N. B., where his mother resides, yesterday gave a further donation of \$100 towards the hospital in his home town to which he had previously donated generously. Paul Peck, aviator, aged twenty-four years, belonging to Washington, was fatally injured yesterday in a fall with his biplane near Chicago. He attempted a spiral glide.

At the annual session of the Trades and Labor Council of Canada in Guelph, Ont., yesterday, a resolution was passed covering the grievances of the letter carriers who are asking for better uniforms, to be made of blue serge, and an eight hour day, fifty cents a day increase, and pay when sick.

The Royal True Blue Association is holding its 38th annual session in Ottawa. Among those attending is Miss Blackney of Moncton. While giving an exhibition flight yesterday at the Halifax exhibition, Charles F. Welsh, an aviator, had a narrow escape from death. His machine fell on the edge of a barn, Welsh broke his nose and suffered other injuries. Frank Frost, superintendent of the Scotland Yard detective agency, after thirty-four years of service, is about to retire. After 22 years, Mrs. Wm. Egan, of Brookton, and Mrs. Hannah MacLeod of Sackville, N. B., twins, have just been reunited in Bath, Me., at the home of Mrs. James McPherson, a third sister.

The body of an unknown man was found in the Mitchell boom near here yesterday afternoon. P. A. Guthrie, of Fredericton, will prosecute in the District Court tomorrow. New York, Sept. 11—Supreme Court Justice Blackthorn, delaying the case until October 1.

HELD ON ASSAULT CHARGE
Three Stewards of Steamer Prince George to go Before Grand Jury

Charged with assault upon United States Customs Inspector, George B. Tinkham, the stewards of the steamer Prince George of the Boston and Yarmouth Line, William Slade, James E. Fox and John H. Zwickler were arraigned before United States Commissioner Hayes in Boston on Tuesday. Tinkham, who is a Spanish War Veteran and suffers from a severe wound in the leg received in the service, said that on August 31, while the Prince George was at Long Wharf, he ordered the three stewards to desist from carrying passengers' baggage from the ship to the wharf by way of the freight gangway.

He said that when they persisted he ran up the freight gangway and blocked the path of one of them who was carrying some pieces of baggage in his hand. The man, he said, planted the baggage in Tinkham's chest, knocking off his glasses and breaking them. Then, Tinkham declared, the other defendants seized him, threw him down and blackened one of his eyes. The commissioner held all three on the present term of the United States Grand Jury.

Patriotism
The stomach is a larger factor in "Life, Liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder. A sound stomach makes for good citizenship as well as for health and happiness. Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of **DR. PIERCE'S GOLDEN MEDICAL DISCOVERY**. It builds up the body with sound flesh and solid muscle. The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations. NORWEGIAN GIRLS SING WELL

(St. Andrew's Beacon).

As fast as possible work is being pushed on the Chamcook sardine works. Good progress has been made lately on the industrial plant and the work-people's dwelling, but there is still a great deal to be done.

The Norwegian girls find themselves in fairly comfortable circumstances in their temporary boarding house, but they are anxious to get down to work. Several of the girls were sent back to Norway last week, because they did not fit in, but those who remain are of a superior class, and when they get a chance will "make good."

On Friday night, a number of singers from the Presbyterian congregation, visited the Norwegian lodging house, and spent a pleasant hour. Several hymns were rendered in English and in the Norwegian language. The Norwegian girls have good voices and sing very sweetly. The rendering of several of their Norwegian hymns was a revelation to the local vocalists.

On Sunday evening another interesting choral service was held.

REGENT DEATHS

The death of Mrs. Martha Lazier, aged ninety-six, occurred in Chatham on Sunday. Seven sons are left to mourn, three in Chatham and four in the United States and Western Canada.

In Chatham on Monday Miss Florence Whelan, fifth daughter of Mr. and Mrs. Joseph Whelan, died, aged seventeen years. Besides her parents she leaves four sisters and one brother.

Secretary Anderson's Successor

St. Andrew's Beacon.—The St. John Board of Trade has lost a good official by the resignation of Secretary Anderson. He was a most intelligent and indefatigable worker in the city's interests, and to his energetic efforts is largely due the forward movement which is now taking place in the city. Not only St. John, but the whole province will be interested in the filling of this vacancy. St. John is the commercial mouth-piece, so to speak, of the province, while the fact that it is the chief winter port of Canada, gives it a national bearing. The man who occupies the position of secretary of the St. John Board of Trade should be a man who is not only thoroughly conversant with the city's needs and possibilities, but who is broad enough to think and act provincially and nationally, if the occasion requires it.

ARROSTOOK POTATO CROP.

Bangor Commercial.—Potatoes in Arroostook county are three weeks late. The tops at present are as green in many cases as during July. Those which were planted on high land are looking well, however, and those that have been harvested have shown good yields.

Those on the low ground where the water has stood all summer are in bad condition but may be some improved. On the whole, however, a late, dry fall will make a good season though the actual shipments will without doubt fall considerably short of a year ago, as many last year went to market and were accepted on account of the very general shortage, while this season the potatoes of similar grade will go to the starch factories.

DROWNED IN THE BAY.

Kenneth McLean, mate on the coasting steamer Ruby L. was drowned at the mouth of the harbor on Tuesday afternoon, while the steamer was on her way from this port to Margareville. A heavy sea was running and McLean fell overboard. He was twenty-one years of age and was a son of Thaddeus McLean, of Margareville.

Moncton Transcript.—Mrs. Blackall, wife of A. Blackall, Curate of Mount Whately, and Rose Verre, Episcopal churches, left on Friday for her old home in England. She was accompanied by her mother, Mrs. Beech, who has spent the summer with her. Mrs. W. C. Nickerson, of Boston, is visiting at her former home in Moncton, the guest of Mr. and Mrs. C. E. Northrup.

SUCCUMB TO BUNTY'S GOSPEL

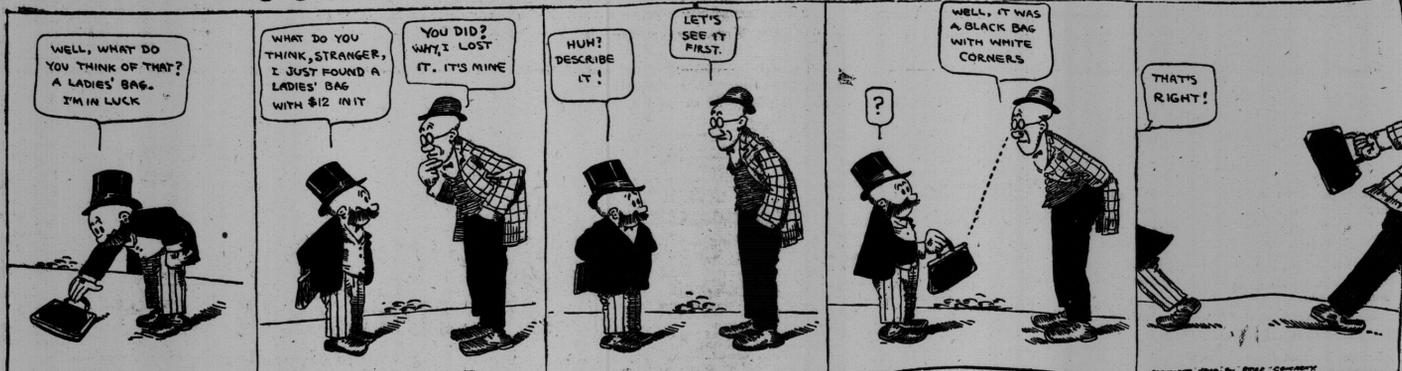

Special Company of Scotch Players Coming to The Opera House Next Monday for Four Nights

BUNTY AND WILLUM IN "BUNTY PULLS THE STRINGS"

Local theatregoers are in for the treat of their lives on next Monday evening when "Bunty Pulls the Strings" first red hot smashing comedy comes to the Opera House for the first time. Bunty comes after having played for two years at the Haymarket Theatre, London; two years at the Comedy Theatre, New York, and one year at the Princess Theatre, Chicago. Montreal, Toronto, Ottawa, Winnipeg and Halifax have also listened to Bunty's gospel of joy and have simply been carried off their feet with it. Bunty is a bonnie lassie, a clever little diplomat who literally pulls the matrimonial strings in a Scotch village about the year of 1880, and radiates joy and sunshine to all who come within her sphere. Being one of the greatest theatrical successes of the decade, Bunty is assured of a loyal welcome in St. John. The engagement begins on Monday and continues till Thursday evening with a matinee on Wednesday afternoon.

Marathons Win Again. The Marathons defeated the Halifax Sox again yesterday afternoon, the score being 4 to 2. Winter pitched for the Sox and Warwick for the visitors. Both pitchers pitched good ball, with Winter having the better of the argument. The game was tied at the seventh inning, 2 to 2. The Greeks broke the spell, and in the seventh and eighth innings, scored a run. Riley played a great game in left field, and Jordan in right. The infield also played snappy ball. Ramsey played shortstop. The following is the summary:

dispute between the Wilkesbarre and Utica Clubs.

Utica claims the flag by reason of a double victory over Syracuse which, according to the league standing would give Utica a lead of one-half game over Wilkesbarre. Manager Glymer and the Wilkesbarre club say that the race is a tie.

Some Great Pitchers.

Joe Wood is the new king of the pitchers, and now such sterling artists as Walter Johnson, Ed Walsh, Jack Coombs, Chief Bender and other stars of the American League must bow to the youthful Red Sox hurler.

May Depend on Torreau.

It begins to look as if McCraw's big asset in the world's series, if the Red Sox and Giants meet in that clash, as seems practically settled now, will be his big pitcher, Jeff Torreau.

Jeff pitched a no-hit game against Philadelphia last week, and to show that was no fluke, outpitched the great Nap Rucker in the first game of the double-header with Brooklyn on Monday.

It was a spruce and sharp duel, with Jeff coming out ahead of Nap, because in one inning in which he was in serious trouble the Ozark giant survived the ordeal better than the Dixie wizard did his one inning of trouble.

Pitchers for Yankees.

The Yankee pitching staff has been strengthened by the addition of Carl Thompson of Brockton and Chester Hoff of Lawrence, who have just rejoined the team after having made splendid records in the New England League, which closed its season on Saturday.

These two youngsters were placed in the minor league ranks for seasoning, and showed up so well that Wolvertson lost no time in reclaiming them before the start of the season.

The experience gained in the minors seems to have benefited them vastly, and there is a fine prospect that they will develop into big league stars.

Hoff was secured from the semipro ranks last fall. As a member of the Oseung team he attracted the attention of the Yankee scout.

Wolvertson tried him out early in the season, and although he showed flashes of ability, it was evident that a season with a major league team would greatly improve him, as he lacked experience.

He was turned over to the Lawrence Club, and in a short time became the leading outpunch of the league. The fans there dubbed him the "Marquard of the New England League."

He won fourteen games and lost only two, aiding materially in bringing a pennant to Lawrence.

If he stands the test against major league batters now he will prove a valuable addition to the staff, for the Yankees have been minus the services of a south-paw since Jim Vaughn was turned over to Washington.

Thompson is a collegian who made a splendid record in the south as a member of the University of Georgia nine. Last May he struck out twenty-two batters in a nine-inning game, pitching against one of the strongest college nines in Dixie land.

In his debut in a big league, too, Thompson displayed enough ability to warrant the belief that time would make him a success in the big league. He was sent in to relieve one of the faltering Yankees at Cleveland. The ease with which he handled such elegance as Lejos and Jackson caused no little comment, but in succeeding games it was apparent that he lacked experience, so Wolvertson shipped him to Boston, where he won more than three-fourths of his games with a second division team.

While at college Thompson had as a battery mate his brother, who recently joined the Hillmen, and Wolvertson may spring the only brother battery in the big league one of these days, for the younger Thompson is said to be a mackam of great ability.

The Yankee players think well of his work in practice, but it will take a few turns behind the bat in real contests to demonstrate what he can do.

Fredericton Team to Halifax.

Detolic word was received in Halifax today by Manager Cosgrove, the Standard baseball team, to the effect that the Fredericton baseball team would come to Halifax and play the Standards on Friday and Saturday.

Although the Standards were practically disbanded, yet the players, with the exception of Gibbons, are in Halifax. The Halifax team will probably have one or more of the Westville aggregation with them for these games.

At Millidgeville.

The second race in the series for the Barton Cup will be sailed at Millidgeville on Saturday next. Four boats have already entered, and more are expected to enter.

He race for the Beveridge Cup which was postponed from August 3 was run off last Saturday. The Vagabond finished first with the Fel Yuen second and the Edith third.

The Turf.

St. Stephen Races.

Two horse races were held at the St. Stephen Fair yesterday, the 2:24 trot and pace and the 2:15 trot and 2:18 pace. Prince Baron won the first race in straight heats and Miss Lightfoot the second also in straight heats. The best time in the first race was 2:26, and in the second 2:20.

Tomorrow's Halifax Races.

Records.—One of the greatest collections of record horses ever brought together in the maritime provinces are entered in the free-for-all at the exhibition track Friday.

Frank Patch, 2:13 1/4, the maritime provinces' champion, is the favorite; the old carrier, Gallagher, 2:03 1/2, and Vestal Boy, 2:05 1/4, the heroes of many hard fought battles, will be starters; Pearl Pick, 2:12 1/4, imported from Maine this summer, has much improved of late and is favored by many. Laura Merrill, 2:14 1/4, is always a good contender in every race in which she starts, while Spooner Boy, 2:10 1/4, will have lots of admirers on the strength of his recent race at Halifax with Frank Patch.

A new factor in the races will be Banner B, 2:09 1/4, which has been brought here from Quebec for this meeting. His presence will greatly add to the interest, and the race should be one well worth witnessing.

Two Gorgeous Historical Reels by Pathe

Louis Reeves Harrison, the Eminent Art Critic and Writer, in a Laudatory Article on This Picture, Says

"IN ADDITION TO ITS HISTORICAL VALUE AND ACCURACY, this play boldly presents the contrasts and contradictions of Spanish character and is replete with picturesque settings. It follows closely our own conclusion that the Spanish are proud, courteous and brave, but given to intrigue and magnificently impudent. Therefore the plot of this superb film-drama—gorgeously colored withal—is one well calculated to bring out the half-mercenary, half-voluptuous nature of court life in the time of Philip II. It is unquestionably a masterpiece, any one individual setting of which is intrinsically worthy of a place in exclusive art collections."

CONFERENCE WITH RAILWAY COMPANY OVER THE EXTENSION

That is Position of Affairs After Meeting of Commissioners Today

Owing to the difference of opinion between the city commissioners and the St. John Railway Company regarding the terms under which the railway company should be allowed to double track their proposed line to Kane's Corner the plans for this extension have been held up. The commissioners at their meeting today decided to ask the railway company for a conference which the whole matter might be discussed and, if possible, an agreement reached.

Commissioner Agar said this morning that the commissioners' position was simply that they did not think they should allow the company to carry out plans which would entail additional expense to the city without receiving proportionate remuneration from the company.

CONCERT IN ST. PHILIP'S.
A successful concert was given last evening in St. Philip's church, which was largely attended by members of the congregation and others. Each of the numbers was greatly enjoyed. The concert was under the auspices of the Ladies' Aid Society and they were assisted by the St. John Colored Benevolent Society. The program consisted of selections in clever style. The proceeds were in aid of the repair work on the church and the promoters are grateful for the patronage.

MADE RECORD PAY.
The envelope presented to Arthur Foley at the C. P. R. Telegraph office today was the envy and admiration of the other youngsters on the messengers' bench. It was his month's pay, but it was a record as it contained close to \$200, being the amount received for carrying the greatest as it contained considerably more than was ever made by a messenger boy in the employ of the company here and the young fellow was heartily congratulated upon his achievement. It shows what a lad can do by a little extra endeavor, as it was through his efforts that the record was ever made by a messenger boy in this record.

TROUBLE OVER TABLECLOTH

Chinese Laundryman Sued by North End Housewife

Considerable amusement was created in the police court this morning during the hearing of a civil case in which Hum Wah Koon, an almost deaf-mute, who conducts a laundry, in Main street, was the defendant. The complainant was Mrs. H. G. Marshall. This evening \$22.50, the price of a tablecloth which she said she sent to Hum to be washed, and which she did not return to her. Hum denied that the woman had ever left any tablecloth in his shop and positively refused to settle the case.

Mrs. Marshall said that she had sent a tablecloth to Hum about one month ago to be cleaned and that instead of sending her back her own he sent an old one which was badly torn. The one she had sent was a brand new one and she was positive that the one she received in return was not her own. Her son told of taking the laundry to the defendant's place in Main street.

Hum went on the stand and denied that he had ever sent the tablecloth in question. "You make big mistake," said Hum, "you never lets tablecloth in my shop at all." He wanted to have the case adjourned until Monday morning to secure the services of a lawyer, but His Honor adjourned the matter until this afternoon.

HE CAUSED ROUGH HOUSE TILL JOHN COLLINS CAME

A sturdy Frenchman living at Moncton came to the city yesterday with his wife and small child, but left them for a little while so that he could pay a friendly visit to a saloon keeper with whom he was acquainted. The result was that he became filled with wicked liquor which caused him to have strenuous ideas as to his pugilistic ability. Entering the gentlemen's waiting room at the Union Depot he took complete control, and not desiring the company of several others who were there put them out with a gentle expression as to where they should go, and when he had accomplished this feat to his entire satisfaction he rolled into the ladies' waiting room and repeated the performance. His language was of a low standard and his actions were debasing. Finally Policeman John Collins, who had been to dinner arrived and at once there was a change in the proceedings, Mr. Rough House being locked up. Later the pleading of his wife and child, who wanted to return home, were effective and he was allowed to leave last evening for Moncton, after leaving a deposit to make partial amends for his acts.

MASONIC VETERAN GONE

One of the "old guard" of Boston Commandery, K. T., has passed away, and it will miss Joseph H. Hewes. He leaves a wife and one son. It would be sixty-one years in December since Mr. Hewes joined Columbian Lodge. He was exalted in St. Andrew's R. A. chapter and knighted in Boston Commandery, at whose conclaves he was a faithful attendant, especially on inspection nights. He joined the Templars in 1837, and at the reception to the veterans two years ago was the senior of those present. He was within three months of being eighty-nine years old.

STILL A LARGE GAIN

Just at present he is holding two inquests, one into the death of Eli Letette and one into the death of John Gould, both of whom were killed in the L. C. R. yard here.

Buying Clothing Should be a Profitable Investment, Mr. Man

You want to get all that's coming to you when you spend your money, don't you? But do you get it? If you buy your clothing anywhere outside of Oak Hall we emphatically say you do not. Now a man spends considerable for clothing in the course of a year, and a saving of five dollars or ten dollars on a purchase is too important a thing to be side-stepped in these days of the increasing cost of living.

And you are side-stepping just such savings when you fail to buy your clothing at Oak Hall. Of course you know that when you buy of us you buy of the makers. You thus save the middleman's profit, which profit you must pay at other stores. You see, therefore, the reason for the difference between our prices and other stores' prices. And besides saving money you will get clothing that has no superior in quality, style and durability.
