SILKOLINES AND CRETONNES ARE A NECESSITY AT HOUSE-CLEANING TIME.

WE have just received from New York a big shipment of New American designs in Silkolines and Cretonnes. There is always a big demand for these goods at this season of the year for Draperies, Cushion Covers, Quilt Covers, etc. A few yards for one purpose or another is always useful in brightening up some half-worn looking spot in the home. Have you any such spots in your home that require freshening? Come in and see the goods, anyway! You'll find a place For Them When You See the Designs And Colorings.

Cretonnes At Reduced Prices!

We've laid out a number of patterns in Cretonnes and reduced the prices. Why? Because in some cases they were not quick sellers—others on account of being slightly damaged. There is a reason for each piece being on sale at a reduced price, but in many cases you'd wonder why such good things were going so cheap. Ask to see them!

WANT THIRTY PER CENT RATE

Merchants' Association Think They Pay too Much Business Tax

Messrs Cowan And Mills Will Wait On Council To Get Reduction

A very enthusiastic meeting of the Retail Merchants Association was held last night in the Board of Trade rooms. The meeting was a special one and called for the purpose of discussing the business assessment tax. Ex-Mayor Geo. W. Cowan was in the chair and opened the meeting, saying that some time ago when the Dominion organizer was in the city he spoke in reference to the business tax and thought that Chatham should have its tax lowered. Chatham pays a tax of 35 per cent. while other cities pay a tax of only 30 per cent. He stated that Berlin was enjoying a 30 per cent. rate, and that if we would take up the matter we may enjoy the same rate on account of being a constituted city. Mr. Mills was in Berlin at the time, and after consulting about the matter there he felt satisfied that the Maple City should, and by rights could, enjoy the low rate. At the 35 per cent. rate there is \$5 more taxes on every \$1,000 than there is at the 30 per cent. rate. This means that if a person has \$10,000 worth of property he pays \$50 more than he would if he enjoyed the 30 per cent. rate.

Mr. Mills was called upon, and endorsed the ex-Mayor's statements, and also said that a committee composed of Mayor Stone and A. B. McGeachy, M. P. P., had met Mr. Mulvey, deputy provincial secretary, in reference to the matter. Mr. Mulvey stated that as Chatham was under 10,000 population, that 35 per cent. was justly its rate. The committee reported back that this was the best they could do. Mr. Mills wrote to Mr. Hanna, provincial secretary, regarding the matter and received a favorable reply. Since Chatham was elected to become a city with privileges her rate should be 30 per cent. Mr. Mills thought that a deputation to appear before the Council with the matter should be appointed. A motion, by Mr. Hall, that ex-Mayor Cowan and Mr. Mills be appointed a deputation to wait on the Council, was seconded by Mr. Anderson and carried.

A. D. Westman was present and gave a short talk about the Wolverine Brass by-law, stating that it was greatly to the interests of the merchants and every citizen to have the by-law carried. He hoped that every person would get enthused and work hard for the passing of the by-law. Mr. Mills stated that Mr. Shannon, manager of the Standard Bank, said that he had received the most glowing report he had ever received of any firm. Their record is beyond reproach, and as regards the financial ability they are quite capable to conduct a lively business. They are willing to put up a plant worth \$10,000, and give a mortgage on the same. A mortgage makes it very difficult for a firm to do business. They are obliged to bank on their own capital, and from all accounts they are A. N. 1 people, and have enough capital to do this. Mr. Mills, in conclusion, said Chatham will make a great mistake if she does not bring out every vote and carry the by-law with a unanimous majority. Every merchant and ratepayer should be loyal to his community and help for the progress of the city.

H. Macaulay thanked the association for making the change in the night of meeting. On account of being obliged to attend another meeting on Monday nights, he was barred from the merchants meeting. He is much interested in the association and was very glad of the change.

The following were present: Ex-Mayor Cowan, C. H. Mills, H. Macaulay, W. Anderson, W. F. Fife, W. A. Winterstein, J. A. Wilson, A. Hall, H. Andrews, A. D. Westman, W. Drew, V. Bosworth, C. E. Lister, ex-Ald. Weaver, and Mr. Murdoch.

MANY RATEPAYERS FAVOR THE WOLVERINE BYLAW

The Planet Interviews Some Of Them And In Every Case Receives Favorable Comments—All Think The Bylaw Should Carry

A representative of The Planet walked down King St. yesterday afternoon and solicited opinions from the people he met, upon the Wolverine Brass Works By-law, which will be submitted to the ratepayers on the 5th of June. The following were the results:—

Ex-Ald. John Waddell—I like the proposition exceedingly well. It is one of the best ever offered the city, and I see nothing but gain ahead if we succeed in passing the by-law.

J. W. Carswell—Sure thing. I am for the by-law, and I will do all I can to help to carry it.

William Anderson—Put me with the boosters. I am for the Brass Works By-law with both hands up. It is the very thing we want.

H. Macaulay—I am for the by-law. We cannot get too many good industries provided they don't cost us too much.

Harry Andrew—I am with the "Three B's"—The Boosters for the Brass By-law.

Geo. S. Heyward—I think the proposition is all right, and should carry. It is the best proposition ever put before the citizens of Chatham, and on election day I intend to work all day long and help to carry it.

Dr. Geo. T. McKeough—Everyone should get out and work for it, and I sincerely hope it will carry. Good industries are what will fill up the vacant houses around the city, and increase our school population, which has dwindled to a remarkable degree during the past year.

Fred Ward—I think we will be

sorry once and all the time to come if we don't pass this by-law.

W. T. Shannon—I don't think a better proposition from outside has ever been offered the citizens of Chatham. In all the financial reports I have received from Grand Rapids, the Cornelius Brothers, who own and operate the Wolverine Brass Works there, are most highly spoken of.

R. A. Williams—I am very much in favor of the by-law, and I hope the people won't forget to get out early and vote for it on June 5. If the city is to progress, we must get more citizens, and I know of no more feasible plan of bringing them here than by getting good industries such as this.

Thomas A. Drew—I am strongly in favor of the by-law. The Wolverine Company are a good firm and they pay good wages. A factory which will pay \$4 a day is worth a dozen dollar a day concerns.

Dr. J. W. Rutherford—We are for the by-law, and we certainly will support it. The more factories we get in Chatham the better it will be for everyone concerned.

W. W. Turner—I am heartily in favor of the proposition, and I will do all I can to help to pass the by-law. This is the only way in which we will ever be able to raise the standard of wages in the city.

W. A. Coltart—I believe the proposition is a good one, and should be supported.

William Somerville—I am strongly in favor of the by-law.

DISSATISFACTION OVER THE RAISE OF RATES

Local citizens express considerable dissatisfaction over the raise in the rates on the City of Chatham between here and Detroit. This boat trip, which during the past has proven such a popular one, has, as a result of the raise in the rates, lost considerable favor with those who formerly were in the habit of making regular trips via the City to the Michigan metropolis. The extra 15 cents, which was within the reach of everyone, and was generally considered to be reasonable. But when the price was first raised to sixty cents and later raised to 75 cents, it was felt that in view of the fact that the railway rates on Thursday only amount to one dollar for the round trip, that the twenty-five cents saved by taking the boat, did not compensate for the delay and inconvenience experienced in water transportation.

The boat, too, appears to have met with considerable trouble in navigating the river this year, for some reason. It has several times grounded on the way down. Whether this is due to shifting of the sand bars at the bottom of the stream, or that the new crew are not as well acquainted with the stream, as those in charge last year, is in doubt. It may be one or all of these things that has started the rumor to the effect that an outside navigation company talk of placing a passenger steamer on the run between here and Detroit.

In all likelihood there would be plenty of business for two steamers plying between here and the City of the Straits, and the citizens would thus get the benefit of competitive rates.

HICKLIN—SMITH

The wedding is announced to take place at 4.30 this afternoon, at the First Presbyterian Manse, Raleigh Street, of Miss Eva E. Smith, daughter of the late Mr. C. T. Smith, of Stewart, to Mr. Ross Hicklin, of this city. Rev. A. H. MacGillivray is officiating at the ceremony, which is unattended, save by the immediate friends of the contracting parties. Mr. and Mrs. Hicklin will leave on the 5.18 for Toronto, where they will spend a few days. On their return they will reside in the Alexandria block.

A FINE PUBLICATION

The Planet is in receipt of a copy of the Canadian Pottery and Glass Gazette, published in Toronto, which made its bow to the public a few months ago. This magazine is a very worthy one. It deals with the trade in both Canada, the United States, and the old country. It should prove interesting to everyone, and especially to women who take an interest in anything artistic in this line.

COOK GOES TO ASSIZES

High Court to Fix Responsibility for Myrtle Railway Disaster

Charge Against Engineer Kyle Dismissed—Should Prosecute C. P. R.

Whitby, May 29.—The trial of Conductor J. F. Cook and Engineer Kyle, implicated in the recent Myrtle accident, when two trainmen were killed, began before Police Magistrate Harper yesterday morning.

Objection was taken by Mr. Robinson against the whole proceedings, in that under section 252 of the criminal code there is ample provision to prosecute the Canadian Pacific railway, instead of their employees.

Coroner Dr. Mellow, examined, admitted that train order which was put in as exhibit at inquest, could not be found.

After adjournment Mr. Birney of the Hotel Myrtle, where the inquest was held, told of the burning of some papers in the furnace after the concluding sessions of the coroner's inquest, amongst which probably was the missing train order.

Under objection the magistrate had Conductor Cook's evidence at the inquest read.

Station Agent Harrison told how he was busy trimming lamps and turning switches during the precious time before the fatal arrival of Cook's train, so that the despatcher did not get time to copy the order that would have avoided the accident.

On hearing the engine driver Hugh Kyle's evidence was read under the same objections as in Cook's case, Magistrate Harper dismissed Kyle, but committed Cook for trial at the fall sessions, accepting \$500 bail.

STREET CAR BLOWN UP.

Torpedo Placed on Track to Kill Gamblers.

Chicago, May 29.—Two men were badly injured by broken glass and a score of others sustained slight injuries yesterday when a street car on the Calumet Electric Railway was blown from the tracks by a torpedo at 33rd street and South Chicago avenue.

The explosion lifted the car from the tracks throwing it into the roadway. It was found that considerable evidence was that the torpedo was planted with the original design of blowing up prospective passengers on the gambling boat City of Traverse, whose landing place is about a block away, the theory advanced being that it was planted either by religious fanatics or by rivals of the City of Traverse crowd.

The man who can see no good in others is either looking the wrong way or not looking at all.

THREE-FIFTHS MAJORITY.

A local option measure applicable to Scotland is now before the British Parliament and is encountering the usual opposition. While there were fifty petitions against the bill there were five hundred for it. The act provides that if one-tenth of the electors of a ward, town or parish sign a requisition for a poll, the vote must be taken. A three-fifths majority of the vote is necessary to prohibit the sale of excisable liquors, but a bare majority will reduce the number of licenses by one-fourth. Another poll may be demanded at the expiration of three years. Under the bill one ward of a town or city may go "dry" while the others remain "wet." The opposition in the Commons to the bill was chiefly among the Unionists, the Liberals were divided, and the Labor party gave the bill an almost solid support. The majority on the second reading was 156. As amended by the Government the majority will probably be larger.

Commenting on the several features of the measure, the Toronto News (Ind.) says: "The fact that the three-fifths majority clause in the British act is the same as in the Ontario act is worthy of special note. It heartlessly robs a certain section, perhaps the extreme section, of the temperance people of this province of the rather florid argument about British practice. The Ontario act was revised from end to end of this province by earnest temperance men who conceived that the three-fifths clause was unjust, un-British and unfair. It must be gratifying to the Whitney Government to find this feature of the Ontario local option law upheld by British practice."

A CHATHAM MAN DIES IN OMAHA

Word has just been received by telegram from Omaha to the effect that Mr. Charles Baxter, brother of James B. Baxter, of Dresden, who formerly carried on a bakery and confectionery store on Queen street, this city, stating that his brother, Charlie, who had charge of the boiler and engine room at Omaha, exploded, and that his brother had received such injuries as to cause his death. The deceased had been in the employ of the U. S. Government for a number of years and was universally esteemed as a very trusted employee. He was the youngest son of the late Richard Baxter, of this city, and was aged about 56 years. He leaves a wife and a grown up family to mourn his loss.

TIGER KILLED GIRL.

Youngster Fatally Mauled By One That Escaped From Circus. Twin Falls, Idaho, May 28.—The funeral of four-year-old Ruth Rossell, who was killed by a Royal Bengal tiger, which escaped from its cage at the performance of the Sells-Floto circus here Saturday afternoon, will be held to-day. Mrs. Rossell, the mother of the child, who was knocked down and badly shaken by the tiger, is overcome with grief and the shock of her experience. The tiger charged into the crowd, killing the little girl and a Shetland pony, and mauled several other spectators and ponies before it was shot and killed by a man in the audience. For a few moments there was a panic in the menagerie, and women screamed and fainted. The elephants tugged at their chains and trumpeted wildly, and there was great commotion until the tiger rolled over dead in front of the main entrance.

SIX HIGH SCHOOL CHOSEN.

Centres At Which Agricultural Work Is Being Instituted. Toronto, May 28.—The six high schools in which the Provincial Government has decided to establish agricultural classes are: Collingwood, Galt, Essex Centre, Perth, Morrisburg and Lindsay. The teachers have not yet been chosen, but will be graduates of the Ontario College of Agriculture at Guelph, and will all be experts. In addition to the schools, offices will be opened in the towns mentioned, where farmers may get any information they may desire with respect to their business. This will be supplied by the teachers, who will spend an hour or two after school in giving out information to the farmers of their district.

How Zam-Buk Saved a Girl's Arm

The great healing and antiseptic power of Zam-Buk, the favorite household balm and salve, is well illustrated by the following occurrence. Miss Saddington, of Huntsville, Ont., is the subject, and she says: "I had a scalded arm which went the wrong way, and began to swell very badly. The pain from it was terrible and when I went to the doctor he said it was blood poisoning. For ten months I was very bad with it. I tried all sorts of remedies, but could not get ease, to say nothing of cure. "One day in the house of a friend Zam-Buk was recommended to me. On my friend's recommendation I applied some Zam-Buk that same night. To my delight when I awakened next morning my arm was much better. I therefore continued with the treatment regularly. In three weeks the arm was quite well, and I have never felt any trace of pain from it since. It is now some months since it was cured so that it is evident the cure is permanent. "Since that time my friend's husband cut his arm. This wound also turned to blood poisoning. Zam-Buk was applied, and in his case also completely cured."

Zam-Buk is just as effective when used for cuts, burns, sores, skin eruptions, pimples, boils, head lice, varicose ulcers, eczema, etc. Just put it on to that cut, or scratch, or blister, or sore, and note how quickly it takes out the soreness and heals! All druggists and stores sell at 50c a box, or from Zam-Buk Co., Toronto, for price, six boxes for \$2.50. There is nothing just as good.

CONFIRMATION RITE HELD IN CHRIST CHURCH

The rite of confirmation was administered to twenty-eight candidates in Christ Church last evening. The solemn ceremony was performed by Bishop Williams, of London, assisted by the rector, Rev. J. Dean Robert McCosh. A large congregation was present to witness the impressive proceedings. The ceremony was most imposing and interesting. The bishop first addressed the candidates, explaining to them the important nature of the rite which was about to be conferred upon them. With it came certain obligations and responsibilities, which they must not only acknowledge, but must also live up to. It meant that they were to become friends of Christ, and, in accepting Him as a friend, they must also become a friend to Him, and be true to Him in all their actions throughout their lifetime.

Four candidates approached the altar rail at a time, the bishop confirming them in pairs by laying his hands upon their heads and invoking the Divine blessing.

The certificates to each of the candidates will be issued next Sunday morning by the rector.

It is not so much the being exempt from faults as the having overcome them, that is an advantage to us.

NOON IN CHATHAM

What Is Going On In Town When The Clock Strikes 12.

Noon, the dinner hour, the hour of comfort, of pleasure and relaxation—the one hour in the twenty-four which comes to men and women of every station with greater similarity than the hour of any other function in life.

Promptly as the clock strikes 12 in Chatham the shadows on anxious faces turn to lines of good will, and if villainous loaf bread, pies, spices and other indigestibles were excluded there would be no such words as dyspepsia or indigestion in the dictionary.

But the contrary is true, and medical science has to step in and aid the man or woman who has been too busy to pay proper attention to health.

The greatest step forward in medical discovery is Mi-o-na, which cures all stomach and digestive troubles. In hundreds of the best homes in Chatham and adjoining towns the little tablets, so pleasant to take, yet effective, have given quick and lasting relief in indigestion and that disagreeable full feeling after eating.

Mi-o-na acts very gently. Much of its wonderful power over indigestion comes from its uniform but sustaining action. The required stimulating and strengthening is given to the important organs of digestion without producing the slightest weakness or reaction.

A 50-cent box lasts for a couple of weeks and will ward off a dozen attacks of indigestion. C. H. Gunn & Co. give a guarantee, absolute and unqualified, with every box of Mi-o-na to refund the money if it does not give satisfaction.

Minard's Liniment Co., Limited, Yarmouth, N.S.

Gentlemen,—In January last, Francis Leclaire, one of the men employed by me, working in the lumber woods, had a tree fall on him, crushing him fearfully. He was, when found, placed on a sled and taken home, where grave fears were entertained of his recovery, his hips being badly bruised and his body turned black from his ribs to his feet. We used MINARD'S LINIMENT on him freely to deaden the pain, and with the use of three bottles he was completely cured.

BASEBALL

C. B. C. WINS.

The second game of baseball was played on Tecumseh Park last evening, between the C. C. I. and the C. B. C. The game made a decided hit with the fans, and the C. B. C. enthusiasts at times went wild with excitement.

Charlie Bell, of the C. C. I., again captained his selected nine. There were no "ringers," the players this time being all from the said institution, which could easily be detected by their clever work.

The C. B. C's were in excellent shape and worked hard and fast. They were a picked team from the College, and will undoubtedly in the near future make a star team.

Merrill and O'Dell were the batteries and played a good game. The score, 9 to 10, resulted in favor of the C. B. C.

The line-up of the respective teams was as follows:

C. C. I.—Bell, Whitley, Walker, Marshall, Clements, Capt. McDonald, Warburton, Harrington and E. McDonald.

C. B. C.—Merrill, O'Dell, Easton, Reynolds, Gillies, Eubanks, Burgess, Pegg and Bachelor.

TO TAKE GAS TO DETROIT

Maple City Oil And Gas Co. Said To Be After Windsor And Detroit Charter

Local Members Of Company Plead Ignorance—May Be Turned Down

(Special to The Planet.)

Windsor, Ont., May 29.—The Maple City Oil and Gas Co., Chatham, has written to Mayor Wigle, asking if the Council will grant a franchise to allow them to pipe the streets of Windsor to supply Windsor and Detroit with natural gas. It is not likely the proposition will be entertained, as Windsor has an offer from a Tilbury company that will not supply Detroit.

Messrs. Aitken and Egan, of the Maple City Oil and Gas Company, when interviewed by The Planet this afternoon in reference to the matter contained in the above despatch, claimed to know nothing about it.

People ask "Why do you claim that Veteran's Sure Cure, one medicine, cures Rheumatism, Backache, Sciatica, Dyspepsia, Bright's Disease, etc." We reply, because 16 years practical use has proved that V. S. C. contains the medicinal properties that cure the digestive organs. And when the people properly realize that good health depends upon pure blood, and pure blood upon properly digested food being supplied by a healthy stomach, kidneys and liver, they will want the medicine that gives the best results. DISTRICT

CROTON.

Rev. Mr. Sawyer preached here
Sunday.

Mr. and Mrs. Irwin Brooks visited
friends in this vicinity.

Mr. David Everett, of the 12th con-
cession, south of this village, was a
heavy loser when his fine new house
was burned.

Clifton Daynard purchased some
hay in Dawn, where there seems to
be an exhaustless amount of hay,
grain and stock.

Dug. Snary and wife visited friends
in Wardsville.

Mr. Sergis, of the 10th concession,
was a Dresden visitor last Satur-
day.

Mrs. Chapple was a Thamesville
visitor Thursday last.

Wm. Christner lost a fine colt.
A great amount of wire fence is
being built by the farmers this
spring.

A large number from here attended
the Epworth League convention in
the Methodist church, Florence, on
Monday.

Henry Paul has arrived home from
the London Hospital.

Charles Childs has purchased a new
manure spreader.

Wm. Leeson has the 12th line ditch
nearly finished.

Johnson Vance and Dawson Brooks
were in Dawn looking for horses.
Horse and cattle buyers generally
make for Dawn when looking for
large animals of good quality.

Mr. and Mrs. Benson Houston
visited Dresden friends Sunday last.

"REMITTANCE MEN."

Wastrels, Pitchforked Into Canada the
"Land of 'Forget.'"

While a new country offers a splen-
did field for those who, ambitious of
getting on, are handicapped in old
lands by the restraints and oppres-
sions of ancient environments, it also
offers, or seems to offer, a place in
which old sorrows may be forgotten;
a place in which the social offence,
committed elsewhere, may be for-
given.

The bulk of the people who came
out have, no doubt, had regard to the
Ten Commandments, and are whole-
some in their relations, but human na-
ture is defective, and distance from
the scene of the moral lapse is not
infrequently desired.

Recently, was noticed a beautiful
young girl in company with a strap-
ping fellow who, though manly-
looking enough, confessed at a
glance his social inferiority to his
companion. The girl was English.
She had a charming carriage, delicate-
ly tinted cheeks, a mass of golden hair
and an accent which told the story
of breeding.

Coachman and Master's Daughter.
Enquiries from railway officials,
and especially from the stewards of
the ship in which they had come out,
elicited that the young man had been
the girl's father's coachman in the
south of England; that he had dared
to make love to her; that this love
had, in due course, been returned;
and that they had eloped together,
intending to go upon the land in the
Saskatoon district.

There is some strictness of exam-
ination now, but the wastrel cannot
be wholly excluded. For the wastrel
appears frequently in the guise of the
gentleman—in, indeed—the gentleman,
only lost to duty, to regular habits, to
ambition.

Tragic Contrasts.
The most tragic contrasts of feel-
ing, of condition, are met with among
the immigrants.

An army chaplain has been known
to be working as foreman of a gang
of navvies in the Lake Nipissing dis-
trict—a gentleman to his finger tips,
with that dreadful failing, which some
foolish people think they can remove
—by a bit of parchment.

He was idolized by the men, by the
people of the district. He had hum-
or, and he came from the Green Isle,
and his stories were side-splitting. He
was also an excellent manager of
men.

Periodically he would disappear.
Not one of the navvies ever hinted
the cause of such disappearance. He
would return in about a fortnight
with hands that trembled, and lips
that were red and hot.

The Fatal Remittance.
The "remittance man" is a feature
of any large immigration. This is the
ne'er-do-well—young, often handsome,
highly educated, in instances. Just
spoiled—spoiled by softness, by shel-
tering, in his early youth. His par-
ents were over-fond. Also, they had
too much money. The wind must not
blow roughly upon their darling, who
came to expect that the world was
made expressly for his pleasure.

He was dull at school; he was
plucked at college, and he entered
upon his manhood without a profession.
By and by his father coaxed him to
go out to Canada and start ranching,
which might answer to his love for
outdoor life and sport.

And there have been men of this
stamp who, thrown absolutely upon
their own resources in a new country
have "buckled to," and done well;
but in nine cases out of ten the re-
mittance is fatal.

It is expected, and when comfort
can be had by merely sauntering to
the postoffice, redemption is diffi-
cult.

Every centre in the Dominion has
its remittance man, and the commer-
cial metropolis is not without its
quota. Extreme hardship has one of
two possible effects—it either de-
presses or stimulates. The remit-
tance man might be saved if the re-
mittance did not come.

But, habituated to ease, and sure
of the remittance, which will render
effort unnecessary, slothfulness be-
comes chronic, and incurable, and
there is a tragical loss to good citi-
zenship; merely because a pampered
young lad was not taken by the scruff
of the neck at sixteen and told to
make his living.

Treating the Imagination.
"Imagination has a great deal to
do with some cases of sickness," said
a doctor in St. Joseph's Hospital,
quoted in The Philadelphia Record.

There was a woman who used to
come here regularly complaining that
she had swallowed a pin, and that it
was stuck in her throat, hurting her
dreadfully. Week after week we as-
sured her that we could find no pin,
but still she came. At last we de-
termined to satisfy her, so we told
her to open her mouth wide and shut
her eyes. Then we placed a pin be-
tween a pair of long forceps and ran
it down her throat. After fooling
around a while we drew it out and
declared that we had at last succeed-
ed in extracting the troublesome pin.

She got up, declared that she felt
better and went away. A few days
later, and she declared that the pain
in her throat had entirely disappear-
ed.

REBELLIONS IN CHINA

Civil and Military Officials at
Wongtung Assassinated.

Residences Set on Fire After Murders

—Revolutionists Joined by Natives
of Other Provinces—Troops Rush-
ing to the Scene—German Mission
Station Destroyed—Rioting at Lieu-
chow—Europeans in Danger.

Swatow, Province of Kwantung,
China, May 28.—A rebellion has broken
out at Wongtung, in the Uping dis-
trict of the Chinchu Prefecture. All
the civil and military officials at
Wongtung have been assassinated and
their yamens burned. The local re-
volutionists, who were joined by na-
tives of the neighboring provinces,
concentrated for their attack on the
officials without being molested by
the populace.

The military commander here has
mustered the station guards and start-
ed for the scene of the outbreak.
Steps are being taken by the police
here to prevent excesses. The Chinese
bankers have organized a steam
launch patrol of the coast to prevent
piratical attacks on the part of the
marauders from the seaward.

Admiral Li, Going to the Scene.
Canton, China, May 28.—Admiral Li,
with the Kwantail and Meefoo, on
board which are detachments of
troops, is proceeding to the scene of
the rising in the Uping district.

German Mission Station Destroyed.
Berlin, May 28.—According to de-
spatches received here from Shanghai
and Hong Kong, native rioters have
destroyed the German mission station
at Lienchow, near Pakhoi. The mis-
sionaries escaped. The German gun-
boat Illis, reinforced by twenty ma-
rines from the gunboat Taing Tau,
has left Hong Kong for Pakhoi, and
it is expected that a British gunboat
will also be sent to that port.

According to advices received by
the German Cable Co. from Shang-
hai, disturbances have also broken
out at Pakhoi, and the situation there,
as well as at Lienchow, is apparently
serious.

Chinchu, or Tsienchun, is a mari-
time district of China, comprising
parts of the Provinces of Kwantung
and Fokien on the southeast coast.
It is inhabited by a hardy and indus-
trious people who furnish the ma-
jority of the men who form the crews
of the Chinese Imperial and commer-
cial navies. Swatow, from which the
news of the rebellion comes, is situat-
ed in about the centre of the Chinchu
district and is a treaty port of China
on the Hangshing River, about five
miles from the open sea and 225 miles
from Canton.

Inquiries at the foreign missionary
departments of the Presbyterian and
Methodist churches here yesterday
morning elicited the information that
they had no Canadian missionaries
stationed within hundreds of miles
of the district in which the rebel-
lion has broken out.

SCOTTISH CHURCH UNION.

Story of Canadian Financial Support
of Holy See Is Denied.

London, May 28.—(C. A. P.)—The
general assembly of the Church of
Scotland, in view of the many diffi-
culties, has decided to refer the ques-
tion of the union of Scottish churches
to a committee. It complained that
Scotland only contributed £3 per
parish to mission work in Canada.
Ed. McLaren addressed the United
Free Church Assembly.

The statement regarding the
provision of new revenue for the Holy
See by Canada and the United States
is authoritatively denied. It is stated
the story is one of many designed to
persuade Catholics in the old world
that the Holy See does not need their
support.

ATTACKED BY A MAD BULL.

Two Men Owe Their Lives to Collie
Dog.

Wallaceburg, May 28.—S. L. Mann,
liveryman of this place, was seriously
injured yesterday. He was milking
some cows on his farm about a mile
out of town, when he was attacked
by a bull.

He struggled with the infuriated
animal until John Hall, from an ad-
joining farm, arrived on the scene.
The bull then turned on Hall, and
would likely have killed both men
were it not for a collie dog that Mr.
Hall brought with him.

Mann is terribly bruised, but may
recover, while Hall's injuries are not
serious.

Ian MacLaren Buried.

Liverpool, May 28.—An immense
crowd attended the funeral yesterday
of Dr. John Watson (Ian MacLaren),
who died at Mount Pleasant May 3.

There was an impressive service at
the Sefton Park Presbyterian church,
where the embalmed body had rested
since its arrival here May 21 from
the United States.

The Rev. Alexander Connell, Dr.
Sykes, and the Bishop of Liverpool,
Dr. Chavasse, participated in the ser-
vices. The church was crowded with
representatives of all denominations
and the route to the Smithdown road
cemetery was lined with thousands
of people, who uncovered their heads
as the procession passed.

Mill Hands Go Out.

St. John, N.B., May 28.—All the
men of the Miramichi lumber mills
struck yesterday when the owners re-
fused to increase their pay to \$2 per
day.

There were no unions, but the men
agreed to stand firm. The mills here
were tied up several hours and some
owners gave in and the men returned.
Others are still out.

Fire Bug Arrested.

Ogdenville, May 28.—Julius Dishaw
of Raymondville, was locked up in
the St. Lawrence State Insane Asy-
lum yesterday, charged with having
poured oil through his house and
barns and then setting them on fire
several nights ago while his family
slept.

Don't hunt trouble. It will find you.
There is not the slightest sense back
of a great deal of hope.

When a man talks about his prin-
ciples, he usually means his prejudices.
There isn't a great deal of sunshine
in the smile a man produces when he
loses.

A man is always willing to lend a
helping hand, but he does hate to lend
money.

The man who wants to sell it is usu-
ally the one who has the least political
influence.

The man who brags usually has a
lot to say about the things he is going
to do. What he has done is far less
important.

When a man stops to listen to two
others arguing, he isn't after informa-
tion. He wants to butt in and air his
own views on one side or the other.

Built for Service

Every part shows it.

Fused Joints. The radiat-
ing chamber has walls
and flues of steel (the best
radiating material) joined
in one piece to the cast-
iron with Hecla fused
joints—which can never
loosen or leak unhealthy
gas, smoke or dust into
the house.

The Fire Pot is cast in
two sections, bound with
heavy flanges, which add
50% to the radiation
surface. The combustion chamber is made of heavy cast iron, and is
corrugated to provide additional strength and heating power.

THE STAGE

ANNOUNCEMENTS.

(Supplied to The Planet by Press Agents.)

At the Brisco Theatre—
Uncle Josh Spruceby—May 29.
East Lynne—May 31.

"UNCLE JOSH SPRUCEBY."
(TO-NIGHT.)

The theatre-going public will hail with delight the good news that our old friend, "Uncle Josh Spruceby," is to visit us this evening at the Brisco Theatre. This company, which has made an exceptionally strong impression wherever it has appeared, has many friends here who will await their coming with interest. The organization this year is better than ever, all the old favorites being retained and capable new ones added, and now takes rank with the best dramatic companies touring the country. The play is one of those homely New England dramas with a beautiful story running through it. Comedy, sensation and pathos abound. Attention has been paid to detail and a full new set of scenery has been painted for this season. Undoubtedly a big crowd will attend to welcome "Sally," "Dutey," "Out o' Sight," the Hayseed Band, and "Uncle Josh" himself. No theatrical season is complete without the joy afforded by "Uncle Josh" and his fellow "Rebblers." The elegant orchestra so long a feature of this company is still retained and, as usual, is still a source of delight.

JOSEPH KING'S "EAST LYNNE." Local theatre patrons will be afforded an opportunity next Friday night, at the Brisco Opera House, of witnessing a highly artistic and enjoyable presentation of the great set emotional drama, "East Lynne," by Joseph King's New York company.

The intense scene in which the unfortunate heroine's child breathes its last is the supreme dramatic moment of the play. The performance throughout is maintained at a high standard of artistic excellence. Nothing has been left undone in the way of scenic aids and accessories and competent stage direction will insure a harmonious performance.

MR. THOMAS SCULLARD WAS APPOINTED

Tilbury, May 28.—The town have appointed W. A. Burke, of the Canada General Electric Company, Toronto, as their arbitrator in the matter of fixing the value of the electric light plant to be taken over by the corporation from D. W. Kett, who has appointed Thomas Scullard, barrister, of Chatham, as his arbitrator. The two arbitrators will meet in the near future, appoint a third arbitrator, and get down to business. The decision of any two of the three will be final.

WALLACEBURG MAN ATTEMPTS SUICIDE

Wallaceburg, May 28.—Thomas Murphy, a glass blower, of this place, attempted to drown himself about a quarter to four o'clock this afternoon. Mr. Wm. Riddell, who was standing near the Empire Hotel at the time, saw Murphy throw off his hat on the dock and then jump off the dock immediately in the rear of the hotel.

Had it not been for the timely assistance of Mr. Riddell and some others, the man would have drowned. Mr. Riddell grabbed him by the neck and called for help. The man was placed on the dock and afterwards taken to Samuel Taylor's livery barn.

Good counsel never comes too late.

A BIG STRIKE IN TILBURY OIL FIELD

Tilbury, May 28.—The Amalgamated Oil Company, in which London men are largely interested, has struck another big oil well on the John H. Cooper farm, Tilbury East. The well started flowing natural over 100 barrels a day. This is the third well on the property and they are all gone over.

The Amalgamated is practically the only Canadian firm that is operating in the field and they are among the biggest producers.

They have secured a large acreage and purpose doing a great deal of development during the present season.

Large quantities of fish are dead in the ditches and creeks that run from the shallow oil field, there being so much oil in the water that the fish are unable to live in it.

THE INSTRUCTOR SHOE

"The only Child's Shoe made in Natural Shapes of Solid Leather."

The way your children's shoes wear out often surprise you. They seem to fall to pieces, or the soles wear out as if they had been held to a grindstone.

Instructor Shoes are made from the very best leather and are put together by high class skilled labor. The Instructor Shoe is built on lasts modelled from children's feet. The shape permits the foot to lie perfectly flat—each toe out straight—growing as nature intended. One pair will outwear two ordinary pairs.

A FEW WORDS ABOUT

..REX FLINTKOTE ROOFING..

THE basis of this Roofing is a selected long fibre wool felt saturated with a carefully prepared non-combustible compound rolled under a pressure of 30,000 pounds. There is not a particle of paper or tar used in its manufacture. We guarantee it to be absolutely water and wind proof and practically fire proof. It is light, warm, and will last a lifetime if painted once in six years. Rex Flintkote has been on the market for upwards of 30 years, and is, therefore, no experiment.

We recommend it for all kinds of buildings.
