An noverteen, resulting, was also present. One or two ratepayers who lived near the park spoke in its favor. Solicitor Dickson had with him a large petition and a number of letters from other cities in favor of such parks. Solicitor Oglivie and Rev. F. G. Farrill were pres-ent with a counter petition. After con-siderable discussion the Council came to the conclusion that the people were not desirous of having a park located in that vicinity, and refused to grant a license. The plans of Belview and Prospect Place sub-divisions were then taken up, a number of accounts passed and cout-ine business gone on with. Counci adjourned, to meet in the Township Hall on Monday, June 15, at 10 o'clock a. m., for the purpose of Court of Revision and other business.

Anderson declared that in most cases the Commissioners had come to unwarranted conclusions owing to fail-ure to go to the bottom of the matters they discussed. For instance, the Com-mission sneered at a seven hundred dol-lar steamboat trip to save fifty dollars' worth of scaffolding. Col. Anderson said there was achieved as a seven hundred by the seven here was a seven here as a seven here as a seven here was a seven here as there was nothing in this, as no such trip was made and none contemplated. It was quite customary to have the the-deter for a lighthouse or other building furnish plans. The Commissioners com-mented on this unfavorably, but Col. Anderson declared that Mr. Wallberg had done good work for his department at reasonable rates and he saw no justi-fication for the criticism of the Com-

fication for the criticism of the Com-mission on his contracts. Col. Anderson declared that if the Commissioners had consulted the proper-heads about the cases they commented on adversely they would have received correct and satisfactory explanations. He thought the Commissioners had in most cases come to conclusions without a proper understanding of the facts.

Parry Sound, May 12 .- A serious accident, in which two men were killed out-right, occurred last evening on the C. P. R. five miles north of here. The place was at a rock cut in a curve. Two construction trains containing plows and struction trains containing plows and ballast cars going in opposite directions collided with great force, the vans and a number of the cars being completely demolished. On the train coming to Par-ry Sound were two men. George Han-nigan and Levi Sutton, his son-in-law, residents of the Township of Carling, both of whom were instantly killed, the bodies afterwards being burned in the fire which broke out in the wreck-age. These men had been stealing a ride on the train, and their presence was unknown to the train crew. Conductor Jarvis and Trainman W. E. King receiv-ed slight injuries. An inquest will be held.

All the audi-ence seemed hostile, although a large proportion of those present were women. Nearly everybody seemed to be equip-ped with some instrument capable of producing a hideous din. Bells predom-inated, but whistles, trumpets and rat-tles abounded, and all sounded in full chorus to the accompaniment of shouts of "Revenge for Dundee." The suffragettes were not allowed to utter a single sentence that could be heard. Well known public men appeal-ed in vain for a fair hearing. The in-tending speakers were driven from the platform. Banners, mottoes and lit-erature were seized, and furniture and windows smashed.

Kenora, May II.—A shocking dis-covery was smade yesterday by Wil-liam Allison, a farmer living out on the lake, fourteen miles from here. The ice having gone, Allison decided to row to town and visit a farmer named Walter Becket, who, with his wife and three children, lived on an island six miles farther on. Before approach could be gained to the island Allison had to break through over a mile and a quarter of ice, and on arrival there found that Walter Becket had died of heart trouble three weeks before, and still lay in one room of the small shack, the other and only living room being occupied during that time by Mrss. Becket and her children to to thir ice-bound conditions and iso-lated location, were unable to send out tidings of his death. Allison row-ed Mrs. Becket and the children to town this morning. Becket, who was a robust man of thirty years, had been subject to heart trouble for some time, and physicians here had advised him to live a little closer to civilization.

Hartford, May 11.-At the crucial soint of a delicate operation on the point of a delicate operation on th ungs of Nuncio Chial at St. France boint of a dencite operation on the lungs of Nuncio Chial at St. Francis Hospital yesterday, when it seemed certain that the tiny spark of life had flickered out, Dr. D. F. Sullivan reach-ed through the incision to the heart and gently squeezed it once or twice. The man's respiration was restored and the cutting away of the diseased organs was continued until Dr. Sul-livan saw that Chial was dying. Again he softly grasped the almost stilled heart, and with several well-time dsqueezes started life anew, this time long enough to complete the op-eration. Chial will live, the attend-ing surgeons declare to-night.

Dumb Man Recovers His Speech Durbh Man Recovers His Opegen. Toronto, May 12.—For several weeks James Wilson, who hails from Sher-brooke, has been wandering about the city begging. He shows people slips of paper, on which are the words: "I've lost my speech and hearing." When the peo-ple do not give money, the police allege that Wilson recovers his speech in a wonderful way and proceeds to give his ophinon of them in particularly strong language. He was arrested as a vag-rant. Dav.

WORSE AT HOME.

A Tory contemporary expresses horror at the injustice of the Prussian law for the expropriation of property belonging to Poles owning land in certain districts Tory organ has any right to com plain at injustice of this nature. The Prussian law is, of course, invidious, and outrages British principles of justice But it must be said for the Prussian law that it awards payment for the pro-perty taken. Whitney, the little clay idol before which the organs bow, when he wishes to dispossess a citizen of his property or rights, simply deprives him of access to the courts, and passes legis lation forfeiting his claims and giving them to another. No case has occurred under the Prussian law complained of which can in any way compare with the atrocious violation of the first principles of justice involved in the Cabolt Lake and La Rose mine cases. Yet Whitney is so far from appreciating the situation that he appears to think that he excuses his course by saying that he got som revenue for the Province thereby. Who can say how much revenue we may lose to Ontario, and how much injury may be me to Canadian reputation for justice and the security of property if the idea is allowed to go abroad-and Whitney's action in these cases admits of no other explanation-that the Government of Ontario recognizes as sacred no man's rights to property or protection of the courts when the violation thereof will yield revenue?

It is time that the honest electors of the Province rose in their might and declared that there is something dearer to a free people than the extortion of money from its citizens at the expense of all the principles underlying civil rights.

AN UNWARRANTED FEAR.

Mr. W. S. Lumgair, in his letter yes terday, expressed a fear that if the aldermen purchased power from the Cataract Company at 10 per cent. less than it can be furnished by the Hydro-Electric nmission, the city would still be in danger of paying a second time for the power it might use in running its elecdrawn. tric light system. It is hardly likely that the aldermen would expose the city to such a danger. To any one who has taken the slightest interest in the proposals made it must have occurred that if the city were to pay for power to be used only in the daytime for pumping and then pay again for power to be used at night for lighting purposes, it would be poor business. And, of course, such an arrangement would not commend itself to the aldermen. There is no danger of them being taken in that way, One of the propositions made looks to the city controlling, by purchase or lease, the present lighting plant. In. event the spectre Mr. Lumgair's fear raises would vanish. If, on the other hand, the aldermen were to deal with the company regarding power for the pumps and electric lighting as separate arrangements, the question of night and use of the power would no doubt day be taken into consideration. If the underground scheme of lighting the city were gone on with, the question would enter into the discussion. In any event, the proposition to leave the adjustment of the price of power-which is to be 10 per cent, lower than the price of Hydro power-to the Hydro-Electric Commission itself should be reassuring to Mr. Lumgair, or any other citizen who has doubts as to the city being properly protected.

THE GHOST OF A "SCANDAL."

The Spectator, referring to Mr. rehash of the Manitoba Tory "thin red line" fake, out of which he would exclude very much of it. The endeavored to manufacture a scandal, already exploded, says: "Of course the

makes no change whatever. It assu that the lists prepared by the municipa authorities will be fair and non-partisan It is different, however, where there s no municipal organization, or where as in Manitoba and British' Columbia the preparation of the lists is taken out of the hands of the municipalities and entrusted to the partisan agents o the governments of the day. Then such lists are not regarded as fair and accurate and free from the taint of partisan ship, and the act provides for the revi sion of the same before a Dominion elec tion. And it makes no difference who ther the Provincial Government of the

time or of the Province be Grit or Tory. Observe that in Ontario, where haps the most unscrupulous Tory Gov ernment of recent times works its will restrained by no, fine sense of ethical proprieties, Hon. Mr. Aylesworth's bill provides for accepting the Provincial lists as prepared by the municipal auandidate Scott! What better indication could he desired that the provisions of the new Election Act have not been dictated by

partisan motives?

thorities.

It is somewhat amusing to find the leading Tory organ claiming for Hon. Mr. Borden, whose Halifax platform de clared for public ownership of the tele graphs and telephones, the credit for placing these services under the regula tion and control of the Dominion Board of Railway Commissioners. But nothing stumps the Mail and Empire. It is even laiming for Borden the credit of the Lemieux bill-which, as will be remem-bered, was bitterly assailed by Tory politicians and press, denounced as med lesome, utopian, and sure to be a failure, and ridiculed even after its passage by the organ itself. Now, it claims for Borden the credit of Laurier's proposed Hudson Bay Railway scheme, and even seeks to make it appear that the Government's announced intention to divide the territory to the north among the various Provinces is one of Borden's bright ideas. Give the organ a little time, and it may yet inform m that Borden built the pyramids, levelled the prairies, and raised up the Rocky Mountains. The Mail does not lack zeal in Borden's cause; its trouble is that it

MISDIRECTED ENERGY.

It is an object lesson in economics to study how much of the labor of man kind is devoted to the production and distribution of things which are not cessary to the race, and many of which may even be wasteful and injurious. The figures of the nation's drink bills tell a startling tale. In 1906 the United Kingdom disposed of 38,891,101 barrels of beer, 39,302,402 gallons of spirits, 12,328, 691 gallons of wine, and about 15,000,000 ons of other liquors, a quantity which indicates a vast thirst indeed. The cost of this is placed at \$809,681,829, giving each person in the Kingdom close to 30 gallons, costing about \$18. The proportion of this that was actually necessary was doubtless very small, in-

gal

Uncle Sam's bill for the same year is also very large. While Great Britain's consumption of 1,287,710,729 gives her lead, population considered, the United States people slaked their thirst what he is trying to do is "to earry one with no less than 1.874.225,409 gallons of the Hamilton seats for Mr. Scott, who of liquor of various sorts. A striking feature is that the new world drinkers drank more than three times as much distilled spirits as the British people. whose excess was in beer, and the tendency is to greater indulgence in spirits itself being arbiter of the figures! year by year.

How much of the huge bill paid every year for tea, coffee and other table drinks is to be classed as unnecessary, is a question that will awaken controversy. A strict rendering of the Word same applies to tobacco in its many forms. While to the users of the present age many indulgences come a sort of habit necessity there is little doubt that life could be supported compelled to that degree of economy. And were they to be eliminated from the reckoning, how less strenuous would the struggle to supply the daily wants be-Then were sense and reason and ju tice to prevail, and the thousands of millions every year spent on war and war way Company before it knows exactly preparations saved to productive endeavor, and the misdirected energy of millions were applied to make the world better, happier, more comfortbale, what pany, some of the details might be left a revolution would be accomplished! We should not need to stint ourselves of sur tea and coffee and cigars. There would Life would become less of a struggle. There would be plenty of wealth for the pursuit of the sciences and arts. Endow ments for the uplifting of the race, the conquering of disease and the cultivation the gentler graces would be multiplied. Monuments to celebrate the destruction of millions of lives, and the holding of one people in subjection by another might be fewer, but liberty, justice, brotherhood, happiness would bring this earth much nearer to heaven.

EDITORIAL NOTES.

Less than two days after Moir had been brought to jail and the news of his desperate struggle for life was ring-ing in their ears, the leading men of the town got together and organized a subscription list for the prisoner, and a con-siderable sum was collected, "as an ex-

scription list for the prisoner, and a con-siderable sum was collected, "as an ex-pression of sympathy." In the lock up of the village, situat ed in the typical town hall building, Moir sat and smoked all day. Sunday Mr, James Robb brought "in \$12 for Moir, which he had earned while work-ing on his farm. At Moir's suggestion this money was put to the use of buying him a new suit of clothes. Ciean linen, new underwar and practically an entire new outfit was provided by the villagers. When yesterday morning Mr. M. Wil-kins, of Arthur, a solicitor, who was acing in Moir's interests, permitted a Free Press reporter to have a brief in-terview with the man, the newspaper-man was puzzled for a minute, when he entered the lock-up and was confronted by a complacently, quiet and unassym-ing young man, who shook hands readily enough and smiled at a quip about the curiosity of the erowd outside.

enough and similed at a quip about the curiosity of the crowd outside. Moir wore a new dark brown suit. It was ready-made, but fitted him per-fectly. He sat upon a barrel in the space between the two cells which the town boasts, in his shirt sleeves. He vas smoking a cigar, not without enjoyment. The first thing that struck the repor-ter, a man who had been on the chase with the officers and primed to the ears with the seriousness of the affair, was that Moir was not a vicious looking character. He was perfectly calm and chatted quietly. He had been clean shav-ed and in his shirt sleeves he presented the picture of a care-free young old

sympathy for him. A subscription list was commenced and a considerable sum was collected and given to the soldier. Those who subscribed to the fund were: Rev. Father Doherty, pastor of St. John's Church; Rev. W. G. Richard-son, pastor of St. Andrew's Church; J. A. McGill, manager Traders Rank; M. J. Brown, proprietor Arlington Hotel; Geo. A. Shomer, jeweler; Rev. Mr. Russell; pastor of the Latter Day Saints' Church; Reeve Colvill. "We collected a good sum for Moir," aid the last named gentleman to The Free Press. "We don't know both sides of the case, but Moir certainly made a good impression here. We believed him to be only the unfortunate victum of cir-cumstance. It was not because we wanted to do something to be talked of. We liked this man. He excited our sym-pathy, and we wanted to show him that Arthur was a sympathetic tow." The village turned out en masse to see Moir away. Everyone who has come into the town had been photographed by owere in the vicinity. "I wouldn't care about this thing," he said to a reporter, "at least not so much, if it were not for my poor old mother.

This occurred in the witness' office, day or two before the case went before the Grand Jury. Cannon told witness that he had been sent to Columbus, in the capacity of superintendent for Cleveland Trinidad Paving Company, Annual Entertainment. The annual entertainment of the Col-borne Street Methodist Sabbath School was held last evening, and proved a most successful affair. Mr. Fred Mann sub-mitted the Scretary's and the Treas-urer's reports, showing wonderful devel-opment during the past year. The distri-bution of prizes for regular attendance was made by Messrs. J. M. Young and S. M. Fry, when a short programme was rendered. Those who assisted were as Cleveland Trinidad Paving Company, to take charge of the work in the city of improving several streets. Wtness said that Cannon had told him that Back was in charge of the improvements on behalf of the city, Cannon had said that behalf of the city. Cannon had said that that company could not expect to make mone when the cost was put at such a low figure. Cannon told witness that this was his first important service to the company, and he desired to make a good showing and also stated that Mr. Beck had promised to allow the com-pany for the excess grading. The grad-ing of the streets was to be done by the company at so much per yard, and that Beck was going to allow the company an excess of yardage, or a larger num-ber of yards than had been excavated iso that the company might be enabled S. M. Fry, when a short programme was rendered. Those who assisted were as follows: Walter E. Mann, class of W. J. Verity, Miss Butler, Miss Harley, Mrs. Leeming, and Mrs, Hutchinson's class. The non-jury sitting of the High Court opened in this city yesterday afternoon, before Sir William Mulock. The docket is a light one, and an early adjournment is looked for. At a special meeting of the Six Na. so that the company might be enable to draw more money out of the ci-treasury than was honestly coming it. Cannon stated to witness that special meeting of the Six Nacit tions Council on the reserve yesterday, at which Dr. Bryce, of Ottawa, was present, it was decided to erect a hos-pital, to cost \$5,000, on the reserve, for (Cannon), had paid several amounts to Beck as a bribe. It is mained if one item is taken from it, or if it is added to. Witness the curse upon those who add to or subtract from its teachings. It is the same as a man. Take one portion of his body away and he is mained. Add to him any foreign subject and it is a blemish. The rules of our make-up— are three: That the members of the body form one part; each one is essential to the others, and all are pervaded by the same spirit of life. Look at the unity of structure in the Bible, he said, and can anything more fatal to unity be imagined than the circumstances under which it was made up, speaking humanely? The dress-makers of Rue de la Paix frequently boom their latest creations at Long-champs, but Sunday's experiment was too daring even for Parisians. The gowns were so classic, so tight fitting, that some of the onlookers rubbed their eyes in amazement. Others blushed, others turned indignantly away, while some men laughed and jeered. The wearers had been sent by their employers to advertise the so-called sheath gowns, an attempted revival of the Directoire fashion. The most sen-sational of them have a divided skirt. The excitement became so great that the police were obliged to remove the young women from the enclosure. present day, when everyone is keenly alive to the machinations of trusts and kings of finance. Mr. Klein has dis-played excellent judgment in presenting a phase of American life with which the public has become familiar through the newspapers and magazines of the times. He depicts the king of finance as he is, robbed of melodramtic attributes. In opposition to him he places a true fig-ure of American womanhood—it is their struggle with the final victory for the girl that constitutes the basis upon which this powerful drama of emotion is built. From this complication arise a built. on the sanitarium grounds was the ef-fect it would have on other patients see-ing these advanced cases. A hot discussion followed the Mayor's explanation that the Council last years had passed a resolution in favor of the home going on the hospital grounds. Ald, Lewiz-held that what last years Council did should not necessarily bind this year's Council. He took strong ob-pital grounds at all, and was preparing to move to that effect when the Mayor declared he would rule it out of order. "I would like to test the Council an it," persisted Ald, Lewis. "I shall certainly rule it out of order and would consucer that I was neglect-ing my duty if I allowed it to go through," said his Worship. The only way it could be taken up was to move for a reconsideration of the resolution passed by the Council last September. Ald, Lewis, seconded by Ald. Guye mov-ed that the matter be reconsidered, and it was approved of by a vote of 11-9, as follows:

The question has been raised as to who commenced the shooting in this morning's affray, but from the clos-est inquiry amongst the strikers there appears to be none who had any firearms, though spectators assert that they are certain one striker used a revolver. The opinion is that the constables were stampeded by the on-rush of the crowd, and in the excite-ment opened fire, though eye-witness-es say that one of the men took refuge behind a corner'and deliberately emp-tied his revolver into the crowd. The trouble began this morning when it was learned that during the night the company had brought up fifty special service men. There was an immediate rush for the yards, and in a few min-utes nearly a thousand people, includ-ing strikers, sympathizers and specta-tors, swarmed over the docks. The first move of the company was to begin operations on the steamer Dundee, loaded with grain at Elevator B. No sooner had the marine leg dropped into the hold than the crowd made a rush. The constables used back, and a torrent of coal was rained on them. One of them was caught after he had struck down one of the crowd. Fired on the Men. One Striker Used a Weapon.

During the riot three men were shot, one being a striker, one a constable, and the third a spectator; one striker was very badly beaten and five mem-bers of the company's special police were injured—one quite seriously—by a fusilade of coal and by clubs wield-ed by the strikers. This most regrettable affray took place at 7.30 in the morning at the C. P.R. docks, and so alarming was the situation while it lasted that a call was sent to Toronto to General Cot-ton for a hundred regulars from Stan-dey Barracks to assist in maintain-ing order. Shortly afterwards and before the men were entrained at To-ronto the order was countermanded, the strike was settled and work was at once resumed. Constables Arrested. Constables Arrested.

It is claimed that this must have been by a stray bullet from the revolver of one of, the special constables, as the strikers declare they used no fire-arms. Spectators do not concur in this statement. The bullet lodged in the front of the ankle and Wright wat removed to the Athabäsca, where with remarkable coolness he dug the bullet out with a penknife. SENT IMPROPER LETTERS. President Khomyakoff Withdrew Stric Queer Charge Against a Retired St.

Thomas Merchant.

St. Petersburg, May 11.- M. Khom-vakoff's sacrifice of his personal pride in order to safeguard the Douma has won unstinted praises in all quarters. Yesterdday, on the demand of Premier St. Thomas, May 11.—In the Police Court to-day Mr. A. M. Hutchison, a retired merchant, and one of the best known men in the city, preferred a charge against Mr. J. S. Wilson, ancharge against Mr. J. S. Wilson, an other retired merchant, of having sent to Mr. Hutchison through the mails to site retired merchant, of having sent to Mr. Hutchison through the mails matter of an indecent, immoral or scur-rilous nature. Mr. Hutchison claimed to have been receiving letters, postcards, and valentines of this character for the past eight years, and two cards received on St. Valentine's Day were exhibited and the writing on them sworn to by Mr. Hutchison as being in the handwrit-ing of Mr. Wilson, and also because of the character of the language. The writ-ing was also declared to be Mr. Wilson's by Mr. J. W. Stewart, manager of the Southern Loan Company, and Mr. H. T. Gough, eity auditor. Mr. T. W. Crothers, K. C., for the de-fendant, claimed no case hall been made out, it being necessary, he said, to prove, out, it being necessary, he said, to prove, not that Mr. Wilson was the author of the letters, but that he posted the let-ters. Mr Wright. Mr. Wright (Muskoka) contended that if would be impossible to put the ma-chinery proposed in the bill in opera-tion after the issue of the writs and still safeguard the interests of the vot-ers. The time was too short, and many voters would be disfranchised. There was absolutely no need for touching the Province of Ontario at all, for he ar-gued that the lists in unorganized parts were more up to date than those in the organized portions. As for Manitoba, he did not believe that the Judges in that Province or the Roblin Govern-ment would deliberately permit manipu-lation of the voters' lists. After some forvernement would make the bill to cover the whole Dominion he would give it is consent. How Pari-Mutuels Will Kill Hand Books.

Lexington, Ky., May ---- The reintroducion of the pari-mutuel betting machines at Louisville on the opening of the New Louis villa Jockey Club's meeting last week met with such popular favor that it is beginning to look as if the days of the bookmaker in Kentucky are numbered. There is no condition, political or otherwise, that will make the use of the machines and the sale of auc-

dition, political or otherwise, that will make the use of the machines and the sale of au-tion pools imperative at Latonia, but there is an initiation from certain of the propriet-ary interests that they will be in operation there, particularly if they prove more luc-rative to the Louisville Jockey Club than were the books in previous years. There is, too, better than an outside chance that the State Racing Commission will indi-cate its pleasure is the matter. Since the re-cent meeting here certain members of the commission have announced the intention of placing the ban on the dollar book, and now the Court of Appeals has upheid the con-stitutionality of the law providing for the operation of pari-mutuel machines and the sale of combination or auction pools on race tracks during the progress of the race meet-ing: the State Racing Commission comes horse would, as he rightfully should, have been odds-on. troduced a bill in the House of Lords to-day prohibiting the importation of to-day prohibiting 'the importation of plumage, except that of certain species of birds set forth in the bill. Lord Ave-bury pointed out that this measure was framed on the same lines as the New York State law on the same subject. It enacts heavy penalties for contravention of the law. In a memorandum attached to the bill Lord Avebury says that unless the Brit-ish Parliament follows the example of the New York Legislature, the extinc-tion of the most of the beautiful species of bird life is only a question of time.

Commissioners. So far as can be learned, it is the inention of the Militia Department to turn the whole business of having the roops at Quebec over to the Battle field Commission, and that body will field Commission, and that body will have the ordering of what regiments they want, represented at the tercen-tenary celebration. It has been found that the battlefield at the present time will accommodate only about 12.0H men, at the outside. It is thought that with the eity regiments that the Com-mission will likely invite there will be enough men to make an excellent show-ing.

structure was practically a mass of flames, Daniel Bailey, an implement agent, of this city, rescued his four horses. The rescue was only effected al-terf a difficult struggle with the ani-mals in the flames and smoke. Mr. Bai-ley then struggled out, utterly exhaust-ed. So hot had been the flames that a couple of the horses had their haiter straps burned off. The barn was de-stroyed and some implements lost. Sparks from a passing train are suppos-ed to have been the cause.
