he was warmly received, and addresses were presented by the Corporation and the commercial bodies. Lord Palmerston replied in a speech which occupied about 20 minutes. He also addressed the members of the Mechanics' Institution, in the Free-trade Hall. More than 3000 persons were present. Lord Palmerston expressed his grafification at the evidences which such buildings as that the evidences which such buildings as that the vidences which such buildings as that the vidence of vidences which such buildings as that the vidence of vidences which such buildings are vidences they had just of cetted afforded to the working classes of acquiring knowledge. It had been said that a little knowledge was a dangerous thing; but surely a little knowledge was a dangerous thing; but surely a little knowledge was a dangerous thing; but surely a little knowledge was better even has fully borne out, I think, the wisdom of was better than none, and it was better even that course, and I am persuaded, that those to have a smaltering of information than the proper of the 7th,

of his reply, he alluded to the Eastern war, and said :-It must be poculiarly gratifying to those who are engaged with the conduct of affairs, of England had a protracted sitting on the to receive expressions of the approval of their policy in times of such immense importance, as these to which your observational traces of discount was made. ons have referred, and from a community such as the one in which I have the honor to be—(cheers)—because, if there is any community whose interests are more peculiarly affected by the circumstances of or war, it must be that great commercial body whose transactions flourish by peace, and whose transactions are likely to be crippled crippled quietness by war. (Loud cheers.) It is, therefore, most satisfactory to the Government to have found during the continuance of the war in which we were unfortunately engaged, that the sense of the justice of the cause, and that the sense of the necessity of the exertions which we called on the country to make, overpow-ered in the minds of the commercial community of this country all considerations of private interest, and called forth from them that display of energetic patriotism which contri-buted so greatly to the success of the con-test, and which reflected such honour on the country at large. (Loud applause.) I may say to those whom I now address, that the means of the commercial marine of the country placed at the disposal of the Government contributed to the successful operations in which we were engaged. (Cheers.) The vast means of transport which the commer-cial maxine placed in the hands of the Gowhich we were engaged. (Cheers.) The route will proceed north of St. Clair to Devast means of transport which the commercial marine placed in the hands of the Government for our army—more, for the French as well as the English—Hear, hear, and loud applause—but certainly for one of the armies of the allies—though more than 5000 miles from the head-quarters of their resources—were such, that in truth, they were mearer to those resources, in point of time and facilities, than were the enemy who was fighting in his own territory. (Loud cheers.)

The route will proceed north of St. Clair to Devast the State on the State of Michigan and connecting with Milwaukie and barefaced want of truth in their attacks, and barefaced want of truth in their attacks, are damaging to their own faction. The canada Railway and Land Company.

By His Excellency's Command.

Tenders will proceed north of St. Clair to Devasting to the station and so in an air line across the State of Michigan and connecting with Milwaukie and barefaced want of truth in their attacks, are damaging to their own faction. The canada Railway and Land Company.

By His Excellency's Command.

Tenders will proceed north of St. Clair to Devasted for the Station 1620. The Station 1620 to Station 16 It was not only satisfactory to us to find ourselves thus supported, but I am bound ourselves thus supported, but I am bound to say that all the energy and zeal of Her Majesty's Government—and that energy and zeal were uniform throughout the whole body; and though every member of the administration co-operated in the common cause, which was felt throughout every department; even with the energy, zeal and confidence with which we were honored by our Sovereign; by the bravery of our army and navy, and the cordial co-operation of our allies—all would have been unavailing if it had not been for the commercial spirit of the context with the strangers it has half to the context with the strangers it has half to the context with the strangers it has half to the context with the strangers it has half to the context with the strangers it has half to context with the strangers in the strangers i

Lloyd's for a ship to convey some hundreds of emigrants to Nova Scotia, it being the intention to grant free passages to laborers and their families to that Colony. THE OPENING OF THE GRAND TRUNK

RAILWAY has been accompanied, at Montreal, by great demonstrations, dinners, speeches. processions, flags and music. From the Bangor Whig was taken the following account of its present position :-

count of its present position:—

"The Grand Trunk is now open to Stratford, 88 miles west of Toronto, and 795 miles
from Bangor. To Post Service GEO. D. STREET, Esq. Solicitor. from Bangor. To Port Sarnia, where it touches the foot of Lake Huron, will be 899 miles. From thence the Northern Pacific route will proceed north of St. Clair to Detroit and so in an air line across the State coming more apparent. The reckleasness

"The capital of the Grand Trunk Railway if it had not been for the commercial spirit of this country, which convinced the nation with which we were contending, that our resources were growing with the duration of road. The Victoria Tubular Bridge resources were growing with the duration of road. The victoria Tubular Bridge resources were growing with the duration of the contest—(Cheers)—instead of being exhausted the first year of the war, we were beginning to put forth our strength: the indomitable spirit of England, instead of qualiting under difficulties, was raised to additional exertion, and rather increased, instead of diminished, during the conflict.—(Hear, hear.) We were not inattentive to other interests besides those connected, with the actual prosecution of the war. It has been a subject of great variefaction to see that at the commencement of that conflict of the abutinents is 242 feet each. The length of the million miles our simplicity we had imagined that these men were not wholly destinute a large item of modesty and common sense. We had supposed that the lessons taught them by the events of this eventful year were in some degree understood, and had not altogether as early as the spring of 1860. It is supposed that in its erection 250,000 tons of the sum total of expense—costing probably, the events of this eventful year were in some degree understood, and had not altogether degree understood, and had not altogether with the actual prosecution of the war. It has been a subject of great variefaction to see that at the commencement of that conflict of the abutinents is 242 feet each. The length

was better than none, and it was better even that course, and I am persuaded, that those to have a smaltering of information than opportunities of frequent intercourse which remain in total ignorance. He dwelt upon the pleasures and advantages which working men must derive from the instruction such to maintain between them that harmony

Yours, respectfully GEORGE W. KING. St. Andrews, 10th Nov. 1856

The opening lecture of the season at the and arrest the outflow, but no change in the Mechanics Institute, was delivered on Monday rates of discount was made.

The market for Breadstuffs had slightly sketched the leading features of the several North American Provinces, and then pointed declined, the imports being large. the Provision trade has been without any connected with them, either completed or in emarkable feature.

From the manufacturing districts the revantages this Province offered to its inhabitants, and especially its superiority over mitted to be equal if not superior both in Cpper Capada as a field for settlement. The lecture was listened to with much attention by a large audience.—[Church Witness.] Witness

Ayer's Cathartic Pills.

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known toyana. Insuspensable percols are shown that these brain have britises which surpass in excellence the costnations of all men. They are safe and pleasant to take, but powerful to sure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distensive; stimulate dougsils or disordered organs into their natural action, and impact beauthy tone with strength to the whole system. Not only do they cure the everystem of the whole system. Not only do they cure the everystem of the whole system. Not only do they cure the everystem of the state of the sta Comprising a great variety of styles, entirely new and never before offered in this market.

E. D. SPEAR, INDIAN DOCTOR,
18 Enseland Street, BOSTON, Mass.

the indian Practice of Medicine, as perfected by E. D. SPEAR. M. D. excites envy in the hearts of the many advocates of Mercury. Many of his remedies, as the public have already learned from newspapers of the day, are prepared from recipes which are believed it have originally been recipes which are believed it have originally been recipied from the indians one hundred and seventy five years ago. No other remedies deserve the name of Indian.

DR. SPEAR'S

OREAT INDIAN MEDICINES.

(For names and description see his "Family Physician"—to be had, free, at his office, or sent to order, prepaid on receipt of a paper postage (fampl)

to order, prepaid on receipt of a paper postage (tamp)

Are certain cures
Asthma, Ague and Fever, Barber's Reh, Beila Bronchits, Cancer, Cabler, Colds, Consumption. Coughs, Cestiveness, Cramps, Debility, Disbetes, Derangement of the Bowels, all humours in the blood, Giddiness, Headache, Inflammanton of the Eyes, Jaundice, Kidney Complaints, Liver Complaints, Loss of Harr, Lumbago, Milk Leg, Nightanare, Palpitation of the Heart, Pains in the nide, back, and other parts of the body, Painful Menstruation, Pin Worms, Rheumaissu, Salt Rheum, Scald Head, Scrofata, Shoriness of Breath, Sore Throat, Spinal Complaints, Stanguary, &c.

Dr. Spear's Female Medicines have become very celebrated, and it is now admitted that his treat, ment of Female Weaknesses, Prolupsus Uters, for regularities and Suppressions is far superior to every other treatment for these complaints.

Dr. S Pr. A S.,

Is also celebrated in the treatment of children His medicines being regetable, do not poison the system.

Dr. Spear is now being visited—by one thousand

dreids of males to consult him and to obtain his mo-dicines.

Dr S. will warrant a cure in every curable cana After giving his remedies a fair trial, if a cure in not effected, he will pay any other physician, who will effect a cure, his bill, not exceeding \$100. Persons are distance can consult him by letter, enclosing a stamp to pay the answer.

Or Spear consults with patients at his Office No 18 Kneelandstreet, tipon all conditions and dis-eases of the system, fere of any charge.
