Millgrove W. I.

The Millgrove Women's Institute held its regular meeting at the home of Mrs. John Roberts Tuesday afternoon, April 3rd. The President, Mrs. Albert J. Cummins, presided. The Delta Alpha girls gave the programme which consisted of choruses by the girls, piano duet by Misses Ella and Hattie Crooker, vocal duet by Misses Alice Shelton and Arleen Pepper. A very interesting paper on "Springtime" by Miss Alma Cummins. After which light lunch was served and ideas on fancy work were exchanged. The next meeting will be held at the home of Mrs. Griffin on April 25th. It will be the election of officers. All members are urged to be present.

L. Carey, Cor.-Sec.

Getting Out a Paper

Getting out a paper is a picnic. If we print jokes, people say we are silly.

If we don't, they say we are too serious.

If we publish original matter they say we lack variety.

If we publish things from other papers, they say we are too lazy to write.

If we stay on the job, we ought to be out rustling news.

If we are out rustling news, we are not attending to business in our office.

If we don't print contributions we don't show proper appreciation.

If we do print them, the paper is filled with junk.

Like as not someone will say we swiped this from an exchange. So we did.

Community Club's Horticultural Section

The meeting held in the Community Memorial Hall on Thursday evening, April 5th, was fairly well attended, there being an attendance of about eighty. The stormy weather no doubt affected the meeting.

Mr. W. E. Groves of the John Connon Nursery Company of Hamilton, addressed the meeting on "How to Prune Roses and Shrubs and the Planting of Perennial Borders." Practical demonstrations were given by use of the shrubs referred to and by drawings on the blackboard. The lecture was very instructive and many points were brought out that the layman had no knowledge of. Mr. Groves named many roses that were suitable for different purposes and also gave names of shrubs and Perennials that were desirable. Several questions were asked and answered at some length.

At the conclusion of the meeting Dr. J. O. McGregor moved a vote of thanks to Mr. Groves, which was seconded by C. P. McGregor. Both gentlemen said they had learned a great deal from Mr. Groves' talk.

After a few remarks by the Chairman, Major John Connon, to the effect that any resident of the village who would like any advise on the planing of their grounds, that such advise would be given free on application to himself, the meeting closed with the National Anthem.

A. C. Mullock, Secretary.

Poultry Club's Dance a Success

One of the best dances held in the Community Memorial Hall was the one given under the auspices of the Waterdown Poultry Association on Friday evening last. Splendid music was supplied by McBeth's orchestra, and Novelty and Lucky Number dances were features of the evening. In the lucky number dance, Mrs. J. Rasberry and Mr. Ellsworth Smith were the winners, and after receiving the prize of a five pound box of chocolates, gave a demonstration dance which showed their mastery of the art of dancing, amid the applause and hand-clapping of an admiring crowd. The attendance was very gratifying and there is no doubt that everyone had an enjoyable time as the arrangements made by the committee in charge proved to be all that could be wished for.

It is the intention of the Association to hold another dance Friday evening, April 27th. New novelties will be introduced and a new color scheme will be used in connection with the lights. In fact the Committee has in mind to make this dance better than the first one, and in that case everyone is assured of another enjoyable evening.

Community Club Public Health and Social Service

On Thursday, April 19th at 4.30 in the afternoon a health talk and motion pictures for the school children will be given in the Memorial Hall. At 8 p. m. an illustrated lecture on child welfare will be given by Dr. Middleton of the Provincial Board of Health. Also a short address by Dr. McClenahan. Dr. J. O. McGregor will act as chairman.

W. A. A. A. Minstrels

The big W. A. minstrels by 25 talented amateur artists in choruses solos, duets, quartettes and jokes, under the able leadership of E. T. Sawell, will be held the latter part of April. The public will be surprised when they attend and hear these young artists in all the modern popular songs of the day. Mrs. Sidney Alton as pianist has captured the hearts of the amateurs, and she will the hearts of the audience with her talented rendition of the different songs. Arlie Young, one of the funny end-men and the Ole Johnson of the stage, will be heard in song and dance in some of the best coon songs of the day; and Arlie is there with the goods Jerry Burns and Tommy McNamara in "Mr. Gallagher and Mr. Sheen" is a gem in itself. Earl Griffin and Cecil Carson with Guitar will hold the audience. Arthur Lovejoy, Allen Fretwell, Earl Griffin and Fred Metzger as a quartette in that dear old coon song, "Carry Me Back to Old Virginia" is bound to be a decided success. Irvin Hood in a peppery heel and toe step dance needs no introduction. Eddie Fretwell, Jimmie Galivan and Asher Gordon, they of the silent conflag, will introduce "Nothing New." Kenneth McGregor and Happy Markle in funny jokes. Along with the above the Misses Velma Sawell, Ruth Weaver, Marquette and Madeline Fretwell, Muriel and Myrtle Atkins, Laura Richards, Dorothy Burns, Minnie Gordon, Grace Lovejoy, Margaret Sinclair, Agnes Reid, Myrtle Dale, Adelia Wilkinson, Helen and Estella Mitchell, many of whom are making their first public appearance as entertainers, will round out one of the best entertainments given in Waterdown in years. Watch for large bills for date and further particulars.

CARD OF THANKS

Mrs. Bennetts was very much pleased with the lovely flowers sent her by the King's Daughters, and desires to thank the Society for their kindness in sending them. Wishing them every success in their good work.

Locals

Mr. and Mrs. H. A. Drummond are spending a few days in Toronto this week.

Mr. Thos. E. McKeen has secured the Ford agency here and opened his show room next to Springer's Garage.

Rev. C. L. Poole is in Montreal this week attending the 50th Anniversary of Wesleyan College. He will conduct the services in one of the city's churches on Sunday.

The W. A. A. A. will hold their sixth Informal dance on Wednesday evening, April 18th. McBeth's orchestra will furnish the music and an enjoyable evening is assured.

The Strathcona Home and School Club of Burlington will present the three act comedy "Saffy First" in the Memorial Hall on Monday evening next. The play will be given under the auspices of the Excelsior Society of the Methodist church.

Canadians Will Visit Gothenburg Exposition

WHAT is planned to be the greatest and most interesting exposition ever held in Scandinavia will be held in the old Swedish seaport of Gothenburg from May 8th to September 30th next. Most of those who are touring Europe this year will endeavor to include Gothenburg in their itinerary, and thousands will probably go to Sweden from all parts of the world for the specific purpose of visiting the Jubilee Exposition, which, in physical proportions and

1. Minnehallen or Memorial Hall at Gothenburg. 2. The Museum of Arts and Crafts. 3. One of the beautiful entrances to the sports grounds at the Exposition.

special excursion and tourist trains will run practically every sports day from different parts of Sweden and the adjoining countries.

Everything has been most thoroughly planned and the whole community of Gothenburg is working hard to make its largest undertaking a success. Its beautiful situation on the alluring west coast archipelago is a great attraction to the town, which is full of interest and variety from an architectural point of view also. No expense has been spared by the interested individuals or the city itself, and for the purpose of gathering historical material, Baron af Ugglas and Dr. Sixten Strombom have excavated Gothenburg's two ancestral cities, Gamla Lodose and Nya Lodose, and have made some of the most important and interesting archaeological finds in North Europe in recent years. On the site of the ancient town of Gamla Lodose near Gothenburg, Baron af Ugglas, has uncovered a church almost as large as the present Gothenburg Cathedral, several smaller churches, city walls, a castle, private houses, armour, tools, etc., which throw considerable light on the history and culture of early Scandinavia. A model of the church and some of the armour and tools will be exhibited in the historical section of the Exposition. Dr. Strombom's excavations still continue within the limits of the city of Gothenburg, and visitors will have the opportunity of inspecting for themselves the ancient works and fortifications.

variety of exhibits will be the greatest ever held north of the Baltic. The grounds cover over 75 acres, and in addition to historical, cultural and other exhibitions ranging from fine-arts to exports, numerous international meets will be held; automobile and aviation meets, printing and journalistic congresses and athletic and gymnastic competitions, etc. Foreign athletes are being provided with transportation by the authorities, and such an interest is being taken in the games that

Already a large number of Canadians have booked passage on the Canadian Pacific Empress liners for Europe, and the exposition is the first thought of many of them.

Here and There

It is announced that a new cave, the extent of which can only be surmised, has been discovered seven miles from Glacier House, Glacier, B.C.

The Yukon territory is rapidly losing its inhabitants. In 1911 the population was 27,217, and in 1921 it had dwindled down to 4,157.

In an address to the Rotarians in Montreal last week, E. W. Beatty, president of the Canadian Pacific Railway, made a pointed statement to the effect that Canada needs more capital for its development and more men for the same purpose.

An old-time stampede will be held in Calgary, Alta., between July 5th and July 14th, 1923. The programme will, as usual, include calf roping contests, broncho busting, and fancy riding and roping, etc.

Resumption of direct steamship service this spring between Montreal and the principal Norwegian ports, with the object of furthering the expansion of trade between Canada and Norway, is announced by the Canadian Pacific traffic agents for the Norwegian-American Line.

The Canadian Pacific steamship "Metagama" recently brought over to Canada 400 men and women of the Hebrides—the first migration of young Hebridean farmers to Canada under the Ontario immigration scheme.

A bill has been introduced into the Chamber of Deputies, Paris, authorizing the Government to expend 2,750,000 francs on the Canadian travelling exhibition. At least thirty French towns will be visited by the train this summer.

As guests of President Beatty of the Canadian Pacific Railway, four boy members of the young farmers clubs of Great Britain will cross the Atlantic and tour the Eastern and Western provinces of Canada.

Canada's exports to the United Kingdom in 1922 were more than \$24,000,000 higher in value than exports of Canadian goods to the United States. To the United Kingdom, Canada sold goods to the value of \$374,751,894, and to the United States \$340,156,247.

Before the war India imported \$600,000,000 worth of commodities a year, of which Canada sent not more than \$50,000 worth. Last year her imports were \$200,000,000, of which Canada sent \$1,123,000, and it is now expected that there will be a further increase to between \$3,000,000 and \$5,000,000 this year.

The Canadian Pacific Railway has arranged with a number of European countries for the emigration of farmers and domestics who are willing to come to Canada for employment on Canadian farms. The immigrants will be brought to Canada at the joint expense of their home governments and the railway company.

The first successful radio experiment on a moving long-distance railway train was recently carried out on a Canadian Pacific Railway train from Winnipeg to Vancouver. Mr. Raymond Wells installed a receiving set in the drawing room of the through sleeping car, and the aerial was installed by the railway electrical department. The results were all that could be desired.

Seeing the train swaying as it passed her while she was picking berries was the reason why Mrs. Fred Mueller of Branner, Ont., would not take a ride on a train, but after she had returned to West Monkton from Elmira she told W. C. Gowan, the Canadian Pacific agent at the former station that she thoroughly enjoyed the sensation of travelling for the first time on a train, which did not go fast enough for her.

Small Garden Will Often Pay Big.

It is possible to make the garden pay big dividends for the amount of labor put upon it if that labor is well directed. A space 50 x 100 feet will, if properly planned and worked, give a supply of practically all vegetables, except potatoes, and a few other coarse vegetables, for a family of four the whole year. It must be rich soil, well cultivated, and a plan followed that will use the space all the growing season.

Oranges form the leading products in the export from Palestine.

Costly House for Poultry.

An extensive and costly house for the poultry does not necessarily mean that the stock kept therein is any better than the average. Very often we find that the owner is more proud of his houses and surroundings than he is of his stock of poultry.

The man who loses his temper and abuses the animals has no right to have live stock under his care.

A gardener that produces only one crop and idles away half of the growing season does only half of its duty.

FEEDING YOUNG PIGS

Practical Hints on Dealing With the Junior Hog.

Begin With the Mother—Wean When Eight Weeks Old—A Good Ration Suggested—Winter Feeding and Quarters.

(Contributed by Ontario Department of Agriculture, Toronto)

Liberal feeding on a well-balanced ration suited to the needs of the sow previous to the birth of the young is very essential if the little pigs are to be worth rearing and the sow in condition to supply ample milk for them. With the sow well nourished and given opportunity for exercise, she is the best equipped individual to undertake the task of rearing a litter.

After the little pigs arrive, everything should be done for their comfort and safety if they are to succeed as feeders. Clean, light pens; dry yard or grass lot; abundant sunshine and a well fed mother, usually mean success to the little pigs. When the young learn to feed at four weeks, provision should be made whereby they can feed at a small trough in an enclosure away from the sow. Small quantities of sweet skim milk in which wheat shorts have been mixed should be fed in small quantities and often, feeding a little less than the pigs will actually take. Pigs that have been feeding from the trough for two weeks or more can be weaned without a very serious setback. The longer the pigs can remain with the sow the better it is for them, but such practice is not always profitable, so it is usual to wean the pigs when they are eight weeks old. Since pigs are hunting the ground surface or rooting for morsels of food, it is good practice to encourage such by scattering plump grain on the floor of the pen or yard. This causes the pig to take the exercise necessary to thrive.

Treatment at Weaning Age.

When the pigs have reached the weaning age of eight weeks, they should be completely separated from the sow. It is better to remove the sow and leave the young pigs in the pen that they have been used to for a week, that their troubles may not all come at once. When the pigs have quite forgotten their mother, an ideal home for them is a colony house situated in an alfalfa, red clover, rape or blue grass pasture yard, where water, a wallow hole and shade are amply supplied. If the young pigs must be kept in the pigery, then everything should be done to provide dryness, protection from insects, a living temperature, ample room, cleanliness, comfort, sunshine and a ration suited to their needs. Green feeds should form a fair percentage of the total ration for pigs whether fed as a soiling crop or as pasture. The following mixed grain ration has proven very satisfactory: Wheat middlings 25 pounds, shorts 25 pounds, finely ground oats 50 pounds, oil cake meal 5 pounds, meat meal 3 pounds. Pigs eight weeks old will require a pound or more per day. The quantity required for each day should be set apart and soaked for twelve hours or more, using no more water than is required for the soaking process. When ready to feed use five pounds of skim milk to each pound of meal. Feed sweet skim milk until the pigs are well weaned, then change to sour skim milk and continue to use such as long as possible.

Handling Them at Three Months.

After the pigs are three months old, buttermilk can be used instead of skim milk with equal advantage. A change in the grain ration is also desirable at this age, and is most easily provided by adding a more fattening grain to the mixture already suggested for the eight weeks' old pig. The following is very satisfactory: Corn or barley 25 pounds, shorts 50 pounds, wheat middlings 25 pounds, finely ground oats 50 pounds, oil cake meal 8 pounds. Soaking to soften and thereby increase digestibility should be practiced. The corn or barley portions of the ration should be increased gradually after the fourth month has passed to give the pig an opportunity to fatten during the last two months of its life should it be designed for the block. If intended for breeding purposes the feeding is practically the same up to the fifth month. "The intended for breeding purpose" stock should be developed on a ration carrying more bone and muscle forming material than the standard fattening rations. More alfalfa, red clover, sweet clover, rape or blue grass should be used.

Winter Feeding.

The success attained at pig feeding in the winter depends to a greater extent upon the skill of the feeder than does summer feeding when weather conditions are favorable. Comfortable quarters which may be under the strawstack or in an elaborate pen, some place that is dry and will stay dry, is the first necessity. A well balanced ration suited to winter conditions in that it will supply in so far as possible something to take the place of grass and clover and "on the soil" conditions. Roots and sods are the most easily supplied substitutes. Room for exercise, and inducement to take such by scatter-

The Standard of Comparison

Perfect Comfort on the Longest Tour
The "Master Six" Touring Sedan Model 23-41

This smart McLaughlin-Buick six-cylinder touring sedan offers unsurpassed comfort for country touring and city driving as well.

Long and low in appearance, it provides perfect riding ease for five passengers. Its well-knit chassis, new cantilever springs and strong frame take up the jars and jolts of the country road.

Broad plate glass windows give a wide vision to all occupants while protecting them from chilling winds; added warmth is provided by a heater. Comfort for summer is assured by cowl ventilator and adjustable windows and windshield. The interior of the Fisher built body is finished in handsome plush with individual seats in front. Driving conveniences are assured by a longer steering column at a lower angle, complete instrument panel and longer gear shift lever.

The handsome luggage trunk carried on the rear is as practical as it is striking. It will carry a suitcase or small baggage so that the passengers need not be inconvenienced.

There are 15 McLaughlin-Buick Models to choose from
