

WOMAN'S WORLD.

EVERY MINUTE COUNTS.

The light of the age is a mad endeavor to keep to heights that were made to climb by a burst of strength or a thought most clever.

We want high noon at the day's dim dawn. We are in a toiling and saving. We are our forefathers did in the old times gone.

We want the gain but despise the getting. We want wealth—not as reward—but as power.

One of the best resolutions you can make is to utilize the days, or rather the moments comprising the days, in a wise manner.

No matter what regular occupation you employ you daily, there are moments which can be used for recreation or mental improvement if you are faithful.

Thirteen minutes before breakfast, 15 minutes after dinner, will not be missed if you make your resolution to utilize them every day.

You will find you have just as much time as you had before you began this system, for you have been frittering away more than those 15 minutes morning and night without being conscious of it.

I have a busy, young, self-supporting woman who had only rudimentary knowledge of music to make this resolution, and it was amazing to see the progress she made in one year's time.

Commit the words of songs to memory, and you will find that you will find something worth while the remainder of the day.

Domestic service should carry its own reward, and when we are educated sufficiently to realize this, perhaps we will be able to get proper service in our households.

An engaged girl asks if it is absolutely necessary to send back all the presents, even to the ring, in the case of a broken engagement, and one wonders how a girl would have the nerve to keep anything that would remind her of such an unhappy experience.

Some one has said that there was a miserly old man who had a diamond ring which he had given her and she had made into a scarf pin for her husband, and he wore it!

Send them all back; it's the only honest thing to do.

IN SOCIETY. Mrs. W. J. McMurtry will not receive to-day, but will receive on the fourth Thursday of this month and not again this season.

Mr. and Mrs. G. A. Powell announce the engagement of their eldest daughter, Ethel Lilian, to Mr. Owen Arthur Smyly, son of Mr. and Mrs. Thomas Smyly of Avenue-road. The wedding will take place in May.

Mrs. G. A. Powell and Miss Powell of 69 Howland-avenue will receive on Friday, March 15, for the last time this season.

Miss Helen Ivey, who has been visiting Mrs. John D. Ivey, left yesterday for her home in London.

Mr. Ernie Bisset leaves to-day for "The Welland," St. Catharines.

The Women's Literary Society of McEwen University will hold their open meeting on Friday, March 22, in Castle Memorial Hall, when they will give readings from the "Lullaby" and "The Little Girl" in which about sixteen young ladies will take part.

The meeting of the Grace Hospital Alumnae will be held at the hospital to-day at 3 o'clock.

A program of music by Russian composers that has been arranged by the executive committee, will occupy the members of the Women's Musical Club this morning.

Miss Fitzgibbon and her mother, Mrs. Chamberlain, are at The Welland, St. Catharines.

Mrs. Ambrose Small will be the hostess of a luncheon on Saturday, given in honor of the Countess Ruffieu.

Mr. and Mrs. John Burgess have moved from St. George-street to 35 Cecil-street.

Miss Lucy Rutten of Port Arthur is the guest of her grandparents, Mr. and Mrs. Armstrong, at the Priory.

Mr. and Mrs. George Major, from Niagara Falls, are in town.

Mrs. Herring has left town to spend a month in Montreal and Quebec.

Mrs. and Miss Reid, Montreal, and their guest, Miss McGregor, St. John's, Nfld., have left town.

The tenth annual meeting of the United Empire Loyalist Association will be held in the Canadian Institute, 181 College-street, this evening at 8 o'clock.

Ald. Lruch of Quebec and Billy Allan of Ottawa have been matched to meet at Montreal some time this month. The fight will be on at 8 o'clock on the night of the fight.

Book's Cotton Root Compound. The great Uterine Tonic, the only safe and effective Monthly Regulator for all women can depend on.

NOTE—Please enclose above illustration and mention size of pattern wanted. If the pattern is bust measure only mark 22, 24, or whatever it may be. When in waist measure, 22, 24, 26, etc. If a skirt, give waist and length measure. When miss' or child's pattern write only the figure representing the age. It is not necessary to write "inches" or "feet." The price of each pattern is 10 cents. Do not send stamps.

ADDRESS THE WORLD PATTERN DEPT., 63 YONGE ST., TORONTO.

forces to become weak and slipshod from lack of direction. Make the most of the odd ends of time, and you will make the most of yourself with little cost and no loss. BELLA WHEELER WILCOX.

JUST ABOUT THINGS.

It seems never to occur to some women that there is such a thing as privacy, and that, no matter how intimate your relations with any person may be, that person has a natural and laudable desire for privacy, which you should respect.

The woman who walks into her neighbor's room without knocking at the door, who reads a letter even a child's letter, without asking permission, who asks impertinent questions of her husband or her son, is just as guilty of violating every canon of good taste and good breeding as if she listened to a conversation not intended for her.

Some sometimes wonder why some of the real living women who are earning their own living and who are considered "respectable" by the world, are so much more successful in their professions or as dressmakers or milliners' apprentices, or stenographers, or any other of the numerous vocations which are considered "respectable" than some of these women go into the much more respectable profession of housework.

The old nonsense about the degradation of housework should be scattered to the winds, and trained, skilled labor in that profession of housemaking, which should be regarded as a woman's highest work, ought to carry a distinction greater than any other degree would confer.

The cook or housemaid who is earning \$15 or \$20 a month gets a comfortable home, good board and laundry, and there are very few school teachers, stenographers or shop girls who at the end of a month have \$20 absolutely clear of all expenses.

Domestic service should carry its own reward, and when we are educated sufficiently to realize this, perhaps we will be able to get proper service in our households.

An engaged girl asks if it is absolutely necessary to send back all the presents, even to the ring, in the case of a broken engagement, and one wonders how a girl would have the nerve to keep anything that would remind her of such an unhappy experience, or how she could keep gifts that were the expression of love when that love is dead.

One does lose sight of romance occasionally in this prosaic twentieth century world of ours, but the still traces of it, and surely every atom of romance in anyone's nature should rise against the mercenary desire to retain presents—merely because of their intrinsic value.

I know an American woman who sloped with her husband, and before she had expected to marry another man, she took the diamond ring which the jilted one had given her and she made into a scarf pin for her husband, and he wore it!

Send them all back; it's the only honest thing to do.

Buchanan's Wife

The Story of a Woman Who Dared to Resist Her Husband's Love and Happiness, That Were Dealt Her by Great Circumstances.

By Darius Miles Forman and Published by Faith Stranahan, 1117 King Street West, Toronto, Ont.

Herbert Buchanan came out from the house and stood for a moment regarding the two with that peculiar, nervous twitching of the eyebrows which was habitual with him and which gave him the appearance of being constantly annoyed.

"What are you two laughing about?" he demanded. "You seem to be having a very gay time here all by yourselves."

"Stamboloff is telling me stories," explained old Arabella Crowley. "He's a funny fellow, I should have believed him capable of them."

Buchanan made the brief, mirthless sound which passed with him for laughing or sympathy, and he said: "Stamboloff," he said, "if you are becoming a chatterbox, I'm done with you. I'm done with you."

Every one else, however, was silent. Buchanan made the brief, mirthless sound which passed with him for laughing or sympathy, and he said: "Stamboloff," he said, "if you are becoming a chatterbox, I'm done with you. I'm done with you."

</

The Morning and Evening Fields.

Room is there in all the cities of size and activity for both morning and afternoon papers.

The morning paper is the greater favorite, and will so continue in the homes of the people and with all business institutions.

Then, too, the news and other matter appearing in the morning paper may be discussed by the family as it cannot be in the afternoon, when social and other duties so often prevent careful reading of the evening paper.

The difference between the morning and evening paper has been well likened to that between a classic work illustrated with note and comment, and a classic text without such illustration.

The morning paper is in the better position to chronicle European news and report the deliberations of national legislatures generally.

The morning paper has the latest market reports. Opening and closing figures on everything salable are given in detail and with accuracy.

Out in the Province—we speak particularly of Ontario—the morning paper is the people's favorite. It reaches many points by the breakfast hour, others by noon, and every place by dark.

Bowmanville Looks to M.P. to Help in Railway Fight

Leading Business Men Refer to the Discriminating and Inattention Furnished Them.

Bowmanville, March 13.—(From World's Special Commissioner.)—Prominent manufacturers of this town, interviewed to-day, say they, like those in Ontario, are indignant over the service the Grand Trunk has been giving the town, both freight and passenger.

The prevailing sentiment is that the rate discrimination should be removed. A glaring incident of discrimination was laid bare by J. W. Alexander, president of the Dominion Organ and Piano Co. Ltd., who said: "You can buy a return ticket from Toronto to Uxbridge for \$2 and you would have to pay \$2.45 to this place and return, which is about the same distance."

"Do you expect your local member to sit quietly in the commons while this question is up?" "No," he replied, "we expect Colonel Ward, M.P., to represent us as he any movement to support the conditions. We expect him to support Mr. Maclean in this battle, and if he does not, he will have to supply us with reasons why he should not."

"Why should the government permit the management of the G.T.R., which the affairs of the lines they now control and this means a great transcontinental railway, to be placed in the hands of officials who know how to direct and who have no other business capacity than to trust that they give us at least a decent service. They have now

STRONG MAN IS PUSHING PLANS PEOPLE'S PHONES

Policy of Alberta Government to Operate Municipal Exchanges and Build Rural Lines.

The strong man of the Rutherford government is Hon. William H. Cushing, minister of public works, and member for Calgary. During the past few weeks he has carried off honors for introducing the most progressive legislation that stands to the credit of the government. This is the telephone bill. His policy is to own and operate municipal exchanges when desired of the municipality and to construct, own and operate rural telephones.

M. MERCIER'S RECITAL

Large Audience at Massey Hall Hear an Enjoyable Program.

The Mercier concert at Massey Hall last night attracted a fairly large gathering of the music-loving portion of the city's public, and after the delightful feast enjoyed by all who attended there is no reason to doubt that if the program should be repeated at a future date an overflowing house will be the natural result.

Referred to the discrimination in rates and stated further that one of the locals that stop here has often been awakened too late. We invite the two other roads to come in and come soon."

Mr. Tait of Cawker, Tait & Co., merchants here, expressed himself strongly against the rate discrimination and he expected the representative of the constituency to fight it, and citizen said he was ready to back any movement, both with influence and financial support, and would refer the matter to his constituents. All they wanted was a leader and a special committee.

Mr. Redder, manager of the Bowmanville Laundry Company, denounced the discrimination as an imposition. He strongly assailed the service the G.T.R. was giving.

Referring to the freight issue, he said that some years ago the town council asked the G.T.R. to run a spur line into the town. The railway's attitude was that if the town would shoulder a liability of \$13,000 and pay it (G.T.R.) 5 per cent. on the cost of the rails it would build the spur.

FOR THE FAMILY

Underberg Bitters

Is good for one and all. A delicious drink—stimulates, appetizes and creates good temper. The happiest home is that where health is a matter of course—sickness unknown.

For half a century UNDERBERG Boonekamp BITTERS—'Always the same'—has been a boon and blessing to thousands of families.

It tones up the system and keeps it at 'top-notch.' Enjoyable as a cocktail and better for you

Over 6,000,000 bottles imported to U. S.

BOTTLED ONLY BY H. UNDERBERG ALBRECHT, BREMEN, GERMANY, SINCE 1846.

For Sale by G. J. Foy, Toronto; Jas. Turner & Co., Hamilton.

RICH STRIKE LARDER LAKE

Two of the Larder Lake Gold Mining Company's properties are situated between Reddick's lots and those where the recent rich strike was made.

There is still a limited amount of the issue of treasury stock of this company left at the remarkably low price of

TWENTY-FIVE CENTS

Your opportunity is now; take advantage of the low price and get in right. Proceeds of sale of treasury stock to be used solely for purpose of developing the company's 120 acres.

Prospectus mailed on application.

Larder Lake Gold Mining Company

Authorized Capital \$200,000

Address orders for stock to the secretary of the company, G. M. PETRIE, 57 AVENUE ROAD, TORONTO

AT OSGOOD HALL

ANNOUNCEMENTS FOR THURSDAY. Chambers, Cartwright, master, at 11 a.m. Single Court.

Housekeeper's Wages. Nellie Redpath has begun an action against S. W. Burns, claiming \$1880, which she alleges is due to her wages as housekeeper and for other services.

Balance of Account. Warren Brothers & Co. are suing William Ward of Goldwater for \$271.10, being the balance of account for goods sold and delivered.

Statement of Claim Stands. The application of Clement A. Foster to have certain paragraphs struck out of the statement of claim of J. H. Schindler, in the action brought by Foster, has failed.

Where is the Money? A. G. H. Langer and Robert K. Anderson, executors of George Hume, deceased, of the Town of Milton, are being asked by Ericka Dixon, for an account of the trust money, amounting to \$731.30, belonging to her and received by the late George Hume, for funeral expenses.

Division Court List. Judge Wilson will hear the following cases at the tenth division court this morning: Cunningham vs. Head, \$17; McKensie vs. Crum, \$25; Harcourt vs. Puddy, \$20; Park vs. McGill, \$20; Daily Star v. Howland, \$30; Sager vs. Allender, \$37.50; Amodeo vs. Robson, \$20; Hawthorne v. Hawthorne, \$64.85; Jackson v. Malloy, \$7; Brady v. Cummings, \$65; Anderson v. Ibbot, \$7.95; News Pub. Co. v. Bell and Mitchell, \$54.40; White Bros. v. Hussey, \$12.50.

Mean Larger Dividends. Cheap fares have led to an enormous increase in the number of passengers carried, and to the earning of bigger dividends on the capital invested in the railways...

The management of the Toronto Street Railway should take a trip to Europe; they would then have an opportunity of forming an opinion of what can be done...

ELLIOTT & SON LIMITED. 79 King St. W., Toronto. Money cannot buy better Coffee than Michie's finest blend Java and Mocha, 45c lb. Michie & Co., Limited.

Woodstock Express: Billy Maclean seems to have a hard row to hoe in the Dominion house as far as his railway bills are concerned. He finds it almost impossible to secure the information he desires in certain matters, and the minister of railways, Hon. Mr. Emmerson, seems determined to avoid answering many of the questions. The significance of this is very apparent. But the minister of railways has the right note all along to protect his own interests. But the government should be compelled to answer. They are public servants, transacting public business, and the public have a right to know what they are doing and how it is being done.

What to Do With Our Girls. Give them a course of six lessons in dress cutting and fitting. It will enable them to make their own dresses equal to any first-class dressmaker. The Canadian School of Fashion and Dress Cutting, 448 Bathurst-st., Toronto. Phone Main 6790.

Low Rates to Pacific Coast. Daily until April 30, the Grand Trunk is offering low rates to Pacific coast ports. For full information as to routes, rates and train service, call at Grand Trunk ticket office.

120 STILL UNACCOUNTED FOR IN TOULON DISASTER

Fifty Bodies Recovered From the Iena, Workers Being Driven Back by Deadly Fumes.

Toulon, March 13.—The efforts to recover the bodies of those killed by the explosion on board the French battleship Iena here yesterday, which have been conducted with energy for 24 hours, have not yet resulted in fixing definitely the number of casualties.

There is little doubt that all the missing men perished. The roll call was applied only to the crew of the Iena, but it is believed that some twelve or fifteen arsenal hands were engaged on board the battleship at the time of the explosion...

DEADLY FUMES. Deadly fumes drove the workers back time and again.

BRIDE DEAD FROM POISON. Young Wife Succeeds in Second Attempt at Suicide.

Fredericton, N.B., March 13.—(Special.)—Mrs. K. L. Black, formerly Miss Blackmer, a bride three weeks, and a member of a prominent family, took carbolic acid to-day and died two hours later.

DROPS DEAD CHASING FUGITIVE. Woodstock Policeman Upset in Rig and Expires From Heart Disease.

Woodstock, March 12.—Archibald Pow, a member of the police force here, dropped dead early to-day.

STEPHENS FOR SENATE. Chatham, March 12.—(Special.)—N. A. Stephens, miller of Chatham, is said to be almost certain to take the vacancy in the senate caused by the death of Senator Casgrain.

FOILED BY POLICEMAN. An attempt to commit suicide on the part of Edward Hill, 37 years of age, of Beulah avenue, was frustrated by a policeman, who arrived on the scene at 10:15 p.m. in time to intercept a dose of carbolic acid as the man was traveling to the world-famous mouth.

TO CONTINUE THE CONFERENCE. (Canadian Associated Press Cable.) London, March 13.—Sir Frederick Pollock has issued a memorandum on Imperial relations, signed by many distinguished men of various parties, which strongly suggests that the colonial conference should be given continuity by means of a permanent secretariat.

JEROME ATTACKS THAW AND HIS YOUNG WIFE BITTERLY

District Attorney Now Eager to Prove Evelyn Nesbit Did Swear to the Hummel Affidavit.

New York, March 13.—After a forenoon session occupied almost entirely by District Attorney Jerome in a bitter denunciation of the defendant and his wife, the trial of Harry K. Thaw was adjourned until to-morrow morning.

THE PROSECUTING ATTORNEY found his opportunity to attack Thaw and Evelyn Nesbit in arguing on the question of the admissibility of the testimony which Abraham Hummel, the lawyer, who is under indictment for subornation of perjury in the Dodge-Morse divorce case, has to offer.

IT WAS TO ENABLE Delphin M. Delmas, leading counsel for the defence, to consult authorities and frame a reply to Mr. Jerome's attack, that the latter an opportunity of completing the hypothetical question which he is to put to his experts, that the early adjournment of the trial was necessary.

MR. JEROME declared that the people have to close their eyes to the fact that the district attorney took on for the first time since the case began a sustained oratorical assault. He asserted that Hummel would swear Evelyn Nesbit told him three days after her return from Europe in 1906 that Thaw had beaten her.

MR. JEROME contended that she had not done so, but that Thaw seemed bent upon putting White in the penitentiary, that Stanford White had never married her, and that Thaw was consumed with rage when she refused to sign and swear to the papers containing "lies against Stanford White."

MR. JEROME contended that she had not done so, but that Thaw seemed bent upon putting White in the penitentiary, that Stanford White had never married her, and that Thaw was consumed with rage when she refused to sign and swear to the papers containing "lies against Stanford White."

WORST SCARE IN YEARS

Continued From Page 1. The stock exchange houses were in immediate trouble.

At the low prices of the day, the more important declines from the last night's close were as follows: Reading, 12 1/4; Union Pacific, 11 1/4; Great Northern, 12; Northern Pacific, 11; Amalgamated Copper, 7 1/2; Chicago and Northwestern, 7 1/4; Canadian Pacific, 7 1/2; St. Paul, 7 1/4; Sugar, 6; Baltimore and Ohio, 5 3/8; Atchafalaya, 5 1/2; Southern Pacific, 5 1/4; Colorado Southern, 4 3/4; Pennsylvania, 4 5/8.

The Canadian markets appear not to have fully appreciated yet the stress which has been met at other financial points, but yesterday's Toronto and Montreal markets were in a highly nervous condition, and in many cases it was reported that stocks were exceedingly difficult of sale, instances being mentioned where it was almost impossible to get a bid for some of the standard securities.

Sir Henry M. Fellatt, who is supposed to be in close touch with the Canadian finance, was approached yesterday by The World in his office in the new Traders Bank Building. He evidently was troubled over the pervasiveness of the markets.

"How much lower do you expect prices to go?" Sir Henry was asked. "I don't know," he replied, pointing to the list of quotations which were then being recorded from New York tickers. "They surely cannot go much lower."

"I can only account for this terrible onslaught from the actions of the newspapers and the legislators. They have actually frightened investors altogether out of the markets and everyone feels scared to buy securities."

"You don't think the money question has anything to do with this?" "Oh, yes, money is tight, but I don't think that is the entire reason for the break-up in the markets."

Around the various brokers' offices the most nervous kind of feeling existed, and it would have taken little to have made the whole situation as panicky here as it evidently was in New York.

At all the financial centres there is a struggle on for whatever free gold may be had. Some New York financiers are pushing for the \$100,000,000 from Holland, and the bank rate was immediately raised to prevent the possibility of any further outlet of the yellow metal.

Local brokers say there is no money to be had. It is not a question of raising the rate of interest, but of having the banks or loan companies have a dollar which is not already hypothecated or appropriated in some way.

The chief declines in the Canadian markets yesterday were concentrated in the speculative markets. The Toronto, Montreal, Toronto Railway and South American propositions.

Drop Still Lower. Notwithstanding the fact that stocks already had suffered heavy declines, they went considerably lower in yesterday's sales, and much apprehension is expressed as to the ultimate result. Large blocks of South American stocks which have been brought into the Canadian markets.

Locally the interest in the New York market is nothing nearly as heavy as it was some time ago, but the line of accounts still outstanding in that market is of considerable dimensions, and several severe losses were mentioned on the street yesterday.

Among them was one of no less an amount than of \$25,000 from one of the Toronto financiers who had taken a strong liking to Missouri Pacific 4 per cent. bonds, which he had had to sell within the last few days.

It is estimated that the shrinkage in New York securities during the last few days has amounted to a sum of \$2,000,000,000, and of this amount the loss to Canadian speculators in January alone is estimated at upwards of \$100,000,000.

Big Decline in Year. Below follows a comparison of yesterday's closing prices on one of the leading issues:

Table with columns: 1906, 1907, High, Close, Decline. Rows include Atchafalaya, Canadian Pacific, Chesapeake & Ohio, Delaware & Hudson, Erie, Illinois Central, Louisville & Nashville, N.Y. BRISTOL'S AMBITION. (Canadian Associated Press Cable.) London, March 13.—Bristol is seeking to become the terminal port of the new line to Canada via Newfoundland.

W.A. Murray & Co. Limited

Business Hours Daily: Store opens at 8:30 a.m. and closes at 6 p.m.

A Fine Selection of Women's Tailor-Made Skirts \$5.50 to \$16.50, AND HIGHER

Having our own factory equipped with a splendid tailoring plant, and expert tailors to do the operating, it naturally follows that the retail shop would reap the benefit of so perfect organization. As a matter of fact, the Walking Skirts that we sell at \$5.50 would have to be priced at least a fourth more, if it were not for this very factory organization, that produces the styles at the lowest cost, consistent with good materials and first-class workmanship.

Women's Stylish Man-Tailored Perfect Fitting Skirts, black and colors, prices begin at \$5.50, range up to \$16.50, and several styles higher. Cloak and Suit Department, second floor.

Women's Spring Shoes. Women's New Spring Oxford Tie Shoes and Lace Boots, in flannel cut styles, with wide ribbon ties, light and heavy sole, and military heels, made in patent leather, Dongola and vic kid. All sizes and widths. Regular \$3 and \$3.50 pair. Friday, your choice 2.45

Green Cooking Ware. We have just opened up another assortment of Green Cooking China. The demand for this ware has been so great that we had to keep up with the assortment and sizes of the different articles. Just at present, though, our line is complete, so you can see the full range of articles.

A SPECIAL PURCHASE OF NEW FANCY SILKS.

It is well that our handsome new silk section provides abundant space to display the many exquisite novelties that the present season has produced. The women of Toronto may well be proud of the lovely silks that we are able to place before them. One of the popular groups is composed of fine chiffon taffetas, and soft French tulle silks, in the new stripes, small figures and floral designs, all neat and suitable patterns for shirt waist dresses. Very reliable qualities, and in a complete range of colors, including blues, browns, greens, greys, etc. These silks should really be sold at \$1.25 and \$1.50 a yard, yet, yours truly, would say the same thing if we did not tell you the price, but as our buyer secured the lot at a big discount, we are enabled to offer the entire collection of 2000 yards at a yard 1.00

W.A. Murray & Co. Limited Toronto

NO LIMIT PLACED. Continued From Page 1. retained in Canada a surplus of 25,000 horse-power.

Mr. Aylesworth opposed this. At Niagara the power companies would generate 400,000 horse-power. The Canadian market is purely a matter of balance, amounting to only 40,000. But double that estimate, and why let the rest of 360,000 horse-power go to waste? That surplus would not benefit Canada. It would be sheer criminal waste. These vast power companies had made their investments, having in view the American market.

Would Build Up Canada. Mr. Lancaster submitted that if the Canadian market was small, it would surely not become larger by exporting the supply. He favored keeping the supply here and creating the market. When American factories found that they could not import power from Canada, they would erect branches on this side of the line in order to get it.

Mr. Carvel (Liberal, New Brunswick) submitted that his province was ignoring the conditions in New Brunswick. At Aroostook Falls Canada was developing power in Canada, before the time when the power export to and sell in the State of Maine. This amendment would utterly destroy the industry. The same policy would force the power companies and other enterprises in New Brunswick.

Cockshutt (Branford) argued that there should always be surplus or reserve power kept for new industries that might start up in Canada.

Mr. Conmee (Rainy River) claimed that there were conditions in the neighborhood of the Soo similar to those in New Brunswick. He opposed the Lancaster amendment.

Favored Reciprocity. Mr. Broder (Dundas) thought that the question was broader than the situation at Niagara Falls. We must bear in mind that at many points power was exported from the United States to Canada. Legislation on this subject should aim at reciprocity.

Bristol (Centre Toronto) favored any amendment that would require a substantial surplus or reserve being retained in Canada. Such a policy would force the power companies to start up industries in Canada.

Mr. Smith (Wentworth) pleaded for the small users. They were not being served and no effort was being made to serve them. Thus the so-called "surplus of power" was delusive. At present the farmers and other small consumers were ignored by the power companies. He favored the Lancaster amendment.

Mr. Kemp (East Toronto) believed that all Niagara power could soon be consumed in Toronto and vicinity. Before long the electrification of railways and other uses would enormously increase the demand for power.

Vested in Railway Commission. R. L. Borden asked if this government had communicated with the Ontario government. Mr. Aylesworth answered in the affirmative.

Mr. Borden criticized the bill generally. After all, the government in council was a political body. Every year the most important functions of the parliament were given up to the cabinet. He suggested that the powers under this bill should be vested in the railway commission. That commission should be reorganized and called the Public Utilities Commission.

Mr. Aylesworth could not understand why the members of the opposition accused his bill of promoting export. It put some restrictions at least upon exportation; at present there was no restriction whatever. W. F. Cockshutt claimed that the Aylesworth bill would discourage building transmission lines in Canada.

Hon. George E. Foster favored putting all public utilities, including electric power, under one commission. He thought that it might soon be expected to prohibit export altogether. The Lancaster amendment was defeated. The bill then went through committee and was reported substantially without amendment.

GIRL'S STRANGE DEATH. Continued From Page 1. that he pursued Harvey up the street for some distance, but failed to overtake him. The Lancaster amendment was defeated. The bill then went through committee and was reported substantially without amendment.

It was after this episode that the alleged persecution by phone is stated to have begun and noticed by her parents most emphatically say, seemed to be always weighed down by the feeling of impending danger. Her employer, Mrs. Moody, found her in tears more than once, and on questioning her, was told that she was in dread of being met at the bridge. Predicted Violent Death. She said once: "I would be better dead than alive," and once told her mother that she would be found lying dead in the ravine. When her mother asked her how she would get there, she replied: "They will carry me there."

Mr. Wilson stated that he had once advised his daughter to tell Mr. Moody to keep a revolver in the house. Teenie Wilson, an elder sister of Maggie's, says she was with two other girls at the Majestic and noticed her sister there alone. Maggie came over and sat with the others, and left about 10:30 p.m. He worried me, and when she wanted to go after the performance she attended a party on Reid-street, given by a friend, Louise Flare, but his Miss Flare died.

Alex. Wilson, an elder brother of the girl, admitted last night that his story in the last issue that told and covered Maggie home Tuesday night, and that he had later seen her on the street was not true. He now says he met her as she came out of the theatre, but saw her only as far as her car, she saying that she would be all right.

John Harvey, who lives at 99 Oxford-street, said last night that he had not seen Maggie for a week or more. He had telephoned her since about three weeks ago. He states, as does his mother, that he was visiting Tuesday night at O'Hara-avenue, in the west end, and that he reached home about 11:15 p.m. As to the threat to kill her, he has been told by him, he admitted having requested the girl to meet him at the Sherbourne-street bridge, and to have covered the bill on one or more occasions that it was her "last chance," but declared that his words were not seriously meant. He intended merely to impress upon her that he would see her.

Harvey is a young man of about 19, and is employed by the Lester Carriage Company, and his manner in giving information was frank and open. Said She Was Afraid. Mrs. Moody was very much put out over the whole affair. She blamed herself for allowing the Wilson girl to go out on Tuesday night. "Maggie was a good, bright, happy little girl," she said, "and I do not believe that she committed suicide. She was crying the other evening when I came home, and when I asked her what was wrong she told me that she was afraid that a man who had threatened would harm her over the bridge. I told her that was all nonsense, but she would not believe me, and when she wanted to go out last night I gave her a dollar and told her to buy car tickets, and by no means to cross the bridge alone. Yesterday afternoon she told my little girl that she was going to take a bath and put on clean underclothing, for she said 'If I am found under the bridge by a policeman I must have clean clothes on.' My little girl got up early. When I awoke Maggie had not been home she went down and looked under the Sherbourne-street bridge."

Coroner Cotton will hold an inquest at the General Hospital at 4.30 this afternoon. Everton 4, Crystal Palace 0. London, March 13.—(C.A.P.)—The cup tie between Everton and Crystal Palace was played to-day, and resulted in a victory for Everton by goals to 0.

WINDSOR TABLE SALT—never a suspicion of grit— you taste the piquant savour—the crystal melts unconsciously.

ANARCHY IS NOT BASED ON DESTRUCTIVE DOCTRINE

Emma Goldman Addresses a Toronto Audience to Dispel Some Popular Misconceptions.

Emma Goldman, anarchist, addressed a meeting in Labor Temple last night. At the sound the imagination runs amok, and the average respectable citizen looks around him for a vicious image of the most masculine type. Dark and heavy-featured she must be, of course, like the female villain in the melodrama, and her speech must come in purple patches. Thus, tradition—that hoary old slander—insists upon picturing the Queen of the Reds. For fearful tales are gathered around Emma Goldman's name. Slander rumors link her name with that of the assassin of President McKinley. The mayor of Toledo last week refused to allow her to raise her voice in public in his city, and the United States authorities confiscated the October number of "Mother Earth," her journal, on the ground of its irresponsible nature.

And yet the real Emma Goldman steadfastly refuses to look the part which tradition has assigned to her. Emma Goldman is a hospital nurse—and looks it. Short and fair, rather stiffly built, neatly clad in a navy blue dress, her high forehead and firm but kindly face make her seem more adapted for soothing a wearied sufferer than to stir a multitude to frenzy.

Born in Russia and educated in Germany, she still retains in her speech a suggestion of the German accent. In her address she stoutly defended the anarchists from the charge of using or inciting force or violence. The gospel of anarchy was a gospel against using force.

Her Creed. Asked after the close of the lecture—seeing she scorned the idea of government—she would do it if she were to find a burglar in her room when she returned to her hotel—would she give him to the police?—Miss Goldman said, "I would not give him to the police. They would only punish him. He would not steal if he were not in want. I would help him to overcome the conditions which made him want to steal. To send him to jail would only make him a criminal. I have been in jail myself, and I know it is there they are made into criminals. If he were already a hardened criminal, I would help him to get rid of his habit of stealing by showing him there was one person who was willing to help him. I know he would not steal for mere pleasure, or to amass great wealth, else he would be in parliament or at the head of a great trust."

Miss Goldman, in answer to a question from "The World," said she endorsed the action of the British Columbia Senators in refusing to pay respect to the royal ceremonies. "How could they honestly honor something in which they 'disbelieved'?" was her sarcastic answer.

Not Out to Destroy. Miss Goldman said in the course of her lecture on "Misconception of Anarchism" that while all anarchists are opposed to all forms of government, they knew the social instinct of the human race was indestructible. If it were destructive, our present forms of government would have accomplished it, for they have set one class against another, one sex against another, and one race against another. The social instinct can take care of itself.

Anarchy did not wish to destroy society. The state, instead of being a help, had been a hindrance to society. If organized government had conducted to happiness and progress, it would keep it, but if it had destroyed initiative, made them moral cripples, killed independence and hindered progress, it was time we discarded it.

Labor had no greater foe than government. Government exploited the people, and in any conflict between labor and capital, government sided with the party which could pay most for its help. They sent soldiers out to shoot down strikers, and legislated against them.

It is the enemy of equality. In every country and under every form of government in the last analysis it means the restriction of the average man by those who have the money to exploit the hire of the government machinery. No man can get rich except by exploiting the labor of others, she said. She paid a tribute to Miller, who said the poor man, instead of devoting talents to painting portraits for French aristocrats, or modeling busts of the French president, gave his talents to depicting the woes and heroisms of the poor.

The state only helped education insofar as it helped their own purposes. They were too much occupied in trying to train saints and warriors and other useless types to pay much attention to training thinkers. The money spent on the machinery of government would be better spent on music halls and public parks. An enemy to progress and an enemy of human happiness is the way Miss Goldman summed it up.

Doesn't Prevent Crime. Crime was increasing. Government did not prevent crime. Crime was arbitrary in its definition of crime. They would pick out certain social acts and say these are crimes. If they caught a thief, instead of removing the causes which made the man a thief they punished him, which was a greater crime than the first. No man had a right to punish another for those sort of crimes. To punish a man was to put him out of the pale of society, and make him an enemy of a help, of the social order. Man could develop best as he had space and air and freedom. Every man thought freedom was good for himself, but he wanted to deny it to his neighbor. It was by conflict that governments were forced to permit trade unions.

Anarchy was not the product of a single mind, nor the result of a dissatisfied mind, and leaders of the movement did not come from the phlegm of hunger. It came from brains which were cultured, but he wanted to be refused, from men and women who save their wealth, their brains and their

Woman's Health

Every woman may be attractive. Bright eyes, pink cheeks and red lips are her nature-given right. A sallow skin, lack of animation, low spirits and weak nerves may be avoided by the use of Beecham's Pills, a remedy that well deserves the confidence of every woman. Again and again they have proved to be invaluable at those recurring times when so many women feel debilitated and suffer from nervousness, headache and depression. It is wonderful the way these pills assist Nature and relieve the suffering. Every woman who values health and good looks should become a user of.

BEECHAM'S PILLS

Prepared only by Thomas Beecham, St. Helens, Lancashire, England. Sold everywhere in Canada and U. S. America. In boxes 25 cents.

Influence for the creation of a better social order. Not Built on Force. "There is not a single atom in anarchy which stands for force," she said, "opposed to force. Violence has been used by many discontented people. The Irish, the Chartists, the Russians have used violence, but anarchy does not teach them to do it. They learned it from the soldier and the policeman. The work of the higher has reached upon the lower. The Russians are not using violence because they wish to kill or give pain, but because they have been punished as they stand it any longer, they have turned against their oppressors, but anarchy did not teach them to use force. Where free speech and a free press was, there is no place for force. "I have the need for the government," said Miss Goldman, "who the government has sometimes needed me. A police official once asked her, she said, whether it was not the police who protected her from insult on the New York streets at night. "I told him," she said, "in all my years of experience as a nurse in New York, altho I have been on the streets at all hours, was never once insulted, save by the scoundrels in uniform. To-night Miss Goldman will lecture in German at the Labor Temple, and tomorrow night she will lecture in English at the same place on "The Spirit of Revolution in Modern Drama."

PAYMENTS TO G. T. R.

Public Accounts Committee Not Getting Very Much Results.

Ottawa, March 13.—(Special.)—James Power, auditor of disbursements and acting general auditor of the G. T. R., was examined before the public accounts committee this morning re payments made to the Grand Trunk Pacific under the act with respect to the government's guarantee of bonds, and the refusal of the finance department to pay the construction claims amounting to \$162,000, passed by the railway department. He appeared in lieu of H. W. Walker, general auditor of the G. T. R., who was summoned, but who left for England on Tuesday. Mr. Power was not able to give much information concerning the items in the rejected claim of \$162,000. He had not been at the conference between Mr. Walker and the government accountant, and could not say what were the items rejected. The statement submitted by the Grand Trunk had been destroyed, as customary, but all the vouchers could be produced. He did not think the Grand Trunk had abandoned its claim for payment of \$162,000, but items were left in abeyance after a new statement had been accepted by the government.

Hon. Mr. Emmerson objected to queries by Mr. Barker as to whether the Grand Trunk had made any further attempts to have the rejected claims reconsidered by the government, on the ground that the committee was not concerned about the action taken by the Grand Trunk. Mr. Barker moved that Mr. Power be asked to appear again before committee and bring with him all vouchers, papers, etc., in possession of the Grand Trunk in reference to the disputed claims. This was deferred by 27 to 15, the government members taking the ground that since claims were not allowed the committee was not concerned in them and should not waste time in following them up.

The committee took up a payment of \$45,000 made to J. R. Henderson for a site for a roundhouse for the I. C. R. at Hamfax. Mr. Butler, deputy minister of railways and canals, said that the site had been chosen with a view to requirements.

FARMER FOUND DEAD IN BUSH.

Maple Creek, Man., March 13.—The body of Joseph Wilson, a farmer, was left home three days ago to go for a load of wood, was found in the bush 20 miles from here, to-day.

DEAD FROM HICCUGHS.

Ottawa, March 13.—Felix Latour, a Hull barber, died to-day in a fit of hiccoughs.

Go This Week.

Take a trip to Niagara Falls, delightful for a pleasant week-end visit. Canadian Pacific trains, the scenic route, leave at 7.50 a.m., 3.55 p.m. and 5.30 p.m. Fast time and fine equipment. Always stop at Victoria Park Station, convenient for hotels. Call at C. P. R. city ticket office, corner King and Yonge.

Martha Hickey, P. Kelly, James Doyle and Thomas Cook, all from Cobalt, are in the city just now, registered at the Empress Hotel. Mr. Hickey, speaking on behalf of the party, stated that everything is booming in his district.

TWO GREAT CAR FERRIES UNDER CONSTRUCTION HERE

Shipbuilding Industry Becoming an Important One for Toronto and Could Become Greater

The coming season, now so close at hand, when the great lakes system and navigable rivers will witness from the dormancy of winter conditions to the life and activity of travel, trade and transportation, will represent a tonnage of merchant marine and passenger steamer service unequalled in the past history of fresh water navigation. Notwithstanding the increase in the carrying service, the millions of bushels of grain of last year's crop, which, owing to weather conditions, lack of engines and rolling stock, is still at the upper lake ports or in the western interior, the millions of bushels which are being piled up in the supply, the hundreds of thousands of tons of coal required to be conveyed to railway lake ports for distribution throughout the west, with the regular natural and necessary trade of the season, will doubtless tax to the utmost capacity everything afloat capable of transportation.

Ship owners and others able to speak authoritatively hope for a late opening, as there is a probability that when navigation begins early, with its concomitants of ice and tempestuous weather, which play such havoc in damaging ship bottoms.

Car Ferries Building. The Poison Iron Works & Shipbuilding Co. are building a steel car ferry for the Ontario Pacific Car & Passenger Co., to ply between Prescott and Ogdensburg winter and summer, being a ice-breaker in strength and design, to cost a quarter of a million dollars. They have also in various stages approaching completion several cargo steamers, and their larger eastern tributaries for Cote, Darwin & Co., and are also building two powerful tugs for Rideau and Trent Canals, a dredger of the dipper system for British Columbia, and one of hydraulic principle for Toronto.

The Canadian Shipbuilding Company are also constructing a leviathan car ferry for the Rapids King, a new twin-screw passenger steamer for the R. & O. Nav. Co., for service between Montreal and Quebec, and specially designed for negotiating the rapids of the St. Lawrence, and will be completed in time for the initial trip at the beginning of the coming season.

They also have in the Toronto yards, a new twin-screw passenger steamer for Muskoka Lakes, and are under construction to ply between Port Hope and Charlotte. It will be serviceable in winter and summer, being of very heavy design, with two powerful boilers, twin screw and a capacity of twenty-eight loaded cars, and now in the final stages of construction, approaching launching.

New Passenger Steamer. They also have built and launched—on Jan. 8—the Rapids King, a new twin-screw passenger steamer for the R. & O. Nav. Co., for service between Montreal and Quebec, and specially designed for negotiating the rapids of the St. Lawrence, and will be completed in time for the initial trip at the beginning of the coming season.

A Government Order. A quarantine steamer for the Dominion government is also being completed at the company's Toronto yards. At the company's Niagara yard, opposite the Black Rock, are under construction a steel bulk cargo steamer, length 506 feet, beam 55 feet, depth 20 feet, for the St. Lawrence, and the Steam Navigation Co., and a steel bulk cargo steamer 460 feet long, 53 feet beam by 22 feet depth, to be used in the coal and grain trade, for the Hamilton & Port William Navigation Co.

Just what is being turned out of the Canadian Shipbuilding Company's yards alone means an addition to our lake and river fleet of a million and a half tons, but the large and important industry would attain still larger proportions were the Canadian government to properly encourage the shipbuilding industry, so as to protect it against the unfair competition of foreign vessels. The Grand Trunk, now enters free into Canada, while the Canadian builder has to pay duty on large amounts of material and apparatus entering into the construction of vessels.

George Martin, a colored man of no home was observed attempting to steal a pair of shoes from a display rack in front of Turner's establishment on East King-street. He was arrested by Detective Archibald, E. C. Davies, who has been laid up for some weeks with a sprain of the arm, on deck and wishes to thank his many friends for their kind enquiries during the period of his forced absence from active intercourse with them.

Is Your Nose Stuffed With Cold?

Don't load down your stomach with cough medicine. Send healing medication through the nostrils—through the passages that are inflamed with Catarrh. Easily done by inhaling Catarrhazone, which relieves colds in ten minutes. Even chronic catarrh and bronchitis yield to Catarrhazone, and it cures in a short time.

Pleasant to use, guaranteed to cure and so safe a child may use it. Get Catarrhazone, large \$1.00 size, absolutely guaranteed; small (trial) size 25c, all dealers or; N. C. Polson & Co., Hartford, Conn., and Kingston, Ont.

Stand a bottle of Port Hope Ale on its head and no sediment clouds its clear perfection. That's how it really is

good ale —this!

Made of Highland Spring water, rich Canada malt and Kenish hops—honest, old-time good ale, this.

Port Hope Pale Ale

Ripened ale, too—'twon't make you bilious. Women like it—it builds the body. Your dealer ought to have it in quarts and pints—be sure about the name. 101 THE PORT HOPE BREWERY AND MALTING CO. Port Hope, Canada

Family trade supplied on receipt of telephone order to: D. Small, Main 1768, 24 Elizabeth-street, Toronto, Ont. Mails 2772, 628 King-street West; T. Walker, Main 6268, 212 Queen-street East; T. A. Woods, Park Hill, 302 Dundas-street West, Main 1900, 502 Adelaide-street West.

The Name, Please?

There is only one RIGHT name for the beautiful amusement gardens we are building on the Lake Ontario beach, Queen st. east. That name is in some one's brain, and we will pay \$100 to get it out.

CONTEST CLOSES MIDNIGHT, SAT. MARCH 10.

Nature made Ontario's new pleasure park beautiful with groves of trees, a brook, a tiny island lake, and a stretch of glorious beach. We will multiply its beauties by sight with twinkling clouds of electric lights. We will add to it two score of mirth-provoking amusement devices which will charm every amusement seeker, and most of all the ladies and children, who will be our chief and most welcome patrons. Our special attractions will include:

- The Scenic Railway. Chute the Chutes. Whirlpool Rapids. San Francisco Earthquake. Infant Incubators. Afrship Swing. Carousel. Third Degree. Steamboat Tours. Boating and Water Sports. Mid-air Acrobatic Performances. Bump the Bump. Electric Tower. Bathing Pavilion. Aladdin's Palace. Love's Journey. House of Nonense. Laughing Gallery. Penny Arcade.

And a hundred other attractions, including a well-appointed cafe. We, the Toronto Park Company will pay

\$100

to the person who first suggests the best name. If this name is received from two or more persons on that day the prize will be divided, but only in this event. Send a post-card to-day (marked "Name Contest") with your choice to

THE TORONTO PARK CO. Limited. BOX 16, TORONTO.

GET INCREASE OF A DOLLAR A WEEK.

The brewery workmen yesterday settled their difficulties on the wage question for one year by signing an agreement with their employers yesterday afternoon. The men receive an increase of one dollar a week and a reduction of 2-1/2 hours in their weekly labor. The shops will be closed to all but union men. Mr. W. T. Kernahan said last night that the master brewers would reach a settlement shortly with their engineers and firemen.

OTTAWA THEATRE TO BE SOLD.

Ottawa, March 13.—The Grand Opera House is likely to change hands within a month. Parties interested in theatres locally are dickering for it. The J. B. Sparrow Company are the lessees. It may be used to oppose the Bennett interests.

BOY KILLS BABY BROTHER.

Fannyville, Man. March 13.—The 7-year-old son of F. W. Beattie, while playing with a gun in the absence of his parents, shot and killed his 3-year-old brother.

Real Estate and Building News

is a special feature of The Sunday World—Read what F. W. Fitzpatrick, executive officer of the International Society of State and Municipal Building Commissioners and Inspectors, says:

EXECUTIVE OFFICE 4200 PINEY BRANCH ROAD

WASHINGTON, Mar. 13, 1907

Dear Sirs:

You have my best wishes and heartiest congratulations. That Building Department of yours is bound to be a success and by its establishment you have shown a progressiveness that other metropolitan journals would do well to emulate. So far there is but one big daily, this side of the line, that has such a Department. That you have placed that venture in the hands of Ivan Macdonald, whose training and experience fit him admirably for the task, but still further assures its success.

Building is one of the great industries of the world, pretty nearly the greatest industry in our Western hemisphere. Few other industries involve anything like the capital this one does, and still fewer are so intimately connected with the layman's daily life. Yet it is the one about which the average layman knows the least. That Department of yours is a splendid vehicle for the carrying on of an aggressive campaign of education to familiarize the layman with the proper and safe as well as beautiful construction of his business establishment, his club, his church, his home, principally with a view to the elimination of the danger from fire to his own and to his neighbors' property and very lives. Mr. Macdonald can and undoubtedly will do some splendid work with that Department of yours; it will become not only a fixed institution with you, but a necessary adjunct to the welfare of your constituents, a benefit to the city and through it to the entire country.

Sincerely yours,

F. W. Fitzpatrick Executive Officer.

CANADIAN PACIFIC PLANS TWO NEW ATLANTIC LINERS

Fast Boats Are to Replace Empresses of Ireland and Britain, Which Will Go to the Pacific.

Montreal, March 13.—(Special.)—The Canadian Pacific has practically decided to build two new steamers for the Atlantic service, to take the places of the Empress of Ireland and Empress of Britain, which, it is understood, will be transferred to provide a faster and better service on the Pacific. This would release two of the present Empresses from the China and Japan line, and it is proposed to put these on the Australia and New Zealand route.

The trade on the Pacific has been increasing so enormously and the conditions of competition are altering so rapidly that these changes are considered to be absolutely necessary. Although the Empresses in the present service are excellent steamers, it is felt something better is needed to compete with the 12,500 ton turbines built for the Toyo Kisen Kaisha Line, and other mail countries.

New Zealand is offering an annual mail subsidy of \$100,000 for a direct service between one of its principal ports and British Columbia. The present Australia-Canadian service, which is conducted by the Union Steamship Co. of New Zealand, will be greatly

strengthened by the introduction of the Great Empresses, whose names would be changed to suit the geographical conditions of the new traffic in which they will be engaged.

As to the new Atlantic steamers, it is understood they will be larger and faster than anything now running on the Canadian Atlantic route, but nothing definite will be decided as to the character of the vessels until Sir Thomas Gresham pays his yearly visit to England. This probably will be early next month.

The new vessels, it is reported, will be capable of making considerably over 20 knots an hour—possibly 22 or 23. This will mean a great development in the north Atlantic.

TOWBOAT SINKS; FIVE DROWNED.

Pittsburg, March 13.—The tow boat Cruiser, one of the largest in the coal shipping trade on the Ohio River, is reported to have gone down near Zwickley, about 20 miles down the river from this city. Five of the crew are reported drowned.

GETS \$2500 FOR A LEG.

Berlin, March 13.—(Special.)—In answer before Chief Justice Mulock today, Daniel Foreman, a Maryland Township farmer, got a verdict for \$2500 damages against the Berlin & Waterloo Street Railway Company, following an accident, as a result of which he lost a leg.

Damage Suits.

Before Justice Magee in the jury session, Arthur VanKoughnet is suing the Toronto Trowel Supply Company for unstated damages on account of injuries sustained April 23rd last. He claims he was riding a bicycle west on Adelaide-street, when one of the defendants' wagons came down Victoria-street, and turning sharply into Adelaide-street, knocked him over, and his wheel and hand passed over his arm.

U.S. CONSOLIDATES FLEETS.

All Cruising Vessels on the Pacific To Be Under One Commander.

Washington, March 13.—Complete plans for the consolidation into one fleet of all American cruising vessels on the Pacific Ocean were made public by the navy department to-day. The order probably will go into effect about the end of this month, when Rear Admiral Brownson will become commander in chief of everything in the Pacific. Rear Admiral W. T. Swinburne will be commander of the second squadron and Rear Admiral J. H. Dayton will command the third squadron.

BOTH NAVAL AND MILITARY.

Prince Edward of Wales to Study the Sea and Join the Army.

Prince Edward of Wales, who passed before a medical board recently, and was pronounced fit, goes to sea, borne unaccompanied by his younger brother, Prince Albert. The original intention was that the two eldest sons of the Prince and Princess of Wales should go together to the Naval College, but it has now been decided that Prince Albert should follow his brother later on.

It is understood that the young prince is not destined for a naval career, but will follow more or less the same course of education as the late Duke of Clarence. After Osborne and Dartmouth he will go to one of the universities, and will eventually enter the army. The Prince and Princess of Wales have very strong ideas as to the education necessary to fit their eldest son for the great destiny which humbly speaking, awaits him, and no pains are spared to give the little prince every advantage, both physical and mental. Both in mind and body, Prince Edward is a very satisfactory specimen of English boyhood, and his sojourn at Osborne is likely to be the beginning of an extremely interesting career.

UNIVERSITY GOVERNMENT SHOULD BE MORE PUBLIC

Suggestion of Hon. A. G. MacKay—Irregularities in Advertising Private Bills.

Routine was the order of the day in the legislature yesterday and so much business was done in clearing the order paper and in supply that the house was adjourned at 5 o'clock.

Introduced by Premier Whitney and Dr. Smellie, William Arthur Preston marched up the floor of the house and applause and after the usual preliminary took his seat for Port Arthur and Rainy River.

Premier Whitney announced that General Booth would visit the legislature at 3.30 this afternoon. It is expected that a very cordial reception will be extended him, although the proceedings will be of an entirely informal nature.

Mr. Fraser's bill, which was among the first readings, will increase the bonding privileges of the Canadian Niagara Power Co. from \$5,000,000 to \$8,000,000.

In no session of this legislature have there been so many irregularities in the presentation of bills and petitions, was the statement made by Chairman Hoyle of the standing orders committee. He called special attention to the failure properly to advertise the measures introduced. The promoters should also be penalized for the violation of the regulations. The legal promoters were the worst in their neglect of the rules. They rarely gave evidence to the clerk of the house of the necessary advertising in the local press. In the first report of the committee, which Mr. Hoyle submitted, five bills had to be reported dead on this account, and

they could not be revived without a motion of the house. He thought no such action should be taken if the committee was of any importance to the house, except in very special circumstances, which did not sometimes arise.

should Warn Municipalities. Premier Whitney approved Mr. Hoyle's utterance. Every imaginable interest should receive notice of the intention of a private bill. The fact of there being a bunch of these delinquent propositions would render it easier for the house to deal with them than if there were only one. Unless it could be shown that some interest would suffer there should be no suspension of the rule.

In reply to Mr. Munro Hon. Mr. Reams repeated the details of the normal school contracts, as published several weeks ago. He advised that no sub-contracting could be done without permission of the department.

Premier Whitney stated that it was not the intention of the government this session to assist municipalities financially in stamping out smallpox and other contagious diseases. Mr. McColg raised the question.

The University Bill having come up for consideration, Premier Whitney stated that it had been made sufficiently clear that the government had no intention of making further grants to Toronto University for a number of years at any rate. It was necessary, to enable the erection of certain buildings which he specified, to grant borrowing powers. No loans could be obtained without the sanction of the Lieutenant-governor. The bill giving these powers was before the committee and Mr. Whitney assured the house there was not the slightest possibility of the government incurring any responsibility under the bill.

Publicity at Varsity. A. G. MacKay pleaded for a closer connection between the legislature and the university. The more they learned through discussion of the financial affairs of the university the better it would be for the university itself. He was surprised to hear that the governors of the university discussed its affairs behind closed doors and that the reporters were not admitted. The more the people knew about the university the greater would be their interest.

Premier Whitney was not aware that the governors sat behind barred doors. It was the first he had heard of. The bill with some amendments was reported. Ex-President London becomes a trustee under the bill, as amended, which accepts amendments of seven years' standing to this responsibility.

The house went into supply about 10 o'clock, and considerable progress was made before 6.

CURES DRUNKARDS

Mary's Miracle. The day of working miracles. I'm sure is far from past. And now to show you what I mean, I'll tell you of the last great one that happened right to me!

For I was part of it, you see. You know the life I used to lead—O God, a living death. A drunkard, of the hopeless kind—For scarce a sober breath I ever drew, and hope and pride were lost to me and nearly all beside.

One friend alone was left—my wife, God bless her every hour! She saved me from a drunkard's grave, And whiskey's wicked power. Just how she saved me you shall see. This is the way she told it to me.

When hope was almost dead within Her faithful, constant breast, She read of Dr. Haines' Cure, The "Without a Doubt" or Rest. She sent for one Trial Sample free. And gave it unbeknown to me!

I drank of it at every meal— I ate it in my bread, While Mary watched me anxiously. But never a word she said! Until one day I stopped to think, That I had lost my love for drink!

When quite unconscious I was cured, My Mary told me all; It seemed the very act of God— A modern miracle! I call it this, because my wife And Haines' Cure had saved my life.

And now my little story's done, My every word is true. And while this treatment did for me, The same 'twill do for you; And wives and mothers—one and all, Take heart of Mary's Miracle.

Save those near and dear to you from a life of degradation, poverty and disgrace. You can do it by cutting out this coupon.

Free Treatment Coupon. Fill in your name and address on blank lines below. Then cut out this coupon and mail it to Dr. J. H. Haines, 5791 Glenn Building, Cincinnati, Ohio. You will receive in return enough of the remedy to prove to you that it will cure drunkards in any form. You give it in tea, coffee or food. The drunkard will stop drinking without knowing why. You will also get books and testimonials to prove how hundreds have been saved.

Reduced Fares West. \$39.45 to British Columbia points; \$41.85 to Pacific coast points. These and correspondingly low rates to other places are for second-class one-way tickets, and in effect only until April 30. Together with the Canadian Pacific's excellent car service, they offer opportunities for a very cheap and comfortable trip west. Full particulars at C. P. R. city ticket office, corner King and Yonge streets.

Canadian Military Institute. A lecture has been arranged for by Lieut. J. Sutherland Brown, Royal Canadian Regiment, on the subject of "The Movement and Conduct of a Minor 'Patrol'" on Saturday evening next.

DEPUTATIONS SEE MINISTERS.

Wednesday is deputation day at the parliament buildings, and a number of bodies approached the government in this way yesterday.

Hon. Dr. Ryne received a deputation from the Bilingual Educational Association of Ontario. On the deputation were Messrs. P. M. Cote, chairman of the Ottawa Separate School Board, and A. Bealager, president of the Bilingual Association of Ottawa. Rev. Father Labre, Suburb; Rev. Father Forget, Auburn; Rev. Father Le Marche, Toronto. They were introduced by A. Aulin.

The qualifications of members of religious orders teaching in separate schools were discussed, and it was requested that the decision recently given in the Gratton case be enforced, with due regard to its effect on those engaged in teaching for a long period, and with respect to the effect on the schools themselves.

Aid for the Temagami and Northern Ontario Railway was taken by deputation from Sturgeon Falls. Dominion support has been given one branch, but the French River branch has had no assistance. Hon. Frank Cochrane and Dr. Reame promised consideration.

Wallace beet-sugar factory requested an extension of the bounty of from three to five years. A promise to extend it for two years has been made. Hon. J. G. MacKay, D. A. Gordon, M. P., preferred the request, and was favorably received.

Floods on the low-lying lands around the Thames River in the south-western part of the province have caused the inhabitants of that section to appeal for aid. It is proposed to build a wide cut from the Thames to Lake Erie, eighteen miles long, to carry off surplus water. Several lives have been lost, and \$50,000 worth of property from the floods in twenty years past. The railways are also interested, their tracks having been washed out. The Dominion government have taken up the matter, and the province

will probably send an engineer to go over the ground and report. A. B. McColg and P. H. Bowyer introduced the deputation, which included Mayor Stone, Chatham, and Warden Somers.

SIXTH-WARD "SMOKER." Inspiring addresses were delivered by Thomas Crawford, M.L.A.; Mayor Coatsworth, Ald. McGhie, H. C. Birmingham and others at the Ward Six Conservative smoker, held at Oddfellows' Hall, corner Sheridon avenue and Dundas street Tuesday night. David Spence presided.

H. C. Birmingham spoke strongly in favor of more organization in the city sub-divisions.

The mayor had but a few minutes to spare. He stated that work would be started on the Lansdowne-avenue subway as soon as the frost was out of the ground.

Mr. Sheard, an old-timer, made a speech which showed that age cuts no figure in the silver-tongued art.

Thomas Crawford was strongly in favor of the city controlling Niagara power.

Ald. McGhie stated that the bill of rights granted the Canadian North for an entrance from the east, that it was the only road which had its head office in Toronto and the city would no longer be sidetracked. Montreal had had all the good things for too long. It was time Toronto had a share.

OTTAWA HOUSE, CUSHING'S ISLAND. New Management Will Take It Over This Year. Montrealers and those who have for many years made Casco Bay their haven for the summer months will be interested in knowing that the Ottawa House on Cushing's Island, Portland Harbor, Me., has been leased by E. W. Boyce of Boston and F. W. Hatfield of New York. Both these gentlemen are prominent in the better class of hotels and their names are synonymous with a successful season for the Ottawa next year.

Mr. Hatfield is also interested in the Hotel Marlborough, New York City, and was recently the lessee and proprietor of the Hamilton Hotel, New York City. Hatfield is a well-known New York hotel man, being the manager of some of the best hotels in that city, and at present being connected with the Martha Washington.

The officers of the new company are at the Marlborough Washington Hotel, New York City. The Ottawa will be opened the latter part of June and kept open until about the middle of September.

Congressional Party Having a Splendid Cruise to Panama. A cable message received from Capt. Reesing of the Hamburg-American Line steamer, dated St. Thomas, March 10, states that the members of the congressional party on board, who are making a cruise to the West Indies and to the Panama Canal, are having a most excellent time. On Friday evening a splendid reception was given in honor of Hon. Jos. Cannon, Speaker of the House of Representatives, to meet his fellow passengers. The promenade deck was superbly decorated with American flags. Speeches were made by J. Van Specker and Representatives, W. Veatchen Olcott, James S. Sherman, Jas. R. Mann, Hon. J. Hampton Moore acted as toastmaster.

Appointed Assistant Actuary. J. B. McKee, M.A., A.I.A., has been appointed assistant actuary of the Manufacturers' Life Insurance Company. Mr. McKee joined the actuarial department of that company about four years ago, and has been since very closely associated with the actuary, P. C. H. Pappas, A.I.A., F.A.S., of the work of the department. He is an honor graduate in mathematics of Queen's University, and took a high stand in the examinations which entitled him to his degree as an associate of the Institute of Actuaries. He is also an associate of the Actuarial Society of Toronto, and is well-known in Toronto during the session of 1905-06.

In the Police Court. Edward Pleton, for disorderly conduct in a street car, was yesterday fined \$5 or thirty days. William Bolton was committed for trial on a charge of assaulting his mother-in-law, Mrs. Mary Peet.

TRY ZAM-BUK at our expense. Send this coupon, in stamps and the name of your doctor, to Zam-Buk Co., Toronto, and we will mail you free sample box. 321

FOR 25 YEARS

HANDS SO BAD OBLIGED TO WEAR GLOVES DAY & NIGHT

ZAM-BUK, the great herbal balm, has just worked such a sensational cure in Montreal that it has set the city talking. Mr. T. M. Marsh, of 101 Delorimier Avenue, is the grateful subject of this cure. He says: "For 25 years I had eczema in my hands. It started in red blotches, which itched and burned so that I felt I could almost scratch the parts away. Then after the itching came the pain and the soreness. Great open wounds formed and set up terrible agony. I went to a doctor when first the trouble started. He did me no good and I tried another. He also failed, and I tried a third and then a fourth. My case baffled them all, and I paid my money for no good. Then I tried embrocations, and salves, and liniments, and creams, and preparations recommended by druggists and by friends alike. It was no good. The eczema continued, and I never believed I could be cured. Fancy suffering in that way for 25 years! For the past two years my main irritation, were so bad that I was obliged to wear gloves day and night. "Zam-Buk was brought to my attention and I tried a little. To my amazement it did me good. I bought another box, and it did still more good. I tried another, and to my intense delight this herbal balm did what I had been hoping for for 25 years—it cured me. My hands are now healed, and I have put away the gloves which, for two years, had been indispensable to me. I have been well-known in Montreal and Eastern Ontario for over 30 years, and my case is one which hundreds of people know of. I am glad to make the facts known in the interests of other sufferers who may not yet know how superior and how wonderful Zam-Buk is."

WHAT ZAM-BUK CURES, AND WHY. ZAM-BUK can do what other ointments fail, because it is free from all animal fats and oils and from all mineral matter. It stands alone in its peculiar composition, being made entirely from herbal saps, essences and oleo-resins—due to Nature's own coloring, as in the leaves of the forest and the herbs of the field. ZAM-BUK heals all skin diseases—eczema, scaly sores, ulcers, ringworm, poisoned wounds, barber's rash, pustules, face blemishes due to blood poison, chapped hands, cold cracks, etc. It heals cuts and lacerations, stops bleedings, enlarged veins, it cures burns and scalds, and it is an excellent "first aid" remedy. It is highly antiseptic. All Druggists and Stores sell at 50 cents a box, or from ZAM-BUK CO., TORONTO, for price. Note free sample offer herewith. 6 boxes for \$2.50.

Zam-Buk THE HOME "FIRST-AID."

DEPUTATIONS SEE MINISTERS.

Wednesday is deputation day at the parliament buildings, and a number of bodies approached the government in this way yesterday.

Hon. Dr. Ryne received a deputation from the Bilingual Educational Association of Ontario. On the deputation were Messrs. P. M. Cote, chairman of the Ottawa Separate School Board, and A. Bealager, president of the Bilingual Association of Ottawa. Rev. Father Labre, Suburb; Rev. Father Forget, Auburn; Rev. Father Le Marche, Toronto. They were introduced by A. Aulin.

The qualifications of members of religious orders teaching in separate schools were discussed, and it was requested that the decision recently given in the Gratton case be enforced, with due regard to its effect on those engaged in teaching for a long period, and with respect to the effect on the schools themselves.

Public Amusements

Wilton Lockaye is to appear at the Princess Theatre soon in his own version of Victor Hugo's celebrated novel, "Les Miserables," which he calls "The Law and the Man." The star and his manager, Wm. A. Brady, have had the project in view for several years, and ever since the matter was first broached Mr. Lockaye has been working on the piece, which is in a prolog and four acts. When the last which confronted Mr. Lockaye may be had "Les Miserables" overthrow a monarchy, caused the penal code of France to be revised and gave the system of sewers to the world.

"Peggy From Paris" the George Ade musical comedy which will be at the Grand all next week, is notable for its comedy characters, Mr. Deane's humor has displayed itself not alone in the lines and speeches, but in the types of persons he cleverly caricatures. This feature of the musical comedy adds decidedly to its interest.

Thrilling situations and comedy incidents tried on each others' heels in the new sensational melodrama, "The Gambler of the West," which will be presented at the Majestic Theatre next week. Owen Davis is the author. Trained horses, cowboys and Indians are accessories and a wild west parade, led by the famous Cowboy Band, is given each day.

The famous English comedienne, Katie Barry, will head the bill at Shea's Theatre, a special extra attraction. Mr. Shea has secured Wilfred Clarke and company in a new sketch. Other attractive features are the magnificent Kaiserin Auguste, Quinlan & Mack, Orth & Fern, Wesleyes, the Italian Trio and the Kinetograph.

"Running for Mayor" and "A Politician's Vacation" are two farces of the "Merry-makers," which is booked for an engagement at the Star next week. Both are up-to-date in construction and humor and are exceedingly well staged. The "Merry-makers" is a burlesque organization of sterling merit.

The Pure Food Show will be opened on Monday, March 18th, by the worship of the mayor of Toronto. The practical demonstrations of cooking by the staff pupils of the Lillian Massey School of Practical Science, will be a notable feature of the exhibition. The decorations of the booths, most of which are of a high standard, will be a considerable feature in themselves. Paris Chambers, the world's greatest confectioner, has sent programs for the afternoons and evenings of the eleven days, giving 44 different recipes. The quality of his playing is shown by the composers he represents, such as: Brahms, Tchaikovsky, Massenet, Fandel, Grieg, Verdi, Liszt, Richard Strauss, Liszt, Chopin, Liszt and Gounod. The musical program in itself is one of great interest and attraction.

To-night furnishes the last opportunity for hearing, for some seasons, the greatest violinist, Miss Marie Hall. The program is as follows: 1. Symphonie Espagnole—Allegro—Moderato—Andante—Rondo—Eduard Lalo 2. (a) Des Abends; (b) Grillen; (c) Aufschwung—Schumann 3. Introduction and Rondo Capriccioso—Saint-Saens 4. (a) Study in G Major; (b) Study on the Black Keys—Chopin 5. (a) Campanella—Paganini—Liszt 6. (a) Romance—Liszt 7. (a) Zephyr—Hubay 8. (a) Minuet—Beethoven 9. (a) Gigue—DeAngelis 10. Miss Marie Hall.

Soldiers on Parade. The spring drills of the city regiments commence: March 27, Q.O.R.; March 28, Royal Grenadiers; April 5, 4th Highlanders.

Province Receives \$100,000. The succession dues from the estate of the late T. R. Wood have all been paid to the province and total \$100,000.

WHO'S GOT THE BUTTON? The finder of badge or button No. 38, Toronto Fire Department, will confer a favor by returning same to Wilton-avenue fire station. A reward is offered.

The Empire Club. The guest at to-day's luncheon will be Prof. G. Oswald Smith of the University of Toronto, who will address the members of the club on "The Roman Occupation of Britain and a Comparison Between the Roman and British Empires."

The new steamers of the Hamburg-American Line, that are to enter the service during the present year, have been renamed the President Lincoln and President Grant, instead of the Berlin and the Boston. The steamer now building in Belfast, a sister ship of the magnificent Kaiserin Auguste Victoria, will retain the name Europa.

Provides Postoffice Site. Kincardine will provide a site for its new postoffice, the bill with this object having passed the private bills committee yesterday. The corporation may also lease certain newly-ferried lands on the lake shore.

Two hours were spent on a bill to confirm Brampton bylaw to erect a \$20,000 Carnegie library on lands set apart for market purposes. Another proposal is to erect a musical college on an opposite corner of the market grounds. A law suit is pending over the library. The bill was reported with the proviso that a vote of the people be taken on the matter.

FREE TO MEN UNTIL CURED

All men with very few exceptions were made strong and should be so through life. Many have abused this grand privilege and through dissipation have become weaklings, puny, lack confidence, can't face the slightest difficulty, have drains, losses, impotency, varicocele, rheumatism, lame back, etc., and are mere playthings in the hands of their associates. How deplorable! But all these men can be made full of strength, vigor and life if they will only turn to the right source. Electricity cures these cases. I have been curing thousands every year for nearly forty years. So positive am I of what my world-famed Dr. Sanden Electric Belt will do that if you will call or send for one you can use it.

FREE UNTIL CURED Not a penny on deposit or in advance. I will take your word for results, and only charge price of belt—many cases as low as \$4. My wonderful success has brought forth many imitations of my belt, but my valuable experience to advise and guide my patients cannot be imitated. It and my belt can be had free until a cure is effected, but only at address as below.

Call accurate one to-day, or write. I also send two best books ever written upon health and strength of men. Free, sealed, by mail.

COBALT--- Mining Stocks Demoralized With Other Markets ---COBALT

THE COBALT DEVELOPMENT CO., LIMITED

Incorporated Under the Ontario Mines Companies Act.
Capital \$5,000,000, Divided in 5,000,000 Shares of \$1 Each

OFFICERS
EWAN MACKENZIE President
THOMAS AIKENHEAD Vice-President
FRANK H. POTTS Secretary

DIRECTORS
EWAN MACKENZIE, Railroad Contractor, Toronto, Ont.
THOMAS AIKENHEAD, President, Aikenhead Hardware Co., Toronto, Ont.
F. K. MCINTOSH, Proprietor, P. McIntosh Food Company, Toronto, Ont.
HENRY McNAUGHTON, ex-County Clerk, Rochester, N.Y.
G. STEVENSON, Broker, Toronto, Ont.
J. P. MILLS, Troqueville Motor Company, Buffalo.
A. B. BICKERSTAFF, Secretary Automatic Transfer Company, Toronto, Ont.
W. G. CAMPELL, Director Union Dairy Company, Toronto.

BANKERS—The Crown Bank of Canada.
SOLICITORS—Messrs. Bicknell, Morine, Bain & Strathy.

An investment which will not only yield big dividends, but will increase in value a hundred-fold in the next few years. A limited block of this stock is now placed on the market at 20c per share; \$20 will buy 100 shares; \$200 1000 shares; \$2000 10,000 shares. Rush orders.

THE PROPERTY

The east half of the northwest quarter of the south half of lot 6, in the 6th concession of Coleman Township.
2. The southwest quarter of the south half of lot 7, in the first concession of Buke.
3. The 40-acre claim in the Township of Coleman, Anima-Nipissing District, adjoining claim No. 1404 1-2.
4. Twenty acres in the Township of Coleman, Anima-Nipissing District being the north half of the southeast quarter of the north half of lot 19, concession 3.
5. One 40-acre claim in the Anima-Nipissing District, being mining claim No. 1404 1-2, known as the "South Claim," situated about three-quarters of a mile west of Bay Lake, and about one mile north of Anima-Nipissing. Total 160 acres.
6. 4000 lots in the townsite of North Cobalt, beautifully situated on the west shore of Lake Temiskaming, containing 500 acres, close to the Green-Meehan and Red Rock properties, and only 300 miles from Toronto, on the Temiskaming and Northern Ontario Ry., and is sure to be the coming summer resort, as there is good fishing, boating and bathing. The finest scenery, most interesting surroundings, and a very bracing climate.
These lots alone, in a year or so, will be worth the full capitalization of the company. The mining properties of this company are far better value than a great number of properties now in the market at double the price, without the townsite, which practically acts as a security, which is sure to increase in value every year, and protect every shareholder in full for his investment, with the chance of making very large money out of the development of the mining property.
Our shares will be increasing in value from year to year, and in three years from now should sell on the open market for \$10.00 a share from the dividend it will then pay.
Parties wishing to secure an allotment can do so by wire or by letter, as there is no doubt every share will be subscribed for shortly. Shares will be issued in the order in which the applications are received.
Call or write for prospectus, reports, maps, etc., giving full information.
All drafts, cheques, etc., may be made payable to the order of OWEN J. B. YEARSLEY.

OWEN J. B. YEARSLEY, Banker and Broker
Member of the Standard Stock Exchange.
61-62 Confederation Life Building, Toronto

MARKET VERY NERVOUS AT HEAVY DECLINES

Prices for Cobalt Stocks Follow the Action of Markets for Other Securities.

World Offices.
Wednesday Evening, March 13.
The markets for mining shares were in a state of semi-demoralization to-day. Standard securities at the New York and Canadian exchanges were sacrificed regardless of value, and the sympathetic action of the mining stocks was regarded as perfectly natural. The liquidation at the Toronto mining exchanges was helped along by rumors injurious to prices. One of these was that the quarterly dividend on Foster was to be passed, but there was nothing better than surmise to warrant this statement. The buying power was enfeebled by the state of the market, and such rumors as these and prices were easily forced down without real liquidation. Losses were registered throughout the entire list and shares were difficult to sell at the close of the market. The market is in a highly nervous state and pending a settlement of outside opinion prices must necessarily be irregular, if not lower.

FURTHER INFORMATION

On the Dealing at the Nipissing Property.
Editor, World: Not only are the Canadian shareholders of Nipissing waiting up, but we are pleased to note that the officers and directors have taken notice of the fact, and have decided it is time to make some sort of explanation to shareholders.
We notice in an article in yesterday's World that Ex-President Earle paid a visit to Toronto last Tuesday. In connection with this visit, Mr. Earle, solicitor of the Nipissing Company. We are sorry that Mr. Earle could not find us, or could not find anyone who would mention the matter to Mr. Fasken, he would have been enlightened on the subject, because we are pleased to see a photograph and a reputable mining engineer to the Nipissing to prove our statements.
When Mr. Earle was in Toronto, he talks foolishly.
"When Mr. Earle does not, however, say in what respect, nor is he reported to have talked about vein 40 himself. We are pleased to see that Mr. Earle has taken notice of the fact, and if the company see fit to grant us permission, we will be pleased to send a photograph and a reputable mining engineer to the Nipissing to prove our statements.
Many inquiries we have received from shareholders, it is evident that they are very solicitous about this matter. It is also apparent that shareholders are not entirely satisfied with existing conditions, judging from the large number of letters we are receiving. Whether or not the shareholders are in a mood of revolt, we have no means of knowing, and under the circumstances, it would seem that the best course would be to let Mr. Earle's statement stand as it is.

NORTH COBALT HOTEL COMPANY

(TO BE INCORPORATED)
Capital \$500,000, in shares of \$1 Each.

Objects of Company to build Hotels and a Theatre on the town-site of North Cobalt.
An option has been obtained from the Cobalt Development Company securing a good site for this, where drainage is convenient and adjacent to the railroad. The Cobalt Development Company will not ask any money for land, but will take shares in this Corporation.

GOOD AS THE SILVER
The Hotel Properties in Cobalt, Haileybury and New Liskeard have made as good returns to their owners and stockholders as have the Foster, Tretlawey and other now famous producing mines.
Look Carefully into this Hotel Situation Before Investing Your Money Elsewhere.

NORTH COBALT BUILDING COMPANY

(TO BE INCORPORATED)
Capital \$500,000; 500,000 Shares \$1 Each.

Objects of this Company to erect buildings in North Cobalt.
The Cobalt Development Company will agree with the incorporators of this Company to set aside every tenth lot in the townsite and will take fully paid shares in North Cobalt Building Company for the lots.
Investigate this Company—Houses in North Cobalt to-day are paying from 25% to 40% per annum to the owners.

Intending investors in either of the above Companies' stock write, wire or phone Main 5710—

STRIKE AT LARDER LAKE SHOWS HIGH VALUES

Current Topics of the Cobalt Camp and Larder Lake Mining Territory.

Cobalt, Ont., March 13.—(From the Main of the Spout.)—The Buffalo Mine is loading two car loads of ore this week. A 30-ton car was shipped yesterday, and another goes to-day, both containing first-class ore and they are sending this ore to the Copper Cliff smelter. The O'Brien mine has also shipped two car loads this week; one, a 32-ton car of high grade ore, went to Copper Cliff, and the other of similar capacity to New Jersey. This was second grade ore. This mine will henceforth ship two car loads of ore weekly, which is certainly good some. The Province of Ontario is largely interested in the shipments from this property, as it has a 25 per cent interest in it. The large cage ordered by the O'Brien Company for their shaft is on the ground and will be installed immediately. This will enable the mine to run the various ore cars which are at the different drifts at the different levels of the mine to be run right into the cages, up a shaft and then to the ore house on the dump.
Poster Plant in Shape.
The Foster-Mine is installing a similar cage, which was received at Cobalt Station yesterday.
The new plant at this mine is in operation.

STOMACH TROUBLES

To wrong action of the stomach and impaired digestion a host of diseases owe their origin.
When the food is imperfectly digested the fullness is not derived from it by the body, and then stomach troubles start to appear.
Thus you become thin, weak, nervous and debilitated, energy is lacking, brightness, snap and vigor are lost and in their place come dullness, dizziness, loss of appetite, depression and languor. The great point is to get the stomach back into good shape again so it can properly digest the food, and the easiest, quickest and best way to do it is by the use of
BURDOCK BLOOD BITTERS
Miss Lizzie Furlotte, Jacques River, N.B., writes: "I was very much troubled with my stomach and did not know what to do. I consulted several doctors, got medicine from them, but all to no purpose, and was constantly growing worse. One day I had the good luck to meet with a friend who had been troubled in the same way as myself. My friend told me of the wonderful cure Burdock Blood Bitters had with her, and advised me to try a bottle. I did so, and what a happy change the first bottle made. I took two more and am completely cured, and I shall ever sing the praises of B.B.B."
Bottle \$1.00 per bottle or 6 bottles for \$5.00.

tion and its condition was never better than it is at present. The Buffalo Mine is loading two car loads of ore this week. A 30-ton car was shipped yesterday, and another goes to-day, both containing first-class ore and they are sending this ore to the Copper Cliff smelter. The O'Brien mine has also shipped two car loads this week; one, a 32-ton car of high grade ore, went to Copper Cliff, and the other of similar capacity to New Jersey. This was second grade ore. This mine will henceforth ship two car loads of ore weekly, which is certainly good some. The Province of Ontario is largely interested in the shipments from this property, as it has a 25 per cent interest in it. The large cage ordered by the O'Brien Company for their shaft is on the ground and will be installed immediately. This will enable the mine to run the various ore cars which are at the different drifts at the different levels of the mine to be run right into the cages, up a shaft and then to the ore house on the dump.
Poster Plant in Shape.
The Foster-Mine is installing a similar cage, which was received at Cobalt Station yesterday.
The new plant at this mine is in operation.

Why Not Protect Stocks?
The camp wonders why the men who put these stocks on the market do not protect them. Take the Green-Meehan. This stock was given to the brokers at \$1.40 and was handed out to the public at \$1.60 and the camp bought largely at \$1.70. There has apparently been an attempt to protect this stock, and there is a growing opinion that while Canadian management may be honest, it is not up-to-date.
Nip Ships Second Grade.
Last week the Nipissing shipped two car loads of ore, the result of development work, and it is pretty safe to guess it was second grade ore. The management of the Colonial state that their shipment of last week will be followed by regular shipments. Their work at present is chiefly tunneling. This will enable the mine to run the various ore cars which are at the different drifts at the different levels of the mine to be run right into the cages, up a shaft and then to the ore house on the dump.
Model Buildings.
At the King Edward a model set of camp buildings, power house, etc., have been completed. The model set has been installed and most of their work is at present confined to tunneling into the cliff on the shore of Cross Lake. The new power house at the Beaver Mine is completed and ready for the installation of the plant, which has been ordered, and is expected to arrive any day. The workings on this property are only about 500 yards distant from the Temiskaming.

Progress Mine.
Superintendent Grover, who is in charge of the Progress Mine, which adjoins the Temiskaming, reports that he has his steam plant installed. The shaft on this property is now down about 70 feet and will be continued to a depth of 200 feet. They have just got into a good ore body here, and their vein shows up a width of 4 inches of Cobalt with good silver values.
Ready for Spur.
This southerly extension of Cobalt camp looks exceedingly promising, and the management of the various mines and properties is confident that by the time the Kerr Lake extension of the T. & N.O. Railway is completed there will be at least half a dozen new shippers down in this end.
West African Miner.
R. C. Frewen of Cobalt is an enthusiastic prospector of the former in a claim surrounding country. He worked several years in Africa and spent six months in the West African gold mines, which have been called the "White Man's Grave." For the past 18 months Mr. Frewen has been living in the Temiskaming district and has done a lot of prospecting in different parts of the camp. He has just returned from Larder and declares the formation is a claim similar to the Tarkwa Banket Gold Fields in West Africa. Unlike the Cobalt, enrichments which occur in veins, two-foot veins are found in reefs many feet wide.
Thousands of Dollars to Ton.
One of the most valuable discoveries made at Larder is one that was made last week by a prospector known as "Big Ben," who is working on a claim about four miles north of west from Marskey & Ulmer's "Larder Lake Property." He found a two-foot vein of black quartz and schist, having gold splashed thru the entire width of the vein and the ore, knotted off any part of this vein, will, according to the

opinion expressed by old gold miners, run up to thousands of dollars per ton. Mr. Frewen has located a Larder claim which in addition to good gold values, carries 70 ounces of silver to the ton.
Frank Burr Mosour.

New Face at Standard Exchange.
Clarence Charlton was yesterday introduced to the members of the Standard Exchange as exchange representative of J. L. Mitchell & Company.

Ruby Silver Company.
Several properties in the neighborhood of the Red Rock and Green-Meehan are making preparations for an active summer's work. The Ruby Silver Company, who owns the lot immediately west of the Red Rock, is considering the advisability of placing a limited amount of stock on the market to increase its working capital.

Smelter for Kingston.
Kingston, March 13.—A company with a capital of half a million dollars is seeking to locate a smelter for Cobalt ore in this city, and will lay a position before the council. The plant erected will cost \$100,000, and \$1200 will be paid weekly in wages.
The advantage of this is its easy access to the coal deposits of New York State.

The Woods Company.
Mining Brokers, 75 Yonge-street, report an active demand for mining claims and the standard Cobalt stocks. Deals are about closed for several large mining properties which they are offering. They have claims for sale in all the silver districts and in the Larder Lake district, about 50 claims, of which about 20 have changed hands within the past week.

PRESENTATION TO DR. J. A. ELLIOTT.
Gravenhurst, March 13.—(Special.)—Dr. J. A. Elliott, who is retiring from the position of physician in charge of the cottage sanitarium, was last night given a farewell by the resident patients. He was presented with a handsome traveling bag, and an address was read, bearing testimony to his valuable services to the institution during the past nine years. A pleasant feature of the farewell was the singing by the patients of a song, "Love the Sound of the Sea," by Mrs. (Dr.) Mabel Tait Elliott. Dr. Elliott leaves for Toronto in a few days, where he will take up private practice. He has made a host of friends in this town.

THE PRESS CLUB.
The Press Club last evening had for the guests of honor Dr. A. S. Vogt and Hon. J. W. St. John.
Dr. Vogt gave an interesting talk on "The Musical Culture of the People of Ontario," which he said, was not excelled anywhere.

DUEL IN PARIS TO-DAY.
Paris, March 13.—Henri Rochefort, the well known editor of "The Straight" and Michael Pelletier, a lawyer, will probably fight a duel to-morrow in consequence of an exchange of recriminations in the courts to-day.

BACKS UP MORTON
In His Fight for Information on the Nipissing.
Dear Sir,—I see by the Toronto World that you are asking for copies for a Nipissing meeting. I hope you will be able to get a clearer statement from the management than the wishy-washy "report" of Dec. 22. In that report you did not state clearly the reports of the balance sheet would be a good thing also. I do not know any of the present management, but I think it was a good thing to get rid of the old management.
Please send me your circulars and articles.

THROAT COUGHS
Ask your doctor about these throat coughs. He will tell you how deceptive they are. A tickling in the throat often means serious trouble ahead. Better explain your case carefully to your doctor, and ask him about your taking Ayer's Cherry Pectoral. Then do as he says. Get the best medicine, always.
We have no secret. We publish the formulae of our preparations.
J. C. Ayer & Co., Lowell, Mass.

ing for a report of the meeting in the World. Yours truly A. N. Brown.

2000 HOMELESS IN FIRE.
Church Bell Aves Italian Peasants by Ringing THE Last Moment.
Milan, Italy, March 13.—About 2000 peasants were rendered homeless at Borzano to-day by a fire, which destroyed many houses.
The only building left standing in the section was the church, the bell of which, continued ringing for help until the last moment, which the peasants considered to be a miracle.

MORGAN SAILS FOR EUROPE.
New York, March 13.—J. P. Morgan sailed for Europe to-day on the SS. Baltic. It is not known how long he will remain abroad.

THE FLYING OF THE FLAG.
Deputation of Daughters of Empire Wait on the Premier.
A large and influential deputation of members of Chamberlain Chapter, Daughters of the Empire, yesterday waited on Premier Whitney with reference to regulations respecting the flying of the Union Jack especially by the schools, and also regarding the display of foreign flags. The deputation was introduced by W. K. McNaughton, M.L.A., and was accompanied by J. B. Murray, Mr. Fisher-Townsend and J. J. Wickham of the Navy League. Miss Constance Boulton presented the request of the chapter, which asked that the national ensign be flown more frequently on school buildings and that a competent authority should regulate the use of foreign flags. Mr. Murray, on behalf of the Empire Club, in supporting the request, urged also that the use of the flag for advertising purposes, and by auctioneers should be discouraged.
Premier Whitney seemed very favorable, and promised his best consideration. He intimated that the minister of education was already considering action in respect to the schools.
The deputation included Miss Boulton, Mrs. Vanderlinde, Mrs. McNaughton, Mrs. John Booth, Mrs. Alfred Jones, Mrs. Chadwick, Mrs. Wellesley Holmes, Mrs. J. J. Dixon, Mrs. O'Connell, Mrs. Rodericke Parke, Miss Jean Graham, Mrs. Moberly, Mrs. Lennox, Mrs. Andrew Wilson, Mrs. Hamilton Burns, Miss Alice Cook, Mrs. Lussid, Mrs. W. Brown, Mrs. Bailey, Mrs. Helenwell, Miss Nairn, Mrs. Playter, Mrs. Chadwick, Mrs. (Dr.) Foster, Mrs. Helen Merrill.

COBALT---O'Brien Will Now Ship Two Cars of Ore Weekly---COBALT

Cobalt Mine Buyers, Look Here!

I can deliver the following very desirable properties at rock bottom prices:

North half, northeast quarter, south half Lot 12, Con. 4, Coleman. Adjoins Gleason and Hurenian Cobalt. Passed inspection.

Cobalt Native Silver Co. properties, 80 acres, with charter; north half of south half Lot 10 Con. 2, of Bucke. Adjoins Thompson Mine.

East and west half, northwest quarter, south half Lot 15, Con. 4, Coleman.

Certificate of records on same. Bargains.

South half, northeast quarter, north half Lot 14, Con. 4, Coleman.

East half, southwest quarter, south half Lot 7, Con. 6, Coleman. Adjoins H.B. & T. Co. and within 2000 feet of 9 shipping mines.

Larder Lake properties, located on north side of northeast arm of Larder Lake. Ideal locations. Properly staked.

A. T. BUDD, Mine Broker
King Edward Hotel, Toronto

MAYOR FAVORS COMMISSION TO MANAGE ANY UTILITY

Remove Management From Interference of Council—More Work for Controllers.

The announcement made by the mayor that Premier Whitney has promised that the government will await the result of the special meeting of the city council before giving a decision on the electric light company's application, is not in the nature of a surprise.

His worship now says he will oppose the granting of the application before a decision has been given as to the right of the city to expropriate the plant. Should this be granted, he would have the question submitted to a vote of the people, and should an affirmative decision be given, he would press for the immediate taking over of the plant.

This would dispose of the question of new stock, as the city could itself carry out any extensions needed.

The operation of the plant he would have placed on an independent basis, allowing the city council to have no power to interfere.

The mayor told The World he would apply this principle to every utility that might be brought under the control of the municipality, and cited the sideman's interference with the water rates that had resulted in their being cut in two, while the service had since been starved as a result.

The mayor also gave the opinion that the time would soon arrive when members of the board of control should give their whole time to civic matters and that the salaries should be doubled.

ORCHESTRA CONDUCTOR DEAD

Philadelphia, March 13.—Fritz Scheel, conductor of the Philadelphia Orchestra, well known in America and Europe, died in a private hospital here today, after a month's illness.

FIVE EXECUTED DAILY

St. Petersburg, March 13.—Statistics published to-day regarding the drum-head court martial show that up to March 5, 704 persons were executed, an average of five daily.

Rare Consideration

From The Pittsburg Post. "I consider Roosevelt the most remarkable servant the republic has ever had."

COBALT ORE SHIPMENTS.

Following are the weekly shipments from Cobalt camp, and those from January 1 to date:

Week ending	Since Jan. 1	Week ending	Since Jan. 1
Feb. 9.	Ore in pounds.	Feb. 9.	Ore in pounds.
Buffalo	60,000	LaRoe	373,567
Coniagas	62,830	McKlay	50,000
Cobalt Central	34,920	Nipissing	128,840
Colinial	34,250	Nova Scotia	30,000
Foster	100,350	O'Brien	873,681
Green Meachan	129,580	Silver Queen	220,677
Kerr Lake	75,000	Trethewey	373,235
(Jacobs)		University	61,383

The total shipments for the week were 644,190 pounds, or 322 tons. The total shipments since Jan. 1, 1907, are now 4,397,699 pounds, or 2198 tons. In 1904 the camp produced 158 tons, valued at \$136,217; in 1905, 2144 tons, valued at \$1,473,196; in 1906, 5129 tons, valued at \$3,900,000.
