ADMISSION.

New students are admitted at the beginning of each term, under the "Regulations of the Council of Public Instruction relating to County Academies." Students from beyond the limits of the County are required to pay a fee of *Six Dollars* per term to the Clerk of the School Commissioners. Those who have already paid *four* full fees shall thereafter be admitted free. A ticket admitting for the full course (any number of terms necessary) may be obtained for twenty dollars. All candidates from the Town and County are admitted free upon passing the entrance examination. The following are *exempt* from the entrance examination, viz, (a) All those who have been admitted to full standing in any County Academy subsequent to Nov. 1st, 1885. (b) Those who hold Teacher's Provincial Licenses, or Normal School diplomas. (c) Those who hold certificates of scholarship from any institution in any country, which the Principal shall deem equivalent to the passing of the entrance examination.

Those unable to pass the Entrance Examination will be admitted to either of the two Preparatory Departments on the payment of a fee of *four* dollars per term of six months.

CLASSIFICATION.

All admissions to the Academy are to the *First Year*, or "D" class, unless the candidate can in the regular manner show his ability to enter a higher class.

Admission to the *Second Year* or "C" class, *Third Year* or "B" class, *Fourth Year* or "A" class, is obtained either by *certificate* of promotion, or of sufficient scholarship, or by passing the classification examination, which shall be held on the opening day of each term viz: Nov. 1st. 1889, and May 1st. 1890. The examination for each class shall be upon the leading subjects of the class below that applied for. A grade "D" (teacher's diploma) shall be accepted instead of examination on the subjects which it covers, and for these only, in entering the *Second Year*. A grade "C" in like manner, for entrance into the *Third Year*, and a grade "B" for such subjects as it embraces, in entering the *Fourth Year*.

SUPPLEMENTARY EXAMINATIONS.

Candidates who are not present at the regular entrance or classification examinations, may at the discretion of the School Commissioners and Principal be admitted to a supplementary examination for admission on presenting a receipt from the Clerk of the School Commissioners of *fifty* cents for the same.

SPECIAL STUDENTS.

Students who do not take the full course are not recognized under the regulations of the Council of Public Instruction; but they may in special cases be admitted, if deemed advisable by the Principal, providing there is no encroachment thereby on the accommodations or privileges of the regular students, and then only on presentation of a receipt from the Clerk of the School Commissioners of one dollar for exemption from the full course.

COURSE OF STUDY.

The course of study is essentially that prescribed by the Council of Public Instruction, adapted to an institution with *four* regular teachers. The subjects are divided into numbered sections of co-ordinate value, to indicate at a glance the relative importance of each at the terminal examinations. Thus, an examination paper with a maximum value of 100 shall be set on each numbered subject. The course is partially gone over each term, thus giving a semi annual chance for promotion.

The *First Year* class is partially adapted to teachers preparing for Grade D.

The *Second Year*, to those preparing for Grade C.

The *Third Year*, to those preparing for Grade B. Matriculation in Medicine, in Law, in the Royal Military College, or for ordinary matriculation in Arts.

The *Fourth Year*, to those preparing for Grade A. or for advanced matriculation in Arts. A certificate of graduation at the end of this course will be accepted instead of the Matriculation Examination in entering the University of Dalhousie.

The course of study is not especially adapted to these several objects. It is rather designed to lay a broad elementary foundation of useful knowledge for all future learning or labor; to stimulate mental activity in as wide a range as possible in order to give the best chances for the development of all the faculties of the student; and at the same time to indicate the most profitable line of specialization in his post-Academic studies or employment.
