SIR ROBERT REFUSES TO DISCUSS DRY DOCK PLANS

British Engineer Discussed the Project With Mr. George Robertson This Morning But Would Not Make Any Information Public

Mr. Sir Robert Perks intends to interest himself to any extent in the building of a dry dock in St. John. He is not saying anything about it at present. This morning George Robertson, president of the Imperial Dry Dock Co., had an interview with the distinguished engineer on the question, but neither of them would make any statement about plans for the future.

Sir Robert said they had discussed the situation very fully, but he had not as yet formed an opinion on it. He is provided with a great quantity of information and trade statistics about the port, and was engaged in studying the figures in the latest board of trade pamphlet when a Times man called.

Ald. Scully also called upon Sir Robert this morning and discussed with him the proposed new harbor bridge, but on this question also he had nothing to say.

At one o'clock the visiting baronet was the guest of His Worship Mayor

Bullock at luncheon in the Union Club. The other invited guests were: Hon. J. D. Hazen, James Manchester, Rev. R. A. Armstrong, Alfred Porter, Charles McDonald, Deputy Mayor Christie, George Robertson, W. E. Foster, John Russell, Jr., S. S. Mackay, Dr. T. D. Walker, E. M. Shadbolt, W. Frank Hatheway, Malcolm Parke, E. A. Smith, Judge Forbes, Rev. Dr. C. R. Flanders, Dr. H. S. Bridges, Recorder Skinner, Hon. H. A. McKeown, C. B. Allan, Alexander McMillan, Judge Ritchie, H. A. Powell and Senator Ellis.

The tables were very prettily decorated for the occasion and an orchestra under the direction of Fred. W. C. Bowden played several selections. At the close of the luncheon brief speeches were made by Sir Robert and several others.

This afternoon Sir Robert is addressing the board of trade on harbor matters, and he will leave tomorrow morning for Halifax.

UNITED STATES GOVERNMENT HAVE BALLOON SQUADRON ALONG THE ATLANTIC COAST

Report That Uncle Sam is to Recognize the Value of Aerial Forces in Time of War—Elaborate Plans for the Defence of the Coast From Maine to Florida—Balloons of the Dirigible Type Will Be Used

New York, June 3.—According to a Washington special to the Tribune the Atlantic coast from Maine to Florida will soon be protected from foreign invasion by a squadron of dirigible balloons if Congress can be brought to see the necessity and value of such defenses.

This was learned at the war department today, where it was found that General James Allen, chief of the signal corps, has been ordered to formulate the plans for such defenses and that Major George O. Squier had begun the preliminary drawings. It has been decided that the balloons will be placed at the coast by the coast artillery with the necessary personnel and equipment.

It is the belief of General Allen that recent tests have demonstrated, even to

the most conservative members of Congress that the balloon and the aeroplane are to play a great part in the armament of every progressive nation, and the United States begins its development along these lines. It is in danger of falling far behind other powers. Thus far little actual work in the preliminary has been done, but the subject has been discussed at great length by the department engineers and a tentative agreement has been reached as to the lines along which the work will be taken up.

These tentative plans contemplate balloons of 200 miles each along the coast, at the ends of which two houses will be placed out of the range of attacking guns and will be constructed with due regard to the zones of action and bounded by the coast artillery. It is the purpose

of the signal corps to work entirely in harmony with the coast artillery corps and to take end numerous conferences have been held between the heads of the two defensive branches.

At each of the stations situated at the end of a balloon cable there will be a house in which the dirigible will be placed. There will be three balloons near each station in case a concentration might be necessary. These houses are also available because it is an error in the signal corps that there is little danger to a balloon while it is in the air. The danger arises when a landing is made or when the dirigible is being hoisted or lowered. It is contemplated that the balloons will be much larger than those now in use by the signal corps, and that they will be capable of performing the ordinary duties to be imposed on them in their defense work besides being able to make longer flights.

SHOUTED HIS INNOCENCE AS HE WENT TO DEATH

Maurice Ryan, Executed By Radcliffe This Morning, at North Bay, For Murder of His Brother Almost Collapsed on Scaffold

North Bay, Ont., June 3.—(Special) Maurice Ryan, convicted of murdering his brother, Francis Joseph Ryan, at North Bay, in November, 1907, this morning by the gallows of the executioner, shouting his innocence as he went to death on the scaffold.

Ryan awoke from an apparently peaceful sleep early this morning, and at five minutes to six Radcliffe proceeded to his cell, pinned his arms and legs to the procession to the scaffold. At the sight of the scaffold Ryan weakened and

cried out "I am innocent." As the black cap was drawn over his head Ryan continued and Hangan Radcliffe, fearing he would collapse, adjusted the noose, and without pinning his legs, pulled the lever, which sent Ryan into eternity.

Ryan made a statement yesterday that he was not guilty of the crime and knew nothing about the murder. He said he had no money when he got the money he had had him. He asked that his enemies be forgiven and said he died with a clear conscience.

WRIGHT IS STILL IN GOOD STANDING

Young Divinity Student, Who Came into Prominence in Connection With the Kinrade Case, Will Not Be Challenged.

Brantford, Ont., June 3.—(Special)—So far as Brantford is concerned, Claire Montrose Wright, the young divinity student, who came into prominence in connection with the Kinrade case, is still in good standing as a probationer. A private ministerial session of the district was held yesterday afternoon, lasting two and a half hours. At the close it was announced that all matters touching Wright's probation had been thoroughly considered and that the Brantford district had not challenged his minister.

SAYS HARBOR THIEVES LOOTED HIS LAUNCH

That Millerville is the only safe harbor for kidnapping a trim little boat, especially a gasoline launch, is the contention arrived at by a gentleman who has kept his in several other places around the water front.

The gentleman referred to was the owner, up to last week, of a certain launch of a good size gasoline launch. Some time ago his engine, which he valued at about two hundred and fifty dollars, was taken from the boat, and although the matter was placed in the proper hands, the engine was never recovered.

He replaced this engine by one not quite as good, and changed the moorings of the boat from Lover Cove to a slip on Riverview. Here an attempt was made two nights ago, to again rob him of his engine, but this time the parties were fully and very nearly caught.

The late owner of the boat strongly advises anybody possessing a craft of any value not to moor it around the harbor front, but to take it to Millerville, where there is a caretaker.

VERY LITTLE DISEASE IN CITY LIMITS NOW

A Board of Health official said this morning that there were very few cases of contagious disease in the city at present, and that the inspectors had been very successful so far in having rubbish and filth removed from yards, streets and other places where they would be dangerous to the health of the community. He said that many places, for a long time sources of disease, had been completely got rid of as quickly as possible.

A police official of north end, speaking with the Times this morning, said the condition of some of the backyards in the vicinity of Sheriff street was both disgraceful and dangerous.

Williams of the world, were given the decision over John E. Billiter, of Chicago here last night. NEW YORK STOCKS

CANT STAND STILL AND DO BUSINESS

Morality Department of the City of Toronto, Gets After the Bookmakers at Woodbine Track.

Toronto, June 3.—(Special)—The first hard blow in what promises to be a sharp fight between the city morality department and the bookmaking fraternity at Woodbine was struck yesterday when fifty-four summonses were issued for bookmakers and their assistants. Thirty-four of the warrants were served during the morning of this race at Woodbine yesterday afternoon and the rest will be served today. The charges embodied in the summonses are the same in each case—keeping for gain a certain disorderly house, a common gaming house.

The point on which the crown will base its prosecution of the bookmakers is that these have not kept moving while conducting their business, and that by not doing so they are liable to prosecution.

WEDDINGS

Miller-Bell

The wedding took place last evening in St. James' Presbyterian Church, Newcastle, of Stanley Wallace Miller, mayor of Newcastle, to Miss Jennie MacLeod Bell. The ceremony was performed at nine o'clock by Rev. S. J. MacArthur. The church was handsomely decorated for the occasion.

The couple were unattended. The bride was elegantly gowned in cream satin messaline with embroidered chiffon and bead trimming and wore a bridal veil and orange blossoms, and carried a shower bouquet. Her going away suit was of Reseda green with white to match.

On account of the illness of the bride's grandfather, Wm. H. Vye, the wedding was very quiet, the reception being indefinitely postponed.

After a supper to which the immediate friends and relatives were invited at the home of the bride's mother, Mrs. Jean Bell, Mr. and Mrs. Miller left on the maritime express for a wedding tour on which they will visit Quebec, Montreal, Ottawa, Toronto, Buffalo and other places.

A very pretty wedding was solemnized at 8:30 this morning in Holy Trinity Church, when Rev. Fr. Walsh united in marriage Miss Margaret Grey, of North End, and Wm. Quigg, of Lorneville. The bride, who was attended by her sister, Miss Susan Grey, was becomingly attired in a gown of grey chanton, and wore a grey chiffon picture hat, and carried a bouquet of cream roses and maiden fern.

The bridesmaid was charmingly gowned in pink silk, and also wore a picture hat, trimmed with pink roses, and carried a bouquet of carnations to match.

The groom was supported by James Dalton, of Calgary. The groom's present to the bride was a sunburst of pearls, and to the bridesmaid a beautiful opal ring.

After the wedding, the guests, who were the immediate relatives of the couple, repaired to the bride's residence, Main street, where a sumptuous breakfast was partaken of. Many handsome presents were received by the happy couple, testifying to their popularity, including silverware, out glass, and substantial cheques, from the bride's brother, who at present is in the employ of the C. P. R. at Quebec, and her sister, Mrs. Robt. Dalton, of Calgary.

The happy couple will leave today for Sea View, where they will make their residence.

AT CITY HALL

Monthly Meeting of the Safety Board is Being Held This Afternoon

The regular monthly meeting of the safety board is being held this afternoon. Among the matters to come before the meeting will be a report from the chairman on his recent visit to Boston and a description of the work done by a new nozzle which he examined while there.

Another matter will be the consideration of a petition signed by members of the police force asking that their annual vacation, which is now ten days, be extended to two weeks. The policemen claim that ten days is too short to allow them to visit other cities for any length of time, and it is pointed out that the vacation in the case of the fire department is extended to two weeks. PHILADELPHIA IS SMALL FIELD IN PREPARING FOR ONCE GREAT RACE

Following Last Night's Rioting, Only Six Horses Named to Start in Famous Brooklyn Handicap Today

New York, June 3.—From an eligible list of 19 horses only six have been named over night to start in the twenty-third edition of the Brooklyn handicap, which will be run today at Gravesend and which has been packed to the rafters since there have no added starters when the bugle calls out the thoroughbreds for the parade to the post, it will be the smallest field that ever faced the barrier in this classic event.

Top weight for the mile and a quarter journey has been assigned to James R. Keene's Comandante Colt, which will start with a 122 lb. weight. He has been petted since the fact that he will compete with him today, he will in all probability be established a prime favorite in the betting through there will not be those lacking who will pin their faith to the other entrants and especially to Hildred's horse, King James and Nestor, the first named of which has earned the plaudits of the multitudes and rich stakes for his owner from the Atlantic to the Pacific.

It is not improbable that Hildred's will start the grand old campaigner Montgomery, which made a show of the field in the second race at Belmont Park yesterday. Montgomery would be asked to carry 112 pounds. The Brooklyn handicap is the fourth race on the card, and the horses will go to the post about 4 o'clock in the afternoon. The value of the stakes is but \$5,000, \$20,000 less last year. The entries, the weights they will carry and the probable jockeys follow:

Celt—127, Butwell.
King James—128, G. Burns.
Nestor—114, Dunn.
Frank Gill—116, Scoville.
High Private—102, Butler.
Berkeley—102, Croy.
Note—couple as Hildred's entry.

A THREATENED CALAMITY.

The painful rumor has gained currency that Mr. W. Frank Hatheway, M. P., is in league with the Germans, and is secretly plotting for the downfall of the British empire.

In a letter to this morning's Telegraph Mr. Hatheway advocates the settlement of all international disputes by the pupils of the schools, who would be armed with pieces of speech, such as nouns, pronouns, verbs, adverbs, adjectives, preposition, interjections and conjunctions.

Any man with a knowledge of language is well aware that in an altercation the English tongue would be utterly useless when opposed to the German. A mouth-

Great interest is being manifested in this game, as the rivalry between the two teams is keen and the strongest line-up available will be placed on the diamond by each nine. The boys are in the best of trim, and each aggregation seems confident of victory. With fine weather there should be a record attendance at the game.

Some of the tonorial establishments are branching out in other lines. One on Dock street has acquired an extensive stock of fancy post cards and in another on the same street a tobacco case has been installed. It is understood that some intend to have tonic counters for soft liquid refreshments.

"Still at the old game," I replied, nodding my head solemnly. "I suppose I will always be at it in one way or another."

"Your resignation won't let you go very far away from its reach," he said, with a quizzical smile.

"Oh, the government! I have cut it, Alexis," I said.

"Temporarily," I replied, and he laughed at my levity, because placing my resignation in the hands of the secretary had become a habit with me. I was privately depressed by the duties of a secret agent and as often determined to leave the service for good. But so often I had returned to it upon the request of one department or another of my government, when my services were required in the line of some particular duty which officialdom was pleased to assure me could not so well be accomplished by any other person of its acquaintance. That is why Alexis Saberevski laughed.

"Is your resignation still on file? Or is it tucked in the table drawer?" he asked, with a look that was just a touch of ironic suggestion in his manner, which nettled me.

"The resignation is a fact this time," I replied. "I have earned a period of rest and I propose to take it."

"Going abroad, Derington?"

"No."

"Prefer to undergo the process of dry rot here in New York?"

"Yes, for a time at least."

"Is there nothing on the other side of the water, that attracts you?"

"Nothing at all."

He switched his right leg to his knee and blew a cloud of smoke into the air.

"You're not saying that, Dan," he remarked, as if he were deeply considering the verity of that statement.

"No, sir. I'm not saying anything. I wouldn't pick you up as a blue individual, would I? You are as filled with energy and nervous force as any man I ever knew, and you are not yet thirty-five."

"Quite true," I admitted.

"Yet, like a craft that has fought its way through stormy seas around the world you sit there and try to assure me that you are content to lie up against a rotting wharf, in an odorous ship, and wait the rest of your days in inaction. It isn't like you, Dan."

"It looks very enticing to me just now, however."

"The trouble is," he said, "that your politics over here, offer no opportunities to a man of your talents. You should go among the prizes of European intrigue. You ought to butt in, as you fellows express it, upon French statecraft which leaves nothing to be desired in the way of double dealings. You should try Austrian lies, or German brutality, or Italian and Spanish sophistry, or English stupidity. Believe me, one of those would offer many points of interest which would interest and engage your attention."

"Why not Russian cruelty?" I asked.

"That seems to be the only important nationality you have omitted."

"Why not?" he repeated after me.

"You seem to have tired of it yourself, Saberevski."

He shrugged his shoulders, leaning back in his chair, and the suggestion of a shadow passed across his handsome face.

"Dan," he said with an entire change of tone that startled me into renewed interest. "I haven't any doubt that your cheap, more or less shrouded, mystery you could not fashion. And you were right."

"I have never," I began. But he raised a hand to arrest me.

"I know it," he said. "You do not need to assure me of that. You are too much of a man, and your character is too broad and deep, for you ever to attempt an intimacy which was not invited. But it is my pleasure just now, old man, to give you a little bit of my history. It may interest you. And it may lead to a change in your view; not regarding you, but in connection with myself. I am a much older man than you are; fifteen years and more. I should say, all my life, up to the time we last parted, has been passed in the personal service of his majesty, the czar. I have been as close to him as any man can ever obtain, and I am probably, the only one who has enjoyed his confidence to the extent of retaining it in the face of studied opposition on the part of the greatest noble of the empire. But I have retained it, Dan, and to such an extent that I suppose myself to be the only man living today, against whom Alexander

Torturing, Blinding Headaches Cured

—absolutely cured—by GIN PILLS.

Ninety per cent of the Headaches—that drive women almost mad—are caused by Kidney Trouble. Heavy household work, washing, sweeping, straining the back and weaken the kidneys.

It is the duty of the kidneys to take uric acid out of the blood. When these organs are inflamed, weakened, uric acid stays in the blood and is carried all over the body. It inflames the delicate tissues of the brain and spinal cord at the back of the neck, causing excruciating Headaches.

Gin Pills cure these Headaches because they cure the kidneys.

Williamdale East, May 9

I cannot refrain from writing you of the benefit I have received from Gin Pills. Before taking Gin Pills I had suffered dreadfully with my back and Headaches and have not had a peaceful night since. I have almost entirely got up my feet, I feel almost as active, as new of age and well as ever I did in my life.

Mrs. MILLANOR P. RIPLEY.

Take Gin Pills on our positive guarantee of a cure or money back. If, after taking 6 boxes of Gin Pills, you feel no benefit, write us to that effect and we will refund your money through your druggist.

MIMIC BATTLE ALMOST TURNED INTO EARNEST

Kingston Military Cadets Fired at Close Quarters on Opponents and Many Were Powder Burned

Kingston, Ont., June 2.—Barrie-Highlands rebounded with the noise of mimic warfare last night when the 14th Rifle Regiment of the city and Royal Military College cadets had lively military manoeuvres. They fired on an automobile containing Captain Kaubak, one of the umpires, and R. S. Waldron, driving it, had his hand badly burned.

Other lively incidents occurred throughout the contest and a hand-to-hand struggle was narrowly averted, when a squad of cadets, out of action, fired at close quarters on a company of Rifles. The manoeuvres were instructive but dangerous.

A number of men on both sides were severely hurt on the face and hands by the powder used at close quarters. A squad of cadets were declared out of action. They fired on an automobile containing Captain Kaubak, one of the umpires, and R. S. Waldron, driving it, had his hand badly burned.

LOCAL GOVERNMENT MADE APPOINTMENTS YESTERDAY

J. B. Egges Succeeds Col. Blaine on St. John License Board—H. Colby Smith a School Trustee—Supreme Court Cases.

Fredericton, N. B., June 2.—The Supreme Court heard argument in two cases this afternoon and adjourned until Friday, June 11, when common motions will be heard and other cases taken up.

King vs. McQuarrie, ex-parte Gibson, two cases, J. D. Phinney, K. C., showed cause against an order to quash conviction. Carter contra. Court considers.

Landry, appellant, and Sivert, respondent, Byrne to support appeal from Gloucester county court. Teed, K. C., contra. Court considers.

Governor Tweedie presided at a meeting of the board of education this afternoon and all the members were present except Chief Commissioner Morrissey. Considerable time was spent in reviewing boundaries of school districts. A new district was created in the parish of St. Mary's, York, between Marysville and Penniss; the districts of Petticoodland, Sunny Brae, Westmorland county, were authorized to borrow money for the purpose of enlarging the school buildings.

Chief Superintendent Inch was authorized to visit Kingston and look into the question of rebuilding the Consolidated school. There seems to be considerable diversity of opinion among the ratepayers as to what course should be taken, and he will try and assist them in reaching some conclusion. A committee was appointed to look into the question of introducing military training in the public schools.

Fredericton, N. B., June 2.—The race for office of judge of probate made vacant by the appointment of Judge Barry to the bench. He seems to have had the bulk on his competitors from the start, and the announcement of his appointment created little surprise.

Mr. Bliss is a brother-in-law of Parker, Glaser, M. P. P., for Sunbury, and naturally had his active support and also that of Premier Haes. Three of the members for York were inclined, at first, to favor another candidate for the position, but finally came into line for Bliss.

The new judge is a barrister of long experience, and undoubtedly had strong claims from a political standpoint. As secretary-treasurer for York during the past eight years, he has done good work and there is no reason why he should not make a capable judge of probates. He is being heartily congratulated on his appointment.

John B. Egges was appointed a member of the Board of Commissioners of the Municipal Office of St. John, where he is appointed as follows: George A. Knodell and Jean Beatty for one year, Michael Goll for two years, and W. S. Clawson and Phillip Grattan for three years.

NEW LADIES' COLLEGE FOR MOUNT ALLISON

Board of Regents Decided Yesterday to Proceed—Dr. Allison 50 Years a Graduate.

Sackville, N. B., June 2.—At a well attended meeting of the board of regents of Mount Allison this afternoon, it was decided to proceed at once with the work of building the contemplated new stone ladies' college. The matter of the selection of plans and business in connection with the proposed building were left in the hands of the executive committee of the board, as was also the matter of removing the existing building, on the site of which the new structure is to be erected. The new ladies' college, made possible by the bequest of the late Jervis Hart, of Halifax, has long been the hope of Dr. Borde, and it is a matter for congratulation that his wishes are now about to be realized.

A resolution congratulating Dr. Allison upon the fact of having been a graduate of Wesleyan College, Middleton (Conn.), for fifty years, was unanimously passed. It is Dr. Allison's intention to visit Middleton at an early date to meet with a number of other members of the class of 1859.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface of the nose. Eczema, Salt Rheum.

Eczema or Salt Rheum, as it is often called, is one of the most agonizing of skin diseases. It manifests itself in little round blisters, which contain an extremely irritating fluid. These break and subsequently a crust or scale is formed.

The intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat, are almost unbearable.

The pre-eminent success which Burdock Blood Bitters has met with in permanently curing a disease of such severity is due to its wonderful blood cleansing and purifying properties.

No other remedy has done, or can do, so much for those who are almost driven to distraction by the terrible torture, as our thousands of signed testimonials can testify to.

Mrs. John O'Connor, Burlington, N.S., writes—"For years I suffered with Salt Rheum. I tried a dozen different medicines, but most of them only made it worse. I was advised to try Burdock Blood Bitters. I got a bottle and before I had taken half a dozen doses I could see a change so I continued its use and now I am completely cured. I cannot say too much for your wonderful medicine."

AMERICANS POURING INTO CANADIAN WEST

Statistics of Last Year Show That 159,832 U. S. Settlers Came into Canada With \$60,000,000 in Money and Effects.

Winnipeg, June 2.—The report of the immigration department for the fiscal year was issued here yesterday. The year closed March 31. The report contains statistics for the whole of the past year showing that immigration through ocean ports from European countries decreased 17,081 persons compared with the preceding year. This decline is attributed to restrictive legislation aimed at undesirable immigrants. It has not seriously affected the influx from the British Isles.

Immigration from the United States not only shows an increase, but it breaks all records for immigration from across the southern border. In the twelve months prior to March 31, 159,832 settlers from the United States came into Canada, bringing with them money and effects the estimated value of which was \$60,000,000.

KIDNEY DISEASE COMES ON QUIETLY.

Perhaps no other organ works harder than the kidneys to preserve the general health of the body and most people are troubled with some kind of kidney complaint, but do not suspect it. It may have been in the system for some time. There may have been backaches, swelling of the feet and ankles, disturbances of the urinary organs, such as brick dust deposits in the urine, highly colored scanty or cloudy urine, bladder pains, frequent or suppressed urination, or any of these symptoms. Do not neglect any of these symptoms, for if neglected they will eventually lead to kidney trouble. Druggists dispense Doan's Kidney Pills, which are sold in every drug store and help them to filter the blood purify and flush off all the impurities which cause kidney trouble.

BLADDER TROUBLES NEED PROMPT ATTENTION

Perhaps you don't know how much kidney and bladder are lumbering, rheumatism, catarrh of the bladder, pain or dull ache in the back, joints or muscles, or any of these symptoms, may have been struck without notice by serious kidney and bladder disease only to realize too late what might have been prevented with proper care and attention.

LYNCHERS HAILED BEFORE THE COURT

Sherrif of Chatham and Deputies Charged With Permitting, and Participating in, the Lynching of Ed. Johnson, a Negro

Washington, D. C., June 1.—The Supreme Court of the United States today day the scene of the arraignment of six men, before its bar, an unprecedented spectacle in the highest tribunal in the nation.

The prisoners were former Sheriff Joseph P. Shipp, of Hamilton County, Tennessee, and his jailer deputy, Jeremiah Gibson, and Luther Williams, Nick Nolan, Henry Padgett and William Mack, all of Chattanooga.

They were found guilty a week ago by the court on the charge of contempt in permitting and participating in the lynching in 1905 of a negro, named Ed. Johnson, after the supreme court had granted permission to him to bring his case to the supreme court on an appeal.

He had been found guilty of the crime of rape and was under sentence to be hanged. The granting of the appeal acted as a writ of superseades, and when the fact of this action became known in Chattanooga, where Johnson was in jail, and when the further fact that it would cause a postponement of the execution, if indeed it might not entirely prevent it, was known on the people of that city, there was considerable excitement which culminated during the night following in a mob taking Johnson from the jail and hanging him.

The act was resented by the court as one of flagrant contempt and immediately complaint was made to President Roosevelt, with the result that he placed the matter in the hands of the department of justice, which immediately took steps to ascertain the names of the participants in the lynching. Proceedings then were instituted against the sheriff and a number of his deputies as well as against about twenty citizens of Chattanooga. The inquiry, which was subsequently made on behalf of the court reduced this number to nine, and the court's own investigation eliminated three others, leaving only six to be brought before the tribunal.

NEWS AND VIEWS OF SPORT

The court of appeals at Albany, N. Y., on Tuesday handed down a decision which in effect holds that the dispensing of admission tickets for the Brighton Beach track last July was not a violation of the anti-race-tracking laws.

John Donaldson, a baseball umpire of Pittsburgh, is dead at Zelionople, Pa. A batted ball, which hit Donaldson in the game Saturday, caused death. The ball hit Donaldson fair between the eyes, and though he was knocked down, he continued the game and later unperformed by one.

She was unhurt and the horse gave a thrilling exhibition when riding her other entry, Imp. Tansy. Catcher Carrigan of the Boston American league baseball team has been injured by Manager Lake because of a serious case of blood-poisoning. Carrigan was injured about two weeks ago, when an opposing player accidentally spiked him while sliding to the home plate.

Parson Davies, the well known sporting promoter, denies the reports that he is seriously ill at Chicago. He says the matter has been greatly exaggerated, even though he appreciates the kindly sympathy shown by his friends in all parts of the country.

"Uncle Joe" Cannon put on the gloves with "Philadelphia Jack" O'Brien at the latter's training quarters at the King of Prussia Inn, near Philadelphia, Friday, and despite his advanced age, he handed the pugilist a couple of jabs which seemed to take the latter by surprise.

"O'Brien, I'm not a world's champion, but back in Illinois I used to have the leading of a reputation as a boxer," jocularly remarked the speaker.

"Well, you have knocked out a few congressmen in your time," remarked a bystander amid an outbreak of laughter.

There is an interesting moment in the 13th round of the Burns-Johnson fight picture, which are being shown at the Columbia Theatre in Boston for two weeks. The spectator, looking down the fighters, is astonished to see thousands of men in the audience trying to shake hands with a bystander amid an outbreak of laughter.

There is an interesting moment in the 13th round of the Burns-Johnson fight picture, which are being shown at the Columbia Theatre in Boston for two weeks. The spectator, looking down the fighters, is astonished to see thousands of men in the audience trying to shake hands with a bystander amid an outbreak of laughter.

There were three cameras used in taking these pictures, each operated by an expert, and from various points of vantage so that the full 14 rounds of the fight are

shown without a break in the continuity. There are also pictures of the training quarters, the gathering crowds and the interesting preliminaries incidental to the championship event.

In recognition of his services at the intercollegiate championships Saturday, William C. Paul, the great distance runner, has been chosen captain of the University of Pennsylvania track team for next year. His election took place immediately after the games in the locker-building, Soldiers Field, Boston. It is considered a great honor, because Paul is only a sophomore.

He, with Minis, the sprinter, and Flicks, the pole vaulter, are the only point winners that will be in college next year.

"Harlem Tommy" Murphy outlasted Matty Baldwin of Charlestown in every department of the game in their 12-round contest at the Armory A. A. Boston on Tuesday night. It was their third meeting. Baldwin winning the first on a decision which has always been questioned by Murphy. Their second bout, also at the Armory A. A., resulted in a draw. This was considerable feeling between the boys so that when they started the bout last night each began at once to try to annihilate the other. Murphy was too much of a ring general to be caught in any trap so that when Baldwin came howling in with leads for the face and chin, Murphy invariably countered heavily either at the body or with right-hand uppercuts delivered at short range and which the boxer at the command of the New York.

While it is true that back in 1887 John L. Sullivan received a \$10,000 bounty, the exact whereabouts of which is at the present time somewhat in doubt, and was hailed as the champion of the world, he never was other than champion of America. Sentiment and cold facts are decided by odds in John L's case.

RACECOURSE TO COST A MILLION

Turf followers in Berlin to have splendid place for racing.

Berlin, June 2—Nothing could be more characteristic of the "modern German spirit and the efforts which are being put forward to make Berlin the leading capital of the continent than the racing course on the western outskirts of this city, which the press was invited to view this afternoon. Horse-racing is not indigenous to this part of the world, and English trainers and jockeys, who have been imported to acclimatise it, still form a compact little colony in one of the outer suburbs of Berlin. But it has so far flourished under a special law, so speak, of its principal supporters considered that the time had come to furnish Berlin with a course equal to those in the neighborhood of London and Paris.

The scheme received the cordial support of the Emperor, through whose influence a suitable site was obtained at a nominal rental on Crown land in the neighborhood of the Doberitz, military road. This great engineering undertaking, the commencement of which the Emperor was so anxious to show to King Edward last February, will be associated for all time with the reign of William II. It stretches a broad band of carriage ways, bicycle and horse tracks, and footpaths, flanked on both sides by lawns and flower beds, for miles westward, in a perfectly straight line from the Berlin Schloss.

As the soil is nothing but sand, a layer of loam had to be imported on which to sow grass, and the whole track is studded with hydrants with which alone it is possible to keep turf alive in this climate. Architects were sent abroad to study foreign race courses and obtain the latest ideas for grandstands and other buildings. The result will be a revelation to the Berliners when they flock out to the first meeting on Sunday next.

A certain amount of mystery exists as to the cost of the undertaking, but it is admitted that nearly \$1,250,000 has been spent on it.

KETCHEL PUT CAPONI AWAY

Western Boxer Finished in Fourth Round of a Ten Round Bout

Schenectady, N. Y., June 2—Tony Caponi of Chicago, was knocked out by Stanley Ketchel with a blow to the jaw in the fourth round of a scheduled ten-round bout before the American A. C. here tonight. The westerner put up a miserable exhibition and seemed utterly unable to ward off the blows of the champion, who landed whenever and wherever he wanted to. Caponi was knocked down once in the second and four times in the fourth. On the last fall he took the count.

From the first Ketchel went after his man, hammer and tongs. He was apparently in the best of condition.

WATER BOARD DID MUCH BUSINESS LAST NIGHT

At a meeting of the water and sewerage board last night the water assessment for the year was fixed for the city and Lancaster. On motion of Ald. Kelley it was decided to recommend to the council that a flat rate of \$1 a year for water purposes be levied upon orphanages and a small committee was appointed to consider the request of the Y. M. C. A. for an abatement in their water taxes.

The rate on stocks-in-trade in Lancaster was cut to the same figure as on real estate—one-quarter of the per cent. The engineer was authorized to call for tenders for extending the water system to Mitchell.

The water assessment for the city as submitted by the director was then discussed. It contained the same provision in regard to stocks in trade as in the case of Lancaster, namely, a reduction of from one-half to one per cent to one-quarter of one per cent. It was decided that the rate on the customs house, post office and immigration building be the same as last year. The rates on the I. C. R. and C. P. R. \$2,500 for 25,000,000 gallons and two cents per 100 gallons over that amount, as paid last year, were also ordered to stand, as was the rate levied on shipping and water boats.

Tenders were awarded as follows:—Printing the annual report at 58 cents a page, and \$1.05 for the appendix; A. M. Rowan, for 100 barrels of cement at \$2.90 a barrel; W. H. Stirling, for 75 brass stop-cocks at 65 cents; McLean, Holt & Co., for stop-cock vault covers at \$3.75, and special castings at 1.34 cents a pound; St. John Iron Works for sewer manhole covers at \$6.45, and catch basin frames at \$2.85; R. P. & W. P. for 50 tons anthracite and 4 tons of Scotch nut coal at \$5.30 and \$6.30 respectively; and J. S. Gibbon & Co., for 20 tons run of mine coal at \$3.20 a ton. It was decided to secure two three-inch Hersey torrent metres for the Provincial Hospital.

A service pipe for Ritchie street at a cost of \$250 was recommended. The director recommended a four-inch water main through Suffolk street, Carlton, with a fire hydrant at the corner of Suffolk and Lancaster Heights. This he estimated would cost \$200, and it will be recommended to the council.

The Y. M. C. A. petitioned for an abatement of their water taxes which amounted to \$290.86 in 1908. Ald. Hayes, Kelley and the chairman will bring in a supplementary report on the matter. A number of communications were referred to the director to bring in a report. The petitions regarding H. G. Hunter and Engineer Marlock were referred to the council to deal with.

Death or Insanity

Nervous, Sleepless, Worn Out. Expected to Die or Go Crazy With NERVOUSNESS.

"I could not sleep—I could not rest—was ready to cry on the least occasion—yet I was plump and fat. Can you imagine a more distressing condition than weakness of body and mind?" writes Mrs. Wesley of Halifax. "I lost myself in a sort of self pity because health seemed shattered, and with the mental distress that grew with my bodily weakness, I was a burden to myself and a greater burden to my family.

"Though I sought and really needed pity, I got very little, for I did not look at all very sick. It was only my nerves that were sick, and anyone who has sick nerves knows too well how awful a sickness it is."

"From the first Ferrero's strengthened my nerves, and it seemed to help them to be I became stronger, more composed, slept more and grew more hopeful. When I had taken Ferrero's for about two months I lost that miserable sense of dread. I never could tell when I was afraid of, but expected something dreadful was going to happen me. Ferrero's gave me the strength to throw aside all these fancies and made me well again."

Go at once to any druggist, get a few boxes of Ferrero's—start right on the road to health and vigor. Ferrero's will keep you there—will show you what it means to be healthy, vigorous, full of nerve energy. The company is completing a new power house to provide electric lighting on a large scale. More bathing houses are being erected at Kitty's Cove, which has been converted into an ideal place for bathers.

AGED WOMAN WAS IN PRECARIOUS STATE

Mrs. Catherine Carey Taken to the Municipal Home This Morning

Mrs. Catherine Carey, the elderly woman who was ill and destitute in her home at 54 Brussels street, was removed to the Municipal Home last night in a cab by the S. P. C. A. Last week Patrolman Steeves visited Mrs. Carey in her apartments which comprise one room only, and notified the S. P. C. A. of her predicament. However no action was taken until Policeman Crawford, in consequence of information from a neighbor entered her room early yesterday morning and discovered her in a precarious state. The officer feared that life was extinct, but after administering a stimulant the old lady revived. It is probable that if she had remained alone for an hour longer she would have died. There was no fire or provisions in the room.
Mrs. Carey has eked a livelihood by scrubbing offices but a month ago contracted a cold which worked havoc on her system. However, she was not seriously ill until last week and since then has not been able to leave her bed. It is not believed that she will live more than a few days.

FOUR DRUNKS IN EIGHT MINUTES

Patrolman Crawford Saw Things on Brussels Street Last Night

Patrolman Crawford was standing outside the Brussels street lock-up at midnight last night and perceiving an intoxicated individual monopolizing the pavement in an effort to get home, he proceeded home, he assisted him to his home nearby. He had returned to the spot and surprised another man, who was carrying a helping hand to him also, and on returning his vigil two bilious individuals clasped together lay on the pavement. The policeman stepped out from the darkness and touched one of the men with his baton. The man gazed behind and seeing the helmeted officer, fled like a sprightly and was followed by his companion. All this occurred within the space of eight minutes and with one exception they were the sole inebriates he saw since Saturday night.

W. F. HATHEWAY CO., LTD.

St. John, N. B., Canada

Packers of Tiger Indo-Ceylon Teas.

Dear Sir—Our choice at home of Tiger Tea is grade— at _____ c per lb. Is it true that the tiny dried, whitish buds in TIGER TEA give it that fine delicate flavor? We used to drink China Tea years ago, but prefer the TIGER TEA in 1-lb. packets, as it looks cleaner, and because TIGER TEAS are prepared and packed by machinery instead of by the nasty, sweaty hand-treatment as in China. The pretty blue and white label is enough to make one wish to taste a cup of TIGER TEA. The tiger paws on the label show how strong the TIGER TEA is.

I am very glad to send you this letter about TIGER TEA, and if you wish I will send you a sketch of a tiger which would perhaps be fiercer than the tiger on your label. The rich cherry color of TIGER TEA pleases everyone, and I hope that you will always keep the quality of it as good as it is now. I enclose the 12 cards required, and tell you truly this is my own handwriting. Every Canadian should buy a 1-lb. packet of TIGER TEA, for, besides the good quality, we know that the work of blending, labeling, boxing, packing, etc., is all done by Canadians in St. John. My age is _____; my last school teacher was _____.
Hoping that this letter will win a TIGER TEA PRIZE,
I am, respectfully yours,
