DISRUPTION OF TELEGRAMS SURPRISE

Hasn't Authorized and Doesn't Approve What's Been Done—Still a Dead-lock on Sixth Ballot.

Another day's balloting in the election of a bishop for the Diocese of Toronto has brought the conclusion of the matter appreciably nearer. A telegram received from Bishop Thorneol during the day stating that he had just emerged from the woods and seen the newspapers concluded with the words: "Have neither authorized nor approved what is being done." While some ambiguity may be allowed for, this was interpreted by most of those present as a withdrawal, taking the "unauthorized" to refer to his candidature, and the "not approved" to the campaign on his behalf. In the succeeding ballot the clerical vote for Bishop Thorneol dropped by 13, and it was generally admitted that Bishop Thorneol was voted for by the others because they could unite on no one else.

Both parties finally agreed to a conference this morning, Provost Macklem and Dr. Hayes to choose representatives for the purpose from the clerical and lay majorities.

The Anglican Church is being tried as by fire these days, and the country, irrespective of ecclesiastical lines, is watching with deep interest to see if the new Canadian spirit has entered the graft and made it a vital part of the world. The tree whose branches spread over another have found that mature vitality, and their success has been attendant on the degree of liberalism which they have discovered in the universal Christ spirit.

Hitherto the Anglican Church has been depending on the infusion of blood or seaweed from Britain to maintain its soul alive, and the history of the church is one of painful struggle.

That this period of artificial life has passed is the confident conviction of the laymen of the church. It is the assured strength of a large number of the best clerics, that it is a question of high or low or broad or of one college or another, but of the spiritual life of the world, and of the next nation. The men who are deep in the old ways and find them easy and pleasant, and look with little favor on the new, are the ones who are the scum of so-called culture of the farmers and business men of Ontario find it hard to sink their prejudice, and do so in looking casually upon the bare figures of \$50,000,000, the people were wont to overlook the great cost to the railway of abolishing level crossings, but to consider a great financial institution, say with an earning power of \$500,000 a year and to think that it would require this costly 100 years to do what the government would ask of the Grand Trunk in one fell swoop should open people's eyes.

Be Patient, He Says.
Mr. Hays put up a strong argument that the public should be patient in their demands for improvements. The railway couldn't continue its work of development unless it could go to the capitalists and show them its securities were a safe, and sound investment. Once the expenditures became too great to declare dividends and the company could not in turn cur any more indebtedness then when

MUSTN'T SQUEEZE US TOO HARD, SAYS HAYS

Grand Trunk's General Manager Tells Why Railways Shouldn't Bear Burden of Protecting All Crossings.

STRATFORD, Feb. 18.—(Special.)—In direct opposition to the and-level crossing legislation before the House of Commons was the attitude of Charles Hays, second vice-president, and general manager of the Grand Trunk Railway, at a banquet tendered him by the city here to-night.

Railways commissioners, courts and parliament, could order the railways to make such changes as they see fit, he said, and insofar as possible the company would try and carry out these mandates, but an expenditure of \$50,000,000, which would be required in separating the grades on the Grand Trunk system, was too stupendous and an impossible suggestion.

In this connection, ex-Mayor Gordon, who followed Mr. Hays, in introducing Third Vice-President Fitzhugh, said it might be found a safer proposition to impose a penalty of \$5 on every person who did not stop and look before crossing railway tracks. If the press would advocate such a thing, and parliament would act upon it, it would mean a saving of many lives. A fine of \$5 would soon check the carelessness with which people drive over crossings, and in looking casually upon the bare figures of \$50,000,000, the people were wont to overlook the great cost to the railway of abolishing level crossings, but to consider a great financial institution, say with an earning power of \$500,000 a year and to think that it would require this costly 100 years to do what the government would ask of the Grand Trunk in one fell swoop should open people's eyes.

DROPS DEAD ON STREET

Capt. Porte of Oakville Had Just Returned from the Front When He Was Killed.

LONDON, Feb. 18.—(Special.)—Capt. A. W. Porte of Oakville, former managing director of the Toronto Biscuit Company, dropped dead in front of the residence of his sister, Mrs. Geo. Brinkenden, Queen's-avenue, at 6 o'clock this evening.

Mr. Porte was walking with a young lady and was apologizing for walking slowly. "My heart is bad, and it is dangerous for me to walk rapidly," he said. With these words he pitched forward dead. Capt. Porte, who was attending the Scottish rite reunion of this city, was one of the best known citizens of London before his removal to Toronto 12 years ago. He was chairman of the McCormick Biscuit Company, and an ex-president of Western Fair board.

He was about 60 years of age.

North Eastern Real Estate Agency has been advised that a fine site of land is available at the head of Broadview, near Danforth-avenue. It is the intention of the concern to develop real estate in that part of the city, and which will likely receive a still further impetus in a few days, when Chester and what is known as the Midway are made a portion of Toronto.

The City and Suburban Real Estate Agency has been advised that a fine site of first-class houses in this quarter of the city, that terms, acquired by purchasers on easy terms, to buy and sell property in this or any other portion of the city for its clients.

World Congress

RESERVE RESOURCES

Roosevelt Looks for a Time of World-wide Co-operation—The Benefits of International Harmony.

WASHINGTON, Feb. 18.—Conservation co-operation of world-wide scope was the keynote of address of President Roosevelt, made at the White House to-day before the delegates in attendance upon the North American Conservation Conference.

This sentiment, which was first voiced by the president, gathered considerable momentum during the day's proceedings and was reflected in the addresses of those who participated.

Characterizing the movement as of "utmost importance to the world at large," President Roosevelt impressed the representatives of this government, Canada and Mexico with the momentous possibilities of the work which has brought about this assemblage.

After the opening of to-day's session President Roosevelt expressed the hope that a permanent congress, in which all nations should be invited to participate, should become a reality in the not distant future.

"I feel," said the president, "that this conference is one of the most important steps that have been taken in recent years for the advancement of the harmonious co-operation between the nations of the earth for the common advancement of all."

"In international relations I think that the great feature of the growth of the last century has been the mutual recognition of the interests of each nation, and the realization that instead of being enemies to the interest of one nation to see another depressed, it is normally to the interests of each nation to see the other prosper. It is today to see the other prosper which you today initiate is one of the utmost importance to this hemisphere and may be of the utmost importance to the world at large."

"I am anxious," said the president, "to do all in my power to work in harmony for the common good of all. I believe that each working to get something at the expense of the other. Ultimately, each of us will profit immeasurably if, instead of the cutting down of trees, we are able to establish a bond of advance together for the common advancement of all."

Canada Interested.
The east room of the White House was the scene of a notable gathering of members of the cabinet, justices of the supreme court, and representatives of foreign governments, senators and representatives, members of the press and experts on the natural resources of the country, invited to the president's address.

Secretary Wilson conveyed some good tidings for the south when he declared that it was only a question of time when, thru the efforts of experts in that department, the cotton, wool and sheep industry, and the cattle tick will be entirely eradicated.

"Hon. Sydney Fisher, "has watched with the closest attention and interest the conservation movement in the United States, and expressed the conviction that his country can learn much of benefit from the United States. He declared that President Roosevelt struck the keynote of high constructive statesmanship when he spoke in favor of harmonious co-operation of all countries for the advancement of all."

The New Light.
A dark picture of the alleged wanton destruction of American forests was painted by Senator Smoot of Utah, who declared that this waste of one of our natural resources to preserve its vanishing forests. He said that the conservation movement was rather a dream than a practical question are now seeing that a new dawn, a new light, is ahead of the American people. Senator Newlands of Nevada prophesied that the movement will find its perfection in the proper legislation.

THE SITUATION IN STEEL

Important Gathering in New York May Make Announcement To-Day.
NEW YORK, Feb. 18.—The steel situation was the absorbing topic in financial and other business circles to-day. This interest had been aroused by reports that the trade in steel has been disappointing, that independent manufacturers were cutting prices and getting what business there was and by the fact that the chief officers of the United States Steel Corporation and the heads of that corporation's subsidiary companies held another conference to-day at which the steel situation was thoroughly discussed.

At the conclusion of this conference Judge Gary announced that he would issue a statement in a general statement which will fully and frankly set forth the general conditions of the trade.

TO-DAY'S MATINEE.
The special matinee of "The Merry Widow" this afternoon will afford to a great many who have been unable to secure seats for other performances, an opportunity to see this world-famous comic opera.

MAURETANIA IS A FLYER

BREAKS SEVERAL RECORDS
Arrives Just a Little Too Late to Dock at New York Within Five Days of Leaving Queenston.

NEW YORK, Feb. 18.—The turbine flyer Mauretania of the Cunard Line, came aboard of the Ambrose Channel lightship at 10.35 o'clock to-night, thus completing a voyage in which several new ocean records were established.

The steamer not only broke her own record over the long winter course of 2990 miles by two hours and 25 minutes, but she also hauled down the figures held by her sister ship, the Lusitania, and has set the new record of four days and 17 hours and 30 minutes, which is one hour and 46 minutes better than the Lusitania's best time over the course.

Another achievement of the voyage was a day's run of 671 knots, which breaks all records for a 24-hour run.

She then taken into consideration the fact that the failure of the ship to arrive in time to come up to her dock to-night thereby establishing a bona-fide five day trip for her passengers.

BOOM PUBLIC OWNERSHIP

Saskatchewan Grain Growers Want Coal Mines Operated.
WEYBURN, Sask., Feb. 18.—(Special.)—The Saskatchewan Grain Growers' Association amended a motion calling for the storage of coal at various points by the provincial government for emergency purposes, to a demand upon the government to secure and operate coal mines as state-owned mines. St. John, of Kisbey, speaking on the amendment, called on the delegates to work for state-ownership of timber, coal, oil, etc. A resolution was then taken into consideration calling on members to so influence their own particular sphere that they might reasonably hope that the government-owned elevators should become a fact by the expenditure of any such moneys in the construction of the railways or otherwise, but the same shall be excluded from consideration in determining the amount of capital actually expended in the construction of the railway.

MR. URQUHART NOT AFTER IT

Ex-Mayor Thomas Urquhart stated to The World yesterday that it was absolutely untrue that he was an applicant for the position of collector of customs. He is attending to his professional business and does not want the job.

Friends of Controller Harrison, who was the defeated Liberal candidate in Halton, are advancing his claims to consideration by the powers at Ottawa.

Two Villages Obliterated

TEHERAN, Feb. 18.—The governor of Buzurjurd, a town in southwestern Persia, has sent out agents to investigate the damage wrought by the earthquake of Jan. 23.

Fifteen villages are known to have been wholly or partially destroyed, and it is estimated that the total number will undoubtedly be more than fifty.

Some villages disappeared completely, and no trace can be found of the Hamlets of Balram and Levan. It appears that not a single soul belonging to these communities was left alive.

C.P.R. STOCK INCREASES

BY ORDERS IN COUNCIL
Terms on Which Government Authorized the Several New Issues of Shares.

OTTAWA, Feb. 18.—(Special.)—Upon a motion of W. F. Maclean (South York), the minister of railways to-day authorized further orders-in-council authorizing at various periods increases of the capital stock of the C.P.R.

The first order-in-council is dated June 31, 1904, and by it the company is authorized to issue further stock to the extent of \$24,500,000, in shares of \$100 each, provided that no new stock thus created be issued at less than par; and that the issue be authorized by the shareholders, and that no part of the capital so to be raised shall be applied to the construction of works outside of Canada.

On Nov. 12, 1904, an order was passed amending the previous order, which was in error in stating the amount of increase to be \$24,500,000 instead of \$25,000,000.

On Feb. 10, 1906, the C.P.R. was given authority to increase its capital stock from \$110,000,000 to \$150,000,000, with the restrictions: "That none of such new stock be issued at less than par; that the issue be authorized by the shareholders of the company, and that no part of the proceeds of the construction of any works outside of Canada."

The minister further recommends that the said \$40,000,000 of stock shall not shall any part thereof, nor shall any money arising therefrom, no matter how disposed of, be deemed capital expended in the construction of any part of the company's act of incorporation, 44 Vic., chap. 1, and the power of the parliament of Canada, or the governor-in-council to reduce the tolls upon the railway of the company shall not be affected by such increase of capital stock, in whole or in part, nor by the expenditure of any such moneys in the construction of the railways or otherwise, but the same shall be excluded from consideration in determining the amount of capital actually expended in the construction of the railway.

DISCUSSED PREFERENCE

"More Wages Canada, Dearer Food Home," Says Lloyd George.
(Canadian Associated Press Cable.)
LONDON, Feb. 18.—In the commons Austen Chamberlain moved an official tariff reform amendment to the address declaring it as a basis whereon could be erected by complete structure to deal with industrial difficulties.

Robert Cecil said that if the Unionists went to the country saying tariff reform would lead to disaster. He was not against a policy of retaliation, but did not believe in the practicability of preference. He never would give a pledge beforehand to accept any policy whatever which the leader of a party might produce.

Snowden admitted that the recent Conservative victories were due to tariff reform, because the middle class are hoped to escape increase in the income tax.

Lytellon pleaded for colonial preference and Lloyd George replying said that the only way to increase the productivity of this country.

Lytellon replied: "I meant that to tax corn would mean a greater productivity in Canada," and "Lord George retorted: 'Then your policy is more wages Canada, dearer food home,' there was great laughter."

MANUFACTURED EVIDENCE?

State Attempts to Show Carmack Did Not Carry Weapon.
NASHVILLE, Tenn., Feb. 18.—Absence of some state witnesses and a desire on the part of the defence to arrange its plan of procedure caused an adjournment to-day until Saturday for the Cooper-Sharp trial for the murder of former Senator E. W. Carmack. The state first announced that it rested its case in chief.

The only incident of to-day's testimony was the state's attempt to prove that the pistol holster found in the dead senator's overcoat pocket was put there by one of the attorneys for the defence, when a few weeks ago he went to the morgue and tried on the overcoat.

Two witnesses testified it was not in the pocket when the senator was killed.

SUFFRAGETTES FIGHT THE POLICE

Make Determined Attempt to Break in on Asquith—24 Arrests, and Some Go to Jail.

LONDON, Feb. 18.—The suffragettes failed to-day in their attempt to present to Premier Asquith the resolution adopted at yesterday's meeting of the Women's Freedom League, which declared for a continuation of the militant propaganda for suffrage.

They first attempted to march in procession, but their lines being broken up by the police, they mingled with a crowd of the curious, who had gathered to witness the scene, and streamed singly toward Downing-street.

The police, however, had completely blocked all entrances, and the suffragettes, who tried to break thru the lines, were arrested, charged with interfering with the police.

For a time there was a scene of great disorder, women time and again throwing themselves valiantly against the double line of police, only to be thrown back, or they were unusually persistent, to be handed over to constables, who marched them off to the police station amid cheers, hoots and hisses from the throng.

The police finally cleared the street and the women who were not arrested returned to their hall, where they were addressed by leaders.

Those arrested were arraigned in the Westminster police court, eight of them refused to pay the fines imposed, and they were all sent to prison for terms varying from a fortnight to a month. Sixteen others were brought up in the Bow-street police court late this afternoon, and were remanded on their own recognizance until to-morrow.

The women taken into custody this morning are mostly from Glasgow, Manchester, Birmingham and elsewhere in the provinces.

On to-night, when the session of parliament was well under way, a contingent led by Mrs. Despard attempted to gain access to the premier, but the police barred the way. The women refused to budge, insisting upon their right to enter the building, and several of the women were arrested, including Joseph Clarton, editor and proprietor of the New Age, who is a member of the Women's Freedom League.

ENTER PORK INDUSTRY

EDMONTON, Feb. 18.—(Special.)—The provincial pork commission report has been presented to the legislature. The principal recommendation is that the government equip and operate a packing plant of a minimum capacity of 300 per diem, whenever hog-growers give assurance of an annual supply of fifty thousand hogs, the management to pay two-thirds of the hogs' value down, and the balance (minus expenses and one-quarter cent. per pound for paying back the original outlay by government and interest), to be paid after a reasonable period for marketing. Shares would be allotted to patrons equal to one-quarter per cent. on shares. Patrons would guarantee government indebtedness is paid off, the money would be used to pay interest on shares. Hides, skins and other by-products equal to one-quarter per cent. fine per hog if otherwise disposed of.

The government will introduce a memorial to the Dominion Government asking that the proceeds of school lands sales be turned over to the provincial treasury, instead of being retained by the Dominion.

Edmonton's application to be allowed to run Sunday street cars after a referendum failed by referring to the Rev. Mr. Rochester, secretary of the Lord's Day Alliance, protested against provision for a plebiscite, as many foreign elements were not in sympathy with the Lord's Day Act. This was strongly challenged by Rosenfeld (Wetaskinaw). Mr. Rochester sought to illustrate his point by referring to immigrants from Southern Russia.

"I come from Russia," declared Cornelius Hebert (Edmonton), "and there were many who were 'not in sympathy with our institutions.'"

"Yes, here in Ontario," he added, "Chinese and Japanese, for instance, cannot be sympathetic towards law."

"That's better," commented Hebert. "The matter stands for further consideration."

CARRIE NATION AMONG THEM

They met again this afternoon in Carlton Hall. Carrie Nation was among those present. Mrs. Despard said the suffragettes were going to continue to spread their protest, as the only means of securing their demands. She declared she did not know how long it would take the government to stand that the women meant what they said. Five hundred of them had been imprisoned already, she added, and they would continue to be imprisoned until they were given what they wanted.

Miss Marjell Manners, who on Tuesday went up in the police in a balloon in an effort to throw down tracts while the King was opening parliament, then made a breezy speech, in which she declared that the government need not be afraid of bombs as some "idiotic" politicians had suggested.

"We women do not intend to make martyrs of the members of the cabinet," Miss Manners said. "We are simply going to make them look like a set of driving blocks."

Two suffragettes repeated the tactics employe of the ladies' gallery of the house of commons some time ago by chaining themselves to continue to interrupt Augustine Birrell, chief secretary for Ireland, who was to speak at a dinner. The women were gagged, however, while files were brought and the chains cut. They were then expelled from the restaurant.

CANADA LIFE PROFITS—Bill to Be Presented at Ottawa to Make Things Plain. OTTAWA, Feb. 18.—The Canada Life Assurance Co. has a bill before parliament which asks, among other things, for a statutory interpretation of a law passed in 1872. The bill provides for the division of profits, and the shareholders' interest earned on the amount of paid-up capital and on other monies from time to time at the credit of the shareholders. It is explained that the second clause of the bill is intended to cover a controversy between the shareholders and policyholders in regard to the division of profits, the object being to make it clear that the policyholders' profits are confined to the insurance profits of the year only and not include interest earned on capital and reserve funds.

\$10,000 WORTH OF FOOTWEAR AT HALF-PRICE

Our New Department Opens Saturday Morning on the Second Floor.

ONE of the finest footwear departments in America opens in this city and in this store to-morrow morning. Our 2nd floor has been handed over by the builders, and we are moving our stock into the palatial new quarters at time of writing. Boots, Shoes and all Footwear will occupy the southwest section of the new floor, having over three times the amount of space they had on the floor below. The Balcony in the Men's store, where Men's Boots have been sold for many years, has been turned over to Men's Furs, and Men's Footwear will be found in conjunction with the new department, on the south side. The whole footwear floor is carpeted with a soft, green pile, and the furniture and fittings are finished in mahogany throughout. To mark Saturday, opening day in the New Department, auspiciously, we have ransacked the best factories in Toronto, Montreal and Quebec to secure something appropriate for the beginning of the new epoch. To-morrow we will offer:

COMPLETE SATURDAY PROGRAMME AT SIMPSON'S—PAGE 14

OPENING OF AUTO SHOW DISPLAY WORTH \$500,000

St. Lawrence Arena Beautifully Decorated—Exhibits on Lavish Scale.

The National Automobile and Sportsman's Exhibition was formally opened in the St. Lawrence Market arena last night under exceptionally favorable conditions. The spacious amphitheatre is tastefully decorated for the occasion with gay bunting and streamers, transforming the bleak desolation of the interior into a scene of the most attractive and water-tight. No effort has been spared to make the setting of the display above the high standard set in previous years, and the result is highly gratifying. Manager R. M. Jaffray says the expenditure is nearly \$100,000. While the generous outlay, the primary object of the exhibition is to open the eyes of the public to the advancement of automobiles in the manufacture of automobiles from the trim little runabout to the massive touring car, motor boats, and all the varied accessories which belong to motoring on land and water. Mayor Oliver alluded happily to the educational aspect of the display at the inaugural ceremonies. The platform erected by the Ontario Motor League. His worship referred also to an essentially practical feature, the reduction in the cost of motor cars. A tour of the arena had demonstrated to him that not only did the machines show greater facilities for manufacturing but that the cost to the buyer. He was especially struck with a new departure in the form of motor buggies. William Doble, president of the Ontario Motor League, touched upon the enlarged scope of the usefulness of the automobile, as evidenced in the fact that farmers were beginning to take advantage of their benefits. J. Curry, T. A. Russell, F. Milton and Dr. Doolittle were also upon the platform. With the conclusion of the mayor's remarks there were stentorian blasts from the bugles of the whole display. There are 84 automobiles on exhibition ranging from \$100 to \$10,000 each, and the total value of the whole display of motor boats and accessories is valued at \$500,000. The machines are all spick and span, and with their polished wood work and glittering metal offer a spectacle to gladden the eye. The superintendents of the various exhibits were called upon by the hundreds of interested visitors to answer numberless queries as to the merits of the latest up-to-date devices designed to add to the pleasure of the machines, as well as the durability of the machines. The exhibition will continue for a week.

EXPERIENCE SHOULD COUNT

Board of Education Discuss Merit vs. Length of Service. Trustee Levee precipitated a long discussion in the board of education last night by attempting to reopen the salary increase question with an amendment that all regular high school teachers whose previous experience and length of service would entitle them to an additional increase of \$100 as shown in the report of the senior principal on high school salaries, he allowed such increase.

UNEXPECTED OWNERSHIP

British Columbia Can't Credit That Hecate Strait Belongs to Canada. VANCOUVER, Feb. 18.—Vancouver fishery interests were surprised today at the receipt of a letter by the secretary of the board of trade from Chas. M. Hays, president of the Grand Trunk, relative to the protection of the fisheries of the British Columbia coast, especially those north and west of Prince Rupert.

GAS PROBLEM IN WELAND

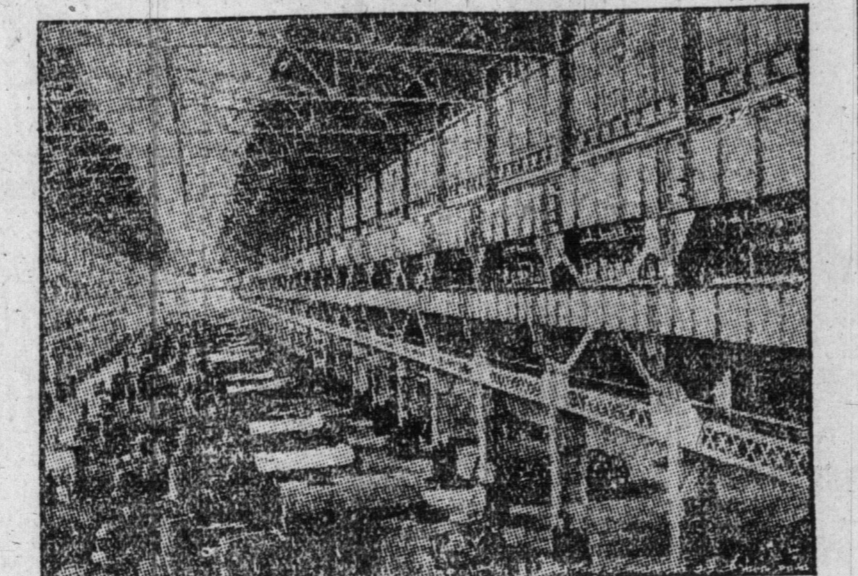

Export Soon to Stop, But Industries Won't Get the Benefit. WELAND, Feb. 18.—(Special.)—The most important topic of conversation throughout the Niagara peninsula, is the gas question. The statement was given out three weeks ago that the government would cancel the exportation lease of the Provincial Natural Gas Co. on March 30. A gentleman associated with the company since its formation stated today that the company's 20-year contract with a Buffalo distributing firm will expire next year, and irrespective of any action which the government may take the provincials have no desire for a renewal of the contract, even for a short term, it being the intention to divert the flow to Canadian uses.

COST OF EDUCATION

Toronto Gets Along With Half New York's Expense. A comparative statement showing the total cost per pupil for the schools in the different states of the United States for cities containing over 800 inhabitants shows: New York State, \$9.43 per pupil; Indiana Territory, \$1.15; Washington State, \$1.17; Colorado State, \$1.73; South Dakota, \$1.77; Missouri State, \$1.74; North Dakota State, \$1.74; California State, \$1.88; District of Columbia, \$1.25; Rhode Island State, \$1.84; Idaho State, \$1.81; Massachusetts State, \$2.36; Ohio State, \$2.09; New Jersey State, \$2.03; Nebraska State, \$2.03; Indiana State, \$2.03; Michigan State, \$2.06; New Hampshire State, \$2.58; Utah State, \$3.16; Alabama State, \$3.67; Connecticut State, \$3.35; Wyoming State, \$3.34. The cost in Toronto is, for public schools, \$3.50, and for both high and public schools combined, \$2.10.

THE JAMESON SALE

One of the secrets of cheap business is to buy in advance. There are occasions when merchants and dealers sell out stock. That is quite a legitimate proceeding, and in the line of ordinary business. But so far as the general public is concerned these occasions provide the buyer's opportunity and just such a chance is being offered by Philip Jameson, the well-known clothier, at the corner of Yonge and Queen-streets. His big stock on hand must be got rid of, and crowds have already shared the bargains offered at half original prices. Much still remains, and the public of Toronto have never had a better opportunity of acquiring the best class of goods at phenomenally low prices.

THE G.T.R. SHOPS AT STRATFORD.

Interior view of the machine and erecting shop of the big G.T.R. plant at Stratford, the recent completion of which was marked by a complimentary banquet last evening by the city to General Manager Hays and other officials of the railway. The new G.T.R. shops have cost more than \$1,000,000. They are the pride of every citizen of Stratford. Constructed of steel and concrete throughout, operated entirely by electricity, and heated by the hot air fan system, they are the most perfectly and modernly equipped locomotive shops in the railroad world to-day. They possess every known labor-saving device, including five electric cranes, the largest lifting 120 tons and the smallest 10 tons. The power plant, which is in a separate structure, with a concrete chimney 186 feet in height, is equipped with boilers of the vertical water tube type, with traveling link stokers. The engine room, contains one compressor, with a capacity of 2150 cubic feet of free air per minute; also two 400 and one 300 k.w. engines and generators. About a thousand men have been regularly employed in these great shops, and this number is expected to be largely augmented. The whole plant covers an extent of about 21 acres.

The Superiority of Bovril As a Food

Beef contains a greater quantity of nutriment than any other animal food. But very many persons are unable to fully digest the meat they eat. The undigested portion clogs the system and endangers health. BOVRIL is prepared from prime beef; it contains all the valuable properties of beef, but it is still more valuable because it is in such a form that digestion is easy, quick and complete. The solid matter of hie meat has to be disintegrated by the digestive juices and by the mechanical processes of digestion before the valuable nutriment can be assimilated. This takes from 2 to 5 hours and then is not completely done. In BOVRIL all the mechanical disintegration has already been accomplished, and all the nourishing, stimulating and flavoring qualities of the beef are concentrated into a small compass. A cup of BOVRIL is assimilated immediately, and you feel the benefit as soon as you drink it. Every drop of BOVRIL counts. There is no waste. Nothing to upset the digestion. It is all assimilated and used to rebuild the muscles or to renovate blood, brain or nerve. But besides all this, beef is often rendered absolutely indigestible by inexperienced cooking. You will be better fed, stronger in every way, and you will save money by taking an occasional cup of BOVRIL. BOVRIL is economical.

BOVRIL

JAMMED! PACKED!

The big rounded corner is being fairly bulged out by the buying crowds these days. People coming from all over the city, and they buy—lug home their parcels—tell their friends of the wonderful bargains—thus the swift pace keeps a-humming.

BUT STACKS OF GOODS LEFT

This is no tuppenny sale of odd lines, broken lots or little job-lot purchases. It's a turn-out of a great big complete stock which totalled up

Put your Automobile Money into the Car

not into expensive maintenance

QUALITY is the thing that keeps a car out of the repair shop. You can't always be careful in your driving---buy a car that you are not afraid to use.

Buy the Russell Model "L" \$2,000

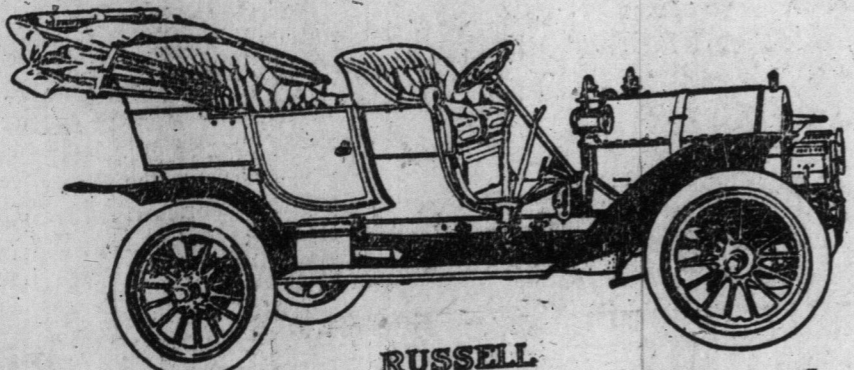

See it at The Automobile Show
YOU can count on this: The car that is skimp in quality will skimp in service. You can't get real service without real quality.
Model "L" is a car that is made to use---and made to use in Canada.

Handsome, comfortable, economical and serviceable. Serviceable because of these features and many more: The splendid 24-horsepower RUSSELL engine; the metal-to-metal clutch---never out of order; the shaft drive---no waste of power; the nickel steel driving mechanism---no broken gears; the floating type of rear axle---extra heavy sleeves.

A remarkable value at such a price. Meeting with a tremendous sale. Even fully equipped it costs but \$2,200.

Russell "Thirty" Model "H" \$2,500

Only slightly higher in price than Model "L," with a larger, more powerful motor and a high degree of luxury and striking style. Distinctly the foremost car of its class.

HIGH PRIVATE WINNER OAKLAND DERBY TRIAL

Favorite Draws Away at Finish in Feature Race on Sloppy Track.

OAKLAND, Feb. 18.—A good card was offered at Emeryville to-day, with the Derby Trial at 1:15 miles as the feature. High Private and Fanatic from the Forsyth stable ruled favorites. After Lighthouse and Madman tired, High Private drew away and won from Tom Hayward, while Fanatic was third. Fine weather favored this racing, but the track was sloppy owing to rain of the early morning. Summary:

FIRST RACE—5 furlongs, purse: 1. High Private, 112 (Scoville), 7 to 1. 2. Napanick, 106 (McCarthy), 11 to 2. 3. Star Gulch, 109 (Carpin), 7 to 1. Time 1:13.4. Judge Henderson, Father Eugene, Matchem, Clap, Sixteen, Grams and Bay Streak also ran.

SECOND RACE—5 furlongs, selling: 1. Argonaut, 106 (Clark), 9 to 2. 2. Descomets, 107 (Keogh), 6 to 1. 3. Time 1:17.4. Little James, Match Tulla, Charles W. Hodges, Bright Sides and Palse Nun also ran.

THIRD RACE—1 mile 20 yards, selling: 1. Fulletta, 103 (Tappin), 3 to 4. 2. Steel, 97 (Clark), 15 to 1. 3. Neolous, 97 (Sweet), 8 to 1. Time 1:47.4. Import and Husky also ran.

FOURTH RACE—1 1/16 miles, the Derby Trial: 1. High Private, 118 (Lee), 11 to 20. 2. Tom Hayward, 102 (Gilbert), 9 to 1. 3. Fanatic, 106 (McCarthy), 11 to 20. Time 1:50.4. Amador, W. G. Williams, Miss Padden, Kate Carney, Tomochichi and Madman also ran.

FIFTH RACE—1 mile, selling: 1. Daisy Bell, 102 (Carpin), 9 to 1. 2. Dollie Dollars, 111 (Keogh), 16 to 5. 3. Rosevale, 106 (Gilbert), 15 to 1. Time 1:44.8. Miss Delaney, Estella C. Em and Em Melar, Priceless Jewel, Blanche C. and Sahara also ran.

SIXTH RACE—5 furlongs, purse: 1. Fordell, 107 (Lee), 2 to 5. 2. May Amelia, 102 (Gilbert), 8 to 1. 3. Fancy, 89 (Anderson), 25 to 1. Time 1:16.4. Early Tide, Hector, Saincaw, Rather-Royal and Pio Pico also ran.

HURRY, SAYS PREMIER PRIVATE BILLS SLOW

McEwing of West Wellington Resumes Debate and is Severely Mauled by Joe Downey.

Never before has the legislature settled down so promptly to business. Yesterday after doing a considerable amount of routine business, the debate on the address was carried on by James McEwing, Joseph Downey, J. McCormack, and A. H. Musgrave.

There cannot be the usual elasticity allowed during this session, he declared. Not for years had private legislation been so backward, he was informed. The standing orders committee had nothing to do, and as bills had to be advertised for some weeks in The Gazette members must look sharp.

Hon. Mr. MacKay the premier explained that the law reform bill to be brought down would supply any omissions and provide for any changes in the statutory revision bill.

A bridge across the Bay of Quinte was the subject of a petition presented by J. Johnson.

Premier Whitney pointed out that the petition presented by J. McEwing asking for a money grant for police officers was out of order, no money petition being admissible.

Bills were read a first time introduced by Hon. J. J. Foy respecting the administration by the crown of the estates of intestates; to prevent priority among executive creditors; respecting actions of replevin; respecting law stamps; respecting the office of sheriff. Also respecting public revenues; Hon. Mr. Matheson; respecting damages by land flooding in new districts; Hon. Mr. Cochrane; respecting municipal debentures issued for drainage works; Hon. Mr. Matheson; respecting the stone and timber drainage; Hon. Mr. Matheson; respecting the fiscal year; Hon. Mr. Matheson; respecting ferries; Hon. Mr. Reume.

The Debate Continues. J. McEwing, West Wellington, continued the debate, and recalled the pessimistic outlook of the former opposition when the Ross government began to build the T. & N. O. Railway.

The profits arising out of this railway should be an object lesson. He pointed out that the Liberal government had not been allowed to defeat the Liberal government in a debate, but that the Liberal government had been allowed to defeat the Liberal government in a debate.

Objections had been raised, proceeded Mr. McEwing, against the remedied Assessment Act and the time had arrived when something should be done towards remedying those difficulties.

Mr. McEwing, West Wellington, received hearty applause for his brief, and sensible speech. He desired the restoration of the model schools and would have no objection to the Liberal law reform he wanted less appeals.

H. Musgrave, North Huron, discussed the question of the model school for Ontario, and addressed the Vancouver Canadian Club yesterday.

Mr. Donald MacGill, M.P., who for some years was imperial commissioner of agriculture for the West Indies, has been elected grand master of the Grand Orange Lodge of British Columbia.

A caucus of the Conservative members was held yesterday and Dr. Preston again chosen whip.

Writing to the Canadian Associated Press, W. R. Trotter, representative in England of the Dominion Trades Congress, denies having made use of any false statistics in his recent speeches.

F. J. Keiso, superintendent of neglected children for Ontario, addressed the Vancouver Canadian Club yesterday.

Mr. Wm. Levi Markdale, Ont. writes: "I had for several years been troubled with nervousness, and, like many others, spent lots of money on medicine that did me no good."

THE FISHERIES TREATY

U. S. Senate Finally Ratifies the Newfoundland Agreement.

WASHINGTON, Feb. 18.—The senate today ratified and made public the special agreement with Great Britain known as the Newfoundland fisheries treaty.

In ratifying the agreement the senate adopted a resolution declaring as a part of ratification that the senate understands that it is agreed by both parties that the treaty does not include any question as to the Bandy of Fundy or the innocent passage of American fishing vessels thru the Gulf of St. Lawrence.

Senator Lodge of Maine said that the treaty does not include any question as to the Bandy of Fundy or the innocent passage of American fishing vessels thru the Gulf of St. Lawrence.

GIRL "STAGED" HER STORY

Sensational Allegations of Yankee Woman Said to Be Moonshiner.

CHICAGO, Feb. 18.—No theatrical producer ever set a stage with greater care than Ella Gingles arranged for the sensational creation, today, of a moonshiner's daughter.

Gingles, who is a general bath room at the Wellington Hotel yesterday, is the opinion of Chief of Detectives O'Brien who dropped into the Venetian of the police, declared today the whole thing was a "frame up."

EFFOCATED BY FALL OF EARTH.

FORT WILLIAM, Feb. 18.—(Special).—A young man of 20, named Harpello, whose home was in Toronto or Kingston, was killed at Mission, this city, this afternoon.

Harpello with four others was working at an excavation for the Grand Trunk Pacific elevator when a large mass of earth became "frame up" and fell on top of him. His leg was broken and head cut, but the immediate cause of death was suffocation. The others escaped practically unhurt.

TO STUDY INSURANCE.

NEW YORK, Feb. 18.—The National Civic Federation announced today that George W. Perkins had accepted the chairmanship of a commission now being organized by that body to make a thorough study of industrial insurance. This industrial insurance commission will collect data and promote such legislation as may be deemed necessary.

The commission, which will be announced later, will be composed of experts who have investigated foreign plans, employers especially interested in securing benefits for their employees, wage earners and public-spirited citizens.

BISHOP THORNE

Continued From Page 1. meet and discuss the whole situation, with a view to selecting a man who would be acceptable to both sides.

The clergyman who has actively supported the name of Bishop Thorne, explained the situation to The World as one of great perplexity to the majority of the clergy of the diocese.

While the sixth ballot was in progress, a clergyman who has actively supported the name of Bishop Thorne, explained the situation to The World as one of great perplexity to the majority of the clergy of the diocese.

The clergyman in question said: "The telegram undoubtedly means that the Bishop of Algoma's name will be dropped, but no change could be made in the present ballot. There will be a conference after this ballot. The trouble with us is that Rev. Canon Welch is not favored by the Trinity clergy from the country. The country Archdeacon Sweeney. With all his qualifications for the position, the archdeacon is not at present acceptable to the high church clergy of the city."

Agreed to Confer. After the sixth ballot the supporters of Canon Welch held a meeting at the court house. The suggested conference was once more considered and it was decided to accede to the terms of the suggested arrangement proposed by Worrell for a conference. This will be held this morning, so that the seventh ballot may be deferred when the synod resumes.

The conference, so far as the representatives of Rev. Canon Cody's supporters are concerned, will simply be empowered to discuss the matter.

The lay delegation will be required to report to a meeting at the court house. The lay delegation will be named by Dr. W. Hoyle, and the clerical by Rev. T. Street Macklem.

At a meeting of Canon Cody's supporters held in the York County building, on Adelaide-street, yesterday morning, Samuel Trees of All Saints' Parish occupied the chair. The speakers were N. W. Hoyle, K. C., Canon Digby, W. Hoyle, M. G. G., Kirkpatrick G. H. Hopkins (Lindsay), Robert Murphy (Mulmur), Rev. Laurence Skoy and others.

An explanation of the minority vote on the lay side cast by Bishop Thorne, is that this vote is representative of the high church congregations in Toronto.

Morning prayer will be said at 8:30 in St. Paul's church, and the service will be proceeded with at 10 o'clock.

Rev. Septimus Jones, M.A., recalls an interesting incident which formed part of the proceedings of the synod. The members had been taken, the party supporting Provost Whitaker had secured a majority vote for both the dean and the bishop.

When the total vote was brought two-thirds of the membership. The name of the Lockhart Photo Supply Co., Limited, has disposed of its business to the United Photographic Stores, Limited, of Montreal.

Somewhat of the nature of a surprise is the announcement that the well-known firm of the Lockhart Photo Supply Co., Limited, has disposed of its business to the United Photographic Stores, Limited, of Montreal.

The Toronto end of the business under the new management, will be devoted exclusively to the retail trade. The wholesale and manufacturing being transferred to Montreal.

The Lockhart Co. has been in business some five years.

NOT IN FORCE YET

But G. T. R. Officials Admits It Looks Like 2-Cent Fare. MONTREAL, Feb. 18.—(Special).—The Grand Trunk Railway Company has thus far taken no action with regard to Lord Loreburn's decision that the company must operate third class cars between Montreal and Toronto at a two-cent rate.

It looks as if the road were to be forced into supplying third class accommodation at the rate stipulated.

Mr. Logan, for the present, however, is not putting such cars on the tracks.

"What will happen if someone gets on a train and demands to be carried at the two-cent rate?" was asked.

"They will either have to pay three cents a mile or get off and walk," was the answer.

ADVICE TO WOMEN FARMERS

Told to Emigrate to Canada and Reap Rich Harvest. LONDON, Feb. 18.—(C.A.P.)—Mrs. George Cran, recently a guest of the Canadian government, at a dinner of the lady farmers and gardeners urged emigration to Canada, where there were thousands of acres of rich land. A rich harvest was awaiting the woman agriculturist.

ON MAKING CONTRACTS

J. E. Parsons Gives Engineers' Club Some Points.

The "legal aspect of specifications and contracts" was the subject of a lecture last night before the Engineers' Club of Toronto, given by J. Edgar Parsons, B.A.

A contract to be binding, said Mr. Parsons, must have certain elements; it must be between capable parties for a legal object. There must be an offer and an acceptance.

MINING STOCKS INFLUENCED BY WALL STREET MARKET

Pressure at the Toronto Markets Comes Principally From Traders Working For a Decline.

World Office,
Thursday Evening, Feb. 18.

The local markets for Cobalt, as well as the New York Curb, were somewhat influenced to-day by a break in the securities listed on the New York Exchange. Considering the pressure exerted against the mining shares by trading brokers to-day, who are playing for a dip in the market, prices held remarkably well, and in very few instances were quotations below those of yesterday.

Nipissing was weak in New York and was a factor in framing sentiment on the part of the other securities. The most of their other securities held a steady undertone, but the minor issues, such as Rochester and Beaver, were weak, most of the selling in these shares coming from actual holders of the stocks.

There was no great volume of orders in the hands of brokers to sell at the close, but the orders to purchase were equally limited, and unless these were supplemented by further outside buying orders, the market will consider a reaction before it will have steadied.

VOLCANO PLAYED HAVOC WITH OLD GOWGANDA-EARS

And the Result is a Liberal Supply of Silver for Present Generation

GOWGANDA, Feb. 18.—(From the Man on the Trail.)—At one time or another, "way black in the blind" ages, a volcano caused a lot of trouble for the natives of this district, now known as Gowganda.

But the results bear out the old adage, "It's an ill wind that blows nobody good." And the present generation are benefiting.

For instance, the silver deposits on the shores of Gowganda Lake are indisputably of igneous origin.

There is clearly discernible an eruptive breccia, the ejectamenta of the volcano that boiled over. This material is noticeable to a great extent on the west shore of the south end of the lake, where the O'Kelly, Smith and Pinder claims are located.

There are also rounded pebbles, perfectly uniform in size, that are plainly not the work of water action, but have all the characteristics of having been formed in the one-time crater of the volcano. The ground mass is volcanic ash in which are found the pebbles mentioned.

The fact that the diabase was easily moulded and moved into anticlinal folds which run north and south, parallel with each other is the cause of the present silver veins forming as the mollen matter cooled.

There is a wall of diabase, standing 165 feet above the water on the surveyed line between the north and south O'Kelly claims. Just a mile away there is a gradual decline from the top of the diabase wall decreases, until one finds a comparatively flat country.

Experts agree that the diabase is the home of silver, and that as a depth is gained the deposits will increase in quantity.

Speaking of veins, visitors to the camp are referred to a small stream, showing as an example of what is here in the district. On this claim there is a vein of calcite and apatite with a width of seven feet, and at parts extending surprisingly wider.

This vein is supposed to be a great trunk, out from which numerous small veins will branch.

Referring again to the wall of diabase, it can be traced with ease from the Hedy claim 1575, crossing the Mine, the Lahrick 2017, the Mine 1982, Bruce, Armstrong Fraction, Bloom Mines 2001, Gibson, O'Kelly 1838, Smith Pinder, Bartlett, and O'Kelly 1838, besides the Bartlett and other claims lying near-by.

In compliance with "Sec. 99," Ontario Companies' Act, I give the following information: A Director, to qualify, must hold one or more shares. Under agreement, dated 14th of January, 1909, which may be inspected at Head Office of the Company, the entire Capital Stock of the Company has been allotted to J. T. Thompson, from which assays of 671, 684 and 961 ounces of silver to the ton have been taken. Mr. Thompson has sold 250 shares to a trustee for \$250 per share. Out of the sale of this stock are to be paid \$10,000 to J. T. Thompson, Toronto, the balance \$10,000, to be used for development.

The Directors received no consideration in either stock or money for their services. (Total Broker's commission of \$6 per share to be paid on sale of stock.) No payment to promoters other than as above set out.

Estimated preliminary expenses not to exceed \$2500. Prospectus dated and filed with the Provincial Secretary the second day of February, 1909.

WATCH VOTERS' LIST

Injunction From Royal Temples to Prohibition Forces.

"Watch carefully the revision of the voters' lists, whenever a local option campaign is contemplated," urged the Grand Council of Ontario, Knights of Templars, at their closing meeting, held in Zion Church yesterday.

Resolutions passed commended the government's efforts to enforce the license laws, and expressed the satisfaction of the council of the Templars' headquarters department in insisting that liquor shall not be sold in unlicensed multiple cans.

The activity of the provincial inspectors is in contrast with the apathy and uselessness of many local option license commissioners. It was another declaration. The council suggested that "couper attractions" to voters be built up, and also urged upon the part of each select council a most active campaign to secure legislation to entirely abolish the bar.

At the conclusion of the meeting a past councilor's jewel was presented to the retiring past councilor, W. J. Armstrong. The election of officers resulted as follows: Grand councilor, Col. V. B. Fletcher; Drayton, grand past councilor;

W. J. Armstrong, West Toronto; grand vice-councilor, Mrs. S. Welsh; Pictou, grand chaplain, Rev. C. R. Spence; Pusey, grand secretary, W. M. McMillan; Hamilton; grand medical referee, Dr. William Crawford; Hamilton; grand herald, E. C. G. Hunter; grand herald, Miss Peake; Toronto; grand trustees, J. A. Austin, Toronto; and Kenneth McKenzie, Pictou; additional members of the executive, John A. Copland of Harrison, A. B. Spencer of Collingwood and R. F. Harvey of Toronto; grand herald, Miss Jennie Good of Gooderham; grand guard, Thomas Penfold of Joseph; grand sentinel, R. M. T. Talle of Collingwood.

Another Hill Road.

WINNIPEG, Feb. 18.—A bill introduced into the legislature to prohibit the construction of another transcontinental railroad to the Hill interests from Winnipeg west to Brandon, then to Elkhorn, and to the western boundary of the province.

Harbormaster Postelwhaitte has protested against the city scavengers dumping their loads into the northeast corner of the harbor, alleging that the refuse drifts out into the navigable waters and causes much expense in dredging channels.

Windsor, Feb. 18.—(Special.)—Injunction court today, the proprietors of two hotels were fined \$30 each, complaints against three other hotelmen were dismissed.

RIGHT OF WAY MINING CO.

Annual Meeting Held at Ottawa Shows Company in Good Position.

OTTAWA, Feb. 17.—(Special.)—The annual meeting of the Right of Way Mining Company, Limited, was held here this afternoon.

The annual dividend of 24 per cent. was declared, and a bonus will be paid with the first quarterly payment of the dividend. The manager stated that they had 1,200,000 ounces of silver blocked out. He also said that the company were able at the present moment to pay, taking into consideration ore reserves and cash in hand, 100,000 shares of cash in hand, and 200,000 shares of stock.

For the quarter ending March 31, a 5 per cent. dividend will be paid, plus a 9 per cent. bonus.

REALIZING WELL TAKEN

Hargrave Expected Now to Resume Its Upward Movement.

It looks as if the market in Hargrave has been purposely held back to absorb the profit-taking sales which usually take place at the even figures. When it advanced to this profit-taking, and a moderate amount more between 60 and 61 on Wednesday.

This stock has become very scarce, however, after the liquidation, and yesterday but little of it was offered on either the Standard or Toronto exchanges, while there were a number of blocks all day at 61 that could not be filled.

It looks now as if the upward movement is about to resume, and on Wednesday night at the King Edward Hotel rotunda, bets were made that it would cross 85 in sixty days.

It is understood that negotiations between the Kerr Lake and Hargrave are progressing very favorably, and that an announcement will quite likely be made within the next few days.

Lumber for Gowganda.

H. C. Dunbar, the veteran lumberman of the silver district, is now in Toronto on business. Seen by a World representative yesterday, he stated that he was shipping saw logs and every kind of dressed lumber from his own mill at Hallybury to Elk Lake and Gowganda for a summer supply as fast as it could be made ready.

His brother, A. P. Dunbar, is at the present moment busy installing a

Surface Rights at Gowganda Invalid, Pending Legislation.

Hon. Frank Cochrane told The World yesterday that the owner of the sawmill at Gowganda had visited the department and requested permission to take a sawmill into the forest reserve. The situation was explained to him, and the permission refused as impossible. After that he disobeyed the law and went on. He has since been requested permission, and having been refused, have obeyed. It is not fair to these, said Mr. Cochrane, nor is it consistent with the law to permit a man to act illegally. He will be compelled to pay trespassers' dues on all the timber he has cut.

Others who are leasing claims at Gowganda are outside the law, and even the banks have no permission. Special legislation is required to provide a townsie in the forest reserve, where no surface rights exist, and the survey is being pushed as rapidly as possible. The bills that have been introduced, as the government can give no title till this is done.

Tenders will be called on March 10 for the damaged timber which is intended to sell in the locality of the townsie, and which is in the Montreal Pulp Co.'s limits.

Under the circumstances Mr. Cochrane declared the government had no option but to close down the sawmill.

I have the best two claims in the heart of Gowganda's rich belt of silver, and they are for sale for one hundred thousand dollars. Part cash and the rest within the year. Claims consist of two 40 acre lots, upon which 22 claims have been made.

The famous O'Kelly vein passes thru both properties.

This will be a quick sale, and if you are connected with the C. H. Riggs, Temple Building, Toronto.

The Greatest Mining Camp the World Has Ever Seen

Cobalt, the wonderful rich silver Eldorado, reached in Pullman cars leaving Toronto daily 11:15 p.m. arriving there 11:19 a.m., will continue for many years to be the mining centre of the north. No one should think of visiting Elk City, Smyth, Miller Lake or Gowganda without first visiting Cobalt.

The pioneer route to Gowganda takes in Cobalt, Hallybury, New 27, Keenard, Englehart and Charlton. Comfortable sleighs meet the 10:15 p.m. Toronto night train daily at Charlton, reaching Elk City for supper, where good hotel accommodation may be obtained. Leaving Elk City at 9 a.m., Gowganda is reached at 3 p.m. Further information may be obtained from Grand Trust Agents, Toronto City Office, West Queen Street, King and Yonge streets, Phone Main 4289.

Mr. Bannell Sawyer of Montreal, managing director of the Dr. Reddick Mines, is in the city on business connected with the Cobalt Bullion Mines Limited, of which he has recently purchased a controlling interest. Arrangements are being made for the opening up of development and installation of machinery. Mr. Sawyer was one of the first to get interested in Gowganda and has shortly have his properties in condition to bring before the public. He says he has the native silver and is well in the centre. The Reddick Co. has recently raised \$60,000, by the issue of shares at the net, the issue being largely oversubscribed.

Get Lively for Indian.

Three of the New Tailored Suits

WE illustrate of these Suits exactly—the \$12.50 one. They form the vanguard of our Spring stock. They have the style of suits usually costing very much higher prices, while the quality of material and the finish leaves no room for criticism. We have been aiming at taste and distinction within moderate prices and these three suits will give you an idea of what success we may hope for this Spring. We know that in comparison to former productions we have progressed another step towards our ideal.

New Spring Embroideries

WE have paid particular attention to Sets this year—three or four widths of embroidery with insertion to match. You'll be charmed with the wide variety of daintiness possible this Spring.

NEW CAMBRIC EMBROIDERY SETS
