British Prepare For Defence of Chanak

ADVANCE OF TURKS IN NEUTRAL AREA LOOKS LIKE SERIOUS MOVEMENT

Bridges and Cross Roads Are Blown Up by Defenders—Advance Guard of Kelamists Appears in Villages Near Constantinople—Nationalist Forces Gather with View to Occupying Thrace.

Constantinople, Oct. 9.—The Turkish nationalist troops yesterday resumed their advance in the Dardanelles area, in the direction of Chanak, the British stronghold, according to a Mudania despatch to the local newspapers.

It was reported during the night that Turkish irregulars had appeared yesterday a short distance from Beikos, in the hills on the Asiatic side of the Bosphorus. Beikos is a suburb of Constantinople. The British are entrenched there.

Turkish irregulars and small bands of guerrillas and bandits which frequently form the advance guard of a Turkish army, have appeared in small villages east of Constantinople.

The British yesterday made final preparations for defence, blowing up bridges and cross-roads.

A British destroyer anchored Sunday at Shileh, on the Black Sea coast. The commander went ashore, met the nationalist officer there and requested him to withdraw his forces. The Turkish officer declared he had orders to remain, whereupon the British commander declared he also would remain and kept his anchorage close in shore.

SAY CHANAK IMPREGNABLE.

Chanak, Oct. 9.—"We are only three weeks old, but already have the strength of Gibraltar," proudly said a British captain, who accepted the Associated Press correspondent's anchor at Chanak yesterday.

It is only three weeks since preparations for the defence of Chanak were begun and in that time this straggling village of white-washed houses has become the centre of one of the most formidable fortresses in the world. Visible evidence of Great Britain's earnest preparations for whatever may happen in the Near East greets the visitor on all sides, and the officers in charge, who are all veterans of the war, declare that no defensive positions on the west front were more impregnable.

THE MOVEMENT LOOKS SERIOUS.

Constantinople, Oct. 9.—Details were received yesterday of Saturday's Turkish advances into the neutral zone at Ismid. There were three separate movements. First, an infantry force advanced four miles into the neutral zone at a point which has now returned to the Anatolian railway. The Turkish incursion is thus shown to be not merely a small movement by patrols but an advance of considerable extent by an important number of troops. It was hoped that the Allied protest would bring about a withdrawal, and news was received that Turkish forces had retired from Darlie, but no similar information was forthcoming from the other areas.

Headed for Thrace.

Ismid, Asia Minor, Oct. 9.—This district has become the headquarters of the Semidist nationalist army of the past week. There has been a steady stream of troops, who will be encamped in this area ready to move into eastern Thrace as soon as the negotiations for this territory are completed with the Allies.

France Warns Greeks.

London, Oct. 9.—A Reuter despatch from Athens dated Saturday says the Greek government has received a severe warning from France against the despatch of reinforcements to Thrace.

REDS AND WHITES IN HOT FIGHT

Vladivostok, Oct. 9.—Desperate fighting between the "Red" and "White" armies is in progress on the Spassk front. The battle is the severest recorded since the Japanese evacuation began.

The Soviet forces are reported rushing troops with aeroplanes and tanks toward Vladivostok. The defenders are offering furious opposition.

HIS THIRD TRIAL

Los Angeles, Oct. 9.—Today's superior court calendar called for the third trial of Arthur C. Burch of Evanston, Ill., charged with the murder of J. Belton Kennedy, a young Los Angeles broker in Beverly Glen, a suburb, August 5, 1921. It was expected that the trial would be continued a week.

"BILL" HART BETTER

Los Angeles, Oct. 9.—Continued improvement in the condition of Wm. S. (Bill) Hart, film star, who has been critically ill with typhoid fever and complications was announced today.

METHODISTS START FUND FOR ONTARIO FIRE SUFFERERS

Toronto, Oct. 9.—Steps have been taken by the Methodist General Conference to open up official channels through which the members of the Methodist congregations in the provinces of Ontario, Quebec and Manitoba can give some direct financial demonstration of their sympathy with the sufferers in the fire zone of Northern Ontario, and telegraphed appeals were sent out on Saturday to all the ministers in the province of Ontario to bring the matter to the attention of their congregations on Sunday, with the view of collecting funds for relief purposes.

In addition to the general appeal which has gone out to the Ontario congregations, a fund of five thousand dollars will be borrowed, to be sent to the Methodist ministers in the north as quickly as possible, to be used as an auxiliary relief fund. In addition, a personal emergency fund is to be raised, and upon this this northern ministers can draw when necessity demands.

WINNERS BATTED FOR 309 DURING WHOLE SERIES

Giants Outplayed Yanks in All But Fielding

Groh Individual Star With .474 Mark—Ward's Only Hits Were Homers With None on Bases—The Official Figures.

(By Canadian Press)

New York, Oct. 9.—Official batting and fielding averages for the world's series reveal the decisive superiority of the Giants over the Yankees in nearly every department of the game. The Yankees excelled in fielding, with a mark of .986 to .972 for the Giants, while the latter the latter a vital factor that is not shown in the figures—the world's champions had a clear-cut advantage.

The Giants hit 309 as a team, collecting fifty hits, and scoring eighteen runs, while the Yankees batted only 208, making thirty-two hits and eleven runs.

Groh, Frisch and Emil Messer were the batting heroes, although Young and Kelly also came through with some timely blows.

Groh, with nine hits out of nineteen times at bat, for an average of .474, had the best record of any player on either team.

Messer made his five singles count and drove in seven of the winners runs. Bob Messer and Wally Pipp, with six hits apiece, led the Yankees in batting. Frisch and Groh also were fielding stars, the former's play in every department of the game was a bright spot in the aggressive work of McGraw's men.

Ruth's Slump.

The failure of Huggins' all-star pitching staff to come through while the Giants' moundmen showed unexpectedly good form, was the outstanding upset of the pre-series "hopes," but the failure of Ruth to show any prowess at bat whatever was a big disappointment to Yankees followers. Ruth got but two hits out of seventeen times at bat and seldom was able to get ball out of the infield. The nearest he came to a home run was in the fourth game when he drove a towering fly to right centre that Cunningham caught a few feet from the bleachers.

Four Leading London Weeklies Join Campaign, One of Them His Staunch Supporter—Bonar Law's Letter Strikes Hopeful Note.

(Canadian Press Cable)

London, Oct. 9.—The latest phases of the Near Eastern crisis have been accompanied by the growth of a political and newspaper campaign against David Lloyd George, the British premier, which reached its climax when the four leading weeklies reviewed and one of the premier's staunchest supporters among the Sunday newspapers joined in a demand for his resignation.

The campaign has far surpassed in its widespread extent and seeming influence any of the similar campaigns which the premier during the troubled post-war period has had to meet and which hitherto he has always successfully circumvented. What has distinguished the present campaign from all the previous ones is that it is not confined to the premier's natural political enemies, but embraces solid organs of public opinion of all political shades.

The basis of the charges against Mr. Lloyd George is that his strong pro-Greek policy brought the nation to the brink of war.

Montreal, Oct. 9.—Heavy rainfalls throughout the province over the week-end have brought to an end the series of forest fires which caused heavy damage to forest areas and threatened in several districts to destroy towns. Hon. Honore Mercier, minister of lands, has received news indicating that fires in practically every section of the province have now been extinguished. Serious damage has been sustained, but it will be several days before the full extent of the loss is known.

TREASURE QUEST AT MAHONED IS ABANDONED

New York, Oct. 9.—(Canadian Press)—The treasure hunters who left here last June to search for pirate gold, on Oak Island, Mahoned Bay, N. S., have temporarily abandoned their quest and returned home.

James R. Cameron, Elizabeth Ryan, one of the prime movers in the expedition, says that their digging equipment had proved inadequate.

When proper machinery had been obtained, he said, the project would be renewed.

WEATHER REPORT

Issued by the authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

Synopsis—Pressure is now relatively low over the St. Lawrence Valley and the northwest states and lower in the south Atlantic states.

Since Saturday rain has fallen heavily from the eastern portion of Lake Superior to the maritime provinces, while in the west the weather has been fine and for the most part moderately warm.

Scattered Showers.

Forecasts—Moderate to fresh northerly to northeasterly winds; mostly cloudy and cool today and on Tuesday; a few scattered showers.

North Shore—Northerly and north-easterly winds; partly cloudy and cool today and on Tuesday.

New England—Unsettled, probably showers late tonight and Tuesday. Cooler, moderate to fresh north and northeast winds.

Father Drowns His Three Children; Then Suicides

DISTRESSING TALE OF MULTIPLE TRAGEDY FROM ROCHESTER, N. Y.

Wife Returns From Church to Find Bodies of Children in Bathtub—Despondency Over Unemployment Said to be Reason for Act.

Rochester, N. Y., Oct. 9.—The bodies of a father and his three children today are lying side by side in an undertaking establishment here, victims of a tragedy in this city late last night.

The children, Etheby, five, Grace, two, and Russell Wheeler, six months, were drowned in a tub at their home by the father, Wm. E. Wheeler, who after witnessing life pass from the little ones, fired a bullet into his brain. Despondency because of inability to obtain employment was responsible for the crime, police said.

Wheeler's wife discovered the bodies after she returned to her home from church. A note, protruding from the bathroom door, led her to investigate. The contents told of the act of her husband and gave instructions as to the disposition of his remains and the furniture in the house.

Mrs. Wheeler, who swooned after the bathroom door was broken by a boarder, today told the police when she left the home her husband appeared to be in excellent spirits. The children at that time were in bed. When she failed to find them in their respective beds she began a search which revealed the tragedy.

The children were found clasped in each others arms in the bottom of the tub which was half filled with water. The father hung over the edge of the tub, still clutching the pistol in his hand from which he fired the fatal shot.

HOW WORLD SERIES DOPE WAS UPSET

Giants, Beaten on Paper, Proved Fighting Victors

Courage and Skill Carried McGraw's Men Through—George Kelly, Taken for "Easy Mark," Puts Last Game and Series on Ice.

(By Canadian Press)

New York, Oct. 9.—Just before the opening of the world series last Wednesday, John Joseph McGraw, sometimes called "Little Napoleon" said:

The club with the most consistent fighters wins the most ball games.

His statement has been vindicated, and McGraw's men, the Giants, declared by ninety per cent. of the "experts" to have nothing more than a faint, fighting chance of winning one game, outplayed the Yankees, won four games, tied one, lost none and are world champions.

From every approach that could be made on paper before the first game was played the Giants were considered the underdogs.

The figures said the Giants had but one reliable pitcher, that the Yanks had nothing else but unbeatable hurlers, and that pitching had won every world series.

But the record books were wrong. The index did not even carry the caption "fighting ability." Few men in baseball, besides "Little Napoleon" know how it is done. But he had found that quality in his ball players and he staked his pride that he could recognize it when he saw it.

It seems an old story. It has been written every time men met in combat. The score of yesterday's game, that decided the series for the Nationals was 5 to 3, but that's only an incident. Exactly how it was done is a matter of detail. The Giants won that game and all the others they captured because they were "the most consistent fighters."

Of course the Giants have ability. Courage without skill in the last five days at the Polo Grounds would have been a joke.

Easy Mark Did It.

It was courage and skill that enabled Long George Kelly to straighten out a Joe Bush ball in the eighth inning of the game yesterday, when the Giants were one run behind and McGraw himself, say it was smart baseball. Long George was the weakest batter in the winning line up.

Young was an almost hitting certainty. "But Huggins did not figure the human element that McGraw calls courage. The Yankees manager had expected Kelly to be a star and temperamental. Before the 40,000 fans he flouted his manager by plainly showing his disgust when the order to pass Young was given and shouted: "A-w-let's play ball."

At that rate, he was off his stride when Kelly came to bat. He sent over a wide one. Then he shot one of his fast ones. Kelly awkward and gaunt, bent over the plate. His lips set. He gripped the bat tightly. He met the fast one squarely—the tying and winning runs scored.

Possibility of More Difficulties in The Near East Situation

GREEK REVOLUTIONARY ARMY DECLARES IT WILL NOT RETIRE FROM THRACE

Hope So Long as British and French Stand Firm—If No Settlement Reached British May Abandon Peace Move—Turks Warned They Must Respect Neutral Zone.

(By Canadian Press)

London, Oct. 9.—The Near East situation continued to present disturbing possibilities today, with the revolutionary Greek army at Adrianople declaring it would not retire, and with the victorious Turkish army concentrating at Bursa and Ismid, anxious to reach Constantinople.

The British cabinet met this afternoon to watch the proceedings at Mudania where the armistice conference was being resumed under the fresh instructions by which the allies present a united front to the Turks on the immediate military stipulations. The cabinet members had passed their first quiet Sunday in four weeks, but they were unable even yet to affirm that the situation was entirely satisfactory, although entertaining the hope of a successful conclusion of peace so long as the French stood firm with the British.

ATTITUDE OF EXTREME CAUTION

While the British are using the utmost patience in the effort to conclude peace it is believed the Greeks and French have been warned that if a settlement is not reached the British will abandon the whole peace effort. At the same time the belief is that General Harrington has orders not to risk any act of war. As to the peace terms, the attitude of the cabinet may be expressed as one of extreme caution towards engaging in any promises until the conclusion of the Mudania conference.

One of the points of insistence regarding the present situation, with respect to the neutral zone, is that whatever the terms of the armistice, the neutral zone must remain neutral, pending such after the peace conference.

There is little discussion concerning the next conference to arrange a general peace, with the allies, the Greeks and the Turks as parties, although it is suggested now in the Principality, the Ionian Islands, in the Sea of Marmara, will be more suitable than Scutari, previously mentioned.

General Harrington is reported to have warned Ismet Pasha that unless the Kemalists withdraw he may be obliged to make a military demonstration on the Turkish flank. The Kemalists representative is said to have promised that the incident will not be repeated.

As a measure of protection for Constantinople, General Harrington ordered suspension of ferry service across the Bosphorus and the Sea of Marmara. There are said to be 12,500 Christians now in the Ismid zone outside the British lines, while many thousands more are within its lines, having been removed to a camp at Media, directly across from Constantinople.

Evacuation of Thrace.

Although the Greek government has accepted the inevitable, acquiescing in the evacuation of Eastern Thrace, reports from Athens and Thrace indicate uncertainty regarding the attitude of a section of the army.

A considerable part of the Greek forces to obey the evacuation order, thus involving dangerous complications. The Greek commanders who were sent to Thrace before the government accepted the allied demands are reported to be encouraging the soldiers to resist.

The Turkish Sultan, Mohammed VI, still on the throne, despite the report of his abdication received by the Russian trade delegation here Saturday. Efforts are said to be under way to bring about a reconciliation between Mohammed VI, and the victorious nationalists, and an emissary is being sent from Constantinople to inform the Ankara government that the Sultan is prepared to recognize the legitimacy of the national assembly.

ACROSS OCEAN TO RENEW 25-YEAR OLD ROMANCE

(Special to The Times.)

Montreal, Oct. 9.—Bound for Vancouver to marry a girlhood sweetheart whom she has not seen for the last twenty-five years, Mrs. Ada Wakefield, of London, England, was one of a party of eight prospective brides who landed here last night from the White Star Dominion Liner Canopic. Her arrival in the west will bring the culmination of a romance which continued in spite of the fact that both parties married in the interval. Each is now free, and it was the recent mutual discovery of this fact that caused a renewal of the old correspondence and the invitation to Mrs. Wakefield from John Thompson, a business man of Vancouver, to make a new home in the western city.

With one exception, that of a widow with two children, the remaining members of the party will marry for the first time. They were chaperoned on the trip to Canada by Mrs. G. H. H. Fellows White Star Dominion conductress on the Canopic. Several of the prospective brides were met at the dock by their fiancés, and will be married before leaving for their new homes.

Earned Victoria Cross in War; Shot Dead by a Negro in Vancouver

(Canadian Press.)

Vancouver, B. C., Oct. 9.—Constable R. G. McBeath, V.C., of the city police force, was fatally shot and Detective R. S. Quirk was wounded in the left hand and head early this morning when they attempted to arrest Fred Deal, 30, a negro, on a charge of driving an auto while intoxicated. Deal escaped but was apprehended later and charged with murder. A white woman, the companion of Deal, is also held.

The shooting occurred in the business section of the city. Constable McBeath was shot in the breast and died a few minutes after being admitted to the hospital. He served overseas during the war, winning the V. C.

BROTHERS HELD ON MURDER CHARGE

Elder Lad, Aged 19, Said to Have Confessed—Farmer was Victim on His Own Doorstep.

Vulcan, Alta., Oct. 9.—Othello and Otis Dutch, brothers, aged 17 and 19, respectively, will be charged jointly with the murder of Charles H. Kelly, a well-known farmer of the Vulcan district.

According to the police Otto, the elder of the two brothers, has confessed to having fired the shot which killed Kelly.

Kelly was murdered on the doorstep of his home Friday night. He was called to the door of his home by two men in a motor car and as he paused to speak one of them discharged a shotgun. Kelly's head was almost severed from his body.

The Dutch brothers were arrested later in the night.

"YANKEE" TO MAKE BID FOR CHANCE

Entered in U. S. Elimination Schooner Races—Prize of \$1,000 for the First Three Boats.

Gloucester, Mass., Oct. 9.—The Boston fishing schooner Yankee will take part in the elimination races of Gloucester on October 12 and 13, for the honor of representing the U. S. fishing fleet in the international fishermen's cup race, and the schooner which finishes first, second and third in the elimination race will receive \$1,000 each, Wilmet A. Reed, secretary of the American Race Committee, announced last night.

Many Gloucester folk have taken a keen interest in the Yankee since it was reported that she had beaten the Mayflower, twice debarred as a contender, by two hours in a run from Boston to Beverly's banks recently.

The change in the amount of prize money to be given to the first three finishers in the elimination contest from \$1,000, \$500 and \$500 to \$1,000 each was decided upon by the race committee. Mr. Reed said, because the number of large purse in the final race, whether she won or not, the prize money should be more equally divided.

Staten Island Widow Has Never Been Ill—Against Prohibition.

New York, Oct. 9.—Mrs. Frances Le Vetrose on Wednesday celebrated her 104th birthday at her home, Lincoln Place and Railroad avenue, Grant City, Staten Island, by holding a reception on her front porch in which nearly all the school children, their mothers and teachers in the town participated. Last year, several days after her birthday, Mrs. Le Vetrose received a proposal

of marriage from a man in Connecticut who wrote that he was 102 years old and that he thought that they could spend the remainder of their lives happily together.

The aged woman said she got up at six o'clock in the morning and ironed clothing she had washed. After completing her morning's chores around her little one-story bungalow, in which she lives alone, she put on her new gingham dress and pinned an American flag over her front porch. The children of Public School 33 brought a gift of 103 roses.

She was born in Brittany, France, and came here sixty years ago with her second husband. She moved to Staten Island thirty years ago. She wears no glasses in the daytime and says she never had a pain or ache. She is opposed to prohibition, believes that good wine in moderation prolongs life.

Margaret Smith took lead making good time in light breeze and at Lighthouse, fifteen minutes after starting had lead of three hundred yards with others bunched in the following order: Mahaska, Bluenose, Canada. Breeze freshening outside.

The First Turn. Smith, 11.23.40; Bluenose, 11.27.51; Mahaska, 11.30.49; Canada, 11.34.30. At 1.55 the schooners were still on port tack heading seaward. Bluenose was pointing higher, but did not seem to be footing much faster than Smith. Mahaska and Canada, a mile apart, were having a battle all their own, with Mack apparently having the better of it. The leading boats in the estimated new miles from the next mark, and it was anticipated they would shortly come about and shape course for the finish.

At two-twenty it was evident now but leader could finish within time limit.

BRITAIN HAS NEW FIGHTING AIRCRAFT

Are Being Tested by British Air Board—To be Known as "Curaboo."

London, Sept. 22.—(A. P. by mail)—Great claims are made on behalf of several new airplanes about to be tested by the British Air Ministry. Among them is a new type of machine which, it is predicted, will place an entirely new aspect on the aircraft versus battle-ships controversy. It is known as the "Curaboo." Fitted with a very powerful engine it will have a range of only 1,000 miles, but it will be a most effective weapon, when operating in large numbers, in repelling not only invading aircraft, but sea craft as well.

When engaged against the latter the new machine, it is claimed, will be able to dart down, discharge its torpedoes at the enemy vessel and climb out of range of anti-aircraft guns in no time. Its ability to climb rapidly will enable it to destroy quickly any Zeppelin that it sights. It is credited with a speed of three miles a minute.

Great secrecy is being observed about another machine, a four-seater known as the "Bliss," which it is no wonder, will do wonders. It has been specially designed for landing on and taking off from the deck of a battleship or aircraft carrier.

His Honor, Governor MacCallum Grant, of Nova Scotia, is to be a guest of the Empire Club, Toronto, Friday, when the British delegation headed by Sir Charles Wakefield visits the club.

FROM NOVA SCOTIA

St. Clair Clark and Toke Johnson were given in charge of the police at eleven o'clock this morning by Captain Ving of the steamer Berlin, the former charged with being stowaway and the latter with refusing duty on the ship.

A case against Frank J. Stewart, arrested early yesterday morning on a charge of being drunk and assaulting and beating Frank Kingston, was taken up this morning, as Kingston is in the hospital with an injury to his ankle.

Four men charged with drunkenness were told they were liable to fines of \$200 or eight months in jail. William Walsh, charged with operating an automobile in Goodrich street while under the influence of liquor, pleaded guilty this morning and was remanded.

FIRE NEAR MONCTON. Moncton, N. B., Oct. 8.—At Upper Dover on Saturday morning the residence of Gill R. Gaudet, pig sty and tuber crop in the cellar is also a total loss. Mr. Gaudet had but over \$3,000. His loss will be over \$3,000.

CITY MOURNS THE DEATH OF FRANK RANKINE

Prominent Business Man Passed Away Today—Sister Wife of Hon. W. S. Fielding.

Frank Rankine one of the best known and respected business men of the city died this morning at the age of sixty years. Mr. Rankine had been in poor health for the last few years but had taken a lively interest in affairs up to about five weeks ago when he was taken seriously ill in Digby. He was brought to his home about three weeks ago and passed away there this morning bringing quietly to an end a life filled with usefulness and active endeavor.

Mr. Rankine was born and spent all his life in St. John and was one of the strongest believers in the city and its future. He was a son of Thomas A. Rankine and a grandson of Thomas Rankine, who founded the business of T. Rankine and Sons, Ltd., biscuit manufacturers. Mr. Rankine succeeded to the presidency of the company on the retirement of H. C. Rankine several years ago and held this post until his own retirement from active business two years ago. In all he spent more than fifty years with the firm and helped greatly to make it a successful business.

He leaves his wife, one son, H. Fielding Rankine, the vice-president of the company; one daughter, Mrs. M. H. Chipman, of St. John; four brothers, Walter Rankine of Montreal, O. Gordon Rankine of Boston; and Henry C. and Allan Rankine of this city; one half-brother, W. C. Rankine, of Springfield, Mass.; two sisters, Mrs. I. G. Smith, of St. John and Mrs. Mrs. W. S. Fielding, wife of the minister of finance, Ottawa, and one granddaughter.

Mr. Rankine was a staunch Presbyterian and took an active interest in the affairs of St. Andrew's church all his life, being a member of the trustee board for years and having been treasurer of that board. He was also a member of St. Andrew's society, a former member of St. Andrew's Curling Club, a past president of the Ball Lake Fishing Club Ltd., a member of the Canadian Club and of several other organizations.

The funeral will be held on Wednesday afternoon at three o'clock from his late residence, 210 Germain street.

Mr. Rankine had, during his life in St. John, made a great many friends all of whom will bear with the most sincere regret of his death and will mourn with the family the loss of one of St. John's most prominent citizens.

ABANDON ELOOD IN COURT

Utica Couple Wanted State to Take Eight Children.

Utica, N. Y., Oct. 9.—Believing that because the law had upheld their 13-year-old son, who had alleged abuse and mistreatment, in remaining away from home, it would take care of their other children, Zeff and Mary Chruszes of Utica charged their juvenile court operator and abandoned them.

The children's walls of hunger attracted attention and detectives arrested the parents for abandonment. The mother was paroled on the promise that she would take care of the youngsters, ranging in age from three months to fifteen years. The father is held in \$1,500 bail for trial.

The trouble started after the oldest boy went to work on a farm. The court approved his action when he learned the details of his home life.

DAMAGE BY STORM

Street Superintendent Price said this morning that the heavy storm last night caused considerable damage to the city. He estimates that it will cost approximately \$2,000 to make necessary repairs. The rain fell so heavy that it caused large quantities of earth and some of the hills sections and the greater part of this found its way to catch basins.

FREIGHT RATES

The board of trade has received a letter from the department of railways and canals referring to the matter of proposed reductions in freight rates for grain and hay from western Canada passing through Canadian ports. This letter says that the Canadian National Railway report that they now have in force a reduced schedule of rates and those are the lowest they feel they should accept under existing circumstances.

POLICE COURT

St. Clair Clark and Toke Johnson were given in charge of the police at eleven o'clock this morning by Captain Ving of the steamer Berlin, the former charged with being stowaway and the latter with refusing duty on the ship.

A case against Frank J. Stewart, arrested early yesterday morning on a charge of being drunk and assaulting and beating Frank Kingston, was taken up this morning, as Kingston is in the hospital with an injury to his ankle.

NEW CUSTOMS ORDER

Ottawa, Oct. 9.—(Canadian Press)—Instructions have been issued to Canadian customs and excise officers that in determining the value for sales tax purposes of imported wrapping tobacco and filler tobacco exported from the United States sold in bond, the U. S. import duty should be added to the bond selling price, to arrive at the fair market value, as sold for home consumption.

FREDERICTON NEWS

Fredericton, N. B., Oct. 9.—(Special)—Information obtained by the Fredericton police concerning three men and two women suspected of robbing the summer residence of J. P. McPeak in Kingsclear and stealing a horse and express wagon from Murray Ealey in the same locality points to the fact that the gang operated in sections east of this city also. It is now believed that the growth of the Kingsclear robbery made itself objectionable on the roads beginning.

GRAVE INJURY TO OROMOCTO MAN (Special to The Times.) Fredericton, N. B., Oct. 9.—Harry Nason, son of Asa S. Nason, Fredericton, had one of his legs completely severed by a circular saw in the mill of the River Valley Lumber Company at Oromocto on Saturday. He was employed at the mill as an engineer. Mr. Nason mounted the carriage of the rotary to make an examination, the carriage being stopped beyond the saw. As he was there the carriage started suddenly under the head of steam behind it, and Mr. Nason was knocked off his feet and across the carriage. Reaching the end of its run, the carriage came back and carried the engineer against the saw. His right leg was severed below the knee. Mr. Nason was rushed to Victoria Hospital. The injured man is a brother of the late Murray Nason, who lost his life in Montreal upwards of a year ago, his body being found in the Lachine Canal under circumstances which pointed to foul play.

NEW HIGH FOR STANDARD OIL OF NEW JERSEY

Gain of 12 1/2 Points in Wall Street This Morning—Other Also Reach the Heights.

New York, Oct. 9.—(10.30)—Brisk bidding up of the oil shares featured the opening of today's market. Standard Oil of New Jersey opened up slightly and extended its gain to 12 1/2 points over its previous record. New tops also were established by Associated Oil and Texas Company, while gains of 8 1/2 to 10 points were registered by Standard Oil of California, Mexican Petroleum, Pan-American and Sinclair. Rail shares also were in fair demand, Southern Railway preferred moving up 1 1/2 to a new high and gain of 3 1/2 to 1 1/4 being registered by B. & O. Reading and Canadian Pacific, Iron Products and Dupont, the latter up five points, also sold at new peak prices.

Other strong spots were Baldwin, Studebaker, National Biscuit, Consolidated Tobacco, Certificates, Gulf States and Tobacco Products A. The gains ranging from 1 to 2 1/2 points. Interborough Consolidated preferred, which is adversely affected by the new transit plan, sold off 1 point to 2 1/4, a new record. Fisher Body also was up five points.

Noon Report. New York, Oct. 9.—Activity of speculative pools and efforts of shorts to buy stocks caused the advance to assume rather broad proportions as the morning progressed. Representative railroad shares made good headway on active trading, but the larger gains were recorded by special stocks reflecting favorable trade conditions, notably Dupont, up eight, and National cleared today.

ANCIENT CAFE TO BE DEMOLISHED

Cafe Royal, Famous Bohemian Resort, Soon to Disappear.

London, Sept. 20.—(A. P. by mail).—The Cafe Royal, London's ancient and most famous Bohemian resort, soon is to disappear. It is planned to tear it down and erect in its place a modern building of luxurious appointments.

The announcement of demolition has brought forth a flood of letters protesting against such a plan, largely from literary and theatrical men and women and from artists, boxers, singers and diplomats.

For more than forty years the establishment has been the centre of the cosmopolitan life of the city. The international fame of the Cafe Royal brought a fortune to its owner, Daniel Nicolas De Nicol, who left more than \$5,000,000 when he died in 1897.

NEW TESTS FOR PEARLS

Ultraviolet Rays Said to Detect the Japanese Product.

Paris, Oct. 9.—The status of Japanese pearls as "fine pearls" which acquired last winter after French scientists reported to the government that there was no way of identifying them from the natural gem, is in danger. It has been discovered, Excelsior announces that ultraviolet rays will permit detection of the Japanese product. When submitted to the rays in a dark room the Japanese pearls give forth less fluorescence than natural ones.

Jewelers possessing valuable stocks of fine pearls have been fearful since the government's classification of the cultured product as genuine that they must lose large sums, as they could not expect a continued demand for their jewels when others recognized by science as being of equal value could be bought for half the price. Possessors of strings and ropes of genuine pearls also have suffered from the knowledge that their

MODERATION MOVE ON IN ALBERTA  
Hotelmen's Association to Petition Under Direct Legislation Act for Measure to Allow Beer—May be Plebiscite.

Calgary, Oct. 9.—Alberta will probably have an opportunity of expressing an opinion on a new phase of the liquor act within the next two months. It is said from the very best authority that the Alberta Hotelmen's Association has prepared a new act, now in the hands of the printer, entitled "The Alberta Temperance Act," under which it will be legal to sell real strength beer in hotel dining rooms, in clubs and on trains.

The hotelmen's association is taking steps to organize a petition under the direct legislation act, which means that the government has the option, when presented with a petition carrying the legal requirement of names, of passing the bill as it is presented to them, or giving a plebiscite within ninety days of the close of the next session.

FOR THE NEXT WAR.

The Near East situation has served to shake the faith of those who had hoped that the Great War was the last conflict of that nature in which the world would be involved. There are many others who never entertained such a hope, and who have been busy ever since the last war in preparations for the next. Among the latter class, apparently, are the members of the Army Ordnance Association and Allied Engineers' Societies of the United States, including reserve officers and manufacturers who are prepared to convert their factories for war uses in the event of another conflict.

At the Convention there will be exhibits and demonstrations of shell fuses, big guns and little guns, tanks and aviation curbs of new and improved designs. Among the fuses are those designed for use in anti-aircraft guns, of such delicate adjustment that they will explode the charge on passing through the cloth of an aircraft wing. At the other extreme is a fuse which will operate so slowly that the 2,000 pound projectile of which it forms part will pass through sixteen inches of armor steel before the charge explodes.

The British Secretary of State for War declares that Great Britain cannot act alone as the policeman of Europe. She should not be expected to do so. It is difficult to understand the attitude of France in this connection, but it is to be hoped that both France and Italy will see the wisdom of standing solidly behind Great Britain in dealing with the Turks on the basis of the terms last submitted to Kemal Pasha.

As between the Mayor of St. John, the Power Company and the citizens, who are just now in the midst of a general mix-up, says the Woodstock Sentinel, "the country will probably side with the citizens, whose chief offence seems to be a desire for cheap power."

Mr. Lloyd George's political enemies are taking advantage of the Near Eastern crisis to attack him. But the Premier's supporters are coming to his defence with great vigor.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis Formerly Technical Electrical Expert For U. S. Government

Lesson No. 125. SELECTIVE TUNING OF RECEIVERS.

One of the most important factors affecting the degree of selectivity obtainable with a receiving system is the resistance of the receiving circuits. Circuits having a high resistance respond almost equally well to signals transmitted on quite different wave-lengths, while circuits in which the resistance is kept as low as possible respond more readily to the particular wave length to which the set is tuned.

The diagram shows two characteristic or resonance curves, (Curve 1) for a circuit of high resistance, such as an antenna system with the crystal detector inserted directly in series with the aerial and ground, and (Curve 2) from the curve that this circuit will respond readily to a much greater band of wave lengths than the circuit represented by (Curve 2) which is for a circuit where the detector is in a second circuit coupled to the antenna circuit.

The curves show the current amplitudes for the different circuits plotted against wave-lengths in a way to show their relative selectivities.

A study of the two curves shows that the current flowing in the receiving circuit of low resistance is much greater than the current in the high resistance circuit for the particular wave length "M" to which the curves show each was tuned.

The current in the circuit represented by (Curve 1) is shown as "MA" while the current in the low resistance circuit (Curve 2) is shown by "MC". If there is a second transmitter operating on the wave length "NB" which is almost as great as "MA" with the result that the second transmitter will be heard loud enough to interfere with the first although the transmitters are tuned to different wave lengths.

In the case of the receiving circuit of low resistance the signals from the second or undesired station are strong. The signals are small, it is therefore probable that the signals on wave length "M" that the signals can be read without trouble.

It is therefore apparent that any system for receiving which employs a crystal detector in the aerial circuit has high resistance and will tune broadly with very little selectivity.

However, if the detector circuit is coupled to the aerial circuit either inductively or conductively (as in the single circuit receiver) it will be found that the tuning qualities of the set are greatly improved.

The resistance of the damping or decrement of the circuit, and if the resistance of the circuit is too high the damping or decrement, that is, by loosening the coupling. It is particularly necessary to use as loose coupling as possible when receiving from a given station while other stations are operating on nearby the same wave length. The signal is reduced until the desired signal is clear of the message may be read without difficulty.

THE SPIDERS WEB.

Or my bed of bright Lantana, In the warm light of the Sun, Is a black and yellow Spider, On the Web that he has spun.

Frail as gossamer its structure; Intricate and rare it seems, How can stupid little Spiders Ever spin the "stuff of dreams"?

Fearless of my eager interest, Though I get the Spider stung, I have his striped body sways, While his "stuffed of dreams" sings.

He will cling against the centre, Waiting for the foolish Fly, Who is sure to be attracted, When he gaily passes by.

Oh! the Spider and his Victim Have been used for many years, As a simile of slinking, And a tragedy of tears.

Can you blame the Fly, however, If he pauses on the web, Or a Spider may be wicked, But a Web's a lovely thing.

It is also full of wisdoms Where a Fly could flutter through, (As the Webs of Life are fashioned, And so many of us do).

There's a chance he may be captured, And the lesson will be taught, (As the Webs of Life are fashioned, And so many, too, are caught).

GET \$65,000 LOOT, HIDE FINGERMARKS

Burglars Use Colloid on Hands in Robbing Ten Stores and Lofts—Alarm Wires Avoided.

New York, Oct. 9.—Burglars using colloid on their hands to prevent leaving fingerprints, assisted by gangs with autos in which to carry away the loot, plundered ten stores and loft spaces in the wide district from Madison Street to West Sixtieth Street, during the Jewish religious holiday, the Wolf loss is estimated at \$60,000, though some of the firms have not yet completed inventories to determine what has been stolen as the robbery was not discovered until Tuesday morning, when the places reopened for business.

In three of the places the burglars successfully worked around wires of a burglar alarm company. A jewel robbery was committed at the home of Esther B. Lusk, 51 Beverly Road, Brooklyn. This was said to consist of a diamond lavaliere valued at \$8,000. At her home the police had recovered the gems, but no arrest had been made.

Most of the robberies were in the West Thirtieth Street precinct. Others were in the precincts of the Madison Street and West Sixty-eighth Street Stations.

Three manufacturers of garments and furs in the building at 6 West Eighteenth Street were robbed of \$8,000. At her home the police had recovered the gems, but no arrest had been made.

KU KLUX HEADS ARRESTED

Imperial Wizard Clarke is Charged With Defrauding Through Mails.

Atlanta, Ga., Oct. 9.—Edward Young Clarke, Imperial Wizard pro-tem of the Ku Klux Klan, was arrested late Thursday afternoon on a federal indictment charging use of the mails to defraud.

Clarke was taken into custody at the Ku Klux Imperial Palace in Peachtree street and escorted by Deputy Marshal to the Federal Building. He was released immediately on a bond for \$800 which had been signed before Commissioner Colonel Carter by a friend, A. O. Davis, in advance of Clarke's arrival.

It was charged that Clarke had "raked-off" on bonds required of all high officials of the Klan. It was asserted that while the premium on a \$1,000 bond was actually \$180, Clarke caused a check to be made for \$1,000 in an effort of my enemies to discredit the Klan," Clarke charged.

There are THREE BIRTHS TO ONE DEATH IN HAITI NOW

Port Au Prince, Haiti, Oct. 9.—With a ratio of three births to each death, as shown by vital statistics for the first six months of 1922, Haiti is rapidly increasing in population. A striking phase of this increase is that the difference in male and female babies is negligible.

The gradual adoption of American sanitary methods, improvement in agricultural yield, and the cessation of revolutions with their toll of deaths, reflected in succeeding generations, are responsible for the marked increase in a naturally prolific people. Last year the ratio was two to one.

Haiti's native population when she revolted against France in 1791 was estimated at 2,500,000. Prior to the American occupation no vital statistics were collected by the Haitian Government.

**A. STEWART IS DEAD IN MONTREAL**

(Canadian Press Despatch)

Montreal, Oct. 8.—Hon. John Alexander Stewart, K. C., of Perth (Ont.), minister of railways and canals in the reconstructed Meighen administration of 1921, died in the Ross Memorial Pavilion of the Royal Victoria Hospital here Saturday afternoon, after a lingering illness. He was taken ill on June 16 last and on July 19 came to Montreal. Death was due to anæmia. He was fifty-five years of age. Mrs. Stewart was at the bedside when the end came. Other surviving relatives are Mrs. George W. Rogers, Perth, a sister and Dr. Cameron R. Stewart, London (Eng.), a brother.

The body was taken to Perth this morning. Interment will take place tomorrow afternoon.

The late Hon. John Alexander Stewart, K. C., M. P., was born at Renfrew (Ont.), and was educated at the public schools and the Collegiate Institute, Perth. Later on, he attended Ottawa University and Osgoode Hall, Toronto. He was mayor of Perth from 1900 to 1904. In 1907, he married Miss Jessie Mabel Henderson, of Perth.

He was elected to the house of commons at a by-election in 1918 by re-election as Conservative candidate and was re-elected at the general elec-

tions of 1921. He was appointed minister of railways and canals on Sept. 21, 1921, and resigned office on Dec. 28 of that year. He was senior member of the firm of Stewart, Hope and O'Donnell, was president of the Perth Show Co., Ltd.; president of the Henry K. Wampole Co., Ltd.; and vice-president, Andrew Jergens Co., Ltd., soap manufacturers.

Speaking of Mr. Stewart's death, Premier King said that he possessed qualifications and attributes that won for him the confidence and respect of political opponents as well as the members of the party to which he belonged. He had a high sense of public duty and tried to serve the people conscientiously.

The premier sent a personal message to Mrs. Stewart.

They are harmless and leave no wrinkles or stains from South-west Texas, who came here to see Speaker play in the world's series this year. "Who is Speaker with now?" Harrison asked a Texan friend. "Still with Cleveland," he was told. "So to Cleveland Harrison came yesterday. "I came here to see the world's series," he announced. "Where is it?" "Where it was being played in New York and that Speaker had no part in it, Harrison registered but mild disappointment. "Well, if Speaker isn't going to play, it can't be much," he concluded. "And Mrs. Harrison, who came along with him, admitted he was quite right.

Comes to Cleveland Assuming Speaker Must Be in World Series.

Cleveland, Ohio, Oct. 9.—If anything worth while is going on in baseball—a world's series for instance—Travis Speaker, manager of the Cleveland Americans, ought to have something to do with it, in the opinion of Charles W. **The Boys' Suit This Fall**

Maybe you haven't been thinking very long about the kind of suit the boy should have this fall. We have been thinking about it for weeks though.

We figured that just as soon as the days would get colder, the boys would be needing something heavier to wear, so we were very careful to see that every suit we bought was the right weight, color and kind for fall and winter wearing.

"Klothklads" are a big feature of our boys' stocks. These have become general favorites with both the boys and their parents.

Each "Klothklad" suit is specially tailored and is made double at all points of greatest strain, thus assuring weeks of extra wear. The pockets are strongly reinforced too, and suits are as comfortable and stylish as boys' clothes could be. They're not expensive in spite of their extra qualities—\$10 to \$18 (Second floor)

**Bobby Remarks:**

"A suit without any extra patches is like a football team without any substitutes. You may need 'em before the game is over. That's where the fellows that wear 'Klothklads' are lucky. They have patches right on the right spot when the first layer of their suit 'out' some-how."

**BRIGHT LIGHTS TO HELP POOR**

Will Increase Cost of Electricity and Gas in Berlin to Raise Benevolent Fund.

Berlin, Sept. 20.—(A. P. by mail).—Berlin's bright lights are to be used as a source of revenue to provide money to tide the city's poor over the winter. Assistance for the homes where only candles and oil-lamps are burned will come from the users of electricity and gas. The prices of these two commodities are to be raised sufficiently to provide a fund of 200,000,000 marks. Eighty millions of this sum will be used for the care of needy children, and the balance for general welfare work. The relief measures include feeding centres, reductions in the price of milk sold to poor families and contributions to infants' homes and asylums.

**SAGE TEA DANDY TO DARKEN HAIR**

Look years younger! Use the old-time Sage Tea and Sulphur and nobody will know.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of Weyeth's Sage and Sulphur Compound at any drug store. Millions of bottles of this old famous Sage Tea Teal, improved by the addition of other ingredients are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Weyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

Mr. Lane led the Bible class yesterday and will address the Sunday school next Sunday. Rev. H. E. Thomas, the pastor of the church, has been attending the Methodist conference in Toronto.

At the Waterloo street Baptist church two very helpful addresses were delivered yesterday by the pastor, Rev. J. A. Sweeney. In the morning Mr. Sweeney's subject was "Woman's Love Gift," and in the evening the theme of his address was "Every Church Member's Uniform." At the close of the evening service the ordinance of baptism was observed. Miss May sang a solo during the service most effectively.

In the absence of Rev. H. B. Clarke, the pastor of the Portland Methodist

church, who was in St. Stephen officiating at the unveiling of a monument in the Methodist church, yesterday, the services in the Portland church yesterday were conducted by Rev. H. T. Gormall, of the Wesleyan church at Yarmouth (N. S.).

Rally day service was held in the Tabernacle Baptist church yesterday. The attendance was 176 and an interesting programme was carried out.

At the evening service the pastor, Rev. A. L. Tedford, took as his subject "The Lighting System of St. John." He likened the power of God to the great electric generators at Niagara Falls. "The forty churches in St. John," said Mr. Tedford, "are the dynamos of God for Christy, lighting the people and spreading light and power to the people. Christ came into the world to install God's power plants and it is left to us as God's engineers to keep these plants running and generate the power which is to be gotten from them. We are merely links in God's great power system," he continued, "and if we do not do our work properly we interrupt the work of the whole church. The task which is set before us is to touch every soul in the city with the illuminating power of God's presence."

The First Presbyterian church in West St. John, which has been undergoing repairs, was formally re-opened yesterday. The outside of the church also has been painted and presents a very attractive appearance. Services were conducted yesterday by the pastor Rev. Dr. J. A. Morison. There was special music appropriate to the occasion.

Howard Morgan, son of Rev. Dr. G. Campbell Morgan, was the speaker in German street Baptist church yesterday morning. Six of his brothers are in the ministry. Graduation exercises were carried out in the Sunday school in the afternoon. I. W. Simms, superintendent of the school, presided.

AGAIN REVISE U. S. TARIFF

Expected by Politicians in Washington Not Later Than 1925.

Washington, Oct. 9.—Another tariff revision in two years is the problem that confronts the United States Government. Congress has just passed through the throes of passing one tariff measure, but it is recognized generally as temporary. Belief here is that another tariff measure will have to be enacted either in the regular session of Congress in the winter and spring of 1925 or in an extra session early in 1925.

Representative Green of Iowa, who will be the new chairman of the Ways and Means Committee to succeed Representative Fordney of Michigan, frank-ly says the tariff law will have to be replaced by a new one before long. He thinks it will have to be done in about two years. He says that the changing world conditions made it out of the question that the present law should be kept long on the statute books.

While the new law has flexible provisions, they will not take the place of an actual revision of the law in case the new measure is found to be unsatisfactory or conditions materially change. Not only is this obvious from the fact that the president under the flexible provisions will be hampered by the fact that by litigation, but the tariff commission seems disposed to make little attempt to operate under the flexible provisions for some months, until it has larger appropriations. His commission do as little as possible and hope the flexible tariff will not prove a disappointment to the country.

Altogether there are many obstacles in the way of the flexible tariff and this fact seems to point more clearly than might otherwise be the case to another revision of the tariff by Congress at a comparatively early date.

The matter of another tariff revision is of the utmost importance to Canada and the question of commercial relations between the United States and Canada. If the present high tariff wall proves a serious handicap to trade between the two nations, as many think it will, there will be a real opportunity, when another revision comes, of bringing about more liberal tariff relations between the two countries.

75,066 CONFEDERATES LEFT

65,707 Veterans and Widows of 57,987 Are Drawing Pensions.

Washington, Oct. 9.—Only 75,066 Confederate veterans out of the more than a million who fought for the South during the Civil War are now living, according to statistics compiled by Colonel Francis M. Burrows of the staff of General Julian S. Carr, commander-in-chief of the United Confederate Veterans.

Of the number 65,707 are drawing pensions, 1,899 are in soldiers' homes and 7,500 are unknown. The statistics show that 67,987 widows of Confederate soldiers are receiving pensions and 667 negro veterans are in homes.

Texas leads in the number of surviving veterans with 14,909 in homes and 225 in homes. Georgia and Arkansas stand next with 9,000 pensioners and 105 and 100, respectively, in homes.

Two houses, one owned by Charles Dickson and the other owned by the late Mrs. Dickson at Glen Falls, were destroyed by fire early yesterday.

Ailing Children Get Well on Laxative Syrup Pepsin

A small dose at bedtime brings relief and laughter by morning. HOSPITAL and doctor's records prove that 75 per cent of human ailments have their origin in the intestinal canal, complicated with what is commonly called constipation. Realizing what that figure means, mothers should know the best method of handling their children who will control them that will prevent those future dangers. Teach children regularity of bowel movement, and especially two passages a day until the age of 18, when one is usually sufficient. Give plenty of oranges and apples, plenty of butter because it lubricates the intestines, and encourage the drinking of water.

If you detect restlessness, belching, gas or wind on the stomach, sleeplessness, or lack of appetite, examine the tongue and you will find it coated, accompanied by unpleasant breath. The child is constipated. According to age, give from one-half to a teaspoonful of Dr. Caldwell's Laxative Syrup Pepsin.

Mr. A. F. Lithgow of Montreal, keeps his family well in that way and Mrs. E. Whalley of Winnipeg, Man., has been using Laxative Syrup Pepsin for her baby, her mother and herself. Dr. Caldwell's Laxative Syrup Pepsin is a vegetable compound of Egyptian senna and pepsin with agreeable aromatics. The formula, however, is on every package. Druggists have sold it with satisfaction to their customers for over 30 years, and it is now the largest selling family laxative in the world. Buy a bottle today. It will last you for months, and the cost is less than a cent a dose.

LOSSES IN MARKS

Blamed on Treaty. Berlin, Oct. 9.—(Associated Press)—In revision of the "unbearable" economic stipulations of the Versailles Treaty lies the possibility of Americans recovering the losses sustained through the possession of German marks. This declaration was made by the Dresdner Bank, relative to recent newspaper reports of losses suffered in the United States through depreciation of the mark in stocks and bonds.

While saying that he was unable to verify the amount of the American losses as announced, he expressed the opinion that \$900,000,000 represented an exaggeration. "Especially," he added, "inasmuch as Americans invest here their marks in stocks and other property values—and the American estimate states that one-third of the total investment in stocks and bonds—it is to be considered that these investments have kept their intrinsic worth."

"Stocks, the prices of houses and other real values have risen strongly, and even if the rise has not been in the same proportion as the German loss, the fact that this makes no difference, since the intrinsic value remains the same. Furthermore, I call attention to the fact that the period in which the mark showed depreciation gave to the entire outside world the possibility of the cheapest imports from Germany, and this was utilized, greatly to the damage of Germany, and led from time to time to selling German products at the lowest prices, while at the same time Germany had to buy necessary raw materials abroad for new production at much higher prices."

He regretted if Americans were to lose through the possession of marks, but believed that the German losses, on account of depreciation, were immense, heavier, and, besides, Germany had sustained very great losses in the United States through the sequestration and liquidation of German property—losses which represent profits to American citizens.

Herr Gutmann then declared: "If further depreciation of the mark is to be avoided, the economic stipulations of the Versailles Treaty, which are unbearable for Germany, must be revised. This revision must be made before it is too late. Then, perhaps, the possibility will develop for the recovery by Americans of their losses on the mark through improvement of the mark."

HISTORIC CHECKS BANKERS' EXHIBIT

One is for \$200,000,000 War Payment to England—Others are Checks Paid Russia for Alaska and Spain for the Philippine Islands.

(New York Post) You might suppose that the convention of the American Bankers' Association would be the last place in the world to look for little Outlines of History, but you can find there the first check paid by the United States to Great Britain after the country entered the war; echoes of the Alaska purchase in the check that was made out for that, and copies of the four checks that went to Spain for the Philippines.

The checks are in a room adjoining the ballroom at the Commodore, where the convention is meeting, and are part of an exhibit where the treasury department of the Federal Reserve Bank and banks of many cities exhibit charts on trade balances and give printed statements of their assets. All of them talk in hundreds of millions of dollars and you know right away that it must be the convention of bankers or land-lords.

The check that went to Great Britain was the biggest ever written and bears the further distinction of having started off the Allied debt to this country. It is dated April 25, 1917, and is made out to "Sir Cecil Spring-Rice, Ambassador Extraordinary and Plenipotentiary of the United Kingdom of Great Britain and Ireland." It is signed by J. P. Morgan, Jr., who was Secretary of the Treasury at the time, and underneath his signature is the facsimile of the order of the Federal Reserve Bank to pay \$200,000,000 to J. P. Morgan, Jr., and to charge this to the British government.

The check for the purchase of Alaska is mere pin money compared with the other one. It is dated August 1, 1868, and is made out to "Edward de Stoeckel, Envoy Extraordinary," presumably of Russia, for a mere \$7,200,000.

Payment for the Philippines was in four checks dated April 22, 1899, for \$5,000,000 each, and copies of them are shown. These checks were made out to Jules Cambon, Ambassador Extraordinary and Plenipotentiary of France, representing the government of Spain. The backs of them show they were paid through the National City Bank and they bear the signature of James Stillman, who was then its president.

Ingenious Counterfeits There. The most ingenious counterfeiters are also on view in this room with a secret service man watching them very closely, for any one of them would be certain to deceive all except the most expert. Cashiers who had handled millions of notes in twenty years of service expressed astonishment at most of them, so cleverly were they executed. They showed how the method of engraving had given way to the newer and less expensive method of photo engraving. One check was drawn entirely by hand and would certainly fool the average person. Only upon close examination could the government upon the appointment of Sir Henry Thornton as president and chairman of the management board of the Canadian Government Railways.

I have known him for many years, and he is admirably equipped for the post."

"A WHEEZY HARMONIUM" Rev. Dr. Jowett Thinks League Could be Made Big Peace Factor. London, Oct. 5.—The Congressional Union Assembly at Hull was addressed by Rev. Dr. J. H. Jowett, who retired recently from the pastorate of the Westminster Congregational Church, London, owing to ill health. Dr. Jowett, without asperity, referred to the Daily Chronicle's reference to the League of Nations as a "wheezy harmonium," and said: "If it is a wheezy harmonium, let us endow it with a dynamic force which will make its note heard around the world. Diplomacy has failed to quench the fires of war. These methods must be scrapped, and the Supreme Council, Council of Regations Commission and the Council of Ambassadors swept away. The League of Nations must be supreme."

Dr. Jowett, however, admitted incidentally that if the League of Nations were to be supreme it would be necessary to have every nation in the league.

The Natural Wealth of Canada Forests. IN the past three years Canada exported forest products to the amount of \$660,000,000, and there are still left great forests of Douglas fir, pine and spruce pulp wood—enough, if carefully preserved, to supply a great trade throughout an indefinite future. For more than a century the Bank of Montreal has been co-operating in the development of Canada's trade in forest products. BANK OF MONTREAL. Established over 100 years. A Complete Banking Service. ### QUITS POST AS HEAD OF KU KLUX

Imperial Wizard Pro Tem Will Turn Over the Order to Colonel Simmons on November 10.

Atlanta, Ga., Oct. 9.—Edward Young Clarke, Imperial Wizard pro tem. of the Knights Ku Klux Klan and virtual dictator of the order for several years, has just announced his withdrawal from all official connection with the Klan. From November 10 he will be merely a member. At that time Co. William J. Simmons will resume his post as active head of the organization.

In his resignation Mr. Clarke scored his enemies, declaring he had been the victim of cruel persecution. He denied he had made a great fortune out of the Klan, expressed his loyalty to the order, and gave private business affairs as his reason for quitting.

Mr. Clarke stated that his reasons for withdrawing from official connection with the order were substantially as follows:—

1.—As far back as a year ago, when the attack upon the Klan was at its height and when he was the principal target of the attack, he announced his intention to stay in his position until he had completed the organization of the Klan, and that this work has now been completed and the machine is ready to be turned over to other hands.

2.—During the last week in November there will be held in Atlanta the first national convention of the order and at that time it will be necessary for the government of the order to be definite hands without any pro-tem officers and he desires to relinquish his temporary authority to Colonel Simmons, the Imperial Wizard and founder of the order, who during a six months' period of rest and recuperation, has been completely restored to health.

3.—There are now pending in the courts several cases brought by his enemies which he could win, he says, by fighting them through to a personal indication, but in fighting them he

would damage to some extent the machine which he devoted so much time and effort to building, and, therefore, he prefers to eliminate himself as a personal factor in any litigation against the Klan, so that Colonel Simmons may take it over as a complete machine, free from any internal disturbance.

4.—His personal business affairs are in need of more attention than he can now give them, and after he withdraws from the order his intention is to devote his entire time to his business.

Mr. Clarke stated that the Nathan Bedford Forrest Klan, of which he is a member, passed resolutions urging him to withdraw his resignation, but that his decision was final and he so notified his friends in the Atlanta Klan, who he stated, have always supported him, even when the attacks upon the Klan on his account were most bitter.

Mr. Clarke, it is said, has for several months been the storm centre of attacks from a faction within the ranks of the Klan who demanded his resignation. He has also been the object of a vigorous and persistent fight by the so-called insurgent klansmen, who have demanded his removal. The insurgent leaders, many of whom have been in litigation with Mr. Clarke and the Klan, are said to have been former officers of the order.

### WOMEN FIND TORSO OF MAN IN PARK

Mutilated Body was Near Where Boys Found Head on Sunday.

New York, October 9.—The Bronx Park murder mystery, beginning with the discovery last Sunday of the head of a man wrapped in a newspaper, developed into a still more gruesome puzzle when the torso, wrapped in oilcloth, was found by two women who were hunting for mushrooms.

The torso, from which the heart, right lung and other parts had been crudely cut, perhaps with a butcher knife or other dull weapon, was jammed between two rocks.

The spot is about 500 feet from the entrance, and not more than 100 feet from the spot where the two boys on Sunday found the head, wrapped in an Italian newspaper.

The torso was placed in the park, the police are certain, some time last night or this morning. Monday and Tuesday more than 100 park attendants and police searched the grounds. They are sure that the torso was not there Tuesday afternoon.

Edward Cashman, foreman of the park, called the police and the torso was taken to the Forensic morgue. Police medical examiners reported that there was not a mark on the torso such

### TOKIO POLICE SEARCH HOME OF AMERICAN

Richard M. Andrews Charged With Operating Motor Boat Without a License.

Tokio, Oct. 9.—(Associated Press.)—The police searched the residence of Richard M. Andrews of the firm of Andrews & George, and removed private papers.

Mr. Andrews, who is one of the prominent American residents of Japan, today was confronted by witness and charged with operating a motor-boat without a license. The case did not justify the search, and the American Embassy is watching the matter.

Andrews had applied for a license for his boat and had made only one trial trip, pending decision on his application, which is permitted under the regulations. It is believed that this trip may have aroused the suspicions of the authorities.

The search of Andrews' office was rather perfunctory but at his home it was thorough, even his clothing being turned inside out and examined.

Andrews has lived in Japan since boyhood. He has large private interests here, besides those of his firm, and always has been considered a staunch friend of Japan.

### SLOW MOVING AIR CAUSING DROUGHT

Moisture-Bearing Winds Cannot Get Through to Thirsty Areas All Over Country—Usual Storms are Lacking.

Washington, Oct. 9.—(Associated Press.)—The weather elements are not acting right. That is the only explanation the Weather Bureau can make for the protracted drought which grips a great part of the country. Meteorologically speaking, the winds and the barometric pressures are acting contrary to nature. The air is sluggish and there is little movement far from the protracted drought which grips a great part of the country.

One reason given for the dry and hot spell is that during September, the month of storms on the Great Lakes, only one storm was reported. It moves away, the Weather Bureau says there will be some chance of a change for the better.

Another reason given for the dry and hot spell is that during September, the month of storms on the Great Lakes, only one storm was reported. It moves away, the Weather Bureau says there will be some chance of a change for the better.

Storages have been generally lacking, and from the West Indies, the cradle of autumnal hurricanes, only the twister has come this season, and that went far from the Atlantic Coast. Until changes appear in the Pacific, off the northwestern coast, little relief can be expected. In the northern and western states, and until storm clouds appear in the Gulf of Mexico, the central and eastern states can expect a continuation of the dry spell, the forecasters report.

### Damage to Crops Is Slight.

Although the present drought is making somewhat of a record for its severity, covered and length of time, agriculturists and meteorologists declare it has been marked by an exceedingly small amount of crop damage. The preceding warm weeks rapidly matured corn and other crops, cotton and truck stuff, and the harvest generally is practically over. Some little damage may result to late corn, it was said by agriculture department officials, but this probably will not be extensive. The main trouble, from the farmers' point of view, is that sowing of winter wheat is being retarded by inability to get the ground in condition.

Cotton in Texas and Oklahoma was slightly damaged several weeks ago in the early stages of the dry spell. Trainers in the south have been saved from loss by recent showers from the Gulf of Mexico, but in most sections crops in northern sections have reached the stage where dry weather does little damage.

While farmers have not bothered greatly over crop damage, great loss has been done by forest fires in some sections and grave fears have been expressed in this country and Canada for inhabitants of forested areas.

Because of the drought of fires Governor Baxter of Maine has ordered the hunting season closed and persons are prohibited from carrying firearms in the woods. At Penobscot Bay tests of a new destroyer of the United States navy were abandoned because smoke from the fires obscured the course. Streams and Wells Are Dried Up.

The drying of streams and reservoirs in many sections of the country has been reported. Wells have failed and farmers and small town residents are forced to haul water long distances. At Pittsburgh, where the drought is in its twenty-fourth year, only emergency supplies of water are reported to remain in western sections of the State. River traffic is reported paralyzed.

At Cumberland, Md., it is reported that wells have gone dry, which have not been known to cease running for sixty years. The Potomac River, which supplies Washington's water, is very low.

Weather Bureau officials can see no relief from the drought or the pending high temperature in any section of the country, except where local showers are reported. From nine cities throughout the middle west have come reports of temperatures higher than any ever before recorded for this time of the year. For at least twenty-four hours, which is about the limit of time the forecasters will prognosticate, fair and generally warmer weather is predicted. The temperature has risen in the lower lake region and the North Atlantic states, and has remained unusually warm from the plain states eastward.

It will soon grow cooler in the northern Rocky Mountain region and the northern plateau region, due to widespread showers there, and indications are for cooler temperatures in the North Atlantic states.

(Special to The New York Times.)

Washington, Oct. 5.—Twenty-three successive days have passed without a trace of rain in the District of Columbia and the present dry period has broken all records. There has been no rain in Washington since 4:30 o'clock the morning of Sept. 12, according to official reports, and fair weather with no change in sight is forecast locally by the bureau.

The greatest previous drought in the district, according to records, was from Sept. 14 to Oct. 6, 1910, but in that period slight traces of rain were registered on the instruments at the Weather Bureau. In contrast to that the present dry period has been "bone dry."

### DENMARK NOT INCLINED TO TARIFF PROTECTION

Copenhagen, Sept. 15.—(A. P. by Mail.)—The Danish government has announced through one of its ministers that it has no intention of departing from the national policy of free trade. Consequently it is expected to oppose some pending tariff bills. A tariff, the government feels, would retard an early fall in the price of foodstuffs.

The government is seeking support for a bill under which no importer would be allowed to bring products into Denmark from any other country without at the same time placing orders for an equal quantity of goods with Danish manufacturers.

### PLAN LIGHTHOUSES FOR AIRPLANES

Designers Employ a Huge Searchlight—Intended as Guiding Points in Night Flights.

New York, Oct. 9.—Demonstrations with an apparatus consisting of a large size searchlight and a huge inclined mirror, which have just been completed by the searchlight engineers of the General Electric Company at Schenectady, N. Y., are believed to be the forerunners of land lighthouses for the use of airplanes at night.

The equipment used in the tests comprised a 36-inch high intensity searchlight, having a capacity of 325,000,000 beam candle power, and a mirror seven feet in diameter. The searchlight was mounted on a platform and was reflected straight up into the sky to a great height. The mirror was inclined at an angle of forty-five degrees and was movable, allowing the light beam to be rotated in the air.

The proposal is to identify the town or station by rotating the light in a certain manner. Thus a string of three land lighthouses could be set up, twenty-five miles apart, between two points, like New York and Washington, and the airplane pilot familiar with their signals they would constitute a perfect guiding path through the night, as well as identify desired landing places. By inclining the searchlight, this delicate apparatus would be protected at all times from the weather.

In the General Electric tests the light beam was observed at points from sixty-five to seventy-five miles distant. Land lighthouses, if established, would be only about half as far apart, however.

### CARLETON CORNET BAND FAIR CLOSED

The Carleton Cornet Band fair closed on Saturday evening, at the Curling rink on the west side after a successful two weeks operation. The largest attendance of the fair was present on Saturday night when the three main door prizes were drawn. The first big prize, \$25, was won by ticket 1,217, held by Harvey Willis second prize, \$15, was won by ticket 2,599; and third prize, \$10, was won by ticket 3,153. The holders of the latter two tickets had not claimed their prizes up to last night. The shot gun, on which tickets were sold during the fair, was won by C. Bettinson. A guessing contest, on the length of a piece of rope in a bottle, was won by Gordon Perry with a guess of 350 inches, while the correct amount was 248 1/2 inches; the prize was a head mixer. The guessing contest on the number of beans in a bottle was won by Miss V. McLeod with a guess of 63, while 67 was the correct number. The guessing contest on the

weight of a leg was won by Miss L. Lord with a guess of 5 lbs. 10 ozs., which was just one ounce heavier than the correct weight. On Saturday night the ring loss was won by Mr. Wilson; the bean loss by Mrs. Geary; the air gun by A. Duffy; devil-among-the-tailors, by T. Nichols; excelsior, O. Duffy and J. C. Maxwell; bag-a-telle, W. Lydie.

The C. P. R. steamer Empress, of the St. John-Digby service, which went aground at Black Point and which has been undergoing repairs in Market slip, is expected to get away for Halifax late tonight. The men of the St. John Dry Dock & Shipbuilding Company expect to finish temporary repairs during the two low tides today.

BUILDING AND EXECUTIONS MARK RUSSIAN POLICY

Soviet Has Not Changed Its Unrelenting and Ruthless Policy Towards Political Foes, But Reconstruction Still Goes On—Speculators Continue to Flourish.

Riga, Sept. 27.—(A. P. by mail).—The cracking of the rifles of squads of executioners continues throughout Russia, and may be heard simultaneously with the tattoo of workmen's hammers engaged in the actual repair and reconstruction of buildings throughout the land.

Throughout Soviet Russia there is no today, nor goes there been months, a single important uprising. The Communists control is tighter and more complete than ever. The Committee of Investigation is outwitting, trying, and convicting various minor officials who accepted bribes, and is thus endeavoring to build up a bureaucratic machine which will operate strictly in accordance with orders from the Central Government.

The old Cheka has been abolished, and in its stead there has come up the organization known as the Political Police. The latter does not interfere in men's private lives, but in politics they are as omnipotent as ever. At one time the political police could shoot people first and try them afterward. Today the method is to have a commission not to send suspects into exile without trial.

To foreigners in Russia the leaders make no effort to conceal their policy. They are not ashamed. They have confidence in the policy of doing wrong that good will ultimately come, and they apparently are succeeding, slowly and painfully, in reconstructing Russia, but along their own plans need foreign capital, but lacking this on terms to which the Communists can consent, the government is ready to wait until it has a surplus of exports from agriculture. This it hopes for in 1923, and then thereafter it sees money with which it will be able to establish industries itself.

In the meantime, with evidence at coming accustomed to this and are even happy in their daily lives under it. Under the iron hand of dictatorship the existence of the masses in Russia is beginning to run smoothly. Under the iron hand of dictatorship he was assured by government leaders that no political freedom would be granted Russia. But this seems not to worry the people, and, tired of war and strife, they now see ample food before them, coupled with the possibilities of personal advancement.

**U. N. B. Defeats Moncton.**  
The University of New Brunswick rugby team defeated Moncton 6 to 0 by two unconverted tries on the College Field, Fredericton, on Saturday after a hard and well-fought game in which the tackling of the college back field told heavily. The two tries were made by the forwards in dribbling plays, which proved too much for the Moncton defence. The U. N. B. halves were weak in attack and their for-

First Team Defeats Rothsley Collegiate School 81-0.  
Second Team Wins 15-4.

The St. John High School first and second football teams early took the Rothsley Collegiate school teams into camp at the St. Peter's grounds on Saturday afternoon, defeating them by scores of 81 to 0 and 15 to 4, respectively.

The first team game got away at 3:30 o'clock, and the first try was scored within four minutes. This steadiest up the Rothsley defence for some time, and it was nearly the end of the half when Humphrey got over the ball with the second score. Peters converted this, and the score at half-time stood 8 to 0.

**HUNDREDS HERE ARE BEING BATTERED TO DEATH BY THE WRECKING WAVES OF DISEASE**

Neglect Has Placed Scores of Local Men and Women On the Brink of Physical and Mental Ruin—Relief is at Hand

ALL MAY BE RESCUED FROM "LIVING DEATH!"

Many Are Embracing a Great Opportunity to Get Well—Scores Give Startling Testimony—How They Have Regained Their Health

Hundreds of men and women of this vicinity are like ships stranded on the reefs. Their suffering bodies are slowly but surely being battered to bits by the wrecking waves of disease. Later they are thrown on the shores of life a shattered wreck doomed to the living death.

Neglect is what put most of these people where they are. They failed to heed Nature's warning. No person plays square with himself when he opens the way for destruction of his health through dire neglect.

When the body cries out with racking pains and tormenting ills, give it a chance. Give it the helping aid that is needed to again place it in a sound, healthy condition. When for any reason, the vital organs become impaired, they need a real help such as can only be given by a standard, reliable medicine. Nature's way, that is by such a medicine as Dreco.

Nature's truest medicine is composed entirely of roots, herbs, barks and berries, and is absolutely free from all harmful mineral drugs, and harsh metallic salts. This great natural medicine has proved a boon to hundreds who suffered from stomach trouble, disorders of the kidney, liver, bowels and nerves, and such diseases as rheumatism, catarrh, asthma, and similar ills.

It seems to furnish just the necessary natural elements to aid the human system quickly, permanently and effectively banishing disease and wiping out pain.

Among the hundreds of signed statements of testimony from grateful men and women are statements telling of almost miraculous results obtained by the use of Dreco; in many cases after everything else has failed to bring permanent relief. Here are just a few selected at random; read them carefully. They may bring a message of hope to some afflicted friend or relative. Miss Theora Tall says: "I have been very sick for many years. I can truthfully say that this wonderful herb medicine, Dreco, has done me more good than anything else." While Mr. Samuel Brunk comes forward with: "One of the best things this medicine has accomplished is to make me sleep much better. That's a God-and now I can truthfully say that Webster says: "The first bottle helped me very much, so I got another bottle, and now I can truthfully say that Dreco has stopped every pain in my back, relieved the headaches and dizziness and made me feel like a new person."

Go to Ross Drug Company, St. John, ask for the Dreco expert, and let him explain the merits of this great remedy.

Conductor Charles Gillispie and M. McLaren in a recent hunting trip were successful in landing a moose near Sheet Harbor, N. S. The moose had a spread of forty-eight inches.

**KEITH MAN HERE.**  
H. L. Watkins, general superintendent for the eastern division, Keith's interests, arrived in the city today at noon from Portland, Me. He was met at the train by Walter H. Golding, manager of the Imperial. Mr. Watkins will leave again tonight for Lawrence, Mass.

**HIS SECOND OPERATION.**  
Edward Parks, son of Mr. and Mrs. Dow Parks, of St. Bridget's church, went under an operation for appendicitis on Saturday morning in the General Public Hospital. This is the second operation inside of a week and he is doing as well as can be expected.

**BURED TODAY.**  
The funeral of William B. Dunn of Whitehead, Kings county, was held this morning from St. Bridget's church, Chapel Grove, to Chapel Grove cemetery. Service was conducted by Rev. C. S. R. Relatives were pallbearers.

**TAG DAY RESULT.**  
W. L. Caldwell, manager of the Standard Bank of Canada, announced this afternoon that the receipts from the tag day on Saturday in the Victorian Order of Nurses were \$2,083 and a few cents over. The deficit in the maintenance of the order in St. John last year was \$2,008.

**THEIR SON DEAD.**  
Commandant Ellsworth and Mrs. Ellsworth of No. 1 Salvation Army Corps, Charlotte street, have the sympathy of many friends in the death of their little son, Leonard Granville Ellsworth, which occurred this morning at his home, 128 Charlotte street. The little lad, who was only three years and two months old, had been ill only since Saturday. Besides his parents he leaves to mourn two brothers, Eugene and Lloyd. The funeral will be held on Wednesday at two o'clock from the Salvation Army chapel.

**MANY HUNTERS OUT.**  
William Roberts, C. N. R. gateman, has returned to duty following his annual two weeks' vacation. While away he spent a week in Boston and also got in a week in the country at Young's Cove. Gateman Roberts stated this morning that there are many hunters in and about the woods at Young's Cove. He said that it was usual this season to find men with guns prowling about the woods after looking for game. It was dangerous at times, he said, to go outdoors at night.

**CITY ROAD FLOOD.**  
A resident of City road, between Victoria Rink and Clyde street called at the Times office this morning and complained of conditions existing in this vicinity owing to the heavy rain of yesterday and last evening. He stated that practically all the cellars in the locality were flooded, evidently from the water which had flown from Ritchie street and along that southerly direction. Water alone, he added, was not the only menace as debris and other waste during rain storms was washed down from the south side of City road, particularly from the vicinity of Ritchie street.

**FAREWELL PRESENTATION.**  
Several friends of Miss Jennie Buckley, of Model Farm, and a popular employee of the Royal Hotel staff, gathered at the home of James Wright, Elm street, Thursday evening and tendered her a surprise in anticipation of her departure for Cleveland, Ohio. The evening was spent in dancing and games which were greatly enjoyed. During the evening Miss Buckley expressed a beautiful travelling bag, expressing the high esteem in which she was held and the keen regret at her departure. Miss Buckley although taken by surprise, thanked those present for their thoughtfulness. Miss Buckley is at present visiting her parents, Mr. and Mrs. George Buckley, Model Farm, previous to leaving for her new home.

**LUDLOW STREET CHURCH.**  
Ludlow St. Baptist Sunday school has organized a "Go-to-Church" gang. Fifty-five scholars under sixteen years of age were in attendance at the morning service yesterday, despite the inclement weather. The pastor, Rev. W. Alvin Robbins, spoke words of appreciation and urged them to continue attendance at the morning service. There were 287 present at Sunday school, seven classes having perfect attendance. Superintendent R. H. Parsons expressed the work of the Sunday school. It is hoped during the present month to reorganize the Taxis and Trail Ranger groups and also the C. I. T. The church is doing its utmost with the facilities at hand properly to take care of the large number of young people. The men's brotherhood, under the leadership of Rev. W. A. Robbins, is also taking on new life.

**EMPRESS AWAY THIS AFTERNOON**

Arrangements were completed for the sailing of the C. P. R. bay steamer Empress for Halifax on this afternoon's tide. Captain McDonald, when seen at 2 o'clock this afternoon, said all arrangements had been completed and he expected to get away at any minute. He said that a tug would accompany the steamer down the bay but she would likely make the greater part of the trip alone. Temporary repairs to the steamer were carried out by the men of the St. John Dry Dock and Shipbuilding Company, and were completed on the low tide this morning. Captain J. Mackie, of Halifax, will pilot the steamer around to the sister port.

The steamer Aranmore, which is to replace the Empress on the St. John-Digby route, was to have arrived here today, but owing to thick fog she has been delayed and will not arrive in St. John until some time tomorrow. Advice at C. P. R. headquarters this morning was that the Aranmore would not go into service until Wednesday morning.

**FIRE RANGER ADDRESSES THE ROTARY CLUB**

Deputy Chief A. W. Webb Speaks of Fire Danger and Fire Prevention—A Strong Appeal.

The timely subject of fire prevention was the theme of an address delivered today before the Rotary Club at their weekly luncheon by A. W. Webb, Fredericton, deputy chief fire ranger. There was a large attendance of members and Mr. Webb's remarks were listened to with close interest. He said the object of Fire Prevention Week was to draw the public's attention to the realization of the enormity of Canada's fire waste and the necessity for more personal care in the prevention of fires. Last year the fire loss in New Brunswick amounted to \$7 per capita, the highest of any province in Canada. A reduction of \$2 per capita would mean a saving of about \$750,000 and would finally lead to a reduction of the insurance rates. In the last six months for every two houses built in New Brunswick, one was burned and enough manufactured lumber was destroyed to build nearly 1,000 houses. In closing he said:—

"Therefore, Gentlemen, my message to you today as a club is an appeal for active co-operation and united support in the enforcement of fire prevention methods in the weeks and years before you, and as individuals a personal appeal consciously to be careful of fire until, in your office, in your home, in the forest and wherever you may be, being careful of fire becomes a habit." Through the kindness of Rotarian party officials, the highly charged appeal on the menu for the day was greatly appreciated. The matter of a speaking contest was mentioned by Rotarian Weyman and favorably considered. The suggestion also was made by Rotarian K. J. MacKie that the club undertake to stage a big show to raise funds necessary to finance the boys' band. Rotarian Geo. J. Smith was chairman for the day.

New Brunswick, N. J., Oct. 9.—Clifford Hayes, nineteen years of age, admiral of Pearl Bahner, who found the bodies of Rev. Edward Wheeler Hall and Mrs. Eleanor Reinhardt Mills, choir singer, was arrested today and formally charged with first degree murder.

**STABBING CASE ON NORTH SHORE**

George Royal in Hospital and Vincent Albert in Jail in Newcastle.

(Special to The Times)  
Newcastle, N. B., Oct. 9.—George Royal is in Miramichi hospital and Vincent Albert in jail as a result of a quarrel which occurred on Sunday night about half past eight o'clock at Barryville or Grand Downs, about twenty miles from Newcastle. In response to a call Deputy Sheriff Arthur Doran and Dr. F. C. McGrath left at one o'clock for the place, returning at five a.m. with the two men. Royal is suffering from a knife wound in left shoulder said to have been inflicted by Albert during the quarrel arising out of slanderous stories said to have been circulated. The condition of Royal is said to be serious and it is feared his left lung may be penetrated. Both men are married. The charge against Albert is attempted murder.

**24th ANNIVERSARY PLEASANT POINT SUNDAY SCHOOL**

The Pleasant Point Sunday school celebrated their twenty-fourth anniversary yesterday morning. Although a stormy day many were present. An interesting feature of the programme was an address by the superintendent, Carey B. Black, who has acted in that capacity during the existence of the Sunday school and has been present at every anniversary.

The hall was prettily decorated with autumn leaves, potted plants and cut flowers. Following was the programme which was carried out: Opening hymn by the entire school; remarks, C. B. Black; solo, Mrs. Charles Spence; hymn by the choir; secretary's report, Ernest Arbo; the 23rd Psalm, by six girls; solo by Dorothy Spence; recitation, Vincent C. Arbo; 10 commandments, five boys and five girls; remarks, W. E. Haum; presentation by Mr. Black of a picture to the girls class as a prize for attendance, closing hymn.

**BARTENDER IS SHOT AND KILLED BY N. Y. EDITOR**

New York, Oct. 9.—Harry Sutphin, owner and editor of the Queensboro Bulletin, of Jamaica, shot and killed Wm. Biermann, a bartender, early today in front of Sutphin's apartment house in Jamaica, N. Y., the police announced. It is said both men had been drinking and quarrelled.

**POKIOK FOLKS WANT LIGHTS**

Matter Up at City Hall Today—The Power Company Wires—Gun Carriages, But No Guns.

A committee meeting of the common council was held this morning, with Commissioner Frink presiding in the absence of Mayor McLellan. Commissioner Thornton presented a petition from residents of Pokiook asking for the installation of electric lights along Bellevue avenue. The commissioner explained that the district needed lights, but if they were installed he thought that the residents would come in for full assessment. He explained that they had not been receiving benefits to warrant a full assessment and that when they were presented, tax bills a misunderstanding had arisen due to the fact that on the printed forms it indicated that they were being assessed in full for fire, police protection, etc., while in reality they were paying only fifty per cent. After further discussion a motion was passed that the petition be referred to the Commissioner of Public Safety to report back.

Acting Mayor Frink said that he noticed that a trolley wire of the street railway had broken twice last Friday, and if reports were correct one person in an automobile had received a shock. He said this seemed out of the ordinary and was certainly a menace to public safety, as the highly charged wires were deadly if anyone came in contact with them. He said it was a coincidence that the wire should break twice in such a short space of time. He presumed that an inspection is made by New Brunswick Power Company officials, but it was a matter that citizens were very much concerned in and they looked to the council for an adequate degree of protection.

Commissioner Thornton said he was pleased that the matter had been brought to his attention and he would look into it.

Commissioner Bullock said that there are two gun carriages stored in one of the city parks in Water street, and as they were in the way he would like some action taken to get rid of them. It was moved that a letter be written by the common clerk to the commanding officer in charge of this military district to see if two cannons could be procured, and promising to see that they would be properly placed. It was felt that a suggestion offered by Commissioner Frink that the carriage be stored on Coutrenay Hill, West St. John, was a good one and should be acted upon.

C. P. R. Marketing of Grain in the West—Good Results for Some Alberta Farmers.

Winnipeg, Oct. 9.—From September 1 to October 5 the Canadian Pacific Railway has marketed 68,272,864 bushels of grain, according to a statement issued at the local offices today. During the same period 34,844 cars were loaded, which is the equivalent to 51,180,789 bushels. The previous highest figures recorded were in 1916, when the company marketed 32,023,000 bushels and loaded 22,472 cars, which is equal to 29,297,760 bushels.

Calgary, Alta., Oct. 9.—Many farmers in the irrigated districts in southern Alberta have every reason to be satisfied with the results of their season's work, according to G. H. Hutton, superintendent of the agricultural and animal industry branch of the C. P. R. Department of Natural Resources in Calgary, who has returned after a visit to that section of the province. The yield of wheat has exceeded out most satisfactory, in some cases averaging thirty-seven bushels to the acre. One man in the Comstock district had realized a net profit of \$6,000 from 425 acres.

In the Vanassah district one of the farmers had informed Mr. Hutton that he purposed finishing with 100 steers, 2,000 lambs and from twenty-five to thirty dairy cattle, and that he would have even then 200 tons of hay for sale from one section of land. Incidentally Mr. Hutton mentioned that the business promised to provide a most satisfactory market for alfalfa hay and coarse grain, and to involve a relatively small risk, inasmuch as it was possible to contract lambs now for spring delivery. The profits from that line of work, he said, were in marked contrast to those which were realized even under the best of conditions in the growing of grain alone on irrigated land. Mr. Hutton referred to the large number of feeder and stocker cattle that had been exported from Alberta, also to lambs that had been sent to the lakes to be finished. With the development of work on the irrigated sections there was no reason why these animals could not be finished in the province. In the spring they would bring three times the amount of cash compared to shipping them in an unfinished state, as had been the custom in the past.

In this connection Mr. Hutton was sanguine that the British embargo on Canadian cattle would be removed at a comparatively early date. The Department of agriculture had representatives in Britain now who were helping to draft regulations. With the removal of the embargo a market would be provided for the high-class finished stock.
