By an order-in-council passed on November 6 the Canadian Government points out that it has found loopholes to get out from under and that it will put the draft conventions up to various Provincial Governments.

The Government has ruled that "the provisions of the Labor part of the Treaty of Versailles do not impose any obligation on the Dominion of Canada to enact into law the different draft conventions and recommendations which may from time to time be adopted by the conference." However, it is pointed out that "the obligation is in the nature of an undertaking to bring the draft conventions before the authorities or authorities within whose competence the matter lies for the enaction of legislation or other action."

From this we take it the declarations of ex-Premier Sir Robert Borden and Rt. Hon. Newton W. Rowell were simply declarations of so much air. Ex-Premier Sir Robert Borden heralded the Labor chapter of the Treaty of Peace as Labor's Magna Charta. Rt. Hon. Newton W. Rowell stated that as the Dominion Government had ratified the Peace Treaty, Canada intended to carry out the invisions of the Labor chapter in letter as well as in spirit.

At the Washington conference it will be remembered that of all the delegates present the employers' representative of Canada was the only one of that great assembly to vote against the draft convention for a forty-eight hour week.

A year has passed since the events above briefly described. The Trades and Labor Congress of Canada met at Windsor, and The other day the Drys had Mr. pussyloot" Johnson speaking on 

Organized Labor in Canada will tolerate none of this scheming.

When Labor entered into the International Labor Organiza tion it did so in the firm belief that real protection would be given the workers by legislation.

The Canadian constitution, seconding to the Dominion Government, does not allow for the Dominion Government to enact the most important of the draft conventions of the International Labor Conferences. The writer is of the opinion that the British North America Act should be amended to allow the

enaction of advanced Labor and social legislation. Canadian workers will not be contents of the the juggling Labor has had to fight every inch of the way in the struggle for industrial freedom. Labor will not fall down now. Certainly the work of the Trades and Labor Congress of

their makeup and purpose, stating "that the Trades Unions in all countries continue to be the centre of attack by those in all countries who would substitute direct action and revolutionary methods for ordinary progress through constitutional channels."

That the injection of Trades Unions as part of the name of the Moscow misht is unfair and a misuomer, is readily seen in an extract issued by this new Federa-1. ..... tion from its meeting in Moscow, August 1, 1920, reading as follows:

"Our programme is the overthrow of the Bourgeoisie by force; the bringing into effect of the dictatorship of the proletariat, of irrespressible class struggle both nationally and internationally, and to form an immovable alliance with the Communist International."

Perhaps a great danger lies in the similarity of names that matter issued from the council may be taken in a serious way as emanating from the recognized movement of which W. A. Appleton, of England, is president, and to which the Trades and Labor Congress of Canada is affihiated. President Moore has taken an effective means of showing the source from which these frothings emanate, and if rightly named this arch enemy to the Trade Union movement should be changed to "Interna-tional Brigands of Trades Unions," theirs by right and effort, whether located at Moscow, Geneva or even on this continent.

The difference between them his in this: The miners' leaders, who are not responsible for the managing of the pits, say: "We cannot guaran-tee a standard of output, because we have not the power or the made good. MOKING 6

TOBACCO

The

THERE is something mighty comforting and satisfying about "OLD CHUM" Tobacco; a sort of soothing restfulness that pipe smokers have come to associate with this friendly smoke.

"OLD CHUM" is an old, old chum with all pipe smokers.

It has the perfect tobacco taste-the mellow richnessand men know that they can be chummy with "OLD CHUM" all day long and that the "good night pipeful" will be as sweet and cool as the one enjoyed just after breakfast.

For years and years "OLD CHUM" has been Canada's favourite pipe tobacco and today is more popular than ever.

President Fester, who presided, eported progress on Instituting a semorial to the late Allan Stud-olme in the general hospital.

This would bring a large amount of new, money into the country. Canada, in Mr. Bog-geri's opinion, was probably in a better position to recuperate from the war than any other country, with its great resources and steadily increasing volume of products. Many commercial readjustments would have to be made, and in those engaged in lines of business holding merchandise which was de-precisiting in value with failing prices, would have to draw on their profit and reserve.
