Liver & Stomach Complaints.

ECLIPSES.

During this year there will be four Eclipses of the Sun and two of the Moon, in the following order:

I. February 7-8. There will be a partial Eclipse of the Moon, invisible here.

II. February 22nd. There will be an Annular Eclipse of the Sun, invisible.

III. August 3rd. There will be a partial Eclipse of the Moon, visible at Greenwich. The first contact with the Penumbra occurs August 3rd, 6h. 11m. 9, mean time at Greenwich, in Longitude 87° 4' East of Greenwich and Latitude 17° 6' S. The middle of the Eclipse occurs at 8h. 48m. 9. in Longitude 49° 8' E. of Greenwich and in Latitude 16° 50' S. Last contact with the Penumbra occurs in Longitude 11° 10' E. and in Latitude 16° 35' S. The first contact with the shadow occurs at 130° from the northernmost point of the Moon's limb toward the East.

IV. August 18th. There will be a total Eclipse of the Sun, only partly visible as a partial Eclipse at Greenwich.

IS YOUR BLOOD OUT OF ORDER?

Are you suffering with pimples, eruptions, sores, cutaneous affections, or

RHEUMATISM?

Can you find nothing to rid you of any or all of those impurities and radically cure you?

TRY THAT BEST OF ALL BLOOD PURIFIERS

BRISTOL'S SARSAPARILLA

1832.

ESTABLISHED 1832.

1884.

It is guaranteed to be an infallible cure for

SCROFULA

in its worst forms; stubborn, deep-seated ulcers; primary, secondary and tertiary Syphilis.

It is most gentle and efficacious in its action, and can be prescribed as well for the aged and extremely young as for adults.

Its principal virtue lies in its wonderful power to completely eliminate from the system the slightest vestige of bad blood or humors.

For Sale by all Druggists and Dealers in Medicines.

RESULTS OF SAYING SMALL AMOUNTS OF MONEY.

The following shows how easy it is to accumulate a fortune, provided proper steps are taken. The table shows what would be the result at the end of fifty years by saving a certain amount each day and putting it at interest at the rate of six per cent.

<i>Daily Savings.</i>	<i>The Result.</i>	<i>Daily Savings.</i>	<i>The Result.</i>
One cent.....	\$950	Sixty cents.....	\$57,024
Ten cents.....	9,504	Seventy cents.....	66,528
Twenty cents.....	19,006	Eighty cents.....	75,537
Thirty cents.....	28,512	Ninety cents.....	85,537
Forty cents ..	38,015	One dollar.....	95,041
Fifty cents.....	47,520	Five dollars.....	475,208

Nearly every person wastes enough in twenty or thirty years, which, if saved and carefully invested, would make a family quite independent, but the principle of small savings has been lost sight of in the general desire to become wealthy.

HOW TO JUDGE THE WEATHER.

The colors of the sky at different times are a wonderful guidance. Not only does a clear sunset presage fair weather, but there are other tints which speak with clearness and accuracy. A bright yellow sky in the evening indicates wind; pale yellow, wet; a neutral gray constitutes a favorable sign in the morning, and an unfavorable one in the evening. The clouds are full of meaning in themselves. If they are soft, undefined, and feathery, the weather will be fine; if the edges are hard, sharp, and definite, it will be foul. Generally speaking, any deep, unusual hues betoken wind or rain; while more quiet and moderate tints bespeak fair weather. Simple as these maxims are, the Board of Trade have thought fit to publish them for the use of seafaring men.

DIMENSIONS OF THE BARTHOLDI STATUE.

Height from base to torch....	151	1	Tablet, width.....	13	7
Foundation of pedestal to torch.....	305	6	Tablet, thickness.....	2	0
Heel to top of head.....	111	6	DIMENSIONS OF THE PEDESTAL.		
Length of hand.....	16	5	<i>Feet. In.</i>		
Index finger.....	8	0	Height of pedestal.....	89	0
Circumference at second joint..	7	6	Square sides at base, each.....	62	0
Size of finger nail .. 13x10 in.			Square sides at top, each.....	40	0
Head, from chin to cranium... 17	3		Grecian columns, above base.	72	8
Head, thickness from ear to ear	10	0	DIMENSIONS OF THE FOUNDATION.		
Distance across the eye.....	2	6	<i>Feet. In.</i>		
Length of nose.....	4	6	Height of foundation.....	65	0
Right arm, length.....	42	0	Square sides at bottom.....	91	0
Right arm, greatest thickness..	12	0	Square sides at top.....	66	7
Thickness of waist.....	35	0			
Width of mouth.....	3	0			
Tablet, length.....	23	7			

The statue weighs 450,000 pounds, or 225 tons.

The bronze alone weighs 200,000 pounds.

Forty persons can stand comfortably in the head, and the torch will hold twelve people.

The number of steps in the statue, from the pedestal to the head, is 154, and the ladder leading up through the extended right arm to the torch has 54 rounds.

DYSPEPSIA, FLATULENCY, SOUR STOMACH,

Heartburn, and Distress after Eating, can all be
cured by the use of

BRISTOL'S PILLS

They are elegantly coated with sugar, very easy
to take, and contain the great
antibilious remedies

PODOPHYLLIN AND LEPTANDRIN.

A Reliable Medicine for Females,

A Sure Corrective of Derangements,

A Thorough Remedy for Irregularities,

are the unfailing effects of a course of

BRISTOL'S SUGAR-COATED VEGETABLE PILLS.

SUPERIOR
to all
"EAUX DE COLOGNE"

is the genuine

MURRAY & LANMAN
FLORIDA WATER

Comprising as it does the perfectly distilled
essence of all the

RICHEST FLOWERS OF THE TROPICS

it stands without a rival

AS A TOILET ARTICLE.

THE BATHING SEASON.

A Bath perfumed with the genuine

MURRAY & LANMAN
FLORIDA WATER

is the most perfect restorative

Which can be Used during Hot Weather.

It not only benefits the body, imparting new vigor to each member, but under the exhilarating action of this exquisite perfume the mind recovers its exhausted powers and acquires additional brilliancy. To distinguish the genuine article from its imitations look out for the "Trade Mark," a narrow white strip label bearing the signature of Lanman & Kemp, New York, sole proprietors.

THE WIFE'S PRAYER.

BY ANNIE DE G. VAN SICKLE.

The sun is sinking in the west,
The song-birds all have gone to rest,
The winds are wailing through the trees,
And darkening storm-clouds, on the breeze
Go hurrying past.

Night—dreary night, starless and cold,
Her sable mantle doth unfold,
And with a wide extended hand
Spreads over the entire land
Darkness, at last.

Within a cottage poor and plain,
With wretched roof, and broken pane,
A woman sits—her little child
Clasped to her breast in anguish wild;
Alone!—alone!

Nay! not alone; there's One above
Who listens, with an ear of love
To the poor wife's pathetic cry,
"Oh! Father, help us or we die."
Ah! bitter moan.

The old—old tale so often told
Of wretchedness, it doth unfold
Pages of want, and sin, and shame,
Written above thy cruel name
"Intemperance."

"Oh! Father, seek him—hear my prayer,
Stretch forth Thine arm, and do Thou
Take from his neck this cruel chain [there
And give him to his own again
Father, once more."

Brothers and sisters, in this land
Of light and wisdom, shall we stand
Silent, inactive, deaf and mute,
Blind to our duty? *No!* cast out
"King Alcohol!"

Strike from his head the tyrant's crown
With sword of right, quick! break it down
This Monarch's reign; cause men to t^h
There's more in life than *cursed drink*—
God help us all!

THE RUM POWER.

FRAGMENT OF A SPEECH.

"I have seen it stated recently on authority, which at the time seemed reliable, that a certain manufacturing company in the East determined to demonstrate to their employees the ruinous folly of drink, both to themselves and to their families. In order to make the demonstration complete, they procured one thousand new ten-dollar bills. These they carefully marked and paid out to as many of their workmen on a certain Saturday.

The Monday following they found four hundred and sixty of these bills in the banks of the city among the deposits of the saloon keepers. Here was a demonstration that within twenty-four hours, almost one-half of the money paid passed through the hand of the saloon-keeper.

Of course we may reckon that *some* change came back to the working-men; but we may also reckon that in some cases the saloon-keeper did not make a deposit, and that in others the workmen used other money than the ten-dollar bill in his possession, or first broke the bill (possibly at the grocers) before he went to the saloon.

But four hundred and sixty out of one thousand went directly to the saloon.

These facts were laid before the workmen on the following day. They were so startling that immediately many of the men joined in the formation of an anti-saloon and total abstinence society.

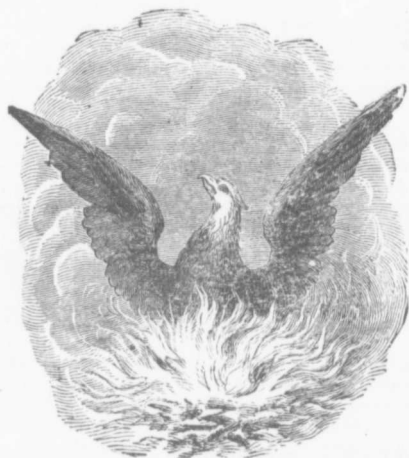

"W—^h you say, "all this does not affect me." Yes it does, in two ways. That enormous amount of money cannot be worse than wasted without in some way taxing *you* to make it up. You have to pay the extra police bill; the extra tax required to take care of the criminals and repair the waste of crime, not to say anything of the millions you have to pay annually to the corrupt politicians of our cities who only live by the help of the saloon.

The thrift of the land has to pay this indirect tax occasioned by the saloon power.

But more than that, you have to pay out in charities, individual and organized, an amount equal to the money spent by the men in the saloon, and which they have taken away from the support of their families to maintain those families—sunken to want and misery."

MEDICAL CELEBRITIES

Recommend, as, the Sovereign of all Remedies,

“BRISTOL'S SARSAPARILLA”

In all cases of *Scrofula, Ulcers, Tumors, Inveterate Wounds, Affections of the Liver, Rheumatism, &c., &c.*, it is a certain cure. It is prepared in such a manner that as soon as it be absorbed, it is immediately allied to the food in course of digestion, and in consequence circulates through the blood; this explains its energetic effect and the marvellous cures it produces. Used alternately with

BRISTOL'S VEGETABLE PILLS,

its efficacy is very prompt.

Besides their great natural virtue on the Liver, the Stomach, the Kidneys, and the Intestines,

Bristol's Vegetable Pills

have the most satisfactory action on the whole system. They cleanse and purify the body, and give vigor and health to the feeble and despondent.

The Liver is the Great Sieve or Strainer of the Blood.

The crimson stream in passing through it is relieved of its load of bile and all impurities, which the liver throws into the bowels, and thus keeps clean the circulation on which depends our lives ; but the liver is subject to disease, and will not then perform its work. It requires just such a medicine as we have in

BRISTOL'S SUGAR-COATED VEGETABLE PILLS.

A Medicine that does not Gripe,

A purge that does not weaken,

A physic that does not sicken,

Are few of the virtues possessed by

BRISTOL'S SUGAR-COATED PILLS.

PLANTING AN ORCHARD.

The advice so commonly given by writers to select a rich, warm, dry soil, often leads to bad results. Good corn land is all right, but extra good corn soil seldom fails to ruin an orchard sooner or later. The best slope is northeast; worst, southwest; north is better than south; elevated lands better than low. No protection on either side except south; make your orchard self protecting; first by setting each tree in the second row south about two feet to the west of the one nearly opposite in north row, so as to have the south tree's shadow strike the north tree at half past one. The shadow of the trees being much longer in winter than in summer, they will then, thus set, shade and protect each other at the exact time and place they most need protection from the steady, direct rays of the sun, which so seriously injure our trees during the cold, sunny days in February and March. Set them from two to ten inches deeper than grown in nursery. Leave the hole on the bottom a little sloping to the one o'clock sun. This will help much in keeping a tree growing the same way.

Set them firmly; and as soon as the leaves are about to open, cut all the leading branches on the northeast side, clipping in the ends of the twigs on the sun side with a view to close up all openings from the steady unbroken rays of the sun. A tree that leans northwest will be killed on the southeast side. If it leans northeast, it will be killed on the southwest. If it leans southeast it will die on the northwest side as far as the sun strikes at 3 o'clock. Follow the above plan for setting and keep them so trimmed. One tree thus grown will be worth ten fine high symmetrical topped trees we read of so much. It is a fact well known to old observers, that 99 trees of every 100 set as they commonly are with fine even symmetrical tops, will at the end of five years be found working more or less to the northeast. And in making northeast they are making toward ruin. Grow such crops in orchards as will best prevent the ground from thawing out in winter or early spring.

Fall Planting of Small Fruits.

Early fall is the best time at the North for planting all small fruits except strawberries. Heavy clay soil that is likely to heave by the frosts of winter is sometimes objected to, but such soil is hard to work till late in the spring and than if dry weather follow soon after setting the plants, a greater percentage of loss occurs than by the heaving out by frost where plants were put out in the fall on the same field. On any other soil the advantages are so great that one who has once tested the two seasons for planting on the same field side by side with same variety and quality of plants not be likely to plant again in spring if it is possible to do it in the fall. Plants set from the middle of October to the middle of November do well, for at this season the average planter is not so crowded by other work and

therefore has ample time for a thorough preparation of the soil, which is one of the first essentials in successful small fruit culture so often neglected in the hurry of spring planting. Again, at this season of the year the plants are in an almost dormant condition, the roots only growing a little up to freezing time, and may be handled with much less care than in spring, when the new and tender sprouts starting from the roots of raspberries and blackberries are easily broken off and destroyed, to the great injury if not the entire loss of the plant. Currants and gooseberries begin to leaf out so early in the spring as to be seriously injured by any removal, even a week after frost is first out of the ground.

IMPROVED BEE-KEEPING.

Comparatively few people, outside of those actively engaged in bee culture as a business have any idea of improvements and discoveries which have within the past few years been made in that line. Bee-keeping is no longer a game of chance, but if any industry has been reduced to a science, such a claim may now be made by the progressive bee-keeper. The first great improvement was the adoption of movable frame hives and devices by which the bees were caused to built their combs straight in the frames so that any comb could be readily taken out of the hive at will, and any part critically examined.

Next was the introduction of improved races of bees from all parts of the world. The Italians, we believe, still hold the supremacy as superior in most respects to any others. The queen being the mother of the whole colony, and the worker bees very short-lived, a removal of the native queen from any hive and a fertile Italian queen substituted, but a few weeks is required to cause the whole colony to become Italians.

Another new era dawned in the bee-keepers' world with the introduction of machines for making comb-foundation. This is simply a thin sheet of wax pressed to represent the base or bottoms of a whole sheet of cells. When a frame is filled with this foundation, the bees very quickly build out the cells, thus forming a complete sheet of comb straight in a frame. Weak colonies can be very rapidly built up with this help, and strong ones rapidly divided and multiplied in number.

The introduction of centrifugal machines by which honey is emptied from the cells, thus allowing the combs to be replaced and refilled, was also a long step forward for those who wish to obtain large quantities of pure strained honey, for it is found that it costs the bees more to built one comb, than to fill several, and as honey is not always abundant in the fields, short periods of profusion when certain classes of flowers are abundant must be made the most of, and empty combs supplied at just the right time will be filled with surprising rapidity.

So bee-keeping, like other industries, to become profitable must be studied, and a systematic and intelligent care bestowed upon them.

BRISTOL'S Witch Hazel Ointment

FOR EXTERNAL USE.

Made of the Extract of the **HAMAMELIS VIRGINICA**, a native shrub of the United States, first discovered by the Indians, who used it as a sedative and healing remedy in all cases of external Inflammation, Wounds, Tumours, Hemorrhoidal Affections, Rheumatism, etc.

**As a Remedy for Piles it is really Wonderful and Marvellous
IN ITS IMMEDIATE EFFECTS**

and no other healing or alleviating agent can vie with it on the speedy, safe and radical cure and relief of Burns, Scalds, Boils, Carbuncles, Cuts, Bruises, Sprains, Insect Stings, Rheumatic Pains, Sorethroat, Facial Neuralgia, Headache, Ulcers, Wounds, Earache, and

ABOVE ALL

Piles, Rheumatism and Pains of all descriptions

being the quickest, safest and most efficacious of all **PAIN KILLERS KNOWN**, as the relief derived from its application is almost

INSTANTANEOUS.

SPONTANEOUS TESTIMONIAL.

HEALTH AND VIGOR

DUE TO

Bristol's Sarsaparilla.

AUCKLAND, NEW ZEALAND.

MESSRS. L. D. NATHAN & Co., AUCKLAND.

Dear Sirs

In view of the undoubtful fact that my present good health is due to the use of BRISTOL'S SARSAPARILLA imported by you, I feel it to be my duty to testify, from personal experience, to the virtues of this excellent remedy. I had suffered for a long time from impaired health generally, when I commenced the use of the SARSAPARILLA, with (I must confess) but little faith in its efficacy. However, after using a few bottles, I found myself so much improved, that I continued taking it, until my health was completely reestablished. This testimonial is given by me spontaneously and dictated only by a feeling of deep gratitude.

I am, dear Sirs,

Gratefully yours,

HENRY WILLIAMS.

Witness:

THOM. WILLIE ELLIS.
MANAHIKI.

GLEANINGS.

THE GREATEST CITY IN THE WORLD.—FACTS OF CURIOUS INTEREST
CONCERNING THE BRITISH METROPOLIS.

London, England, is the greatest city the world ever saw. It covers within the 15 miles' radius of Charing Cross (Strand) 700 square miles. It numbers within these borders 5,000,000 of inhabitants. It comprises over 2,000,000 foreigners from every quarter of the globe. It contains more Roman Catholics than Rome itself; more Jews than the whole of Palestine; more Irish than Dublin; more Scotchmen than Edinburgh; more Welshmen than Cardiff; more country-raised persons than the Counties of Devon, Warwickshire and Durham combined. Has a birth in it every five minutes; has a death in it every eight minutes; has seven accidents every day in its 8,000 miles of streets; has on an average 40 miles of streets opened and 15,000 new houses built in it every year. In 1883 there were added 22,110 new houses to the vast aggregate of dwellings which is called the metropolis thus forming 333 new streets and one new square covering a distance of 66 miles and 84 yards. It is difficult to form any mental picture from these figures. Brighton, the queen of watering places, in 1881 had 20,379 inhabited houses, so that London in 1883 added to itself a town bigger than Brighton. It would require two Cambridges or Oxfords, or Baths to represent the addition made to London in a single year. London has 46,000 persons added annually (by birth) to its population, has over 1,000 ships and 10,000 sailors in its port every day; has as many beer shops and gin palaces, as would, if placed side by side stretch from Charing Cross to Portsmouth, a distance of 78 miles; has 38,000 drunkards annually brought before its magistrates; has 70 miles of open shops every Sunday; has influence with all parts of the world represented by a yearly delivery in its postal districts of 298,000,000 of letters. Eight hundred and fifty trains pass Chapham junction every day, and the transportation (underground) railroad runs 1,211 trains every day. The London Omnibus Company have over 700 'buses, which carry 56,000,000 passengers annually. It is more dangerous to walk the streets of London than to travel by railroad or to cross the Atlantic from New Orleans to Liverpool. Last year 130 persons were killed and 2,000, injured by vehicles in the streets. There are in London 15,000 police, 15,000 cabmen, 15,000 persons connected with the post-office. The cost of gas for lightening London annually is \$3,000,000. London has 400 daily and weekly newspapers. Last year there were 600 fires. The ancient and famous city of London was first founded by Brute the Trojan in the year of the world 2832, so that since the first building it is 3,006 years old. The drainage system of London is superb, and the death-rate very low.

Marvellous Changes of Fifty Years.

Fifty years ago there was not a steam railway or an electric telegraph in the world. Now there are 90,000 miles of railroad and 300,000 miles of telegraph in the United States.

Fifty years ago there was not an ocean steamship afloat. Now the greater part of the foreign trade of the United States is done by steamships. That trade in 1880 amounted to more than \$1,500,000,000.

Bristol's Sarsaparilla cures rheumatism, it never fails!

LADIES OF DELICATE CONSTITUTION

CANNOT USE THE COARSE CATHARTICS WITHOUT DANGER,

BRISTOL'S

SUGAR-COATED
PILLS,

Uniting the properties of a gentle laxative and a stomachic, appear to be especially adapted to the wants of the sex.

They are free from all mineral substances, and the two active vegetable resinoids, Podophyllin and Leptandrin, make them the most powerful, yet the

SAFEST OF ALL ANTI-BILIOUS MEDICINES.

THE COURTS.

PROVINCE OF QUEBEC.—I. *Court of Queen's Bench Appeal Side*.—Montreal, 15th to 27th (both inclusive) of January, March, May, September and November; Quebec, 1st to 8th (both inclusive) of February, May, October and December.

Crown side.—Montreal, 1st March, 1st June, 1st September 2nd November; Quebec, 10th April, 10th October; Three Rivers, 23rd March and 23rd September; Sherbrooke, 1st March and 1st October; Kamouraska, 23rd March, and 18th December; Aylmer, 10th June and 10th December; Percé, 13th February and 7th October; New Carlisle, 13th February and 13th September; Arthabaskaville, 19th February and 19th October; Beauce, 20th June and 20th October; Montmagny, 26th March and 25th October; Joliette, 15th January and 2nd July; Sorel, 20th January and 16th June; Chicoutimi, 2nd June and 15th January; Sweetsburg, 20th March and September; Rimouski, 23rd March and 23rd October; Malbaie, 5th February and 22nd June; Beauharnois, 1st March and 1st October; St. Hyacinthe, 15th January and 15th June; St. Scholastique, 7th January and 2nd July; Iberville, 11th March and 11th October.

II. *Superior Court*.—*District of Montreal*.—(Counties of Hochelaga, Jacques Cartier, Laval, Vaudreuil, Soulanges, Laprairie, Chambly, Verchères, and city of Montreal.) Held at Montreal, 16th January to 20th April, 1st May to 30th June, and 1st Sept. to 20th Dec.

District of Quebec.—(Counties of Portneuf, Quebec, Montmorenci, Levis, Lotbiniere, parish of Beaumont and city of Quebec.) Held at Quebec on the 1st five juridical days of each month and the five juridical days following the 15th of each month except July and August.

District of Ottawa.—(Counties of Ottawa and Pontiac.) Held at Aylmer, 20th to 26th January and September, 29th April, 5th May, 28th November and 4th December.

PROVINCE OF ONTARIO.—*Court of Error and Appeal*.—Constituted for the hearing of appeals of civil cases from the Courts of Queen's Bench, Chancery and Common Pleas, and appeals in criminal cases from the Courts of Queen's Bench and Common Pleas. From the judgment of this Court an appeal lies to the Supreme Court of Canada, in the cases over \$5,000 or where annual rent, fee or future pleas and appeals in Criminal cases from the Court of Queen's Bench and rights of any amount are affected.

Court of Queen's Bench.—The jurisdiction of this Court extends to all manner of actions, causes and suits, criminal and civil, real, personal and mixed, within Ontario, and it may proceed in such, by such process and courses as are provided by law.

Court of Common Pleas.—This Court has the same powers and jurisdiction as a Court of Record, as the Court of Queen's Bench. Writs of summons and copias issue alternately from either Court.

Court of Chancery.—This Court has the like jurisdiction as the Court of Chancery in England in cases of fraud, accident, trust, executors, administrators, co-partnerships, account mortgages, awards, dower, infants, idiots, lunatics and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, staying proceedings at law prosecuted against equity and good conscience, and may decree the issue, repeal or avoidance of letters patent, and generally the like powers which the Court of Chancery in England possesses.

(Continued.)

THE COURTS.—Continued.

County Courts.—Presided over by a resident Judge in each County. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed \$200; and to all suits relating to debt, covenant or contract where the amount is ascertained by the acts of the parties or signature of the defendant to be \$400; and to all bail bonds and recognizances of bail given in the County Court to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim, con, or seduction.

Surrogate Courts.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills and letters of administration of the effects of deceased persons having estate or effects in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery.

Court of General Sessions.—The County Judge in each county holds a Court of General Sessions in this County semi-annually on the second Tuesday in June and December, except in the County of York, in which county said Court is held four times, commencing on the first Tuesday in March and December, and second Tuesday in May and September, for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempt from their jurisdiction.

TERMS OF COURTS.—*Court of Error and Appeal.*—This Court holds its sittings at such time and such periods as the Judges may appoint, the time now fixed being the first Tuesday in March and September and the second Tuesday in January, May and Nov.

Law Terms.—Hilary begins the first Monday in February, and ends Saturday of the ensuing week; Easter begins third Monday in May, and ends Saturday of the second week thereafter; Michaelmas begins third Monday in November, and ends Saturday of the second week thereafter; Trinity begins Monday after 21st August and ends the Saturday of the following week.

Chancery Term.—*Examination Terms.*—From 3rd Thursday of February to the last Thursday in August and from the first Thursday in December. *Hearing Term.*—The Court sits every Tuesday (except during the regular vacations).

County Court Terms.—The several County Courts in Ontario hold four terms in each year, to commence on the first Monday in January, April, July, and October.

District of Three Rivers.—(Counties of Maskinongé, St. Maurice, Champlain, Nicolet, and city of Three Rivers.) Held at Three Rivers, 17th to 22nd March, June, September, and December.

District of St. Francis.—(Counties of Richmond, Wolfe, Compton, Stansted and city of Sherbrooke) Held at Sherbrooke, 10th to 14th January, March, May, September and November.

III. *Circuit Court.*—(Jurisdiction for sums not exceedings \$200. In districts of Montreal and Quebec for sums not exceeding \$100.)

District of Montreal.—Held at Montreal, 1st to 20th of every month, except January, July and August.

District of Quebec.—Quebec District Circuit: held at Quebec same days as Superior Court. Lotbinière Circuit: held at St. Croix, 12th to 15th February, June and October.

District of Three Rivers.—Three Rivers District Circuit: held at Three Rivers, 10th to 16th March, June, September and December. Maskinongé County Circuit: held at Rivière du Loup, 4th and 5th February, June and October.

A FIERCE STRUGGLE!

Disease is ever preying upon man; from the cradle to the grave, more than one half of the human family have to contest inch by inch the progress of some ailment. What a boon then must

BRISTOL'S SARSAPARILLA AND PILLS

be; they purge out all poisonous matter, they purify the blood and humors, they give tone and power to the whole system, and enable the body to throw off disease that would otherwise have buried it to the grave.

THE GREAT BLOOD PURIFIERS.

Bristol's Sarsaparilla and Bristol's Sugar-Coated Pills

are a sure remedy for every form of Scrofula. Hundreds of cases that seemed beyond hope have been permanently and completely cured by them.

OVER HALF A CENTURY!

It is now over fifty years since

BRISTOL'S SARSAPARILLA AND PILLS

were first introduced to the public, and now, after that long period of trial, they are universally admitted to be the best of all remedies for impure blood and humors, scrofula, old sores, and confirmed rheumatism,

BRISTOL'S
DOUBLE EXTRACT
—OF—
WITCH HAZEL

A MARVELLOUS REMEDY

for the radical cure and immediate relief of Wounds, Burns, Scalds, Boils, Carbuncles, Tumours, Cuts, Bruises, Strains, Sore eyes, Toothache and

ALL SORTS OF EXTERNAL AILMENTS.

It is also a sovereign Remedy in cases of Rheumatism, Sorethroat or Quincy, Varicose Veins, Headache, Neuralgia, Earache, Nose-bleed, Catarrh and Insect Bites.

IT IS NEVER FAILING

in the radical cure of Piles,—bleeding and blind,—Internal Ulcerations, Vomiting of Blood, Kidney Complaints and Bleeding Lungs.

BRISTOL'S DOUBLE EXTRACT OF WITCH HAZEL

is both an internal and external remedy. It is applied as a wash, or taken inwardly as a medicine, and where there is the slightest shock to the system by Bruise, Fractured Limb, Cut, Inflammation, Burn, Hemorrhage from Lungs or other organs half a tea spoonful, two or three times a day, should be administered.

The same properties and virtues are to be found in

BRISTOL'S WITCH HAZEL OINTMENT

for external use only.

LANMAN & KEMP, New York,
SOLE PROPRIETORS.

What Dynamite is and How it is Made.

Few people know what Dynamite is, though the word is in common use. It is a giant gun powder, that is an explosive material, varying in strength and safety of handling, according to the percentage of nitro-glycerine it contains. Nitro-glycerine, whence it derives its strength, is composed of ordinary glycerine and nitric acid, compounded together in certain proportions and at a certain temperature. Nitro-glycerine, though not the strongest explosive known, being exceeded in power by nitrogen and other products of chemistry, is thus far the most terrible explosive manufactured to any extent. Nitro-glycerine by itself is not safe to handle, hence dynamite is preferred. It is extensively made and consumed in the United States under various names of Giant, Hercules, Jupiter and Atlas powders, all of which contain anywhere from thirty to eighty per cent. of nitro-glycerine, the residue of the compound being made up of rotten stone, non-explosive earth, sawdust, charcoal, plaster of Paris, black powder, or some other substance that takes up the glycerine and makes a porous spongy mass.

Nitro-glycerine was discovered by Salvero, an Italian chemist, in 1845. Dynamite is prepared by simply kneading with the naked hands twenty-five per cent. of infusorial earth and seventy-five per cent. of nitro-glycerine until the mixture assumes a putty condition, not unlike moist brown sugar. Before mixing the infusorial earth is calcined in a furnace, in order to burn out all organic matter, and it is also sifted to free it of large grains. While still moist it is squeezed into cartridges, which are prepared of parchment paper, and the firing is done by fulminate of silver in copper capsules provided with patent exploders.

Nitro-glycerine is made of nitric acid one part and sulphuric acid two parts, to which is added ordinary glycerine, and the mixture is well washed with pure water. The infusion is composed of small microscopic silicious shells, which have lost their living creatures. The cellular parts receive the nitro-glycerine and hold it by capillary attraction, both inside and out. The earth is very light. Water is expelled from it by means of a furnace, and then, in the form of a powder, it is mixed with nitro-glycerine. Nitro-glycerine has a sweet aromatic pungent taste and the peculiar property of causing a violent headache when placed in a small quantity on the tongue or wrist. It freezes at 40 degrees Fahrenheit, becoming a white, half-crystallized mass, which must be melted by the application of water to a temperature about 100 degrees Fahrenheit.

IRREFUTABLE TESTIMONY.

I, Don CASIMIRO ROURE Y BOFILL, Doctor of Medicine, Knight of the Royal American Order of Isabel the Catholic, Red Cross of Military Merit, etc., do certify that after having personally witnessed an analysis of

BRISTOL'S SARSAPARILLA

I am convinced that it is a sovereign remedy as a blood purifier, for which reason I have not hesitated to employ it daily in my practice and to recommend it in all cases of Syphilis, in secondary and tertiary stages, as also in those of Scrofula, Rheumatism and other diseases proceeding from impure blood and bad humors, and can testify to having always secured the most gratifying results.

And in testimony thereof, I sign the present in Havana, this 22d day of March.

CASIMIRO ROURE Y BOFILL.

Splendid Success!

THE CAREER OF
BRISTOL'S
PILLS AND SARSAPARILLA

In this country has indeed been a splendid success; hundreds and hundreds of invalids broken down by the diseases peculiar to this climate, have been restored by them to robust health. Reader, why should they not cure you?

WHEN USED IN CONNECTION WITH
BRISTOL'S SARSAPARILLA,

There is no affection of the stomach, liver, or bowels but can be safely, speedily, and completely cured by

BRISTOL'S SUGAR-COATED PILLS.

CURIOSITIES.

HOW TO PERSERVE EGGS.

To each pailful of water, add two pints of fresh slacked lime and one pint of common salt; mix well. Fill your barrel half full with this fluid, put your eggs down in it any time after June, and they will keep two years if desired.

A LADY'S CHANCE OF MARRYING.

Every woman has some chance to marry, it may be one to fifty, or it may be ten to one that she will. Representing her entire chance at one hundred at certain points of her progress in time it is found to be in the following ratio:—

Between the ages of 15 and 20 years.....	14 $\frac{1}{2}$ per cent.
Between the ages of 20 and 25 years.....	52 per cent.
Between the ages of 25 and 30 years.....	18 per cent.
Between the ages of 30 and 35 years.....	15 $\frac{1}{2}$ per cent.
Between the ages of 35 and 40 years.....	3 $\frac{3}{4}$ per cent.
Between the ages of 40 and 45 years.....	2 $\frac{1}{2}$ per cent.
Between the ages of 45 and 50 years.....	$\frac{3}{4}$ of 1 per cent.
Between the ages of 50 and 56 years.....	$\frac{1}{4}$ of 1 per cent.

After sixty it is one-tenth of one per cent. or one chance in a thousand. A pretty slender figure—but FIGURES are often SLENDER at that age

The Larder of an Ocean Steamship.

Transatlantic passenger steamers ship about 14,000 pounds of fresh meat for each trip, 20 tons of ice, 1,400 pounds of butter and 3,000 cigars. On a vessel of 5,000 tons 7,000 napkins are used every trip, 2,000 sheets and 5,000 towels. Different colors are used on the upholstery and furniture every day, because of the relief a change of scene affords to persons who become sea-sick and also owing to the additional freshness of the atmosphere of the cabins thus obtained. The steamer is newly painted on the outside from stem to stern every voyage, and to do this work, together with the repairing and cleaning of upholstery, from 200 to 400 men are employed. The washing is all done at the end of each voyage. In the first cabin of a first-class steamer there is \$40,000 worth of silverware.

LEGAL PHRASEOLOGY.

If a man would, according to law, give to another an orange, instead of saying: "I give you that orange," which one would think would be what is called in legal phraseology "an absolute conveyance of all right and title therein," the phrase would run thus: "I give you all and singular my estate and interest, right, title and claim, and advantage of all in and to that orange, with all its rind, skin, juice, pulp and pips, and all right and advantage therein, with full power to bite, cut, suck and otherwise eat the same, or give the same away as fully and effectually as I, said A. B., am now entitled to bite, cut, suck or otherwise eat the same orange, or give the same away with or without its rind, juice, pulp and pips, anything heretofore or hereafter, or in any other deeds, instrument or instruments of what nature or kind soever to the contrary in anywise notwithstanding."

A SUCCESS

Without precedent, and without contradiction is obtained by

BRISTOL'S SARSAPARILLA.

The high testimonies which have been decreed to it by Medical Celebrities for more than a century speak for it.

It should be taken for

**ULCERS, MALIGNANT ERUPTIONS,
TUMORS, INVETERATE WOUNDS,
SCROFULA, or RHEUMATISM,**
and the result will always be found favorable.

This medicine has not revealed its full value yet, and the future alone will show the extent of the cures it has made.

Nearly Half a Century!

IT IS NOW OVER FORTY YEARS SINCE

BRISTOL'S SARSAPARILLA AND PILLS

Were first introduced to the public, and now, after that long period of trial, they are universally admitted to be the best of all remedies for impure blood and humors, scrofula, old sores, and confirmed rheumatism.

Are you suffering from any ailment? Have you any sores about you? Is your nervous system shattered? Have you pain anywhere? If any or all of those troubles afflict you, do not delay, procure

BRISTOL'S PILLS & SARSAPARILLA.

In them you will find sure and speedy relief.

WORTH REMEMBERING.

The following simple rule enables anyone with the commonest mathematical education to ascertain the day of the week upon which any day of the month in this century fell or will fall on :

To the given year, rejecting the century, add its fourth part, rejecting the fraction. To this sum add the day of the month and the ratio for the given month, as per table below. Divide the sum by seven, and the remainder (not the quotient) will be the day of the week, counting Sunday as the first day :

TABLE OF RATIOS.

For January add..... 3	For July add..... 2
For February add..... 6	For August add..... 5
For March add..... 6	For September add..... 1
For April add..... 2	For October add..... 3
For May add..... 1	For November add..... 6
For June add..... 0	For December add..... 1
For Leap-Years—	
For January add..... 2	For February add..... 5
The other months same as other table.	

EXAMPLE.

Suppose we desire to ascertain what day of the week the 5th of April, 1841, fell on :

Put down.....	41
Add its fourth part.....	10
Add day of the month.....	5
Add ratio of month.....	2
Divided by.....	
	758(8)
	56
	2
Remainder.....	
The answer is Monday, the second day of the week.	

How to Tell the Age of any Person.

There is a good deal of amusement in the following magical table of figures. It will enable you to tell how old the young ladies are. Just hand this table to a young lady and request her to tell you in which column or columns her age is contained, and add together the figures at the top of the columns in which her age is found, and you have the great secret. Thus, suppose her age to be 17, you will find that number in the first and fifth columns; add the first figures of these two columns. Here is the magic table :

1	2	4	8	16	32
3	3	5	9	17	33
5	6	6	10	18	34
7	7	7	11	19	35
9	10	12	12	20	36
11	11	13	13	21	37
13	14	14	14	22	38
15	15	15	15	23	39
17	18	20	24	24	40
19	19	21	25	25	41
21	22	22	26	26	42
23	23	23	27	27	43
25	26	28	28	28	44
27	27	29	29	29	45
29	30	30	30	30	46

Murray & Lanman's

Florida Water

DISTILLED DIRECT

FROM THE

Petals of the Choicest and most Fragrant Flowers

OF

Tropical Florida.

THE most Fragrant, Refreshing, Delicate, Invigorating, Healthful, Lasting Perfume. Infinitely superior to Eau de Cologne. America's favorite for nearly three-quarters of a century. Now the delight of the refined and cultured in every country of the civilized world.

When mingled in the water of the bath, or freely inhaled and applied to the temples, or if sprinkled or sprayed over the person, it reinvigorates, inspires and tones up to wonderful buoyancy both the mind and body, and imparts to the whole atmosphere of the room the delicious natural fragrance of a

Blooming Tropical Flower Garden.

Refreshing in the sick room; a boon to fatigued travellers; dispels headache.
Sold by Chemists and Perfumers

CAUTION.—Every genuine bottle bears the words "MURRAY & LANMAN, NEW YORK."

A RELIABLE MEDICINE.

Is like a true friend, when needed, it is always on hand, and when tried, it is never found wanting. Such is precisely the character of

BRISTOL'S SARSAPARILLA & PILLS.

They never deceive, they do exactly what is claimed for them, and they cure disease where doctors' prescriptions and all other medicines fail.

BRISTOL'S SARSAPARILLA AND SUGAR COATED PILLS,
Are a sure remedy for every form of Scrofula. Hundreds of cases that seemed beyond hope have been permanently and completely cured by them.

SAVORY MORSELS.

OMELET.—Six eggs, whites and yolks beaten separately; half pint of milk, six teaspoons corn starch, one teaspoon baking powder, and a little salt; add the whites, beaten to a stiff froth, last; cook in a little butter.

POACHED EGGS ON TOAST.—Break as many eggs as you wish, one, at a time, and drop carefully into a spider filled with boiling water. When the whites of the eggs are well set, slip a spoon carefully under and take out, laying each on a small piece of buttered toast on a platter; put a small piece of butter on each egg and a dash of pepper; serve immediately.

BEEF CROQUETTES.—Chop fine some cold beef; beat two eggs and mix with the meat and add a little milk, melted butter, salt, and pepper; make into rolls and fry.

POTATOES AND CREAM.—Mince cold boiled potatoes fine; put them into a spider with some melted butter, cover them, let them fry a little, put in another piece of butter, and pepper and salt, pour over them rich milk or cream; boil up once and serve.

ESCALLOPED TOMATOES.—Put into an earthen baking dish a layer of cracker crumbs and small bits of butter; then a layer of tomatoes, then a layer of cracker crumbs, seasoned, and so on till your dish is full, having a layer of cracker crumbs on the top; pour over all a little water to moisten, and bake half an hour.

MACARONI AND CHEESE.—Cook macaroni in water till soft, then put in a deep dish, with alternate layers of grated crackers and cheese and a little salt; fill up the dish with milk, and bake an hour.

FRIED CHICKEN.—Cut the chicken into pieces; lay it in salt and water, which change several times; roll each piece in flour; fry in very hot lard or butter; season with salt and pepper; also fry parsley with them. Make gravy of cream, seasoned with salt, pepper, and mace, thickened with flour in the pan in which the chicken was fried, pouring off the lard.

VEAL PATÉS.—Chop some cold veal fine; moisten with cream and an egg, beaten; season with salt, sweet marjoram and powdered mace; then make up with the hands in the shape of cones or patty-cakes, and roll in crumbs. Either fry in a buttered pan or bake in a hot oven.

RICE CROQUETTES.—One teacup of rice, one pint of milk, one pint of water, a little salt; butter a tin, put in the mixture and swell on the stove, where it will not quite simmer. When dry add two eggs beaten light, with two tablespoons of sugar and one of butter. Have ready cracker crumbs spread on a board thickly. Make a roll of the rice in the crumbs; drop in hot lard and brown.

Bristol's Vegetable Pills.

The Great Remedy for all

DISEASES OF THE LIVER

And the Safest and most Efficacious of Cathartics.

The anti-bilious properties of BRISTOL'S PILLS are not their sole virtues, as in addition to their being a splendid tonic and a certain remedy in all cases of Dyspepsia and Indigestion, their action is mild and pleasant on weak constitutions and powerful and active on the robust.

They contain no pernicious ingredients, nor mineral of any kind, and their admirable effect upon

THE LIVER

is due entirely to the vegetable substances which enter into their composition, especially to

PODOPHYLLIN AND LEPTANDRIN

which replace the hitherto inevitable and pernicious mercury.

Acts speak louder than Words!

PROOFS, PROOFS, MORE PROOFS!!

Read the following testimonials and try

Murray & Lanman Florida Water

—AND—

BRISTOL'S SARSAPARILLA.

ST. JOHN'S HOSPITAL

MORGAN AND 22ND STS.

St. LOUIS, Mo., *April 10, 1886.*

Messrs. LANMAN & KEMP,
New York.

Gentlemen :

We take great pleasure in recommending the genuine "Murray & Lanman" **FLORIDA WATER**. We prefer it to any other for Hospital use.

Respectfully,

SISTERS OF MERCY.

ST. MARTIN, *January 29, 1886.*

Messrs. LANMAN & KEMP,
New York.

Dear Sirs :

In the absence of a Physician from this Island for some time, and being members of a large family circle, we have found it expedient to combine with our general stock in trade, a Dispensary, consisting of drugs in ordinary practice, and patent and specific medicines, among which are **Dr. BRISTOL'S SPECIALTIES** prepared by you.

The steady call for these latter causes us to keep up a constant supply, and their reputation fully bear out the virtues for which they are recommended. In fact, no better testimony can be adduced than that, whilst other Preparations grow mouldy on their shelves, the universal demand is for

BRISTOL'S PILLS and SARSAPARILLA.

Yours respectfully,

A. A. VAN ROMONDT & CO.

WHAT TO DO IN CASE OF FIRE.

As most of us are liable to be caught in a burning building, it would be well for us to impress the following hints upon the mind, as they may stand us in good stead if a fire should occur :

1. Every householder should make each person in his house acquainted with the best means of escape, whether the fire breaks out at the top or at the bottom. In securing the street door and lower windows for the night, avoid complicated fastenings or impediments to an immediate outlet in case of fire.

2. Inmates, at the first alarm, should endeavor to reflect what means of escape there are in the house ; if in bed at the time, wrap themselves in a blanket or bedside carpet ; open neither windows nor doors more than necessary ; *shut every door after them. This is most important to observe.*

3. In the midst of smoke it is comparatively clear toward the ground, consequently progress through the smoke can be made on the hands and knees. A silk handkerchief, worsted stocking, or other flannel substance wetted and drawn over the face, permits free breathing, and excludes, to a great extent, the smoke from the lungs. A wet sponge is alike efficacious.

4. In the event of being unable to escape, either by the street door or roof, the persons in danger should immediately make their way to a front room window, taking care to close the door after them, and those who have charge of the household should ascertain that every individual is there assembled.

5. Persons thus circumstanced should never precipitate themselves from the windows while there remains the least probability of assistance ; and even in the last extremity a plain rope is invaluable, or recourse may be had to joining sheets or blankets together, fastening one end around the bedpost or other furniture. This will enable one person to lower all the others separately, and the last may let himself down with comparatively little risk.

Clothes on Fire.—So many accidents are daily occurring from broken kerosene lamps, that it is very important to know what to do under such circumstances. Three persons out of four would rush right up to the burning individual, and begin to paw with their hands without any aim. It is useless to tell the victim to do this or that, or call for water. In fact it is generally best not to say a word, but seize a blanket from a bed, or a cloak, or any woolen fabric—if none is at hand, take any heavy material—hold the corners as far apart as you can, stretch them higher than your head, and running boldly to the person, make a motion of claspings in the arms, just about the shoulders. This instantly smothers the fire and saves the face. The next instant throw the unfortunate person on the floor. This is an additional safety to the face and breath, and any remnant of flame can be put out more leisurely. When the person whose clothes take fire is alone, the danger is not unfrequently increased by the sufferer running about in a state of alarm ; whereas it would be better for him to roll on the floor until the fire is extinguished, or better still, to cover himself with a loose carpet, rug, or blanket, to exclude the air, till a sufficient supply of water is obtained to throw over him. In either case, after the fire has been put out, the individual should be placed on a bed, and the clothes removed piecemeal by cutting them off ; much caution is required in taking away the body linen without tearing off the skin, and where the linen sticks, so much only should be cut off as can be detached readily.

TOO LATE!

How often do we hear this cry of anguish from those who find themselves sinking fast under the pressure of disease, as they look back at the lost opportunities to regain their health. To all such we say, it is not too late! Try

BRISTOL'S SARSAPARILLA AND PILLS

They have cured hundreds of sufferers. Try them! Try them!

One of the most extraordinary cures on record was that of the man John F. Hernandez, residing in Salt Lake City, who was at death's door with that terrible disease Marasmus; the best medical aid had failed to stop the progress of the malady, when twenty-three bottles of

BRISTOL'S SARSAPARILLA,

And three phials of BRISTOL'S PILLS made him a well man.

FADED COMPLEXIONS.

How many thousands of ladies there are who look wan and faded, while yet in early life; to all such let us whisper a word.

You have in

BRISTOL'S SARSAPARILLA AND PILLS

the means of restoring your color, brightening your eyes, sweetening your breath, and giving you sound general health.

For the Cure of Rheumatism

and kindred affections, we are satisfied that there is no medicine or treatment equal to the use of

BRISTOL'S SARSAPARILLA AND PILLS.

The cures performed by those two remedies have astonished even us, with all our knowledge of their virtues, and we venture nothing in saying that they are absolute specifics in this class of diseases

BRISTOL'S SARSAPARILLA AND PILLS

are the safest and best Purifiers of the blood and humors. They are infallible in their power to cleanse the human body, and where they are used according to directions, there can be no unclean eruptions, no pimples, no boils, but instead thereof a clear, smooth, soft skin.

THINGS WORTH KNOWING.

Average Velocities of Men, Machinery, Wind, Etc.

A man walks 3 miles an hour or 4 feet a second, a horse trots 7 miles an hour or 10 feet a second, a horse runs 20 miles an hour or 29 feet a second, a steamboat runs 18 miles an hour or 26 feet a second, a sailing vessel runs 10 miles an hour or 14 feet a second, slow rivers flow 3 miles an hour or 4 feet a second, rapid rivers flow 7 miles an hour or 10 feet a second, a moderate wind blows 7 miles an hour or 10 feet a second, a storm moves 36 miles an hour or 52 feet a second, a hurricane moves 80 miles an hour or 117 feet a second, a rifle ball moves 1,000 miles an hour or 1,466 feet a second, sound moves 743 miles an hour or 1,142 feet a second, light moves 192,000 miles per second, electricity moves 288,000 miles per second.

The cheapest, the most lasting, and best of all perfumes, whether for the handkerchief, the toilet, or the bath, is **Murray and Lanman's Florida Water.**

A pace is three feet. A span is $10\frac{1}{8}$ inches. One fathom is six feet. A palm is three inches. There are 2,750 languages. The average life is 31 years. Two persons die every second. One mile is 1,760 yards in length. One square mile contains 640 acres. One barrel of flour weighs 196 pounds. One barrel of pork weighs 200 pounds. One acre contains 4,840 square yards. A hand—horse measure—is four inches. The first almanac was printed by George von Purbach in 1460. Until 1776 cotton spinning was done by the hand spinning wheel. The first printing press in the United States was introduced in 1629.

Bristol's Sugar-coated Vegetable Pills are a safe and certain cure for Dyspepsia.

To Purify the Cistern.

Malodorous cisterns are a common experience especially during the summer months and still more especially when filled by spring and early summer rains. Whatever may be the chemistry of the cause, the remedy is very simple. Violent and through agitation of the entire contents of the cistern, continued, say half an hour, and repeated weekly during the warm season, is a sure cure. A cord and bucket, with a weight attached to sink the bucket, are the implements. Let the bucket sink to the bottom, then draw it repeatedly to and above the surface, and repeat the operation in quick succession until the water is thoroughly aerted and the trouble will have disappeared.

Time on Shipboard Divided into Three Watches.

First Watch, 1 bell, 12:30 o'clock; 2 bells, 1:00; 3 bells, 1:30; 4 bells, 2:00; 5 bells, 2:30; 6 bells, 3:00; 7 bells, 3:30; 8 bells, 4:00.

Second Watch, 1 bell, 4:30; 2 bells, 5:00; 3 bells, 5:30; 4 bells, 6:00; 5 bells, 6:30; 6 bells, 7:00; 7 bells, 7:30; 8 bells, 8:00.

Third Watch, 1 bell, 8:30; 2 bells, 9:00; 3 bells, 9:30; 4 bells, 10:00; 5 bells, 10:30; 6 bells, 11:00; 7 bells, 11:30; 8 bells, 12:00.

A watch is that part of the officers and crew of a vessel who together attend to working her for an allotted time.

BEWARE OF COUNTERFEITS!

We call the attention of the thousands to whom the use of our

MURRAY & LANMAN'S FLORIDA WATER

has become a necessity of life, to the distinguishing marks by which the genuine article may be recognized.

Each bottle bears on its neck a strip Label of which this is a facsimile

and on each leaf of the pamphlet that is wrapped around it, appear in faint water-mark the words

LANMAN & KEMP

NEW YORK

If either be lacking reject the article as spurious.

FAC-SIMILE

of the Label affixed to each Bottle of the genuine

Bristol's Sarsaparilla

Bristol's Sarsaparilla

Reject as counterfeit if the Label differs in any manner from the above.
