LET CANADA BE A NATION INDEPENDENT BUT ALLIED

Canada's Views Presented Before the Chambers of Commerce Conference—Enquiry Into Question of Preference is Asked for—Indian Representatives Oppose Canadian Resolution.

(Canadian Associated Press Cable.)
London, July 10.—With a record attendance, the Congress of the Chambers of Commerce of the Empire was opened this morning by the Earl of Elgin, the secretary of state for the colonies. He said he had learned at the colonial office to look on both sides of questions, which he wished to commend to discussion on every side. He would not venture to advise congress as to their course. He hoped they would attain the ambition of all, a united empire.

Mr. Blackwell was elected chairman and Charles Charlton deputy. The chairman spoke highly of the hospitality received in Montreal by the congress. A motion congratulating Mr. Chamberlain was passed amid cheers.

George Drummond of Montreal presented the first resolution, which commended the Canadian resolutions urging preferential trade between the United Kingdom and the colonies.

Independent, But Allied.
He spoke for all the leading Canadian bodies of trade and the Manufacturers' Association. In maintaining the resolution, he said: "We present the practical importance of calling the colonial conference of 1907 to give effect to the desire to make Canada an independent nation permanently allied with Great Britain."

In Opposition.
Francis J. Manchester, opposing the resolution, said that after two years of education tariff reform had been overwhelmingly defeated at the British election. He said that the resolution was not in the interest of the colonies, but in the interest of the United Kingdom.

Col. Denton's Appeal.
Col. Denton made a vigorous and patriotic appeal. Answering quotations from a previous speaker from Sir Wilfrid Laurier's speech at the Cobden Club, he said Sir Wilfrid had changed his mind, and had made distinct offers. Lord dissent greeted the remark that England was going backward.

Orillia Old Boys.
Excursion to Orillia on Saturday next, July 14. Special train leaves Union Depot at 7:50 a.m., stopping at North Parkdale. Returning leaves Orillia at 3 p.m. Tickets—Adults, \$1.25; children, 50c; good to return Sunday or Monday, July 15 and 16.

CANADIAN RESOLUTION.

"Whereas in the resolution of the fifth congress of Chambers of Commerce of the Empire, held in Montreal in August, 1903, it was stated that the bonds of the British Empire would be materially strengthened by mutually beneficial commercial policy, it is the opinion of this congress that it is in the interest of the component parts of the empire that steps should be taken towards consummating such an arrangement. There are in the United Kingdom, her colonies and dependencies natural resources and industries which, if developed, would be sufficient to provide the British Empire with its food supply and all other necessities and requirements of life.

Yields to Personal Solicitation to Continue His Connection With University Board.
Dr. Goldwin Smith has yielded to the solicitations of Premier Whitney, and will remain on the board of governors of Toronto University for the present at least. In making this announcement, the premier said:

GOLDWIN SMITH REMAINING AT PREMIER'S OWN REQUEST.
The government of this province and its people, owe a great deal to Prof. Goldwin Smith. This is well understood, and need not be repeated. Dr. Smith had made up his mind to retire from the membership on the board of governors for reasons sufficient to himself. In expressing his intention to that effect, however, he still takes in everything relating to the university.

AFFAIRS OF CENTRAL LIFE OFFICIALS WHO HAD LOANS

Ex-President Crawford and Manager Spence Before Insurance Commission—Latter in Control.

Thomas Crawford, M. L. A., and the Central Life Insurance Company of Quebec were before the insurance commission yesterday. To-day the commission will take up the affairs of the Dominion Life Insurance at Waterloo, and to-morrow the Mutual Life. The Central is a young company, under J. M. Spence, who has managed to get the controlling interest. Mr. Spence gave interesting evidence yesterday regarding his fight to sustain his standing in the company. Mr. Crawford, who was president from its inception in 1901, until the end of 1905, was the first witness called, and told of the organization proceedings. J. M. Spence was organizer. He was asked to be president of the board. There were seven directors, but Mr. Spence and Major Craig dropped out, the former owing to a dispute with Manager Spence, and as the latter controlled the majority of the proxy vote, he succeeded in getting Mr. St. John out of the way, contrary to the wishes of witness. Witness wanted a new manager appointed, and Mr. Spence stepped in with the controlling power and bought over Mr. Crawford's stock at the price he paid for it.

Landry, Godbout, Bolduc and Montplaisir, all of Quebec, voting in the affirmative.

Save and Except, Etc. The important event of the evening session was the qualification of all sections of the bill dealing with parks, games, theatres and other amusements. They are now forbidden "except as provided in any provincial act now or hereafter in force."

The hon. gentleman forgets that this is a confederation and not a state of union," interposed Mr. Speaker Dandurand, who occupied a seat in the committee. Senator Ross was very indignant. "There is no reverence for the Lord's Day. The fourth commandment is thrown out altogether."

This kills it. An amendment by Senator Kerr forbids any prosecutions under the act except upon order of the attorney-general of the province in which the offence is committed.

Piche Clause Dropped. The Piche amendment was dropped. It never had any meaning and had served its purpose by appearing in the mass meeting at Montreal.

PRESTON 15 AHEAD.

Mr. Justice Teetzel Orders Other Side to Start Count.

Port Arthur, July 10.—(Special.)—The scrutiny into the ballots in the Port Arthur and Rainy River election trial was adjourned at noon to be resumed in Toronto on the 25th, there being the court to scrutinize ballots cast by aliens and underage voters. Justice Teetzel was not clear on this point and would not proceed until it had been cleared.

At the adjournment Mr. Preston had succeeded in striking off twenty-six ballots polled for Mr. Kennedy, thus giving him (Preston) a majority of fifteen. Mr. Kennedy proceeded with his case, there was no use continuing to pile up a majority for Preston. If Kennedy succeeds in affecting the majority secured by Preston, the latter will be allowed to go on again.

less than his previous contract, and, if necessary, should the financial standing of the company warrant it, should be unwilling to take less.

Mr. Spence said that he had never used his power in any way to run the company, only to its best interests.

Mr. Tilley then took up the \$100,000 loan to President Crawford on May 12, 1902. He asked witnesses if Mr. Crawford had evidence to the effect that he had the sanction of his manager was correct, and Mr. Spence answered that he went into the deal as innocently as an unborn child.

Mr. Crawford came into my office and told me that he was stuck, and needed \$100,000. He said that he had four thousand cents, and Crawford asked if it would not be all right for him to borrow from the funds of the company on a promissory note.

Five thousand dollars of Provincial Building and Loan debentures, Mr. Spence was induced by Messrs. Crawford and St. John. He had nothing to do in the matter.

How Stock Was "Sold." Mr. Tilley unearthed a new scheme of getting a company floated on a substantial basis, and putting in desirable returns to the government. At the outset, the directors took stock to the value of \$100,000, and so pretended that they were all sold.

Witness tried to shift the responsibility on the solicitor, but Mr. Tilley went after this sort of quibbling, with the result that Mr. Spence admitted he did not discuss the matter with the board.

Mr. Tilley read a statement showing that at the end of 1904 the total premium and interest receipts of the Central Life were \$48,000, and the expenses \$70,000. That was about \$22,000 expenses over and above all receipts.

Mr. Spence said that this was a bad asset and not worth anything. Agents' advances had been abandoned. Mr. Tilley tried to find out what this asset was worth but witness could not say.

DEPARTMENT OF PUBLICITY PRESENT NEEDS OF TORONTO

Chairman Tindall Recommends That Local Branch of C.M.A. Should Organize One.

The Toronto branch of the Canadian Manufacturers' Association held its annual meeting when a resolution was passed inviting the national convention of the Canadian Manufacturers' Association to assemble in Toronto in 1907.

Secretary Murray's report urged the organization of the branch on more elaborate lines, such as the appointment of several standing committees.

Chairman W. E. Tindall read the annual address. Toronto, he said, had 1200 manufacturing concerns, representing \$70,000,000 invested capital, and employing 60,000 hands, the output of which is \$90,000,000 annually.

As to the labor situation, from the manufacturers' standpoint it was a most disturbing feature, and it was difficult to procure, and difficult to retain. Skilled mechanics, he found, had not grown in proportion to the expansion of manufacturing.

Mr. Tindall said that he had the splendid machinery for manufacturing goods which must inevitably arise in the Northwest were to fall to the lot of the United States.

"One of the first suggestions I have to make is that the branch should organize a publicity department," said Mr. Tindall, "which would be devoted to evolution upon an industrial basis, and the operation of the Alien Labor Act. Little wonder that under these circumstances the Canadian Manufacturers' Association should be forced to consider the establishment of a labor bureau in England, to assist its members in securing the help."

Mr. Tindall said that he had the splendid machinery for manufacturing goods which must inevitably arise in the Northwest were to fall to the lot of the United States.

OTTAWA TAKING ADVANTAGE OF NEW POWER REGULATIONS

Applies to Hydro-Electric Commission for Right to Operate Its Own Plant.

Ottawa has the honor among Ontario cities outside of Toronto of being the first to ask the hydro-electric power commission to put the legislative machinery provided last session into motion for the benefit of the capital. Ottawa, it will be remembered, bought out the plant of the Consumers' Electric Company last year under the act of 1894 at a cost of \$200,000. Power was leased from the Ottawa & Hull Power Co., but the Ottawa Electric Company, which tried and failed to get the lighting contract brought an action to restrain the city from obtaining power from the Hull Company. Chancellor Boyd upheld the city, but the case was appealed, with the result that the court held that while the city had power to purchase the plant they had no authority to purchase power to run it, so they might generate power for the purpose themselves. The city have appealed against this decision to the privy council. In the meantime they possess a \$200,000 plant standing idle and the Electric Company have a monopoly. A deputation waited on the commission yesterday, and were received by Hon. Adam Beck, Hon. J. S. Hendrie and Cecil Smith. Mayor Ellis and Ald. Hopewell and Brudenreth presented the case for Ottawa, and asked that power be procured and supplied to the city as the act provides. The commissioners referred the deputation to the act under which a formal application must be made, and assured them of all due consideration. The city council must decide upon the plan they wish to adopt, and indicate if power is to be purchased, expropriated or leased. A by-law must be submitted to the ratepayers for their approval, upon which the commission will proceed to obtain terms upon which power may be procured, and submit the conditions to the city council for their agreement.

NEW LAKE ROUTE TO PETOSKEY

For the first time a direct steamer service to the great resort region of Northern Michigan. The dining-room service is performed by the Northern Navigation Company from Col. Kingwood and Owen Sound through the Georgian Bay. Steamers leave Tuesdays, Thursdays and Saturdays. Tuesday boat via Killarney, latter two via Byng Inlet, French River and Killarney through the North Channel, calling each way at Sault Ste. Marie and Mackinac Island. No water trip has crowded into it such scenery; incomparable is the only word to suitably describe it. The steamers of the line are well and favorably known. The dining-room staffs this year have been selected with a view of making the table service the most satisfactory. Petoskey is a most delightful place for a short or protracted stay; good hotels, fishing, boating, etc., all the heart can wish for. Full information and tickets from all railway ticket agents.

NEW ABATTOIR IS REFUSED PUDDY'S MAY BE ATTACKED

Residents in Neighborhood Up in Protest—Mayor's Trip to Ottawa.

In view of the conclusions reached by Judge Winchester in the civic inquiry, it was suggested yesterday to the board of control that some action might be taken toward the cancellation of the Puddy Bros' permit on the ground that it was secured by dishonorable means. This was indicated when a large deputation of northwest ratepayers waited upon the controllers and succeeded in killing the application of Frank Hunslett, who had requested permission to carry on an abattoir on Paton-road, close to Puddy Bros' place. Barrister Boland thought the board should now consider whether or not some action should be taken to redress the wrong done the locality when the Puddy Bros' permit was granted. Rev. A. McGillivray urged that some definite policy of dealing with such applications should be adopted to relieve the residents of the outlying districts from the constant anxiety of watching and protecting themselves. As to the Puddy matter, they hoped the course of righteousness and justice would be pursued, and that a permit secured by dishonorable means would be canceled. The controllers were unanimous in refusing the permit. Commissioner Harris notified the controllers that the city hall roof leaks in many places. Controller Shaw was acting mayor yesterday and did not care to discuss the report. Mayor Coatsworth's visit to Ottawa is in connection with several matters including the garbison commons. It was rumored that he would return with the deed to the fort property, but Treasurer Coody said the worship did not take the \$180,000 cheque with him. The mayor is asking the government to consent to Yonge-street bridge being built on the old site, to provide, to make it more level. The height is fixed by statute. Matters in connection with the postoffice site and the resurfacing of Jarvis-street has commenced. The proposal to resurface St. George-street is protested against by John W. Cowan, who maintains that the pavement recently repaired was in good condition, and would have lasted for two or three years. The engineer in charge will be asked to explain this. Controller Hubbard opines that they are in a quandary in the water department, making recommendations. Acting City Engineer Fellows has forwarded to the city solicitor a report showing that the Toronto water supply is doing fairly well. The time-table adopted by the city council as to running the cars.

CELEBRITIES MOURN.

Memorial Service to Victims of Salisbury Accident.
London, July 10.—A memorial service for the Canadian and American victims of the Salisbury railroad disaster of July 1, took place in St. Paul's Cathedral to-day in the presence of a large congregation, including Ambassador Whiteley Reid and the staff of the American embassy; Lord Strathcona and Mount Royal, the Canadian high commissioner and his wife; Lord Mayor Walter Vaughan Morgan and the sheriffs of London, in their official robes; C. Johnstone, representing the colonial office; Sir Daniel Hunter McMillan, lieutenant-governor of Manitoba, and officials of the Southwestern Railway, and of the American Steamship Line. Most of those who were bereaved by the accident were represented by members of the family or friends, among them being Colonel Atkinson for his brother-in-law, the late Walter Warwick, of Toronto. The service, which was fully choral, was conducted by the Dean of St. Paul's, assisted by Archbishop Sinclair.
New York, July 10.—Mrs. Frederick Henry Cozzit arrived to-day on the steamer Kaiser Wilhelm II. with the body of her husband, who was killed at Salisbury, while the young couple were on their wedding tour. During the voyage she made several requests to be permitted to visit the body of her husband, but she was prevailed upon to wait until she reached home.

MIXING OF WOOLS TO LOWER IS CAUSE FOR DOUBLE DUTY

Boston, July 10.—The decision of the board of general appraisers in case of Stone & Downer, wool importers, against the United States, that the mixing of wools to secure a lower rate of duty subjects the wool to a double duty, is upheld in a decision handed down to-day by Judge Colt of the United States circuit court. This was a test case, designed to determine the rights of wool importers, and is considered of general importance to the wool trade, as laying down the law as to customs duties.

TYPHOON IN FAR EAST SPOTTED 5 DAYS IN ADVANCE

San Francisco, July 10.—Father R. E. Brown, assistant to Father Algue, who is in charge of the observatory in Manila, is here on his way to England. The Manila observatory is one of the best equipped in the world. Three times a day a telegraphic report is sent to the Manila observatory from Yap, Guam, and the 58 other stations scattered throughout the provinces. With this information it is possible to detect the brewing of a typhoon five days before it develops. Approaching storm warnings are sent by wire to numerous points on the Chinese and Japanese coasts and to Formosa.

2200 CEMENT WORKERS QUIT WORK IN CHICAGO

Chicago, July 10.—A flurry of labor troubles broke out here yesterday. The cement workers' strike swelled beyond all calculations, and involved before sundown 2200 men employed in constructing sidewalks and concrete walls in buildings. Two other disturbances in the building industry were reported, and a walk out of drivers and grain shovelers occurred. Eighty-five per cent. of the cement workers in the city of every description was tied up by strikers. When 800 cement contractors were engaged in the rougher work quit, they threw into idleness 900 finishers and 600 building laborers. This marked the largest number of men on strike in Chicago since the teamsters' strike last summer.

To Inspect Fisheries.

Victoria, B. C., July 10.—Prof. E. E. Price, chairman of the fisheries commission, will visit the fishing grounds in company with Rev. George Wavlor, another member of the body. The trip will be led by the Dominion Government steamer Kestrel, and a thorough inspection of the fisheries of the north will be made by them.

TINSLEY IS IN CHARGE WEBSTER IN SUSPENSE

Reorganization of Fisheries Department—Long Services Which Count for Nothing Now.

Chief Game Warden Tinsley, who is considered a safe and reliable man by the minister of public works, will be placed in charge of the fisheries branch as a result of the removal from office of Deputy-Commissioner Bastedo. The appointment is not intended to be a permanent one, but will give Hon. Dr. Reaume time to look about him. He stated yesterday that he had no one in mind at all in connection with the position. It was expected that the case of Chief Clerk Webster would be dealt with at the cabinet meeting yesterday, but it was left over until to-morrow. It was suggested that the object was to give Mr. Webster an opportunity to resign. Mr. Reaume, who declines to consider such a suggestion, Mr. Webster came from Ottawa at the request of the government to organize the fisheries branch in 1896. He had been engaged in the Dominion department, and states that had he remained there he would have been superannuated two years ago, with a retiring allowance of \$1400 a year. He has been engaged in the civil service for 27 years. He stated yesterday also that it was on his recommendation that Mr. Bastedo had been appointed to the department, and that Mr. Bastedo had acknowledged the fact. Hon. Dr. Reaume paid a high compliment to Mr. Bastedo in speaking of his work in the department. He believes it was Mr. Bastedo's over-zealousness that had led to the partisanship revealed by the enquiry, but the present government could not raise any description of partisan feeling in their officials, and he instance two cases of "strong Tories," recently resigning from office for this cause, who had been appointed under Premier Whitney.

Request for Temporary Licenses for Owen Sound is Refused.
Alderman William McLarty and J. C. Crane, Milton Davis, W. A. Greer, William Sinclair and Thomas Hoath, J. P. Sydenham, constituted a deputation, representing the liquor interests of Owen Sound, which waited on Provincial Secretary Hanna yesterday to ask that permits for the sale of liquor be issued, pending the result of the appeal against the recent quashing of the local option, by-law.

BOY STEALS FROM CRIPPLE.

Takes Hat and \$12 and Spends Most of Money.
Belleville, July 9.—A boy named Willie Donohue of this city was apprehended this morning, charged with stealing \$21 from a cripple named Walter Davis, whom the boy and another lad were pushing round in a carriage. The cripple, who sells lead pencils, had the money in his water-tight bag, and had spent most of the money when apprehended.

Wool Market.

London, July 10.—A large number of buyers attended the opening of the fourth series of the 1906 wool auction sales here to-day. The offerings amounted to 10,115 bales. Crossbred and scored staples were in limited demand, and 5.10 per cent. lower. Cape of Good Hope wool was in good demand at an average decline of 5 per cent. The home trade bought crossbreds and elites chiefly, while continental buyers were more interested in fine merinos. American purchases were confined to a few lots of greasy combings.

Lagering

Lagering or ageing (storing for maturity) has much to do with the quality and healthfulness of beer. With our

MEANING OF WORDS.

Anti-Clerical Shows that it Does Not Mean Anti-Christian.
Editor World: A letter in your columns last week referring to my former communication which you had the kindness to publish, called me hysterical and un-Christian. I should like to assure the writer that I have never had hysterics, am fat and sleep of nights, digest my three or four meals a day in great peace, never visit a doctor. My critic must be quite ignorant of any acquaintance, however limited, with history or contemporary politics at home and abroad. If he is simple enough to identify anti-clerical with anti-Christian, John Milton was anti-clerical. The Labor party in godly England to-day is anti-clerical, to say nothing of similar parties in Italy, Germany and Austria. To call names is the old, old game played in all ages against the reformer. A brave man calls to-day for municipalization, for the breaking up of trade conspiracies against the people, for the proper control of banks and insurance companies, etc. I mean you, Mr. Editor, and your reward is to be slandered from Prince Rupert to Halifax by interested journalists. So, on a little scale, my critic calls me hysterical and un-Christian without meeting my point, viz., that organized clergies, both Catholic and Protestant, are playing a villainously increasing part in Canadian affairs. "with packings worse than those of Trent," as Milton said; that those sentgers were slightly injured by the collision of two street cars on Parliament-street here late last night.

To Get More Strength from Your Food

LOTS of people are starving with a full stomach. You know it, not how much we eat, but how we digest that makes us Strong, or Brainy, or Successful. When the Bowels are filled with undigested food we may be a great deal worse off than if we were half starved for want of Food. Because, food that stays too long in the Bowels decays there, just as if it stayed too long in the open air.

Well, when food decays in the Bowels, through delayed and overdue action, what happens? The millions of little Suction Pumps that line the Bowels and Intestines then draw Poison from the decayed Food, instead of the Nourishment they were intended to draw.

This Poison gets into the blood and, in time, spreads all over the body, unless the Cause of Constipation is promptly removed.

That Cause of Constipation is Weak, or Lazy, Bowel Muscles.

When your Bowel-Muscles grow flabby they need Exercise to strengthen them—not "Physic" to pamper them.

There's only one kind of Artificial Exercise for the Bowel-Muscles. Its name is "CASCAETS," and its price is Ten Cents a Box.

Cascaets act like Exercise on the Muscles of the Bowels, and make them stronger every time they force these Muscles to act naturally.

The stronger these Muscles propel the food, the stronger does the friction of the food act on the flow of Digestive Juices.

The more of these Juices that act on food, the more Nutriments does that food turn into, and the richer nourishment do the little Suction Pumps of the Intestines draw out of it.

Don't fail to carry the Vest Pocket Cascaet Box with you constantly.

A thousand dollars a year spent in amusements could not buy for you half so much healthy Happiness, solid Comfort, Cheerful Temper and Health Insurance, as that little ten cent "Vest Pocket" Box of Cascaets will bring you.

All Druggists sell them—over ten million boxes a year, for six years past.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

A sample and the famous booklet, "Cause of Constipation," Free for the asking. Address Sterling Remedy Company, Chicago or New York.

Motor Boats for Iceland. The British consul at Reykjavik reports that a remarkable feature in the Icelandic fishing industry is the introduction of motor-boats for the codling fisheries.

Twelve-Pound Hallstone. Dr. W. S. Donnelly, a physician of Saratoga, N. Y., asserts that he has measured and weighed a hallstone ten inches in diameter and found it to weigh twelve pounds.

Y.M.C.A. Play Tennis. The Y.M.C.A. played tennis on Saturday at the league fixture on Wednesday at the latter's courts, when Rusholme came out on record. The following is a list of the scores:

Easy to Retain Health. Of course, to do so, certain fundamental principles of good living must be followed.

Double Up With Cramps. Stomach feels like an infernal machine. You want relief mighty quick. Nothing does the work half so quick as Polson's Nervine. Why it kills the pain instantly. If your bottle is empty, get another to-day. Nervine keeps the doctor bill small, because it cures little ills before they grow big.

Married a Chinese Woman. It may not be generally known that the late Sir Halliday Macarthur was twice married—in the first instance to a Chinese lady, a niece of the famous Li Hung Chang, and on the second occasion to a French lady, to whom were born several children. Sir Halliday's first wife, who united a remarkable intelligence with great charm of manner, died at sea on her way to England.

ANIMAL FARMING & LIVE STOCK CONDITION

53 CARS AT CITY YARDS TRADE IN CATTLE BULL

Prices Lower in Consequence
Hogs, Sheep, Lambs and Calves
Firm With Light Deliveries.

The receipts of live stock at the city yards were 53 car loads, composed of 170 cattle, 830 sheep and lambs, 845 hogs and 172 calves.

The quality of fat cattle was fair, considering that the season of grass cattle is now fully established.

Trade was slow, with prices easier, as will be seen by the quotations of the many sales given.

Exporters. Few shipping cattle were offered and it was well that it was so, as there was little or no demand for them.

Butchers. The supply of butchers' cattle was not large, but quite equal to the demand.

Veal Calves. The receipts were not large and prices for them were firm at \$4 to \$5.50 per cwt.

Sheep and Lambs. The run of sheep and lambs being light prices were a little firmer.

Hogs. Deliveries of hogs were light. Mr. Harris advised the market strong at \$7.50 for the bulk of offerings.

Representative Sales. McDonald & Maybee sold: 1 butcher, 1000 lbs., at \$5; 16 butchers, 1100 lbs., at \$4.25; 21 butchers, 1005 lbs., at \$4.50; 20 butchers, 1055 lbs., at \$4.50; 25 butchers, 1000 lbs., at \$4; 18 butchers, 1220 lbs., at \$4.50; 14 butchers, 950 lbs., at \$4.15; 6 butchers, 1325 lbs., at \$4.75; 5 butchers, 1400 lbs., at \$4.50; 11 butchers, 1000 lbs., at \$4.25; 7 butchers, 1000 lbs., at \$4.25; 13 butchers, 1000 lbs., at \$4; 4 milch cows, 357.50 each; 2 milch cows, \$4 each; 3 milch cows, \$3 each; 20 calves, 100 lbs., at \$5.25; 23 lambs, \$5.50 each; 1 lamb, 65 lbs., \$7.50 each; 20 sheep, 150 lbs., at \$4.25; 2 milch cows, \$4.

Corbett & Henderson sold: 10 butchers, 1040 lbs., at \$4.45; 16 cows, 1100 lbs., at \$3.25; 8 butchers, 1080 lbs., at \$4.25; 6 butchers, 1000 lbs., at \$4.25; 8 butchers, 950 lbs., at \$4.25; 4 butchers, 1000 lbs., at \$4.25; 2 milch cows, \$4 each; 20 calves, 100 lbs., at \$5.25; 23 lambs, \$5.50 each; 1 lamb, 65 lbs., \$7.50 each; 20 sheep, 150 lbs., at \$4.25; 2 milch cows, \$4.

James Ryan bought 5 milch cows at \$33 to \$50 each.

Mr. Collins bought 1 load butchers, 950 lbs. each, at \$4.40 per cwt.; 1 load butchers, 1000 lbs. each, at \$4.40; 1 load of 5 butchers, 1100 lbs., at \$4.25; 4 butchers, 1000 lbs., at \$4.25; 8 butchers, 1000 lbs., at \$4.25; 12 butchers, 1000 lbs., at \$4.25; 6 butchers, 1000 lbs., at \$4.25 per cwt.

Mr. Dingie bought for the Fowler Packing Co. of Hamilton 25 butchers, 1000 lbs. each, at \$4.10 to \$4.20.

Wood bought 1 load butchers, 900 lbs. each, at \$4.45 per cwt.; 20 butchers, 1000 lbs., at \$4.30; 25 butchers, 900 lbs., at \$4.20; 12 butchers, 1000 lbs., at \$4.20; 6 butchers, 1000 lbs., at \$4.20 per cwt.

CROPS IN YORK COUNTY

Are Promising Well and Not Yet Injured by Heavy Rainfalls.

While the outlook locally in York County is in many respects encouraging, a feature which is causing considerable anxiety is the abnormally heavy rainfall, which, in many low-lying sections of the county, has already caused considerable loss.

London, July 10.—Cattle are quoted at 10c to 11½c per lb.; refrigerator beef, 8c to 8½c per lb.; sheep, dressed, 13½c to 16c per lb.

FARM HELP FAMINE.

Activity in Other Work in West Creates Labor Scarcity.

Winnipeg, Man., July 10.—Immigration officials report a remarkable scarcity of farm laborers, and they are quite unable to supply the demand.

Dairy Notes.

Very warm cream makes soft white butter.

Sixty degrees is as hot as cream should be made.

Keep the cream as near sixty degrees as possible while waiting for the churn.

Keep the pastures rid of noxious weeds to have milk and butter of a fine flavor.

The milk should be drawn from the udder as fast as possible, but at the same time so the animal likes it.

To get the best results from a dairy cow, her treatment should be as gentle and quiet as possible.

The home raised cow possesses many advantages over one that is purchased.

One great trouble in summer churning is the guesswork about the temperature of the cream.

The dairyman who keeps a cow simply because she gives a large quantity of milk, regardless of what it costs to feed her, is engaged in an unprofitable business.

A dairy becomes a manufactory to convert the vegetation of the farm into a finished and final product, and so convert it into a commodity.

White grain raising depends on the fertility of the farm, the dairy is a sure agency to build it up, and careful judgment is used in sowing and applying the manure back to the soil.

SUCCESS WITH LAMBS.

After many years' experience with sheep, I have found early lambs pay the best. I endeavor to have my lambs dropped in February and March, because I then have plenty of time to care for them, and seldom lose a lamb.

On July 7, Hon. A. B. Aylesworth took much care to correct what he considered an erroneous impression. Hansard thus reports his effort:

Hon. A. B. Aylesworth, minister of justice: Mr. Speaker, I rise to a question of privilege, and, in doing so, I apologize to you and to hon. members for taking up the time of the house with such a matter.

As that hon. gentleman, the member for South York (Mr. W. F. Maclean) is not in his place to-day, I should not make any comments at the present time upon his conduct, but shall confine myself with stating to the hon. member from the newspaper that he is supposed to control exactly what took place, and no more.

Mr. Aylesworth complied so heartily that he rather startled the house by, in doubling capitals, expressing the belief, and, indeed, the hope that it never could or would be accomplished.

He afterwards claimed that it was an opinion, and not a desire, that he had expressed, but there was no dispute as to the meaning that he sought to convey, and did convey to the house.

Then comes an editorial comment, whether or not from the pen of the hon. member himself, is not for me to say. Under the mysterious veil of anonymity that makes newspaper articles so sacred, The World comments in this manner on the same thing:

Mr. Aylesworth, now minister of justice, again made himself conspicuous by his determined opposition to every proposal of public ownership. Unfortunately for himself hereafter, he expressed his true colors by expressing not only the opinion but the hope that public ownership of public franchises would never become an established fact in Canada.

Comment, Sir, is unnecessary, tho. if an opportunity occurs when I can do so without too much wasting the time of the house, I shall be very happy to pay my respects to the hon. member for South York.

Mr. Foster: I convey to the hon. gentleman my most hearty sympathies. Mr. Fielding: Is there nobody to be brought to the bar of the house?

PERPETUAL INJUNCTION GIVEN AFTER YEARS OF LITIGATION

St. Louis, Mo., July 10.—A decision of importance to manufacturers of proprietary remedies was handed down by Judge Finkelnburg in the United States district court in the case of Centaur Company v. Palestine Drug Company.

The complainant company, of which Charles H. Fletcher is president, is the manufacturer of Castoria, and succeeded to the business of Dr. Santal Ritcher, the original inventor. The defendant, the Palestine Drug Company, has been putting up Castoria in this city, and the Centaur Company claimed that its rights were being infringed upon.

The suit, which has been pending for several years, and which was vigorously contested, was decided in favor of the Centaur Company, and a perpetual injunction and accounting were ordered.

An additional 100 acres had been purchased by the provincial government for the use of the Hospital for Epileptics at Woodstock. The land lies across the road from the institution.

"FREAK LEGISLATION." (Canadian Associated Press Cable.) London, July 10.—The Evening Globe says that Canada has just shown loyalty to a tradition of the mother country in a fashion that could well have been spared by the law providing for Sabbath observance. The Globe calls it freak legislation by Furtians.

Montreal, July 10.—Col. A. A. Stevenson, formerly a well-known alderman, is the object of a unique Masonic demonstration to-day, it being the fiftieth anniversary of his entrance to the order. He was presented with a life-size oil painting, a purse of gold, and an address. To-night he was banqueted at the Windsor.

Mr. Aylesworth, now minister of justice, again made himself conspicuous by his determined opposition to every proposal of public ownership. Unfortunately for himself hereafter, he expressed his true colors by expressing not only the opinion but the hope that public ownership of public franchises would never become an established fact in Canada.

Comment, Sir, is unnecessary, tho. if an opportunity occurs when I can do so without too much wasting the time of the house, I shall be very happy to pay my respects to the hon. member for South York.

Mr. Foster: I convey to the hon. gentleman my most hearty sympathies. Mr. Fielding: Is there nobody to be brought to the bar of the house?

PERPETUAL INJUNCTION GIVEN AFTER YEARS OF LITIGATION

St. Louis, Mo., July 10.—A decision of importance to manufacturers of proprietary remedies was handed down by Judge Finkelnburg in the United States district court in the case of Centaur Company v. Palestine Drug Company.

The complainant company, of which Charles H. Fletcher is president, is the manufacturer of Castoria, and succeeded to the business of Dr. Santal Ritcher, the original inventor. The defendant, the Palestine Drug Company, has been putting up Castoria in this city, and the Centaur Company claimed that its rights were being infringed upon.

The suit, which has been pending for several years, and which was vigorously contested, was decided in favor of the Centaur Company, and a perpetual injunction and accounting were ordered.

An additional 100 acres had been purchased by the provincial government for the use of the Hospital for Epileptics at Woodstock. The land lies across the road from the institution.

"FREAK LEGISLATION." (Canadian Associated Press Cable.) London, July 10.—The Evening Globe says that Canada has just shown loyalty to a tradition of the mother country in a fashion that could well have been spared by the law providing for Sabbath observance. The Globe calls it freak legislation by Furtians.

Montreal, July 10.—Col. A. A. Stevenson, formerly a well-known alderman, is the object of a unique Masonic demonstration to-day, it being the fiftieth anniversary of his entrance to the order. He was presented with a life-size oil painting, a purse of gold, and an address. To-night he was banqueted at the Windsor.

ATTACKS MONROE DOCTRINE

And U. S. Policy in Combining Greed With Principle.

New York, July 10.—An appeal from New Haven, Conn., says: "In extending the Yale welcome to the American Institute of Education at the opening of the national convention here last night, Prof. Arthur M. Wheeler of the history department vigorously attacked the Monroe doctrine and deplored the present spirit of money-getting as a sacrifice of right principles. He said: 'The Monroe doctrine, which is the eleventh commandment of this government, is the embodiment of national greed and selfishness.'

"A republican form of government is the worst possible for certain nations, but we have been advancing the fallacy of forcing this on others. As a nation, we think we must also advance our religion—the Christian religion—even if it takes guidance to it, and it has to be spread at the point of the bayonet."

Those half-dozen lines of a half column in the Haverard are every word that I said on the subject. The hon. member for South York took the floor immediately upon my having sat down, and in the next column of Hansard, page 7294, he said:

We have the statement here to-day that the minister of justice, representing this government, hopes it will be many a long day before we have public ownership in this country. That statement has been made here to-day, that statement may be considered in various quarters in this country; but if there is any significant thing in America to-day it is the spread of this principle of public ownership as against the trust and corporation abuses that have developed in America within the last 25 or 30 years.

In the following column, the moment he took his seat, anticipating what has happened, expecting from past experience that no sooner would the following day come than that his newspaper would proclaim that which the hon. gentleman from his seat in this house had stated, that I had said, whereas I had said nothing of the

Sheep in the Feed Lots of the North American Live Stock Company at Port Arthur, Ont.

county is looking well, as is barley, but, in many places, the latter will not fill well owing to the fact that the heavy storms have leveled it with the ground.

On low-lying ground the oat crop is showing a rank, heavy growth. In fact, this condition of affairs is general wherever the soil is at all rich, with the result that much of it is already lodged.

But while York County has had a surfeit of rain, similar conditions do not prevail all over the province, a scarcity exists. It is said that up around Chesley, in Bruce County, the pasture is short and dry, and cattle shipped up there to be pastured have, owing to the scarcity of grass, been reshipped and sold on the Toronto market.

But if the superabundant moisture has in some ways worked injuriously on the crop, the root fields, save for the presence of weeds, have never been better. The "catch" of formerly good, while the fact that labor is rather more plentiful than last year has helped out the situation wonderfully. With favorable weather conditions from this time forward, the outlook for the farmers of York County offers much cause for congratulation.

In the northern townships of Whitby, Orillia, and Georgina, the showing for potatoes is said to be remarkably good.

Another Rate War. Bremen, July 10.—The North German Lloyd Steamship Company to-day reduced the steersage rate to New York \$2.50.

kind, it immediately rose (and used these words: I did not say anything about hoping in regard to the day when public ownership might come to be a practical question. What I expressed was my own opinion. The matter was therefore at once very incidentally brought to the attention of the hon. member for South York, but also, if it be that his newspaper has any correspondent in the gallery of this house, to the attention of the hon. member, so that there could be no mistake about it. Accordingly it was, I admit, with some surprise, that in the issue of The Toronto World of yesterday morning, I saw upon the front page, in the most prominent position, under the heading, 'The Minister of Justice Denounces Public Ownership,' the following language: 'The most remarkable feature of the day was an appeal from the Conservative benches to the former attorney of the Bell Telephone Company, who at present is the Minister of Justice, to protect the Bell monopoly from the reasonable wishes of the people of Manitoba. Mr. Aylesworth complied so heartily that he rather startled the house by, in doubling capitals, expressing the belief, and, indeed, the hope that it never could or would be accomplished. He afterwards claimed that it was an opinion, and not a desire, that he had expressed, but there was no dispute as to the meaning that he sought to convey, and did convey to the house. Then comes an editorial comment, whether or not from the pen of the hon. member himself, is not for me to say. Under the mysterious veil of anonymity that makes newspaper articles so sacred, The World comments in this manner on the same thing: Mr. Aylesworth, now minister of justice, again made himself conspicuous by his determined opposition to every proposal of public ownership. Unfortunately for himself hereafter, he expressed his true colors by expressing not only the opinion but the hope that public ownership of public franchises would never become an established fact in Canada. AN EPIGRAPH IN SHORTHAND.
Pathetic Inscription on Dead Wife's Tomb—Her Dying Wish.
A pathetic story centres round a large white marble tombstone in Hampstead Cemetery, the inscription on which is written in Pitman's reporting style of short-hand.
The symbols, which occupy but a small space on the stone, are composed of lead let into the marble. The full translation is as follows:
"In loving memory of Louisa, the dearly beloved wife of William Day, who fell asleep in Jesus on Feb. 21, 1905, aged 38.
"Weep not for me, my father so dear, I am not dead, but sleeping here.
"In faith I lie, my grave you see; Prayers continue to follow me.
"Mr. William Day told an express representative the history of the stone and its strange inscription.
"We had not been married long before my wife fell ill of consumption," he said. "She grew rapidly weaker and weaker, and not being able to move about, took up the story of shorthand to pass away the long days.
"She became so interested that she asked me to learn shorthand, too, and so day after day I sat at my wife's bedside while she gave me lessons. She had the most wonderful patience, and when too weak to speak would point out my mistakes by signs.
"I shall never forget those days," continued Mr. Day. "For my wife's delight when I gained a speed certificate. Shortly afterwards she died.
"I thought that the most fitting way to commemorate her was to have the inscription on her tombstone written in the symbols which she loved so much."

There's no finer lager in Germany or the United States than

KURTZ BEER

No brewery in the world uses finer malt and hops—takes greater precautions for purity.

Of course, imported lagers cost a good bit MORE in Canada than abroad, because of the duty. But the high price does NOT mean extra quality. KURTZ BEER is brewed right here in Canada.

DUTCH FLOCKING TO WEST.

Remarkable interest is being taken by Govt. and People.

There are no good places in the Canadian west to build dikes, but the Hollanders are trekking there in large numbers, nevertheless.

A regular flock of people from the Netherlands is forming in the Canadian west," said Albert Nordheimer, consul-general for The Netherlands in Canada, to a World man yesterday. They are a goodly class of citizens, farmers and young men, coming out to learn farming.

A few months ago a Hollandier, who had emigrated to Canada and succeeded in building himself a home and acquiring a moderate fortune in the west, reports he expects three of the growing prospects for the industrious young man in Canada resulted in a perfect shower of emigrants, the home government, and hundreds of enquiries to him direct. The question became so important that The Netherlands government issued an official paper to intending emigrants, advising them to communicate with the consul-general at Toronto before embarking on a journey which they knew little about, and whose customs were far different from their own.

So many communications of enquiry did Mr. Nordheimer receive that he issued a circular to the people of Holland, setting forth in a general way the conditions of the country in the west, the prospects for intending settlers and the facilities for reaching there.

Mr. Nordheimer's report must have been very favorable, as the immigration to Canada since that time from The Netherlands has increased three months ago, the consul-general found it expedient to appoint a vice-consul at Winnipeg, and to send the influx from the old country continues unabated.

If the Dutch immigrants to Canada prove themselves the same frugal, thrifty, honest people that their pilgrim fathers to Pennsylvania did, Canada will be a rich gainer by their coming.

U. S. Consuls on Salary Basis.

E. S. Chilton, Jr., United States consul in Toronto, recently spent three weeks in Washington as a member of the board of consuls, which was in session considering the new regulations in connection with the reorganized consular service, which was amended by congress this year, and which places all consuls on purely salary basis, and does away with the personal fee system. A stamp is now required on all documents equal to the amount of fee collected.

Approximately 200 persons in Toronto are receiving pensions from the United States Government. They are all veterans of the civil war, and their pensions range from \$5 to \$30 a month.

Secure From Surprise.

The Paris Temps declares that the first half of the British naval manoeuvres, which it described as "the greatest test of efficiency ever applied to a fleet in peace time," has been entirely successful.

Great Britain has proved that she can concentrate "in an incredibly short space of time" 400 warships, splendidly manned in home waters, and that her ports are secure against surprise.

The admiralty are pleased for the admirable distribution of the fleet, and the perfect order with which the mobilization was carried out. The Temps thinks that the promise of the admiralty to give full publicity to the results of the second phase of the manoeuvres—the attack on Britain's seaborne trade—is made either because the navy is confident of the result or because it is desired to show the danger of a reduction of armaments.

Pauper Pays Her Funeral Expenses.

LET THE OPPOSITION TALK ON PENSION GRAB REPEAL

Several Members Advise Delay, But Fielding Insists That Measure Pass.

Ottawa, July 10.—(Special.)—The government set a trap to-night for the opposition. Upon the second reading of Mr. Fielding's bill to repeal the pension grab, Sir Wilfrid Laurier intimated that he might be willing to let the matter go over till the autumn session. Then all the Liberals sat tight and let the Conservatives do the talking.

Mr. Tūfitt (East Assiniboia) thought that the present pension law was defective. He suggested eight years' service, and an age limit of 55 years.

Mr. Clements (East Kent) had a personal explanation. He had not voted for the pension grab and was opposed to it, yet Mr. Hyman, a member of the government, who was responsible for it, had attended the meeting which nominated his opponent and had listened without protest to the statement that Mr. Clements' vote might have defeated the grab.

All in One Bundle.

Hon. George E. Foster said he was anxious to see the bill passed, but that he would act more wisely if he said nothing. However, he had made up his mind to say his say. He recalled the house that the salary grab, the increase in judicial salaries, the allowance provided for the leader of the opposition and the pension grab itself were tied up in one bundle and passed together. He suggested that the ex-ministers were being sacrificed. There was no more dissatisfaction over their pensions than there was over the increased indemnities. Discussing the merits of the measure, Mr. Foster said that nearly every man who achieved a seat in the cabinet did so at the sacrifice of the best part of his life to the public interests. No minister who had a seat in the cabinet could possibly save a cent on his salary. He thought the salary of cabinet ministers should be increased from \$7000 to \$10,000, but the \$3000 for him until he grew old and in need of it. This came to the same thing in the end—a pension.

In closing, Mr. Foster intimated that his circumstances were quite reduced. "If I did not need this pension," he said, "I would not touch a penny of it."

Pension Unpopular.

Sir Wilfrid Laurier complimented Mr. Foster on his speech, but unfortunately the pension law had proved very unpopular. The people complained that the law made no distinction, and gave allowances to men who had their lives ahead of them, and who did not need aid from any government. This complaint was well founded, but the government agreed that the law should either be repealed or amended.

He thought of several amendments. The English system which placed 12 pensions in the gift of the prime minister, was very distasteful to him, personally. No other scheme had been suggested, but, at the same time, he hoped to find one.

Advices Delay.

Mr. Kemp (East Toronto) thought the present law was defective. There should be provisions as to age, length of service and the needs of the pensioner. He called for the matter to be taken up till the next session.

Mr. Pringle (Cornwall) seemed to be the only member of the house who admitted being present when the bill passed. He had given the matter some study, and quoted the British precedents. He also suggested a delay, and so did Mr. Taylor (Leeds), who referred to his scheme for pensioning old members of parliament.

Mr. Blain (Peel) spoke strongly in favor of immediate repeal.

R. L. Borden criticized the government's position on this bill as late as in the session. The bill was defective, but it contained a correct principle. It might be well to let the pending bill go for till the next session.

Mr. Wilson (Lennox and Addington) was opposed to pensions, unless, perhaps, an old age pension.

Mr. Borden had introduced a bill, it should have the courage to pass it.

Mr. Fielding resented the remarks made by Mr. Borden. The bill had been allowed to stand at the request of members of the opposition. Personally, he would insist upon the bill taking its course. It was therefore passed through committee, and stands for third reading.

LOCAL FRUIT MARKET.

Receipts of fruit were moderately heavy at the local market yesterday, and prices, especially in strawberries, showed a perceptible decline, selling at from 8c to 12c per basket. Canadian-grown tomatoes were yesterday offered and commanded fair sale at from \$1.25 to \$1.50 per bushel. There were scores of baskets of good quality. Raspberries are worth from 14c to 16c a bushel. There are still a few crops and fairly heavy shipments of raspberries. Blueberries are quiet on the market at \$1.40 to \$1.50 per basket and from 14c to 16c a quart box.

The certificates of the successful candidates will be sent to the principals of the schools from which they came, or to the head master of the high school. Those for Toronto Junction will be sent to Supervisor Wilson.

Fred Rowe was fined \$1 and costs by Magistrate Ellis this morning for stealing a ride on a C. E. R. freight train.

It's the fit—the style and the character of this special lot of Two-Piece Suits that enhances them and emphasizes the special prices they're marked at—we're not holding them back until nearly time for the snow to fly before giving you a "bargain" in them—but letting them go when you need cool clothing comfort most.

Single and double-breasted style—grey shades of oyster—cadet Quaker and half-a-dozen others—besides the good reliable and always desirable blues—20.00 15.00

And the other special lines—homespuns and fancy tweed effects—15.00 value for 10.00

Summer Trousers and Summer Vests— No trousers fit like our trousers whether you want a pair of White Ducks at 1.00 or 1.50—or a pair of Fancy Tweed or Serge at 3.50.

THREE DIE IN COLLISION DOZEN ITALIANS ARE HURT

Ballast Train Backs Into Pile Driver—Seventh Wreck at "Calamity Curve."

Galt, Ont., July 10.—(Special.)—As a result of a collision on the C. P. R. at noon to-day, three men lost their lives, and a dozen Italians were hurt.

The accident happened at a sharp curve and was caused by a freight train backing into a pile-driver on the track at work near the bridge. The pile-driver was struck and overturned, and the train derailed. The accident occurred at the "Calamity Curve" near Galt, Ont.

Maybe the Liver Is at Fault.

It is customary for many people to blame the stomach when the liver is responsible for the troubles of digestion. Such symptoms as headache, coated tongue, disgust for food, vomiting, feelings of weight and soreness, dull pain near shoulders, muddy complexion, constipation alternating with looseness of the bowels, irritability, or temper, are sure indications of biliousness or torpid liver.

Dr. Chase's Kidney-Liver Pills are marvelously prompt and certain as a cure for sluggish action of the liver. While awakening the liver they also regulate the bowels and invigorate the kidney action.

In this way the filtering and excretory systems are thoroughly cleansed of all poisonous impurities and the cause of pain, sickness and suffering removed.

In every family there is need of just such a medicine as Dr. Chase's Kidney-Liver Pills to cure constipation, backache, biliousness, indigestion, and prevent dangerous and fatal diseases of the kidneys and bowels. One pill a dose, 25 cents a box, at all Dealers, or Edmanson, Bates & Co., Toronto.
