

CALGARY'S BIG EXHIBITION WILL BE FORMALLY OPENED AT 2 O'CLOCK

THE MORNING ALBERTAN

TWELVE PAGES

CALGARY, MONDAY, JUNE 30, 1913.

TWELFTH YEAR—No. 103

Blonded Stock Parade at the Calgary Exhibition of 1912 The Way the People of Alberta Attend the Calgary Exhibition

ALL IS IN READINESS FOR MOST PRETENTIOUS EXHIBITION EVER HELD IN ALL OF WESTERN CANADA

THIS is the first day of the biggest fair ever held west of Winnipeg. It is not indeed the first actual day of the fair, but what is known as Preparation day, though already practically all the preparations are completed, and everything is in readiness for the opening of the big show of live stock and agricultural industry, which is at the same time a veritable picnic for the amusement of old and young of this quarter of the globe.

MAYOR SINNOTT Who will formally declare the Exhibition opened at 2 o'clock this afternoon.

With an unusual grace which has not always marked his attentions to this city, the weather man has designed to drain himself out before the arrival of the fair, and on Saturday and Sunday took his last long plunge in the shape of a complete drenching under a week of typical Alberta's stormy weather which is to mark the fair if Calgary this year.

Race Track in Good Condition. For all the rain that has fallen during the last fortnight, the fair grounds are simply in the pink of condition, and the many drivers, trainers, and groomers who were out on the track yesterday stated that nothing better could be desired. This means that the racing program will be of the best, and the track is in the best trim, so that some good times should be made by some of the classiest entries which are here from all quarters.

Saturday and Sunday were days of great business at the fair grounds. What with the coming of great paces which had to be exercised on the track; the arrival of the heavy horses, which, too, demanded an outing, the cattle, the sheep, and the swine, there was a busy time indeed, but all were housed in safety in their respective quarters. A few more are yet to arrive this morning, but last evening practically all the stock was in place, and stablemen were busy as ever cleaning up their big pets with an almost greater care than they bestowed on their own persons.

Many Eating Places. The eating house men were busy getting their tents in order and laying in the stock of provender which is to be used for the feeding of the multitudes of visitors to the show grounds during the next few days. Even yesterday afternoon they had to make a start with the feeding of the ravenous army of attendants and groomers who were around the grounds in the course of their work. In the fine sunshine flags were merrily flown from all the buildings, and the marquees as well as the tinest tents on the grounds, and the spectacle on such a bright day, interrupted only by a brief shower, was a pleasant one to behold.

Formal Opening Tomorrow. Tomorrow will be the real opening day of the fair though all the exhibits may be seen today and the show will be in full operation tomorrow. The formal opening will be performed as is only fitting, by the first seditious of the fair, the Worshipful Mayor, Sir Joseph, and from a position in front of the grand stand he will declare the greatest fair in the history of the west open at 2 o'clock tomorrow afternoon. The work of the fair will be in operation before that time and judging will have started in the morning. The dog show which is this year again a record for Calgary will also be opened in the morning, and those interested in canines will have the opportunity of seeing a very fine collection of animals of every class and breed and size.

Horseracing in Morning. The first judging which will start at 10 o'clock will be the heavy horses, Clydesdales and shires, Percherons, Belgians and Suffolk Punch, Carriage Coach and Hackney, and thoroughbred Saddle and Hunter. Hobbies will be judged in the morning and the Ayrshires in the afternoon, while the first of the best cattle to be shown will be the Shorthorns, which will be judged at 3:30 tomorrow morning. The only judging which will start today will be the sheep and the swine and this will start at 2 o'clock this afternoon and will continue in the order of the programme till finished.

The judging will be practically completed today, and on Friday afternoon and the great parade of cattle and horses will take place that afternoon round the race track at 3:30. The Clydesdales are certainly the largest entry among the horses and there are quite a hundred fine horses.

SEARCHER FOR BODIES IS DROWNED AT EDMONTON. Edmonton, June 29.—Emil Wahl, aged 26, was drowned in the Saskatchewan this afternoon while searching for the bodies of the six victims of the ill-fated launch party of last Thursday. He was caught by a cable used for hauling gravel, and pulled out of the boat. His comrades were unable to rescue him owing to the rapidity of the current. For a time he hung on to the cable and hundreds were attracted by his piteous cries, but before assistance could reach him he dropped off and was seen no more.

DUKE OF CONNAUGHT ACCEPTS EXTENSION OF TERM AS GOVERNOR-GENERAL OF CANADA. His Royal Highness is Likely to Return to the Dominion During the Autumn; Duchess Is Improving in Health and May Accompany Him. OTTAWA, June 29.—Sir Charles Fitzpatrick, administrator of Canada, has received a cable from the secretary of state for the colonies, informing him that the Governor-General, His Royal Highness the Duke of Connaught, has accepted an extension of his term of office as governor-general of Canada for one year. The cable further states that His Royal Highness is likely to return to Canada during the autumn, when it is hoped that Her Royal Highness the Duchess of Connaught will have sufficiently recovered from the illness which necessitated her departure last spring, to accompany him.

Special Days at the Fair. Mon. June 30—Preparation Day. Tues., July 1—Dominion Day. Wed., July 2—Farmers' and Ranchers' Day. Thurs., July 3—Citizens' Day. Fri., July 4—American Day. Sat., July 5—Western Day.

VESUVIUS WAKES UP AFTER SLUMBER OF SEVEN YEARS. Three Slight Earthquake Shocks, and Then Uppermost Crater Emitted Dense Column of Smoke With Reflections of Flame.

EXTENSIVE EARTHQUAKE SHOCKS IN SOUTH ITALY. Naples, June 29.—For the first time since 1906 flames were observed today shooting up from Mount Vesuvius. Three slight earth shocks occurred prior to this, and the most prominent of Vesuvius emitted a dense column of smoke, which frequently showed strong reflections of flames lower down, with an occasional eruption of fire.

SEARCHER FOR BODIES IS DROWNED AT EDMONTON. (Continued on page nine)

EUROPEANS ASK AID FOR HOME RE-UNION. At a meeting of the Home Reunion Association to be held Thursday evening next in the office of the industrial commissioner, eight more applications are to be considered. These include one which, under the Imperial Association of last year, did not come within the scope of the association in that the applicant wishes assistance to bring his family from a country of Europe other than Great Britain.

CLINE SHOWS ARRIVED FROM LETHBRIDGE FAIR. The Kline Shows arrived in Calgary last evening from Lethbridge on their special train. There are over 20 shows this year which will all be open this evening and they include besides old favorites a number of new features which have not been seen before in the west. The showmen all got busy early in the morning getting their places ready for business and they will be opened this afternoon to the public.

PIPE MAJOR CHARLES DUNBAR Veteran Piper of the British Army, here with the Klittes.

Special Days at the Fair

Mon. June 30—Preparation Day. Tues., July 1—Dominion Day. Wed., July 2—Farmers' and Ranchers' Day. Thurs., July 3—Citizens' Day. Fri., July 4—American Day. Sat., July 5—Western Day.

TORY FABRICATION ABOUT NAVAL BILL PROVED FALSE

Statement by H. H. Stevens, M.P. for Vancouver, That Sir George Ross Consented to Passage of Naval Bill, Denied by Senator Lougheed.

VANCOUVER MEMBER NO AUTHORITY TO SAY SO

Off-repeated Statement About Dissensions Between Sir Wilfrid Laurier and Sir George Ross on Naval Policy Proved To Be Without Foundation.

SENATOR LOUGHEED last evening denied that there had been any absolute agreement between himself and Sir George Ross to let the naval bill pass through the Senate. This denial was given in view of the frequently repeated statements being made by Conservatives that Sir George Ross had agreed to the passing of the bill, and only when Sir Wilfrid Laurier threatened to resign his leadership did he give in.

This statement was made by H. H. Stevens, M.P. for Vancouver, at the coast on Friday evening. He said that Sir George Ross made the agreement with Senator Lougheed during the absence of Senator Dandurand. On the return of Senator Dandurand there was an interview with Sir Wilfrid Laurier, at which the veteran Liberal leader said he would resign his leadership of the party if the Senate passed the bill.

This statement has been denied by both Sir George Ross and Senator Dandurand, and now Senator Lougheed states that so far as his part in it is concerned the statement is not correct. He says that Mr. Stevens had no authority for the statement, and he had no absolute agreement with Sir George Ross, the Liberal leader in the senate, as to the passing of the bill.

MACRO RELATIVES SEND GUNS

New Orleans, June 29.—A cartload of war munitions on its way from New York to the camp of Venustiano Carranza, the state leader in Northern Mexico, is held in New Orleans pending decision by the department of justice as to whether to allow it to go on. The consignment, 128 rapid-fire guns, several hundred cases of ammunition and a quantity of side arms, was said to be part of a contribution from relatives of the late President Madero.

TWO HUNDRED THOUSAND DOLLARS WORTH OF SPEEDY HORSEFLESH ALL READY FOR THE EXHIBITION RACES

TWO hundred thousand dollars' worth of horseflesh is stabled at Victoria Park today awaiting the opening of the races tomorrow. This is a very conservative estimate placed upon the 125 standard and thoroughbred horses which are assembled here to participate in the stake and purse events during the week, and, while the field is not quite as large as in some former years, yet the class as a whole is better, and the racing committee of the Exhibition board are unanimous in prophesying that this year's races will be the best in the history of racing in Calgary.

In spite of the almost continuous rain for the past week, the track is in very fair shape. Last Saturday during the few hours of sunshine the track was actually very fast, and the numerous horsemen who were giving their charges a workout stated that they were agreeably surprised. It will take about twelve hours of warm, dry weather to put the track in A1 shape.

No Bookies Will Be Allowed. One feature of the races this week which will be novel in this part of the country will be the absolute absence of bookmakers. Two years ago pari-mutuel machines were introduced to the betting public, but did not prove as successful as they might, as they were run in conjunction with the books. This year pari-mutuel machines will be allowed on the track, but even handbooks will be allowed, and to guard against this several plain clothes men have been engaged, and anyone caught operating a handbook will be grabbed immediately. In addition to this, professional "touters" and "hustlers" will be barred from the track.

The Exhibition board has decided that the races this year shall leave no room for criticism. The seventy-five per cent. books which have been in operation in the past have handicapped the game and made the public sceptical. This year the "iron bookies" will hold sway. As is well known, it is impossible to cheat these machines, and the man who bets may be sure that if he wins he is going to win fairly. Ten per cent. is deducted for operating expenses; the remainder goes to the winners. The amount a man wins is in direct proportion to the number of bets placed.

On Saturday afternoon a big bay stallion, unusually large for a race horse, standing 16 hands high, with four white feet and a white snip on his nose, was the centre of attraction at the track. It was the famous Grand Opera, the horse which cleaned up \$10,000 last year without being given a mark, and the animal which is looked upon as the most valuable piece of horseflesh in Canada, as well as one of the fastest. It has a mark of 2:14 1/2, made at Regina a little over a week ago, but last year on the Grand Circuit it came in second on several occasions less than a length behind horses which won in 2:05 and less. In addition to being a great tury heat, he is the champion ice horse of Canada, and last winter won every heat in which he was entered in the Ottawa and Toronto ice races. He has been entered in about \$6,000 worth of stake races this year, and is looked upon as one of the best race horses in America at the present time.

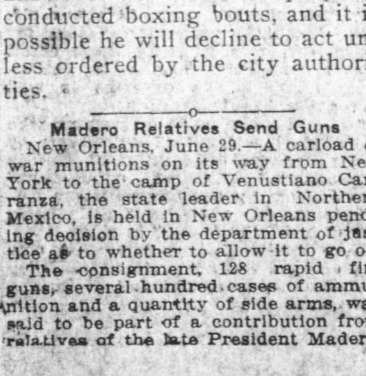

HALF A TON OF FLAKY, HOME MADE BREAD ENTERED IN COMPETITION

One Hundred and Fifty-nine Women Have Entered Delicious-looking Bread in Two Bread-making Competitions of the Fair. TEN women in Calgary take a real, practical interest in bread-making for every one woman who is vitally interested in embroidering tea cosies and sofa cushions—if the Calgary exhibition is any indication of the trend of feminine interest in this city. To be sure, some women combine both talents, but the bread makers predominate in a very marked degree.

One hundred and forty-nine women have entered samples of home-made bread in two special classes, which will be judged today at the exhibition.

The sight of this half ton of flaky, delicious-looking bread piled in long rows in the woman's building is one to make the mouth-water. The bread-wrapping bylaw fades into insignificance before this array of wholesome home-baked loaves, fresh from the kitchen oven, with the brown crust glossy with the final dab of butter, and pricked with the prints of a dinner fork.

Mrs. D. J. McCutcheon, domestic science graduate, and Miss Annie Morrison, supervisor of domestic science in Calgary public schools, have been selected as judges, and the tickets will be awarded some time today. The prizes are not large. Robin Hood Milling company has offered three prizes of \$15, \$10 and \$5, and 89 women have responded. For another special prize of \$5.00 and two sacks of flour, offered by the Western Milling company, 51 women have made entry. The one other prize of 48 pounds of Sovereign flour and 16 pounds of Manna breakfast 35 women are competing for. There are no entries in the professional classes, although two special classes are provided this year. The women who are competing include representative housekeepers from Mount Royal to Manchester; clergymen's wives have found time to bake two loaves for the contest; school teachers' wives have donated their white aprons and watched the oven; school teachers' wives are anxious to see that there is not a neighborhood in Calgary where women are not interested.

MRS. D. J. McCUTCHEON, Domestic science graduate, who is one of the judges in the big home-made bread contest, in which one hundred and fifty well-known Calgary women are competing at the Fair today.

Wetaskiwin Schools Have Sent a Comprehensive Collection of Studies and Drawings; Fine Displays by Grades V, and VI, Calgary.

ALGARY public schools have made an excellent showing this year in the art department at the Exhibition. Splendid displays of art work have been sent in by Grades V and VI of all the public schools and separate schools.

Wetaskiwin public schools have sent their art studies and drawings which is the most comprehensive and best ever shown by an outside school in Calgary.

Exhibits of pictures, photographs, metal work are being arranged this morning by Mr. Lynn and his assistants who have this department in charge.

Continued on page nine.

How the Gourlay Responds

Draw your piano stool into position before a Gourlay and lightly run your fingers up and down the smooth ivory keys.

The gentle rise and fall of that perfectly pure and even tone, without the slightest perceptible change between the bass and the treble sections is a distinctive mark of the world's highest grade pianos.

In very truth, the

Gourlay Piano

has been described as "The living exponent of the executant's impulse."

Only an instrument of the most highly developed process of construction can respond so effectively. Every minute detail of the Gourlay reflects the most finished artistic workmanship. The materials used in every part are of the very best money can buy. The work of each department is brought to the highest achievement of human skill till the finished Gourlay comes from the factory—a glorious example of the world's best efforts in piano manufacture.

The "New Montreal Paper" is the finest paper ever produced in Canada. It is made from the best quality of paper and is the most durable and beautiful paper ever produced.

JOHN BRIGHT'S LIFE IS BOOK OF DAY IN ENGLAND

Written by Son of Sir George Trevelyan and Relative of Macaulay, It Is the Most Important Biography Since Morley's Life of Gladstone

LIFE IS TOLD IN HIS ELOQUENT SPEECHES

The Times Asks If the Tongue of England Ever Spoke in More Perfect Music Than in the Words of the Famous Quaker From Birmingham, the Friend of Cobden

The book of the day in England is the "Life of John Bright," by George M. Trevelyan, the grand-nephew of Macaulay.

Mr. Trevelyan says of Bright's style and absence of gesture: "Lord Salisbury's opinion, which would place Bright as an orator above Gladstone, is not universally accepted; it would indeed be easy to draw up two lists—one in favor of Gladstone and the other in favor of Bright—among statesmen who heard them both and were competent to judge them; but Bright had the marks and defects of simplicity, Gladstone of complexity, Gladstone—even in the whirlwind of his own oratory, arms overhead and eyes flashing—was always a debater, moving his opponents' every argument, instructing his audience, often exciting them over the details of some financial or legislative measure.

AMERICANS VISIT FRANCE STUDYING CHEAP MONEY

Investigating Agricultural Credits and Farm Co-operation in Paris Today

Paris, June 30.—The American Agricultural Commission, which is investigating European systems of agricultural credits and farm co-operation, held its first meeting here today at the Ministry of Agriculture under the presidency of Mr. J. B. Hays, secretary of the commission.

The members will be received by President Poincaré at the Elysee Palace, and will then proceed to the Ministry of Agriculture. Tomorrow will be occupied with meetings at the headquarters of the National Federation of Mutual Agricultural Co-operation.

During the next few days the commission will visit the principal agricultural centers of France. Automobile trips, banquets and official receptions are being arranged by the Ministry of Agriculture for the members of the commission.

Some of the members who will remain in Paris are Mr. J. B. Hays, secretary of the commission, and Mr. J. B. Hays, secretary of the commission.

WHY SCOTLAND IS LOSING THE PICK OF HER MANHOOD

Deer Forests Retained By the Aristocrats; While the Farmers May Not Put the Land To Its Proper Use; Case of Duke of Sutherland

London, June 27.—During the past month or so there has been reported the departure each Saturday of liners from the Clyde bearing away to the west some 4,000 Scottish people. The population of rural Scotland is probably at an accelerated rate, and under such circumstances the return of Deer Forests and Lands Exclusively Devoted to Sport in Scotland, secured by Mr. Dundas White, M. P., is published at an opportune moment, just as the turning of vast territories into sports preserves to gratify the social ambitions of rich men is a main cause of depopulation, and this return, taken with the emigration figures, provides a cause and effect.

The sphere of complete desolation now stands at 3,559,744 acres, or nearly one-fifth of the total area of Scotland. This, however, does not give us the whole truth; for much land not "exclusively" devoted to game rests under the shadow of the evil, and more than counterbalances the deer forest area, on which, as stated in a note by the Return, some sheep are grazed. The complete report of the apologist for the deer, "The Highlands for the Deer," has been that the "forests" are inaccessible mountain heights. But this return tells us that 602,212 acres, below 1,000 feet. The Daily News long since pointed out that land in the straths and glens had been turned into forests to provide "wintering" for the deer. The Highlanders, which was one of the Highlands, which was based on thecroft in strath and glen with the hills for pasturing the common flock and herd, has been swept away.

Land for Sport and Use.

Last week that journal remarked: "From this return we learn that in Sutherland the Duke of Sutherland holds 407,172 acres exclusively for sport, of which 252,932 acres are below 1,000 feet. The census of 1911 shows that the rate of intercessional decrease was second highest in Sutherland of all county populations. At 20,175 the population of the county is 3,838 less than in 1881. Meanwhile, the Duke of Sutherland is acquiring territory in Canada and transplanting Scottish farmers upon it. But Canadian provincial governments are seeing to it that the land of the Dominion shall be held for use, Alberta is shifting taxes on to land values, Saskatchewan is imposing a super-tax to prevent land withholding, the Minister of Finance for British Columbia has just announced that by gradual process it is intended to shift all taxes on to land value. The Duke will not be permitted to create or maintain a desolation for game in Canada. He has recently announced that he has sold some 50,000 acres of his Scottish estate of 1,800,000 acres to a rich Canadian. A Canadian who wishes to hold a vast area of sport and to be lord of a solitude finds that Scotland provides a better opportunity than the best game preserves of the west.

The Duke of Sutherland's territory of 407,172 acres of desolation stands in the valuation roll for rates at a rental of \$12,556 per annum, and contributes probably the most \$2,000 a year. The Thames Shipbuilding company, before it closed down, paid \$7,000 a year in rates. So do we aid the Duke who preserves deer and penalizes the industrialist who promotes the employment of men. The 3,559,744 acres of deer forests are in valuation roll at a rental of \$1,878,880, and in many cases the rental includes other subjects.

Damage by Deer.

The statement made by crofters before the Scottish Land court recently constituted has provided pathetic evidence of the struggle of the peasant in the Highlands. The tragedy of the devastation of game. Here are some typical examples from a press report

CHINAMAN MUST WED WHITE WOMAN TWICE

Moose Jaw, June 27.—Tom H. Dickson, a Chinese, who had eloped with a young white girl, left Moose Jaw today for Dickson, B. C., where they expect to be granted for the second time within a week. The first time, in 1912, he was granted for the second time within a week. The first time, in 1912, he was granted for the second time within a week.

TEA reaches you just as it left the Gardens of Ceylon, with its fragrance and flavor unimpaired.

In Sealed Lead Packets Only. Black, Green and Mixed.

Scotland would lead the world in true land reform if they had the power to control their own affairs. They have resisted all suggestions to barter away their rights by land purchase.

The Scottish people, and especially those of the Highlands, abide steadfast in the faith that the land is a common and inalienable heritage, and see in land value taxation the means of restoration.

The Kaiser at Kiel.

Kiel, Germany, June 27.—Emperor William was a competitor today in the racing schooner Meteor at 20 minutes past twelve in the opening race for the Hamburg II, the new English schooner, owned by Dr. Krupp von Bohlen and Malblich. The Italian royal yacht Trianga arrived today and anchored alongside Emperor William's Hohenzollern. She will await the King and Queen of Italy, who are expected to reach here July 3 on their way to Copenhagen.

A Shorter corn harvest to Mr. Matthews of Red Barn Farm, Herefordshire, who has a cow which has calved in July of which lived a few days. The cow is about eight years old, and so far as is known has never calved before. It is said to be more than one calf at a time.

BAILED AGAINST GRASSHOPPERS

Guthrie, Okla., June 23.—A. C. Hixon, Guthrie, general agent for the Fort Smith and Western Railroad, will head a delegation of Lincoln county farmers who will go to Oklahoma City tomorrow to ask President Tom Bryan of the State Board of Agriculture to aid them in stopping the disastrous grasshopper invasion in the Deep Fork Valley.

Hixon attended a conference of the farmers in the stricken district yesterday. He says the cotton crop there has been destroyed and that the grasshoppers are now working on the corn and alfalfa.

Farmers are spreading poisoned bran over the corn and cotton fields and are hauling tanks partially filled with crude oil over their alfalfa fields. All the hoppers that jump into the oil die.

The boys, girls and women are hard on all the turkeys and chickens that can be found into the gardens and fields.

THE ALBERTAN

W. M. DAVIDSON - President and Editor
A. A. MOORE - Business Manager
W. W. CHEELY - Managing Editor

MORNING ALBERTAN.
Per Year \$3.00
Per Month .25
Per Copy .05

WEEKLY ALBERTAN.
Per Year \$1.00

MONDAY, JUNE 30, 1913.

MORE USEFUL, CHEAPER, MORE BEAUTIFUL.

The Albertan has received letters from Mr. Ald. Adshad and other residents of the North Hill protesting against the statement that they have not given sufficient thought and careful consideration to the alternative proposition to the high level bridge suggested by Mr. Mawson.

As soon as the newspapers breathed a suggestion that Mr. Mawson had something better than the high level bridge, and before the alternative scheme had been outlined, men signing themselves as officials of an organization in that part of the city wrote angry letters to The Albertan protesting against anything but a high level bridge.

Mr. Stevens, the Vancouver member, declared that Sir George Ross had made a compact with Senator Loughheed about the navy bill, and Senator Loughheed in that dignified manner of his replies that the Vancouver man, though a very nice gentleman and a Conservative and all that, in this particular instance is conversing through the crown of his comb-over.

Machod citizens have seen two white gophers. And after Machod turning down Premier Sifton and electing Bob Patterson it is not surprising if they see anything or everything.

PORTUGUESE POLITICAL PRISONERS.
A letter of the Duchess of Bedford, recently addressed to The London Daily News, is in some respects a grudging and ungracious recantation. But as for an amnesty, for which that estimable noblewoman and her friends are shrieking, it is pertinent to ask whether the methods employed by them are likely to bring that about.

The exhibition management would be quite prepared to submit the subject of the weather to a plebiscite, the majority to decide.

Little Johnnie Horner, of the ancient rhyme, was quite satisfied with himself after the thumb and the plum cities, he will not be so satisfied with himself. He also is after the plum which doubtless prompted the knock for rival borrowers.

A FAIR GOVERNMENT.
The Wainwright Star, in referring to the expenditure in telephone extension authorized by the provincial government, says: "Although a government supporter was not returned for Wainwright at the recent election, it is gratifying to note that work is progressing along this line in this vicinity."

In other words, again the Sifton government has shown that it does not pursue the usual selfish and partisan methods of party governments. According to the standard of party politics, the Sifton government, probably, is not playing the game. If we had a Rogers or a Roblin, a Whitney or a McBride, or even some of the Liberal leaders in control, Wainwright or any other riding which did not elect the right kind of a man politically would not fare well in the public works. It is different with the Sifton government. It is well.

This is but one indication, and there are many others, that show that the government is more interested in the advancement of the country than it is in the partisan complexion of any part of it. It plays fair with all sections, whatever the party history.

And it would be well if Calgary citizens, when they notice empty attacks upon the government, when they are asked to condemn "Siftonism" merely at the request of the Southern press, or other equally interested partisans, would look into actual conditions. There is less partisanship about the Sifton government than about any other in all Canada. It is competent, and it is fair.

Shareholders' Security.
This is a matter of great importance to the shareholders of the British firm for the Vickers arms works. A very important question for the shareholders is the question of the security of the plant in the event of a revolution in the country.

The Calgary citizens, one and all, should get the exhibition habit, which means going to the exhibition tonight and taking the entire family, and doing the same thing every other night during the week and also during most of the afternoons.

ENGLISH OPINION AND NAVY QUESTION

As a general thing, the people of England are not as anxious to centralize everything in Britain and to violate the autonomy of the colonies as some of the politicians in Canada. That is shown by the comments of some of the newspapers in England upon the naval bill.

But there is a disposition on the part of England to permit Canada to work out its own destiny without outside influence. It will be remembered that the Borden government and government supporters here misinterpreted an address by Churchill into a declaration of regret at the action of the Canadian senate.

The London Times, in discussing the subject, said: "The political controversy there should take its course free from any suggestion, however shadowy, of imperial influence or concern." The Canadian parliament is divided upon the conclusions to be drawn from these facts, and this much is now clear—that no naval policy, whether temporary or permanent, can be carried into effect without a reference to the electorate.

The controversy in Canada must be worked out by the Canadian government and the Canadian people without an implication of any kind that the extent of the British navy estimates is waiting on the result. When the will of the Canadian people is known, Canadian policy can again be taken into account, but that is for a later date.

Mr. Stevens, the Vancouver member, declared that Sir George Ross had made a compact with Senator Loughheed about the navy bill, and Senator Loughheed in that dignified manner of his replies that the Vancouver man, though a very nice gentleman and a Conservative and all that, in this particular instance is conversing through the crown of his comb-over.

Machod citizens have seen two white gophers. And after Machod turning down Premier Sifton and electing Bob Patterson it is not surprising if they see anything or everything.

PORTUGUESE POLITICAL PRISONERS.
A letter of the Duchess of Bedford, recently addressed to The London Daily News, is in some respects a grudging and ungracious recantation. But as for an amnesty, for which that estimable noblewoman and her friends are shrieking, it is pertinent to ask whether the methods employed by them are likely to bring that about.

The exhibition management would be quite prepared to submit the subject of the weather to a plebiscite, the majority to decide.

Little Johnnie Horner, of the ancient rhyme, was quite satisfied with himself after the thumb and the plum cities, he will not be so satisfied with himself. He also is after the plum which doubtless prompted the knock for rival borrowers.

A FAIR GOVERNMENT.
The Wainwright Star, in referring to the expenditure in telephone extension authorized by the provincial government, says: "Although a government supporter was not returned for Wainwright at the recent election, it is gratifying to note that work is progressing along this line in this vicinity."

In other words, again the Sifton government has shown that it does not pursue the usual selfish and partisan methods of party governments. According to the standard of party politics, the Sifton government, probably, is not playing the game. If we had a Rogers or a Roblin, a Whitney or a McBride, or even some of the Liberal leaders in control, Wainwright or any other riding which did not elect the right kind of a man politically would not fare well in the public works. It is different with the Sifton government. It is well.

This is but one indication, and there are many others, that show that the government is more interested in the advancement of the country than it is in the partisan complexion of any part of it. It plays fair with all sections, whatever the party history.

And it would be well if Calgary citizens, when they notice empty attacks upon the government, when they are asked to condemn "Siftonism" merely at the request of the Southern press, or other equally interested partisans, would look into actual conditions. There is less partisanship about the Sifton government than about any other in all Canada. It is competent, and it is fair.

Shareholders' Security.
This is a matter of great importance to the shareholders of the British firm for the Vickers arms works. A very important question for the shareholders is the question of the security of the plant in the event of a revolution in the country.

The Calgary citizens, one and all, should get the exhibition habit, which means going to the exhibition tonight and taking the entire family, and doing the same thing every other night during the week and also during most of the afternoons.

ARMAMENTS AND PATRIOTISM

AN EXAMINATION OF FACTS.
(In reprinted from The London Daily News)
1.—An international industry.
In this and certain following articles I propose to examine the problem of armaments as it affects the government and the taxpayer. New light has been shed upon this subject by the knowledge of the general situation of the world in 1913.

It should be remembered that even in Germany the power of the armaments industry has been driven to the background by the general situation of the world in 1913. The statement of certain works at Dillingen, in the Rhine valley, is a case in point. The works have as yet received no adequate orders. The general situation of the world in 1913 is a case in point.

The charge against Krupp is that they maintained an agent in Berlin to obtain information for the German War Office and Admiralty. The German War Office is now a public institution, official and not confidential, and from time to time, cannot avoid mentioning names.

Again, Earl Grey and Mr. Alfred Lyttelton are Trustees for the education of the children of the late Lord Bessborough. The Earl of Bessborough is a member of the House of Commons, and the Earl of Lyttelton is a member of the House of Lords.

Not a Matter of Patriotism.
The idea that Messrs. Krupp in Germany or Messrs. Vickers in England carry on business exclusively for the benefit of their country is a very naive idea. It is not a matter of patriotism, but a matter of business.

It is not a matter of patriotism, but a matter of business. The idea that Messrs. Krupp in Germany or Messrs. Vickers in England carry on business exclusively for the benefit of their country is a very naive idea.

ROBINSON'S, LIMITED, GREAT EXCESS STOCK SALE

THIS SALE will mark an epoch in the history of Merchandise Slaughter, an event so startling in wonderful bargains that memory of all past will be forgotten in the wild rush of Satisfied Purchasers gathering up the endless array of splendid bargains in this vast store.

Tremendous Reductions on Everything

We have prepared to make the remaining days of this Sale eclipse the phenomenal business of the first three days. Every article in the store will contribute liberally. The wonderful bargains offered will further demonstrate that this is the greatest sale ever held in Calgary. Our enthusiastic advertising last week did not overstate a single value. In fact, it did not even give a thorough conception of the unusual bargains offered during this sale. The people who visited this sale during the opening days found the reductions greater than advertised. Every purchaser among the hundreds who took advantage of these bargains was compelled to admit that greater values were never offered in their experience.

WE MUST TURN HALF THE STOCK INTO CASH, AND THE BIG REDUCTIONS ARE ASTOUNDING.

Here Are a Few of the Extraordinary Values Offered

Dress and Coating Serges

Bradford Serges, 54 inches wide, in cream, cardinal, navy blue and tan. Regular \$1.50 values. Now 95c

Music and Drama

SPECIAL BILL AT SHERMAN GRAND FOR FAIR WEEK

Manager Baker promises a special bill for exhibition week opening at the Sherman Grand with the matinee on Thursday afternoon. The bill is a well balanced one, containing a sketch, dancing, music, character comedian and acrobats—something for everybody's taste.

"Speaking to Father" is said to be a hard time in every young man's life, but it takes George Ade to tell it in his own inimitable style, and it takes Milton Pollock and his clever company to interpret the Ade style of humor for a number of years. The humor of George Ade is a subject peculiar to itself and needs no further introduction as there is hardly a man, woman or child that has not read and laughed at his quips on the foibles of life.

"Famess," the Egyptian Wonder Worker, is the greatest act of mystery that has ever been offered on the stage. His acts can be depended upon to send the people on their way with a hearty exclamation that they have been entertained to their hearts' content. He is a mystery to all who see him.

"What is the only name that a burlesque artist can be known by? It is his name, once known, a lover's heart is bound to be excited. The name of one of the best comic artists of the Southern States ever displayed and who is assisted by two clever "picks," Walter S. Dickinson, better known as "Famess," is a standard entertainer with a characteristic of the rural life.

CASTORIA For Infants and Children. The Kind You Have Always Bought

HIGH CLASSES RESIDENTIAL AND DAY SCHOOLS. LANGARA Braemar

A. B. Tait, Esq., M.A., Principal. An exceptionally strong teaching staff. Boys prepared for University Matriculation or for entering the Royal Military College. Careful supervision of the pupils in their games as well as in their studies. Special attention paid to the development of character. School year begins Tuesday, 16th September. Applications for admission should be made at once.

WESTERN RESIDENTIAL SCHOOLS, LTD. REV. E. D. McLAUREN, Superintendent.

politician which he calls "The Justice of the Peace." Miss Billie Seaton, character singer and comedienne, would give one prescription if she were a doctor, and that is to laugh and grow fat, something that she is able to make all do. "Benavita Armas" and "Senior Victor" will be seen in a fine repertoire of the dances of old Spain, at which they are acknowledged masters. Miss Billie Seaton and her company have been in partnership for a long term of years, and during that time have been constantly improving their act until "The Bell Boy and the Achile" is one of the best ever in the line of combining comedy and gymnastics.

Then there will be the talking motion picture with the following titles: "The Merrit" and "The Romance of a Coal Mine." The orchestra will have its usual fine selections and then all will be over. The bill will be a winner from end to end.

RAYMOND HITCHCOCK AT SHERMAN GRAND TONIGHT

At the Sherman Grand tonight and for five performances, which will include a special matinee tomorrow and Wednesday, the attraction will be Mr. Raymond Hitchcock and his big comedy, "The Red Widow." This will be Mr. Hitchcock's first visit to Calgary and his appearance may be looked forward to as the most important event of the year at the Sherman Grand. The first act of the play will show the lawyer in these columns. However, it is one which will keep the audience interested for three solid hours. Mr. Hitchcock is noted as the greatest farce maker on the American stage. He will be assisted by Flora Zabelle, who will impersonate "The Red Widow." The second act takes place in the reception room of the leading hotel in New Orleans, and the third act will see the two men in the Coar's winter palace, where a "White Fete" is in progress. During this act the full company will be dressed in Russian military costumes, which is claimed to present a dazzling picture. Mr. Hitchcock impersonates an American millionaire corset manufacturer, who attends an open performance at the Al-

cazar, London, and flirts with a pretty young woman, who travels with him to Russia on his passport, which is made out to Mr. and Mrs. Butts. Mrs. Butts remains in London to wait for women's suffrage. When in Russia the young woman informs Mr. Butts that she is a nihilist and intends to kill the Czar, and that her name is Anna Vavara, and known to the police as "The Red Widow." All of which affords a series of many merry misunderstandings before the final curtain. The company comes direct from Vancouver, where they have captivated large capacity audiences in each and every city on the Pacific coast.

HUERTA-DIAZ COUP BLOCKED NIPPON'S GAME

Oakland, Cal., June 29.—That Japan was blocked in the act of securing a firm hold in Mexico by the shooting of the Madero brothers, after negotiations had been under way between Gustavo, minister of finance, and secret from the island empire, is the sentiment attributed to Dr. Sims, former surgeon and physician in the Madero household, and now a refugee in Honolulu, by Walter J. McDougall, well-known newspaper correspondent, who is here today from a tour of the Orient.

McDougall says Dr. Sims told him the Huerta-Diaz coup was planned and executed under the cover of a political game of an international character, and that two nations secretly banded as to which would have authority over Mexico. "Dr. Sims told me," said McDougall, "that thousands of Japanese soldiers were to be sent to this country in the guise of farmers and colonists and that they were to flock up and down the west coast of Mexico and along the American border and uphold the Madero regime. In the meantime, the colonization of a big slice of the country by the little brown men would go on. The Japanese offering their services to the constitutionalists near the vanguard of these soldiers of the island empire, whose plans the fall of Madero thwarted."

New W. Va. Mine Strike July 1. Charleston, W. Va., June 29.—An official call for a strike of miners in the New River coal fields was issued late tonight from the Charleston headquarters of the United Mine Workers of America. Fifteen thousand men are employed in that field. The strike order is effective July 1. Miners are also called to strike tomorrow in the "Coke" field, while conditions in the "Coke" district are very uncertain.

Cancelled a Real Estate Man. Los Angeles, Cal., June 28.—Charles Pendell, a real estate dealer, was bankrupt today in his office in a downtown building. The body was discovered tonight by his widow. Pendell had been strangled with a wire and beaten on the head. His diamond earrings and ring and his money were missing. Pendell had not been seen since early in the afternoon. Mrs. Pendell, distracted by grief, could suggest no motive.

MARKET HAD ANOTHER GREAT DAY AND ALL WERE PLEASED

Many Improvements Are Still To Be Made, and Changes Will Be Carried Out; Some Marketers Sell Out In Record Quick Time

The market on Saturday was again a great success, and business went on merrily all day long, with specially active times at dinner, supper, and in the evening from 8 to 10. There were even ready and willing purchasers on hand anxious to get in at that last hour, but the door was closed on the regular admission after 10 o'clock. Everything passed off without a hitch, though there are still a number of improvements which will be made from time to time as the market progresses and the surest way to reach perfection is by constant improvement. In the evening there were many family marketers in the regular old country style, and the large proportion of those who did their shopping then were English people used to the Saturday evening market at home.

Farmers Again Pleased. Ever since the opening of the day's success, there was again a big demand for stalls and tables for the next big day, and all the farmers and marketers were anxious to come back again. The market is now open each day from the morning till 12 o'clock, and it will be closed promptly at 8, though on Saturday evening there will be extra hours and the place will be open till 10 o'clock. Those who are in the building at that hour may complete their purchases.

Some Improvements Coming. There were a few complaints on Saturday as to the delivery of articles, and some improvement will be made in this matter during the next few days. There was also some complaint as to the quality of goods, but the city cannot yet control this matter, although from now on a list of the resters of the various tables will be kept and the matter will be traced as far as possible. Ladies are advised by Market Superintendent Wells to bring a memorandum book for this purpose and take note of the purchases they make and the place where they are purchased. The stalls are all repaired by the month so that it is no difficult matter to trace any complaint. The quality will, of course, be maintained by the resters, as they feel that only by keeping up the standard can the market be made a success.

Sold Out in Five Minutes. Instances of the truth of this are to be found in an hour. One woman came in on Saturday night with butter, and sold out all she had within five minutes. People were waiting for her and she had all her customers ready to buy as soon as she appeared. Mr. Wells is anxious to get in touch with farmers during the week, and he will be ready to interview any every day from 8 to 12 in the morning. Mr. Wells wishes to talk over the situation with the farmers, and also to find out the needs of the various men who are supplying the market. Personal Visit Is Best. The phone at the city market is

REBEL GOVERNOR SUGGESTS PEACE

Mexico City, June 28.—Venustiano Carranza, the rebel governor of the state of Coahuila, proposes as a basis of peace between his followers of the present administration that the present cabinet ministers as well as a can didate for the presidency of the republic be named at a convention of representatives of all the political parties, in combination with rebel delegates.

According to Leonoldo Martinez, the negotiator who claims to have received the proposal through Nicoforo Zambrano and Manuel Amaya, fugitive residents of Montreal, these two assert that it was authorized by Carranza himself. He further suggested that Provisional President Huerta immediately name a presidential candidate and minister of foreign affairs, and then resign office, after which the choice of the convention would succeed to the provisional presidency. Leopoldo Martinez intends to endeavor to submit these terms to General Huerta, but it is anticipated that those in a position to know the situation in the proposition will not be accepted by Huerta.

Automobile Parade. All who are going in the decorated Auto Parade tomorrow will please be at West Hall square at 10 a. m. Children under 10 years old will be taken into the grounds, but others must have their tickets ready. The cars will be admitted to the parade at 10 o'clock. The parade will start at 10 o'clock from the 18th Avenue and 18th Avenue to the Exhibition Grounds where the judging will take place.

LIBERAL CANDIDATE WON BY BIG MAJORITY

Malcolm Elected In Hanley Riding, Saskatchewan, On Saturday

Hanley, Sask., June 29.—Murcheth Malcolm, the Liberal candidate, was elected over T. J. Bjornndahl, Conservative Saturday, by a majority of 400. In the general election of 1912, J. W. MacNeil, Liberal, was returned by a majority of 430.

SPORTS

SUBURBAN WINNER MADE NEW RECORD FOR DISTANCE

Whiskbrook II, Did Mile and a Quarter in Two Minutes Flat in a Great Race

New York, June 28.—Having done everything asked of him by owner, trainer and jockey, Whiskbrook II, the big chestnut son of Bronzestick, Audenstone, the most talked-of horse in America. Carrying the crushing impost of 139 pounds, Harry Payne Whitney's six-year-old horse, piloted by Jockey Notter, won the Suburban handicap at a mile and a quarter over the Belmont park track this afternoon, and established a new world's record of two minutes flat for the distance. The previous record was 2:02.45, a length away, John O. Talbott's gelding Lahore was second, seven lengths in front of R. F. Carman's Meridian, which finished third.

Never before in the history of a race has such a weight been carried to victory, and in addition Whiskbrook has to be credited with the hitherto unheard-of feat of winning all three of the big handicaps, Metropolitan, Suburban, and Brooklyn, in the same year.

The Suburban is considered to be the great American classic, and in former years ranked, in this country, with the English Derby. The money value was only \$3,000 to the winner.

First race, fillies, mare and geldings, three year olds, up mile and sixteenth, second, third, Time 1:43 2-5.

Second race, colts, three year olds, up six furlongs, Main Course-Spring Board, His Majesty, second, third, Time 1:11 1-2.

Third race, Piping Rock subscription, two year olds and geldings, five furlongs, straight, Anles, won, Arlington, second, Pining Hot, third, Time 1:07 1-2.

Fourth race, the Suburban handicap, two year olds and geldings, one mile and a quarter, Whiskbrook, won, Lahore, second, Meridian, third, Time 2:02 1-2.

Fifth race, two year olds, selling, 50 pounds, straight, Bromfield, second, Superintendant, third, Time 1:08 1-2.

Sixth race, maiden two year olds, six furlongs, straight, Bromfield, won, Dunmore, second, Small, third, Time 1:07 1-2.

MAD HATTERS MAKE CLEAN SWEEP OF SERIES

Take Both Ends of Double-Header From Regina; Hard Hitting Featured

Medicine Hat, June 28.—Medicine Hat made a sweep of the three-game series by taking two from Regina Saturday by scores of 4 to 3 and 6 to 2. Errors were costly for both teams in each game, though there was some hard hitting by the visitors in the first and the home team in the second.

Lead opened Rankin in the first. The former was touched for twelve innings, but good work on the bases and the hitting on the runners down, and though the visitors made three hits, two for extra bases in the second, they scored their three runs, two of the runs were let in on errors.

A deep single followed a walk, scored Harris with the locals' first, and a walk, error, double and single scored three runs in the second. Harris pitched good ball, his curves breaking wonderfully.

Brecht had much the better of the argument against Butteroff in the second. The former was found for seven and the latter for 15 hits. A few home head plays spoiled a couple of innings.

Scores:

First game..... 030 000 000—12 2
Medicine Hat..... 013 000 002—4 3
Regina..... 000 000 000—0 2
Lind and Bliss.

Second game..... 000 021 000—3 7
Medicine Hat..... 100 221 002—15 3
Batteries: Butteroff and Baker; Brown and Bliss.

BOB STEELE WINS TENTH STRAIGHT GAME

Defeated Edmonton 5 to 3, Holding Eskimos Down To Five Hits

Edmonton, June 28.—Edmonton's weakness against left-handed pitchers was again shown tonight when Moose Jaw, with Steele on the mound, defeated the Eskimos by a score of 5 to 3. Steele's fifth win over Edmonton, his tenth straight and his fifteenth of the season.

Steele was master of the situation in every inning except the fifth, when Whisman singled, Reddy was on Seaton's error and Redmond cracked out a home run. The Millers evened up in the sixth and won out in the eighth and ninth. Bierdorter was hit hard by the visitors, who made 14 hits. Manager Tweed continued his terrific clouting, getting four hits, including a double and a triple.

Steele held the Birds to five hits and struck out 12. He was very wild, however, walking eight men. The afternoon game was postponed on account of wet grounds.

Scores:

Moose Jaw.....000 000 3 0 1—5 14
Edmonton.....000 000 3 0 0—3 5 1
Steele and Moore; Bierdorter and Seaton.

Australians Won Easily.

Philadelphia, June 28.—The Australian cricket team won the second match with an all-Philadelphia eleven at Havering, Pa., today by ten wickets.

In their first innings yesterday the Philadelphians made 115 runs, and in the second 87. The Australians, in their first innings, scored 108 runs, and today they made 78 runs, the number necessary to win, with the loss of a wicket.

THE TWO BRAVE LITTLE CHAPS WHO WERE SWEEPED TO DEATH IN THE WHIRLPOOL RAPIDS OF THE NIAGARA RIVER—Harold Moore and Donald Rescoe, the two little victims of the Niagara whirlpool in the terrible tragedy of Sunday week, are shown in the above cut. As the boat drifted down the death line the lads knelt in prayer, shook hands, and then crouched down in the bottom of the boat, meeting death in each other's embrace.

SUPERINTENDENT MACLEOD HAS BEEN DONE INJUSTICE, SAYS POSTMASTER

Asserts that the Superintendent of Railway Mail Service Is a Competent Official; Calgary Clerks Have Made Complaint Against Him

POSTMASTER King is of the opinion that Superintendent J. O. Macleod of the railway mail service has been done an injustice by the Calgary railway mail clerks. He says Mr. Macleod is a painstaking official who has a reputation for attending to his department.

The Calgary clerks assert that Superintendent Macleod is opposed to them because of the fact that they have formed an association, and that he has shown his displeasure by routing them, disadvantageously, so that they are compelled to spend their leisure in places where life is not worth living. They have taken the matter up with the postmaster general, and an investigation has been promised them, providing they make individual complaints.

Rome, June 28.—The postmaster general is bewildered over the result of the recent permission which he granted to telephone girls to get married. Three hundred of these girls promptly availed themselves of the chance and every couple asked the postmaster general to act as best man.

DR. KERBY TELLS OF RELIGIOUS ASPECT OF MASONIC ORDER

Large Attendance of Members of Mystic Order at Central Methodist Church For Annual Service Last Evening; Over 600 Present

MASONS ARE ESSENTIALLY RELIGIOUS, SAYS PREACHER

Order is Based on Sound Principles, and Aims at the Highest Ideals That Can Be Set For Mankind; Brotherhood the Essential Quality.

OVER six hundred members of the Masonic craft last evening attended a special religious service held in the Central Methodist church when Rev. Dr. Kerby preached an inspiring sermon on the religious aspect of the order.

The members formed up in lines two deep at the altar and sang hymns and choruses. The text which was selected by the preacher was that memorable verse from the Psalms, "Thy Word is unto My Feet and a Light to My Path."

Prominent Masons

The members took part in the service and the names of the masters are given with the lodge name and number: Rev. Row Lodge No. 1, J. J. King, M. Perfection Lodge, No. 9, W. M. Pider, W. M. Calgary Lodge No. 23, H. M. Macleod, W. M. Mount Lebanon No. 54, H. J. Gale, W. M. King George Lodge, No. 25, J. Kosky, W. M.

Among the notables present were J. M. Erney, district grand master and Sharpe, past district grand master. Col. Walker acted as master of ceremonies. Among the many members in the audience was Brother James Smith of Lonic Lodge No. 54 Montreal. Mr. Smith is a Mason of 45 years' standing and is one of the three living charter members of the Lonic lodge which got its charter in 1792.

Sermon by Dr. Kerby

Dr. Kerby's sermon was in part: "The word of God is the beginning and the end, the Alpha and the Omega of the Masonic fraternity as it exists today. Masonry places the holy Bible upon her altars and commands each of her votaries to study the way therein to everlasting life.

"When you enter a Masonic lodge room the first thing that meets your gaze is a copy of the Bible, which occupies a place in the very centre of the room. And when the closing moment of the lodge comes, the last word that is spoken to you is from this sacred volume. You cannot account for the extent and far-reaching influence of Masonry throughout the world on any other ground than the eternal word of God.

John the Baptist

"Furthermore, it is to this great book of God's Masonry turns for its patron saints and it is in commemoration of one of these we celebrate this anniversary. There was a man sent from God whose name was John."

France Honors Dr. W. J. Mayo

Paris, June 28.—Dr. William J. Mayo, of Rochester, Minn., has been elected foreign correspondent of the Academy of Medicine.

WAVE OF HOT WEATHER SWEEPS OVER THE WEST

Winipeg, June 28.—Since Friday last, Manitoba and the west generally has been in the throes of a storm and its aftermath. For two hours early on Saturday morning the most severe electrical disturbances of the year held Winipeg and the country to the west and south. A full inch of rain fell, but the blazing sun of Saturday rapidly absorbed the moisture, and the air became so humid that exertion was next to impossible. This intense, day night and Sunday morning, the side saddle was struck in the heart, slightly cooled by afternoon breezes. Though several drowning fatalities are indirectly attributable to the heat, only one death is known to be directly caused by the hot wave, James Orman, aged six, dying this morning from a sunstroke. Reports of the damage from Saturday morning's storm are being received in the public square of Rio de Janeiro May 8, at 8 o'clock in the morning.

Sunny Jim and two other racing pigeons were shipped by Don Diego Secora at Rio de Janeiro on Saturday April. The birds were allowed a few days to recover from their travel fatigue and were liberated in the public square of Rio de Janeiro May 8, at 8 o'clock in the morning.

Stopped Her Talking With Gas

Chicago, June 28.—Falling in all other methods to suppress his wife's conversation so that he might sleep, Chas. Sawyer held a rubber tube attached to a gas jet to her nostrils in early today and waited for the fumes to lull her to slumber.

The gas had no effect. Mrs. Sawyer screamed and Frank Walsh, policeman, living in the same building, arrested Sawyer. Mrs. Sawyer told the police her husband had threatened her several times. Sawyer said he tried the gas treatment when she threatened to talk him to death.

Shot His Squaw in Sun Dance

Vernal, Utah, June 28.—Crazed with jealousy while the sun dance, the greatest of the Ute Indian festivities, was in progress yesterday, Tim Inchwich shot and killed his squaw and then fired a bullet into his head.

A young brave bent over as if to take some of the sweets, greatly offending Inchwich. The squaw noticed his anger and ran away. Inchwich followed and shot her dead. The Indian picked up his dead squaw, carried her to his tent, and then killed himself. Several white persons witnessing the sun dance became alarmed at the tragedy and hurriedly left the reservation, fearing that the Indians would rise against them.

Mexico Orders War Vessels

Rome, June 28.—The Mexican government has signed a contract for the building of two war transports at the Odero yards in Genoa.

NO RIDING ASTRIDE, IS THE ORDER OF QUEEN MARY

London, June 29.—Queen Mary's objection to the Victorian proprieties is doubtless responsible for an edict issued by the management of the International Horse Show at Olympia, to the effect that all women competing in the show must use side saddles. Miss Ruth Boyd has been the most conspicuous among the women who have ridden astride. She has bowed to the rule and worn a tall hat on the correct riding habit.

Miss Boyd maintains, however, that the superiority of riding astride is not as she thinks it is easier, but because it is not with some horses, but because the horse's side is sympathetic to the rider and that cannot be attained with the side saddle.

"Side riding is cruel to the horse, especially in jumping or riding long distances," she says.

The announcement of the decree has awakened much controversy. Critics of the show who favor the side saddle, a prominent American horseman at the side saddle, has expressed his disapproval of the management.

Grade and car make a fine show and are a fine show in the horse world. The quality of the show is not to be denied. The fact that the show is held in the west and the Wind had anything to do with it.

Many Fair

SYLVIA PANKHURST ORGANIZES POSSE OF DOCKERS TO CAPTURE MINISTER IN DOWNING STREET

Wild and Frantic Escapade Frustrated By Force of Mounted Policemen; Woman Confesses Her Mother Is Killing Herself in Fight For Votes

London, June 29.—Miss Sylvia Pankhurst, daughter of the famous suffragette leader, led an attacking party to Downing street this afternoon for the purpose of imprisoning the cabinet ministers. The expedition was unsuccessful. The attempt to capture Downing street was frustrated by the force of mounted police.

Miss Pankhurst, who has been arrested several times, was seen in Downing street today. She invited the crowd to go to Downing street and "burn down the ministers in their own houses."

Accompanied by Dockers

Suiting her action to her words, she jumped from the wagon, organized a large body of sympathizers, and marched to Downing street. The police, however, had been apprised of the intentions of the demonstrators and had thrown a strong cordon around Downing street. The dockers tried to break through and some of the women went to their aid but were severely handled. In the fighting women were thrown to the ground and dockers clubbed. Many women were arrested. Finally mounted police came to the rescue. Miss Pankhurst's objection to a resolution put to the meeting, which contained no direct reference to votes for women.

The men on this platform," she said, "have refused to go to Downing street to vote in the resolutions. They just show you what democrats they are."

Then, pointing towards Downing street she continued:

"The ministers are just a handful of greedy cowards. They don't let us vote in their own houses even this afternoon. They want to see us in the streets. What are you going to do?"

Others greeted this speech and there was a general movement towards Downing street. Miss Pankhurst and her followers followed her banner, singing the Marseillaise. Having made their way to Downing street, she invited the crowd to go to Downing street and "burn down the ministers in their own houses."

Store Closed Tuesday (Dominion Day) Come Monday

FORCED Destruction Sale of RICHARDSON'S SHOE STOCK

To sell one half of his \$65,000 stock at less than the cost of production to satisfy the demands of creditors. We started the most daring attack on prices ever attempted. Think what it means to you, to buy finest quality boots and shoes at a quarter less than wholesale cost. Every shoe in the store is doomed to slaughter. No half-hearted, weak reduction on a few, but every pair in the store.

COME WITH THE CROWD If You Cannot Be Waited On Immediately Wait Your Turn, There is Money In It For You 216 8TH AVE., E.

SON OF CHINESE SECRETARY DROWNED

Lake Hopatcong, N.J., June 29.—Afling the body of King Ng Liang, the 14-year-old son of Liang Shi Yi, of Canton, secretary to President Yuan Shi Kai, of China, who was drowned yesterday, Coroner Peatfield decided that the drowning was accidental.

Li was learning to swim in Lake Hopatcong and was accompanied only by a woman instructor. He could swim a little, but got beyond his depth and sank before his teacher could help him.

Li's brother and sister had been in America only a month. They were in charge of Charles M. Muehlich, foreign manager of the American Locomotive company, and were entrusted to him by their father.

Five Die of Heat in Chicago

Chicago, June 29.—Five deaths and numerous prostrations were attributed in Chicago today to the heat wave, which shows no signs of diminishing. At 4 o'clock the temperature was a fraction over 95.

The weather report said the warmest place in the country was Pierre, S. D., where the maximum temperature was 104.

Free distribution of ice in some sections of Chicago's crowded tenement district helped reduce the suffering, which was intensified by humidity. Up to late tonight fully a score of prostrations were reported, several of which were directly caused by the heat occurred and several people, crazed by the heat, attempted suicide.

Girls in Suicide Pact

Pittsburg, Pa., June 29.—Winna Butler, aged 17 years, died here tonight from poisoning after an illness which began today. She was 15 years of age when she took the poison with Robert Burns, and if it were a result of an alleged suicide pact between the two, it was the first of its kind in this state.

POPE PIUS WILL CREATE A CANADIAN CARDINAL

London, June 29.—The Rome correspondent of The News telegraphs that the Pope has announced that he will create a Canadian cardinal at the next consistory.

Princess "Pat" Heart Free

London, June 29.—The report from Berlin, published in The Standard, that Princess Patricia, daughter of the Duke of Connaught, governor-general of Canada, was engaged to marry Prince Adolf Friedrich, heir to the German Duchy of Mecklenburg-Strelitz was officially denied here today.

Wonderful Show

The dairy cattle show which will be held at the fair grounds from July 1 to July 10, is expected to be one of the most successful in the history of the fair. The show is being held in the new building erected for the purpose, and is expected to attract a large number of visitors.

NEW JUDGE IN B. COLUMBIA

Ottawa, June 29.—His Honor Judge Fred Calder, of the county court of Carleton, B. C., has been appointed a judge of the supreme court of British Columbia.

FIRST ANNIVERSARY OF REGINA DISASTER

This is the anniversary of the Regina cyclone, which did so much damage to the Saskatchewan capital a year ago. It was about 8 o'clock on a Sunday afternoon that the storm swept across the centre of the city, tearing up houses and lifting roofs from great buildings, as though they were but match boxes. Twenty-five people were killed in the storm and the only wonder is that more were not buried in the ruins. The damage done to the buildings of the city was reckoned in millions, but through the enterprise of the people of Regina, assisted by aid from other cities and corporations, the work of rebuilding has gone on steadily during the year. This was the first time that a cyclone disturbance did great damage in the Canadian west since the same time on the eve of Dominion Day in 1912.

Racing Open

Turning now to the racing, the fair will be open to the public from 10 o'clock to 11 o'clock. There will be a special feature in the shape of a cowboy race. With very best conditions, a perfect of some good. The big event of all will be the horse race, which will be held on the evening of Wednesday.

Attractions A

The attractions of the fair are much more elaborate than in the past. There will be a grand concert on Wednesday evening, and a variety of variety shows. There will be a special feature in the shape of a cowboy race. With very best conditions, a perfect of some good. The big event of all will be the horse race, which will be held on the evening of Wednesday.

Hamilton H

With these will be a special feature in the shape of a cowboy race. With very best conditions, a perfect of some good. The big event of all will be the horse race, which will be held on the evening of Wednesday.

Kilne's Midw

And what will be a special feature in the shape of a cowboy race. With very best conditions, a perfect of some good. The big event of all will be the horse race, which will be held on the evening of Wednesday.
