Community

Vol. XLII. No. 35.

WOLFVILLE, NOVA SCOTIA, FRIDAY, JUNE 15, 1923

\$2.00, payable in advance

## DEATH'S HARVEST

MRS. JAMES SIMSON

The death of Mrs. James Simson, which occurred on Wednesday at the home of her daughter, Mrs. J. F. Herbin, this town, removed one who had been well known and highly esteemed all her life in this community. Before her marriage the deceased was Miss Harriett Rounsell, daughter of the late John Rounsell, who resided on the place now occupied by Mr. F. W. Godfrey, at Lower Wolfville. Mrs. Simson was the last surviving member of a family of nine and was 74 years of age. In her girlhood she was for a time a valued teacher on the staff of the Wolfville public school and old pupils have pleasant recollections of her painstaking efforts in their behalf. Her married life was spent at Melanson, where as a faithful wife and mother she reared and ministered to a large family whose members hold her memory sacred.

For some time past she has resided in Wolfville, her old home, and until recently she retained the bright and youthful spirit which made it difficult to realize that she had passed the age of three score and ten. About eight months ago she failed in health and has since been confined to her bed. The surviving sons and daughters are Mrs. Herbin, Wolfville; Mrs. Ross Fullerton, Grand Pre; Mrs. Percy Baltzer, Middleton; John and Fred in Massachusetts; Ralph at Wolfville; and Gordon living at the old homestead at Melanson.

The funeral was held yesterday afternoon from the house, the service being conducted by Rev. A. C. Borden. Interment was at Grand Pre cemetery.

MRS. THEODORE GERARD

THE ACADIAN omitted last week to record the death, which took place on Tuesday, of Effie, wife of Theodore Gerard. The sorrowing family have the sincere sympathy of many friends whom they have made since coming to Wolfville from Dartmouth two years ago. Mrs. Gerard was 38 years of age and had been in failing health for some time. Her coming here was with the hope that the change would restore her to health, but her condition did not improve. Besides a husband, she is survived by a mother, four children the eldest being 14 years of age and the youngest nine months, also three brothers and four sisters.

The body was taken to Dartmouth where the funeral was held on Thursday afternoon.

MRS. C. S. HAMILTON

A telegram was received by THE ACADIAN on Tuesday announcing the death at her home at New Haven, Conn., the preceding day, of a lady well known and highly esteemed in Wolfville, Mrs. Mary E. Hamilton, wife of Charles S. Hamilton, barrister, of that city. The deceased lady was a native of St. John, N. B. She was 75 years of age and resided at Cornwallis and Wolfville in her younger days. Of late years the family have been well known in Wolfville where they had a summer home at which they spent some months each year. Last summer Mrs. Hamilton's health prevented their usual visit for which plans had been made, and the news of her death was heard with sincere sorrow by many friends. Death was due to heart failure.

## AN INTERESTING LECTURE

Under the auspices of the Wolfville branch of the W. C. T. U. an interesting and inspiring address was given on Wednesday evening in the school room of the Baptist church. Rev. Dr. MacDonald presided and in graceful terms introduced the lecturer, Mrs. H. P. Newcombe, of Canning, who after reading the story of the trial of Jesus and the choice made by the Jews at that time, spoke strongly and eloquently to an appreciative and attentive audience. She pointed out that today as well as in the long ago we are called upon, in spite of ourselves, to make the choice between the things that are good and the things that are evil. The menace of the liquor traffic was referred to in fitting terms and a lucid and informing picture of present conditions was presented.

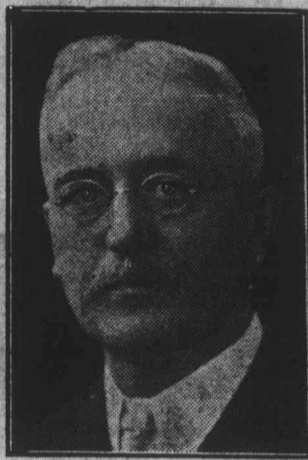

At the close of the address a vote of thanks to the speaker was moved by Mr. B. O. Davidson, seconded by Mr. N. W. Eaton, and tendered Mrs. Newcombe by the chairman. The meeting closed with the singing of the National Anthem.

## MARRIED

WHITEHEAD—ELLS—At Grand Pre on June 11th, by the Rev. A. C. Borden, Herbert Jack Whitehead, of Sheffield Mills, to Effy Aileen Ellis, of Upper Canning.

Advertisements in "The Acadian"

## CANADIAN HONORED

Unusual honors were paid to Hon. P. J. Venier, Premier of New Brunswick, when he visited Boston with the N. B. Tourist Association. He was given the keys of the city and a tree will be planted in his honor. The presentation of the keys is said to be the first honor of its kind ever bestowed on a Canadian.

## BAND CONCERT

The first open-air concert given by the Wolfville Concert Band, under the direction of Mr. Rau, was held on Tuesday evening at the school grounds. Much disappointment was expressed when the weather conditions last week interfered with the arrangements, and a goodly company turned out on Tuesday evening to listen to the music.

A splendid program was rendered in a manner which reflected great credit and it is certainly a matter for congratulation that Wolfville now possesses such a fine musical organization. Many from out of town enjoyed the performance and it is certain that future affairs of the kind will attract many from outlying sections.

The Wolfville Concert Band is a valuable asset to the town and citizens anticipate the pleasure of listening to its music often during the coming summer evenings. We understand another concert will be given on the school grounds next Tuesday evening.

## AVONPORT NEWS

Miss Olive Parker, accompanied by her friends Miss Hattie Haldeen and Mr. Edwards, motored from Halifax on Saturday last and spent the holiday with Miss Parker's parents, Mr. and Mrs. W. O. Parker, returning to the city Monday evening.

Miss Cora M. Walsh, of the Kentville Pub. Co. staff, spent the week end at her home here.

Mr. Clarence A. Holmes, of the Nova Scotia Sanatorium, Kentville, spent the past week at his home. His many friends are pleased to know that he is regaining his health.

Mrs. Margaret Borden, accompanied by Miss Ora Wood, R. N., left on Tuesday of this week for Boston, Mass., where much to the regret of her many friends she will in future reside with her son F. F. Forsythe. Mrs. Borden has been a life long resident of Avonport and will be greatly missed in the community. Miss Wood will spend a month in Mass. visiting relatives and friends before returning to her home in Harborville.

Mrs. March J. Rathburn spent a few days recently with her sister at Cambridge.

Miss Madge Daniels has returned to her duties at the Post Office after enjoying a short vacation at her home in Martick.

Mr. Edward Miller, of Shubenacadie, was the guest of his niece Mrs. C. A. Holmes on Tuesday and Wednesday of this week.

Mrs. Brenton Borden and daughters, the Misses Phyllis and Adelaide, spent Tuesday of this week with friends in Windsor.

## ACCOMMODATION FOR TOURISTS!

The Nova Scotia Tourist Association is desirous of obtaining information respecting all country homes in Nova Scotia which will have accommodation available this summer for tourists.

Any of our readers who can accommodate visitors for a few weeks, please notify the Nova Scotia Tourist Association, Halifax, giving the following details:

Number of rooms available.  
Boating, fishing, hunting facilities.  
Has house verandah?  
Distance from river, lake, sea-shore.  
Special scenery in neighborhood.  
Rate per week.

## BORN

Bowby—On Wednesday, June 13th, to Mr. and Mrs. H. B. Bowby, a daughter.

# THE ACADIAN

(Established 1883)

Published at Wolfville, N. S., every Friday by  
**DAVIDSON BROS., Printers and Publishers**

Members of the Canadian Weekly Newspaper Association.

Subscription Rates—In British Empire, in advance, \$2.00 per year. To U. S. A. and other countries \$2.50 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Weekly Newspaper Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

## THE WORLD OF WIRELESS WAVES

The spectacular development of the wireless telephone commands more serious attention than any discovery within the recollection of the present generation. That it is bound to prove the greatest civilizing influence of the century there can be no doubt. It will far outstrip the talking machine and even the motion picture because its potentiality lies nearer to the root of things. When the farmer can be brought into conversational contact with the remotest part of his country things are going to move. What is to happen to the local band when the boys and girls of every town and hamlet dance to the music of the world's greatest master of the jazz broadcasted from a central point. Business men will do well to give serious and immediate thought to this new development. Already the effect of the wireless is being felt in the talking machine industry. True human nature likes to pick concerts to its own liking, to "put on" the record that pleases for the moment, but when the standard of the ready made concert, as it will, takes into consideration the variety of tastes and wishes the home reproducer is destined to the discard.

Quite apart from its commercial aspect, however, let us hope the government will not let slip by unused this great potential service for the people. Wireless communication can be made to lower the death rate, it can be made to check the growth of insanity, it can be the means of making healthier and happier mothers and children, it can spell the spread of sanitation, it can cure the cold and halt the fever. Its blessings can be reflected in the remote hamlets where plain Godfearing Canadian people find their homes and do the work of the hour far removed from medical skill and simple social science. For the farmer the possibilities are limitless. Five years or even less should see in the cabinet at Ottawa a Secretary of Communications—the biggest job in Canada.

## CONCERNING ROADS

If that simple though effective device known as the split-log drag had been in operation on the country roads after the late rains their condition would have been vastly improved. Under the old system of highway maintenance—which certainly had its defects—such work was done by public spirited commissioners in some sections with wonderfully beneficial results. Apparently our present method of looking after the important service of road-building and maintenance makes no provision for any work of this kind except on the trunk roads, and as a consequence many of the so-called "back-roads" are in a dangerous and almost impassible condition.

These roads receive no attention whatever except perhaps for a few days preceding a provincial or municipal election, and under such circumstances it is not strange that the outlay is accompanied by rather negligible results. Nova Scotia has spent large sums during recent years on its trunk roads and in some cases at least a vast improvement has been made by the expenditure of borrowed money in this direction. It appears to us, however, that money collected in taxes should at least be expended in the section in which it is collected and provide in some measure for the resident who is too often put to heavy loss and inconvenience because of bad bridges and rutty roads. Bad roads are unquestionably expensive in the extreme, as the farmer who is obliged to keep up his team and equipment in consequence fully realizes.

## MORE ABOUT ROADS

Pleasant street extends from Highland avenue east, crossing Gaspereau avenue, and on past the reservoir to the road leading to Melanson. Soon after it reaches the reservoir it crosses the town boundary and from that on it belongs to the Municipality of Kings County. This street is now in excellent condition while within the town limits and provides one of the very best drives in this vicinity. The scenery is magnificent. From the elevation which it occupies the outlook of landscape and seascape is unsurpassed, and were it not for that small section after passing the reservoir this street would become a convenient and popular thoroughfare. However, the state of this part of the road, which extends through the old quarry, is impassable. Without fear of successful contradiction we venture the statement that no worse section of highway could be found in these parts, and that is saying something. Apparently no work has been done on it for years back, and its condition now is disgraceful as well as dangerous. Steps should be immediately taken to have this state of affairs brought to the attention of the Provincial Highway Board and an attempt made to have the necessary repairs made at once. Under different conditions this thoroughfare would become a convenience to the public.

## MIDDLEMEN'S PROFITS

We hear much about middlemen's profits as an explanation for the present high cost of living. The price paid by the consumer for fresh fish furnishes a useful illustration. During the past week or two the fishermen along the Atlantic coast of this province have been making unusually large catches of mackerel. For these they have been receiving, according to press reports, about three cents each, while householders here in the valley have been obliged to pay as high as fifty cents each for an ordinary sized fish. Freight rates are high and this, of course, accounts in a measure for the price inequality, but it certainly looks as if the fisherman was not getting a fair share of the price imposed upon the consumer, considering the hardships and dangers which he has to undergo.

The adv. columns of THE ACADIAN contain many interesting suggestions that are very well worthy of study. Few newspapers present so many new ads. each week. The publishers' policy is to encourage frequent changes as we wish to make this department of interest and profit. In this issue we present thirty-five new business announcements for the consideration of our readers.

## Questions and Answers —All About Canada—

READ UP ON THE COUNTRY YOU LIVE IN

### KLONDYKE MINING

Q—What has the Klondyke yielded up in gold?

A—The Klondyke has yielded up \$210,000,000 of gold, and is still maintaining an annual yield of over a million.

### HELIUM

Q—What about the helium discoveries in Canada?

A—Prof. McLellan, of the University of Toronto, has succeeded in liquifying helium gas. It is regarded as a notable scientific discovery.

### INCORPORATION OF COMPANIES

Q—What is Canada's record in the incorporation of companies?

A—In 1921, companies incorporated in Canada numbered 1,081, with a capitalization of \$824,000,000. 146 of these were for a million or more. 1922 will show a substantial increase.

### THE "HECTER" CELEBRATION

Q—What is the "Hector" celebration?

A—The Hector celebration, to take place in July 1923, is based on the name of that ship that brought the pioneers to Pictou, Nova Scotia, 150 years ago. The voyage lasted eleven weeks, food and water ran low, small pox broke out but despite these drawbacks they laid the foundations of that part of Eastern Canada.

### SASKATCHEWAN WEALTH

Q—What is Saskatchewan's wealth in field crops and live stock?

A—The total value of grain and field crops, farm products and live stock in the Province of Saskatchewan for the year 1922 reached the large sum of \$505,318,966, according to figures recently compiled by the Provincial Department of Agriculture. Grain crops for the year accounted for \$287,270,600; field crops, \$9,606,600; farm products \$32,850,800, and live stock, \$175,590,966.

### MONTCALM

Q—Who was Montcalm?

A—On May 11, 1756, the Marquis de Montcalm arrived at Quebec. He was the last, as Champlain was the first, of the great Frenchmen nobles in nature as well as rank, who came to serve Canada. For three years he skillfully defended the French colony against the attacking English. Then he was defeated, not so much by Wolfe on the Plains of Abraham, as by the misgovernment and profiteering of the other French officials in Canada. He was born Feb. 29, 1712, and died Sept. 13, 1769.

If you have a bit of news, send it in or a joke that will amuse, send it in; a story that is true, an incident that's new, we want to hear from you, send it in; never mind about the style, if the news is worth the while it may help or cause a smile, send it in.

Minard's Liniment relieves Burns, etc. Pay your Subscription to-day

### SIR LEONARD TILLEY

Q—Who was Sir Leonard Tilley?  
A—Sir Leonard Tilley was a New Brunswick Statesman who joined with Sir John A. MacDonald in helping to bring confederation to pass winning over his native province to it. He was also a noted temperance leader of his day.

### THE ROYAL WILLIAM

Q—What is the story of the Royal William?

A—The Royal William was the first steamship to cross the Atlantic, in 1831, as the first ship depending on the motive power of steam alone. She was built in Quebec and Canadians made up her first crew, and she sailed from Quebec.

### WHEN QUEEN VICTORIA CREATED THE DOMINION

Q—When did Queen Victoria create the Dominion of Canada?  
A—On May 22, 1867, Queen Victoria signed the Bill of the British Parliament—the British North America Act—creating the Dominion of Canada of the first four provinces to enter.

### CANADA'S MANUFACTURING PRODUCTION

Q—What are the latest figures of Canada's manufacturing products?

A—According to the latest census figures, Canada's manufacturing production value exceeded four billions in 1920, an increase of half a billion over 1919. A similar ratio of increase no doubt marks recent years.

### GREATEST OCEAN CABLES

Q—Where is the greatest of ocean cables?

A—The greatest of ocean cables is on the trans-pacific line connecting Canada with Australia and New Zealand, one span being 3,569 miles between Vancouver Island and Fanning Island, in mid-Pacific. \*The entire line is 8,000 miles long, touching Fiji Islands, Norfolk Island, Australia and New Zealand.

### ORIGINS OF CANADIAN POPULATION

Q—What were the origins of the Canadian populations?

A—Of Canada's present population of 8,788,483, persons of British origin constituted 55.40 per cent; of these, English made up 28.96 per cent., Irish 12.60 per cent., Scotch, 13.36 per cent. French represent 27.91 per cent; all other European races 8.59; Asiatics less than one per cent. of the whole. More than 83 percent. therefore were of British and French racial stocks.

### TWO-HANDED EATER

Doctor—"Here, here, little boy. You shouldn't be eating that cake. It's too heavy for you."  
Boy—"Aw, I'm using both my hands to hold it."

## Self-Filling Fountain Pen

# FREE

One of these pens will be given away Free with every new subscription to THE ACADIAN.

This is a splendid pen, made in Japan of bamboo, and is being sold by agents everywhere at \$2.75. By special arrangement we are able to give you this pen and a year's subscription to THE ACADIAN for the price of the subscription alone, \$2.00 (price to U. S. \$2.50).

The above offer is good for a limited time only so send in your subscription today. Upon receipt of the \$2.00 we will enter your name on our books to receive THE ACADIAN for a whole year and will immediately send you by mail a Bamboo Craft Self Filling Fountain Pen.

## The New Perfection

### Mealtime Satisfaction

The many users have found that the new Perfection oil cook stove gives just the right heat for every kind of cooking, clean steady dependable heat.

The new perfection cook knows they can cook anything from doughnuts to the most delicate sponge cake. On one burner you can keep the tea kettle simmering with a low flame—on another you can have a medium flame and for fast cooking there's the high white tipped flame. After the cooking is through just turn out the wicks and you have a cool kitchen during the hot days. No waste of fuel, no dirt to clean up.

We have a complete line of the New Perfection stoves in stock in two, three and four burners and will be pleased to demonstrate them at all times.

# MOTORS AND MOTORING:

A Page Full of Interest to the Owner or Prospective Owner of an Automobile.

## AUTOMOBILES REQUIRE PURE WATER

Water forms a very important factor in storage battery practice; consequently it is essential that it be above suspicion regarding its purity. A brief consideration of this very common element is not without value to the battery man.

There are several methods of purifying water:

- (1) Filtration.
- (2) Boiling.
- (3) Distilling.

In the process of filtration the water is passed through some medium such as charcoal, which possesses the property of absorbing any organic matter present in the water.

To be effective the filter must be carefully watched and kept clean, otherwise it becomes choked with bacteria, and becomes a most fruitful source of infection.

Such a process, however, only removes from the water organic matter, and to some extent mineral matter held in suspension. Unfortunately it has no effect upon matter in solution. Therefore although filtered water may be considered pure and perfectly safe for drinking, it is unsafe for battery purposes, and is frequently highly dangerous to the "health" of the battery.

Boiling of water does not remove the bacteria from the water, it merely kills them, leaving all organic matter where it was, but destroying its vitality.

By this process certain compounds of calcium and magnesium are thrown out of solution into a solid form and deposited—as for example the scale on the tubes of a boiler. At varying temperatures various compounds may be driven out of solution and deposited, but even in this process the water is not entirely freed from all minerals that may be contained within it.

Obviously, therefore, water so treated may be safe for human consumption, yet unsafe for battery consumption. On account of the union of the acid with such minerals when introduced into a battery, salts may be formed by the action of some base upon the acid, causing a most destructive compound in the battery.

### One Safe Process

It is found, therefore, that distilling is the only safe, reliable, and rational method to free water from all impurities. Water so treated may be considered "chemically pure".

This process is merely one of putting the water through two different courses of physical change.

(a) Water is entirely changed into steam.

(b) Steam is then changed back into water.

The mineral matter in the original water, being non-volatile, remains in the container in which the water is boiled; organic matter, bacteria, etc., also remain in the container.

The steam as it is generated is permitted to pass out of the container and down a tube made of copper or tin, and wound into a spiral or worm. This is immersed in a tank of running cold water. The end of the spiral is lead out of the cooling or condensing tank into a container which is prepared to receive the condensed or distilled water as it flows from the tube.

Distilled water should be allowed to cool before mixing with acid, and kept well sealed to prevent contamination.

### Chemical Tests

Water for "topping up" purposes, or for mixing with sulphuric acid, should be clear and colorless, and free from chlorine. The "total solid residue" should be very low, and "hard" water should never be used.

It is impossible by any simple workshop test to get an idea of the quantity of matter in solution. However, tests can be readily made for chlorine and a fairly accurate determination obtained.

Take 25 c. c. of the suspected water in a glass test tube and acidify this with a few drops of pure nitric acid. Then add a little 5 per cent. silver nitrate solution and mix well.

If chlorine is present in traces only, a faint turbidity results. If present in dangerous quantity, the solution turns milky, and the water must be condemned.

The source of water is a guide to its purity, and it would be a safe rule to condemn always water collected from areas known to possess deposits of lime and magnesium rocks, or iron.

Well-water generally contains quantities of nitrates, chlorines, lime and magnesia.

Rain-water carelessly collected is fre-

## KEEP THE STRAINER CLEAN

The metal gauze oil strainer in the crankcase of the engine, surrounding the intake of the pump, is designed to prevent solid particles, that collect in the oil, from entering the pump and being forced to the bearing surfaces. These particles of decomposed oil and carbon are caught by the meshes of the strainer and, in time, obstruct them so that oil can pass to the pump less rapidly than the pump calls for, the result being that the supply of oil to engine bearings is reduced or even cut off.

Keeping the strainer clean and free for the oil to flow is a very important matter. In most engines the strainer is so arranged as to be quite readily removable, it being commonly held by a flange, which can be unbolted from the outside of the oil pan and taken out when the oil suction pipe has been detached. The best practice is to clean it thoroughly each time the oil is changed or at least after each flushing out of the system which process loosens most of the solid matter and causes it to attach itself to the strainer, when the engine is run, during the cleaning out process.

The actual cleaning of the screen is best done by "brushing" it in kerosene or forcing clean kerosene through the inside. Great care should be taken that no dirt or lint be left upon the gauze, as this will be carried into the pump. In replacing the filter, be sure that it and its pipe are secured in an oil-tight manner.

## THE HACK AT THE CHERRY TREE

A negro whose recollections of great men appeared to run back further than one listener could stand was finally asked rather sarcastically, "I suppose you remember when George Washington took the hack at the cherry tree?"

"O yes, sah, I'member dat very well," replied the smiling dandy, "why! I done drove de hack."

## Minnard's Liniment for sale everywhere.

requently contaminated with organic matter from roofs and dirty receptacles, and in some cases contaminated with salt when in close proximity to the sea coast.

The sulphuric acid should be carefully chosen. Do not purchase sulphuric acid that is the by-product of some local manufacturing plant.

Sulphuric acid for storage batteries requires to be specially prepared. There are only two sources of supply in Canada that may be considered above suspicion. The companies manufacturing it make a specialty of such a product, and have standing contracts with the storage battery manufacturers, railways, and users of large power storage batteries.

## Auto Topics

An overheated engine not only indicates the need of oil, water, or mechanical adjustment to prevent damage—it is a "fire signal" that should not be ignored. Keep the engine cool—the gasoline, wood, and cloth in your car are easily ignited.

There are other common causes of fire, some of which cannot be easily detected. Even a minor blaze in your car or garage means an outlay of cash for repairs. It is wise to insure your car against such loss.

Get automobile insurance here covering fire, theft, collision liability and property damage.

## DANGER IN SLIPPING CLUTCH

The person who habitually slips the clutch in use is courting danger, according to a writer in Motor Travel. He increases the wear tenfold, so that finally it will hardly hold at all. Then some day he will need it badly to pull him out of a tight place and it will fail entirely.

The purpose of the clutch is to connect the engine to the transmission and to disconnect it, at the will of the operator. This is necessary, particularly for shifting gears, to prevent grinding or stripping. When allowed to engage it should always be done gently so as not to break some part of the transmission. This caution applies particularly to the low speed when starting the car from a standstill, as the strain is then excessive. As the clutch is engaged the accelerating pedal is depressed slightly to give the engine sufficient power to carry a load. As the clutch takes hold it must do so smoothly, spreading up gradually until it moves at the same speed as the flywheel. It is evident from this that the clutch slips first and holds afterward.

Slipping in this manner is a necessary evil that causes the lining to wear out in time. The length of time may be long or short, depending on the driver. One of the most serious faults is to drive with the feet on the clutch and the brake pedals. The clutch is partly released by this practice, causing almost constant slipping, and the car will lack speed. To overcome this the driver feeds more gas, causing the engine to overheat, and also wasting gasoline.

We now come to intentional slipping, which is disastrous if continued. It is usually due to a disinclination to shift gears. The car is approaching a block in the traffic, which will probably open if we do not arrive too soon, so we slow down slightly.

We have choice of several methods. If we throttle down too far the engine will stall. If we shift to second speed it may delay us, and then many drivers dislike to shift gears, apparently for no other reason than that they dislike it forgetting that gears were placed on the cars for just such occasions.

A third method is to allow the car to coast by throwing out the clutch and then engaging it again. This gives an

## NEEDLESS SHOCK TO CAR

You probably can recall an instance of some friend who purchased a new car and, being proud of it, he wanted to take you for a ride. You went along and the first thing he did was put on speed, then jam on the emergency brake to demonstrate its efficiency. You were shocked but the car really received the worst jolt. Not only is this procedure hard on the tires, but it strains the entire mechanism.

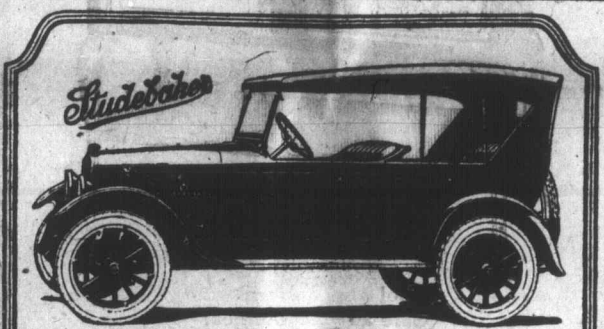

Brakes which operate efficiently are a vital necessity with a car, but they should be used only when necessary. Their misuse impairs their efficiency, thus lessening their safety assuring qualities. Another practice many motorists follow but which should be eliminated is the sudden application of the clutch. This also is not only detrimental to the working mechanism of the car, but causes the rear wheels to spin, thus creating unnecessary wear on the tires. Car owners who find their tire mileage low will do well to stop and think whether or not they are doing this very thing.

It is always good practice to go over detours and rough stretches at moderate speed—don't race to show how well your car rides road irregularities. The life of any car is shortened by careless driving over uneven roads. It is well worth the time to drive slowly—under every circumstance.

intermittent motion to the car to which they object, but it is, nevertheless, superior to the following method. This consists in slipping the clutch driving the car at a speed intermediate between high and second. This should never be done; either stay high and stop when the obstruction is reached or else drop into second gear.

Another example of slipping the clutch is where the driver tries to take a hill in high gear and finds he cannot quite do it. Instead of shifting to second speed, he crowds the engine all he can, and then slips the clutch slightly.

Another practice to be condemned is starting on second speed. The first speed is provided for just such use, and it strains the mechanism severely, besides wearing the clutch, to start habitually in second speed. Take good care of the clutch, prevent slipping either through wear or intention and you will be repaid a thousandfold.

**A Six—and a Studebaker—for \$1375**

The advantages of six-cylinder performance and Studebaker quality are combined in the Studebaker Light-Six—at a price of \$1375. You can throttle down to a snail's pace in high—then quickly and smoothly accelerate to a racing speed. Vibration is practically eliminated at any speed—due to the perfect engine balance secured through machining the Light-Six crankshaft and connecting rods on all surfaces. No other car in Canada selling for less than \$3500 follows this practice.

The operating cost of the Light-Six, like the initial cost, is low. Proof of its low fuel consumption has been established through 27 world-wide tests, which set an average of 26.9 miles to the gallon. Minimum repair cost is proved by Studebaker's limited volume of repair parts sales, which in 1922 averaged only \$13 per car in operation.

Thousands of owners vouch for the Light-Six, while Studebaker's 71-year-old reputation is a further assurance of quality. Your purchase of a Studebaker Light-Six will be a safe and satisfactory investment.

## WHITE Shoe Dressing

CAKE OR LIQUID

**Personal and Social**

Mr. and Mrs. Douglas are guests of Rev. and Mrs. H. Y. Corey.

Mrs. C. F. Reynolds, of Canning, spent Tuesday at Wolfville, visiting friends.

Mr. Geo. H. Barnes has been spending the past week at Amherst on business.

Mr. A. J. Mason, of Parrsboro, paid a short business visit to Wolfville this week.

Charles R. Smith, of Toronto, is visiting his cousin, Mrs. Leslie Eaton and Dr. Eaton.

Mr. Robt. Elderkin, fourth year medical student at McGill University, is home for the summer.

Mrs. Brenton Eagles arrived from the West last week and is visiting at the home of Mr. and Mrs. E. W. Eagles.

Mrs. D. H. Simpson, and daughter Miss Marion, have gone to Liverpool where they will spend their vacation.

Misses Rose and Nellie, Carey, of Halifax, spent the week end at the home of Capt. and Mrs. S. M. Beardsley.

Rev. Noble Crandall and Mrs. Crandall, who have been spending the winter at Halifax, arrived home on Saturday last.

Dr. A. J. McKenna has been at Halifax this week attending the annual session of the Masonic Grand Lodge of Nova Scotia.

Miss Mildred Harvey, who for the past year has been teaching at Putnam Hall, Poughkeepsie, N. Y., returned home last week.

Mrs. Geo. Churchill, who has been spending the winter at Brookline, Mass., returned to Wolfville on Monday to spend the summer.

Miss Margaret Cochran left recently for Annapolis Royal, where she is the guest of her grandmother, Mrs. W. Charles Anderson.

Mrs. Gordon Stairs arrived from Halifax last week and with Mr. Stairs and family are occupying the "Old Parsonage", Main Street west.

Dr. Elliott left Monday for Montreal where he will attend the Canadian Medical Association in session there this week. He will return on Saturday.

Mrs. H. D. Johnson left on Saturday last for her old home at Rivet, Hebert, Cumberland county, where she will spend a few weeks visiting her father.

Miss Margaret Ford, who for the past year has been teacher of English and Latin in Parsons' School, Essex Fells, New Jersey, returned home last week.

Mr. Charles G. Schurman, of this town, was among those who received the degrees of M. D., C. M., at McGill University, Montreal, on Tuesday. Congratulations.

Miss Eunice Curry, who has been teaching voice in the Agnes Scott School, Atlanta, Georgia, arrived home last week to spend the vacation with her parents, Mr. and Mrs. Elias Curry.

The Nova Scotia Methodist Conference is now in session at Parrsboro. Among those in attendance are Rev. D. B. Hemmeon, of Wolfville, and Rev. G. W. Whitman and Mrs. Croft, of Grand Pre.

Dr. and Mrs. W. L. Archibald and family left last week for Milton. After a short visit there, Dr. and Mrs. Archibald will start on a long motor trip through New Brunswick, visiting various points of interest finally reaching Old Orchard, Maine, where they will remain during the remainder of the summer. During their absence, their house will be occupied by Mr. and Mrs. Arthur Hunt Chute and family.

Mrs. W. Chipman left Saturday morning on a visit to Bridgetown.

Mrs. I. H. Mathers, Halifax, is visiting Mr. and Mrs. Gordon Cowie.

Col. E. W. MacDonald spent last week with friends at Bedford.

Mrs. Forbes, of Dartmouth, is visiting at the home of her son, Mr. Roy Forbes.

Mrs. Gordon Cowie spent a few days last week at the home of Mrs. Hugh Flick, Bedford.

Mrs. H. W. Davison, of the Public School teaching staff, spent the week-end in Windsor.

Mrs. R. E. Burgess and son Joseph arrived this week from Brooklyn, N. Y., to spend the summer.

Mr. Arthur Brown left yesterday for Sydney Mines where he has secured a position for the summer.

Mrs. Cunningham, St. George's Rectory, Halifax, spent the week-end with Mrs. S. Percy Benjamin.

Dr. S. Spidle spent Sunday at Halifax, where he was the speaker at the West End Baptist Church.

Mrs. Hensley and Miss Hensley, of Halifax, have arrived in town to spend the summer as is their usual custom.

Mr. William Ritchie, of the Canadian Express Company, Glace Bay, paid a hort visit to Wolfville this week.

Mr. and Mrs. Percy Bernasconi and their little son are visiting Mrs. Bernasconi's parents, Mr. and Mrs. E. S. Crawley.

Mrs. Ralph Creighton entertained at bridge two evenings last week, in honor of her mother, Mrs. Vooght, North Sydney.

Miss Helen M. Good, recently returned missionary from Mouleen, Burma, is visiting her sister, Mrs. C. G. Schurman.

Mr. J. Elliot Smith has received a telegram from Vancouver notifying him of the death of his brother-in-law, Mr. Harry J. Thorne.

Dr. William Chase, who has held a position at Camp Hill Hospital, Halifax, for the past year, is visiting his parents, Mr. and Mrs. W. H. Chase.

Mr. Ludlow Weeks, who received his M. A. from Acadia University this year, recently left for Gaspé, Quebec, to join the Government Geological Survey.

Mr. F. G. Gilliat, of Annapolis Royal, has come to Wolfville to take up summer's work with the Entomological Department, acting as assistant to Mr. Allan Dusan.

Dr. F. E. Wheelock left Monday for Kingston, Ontario, to attend the Conference of Canadian Universities which is to be held there today and tomorrow. Dr. Wheelock will represent Acadia University.

His many friends in Wolfville will be pleased to learn that Mr. Murray W. Smith, formerly of the Bank of Montreal staff in this town, but lately of the branch at Port Hood, C. B., has been promoted to the North End branch at Halifax.

Misses Clara Chisholm and Pauline Perry and Mr. Geo. Nowlan have been appointed by the Senior B. Y. P. U. as their delegates to the B. Y. P. U. Convention at Boston, July 4 to 8. Miss Nita Trethewey-Barteaux has been appointed a delegate by the Junior B. Y. P. U.

Mrs. H. W. Phinney, regent of the Sir Robert Borden Chapter, left Saturday for Quebec, where she will represent the local chapter at the national convention of the Daughters of the Empire, which will be held in the Chateau Frontenac and will continue in session two weeks.

Miss Ethel M. Chadwick, Ottawa, is the guest of her sister, Mrs. J. A. Ingraham, Earnscliffe Avenue.

Mr. and Mrs. Armstrong, Edmonton, are guests at the home of the former's sister, Mrs. Ida Pratt, Main street.

Albert Corey is spending a short time in Parrsboro with his friend, Harold McCready, Principal of the Parrsboro High School.

Mrs. C. Edgar Whidden, of Antigonish, arrived in town on Saturday last and is visiting at the home of her sister, Mrs. D. Graham Whidden.

Miss Evelyn Cogswell, of the teaching staff of Acadia Ladies' Seminary, who has been a guest of Miss Evelyn Smallman, left Friday morning for Boston.

Mr. C. G. C. Coombs left on Tuesday to spend his vacation at Digby. During his absence his place at the D. A. R. station will be taken by Mr. W. C. Snair.

Mr. and Mrs. B. R. Hooper and Miss Lillian Hooper, of Moncton, N. B., and Mrs. J. H. Pierce, of Charlottetown, P. E. I., have been spending the week in town.

**Political Meeting**

A Convention of the LIBERAL-CONSERVATIVE PARTY to nominate Candidates to the House of Assembly for Kings County will be held at the Old Nicklet Theatre, Kentville on Saturday, June 23rd at 3.00 p. m. W. L. HALL, K. C. Liberal-Conservative Provincial Leader, will address the Convention. Everyone welcome. Ladies Specially invited.

Do you want to get a self filling fountain pen free? See adv. on page 2.

The Wolfville High School baseball team played a return game at Canning on Wednesday, and were defeated by the score of 9 to 5.

A prominent lumberman of New Brunswick is quoted as saying that during the past two weeks as much lumber was burned by forest fires in Northern New Brunswick as was cut during all last winter.

**MORSE'S SELECTED ORANGE PEKOE** is an expensive tea. Quite right. But think of what you get. Think of the flavour—the finest in the land. When you drink **MORSE'S SELECTED ORANGE PEKOE** you forget that the price matters.

The people of Wolfville and vicinity will be interested to know that pictures will be shown at the Opera House for a month longer. Mr. Evans having decided to postpone the renovating of the theatre until next month. Mr. A. J. Mason will continue the management of the theatre during this time and his intention is to bring some of the best pictures obtainable. Watch the Opera House adv. each week so as not to miss any of these special pictures.

Mrs. Harlan P. Davidson and Mrs. Waldo B. Davidson received on Thursday and Friday afternoons and on Friday evening of last week. The reception took place at the home of Mr. and Mrs. B. O. Davidson, Summer street, and was a most attractive and successful social function. The parlors in their decorations of apple blossoms and other early summer flowers presented a pleasing appearance, and a very large number of guests were in attendance to offer congratulations and best wishes. Both brides were charmingly attired and won golden opinions from all.

**HALIFAX'S LOSS IS WOLFVILLE'S GAIN**

(From the Evening Mail)  
The departure on Tuesday for Wolfville, where she will reside, of Mrs. Gordon Stairs, and her two small sons, leaves a blank among her many friends in this city. No young lady of more charming disposition and personality ever came here as the wife of one of our prominent citizens, and Halifax is sorry to lose Mr. and Mrs. Stairs even to a neighboring town as Wolfville. In musical circles, especially, Mrs. Stairs will be missed, and the interest she has taken and help she has given in the Ladies Musical Club, of which she was a director, will not soon be forgotten. Among hostesses entertaining in honor of Mrs. Stairs before her departure were Mrs. R. B. Willis and Miss Kathleen Stairs, Mrs. Hugh Stairs, Mrs. Wishart Robertson and Mrs. Charles C. Mitchell.

**CARD OF THANKS**

Mr. Gerard and family wish to thank those who sent flowers and cards, also those who sympathized with them in any way in their recent sad bereavement.

**FRIDAY, JUNE 22ND THE OLYMPIC CHAPTER**

of the I. O. D. E., Kentville, present to the public something NEW. Yes, really. First, a tea in the afternoon, 3.30 to 6; in the evening a dance at 8.30 with a good jazz orchestra at both. Yes, we know that is not very original but wait. In the afternoon there is to be a cabaret! Yes, begorra! And a bit of vaudeville. How is that now? And a **FASHION SHOW**. Come and see the styles on real models. If you like you may buy afterwards. And the total cost of all this is only 35 cents.

In the evening there is to be a dance and between dances there will be shown ..... but come and see. It is worth it. From 11-12 dresses, etc. may be bought if desired. Dance, 50 & 75c. Cabaret, Fashion Show and the Unexpected is put on by

### Gift Suggestions

#### REAL LEATHER BRIDGE SETS

Every Bridge player wants to own a nice leather carrying case for travelling, going to parties, and to protect their "good" cards at all times. We have just such cases with two packs of gilt-edged cards and a scoring tablet. Such a gift would be much appreciated.

#### PLAYING CARDS

Congress Cards with picture backs, also cheaper grades.

#### GENTLEMEN'S CORRESPONDENCE PAPER

Superfine Linen Vellum in special size for gentlemen, put up in neat boxes.

**THE ACADIAN STORE**

Popular imagination is demanding that some recognition be made of father's share in the burden of the work-a-day world. With no thought in the world of robbing mother of the cherished place she occupies in the hearts of every daughter and son in the broad universe, little children are beginning to ask, "Why isn't there a Daddy's Day?" A number of letters have appeared in the public press lately—some from little children, some from older children of the fairer sex who know that father had a place in laying the foundation and building the structure of the home—asking why there shouldn't be a "Father's Day" and suggesting that one day out of 365 be set aside for him.

And why shouldn't there be a Father's Day? Has he not endured the heat and burden of the day, too? Has he not been inspired by the same high motives as mother in giving his sons, his daughters a better chance in the world than he had? Has he not carried upon his shoulders heavy burdens of responsibility, endured anxieties, fought his way through difficulties, made innumerable sacrifices for those dependent upon him?

There is no one who realizes this better than mother, daughter and son. That is why popular imagination is demanding a Father's Day.

## Father's Day

Remember him with something to Wear

You can convey an appropriate thought with one of our quality Ties or a Shirt.

Ties 50c to \$1.50      Shirts \$1.25 to \$4.00

Supt. Tidings—Mrs. T. Hutchinson.  
Business meeting of the W. C. T. U. the last Monday of every month.

**THE SALVATION ARMY AND TEMPERANCE**

The Commander gives the following picture:

"For many years The Salvation Army has celebrated Thanksgiving, from six in the morning on, by collecting the drunks from the park benches, feeding them, and sobering them up. Last Thanksgiving they were not there, and so we gave the day to the poorest children of the city. The Army's Social Secretaries report that drunkenness among the men frequenting Army Hotels and Industrial homes has almost entirely disappeared. Men who formerly could only support themselves from day to day now possess savings accounts. In one hotel twenty-five men who before Prohibition could muster only a dime among them now have deposits ranging from 100 dollars to 5000 dollars!"

The Salvation Army realizes that even world-wide Prohibition will of itself be miserably ineffective if, with the change of view, there is no change of heart. But it believes that the closing down of the drink traffic will help the spread of the Kingdom of God.—War Cry.

**DR. NORWOOD AND AMERICA**

On Prohibition: "In my mind, the Prohibition, cause is the most splendid and unselfish bit of legislation that a community has been able to accomplish. It was the self-denying ordinance of multitudes of people, who restrained their own personal desires for the larger good of the community, and for that reason alone it demands the respect and sympathy of other people."

On an ocean steamship in these days one gets a side light on the results of prohibition. No alcoholic drinks can be served within the three-mile limit from shore; but beyond that, one would expect the bar to do the greatest business in its history. The bar steward, however, has a different story to tell. According to him, Americans do not seize this opportunity to satisfy their accumulated thirst, but are drinking far less now than before prohibition. Some men who used to imbibe pretty freely on shipboard, are total abstainers now. They take only soft drinks.—The American Magazine.

West Virginia legislature has passed a bill taxing gasoline 2 cents a gallon. There are many people in Nova Scotia who favor this method of taxing the automobile traffic as being the most equitable. A nominal license fee of say \$10 should be charged for each car annually. A tax on the gasoline used would ensure that every car operator would pay according to his use of the roads.

Massachusetts is now learning that while she can grow apples Oregon can show her how to pack them. Nova Scotia also has reason to learn that lesson.

**THE WHITEST, LIGHTEST**  
1 LB.  
**MAGIC BAKING POWDER**  
CONTAINS NO ALUM

**BIBLE THOUGHT FOR TODAY**  
Bible thoughts summarized, will prove a profitable heritage in after years.

**JUNE 15**  
HAVE FAITH IN GOD:—And Jesus said unto him, Go thy way; thy faith hath made thee whole. And immediately he received his sight, and followed Jesus in the way.—Mark 10:52.

**JUNE 16**  
THE CHRISTIAN'S MISSION:—Preach, saying, The kingdom of heaven is at hand. Heal the sick, cleanse the lepers, raise the dead, cast out devils: freely ye have received, freely give.—Matthew 10:7,8.

**JUNE 17**  
FORSAKE EVIL:—Thus saith the Lord of hosts; Turn ye now from your evil ways, and from your evil doings.—Zechariah 1:4.

**JUNE 18**  
WISDOM PRESERVES:—When wisdom entereth into thine heart, and knowledge is pleasant unto thy soul; discretion shall preserve thee, understanding shall keep thee.—Proverbs 2:10,11.

**JUNE 19**  
A GOOD NAME THE BEST ASSET:—A good name is rather to be chosen than great riches, and loving favor rather than silver and gold.—Proverbs 22:1.

**JUNE 20**  
WHY WILL YE DIE?:—As I live, saith the Lord God, I have no pleasure in the death of the wicked. . . . Turn ye, turn ye from your evil ways for why will ye die, O house of Israel.—33:11.

**JUNE 21**  
RICHES HAVE WINGS:—Labor not to be rich: cease from thine own wisdom. For riches certainly make themselves wings; they fly away.—Proverbs 23:4,5.

**THE WEEKLY PAPER**

An ex-Governor has the following to say about the value of a weekly paper in the community:  
"Each year the local paper gives from \$500 to \$1,000 in free lines to the community in which it is located. No other agency can or will do this. The editor, in proportion to his means, does more for his own town than any other ten men, and in all fairness he ought to be supported—not because you like him or admire his writings, but because the local paper is the best investment a community can make. It may not be brilliantly edited or crowded with thought, but financially it is of more benefit to the community than the preacher or the teacher. Understand me, I do not mean mentally, and yet on moral questions you will find most of the papers on the right side. Today the editors of the local papers do the most for the least money of any people on earth."

**Homes Wanted!**

For children from 6 months to 16 years of age, boys and girls. Apply to H. STAIRS, Wolfville Agent Children's Aid Society

**THE PRUNING OF ROSES**

In the culture of roses, the quality of bloom depends not only upon good varieties and rich soil, but on a careful system of pruning. One may choose between a crop of many small blooms or a smaller number of fine flowers. Some varieties require harder pruning than others, but no rose bush should be allowed to pass the spring without pruning. Branches that have been damaged by the winter weather are no longer of use and should be removed. The small thin branches do not produce bloom and they should also be taken out. If left on the bush they will take up the nourishment that should go to the stems producing roses. Besides removing the dead wood and the weak growths, the branches should be shortened. It is a very good rule, with bushes that are well established, to take off all wood that is smaller than a lead pencil. In young bushes such hard pruning is not desirable. When removing limbs they should be cut close to the main stem, that is, without leaving stumps. Strong growing Hybrid Perpetuals require less pruning than some of the other sorts, as if heavily pruned they tend to a more vigorous growth of sappy wood, making an even larger bush than before. Moderate pruning is therefore better for roses of this class.

Under the head of pruning, Bulletin No. 17 of the Department of Agriculture at Ottawa, entitled "Hardy Roses", explains that roses of the hardiest group nearly all bloom on wood of the previous year's growth, or wood several years old. It is recommended that, in addition to heading back and thinning out, it is well to remove some of the older wood each year, cutting the branches out at the ground, thus making room and letting in air so that the young stems will develop well.

A man in a one hundred dollar suit might as well be dressed in rags if his shoes are not polished.

**SMALLEST WATCH**

A repeater watch has just been completed by a Swiss firm, the platinum case of which measures only half an inch in diameter. It is claimed to be the smallest watch in the world that strikes the hours.

Much smaller non-striking watches are, however, in existence. One made by a Geneva watchmaker measures only one-sixteenth of an inch across the dial. It forms the top of a gold penholder, and though so tiny keeps excellent time.

A midjet watch, intended to be worn as a shirt stud, was made in 1890 by a Newcastle (England) watchmaker. A few years back it was on exhibition there and was still going as well as ever. The dial is only three-sixteenths—or less than a quarter—of an inch in diameter.

Among the private collection of jewellery belonging to King George, and preserved, together with other royal heirlooms, at Windsor Castle, is a Lilliputian watch which was presented to his ancestor, George III, by Mr. Arnold, a celebrated watchmaker of those days.

It is set in a finger-ring, and the dial measures 19-32nds of an inch in diameter. What renders this particular mid-

jet watch unique of its kind, however, is the fact that its cylinder is fashioned from an Oriental ruby, the diameter being the 54th part of an inch, its length the 47th, and its weight the 200th part of a grain.

**ENGLISH AS IT IS SPELLED**

A stranger in our land was he:  
He tried to learn our spelling.  
He thought it would as easy be,  
As buying or as selling.  
He tried to write, but couldn't quite  
Learn when to wright or right.  
He couldn't tell just where he stood,  
When using cood or wood or shood.  
He had to stand a lot of chaffing,  
When cruel people started laffing.  
Then other things confused him so,  
As doe and dough and roe and row,  
And mail and male and sail and sale,  
And many more that turned him pall.  
Said he, "I left my wife and daughter,  
In other lands across the waughter,  
I wanted much to bring them here,  
But they will have to stay, I fere,  
And I must leave you." With a sigh  
He added, "Else I'll surely digh."

## CANARD NOTES

Mr. George Pineo has sold his farm at Upper Canard to Mr. William Pudsey, of Greenwich, formerly of Kentville. Mr. Pineo, whose health has been precarious of late, will enter the hospital at Halifax at an early date for treatment. Many will regret to hear of Mr. Pineo's illness and that on account of same he has been obliged to give up farming, where he has by his industry and experience gathered together a fine property, both in buildings and orchard, etc. Mr. Pineo has purchased a property at Digby from Capt. Ansel Snow and moved furniture, etc. to that town last week.

Miss Florence Eaton, of Lower Canard, has been visiting friends in Kingston. Mr. Tedford, return Missionary, gave a very pleasing address in the Upper Canard Baptist Church on Sunday evening.

Rev. George Logan, of Upper Canard, is spending his vacation in Upper Canada. During his absence the Baptists and Presbyterians are uniting.

Miss Marjorie Eaton spent the week end with friends in Middleton.

Mr. Claire Pineo has sold his farm and property at Upper Canard to Mr. Percy Ellis, who owns property adjoining, and will move to Digby with his father. This property has been in the Pineo name a long time. Mr. Ellis will now have a very large fruit and tillage farm. We are sorry to report that Mr. Albert Eaton, Lower Canard, has been on the sick list for the past two weeks.

Mr. Stuart Eaton, of Lower Canard, left last week for Prince Edward Island on a short business trip.

Miss Alba Eaton, of Canard, is visiting Mrs. Percy McDonald, Halifax.

Miss Nellie Hudson, of St. John, is spending her three weeks holiday with her parents in Upper Canard.

Miss Kathleen Eaton, who has been visiting friends in New Brunswick, has returned home.

## PEREAUX NOTES

On Wednesday, June sixth, the Women's Missionary Aid Society held a special Crusade meeting. This was most successful. Twenty-two ladies were present. Mrs. Roscoe, the President of the Society, presided. The pastor of the church gave an address on "The Ministry of women to Jesus during his life upon earth". St. Luke's Gospel, Chapter 8, verses two and three. Readings, recitations and special singing were given by the members of the Society. After this refreshments were served. Special intercession was made for our Missionaries in India and Bolivia.

Sunday, June 10, was a great day in Pereaux for the Baptist church Sunday School and Young Peoples Union. In the morning the pastor, Rev. C. Riseborough, preached to a good congregation on "The testimony of the children to Jesus in the Temple". St. Matthew's Gospel, Chapter 21, verse 15. "Hosanna to the Son of David". In the afternoon there was a large congregation present. The Superintendent, Deacon Lewis, presided, and the children sang special hymns and gave recitations and dialogues. The Sunbeam Class under the direction of their teacher, Miss Lois Porter, and the Excelsior Class, under the direction of their Pastor and teacher, acquitted themselves in a most admirable manner. The address was given by Pastor Wright, the new Pastor of the U. B. Church in Canning, and was much enjoyed. The help of the choir and male quartette was much appreciated. This new departure on Apple Blossom Sunday proved a great success and inspiration.

In the evening, the Pastor gave a special address to the young people on "The teaching and guidance of the Holy Spirit". St. John's Gospel, Chapter 14, verse 26. "He shall teach you all things". Chapter 16, verse 13. "He shall guide you into all truth." A solo was beautifully rendered by Miss Audrey Riseborough, who is a student of the Ladies Seminary, Wolfville, entitled "Come unto me". A duet was given by Mr. Everett Lyons and Miss Edna Lockhart, entitled, "Nailed to the Cross", and was much enjoyed. At this service Mr. Reginald Sanford led the service and the vice-President, Mr. E. Jackson, read the Scriptures. A great many took part in the after meeting.

On Monday, Dr. Gossé, of Canning, performed a successful throat operation for Miss Audrey Riseborough. Her friends will be pleased to know that she is progressing favourably.

The farmers are very busy and everything is beginning to look well. There is abundance of apple and strawberry

blossoms and the clover and other grasses look splendid. Somebody said to me, "This is God's Country". And so it is.

## GREENWICH NOTES

Mr. Henry Warren, of Digby, who is cook at the boarding house in this place, for the men who are employed by the N. S. Road Construction, received a message a week ago Sunday, June 3rd, saying his wife had been seriously hurt that day in an auto accident at Clements-Port, Annapolis Co. Mr. Warren immediately left by auto, but upon arrival he met with a hard shock by learning Mrs. Warren had been almost instantly killed. Besides her husband, six children are left motherless, three of whom were with her in her friend's auto, but they escaped unhurt. Deepest sympathy is felt for Mr. Warren and children.

Mrs. Lee Bishop and little daughter Doris, visited in Windsor several days last week, at the homes of her sisters.

Mr. and Mrs. Thomas Arbuckle, of Mass., arrived last Wednesday afternoon and visited a few days at the home of Mr. and Mrs. T. J. Borden.

Miss Evangeline Cox spent the week-end in Canning with her cousin, Edna Eaton.

Miss Rena Cox went to Falmouth last Saturday, where she is a guest this week of her friend Miss Sexton, who was also a pupil at Acadia Seminary last year.

Mrs. Byard Rand and daughter Alice, of Wolfville, were guests on Sunday at the home of the former's parents, Mr. and Mrs. Lewis Forsythe.

Dr. Frederick Schaffner and wife, of Winnipeg were week-end guests at the home of Mr. and Mrs. T. A. Pearson.

Councillor Ira Lohnes and wife, also two children, accompanied by Mr. and Mrs. Harry Bishop, all of Windsor, enjoyed "Blossom Sunday" by auto, calling upon their mother Mrs. Emma Harvey, then motoring on to Kentville to visit their sister, Mrs. Maurice Williams, in the afternoon.

Mr. and Mrs. Lee Bishop and little Doris drove to Kentville on Sunday, where they were guests for the afternoon at the home of Mr. and Mrs. Maurice Williams.

Mr. and Mrs. Brenton Merry and baby son, of Bear River, spent Sunday at the home of Mrs. Merry's parents, Mr. and Mrs. T. A. Pearson.

As one of our residents said, it seemed as if thousands and thousands of automobiles, in all styles and sizes, passed through here on Sunday. At times it was almost impossible to cross the street. The occupants of the cars were out to enjoy the beautiful sight of apple blossoms all through our Valley.

Mr. George Fraser is spending this week at the home of his daughter in Canning.

Major Evilles, of Halifax, who purchased what was formerly known as the Horton Poor Farm, and son, are spending some time here and having extensive

plumbing work and many improvements done in the large house, before the family comes to occupy it.

## HANTSPORT ITEMS

(Continued from Page 1.)

Telephone and Telegraph Co., was in town one day last week in the interest of the Company. He was accompanied by Mr. Henry Dore, of Windsor.

Mr. William Aunand returned last week from a pleasant vacation which he spent visiting friends at Musquodoboit Harbor, Milford, Middle Musquodoboit and Shubenacadie.

Mr. Henry Stech, of Halifax, was a recent guest of his brother Mr. David Stech, Hants Border.

Miss Pearl Graham, of Kentville, spent the week end at the home of her parents, Mr. and Mrs. A. C. Graham.

Mrs. Garnet Green and little son Jack arrived from Regina on Thursday and purpose spending the summer with her mother, Mrs. J. Rolph.

The condition of Mr. L. V. Masters, who has been seriously ill with pleuropneumonia is very much improved.

Mrs. R. A. Beckwith's many friends regret that she is quite ill at her home here and hope soon to hear that she has fully recovered her former health.

Miss Dorothy Higgins, who has been visiting her parents Rev. A. B. and Mrs. Higgins, left on Friday for Halifax, where she will spend several weeks with relatives.

Mr. L. Riley and family, who have been occupying the late Miss Barlow's house, have removed to their own residence.

A. A. Kirkpatrick, D. A. R. station agent accompanied by Mrs. Kirkpatrick and two children, is enjoying a vacation at the home of his parents in N. B. Mr. H. Hoyt, of Windsor, has charge of the station.

A collision occurred on William St. on Saturday evening, when a car driven by Mr. C. S. Chesley, collided with a team driven by Mr. Harry Riley, of Newport, who was accompanied by Mrs. Riley. Mr. Chesley, whose mind was apparently centered on an approaching car, did not see the team, which had turned out as far as possible. The wagon was completely demolished, but luckily, the occupants escaped without serious injuries.

## CHEERING NEWS

WINDSOR, Ont., June 14.—Immigration from Canada to the United States has practically ceased, and many Canadians who went to the United States are returning, according to a statement made today by Orval Adams, chief immigration officer for the port of Windsor.

Mr. Adams declared that the people who went across the line during the winter months were mainly farmers' sons and farm laborers, and that hundreds of them are returning home, encouraged by better conditions throughout Canada.

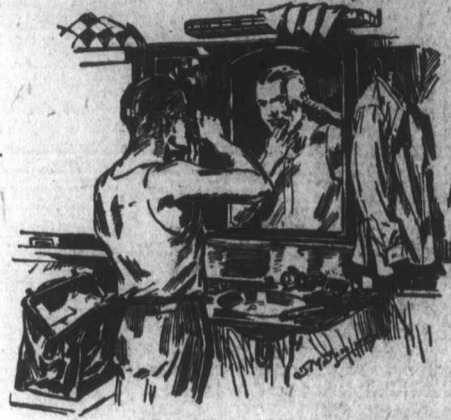

This condition has been brought to the notice of the authorities by the many persons who are paying head tax certificates at the local office.

"I wish now," said the speaker in a recent address, "to tax your memory."

And a harassed-looking man in the front of the hall muttered, "Has it come to this?"

Printer's ink is no good in cans, but spread it effectively on paper and it's some salesman.

**HAVE YOUR OLD FLOORS MADE NEW** and your new floors made perfect with the improved Electric Sander. Prices on application.  
**H. E. WILE**

**FREE 10-SHAVE TUBE**

**We Ask You to Find Out**

**How millions of men enjoy quicker, easier shaves**

When we perfected a shaving cream with 5 distinct advantages, we asked men to try it. Millions did. They found out how to reduce shaving time and at the same time save skin irritation.

We ask you to discover the same things by a test at our expense.

The 5 advantages of PALMOLIVE SHAVING CREAM are the result of 130 laboratory experiments—covering 18 months' time. Study them:  
It multiplies itself 250 times in rich lather.

Softens any beard in one minute, without rubbing in.

Lather lasts—10 minutes if necessary.

Strong-walled bubbles hold hairs erect for easier cutting.

Blended palm and olive oils have lotion-like effect on skin.

Millions of men have found these claims true. We ask from you merely the courtesy of a trial. We, only, can lose by that. Mail coupon now for free 10-shave tube.

## LADIES' DRESSES

In Canton Crepe you will find one very smart low waist line model, in a rich henna shade.

A blue Homespun with pockets and Peter Pan collar.

Several dresses beautifully made of Navy Tricotine, prettily trimmed in paisley braid or embroidered. All at a price that encourages immediate selection.

Sizes for women and misses.

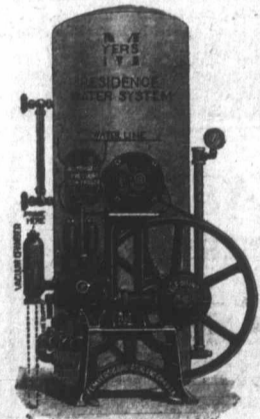

## Doing It In Gingham

Time was when Gingham was considered merely a dress fabric. Now it is no uncommon thing to see it as curtains, draperies, bedspreads, pillow coverings and laundry bags. Pretty enough for all these uses and suggestive of many new ones are our fresh new Gingham in a multitude of stripes, plaided and checked effects.

Priced from 19 cents to 55 cents.
