[Canadian Press.]

Rome, Aug. 9—Via Paris, Aug. 10.—Tonight's official bulletin gave capture of Gorizia, although the fact has been known since yesterday in diplomatic circles. The taking of such a large number of prisoners is regarded in Rome as indicating the complete rout of the Austrians over a front of about 30 miles. The success of these operations has sur-prised even those who were best informed of the intention of Gen Cadorna to strike a lightning blow on the Lower Isonzo.

SWIFT JUSTICE PROMISED FOR ZEPPELIN RAIDS

[Canadian Press.]
New York, Aug. 10.—A London cable to the Tribune says: "After Tuesday night's abortive zeppelin raid, and before the news of the great French raid at Rottweil was received, a high official of the admiralty, referring to the recent Allied air raids on Germany, said:
"All these were in reply to the zeppelin attacks. Our principle henceforth will be that every time the zeppelins come killing our women and children we will retaliate." Apparently the French believe in swift justice.

The entry of the Italians into the scheme with their big offensive against Gorizia and Monfalcone completes the chain encircling the central empires. Like the Franco-British offensive on the Somme and the French attacks at Verdun, the Italian action is heralded as only beginning their undertaking. Great cause for rejoicing is that after nonths of careful, laborious preparation the Italians have taken the field. Italy's problems are different from Russia's. Like the French and British she must aim at forcing back the enemy rather than destroying their army, but in entering the field with her great offensive she greatly lightened the Russian task, while at the same time she hugely increased the burden Germany now, more than In the West.

The Advertiser never received from the late Government enough printing to keep a hand-press in operation, or enough advertising to keep a printer's devil from starving to death. Therefore it has never developed an appetite for the stuff.

Since the present Government came into power, however, the local Conservative paper has received more advertising in any one year than The Advertiser in all the years of Liberal power. Why Necessary to Advertise

The shopkeeper of yesterday had a way of turning down the ad man with the remark: "A satisfied customer is the best advertisement."

This sounded all right at first, but TIME tries all things.

The satisfied customer is mighty effective advertis= ing, but advertising which is not in itself enough to hold against the assaults of present-day competition.

There is always ground for apprehension lest satis= fied customers stray away, and fail to come back. Without warning, the fellow down street may cut

loose with a band of music, a leap-for-life performance, or special discounts, and so, STAMPEDE THE **FLOCK!**

The non-advertising merchant is exposed to the inroads of competition right and left-the one who advertises has a double hitch on his own customers and a dragnet out for other possible patrons running at large!

Advertising both stabilizes and accelerates a business—that is, steadies it—and drives it ahead!

In the logic of the case, and in common experience, it pays best to patronize the advertising stores. People who have learned to regulate their personal and household expenditures by the information gathered each night from the STORE NEWS IN THE ADVERTISER require no argument to convince them that they make handsome dividends dealing with London advertisers!

Hot dry weather in the southwest was child's birth. A factor and so was buying by Chicago and other parts of west and prices advanced again. A stronger stock market also helped the bulls, as did the strength in wheat, which led Chicago people to go into the cotton market.

Weather report was a standoff, but on the whole the crop outlook is not so good. At one time prices were 16 to 18 lower, but this loss was recovered. There was an advance of 25 to 30 points from low level of the morning. In Georgia cotton has rust and is shedding. In Alabama conditions poor to fairly good.

Messiesing outlook is hetter than to work with William Mullins, head of the Porto Rican system. Some of those who accompanied him are still in the tropical land. Mr. Mullins is now managing the head offices of the United Fruit Co. at New York.
