Canadian
Stamp Literature of To-day.

BY D. O. MINION.

I. THE PHILATELIC ADVOCATE.

In this and succeeding issues of the CANADIAN PHILATELIC REVIEW I intend to give a series of articles on Canada's current philatelic literature, and will begin with the monthly magazines.

The *Philatelic Advertiser* is the oldest stamp paper published in Canada at present. It was established in September 1896, with Starnaman Bros. as publishers and F. I. Weaver as editor. The first number contained eight pages and cover of which five pages were reading matter. The typographical appearance was ludicrous in the extreme, the printers were very new in the business, and in their endeavors to make a pleasing appearance of the paper, they dislocated pieces of borders, making them serve as ornaments between items. These they even inserted between the paragraphs of the opening article and altogether the printer's inexperience was apparent on nearly every square inch of the paper.

As to contents it can be said with truth that for a first issue this number was very readable. L. H. Benton contributed some excellent "Literature Notes," and an article on "U. S. Minor Varieties" by one signing himself E. S. was also good.

Under the title of Philatelic Phunigrams several good original jokes were given. Results of the elections of the 1896 campaign were also published. The editor in his effusions also showed his inexperience.

Number two showed quite an improve-

ment in typography, the obnoxious border-ornaments giving place to short lines. The contents were very much the same, as far as quality is concerned.

Not until the Holiday number (January '97) did the paper appeal very strongly to the general philatelic public. This number was really an exceptionally good one for a magazine so young. The cover was printed in red blue and gold, and was of artistic design, being the prettiest holiday number of the year in American stamp journals. It contained twelve pages and cover including five articles by different writers, and notes of interest from different points.

From this on the *Advocate* was a success. The holiday number was the telling point in its career and decided its fate. The paper improved monthly in every way. It appeared promptly, and this together with its general make-up soon gained for it the distinction of being Canada's representative philatelic monthly. Occasionally articles of an inferior quality were given but this was more than counterbalanced by the good ones. In August 1897 it was elected official organ of the Dominion Philatelic Association which position it still holds proving the best the society ever had. In September Messrs Starnaman bought out F. I. Weaver's interest in the paper and assumed the editorial management. They have made the *Advocate* one of America's leading philatelic monthlies.

The issue for Jan. 1st 1899 was the usual holiday number and was without doubt the largest number of any philatelic magazine ever published in Canada. It contained sixty pages. The publishers have recently purchased the *Philatelic Messenger* and consolidated it with their publication.

Now a Semi-Monthly.

We have changed our paper from a weekly to a fortnightly and this necessitated a change in name. We found it next to impossible to publish a weekly, for lack of time and think our readers will be far better pleased with a semi-monthly published regularly than with an irregular weekly. We shall endeavor to give more for the money than ever before and solicit the co-operation of all our subscribers in making it a representative philatelic paper.

A good way for you to help us would be to secure new subscribers and to make this interesting we will allow you 10 cents on each subscription secured.

Learn To Stuff Birds.

Learn Taxidermy. Learn To-day!

Because success is guaranteed from the start. Because the work is pleasant as well as profitable. A collection of birds is both beautiful and valuable. Birds, Animals, Fish, Reptiles, etc., may be preserved, with little trouble, as records of the days chase.

Boys, Girls, Men, and Women can do nice work from the start and become expert in one week. Mounted birds find a ready sale, besides you can make money teaching your friends. Every school should have a collection of native animals.

TAXIDER is a compound of wonderful embalming power. It is not necessary to skin birds and animals when using Taxider. Birds when mounted become as hard as stone, and will last a thousand years undisturbed by moth or time. No tools are required excepting those that everyone has.

One box Taxider is enough to mount 30 birds the size of a quail, with full instructions for mounting and everything. Also instructions for tanning skins for rugs, etc. Price \$1.00. Liberal discount on larger orders.

See What One Man Says.

TACOMA, Wash., Aug. 9, 1898.—Mr. F. L. Ackley. I received the box of Taxider some time ago, it works fine. I have just finished mounting a beautiful swan. I have already a nice collection of birds, and a class of boys. It is really wonderful how it works. The very first bird I mounted was a success. Please find enclosed money order for one dozen boxes. Please rush as I am in quite a hurry. Thanking you for past favors I remain, truly yours, J. H. Flanders, Tacoma

I have letters like this from hundreds of people and all are having success. Send for a box to-day. You can learn in one hour. Remember success is guaranteed from the start. Liberal discounts to agents. Taxider is manufactured by
