Peace Congress. ANTWERP, Aug. 29.—The international peace congress was opened here today.

The Queen's Movements. LONDON, Aug. 29.—The Queen arrived at Balmoral today.

Cholera's Progress. BERLIN, Aug. 27.—Thirty-two deaths from cholera and 68 fresh cases are reported throughout Germany for the week ending Aug. 27.

Canadian Pilgrims in Rome. ROME, Aug. 29.—A party of Canadian pilgrims have arrived here and will be received on Sunday by the Pope.

The Pope has sent his blessing to the Count of Paris. The Syndic of Rome will start tomorrow for the United States.

Protection Must Go. SYDNEY, N. S. W., Aug. 29.—The Right Hon. Sir Robert W. Duff, governor of New South Wales, upon the assembling of Parliament said that, in accordance with the mandate of the electors, the protective duties would be repealed and replaced by income and land taxes.

Will Help the English Market. LONDON, Aug. 29.—A representative of the house of Winder & Co., the largest wool brokers engaged in American trade in London, in an interview today, expressed the opinion that the tariff bill would undoubtedly benefit the English market, which is now feverish and uncertain.

Yorkshire houses are jubilant over the passing of the tariff bill and are confident of increased business in the future.

Look Out for Your Stamps. LONDON, Aug. 29.—Canadians living in Scotland complain that under-paid letters from Canada are common. Hundreds of such letters come to Scotland daily, and as a result important invoices and documents are frequently held back.

A Stop-Gap. LONDON, Aug. 29.—The Daily News says the tariff is at best a compromise and stop-gap, giving some expression to the national condemnation of extreme protection as pronounced at the last Presidential election.

Business must benefit by ending the uncertainty which has long affected commerce in and with the United States.

Plot to Kill the King of Greece. ROME, Aug. 29.—A journal, Brescia, says that an Anarchist plot to kill the king of Greece was revealed recently by an informer to the Milan police.

The man designated by the informer was Italian, and was found to be in possession of letters proving that he intended to stab the king.

One of Lillian's Ex-Husbands. LONDON, Aug. 29.—Edward Solomon, the composer, formerly the husband of Lillian Russell, was arraigned in the Bow street police court, charged with refusing to support his wife, who is acting under the name of Kate Everly, and to whom he was married in 1889.

The hearing was adjourned, pending proceedings, with a view of effecting a legal separation of the contestants.

John Dillon's Idea. DUBLIN, Aug. 29.—John Dillon, M.P., speaking here this afternoon, said there would not be the slightest use in debating the Evicted Tenants Bill next session unless the Irish should act in such a way as to convince the landlords that their best policy would be to pass the bill.

Unless the Government plainly declared its policy in regard to the House of Lords the Irish party would have to reconsider the position.

Two Liberals Elected. LONDON, Aug. 29.—Elections were held in Leicester today to fill the parliamentary vacancies left by the retirement of Sir James Whitehead and James A. Pictou (Liberals), who were returned without opposition in 1892.

Walter Hazzell (Liberal) defeated Joseph Burgess (Labor) by a vote of 7,184 to 4,402.

Henry Broadhurst (Liberal) defeated Mr. Rolleston (Conservative) by a vote of 9,964 to 6,967.

Catholic Cathedral for London. LONDON, Aug. 29.—The Times announces that a scheme which has been under discussion for 30 years has practically matured to build a Roman Catholic cathedral in London, on a site in Westminster purchased by the late Cardinal Manning for £55,000.

The total cost of the edifice, it is estimated, will be £250,000. Nearly half of the amount has already been subscribed. The whole of Catholic Christendom will be invited to subscribe, and each person who gives £1,000 will have his or her name inscribed upon the cathedral as a founder.

Liberal donations, the Times says, are expected from the United States and the British colonies. The architect, Bentley, has been intrusted with the work of drawing the plans.

A Sick Czar. ST. PETERSBURG, Aug. 29.—The health of the Czar is causing general anxiety in Russia. There is no longer any doubt that His Majesty is threatened with grave kidney troubles.

It has been apparent for some time to those who have seen the Czar in public that he is a sick man. He has grown thin, his complexion is pale and of a bad color, and he has the air of a man who is greatly fatigued.

This was commonly remarked among the spectators at the recent launching of the armored cruiser Admiral Senilavine.

It is semi-officially stated that the sole reason for countermanding the order for the army maneuvers at Smolensk was the state of the Emperor's health. When Prof.

Zacharin was summoned to St. Petersburg to see the Czar it was the opinion of the palace physicians that his Majesty was suffering from a loose kidney. Prof. Zacharin, after a thorough examination of the patient, declared that the dangerous malady did not exist, but that the Czar was suffering from pronounced albuminuria.

The future movements of the imperial family will be regulated by the progress of the Emperor's disease. The Emperor will undoubtedly go to Copenhagen, as his physicians are of the opinion that the voyage and change will do him good. Prof. Zacharin will be appointed inspector of medical affairs at the imperial court, so that he will be able to be in constant attendance upon the Czar and watch closely the changes in his condition.

Chinese Report of Japanese Reverses. SHANGHAI, Aug. 29.—The native press has received confirmation of the battle fought between Chinese and Japanese troops on Aug. 13. According to them 3,000 Chinese of all arms attacked the Japanese force which had been detailed to guard the Ping Yang passes in the north-west of Corea, and eventually succeeded in driving the Japanese from the positions which they held.

A large number of Coraons hooked to the Chinese standard, begging for arms and asking for permission to form the advance guard of the Chinese force moving against the Japanese.

On Aug. 14, according to reports, the Chinese were reinforced by 4,000 troops from Yi Chow, and the following day they attacked the Japanese lines at Kong Ho, with the result that the Japanese retreated.

On Aug. 16 the Chinese army was further reinforced by 13,000 fresh troops, and on the 17th they attacked the Japanese, who are said to have lost 4,000 men and their heavy baggage.

The Chinese on Aug. 18 advanced to Huang Chow, and, passing to the east of Tating River, where thirteen Japanese warships were moored, they were attacked by the Japanese, who opened fire upon them with the ships' guns, inflicting a loss of several hundred men on the Chinese side.

At ebbs tide on the same day, the native reports add, three of the Japanese warships found themselves aground, and were afterwards severely damaged by the fire of the Chinese artillery, which was handled from ambush.

The bulk of the Japanese forces, it is asserted, retreated southward, pursued by the Chinese cavalry until night stopped the latter's advance.

Finally Gen. Yeh, the Chinese commander, made a detour, and attacked the Japanese in the rear, completely routing them and capturing Huang Chow.

The general news received here does not confirm the reports of these Chinese successes published by the native press.

The Shanghai correspondent of the Central News says: There is an uneasy feeling in Tien Tsin owing to the attitude of the native troops. Foreigners are arming themselves, as they fear an attack.

The Dutch Defeat Was Serious. THE HAGUE, Aug. 29.—The Official Journal today publishes a dispatch regarding the disaster to the Dutch forces operating against the Rajah of the Island of Lombok near Java. Gen. Vetter, the commander of the expedition, was surprised at 11 o'clock at night near Tjakra Nagra.

The firing was continuous until morning, and the Dutch in this engagement lost 14 killed and 85 wounded. As the water supply of the column failed and as foraging was impossible, the Dutch troops were compelled to retreat towards Mataram, the capital of the island.

During the retreat the Dutch lost heavily, being continually harassed by the natives, and at one place in the route they found barricades had been erected. The obstructions were so stoutly defended by the native warriors that troops were unable to force another passage and were compelled to make a long detour to avoid the blockaded route, and in so doing they lost more men.

The Dutch succeeded in reaching Ampenan on Aug. 25 with a total of casualties far in excess of that first reported. The killed included four officers and 63 men; there were twelve officers and 163 men wounded; and six officers and 148 men missing.

In addition the Vetter column lost four field guns. It now appears that two other columns of Dutch troops operating upon the same island have sustained heavy losses and endured much suffering.

These are the columns commanded by Cols. Pabst and Mylevelt. These columns have been operating separately and have also succeeded in reaching Ampenan. Their losses are not stated, but they are admitted to be heavy.

Col. Van Pabst was among the officers killed. Five steamers carrying troops and field guns are leaving Batavia, Java, for Lombok, and every effort will be made to retrieve the disaster to the Dutch arms.

The news of the disaster has caused great excitement throughout Holland, and it is believed the whole truth is not known, and that when the losses of the Van Pabst and Mylevelt commands are added to those sustained by the Vetter column the loss in killed and wounded and missing will be over 500 men.

The Government is being urged to dispatch the strongest reinforcements possible to Lombok. The Governor-General of the Dutch Indies, Gen. Van der Wyck, has summoned a council of military commanders, who are determining measures to be taken in order to wipe out defeats of Dutch troops.

ONE TOWN LESS. ELISTON, Mont., Virtually Obliterated by Fire—A Farmer in Trouble.

HELENA, Mont., Aug. 29.—The town of Eliston, on the Northern Pacific Railroad, was destroyed by fire early this morning. The only building left is the postoffice. Loss, \$100,000.

MITCHILL, Ont., Aug. 29.—Noah Condon's barn, about six miles from here, with the season's crops, was totally destroyed by fire last evening. Partly insured.

Lightning Spares the Baby. COLUMBUS, Tex., Aug. 29.—A terrific thunder storm near here nearly wiped out a family of movers named Hillyard, bound for Jackson county. They had four wagons and teams, and when about four miles below wagon, which was occupied by Mr. and Mrs. Hillyard and a baby. Killing the father, mother and two horses. The baby was in the lap of the mother, but escaped unharmed.

Ice land is pronounced, by a writer in the current number of the Quarterly Review, but a burnt cinder, more akin to a bit of the moon than anything on this planet.

The residents of Montreal Junction have decided to apply to the Legislature to change the name of the place to Montreal West.

The sale of timber limits held in the Toronto Board of Trade rotunda Wednesday afternoon is said to have been a failure.

The water power on the Winnipeg River is to be utilized to the extent of 40,000 horse power, and transmitted 110 miles to the city for manufacturing purposes.

The third annual meeting of the Chartered Stenographic Reporters' Association of Ontario will open in the Normal School, Toronto, on Friday, Sept. 7, for general business at 2 p.m.

On Wednesday night at Montreal a reception was tendered by the Montreal Orangerie to Hon. N. Clark Wallace, on the occasion of his return from the triennial council. About 2,000 persons were present.

The following assignments are reported in Bradstreet's: Alex. Menzies, drugs, Arnprior; Wm. J. Adams, builder, Brantford; Galbraith & Co., manufacturers of hosiery, Guelph; Wm. Greig, provisions, Toronto; Robert Lockhart, manufacturer, Walkerton.

Tuesday evening Mrs. Garrow, an old lady, mother of J. T. Garrow, M.P., Goderich, while walking near Seaforth fell, sustaining a fracture in the hip joint.

The circumstance is more distressing on account of her husband being buried the day previous. Mrs. Garrow being well up in years makes her recovery more doubtful.

Fortunate circumstances have made the lumber shipping trade from Ottawa this season very satisfactory, despite the world-wide depression there has been in matters commercial.

At the opening of the season the unusually low freight rates offered by Atlantic freighters induced the English dealers to purchase large quantities of deals. This kept the shipping fairly brisk all summer, and just as this market was failing somewhat the free lumber clause of the American tariff bill has had the effect of increasing the trade in ordinary plank and boards sufficient to take the place of the English trade.

METEOROLOGICAL MELANGE. Blinding Smoke, Fog, Forest Fires, Electric Storms and Some Showers, SMOKE AND FOG.

CHICAGO, Aug. 29.—The wind changed to the northeast and blew fresh at 11 o'clock today. It seemed as if all the lumber of the lake was blown up into this pocket, and at noon it was impossible for the lookout at the life-saving station to see the dock on the other side of the river.

Mingled with the smoke was fog, and captains of big steamers could not see the other end of their boats. The prophet of the weather bureau predicts that the smoke will stay on the lakes for some time, as only a heavy rain or high winds will dispel it, and neither of these are now on the cards.

FOREST FIRES. VICTORIA, B. C., Aug. 29.—Reports of all kinds reached here in regard to the forest fires in the vicinity of this city and across the straits. One report stated that the whole of the island of San Juan is threatened.

THUNDER STORM AT SEAFORTH. SEAFORTH, Ont., Aug. 29.—During a thunder storm at 7 o'clock this morning lightning struck the house of Edward Pappie, Mill road, near Seaforth, entering through a chimney, demolishing it, with several panes of glass, the wind making its escape to the cellar. The family were in the house at the time, but no one was injured.

FIRE BY LIGHTNING. About the same hour in the township of Stanley a barn owned by John McCash, containing this season's crops, was also struck by lightning and burned to the ground.

A light shower of rain accompanied the storm, which was of no benefit to the parched ground.

Nipissing Liberals Chose C. A. McCool as Their Candidate.

Patron Picnic at Port Colborne—Federal Fiscal Policy Severely Scored.

SEBURY, Aug. 29.—The Liberals of the newly-created Dominion electoral district of Nipissing met in convention here yesterday and selected Mr. C. A. McCool, of Mattawa, as their standard-bearer in the approaching election. Dr. R. H. Arthur, Sebuary, was elected as president.

WELLAND, Aug. 29.—The Patrons of Welland and Moulton held a very successful picnic here yesterday. W. D. Misener, county secretary, acted as chairman, and among the speakers were Prof. J. E. Beam, M. A. Gifford, grand trustee, of Meaford, and J. Lockie Wilson, grand trustee, of Gengarry.

The latter, in the course of his remarks, said that the farmers were showing they were alive. In the Ottawa Cabinet of sixteen there were eleven lawyers and no farmers. Doctors, lawyers, manufacturers, lumbermen, combine for their interests. We, he said, must do the same. We want tariff for revenue only, and that on luxuries. Coal oil on the other side was 6 cents; why pay 15 to make a few coal oil millionaires? Jasey, Gurney and many others have been made millionaires by us. The manufacturers are granted free raw material; we, as farmers, demand the same. I have always voted Conservative, but this is changed now. The cities have doubled in population, but there are fewer farmers and farmers' sons now than fifteen years ago. There is one law for the rich and another for the poor. The poor stay in jail; the rich contractors and Government supporters, Connolly and McGreevy, are discharged when prison air does not agree with them. The speaker severely scored the Curran bridge scandal, the uselessness of the Senate, the expense of the Cabinet and the Government House at Ottawa, all piling up heavy amounts squandered, the greater portion of which is paid by the taxes on farmers. Mr. Wilson closed by urging the Patrons to drop both Reform and Conservative, and vote Patron.

OTTAWA, Aug. 29.—George Taylor, M.P., who was here today, says that Parliament will meet early in January.

A Berlin correspondent says: The United States tariff has given much umbrage in Germany. The effect of the sugar duty will be rather to induce bounty giving in the countries that raise sugar than to abolish bounties.

At the Charles county, Md., Democratic Convention resolutions were adopted declaring that the efforts of President Cleveland and the Democratic House of Representatives to secure honest tariff reform "are entitled to the gratitude and hearty co-operation of Democracy throughout the country."

MRS. ROBBINS HOWE'S CAREER. Knew the Countess of Dufferin—Always Contributed to Her Mother's Support.

HARTFORD, Conn., Aug. 29.—The confidence woman, Mrs. Robbins Howe, who is now in jail here awaiting trial at the September term of the Criminal Court, will not be able to obtain bonds. The story of her career reads like a romance under the new lights that have been thrown upon it.

She first came to Hartford during the Centennial year, and became a member of the First Methodist Church, under the pastorate of the Rev. Richard Meredith, cousin of the well-known New York preacher. Mr. Meredith gave her high recommendations when she left the city for work in Canada.

She met the Countess of Dufferin at the Vice-regal House in Canada, when her ladyship's husband, the Marquis of Dufferin, was Governor-General. Mrs. Robbins Howe's assumption of the name of Mrs. Kent Mason was the first cause of trouble between herself and her husband, the Rev. Mr. Clayton. The latter, seeing the success which his wife was having as a lecturer, asked and afterwards tried to have her add his name to hers, making the name "Mrs. Kent Mason Clayton." He wanted his name to have the credit of the success of the woman whom he had married. She refused.

Clayton's conduct got him into trouble with the Methodist denomination, and he found it impossible to get a pastorate. His friends succeeded, after some time, in getting him a small church in a remote parish in Vermont. Then he went to England, where he married again, and dropped out of sight. Mrs. Robbins Howe has always managed to spare something for the support of her mother, who was afflicted with partial blindness.

TOO MANY SMOKES Carried on by Cigar Apprentices—They Were Watched and Searched. Two young apprentices at Fraser & Struth's cigar factory, corner Talbot and Dundas streets, were charged at the Police Court this morning with the theft of a dozen cigars.

As explained by the foreman, Mr. Clarke, goods have been missing for some time. These two boys were unexpectedly searched and the cigars found on them. Each boy in the place was allowed two cigars per day as an encouragement to honesty.

"We know there was theft somewhere," explained Mr. Clarke, "because there has been no waste. We set a close watch. This thing has to be stopped or we will have to stop business."

"Twelve cigars valued at 80 cents," said the magistrate, reading the indictment. "Is that the cost of the cigars?"

"They're 10-cent cigars," replied the chief; "6 cents is the factory price." And the audience got a pointer on business profits.

The magistrate, with the consent of the complainant, charged the boys, as it was their first offense. They were sentenced for three years and have served two already. One is 18 years of age and the other 17.

The only other case on the docket was a drunk—corporation laborer—though corporation work is not very flush just now.

STRUCK A SAND BAR. The Big Steamer Northwest Grounded Near Amherstburg—Frightened Passengers. DETROIT, Aug. 30.—The magnificent lake passenger steamer the Northwest ran aground at the mouth of the Detroit River last night. There were 400 passengers aboard. They were nearly all on deck, gazing through a pall of smoke to catch the first glimpse of land on the Canadian side of the lake when suddenly the steamer struck on the bar 500 feet west of the channel. The boat was going at a tremendous pace and the momentum forced her on the bar. In the bar, the cry arose that the steamer had struck a rock and was sinking. Instantly panic reigned supreme. People who were able to rise to their feet ran hurriedly around the steamer shouting and begging the crew to lower the lifeboat. It was with difficulty that several were restrained from jumping over the side. The officials vainly tried to quiet the crowd, and was only when the steamer was seen to remain above the surface that the more calm and collected helped to restore order.

Later—The Northwest is aground about 800 feet west of the Bar Point light ship. The water is going up a little and the crew may help to float her off. The steamer struck about midnight from Amherstburg and will make the attempt to haul the big boat off.

WALKERTON NOTES.

Walkerton being the county town of
Bruce it is growing slowly but solidly.
From the difficult position in which the
town is located the railway was compelled
to fix their station two miles west of the
town, which has seriously interfered with
the growth and progress of the place.
There are several handsome business blocks
on the main streets well occupied. The
Merchants' Bank and Bank of Commerce
have agencies well supported and doing a
good business. Chief among the grocery
houses is the "Mammoth Star Store" doing
a good business and with a very excel-
lent postoffice built by a Toronto firm who
received the contract over an able and re-
sponsible local firm, who were willing and
able to finish the work for the same amount
as paid the "Toronto favorites."

A large number of cattle and sheep are
shipped at this station for eastern markets
and Liverpool direct, many shippers being
compelled to sell at a loss on account of no
foot.

Last week a heavy shipment of harvest
apples was forwarded to places east and
south. The orchards are loaded, however,
with fall and winter fruit, and a heavy
business in the apple trade is expected
later and good prices expected.

Walkerton firemen held their picnic
Thursday on the fair grounds. The whole
town turned out in holiday costume. The
firemen marched through the streets
headed by an excellent brass band, fire and
drum and juvenile band. The whole after-
noon was spent in games, music and
speeches, etc. Mr. Trux, member-elect
for the Government at Toronto, marched in
the procession, while H. Cargill, M. P. for
South Bruce, was sitting in the Bruce
Herald office giving inspiration to the
editor-in-chief of that "Tory oracle" as to
his course during the coming campaign for
the Dominion election.

Fatal Melon-Eating Contest.
ROCKFORD, Ill., Aug. 29.—William De-
worth, a young farmer, made a wager with
his sister that he could eat more melons
than she could. The wager was taken up.
The man is dead and the girl cannot re-
cover.

The Saloon-Keeper Not in It.
WASHINGTON, Aug. 29.—Chancellor
Blackwell, in his address before the Knights
of Pythias, stated that the time had come
to declare that no saloon-keeper, bartender
or professional gambler should be eligible
for membership.

De Barry, the Canadian-Mater.
BUFFALO, N. Y., Aug. 29.—Wm. Joy, a
drunkard from Toronto, Ont., came here
three weeks ago and secured employment.
He did not come here under contract,
Inspector De Barry could do nothing
at all, but he hates Canadians so intensely
he sought out the contractor and pro-
posed Joy's discharge.

Safe Remedy for Neuralgia.
A lady is one of the most common and
is not confined to any particular
age, but is most general in the
female sex. It is often accompanied by
the heat of summer. In late
autumn it has become better
known, and the means of re-
lief are more numerous, as
among the most powerful
combinations placed
publicly for the relief
of neuralgia is
than Poison's Ner-
vina is something
like a trial for
neuralgia complaints.

WESTERN ONTARIO.

BRANT.
At Brantford on Tuesday Angus Duncan,
a little 4-year-old boy, had his left hand and
arm badly crushed in the cogs of some
machinery in Foster's restaurant. The
little boy went down the cellar unknown to
anyone, and in playing with the machinery
which was in motion, got his hand in the
cogs of some wheels, and had his arm badly
lacerated and bruised.

BRUCE.
Eden Grove.—This weather here is scor-
ching, the grass in many places is actually
burnt red, and cattle are suffering very
much. Though the crops are right on dry
land, yet an average crop has been secured
in good condition.—Eden Grove is a small
village on the Wellington, Grey and Bruce
Railway, now operated by the G. T. R.,
with Pinkerton on the north two miles dis-
tant, and Carleton Place two miles on the
opposite side. The station is called Pinker-
ton, while the postoffice is Eden Grove.—
Bush fires have been raging in the town-
ship of Greenwich, destroying much valuable
timber, fences, and in many cases threaten-
ing the destruction of houses, barns and
outstanding crops.—The apple trade is good,
but not so large as expected. Orchards are
neglected on account of the labor and time
necessary to keep them in good condition
for bearing.—Snake fences are rapidly dis-
tinguishing place to place and straight fences.
The log houses have faded out of sight, giving
place to fine brick houses and good barns.
—The county and concession roads are kept
in good order, and that without the aid of
the vexatious nuisance of the "old toll
gate."

ESSEX.
The Great Western and Windsor lodges,
A. P. and A. M., will dedicate their new
lodge rooms in the Fleming block, Windsor,
Thursday, Sept. 27. A number of Grand
Lodge officers are invited to be present, and
the most splendid and major has been ap-
pointed to attend. The dedication will be fol-
lowed by a banquet.

Miss Julia Davis, aged 18, daughter of
John Davis, of Windsor, who has been at-
tending Cumley House school for young
ladies in affiliation with Oxford University,
England, has received a gold medal for
having won the largest number of prizes
given by the university and got the Associa-
tion of Arts degrees, and a certificate from
the Academy of Music.

KENT.
An expert accountant has been engaged
by the Chatham council to examine the
treasurer's books.

Messrs. Bechard and Oldershaw, con-
tractors, of Chatham, have secured the con-
tract for the erection of the new Roman
Catholic parsonage at Tilbury Center, to
cost \$2,500.

The large stable and adjacent sheds of
Mr. Charles Brandon, liveyman, Wallace-
burg, were totally destroyed by fire on
Tuesday. Shortly after 2 o'clock the two
men sleeping in the stables were awakened
by the suffocating fumes of smoke, and on
endeavoring to get out of the building found
the way blocked by the flames. Both men
badly burned in making their escape. The
volunteer fire brigade fought the flames, but
despite their efforts the buildings were
totally destroyed. The loss on the stable
and sheds will be more than \$2,500, partly
covered by an insurance of \$1,200. Seven
horses were also burned to death, and all
the rigs destroyed.

MIDDLESEX.
P. C. London, a resident of Middlesex,
who formerly lived at Mount Brydges, fell
dead at the former place Tuesday morning
about 7:30 o'clock. He was in excellent
health on Monday evening. Cause of death,
heart disease.

John Smith, with many aliases, was ar-
rested in London on Tuesday on charge of
stealing a lady's gold watch, a pocketbook
and 80 cents in silver from McIntyre's hotel.
He was seen hiding the stolen articles in a
shed behind the Queen's Hotel. He was
committed by Squire McKosh to stand trial
in London.

NORFOLK.
A communication was received at the Do-
minion Fisheries Department recently from
a gentleman living at Dunnville stating
that all along the shores of Lake Erie, east
and west of Grand River, a tremendous
quantity of fish, chiefly perch and small
black bass, was being washed ashore dead,
and asking for the cause. The matter will
be investigated.

INTERESTING CASE IN GUELPH.

**Ex-Reeve Burt Fined for Interfering
with a Latter Day Saints Preacher.**

The Guelph Herald says: On Thursday
the time of the police magistrate was oc-
cupied in hearing a case brought by the Rev.
Mr. Gregory against Mr. John Burt, ex-
reeve of Erin. Mr. Gregory is a traveling
preacher and licensed minister of the
Church of Latter Day Saints.

It appeared from the evidence that Mr.
Gregory had applied to the trustees of the
Union Church at Countryside for leave to
hold services on the evenings of Aug. 18
and 19. Mr. Gregory was granted the free
use of the church on condition that during
his discourse he would confine himself to
the use of the King James version of the
Holy Scriptures and would not use any
other version or translation, as it was
understood by the trustees that Mr.
Gregory entertained Mormon views. Upon
these conditions Mr. Gregory held his
meeting on Aug. 18. It seems that upon
this occasion the service was entirely un-
objectionable.

On the evening of the 19th there was an
audience of about 50 people present, among
whom was Mr. John Burt, the defendant,
who is a trustee of the church. Mr. Gregory
chose for his theme on this occasion the
subject of "Baptism," and commented
upon some apparent contradictions in the
Gospel by St. John upon the subject, re-
marking that there was another translation
of the Bible which gave a different meaning
to the two passages. Upon this Mr. Burt
stood up in the audience and protested that
Mr. Gregory had broken his contract and
had introduced passages from Joe Smith's
Bible, and he thereupon requested Mr.
Gregory to leave the church. This Mr.
Gregory declined to do; whereupon Mr.
Burt went over to the organ and drummed
upon the instrument for a few minutes,
rendering it impossible for Mr. Gregory to
proceed. The meeting finally broke up in
some confusion.

Mr. Gregory then laid an information
before the police magistrate, charging Mr.
Burt with willfully disturbing a religious
meeting. The case lasted all day, a good
many witnesses being called on both sides.
At the conclusion his Worship decided
that Mr. Burt was not justified in stopping
the meeting as he had done, and that Mr.
Gregory had not broken his contract with
the trustees of the church, and that in any
event Mr. Burt's proper course was to have
gone up to Mr. Gregory quietly and asked
him to give up the building, instead of
resorting to the means which he used to
bring his point. The magistrate inflicted a
fine of \$5 and costs upon Mr. Burt.

Lady Aberdeen's Hobby.

The Countess of Aberdeen's hobby seems
to be poultry. At the Highland and Agri-
cultural Society's show at Aberdeen her
birds won prizes or honorable mention to
the number of twelve. They consisted
mostly of Dorkings, Cochins, Chinas, Ply-
mouth Rocks, Leghorns and Wyandottes.
In the Matter of Coal.

NEW YORK, Aug. 29.—The coal sales
agency today did not make any change in
the scheduled prices for next month's de-
livery, but restricted the output for Sep-
tember to 2,500,000 tons.

DOSED BY A DRUGGIST.

**Novel but Effective Plan of Dealing
with Burglars.**
BROOKLYN, Aug. 29.—Fred J. Win-
dolph, druggist, No. 564 State street, was
asleep in the rear of his drug store at 1:30
o'clock Monday morning, when he was sud-
denly awakened by hearing a noise in the
front of the store. He arose quietly and
saw two men outside the store. One was
giving the other a "lift" to get inside the
store by climbing through the front door.
The first man entered, and the second one
followed him soon after.

Mr. Windolph had no weapon with
which to defend himself, and while watch-
ing the men a novel idea entered his mind.
He went quietly to the prescription coun-
ter and took down a bottle of concentrated
ammonia and filled a glass full of it. Then
he waited. In a few moments the burglars
came to the rear of the store where he was
standing. One of them advanced a few
feet, when Mr. Windolph threw the am-
monia full in his face. The man staggered
and inquired what his friend was doing.
Neither burglar saw the ammonia, and the man who
had been struck fell unconscious to the
floor. Meantime Mr. Windolph had quickly
prepared another dose. He threw it at
the other burglar, but as he did so the
man turned and it struck him in the neck.
He smelled it, and with a yell ran for the
door. It was closed and locked, and without
the least hesitation he jumped through the
plate glass window of the door. The other
robber had recovered consciousness and
straggled to the door, and also jumped
through the hole in the glass made by his
companion. A policeman, who was a block
away, heard the crash of the glass, and
coming up just as the second robber
jumped through the window, seized him.
He made no resistance, and appeared dazed.
His companion escaped.

At the station house he gave his name as
Joseph Phillips, 19 years old, of New York.
Next morning he pleaded guilty in the
police court, and was held for the grand
jury. He could hardly see.

SHE IS STILL WELL.

Many People Thought That Mrs. Reany's
Recovery Was Only Temporary—
A Pleasant Disappointment—
She Is Better Than Ever.

SHELBURNE, Aug. 27.—When Mrs.
Reany's letter appeared in a local paper
here some time ago, giving a history of her
long illness and final cure of kidney
disease by Dodd's Kidney Pills, many
readers thought her improvement
was only temporary. All such have
been most successfully contradicted, as a
letter lately received here from Mrs.
Reany states that she has all along been
gaining in general health, since her kid-
neys were restored to a sound state, and
that for many years she has not enjoyed
such good health and spirits. Mrs. Reany,
therefore, still points the way to Dodd's
Kidney Pills and recommends them as
strongly as ever to afflicted members of
her sex.

SALOONS ON WHEELS.

Right of the Pullman Company to En-
gage in the Business to be
Contested.

CHICAGO, Aug. 29.—Attorney-General
Moloney will soon see an amended bill of in-
formation in quo warranto proceeding on
officials of the Pullman Palace Car Com-
pany. He proposes to contest the right of
the Pullman Company to engage in the
saloon business on its palace cars. "I am
determined to have a decision defining the
powers of that corporation," he said. "The
first thing I have in my possession—contract
in amended bill will be information concern-
ing these saloons on wheels the Pullman
Company operates. The audacity of these
people astounds me," Attorney-General
Moloney continued. "I have learned that
the Pullman Company is one of the most
extensive manufacturers of brick in this
city. They cannot claim that their prod-
uct is used in the town, for I have seen—
in fact I have in my possession—contracts
they have entered into to furnish brick at
other builders. That is no more a legiti-
mate part of their business than running
saloons, and I believe the courts will stop
it."

ANXIETY IN CHATHAM.

For the Fate of Three Citizens Who
Went Canoeing Three Weeks Ago.

CHATHAM, Ont., Aug. 29.—Anxiety is
felt here for the safety of three well-known
citizens of Chatham, who left about three
weeks ago on a canoeing trip on the
Georgian Bay. The party includes D. M.
Christie, barrister; Geo. F. Risipin, G. T.
R. ticket clerk; and Arthur Northwood,
modern language master in Ottawa Col-
legiate Institute. Mr. Lester, partner of
Mr. Christie, received a letter dated the
16th in which it was stated they would
reach North Bay about the 20th and tele-
graph from that point, but no word has
been received, and it is feared some acci-
dent has befallen them.

Prices Under the New Tariff.

BUFFALO, N. Y., Aug. 29.—Wool,

MEN AND WOMEN FOR CANADA.

Strong efforts are being made to divert
 Scottish immigration to Canada. It is
 recognized that the Scotch make the very
 best of settlers. Only the other day, in
 speaking at a Montreal banquet, the Eng-
 lish admiral of the North Atlantic fleet
 said that he could desire no better fate for
 Canada than to be recognized in future
 generations as the Scotland of North
 America, with all the enterprise and
 determination to succeed which that im-
 plies. This is highly complimentary to the
 sturdy men of the North. For ourselves,
 we believe that a mixture of the best in all
 northern nationalities provides the most
 enduring race. We need the best men and
 women obtainable from every old
 world land to settle our vacant
 lands and work our mines and other great
 natural resources. We can find homes and
 a living for millions of the Scotch, English,
 Irish, German, French, Swedish, Nor-
 wegian and Italian surplus population,
 provided they are willing to go on the
 vacant lands and into the mining regions
 and hew out for themselves a place of abode,
 as the stalwart pioneers of Canada did.
 These new comers may for a time keep
 themselves apart in groups, according to
 their former national affinities, but we
 have hopes that as time goes on they will
 assimilate with other sections of the popu-
 lation, and unite in building up a united
 Canada, strong in the determination of its
 people to mind their own business and
 steadily pursue the arts of peace and
 progress. We have no sympathy with the
 views of a writer in the Toronto Empire,
 who has been cavilling at the migration of
 French-Canadians from congested districts
 in Quebec Province to the vacant lands in
 Northern Ontario. We need all the settlers
 in this Province and in our great west that
 can make a living for themselves. The only
 objectionable immigration is that promoted
 by the Ottawa authorities when they pay
 bonuses to the old world philanthropists to
 flood the country with juvenile waifs
 and strays, while we have a larger native
 crop of that kind of population than can with
 difficulty be taken care of, and who subsidize
 immigration agents and steamship com-
 panies with public money to promote the
 immigration of men not in a condition to
 make a fair and independent start in a new
 world. Men and women of some means,
 who can take up land and work it, are the
 settlers needed in Canada today. We have
 no need to import mechanics, professional
 men, town laborers, and dependent chil-
 dren.

OUR MILITIA.

General Herbert, head of the Canadian
 militia force, in a recent speech to rifle-
 men at Ottawa, warmly praised the Martini-
 Metford rifle, with which the militia is
 being armed. He contends that much
 better results can be attained than with the
 Martini-Henry weapon, now about to be
 discarded. As to the weight, General
 Herbert says the new rifle is only half a
 pound heavier than the weapon which the
 force has been carrying for the last 25
 years. Moreover, a man carrying a Met-
 ford rifle and 100 rounds of ammunition
 actually carries four and a half pounds less
 weight than the soldier carrying a Martini-
 Henry rifle and the same quantity of am-
 munition. These explanations will be
 more satisfactory to the rank and file of
 the militia force than the excuse which has
 been given for not holding the annual
 camps this year, while spending a largely
 increased amount upon the excursion and
 camp of the permanent force.

Bonuses are getting into disfavor. A
 Berlin, Ont., public meeting has almost
 unanimously resolved not to loan \$25,000,
 without interest, to the shirt factory of
 that place, which is in trouble through the
 speculations of two of its proprietors.

WHY NOT MAKE LONDON A
GOOD CATTLE SELLING AND
SHIPPING POINT?

Is nothing to come of the project to estab-
 lish a great cattle market for the West in
 London? When the agitation in favor
 of procuring the Queen's Park for fair
 grounds was in progress we heard a great
 deal about the advantages that would
 accrue to the city from the possession of
 so important a property. It was pointed
 out that the ownership of a park so admir-
 ably situated for the collection and sale of
 animals for export would place this
 city on an equality with Toronto, if not
 ahead of it, and enable this city to become
 the shipping point for all the cattle and
 horses purchased at Western Ontario. We
 have direct connection here with more
 trunk lines of railway than any other
 leading city in Canada, having
 the Grand Trunk, the Canadian
 Pacific, and the Michigan Central rail-
 ways right into the center of the corpora-
 tion. We have railways to feed these trunk
 lines concentrating in London from every
 point in the West. What more do we need
 to make London a great cattle shipping
 point? We need the cordial co-operation
 of the civic authorities and the cattle men,
 and London can be made as much a cattle-
 selling and shipping point as it now is a
 center for the sell and exportation of
 cheese.

We sometimes think that our citizens do
 not value their privileges and advantages.
 If the prestige of the city is to be main-
 tained, and it is to enjoy a healthy
 growth, this desirable future can only be
 insured by unanimous and steady efforts on
 the part of citizens generally.

MYSTERIES.

By a peculiar coincidence, Lord Salis-
 bury, the British Conservative leader, and
 Hon. David Mills, one of the most cultured
 Parliamentarians in Canada, have recently
 given utterance to sentiments opposed to
 the evolution theory as at present revealed.
 The Canadian Liberal statesman has found
 his audience in the columns of the Cana-
 dian Magazine. Lord Salisbury has been
 heard from as president of the British
 Association for the Advancement of
 Science, which held its 64th annual meet-
 ing in England on Saturday. We have
 already summarized the views of Hon.
 Mr. Mills. A brief reference to the con-
 tentions of Lord Salisbury may be interest-
 ing.

Instead of following the plan usually
 adopted by scientific leaders, and dilating
 on the progress of investigation during the
 year, Lord Salisbury undertook a survey
 of popular ignorance on scientific subjects,
 and he succeeded in showing that there is
 very much to learn, even for the most ac-
 complished of savants. He pointed out,
 for example, that conspicuous among the
 scientific enigmas which still defy solution
 is that regarding the nature and origin of
 the chemical elements. Of these 65 are
 known to us, but only a third of them
 seem needed to form the substance of
 this planet. Another third are
 useful but somewhat rare, while
 the remaining third are curiosities.
 Upon what law or principle was this seem-
 ingly random collection of dissimilar
 materials brought together? The chemist
 is as yet unable to reply. Attention was
 then directed to the fact that nitrogen and
 oxygen are absent from the spectrum of
 the sun, although these two elements con-
 stitute the largest portion of the solid,
 liquid, and aerial components of the earth.
 Bearing this in mind, Lord Salisbury pro-
 pounded to physicians the following conun-
 drum: "If the earth is a detached bit
 whirled off the mass of the sun, how comes
 it that in leaving him we cleaned him out
 so completely of his nitrogen and oxygen
 that not a trace of these gases remains to
 be discovered even by the sensitive vision
 of the spectroscopist?"

The nature of ether was another mystery
 touched upon by the noble president.
 Almost all that is known about the ether
 is that it undulates, and probably at the
 same rate for the passage of light as for
 that of electricity. Inasmuch as elec-
 tricity penetrates everything, the inference
 is that the ether by which it travels must
 pervade all space, whether empty or full.
 Apart from this deduction and the fact of
 undulation, the mystery of the ether re-
 mains inscrutable. Then, again, what
 have we learned thus far about the origin
 of animal and vegetable life? What was
 the strange impulse which was able to
 strike across the ordinary laws of inor-
 ganic matter and twist them for a moment
 from their path? The biologist cannot say.

Taking up Darwin's origin of species
 Lord Salisbury maintained that one of the
 strongest objections to the hypothesis
 seemed still to retain all its force. He had
 in mind the objection first made by Lord
 Kelvin that the amount of time required
 by the advocates of the Darwinian doctrine
 for working out their process of evolution
 could not be conceded without assuming
 the existence of a totally different set of
 natural laws from those with which we
 are acquainted. If the mathemati-
 cians are right and they adhere
 steadily to their figures, the biologists
 cannot have the time which they demand.
 Much stress was also laid by Lord Salis-
 bury on an admission by Prof. Weismann
 in a paper published a few months ago.
 "We accept natural selection," says Weis-
 mann, "not because we are able to demon-
 strate the process in detail, nor even be-
 cause we can with more or less ease
 imagine it, but because we must; because
 it is the only possible explanation that
 we can conceive." Lord Salisbury
 closed his interesting address by quoting
 a statement of Lord Kelvin's: "I have al-
 ways felt that the hypothesis of natural
 selection does not contain the true theory
 of evolution, if evolution there has been in
 biology. I feel profoundly convinced that
 the argument of design has been greatly
 too much lost sight of in recent zoological
 speculations." Lord Kelvin followed Lord
 Salisbury. Though he had uttered those
 words twenty years ago, he neither dis-
 avowed nor in any measure sought to re-

vise them. To Darwin's theory, at its
 best, must be applied the Scottish verdict
 of "not proven."

VERITIES.

Hon. Edward Blake, M.P., will be
 tendered a reception by the Irish National
 Federation before he returns to Great
 Britain. The gathering will take place in
 New York city.

It may be some consolation to Onta-
 rio farmers who are struggling with
 myriads of grasshoppers to know that some
 varieties of that insect are infested at this
 season by a voracious little parasite, that
 settles by the score near the base of the
 victim's wings, and eats away until the
 grasshopper is disabled. You see dozens
 of grasshoppers moving feebly, with the
 tell-tale crimson spot on the back, and a
 damp, serum-like liquid oozing from the
 wound.

AD INFINITUM.

(From the Christian Cynosure.)
 The idea of this secret society, the A. P. A.,
 is to oppose the Catholic Church, but
 soon there will have to be another secret
 society to fight the A. P. A., and another
 to fight them, and finally it would reach
 a point that would remind one of the old
 rhyme:

"Big fleas have little fleas to bite 'em.
 And so on *ad infinitum*."

RAGING FLAMES!

Are Sweeping the Forests of Michi-
 gan and Wisconsin.

Rain the Only Salvation—People Des-
 tute and Hungry—Enormous Losses.

BAY CITY, Mich., Aug. 30.—The forest
 fire northwest of the city are becoming a
 source of alarm. Unless rain comes soon
 great suffering will be entailed.
 CHIPPWA FALLS, Wis., Aug. 30.—Forest
 fires in this section of Northwestern Wis-
 consin have been intermittent for two
 months, and the aggregate loss is not less
 than \$5,000,000 in the pine lands and saw-
 mills, not to mention individual losses.
 Fires are raging on the outskirts of
 Pontiac, which was almost destroyed a
 few weeks ago. The village of Vesper, in
 Wood county, was completely demolished
 yesterday, and twenty families are reported
 homeless. At Marine City, 100 miles dis-
 tant, the citizens are exhausted by contin-
 ually fighting the fires, and little is left in
 the village. At Lafayette forest fires have
 devastated the homes of six farmers. Fire
 is raging at Phillips, which was almost
 destroyed in the last fire.

Fires are burning along the Chicago,
 St. Paul and Milwaukee Railroad
 between Chippewa Falls and Spooner for
 200 miles and every town is suffering.
 Fires are raging with terrific fury through
 the forest of Burnett and Washburn
 counties close to the railroad tracks and
 passengers report that the country is like a
 sea of fire. The Wisconsin Central and the
 Omaha railroads have been severe losers by
 fires. Their tracks were burned for miles
 and a number of freight cars were lost by
 the latter at Marine. The most extensive
 cranberry farm in Wisconsin, five miles
 from this city, owned by A. Glum & Dono-
 van, was completely destroyed yesterday.
 The Chippewa Lumber and Broom
 Company of this city has lost \$100,000 in
 standing pine.

ISHPING, Mich., Aug. 17.—Bush fires
 are burning in every county of the upper
 peninsula of Michigan. The Diamond
 Match Company have been the heaviest
 losers by fire.
 Of the 250,000,000 to 300,000,000 feet of
 standing pine burned in Ontonagon county,
 the Diamond Match Company has lost over
 100,000,000.

HARTSVILLE, Mich., Aug. 30.—Forest
 fires have pretty thoroughly swept all
 of the locality lying between this city and
 West Branch, 84 miles distant along the
 line of the Michigan Central Railway.
 Many families have lost everything and are
 suffering from exposure and hunger. Crops,
 fences and entire sections and townships of
 valuable timber have been swallowed up,
 and the only salvation for the little prop-
 erty remaining is rain.

GOOD TIMES COMING!

A Big Revival of Business in Chicago—
 A Tariff Reform Effect.

CHICAGO, Aug. 30.—Inquiry among the
 best representatives of the mercantile
 community establishes the fact clearly
 that business has recovered its old-time
 health and vigor here. There is no general
 boom, but trade has revived from its
 lethargy. One firm was found which has
 encountered a genuine boom. It has not
 been favored with so large a business in
 years.

Business is generally compared with
 that of two years ago by jobbers. The
 figures are reported as showing an increase
 of from 25 to 30 per cent in volume for the
 present month over that of 1892. Those
 who have been the first to feel the effect of
 the new tariff are dealers in drygoods.
 Banks report an increased demand for
 money.

TO KILL SATOLLI.

An Alleged Plot for That Purpose—A
 Peculiar Arrest.

NEW YORK, Aug. 30.—Edward Stolz,
 of Meadville, Pa., has been arrested on
 suspicion of entertaining murderous designs
 against Mgr. Satolli, the Pope's American
 representative. He was arrested while
 talking to himself about the proposed deed.
 Stolz says he is one of ten men who made a
 compact to kill Satolli and he was on his
 way to Washington to do it. He will be
 examined as to his sanity.

QUESTIONS ANSWERED.

TUNERVILLE.—Have all the executors of
 an estate (sometimes as many as four) the
 right to sign a petition in favor of or
 against a drain under the provisions of the
 Ontario Drainage Act, 1894, or can
 only one sign for the whole. ANS.—All
 have a right to sign the petition as repre-
 senting the owner's estate, but the signa-
 ture of any one of them would be effec-
 tual for the purpose. Any one or more of
 the executors may represent the estate,
 which counts one on the petition.

FRIDAY
BARGAIN
DAY

A Long String of Fish

Is not carried up a side street. It's just about as important to let
 folks know you've got something good for them as it is to have it to
 begin on. Wasn't there something said once about burying your
 talent in a napkin? Having done our duty by securing the goods
 and calling attention to them, we leave you to do yours by seeing
 them. For all who visit us we have bargains; for those who
 don't sympathize.

HERE WE ARE AGAIN!

THE WHEEL.

RACING AT QUEEN'S PARK.
The half mile clay track at Queen's Park yesterday afternoon was honed up with the presence of Canada's fastest flyers on the wheel. About 1,200 people patronized the first meet of the Meteor Bicycle Club and enjoyed a fine racing programme. A better lot of riders has not been seen on local grounds. All the Toronto cracks who entered except Carman were on hand. Harbottle, the quarter mile champion; Hensall, the 100 mile road champion; Johnson, brother to the world's record breaker; Davidson, who is developing into one of the swiftest this year; Rogers, Burnside, Robertson, McCarthy, McKellar and other lesser luminaries from the Queen City displayed themselves. Sarnia sent its hero, McLeod, and he proved a breakwater against the Toronto flood. But for him the eastern men would have swamped everything. As a western man the heart of the audience warmed towards him, the more so because Rayway and Little did not realize expectations. The Sarnia boy became the favorite, and his victories were almost as warmly cheered by local people as by a delegation from McLeod's home, who went fairly wild. Harbottle had a tumble in his very first race and was rendered hors d'combat for the rest of the day. Luckily there were lots of them left and there were some pretty brushes. Rayway's failure was mortifying, but it must be remembered that his forte is long distance riding and this is his first year on the track. He has no training facilities here and the change from the English climate has had a disturbing physical effect. He was always well up in the races until the last, when his spurring incapacity was painfully evident. Among the new riders Frank Sweeney proved a star of promise.

The weather, excepting a somewhat stiff breeze, was pleasant for racing. Threats of rain, perhaps, prevented a larger attendance but the conditions for all were agreeable. Considering that it is their first meet, the Meteors displayed admirable management, and the programme was run with all possible celerity. That the occasion will prove a financial encouragement to the club is the wish of their friends.

A description of the races is appended:

ONE MILE NOVICE.
There were a multitude of starters in the first race, the one mile novice, and it was run in three heats. London Bicycle Club members had it all their own way, and first prize fell to Frank Sweeney, who is developing into a good rider. Summary:
First heat—J. P. Mahler, London B. C., won; W. E. Sherbrooke, Meteors; C. Reid, London B. C., 3. Time, 2:30.
Second heat—F. Sweeney, London B. C., won; G. Doherty, Toronto B. C., 2; B. Holt, London B. C., 3. Time, 2:28.35.
Final heat—F. Sweeney, won; B. Holt, 2; J. P. Mahler, 3. Time, 2:35.45.

HALF MILE OPEN.
The half mile open brought out all the noted flyers. The dashing Harley Davidson, of Toronto, in his flaming scarlet dress, was the victor. There is no telling what Harbottle might have done but for that unlucky fall of his in the first heat. A breakage of his handlebars caused it. Rayway succeeded in getting into the final, but was lost on the home stretch. A slender youth, Patterson, of Detroit, secured second, and Rogers, of Toronto, a rider of reputation, third. Summary:
First heat—H. Davidson, Royal Cana-

dians, Toronto, won; A. Rogers, Toronto B. C., 2; F. Rayway, London B. C., 3. Time, 1:13.

Second heat—A. McLeod, Sarnia, won; Patterson, Detroit, 2; P. Devine, St. Thomas, 3. Time, 1:11.35.

Final heat—H. Davidson won; P. Patterson, 2; A. Rogers, 3. Time, 1:12.45.

ONE MILE HURON DISTRICT CHAMPIONSHIP.
Great interest centered in this contest. Charley White, of London, won the championship on May 24, beating out McLeod, who was then only budding out. The Sarnia man on Aug. 15 captured it at his home amid the cheers of the populace. It was expected that the honor would be returned to London on this occasion, and White, Little and Rayway entered the list as the local champions. McLeod was too fast for them. They were all pretty well bunched on the last turn, when the Sarnia man put on one of his spurts and showed a clean pair of heels to Rayway and White, who finished second and third. The grand stand was disappointed, and McLeod's Sarnia friends cheered themselves black in the face. The time was 2:25.45.

TWO MILE CLUB HANDICAP.
This event was open to Meteors only, and their crack man, Sherbrooke, had no trouble in overcoming big handicaps and passing the field. B. Firth (30 yards start) was second, Tracy O'Brien (300 yards), third, and H. Gorman (225 yards), fourth. The race was good for the kind.

ONE MILE OPEN.
This brought out most of the fast men again. In the first heat Rayway secured third and a place in the final, which lay between himself, McKellar, McLeod, Davidson, Robertson and Burnside. It was a pretty race. Rayway let himself out on the last turn and passed the field, but on the last few rods dropped away behind for lack of a spurt. The redoubtable McLeod forged ahead by a terrific effort, beating Davidson by a neck. Robertson was a close third. Summary:
First heat—H. D. McKellar, Athletes, Toronto, won; A. McLeod, Sarnia, 2; F. Rayway, London B. C., 3. Time, 2:28.15.

Second heat—H. Davidson, R. C. Toronto, won; L. D. Robertson, Athletes, Toronto, 2; F. Burnside, Toronto B. C., 3. Time, 2:23.

Final heat—A. McLeod won; H. Davidson, 2; L. D. Robertson, 3. Time, 2:25.

ONE MILE, 2:35 CLASS.
This race was to have been run in three heats. The first was won by McKellar, of Toronto, with Rayway second and Patterson, of Detroit, third. The second heat, in which Rogers, McCarthy and Young, of Toronto, finished in the order named, was declared no race on account of slow time. It was run again with no better results, and was declared off entirely. The winners of the first then raced for places, Rayway dropping to third after leading most of the distance. McKellar won, with Patterson second. Time, 2:33.

TWO MILE TANDEM.
The advent of the bicycle built for two was quite a novelty. McLeod (Sarnia) and McKellar (Toronto) were matched against Robertson and McCarthy, both of the Athletes, Toronto. McLeod took Davidson's place at the last moment, and was naturally out of practice. The race was a loaf, and Robertson and McCarthy won easily in 5:22, which is slow time for a tandem.

TWO MILE HANDICAP.
There were about 30 riders in the two mile handicap, which was run in two heats. Davidson, of Toronto, was the only scratch man, and he gave up the race as hopeless. The field narrowed down to a dozen in the final. H. Tolton, of Galt, was the lucky man. He was pushed by Hensall, who got second. Frank Sweeney, of London, secured the third prize. Summary (with handicaps):

First heat—H. Tolton, Galt, (200 yards start), won; F. S. Gordon, Hamilton, (200 yards), 2; McIntosh, Wanderers, Toronto, 3; B. Holt, London B. C., (300 yards), 4; F. Sweeney, London B. C., (300 yards), 5; C. H. White, London B. C., (200 yards), 6. Time, 4:38.5.

Second heat—J. Crow, Toronto, (175 yards), won; R. Hensall, Toronto, (60 yards), 2; A. F. Little, London B. C., (275 yards), 3; J. P. Mahler, London, (275 yards), 4; A. Young, Toronto, 5; G. E. Rowen, Guelph, 6. Time, 4:39.

Final heat—H. Tolton, Galt, won; R. Hensall, Toronto, 2; F. Sweeney, London, 3. Time, 4:58.25.

CLUB TEAM RACE.
With Rayway, Little and Charles White—good long distance riders—the London Bicycle Club hoped to capture the club race. The London boys took the lead, but the Toronto spurs were too much for them on the home stretch and they got only second. Little finished third, Rayway fifth and White sixth or seventh. The points scored were:
Athletes B. C., Toronto (Robertson, McKellar and McCarthy) 20.
London B. C. (Rayway, Little and White), 14.
Toronto B. C. (Burnside, Doherty and Rogers), 12.

NOTES.

The meet was away ahead of the lantern parade.
When, oh when, is that new track to be started?
Van Tuyl's (Petrole) machine was sadly wrecked after finishing the first heat of the two-mile handicap. Van crawled from under, unhurt.

Harbottle's injuries were not serious, though he was stunned at first.
James Crowe, of Toronto, was upset by a dog in the two-mile handicap, and three or four riders were compelled to dismount.

Now for the Western Fair races.
Several post entries proved perplexing to the audience. The numbers were some what mixed, too, and the time should have been placarded. Everything should be made plain for the grand stand.

The prizes were distributed in the Grigg House dining room at 8:30 p.m. A large crowd was present, and the happy prize winners received their trophies amid applause. Short speeches were made.

Of course, George H. Orr, of Toronto, was on deck. No meet could be complete without the genial and perennial George. A dozen years ago he was a flyer on a high wheel, and he never could shake off the fascinations of the track. Incidentally it might be mentioned that he and Mr. W. Kingley Evans, who was present, are perhaps the oldest members of the C. W. A., Hal Donly barred, though both are young in years.

The officers of the day were: Referee, Geo. H. Orr, Toronto; starter, J. D. Balfour, M.D., London; judges, T. A. Browne, C. W. Belton, M.D., J. A. Croden; timers, Thos. Gillean, B. Horsman, A. Gorman; clerk of course, J. J. Foot; C. H. Tambling and F. Sordani, assistants; scorers, R. W. Atkinson, P. Carroll, J. McCormick; umpires, W. C. Southcott, W. Mann and J. F. Meyles.

AGAIN 'TAS DONE ON A SMALLEY.
Frank R. Sweeney was London's star in the Meteor bicycle races yesterday. He won the second heat of the mile novice in 2:28.35, being only two seconds from the Canadian record for this race, and he came in an easy winner in the final. In the two-mile handicap he took third race.

Frank rode a buck handle (aluminum finish) Smalley.

In the races yesterday our wheels won

four first prizes, two seconds and two thirds.

First in one mile novice; second in one mile novice.

First in half-mile open, second in one mile open.

First in one mile, 2:35 class, third in club handicap.

First in two-mile handicap; third in two-mile handicap.

We handle wheels to please everybody. W. Mann & Co., 397 and 403 Clarence street.

HOT WORK AT SHEEP-HEAD BAY.
SHEEP-HEAD BAY, Aug. 29.—There were seven races on the programme today. The attendance was very large. One of the plunges of the year was made on Golden Rod to win the second race. All the big plungers were aboard, and her opening price was posted at 2 to 1. She closed in active demand at even money, and it is estimated that several fortunes were dissipated by the filly's defeat. She ran a superb race, but Tiger, a 5 to 1 shot, ran a trifle better.

The third race was supposed to be a foregone conclusion for Don Alonzo, but the race resolved itself into a struggle, Strathmear forcing the big cut to fight to hold his own, and easily making it a dead heat.

DRESSY PERSONS

Wear dressy Costumes, and dressy costumes are made from Smallman & Ingram's dressy goods. It would take a long time to enumerate our many attractions in Dress Goods, besides it would be unnecessary for us to do so here, as the ladies of London pretty thoroughly understand that when they want a stylish and good article S. & I.'s, is the place above all others to get it. Strangers don't take long to discover this fact, and those who have lived in the city any length of time require very little urging to come to us. It is only when we have some unprecedented bargains to offer that we

MAKE A CALL

Specially to arouse the purchasing public to accept the opportunity while it's going. Today we are offering six cases of imported Dress Goods, in Tweeds, Serges and Royal Armure Cloths. A beautiful mixed Tweed, 42 inches wide, to-day at 20c. Our 35c, 45c, 50c, 65c and 75c Tweeds are good value and have opened out beyond our expectations. You should see these early.

In Navy Serges we are showing an extra heavy line of Wool Serges at 35c and 40c.

In Estamine Serges (our beautiful line) 44 inches wide, at 50c and 65c are worth much more.

In heavy Diagonal Serges we are offering superior value at 50c, 65c and 75c.

All-Wool Royal Armure Cloth in all shades at 50c.

When you are looking up these bargains, don't forget to look up the bargains in our Shoe Department. We have an elegant stock at prices astonishingly low.

was won by Irish Reel, who challenged the leader, Gutta Percha, within a sixteenth of the all important line, and a hard drive ensued. The Keene filly was game, however, to the last post. She slowly but surely drew away from Gutta Percha and crossed the line the winner of a superb race by a length in the fast time of 1:11.25, just two-fifths of a second lower than the Butterflies Futurity.

The next event of the card, the Flight stakes, for 2-year-olds and upwards, was robbed of much interest by Dominie evading a meeting with Clifford. Lady Violet at the fall of the flag went to the front and when they swung into the stretch they were lapped onto each other. Soon they were on even terms. Griffin then began to ride Clifford with hands and heels, but Lady Violet, driven for all she was worth, lunged to him with bulldog tenacity to the end.

"Who sent it?"

"I cannot tell you, Mrs. North."

"Have you no idea at all?"

"Certainly not. How should I have?"

"Could you detect no resemblance in the writing to any one's you know?"

He shook his head.

"Not to—for instance—Alexander's?" she asked, looking at him steadily.

But Dr. Rane saw with a sure instinct that Alexander's was not the name she had meant to speak.

"I feel sure that Mr. Alexander did not write the letter than—than you did, Mrs. North."

"Does it bear any resemblance to Richard North's?" she continued, after a faint pause.

"To Richard North's?" echoed the doctor, the words taking him by surprise.

"No."

"Are you familiar with Richard North's handwriting?"

Oliver Rane paused to think, and then replied with a passing laugh. "I really believe I do not know his handwriting."

"Then why did you speak so confidently?"

"I spoke on the impulse of the moment. Richard North of all men, is the least likely to do such a thing as this."

The young lady, Matilda North, turned round from her book. An opera cloak of scarlet gauze was on her shoulders, as if she were cold; she drew it closer with an impatient hand.

"Mamma, why do you harp upon Richard? He couldn't do it; papa told you so. I did need to find fault with any one, or tell tales, he would do it openly."

One angry gleam from madam's eyes as her daughter settled to her book again, and then she proceeded to close the interview.

"As you profess yourself unable to give me information or to detect any clue, I will not detain you longer, Dr. Rane."

He stood for a second, expecting, perhaps, that she might offer her hand. She did nothing of the sort, only bowed coldly. Matilda North took no notice of him; her own case was content to follow her mother's teachings, and they did not clash with her own inclination. Dr. Rane had ceased to marvel why he was held in disfavor by Mrs. North; to try to guess at it seemed a hopeless task. Neither could he imagine why she opposed his marriage with Bessy; for so Bessy and her interests she was utterly indifferent.

As he left the drawing room, Bessy North joined him, and they went together to the hall door. No servant had been sent for; it was one of Mrs. North's ways of showing contempt—and they stood together outside, speaking softly. Again the tears shone in Bessy's eyes; her heart was a tender one, she had loved her brother dearly.

"Oliver, is there any hope?"

"Do not distress yourself, Bessy. I cannot tell you one way or the other."

"How can I help distressing myself?" she rejoined, her hand resting quietly in both his. "It is all very well for you to be calm; a medical man meets these sad things every day. You cannot be expected to care."

"Can I not?" he answered; and there was a touch of passionate emotion in the usually calm tones. "If any effort or sacrifice of mine would bring back his health and life, I would freely make it. Good night, Bessy."

As he stooped to kiss her, quickly, with the news that his brother was dying.

The voice would have been pleasing to a degree if only from its tone of ready decision; but it was also musical as voices seldom are, clear and full of sincerity. From the voice alone, Richard North might have been trusted to his life's end. Dr. Rane gave a short summary of the illness and the state he was lying in.

"When spoke of a letter that had excited him," said Richard.

"True; a letter to Mr. North."

"A dastardly anonymous letter. Just so."

"An anonymous letter," repeated the doctor. "But the effect on your brother seems altogether disproportionate to the cause."

"Where is the letter? I cannot look upon Edmund until I have seen the letter."

Dr. Rane told him where the letter was, and went out. Richard North passed on to the parlor. Mr. North, sitting by the fire, and his face bent in his hands.

"Father, what is all this?"

"Oh, Dick, I am glad you have come!" and the tone there sounded an intense relief, as if he who came brought with him strength and hope. "I can't make top or tail of this; and I think he is dying."

"Who is with him—Arthur?"

"No; Arthur has been out all day. The doctors are with him still."

"Let me see the letter."

Mr. North gave it him, reciting at the same time the chief incidents of the calamity in rambling sort of manner. Richard North read the letter twice; once hastily, to gather in the sense; then attentively, giving to every word full consideration. His father watched him.

"It was no more than the letter itself that excited him, Richard, as the motion that Alexander wrote it."

"Alexander did not write this," decisively spoke Richard.

"You think not?"

"Why, of course he did not. It tells against himself as much as against Edmund."

"Edmund said no one knew of the matter except Alexander, and therefore no one else could have written it. Besides, Dick, where is Alexander? Why is he staying away?"

"We shall hear soon, I dare say. I have

faith in Alexander. Keep this letter jealously, father. It may have been right to give you the information it contains; I say nothing at present about that; but an anonymous writer is generally a scoundrel, deserving to be quartered."

"And none shall get from me," spoke Mr. North, emphatically. "It was posted at Whitborough, you see, Dick."

"I see," shortly answered Richard. He threw his coat back as if he were too hot; and moved to the door on his way to his brother's chamber.

Meanwhile Oliver Rane went down the avenue to the entrance gates, and took the road to Dalroy. He had to see a patient there; a poor man who was lying in danger. He threw his coat back, in spite of the chilling fog, and wiped his brow, as if the weather or his reflections were too hot for him.

"What a fool! what a fool!" murmured he, half aloud, apostrophizing, doubtless, the writer of the anonymous letter. Or, it might be, the unfortunate young man who had allowed fit to excite within him so fatal an amount of passion.

The road was smooth and broad; a fine highway, well kept. For a short distance there were no houses, but they soon began. Dalroy was a bustling village, both poor and rich inhabiting it. The North Works, as they were familiarly called, from the fact of Mr. North's being their chief proprietor, lay a little further on, and Dalroy Church beyond. It was a straggling parish at best.

Amidst the first good houses that Dr. Rane came to was one superior to the rest. A large square, handsome dwelling, with a pillared portico close to the pathway, and a garden behind it.

"I wonder how Mother Gass is tonight?" thought the doctor, arresting his steps. "I may as well ask."

His knock was answered by the lady herself, whom he had so unceremoniously styled "Mother Gass." A stout, comfortable looking dame, richly dressed, with a face as red as it was good natured, and a curiously fine lace cap, standing on end with yellow ribbon. Mrs. Gass possessed neither birth nor breeding; she had made an advantageous match, as you will hear, and was popularly supposed to be rich enough to buy up the whole of Dalroy. Her late husband had been, uncle to Oliver Rane, but neither she nor Oliver presumed upon the relationship in their intercourse with each other. In fact they had never met until two years ago.

A Man Made Happy.—GENTLEMEN,—For five years I have been a great sufferer with Dyspepsia; the pain in the pit of my stomach was almost insupportable; I was only seemed a drag to me. When I would go to sleep I would have horrible dreams, and my life became very miserable, as there was no rest either day or night. But with the use of only two bottles of Northrop & Lyman's Vegetable Discovery this unhappy state has all been changed and I am a well man. I can assure you, my case was a bad one, and I send you this that it may be the means of convincing others of the wonderful curative qualities possessed by this medicine, that are specially adapted for the cure of Dyspepsia. A lady customer of mine had the Dyspepsia very bad, she could scarcely eat anything, and was troubled with pains similar to those I suffered with; and she cured herself with two bottles of Northrop & Lyman's Vegetable Discovery. I wish you success with your medicine, as I am fully convinced that it will do all you claim for it.

CHASE'S CHAPTER

1. Dr. Chase's Kidney-Liver Pills are a combination of valuable medicines in concentrated form as prepared by the eminent Physician and Author, Dr. A. W. Chase, with a view to not only be an unfailing remedy for the Kidney and Liver troubles, but also to the Stomach and purify the blood, at a cost that is within the reach of all. The superior merit of these pills is established beyond question by the praise of thousands who use them—one fill a dose, one box 25 cents.

2. When there is a Pain or Ache in the Back the Kidneys are speaking of trouble that will ever increase unless relieved. We have the reliable statement of L. B. Johnson, Holland Landing, who says: "I had a constant Back-Ache, my back felt cold all the time, appetite poor, stomach sour and belching, urine scalding, had to get up 3 or 4 times during night to urinate, commenced taking one Kidney-Liver Pill a day. Back-Ache stopped in 48 hours, appetite returned, and able to enjoy a good meal and a good night's sleep; they cured me."

3. Constipation often exists with Kidney Trouble, in such a case there is no medicine that will effect a permanent cure except Chase's combined Kidney-Liver Pill, one 25 cent box will do more good than dollars and dollars worth of any other preparation, this is endorsed by D. Thompson, Holland Landing, Ont.

WOMAN'S NEED

Women suffer unspeakable tortures from muscular weakness, caused by impaired nerves and poor blood. Uric Kidney acid poisons, unexpended, weakens the nerves and poisons the blood. By and by, if the kidneys do not properly purify the blood, then comes prostration, retroversion, etc. Blood 75 per cent pure is not a nourisher—it is a death breeder.

Delicate women need not be told how much they would give to get and stay well. If their blood is free from the poisonous ferments of the kidneys and liver, they will never know what "weakness" is. The blood is the source and sustainer of health; it cannot be kept pure except the kidneys and liver do their work naturally. Something is needed to insure free and natural action of these organs, one 25 cent box of Kidney-Liver Pills will prove to any sufferer they are a boon to women, can be used with perfect confidence by those of delicate constitution.

One Kidney-Liver Pill taken weekly will effectually neutralize the formation of Uric Acid in the blood and prevent any tendency to Bright's Disease or Diabetes.

For purifying the blood and renovating the system, especially in the Spring, one 25 cent box is equal to \$10 worth of any Sarsaparilla or Bitters known. Sold by all dealers, or by mail on receipt of price, EDMANSON, BATES & CO., 45 Lombard Street, Toronto.

LIVELY SCRIMMAGE IN CHICAGO.

One Man Killed, Two Fatally Injured and Five Seriously Hurt.

CHICAGO, Aug. 29.—A desperate fight, which necessitated the turning in of a riot alarm and the calling out of three patrol wagons filled with police, occurred late last night in front of No. 4,177 Ashland avenue.

One man was instantly killed, two were fatally hurt and four men and one woman seriously injured.

Dead: Herbert Ray, neck broken with paving stone and stabbed in right breast.

Injured: William Dunworth, left eye knocked out, skull fractured; Philip McGrath, skull fractured.

Seriously injured: Jas. Dunworth, right arm broken in three places; Patrick Cassidy, left arm badly cut; John Ring, head cut; Michael Donovan, head cut; Mrs. Lizzie Dunworth, right arm terribly cut.

At No. 4,177 Ashland avenue Mrs. James Cook has a saloon on the first floor, and the Dunworth family, with Cassidy, who is a brother of Mrs. Lizzie Dunworth, the wife of William Dunworth, live on the second floor.

The Dunworths had a lodger named John Marshall, who was too delinquent in paying his rent to suit the Dunworths. On Sunday Cassidy attempted to collect the rent by force and was badly beaten by Marshall.

Tonight Cassidy and Marshall resumed their fight, and the latter who had with him several friends, chased Cassidy into the street. The fight was warning up nicely when John Dacey, a friend of Cassidy, came along. He had a revolver and tried to shoot the entire Marshall crowd, but his weapon would not work. Mrs. Dunworth then came to the rescue and hit Cassidy with some paving stones.

Just at this time Ray and Donovan came along in a buggy. Just how they got mixed in the fight nobody knows, but they were in it as soon as they saw it. Mrs. Dunworth struck Ray at the base of the brain and broke his neck.

By this time a dozen men were in the fight on each side, and fists, knives, clubs, revolvers and stones were all in active operation.

A call was sent for the police, and just as they began to arrive a strange man, with Donovan's assistance, put the body of Ray into the buggy and drove away. After going several blocks they discovered that Ray was dead. They threw the body into the street and drove away. The police arrested half a dozen neighborhood, and carted the wounded to the hospital.

reaching the street that the child had ex-
pired in his arms.

Interesting Indian Relics Found.
CHARLOTTETOWN, P. E. I., Aug. 29.—
Prof. Franks, Harvard University, and
some friends summering at the Seaside
Hotel, have discovered on the site of an
old Indian kitchen a bone needle, tomahawk
of deer horn, stone arrows, spear
heads and a stone axe.

LONDON AND ENVIRONS

The time to get your Fall Printing is
now, the place is the London AD-
VERTISER Job Printing Department: Will
our friends everywhere remember that
we print positively everything, from a
book down to the smallest card?
Either call in or write for prices and
samples. You will be gratified to find
now well, how reasonably, and how
speedily your order will be filled. We
try to keep every promise to the hour.

—The Webbing sisters are coming back
to Canada, and will perform in this city and
elsewhere.

—Rev. W. T. Graham, pastor of the
First Baptist Church, Montreal, is visiting
in the city.

—It is expected that Col. Lindsay, of
St. Thomas, will be gazetted commander of
the Seventh Battalion, London, on Satur-
day.

—This is the last day for paying the first
installment of city taxes. To all taxes now
due not paid today five cents on the dollar
will be added.

—Someone called at the residence of Mr.
R. B. Walker, High street, South London,
Tuesday in the family's absence and took
£15 from a trunk.

—Mrs. Cox and her daughter Clara, of
the Pipe Line road, hope to have no further
trouble with the former's husband, Thomas.
The assault case preferred by the two
women were settled yesterday upon Cox
agreeing to leave the house.

—Geo. Donaghy, of London West, is to
labor hard for seven days in the county
jail for assaulting R. J. Kearney on Black-
friars street on Aug. 19. Kearney's eye is
still marked with a big scar. Squire Lacey
intends to put a stop to all such rowdyism
in the village.

—Thomas W. Foster, a laborer about 35
years of age, was arrested late last night
by Constable J. W. Ward. Foster and his
wife, it appears, have for some time lived
together with Mrs. Vandover, an elderly
lady of 60 years, just east of the city
limits. The property was owned by the
old lady, and she came to Squire Lacey yester-
day and stated that Foster and his wife
had attempted to turn her out. Bail was
asked for.

—RENT.—A owns a farm with part grass
and part chopped, but not cleared up. He
rented the whole lot to B for the season's
pasture. A puts out fire to burn the brush,
and while doing so burns all the grass. Can
A make B pay for the pasture when
burned? Ans.—Only for the time he used
it. 2. If the cattle got their feet burned
can B hold A for the damage? Ans.—Yes.
3. Is there any month in the year forbid-
ding the setting out of fire to clear land?
Ans.—The municipal council has power to
pass a bylaw regulating the time. Inquire
of your township clerk if any such bylaw
is in force.

—A Windsor dispatch says: "The Bishop
of Huron has summoned Rev. G. W. Wye,
of Amherstburg, to appear before him in
London, Sept. 12, to have passed on him
the finding of the commission appointed by
his lordship in April last, to hear evidence
in the charge preferred against Wye,
alleging that 'his usefulness in the parish
appears to be gone.' It is said that the
commission recommended to the bishop
that Mr. Wye's license be canceled and he
be removed from the parish of Amherst-
burg. It is not known if the bishop will
exercise his power and appoint Mr. Wye to
some other parish."

—A number of those interested in the
promotion of child-saving work in this
Province have suggested the holding of a
conference in Toronto, at which methods of
work might be considered. It has been de-
cided to hold such a meeting on Oct. 18 and
19. Without going fully into the matters
that will engage attention, the following
might be mentioned as worthy of thought:
Existing Provincial and Dominion laws for
the protection and education of children;
the child and the institution; the foster-home
method; the supervision of placed-out chil-
dren. A fare-and-one-third railroad rate
will be secured, and a very profitable meet-
ing may be looked forward to.

—The funeral of Mr. John Hyslop, the
young and popular West Nisourri farmer
who met such a terrible death on King
street Monday afternoon, took place from
St. Stephen's undertaking establishment
yesterday. The attendance of friends and
relatives was very large, and included the
majority of the farmers in the vicinity of
the deceased's home. Rev. Mr. Cook,
pastor of the Presbyterian Church, Dor-
chester Station, conducted a most solemn
service, in which touching references were
made to Mr. Hyslop's many good quali-
ties. Friends of the deceased sent nume-
rous beautiful floral offerings. The pall-
bearers were Messrs. Isaac Saul, Robert
Geddes, H. Brownlee, Geo. Holland, Geo.
Cole and R. Birrell. Interment took place
in Mount Pleasant Cemetery.

—PETROLEA.—A fraternal society calls a
convention and one party wishes to retain
the old president, the other elects a new
one by proxy voting and counting votes of
delegates not present. Is it legal? What
should the old party do to retain their
president? They have paid for the charter,
but have not got it. Can they demand it
from the president or a return of the money?
The old president holds the papers, can the
others take legal steps to compel them to
be given up? Can they initiate members
under the old president, and who are in his
favor and can a majority go on as before?
Ans.—The constitution of the society
should provide a remedy, if it does not and
if it does not allow of proxy votes the elec-
tion of the new president is null and void
and the old president may retain office. An
injunction could be obtained to prevent the
new president interfering with the old one
and the motion or trial of the action would
test the legality of the proceedings. An
action by the new president against the old
one to recover the papers would effect the
same object. The president must either
return the money or deliver the charter.
The majority can go on under the old president.
The majority in such societies has
the control if it chooses to exercise it. The

BARK-WELL'S

Beef, Iron and Wine,

Manufactured originally by late G. W. Bark-
ness from Libby's Extract of Beef,
Citrate of Iron and Pure
Sherry Wine.

The impaired system and impoverished
blood, whether caused by nervous debility or
any other disease whatever, needs something
in the shape of a nutritive tonic to help nature
to recuperate. Such a preparation is BARK-
WELL'S BEEF, IRON AND WINE. Gently
stimulating, nutritive and tonic, it speedily
overcomes exhaustion, fatigues and general
weariness and debility. All the ingredients
are simple and good, and in combination form
a valuable restorative for convalescents, espe-
cially for the hot season. Prepared specially
by W. S. BRYERS BARKWELL, Manu-
facturing Chemist, 288 Dundas street. wz

Dropped Dead in the Street.

The Primrose and West minstrel troupe
are so well known in London that the
following dispatch from Pittsfield, Mass.,
will be read with more than ordinary
interest: Geo. Freeman, of Topsham, Kan.,
leader of the colored band with Primrose
and West's minstrel, dropped dead today
(Wednesday) of heart disease at the head
of his musicians in the street. He was the
first colored cornetist in the country.

Hugh, Ottawa, beveled card cutter.
Will Hear More Candidates.

The Presbyterians of South London as-
sembled in Knox Church last night for the
purpose of extending a call to a pastor as
successor to Rev. Jas. Ballantyne, recently
removed to Ottawa. Rev. J. Allister Mur-
ray acted as moderator. Of the ten candi-
dates who had been heard, two were not
eligible for election as they had already re-
ceived calls elsewhere. These were Rev.
Mr. Muir, of McGill College, Montreal,
and Rev. Mr. Guthrie, from Nova Scotia.

The remaining eight were voted upon, and
of the total of 138 votes, Mr. Cooper received
56 votes and Rev. Mr. Dickie 45. The re-
maining six received about an equal num-
ber. A motion was then offered to make
the call to Rev. Mr. Cooper unanimous, but
it was defeated on a vote of 59 to 31, and
it was finally decided to postpone action
pending the further hearing of applicants.

Gen. Booth, chief of the army, will
arrive at St. John's, Nfld., Sept. 18 or 19,
and at Halifax, Sept. 22. He will then
hold a series of meetings, reaching this
city on Jan. 26, and remaining on Jan. 27,
28 and 29. Other western engagements for
the general are: Port Arthur, Jan. 16;
Barrie, Jan. 19 and 20; Guelph, Jan. 21;
Palmerston, Jan. 22; Stratford, Jan. 23;

ford, Jan. 30; Hamilton, Jan. 31; Toronto,
Feb. 1, 2, 3, 4 and 5.

Where Was the Fire?

The suddenness with which the city was
overhung with smoke yesterday afternoon
at 4 o'clock gave rise to a great deal of talk
about bush fires, etc. Rumors of every
kind were afloat, and one which created a
great deal of anxiety was to the effect that
the village of Lucan was destroyed and
that farmers in the neighborhood were
suffering to a great extent. This report
was brought in by a farmer from Biddulph,
but was not verified.

Another report stated that fires were
raging along the Grand Trunk west of the
city, and that the smoke was thick enough
to impede the progress of trains. Rail-
waymen arriving in a late hour had seen
no sign whatever of forest fires.

A report was current in Brantford that
the bush on the Indian reserve was burn-
ing, and also the Benwell swamp near
Princeton.

Lighting London.

The lighting of this city is a matter which
has greatly perplexed No. 3 committee
from the beginning of the year. Nearly
every meeting night communications are
read asking for lights, but they have all
been laid over awaiting the renewal
of the contract. It was evident
to the committeemen, too, that some
of the lights asked were unnecessary and
a trip of inspection was taken last night.

The entire committee was present, except-
ing the mayor, and were accompanied by
the engineer, Secretary Bell and Mr. Hunt,
the manager of the Canadian General Elec-
tric Light Company. From 8 to 11 the
party was on the move and suc-
ceeded in covering Nos. 2, 4 and
five wards. Ald. Coe's ward (No. 2) was
found to be badly in need of lamps in many
places, while Nos. 4 and 5 are very well
supplied. A number of places asking for
lamps were visited, and in more than one
it was found that there were under half a
dozen houses in the vicinity. The alder-
men were weary, covered with dust and
ready for a good night's rest when they
completed their trip.

Helmuth Ladies' College, London, Ont.

On Wednesday, Sept. 12, this illustrious
institution will enter upon the 26th year of
its history, and the twelfth year of its
present able management. A thorough
training is afforded in the academic studies,
and also there are very superior advan-
tages in music, art, etc. The system of
discipline is a very excellent one, and is
framed with a view of attaining the highest
results in the development of character as
well as deportment. Situated a short dis-
tance from the city, it is a beautiful and
quiet home for study, with large grounds
and abundant facilities for outdoor amuse-
ments. The college is in every respect a
happy home and a complete and thorough
school.

It is very important to know where to
find fine bedroom sets at low prices. When
buying call at Trafford's and you will find
them. 95 and 97 King street.
