BESCO SEEKS SHOW-DOWN WITH MEN

MUST SETTLE WHO IS RUNNING MINES OF N. S., SAYS MCLURG

Company Officials, Unused to Hardships, Cannot Operate Pumps and Fans For More Than Week

NO DISTURBANCES REPORTED TO DATE

Ask Lewis to Seek Contract Maintained—Walkout Is Complete In Cape Breton and Pictou—Miners Charge No. 10 Pit At Reserve Is Being Ruined By Corporation

By Canadian Press Staff Correspondent.

SYDNEY, N. S., March 7.—"This business has got to be fought out once and for all to determine who are running the collieries, the company or the United Mine Workers of America."

So declared J. E. McLurg, vice-president of the British Empire Steel Corporation, this morning, reviewing the situation precipitated by the complete cessation of work among the miners throughout the coal fields of Nova Scotia.

The vice-president emphasized the contention that officials of the company, unused to the hardships of firing boilers, and working twelve-hour shifts, could not continue to man the pumps and fans for upwards of a week. After that it would be up to the Province of Nova Scotia to assist, at least, in the protection of its own property.

He added that the company had no intention of abandoning any mines, the permanent pumps at Number 10 Reserve, having been removed to prevent them from being submerged. Water was entering Number 10 at the rate of 1,400 gallons per minute.

The company was communicating with John L. Lewis, President of the U. M. W. today, notifying him of the action of the district, and asking him to sign a contract to fulfill the contract with the corporation.

There have been no disturbances of any kind to date throughout the colliery districts.

Officials Man Pumps. Sydney, N. S., March 7.—Replying to a telegram from E. H. Armstrong, Premier of Nova Scotia, calling upon the company to maintain all their mines, J. E. McLurg, vice-president of the British Empire Steel Corporation, telegraphed yesterday as follows:

Answering your telegram, we are taking every precaution and we are making every effort to maintain all mines in their present, workable condition and we will continue to do so to the limit of our strength and endurance. This is a formal notification to you that our officials and office staff can maintain the mines in this district for it will not be substituted for more than one week.

Will Not Abandon Pit. A further message from the Premier referring to the alleged abandonment of Number 10 mine at Reserve, elicited the following reply from the company:

Answering your telegram referring to the alleged abandonment of Number 10 mine at Reserve, we are taking every precaution and we are making every effort to maintain all mines in their present, workable condition and we will continue to do so to the limit of our strength and endurance. This is a formal notification to you that our officials and office staff can maintain the mines in this district for it will not be substituted for more than one week.

Quiet in Pictou County. NEW GLASGOW, March 7.—The strike of the Acadia Coal Company miners in Pictou county was proceeding quietly this morning, with nothing but the stillness about the pits to indicate that anything unusual was taking place.

The company officials stated today that no difficulty was being experienced in protecting the property and they would be able to keep the maintenance machinery in operation.

Drummond Colliery, owned by the International Coal Company at Westville, was working today, and Greenwood colliery expected to be raising coal Monday, neither being affected by the strike.

Strike Immediate Action. TRURO, N. S., March 7.—(Cape Breton) The following resolution was adopted last night at the annual convention of the Provincial Command of the Great War Veterans' Association, now in session here:

"Whereas in the present deplorable conditions of industrial affairs in Nova Scotia, the Provincial Command in convention assembled, on behalf of many returned men who depend upon employment, petitions the government to take immediate action to bring about a settlement and pledge itself to render every possible assistance to that end."

Miners Issue Statement. GLACE BAY, N. S., March 7.—The following statement regarding the withdrawal of the maintenance men from the mines, was wired to Premier Armstrong by the executive of the miners' organization this morning:

"We have every desire and intention to follow such course, but with one point out that you have lamentably failed in the same duty. In our statement a worker have recently excited public attention. Last January following failed in his examinations at Braycot College at Maidenhead he disappeared wearing a false mustache and horn-rimmed spectacles as disguise. His whereabouts have been unknown to his family until last week when he was found working as a laborer in a corral factory at Boodle.

Fight To Finish

CHICAGO, March 7.—Less than two hours after it had begun its cross-examination of W. E. D. Stokes, wealthy New York apartment hotel owner, on trial charged with conspiring to defame his young wife in an effort to obtain a divorce, the prosecution was warned yesterday by Judge W. M. Cavanaugh that it probably had destroyed its case.

JUDGE DENOUNCES STOKES' PROSECUTOR

Sensational Turn to Trial of Aged Millionaire in Chicago, Court.

Without questioning the propriety of the trial record, Mr. Smith, in a scathing, angry, voice demanded that Mr. Stokes give a "yes" or "no" answer as to whether he had sent money to Mrs. Stokes, the Stokes' children and Mrs. Stokes' mother, denouncing Mrs. Stokes for alleged dealings with negro men.

His face blazing with anger and clinching the arms of the witness chair, Mr. Stokes strained forward and burst an equally wrathful "I never did."

Judge Cavanaugh's bombshell then exploded. "If this line of questioning were to be continued, no matter what the verdict would be, I would have to set it aside," said the court. "The reading of these postcards has destroyed its case already, in my opinion. It was wrong in any court on earth. You could hang any man on evidence like that."

Two Solutions Offered. Only two possible ways out of the dilemma have been suggested thus far. One is that Germany should retract her claim upon the Danzig Corridor, which was put into the treaty of Versailles. The other is that the League of Nations should recon- sider the treaty.

Foreign Minister Skrzynski, of Poland, in a long talk with the Premier yesterday declared Poland would not consent to a revision of the treaty of Versailles. In addition, he declared that the League of Nations is the only one on which that country can rely.

The issue is thus sharply defined. It is considered in diplomatic circles between Germany and Great Britain on one hand, and France and Belgium, and their allies of Central Europe on the other.

Rode 10 Miles On Death Car

British United Press. NEW YORK, March 7.—On a seat atop a crowded Fifth Avenue bus a dead man rode yesterday for more than 10 miles. The conductor finally discovered the man was dead after all the other passengers had dismounted. The conductor said the man paid his fare and took his seat, and that while the car was still about nine miles from its point of destination he noticed him apparently asleep. During most of the trip, a woman sat beside the man.

# MAX ROSS DIES SUDDENLY IN HIS APARTMENT

Had Been a Resident of St. John for Thirty-Five Years

WAS PROMINENT IN  
FRATERNAL CIRCLES

Wife and Daughter Survive  
—Has Many Friends Who  
Will Regret Death.

Death came suddenly to Max Ross, wholesale dry goods and manufacturer's agent, in his apartments, Park Hotel, King Square at 5:40 o'clock yesterday afternoon.

Mr. Ross had been ill for the last few weeks and while confined to his apartments was able to be about. He was feeling quite improved yesterday and had been conversing with friends during the afternoon.

As late as 5:30 o'clock he finished a telephone conversation with Mrs. Ethel Marcia, of 10 Wentworth street, saying that he expected to be able to go to his office on Monday. Mr. Ross then seated himself at a table and had just commenced eating his evening meal when he fell over off his chair. The maid summoned Albert Seeley, brother of the hotel proprietor, who in turn called Eli Boyaner, Michael Baig and Hyman L. Marcus, who immediately arrived on the scene. Dr. S. H. McDonald was called and on examination said that Mr. Ross had died instantly from heart trouble.

**His Family.**  
Mr. Ross leaves besides his wife, one daughter, Mrs. H. Berman, of Sackville. Max Ross was one of the most prominent residents of this city, having lived here for more than 35 years and his wide circle of friends will learn with deep regret of his sudden death.

**RETIREES FROM SERVICE.**  
He was a former member of the Government Railways and for 27 years as a conductor, retired on Friday on the Provident Fund. Conductor McLeod was well known to the traveling public and made many friends during his years of service.

ST. JOHN, N. B., MARCH 7, 1925

THE RIGHT SPIRIT.

Sir James Aikins, Lieutenant-Governor of Manitoba, sends message to the people of the Maritime Provinces through Mr. Belding, who addressed the Canadian Club in Winnipeg yesterday, and whose presentation of the case of these provinces was there, as in the great stretch of territory he has visited, dividends both in understanding and in pledges of co-operation.

Further evidence of understanding and co-operation is given by the Manitoba Free Press, which devotes a leading article to the Maritime case, endorsing the proposition that Western grain should be hauled over the National Transcontinental to our ports. The Free Press agrees with the views of Mr. J. G. Scott, of Quebec, as expressed in his appendix to the report of the Turgeon Grain Commission, in which he declares that there has been a breach of faith in making the Transcontinental rates on grain so high as to defeat the very purpose for which that line was built.

TWO GREAT LEADERS.

Many points of similarity in the careers of Sir John Macdonald and Sir Wilfrid Laurier are brought out in a recent Canadian Club address by Hon. Rodolphe Lemieux, an extended summary of which is published in the Maple Leaf. These men, as he pointed out, dominated the events of their time by their wonderful qualities.

A BETTER NOTE.

There is at least one American journal which believes Canadians have a right to use their natural resources as their own experience and wisdom direct, rather than to hold them constantly ready for delivery as American interests may require.

Great men develop devoted followers, and many of the followers of Macdonald and Laurier were great in themselves. The Speaker mentioned a few on both sides. Behind Sir John in his early days were Tilley, Tupper, Langevin, White, Chapleau; and behind Laurier at that day were Blake, Cartwright, Mackenzie, Mills, Charlton, Ross, Paterson.

He continued the parallel as he'd good outside of Parliament. Macdonald was frustrated in his efforts at Washington to maintain Canada's rights in the Fisheries; Laurier protested in vain the sacrifice of Canada's rights in the Alaska arbitration.

icans who have expressed surprising and offensive views in discussing the imaginary claims of aliens upon property of the Canadian people.

Odds and Ends

"You never know what you'll find at the odds."—From "Notes by a Wayfarer."

The Vagrants

(J. M. in Christian Science Monitor). If I could have given to me some one faculty of George Borrow, I should ask for the gift of his wonderful eyes. I like to go with him into a town or a small village. He sees everything worth seeing, and what is better, he sees beyond the things he describes.

BURGLARY IS JUST BURGLARY.

Once in a while there is an effort to introduce in the English courts some of the extraordinary pleas which gain a hearing at times in the United States. The English courts have scant patience with the technicalities and emotional defences frequently heard in American courts.

In Old Bailey, recently, before the famous Mr. Justice Avery, counsel for a burglar entered upon a line of defence which even most American courts would have discouraged. The man was charged with burglary and felonious assault. His counsel told the court that it was "all the fault of America."

"Ain't I?" or "Amn't I?" (Ottawa Citizen). When an American or Canadian citizen wants to say "Ain't I?" he says "Amn't I?"

needs to be said that language is speech and current speech is contemptuous of grammatical rules. It is its own destiny. "Amn't I?" is better than "Ain't I?" but the chances are that the latter will continue to flourish.

Three Against One.

When a boy Lincoln attended a backwoods school where every morning the teacher had his pupils stand in a row and read verse by verse in turn a chapter from the Bible. The chapter selected one morning was Daniel II and the boy next to Abe by ill-luck got the first of the verses in which "Shadrach, Meshach and Abednego" occur.

Too Efficient.

A town boy was offered a chance to spend a week in the country, but refused. Coasting, pleading and arguing brought from him nothing but the stubborn answer: "No country for me!"

The Prima Donna.

(Morton Lockwood in New York Times). Swiftly she sang . . . and in the place I sat alive: a spirit and two eyes, Drinking her voice—a smooth draught in a cup—

What of that wandering wail of the streets, Francis Thompson?

One thinks of him ambling along, his fish basket slung over his shoulder; with each step in one pocket and Blake in the other, and often hungry. And of all men this wail of the world finds London not a City of Dreadful Night but discovers a shining Jacob's Ladder touching earth at Charing Cross, and a Choir of Angels on its red and gold.

Where Was He Going. An absent-minded Bishop was travelling in Devonshire, and when the train stopped at a place where tickets are in-

spected he searched his pockets in vain. "It does not matter, my Lord," said the railway official.

The Last. A well-known author was vainly endeavoring to write the other morning when he was repeatedly interrupted by his six-year-old son.

**German St. Church Teams Defeated at Home and at Y Building**

**LEAGUE OF NATIONS SUBJECT OF CONTESTS**

**St. John's and St. Andrew's Debaters Will Participate in Next Fixture.**

The Y. M. C. A. captured all the honors in the splendidly contested preliminary debate for the City Debating League championship in the H. A. Powell, K.C., shield competition last night. Both of the Y. M. C. A. teams, the respective judges unanimously declared to be the winners.

The resolution was: "Resolved that the League of Nations as at present constituted is more effective in preserving international peace than diplomacy." Debates were held in German street

Baptist Institute and the Y. M. C. A. last night.

At the German street church the German street Y. M. C. A. members supporting the affirmative were K. E. MacLaughlan, H. E. Magnusson and H. C. Price, and their opponents of the Y. M. C. A. were F. Doid Tweedie, James McLean and I. Newton Fanjoy. The chairman was W. C. Cross and the judges, Mrs. M. B. Edwards, L. P. D. Tilley and Rev. H. A. Goodwin.

At the Y. M. C. A. the team upholding the affirmative consisted of D. Gordon Willet, Randolph Bennett and Norman Marshall, and the opposing team the negative consisted of J. N. Dow, M. Vincent Matthews and A. C. Gunter. The chairman was A. H. Chipman, and the judges were Judge George A. Henderson, Rev. W. Farquharson and D. King Hazen.

The next debate will take place on March 12, with teams representing St. John's (Stone) church and St. Andrew's church competing.

## THERE'S A BUSY TIME AHEAD

Spring Cleaning Bugs Are In the Air. Soon Every Home Will be Transformed Under The Busy Housewife's Magic Touch

This is the month during which the thoughts of all good citizens move in the same channel. All housewives are looking over the effects of the winter's wear and tear in the home, and noting the traces of smoke and grime on walls and ceilings, accumulated from the many months of furnace, feeder and stove use.

Fathers are looking over the cellars and woodsheds, and figuring on a general clean up.

Property owners are staking up the repairs needed to their property, the amount of painting they are going to do, inside and out, also what rooms are to be re-decorated.

There are busy times ahead.

Local painters state that last year saw more painting done in St. John than in any one former year. This, they state, was owing to the fact that landlords are beginning to realize the value of protecting their property from the elements. Paint and repairs are undoubtedly the cheapest protection any landlord can buy for his property.

### WE CAN CREATE ACTIVITY

If every property owner decided to have the necessary work done to his premises, every painter, plumber and carpenter would be busy all year 'round.

Their families would have more money to spend with grocers, dry goods merchants, clothing houses, hardware-merchants, insurance companies, automobile dealers—in fact every line of trade would benefit.

Mr. Property Owner, think it over, and act now.

states that the progress made in home lighting is really wonderful. Instructions were given by foremost men in the electric lighting world, and the proper application of electric lighting in the home was dealt with, as well as that of stores, windows, offices and streets.

The local electrician states that many and varied are the effects that can be brought about by scientific application of light. It goes to the credit of St. John that the local man passed all examinations with high standing.

Should any housewife desire special effects in lighting, during the spring cleaning period is a good time to get in touch with their electrician.

### Property Repairs

Just as soon as weather permits, all necessary painting outside should be commenced. If the time is allowed to drag on until the middle of summer is reached, painters are busy, and quite often fall arrives before the job can be started, and sometimes the job has to be put off for another year, to the detriment of the property. Saving the price of paint in poor economy, which many property owners have found out to their sorrow.

Necessary repairs, too, should never be allowed to go unheeded. A few dollars spent at the right time may be the means of saving hundreds of dollars expense in the future. Roofs should be attended to. A leaking roof causes endless trouble and expense. Bad fitting doors cause many free-ze-ups and increase coal bills. Broken fences give the best of homes a delapidated appearance. Cracked window panes should be replaced and any badly fitting windows rectified. The chimney should also be inspected. This will prevent any chances of fire from this source.

### The Modern Way

Starting with the housewife's part of the spring cleaning programme, her trials and troubles are not what they used to be.

When grandma cleaned house, poor grandma became an orphan, with practically nowhere to lay his head. The home became home no longer. Everything was in a state of chaos and upheaval, and even the family pets trembled and feared for their future existence.

Now all this has changed, and one scarcely knows the home is having its great annual event. There is too great demonstration of undue haste and bustle, and father eats his meals at the table as usual, and does not have to stand at the mantel. Mother retains her usual smile, and before the neighbors realize that a start has been made the clean or new curtains are up at the windows.

Many are the reasons for the present day state of affairs, so far as house cleaning is concerned.

Our housewives have learned the art of systemizing their work, just as our business organizations have systemized their endeavors. They have learned to use labor-saving devices just as they are used in the world of commerce. Efficiency has its place in the home of today.

### The Housewife's Outfit

When starting house cleaning, it is well to have all the requirements at hand on the "opening" day. Delay and worry is caused by having to make purchases after work has commenced. Here are the main requirements:

- Soap.
  - Hard scrubbing brush.
  - Soft scrubbing brush.
  - Self-wringing mop.
  - Two or three extra cloths for same.
  - Two pails.
  - Broom.
  - Whisk.
  - Step-ladder.
  - Ammonia.
  - Cleaners.
  - Wall cleaner.
  - Ceiling brush.
  - Carpet beater.
  - Metal polish.
  - Vacuum cleaner.
- Attachments for same.
- With this outfit in the home the housewife can feel satisfied that no emergency trips will have to be made down town in the midst of a busy day. Of course there is the telephone and probably it never proves its usefulness more than during the days of spring cleaning. But half-hour chats should not be indulged in at this particular time.

### Making the Start

Nowadays, when the housewife sends everything to the wet wash or the dry cleaners, this end of house cleaning does not have to be considered. Everything can be collected together, a ring on the 'phone, and all's well.

It is a good plan to start with the spare bedroom first. Clear the room, sweep ceiling and walls and floor, that is if no paper or whitewashing is to be done. It is a good plan, however, to always have ceilings whitened, and a few days' notice should always be given your man. If the paper is at all faded or shabby, now is the time to have the necessary re-papering done.

A good coat of paint will always brighten up a room, and for what little it costs it is well worth the outlay.

If no painting is to be done, the old paint should be well washed and dried off quickly. Unless it is dried immediately, the paint will present a mottled appearance.

If the floors are not polished or varnished, they should be thoroughly scrubbed, with a little disinfectant in the water.

The carpet should be well beaten, but if possible, a vacuum cleaner should be used. This does away with the necessity of beating, and adds to the life of the carpet.

### Pleasing Effect

If the floors are painted or varnished they should have at least one coat of good varnish or floor paint. Many housewives always paint or varnish around carpet squares, as the cost is low and the effect most pleasing.

Every article of furniture should be wiped over with a cleaning cloth, and the interior of drawers washed with soap and water containing disinfectant. This is a preventative against moths. Carpets should be looked over, and in

### Timely Additions

While spring cleaning is in process, it is a most appropriate time for having additions made to the menu.

In these days of cheap electricity, every home should have convenient outlets. Any reliable electrician can install these outlets without much trouble or dirt. Every room should have at least one outlet, where a table lamp reading fixture or carpet sweeper may be attached.

There should also be an outlet for ironing in the kitchen. This is much more convenient than plugging into the light socket, especially if there is any one light in the kitchen.

Necessary plumbing alterations should be made at this time. It is far better to have new sinks, wash-basins, baths, etc., installed while spring cleaning, as once done, there is no further muss for a long time.

### Special Illumination

One of the city's leading electricians has just returned from a trip to New York and other cities, where he attended illumination classes, and

## Now is The Time!

Nearly everyone repairs their buildings in the spring. The winter storms have shown leaks in the roof and heavy winds have loosened the shingles. Perhaps the sills need renewing or a new gutter is required to replace that old, leaky one.

Look the buildings over and see if they do not need some repairs, then write us for the lumber, shingles, etc., that you will require.

GOV. AIKINS SUPPORTS CLAIMS OF EAST

DECLARES MARITIMES WILL NOT BE LEFT ALONE TO TREAD WINE-PRESS OF ADVERSITY

Chief Magistrate of Manitoba Asserts People of Prairies Ready to Play Part in Creation of National Spirit

Manitoba Free Press Points Out Transcontinental Was Built With Small Grade in Order to Carry Western Crops to Eastern Ports—Exporter Gives His Views

By A. M. BELDING
Special Representative of The Telegraph-Journal and Times-Star now touring Western Canada in the interests of the Maritime Provinces.
WINNIPEG, March 6.—Sir James Aikins, Lieutenant-Governor of Manitoba, in extending the thanks of the Canadian Club for my address today, asked me to assure the people of the Maritimes that they would "never tread the wine-press of adversity alone," but that those of the great central region of the Dominion would be found ready to make some sacrifice, if necessary, to the end that prosperity might come and a truly national spirit be developed.

His Honor referred to what he termed our "growing pains" in different parts of the Dominion and declared that underlying them was a real national spirit as strong in the west as in the eastern part of Canada, which would grow ever stronger as the years passed.

There was a large attendance of members and the chair was occupied by Judge Dennistown. Among those present were Judge Fullerton, formerly of Nova Scotia; Judge McDonald, formerly of Prince Edward Island, and several other Maritime men. E. E. W. Rhodes is the club secretary. The keenest interest in my subject was shown by all.

The Free Press today devotes its leading article to an endorsement of the Maritime claim that grain should be handled over the National Transcontinental Railway. Reviewing the report of the Tarquin Grain Commission, which declares that there has been a breach of faith in the establishment of the existing grain rates abroad, the Free Press says there will be general agreement with his conclusion.

Noting the fact that a six-cent rate on grain to Quebec was made in 1916 and that the National Transcontinental was constructed with a four-tenths grade.

Believes Stand Justified.
It then says: "The Maritimes, we feel, are fully justified in taking the stand that rates be put into effect that will permit its being employed for the purpose for which it was built. They are not wanting those who feel that the building of trunk lines east and west in Canada has in measure gone against geography and national economic laws. If this be so, this handicap should not be increased by the addition of what can only be described as deliberate burdens in the form of undue freight rates. The maximum amount of

ACCUSED OF BREACH OF BLUE SKY LAW

Brig. Gen. Smart, M. L. A., Among Those Charged in Quebec Court.

MONTREAL, March 6.—Brigadier-General C. E. Smart, M. L. A. of Westmount, H. McD. Brown and P. S. Ross of the Prudential Trust Co., Rene Beaulieu of Sorel, S. A. Richardson and Ralph Locke must appear in the Montreal police court Monday to answer the charge of having broken the "Blue Sky Law" of the Province of Quebec. Acting for the Attorney-General, Paul Lacombe has laid information before Judge Enright, charging the six men with having directly or indirectly offered for sale, "or by their votes caused to be alienated" shares in the Quebec Industrial Alcohol Company, Ltd., "without first having transmitted to the Provincial Secretary the necessary documents, which are a condition precedent to such sale."

Long Distance Flying Record Strangely Enough Goes to Airman Named Short.

WASHINGTON, March 7.—The long distance flying record of the air mail service is held by Pilot Short. Flying by night and by day, Short has covered a distance of 28,215 miles from July 1 to December 31, the Post Office Department announces. During the same period all flyers carrying United States mail covered a total distance of 1,288,350 miles. Of the total mileage, 228,887 miles were covered by night flying, having flown 28,410 in the darkness.

British Underwater Craft Will Soon Take 20,000 Miles Test Trip.

LONDON, March 7.—Submarine X 1, the mightiest underwater craft in the world, may finish off the lengthy trials to which she has been subjected by a 20,000 mile trip to the Far East and back. The giant vessel is now apparently ready for sea and will shortly be published, the X 1, with her enormous length, tall sides, big gun turrets, and lofty conning-tower, looks for all the world like a Dreadnought of the under-sea. She is, in fact, nearly as large as the largest class submarines which did such splendid work in the war.

LEAVE GRANTED CITY TO APPEAL HYDRO DECISION

Power Company Also Granted Right to Make Cross Appeal

ARGUMENT HEARD IN CASE AT FREDERICTON

Dr. Baxter Contends Legislation Authorized Interference Co. Objects To.

FREDERICTON, March 6.—Public leave was granted today to the city of St. John to appeal from the decision of the Appeal Division of the Supreme Court of New Brunswick, in the injunction suit of the New Brunswick Power Company, to the Supreme Court of Canada.

The application for leave to appeal was made by Dr. J. B. M. Baxter, K. C., as city solicitor, and was supported, Dr. F. B. Taylor, K. C., representing the Power Company, having agreed to the application, according to Dr. Baxter.

In regard to present construction work, Dr. Baxter took the ground that the Legislature, in passing the legislation that it had, had authorized the interference of which complaint was made by the company.

The court granted leave to appeal with the right to the plaintiff of cross appeal.

The court was composed of Mr. Justice Grimmer, Mr. Justice LeBlanc and Mr. Justice Byrne.

French Baker Says He Has Invented Remarkable Food Container.

LAUSANNE, March 7.—A container, which preserves bread indefinitely at almost any temperature, has been invented by Jean Matti, a baker in the village of Pully, near here, after ten years' experimenting.

The invention, the nature of which is strictly secret, has just been declared "perfect" after a ten months' test by Professor Charles Arragon, a chemist of the Canton of Vaud.

In a sworn statement Arragon certifies bread was kept in a perfect state, without losing the slightest degree of nutritive value, palatability, etc. He subjected the container with loaves of temperature below freezing, to excessive humidity, and to various other conditions.

For Other Food, Too. Arragon declares the process is adaptable to meat, sandwiches, pastries, and other articles of food. He guarantees efficacy for at least two years, and sees no reason why bread could not be kept fresh for five or even ten years.

It is pointed out that the innovation would be of immeasurable value especially for military and naval use, and for use on ocean liners. It would abolish the need of special bakeries and would permit purchase of bread-stuffs in the cheapest markets. In the container army rations would keep their original food values after several months of campaigning.

QUODDY POWER PROJECT WOULD EMPLOY 5,000

Hydro Engineer Outlines Plans for Mammoth Development at Border

WOULD COST BETWEEN 75 AND 100 MILLIONS

Generated Current Would Total 500,000 to 800,000 Horse Power.

CALAIS, Me., March 7.—Dexter P. Cooper, hydro-electric engineer in charge of the proposed tidal power development of Passamaquoddy Bay, relative to which a bill now is pending before the legislature of Maine, declared here in an address before a large gathering of Rotarians that with the proper support from the United States, Canada and the state, he could interest capital in both United States and abroad as the proposal is an "international banking problem and will bring new capital into the state of Maine."

Five thousand men would be employed for four years in construction he said.

"The question of tidal power is one which has been heard for a long time and has interested people ever since they had use of tidal power mills," Mr. Cooper told 175 members of the St. Stephen, Eastport and Calais Rotary clubs, who met with their governor, Herbert Carlyle Libby of Waterville, to observe the initial meeting of the newly formed local Rotary club.

"The use of electricity is becoming so universal that its production is becoming a matter of concern to all," the speaker said. "There are today 26,000,000 homes in the United States and 80 per cent. of these homes are using one form or another of electric power. Utah leads with 98 per cent. of the homes equipped, while the state of Maine is one of the ten with a percentage of 66. Electricity in industry is so general that it is hardly necessary to speak of its many uses along these lines in passing.

200 to 400 miles. I have often been asked if it could be transmitted by wireless. Such would not be practical at the present time from an economic standpoint as by this means it would require 99 horsepower to transmit one horsepower."

Apples stated in his address that the proposed project is no new idea brought to light by him. On the contrary he said that his plans were based on sound facts which have been tried and proven in the past.

As a result of his 12 years of study of the tidal possibilities of this section he has come to the conclusion that the project if developed, would cost in the neighborhood of from 75 to 100 million dollars. In return, he said, it would develop between 500,000 and 800,000 horse power, depending on the range of the tides.

"If all of the energy could be consumed by the filling and draining of the Cobequon and Passamaquoddy Bays, in accordance with my idea," said Mr. Cooper, "a tremendous amount of power could be developed. This idea, so to speak, means nothing more than the applying of well tested and practical plans of the modern hydro-electric plants.

Letters to The Editor

REPLY TO THE EDITOR

REPLY TO THE EDITOR  
To the Editor of the Times-Star:  
Sir—I was much interested in a recent issue of your valuable paper, and the over-crowding of the West St. John street cars. It seems to me, sir, that the important thing is not the exposure of a wrong but rather the discovery of a remedy. The conditions are known and apparent. The important thing is not the problem but the solution. Now any solution must be limited to a certain line of attack. A syndicate of capitalists is not a charity organization. Its slogan never can be "Pro bono publico." It is formed to make money. The shareholders' profits must not be touched. To suggest more cars, therefore, is useless. This is financial loss, for which public convenience is no compensation. In a quiet, peace-loving old town, this is too revolutionary. To suggest faster cars means up-to-date rolling stock. This again means more money. "Which thing is absurd." The public must carry the burden of this poor service. What is the public here for, anyway? With a long-suffering people whose great virtue is inertia and whose chief vice is that they try to carry out the Sermon on the Mount, one must get reconciled to an increase of 25 cents on the weekly pass in order to pay deficits on the use of the "electric ranges." One must get reconciled to the same old schedule under the same conditions. That is it. It is beyond the help of man.

But, sir, I wish to offer a solution that will not affect the profits of the company. My solution is to introduce new methods of handling the people in dealing with this crowd of ambitious citizens. The citizens will stand for anything, so that experiments can be made with safety. There is no

danger of the citizens ever revolting. This makes our task more congenial. My first suggestion is what I call the "mechanical" solution. Pack the cars scientifically. Provide spike-tipped poles for the conductors. A spike would send the people to the rear of the car at once. Even a pin has motor power. But fancy the salutary effect on a "jam up" of people the vision of a spike-pole would give. The dulcet notes of a evening conductor, "More down the car, please," would be missed, but sentiment must give place to science and with a spike-pole the "jam" of the car would fill up first. Failing this, there is the sardine method of packing. Why not flatten the people out like sardines? This is what crowds of people are for, anyway — to be forced and flattened.

Things are flat and people get flat in the cars, anyway. Expedite labor. Give the conductor a bludgeon with his spike pole and he could make a man go in like a barrel and come out like a plaque. The company could blow the cars for tourists who wish to be "reduced." Then, in order to get the people from the rear end of the car at the stopping place, why not use grappling irons. This would fetch them. It would be irresistible. When a conductor tries to put two car loads of people into one car, why not use pneumatic power. I have seen men and women shoot quickly to the rear end of an automobile with a burst tire. Why not shoot the people into the rear end of the car? This is a dense crowd can be further condensed by compressed air. The air in the cars, especially on Saturday night, would be easily compressed. Think of a car load of people tightly packed by compressed air. Profits would be doubled. This air is salubrious. But this is only one solution.

Then, there is the poetic method. This is gentler and more artistic and the company could raise the price of tickets. People would come here to settle from all parts of the world in order to ride in cars that were travelling orchestras whose conductors were Caranoses. Give the conductor a course adequate for every occasion and condition. To ladies, standing wearily in a seat, let the conductor sing softly: "Now the Day is Over." To a lady crying, let him sing: "Fading Feeling." To a young lady who has become smoke which rolls in clouds in the rear end of the car, the conductor could sing: "Farewell, My Own." When the young man searches the car for his sweetheart, uncertain of the stopping place, let the conductor sing: "Alice, Where Art Thou?" When 20 boys try to enter the car at once, let the conductor sing: "Farewell, My Own." When the young man searches the car for his sweetheart, uncertain of the stopping place, let the conductor sing: "Alice, Where Art Thou?" When 20 boys try to enter the car at once, let the conductor sing: "Farewell, My Own."

Then, there is, as a last resort, the psychological method. In these days of the "electric ranges," every person is going in for psychology. Let the conductors take a correspondence course with Emile Coue. When once come with the conductor singing: "Just Before the Battle, Mother." Music will soothe the savage breast. Shakespearean Music the mystic word. "Save" is a nasty word, but it is "save" in the sense of "save." Give the conductors batons. Let them be in very deep "conductors."

EFFORTS OF TROJANS TO LAND CLASSIC MEETS WITH SUCCESS

Local Stars Will Compete With Upper Canadian Winners In Semi-Finals On March 23 and 24

The biggest basketball series ever played in St. John has been clinched. For the first time in the history of Canadian basketball, an effort is being made to definitely decide an all-Canada championship team by the Dominion Basketball Association, and to St. John has been allotted the semi-finals.

On March 23 and 24 here, the Trojans, 1924 Maritime champions, will meet either Ottawa City or the Montreal Amateur Athletic Association team for the right to go to Edmonton to compete in the finals.

This definite word was received here today by Walter R. Golding, the energetic manager of the Trojans, who have worked faithfully to bring this series to St. John. A. C. Millie, Halifax, president of the M. P. B., has notified the Trojans through A. W. Covey, honorary president, that the Trojans will officially represent the Maritimes in this series in view of the fact that the Nova Scotia title will not be decided for several weeks yet. This factor had been the only drawback to the Trojans signifying their willingness to undertake the responsibility of staging this series, and now that that has been removed, the way is paved for giving St. John sport-lovers a basketball treat. An effort will be made to play the games in St. Vincent's gym, the finest in Eastern Canada. A definite decision on this point is expected this evening.

The Trojans deserve credit for landing this big series and deserve the backing of every fan in St. John. It will cost considerable money to bring either Ottawa or Montreal down here, but remembering the response of the fans when McGill played against the Trojans here, the local boys did not hesitate one moment to give their support to the Trojans.

Scores Distinct Triumph. In securing this stellar sporting attraction St. John has scored a distinct triumph and it is now up to citizens in general to make it a success. The Trojans will need assistance in staging a meet of such magnitude and it will be a great boon to the city if their efforts meet with success. This series will undoubtedly attract the attention of basketball players throughout the Dominion and the advertising the city will receive will warrant the support of not only the sporting fraternity, but of the City Fathers, the Board of Trade and other organizations.

Will Need Competition. The leading basketball players should band together to organize teams to compete with the Trojans and give them necessary practice. Some former stars might assist by appearing on the floor, and working hard to give the Trojans a real test. The kind of competition necessary for the crucial series, and of conditions for the crucial series, will be a great boon to the city if their efforts meet with success.

Charlie Gorman Ties Indoor Record at Pittsburg Meet

Along the Sport Trail

By RAY HANSEN

HATS OFF TO the Trojans and their energetic manager, Walter R. Golding. Through their efforts St. John will be the scene of one of the greatest basketball series ever staged in the Maritime Provinces. Now it is up to the citizens to stand behind the team and do their bit to make the series an unqualified success. If the Trojans need a trainer not a minute should be lost in securing one. That they have a great team is generally conceded but a few fine points might mean giving them a necessary edge to win the Canadian championship. Another thing will be necessary to help them in their quest for honors and that is competition. If former star exponents of the game would only do their bit by coming out and assisting them in their training it would go a long way towards getting them ready for the crucial test against the Upper Canadian champions. Let the sporting fraternity of St. John band together and by one grand united effort bring to the City of the Loyalists a Dominion championship.

JUDGING FROM the story, which broke yesterday, Biddie Lewis and Francis McEachern of Glace Bay will be put on the carpet by the Maritime Amateur Athletic authorities and will be made prove that they are not guilty of the charges of professionalism preferred against them. It will be recalled that Lewis was the surprise of the lightweight division in the Maritime championships by his sensational defeat of Reg. Harper and Nixey Kennedy, two of the cleverest boxers in these parts. If it is true that they have participated in professional bouts they will naturally be banished from the ranks of the simon pures and will not be allowed to claim the amateur titles. Those who saw the bouts will recall the actions of both Lewis and McEachern. They were cool under fire and showed occasional knowledge of the game. If the charges prove to be false then both deserve credit for their marked ability. The question fans will naturally ask is, who will be conceded the titles in event of Lewis and McEachern being professionalized? There is only one way to determine that. Let the two leading contenders in both divisions meet in the New Brunswick championships and settle the issue. There is no doubt this would make a big hit with fans and will undoubtedly be welcomed by the boxers themselves. A go between Kennedy and Harper would be a headliner for any programme.

EDDIE COLLINS, manager of the Chicago White Sox, has evidently got all kinds of confidence in Ray Schalk's catching. Recently he said Ray was far from through and he was banking on him to be of great service in the coming campaign. Furthermore Eddie says he will want him to catch in every game that he is physically able. Many local fans have seen Schalk in action and all agree that he is a very heavy and peppy catcher. He did not make a very impressive showing last year largely due to hard luck. He had fingers broken or injured from the spring training trip until the close of the season. If he has any better luck this year he should prove valuable to Eddie.

JIM CORBETT is evidently jealous of the notoriety of Billy Sunday for he has abandoned the vaudeville stage and says he will devote his time to lecturing in the future. The erstwhile heavyweight champion has made a lot of money and wisely hung on to it. As a result he is now in a position to take life easy. He is reputed to be quite a speaker and should prove popular as he has a good appearance and personality.

FANS WHO HAVE been reading the daily reports about the six-day bicycle race in New York will be interested to learn the reason for the withdrawals of Georgetti, the great Italian cyclist, and Moeckles, the giant Hollander. The former, who was one of the most popular riders on the track met with a bad accident Wednesday afternoon. He was cycling the track when his wheel skidded at a section of the track, known as "dead man's curve." He ran a two inch silver spike into his left side, sustaining a painful injury. He was attended by a surgeon and he returned to the track after an hour's rest. Despite his courageous effort, however, he was forced to withdraw. Moeckles sustained a fractured rib when he tumbled down the track. Despite his painful injury he persisted in continuing the grind in an effort to protect his partner. When Georgetti was injured and retired this gave the giant Hollander a chance to withdraw and a reconstruction of the teams took place.

Tex Rickard Confident He Can Get Dempsey To Fight

NEW YORK, March 7.—"I Jack Dempsey fights in 1925, it will be under my promotion."

This statement was made last night by Tex Rickard, Madison Square Garden promoter, following a long conference with Teddy Hayes, Dempsey's trainer and personal representative. "Hayes gave me definite assurance from Jack Dempsey that he would like to have Dempsey meet the winner of the Wills-Gibbons match, which he intends to promote at the Yankee Stadium some time this summer. The Dempsey bout, he said, would likely close up the outdoor season, and he would hold some time in September, probably at the Yankee stadium."

Truro Wins First Game From Windsor

TRURO, March 7.—By scoring a 4 to 1 victory over Windsor here last night, Truro has a three-goal lead in home and home series to decide the Nova Scotia amateur hockey championship. The second game will be played at Windsor Monday night.

Victoria Wins In Western Play-Off

Defeat Saskatoon Sheiks 3 to 1 in First of Semi-Finals For Title.

VICTORIA, B. C., March 7.—(Canadian Press.)—Victoria carries a two-goal lead into the second game of the semi-finals for the Western Canada Hockey League championship, as a result of a 3 to 1 victory here last night over Saskatoon Sheiks. The Cougars carried the play to Saskatoon in the first two periods, but in the closing 20 minutes Victoria was lucky to preserve their lead. The Cougars came on at a terrific clip, and had Holmes not been at the peak of his game there would have been a closer score. Summary—First period: 1, Victoria, Frederickson, 4:27. Second period: 2, Victoria, Halderon, 9:20. Third period: 3, Saskatoon, Denny, 14:35; 4, Victoria, Walker, 2:30.

Issue Ultimatum To Jack Dempsey

NEW YORK, March 7.—Jack Dempsey, heavyweight champion, must accept or decline a challenge filed by Harry Wills, negro heavyweight, within 24 hours, or take his place among the black-listed in this state, according to an ultimatum issued yesterday by the State Athletic Commission.

TORONTO, Ont., March 7.—Niagara Falls defeated Grimsby, 4 to 2, here last night, in the first of a two-game series of Allen Cup eliminations, the winner of which will meet Victoria of Montreal.

MUST WIN OUT TO KEEP SPACE WITH SENATORS

Canadiens Have Crucial Game With Maroons Tonight

MONTRÉAL, March 7.—Montreal Maroons will make their final appearance of the season before a local crowd when they tackle the world's champions at the Arena tonight in what may prove a most decisive battle for the Canadiens, who are in a neck and neck race with the Ottawa Senators, for the remaining playoff berth in the National Hockey League. Canadiens must win to make certain of a place in the league elimination, and they do take the battle, and Ottawa loses to St. Pats, at the capital tonight, Dandurand's players will be in line.

Conqueror of Sid Terris

Mandell shapes up as one of the best prospects at 133 pounds the game has produced in some years. And since his triumph over Terris experts are touting him strongly and predicting that he stands an excellent chance to wear Leonard's old crown as lightweight king. Mandell has been in the ring pastime since 1920. He boasts a good record, having beaten some of the best boys in the lightweight class. Moreover, he seems to be improving all the time.

YANKEE REGULARS IN FIRST GAME OF SEASON

Are Defeated By Rookies In Six Inning Contest—Report Says Dazzy Vance Will Sign

NEW YORK, March 7.—The New York Yankees, in their maiden appearance of the 1925 season, met defeat down in the wilds of St. Petersburg, Fla., yesterday, by a makeshift combination of rookies. It was only six innings of pastime, but the recruits showed up in a most impressive manner. John McGraw of the Giants hasn't got down to the point of playing a game yet, even in an informal state, but he is gathering his forces preparatory to sinking his teeth into a morsel of St. Patrick's, which choked him last night in the final game of the season. Things in the Dodger camp of Brooklyn team are going along daintily without "Dazzy" Vance, although reports from the South are that Ebbets and Vance have agreed on salary and he is gathering his forces preparatory to signing the fatal papers. Just as manager Hendricks of the Rays was becoming worried over the absence of Carl Mays, and the two

Disqualified In Three-Quarter Mile—Drops Out of Mile

PITTSBURG, Pa., March 7.—More than one world skating record is expected to be broken when some of the foremost ice artists compete tonight at Duquesne Garden in the second night's programme of the International Indoor Skating Championships.

One indoor record went into the discard and another was equalled last night, when after the last event, steps were taken to put the ice in better condition, and to give the skaters a better field on which to try their blades tonight.

Miss Esle Mueller of New York broke a record by going one mile in 3:19.8, bettering the record established by Miss Gladys Robinson in Milwaukee, three years ago, of 3:31.2.

Charles Gorman of New Brunswick equalled Bobby McLean's record last night by covering 440 yards in 37:5 seconds.

Despite Gorman's performance, Joe Moore, present holder of the international speed championships, took top honors by finishing first in one and second in two events. Disqualified in Three-Quarters. Charles Gorman, St. John, won 440 yard dash for men; Joe Moore, present international champion, was second, and E. S. Stevenson, Toronto, third. In the women's mile, Gorman was disqualified. Time 2:26.4. Lella Brooks, Toronto, won the 220 for women, time 23 seconds. Esle Mueller won the women's one mile, time 3:19.8. Moore, New York, won the one mile for men, time 2:47.4.

Moore Has 70 Points. Joe Moore took the lead in the meet, winning two seconds and one first, giving him 70 points. Charles Gorman finished with 30 points, as also did Boyd of New York.

In the women's mile, Miss Brooks of Toronto, led the field with 50 points. Miss Mueller of New York and Miss Ruth White of Toronto were tied with second honors.

Drops Out of Mile. Gorman beat out Moore in the 440 yard dash, but in the three-quarter mile final Gorman was disqualified for shoving and by his disqualification gave a place to Boyd. It was in this race that Moore, the speedy New York champion, was ousted by Morris. In the mile, Gorman was disqualified by the officials, left the ice and did not finish the race, which was won by the champion, who finished second in both the 440 yard dash and in the three-quarter mile event.

The remaining events on the championship schedule will be run off tonight when the indoor champion will be selected.

The Summaries. 220 yard dash for women—Won by Miss Lella Brooks, Toronto; Miss Ruth White, Toronto, second; Miss Virginia Young, Pittsburgh, third. Time 23 seconds.

440 yard dash for men—Won by Charles Gorman, St. John; Joe Moore, New York, second; E. Stevenson, Toronto, third. Time 37:5.

Women's one mile, final—Won by Esle Mueller, New York; Lella Brooks, Toronto, second; O'Sickey, Cleveland, third. Time 2:47.4.

Men's three-quarter mile, final—Won by Morris, New York; second, Moore, third, Boyd, New York. Time 2:26.4. One round for men—Won by Moore, Boyd, second; O'Sickey, Cleveland, third. Time 2:47.4.

Carroll Players' Leading Man Thwarted Family Expectations at Early Age

VOICE WON HIM WAY BEFORE FOOTLIGHTS

Has Had Rich Experience in All Branches of Work—Traveled Far.

By all the rules of heredity, Frank Harrington, leading man of the P. James Carroll Players at the Opera House, should have been a doctor. Both his maternal and paternal grand parents were physicians, and he also has three uncles and two cousins in the same profession. His father, however, broke the chain by studying theology and becoming an Episcopal minister, and, perhaps, on this peg of circumstance Frank hung his decision not to dabble in medical administrations. Be that as it may, however, the proud parents, just as soon as the nurse had whispered, "It's a boy," saw his shingle out with "M. D."

But the nurse was the first to foresee some other avocation in little Frank's future. As the tiny pink bundle of humanity kicked about during the first few hours of his sojourn on earth, a chubby little foot protruded itself from the covers. "Look," exclaimed the white-capped lady, "He's going to travel!" And she pointed out the fact that his big toes were not in such close companionship with the others as is usual, and that, therefore, it was decreed by nature that he should travel. So, to carry out the edict of his toes, Frank eventually went on the stage, and in vaudeville, stock and road productions, he has done considerable moving about—and expects to do more.

His Greatest Ambition. "What is your greatest ambition?" Mr. Harrington was asked by The Times-Star man. Frank took his pipe from his mouth and pointed it, stern first, at the reporter, who expected to hear him say "A Broadway star." But Frank's thoughts were not on Broadway. They were away down at Patchoque on Long Island, where he is the proud possessor of a 15-acre tract of sandy land.

"To build me a shack down at Patchoque," was the astonishing reply, "to build it with my own hands, on my little plot which is nearly a mile from the nearest neighbor, and where I plan to spend my vacations." He explained that he had summered in that vicinity for several years and had helped almost everybody in the neighborhood to put up their summer places, so he felt qualified to start on one for himself.

Asked how he liked this part of the country he said heartily, "Fine." Although he had not been here as long as some of the others, he had begun to get acquainted and appreciated all the kindnesses that had been shown to him. He had nothing but words of praise for the other members of the company.

"After all," he remarked, with a smile, "there is nothing like pleasant companionship to make heavy tasks light and hard work easy; that is why I feel very, very happy in my work here."

divisions in the way of study and work, but there is a permanency of location about it that compensates for the other drawbacks, and one is able to settle down into more or less of a comfortable home."

Has Traveled Far.

Although the greater part of his career has been in the United States, Mr. Harrington has had the unique experience of having played for a season in the romantic islands of Hawaii, which he looks back upon as one of the brightest spots in his life. He has spent quite a lot of time in Boston and, while there, as a member of the Coburn Players, he was able to round out and perfect his experience in Shakespearean roles. Later he was associated with Marlow and Southern and Arnold Daly, and had his first engagement as leading man with May Robson. His work has carried him all over the United States, and in between times he has found the opportunity to make a holiday trip to Europe, where he picked up a few tips from the prominent artists on the other side of the Atlantic. And so, the odd big toes are getting in their work.

It is no doubt to his mother that Frank owes, to a great extent, his talent for theatrical work. While she has never done any dramatic tasks, she is well known as Ida S. Harrington to public in New York and other U. S. centres as a lecturer on household economics and hygiene. The family home is now near Philadelphia, where Frank's father is stationed.

MISS DUNCAN MAKES BIG HIT IN HALIFAX

Newspapers Highly Praise St. John's Leading Lady in "Branded" This Week.

The fact that Nancy Duncan, leading lady of the P. James Carroll Players here, made an excellent impression on Halifax audiences during her recent enactment of the drama, "Branded," is indicated by the press reviews of the play published in the papers of that city. The following are extracts from the principal press notices of the show:

HERALD—"The applause which was awarded her at the climax of her many big scenes was sufficient proof of her ability as an actress and tribute to the popularity that she gained upon her initial appearance here. She displayed ability worthy of the highest commendation. She was the recipient of two baskets and a bouquet of flowers."

CHRONICLE—"The interest centred on Miss Duncan, who is young, slight, good-looking and who possesses a pleasing voice. Her part made many demands upon her and she met them gracefully and adequately. Her emotional scenes were well worked up to climaxes and they were well sustained, winning much applause. She has a pleasing personality and really a very fine piece of work. Miss Duncan had many curtain calls."

SHOW GIRLS WERE KEPT PRISONERS

Arrest of Two Men Follows Phone Message From N. Y. Apartment.

NEW YORK, March 7.—The neighborhood of 135th street and Riverside Drive was startled by the screams of women at 5 a.m. the shouts of men and the accompanying noises of a fist fight. Out of an apartment house emerged a negro elevator operator. He appeared frightened. Presently he returned with two policemen. Within a few minutes two men darted from the house; the policeman followed. Patrolmen White and Baxter overtook and arrested George Reiser, 31, who, they said, is a son of "John the Barber," a fight promoter, and Philip Gold, 22.

Reiser and Gold were arraigned later before Magistrate Frothingham in Washington Heights Court and held in \$5,000 bail for further hearing.

### FORMER ST JOHN GIRL HEROINE OF EARTHQUAKE

#### Roxie Carrier's Action Averts Panic in Old Ottawa Auditorium

#### THOUSAND PEOPLE WERE IN DANGER

#### Stops Rush for Exits by Resuming Song in Collegiate Production

Roxie Carrier, sixteen year old pupil in the Lisgar Street Collegiate School, Ottawa, who left St. John when her parents removed to the Federal capital a few years ago, undoubtedly saved many lives from panic results during the earthquake a week ago tonight.

The Collegiate scholars were having their annual entertainment, which included a musical comedy entitled "El Bandido." The earthquake struck about 9:20, when Miss Carrier in the role of Donna Cyrella held the stage alone. A spotlight was toppled by the tremor and the rocking of the building in which 1,000 people were seated, caused an excited person to shout "fire!"

Stopped the Show.

The orchestra of 80 Collegiate girls stopped playing, the audience rose en masse and a moan of fearful outcry swept through the old fashioned auditorium furnished with two small exits. The floor swayed and people were tattered almost off their feet. Reports say the shock was very severe in the Ottawa district.

An Eye-Witness Relates.

Quoting an eye-witness writer in the Ottawa Citizen, Miss Carrier's coolness and common-sense is thus described: "In the meantime, Miss Carrier had stayed at her position on the stage. She had stopped singing, and the orchestra had also ceased, the effect of that young girl standing, a picture of loveliness in herself, unconcerned and waiting for the people to settle down and let her continue her singing, was magnetic, for the people did quiet down and settled once again into their seats."

"Only an Earthquake."

Some of the girls in the orchestra started to cry, and Miss Carrier called to them that it was only an earthquake and nothing to cry about. She then called to the conductor to tell her where to start her song again. He did so and she continued her singing as if nothing had happened.

In the meantime many of the girls behind the scenes were crying, and one fainted, but the boys of the Cadet corps soon restored their confidence and convinced them that all danger had passed. When the time had arrived for the chorus to enter the stage there was no trace of fear or distress on any of the singers.

A Narrow Escape.

The sensation during the swaying of the building was most alarming, the Ottawa paper states, and at the height of the quake the menbers of the orchestra, so much so that there was no doubt in the mind of anyone as to what was happening.

The experience of last Saturday will probably never fade from the memory of those present and the features that will remain uppermost in the memory of Miss Roxie Carrier, of the boys who reassured the panic-stricken crowd, and the pluck of all those taking part in the evening's entertainment in continuing and finishing in such splendid form after such a startling and trying experience.

Roxie Carrier is niece of Miss Bertha Lav. Worden, formerly of St. John, and well remembered as a prominent musician here, now of the faculty of Ottawa Conservatory of Music. Miss Worden happens to be in town at the present time, having accompanied Mrs. William Pugsley from Upper Canada.

### CHILDREN HEAR STORIES OF CHINA

#### Hundreds of Kiddies Delighted by Tales Told at Three Places.

Mrs. W. J. Davis, who has traveled afar with her husband, Captain Davis, delighted 100 children, assembled at the armory this morning, with her stories of China. She had for illustration of her stories, many rare curios of that country, which she showed the children and explained their purpose to them. Four little girls sang "Peggy O'Neill" at intermission, with the whole company joining in the refrain. Miss Mary Gunn was in charge and was assisted by Mrs. Arthur Burdett and others of the mothers, who accompanied their little ones and enjoyed the hour quite as much as anyone else.

Free Public Library.

Miss Sybil Barrington, R.N., provincial organizer of home nursing classes for the Red Cross, held 65 children spellbound this morning when she told them "Animal Stories from Life." The hour was spent in the Natural History Museum assembly room, as the reference room of the Free Public Library is still experiencing house cleaning. Mrs. Margaret Lawrence was with Miss Barrington, to keep order, but this was not a trying task, as the children were "As quiet as mice," Miss Barrington said.

At St. Vincent's.

St. Vincent's gymnasium was a very interesting place this morning, when Miss Alice Glennie told the large number assembled there about "Peter Pan." The children listened with breathless attention to the story, so vividly in their minds, from the recent display of the fairy boy in pictures last week.

### FLOR DOWN AGAIN

#### Second Cut of 30 Cents a Barrel Within 3 Days—Went up Wednesday.

For the second time within the last three days the wholesale price of flour was reduced 30 cents a barrel here this morning. This is the third change in four days, the price having been increased 30 cents a barrel on Wednesday. Dealers here anticipated that the quotations would likely show further movements in the near future, but they were unable to say whether they would be higher or lower.

### Local News

G. N. HEVENOR ILL.

The condition of G. N. Hevenor, who is critically ill at the General Public Hospital, remains unchanged.

TO SOUTH CAROLINA.

Morris Scovill and his sister, Miss Elizabeth Scovill, of Fredericton, will leave on Tuesday next for South Carolina, where they will spend several months. They will visit Mr. Scovill's son, Roger P. Scovill, at Greenville, South Carolina.

ALLOWED TO STAND.

Two reports against Dr. T. E. Bishop on his application for a license were given a hearing before Magistrate Henderson today and after hearing the explanation, they were allowed to stand.

FUNERAL ON SUNDAY.

The funeral of Max Ross, who died suddenly on Friday evening at the Park Hotel, King Square, will be held on Sunday afternoon from the Hotel to Fernhill cemetery, with service at 2:30 o'clock, conducted by Rabbi Mendelbiatt and Rabbi A. Babb.

FATHER IS FINED.

A juvenile was before Magistrate Henderson this morning on a charge of throwing stones and breaking a window of a C. P. R. passenger coach at the Hilliard street crossing on March 8. A fine of \$8 was imposed on his father but allowed to stand.

WELL ATTENDED.

The mission of Rev. Harry Taylor, who assisted by Miss Ruth Taylor as soloist, at the Main street Baptist church, is growing in interest and last evening's service of the weather the vestry was well filled. On Sunday Rev. Mr. Taylor will preach at both the morning and evening services.

IN THE MARKET.

Good supplies of everything except poultry greeted the eye of the housewife this morning when she paid her Saturday visit to the country market. What few chickens and turkeys that were on sale found ready buyers at 50 to 55 cents per pound. Eggs sold for 45 and 50 cents per dozen, and butter for 30 to 45 cents per pound.

DRIVER FINED.

A. Levine was fined \$10 by the Magistrate on three reports—operating an automobile at a greater speed than necessary yesterday, operating a car without front and rear lights and failing to stop when signalled by the police. The maximum penalty for the three charges was \$50 but defendant was allowed to go after paying \$10 and listening to a warning.

TUXIS BOYS MEET.

At a meeting of the Rockets, Tuxis Square, of St. David's church, held last evening with the pastor, Thomas Auld, in the chair, an excellent address was given by Douglas Breen of the Brookville group. Mr. Breen is a member of the House of Parliament and he spoke most interestingly of the recent meeting in Sackville. Plans were made for the father and son banquet on Friday evening next.

ST. MATHEW'S W. M. S.

The W. M. S. of the St. Mathew's Presbyterian church, Douglas avenue, held its monthly meeting this week at the home of Mrs. E. B. McLean, Victoria street. Miss Jane Scott, president, was in charge of the business and devotional sessions. Mrs. J. W. Britton led in the prayers and Miss Bessie Magilton gave a paper on India. A social half hour was enjoyed, at which Miss Ida Harper of Chipman was a special guest.

KEYNOTE OF MORNING.

Among the flagstuffs that floated solemn farewell to Hon. William Pugsley yesterday was that of the new Admiral Beatty Hotel, a singular coincidence in the forward history of St. John. No citizen of late years struggled harder or more effectively to bring about the conditions that demanded a modern hotel than the man whom the Beatty honored with its 24 foot Jack at half-mast Friday. Furthermore it was a keynote of mourning in the very heart of town.

OBSERVE BIRTHDAY.

Mr. and Mrs. Frank Flewelling, Manawagonish road, entertained for their little daughter, Olive, when she celebrated her eleventh birthday a few days ago. The guests were Dorothy Baird, Mary Clarke, Betty Clarke, Jean Baird, Hainch Carpenter, Stephen Clark, Maynard Chadwick, Leslie Chadwick, Clifford Barlow, Alex. Baird, Hainch Carpenter, George Carpenter. Yellow and white coloring was used for making the cake the pretty centre for the tea table. Many gifts were brought by the guests to their little friend.

WILLIAM D. GIGGEY DEAD.

William D. Giggey, retired millman, died at his home, 230 Millidge avenue, this morning, after an illness of five weeks. He was 66 years old and a lifelong resident of the North End of the city. Besides his wife, he leaves two sons, Frank, of the city postal service, and Wilbert, at home; one daughter, Miss Beatrice M. Giggey, R. N., of New York, and four sisters, Mrs. George Crouse, Mrs. Alfred Brown, Mrs. Alfred Bent and Mrs. John Allen, all of Massachusetts. The funeral will be held from his late residence to Fernhill on Monday afternoon at 2:30 o'clock, with service at the house by Rev. Canon R. P. McKim.

### Service Station is Ordered Closed

#### Fire Marshal Takes Action Regarding Menace to King Square Property.

Things have been moving swiftly since the complaint of H. A. Powell to the City Council that the gasoline service station on the north side of King Square was a menace to property and possibly to life—and that he would hold the city responsible if any damage was done to his property, which it admitted.

H. H. McLellan, fire marshal, today confirmed a report that he had given orders to have station closed. Mr. McLellan said he made examination of the store in which the pumps were located and found it a regular fire trap. The walls were made of board and the floor was soaked with oil and gasoline, he said, and all that was needed to start a conflagration was for some one to drop a lighted match. He had found that the door was open all night and any person could enter.

May Order Removal.

The fire marshal said he also had under consideration the ordering of the removal of the building in which the store was located as an examination had revealed that it was not in a fit state of repair for occupancy and unless repairs were made it would have to come down.

### Girls' W. A. Branch at East St. John

#### Officers are Elected at Organization Meeting in All Saints Church.

A Girls' Branch of the W. A. was formed on Wednesday evening at All Saints church, East St. John. Miss Peters, the diocesan secretary, explained the work and aims of the association. A. L. Gardiner opened the meeting with the W. A. prayers. The selection of officers was conducted by Miss Peters assisted by Mrs. C. W. Stephens and Mr. Gardiner, and resulted as follows:—

President, Miss Margaret Emery; vice-president, Miss Ivy Wixon; treasurer, Miss Alice Emery; dorsas secretary, Miss Muriel Chamberlain; assistant dorsas secretary, Miss Mabel Woodroffe; correspondent and recording secretary, Miss Ruth Stephens; E. C. D. treasurer, Miss Phyllis Holten; prayer partner, Miss Margaret Emery; wing messenger treasurer, Miss Ivy Wixon.

Church Activities.

This church has been very active since its organization last June. It has a women's guild of 25 members and every Thursday evening its meetings are well attended. During the winter many poor families have been helped by the guild, at each meeting the members bringing groceries for some family in need.

During Lent on Wednesday evening lantern slides are being shown by Mr. Gardiner to depict the Life of Christ. A confirmation class has also been formed and is well attended.

### St. John Lady is Among Graduates

#### Miss Dorothy Christie Receives Diploma at Mount Sinai Hospital, New York.

The graduating exercises of the class of 1925 at the Montreal Training School for nurses, held last evening at the school in New York, held particular interest for many in this city. One of the members of the class, Miss Dorothy Christie, of this city, has many friends here who will be pleased to learn that she received the coveted diploma for which she has labored so earnestly.

Miss Christie is a daughter of Mr. and Mrs. Robert A. Christie, 135 Victoria street. Congratulations messages were sent to her by friends in the city and other parts of the province and a number of floral tributes were telegraphed to her.

#### Delbert Seely, proprietor of the Park Hotel was operated upon in Newton, Mass., on Wednesday and will receive further surgical attention in a week or 10 days.

Mr. Seely withstood the operation well and while confined to hospital will have the special attentions of a daughter and a son-in-law physician.

### Hiram on Tour

EDMONTON, Feb. 23.—Well, sir, here I be back to Edmonton —an' I hed to dig up my old coonskin cap. It was ruther cold in Calgary yesterday—but this town aint a-gonna let Calgary git ahead. I was thinkin' about that feller I seen ploughin' in the Fraser valley in British Columbia last week—an' what a lot o' different kinds o' weather you kin strike in a big country like Canada. A Truro feller told me about gettin' in his hull crop in Alberta, an' then goin' down an' stayin' fer a spell in Ottawa—an' when he went down to Nova Scotia his brother hed just begun plantin'! Well, sir—the folks out here can't do enough fer a feller. I heerd a good story today about one o' these here western farmers. When he was goin' to die he ast his lawyer to hev six men come from the town to be the pallbearers. The lawyer says, say he: "Why don't you hev your old neighbors do it instead o' them fellers from town?" The farmer he gits another breath an' says he:—"Then three bankers an' them three storekeepers has been carryin' me all my life—an' they may as well finish the job."
