Hazen Reformers Have No Room for Criticism

Public Accounts Committee Finds That Methods Once Condemned are Still Continued.

FREDERICTON, N. B., April 28.—The public accounts committee spent most of the morning in an examination of the public works department under the head of special expenditures on roads and bridges. This expenditure amounted altogether to \$2,728,844.

In looking over this year's accounts he found a bill of W. H. Thorne and Company which had been passed and contained similar charges so he did not think it rested with the present administration to find fault in this respect, as they were doing exactly the same as their predecessors.

The committee thought that there was no harm in paying for these tools but the department should see to it that the tools after being used, should be accounted for and not have the system prevail that every time a contractor built a bridge he should buy new tools and carry them away with him.

The house met this morning in committee and a number of bills passed their third reading.

This afternoon the debate on Mr. Cogg's motion will be commenced. Mr. Murray of Kings, having the floor.

TO TAX IMPORTED LABOR ALL OVER THE PROVINCE

Bill imposing a Working License of \$3 on Non-Residents is Approved.

FREDERICTON, N. B., April 28.—The municipal committee held its final meeting this morning. The bill to facilitate taking of valuation of Victoria County was recommended favorably.

A bill introduced by Mr. Tweeddale to authorize the municipality of Victoria to impose a tax of three dollars upon all persons not being taxpayers in the province who might be employed temporarily in the county, provoked considerable discussion. Mr. Tweeddale explained that the idea of the bill was to afford the county some measure of protection against the large number of foreign laborers employed on railway and other work and who often put the county to very heavy expense for the administration of justice. The principle of the bill was approved by all the members of the committee present and its provisions were made applicable to every county in the province, and the bill will be so recommended to the house.

NELSON ANNOYED AT SPORTING GOSSIP

Finds This an Excuse for Backing Out of His Fight with McFarland.

NEW YORK, April 28.—Batting Nelson sent word here today that he would call off his bout with Paddy McFarland, which was scheduled for Colma, Calif., on July 8th. Nelson said that he was annoyed because McFarland's manager had been making remarks about his affairs. Nelson said that if he fought McFarland later in the summer he would insist that McFarland weigh in at 133 pounds to prove that he was a lightweight.

BRITISHERS INSURING AGAINST NEW TAXATION

Lloyds Doing a Rushing Business in Anticipation of the Budget.

LONDON, April 28.—The trend of public opinion regarding the sources that Chancellor of the Exchequer Lloyd-George is likely to keep to secure the increased revenues necessary to balance the budget is evidenced in the business being done today at Lloyds. Enormous amounts of insurance are being taken against increasing the taxation on sugar and tea at premiums respectively of 35 and 40 per cent. Insurance against increasing the taxation on tobacco, cigars and coal is being done on a lesser scale at premiums ranging from 30 to 35 guineas. The budget will be presented in the House of Commons tomorrow.

SENTENCE OF DEATH, IT IS SUGGESTED, MAY BE THE DOOM OF ABDUL HAMID

He Has Been Taken to Saloniki --- European Powers Acknowledge the New Sultan Who Announces His Policy --- Not One Good Word for the Deposed Ruler, and Only Eleven Wives Left to Him

LONDON, April 28.—Abdul Hamid's disastrous reign which opened with the Bulgarian atrocities, closes in a most dramatic fashion with massacres of Armenians in Anatolia. His disappearance as Sultan appears to cause but few regrets here and abroad, but the course of Turkish affairs will still be watched with great anxiety.

The Young Turks acted boldly and swiftly, but not without the sanction of the Sheik-ul-Islam. Hence it may be inferred that they have not inflamed the country's religious susceptibilities. The orthodoxy of the Young Turks, however, is regarded with considerable suspicion by large sections of the strict Mohammedans, therefore it is too early to prophesy a quiet reign for Mohammed V.

According to the Morning Post's correspondent, 95 per cent of the population of the city were in favor of the recent reactionary mutiny. It is regarded as certain that the young Turks must for some time rule by a military dictatorship and the London newspapers editorially express apprehension that before a parliamentary reign can be safely established, serious racial and religious outbreaks may occur.

A despatch to the Times says that it stated in the chamber that Abdul Hamid would probably be sent to Saloniki.

A despatch to the Exchange Telegraph Co. says that the committee has asked all of the former Sultan's effects, including his jewels as well as his vast personal fortune.

A Belgrade despatch to the Telegraph says that according to news from Macedonia the ominous movement of the Albanians is increasing in the district around Monastir. The ultimatum of the enforcement of the Sheriat.

BERLIN, April 28.—In an interview with the Constantinople correspondent of the Lokal Anzeiger, Mohammed Raschad is quoted as saying: "I like the press, whose task it is to spread knowledge and information among the nations and lead them toward happiness. You may say that I have always lived for the constitution ever since I could think, and will always be a true servant of the constitution. It is the state and the people's salvation."

"I am a friend of the powers," continued the prince, "and I can only hope that Turkey will have relations of friendship and love with all, but more especially with our old friend and well-wisher Germany."

A despatch to the Tageblatt says that Abdul Hamid when told of his deposition, said: "Since the renewal of the Ottoman constitution I have never departed from it. I leave the matters of this tragedy to God's justice. My innocence concerning the occurrence is proved by the fact that no shot has been fired from the Yildiz during my reign. We won the Greek war and I have saved my land in several crises. If my abdication is desired, let God's will be done."

PARIS, April 28.—The newspapers in general approve the deposition of Sultan Abdul Hamid, and express the hope that the Young Turks will profit by the lesson of recent events and show the same self-possession in the exercise of the government as they displayed in winning a victory. The opinion held that a strong regenerated Turkey will present a firm front to those who covet their outlying provinces which will be the best means of preventing the re-opening of the Eastern question. The report of the arrest of Prince Edhem, nephew of the Sultan, has caused unbounded astonishment here. Many of his friends in Paris are convinced that he is the victim of an attempt on the part of the former Sultan to affect a compromise, looking to his own safety by a supreme denunciation.

WENT TO MONACO TO SHOOT FALLIERES

Man Arrested Today Says He is an Anarchist—Is Probably Insane.

MONTE CARLO, April 28.—A man named Verdier who was arrested here today by the French police, declared he was an anarchist and that he had come to Monaco for the purpose of killing President Fallieres of France, who is at present visiting here.

A revolver loaded with jacketed bullets was found on Verdier, as well as a letter addressed to the prefect of the Department of Alpes Maritimes, in which the man explained the motive for his contemplated act. The police believe Verdier is insane.

WARSHIPS NO GOOD

BRISTOL, April 28.—Rear Admiral Adam has declared to the special committee of investigation that the reserve ships which cost enormous sums are valueless. Surgeon Schier, one of the medical officers, stating that the arsenal was a hotbed of tuberculosis, four hundred deaths resulting from this disease among the men attached to the arsenal, annually.

SUFFRAGISTS HELD A MONSTER PARADE

Released Prisoners Were the Star Features

Some of the Leaders Unable to Attend, But There Was Quite a Lively Time Just the Same.

LONDON, April 28.—The international parliament representing women of twenty countries, banded together to demand equal civil rights, is the one world event of the week in London.

An immense demonstration was made last night in Albert Hall, heralded by a procession of a thousand women workers carrying 800 ancient watchmen's lanterns and all the emblems of a hundred trades. They marched from Eaton square to Albert hall.

The lanterns had no political significance. They were introduced only for picturesque effect. The suffragettes have at least introduced romance, realism, poetry and beauty into the somewhat squalid arena of party politics. One day the newly beautified Joan D'Arc rides astride her war steed at the head of a militant procession, another Queen Elizabeth with ruff and farthingale rides amidst Amazons carrying an escutcheon bearing the telling device "Give us votes, why not votes? But most powerful and effective of all these appeals to the imagination are the van loads of ex-prisoners, matrons and maidens who have gladly "done time" in the sacred cause.

The Women's International Suffrage alliance, strictly speaking, is not a suffragette organization, but no one who watches the ebb and flow of feeling of the great international assembly can doubt for a moment that it is the suffragettes who are the heroines of the hour.

The American president, Mrs. Chapman Catt, neither blessed them at all nor cursed them at all holding herself strictly neutral, but her audience blessed them neither.

It was a scene of tumultuous enthusiasm that hailed the appearance of Mrs. Despard, leader of the extreme wing of the suffragettes, when, fresh from her prison experiences, she arose to address the meeting.

Lady Constance Lytton is at Knobworth, Mrs. Pankhurst is fighting a by-election at Shertford. The 'air Lady Christabel is worked to death. But Mrs. Woodsworth, Mrs. Emswamy in America," she said, "the cause progresses despite the threefold obstacles of the constitution, the saloon and the trusts. All around the wide world woman is becoming conscious of her rights to be regarded as an equal citizen in every state, and everywhere men and women are becoming more and more keenly alive to the fact that suffragette is the sole security for every right which they claim."

Before Mr. Gregg began his presentation of the state's case Justice Garmon ruled that witnesses of state and defense should be excluded from the court room except when testifying. District Attorney Dewitt requested that General Peter C. Hains, father of the accused, be also excluded, but the defense objected and the court permitted the general to remain. General Hains greeted his son with affection this morning, but the captain made no response.

Mr. Gregg began his opening address to the jury by referring to the shooting of Annie as a deliberate and brutal murder in the first degree, committed with cold design.

OPENING ADDRESS IN HAINS MURDER TRIAL

FRESHING, N. Y., April 28.—The opening address of the prosecution in the trial of Capt. Peter C. Hains, Jr., charged with the murder of Wm. F. Annie, was made today by George A. Gregg, formerly district attorney of Queens county. Mr. Gregg is now associate counsel with District Attorney Dewitt.

Before Mr. Gregg began his presentation of the state's case Justice Garmon ruled that witnesses of state and defense should be excluded from the court room except when testifying. District Attorney Dewitt requested that General Peter C. Hains, father of the accused, be also excluded, but the defense objected and the court permitted the general to remain. General Hains greeted his son with affection this morning, but the captain made no response.

TWO DISASTROUS FIRES THIS MORNING

Clark Leather Works at Peabody Burned.

The Lockport Rubber Co.'s Plant Destroyed This Morning at a Loss of \$250,000.

PEABODY, Mass., April 28.—Fire early today destroyed one of the large buildings connected with the leather manufacturing plant of the A. B. Clark Co., partially burned another and caused much damage to surrounding property, entailing an estimated loss of about \$185,000. About 175 persons were thrown out of work by the fire.

LOCKPORT, N. Y., April 28.—The great plant known as the Holy Mfg. Co., occupied by Lockport Rubber Co., and the Susquehanna Smelting Co., was burned by fire early today. The buildings were located on the east side of the Niagara Escarpment, alongside the canal locks. Owing to its great height the water pressure was of but little use except in preventing the spread of the flames. Most of the series of wings which made up the building were destroyed, only parts of walls remaining. The loss to the Rubber Company is estimated at \$180,000, that of the Smelting Company about \$5,000, and the buildings, \$100,000.

THOUSANDS ARE NOW FACING DEATH

Fanatical Mohammedans Surround Town of Hadjin.

Missionary Telegraphs That Many Have Been Killed and Others are Starving—Troops Cannot Restore Order.

CONSTANTINOPLE, April 28.—A telegram was received here today from Miss Rose Lambert, one of the besieged American women missionaries in Hadjin. It sets forth the danger surrounding Miss Lambert and her companions. The messenger who first started with the message to the telegraph office was shot down on the way. The communication is dated Hadjin April 26th, and says: "The rising against the Christians of Hadjin began nine days ago. The government sent troops to suppress the fighting between Mohammedans and Christians. But the men were not strong enough numerically to restore order. Many are d and wounded on both sides."

"Desperados occupied the Armenian cloister five days ago and have been firing on the people without interruption since. The Armenian churches are now showing white flags, indicating that there will be no further resistance, yet the shooting and the plundering continues. Many settlements and villages in the province are almost entirely without food and animals in the city are dying of starvation. The provincial authorities have been appealed to to send more troops to Hadjin, but thus far without result."

Christian refugees by the thousand have massed in Hadjin and for seven days the town has been threatened by fanatical Mohammedan tribesmen whose camps completely encircle it.

TO DEVELOP GRAIN EXPORT FROM VANCOUVER

OTTAWA, April 28.—Sir Richard Cartwright yesterday heard a delegation representing the grain interests of Alberta, which made a number of recommendations which had for their object the development of the export trade from the port of Vancouver. The delegation was accompanied by Premier Rutherford and Attorney General Cross of Alberta, with Hon. Frank Oliver and practically all the western members, also by a delegation representing the Saskatchewan and Manitoba grain interests, which is here to see the minister in respect to the establishment of a government-owned system of terminal elevators and other matters.

Sir Richard Cartwright expressed himself as being in sympathy with the proposal made. Still he could not promise any legislation this session, whatever could be done by order in council.

Lewis, State Labor Commissioner of Ohio, had died in Columbus, and immediately left here for that city therefore.

In the absence of Mr. Lewis, E. F. McCallough, National Vice-President, presided over today's session of the convention, and moreover he will represent President Lewis at tomorrow's conference between the operators and miners in Philadelphia.

WANTS TO EARN REWARD FOR NOTORIOUS ROBBER Relative Offers to Tell Where the Bandit is Now in Hiding. OTTAWA, April 23.—A man named David McNab of Ottawa informed the police yesterday that Bill Miner, the notorious train robber, who escaped from the British Columbia penitentiary two years ago, was in Ottawa, at his home for several hours on Saturday a week ago. McNab asserted that Miner left for Carleton place and returned to a village near Ottawa, where he is now hiding. He also declared that Miner is a relative of his, "that he knows and with an eye for information which will lead to his apprehension if assured of the big reward offered by the Dominion government and the C. P. R., that he has received letters from Miner since he was at his home and Miner promised him money with which to go west. As Miner afterwards went back on his offer, McNab wants the reward to finance his trip.

Colonel Sherwood, chief of the Dominion secret service, stated to your correspondent last night that he was having McNab investigated, but he was rather inclined to think it was a fake.

By Gathering of One Hundred Municipal Delegates. Urge Government to Carry Out Plans or to Allow Private Company to Do So. OTTAWA, Ont., April 23.—About one hundred delegates from the various municipalities and boards of trade of the Ottawa Valley from North Bay to Montreal, gathered in Ottawa yesterday to discuss plans for advancing the Georgian Bay canal scheme.

At a meeting of the delegates this afternoon in the city hall a resolution was unanimously passed declaring that the proposed canal was a practicable proposition and necessary to the expanding transportation interest of the Dominion which the Government should immediately undertake to construct and that in the event of the Government financially unable to immediately commence the work as a national undertaking the scheme be handed over to a private corporation to be carried out provided the public interest was sufficiently safeguarded.

BILL TO OUST McMULKIN AN OUTRAGE SAYS BURCHILL

An absolute outrage that carries with it the taint of political corruption was the view expressed last night by John Burchill, member for Northumberland, when asked for his opinion of the provincial government's action in deciding to retire Factory Inspector McMulkinn. "It is an outrage," said he. "The act establishing an age limit for factory inspectors is generally conceded to be aimed at John McMulkinn of this city, one of the best and most capable inspectors in the province today. It is, however, reported about the House that the legislation is due to a pro-union promise. That the head of Mr. McMulkinn has been numbered for some time and that his successor was slated for the job in return for services rendered at a date sufficiently remote to preclude that of the last provincial elections. The Hazen government has dropped a good deal concerning bribery and corruption. There is evidently a whole chapter it has left unsaid concerning the present deal. Were all officials of the government made to retire at the age of seventy there might be some excuse for the deal. There is, however, none for the legislated discrimination against factory inspectors.

LONDON PARLOR MAIDS

In London the preferred dress for a parlor maid is a cap with long streamers, a large apron, embroidery cuffs and turn-down collars. The streamers on the cap are only a matter of taste, but most people prefer them.

SEASON WILL OPEN MAY 17

Arrangements have been completed for the opening of the Inter-Society baseball league on May 17 and the various teams will at once start hard practice in anticipation of a fast season. New material will be introduced and the boys intend to put up a gilt edge ball.

A meeting of the executive of the league was held last evening in the rooms of the St. John Baptist Society, Beersman's Hall. Judge Ritchie, the president of the league, occupied the chair. E. J. Mahoney and Chas. McCormack, representing the Saint Peter's; Wm. Goggin and Jas. O'Brien, St. John Baptist; Mr. Downey, Ancient Order of Hibernians; and Dennis McCarthy, St. Joseph's.

The work of putting the grounds in shape was talked over. It was decided that the Ancient Order of Hibernians and St. Peter's would play the opening game on May 17th next on the Shamrock grounds. The St. John Baptist team will probably be without the assistance of Captain Harris, who at present is in the penitentiary at the Canadian Pacific Railway and St. Peter's would play the opening game on May 17th next on the Shamrock grounds.

Curied by Lydia E. Pinkham's Vegetable Compound

Fox Creek, N. B.—"I have always had pains in the loins and a weakness there, and often after my meals my food would distress me and cause soreness. Lydia E. Pinkham's Vegetable Compound has done me much good. I am stronger, digestion is better, and I can walk with ambition. I have encouraged many mothers of families to take it, as it is the best remedy in the world. You can publish this in the papers."—Mrs. WILLIAM BOURQUE, Fox Creek, N. B., Canada.

CHIMNEYS.

In medieval times chimneys were only permitted to the nobility and the church—once to each party and one to each castle or hall. The poor's chimney was the door or window.

THE TURKISH REVOLUTION.

With far less bloodshed than might have been anticipated, but with more trouble than attended their first efforts, the party known as the Young Turks have apparently successfully carried through the most important movement in their programme of reform. The deposition of Sultan Abdul Hamid and the elevation of his brother Mehmed Reshad marks the culmination of a movement which under thorough organization has been in progress for only a few years. The actual cause of the present revolution and the rise of the constitutional party, has its origin several generations back in the history of the former Ottoman Empire and of Turkey, and is the natural development of the spirit of revolt against absolute rule, the demand for education and for personal liberty. During the earlier stages many of the reformers were punished by the Sultan for their dissemination of advanced ideas, yet the gospel of liberty which they preached has spread and the Young Turkish party has of late developed with such amazing rapidity that it seems now quite capable of controlling the very complex situation.

Following the creation of a parliament and the adoption of a constitution, the Sultan appears to have been playing into the hands of the reactionaries who desired a return to the old order. This party hoped by one decisive blow to recover lost ground, and the outbreak of a few weeks ago is believed to have been countenanced by the Sultan himself. No doubt there is reason for this belief, and certainly the sagacious with which he granted all the demands made at that time, which were directly contrary to the policy of the constitutionalists, supports this belief. The reformers, however, have been anticipating some such move, for within a very few hours they had the situation well in hand and by a series of successes all of which have been marked by caution and strict adherence to their new constitution, they have not only completely regained their lost ground, but have seemingly rendered impossible any further outbreaks of a similar nature. It is not to be supposed that a revolution, even in such a country as Turkey, can be accomplished with ease. The disturbances of the past few weeks have been the first of a serious nature. It is now intimated that another outbreak is brewing, but certainly in view of the remarkable success attained by the reformers and the efficient organization evidenced during the past few weeks, its result cannot seriously affect the future of the constitutional party.

Abdul Hamid II was born September 22, 1842, the second son of Sultan Abdul Mejid. He succeeded to the throne on the deposition of his elder brother Sultan Murad V, on August 31, 1876. By the law of succession he inherited according to seniority by the male descendants of Osman sprung from the Imperial harem. Thus as Abdul Hamid was the rightful successor to his elder brother so is his younger brother, Mehmed Reshad, the lawful successor of Abdul. The new sovereign is the thirty-fifth in male descent of the house of Osman, the founder of the Empire, and the twenty-ninth Sultan since the conquest of Constantinople. He was born Nov. 3, 1864, and is if possible a weaker ruler than his brother has been. He has been practically a slave for years in the Imperial palace, surrounded by order of the Sultan, with spies, and is of such a weak nature as to be wholly unworthy of power, were it not for the determination of the Young Turks to set in strict accord with the customs of the country.

SUFRAGE. The provincial legislature has decided that women shall not vote. Other and more powerful bodies have in times gone by assumed similar attitudes and a good many of them have afterwards found it necessary to reverse their decisions. This will be done in New Brunswick, for an opinion which cannot find solid foundation for its existence must inevitably submit to change. And there are no real arguments against the extension of the franchise. All the present opposition arises purely from sentiment and so long as the false appreciation of woman's true position, which now exists, continues, just so long and no longer will there be opposition to the suffrage movement. It is not expected that the bill introduced by Mr. Hatheway would be passed. Its presentation was merely a move in the campaign, and has had the desired result of developing interest in the proposal and revealing the fact that opposition to woman suffrage is gradually weakening. The ladies who are actively pro-

moting this measure did not, and do not, look for immediate success. They realize that in this as in other important matters, an educative campaign is necessary, and such a campaign they are carrying on, with reasonable prospects of ultimately winning their point. They should not be disheartened by the action of the legislature, for the result of the vote is merely evidence of the existence of natural though unwarrantable sentimentality which will in due time disappear.

There is a suspicion that the brilliant political genius who suppressed the true date in a certain notorious article is the one who suppressed the report of last evening's proceedings in the legislature. Mr. Hubbard, the official disseminator of fairy tales, would never have thought of this himself, but of course, being shown the advantages of the scheme, would at once fall in with the idea.

A DIFFERENT BOY THIS TIME

An interesting event occurred in the household of a scientific gentleman who is a member of Uncle Sam's chemical bureau in Washington. The gentleman himself was hard at work in his home laboratory when the news was brought in that "It's a boy," quietly announced the physician, as he stepped on the threshold. "All right, all right," muttered the absent-minded chemist, as he bent over his work. "Er—oh—ask him what he wants, won't you?"

HER DECISION AND HIS

An earnest stage aspirant dramatically announced to the manager that unless she could obtain an engagement she would kill herself, to quiet the lady the manager agreed to hear her recite.

TOM'S WELL WISHER

In a Philadelphia club a member was met not long ago by the announcement from a fellow member that a friend of both had fallen ill. "I understand from the physician," said the first member, "that Tom has brain fever. He'll recover, but it's thought his mind will be a blank." "I trust the diagnosis is incorrect," came in fervent tones from the second member, "inasmuch as Tom owes me a hundred dollars."

DAYLIGHT ONLY

Mrs. Baker: Mrs. Smith is wearing light mourning." Bobbie: "What is light mourning, ma?" Mrs. Baker: "It's the kind that permits you to go to matinees, but not to evening performances."

IMPOSSIBLE

In a certain town are two brothers who are engaged in the retail coal business. A noted evangelist visited the one brother and the other was converted. For weeks after the conversion he endeavored to persuade his brother to join the church. One day he said to him, "Why can't you, Richard, join the church, as I did?" "It's all right for you to be a member of the church," replied Richard, "but if I join, who is going to weigh the coal?"

U. M. W. WILL LAY DOWN THEIR ULTIMATUM

If They Are Not Given Recognition a Strike Will be Called on Monday—Claim Majority of Workers.

HALIFAX, N. S., April 23.—District President McDougall has summoned the executive board of the Nova Scotia District United Mine Workers to meet in Glace Bay on Friday, when the attitude of the Dominion Coal Company will be considered. At that meeting, the board will send an ultimatum to the company demanding recognition of their order and if that is not granted they will call their men out on Monday. Mr. McDougall stated that the U. M. W. have now a majority of the employees of the Dominion Coal Company enrolled in their order and that the statement of Grand Secretary Moffat that the Provincial Workmen's Association would be able to furnish enough men to work the mines in case the American order called its men out, was incorrect. "There are not more than two thousand of the Dominion Coal Company's employees in the P. W. A. at the present time," he declared. "Our order has nearly double that number and if we call a strike five thousand men would come out."

Despite the resolutions passed by the P. W. A. lodges that they would stand by their agreement with the Coal Company, many of their men would come out with us. For the greater part of last week, Mr. McDougall was in Cumberland County. He says the men there are dissatisfied with their wages and a few days ago they asked General Manager Cowans to receive a delegation from their part. If this is not done the men are contemplating a strike. Mr. McDougall claims that there are now sixteen lodges of the U. M. W. in Nova Scotia, as yet there are none in Pictou and Inverness. He says there are at the present time 5,700 men enrolled, of these 1,800 are in Cumberland, eight hundred in Sydney mines and the remainder over 3,100, in the mines of the Dominion Coal Company. It is also claimed that there are a considerable number of men at the Dominion Coal Company's mines who are paying dues into both orders as well as many more who do not take any side but are waiting to see which organization triumphs.

GOVERNMENT'S RECORD OF BROKEN PROMISES AND BAD FAITH EXPOSED

Stinging Arraignment of Premier Hazen's Failures and Frauds

Messrs. Copp and Byrne Open Fire With Vigorous Speeches

Pre Election Pledges All Deliberately Broken or Unfulfilled

FREDERICTON, April 27.—Marshalling in long and startling array the broken and unfulfilled pledges of the government, Mr. Copp of West-

land tonight made a vigorous and forcible arraignment of Premier Hazen and his colleagues. His formal motion, which was seconded by Mr. Byrne of Gloucester in strong speech, was as follows:

Whereas, the present administration were returned to power at the last general provincial elections upon certain promises and pledges made by them to the people, some of such promises being:

- (a) That they would conduct and carry on a government free from all purely political bias and prejudices. (b) That they would repeal the present Highway Act, and enact a new law in its place that would improve the management of the roads and the appointment of all officials absolutely in the County Council.

And whereas, the elections of the province accepted the aforesaid promises and pledges in good faith and did return the present government to power.

And whereas, two sessions of the present parliament have passed and the government have acknowledged that they have in a very great many instances given contracts for public works without tender, and also the performing of a great deal of work by day labor, nor has the public printing been let by public tender.

And whereas, by the passage of the Highway Act they have placed the management of the roads and the appointment of the officials in a highway board created by themselves, and not by said County Council.

And whereas, they have carried on and conducted the affairs of the province more in the interests of the Conservative party than of the province, as shown by the numerous dismissals of Liberal office holders without cause.

And whereas, they have failed to make a survey and valuation of our crown lands as promised.

And whereas, they have failed completely to inaugurate an agricultural and immigration policy as promised, and have likewise failed to promote the settlement of our own lands by our own people.

And whereas, while they have reduced the price of a small number of our school books, such reduction on the one hand is more than offset by the increased cost to the government in handling said books and the loss that must be sustained by them by vendors all over the province falling to make returns for books furnished.

And whereas, they have not given the least encouragement to local schools, nor have they given the increased provincial allowance to school teachers, and failed to give any consideration to a scheme for the granting of a pension to aged school teachers.

And whereas, the premier when in opposition advocated the abolition of the office of solicitor general and the amalgamation of other departments of the government, leading to the decrease of expenditures for executive government.

And whereas, the premier when in opposition advocated the appointment of the third revisor by the county council, instead of by the Lieutenant-governor-in-council.

Resolved, that in the opinion of this house the present government have failed in a very large measure to keep their election promises, and that they used their influence and prestige as a government in the interest of the Conservative party in this province and to the detriment of the Liberal party; and further:

Resolved, that in the opinion of this house the government should be particularly condemned for the attitude they have assumed in neglecting to lessen the cost of executive government by decreasing the number of the executive council, but on the other hand they have passed an act to increase the salaries of two members of the executive council, with an intention to look forward to a further increase in the near future.

MR. COPP'S ARRANGEMENT. Mr. Copp, in moving the resolution, said that about four years ago then leader of the opposition, had been elected upon the platform which he had promised to the people. Last year he had been elected upon a very much the same platform and as a representative of the people he (Copp) protested against the violation of the pledges which the present government had given the country before and on March 3, 1908.

KER HARDIE'S FALL AND GRAYSON'S RISE

(Mail and Empire). An interesting situation has arisen in the Independent Labor party in England, which may have an important bearing on politics. Four of the chief leaders of the party, the inner council or cabinet, have resigned, and a new master has arisen in the person of Mr. Victor Grayson, M. P. What Mr. Grayson calls "the old gang, now happily not old yet," is composed of Ker Hardie, Ramsay MacDonald, Philip Snowden and Bruce Glasier. As every one knows, Mr. Hardie is the recognized leader of the party and he and Mr. MacDonald were the two most prominent men in their expedition leaves the ranks of labor by taking the working-man to drink less beer and become abstemious. The Laborites have dis-regarded the mutterings about them, and have not detected their condemnatory attitude by a single point. They stand strong enough on their record of past success to defy their mutinous following, but Mr. "Robespierre" Grayson has howled them down and with what success they care they take their leave of a council which they have so long dominated.

THE SCHOOL BOOKS. Referring to the alleged reduction in the price of school books, Mr. Copp asked where would the hundreds of thousands of dollars of the saving promised by the government when in opposition if they only sold \$1000 worth of books a year. We were paying cartage, freight, cartage, cost of handling and running up other expenses to send out books to particular vendors not selected for their convenience to the people or their fitness for the purpose. He promised to aid schools and teachers and from the efforts of the late administration they had \$100,000 more to do it with. Yet they had not done so. Instead they had appointed commissioners to try and pull themselves up by their own boot straps. They had promised to decrease the expense of the executive council and to reduce the number of members. They had gone back on their promise, had reduced nothing, but after one short year had come down and asked for increases of salary and intimated that more would be asked in the near future.

DEBT INCREASING. The government also was rapidly increasing the public debt. At this session the government had increased the province to a large degree and the Valley Railway would enormously increase the debt. He asked the Liberals in the House, therefore, to conserve the resources of the province. The premier who had increased the debt, and the county council should appoint a third revisor, yet nothing had been done.

MR. BYRNE. Mr. Byrne said that the matter under discussion had been so well covered by the indictment of the member for Westmorland that he would not take up much of the time. No more powerful and serious charges had ever been made against a government than those which the Liberal party had made against the Conservative government. He said that the government had been in opposition, had announced that under their administration the suspension bridge was repaired by the people. The same was done in Westmorland.

MR. COPP'S ARRANGEMENT. Mr. Copp, in moving the resolution, said that about four years ago then leader of the opposition, had been elected upon the platform which he had promised to the people. Last year he had been elected upon a very much the same platform and as a representative of the people he (Copp) protested against the violation of the pledges which the present government had given the country before and on March 3, 1908.

THE SCHOOL BOOKS. Referring to the alleged reduction in the price of school books, Mr. Copp asked where would the hundreds of thousands of dollars of the saving promised by the government when in opposition if they only sold \$1000 worth of books a year. We were paying cartage, freight, cartage, cost of handling and running up other expenses to send out books to particular vendors not selected for their convenience to the people or their fitness for the purpose. He promised to aid schools and teachers and from the efforts of the late administration they had \$100,000 more to do it with. Yet they had not done so. Instead they had appointed commissioners to try and pull themselves up by their own boot straps. They had promised to decrease the expense of the executive council and to reduce the number of members. They had gone back on their promise, had reduced nothing, but after one short year had come down and asked for increases of salary and intimated that more would be asked in the near future.

DEBT INCREASING. The government also was rapidly increasing the public debt. At this session the government had increased the province to a large degree and the Valley Railway would enormously increase the debt. He asked the Liberals in the House, therefore, to conserve the resources of the province. The premier who had increased the debt, and the county council should appoint a third revisor, yet nothing had been done.

MR. BYRNE. Mr. Byrne said that the matter under discussion had been so well covered by the indictment of the member for Westmorland that he would not take up much of the time. No more powerful and serious charges had ever been made against a government than those which the Liberal party had made against the Conservative government. He said that the government had been in opposition, had announced that under their administration the suspension bridge was repaired by the people. The same was done in Westmorland.

MR. COPP'S ARRANGEMENT. Mr. Copp, in moving the resolution, said that about four years ago then leader of the opposition, had been elected upon the platform which he had promised to the people. Last year he had been elected upon a very much the same platform and as a representative of the people he (Copp) protested against the violation of the pledges which the present government had given the country before and on March 3, 1908.

CAN MAKE A MAN OF YOU

Why should any man be weak, puny and debilitated, when it is easy to be as big and husky as any man you see on the streets? Men with small, flabby muscles, thin-chested, gull-eyed, short of breath, without endurance, courage, ambition, and grit in their make-up, are WEAK MEN. If they were not born weak I can make physical giants of them. I am not performing miracles. I have only discovered that what makes all this strength, this steam, this FORCE in a man, is his Animal Electricity. That is what makes muscles and heart strong. When I find a man who has that power and feels only half a man, I want to give it back to him, and I can do it, for I have done it for thousands. There are men in every town in this country now who think me for making them feel once more like the greatest of God's creatures—MAN. YOU RUN NO RISK IN USING MY BELT. I TAKE ALL CHANCES. Any man or woman who will give me reasonable security I will send them the Belt, with all the necessary attachments suitable for their case and they can

legislative chamber. Mr. Hazen said he was going to vote against the woman. He believed it was not good that women should have the same privileges as men. It was to women's advantage to own property and when she paid her taxes on that property she contributed her share towards having it protected. Women did not vote. One had only to look about the galleries of this house when this measure was under discussion, and note the very few women present to conclude that they were but very little interested in this matter. Women were not calculated in the great scheme of things to take the place of men. Each had their duties to perform in their own sphere. There were many good women in the world whom we all admired. There was Queen Victoria, one of the greatest women who ever sat upon a throne, but he believed that Alfred, the God, was the power behind the throne. There was Catherine de France, Catherine de Medici, Catherine of Russia and a host of women of lovely character. Mr. McLaughlin said he had no sympathy with the suffrage movement of the old country as at present conducted and those who were engaged in that movement had no serious consideration of the object they wished to attain, but between that movement and the bill before the committee there was a wide difference. Twenty years ago this legislature gave women the right to vote in municipal affairs and no dire results had followed. In the town in which he resided there were sixty or seventy women voters and the proportion to exercise their franchise was as large as the proportion of male voters. His experience was that a woman was just as lovely and just as lovable after she was given the franchise as before. He believed the legislature would be better and purer if womanly influence was more felt, and he would be more impressed with the manliness of the members of the house if they would stretch out and accept of the franchise to women rather than hinder behind an amendment such as moved by the hon. member for Kings. Hon. Mr. Maxwell agreed with the hon. member for Northumberland that he would more mainly to cast a straight-forward vote on this question. It was only a pretence for hon. members to say they wanted more enlightenment. Every member was well aware of the influence of women in civic and municipal affairs. For many years he had had considerable to do with elections and he had seen many hundreds of women go to the polls and never once had he known of one to be insulted or to be treated with anything but the deepest respect and in the most gentlemanly manner. Fifty-five per cent of the ladies upon the voters' list in St. John exercised their franchise. The advent of ladies in politics would elevate and purify. He sat for twelve years on the school board in the city of St. John, and he could say that during that time there was no more capable and intelligent workers on the board than the two lady members. Women had been given the same educational rights as men at our provincial university, and this legislature would stultify itself if it voted down this fair measure of justice.

APPOINT NEW POLICE HEAD

FREDERICTON, April 27.—At a meeting this evening of the committee of administration of justice of the City Council, in whose hands is now placed the control of the police force of the city, the present chief of police was retired and J. B. Hawthorne, keeper of the county jail, recommended to the council to fill the position. The old policeman, Phillips and Wright, were reappointed as Anthony Chapman, who for a number of years was policeman, was appointed in the place of those who retired. The new chief of police, Mr. Hawthorne, is a man well fitted for his office. For over twenty-five years he has acted as keeper of the common jail, and during the greater part of this period has also filled the position of chief of police meets with the general approval of the citizens. Mr. Chapman, who takes the position of Mr. Foss on the police force, has shown by his work in the past to be well qualified for the job. It is reported that Mr. Winters, who is retired from the police force, will become deputy sheriff.

ST. According to one letter a member of the assembly belonging to the Morris party was offered the position of Speaker of the House and afterwards a permanent government position if he would join the Bondites.

(Continued from Page One)

CONSTANTINOPLE, April 28.—Abdul Hamid, the deposed Sultan of Turkey, left the capital last night for Saloniki. He is accompanied by eleven women of his harem.

CONSTANTINOPLE, April 28.—The official decision of the Sheik-Ul-Islam authorizing the deposition of Abdul Hamid, has been made public. It embraces the questions put by the Parliament to the Sheik-Ul-Islam and his answer thereto. The text follows: "What becomes of an Imam (the title of the Sultan of Turkey as head of the Orthodox faith), who has destroyed certain holy writings who has seized property in contravention to the law, who has committed cruelties in ordering the assassination and imprisonment of exiles without any justification under the Sheri laws, who has squandered the public money who has violated his oath, who by gifts of money has provoked intestine bloodshed, who will war and who no longer is recognized in the provinces?"

CONSTANTINOPLE, April 28.—The Turkish ambassador, who is expected to be signed Thursday in Philadelphia by the representatives of the men and the mine operators, met here today, organized and adjourned until tomorrow, when the report of the committee of seven will lay the agreement before the delegates.

It is understood that the recognition of the new regime in Turkey will be made without delay although no official steps in this direction have yet been taken.

FOOD FACTS What an M. D. Learned A prominent Georgia physician went through a food experience which he makes public: "It was my own experience that first led me to advocate Grape-Nuts food and I also know, from having prescribed it to convalescents and other weak patients, that the food is a wonderful restorer and restorer of nerves and brain tissue, as well as muscle. It improves the digestion and sick patients always gain just as I did in strength and weight very rapidly. It was in such a low state that I had to give up my work entirely, and went to the mountains of this state, but two months later did not improve me; in fact, I was not quite as well as when I left home. My food did not sustain me and it became plain that I must change. Then I began to use Grape-Nuts food and two weeks I could walk a mile without fatigue, and in five weeks returned to my home and practice, taking up hard work again. Since that time I have felt as well and strong as I ever did in my life. "As a physician who seeks to help all sufferers, I consider it a duty to make these facts public."

A BOTANICAL PUZZLE. One of the most puzzling questions in life is "Why or how does water rise to the top of a tree?" Various explanations of the phenomenon have been proposed, but none is regarded as altogether satisfactory. Dr. E. B. Copeland recently attacked the problem by means of interesting and novel experiments. For instance, he constructed an "artificial tree" of plaster and found that water travels a large part of the way in a film, between bubbles on one side and the wall of the conducting vessel on the other. But the physical properties of the film are yet unknown.

**Buy a Dependable Suit**

Almost every Suit looks pretty well in the store. It MUST look well if it is to sell readily, for nobody wants to buy anything but a stylish suit.

But to be REALLY good, a suit's goodness must extend beyond the "store stage" of its existence. It must be dependable. It must STAY elegant. The fit and finish must remain as they were originally.

And to do this, they must be made into the garment. Pressing alone will make a suit fit well in the store, and will make it look sharply and elegant. But the first shower will make it look like an old mis-shapen garment.

Our Suits are TAILORED into shape. They are BUILT from foundation to finish. And so the fit and elegance are LASTING.

YOU need one of these dependable suits. The prices range from \$25.00 to \$50.00, and the suits are worth every cent of the price.

FANCY VESTS—washable—just look at them. A new line at \$1.00 to \$1.75.

**MAN'S BODY FOUND ON THE BANKS OF LITTLE RIVER RESERVOIR**

Grossness Discovery Made by Alfred Thompson—Identity Unknown—Believed to Have Been There All Winter.

The body of an unknown man was discovered on the banks of the Little River reservoir this morning by Alfred Thompson. The body was still partly buried in the snow and appeared to have been there all winter. Owing to the snow and ice with which it had been surrounded, it did not show much signs of decomposition.

From the examination made the identity of the unfortunate man could not be discovered but from his appearance it was thought that he might be a sailor.

Mr. Thompson, after making the grossness discovery, walked to the house of the water works caretaker at the reservoir and notified him. The information was passed along to the city office and they notified the police department about two o'clock.

Chief Clark is sending out to bring the body to the city and an examination will be made into the case to discover if there are any signs of foul play.

From the examination made this morning no theory could be advanced as to how the unfortunate man met his death, but it is thought that he lost his way and was probably frozen to death.

**FINED FOR PERMITTING A FIGHT IN HIS SALOON**

Jas. H. Dalton, of Indiantown, Says He is Going Out of Business, Which is Natural, Under Circumstances.

Three drunks were dealt with in the usual manner in the police court this morning.

Wm. Daley, a coach driver, was before the court charged with, on two occasions, having violated the I. C. R. rules at the depot. At the request of I. C. R. Policeman Smith the case was adjourned for a week owing to the inability of John Glynn, a witness, to be present.

James H. Dalton, the proprietor of a bar room on Bridge street, Indiantown, was charged with permitting a fight to take place in his licensed tavern on Saturday evening, the 17th inst. Policeman Charles Rankine gave evidence that he saw Joseph Pearce and George Kierwan sitting at each other in the bar room. He entered the place and found the two men with coats and hats. Both were bleeding from cuts. The proprietor was leaning against the wall and was bleeding from a cut over the eye. There was also blood on the bar room floor. He ejected the two men whom he saw fighting.

Dalton said he tried to prevent the fight as best he could and that since the fight the bar has not been opened. He had applied for a license this year and it was refused him, so he had decided to go out of the business. The magistrate fined the defendant \$50 and in default of payment one month in jail.

After this it will cost five cents to purchase a local paper on the train in place of the former rate which was already 50 per cent. higher than the retail price. While the matter is a somewhat small one there were many complaints this morning by those who were obliged to fetch up a nickel in order to get their favorite morning paper.

Ald. John McGoldrick returned from Fredericton this morning, where he represented the city as one of the members of the bills and by-laws committee. There is a class of patients who do not object to paying a fair price for artificial teeth, if they can really secure comfort, usefulness and naturalness.

I have a set of teeth, such as is unobtainable in any other office in this city, to my knowledge. It is out of the ordinary line and unlike the teeth in general use. Its beauty is at once apparent and it is practically unbreakable.

It will pay those who are desirous of obtaining the best to have had in the dental line to call and inspect this for themselves. I will gladly demonstrate its superiority over other plates, even if you have no immediate intention of investing.
