POETRY.

Practical Philosophy.
Life holds no woe for me. I know full well,
However evil things may seem to me to-day,
Some future joy is certain to dispel
The clouds that lower darkly o'er my way.

And I have noted that one taste of bliss,
Even though it but a taste, hath joyous mood
To compensate for all that goes amiss,
On which a soul in sorrow long must feed.

No night e'er was whose darkness did not fade,
No storm e'er raged whose course was not soon run,
And so my soul, by troubles undismayed,
Doth simply wait the coming of the sun.

SELECT STORY.

The Shadow of Nobility.

CHAPTER V.—Continued.
For some days, while the Earl was absent in Naples, in consequence of a telegram requiring his attendance on his mother whose death had momentarily expected, the child had been more than usually irritable. At last he became feverish, and one night the restlessness so much increased that his mother was hastily summoned to his bedside. She had the horror of seeing him seized with convulsions. These were not really violent, though to her inexperience nothing could be more terrible. The family physician was summoned. The patient, with a fixed stare and dilated pupils, evidently was without consciousness.

"Have you tried to lift him?" the great doctor said, turning to the head nurse.

"Yes, Sir."

"What have you noticed?"

"A numbness in the whole body, especially in the extremities."

"The physician bent all his powers to a closer examination. It was as he feared. At last he lifted himself up; then motioned to the ante-room. Lady Noelthorne led the way.

"Your ladyship will excuse me," the doctor began. "I must make the result of my examination known to Lord Noelthorne."

"And you must excuse, Doctor Jay," returned the Countess, with forced composure, "if I insist on its being made known to me in the first instance. I am able to bear it better than you think, Lord Noelthorne is unavoidably absent, and may not be able to return for some time. What measures are to be taken for my child's relief must be executed immediately, without waiting for his cognisance or consent."

"In your view of the case, Lady Noelthorne, perhaps I am justified in communicating to you—in communicating to you—the doctor paused to observe the apparent strength of the hearer, but the Countess was calm and resolved—"that your son, the infant Lord Cassella, is suffering from a form of infantile paralysis."

"Will he live?" fell from the white lips of the mother.

"He may live to old age, and will probably speedily recover the entire use of his limbs, though a slight affection may remain in one member. At least he will have the power of voluntary motion. In his case, however, I fear a complication. There is probably atrophy, or wasting of the nerve-cells, and partial unconsciousness may be succeeded by a lengthy waste of intelligence. It is evidently a cerebral, or brain, affection. For this reason I would wish to have the opinion of one who has made the diseases of the nervous system a special study."

He did not tell her that with loss of intelligence he dreaded also the loss of speech. He had been very particular to make her understand his diagnosis hitherto, but this he suppressed.

"You speak of his intelligence being affected, the Countess said again, after a pause. "Am I to understand that he will grow up what is usually called weak-minded?"

"Your ladyship's idea is scarcely a correct one," returned the doctor. "He will not suffer from what in our profession is known as idiopathic paralysis. It is simply a want of brain power, a nervous prostration."

"Is it incurable?"

"There is a theory about the formation of new muscle fibres," returned

THE ACADIAN

WOLFVILLE, N. S., MAY 20, 1892.

Our Public Holidays.

The number of our holidays seems to increase. Whether or not this is an advantage depends upon the use made of them.

How would it do to have some public meetings on the national days, when addresses in keeping with the day would be made?

Our School Building.

To-night the people of Wolfville will be called upon to decide what is to be done toward providing better accommodation for our public schools.

We have received from the publishers a copy of the "Biography of the World's Greatest Divine, Charles H. Spurgeon, by Russell B. Cozwell."

The Yarmouth Steamship Company are offering a free excursion to Halifax, with a week's hotel expenses paid, to the person who, before July 1st, sends in the best original descriptive poem on this Province, based on the material found in a magnificently illustrated guide book which they have issued.

Meeting of the Board of School Commissioners.

The Board of School Commissioners met in Kentville on Tuesday, 17th inst. Twelve members of the Board were present, and appointed L. deV. Chipman, Esq., Chairman.

Upon the report of the Inspector of Schools, to whom was referred the petition of John Eagles and Allen Benjamin, presented at last meeting, these men were transferred from Black River to White Rock Section.

On account of non-compliance with the Regulation requiring—(a) notices to be posted in the sections affected five days previous to the meeting of the Board stating the change sought, (b) plans of the sections to be furnished giving distances, &c., &c., (c) the amount of assessable property to be furnished—the petitions were referred back with instructions how to proceed.

Resolved that the balance of this School Land Fund be drawn and placed in the bank, at interest, in the name of the Inspector of Schools.

A petition was presented from a number of rate-payers near Aldershot, asking for the formation of a new Section there.

A. A. A. Field Day.

The second annual field day of the Acadia Amateur Athletic Association was held on the Campus last Saturday afternoon.

At the close of the programme Dr. Jones, in his usual happy manner presented the badges, provided by the Committee, to the winners in the various departments.

The London Gazette says that Sir Charles Tupper has received the honorary degree of Doctor of Laws, at the Edinburgh University.

Union C. E. Meeting.

Representatives of the "Young People's Societies of Christian Endeavor" of the western part of Kings Co. met at Grafton Friday evening, 13th inst.

It was "Consecration" night with the Grafton Society, and all the visitors were cordially invited to participate with them.

Resolved that a committee be appointed to nominate the officers of the Local Union Society and report soon as possible.

Resolved that this meeting extend to Mr. England a vote of appreciation of his services in promoting Christian Endeavor work.

The meeting was then closed with the usual hymn "Blest be the tie that binds" and the "Mizpah" benediction.

A Frank Statement of the Case.

The position of an editor of a newspaper of to-day is as solemn a trust as that of a minister of the gospel.

There is no man of modern times who speaks with such supreme power as he who dictates the management of a newspaper. The secret of the power to bless or the power to damn the life of a man is his.

CORRESPONDENCE.

To the Editor of the ACADIAN: - I was glad to see your article in reference to the Minas Basin steamer.

It would be better if we had more papers in Kings Co. to speak out in condemnation of the Local Government's action in this respect.

Mr. Webster receiving two votes to him one. I mistake the feeling of the electors of Wolfville if next election Mr. Webster does not receive four votes to Mr. Welton one.

Not to say that it is a disgrace to the College, this is a disgrace to civilization. When a trifling cost would remedy a defect, when the surrounding would be so much improved by its removal.

It is to be earnestly hoped that steps will be taken for the immediate abatement of this nuisance, especially since anniversary with its numerous visitors is so near.

The Power of Love.

A murderer sat in his cell in the jail repeating over and over again the sentence pronounced by the judge: "You are to be hanged by the neck till you are dead, dead, dead, and may God have mercy on your soul."

But there were not tears in his eyes and no penitence in his heart. His dark visage marked by many a scar from the robe of sin, look blacker and viler as he repeated the words, cursing God and man.

Ministers had come to him with gospel messages of divine mercy, but he spurned their words and told them to come no more into his presence.

"Why, man," said one, "you are condemned to die, and in a few weeks you will be launched into eternity—how can you stand before God with all your un-forgiven sins on your soul?"

"That's my business, and not yours. I wish no further conversation with you," was his answer, so he waved his hand impatiently for them to depart.

A report of the interview was published in the papers next day. Among those who read the account was a timid, delicate Christian woman. The tears dropped upon the paper as she read, and a great desire came into her heart to tell the poor condemned man that she was sorry for him.

But she said, checking herself, "I can't do it. I was never in jail in my life, and I wouldn't know what to say. And then I would be sure to cry. Oh, I wish I could go and speak a few words to him without weeping!"

Her desire grew into a purpose, and one morning she gathered a delicate bouquet from her house plants, and went to the jail over the crisp, snowy road.

The jailer who admitted her conducted her to the cell, and throwing open a window through which, without entering, persons may converse, he called to the prisoner, by name, saying, "Here is a lady who wishes to see you."

The woman's courage and voice entirely failed her as she stood face to face with the hard dark-visaged murderer. She could not utter a single word, but handing him the bouquet, she burst into tears.

The flowers and the weeping woman brought a flood of memories long buried, a picture of home embosomed in flowers across the sea, and of a Christian mother who wept over him at parting.

And while the woman wept outside of the cell he cried with deep, bitter cry, "God be merciful to me a sinner!" And God heard the cry, and came to the heart of the murderer with forgiveness and peace.

Human sympathy and tears had broken his heart, and he was led like a little child to Christ.

Go forth even weeping bearing precious seed, and doubtless you will come again with rejoicing, bringing your sheaves with you.

If we have nothing else to give for Christ, let us give for Him our tears.

Can Dyspepsia be Cured.

This is a question often asked by those who suffer from the effects of this disease. The question usually arises after the miserable sufferer has tried nearly all the remedies recommended and has failed to derive any permanent relief from them or from physicians.

To such the testimony of a well-known and highly respectable young man of Pictou may be of interest.

Mr Wm. Adamson, under date of March 15th, 1892, writes:—"I am very glad to add my testimony to the marvelous efficiency of your St Lawrence Dyspepsia Powders and Bitters. Mine was a very bad case of dyspepsia and though I had tried nearly all the popular remedies recommended or guaranteed as cures for that disease, I received little or no benefit, and almost began to think there was no cure for me."

It was then that I was induced to give your remedies a trial though I must confess that I had but little faith that they would benefit me. But the results were wonderful. The wretched feeling that only those who have experienced the agonies of dyspepsia can know, completely left me after using but two packages of St Lawrence Dyspepsia and now after finishing a package of St Lawrence Bitters I consider myself completely cured. I can now eat almost anything in the line of food and hardly know that I have a stomach."

The poet sings in dainty rhyme, Of summer days and sunny clime, Of beautiful maidens, passing fair, With winking eyes and waving hair, Till, near the end, you're apt to see—"Tis but an 'ad'!" P. P. P. P.

Next meeting in Temperance Hall, Thursday, June 23, at 3.30 p. m. The meetings are always open to any who wish to become members.

Gospel Temperance meetings, conducted by members of the W. C. T. U., are held every Sunday afternoon at 4.00 o'clock, in the vestry of the Methodist church. All are welcome.

The matter promised to and prepared for the young people this week has been held over to give room for the very excellent article below, by our president. They will please have patience until next week.

Evil Influence of Inaction. A certain church register classifies its members very precisely. Those who sustain the church by their presence, words, money and deeds, who are truly "Living epistles known and read of all men," are termed "Active members."

The other class, the "Inactive members" comprises all those who have merely "A name to live."

Unfortunately this division could be applied to the temperance people of the world, not perhaps excepting Nova Scotia. Persons who are thus merely nominal advocates of temperance may flatter themselves that they do some good to the Cause, whereas the fact is that a three-fold evil is the certain result. There inactivity exerts a baneful influence upon themselves, their opponents, and the vast multitude of half-converted observers.

We ought not to despair of influencing those who are the avowed enemies of this reform. History proves that a proselyte is ever the most active worker. Some of the best temperance workers have been drawn from this class. Our opponents are human and open to all the influences that mould our own acts. Their opposition waxes or wanes according to the tides of temperance activity. If they see us contented with the title and Shibboleth of total abstinence, without bringing forth fruits meet for such, can they help charging us with insincerity? Not only so, but will they not conclude that in our own hearts we agree with their view of the issue? especially when they know that there are now everywhere enough temperance people to originate and enforce needed legislation. Since the very popularity of temperance is due to the proportion of inactive adherents, their influence would assure their opponents of the hopelessness of the reform.

The largest class of people whom we aim to impress, comprises those who have remained neutral in the discussion. They take no active stand against us, neither do they see the force or necessity of our principle. Yet they are the ones from whom drunkards must be recruited, therefore by gaining their co-operation we win a double victory.

Temperance principles have permeated the public mind so thoroughly that no one is theoretically opposed to us. The mental approval is an established fact. Our work lies merely in securing the personal activity of individuals under these principles.

Practically then there is no real difference between the inactive adherent and the indifferent non-partizan. Our example is lost upon those who depend most upon it and they are more exposed to the ceaseless persuasions of the drinking class. Intemperance is an evil that has its roots in the personal influences of associates. Example and persuasion appealing to the judgment, courage and sympathy of this neutral class of people will gain many to our side. "As I in my brother's keeper?"—we know the true answer, "No man liveth unto himself!"

Perhaps the most directly harmful effect of inactivity in a cause is the reflex influence upon the individual. The temperance reform is a work of principle. But a moral principle can have force only by suitable acts of the whole person. Otherwise, if merely an opinion, belief, or sentiment it loses its effects upon the conscience when it ceases to be what we understand a principle. This causes our avowed friends to lose interest, then faith in the Cause, and ultimately become captives, critics of those who have remained faithful. For our own sakes therefore we cannot afford to miss the benefit of actual aggressive work. Will not those in the vicinity of Wolfville who have hitherto shown a merely nominal interest in our work consider these suggestions, and decide to hold aloof no longer, but come speedily and bravely to the help of those who have long labored for the salvation of home and country? Wolfville deserves and needs the active co-operation of every temperance resident, and with their help alone can it see the dawn of a day of untrammelled manhood.

Will you help? Come! Let us possess the land, for we are well able to overcome it. ANNIE E. YOUNG. Wolfville, May 14th, 1892.
