The Coming Bye-Election.

Mr. William Gray tells an Ottawa paper that Mr. Hyman will put off the bye-election in London as long as he can. The London Free Press assures us at the same time that Mr. Hyman wants a snap vote and will bring on the contest at once. Whatever he does he will not escape censure. He will be reproached with cowardice if the election is deferred till the end of the session. If he asks the indorsement of his constituents immediately he will be accused of taking them unawares and trying to snatch a verdict. The date of the contest may be governed by the exigencies of public business. Bye-elections in London and North Oxford would interfere with the proceedings of Parliament and prolong the session perhaps for a month. The work of the department, which Mr. Hyman has been administering, would be also disturbed by the absence of its chief. These are valid reasons for postponing the bye-election in London for two or three months, but the Government may choose to answer the taunts of its opponents by testing public opinion in Ontario without loss of time.

The Plumbers' Combine.

The case against the Toronto plumbers' combine has been sent to the grand jury by Police Magistrate Denison. The secretary of the Master Plumbers' and Steamfitters' Co-operative Association admitted under oath that all contracts taken by members of the association were reported to him for registration; that at least 25 per cent of the cost of material and labor must be added for profit, and that out of this 5 per cent of the whole cost must be paid into the association treasury, the surplus after running expenses, are deducted to be divided among the members of the combine. He admitted also that "if a plumber's supply house sells goods to persons not members of the Master Plumbers' and Steamfitters' Co-operative Association the patronage of the association members would be immediately cut off from the supply house." The combine also exercised control over all tenders, to avoid "unfair competition." It was shown that the steamfitting in Currie's building, Toronto, was done by a Philadelphia firm for \$12,400, the lowest Toronto tender being \$18,200, the only other Toronto tender being \$19,150. The secretary claimed that the association was a benefit to the public and prevented "scamp" work. The case to be decided is whether Richard Crasby, an employee of the James Robertson Company, was guilty of conspiracy in refusing to sell plumbing supplies to James A. Berridge, a builder.

Reciprocity or Reprisals.

The Washington Government has been notified that American imports into the German Empire will not receive the benefits of the favored nation clause, after March 1, 1906, unless a commercial treaty is concluded between the two nations in the meantime. This is a serious matter for Uncle Sam. He exports annually over \$200,000,000 worth of products to Germany, which is his best customer, next to Great Britain. Germany has just framed a series of treaties with Austria, Russia, Roumania and other countries of Western Europe, by which their imports enter the German market at a much lower scale of duties than the German general or maximum tariff provides. Great Britain gets the benefit of these minimum duties, because she gives Germany a free market. The United States has hitherto enjoyed the same advantages without giving an equivalent, but Germany has resolved that this judgment arrangement shall not continue. The United States must give as well as take.

The War Operations.

As a dispatch from St. Petersburg says, Admiral Nebogatoff with his reinforcing squadron anchored off Saigon, Indo-China, on Wednesday, it is taken for granted that a juncture has been effected between this division and the Russian main fleet. The most optimistic believer in Japan's prowess and resourcefulness must admit that the union has an important bearing on the question, as to whether Togo dare take chances in a general engagement at this time. Seldom has a nation had so much at stake on the outcome of a naval conflict as Japan has today.

The Whitney Government.

The Whitney Government carefully conceals its Niagara power policy, if it has one. Hon. Charles Smith Hyman, Minister of Public Works. That's the way it may read at any moment. The municipality gets two-thirds of any fine for violation of the liquor act, when the license department prosecutes. The Whitney Government purloins taking all the fine. If a Liberal Government had done this it would have been "robbing the municipalities" again.

Richard Croker.

Richard Croker may have been a great sinner, but he has become a great sufferer too. A few weeks ago his eldest son was killed in a motor car accident. On Thursday night another son was found dead in a sleeping car, evidently from the effect of drugs. Emperor William has been telling his soldiers how Kuropatkin lost the battle of Mukden. Why didn't the Kaiser, as a friend of Russia, tell him how to win it? We all know how Bill Adams won the battle of Waterloo, and the Kaiser might have gone on history as the Bill Adams of Mukden.

to make the much-desired junction with Nebogatoff. While Japan is not likely to make the incident an excuse for conflict, in which Britain would be obliged to participate, she may utilize it as a basis for a big claim for damages at the conclusion of the war. While the Russian fleet, as a whole, and in units, has been reported as Sea, the whereabouts of Togo's fleet sighted at various points in the China still remains a mystery. A Japanese merchant captain reports seeing the Mikado's fleet of 85 vessels among the Pescadore Islands, and says a number of the Formosa ports have been strongly fortified.

A Libel on the Sex.

[Guelph Mercury.] Woman, like a lemon, will go sour if not squeezed in time.

Tommy's Dilemma.

[Punch.] Tommy (dressed for evening party)—Mother, shall I wash my hands or put on gloves?

Caught on the Rebound.

[Detroit Tribune.] She (at Lincoln Park)—Aren't those dear little monkeys cute? He—No. They remind me too much of some people I know.

Indecent Hint.

[Hamilton Times.] Billy Maclean is already shrieking that "Sir Wilfrid must complete his cabinet." Billy is almost indecently precipitate. Hon. Mr. Sutherland was buried on Saturday, and in the meantime, would Mr. Maclean like to run against Mr. Hyman?

Poor John.

[Chicago Journal.] Passenger—Whatever became of the Bulger family? Bus Driver—Oh, Bill turned out fine. Got to be an actor. Tom's an artist; never amounted to much. It took all he could earn to support the others.

Stately Verso.

[Clover Leaves.] If Mary goes far out to sea, By wayward breeze, fanned, I'd like to know—can you tell me— Just where would Maryland?

Japan Has Stood the Test.

The war between China and Japan made clear to the English-speaking peoples that a new great power had arisen in the far east. It is impossible for the most skeptical to refuse to recognize that we are face to face with a world power which is destined to exercise great influence, not only in the east, but also in the west—that, in fact the ascendancy of Europe is at an end now that there are two non-European great powers. It is never to be forgotten that a great war is the supreme test of national efficiency. That Japan in single combat with one of the greatest military powers of the world, the power which hitherto has been supposed to possess numerically the largest army, has borne the test well nobody can deny. Therefore, we seem warranted in assuming that the progress of Japan in the early future will be very rapid—at least as rapid as that of Germany during the past generation.

Worry.

[Washington Star.] "Does your husband enjoy a baseball game?" "He says he does," answered young Mrs. Torkins, "but I'm glad he doesn't have to worry as much about his business as he does about the umpire's decisions."

The Invention of Steel Pens.

[Minneapolis Journal.] "We owe the steel pen," said an inventor.

The Merchants' Guild of China has resolved to boycott United States because the United States boycotts Chinamen. Canada virtually excludes the Chinese by a \$500 poll tax, and Canadian trade with China may have to suffer likewise. Can we have our cake and eat it, too?

The license inspector in Cardwell had the hardihood to ask why he had been dismissed. The official reply was that he had given no complaint, but the license inspectors should enjoy the Government's confidence! What hypocrisy it is for the new Government to prate about divorcing politics and the liquor traffic!

Brussels Carpets

You'll not realize what a degree of perfection is attained in our New English Body Brussels Carpets until you have visited our immense Carpet warehouse and seen our magnificent display. The color schemes evidence the taste of the artist, while the ingenuity of the clever artisan is well portrayed. In this grade we show a beautiful range of thirty-eight different patterns—designs specially manufactured for T. F. Kingsmill. The designs are exceptionally artistic, including all the leading shades and color combinations with two-toned Chintzed and Oriental effects. No matter which room you wish to carpet—be it drawing-room, dining-room, library or bedroom; the design and coloring for it is here. Our special carpet sale of regular 90c and \$1.00 qualities. On sale at, per yard, made and laid.....81c

Tapestry Carpets

New designs in English Tapestry Carpets—27 inches wide with 2 1/2 inch borders to match. A particularly desirable feature about them is the "entirely new" designs, which have been selected with the greatest care as to their artistic merit in design and color combinations and made expressly for T. F. Kingsmill. The shades and various effects are such that they are suitable for any apartment in the house that may need a good serviceable floor-covering, and one at a very moderate price, considering the quality. In buying carpets at Kingsmill's you are not paying the middleman a profit because all carpets come direct from the largest manufacturers. This is a special carpet opportunity. New English Tapestry Carpets made and laid at, per yard.....65c

HERO NELSON'S TIMELY LETTER

AS GOOD AS BEFORE

Lawrence d'Orsay's Return Engaged in "The Earl of Pawtucket."

Mr. Lawrence d'Orsay, the inimitable Earl of Pawtucket, appeared in a return engagement at the Grand Theatre last night, though the audience was not a very large one, it was ultra-fashionable. The reception accorded the clever Englishman was most hearty, too, and he responded to the many encores with a speech, in which he once again took the liberty of informing the present company that he was still in the country. This sally—(no joke intended)—pleased the house immensely, and Mr. d'Orsay was again applauded vigorously.

The cast was the same as that which presented the Thomas comedy here some time ago. Miss Jane Peyton appeared as Harriet Porty and the same character as the same character, Miss Florence Robinson was the native, and yet fluttering, self-willed aunt; Mr. Stokes Sullivan was the same well-dressed Arthur Weatherbee, and Mr. Ernest Elton, as Wilkins, was again excellent.

WINDSOR REFERENDUM

Citizens Vote Down \$30,000 for New Lighting System.

Windsor, Ont., May 12.—One of the five bylaws presented for referendum vote was carried at the polls today. The bylaw, which was provisionally adopted by the council to exempt the Peninsular Tool Company from Taxation for ten years and fix the rate of interest on the West Indies, and Cuff Street, and the Standard Paint and Varnish works, Water and light concessions were asked for by the council. The requisite two-thirds vote and were only carried by small majorities, considerable opposition having been made to granting the concession.

About two years ago the Standard Paint Company negotiated to locate in London, but was persuaded to remain on the promise by the council being granted a small fixed assessment. The proposition to erect a new \$30,000 light plant was voted down, but the council issued \$20,000 debentures to provide for extra civic expenditures during the past two years carried.

The latter have taken possession of the stock, which will be sold in business here.

Hard on the Cat.

Have you ever seen a cat get mixed up with a sheet of sticky fly paper? If not, you have missed one of the real sights of this life. The terrified, jumping, spitting, mewing creature presents a most ludicrous spectacle to the onlookers and causes an immense amount of laughter and fun, but when the frantic and maddened pet becomes almost smothered by the sticky stuff, and the damage to carpets, curtains, etc., begins to be realized, the housewife falls to appreciate the funny side of the episode, and then there decides that in future she will use only Wilson's Fly Paper, which are three hundred times more effectual and cannot damage carpets or furniture. All druggists and storekeepers sell Wilson's Fly Paper. Avoid worthless imitations.

SEALING TENDERS, ADDRESSED TO

Port Stanley, Ontario, will be received at this office Monday, June 5, 1905, inclusively, for the construction of two breakwaters at Port Stanley, Ontario, according to a plan and specification to be seen on application to the Engineer in Charge, Public Works, at the offices of H. A. Gray, Esq., resident engineer, Confederation Life Building, Toronto, J. G. Sims, Esq., resident engineer, London, Ont., and at the Department of Public Works, Ottawa, Ontario. Tenders will not be considered unless signed with the actual signatures of the tenderers.

An accepted check on a chartered bank, all other checks, will be returned to the Minister of Public Works, for twelve thousand dollars (\$12,000), must accompany the tender. The check will be forfeited if the party tendering declines the contract or fails to complete the same. The contract and will be returned in case of non-acceptance of tender.

"Britonsloom" is a serge made exclusively for Semi-ready by England's greatest serge maker

The best serge maker in England makes several qualities of serge. His name on a piece of serge means mighty good quality, but it doesn't necessarily mean his best. Our cloth experts explained to the manufacturer what we wanted in a serge. "That is better than anything I am turning out," he said, "but I can do it."

"Britonsloom" serge is the result. We control the output, so you can get this extra quality serge only in Semi-ready suits. "Britonsloom" serge is absolutely fast in color, black or blue—and it is a wonder for wear. We make this serge into single and double-breasted sack suits of the latest style. Price \$20.

DOUGLAS STEWART, GEO. W. BURNETT, Inspectors of Penitentiaries, Department of Justice, Ottawa, May 10, 1905. 12c-t

DOMINION OF CANADA. Department of Agriculture.

Notice is hereby given that under the provisions of "The Animal Contagious Diseases Act, 1902," I do hereby declare that my order of date March 7, 1904, and amendments thereto regulating the movement of hogs into or out of the quarantined area comprising certain townships in the Counties of Kent and Essex, and the island known as Walpole Island, in the County of Lambton, are hereby rescinded, and the following substituted therefor:

On and after May 15, 1905, the movement of live hogs from the area comprising the Townships of Camden, Howard, Harwich, Chatham, Raleigh, Dover, East and West, and Tilbury East, in the County of Kent, Tilbury West, Tilbury North, Rochester and Maidstone in the County of Essex, and the island known as Walpole Island, in the County of Lambton, is forbidden, except under the following conditions:

1. All shipments of live hogs from the said districts must be consigned direct to a slaughter house or packing house equipped with the proper facilities for the slaughter and detention of such hogs, in a manner satisfactory to the inspectors of this department.

2. Shippers must notify the nearest inspector not less than 48 hours previously of the exact time and place of an intended shipment.

3. Each carload or part thereof of such shipments must be accompanied by a certificate of inspection signed by one of the authorized inspectors of this department, stating that the hogs comprising such carload, or part thereof, are free from disease and in every way fit for immediate slaughter.

4. All cars used for the conveyance of such shipments must be cleaned and disinfected in a manner satisfactory to the inspectors of this department after being unloaded and before being again used for the conveyance of animals or other articles, and all way bills accompanying such shipments shall have written across the face thereof a notification that the said cars are to be cleaned and disinfected in the manner aforesaid.

Information regarding inspectors, necessary notifications and other details may be obtained from M. B. Perrin, Veterinary Inspector, Chatham.

Owners and shippers of hogs are earnestly requested to assist the officers of this department in the proper enforcement of this order.

OFFER OF BONUS FROM GODERICH
WOULD BE CONSIDERED BY FIRM
As Yet, However, No Proposal Has Been Made to Wortman & Ward Company.

"I have had no communication with the town of Goderich, on the subject, but I did say to a gentleman whose name I do not care to mention, that if the offer of a bonus was made to me I would consider it."

This was the statement made by Mr. W. H. Wortman, senior partner of the firm of Wortman & Ward, The Advertiser today in regard to the story that his firm has made a proposition to the Goderich Town Council to remove the works from London to Goderich.

If the firm should decide to leave the city it would be a serious matter for London. From small beginnings, the Wortman & Ward company has grown into an important manufacturing concern and now it employs on an average 5,000 men.

The year round loss of 125 jobs from the city would be a serious matter. It is not likely that the firm would be able to employ as many men in Goderich as it does in London.

But he has given his word that if the firm receives a satisfactory offer from an outside place to leave this city, he will consider it.

CHIEF JUSTICE ON BENCH
VERY SUDDEN DEATH
SQUELCHED AT LAST

Sir W. R. Meredith Presides at the Weekly High Court.
There was a session of the weekly high court this morning, with Chief Justice Sir William Meredith presiding.

Very sudden and entirely unexpected death of Mrs. Morrison, wife of Mr. Angus Morrison, 380 King street, local manager of the Canadian Oil Company, occurred this morning about 2 o'clock.

Mrs. Morrison was in her usual good health until the dinner hour last night. She had been feeling unwell, and at 11 o'clock she was taken ill.

She died at 11:30 after a short illness. Her husband, Mr. Angus Morrison, is a well-known business man in London.

RE THE DECREE OF THE COURT.
The late Mrs. Morrison was a lady with a very large acquaintance, and she was a favorite with all who met her.

She was survived by her husband and two daughters, Misses Edna and Winnifred, at home, and one son in Detroit.

SUIT FOR DAMAGES
FIREWATER DID IT
May Result From the Death of John W. Nuttall—An Inquest.

It is altogether likely that an action for damages will be brought by the relatives of the late John W. Nuttall against Contractor Ed Martyn, for whom Nuttall was working when he was killed in the Bank of Commerce building yesterday.

The mother of the deceased has placed the matter in the hands of Mr. R. M. C. Tootle, barrister, who will henceforth look after the interests of the family.

Proctor Ferguson this morning decided to bring an action against the following jury was at once empanelled: Archibald Black, foreman; R. A. Gardner, A. J. McLeod, A. C. McInnes, J. E. Pratt, David Tripp, W. Melbour, Samuel Turner, J. E. Harris, J. Tancou, and J. G. Whaley.

The jury viewed the body of John Nuttall, and adjourned until Thursday night at 8 o'clock, when the inquest will be resumed at the police station.

CLOSING WAS THE BEST
Final Meeting of the Season of St. George's Mission Band.
The closing meeting for the season was held by the Mission Band of St. George's Church, London, last evening, and proved the most interesting yet held.

Miss Ada Isaac, president of the band, presided over the evening, and the choir, under the direction of the Rev. Mr. Stewart, rendered a number of songs.

Mr. Frank E. Smythe, of Richmond street, who is a son of the magistrate, was notified by wire of his father's serious illness, and anxiously awaiting further particulars.

Squire Smythe has many friends in the city who will regret to hear of his illness.

TRADE BOARD NOW GETS "MOVE ON"

Big Increase in Membership—A Live Subject for the Next Meeting.

The board of trade held a special meeting last night, which was fairly well attended. The zeal of President White and Vice-President Stevely was instrumental in adding over thirty new members to the board, and these officers were highly complimented on their efforts. The names of the new members are Philip Frock, E. I. Sifton, E. R. Dennis, H. T. Benson, F. W. Wolf, F. J. Da. eh, Frank Lawson, W. H. Greenwood, E. A. Carr, M. W. Rossie, W. W. Gammon, James C. Duffell, R. W. Bennett, J. A. Campbell, C. M. R. Graham, M. H. Rowland, A. Talbot, J. H. Chapman, Arthur E. Hound, J. M. Hickey, W. D. I. Wright, A. A. Long, C. H. White, John M. Dohy, Jeffrey Hale, J. R. Shuteforth, C. A. Whitman, J. A. Cottam, F. E. Karn, W. W. Manning, A. S. Blackburn, and W. E. Saunders.

Superintendent J. M. Moore, of the waterworks department, will read a paper at the next regular meeting of the board, Friday, May 26, on the local water supply question. Three of the oldest water commissioners will be present, and lead in the discussion. The board decided to invite the city council and this year's water commission to attend this meeting.

President White directed the attention of the board to the plans of the Bank of Commerce in erecting a two-story building on their property at the corner of Dundas and Richmond streets. He deplored the fact that a structure of such a nature was being put in so prominent a place, and thought the bank might be induced to change their plans.

In reply on behalf of the bankers, Mr. George B. Gerrard said that the Bank of Commerce building was only in accord with the modern tendency for such institutions, which was toward "self-contained" buildings. He declared it to be contrary to the banking act for a bank to erect buildings for other than their own use. The meeting then adjourned to meet May the 16th.

HENSALL.
Hensall, May 11.—The Communion will be administered in the Presbyterian and English churches on Sunday.

The court of revision will meet on the 20th inst.

According to arrangements, the band made its first appearance on Saturday evening.

Victoria Day is to be celebrated here, Exeter and Zurich play baseball, Clinton and Hensall play lacrosse, and Bayfield and Hensall play the final game in the series. There will be athletic sports, as well as a concert at night.

The funeral of Mrs. W. Dougan, sen., on Thursday was very largely attended.

ONLY A FEW DAYS MORE
And the Long-Delayed Home Will Be Handed Over to Tru-t.

City Engineer Graydon yesterday afternoon handed in a report to the Nurses' Home committee, relative to when the building will be ready for occupancy. The report stated that the home is completed in the interior, with the exception of a few odd jobs of painting, and he recommended that if the contractors do not put men to work to complete the painting, the city should hire painters and charge the bill to the contractors. The recommendation was accepted.

It was agreed that in any event the building will be completed by next week, and it was recommended that the day upon which it will be handed over to the hospital trust. The mayor and Chairman Stevely were named a committee to make arrangements for the transfer.

NEW SET OF RULES TO GOVERN CIVIC OFFICIALS AND CLERKS

Few Hours To Be Allowed the Public—Number of Other Changes Approved Of.

Mayor Campbell, at a meeting of No. 1 committee of the city council, held yesterday afternoon, presented a set of rules to govern officials and clerks of the city hall. It will be noticed that the rules stipulate that the civic offices will only be open to the public from 10 to 4 each day except Saturday, and that day from 10 to 3. The employes will thus be given an hour in the morning and an hour in the afternoon to catch up on their work, as they will be in their offices the usual hours, but the offices will be closed to the public.

Another important clause in the rules states that if an official or employe is granted more than two weeks' holidays he shall not be paid for the extra holidays. He will be paid for the two weeks as usual, just the same as if he were on duty.

The rules were discussed for some time, and were finally sent on to the council for ratification.

1. The city offices shall be open from 10 a.m. to 4 p.m. on each day of the week excepting on Saturday, when the hours shall be from 10 a.m. to 3 p.m. On Saturdays of July and August the hours shall be from 10 a.m. to 1 p.m.

2. The hours of service of employes in the city hall shall be from 9 a.m. to 5 p.m. each day of the week except Saturdays, when they shall be from 9 a.m. to 3 p.m. Saturdays of June, July and August shall be from 9 a.m. to 1 p.m. There shall be an hour at noon for lunch, which shall be arranged with the clerks, so that some one will always be in the office.

3. No employe shall absent himself from the office during hours without consent of his superior. Only an absence during hours with consent of the department must have consent of the mayor.

The Loose Coats, Now So Popular, Easier to Fashion Than the Smooth-Fitting Tailored Garmen—A Popular Garment is the Three-Quarter Rain or Shower Coat in Waterproof Cloth—Long, Loose Coats of Rough Silk Are Both Simple of Construction and Effective in Finish. Plain Cloth Jackets Are Worn With Checked Suits and Skirts—Old Ruching and Embroidered Linen Collar and Cuff Sets for Wear With Heavy Cloth Coats.

PARISIAN RAINCOAT, THREE-QUARTER LENGTH.

Do you believe that there is any luck in the world? Not a bit of it. There's no use being a Micawber and hoping for "something to turn up," unless you "get busy" and help it along.

I was glad to see that one of our London doctors, in addressing the graduating class of the school of medicine, warned them against "get-rich-quick" schemes. You can't repeat too often that "there is no royal road to fortune" for man or woman. Energy and industry, faithful, persistent work is the only thing that counts. "It's dogged as does it," says Dickens. "Let's be dogged."

If you want to keep your worries alive and growing, keep on thinking and talking about them. The more you think and the more you talk, the bigger they get. You know you haven't any monopoly on worry. We all have troubles of our own.

Goethe says in his "Faust" drama that four veiled figures approached a magnificent palace. They were Want, Necessity, Guilt and Care. Of the four Care was the only one to enter the palace. She alone could crawl through any key hole, enter any heart.

We know this is true, that the wealthy, the leisure class have their troubles as well as the less fortunate. Indeed, idleness brings more misery than actual trials, for, if you are not occupied, you will simply dwell on your old troubles, and think up new ones. Trouble is like pain, the brave people "grin and bear it," the others weep and "squel," and make themselves out to be Christian martyrs. Why unload your troubles on someone else's shoulders? He is probably staggering under his own load of care, and it isn't fair to give him yours, as well.

You won't find happiness and relief from worry by sitting still and waiting for it. You have to get out into the world; forget your troubles; love your friends; be cheerful and brave; smile and don't worry.

NOVEL STYLE OF LOOSE COAT. BOX-PLEATS ATTACHED TO YOKE.

[By Catherine Anderson.]
An ideal coat and wrap season is this for the home dressmaker. Strangely enough the more elaborate and fanciful the wrap, the easier it is for the amateur to evolve it. The severely plain, perfectly molded jacket, which presents almost insurmountable difficulties to the home dressmaker. Given a good pattern and patience at the pressing board, the nimble-fingered girl can easily make her own wrap or coat this season.

One of the easiest coats to design at home is the loose three-quarter rain or shower coat. There is something distinctively smart about the loose coat, particularly on a tall and slender figure. It is especially desirable garment for the fair vacationist. It can even be made to do duty for an evening wrap at the seaside when the prevailing mists may be offered as an excuse for not exposing the more delicate evening coat which will do service on the return to town.

In making coats at home the selection of material is all important. It does not pay to make an outdoor garment from the material which peels easily, or from cotton mixtures which look stringy in an incredibly short time. In cloths, various rainproof fabrics, such as broadcloth, cheviot and serge, are popular, while such cloths as covert cloth, Panama frieze and cheviot, that are not rainproof, but follow the weaves employed for men's rough coats, are virtually proof against the sudden shower, and are warm enough for chilly days, yet not tiresomely heavy in weight.

Silk coats are not as much of an extravagance as one might imagine from the prices asked for ready-made garments in the better class of shops. The home dressmaker has only to watch good silk sales to acquire this most dependable garment, and a good quality of waterproof cloth can be picked up in the thirty-six inch width so low as \$1.30 a yard.

Other clothings are more expensive, and among the more which are particularly affected by the motor girl and her outdoor sisters in general are odd reds and blues, ivory white and the natural color of broadcloth and serge. For motoring or the rougher sort of outdoor wear, the silk coat is severely plain with no other ornaments than large buttons. But when they are intended for afternoon or evening wear they are trimmed in a bewildering variety of styles which will meet the purse and the taste of almost any summer girl.

A most desirable silk for the latter purpose is the new Burlington or silk buray. It is almost as rough looking as coffee sacking, but is exquisitely supple and soft to the touch. At the beginning of the season this silk brought \$1.75 per yard. It can now be had for very good quality as low as \$1.25, and it is so heavy that it needs no trimming save straps and stitched bands of the fabric and has a fine texture. The latter are essential, as a cheap button cannot endure comparison with this radiant new silk. It comes, by the way, in dead white, and in all the new blues, greens, reds, etc.

The smartest shops are charging from \$5 to \$125 apiece for Burlington coats made in the form of a raincoat. Eight yards of the material and two or three dollars expended in buttons by the aid of a good pattern and careful home sewing will produce these most desirable garments. Sometimes the scrolls or stitched bands of silk which trim them are outlined with a narrow band of the same material. The dead white coats are frequently trimmed with cream or ecru colored lace, set off by gold buttons. But the smartest garments are those which are self-trimmed in simple tailored fashion, with perhaps some odd embroidery or rich lace introduced on the collar and cuffs. Kimono lines are also observed in many of the silk coats, particularly those intended for dressy wear.

Another striking feature of the season's outer raiment is the development of plain cloth coats for wear with checked shirtwaist suits and accordion pleated circular skirts. Dark blue, broadcloth coats are worn with clean-looking checks of dark blue and white, black cheviot, serge and broadcloth with popular shepherd plaids of black and white, and hunter's green with green and white.

These plain cloth coats are made in two styles, either very long and loose or else extremely short, natty and tight fitting. Belonging with high grades of the dark cloth are also worn with the checks, but as we stated earlier in this article, the home dressmaker should regard with suspicion the trim, smooth fitting, strapped seam, short coat. It requires a certain trick of tailoring which is seldom given to the amateur. On the other hand, the frantically pleated jackets that have in long, loose folds with a bit of lace here and a medallion there do not demand such accurate tailoring.

Nearly all the coats are collarless and are finished with novelty braids or insets of velvet edged with braid which cleverly simulate a turn-over collar. The high military collar is not seen at all this summer, and above these collarless coats rise the high, ornate stocks which mark the summer's blouse.

The economical woman will not fail to include in her summer wardrobe a new shower coat, which is by no means a rainy-day garment. They are made from extremely light weight silks with an under surface of rubber, lacostone and close woven Siceliane are used for the same purpose.

The shower coat is seldom more than three-quarters in length, and more elaborately trimmed than the rain-coat proper. Not infrequently it is shirred about the waist line to give an odd gathered effect, which is carried over, however, with the American woman, as the coat which hangs loose from yoke or shoulders.

An odd fancy for finishing lapels, collars and cuffs of cloth coats is a lingerie pleating of the lawn, hemstitched or edged with lace, of the same depth worn around the neck of a gown, or even deeper. This turns back and gives a delightful, fresh look to a tailored suit; but it must be renewed constantly, as a crumpled ruching destroys the charm of the combination.

There are also shown separate cuffs, lapel and collar sets of heavy linen and canvas done in broderie Anglaise, and these are bought to fit perfectly over the cloth coat.

In the most useful of all garments, the pongee coat, no lining is needed in the bodice. A pretty model, cast on a

SHOWER COAT OF WATERPROOF SILK.

Cover with an upper crust, bake and serve hot.

Cherry Roll Pudding.—One pint of flour, one teaspoonful of salt, one large spoonful of sugar, two teaspoonfuls of baking powder, one tablespoonful of butter, milk or water to moisten. Work as little as possible. Make a soft biscuit dough, divide into five parts, pat flat, lay in a handful of stoned cherries on each and roll. Place in a pan and pour over it the following sauce: One tablespoonful butter, one cup of sugar. Cream these together and add a pint of boiling water. Stir and pour over the rolls. Bake half an hour with a cover over it. Then remove the covers, brown and serve hot.

Cherry Fruit Pudding.—Mix well one pint of flour, one and one-half teaspoonfuls of baking powder, with enough milk for a soft batter. Put into well-greased cups alternate spoonfuls of batter, with layers of stoned cherries. Steam twenty minutes. Serve with hot, foamy sauce.

Foamy Sauce.—Half a cup of butter, one cup of powdered sugar, one teaspoonful of vanilla and two tablespoonfuls of wine or fruit juice. Cream the butter and sugar and add vanilla and juice. Just before serving add the boiling water, stir well, then add the egg and beat till foamy.

Cherry Batter Pudding.—Have ready a cup of stoned cherries. Beat two eggs separately, add half a pint of milk, or better still, sweet cream, to the yolks, and to this one teaspoonful of melted butter. Have ready one and

one-half cups of flour, into which two teaspoonfuls of baking powder have been sifted, with a dash of salt. Add this to the yolks of the egg and milk, and lastly add the whites of the eggs, beaten light. Beat vigorously for a few minutes and turn into a greased baking pan, allowing the batter to be about an inch thick. Cover it with the cherries, add one-third of a cup of granulated sugar, sprinkled lightly on the top, and bake in a quick oven for thirty minutes. Serve hot with hard sauce or a sauce made from a cup of cherries and half a cup of sugar stewed together until the cherries are reduced to a pulp. Sauce as well as pudding should be served hot.

Almost every housewife has her favorite recipe for shortcake, but the average man, especially if he was raised in the country, swears by the rich biscuit dough for a foundation. Sift three teaspoonfuls of baking powder into one quart of flour. Work in lightly one-half cup of butter and add milk enough to make a dough just stiff enough to handle on the board.

Roll out one inch in thickness, bake in a quick but not hot oven. Split the hot cakes deftly, spread lightly with butter and pile on the lower layer all of the strawberries, except a few especially fine ones, which may be used for decorating the top. Lay on the top crust. Sprinkle its upper surface with powdered sugar, add a circle of the berries for decoration, and send at once to the table with a pitcher of cream.

This is less slightly than the elaborate shortcake served in restaurants.

For serving the newest form of ices, plain ice cream over which hot sweet sauce is poured, an especially tall glass whose stem rests on a carving glass saucer, to catch the overflow of hot sauce.

A tall crystal lamp which stands two feet from the table, with an opaque shade, showing old fashioned floral designs.

There are some variants of the practical recipe. For instance, some cooks like to add one egg to the dough. Others divide the dough into two parts and bake it in two layers, one on top of the other so that it can be served more easily. Many families like the strawberries crushed with sugar before they are added to the short-cake. One economical housewife places two-thirds of the strawberries between the layers and one-third she brings to a boil with sugar until a sauce is formed. She serves the shortcake with whipped cream with each section of the cake.

UP-TO-DATE HINTS FOR HOME-MAKERS

A FEW NEW WRINKLES IN HOUSE-FURNISHINGS SET FORTH IN CONCISE STYLE.

Some New Ideas in Washable Furnishings, Including Scalloped Towels, Bedspreads and Portieres—A Quaint Revival of Night Sets.

If you want your home to look strictly up-to-date, invest in one or more of these popular furnishings:

Towels in any of the heavier weaves with edges scalloped at either end or all the way round.

Heavy pattern bedspreads done in English eyelet work with scalloped edges, or cheaper still, pique in dainty stamped pattern, finished with hems, scallops or cotton mingeles.

Portieres of Russian crash in narrow strips of a pale ecru shade, finished on the edges with square scalloped effects done in buttoned stitches of small green, blue or terra cotta yarn. It takes four strips of the crash to each curtain, the scallops overlapping the plain edge of the next strip. All three of these articles can be made at home from materials bought by the yard.

The old-fashioned colored tablecloths, red and white, or a porcelain blue mixed with white and a more delicate shade of blue.

Net curtains showing a heavy pattern in lattice work and a light, airy flower pattern trailing over them, edges scalloped.

Quant, lined lambrquins hung over your summer curtains, made from cretonne or denim finished with tape bound scallops.

THE FULL BELTED COAT FOR SLENDER FIGURES.

Saved the Baby.

"I was not a believer in advertised medicines," says Mrs. Chas. VanTassel, Digby, N. S., "until I began using Baby's Own Tablets. When my last baby was born we never hoped to raise her. She was weakly, did not have any flesh on her bones, and a bluish color. The doctor who attended her told me she would not live. After reading what other mothers said about Baby's Own Tablets I decided to try them, and I must now honestly say I never had such a valuable medicine in my home. It has changed my poor, sickly, fleshless baby into a lovely child, now as fat as a butter ball. Words fail to express my thanks for what Baby's Own Tablets have done for my child, and I can only urge that other mothers do as I do now. Keep the Tablets in the house always." Baby's Own Tablets positively cure all the minor ill of babyhood and childhood, and the mother has a guarantee that they contain no opiate or harmful drug. Sold by all druggists, or sent by mail at 25 cents a box, by writing the Dr. Williams' Medicine Co., Brockville, Ont.

After carefully examining a great many specimens, we have decided that the importance women attach to seeing a brand new baby is greatly exaggerated.

THERE IS ONLY ONE ELECTRIC OIL. When an article is so medicine or anything else, becomes popular, imitations invariably spring up to derive advantages from the original, which themselves could never win on their own merits. Imitations of Dr. Thomas' Electric Oil have been numerous, but never successful. Those who know the genuine are not put off by a substitute, but demand the real thing.

Great risks sometimes are taken for that which is not worth the having.

If you have written a letter, read it carefully before sending. If the words "Burn this" appear, take your own advice at once.

IF YOUR CHILDREN are troubled with worms, give them Mother Graves' Worm Exterminator; safe, sure and effective. Try it, and mark the improvement in your child.

Painting is a great winner in arguments; if a woman can faint when things don't suit her, her husband will always see that she gets her way.

BEST STORY ON JOE JEFFERSON

AND THE NOTED ACTOR WENT TO HIS REWARD WITHOUT HAVING EVER HEARD IT.

"The best story on Joe Jefferson has never been printed, and the kindly old gentleman himself went to his reward without ever having heard it," said the advance agent.

"Well, sir before Jefferson had time to recover from his surprise, they seized and carried him to the carriage, cut the traces and turned the horses loose, and shouting and howling started the street traffic.

THE APACHE CHIEFTAIN, WHO CAUSED SUCH TROUBLE, PEACEFUL AS A PALEFACE.

How the Notorious Indian Leader Fought the Best Soldiers and Officers of Uncle Sam's Army.

Probably no portion of the great inaugural pageant at Washington attracted more attention than the Indian chiefs in their war paint and feathers.

"For over one hundred years the word 'Apache' has been the synonym for atrocities without a name, and for only a few years short of that 'Geronimo' has been a name which has rung up to 1871, when Gen. Crook took hold of Arizona, and the man-hunt began.

While all this is true as Holy Writ, and true as the annals of history, it might be told, the true Apache never took a scalp.

This great war chief of the Apaches, Geronimo, is the son of Old Mangus, a student of the late President.

Gen. Crook had all of the Apache bands called out, excepting the Chiricahuas, and he could have had his hands on that band any time, but in 1876 he was relieved from duty.
