left for Washington. The first intimation that anything was wrong came in the form of rumors to the great crowd which was patiently waiting near the Columbia Club and the soldiers' and sailors' monument for the President to appear. It was about 2:30, half an hour after the time set for the President to leave the city, that a few of the favored ones in the crowd received intimations that the President was sick and that the rest of the trip probably would be abandoned. These statements were denied almost as fast as they gained currency, but soon the rumors began to take on a more serious character.

GROUNDLESS RUMOR. "The President has burst a blood was a whisper that went vessel" around among the police officers and soldiers.

As if in answer to the rumors of his illness, the President, accompanied by Senator Fairbanks, with the quick and sturdy gait, came down the steps of one of the number. George J. Coke and J. J. Richardson were in another carriage. No sooner had the carriage started than Capt. Callon, of Battery "A," with 20 mounted artillerymen, and Capt. Hyland, with as many mounted police, surrounded them, and in a few seconds the cavalcade swung at a rapid gait around the circle and down Meridian street. The crowd in the circle had hardly got a glimpse of the carriages before they were gone. Much to their surprise the soldiers were left behind. Yet they sent up a cheer, and apparently took it for granted that there was nothing unusual in this method of leave taking.

Distress in South Africa, Is Widespread-The County Laid

Amsterdam, Sept. 24. - The Boer generals, Botha, Dewet and Delarey, have issued a manifesto in the shape of an appeal to the civilized world. This document recalls how, after the terrible struggle in South Africa. and the Boers were compelled to accept British terms of peace, the generals were commissioned to proceel to England and appeal to the Imperial Government to allay the distress which is devastating the colonies and ized world for charitable contributions. Continuing, the generals say that having failed to induce Great Britain to grant further assistance it only remains for them to address them-selves to the people of Europe and

"The small Boer nation," goes the manifesto, "can never forget the help it received in the dark hours of suffering. Our people are completely ruined. It has been impossible to make a complete inventory, but we are convinced that at least 30,000 houses on Boer farms and many villages were burned or destroyed by the British during the war. Everything was destroyed, and the country was completely laid waste. The war demanded many victims, and the land was bathed in tears, and our orphans and widows were abandoned. We are appealing to the world for contributions to assist the destitute and help in the education of the children.' The generals repudiate all desire to inflame the minds of the people, and declare the sword is now sheathed and all differences are silent in the presence of such great misery.

THE WEATHER TODAY-Fair and warm.

# Our Autumn Showing of Stylish Millinery is Superb Thursday, Friday, Saturday.

On the days mentioned we will again reveal to the ladies of London this store's wide-reaching, all-pervading influence and resources. Our former openings were the best of that time. The present one will be the best of this time. We have assembled a beautiful collection of exquisite Hats, Bonnets, Toques, etc., designed to win the favor of the most exacting taste. London Studies,

Paris Studies, New York Studies, Berlin Studies, Our Own Studies, all are here in the key colors that represent early autumn-steel gray, brown, castor, burnt orange, black and white. Rich materials and enchanting colors-delightfully blended by skilled artistic fingers-have transformed the Millinery Section into a brilliant, glowing spectacle. Everything most attractive-wings, birds, ospreys feathers, ornaments, aigrettes, pom-poms. The subject of Fall Millinery is so important and inter esting that every woman of taste should see our display.

# Rich in Varieties and Unexcelled for Values.

Our departments, taken as a whole, constitute an exposition of Fall Fashions, rich in variety and unexcelled for values. It has always been our aim to supply "the best on the best terms," and we were never in a better position to carry this out than at present.

Jacket Section After viewing sights in Millinery Section do not fail to see our showing of Ladies' Fine Shirt Waists, Tailored Jackets, Suits, Separate Skirts, and Capes, which just now is in all its glory. You will find no better time than now to select or order the garments you will surely require for autumn and winter wear. Those who through bitter experience have learned that delays are cangerous, are

already picking up the novelties. In connection with our Fall Opening we are making a special display of Fine Section Evening Silks, Lace Robes, and Fine Black Silks. These will all be displayed in elegance for Thursday, Friday and Saturday visitors, and whether you care to buy or not, makes very little difference to us now, though if you see a piece that takes your fancy, don't miss it-don't leave it.

To make the display more complete we will show for the first time our Glove Section fall stock of Fine French Kid Gloves, in all the latest novelties and styles for the coming season. The high standard of all our goods is sufficient guarantee of the relia bility of our gloves. We mention and describe a number of the leading and most pleasing styles

A Northwest Lady Tells How "Foot Elm" Gave Her Relief and Comfort.

It is difficult to get a pair of new shoes that fit the feet perfectly at the outside. Most times they pinch and squeeze the foot and cause great dis-comfort until they are "broken in." "Foot Elm"shaken in new shoes makes them fit as comfortably as an old pair, prevents the "drawing" of new leather and prolongs the life of the shoe. Here is the experience of Mrs. Fran-cis M. Norrish, Nanton, Alta., N.W.T.: I have for years suffered with tender feet, and it has been perfect tor-

ture to wear a pair of new shoes, no matter how soft or easy. I am glad to say 'Foot Elm' has given me relief, and a very valuable remedy for tired

Detroit, Sept. 23.-When Miss Clara Barton arrived at her apartments in the Russell House last night at 11 o'clock, says the News, she found them filled with beautiful flowers, the gift of the many patriotic women's societies of the city and the personal remembrances of old friends. She expressed her keen pleasure at the kind home of Miss Hopkins, 738 Cass thoughtfulness which inspired so charming a welcome, and declared she felt she would sleep on a veritable bed of roses for once in her life anyway. Miss Barton was accompanied by Mr. and Mrs. Atwater, of Meriden, Conn., at whose home she has been a recent guest, and was met at the M. C. R. depot by Mrs. Lydia Hopkins, Mrs. C. S. Hopkins, of Lansing, and Mrs. Emma Hampton, representing the women's reception committee.

Miss Barton was up early this morning, and after breakfast spent a couple of quiet hours reading the newspapers and chatting with Mr. and Mrs. Atwater in one of the parlors of the

NOT A TALKER.

Miss Barton is a gentle-mannered woman, with white hair and a face expressive of strength and sweetness. She was gowned in black satin of quaint cut, a black lace bonnet with violets, a white and black dotted veil and gray gloves. She is not an easy conversationalist, seldom venturing a word of her own accord and answering questions with other interrogations.
"I really have nothing of interest to say, and I am not fond of talking," said she, making a statement which in itself is enough to make her famous

I am quite sure I do not know the slightest thing about my movements, for I came here with the intention of placing myself absolutely in the hands of my friends, as the politicians say, and I presume they have made their plans."

She seemed surprised when assured that no definite plans had been made awaiting her pleasure, and declared her perfect willingness to do any and everything asked of her during her

Ho Cured Himself of Serious Stomach Trouble, by Getting Down to

First Principles.

A man of large affairs in one of our prominent eastern cities by too close attention to business, too little exercise and too many club dinners finally began to pay nature's tax, levied in the form of chronic stomach trouble; the failure of his digestion brought about a nervous irritability, making it impossible for him to apply himself to his daily business, and finally deranging the kidneys and heart. In his own words he says: "I consulted one physician after another, and each one seemed to understand my case, but all the same they each failed

to bring about the return of my former digestion, appetite and vigor. For two years I went from pillar to post, from one sanitarium to another. gave up smoking, I quit coffee and even renounced my daily glass or two of beer, but without any marked improvement.

"Friends had often advised me to try a well-known proprietary medicine, Stuart's Dyspepsia Tablets, and I had often perused the newspaper advertisements of the remedy, but never took any stock in advertised medicines, nor could believe a 50-cent patent medicine would touch my case. To make a long story short I finally bought a coupie of packages at the nearest drugstore, and took two or three tablets after each meal, and occasionally a tablet between meals,

when I felt any feeling of nausea or discomfort. "I was surprised at the end of the first week to note a marked improvehealth, and before the two packages were gone I was certain that Stuart's Dyspepsia Tablets were going to cure completely, and they did not disappoint me. I can eat and sleep and enjoy my coffee and cigar, and no one two bronze tablets, one representing would suppose I had ever known the

> Names a Mythical Individual as the One Who Gave the Woman Chloral.

Derby, Conn., Sept. 23. - Apparently unconcerned, William Hopper Young, the perpetrator of the ghastly murder of Mrs. Annie Pulitzer in New York, left Derby early today for New York in the custody of two New York detectives. Young was handcuffed to one of the New York detectives, but he went willingly enough.

William F. S. Hart, of New York, counsel for Young, had an hour's talk with the prisoner at the jail early this morning and at the close of the interview Mr. Hart said: "If this man is sane, if he is all right,

Young is said to have told Max Levy that he and one, Charles Simpson Eiling, of Bridgeport, Conn., lured the woman to Young's flat, where Young left them for a time. On his return Young says that Eiling, who immediately fled, told him that he had killed the woman by giving her chloral hy-drate in a glass of beer. Anxious to save his friend, Young said that he attempted to dismember the body, but A second shot from Sillyman's gun that his nerve failed him, and he subslowly into the forest. The horse was such man as Eiling is known in Bridgeport, and the police regard the confession as a clumsy effort on the part of Young to shield himself.

# Retaliating On Canada.

As an act of retaliation, the United States has added 25 cents a ton duty on ground wood pulp and 35 cents a unbleached sulphite and soda pulp imported from Canada.

This is a direct reply to the pulpwood of the Ontario and Quebec Governments. In Ontario, since 1900, the export of pulpwood cut on crown lands has been prohibited ,the intento compel the pulpwood to this country instead of being shipped to the United States in the rough. In Quebec the same thing is attempted in another way. A stumpage tax of 65 cord is imposed on pulpwood cut for export, but if manufactured in the country the tax is only 40 cents. regulations have had the desired effect of fostering the growth of the pulp industry in Ontario and Que-Several large mills have erected, and some are now being built, a considerable amount of American capital being invested. The mills in this country are dependent to a great extent on export business. The exports of pulp last year were \$1,937,-207, of which \$937,330 went to the United States and \$934,722 to Great Britain. The extra duty now imposed by the United States, though by no means prohibitive, may injure the Canadian industry for the time being, and it will react on the American paper manufacwho import Canadian pulp. If there is any deficiency, the Canadian manufacturers should be able to make it good before long in the British mar-

that pulp should not be exported, but manufactured into paper in this country. An embargo of this kind would be disastrous at the present time, when the Canadian paper mills can take only a small proportion of the output of Canadian pulp mills. The spruce forests of the United States are being rapidly denuded, but the American paper industry is not yet dependent to any appreciable extent son Canadian pulp. Great Britain can still find an ample supply in Norway and Sweden. If Canadian pulp were absolutely necessary to either the British or American paper makers, the Canadian Government, by prohibiting the export, might transfer the paper industry on a large scale to this country. Meanwhile, the industry is growing to extensive proportions in Canada, because of favorable natural conditions. such as the proximity of the raw material and the abundance of cheap water power. Ontario and Quebec are conserving their pulpwood resources by retaining them for domestic manufacture, and Canada should become in the not too distant future a great seat of paper manufacture, as it is of pulp manufac-

Lowering of the Lakes. Are the great lakes drying up? That they are becoming shallower is the of eminent engineers. The question is one of such immediate importance that the United States Government will shortly appoint a commission to enter upon a series of investigations with a view to devising remedies. Experts have figured that the lakes are annually replenished from rainfall, drainage, etc., 6 feet 4 inches, but lose from evaporation and overflow, 6 feet 5 inches. Even the loss of an inch a year would have an appreciable effect, within a lifetime. The tendency has been to greatly increase the tonnage and draught of lake vessels, and already the big lake freighters frequently ground in the shallows at the entrance to Lake Erie. This large craft has been the means of greatly reducing the cost of lake transportation, and a lowering of the lakes that would put it out of business would be an enormous loss to the United States, and in a lesser degree to Canada, as freight rates would be raised on the immense volume of traffic on the inland waters.

The plan most favored for raising or maintaining the depth on the great lakes is a dam at the upper end of Niagara River. This would raise the level of Lake Erie, the shallowest of the lakes, but whether it would have an appreciable effect on the upper lakes is something for engineers to determine. Canada has an advantage in one respect. Nearly all the cargoes of grain, ore and other products from the Canadian Northwest and many from the Western States are trans-shipped at Parry Sound, Midland, Collingwood. Owen Sound, Goderich and other points on Lake Huron and the Georgian Bay, where the depth of water gives as yet no cause for alarm. The western terminal for nearly all the traffic in American bottoms is Buffalo. requiring a longer trip over the shallowest portions of the lakes. Still, Canada expects to develop a great traffic via the Welland and St. Lawrence Canals, and has a joint interest with the United States is preventing, if possible the lowering of the lakes.

## The Coal Strike. If either the coal operators or the

coal miners could have foreseen that the strike would drag on to this late day they would have adjusted their differences in the first place. The influence of the Republican bosses has in vain, and Senator Platt, who predicted a settlement within a given time, has been classed with other false prophets. The crisis, which grows more virulent every day, cannot last much longer. A month or six weeks ago the strike had an impersonal interest for the majority of She sang the 'Song of the Shirt!'

It is a great object lesson for the people of the United States, that a small group of men have it in their power to inflict misery and suffering upon countless thousands of the poor, through the monopoly of a necessary like hard No matter which party to the present dispute is in the right, it does not impair the argument against allowing the coal supply of a continent be controlled by one corporation, with no public safeguards whatever. The temper of the people is inflamed, and the chances of public interference daily improve. Unless the miners surrender from sheer exhaustion in the meantime, the operators will be compelled to recede before winter sets in. Senator Mason, of Illinois, announces that he will introduce legislation authorizing the Government, in the event of the mines being closed down by labor troubles, to become temporary receiver of the mines and operate them until the dispute is settled. There is little chance of the resolution carrying in that trust-ridden body, the United States Senate, in which seats are openly bought, but the House of Representatives, which is directly responsible to the people, would probably favor a similar policy. In this and other ways public impatience will

The Ottawa Citizens says the Dominion Government ought to do something to prevent a coal famine. What can it do, seeing that the supply comes from across the line? One thing is certain, if this coal strike were in Canada, there would be enough public spirit in this country to compel the parties to come to terms.

In reply to President Roosevelt's argument that the anthracite coal trust is not protected, the New York World points out that "the duty of 67 cents a ton on bituminous coal does give the anthracite monopoly protection in New England and New York against the abundant soft coal in Nova Scotia." Very true, but the people of Ontario prefer to see Nova Scotia coal steer this way just now.

When Hood's Poem, "The Song of the Shirt," first appeared, directing the attention of the public to the miserable lives lived by the seamstresses of London, it created a sensation which can be compared to the reception of no poem of recent years, and was, like many of Dickens' novels, responsible for greatly bettered conditions in the lives of those about whom it was

# A Critical Situation.

Kingston, Jamaica, Sept. 24.-The British steamer Antilian, from Colon, Colombia, brings a report that the situation on the isthmus was extremely critical when she left there last Sunday. The rebels at that time were massed near the railroad between Colon and Panama, and the Government was sending troops from Panama to Agua Dulce, to cut off the rebels' retreat should they be beaten on the

# THE FIRSTBORN.

Why is it that the firstborn child is so often the healthiest of a family of children? The reason seems to suggest itself. As child follows child the mother has less and less vitality; often not enough for herself and none, therefore, Expectant mothers who use Doctor

Pierce's Favorite Prescription find that it keeps them in vigorous health. They eat well, sleep well and are not nervous. When baby comes its advent is practically painless, and the mother is made happy by the birth of a healthy child. If you would be a healthy

Pierce's Favorite Prescription," writes Mrs. P. S. Douglas, of Mansonville, Brome Co., Quebec. "During the first four months, when I looked forward to becoming a mother, I suffered very much from nausea and vomiting, and I felt so terribly sick I could scarcely eat or drink anything. I hated all kinds of food. At this time I wrote to Dr. Pierce, and he told me to get his 'Favorite Prescription' and a bottle of 'Golden Medical Discovery.' I got a bottle of 'Golden Medical Discov

As if to show me their sunny backs, And twit me with the spring. 'Oh! but to breathe the breath Of the cowslip and primrose sweet, With the sky above my head And the grass beneath my feet;

For only one short hour
To feel as I used to feel,
Before I knew the woes of want,
And the walk that costs a meal.

"Oh! but for one short hour!
A respite however brief!
No blessed leisure for love or hope,
But only time for grief!
A little weeping would ease my heart,
But in their briny bed
My tears must stop, for every drop
Hinders needle and thread."

With fingers weary and worn,
With eyelids heavy and red,
A woman sat in unwomanly rags,
Plying her needle and thread—
Stitch! stitch! stitch!
In poverty, hunger and dirt,
And still with a voice of dolorous pitch—
Would that its tone could reach the rich—
She sang the "Song of the Shirt."

# AN ATTEMPT TO

Which He Traveled-The Plot Failed:

London, Sept. 23.-In a dispatch from St. Petersburg the correspondent there of the Daily Express reports an attempt to derail the train upon which the Czar traveled from Kursk. Rails were removed on the two routes over which the Czar might travel; in one instance the plot was discovered, and in the other the train was wrecked. The Czar reached St. Petersburg safely. London, Sept. 24, 6 a.m.-The details of the attempt on the life of the Czar, while he was returning by train to St. Petersburg, show that four conspirators, dressed as railway workmen, unscrewed the rails. The discovery made by the merest accident.

Packing Trust Abandoned. Chicago, Sept. 24.—The combination of the great packing houses of the country, which has been under consideration and in process of actual formation for the last six months, has been abandoned, at least for the present says the Tribune. The decision not to complete the combination is due in a large degree to the attitude of the national administration towards trusts as outlined by President Roosevelt in his recent speeches.

Captured a White Whale.

New Bedford, Mass., Sept. 24.-The whaling barge Platina, of this port, Captain McKenzie, on May 10, captured a pure white whale which made 100 barrels of oil. In his six years of whaling Captain McKenzie writes that he never before saw a white whale. The Platina had been only three or four days out from Barbadoes when the big fellow was captured.

### Millions in Corundum. Ottawa, Sept. 24-Archibald Blue,

chief census commissioner, visited last week the region of Renfrew and Hastings counties, where corundum is being worked. He found one deposit which at less than the present price of the mineral ought to yield over \$12,000,000. "What particularly struck me," remarked Mr. Blue, "was the even larger money that could be made out of these deposits if a process were discovered for extracting the aluminum that the formation contains. The corundum contains 53 per cent. aluminum, which would yield, if it could be separated, at least twice as much money as the corundum now brings for grinding purposes. Mr. Blue thinks a large reward-\$30,000 or even \$50,000-should be offered for the discovery of a process by which the aluminum can be

# THE MARKETS

THE LOCAL MARKET. London, Wednesday, Sept. 24. 

WEEKLY REVIEW. In point of attendance and the amount duce offered, the markets held here during the week have been up to the average. Trade was brisk, and with the exception of dressed hogs, potatoes and eggs, prices are unchanged from those

eggs, prices are unchanged from those quoted the previous week.

Grain—Oats formed the bulk of the offerings in this line; sales mostly at 90c to 92c per cwt, or 30c to 31½c per bu.

Very little wheat offered; prices range from \$1 to \$1.05 per cwt for sprouted, and \$1.15 for good wheat. Barley is selling at 90c per cwt ing at 90c per cwt.

Hay and Straw-About 70 loads of hay offered during the week; this is below the average, consequently prices are firm, at \$8.50 to \$9.50 per ton. Straw sells

at \$5 to \$5.50 per ton.

Butter and Eggs—The market is well supplied with inferior butter at present; there is only a limited demand for this class, at 12c to 14c per lb: choice crock butter is in good demand and prices are firmer, at 16c for crocks and 17c to 18c for pound rolls. Eggs are in good demand, and have advanced from 1c to 2c per dozen over last week's prices; sales are made at 16c to 16½c per dozen for crates and 17c for basket lots. Vegetables—Potatoes are easier, selling from 5c to 10c per bag lower, at 70c to 80c. Tomatoes are unchanged in price, and are now quoted at 40c per 20-lb bas-

ket.

Fruits—While apples are more plentiful, prices are about the same as the previous week, at 40c to 50c per bu, or \$125 per barrel. Pears sell at 60c to 70c per bu. Plums, 35c to 50c per 12-quart basket; they are nearly done. Grapes are very scarce, at 25c to 30c per 10-1b basket. Peaches sell at 40c to 65c per 12 quarts, the latter price for Crawfords. Poultry—With the exception of Saturday, the supply has been light; spring chickens sell at 50c to 75c per pair for chickens sell at 50c to 75c per pair for dressed and 40c to 60c for live; ducks, dressed, at 60c to 80c per pair; live do, 60c per pair; turkeys, 8c per lb, live

Dressed Hogs-As the cold weather advances there is a better demand; prices, however, are lower at \$9 to \$925 per ewt; butchers are offering \$875 to \$9 for

Live Hogs—The prices paid here on Monday last were \$6.75 for choice and \$6.50 for lights and fats.

THE MOST POPULAR PILL.—The pill is the most popular of all forms of medicine, and of pills the most popular are Parmelee's Vegetable Pills, because they do what it is asserted they can do, and are not put forward on any fictitious claims to excellence. They are compact and portable, they are easily taken, they do not nauseate nor gripe, and they give relief in the most stubborn cases.

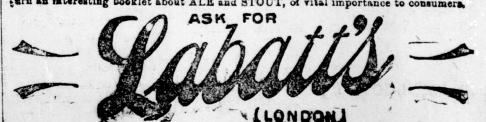

Special Train, Windsor and Detroit, Via Grand Trunk, Sept. 25, 26 and 27, leaves London at 9:50 a.m. Round trip excursion rates, \$2 50. Valid until Oct. 13; also return tickets to Port Huron \$1 95, Cleveland \$5 00, Saginaw \$4 20, Bay City \$4 30, Grand Rapids \$6 15, Columbus \$7 50, Chicago \$9 25, Cincinnati \$10 00, St. Paul \$35 40. SIGNALS OF DANGER.—Have you lost your appetite? Have you a coated tongue? Have you an unpleasant taste in the mouth? Does your head ache, and have you dizziness? If so, the stomach is out of order and you need medicine. But you do not like medicine. He that prefers sickness to medicine must suffer, but under the circumstances the wise man would procure a box of Parmelee's Vegetable Pills and speedily get himself in health, and strive to keep so. Mr. J. P. Whitney, who was in Ottawa on Tuesday, in an interview, said the outlook for his party soon reaching

# THE RUSH TO SELL STOCKS

Weakness Increased by News Regarding the President.

Violent Breaks in Prices of Leading Stocks on the List,

New York, Sept. 24.-Wall street-There was a rush to sell stocks at the opening this morning, yesterday's weakness on account of the money situation being aggravated by the unexpected news that President Roosevelt was under surgical treat-There were violent breaks in prices of 1 to 3 points in the leading stocks on the list. In many cases there were running sales on a downward grade, which showed a spread of as much as a point on simultaneous sales of 1,000 to 5,000 shares. The severest sufferers were amongst the Pacifics, Southwesterns and coalers. The market steadied slightly on secondary quotations, but the liquidation continued in

The liquidation was renewed with violence when the banks resumed the calling of loans, and the money rate soared above 20 per cent. Within a few minutes prices receded to below the opening level, and were generally as much as 1 to 2 points. St. Paul fell 4 5-8, Missouri Pacific 4%, Illinois wanna 5, U. S. Express 5%, Northwestern 6, and so on. It was evident that the large speculative pools were liquidating very freely. The spasm of liquidation had spent itself for the time before noon, and there were rallies running to a point in Missouri Pacific, New York Central and Reading. Bonds were weak in sympathy

"This has been a day to be long remembered," he said to Miss Waldemar, after showing her this last surprise, "and it was so kind of you, Aunt Audrey, to make this little feast for me." I could not allow such an important day to pass without making it a memor-able one. You have reached your ma-jority, Rich; this is your day of free-dam, Miss Waldemar returned, with a smile, though it was rather a sad one.
"Freedom from what, Aunt Audrey?"
he asked, gravely.
"From the restraint of a woman's rule.

You are now a man, and capable of judging for yourself," and tears stood in the beautiful woman's eyes.
"I am afraid you do both yourself and me an injustice by saying that," Rich said, seriously. "I have never considered your authority as restraint—an irk-some restraint. I mean—you have never restraint. I mean—you have never it such. All the restriction you have wer placed upon me has been to make me love you so dearly that I would rather suffer a great deal than wound you in any way. If this, 'my day of freedom, as you call it, is to abolish that I am afraid I shall consider it an evil day indeed. If I have been under a woman's rule, it has been that of the tweetest woman in the world," he continued, fondly.

He was returning from the office down town a few evenings later; he frequently took a roundabut way now, occasionally going up Broadway, with a faint hope of encountering again the pretty sewing-girl whom he had once assisted, and who was constantly flitting in and out of the chambers of his brain, when, just as he turned into the great thoroughfare, he espied that same graceful figure in brown only a little way ahead of him.

Rich flushed to the very temples as he recognized this young man. He was the carpenter whom he had seen in Yonkers; he was the bully whom, once upon a time, he had laid flat in the gutter for

abusing a little girl.

A feeling of disgust took possession of him.
"Could it be possible that a delicate,

refined young girl, such as she had seemed to be, would tolerate the saciety of a nerson like that?" he asked himself. He stood looking after them for a moment; then, with a sigh, and a little bitterness at his heart, as if some idol had suddenly been shattered, he turned, and

The following interesting history of the London Rowing Club was obtained by Mr. George Black, in an interview with Mr. James McDougall, secretary of the club.

In the early summer of 1891 three

gentlemen-Mr. M. J. Kent, the late Mr. W. C. L. Gill and Mr. J. H. A. Beattie-happened to meet one afternoon in Milne's boathouse. All being lovers of the manly sport of rowing, they were engaging boats for a spin upon the river. While waiting for their respective shells, or rowbcats, they were discussing the question of rowing, and, all agreeing that the city should possess a first-class rowing club, they each volunteered to subscribe a liberal amount towards the among a number of prominent citizens and found a ready and financial answer to their request, among the gentlemen as D. Cumberland, the late Geo. D. Sutherland, Col. John Macbeth, Rev. Dean Innes, James Butler, Capt. W. S. Smith, Capt. Cartwright, Geo. Gillespie, John B. Kilgour, Edmund Weld, H. S. Blackburn, G. W. Marsh, N. S. Williams, Major Thimas Beattie and many others. A meeting of the subscribers was held and the London Rowing and Canoe Club was formed, having for its first president Lieut.-Col. John Macbeth, with Mr. G. W. Marsh as honorary secretary and the late Mr. W. C. L. Gill as hon. treasurer. A stock list was opened, and shares sold at \$10 each, the price in-

ing and lawn tennis. In a very short space of time, in fact, early in the summer of 1891, a piece of land was secured from Mr. J. A. Thomas on the southwest corner of the forks of the river. A clubhouse was built, and stocked with working and pleasure boats. Much interest was taken in the club, and late in the summer the first regatta was held, in which a large number of the members took an active part.

club's sports, which consisted of row-

## THE FAMOUS K. CREW.

It was at this regatta that the famous K Crew figured so conspicuously, the members being M. J. Kent, J. B. Kilgour, T. Kingsmill and Capt. Cartwright. So much enthusiasm was displayed during this first season and at the regatta it was plainly seen that was about to go on his way when someting in the girl's manner attracted his ated in London and had come to stay. The permanency of the London Row-

ing Club was assured. The opening of the second year of the club's existence was marked by a club a visit. This invitation was aclarge and very enthusiastic meeting, it being the first annual meeting of the club. This meeting was held in the Morris second, E. Rechnitzer first, and Tecumseh House, and all the officers of the previous year were re-elected. The opening of the clubhouse followed in the summer, and the members entered into the sports very enthusiastically. Steps were taken to secure the annual regatta of the C. A.

A. O. for London, but this subsequently proved unsuccessful. During the previous and the present year vigorous steps were taken by the officers of the club to remedy the nuisance of parties emptying dirt and filth into the river, and the credit must be given the club of having successfully carried through these efforts. As a result London has today one of the prettiest rivers in Ontario.

The second regatta was held in the fall of the year, and was even more bers. successful than the preceding one. Races for fours, doubles and single sculls, single and tandem canoe and sailing races were held, in which there were plenty of entries to make the different events very intresting. Capt. Foster's steamer carried the spectators down to the course, which was laid out opposite Ward's, on the north side of the river. This outing practically closed the second year of the club's existence.

The second annual meeting was held at the Tecumseh House in February, 1893, and was largely attended. The officers of the club were changed somewhat for the ensuing season, and a resolution was also added to the constitution to allow the taking in of had the effect of largely increasing the membership roll.

# ENTER THE LAWN BOWLER.

During this season another sport was added to the club, that of lawn bowling. This new game was rapidly taken up, and from the amount of enpromised to be one of the favorite sports of the club. A bowling tournatourney this year among the members of the club, and both proved very sucessful.

Renewed efforts were made this season to secure the annual regatta of the C. A. A. O. for London, but this being unsuccessful on account of the river not being in good condition, the members settled down and held a very successful local regatta in the fall of the rear, at which fours, doubles and single scull races were held, also single and tandem canoe and sailing races. The annual meeting of the opening of the fourth year was held on March 9, 1894, at which there was a larger attendance than at any of the previous meetings.

So great was the enthusiasm over the sport of rowing that it was decided at this meeting to hold two regattas the coming season, but owing to the low condition of the water in the river the fall regatta had to be abandoned. The one held in midsummer was, however, very successful. In fact, this regatta was to be the last for two years, as the water continued to be very low all during 1895, which made racing impossible, and in fact pleasure rowing was also out of the question. was very much regretted, as several members had now developed into crack oarsmen, such fast ones as G. D. Beling, H. Dahlgren, E. Richnitzer, N. Dineen, H. Morris, P. McKenzie and

ing held in March 1895, changes were made in the constitution the bowling division. The increase of to cover the new management of the different sports of the club. Officers were elected for the ensuing year, and tained 83 names; in 1899 new ones were the club started out on the fifth year of its existence. The institution had now proven to be a genuine success, so much so, indeed that steps were taken to purchase the land upon which the clubhouse stood. In order to raise the funds necessary to do this more shares

of stock were sold, and life memberships were placed on the roll at \$50 each. These latter were readily taken up. In all ten were sold, the purchasers being Messrs. Thomas H. Smallman, W. A. Buchner, Major Thomas Beattie, W. J. Blackburn, W. J. Harvey, W. R. Hobbs, J. A. Hunt, William Kennedy, John W. Little and A. Parfitt, all of whom are today enthusiastic members. Sufficient funds were soon raised and the required land purchased from Mr. J. A. Thomas. PROGRESS OF BOWLING AND TENNIS. During this year bowling and tennis

received the members' attention more than in previous years, on account of there being no rowing. This brought the sport of bowling out more prominently, and so great was the interest scheme. Opening up a subscription shown that action was readily taken and list for the purpose, they circulated it upon a letter received from Mr. William Elliott, of Mitchell, advocating the formation of & Western Ontario Bowling Association. Correspondence was held with all the clubs in Western first subscribers being such well-known Ontario, and the formation of the association was well under way when the season of 1895 came to a close. The club officers tried a new experiment in the fall of this year, and the clubhouse was kept open all winter, the bowling lawns having been flooded for skating and hockey matches. This did not prove very successful, however, and was never repeated.

Early in the spring of 1896 the annual meeting was held and steps were immediately taken to complete the formation of the Western Ontario Bowling Association. This was soon accomplished, and the first tournament was held on the lawns of the local club in July, at which there was an attendance of 23 rinks, representing cluding one year's privileges of the several outside towns and cities as far east as Toronto. London was well represented. This tournament proved a oon to the local club, adding very largely as it did to the number of members who took an active interest in this branch. In fact, as time went on, bowling was the backbone of the club and really the sport that kept it

going for several years.

THE REGATTA OF 1896. About the middle of the season, in this year, 1896, the river again became fit for rowing, and steps were at once taken to arrange a regatta, which after a couple of postponements was held in the fall and was most successful. Special interest was taken in the races on account of a crew from the Leander Club, of Hamilton, being present. The local oarsmen, however, had no difficulty in outrowing the Hamiltonians, the crew doing the trick being composed of H. Dahlgren stroke, P. McKenzie third, E. Morris second, E. Richnitzer first, and W. Southam coxswain. A short time after this regatta the local paramen accepted an invitation from the Leanders to pay their cepted and a crew composed of N Dineen stroke, P. McKenzie third, E. W. Southam coxswain, went down to Hamilton and repeated the dose administered in this city, outrowing the home crew on Burlington Bay, and showing that they knew how to row in open water equally as well as on the smooth water of the Thames. The year of 1897 found the membership roll very largely composed of yearly members. A great many stockholders, while still retaining their certi-

ficate of stock, had not renewed their yearly subscription. This, therefore, was really the commencement and first year of London Rowing Club. This latter club more than ever. each year rent the grounds and build-tourney this year, h ing from the London Rowing and Canoe largest and most representative tour-Club, Limited, or the "mother club," nament held in Canada. The river being again in an unsatisfactory condition for rowing, this division of the club was practically at a standstill during this year, and but for the lawn bowling, which drew a large number of new members, the club would have had a hard time to keep However, the officers in charge worked hard and the holding of the second tourney of the W. O. B. A. on the local grounds, combined with local tennis and bowling matches, provided a year of successful sport, and the club finished the seventh year of its existence with a clean sheet. Up to the present year, 1898, the club was annually compelled to build a temporary wooden foot bridge across the river at yearly members at a fee of \$5. This the foot of King street in order to tournament is also in progress, with afford the members a speedy and easy access to the club grounds. A., held in July, was attended by many outsiders, in all 26 rinks taking part. Lawn bowling was now the mainstay of the club, and it safe to say that had it not been for this branch, London would not possess the beautiful club that it does today. In both years W. O. B. A. tournaments were held on the local lawns, 27 rinks being in attendance in 1899, and 35 rinks in 1900 It may be here said that the steady growth in the attendance at the annual tournaments of the W. O. B. A. was characteristic of the rapid strides made by lawn bowling in Ontario, and this sport is one of the most enjoyed in the club, many of the oarsmen taking active interest in this division. Prospects for the year 1901 opened

up very brightly, and with rowing in sight, the largest and most successful year of the club's history was looked forward to; and as time went on the officers of the club were not doomed to disappointment. From the way lawn bowling had taken hold, and with the prospects of rowing in sight, new members fairly flocked to join, bringing the total membership up to 209. This large number made it necessary for the officers of the club to provide more room, and as a consequence a large piece of land was taken to the west of the present lawns, leveled up, sodded a lawn 125 by 125 feet was added to the already extensive grounds. This new lawn was allotted to the tennis division, in order to keep for bowling and to accommodate the annual tournament of the W. O. B. A. the two lawns already in use, one of which is 45 by 120 feet, and the other 123 by 125 This new addition of ground gave ample room and the members made good use of it. The annual tour-nament of the W. O. B. A., which was now eagerly looked forward to by the citizens as well as the club's members, was held in July, and was attended by

30 rinks. Rowing was also in good condition again, and in the month of September the first regatta since 1896 was held on course from the County Club, with the finish at Ward's. Judging from the very large attendance of spectators, the amount of enthusiasm displayed at this regatta, it was easily seen that the five years of dullness in this department caused by the low water in the river, owing to the poor dam at Springbank, and later to the destruction of the dam by the flood, had not worn off any of the interest taken in the manly sport.

LAST YEAR'S SUCCESSFUL OARSMEN. Races for fours, doubles and single sculls, single and tandem canoe, were held and were keenly contested. The successful oarsmen were:

The present year, 1902, opened up brighter than any previous year, a large number of new members coming in, which swelled the total membership 230. In the early summer an extra bowlers' room 30x20 feet was built on the east side of the old building, and and Ritter. around this new part a 6-foot veranda and also of the river, making one of the most complete, in fact the most complete and prettiest summer club house in Ontario.

CLUB STANDS FOR MANLY SPORT.

In the London Rowing Club, the city may justly and proudly boast of havthe best and prettiest and most complete club house and grounds in Canada, and a club that is a credit to the city, inasmuch as it has for its object the encouragement of athletic in Ontario, particularly when the ansports among amateurs, and contains no game that is used for money-making purposes. All contests are void of any professional spirit and are entered into and contested with nothing but pure, manly love for clean sport. Not only is the club an ideal spot.

Sixteen greens are at the disposal of the members for bowling and no club has as many nor are there as many perfect greens to be found anywhere in Canada. sufficient to accommodate two double and one single tennis courts is at the disposal of those who take an interest in this game. Much of the credit is due the caretaker, Mr. R. Sparrowhawk and his able assistant, Mr. W. Day, for the beautiful appearance and excellent condition of the club grounds, and many are the praises uttered by visitors to the city. Situated as it is, the London Rowing Club forms an ideal spot and is indeed a pretty place

THE CITY CHAMPIONSHIP CON-TEST. The army of fans who live in Lon-

don will have an opportunity to whoop

it up for their favorites on Saturday next, when the McClarys and the Londons, champions of the Wholesale and the City Leagues respectively, will meet to settle the question of the city championship. Both teams are in fine fettle, and gilt-edged ball playing will be the order. There is a very general belief among those who have watched the work of both teams that they are very evenly matched. The Cockneys have earned the reputation of being heavy hitters, and the Stovemakers are regarded as being quite their equal, if not their superiors, in the field. When Greek meets Greek things usually grow interesting, and the game on Saturday next promises to induce heart palpitation among the sun-gods at Tecumseh Park.

DAN PATCH EQUALS RECORD.

Readville, Mass., Sept. 23. — Dan Patch this afternoon equaled the world's racing record of 1:59¼, made by Star Pointer on the Readville track five years ago. Dan Patch was brought out for a warming up mile with a runner as pacemaker. Without an effort he went the distance in 2:13. Half an hour later the handsome black came out for this trial against time. No time was lost in scoring, and Myron McHenry nodded the first time down for the wire. The pacer had his stride from the word, and there was not a skip for the whole mile, his legs moving with perfect regularity. It was not until the third quarter that every one felt convinced that the record was in danger. Up the stretch came the pacer, beating out the runner and flashing under the wire in 1:59¼.

Patch's trial was made at the New England Breeders' Association fall meeting, the programme of which has been curtalled through wholesale with drawal of horses from fall campaigning on tracks in this state. The events today were the New Engand Futurity, for foals of 1899; the 2:11 trot and the pacer. The Futurity, stake was the pacer. The Futurity stake was the pacer. A very large and successful auction sale of cattle was held yesterday afternoon at the Village of Delaware for Mr. John McClary. Seventy-nine head were sold in less than two hours. The prices realized were good. The sale amounted in all to over \$1,900. It was conducted by A. M. Hunt, auctioneer, of this city.

INDUCTED INTO NEW CHARGE. Rev. Alex. R. Wilson, brother of ford yesterday into the pastorate of Armeston Church, Lucan, and the Fraser Church, Biddulph. The ceremony took place at the Presbyterian Church, Lucan. Rev. Mr. Leach, of Stratford, conducted the service, and addressed the people; Rev. Mr. Stewart, of Motherwell, delivered the sermon, and Rev. Dr. Hamiton, of Stratford, addressed the minister.

DEATH OF MRS. SHIER. The many friends of Mrs. Frank H. Shier will regret to hear of her death at Sault Ste. Marie, Ont., on Sept. 18. She was the youngest and beloved daughter of W. H. and Harriet South-well, formerly of Worlock, Ramsey Hunt, England. When he returned he found that Lavelle, \$25 in cash and a suit of clothing had all disappeared.

HARVEST HOME AT EMMANUEL

CHURCH. Harvest time was celebrated at Emmanuel Church, London Township, on Sunday and Monday evening. The services on Sunday were preached by Mr. W. J. Spence, of All Saints' Church, this city, and Rev. John W. Jones, rector of Florence. A very bountiful harvest supper was served on Monday evening, and was followed by a very interesting programme, which compris ed piano and vocal solos, by Mr. Thos. Mitcheltree; solos by Messrs. Reginald Hudson, Victor Stanley and Ira Lambert; a duet by Messrs. Reginald and Edgar Hudson; readings by Miss Miller; a whistling solo by Mr. Golding, and addresses by Rev. J. C. McCracken, of Thorndale, and Rev. H. J. Fair, of Siloam.

MUCH PLEASED WITH LONDON. After luncheon at the London Club yesterday and the trip around the city and down to Springbank, the party, which included Messrs. White and Spender, the two English journalists who visited London yesterday, went to the Kennels, where tea was served. The two guests of the day left at 6:45 o'clock for Toronto. The gentlemen who accompanied them in the Victoria were Messrs. Charles Forbes, J. C. Duffield, John Cameron M. Masuret, Geo. Burns, Geo. M. Reid Ald. Winnett, Judge Edward Elliott, Rev. Mr. Waller, Sir John Carling, Major Beattie and Mr. Hyman, who

was host during the day. The visitors were pleased with London, and approved especially of its wide streets, its shade trees and comfortable appearance of the homes of the city. Mr. Spender took several photographs of scenes here, and each of them were given copies of "Illustrated London.

To the Editor of The Advertiser: The following points may not have een noticed by your many readers re Western Fair:

Seats should be provided for the farmers' wives and daughters, who wish to see the dairy in full operation, which is the kind to be seen in all Ontario farms. The planks may do for the men.

the city. Perhaps it would come with more grace from the lady mayoress. There is trouble in getting matters settled with exhibitors which, if adjusted soon, would stop the unkind expressions in regard to management. A standing committee in touch and near at hand would be a satisfaction, and an exhibitor would not have to complain of being moved eight times and then put out and have to take a place improper for the purpose.

A place is also needed for the display of plumbers' goods, and as the workmen are looking to a time when gas will light and heat, and the cook, who is up in domestic science practice, near at hand, will bless your stars for suggesting an annex to the present main building.

Did you, dear sir, notice the green peaches required to allow one to exhibit? Now, were not they fine? Why, Mother Eve could well be excused for her mistake in taking one too many if her paradise home produced such fruit as displayed this year. Perhaps you will notice our wheat

and oats have to take back seats, and fear that they will have no place in the next Western Fair. JOHN LAW.

# KNEW HOW

To Stay at Pest While Others Got Sick.

How a trained nurse keeps up strength on properly selected food is here worth knowing. The experience of Mrs. Charlotte Frank, of Covington, Ky., is probably familiar to many. She says: "I am a professional nurse and most of my time is spent in the sick room. Last spring I attended a very serious case, and after ten weeks' close application I was in such a condition that I could neither eat nor sleep, being too much worn out. After tossing in bed able to sleep I happened to think of Grape-Nuts and the good it had done a number of my patients. returned to bed and slept five hours.

went to England, had a little child that suffered four years with stomach trouble. Last May the mother and child came back home, both sick. I advised them what I thought best. The child, now 5 years old, ate Grape-Nuts three times a day and the mother once a day. When they went to England in September they were in the best of health and took with them upon the steamer fourteen boxes of Grape-Nuts: their only fear was that they might not be able to get it in England. The mother wrote me afterwards that she had

# TREATMENT OF ROUMANIA

Likely To Be Unaffected by Mr. Hay's Note.

Recent Outbreak in Cheng Tu Attributed to Prince Tuan.

London, Sept. 23.—"Nothing that will be of any permanent good can result from Secretary Hay's note to the powers on Roumania's treatment of Jews, unless somebody is willing to crush Roumania, and no power seems anxious to take on that task."

The foregoing quotation is the utterance of an experienced British official who represents the real opinion of the British foreign office on the subject of the negotiations between America and Europe. Great Britain's backing up of the

United States in the Roumanian mat-ter has only produced evidence that the signatories of the Berlin Treaty absolutely refuse to take other than merely sentimental action towards alleviating the persecution of the Jews. The exchange of views regarding the American note solicited by Great Britain has progressed sufficiently to convince the foreign office here that nothing material here is likely to result. Joseph H. TUAN STIRS UP BOXERS. Advices from Pekin state that the mandarins have been informed from Cheng Tu, Scheuen, where the Boxer outbreak has assumed such proportions, that Li Lai Chung principal chief of the Boxers, of Shen Si, and Lieut. Prince Tuan arrived at Cheng Tu just prior to the outbreak and fomented the insurrection.

A correspondent at Cheng Tu says the mere presence of this man arouses the Boxers to frenzies of enthusiasm. New York, Sept. 24.—Bishop D. H. Moore, of the Methodist Episcopal Church, having supervision of China, Japan and Korea, says: "That China can ever be what it was before the outbreak is impossible. Her idols are plates were too small for the six shattered, her ideals blasted; the sacred wall around Pekin has been dug down to admit the locomotive. The emperor has been shot through and through with western ideas, which, to the natives, seem to have an omnipotence all their own."
