AYER'S Sugar-Coated Cathartic If the Liver becomes torpid, if the PILLS. bowels are constipated, or if the stomach fails to perform its functions properly, use

Ayer's Pills. They are invaluable For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va. For years I have relied more upon Ayer's Pills than anything else, to

Regulate my howels. These Pills are mild in action, and do their work thoroughly. I have used them with good effect, in cases of Rheumatism, Kidney Trouble, and Dyspepsia, — G. F. Miller, Attleborough, Mass. Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y. I was attacked with Billous Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor. —John C. Pattison, Lowell, Nebraska. Last spring I suffered greatly from a croublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels. By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.

— Samuel D, White, Atlanta, Ga. I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss. My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a dector if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored. — Theodore Esling, Richmond, Va.

Fredericton's Future.

As citizens of Fredericton. commencing to have strong faith in the future prosperity of our beautiful little You don't hear people going around exclaiming now, that Fredericton was finished years ago, and ought to be fenced in, and whitewashed. We had a reputation here a few years ago of want of enterprise. Strangers said we had a very pretty little city, but that was all there was to it. The people lacked push, and yigor, and enterpuise, our friends from outside were wont to say, and there was, we fear, too much truth in it. But things have changed very greatly changed, say within the past six years. True, there has been no great boom, but what is better, there has been steady, substantial progress in every branch of business. Our city itself has gone forward rapidly. A new system of water works, new side walks, improved business houses, elegant private and public buildings and a score of other changes have marked the growth of Fredericton within a decade. But we are on the eve of greater increase in all that goes to make up a city's success. New lines of railway, opening up and developing fertile tracts of country, are about completed, or in process of construction. We markets, and new trade centres. We shall shortly be placed on the line of direct travel with every important point in Canada and the United States, by means of railways that must bring us increased business, and the growth that follows. The citizen of Fredericton, who would despair of his city's future, ought to move out and give place to better men. There is no room for grumblers here: there is plenty of opportunity for thrift, and industry, and these coupled with the advantages about to be opened to us, ought to assure to Fredericton, a wide sion of her borders, and an upbuilding in the next quarter of a century that will astonish the prophets of evil, who have predicted her decease, Let us be hopeful, earnest in every effort for the benefit of our city, quick to take advantage of everything that offers assistance, and with our central situation our facilities of easy communication, the development of new tracts of country around us, and our own pluck and per severance, we shall be able to place our fair little city among the most enterprising, and the most prosperous communities in Canada, as it is now among the most beautiful, and the most intellectual

No Hope for Secessionists.

The Nova Scotia secessionists cannot take much comfort out of the recent statement in Parliament, of Earl Stanhope, Colonial Secretary, who said that, "Her Majesty's government have no power to alter the terms of the British settled with the assistance of delegates from Nova Scotia, and was subsequently approved by the legislature of that province. I may add that I have every confidence, that the Dominion Parlia ment will desire to redress as far as pos sible, any reasonable grievances of which a Province may complain."

This will be unpleasant news to Field ing and Longley, who expected to make at least, a trip to England out of their senseless agitation. They will have to go to Ottawa, instead of Downing street.

Journalism in the West,

We have before us, through the kindness of Mr. Tyler Worden of Stevenville. Montana, a recent issue of a new paper started there, called the Montana Democrat, and it is a curiosity in its way, reflecting as it does, life in that wild western country. In the prospectus signed by the editor, is the following announcement. "We own and control this paper and are not encumbered by a big fat mortgage hanging over us. We are not directed or influenced by any hip-shodden ring or clique, and if we do not furnish you a red-hot paper, with all the very latest appliances in the lava-

out of the country." The editorials are unusually blood thirsty, even for Montana journalism, and would do credit to Brother Cropley, the warrior-editor of the Capital, to Mr. Fred Fisher, the fighting staff of the Reporter, or to D. G. Smith or J. L. Stewa political opponent, the editor of the Democrat says, "little Willie Kennedy has sat on the political fence so continuously for the last three weeks, that he has worn a big bay window in each compartment of his lavender pantaloons." Now fancy the FARMER getting off anything like that on Mr. Blair.

Another politician, an editor, who is opposed to the Democrat, is referred to as a "little carrot-headed chump that are acquiring communication with new grinds out ungrammatical guano," and the same party is reminded, that "the last man who came up to Stevensville and attempted to bulldoze and intimidate one of Stevensville's citizens was hung in Pine Hollow, just above town." The editor seems also to have run foul of a man named Jamieson, who he says "was in town with a double barrelled scatter gun," to avenge some affront thrown out by the Democrat. The editor, however, is not to be intimidated the Magnificent Horse Breeding for he appropries that he is "no human Establishment at Johstown, N. for he announces that he is " no humam gatling gun, but that dirty scrub can go to Fort Missoula and bring up a detach-

ment of troops, if he likes." The Democrat staff are, however, not without fear of their opponents sacking the establishment. In one paragraph, the editor says that "it would be no surprise to us to be shot down any night," but he comforts himself with the reflection, that "he would rather be a dead hero in Stevensville, than a paid menial following at the heels of certain ring men like a whipped spaniel," and that, "anyway life is monotonous at best, and he has no wife or sweetheart to mourn over him." Notwithstanding the threats that have been made against his personal safety, the editor of the Democrat proposes "to voice the true sentiments of The freight traffic on the Canadian double-barreled shot gups." So plucky and Hypssia; Pera, sister to Iroquois; Perpacific Railway, from China, Japan, and the North-West, is increasing very rapidis brave enough to become an officer in dalite, dam of Hiawasse and Housatonic,

LORILLARD'S STUD. J., to be sold out.

Mr. Pierre Lorillard astonished the turfites of the country when, in last February, he announced his determination to sell his fine string of racehorses. Now he creates further surprise by stating that he will dispose of his entire stud of brood mares and stallions next month. And he will only keep the fifty weanlings until next spring, when they will be sold and the famous Rancoca racing stable will simply become "a thing of the past." The stallions include Mortemer, sire of Wanda, Exile, Saluda, Unrest, Savanac, Restless, Oholula, Bahama and Chamart: St. Christophe, Verneuil and Clementine, winners abroad; the Duke of Magenta, sire of Leo, Young Duke, Cricket, Red Girl, Duke of Bourbon and others; roquois, winner of the Derby, Prince Wales Stakes, St. Leger and other important racing events in England; Pizarro and im ported Siddertha. Of failing health, whether in the form of Night Sweats and Nervousness, or in a sense of General Weariness and Loss of Appetite, should suggest the use of Ayer's Sarsaparilla. This preparation is most effective for giving tone and strength to the enfeebled system, promoting the digestion and assimilation of food, restor-ing the nervous forces to their normal condition, and for purifying, enriching, and vitalizing the blood. Failing Health.

Of course the drovers were in sympathy Ten years ago my health began to fail. I was troubled with a distressing Cough, Night Sweats, Weakness, and Nervousness. I tried various remedies prescribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Saranparilla, which I did, and I am now as healthy and strong as ever.— Mrs. E. L. Williams, Alexandria, Minn. found the odds against him. The drover said that he had owned Rough for years; the minister held to it that Rough was the very Rough he had up, and the case was stated. "But how can you prove ownership?" asked one I have used Aver's Sarsaparilla, in my family, for Scrotula, and know, if it is taken faithfully, that it will thoroughly eradicate this terrible disease. I have also prescribed it as a tonic, as well as an alterative, and must say that I honestly believe it to be the best blood medicine ever compounded.—W. F. Fowler, D. D. S., M. D., Greenville, Tenn. and gave it to the dog with a command,

I have been greatly benefited by the prompt use of Ayer's Sarsaparilla. It tones and invigorates the system, regulates the action of the digestive and assimilative organs, and vitalizes the blood. It is, without doubt, the most reliable blood purifier yet discovered.—II. D. Johnson, 883 Atlantic ave., Brooklyn, N. Y.

I was under and stood by while the dog munched it. Suddenly the clergyman exclaimed, taking Ayer's Sarsaparilla. I was under the care of various physicians and tried a great many kinds of medicines, but never obtained more than temporary re-lief. After taking Ayer's Sarsaparilla for a short time, my headache disappeared, and my stomach performed its duties more perfectly.
