## FIRE INSURANCE, LIFE INSURANCE.

The Royal Insurance Co. of Liverpool,  
The Sun Fire office of London,  
The Phenix Insurance Co. of Brooklyn,  
The Mutual Life Insurance Co. of New York.

Combined Assets of above Companies, \$300,000,000.00.

Lowest Rates. Prompt Settlements.

JOHN McBAUCHERN, Agent.

DR. CLIFT

treats CHRONIC DISEASES

by the Salisbary method of persistent self-help in removing causes from the blood.

Continuous, intelligent treatment in person or by letter insures Minimum of suffering and Maximum of cure, possible in each case.

AVOID ATTEMPTS UNAIDED.

Graduate of N. Y. University

And the NEW YORK HOSPITAL. Twenty years' practice in N. Y. City. Diplomas registered in U. S. and Canada.

Address, Charlottetown, P. E. I. Office, Victoria Row.

Accommodations reserved for patients. References on application. March 2, '98.

A. A. McLEAN, L.L.B., Q.C.

Barrister, Solicitor, Notary, Etc., Etc.

BROWN'S BLOCK. MONEY TO LOAN.

## Watches!

Our sales this year have been larger than last, although there has been more competition. A good many who have purchased trashy watches are waking up sorry, and the reaction will have the effect of creating a better demand for reliable goods.

We have no fault to find with honest competition, so long as right goods are sold but do think the sale of dishonest goods ought to be prohibited.

SEE OUR NEW WALTHAM WATCHES

Up to date in quality and at fair prices. Gold filled cases warranted from 15 to 25 years. Silver cases lower than ever.

IN REPAIRS

We believe in doing good work and charging reasonably, if any want a cheap job they must go elsewhere, the people know in all trades cut prices and good work do not always go together.

E. W. Taylor,

Victoria Jewelry Store.

North British and Mercantile FIRE AND LIFE INSURANCE COMPANY

—OF— EDINBURGH AND LONDON.

ESTABLISHED 1869.

Total Assets, 1891, \$90,082,727.

TRANSACTS every description of Fire and Life Business on the most favorable terms.

This Company has been well and favorably known for its prompt payment of losses in this island during the past thirty years.

FRED. W. HYNDMAN, Agent.

Watson's Building, Queen Street, Charlottetown, P. E. I. Jan. 21, 1898.—ly

JOHN T. MELLISH, M. A. LL. B.

Barrister & Attorney-at-Law, NOTARY PUBLIC, Etc.

CHARLOTTETOWN, P. E. ISLAND

Office—London House Building.

Collecting, conveying, and all kinds of legal business promptly attended to. Investments made on best security. Money to loan.

OUR STOCK OF IMPORTED HAZARD'S IMPROVED TURNIP SEED IS GROWN EXCLUSIVELY FOR US BY THE LARGEST SEED GROWING ESTABLISHMENT IN ENGLAND, FROM PURE SEED SUPPLIED BY US FOR THE PURPOSE. THIS STOCK OF SEED COSTS US FULLY FIFTY PER CENT. ADVANCE ON THE COST OF ORDINARY SEED, OWING TO THE EXTRA CARE TAKEN IN GROWING IT.

Avoid so-called "Hazard's" sold at low prices. The genuine article is the result of great care in selection and can never be sold low. Avoid so-called "Hazard's" seed peddled through the country. It is far more likely to be something else than the genuine article, and you risk losing your crop by experimenting. "Carters'" "Hazard's" is sealed packages is always safe, and is the best. Deal with experienced Seedsmen.

Carters' Hazard's Improved is sold in sealed card board boxes, labelled as above, in 1/2 lb., 1 lb., and 2 lb. sizes. For sale at our Seed Store and by over one hundred merchants in the leading trade centres of Prince Edward Island. Price per lb., 25 cts.

Ask for Carters' Hazard's Improved.

## FOR THE Spring Trade

We have made great preparations. We are bound that our values in all our lines shall not be equalled on P. E. Island. We have the goods. We bought them right. We are going to sell them right.

OUR LINES ARE Ready-to-wear Clothing, Hats and Caps, Trunks and Valises, Dress Goods, Staple Dry Goods, Cloths, imported and home-made.

Our stock of Ready-to-Wear Clothing is the largest and best on the Island, and we are ready and willing to have you test the truth of our words when we say we give the best for the money.

We take Wool in exchange for any goods in the store, and always pay the very highest figure for it.

Remember our values this spring are better than ever.

W. D. McKAY, Successor to McKay Woolen Co.

## IT WILL PAY

YOU TO SEE OUR New Importations of Cloths

We have always carried a splendid variety of

## Fashionable Suitings

But we can safely say that with our new importations for this season, we have now the largest stock and the greatest variety of Fashionable Cloths ever shown in one Store in the City. Come and inspect our goods, and get our astonishing low prices. We make the fashionable Clothes Par Excellence in the City. Every Suit a perfect fit. We invite inspection.

Gents' Furnishings Up-to-Date. John MacLeod & Co., SARTORIAL ARTISTS.

T. A. McLean Has great pleasure in informing the general public that he can furnish them all with Hay Presses, THRESHING MILLS, PLOUGHS AND PLOUGH EXTRAS,

With shares harder than ever before. And now as the hog boom has struck, Our Improved Hog Feed Boiler

Gives the greatest satisfaction wherever used at much lower prices than ever before. Give us a call for anything you want in Steel, Iron, Brass or Wood.

Our Improved Steam Friction Hoist is winning great favor with those who use them. Dairy Machinery always on hand and to order.

T. A. McLEAN, Successor to McKinnon & McLean. Oct. 6, 1897—ly

## Life and Work of Bishop Macdonell.

(Toronto Catholic Register.)

In a chapter which Very Rev. Dr. Harris contributes to the second volume of Mr. Casteil Hopkin's Biographical of Canada the following references are made to the late Bishop Macdonell and the Scotch Catholic settlers of Glengarry.

We now come to one of the most interesting periods in the early history of Catholicism in our Province. About twenty-five years ago a Scottish laird, a man of Canadian birth, and of considerable importance in the country, stated at a public banquet at Montreal (that more Gaelic is spoken in Canada in one week than during a month in the Highlands of Scotland.) He referred no doubt to the Maritime Provinces, but especially to Glengarry, the home of the "Ch'lanach Nan Gael" in Upper Canada. In 1773 a party of Scotch Highlanders on the invitation of Sir William Johnson settled on the banks of the Mohawk River, New York State, then a British Province. The Catholic immigrants were allotted lands in Schenectady County, where they cleared the forest and built for themselves comfortable homes. When the Revolutionary War began they remained loyal to the British Government, and were denounced as Tories, Baptists, and friends of English tyranny. The notorious John Jay, after the proclamation of the Quebec Act of 1774, granting to Catholics freedom from the pains and penalties of the Penal Laws, began a crusade of bigotry and fanaticism. The storm of social and political persecution swept down upon the Scotch settlers, and drove them over the border line into Lower Canada. Before leaving they were disarmed by General Schuyler, and in the autumn of 1776, accompanied by their pastor, Father McKenna, began their wearisome journey. They numbered about 300, and on their way to Montreal suffered severely from hunger and exposure, subsisting at times on roots and bark, the flesh of horses and even of dogs. In 1776 the "Les Breuges de Quebec" it is stated that Montgolfier, Vicar-General at Montreal, had in 1776 conferred missionary faculties on Father McKenna, who had been charged to accompany a colony of Scotch Highlanders on their way to settle in Upper Canada, where they hoped to enjoy the Catholic religion without molestation.

Soon after the close of the Revolutionary War, in 1788, almost an entire parish in the north of Scotland, numbering 838 souls, arrived at Quebec on the 7th of September of that year, accompanied by their priest, the Rev. Scotus Macdonell. They continued their journey on to Glengarry, where they established the parish of St. Raphael, and with the assistance of their priest built the first church known as the "Blue Chapel." The success and prosperity of the colony produced a favorable impression on the Scotch at home, and in 1802 the Rev. Alexander Macdonell made application for lands to the Home Government on behalf of the members of the disbanded Glengarry Fencible Regiment. This corps was mustered for service in 1794, and was the first distinctively Catholic regiment organized since the Reformation, and for the first time since that period the British Government had recognized a Catholic priest as one of its military chaplains. In March, 1803, Chaplain Macdonell obtained from the Home Government a grant of land for every officer and soldier of the Glengarry Regiment who wished to settle in Upper Canada. They reached Quebec in 1803, and almost immediately proceeded to the Glengarry clearings. At this time (1804) there were in all Upper Canada one stone and two frame churches, and only two clergymen, the one at Sandwich, the other at Glengarry. In the life of Bishop Donnan, of Quebec, it is recorded that in 1801 his Lordship visited Kingston and Detroit, and on his return called at the parishes of St. Andrew and St. Raphael, where he was most hospitably received by the Catholic Highlanders. During his pastoral visit, the Bishop administered the Sacrament of Confirmation to two thousand souls, four hundred of whom belonged to Detroit. This appears to be a very large number, but when it is remembered that this was the first Episcopal visitation since that of Bishop Pontbriant to Detroit in 1755, the number will not be at all surprising.

The Rev. Alexander Macdonell, who led the third immigration of the Scotch Highlanders, may in a sense be styled the Father of the Catholic Church in Upper Canada. For ten years he was practically

alone, facing the difficulties of his position with the traditional stoicism and heroism of his race. For more than thirty years his life was devoted to the missions of Upper Canada, and to any one at all familiar with the difficulties of travel in those early days, the hardships of busy life, and the severity of the winters, it will not be necessary to dwell upon the painful routine of his daily life. On the recommendation of the Bishop of Quebec, Father Macdonell, on the 31st of December, 1820, was consecrated Bishop and appointed Vicar-Apostolic of Upper Canada. In 1826, Upper Canada was erected into a Bishopric, and entrusted to the care of Bishop Macdonell, who fixed his See at Kingston. This is said to have been the first Catholic diocese established in a British colony since the Reformation with the concurrence and consent of the British Government. At this period, according to the Quebec Almanac, there were but seven priests in the entire Province, and as they bore the heat and burden of those times, their names are held in reverence and benediction. Their lives were one long, prepatul Odyssey, and have left behind them a halo of super-human glory—the glory of prophets rather than of ordinary men. Simple and dignified, without the affectation of dignity, austere without fanaticism, their presence alone rooted up old prejudices, while their preaching and example filled the soul with new light and gave to religion an aspect of attraction and beauty. In charge of the missions of Sandwich and Mad'len were Fathers Craver and Flax; at Kingston, St. Raphael and Perth were Fathers Fraser, Angus Macdonell and John Macdonell; at York and Richmond, on the Ottawa, were Fathers James Crowley and Patrick Moran. We can hardly estimate the great influence these early priests exercised by their exemplary lives, their learning, their great qualities, and their virtues as holy men. Even their Protestant neighbors yielded to the subtle influence of their lives, and were attracted by their simplicity all the more forcibly, perhaps, because it was so totally different from what their prejudices had led them to expect.

Many of the United Empire Loyalists who fled to Canada after the American Revolution brought with them some exaggerated ideas touching the Catholic Church and her Priesthood; but when they got to know priests more intimately, and witness their zeal and self-denial their prejudices yielded to admiration. "As an Elder of the Kirk," writes Major Danlop, "I had been taught to believe that a Catholic priest was a hypocritical knave who ruled his misguided followers by his own selfish purposes. I have found them a moral and zealous clergy, more strict in their attention to their parochial duties than any other body of the clergy I have ever met in any part of the world, and not a bit more intolerant than their clerical brethren of any other sect." (Sketches of Upper Canada, 1832) This was the unsolicited testimony of a man who had seen much of the world; for the "Tiger," as he was familiarly called, had been a great traveller and student of human nature. There was something Patriarchal and Homeric in the lives of these pioneer priests, reading like the poetic legends in which nations have commemorated the history of their first establishments. Like the builders of Rome they could say:

"With aching hands and toiling feet We dig and heap, lay stone on stone, We bear the burden and the heat Of the long day and wish 'twere done, Not to the hours of light we turn, All we have built can man discern."

"The splendid self devotion of the early Jesuit missions," writes Parkman in his "Old Regime," "has its record, but the patient toils of the missionary priest rest in the obscurity where the best of human virtues are buried from age to age." As Catholic emigrants began to come into the country their first inquiry was for a settlement where there was a church and priest. Like the primitive flocks which arrest and fix geological deposits, the Church and priest caught the human tide, and the Catholic part of the tossing flood invariably settled around them. On the 16th of February, 1837, Bishop Macdonell celebrated his Golden Jubilee. Fifty years before he had been ordained at Valladolid, Spain. For ten

Progress of the War.

During the past week, peace negotiations and war preparations have been advancing side by side. Nothing of importance in the way of actual fighting seems to have taken place between the Spanish and American troops; but the work of forwarding men and supplies and other incidentals of a vigorous campaign seems to have progressed with little or no abatement. Meantime, Spain's answer to the peace terms proposed by the United States Government has been anxiously awaited at Washington. It is said to be on the way; but at latest accounts had not reached Washington. Various opinions are conjectured as to the exact nature of this reply. This, of course, cannot accurately be known till the full text of the document is published. One report says that while the letter of acceptance of the peace terms agrees to the conditions proposed from Washington, it points out that Spain, not having done anything to provoke the war, in accepting these terms yields only to force. It is said in another place that the impression prevails in official circles at Washington that while the answer from Spain is in the nature of a concession of the American demands, it is not a brief and simple acceptance without reservation or condition. Of course all this is to a great extent conjecture. However, it cannot be very long till the reply shall be known to the world, and all conjecture ended. While these peace negotiations are in progress, other phases of the situation, rather disastrous to the army, are coming to light. It is quite evident that fever and other diseases are making sad havoc in the American army at Santiago. Indeed the army to which that city surrendered seems to have been reduced to a miserable wreck. Had the Spaniards at Santiago made any kind of a prolonged resistance, it would have been practically impossible for the United States to have continued the war in that vicinity. Colonel Roosevelt, in charge of the Rough Riders, has written to General Shafter, stating that in the cavalry division there are 1,500 cases of fever. He further says: "If we are kept here it will, in all human probability, mean an appalling disaster; for the surgeons here estimate that over half the army, if kept here during the sickly season, will die. This is not only terrible from the standpoint of the individual lives lost, but it means ruin from the standpoint of the military efficiency of the flower of the American army, for the great bulk of the regulars are here with you. The sick list, large enough as it is, exceeds 4,000, affords but a faint idea of the debilitation of the army. Not 10 per cent are fit for active work. Another officer, General Ames, telegraphs to the Assistant Secretary of War that "this army is incapable because of sickness of marching anywhere except to the transports. If it is ever to return it must do so at once." The same General, in the press said: "A full list of the sick would mean a copy of the roster of every company. The war department, in response to these pitiful calls from the front, is taking of the soldiers as fast as possible. It will thus be seen that while the United States is lording it over Spain and proposing exorbitant conditions as the price of peace, its own soldiers are being decimated by fever and can only escape annihilation by leaving the country they went for to conquer. Had the siege of Santiago been prolonged for any length of time, what a sorry sight the United States forces would have found themselves in!

PROFESSOR ROBERTSON, Canada's Dairy Commissioner, well known in this Province in connection with our cheese industry, is now in Great Britain, in company with the Minister of Agriculture. The Professor is exerting himself to bring the agricultural interests of Canada to the knowledge of the people of Great Britain and to increase the sales of our agricultural and dairy products in the markets of the Old Country. With this end in view he travels up and down the country, delivers addresses, gives interviews and writes letters to the leading papers. In this way he has aroused a great amount of interest among the people concerning the possibilities of Canada as an agricultural country. All who have heard the Professor lecture, know how thorough his knowledge of his business is and what an enthusiastic he is in imparting this knowledge upon his auditors. It is not surprising then to learn that the press and people of the old country are taking a lively interest in his work. Among his latest contributions to the press is an article in the St. James Gazette in which he advocates a preferential tariff in favor of Canada and the other Colonies. He proposes a duty of two shillings and six pence per quarter, or eight cents a bushel on wheat imported from foreign countries. The Professor points out that this preferential tariff will work both ways; for he says he does not believe that this duty would add a

farthing to the cost of the four pound loaf, while it would greatly stimulate agriculture in Canada and India. This is a sound doctrine and has been advocated many times in Canada. Should Professor Robertson succeed in convincing the people of Great Britain that this would be an advantageous policy to adopt, even for a limited period of years, he would do a great service, not only to Canada but to Great Britain and the Empire as well. But the greatest obstacle in the way is the declaration made in England last year, by Sir Wilfrid Laurier, that Canada does not want such a preference. Sir Wilfrid so strongly advised the British people never to depart from their free trade practice, that Mr. Chamberlain said he would not touch preferential trade with a pair of tongs. Referring to some remarks of the Hamilton Herald, commending the course pursued by Professor Robertson, the Montreal Gazette said that "a greater chance of doing anything of the kind. Sir Wilfrid Laurier told, the English people Canadians were staunch free traders and wanted no concession in return for the preference now being given to British goods." Thereupon, the Halifax Herald proceeded to remark as follows: "Seeing that Sir Wilfrid is now one of what Mr. Tarte calls 'the masters,' and that Prof. Robertson is only one of the 'servants' and somewhat especially within the power of Sir Wilfrid and his colleagues, it may not be advisable to institute comparisons, but if a man's 'greatness' depends rather upon his good acts and wise words, than upon the accident of political intrigue, there is not much reason for speaking of Laurier as a 'greater.' It is true that at the jubilee functions he was officially 'great,' and had thus much power for good or for evil, and the evil that he did may be more than others will be able to overcome for a considerable period. But Mr. Robertson's efforts are most commendable, and if he succeeds in again turning British public opinion in favor of a British customs preference for colonial products, he will be as much worthy of credit as Sir Wilfrid has been worthy of blame in connection with that matter."

HON. DONALD FARQUHARSON has formed a new cabinet. The personnel of the new Government is announced to be as follows: Hon. Donald Farquharson, Premier, and President of Executive Council. Hon. H. C. McDonald, Attorney-General. Hon. James B. Leavelle, Commissioner of Public Works. Hon. Angus McMillan, Provincial Secretary, Treasurer and Commissioner of Crown Lands. Without portfolio: Hon. Peter Sinclair, James W. Richards, P. McNutt, Benjamin Rogers and A. MacLachlan. It will thus be seen that the new Cabinet is, for the most part, composed of the old timber, nothing extra, to be sure; but the best available among the Grits. At the rate our Grit friends use up ministries, they will soon equal the record of the French legislators for changes of Government. The Grit predecessors of the present Government in office have cut out quite a lot of work for them. Let us see what kind of a job they will make of the contract they have undertaken.

The Montreal Gazette reports: "The duty collected at the port last month amounted to \$1,120,000, as against \$553,705 in July of last year. Evidently the Belgians and Germans made good use of the 25 per cent. reduction of duties that fell to them under the Laurier governmental clause." We are proud to say that even the concession to which the Gazette refers failed to bring any "refusal to trade" this way. The duty collected at the port of Halifax for July 1898 was very little more than for July 1897.—Halifax Herald.

Probably Another Herbert Fuller Case.

The despatch received at San Francisco on Tuesday, 28th ult., stating that the Captain, first mate and cabin boy of the Kenilworth, owned by Arthur Sewall & Co., of Bath, Maine, which had put into Valparaiso on fire, were shipwrecked during the voyage, is contradicted by H. M. Thompson, a merchant just arrived at Frisco. He is a merchant in Hilo, and from Captain Baker's remarks concerning his crew and their threat in regard to him, he is positive in his opinion that murder, not suffocation, has been the cause of the calamity. He says Captain Baker, who was a warm friend of his, had told him when the Kenilworth arrived at Hilo that he had had trouble with his crew during the whole voyage from New York. They had very hurriedly shipped and many of them were great hands. Under the plea of improper food they refused to work and ten of them were kept in prison until the evening before the vessel sailed. Three of them deserted her and swam ashore the same night. Some of the ten unfortunate had openly remarked that they would fix the Captain when they got out to sea. They had said: "We will do up the captain and mate and settle them when we get out to sea." The Captain was told this and he replied: "Well, I'll attend to them myself when we get out!" The Kenilworth had no combustible cargo consisting of 600 bags of sugar, valued at \$260,000. There was no fire except in her galley and no excuse for one breaking out. An investigation will take place at Valparaiso under the supervision of a representative of the firm of Arthur Sewall & Co., who has left Bath, Maine, with that intention.

The "Mask" Again.

(Halifax Evening Mail.) Many thoughtful Canadians have viewed the forthcoming Quebec conference with such misgivings that they would have been well content to have had the meeting, with its possible good, abandoned, for the sake of having all danger of evil from it certainly escaped. But now Farrer, Edward Farrer, the Hon. Edward Farrer, as they know him at Washington, is out-discussing on the subject of this conference in the New York Forum! This is almost more than Canadians can bear, when they remember what Farrer and his Grit friends, Laurier and others, attempted in 1891 and therabouts; and confidence will in no wise be restored when Canadians learn the matter of Farrer's Forum discourse. The "mask" is different from the old one, but the thing masked is substantially the same. The method has been changed, but substantially the same end is still pursued. As in the Commercial Union conspiracy, so in this conference, the object is to bring Farrer and those who work with him now and in the absorption of Canada by the United States. As usual, Farrer is still helping and counselling how to obtain that end. He does not, however, advise the United States, as he did some ten years ago, just where to "strike a blow at Canada," though he does point out what he considers weak places. He seems to have become more convinced than before that "striking blows" and attempting coercion, towards Canada, could never succeed in bringing this country under the Stars and Stripes, and he tells his United States readers that he does not have very plain terms. But as far as no promise of success, his method is to attempt the thing by diplomacy and guile, and the conference is the accepted time and field for the exercise of these arts; indeed, he suggests that the conference as a device got up for that purpose; and here it is to be noted that he attributes the holding of the conference entirely to Sir Wilfrid Laurier, and bids his United States readers hope much from the present Canadian premier. The Ottawa Citizen makes the following summary and comments: "He points out what profit the United States may gain if it can divert the growing trade of Canada, driven into the hands of Britain by the 'marble heart' policy that has prevailed towards Canada since the ignoble collapse of the annexation conspiracy in 1850, back to northern channels. He tells them that Sir Wilfrid Laurier has been paying the way for this conference ever since he came into office two years ago, and that his efforts and those of the Liberal party of Canada have done further harm. He warns his United States friends that the reduction of 25 per cent. in Canadian duties against Great Britain which went into force yesterday may be the germ of a British volte-face, and that, if this is to be defeated, now is the time for the United States to get its work in. Canadian exports to Britain are steadily growing, amounting in the last ten years to \$80,000,000, while exports to the States in that period have been only \$20,000,000. He says that he is regarded as certain in the fullness of time to fall into the Union, but he indicates that now is the critical period, and that if, through the manipulation of the forthcoming conference, her growing trade with Britain can be diverted to the other side of the border the hope of annexation may be revived. How this is to be effected he outlines by giving a resume of the numerous differences that now exist between them, and that he will be advised, and intimates that in the present enthusiasm for Anglo-American rapprochement in England, these 'distant and unimpressive' causes of friction will be regarded as perille and variations by British statesmen and gladly got rid of on any terms. "The article confirms the impression entertained by many thinking Canadians that this country may well view with anxiety the outcome of the conference. The foregoing will give our people a fair idea of Farrer's latest effort, and the purpose which he wishes it to serve. They know how Farrer has justified and intimated that in the present enthusiasm for Anglo-American rapprochement in England, these 'distant and unimpressive' causes of friction will be regarded as perille and variations by British statesmen and gladly got rid of on any terms. "The article confirms the impression entertained by many thinking Canadians that this country may well view with anxiety the outcome of the conference. This handsome sum of \$1,100 was netted by the Society's Tea.

SIR CHARLES and Lady Tupper are visiting Cape Breton.

The Hamilton, Ont., police are trying to capture the counterfeiters who are passing off their spurious coins in all directions.

The increase in the customs receipts for July '98 over those of July '97 is nearly one million and a quarter dollars.

It is to be hoped the weather will prove favorable to the farmers of the North-west and Manitoba, as the crops at present are all that can be desired.

Mr. Edward Kelly, Southport, was the purchaser of the McKenna property corner of Pownal and King streets. It was sold for \$1,600.

Twenty-four families of the laboring class were rendered homeless at Grand Mere, Quebec, last week by the burning of eight tenement houses.

The only objections of the Spaniards to the American terms of peace being on minor points, the war, in all probability will now be ended.

The Ladrones Islands, Polynesia, were, according to a San Francisco dispatch of August 3, captured by the Charlestown without bloodshed.

\$478,000, the award of the Behring Sealers, was received from Washington by the Marine Department, Ottawa on August 2nd.

A SUFFERER from asthma, named William Purvis, of Metcalf street, St. John, N. B., was found dead in bed on Saturday morning, 30th ult.

It is all possible, the Chicagoans mean to bring home the Canada Cup, which was lost a couple of years ago at the races of Toledo, and with this intention have decided to challenge for it.

ACCORDING to a London despatch of the 3rd inst., the services of W. Fife have been engaged by Sir Thomas Lipton, to design a yacht to race for America's Cup. It will be built by Harland and Wolf.

H. JAMES PALMER, Esq., Barrister-at-Law, Charlottetown, has been appointed by His Honor the Lieutenant Governor, one of her Majesty's Counsel learned in the law for this Province.

On and after January 1, 1899, the rate of letter postage will be two cents to any part of Canada, Newfoundland, the United States, Great Britain, South Africa, and likely Australia will also be included.

Mosquitoes may be kept at bay by slightly bathing hands and face and other exposed parts of body with a solution of alum in water. A piece of alum about the size of a marble will be sufficient for a small bowl of water.

The bodies of twenty-six men and two women, wearing life belts, likely victims of the *La Bourgeois* disaster, were reported at New York on August 3rd to have been passed in latitude 42.65, longitude 60.29, on July 31, by steamship Westmoreland from Antwerp.

ACCORDING to the Vancouver World of July 29 Mr. B. Henderson of P.E. Island has had the good fortune to dispose of his 32 head of cattle at Dawson city for the handsome sum of from four to eight hundred dollars each. He may probably try his luck again, in the near future.

MR. ERASME Le BLANC of Montreal has had intimation from his brother, Dr. Philippe Le Blanc, of Dawson, that he has secured four claims, for each of which he has refused \$50,000. He also refused \$8,000 for a cottage he built there. He is coming out in August.

MARTIN THOMAS was executed at Sing Sing at 11.17 a. m., August 3. On examination the brain was found to be well developed and the unfortunate possessing it had an unusual share of intelligence and cunning. Two of his former employers took charge of the body.

ABOUT half-past six o'clock on Friday evening last, Robert Roper, well known in Charlottetown and vicinity, who had been cutting hay for William Douse, Lower Malpeque Road, that day, after requesting a drink of water from a little girl, died suddenly without sign of any accident.

ALL interested will be pleased to hear that Postal notes for 25, 50, 100 and 75 cents are being issued by the Charlottetown Post Office. Issues for larger amounts will come later. The Postal Department has also issued Reply Postal Cards, one part to convey the sender's communication and the other to bring back the reply.

On Sunday last Edward Moriarty, of Douglas avenue, St. John, N. B., who, for a number of years conducted a salubrious establishment on Main Street, after having dined at Mass and whilst at dinner took suddenly ill, and died about fifteen minutes after the arrival of the priest and doctor.

On the Spring Hill and Parnboro Railway on August 5th, an engine driver named William Fraser was instantly killed at Spring Hill. Whilst under the locomotive, he accidentally struck the break with his hammer. The throttle of the engine had been left open, and the blow to the brake loosened the engine wheels, causing it to start down the track and crush him to death.

There is considerable excitement in the Greek colony at Montreal over the defrauding of the late Christopher Reinhardt, N. S. W., of \$1,000 by a candy vendor named Sophocles Fauraison, who succeeded in passing himself off as the Greek Consul and then by getting a power of Attorney from Mrs. Reinhardt, got her portion of her husband's estate from her solicitors.

At Aylesford Station, near Halifax, N. S., occurred the horrible death on the 4th inst., of David Brent. The horse which he rode took fright at the rattling of a tin kettle carried by the unfortunate man, and threw him. Becoming entangled in the reins he was dragged along, until in a half dead condition his head was almost severed from his body by a wire fence with which he came in contact.

**LOCAL AND OTHER ITEMS.**

**Easy to Take Easy to Operate**

Are features peculiar to Hood's Pills. Small in size, tasteless, efficient, thorough. As one man said: "You never know you have taken a pill till it is all over." See C. I. Hood & Co., Proprietors, Lowell, Mass. The only pills to take with Hood's Sarsaparilla.

**MOTHER AND DAUGHTER CURED.**

Mrs. Lydia A. Fowler, Electric Street, Amherst, N. S., testifies to the good effects of the new specific for all heart and nerve troubles. "For some time past I have been troubled with a fluttering sensation in the region of my heart, followed by acute pains which gave me great distress and weakened me at times so that I could scarcely breathe. I was very much run down and felt nervous and irritable."

"I had taken a great many remedies without receiving any benefit, a friend induced me to try Milburn's Heart and Nerve Pills. I had only been taking them a short time when I felt that they were doing me great good, so I continued their use and now feel all right. I can heartily recommend Milburn's Heart and Nerve Pills for nervous prostration."

Mrs. Fowler adds: "My daughter, now fifteen years of age, was pale, weak and ran down, and she also took Milburn's Heart and Nerve Pills for some time, and is now strong, healthy and vigorous." Milburn's Heart and Nerve Pills cure palpitation, smothering sensation, dizzy spells, nervousness, weakness, female troubles, etc. Price 50c, a box; three boxes for \$1.25. Sold by all druggists. T. Milburn & Co., Toronto, Ont.

Mr. Neville Miller, Bonaventure, Ontario, says: "Laxative Pills made a new man of me. I was troubled with indigestion and pains in the small of my back, and after taking Laxative Pills for about three weeks they completely cured me." Price 25c, all druggists.

**Sewerage Works**

**Tenders for Sewer Construction**

SEALED TENDERS, endorsed "Proposals for Sewer Construction," addressed to the undersigned, will be received at this office until noon on FRIDAY, the 19th AUGUST, prox., for furnishing materials and performing the work necessary for the construction of certain portions of a sewerage system for the City of Charlottetown, according to conditions, specifications and plans to be seen (the plans and quantities after the 6th August) at this office and at the office of the Engineer, Mr. Freeman C. Coffin, 63 State Street, Boston, Mass.

Proposals must be on the forms supplied from this office, and each tender must be accompanied by an accepted bank cheque for Six Hundred Dollars (\$600) payable to the order of the Commissioner of Sewers and Water Supply. This cheque will be forfeited if the party declines the contract, or fails to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Commissioners do not bind themselves to accept the lowest or any tender.  
DAVID LAIRD,  
Chairman,  
Office of Commissioner of Sewers and Water Supply, Ch'town, July 29th.  
—Aug. 3 '98.

**LOCAL AND OTHER ITEMS.**

LATEST advices from Washington say Spain's answer to the United States' peace terms has arrived. It contains are not yet made public.

The "Month's Mind," for the late Father McMillan will be held at St. Teresa's on Friday next, the 12th inst. His Lordship, the Bishop will be celebrant of the solemn Mass of Requiem.

At the Ottawa Scottish games, a few days ago, a member of the N. Y. A. C., George R. Gray, of Goldwater, Ontario, broke his former record of putting the 16 pound shot 47 feet, by putting it 48 feet 5 inches. He also broke the world's record made by himself of putting the 14 pound shot 52 feet, 10 inches instead of the former 49 feet 3 inches.

REV. TERENCE CAMPBELL of Millovec, recently ordained priest in Rome, where he had been pursuing his Theological studies, arrived in this city on Friday evening, accompanied by his brother, Rev. Dr. Campbell of Halifax. On Saturday he went to visit his parents at Millovec, and on Sunday officiated in his native parish. We are pleased to know that he is enjoying good health. *Ad multos annos.*

FARM LABOURERS WANTED in the CANADIAN NORTHWEST.—Arrangements have been made for the sale of one way second class tickets on Tuesday, August 16th only, to points in Manitoba or Assiniboia to and including Moosejaw, Estevan, Bismarck and Winnipeg at rate of \$14.00 each. With each ticket will be given a certificate which when filled out by a farmer to show that the holder has worked with him for at least one month, will entitle him to purchase a return ticket on or before November 16th at rate of \$14.00 each. Tickets are sold by St. John, N. B., and the Canadian Pacific all rail lines only.

The O'Connell anniversary falling on Saturday last it was decided to celebrate it on Monday. Accordingly, on Monday evening about seven o'clock, the members of the Benevolent Irish Society, and the Ancient Order of Hibernians in full regalia, headed by the League of the Cross Band, paraded the principal streets of the city, then proceeded to the railway station, where they met their brother members from Emerald, who had come by special train. The full procession then marched to the Opera House, where a musical and literary entertainment was enjoyed. The speakers of the evening were, Sheriff John, N. B., and the Canadian Pacific all rail lines only.

The preliminary investigation concerning the death of William Frost, which had been going here before the Stipendiary Magistrate was concluded on Monday. At the conclusion of the evidence the Attorney-General addressed the court, setting forth that he considered there was sufficient evidence to put the accused on their trial. The prisoners, namely, George Thorne, John Trainer, Edward Hughes and John Hughes were then asked if they had anything to say. All answered "no," and all pleaded not "guilty" to the charge. They were then remanded for trial at the next term of the Supreme Court in January.

Mr. McMillan will be held at St. Teresa's on Friday next, the 12th inst. His Lordship, the Bishop will be celebrant of the solemn Mass of Requiem.

FARM LABOURERS WANTED in the CANADIAN NORTHWEST.—Arrangements have been made for the sale of one way second class tickets on Tuesday, August 16th only, to points in Manitoba or Assiniboia to and including Moosejaw, Estevan, Bismarck and Winnipeg at rate of \$14.00 each. With each ticket will be given a certificate which when filled out by a farmer to show that the holder has worked with him for at least one month, will entitle him to purchase a return ticket on or before November 16th at rate of \$14.00 each. Tickets are sold by St. John, N. B., and the Canadian Pacific all rail lines only.

The O'Connell anniversary falling on Saturday last it was decided to celebrate it on Monday. Accordingly, on Monday evening about seven o'clock, the members of the Benevolent Irish Society, and the Ancient Order of Hibernians in full regalia, headed by the League of the Cross Band, paraded the principal streets of the city, then proceeded to the railway station, where they met their brother members from Emerald, who had come by special train. The full procession then marched to the Opera House, where a musical and literary entertainment was enjoyed. The speakers of the evening were, Sheriff John, N. B., and the Canadian Pacific all rail lines only.

Mr. McMillan will be held at St. Teresa's on Friday next, the 12th inst. His Lordship, the Bishop will be celebrant of the solemn Mass of Requiem.

Scott's Emulsion is not a "baby food," but is a most excellent food for babies who are not well nourished.

A part of a teaspoonful mixed in milk and given every three or four hours, will give the most happy results.

The cod-liver oil with the hypophosphites added, as in this palatable emulsion, not only feeds the child, but also regulates its digestive functions.

Ask your doctor about this.

SCOTT & BOWNE, Chemists, Toronto.

GOING.

BY ROSE A. BRANDELL.

Written for the Catholic Mirror.

They are going, going, going. Hear the pastor of their feet. The sweet voiced little children. Hear them march along the street.

They are going, going, going. The Matron and the Maid; They tread the shady glade and road; In sunshine and in shade.

They are going, going, going. The workman and the King; Each to his destination. With head and hands to bring.

The fruits of mind and labor. The sweat of brain and brawn. Very few of them permitted. To be simply lockers on.

The Cardinal with the mitre. The Bishop with the "crook." The monk with beads and rosary. The priest with bell and book.

They are going, going, going. Hear the tread of martial feet; The general and the soldier. Are marching down the street.

The fife and drums are going. The bugler marches on; They are going, going, going. Into battle in a throng.

Their life-blood's going, going. And their dreams of glory dead. They are going, going, going. To lie beside the dead.

C. C. RICHARDS & Co.

DEAR SIR,—I have used MINARD'S LINIMENT in my stable for over a year and consider it the very best for horse flesh I can get and strongly recommend it.

GEO. HOUGH, Livery Stables, Quebec.

The Spaniards at Home.

One of the most impartial articles we have seen on the Spanish people appears in the August issue of the Pall Mall Magazine. It is by Mr. David Hannay, who has evidently made an intimate study of the national character of the Spaniards and of their customs and manners.

In starting out he says that the Spaniard, in those who really know him, inspires somewhat mixed feelings, and then continues as follows:—"Mr. Carlyle said of De Quincey that she alternately wanted to hug him and to toss him in a blanket—to hug him because he was such a charming little man, and to toss him in a blanket because of his, who made him well-nigh intolerable."

When one has reached the point of knowing the Spaniard intimately—not only on his social side but in business—one ends by feeling about him very much in this way. Those who do not know him at all, or at second hand, may take him for a ferocious creature who only rouses himself from sloth to indulge in excesses of cruelty. This picture is about as like the real man as is the old Continental idea of the brutal Englishman who sells his wife at Smithfield, and commits suicide from spleen.

That he is capable of cruelty is true, and so are men of other races. Nothing would be easier than to make a list of abominable massacres running all through French history down to the Commune of our own time. Yet we are not asked to call the Frenchman cruel—at least, not to say that what peacefully distinguishes him is his cruelty."

Mr. Hannay says that the colonial history of Spain is not as bad as represented, and alludes to the humanity of the laws in the West Indies, and to the fact that the native races on the American continent survived, and in many cases absorbed, their conquerors, and says that the weaker island peoples died out before the Spaniards, as did the Blackfollies before the Englishmen in Tasmania.

He likewise points out that Germany, which came late into the colonial field, has already contributed a pretty list of atrocities to the records of the Aborigines Protection Society, and that the Belgians on the Congo have not been free from bitter reproach. The Spaniard's failure as a colonist, it is asserted, is the result of his unbusiness-like habits.

have but one standard of manners, and the children of the rich in behavior are just like the children of the poor, while the peasant of Castile is as polite as the 'baldog.' Here is an instance of the democracy that prevails:—"At an inn in a country town you may find the major-general commanding the garrison, a civil official holding a good post, the landlady, and the cook—the last with his cap and apron on—all playing dominoes together at the same table. The general sits at the end of a sofa, and is addressed, not constantly, but at reasonable intervals, as Don Jose, or whatever it may be. He says 'Senior' to the landlady or the cook, and this little difference makes all the necessary distinction. In the middle of the game, guests return from the theatre and ask for supper. The cook gets up and serves them, as a matter of course. Then he comes back to his dominoes, and they all talk with as much ease as any four gentlemen at a club."

This absence of restraint makes the great charm of Spanish life, and you may be familiar with all classes of men without fear that your confidence will be abused, or that your good nature will make people presumptuous. There are common forms of politeness to be observed, and once these are learned one may travel nearly everywhere with comfort. The Spaniards are human and they have their faults, but they will compare favorably with any other civilized people. The writer from whom we have quoted says that the loss of their colonies may be a blessing to the Spaniards in the end, since it may lead them to develop their own country, which is full of natural resources, including a mineral wealth which ought to make Spain rich. If Mr. Hannay is right, the indemnity which will be claimed by the United States may be paid sooner than expected, for he believes that a good administration Spain may be, in another generation, one of the most prosperous of European countries.—(S. H. Review.)

Our Lady of the Snow.

When Rudyard Kipling, a few years ago, in one of his best known poems, called Canada "Our Lady of the Snows," our northern neighbors showed a disposition to resent the appellation, doubtless because of their apprehensions that its acceptance would give the outside world the idea that the Canadian climate was a perpetually arctic one. As a matter of fact, the title which Kipling bestowed on Canada belongs not to that edgy upland but to the Marian provinces, and the feast of Our Lady of the Snow is one which the Church will celebrate the coming week. In the time of Pope Liberius who held the apostolic see from the year 352 to 366, a Roman Patrician, John by name, and his wife, being devoted to children, desired to devote their goods to the honor of the Blessed Virgin. After deliberating over ways of doing this, they decided, with the Pope's consent, to build a church which should bear her name. Where to erect the edifice, though, was a matter they found it not easy to settle, and in their perplexity, they resorted to prayer, and besought Our Lady to indicate to them in some manner the site she preferred. A few days later Rome saw an unworldly occurrence. On August 5, when the midsummer heat prevailed in the city, the Esquiline Hill was observed to be, one morning, covered by a light fall of snow that had taken place the previous night. Interpreting this occurrence as a desire of the Virgin Immaculate to have the church they proposed to build erected upon the hill, its construction there was accordingly begun; and the feast of Our Lady of the Snow is annually observed in this sanctuary on the day when Rome beheld the hill whitened by the snowfall. This church, like other Roman ones, bears more than one title, however. Because of its erection during the Pontificate of Liberius, it is frequently called the Liberian Basilica. It is also known as the Sixtine Basilica, for the reason that the original structure was enlarged by Pope Sixtus III. And for the reason that it counts among its other treasures the Orb of Bethlehem, it is often designated as St. Mary's-of-the-Orb. The title most frequently given to it, though, is St. Marys Major, which belongs to it because, from the eighth century, on account of its significance, it has ranked as the second church of Christendom, the Lateran being the only Roman basilica that takes precedence of it. Strangely enough, Canada, which showed a dislike to be called "Our Lady of the Snow" when Kipling applied that name to her, almost in her infancy, erected a chapel to the Blessed Virgin under that title. The edifice stood on the southern slope of the mountain which gives Montreal its name. It was built in fulfillment of a vow, by a pious Breton cavalier, who had served gallantly in De Tracy's regiment—which once entered Vermont, to remain a while at Isle Motte—and had afterwards settled at Three Rivers. Coming into Montreal, to keep Christmas there, this cavalier was overtaken by a furious snowstorm and lost his way on the slope of the mountain overlooking the city. Finding it beyond him to reach his destination, and being in danger of death in the storm, the cavalier called upon Our Lady for assistance, and vowed to build a chapel in her honor if she would lead him to a place of safety. Tradition has it that his prayer was speedily heard and that, with the Virgin's aid, he found his way to an old mountain forge where he secured shelter till the storm had spent its fury. In fulfillment of his vow, the cavalier erected near the forge the chapel he had promised. Around the mountain chapel grew an Indian mission; but both have passed away, the only reminders of them which exist today being the twin towers that stand where Sherbrooke Street passes the foot of the mountain. The mountain chapel bore the name of Our Lady of the Snow for obvious causes; and, strangely enough, the story has been embodied, in verse by the late T. D. McCrear, the opening stanza of whose fine ballad thereupon runs thus:—"If, pilgrim, chance thy steps should lead Where emblem of our holy creed, Canadian crosses glow— There you may hear what here you read, And seek, in witness of the deed, Our Lady of the Snow!"—S. H. Review.

Helbeck of Bannisdale.

Mrs. Humphrey Ward is a fine literary artist, but she has plainly not a great creative mind. In this story of "Helbeck of Bannisdale" she introduces the elderly lover of the elf-like young girl who first made his appearance in "Jane Eyre," by Charlotte Bronte, and she takes her heroine out of life in a manner that is highly suggestive of the death of Ophelia in the tragedy of "Hamlet." But, nevertheless, Mrs. Ward has a distinct gift in the depiction of character, and her people in this book leave a marked impression upon the mind. Whether such a man as Helbeck could exist, say, may be doubted. He is more romantic than real, though he is strongly individualized within his limitations. He is a descendant of one of the old English Catholic families who clung to the faith through good and ill. He is one of those kind of men who is willing to sell that he has and give it to the poor, and make great personal sacrifices in the cause of charity. Mrs. Ward, perhaps, intended to paint him as a fanatic, but she has not succeeded very well, if that was her idea, and she has made of him on the whole a very noble Christian man. His love affair with his sister's step-daughter seems to us far-fetched and unnatural. She is a true daughter of an unbelieving father, and, knowing this, it is difficult to conceive how a man like Helbeck could have regarded her without attempting her conversion. What could come from a marriage of two such people but unhappiness—the strongest argument against mixed marriages which could be presented. Mrs. Ward contrasts the old English Catholic and the one of a later day, and, though the belief of both must be the same, they have different ways of giving it expression in things that are not essential to faith. The former is somewhat uncompromising in its attitude, while the latter is more conciliatory. Our author knows so much about the Church and its ceremonies through her reading and observation, and probably through her father, who is said to be a convert to Catholicity, that we shall not be surprised to see her enter the true fold at any time. She still has, however, enough of the talent of Protestantism to give us a caricature of a priest in the inconsequential Father Bowles. No man who had been through a course of philosophy and theology in a Quaker's seminary could be such a Miss Nancy. His type is more apt to be found among our separated brethren, published by the Macmillan Company, New York. Price \$2.00.—S. H. Review.

Some time ago Miss Mary Malcay, otherwise known as Sister Mary de Sales, who had been a nun at Elgin, raised an action against the mother superiors of the Convent of Moray there and against the Bishop of Aberdeen for payment of £500 damages. Apparently the lady's case was that, having entered the convent in 1889 and handing over to the superiors the sum of £100, and having lived in it for over seven years, when the superiors found it necessary to dismiss her from the convent on account of insubordination, she claimed £500 for breach of contract. When the case first came before the High Court in Edinburgh, the presiding Judge repelled the plea of the mother superior and the Bishop that the action was irrelevant. In the second division of the same Court, four judges on the bench, that division has been recalled and overthrown, the Court now dismissing the action and declaring that it was "grossly and conspicuously irrelevant." The defendants did not ask for expenses.

Cardinal Steinhilber, Prefect of the Congregation of the Index, has, it is said, nominated a commission charged with the reviewing of all the condemnations of works which have been issued during the last three hundred years by this Congregation. This is certainly a wise revision, and also one in harmony with a special progress of thought.

Minard's Liniment for Rheumatism.

Minard's Liniment for Rheumatism.

A Martyr to Diarrhoea.

Tells of relief from suffering by Dr. Fowler's Ext. of Wild Strawberry.

There are many people martyrs to bowel complaints who would find Dr. Fowler's Ext. of Wild Strawberry a wonderful blessing to them. It not only checks the diarrhea but soothes and heals the inflamed and irritated bowel, so that permanent relief is obtained.

With Strawberry. I purchased a bottle and commenced taking it according to directions and was cured in a very short time. I cannot praise the remedy too highly for what it did for me."

MISCELLANEOUS.

A DOUBTING THOMAS.

"Sound," said the pedagogue, "is something that a person can hear, but can neither see nor feel."

"Oh, I don't know," exclaimed the boy at the foot of the class. "I think I can prove that you are off in your theory."

"Very well, Thomas," retorted the man of learning, "go ahead and prove it, then."

"Only yesterday you gave me a sound thrashing," said Thomas; "I suppose the other pupils saw it and don't do it ever think for a minute that I didn't feel it."

Hagyard's Yellow Oil cures all pain in man or beast, for sprains, cuts, bruises, callous lumps, swellings, inflammation, rheumatism, and neuralgia it is a specific.

His LAST APPLICATION.

Housekeeper—Here is a telegram. Your nephew is dead.

Property owner (with a growl)—Humph! Now, I can't see what the money to bury himself with.

"I wouldn't give a cent for it!" he said disparagingly. And he was right. It was a 1 cent stamp.

Dr. Low's Pleasant Worm Syrup is the nicest and most effective remedy for worms of all kinds. Never any trouble getting the children to take it.

DYSPEPSIA.

"For over eleven years I suffered terribly with Dyspepsia and tried every thing I could think of, but got no relief until I started using Burdock Blood Bitters. I had only taken one bottle when I commenced to feel better, and after taking five or six bottles was entirely well, and have been so ever since. I feel as if B. B. had saved my life." Mrs. T. G. Joyce, Stanhope, N. J.

B. B. cures Biliousness, Sick Headache, Sour Stomach, Dyspepsia, Constipation, Coated Tongue, Liver Complaint, jaundice, Kidney Disease, and makes the blood rich, red and pure. It is a highly concentrated vegetable compound. One teaspoonful is the dose for adults; 10 to 20 drops for children. Add the water yourself.

THE WHEELMAN'S FRIEND.
