## Which Was The Heir?

CHAPTER XX.  
(Continued.)

YOUR room's ready, sir," she said. "Will you step up and look at it?"

Cottie went up and glanced round the small but dainty and scrupulously clean room; then she descended the steep and narrow stairs and sat beside the old lady and took her first lesson in glove-making, listening to Betty's instructions with the patience acquired in camp and bush; but after trying her prentice hand on the soft kid skins for half an hour or so, she grew tired of it, and Betty being engaged in getting the tea, Cottie strolled out at the back of the cottage.

She found herself in a small wood or coppice, at the end of which was a rustic gate which led into a kind of park. She passed through the gate and sauntered into a larger wood.

Suddenly, as she was wandering along, thinking of her new friends—and of Geoffrey away on the other side of the world!—she heard voices. They were low-pitched, and cautious, and Cottie, with her scouting instinct, crouched low as she proceeded; and in a moment or two she came upon two persons seated on a mossy bank in the thickest part of the wood. They were a man and woman, and she recognized in the former the Mr. Sidney Bassington whom she had seen at the Hall, and in the latter the red-haired girl, Rachel Lane.

They were sitting close together; his arm was round her waist, and her head was upon his breast.

## OWES HER LIFE TO

**Lydia E. Pinkham's Vegetable Compound**

Vienna, W. Va.—"I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's carbuncle relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound."—Mrs. EMMA WHEATON, Vienna, W. Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Cottie smiled, then the smile faded, and she grew thoughtful. Only an hour ago these two had passed each other as if they were mere acquaintances, and now they were sitting together, regarding each other. "Strange!" she regarded them for a moment or two, with her head on one side, and with a thoughtful frown, then she went on.

The wood grew thicker, and presently she came upon a small cottage nesting under the trees. There was a little garden in front of it, and by the gate a woman with iron-grey hair stood gazing before her with a far away, vacant expression on her face. Cottie stood and looked at her for a moment, then the woman started

Have You Tried **DY-O-LA**?

You don't have to know what your goods are made of. SAME DYE FOR ALL—No chance of mistakes. All colors to cents from your Druggist or Dealer. Sample Card and Booklet Free. The Johnson-Richardson Co., Limited, Dept. D., Montreal, Que.

her by saying in a strangely hollow and expressionless voice:

"Who is that?"

Cottie approached her.

"I beg your pardon," she said. "Can you tell me—"

The woman started.

"Is that you, Master Edmund?" she said. "Come in at once. It's getting late, and I must dress you for dinner."

Cottie stood stock-still, gazing at the lack-lustre eyes for a moment, then she turned and fled.

CHAPTER XXI.

QUITE ignorant that they had been seen by Cottie's sharp eyes, Sidney Bassington and Rachel sat under the trees in the enjoyment of what Rachel's favourite authors would have called "love's young dream," though, in the case of Rachel, there was no small amount of calculation mingled with the love.

Their intimacy had grown very close since the evening Sidney had given her his brand-new emerald ring, and though her holiday had expired long ago, she still stayed on at her grandmother's cottage; indeed, she had given up the idea of governessing, and cherished a far grander ambition than her old one—that of becoming head mistress of a Board School.

Sidney and she met every day, sometimes in the morning, but more often in the gloaming of the delicious evening twilight, or in the soft darkness of the summer nights. At these stolen meetings they wandered through the plantation, or sat under the trees, his arm around her slim waist, her head resting on his shoulder.

There would have been danger in these stolen moments for most girls of her age; but Rachel was different from most girls, and was well able to take care of herself. She liked Sidney Bassington well enough, but there was only one person in the world that she was capable of loving, and that was—Rachel Lane.

At first it had flattered her vanity that the air to the earldom should care to flirt with her; but gradually a gigantic ambition woke in her: suppose she could make him care well enough to marry her!

Such things had been. Kings Capetua married beggar-maids, peers chose music-hall singers and actors,

and even acrobats for their wives; and why should not Sidney Bassington make a future countess of her? She was pretty, fairly well-educated and possessed of a tact and nous which would enable her to fill any sphere, however elevated.

When she dwelt upon the idea—and often in the sultry nights she lay awake dreaming of it, picturing herself the mistress of the castle, the Countess of Starborough—her heart beat tumultuously, and the blood ran riot in her veins. And gradually she began to plot and scheme for it with the intensity of a person whose whole energy and mind are concentrated on one object.

She played her cards, the cards represented by her peculiarly pretty face and graceful, serpentine ways, remarkably well. She encouraged Sidney, and kept him at arm's length. And she observed a caution which she masked behind an assumption of innocence and timidity.

She was sharp enough to know that the young man was a fool, and it was she who impressed upon him the importance of secrecy in his meetings, and insisted upon his greeting her as a mere acquaintance when they met outside the wood. The emerald ring was only the first of a number of presents—some of them exceedingly valuable—which she accepted with pretended reluctance; but Sidney got nothing more than a kiss and a softly murmured thanks for them.

Her coyness, while it irritated him, kept his passion at fever heat, and lent a charm to his clandestine meetings with her; and so well did she play her part, that at times he felt something that was almost like communion; for, up to this time, Sidney Bassington was more fool than knave.

Only One "BROMO QUININE" that is **Laxative Bromo Quinine** Cures a Cold in One Day, Grip in 2 Days

**Wm. S. Merrell** on every box 25c

A very narrow line divides the two, but he had not yet passed it. He, too, used to lie awake—especially after a delicious rendezvous in the woods—and ask himself whether it was possible for a man to love two women at the same time.

It is a question which has puzzled to winning Eva Rashleigh for his wife—she would be approved by the earl—and out his intimacy with Rachel; but as soon as he met Rachel, Rachel with her red-gold hair and the red-barred eyes, his prudence dissolved, and he fell into fresh slavery.

And there was some excuse for him; for Rachel exercised a peculiar charm; for she was not only pretty and graceful, but she flattered him with her assumption of innocence and deference.

Eva's coldness, Sir Edward's frank patronage, and the earl's cynical contempt jarred and tortured him; Rachel, with her soft voice, skillful admiration and delicate deference, soothed and flattered him.

This evening he specially needed this soothing treatment, for Eva and Sir Edward had ruffled his self-satisfaction in connection with Cottie; and Rachel, by contrast, seemed particularly sweet. So, as he sat with his arm round her waist and his eyes gazing into her red-barred ones, she occupied his heart entirely, and Eva was far away, a diminishing spot, as Euclid has it.

Rachel had been silent for some time, and had seemed lost in thought, and rather sad, and presently she said:

"This is the last time we shall meet in the dear old wood, Sidney." Sidney Bassington started.

"Eh?" he said. "How do you mean? Why the last time?"

(To be Continued.)

**Money's Worth in every brushful**

Put there by the makers—found there in the service these M-L Pure Paints alone can give.

It is no hard thing to make a point that looks good in the can—or sounds good in the advertising—and YOU couldn't tell the difference beforehand. But it is not so easy to put together the purest materials in the most expert way—and then to add one special ingredient—a greatly lengthen the paint's life—and that's what you get when you buy

**M-L PURE PAINT**

Forty colors, for every painting purpose, made by Imperial Varnish & Color Co., Limited, of Toronto. Always in full stock at

**AYRE & SONS, Ltd.** Recommended and Sold by all reliable dealers.

the brains of the philosophers since the world began, and little wonder that Sidney Bassington was bothered by it.

In his heart of hearts he was in love with Eva Rashleigh. He would have given—well, half the estate that was coming to him, to own her for his wife, and he was doing all he could to get her brother, Sir Edward, into his power, so that he might share her; and yet, at the same time, he was held in thrall by Rachel Lane. He would come straight from the Hall, from Eva's placid and somewhat cold presence, to bask in the warm sunlight of Rachel's smiles and warm, though coy, kisses; and at such moments he could not have told which woman he loved. Between ourselves, the young man did not know that there are two kinds of love, as far as the poles asunder: the love that reverences while it desires, and the love that only desires. The first has something of the spiritual in it, the latter is merely animal; and, while the first lasts, perhaps throughout a man's, or woman's, life, the latter, though fierce enough, burns itself out and leaves Dead Sea Fruit and ashes behind.

A dozen times a day he told himself that he ought to bend all his energies

## For Women's Needs

Every woman should fortify herself against those weaknesses and derangements which are usually present at times when Nature makes extra demands upon the system. For women's special ailments there is no known remedy so safe and reliable as

**Beecham's Pills**

These pills possess corrective and tonic properties which have a marked effect upon the general health and promptly relieve nervousness, sick headache, depression, backache, weakness and other unpleasant symptoms. Beecham's Pills establish healthy conditions and furnish

to winning Eva Rashleigh for his wife—she would be approved by the earl—and out his intimacy with Rachel; but as soon as he met Rachel, Rachel with her red-gold hair and the red-barred eyes, his prudence dissolved, and he fell into fresh slavery.

And there was some excuse for him; for Rachel exercised a peculiar charm; for she was not only pretty and graceful, but she flattered him with her assumption of innocence and deference.

Eva's coldness, Sir Edward's frank patronage, and the earl's cynical contempt jarred and tortured him; Rachel, with her soft voice, skillful admiration and delicate deference, soothed and flattered him.

This evening he specially needed this soothing treatment, for Eva and Sir Edward had ruffled his self-satisfaction in connection with Cottie; and Rachel, by contrast, seemed particularly sweet. So, as he sat with his arm round her waist and his eyes gazing into her red-barred ones, she occupied his heart entirely, and Eva was far away, a diminishing spot, as Euclid has it.

Rachel had been silent for some time, and had seemed lost in thought, and rather sad, and presently she said:

"This is the last time we shall meet in the dear old wood, Sidney." Sidney Bassington started.

"Eh?" he said. "How do you mean? Why the last time?"

(To be Continued.)

## A MISS ASQUITH STORY

London is smiling over a story told regarding little Miss Asquith, who is at that tender age when indiscreet remarks are still pardonable.

Mrs. Asquith had taken her small daughter out to tea, and while her mother was talking to some friends at the other end of the room little Margaret endeavoured to entertain a Conservative statesman who sat near her.

"Do you like Mr. Lloyd-George?" she asked when there was a lull in the general conversation.

"No," said he smiling, "I can't say that I do."

"Neither does daddy," said the Prime Minister's ten-year-old daughter blithely.

CHINA CUPS and Saucers, Plates, Dishes, etc. Glass Preserve Dishes, Tumblers, Wine Glasses, Decanters, Vases, etc. We are always fully stocked with the above lines. At LARACEY'S, 345 and 347 Water Street, opposite Post Office.—Jan. 31st. Special to Evening Telegram.

## Truckmen's Meeting.

The Quarterly Meeting of the Truckmen's Union was held last night in the T. A. Armoury, President N. J. Murphy in the chair. Two applicants were elected to membership.

After the roll had been called and the monthly fees—which by the way were large—had been collected, the business in connection with the coming Labor Day Parade was taken up.

An invitation from Mr. M. McEvoy, Secretary of the Labor Day Celebration Committee was read. The Union was asked to take part in the coming parade of 1910. After some discussion it was decided to take part again this year in the event. The Union will import a set of new sashes from New York for their officers to wear on the occasion.

The question of the appointment of a walking delegate came before the meeting. After a few minutes discussion it was decided that there was no need of such an officer, at least at the present time. The meeting closed at 11.30.

## Easter Ball at Bell Island.

What might be termed a decided success, financially, as well as socially, was the Easter Ball, held in St. Joseph's Hall, Bell Island, on Easter Monday night. This very pleasant affair ushered in the other Easter amusements which are to follow during the next few weeks, and was ably conducted by Messames Burke and Costigan, who are to be congratulated on the success achieved. At midnight refreshments were served, and as usual at affairs of this kind were much enjoyed. Dancing was then resumed and kept up till the early hours of the morning, when all retired with pleasant recollections of the Easter Ball of 1910. Bell Island is to be congratulated on its social aspect. In this connection it being second to no other outport. Next week a musicale and dance is to be held under the management of Miss Donnelly, and in the middle of the month the annual R. C. Bazaar is to be held which promises to be a great success as elaborate preparations are being made to make it one of the most enjoyable events ever held on the "Iron Isle."

## Religious Reception at St. Mary's.

The beautiful and touching ceremony of a religious reception took place in the Parish Church at St. Mary's, on Thursday last. The young lady (St. Mary Aloysius) who received the habit of Religion, was Miss Catherine Doyle, daughter of Mr. John Doyle, of St. John's West, and sister S. M. Agnes, of the Convent at St. George's.

In the absence of His Grace the Archbishop, who owing to the inclement season could not possibly be present, the ceremony was performed by the Rev. Wm. O'Driscoll, assisted by the Rev. Wm. O'Flaherty, of St. Joseph's. The church was packed to its fullest capacity, and all were visibly affected by the solemnity of the beautiful function.

The Rev. S. O'Driscoll in well chosen words, preached the sermon appropriate to the occasion, explaining the great sacrifices of the Religious life, and the reward in store for those who give up the joys and pleasures of this world, to labor for the salvation of souls. After the ceremony the clergy and relatives of the newly received were hospitably entertained at the Convent.

We wish the young Sister many happy years to carry on the good work she has undertaken in the service of the Divine Master.—Com. St. Mary's, April 2, 1910.

## Now Cured of Rheumatism

Cost him \$100.00 for medicines which failed—Cured by DR. CHASE'S KIDNEY-LIVER PILLS.

Mr. James Clark, Maidstone, Sask., writes: "I suffered for four years with rheumatism in my shoulders and could not lift my arms above the head. I used nearly all the advertised remedies but none of them gave me relief. It cost me at least \$100.00 for medicines before I used Dr. Chase's Kidney-Liver Pills.

"With the use of this medicine, I got four relief. I followed up this treatment for six months and was then free from rheumatism. While using Dr. Chase's Kidney-Liver Pills I also used Dr. Chase's Backache Plaster when so stiff that I could scarcely bend. They always found the weak spot and gave relief while the internal treatment was bringing about a thorough cure."

The success of Dr. Chase's Kidney-Liver Pills has been phenomenal. One pill a dose, 25 cents a box, at all dealers or Edmanon, Bates & Co., Toronto. Dr. Chase's Recipes will be sent free on request.

MARY and TOM—On Wednesday we will publish an account of a trip by Mary and Tom to the Moquito Railway Station.

MINDARD'S LINIMENT RELIEVES NEURALGIA.

And don't forget I want

## "BEAVER" FLOUR

You see, she can depend on "Beaver" Flour. She knows its uniformly good qualities. She knows what white, homemade flavor bread—what light, delicious Cake and Pastry—she gets when she uses "Beaver" Flour. That is why she always orders "Beaver" Flour and insists on having it. Do you?

## The Evening Chit-Chat

By RUTH CAMERON

To never disappoint a child or an old person, if you can possibly help it, seems to me one of the best kindnesses anyone can make for himself.

Little disappointments mean so much to these little folk and to those bigger folk who have gone back into the land of simple things, than they do to us.

As a newspaper woman I am often in contact with many real tragedies. I have talked with a woman whose son was about to be sent to the electric chair for murder, and tried to comfort her when she broke down and cried on my shoulder.

I have heard a man, whose wife had mysteriously disappeared, sob like a child when he told how her baby was sickening for her and begged me to somehow help to find her. I have seen a father and mother, whose daughter had run away to what they hardly dared to think, quiver at every footfall that passed the door in the aching hope that it might be "Cassie."

And yet I never heard anything that touched me any more than a little story that came into the office last night.

On the poor farm of a town not far from here a little old man died a few days ago, and the immediate cause of his death was broken heart.

And this is what broke it. A certain newspaper not long ago held an old age contest and gave to the oldest man in each of the surrounding towns a gold headed cane.

The old man was greatly excited when he heard of the competition. He was ninety-three. He was sure he was the oldest man in town. He would get the cane.

He boasted to all the inmates and to everyone who came to the farm of his great expectations.

He had always been rather a ne'er-do-well and never in all his life had anything so fine as a gold headed cane. He dreamed of it by night and talked of little else by day.

And then the selectmen of that town got together and decided that an old man who couldn't walk very much and who was being supported by the town didn't need and didn't have any right to have a gold headed cane, and forthwith refused to allow him to take it.

It went to the next oldest man, who lived in the big white house, on the hill. And the little old man in the poor farm just naturally grieved to death from sheer disappointment.

Seemed to me when I heard that that I would be quite willing to join a tar and feathering party to wait on those selectmen.

Disappointments, as most of us know, are cruel things.

Cause as few as you can to anyone and fewest of all to the folk who live in the land of simple things, and I don't believe you'll lack of credit for it somewhere or other.

Ruth Cameron

## Fortune Telling

Does not take into consideration the one essential to woman's happiness—womanly health.

The woman who neglects her health is neglecting the very foundation of all good fortune. For without health love loses its lustre and gold is but dross.

Womanly health when lost or impaired may generally be regained by the use of Dr. Pierce's Favorite Prescription.

This Prescription has, for over 40 years, been curing delicate, weak, pain-wracked women, by the hundreds of thousands and this too in the privacy of their homes without their having to submit to indecent examinations.

Sick women are invited to consult Dr. Pierce by letter free. All correspondence held as strictly confidential. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

Dr. Pierce's GREAT FAMILY DOCTOR BOOK, The People's Common Sense Medical Adviser, newly revised up-to-date edition—1000 pages, answers in plain English hundreds of delicate questions which every woman, single or married, ought to know about. Sent free, in plain wrapper to any address on receipt of 31 one-cent stamps to cover mailing only, or in cloth binding for 50 stamps.

## Fads and Fashions.

The sheath costume is wholly abandoned.

Never was linen for suits in greater favor.

There is a distinct Japanese note in new draped costumes.

Every Paris gown now has its parasol as part of the costume.

The sequin bag for calling is one of the Parisian novelties.

White satin girdles are beaded with a pattern in black cut jet.

Pongee and shantung silks claim much attention in spring styles.

Hollyhocks appear as decoration on many of the hats of French origin.

The more flaring and turned up of the brim, the more up-to-date the hat.

Plaid zephyrs are shown in a great many of the children's models for summer.

Linen coats are "finger length" and more closely fitted to the figure than last season.

Taffetas in checks and stripes are made of coarse-meshed silk net.

The silk prospect is bright, and bright-colored costumes are predicted for the summer resorts.

Paris sanctions lace-trimmed white straw hats, and they will be seen in numbers at the resorts.

The ornamental scarf is fringed and embroidered, and is most frequently made of coarse-meshed silk net.

Small chiffon and mousseline fans are polka dotted over the entire surface on both sides with silver sequins.

Dainty French slippers are made with many straps over the instep and liberally decorated with jet or crystals.

Neckwear is pleated and hand-embroidered in almost every case. Collars are the accompaniment of many lingerie collars.

Whole sets of amethyst buttons are cut and provided with shanks but not mounted. They measure a full half inch in diameter.

The kimono and obi scarf effect is strongly hinted at in some of the new Paris costumes, which lean towards Orientalism.

The lace frill, like those worn by Charlotte Corday has once more been introduced under the brim of the new lace-trimmed hats.

So far few really short jackets have appeared, but coats are noticeably lessening in length with the advance of spring.

Wreaths of simple white roses fit flat upon the broad brims of plain black hats for those who would avoid the flaring brim.

IT CURES BOILS.

Dr. Hamilton's Ointment is a benediction to ugly painful boils. It instantly destroys bacteria, draws out poisonous humors, builds up healthy tissues like magic. To apply Dr. Hamilton's Ointment means instant relief to boils, pimples, blackheads, and all other skin diseases. Get a 50c. box from your druggist.

AUTOMOBILE STRUCK BY A TROLLEY.

Washington, March 23.—Major-General J. Franklin Bell, chief of staff of the U. S. army, was badly but probably not dangerously wounded, and Mrs. Herbert J. Slocum, wife of Major Slocum, of the 7th Cavalry was almost instantly killed early to-day in a collision of their auto with a trolley car on the Tennytown Road in the northwest outskirts of this city. General Bell had one rib broken, a bad scalp wound and several bruises. The chauffeur was uninjured.

General Bell was removed to the Post Hospital at Fort Meyer, afterward to his residence at the Fort. Mrs. Slocum lived only a few moments. General Bell absolved the trolley car motorman from blame for the accident.

## A Tonic

Make no mistake. Take only those made by the best doctors and chemists. Consult your own doctor freely.

Tired? Just as tired in the morning as at night? Things look dark? Lack nerve power? Just remember this: Ayer's Sarsaparilla is a strong tonic, entirely free from alcohol. It puts red corpuscles into the blood; gives steady, even power to the nerves; strengthens the digestion.

## CURES CATARRH

Stomach dosing was found ineffective and the principle of inhibition was finally perceived. Even the Romans and Ancient Greeks used it, but not in the scientific manner that the physician prescribes to-day. The most wonderful results have been secured with a new treatment known as "Catarrhazone," which sends germ-destroying vapors directly into the air passages of the nose, throat, bronchial tubes, and lungs.

Rich, Pure Essences are Breathed Right to the Spots That Are Sick. Cure Follows.

Catarrhazone proves especially good in those chronic cases where mucus drops down the throat, sickens the stomach, and pollutes the breath. When the nostrils are stuffed, only a few breaths through the inhaler are needed to clear the passages, and where there is coughing and sore bronchial tubes, the soothing, healing properties of Catarrhazone act almost as magic.

Once you stop taking medicine into the stomach and get the healing oils and pure balsams of Catarrhazone at work you can be sure of quick and lasting cure for nose colds, catarrh, weak lungs, bronchitis, and speaker's sore throat.

## Catarrhazone

Beware of imitations. Three sizes, 25c., 50c., and \$1. the latter being guaranteed. Sold by all dealers in medicine, or by mail from the Catarrhazone Co., Kingston, Ont.

## PRESENTS FOR THE SPEAKER.

Some quaint privileges are enjoyed by Mr. Löwther as Speaker of the House of Commons. Every year, for instance, he receives from the Master of the Buckhounds a gift of a fat buck and a plump doe killed in the Royal preserves. The buck arrives in July, the doe following in December.

At Christmas time, too, the Speaker receives "four and a half yards of the finest cloth that the country can produce" from the Clothworkers' Company of London. Among other little matters, the Speaker is entitled to £1,000 of "equipment money" and 2,000 oz. of plate immediately on his election, two hogheads of claret, and £100 a year for stationery.

Formerly a new chair was supplied to the House of Commons on the meeting of each new Parliament, and the Speaker carried off the old chair as a perquisite.

Somewhat similar perquisites fall to the Lord Chancellor, who presides over the deliberations of the House of Lords. He, too, receives an annual gift of broadcloth, and carries off the Great Seal and the beautiful purse which contains it.

Both the Speaker and the Lord Chancellor, who receive such handsome perquisites, make, by custom, many gifts to others.

## FEARED PARALYSIS.

Mr. P. A. Krutz, Schwartz, Que., writes: "For one year I was a complete nervous wreck, could not rest or sleep, had indigestion and terrible headaches and consequently feared paralysis. Six boxes of Dr. Chase's Nerve Food made me well and strong. There is no treatment in the world so good as this for building up the nervous system."

## SNAKES 85 FEET LONG.

Relating his experiences during explorations in Bolivia to the Royal Geographical Society very recently, Major P. H. Fawcett remarked that voyages up the Amazonian rivers were not without their dangers.

There are anacondas (giant snakes) crocodiles, electric eels, sting rays, and the perania, a small deep-bodied fish with razor-like teeth and an unappealing appetite for blood. Men unfortunate enough to fall into the Paraguay—where the perania is most prolific—may be picked clean before they can be rescued.

The anaconda is ubiquitous, moves by night, and has a weird cry. The major's party killed one 65 ft. long, and another party reported killing one 85 ft. in length.

Insects are legion, and render life a torture. Mosquitoes are the least offensive.

In places one is covered from head to foot by bees, inside one's clothes and outside, in one's ears, nose, eyes, hair and mouth if it is opened, pungent-odored and seeking "salt perspiration." Feeding by day under such circumstances is out of the question." There is a whole list of dreadful and obscure diseases, and the Brazil-unt tree, dropping its heavy fruit from 100 ft. or 150 ft., often breaks the travellers' heads. There is also a tree which drops a colorless liquid which causes the body to swell and give acute pain.

There are tumors which cannot be disapproved, since no one knows the heart of the continent, of a white race with blue eyes and red hair. There are also tales of strange beasts and huge and ancient ruins, so that South America may well hold for the explorer surprises greater than that of African pigmy and okapi.

## Notes From Harbor Grace.

Mr. Fenn, of the Cable Company, is in town, and will remain a few days at the Cochrane House.

The S. S. Progress arrived from Bell Island on Saturday night, and left for the Island again on Sunday evening.

Miss McRae returned from St. John's by Saturday's night train, or rather Sunday morning's train, as owing to a breakdown the train did not reach the station until long after midnight.

The schools are all opening to-day after the Easter holidays and the small pox scare.

The committee appointed in connection with the John Guy celebration are now settling down to actual business, composed of good live men, and a successful celebration is assured.

Mr. W. Jackman and Mr. B. Norris of St. John's were in town last week, guests at the Cochrane.

Mrs. Stephen Butt went to St. John's on Thursday last, to visit her husband who is being treated at the Institution for the Insane. We are sorry to report that Mr. Butt is very sick. Mrs. B. returned Friday.

Nearly all the families on quarantine for small pox are now released and the balance will be in a day or two. Our doctors and board of Health deserve credit for prompt action and successful handling of the case.

A case of cruelty to animals came under our notice on Sunday morning. A small pony attached to a very heavy carriage had taken a freight to Carbonear, but on returning about 10.15 o'clock was scarcely able to draw the empty vehicle up Harvey Street. The driver, a thoughtless lad, was beating the poor, tired-out beast unmercifully. We were glad when he passed out of our sight, but in less than half an hour he passed down Harvey Street again and back, repeating the same heart-rending programme. If the police witnessed

the cruel act we will expect to hear of a case in court shortly. It is a pity we have not some representative here of the Society for the Prevention of Cruelty to Animals. We had in a legal gentleman here a few years ago one who would not scruple to have punishment meted out to such cruel people, but he has passed to his reward. In our opinion we think every good citizen should be a member of the above noble Society, and firmly put a stop to cruelty to poor dumb animals.

The Southern Cross finished discharging on Friday morning. The total turnout was 23,009 seals, nearly all prime harps, averaging 43 lbs. The crew of 172 men shared \$73.35 each.

CORRESPONDENT.  
Harbor Grace, April 4, 1910.

## 100 Dollars Reward.

The manufacturers of SALVIA, the new American Hair Grower, offer one hundred dollars reward to any one who can prove that SALVIA contains any injurious ingredient. SALVIA at once stops the itching of the scalp; will positively grow hair or money back. It is guaranteed to kill the Dandruff germ. Ladies of taste prefer SALVIA to any other hair dressing, as it is a non-sticky, dainty perfumed hair tonic and dressing.

Hair is made beautifully soft and wavy. SALVIA has an enormous sale. We know of no other hair dressing and grower that is sold with a guarantee.

SALVIA contains Henna and Sage. Restores dead hair to life. Short, harsh, brittle hair is made long, soft and sparkling with life, which adds beauty to the appearance of every lady. Your dealer will refund you your money if it fails.

A large bottle for 50c. The Scobell Drug Co., St. Catherine's, Canadian distributors.

T. McMurdo & Co., Selling Agents for Newfoundland. a12.5

JOINED THE FORCE.—Two recruits joined the police force yesterday. Supt. Grimes is now instructing them.

Tuesday, April 5, 1910.

**Preservation of Our Forest Resources.**

One of the most useful statutes ever put on the Statute Book was the Forest Fires Act of 1905. It was a necessary corollary to the introduction of large capital into the country to provide the plant for the conversion of our small spruce wood into pulp and paper. Without such protection the owners of such a plant could never be sure of a sufficient supply of spruce wood to keep it running.

The preservation of a supply of raw material is an absolute necessity, and no capitalists will introduce \$5,000,000 into the Colony, as the A. N. D. Co. have done, unless they have a reasonable assurance of the protection of the forest from the devastation of fire.

We take it that it was in accordance with the Bond policy of 1905 that the Conference on Forest Fire Protection was held last night by Premier Morris. Mr. Beeton, the President of the A. N. D. Co., points out that there was a future for many small pulp and paper mills in the country, if the forest fires could be kept down. The establishment of a forest fire department, the employment of much labor on capital account and \$45,000 an acre of good spruce in forest in converting the wood into paper and shipping it out of the Colony.

It becomes then the bounden duty of the Government and those interested to take counsel with one another to see that the best is done in tending our forest. The best is becoming alive to the necessity of not only safeguarding its forest from fire, but extending to them scientific supervision, as will be seen from the quotation from the Times we append: "The increasing interest taken in most civilized countries in question of forest conservation, is a notable proof of the growth of wisdom in the utilization of the world's resources. For centuries mankind was prone to regard forests mainly as arenas for wholesale and often wanton destruction. The forests were, as the Siberian peasants still say, 'the gift of God,' to be used or wasted without let or hindrance. Their effect upon rainfall and temperature, their value in preventing the denudation of soil, the large part they play in the control of rivers and the preservation of moisture were either not understood or disregarded."

"Happily most Governments are now recognizing that forests are valuable assets, both by reason of the revenue they produce and the direct and indirect benefits they confer. The steady growth of checks upon the reckless exploitation of forests is a wholesome sign. Germany led the way in scientific forestry, and her splendid woodlands, now a possession of enormous value, have been to a large extent under State control for a hundred years."

**Coast Weather Report.**

LaSalle—Stormy N. wind, and bay and coast blocked with ice.  
Belloram—first arrivals from western codfishery. Acme, Saturday, bringing 450 qts. Capt. Thos. Bond is reported to have passed in with his 44 ton scho. loaded. All bankers cleared except Valoria. Herring plentiful at Rencontre to date, and Conn River, all our vessels having baited there this season.  
Lark Harbour—wind N. E. fine and clear.  
Birch Cove—wind N. E. clear and cold.  
Sound Island—heavy N. N. E. wind, fine and cold.  
Port aux Basques—no fishing yesterday, wind N. W. stormy.  
Nippers Harbour—wind N. W. light breeze, and bright, bay clear.  
Britannia Cove—large schools of herring are seen from the shore, no efforts made to secure any.

**WHALEERS ARRIVE.**—Capt. Davidson and his crew, to take charge of the whaler Hump, and the captains and crews of the whalers Lynx and Puma arrived here by yesterday's express. They came from Norway to Hull, thence to Liverpool and joining the Corsican came to Halifax. They start whaling next week.

**NO PRACTICE.**—There will be no practice for the George St. Choir to-night.

**Cars Off the Track.**

The passenger train that left here at 6 p.m. yesterday for local points met with a mishap between Topsail and Manuela about 6.45. The trucks of two passenger cars on the rear went down between the rails with a sudden bump and brought the train to a sudden stand still. The shock was great but none of the passengers were injured. The outgoing passengers were transferred to the train coming from Harbor Grace. A special engine went out from St. John's with passenger cars attached and brought in the sixty passengers that were coming by the Carbonate train. A gang of men was then put on the job of clearing up and jacking the cars on the track. They worked all night till 7 this morning when the road was once more all cleared. The special train reached town at 12.15 this morning.

**Accident at the Goulds**

J. Hefferman, of the Goulds, met with a serious accident this morning while cutting up wood near his door. A piece of wood when cut with the axe flew up and struck him in the right eye. It struck him fair on the pupil of the eye, and he is since unable to see out of the organ which bled profusely. He came to town to Dr. Murphy who bound up the wound and stopped hemorrhage. He will have to come to town every day for a week or more to get it dressed.

**Employing Men.**

At Bishop's Falls within the next few weeks the Albert Reed Co. will employ between 700 and 1,000 men on construction work, and at Grand Falls additional men will be put to work. The weather about these places is far milder than in the city, and all the lakes and ponds are open. The driving of logs, cut during the winter, down the rivers to the mills will begin next week. This is earlier than for many years past.

**A False Alarm.**

Sunday night at 11.30 a passing citizen saw a light burning in an up-town business establishment and drew the attention of passers by. Soon a crowd collected and word went round that a man was seen to enter there. Sergt. Mackey and the police soon arrived, the proprietor was notified, and an examination of the premises showed that no person was there. The employees forgot to extinguish the light when leaving Saturday night.

**Removing the Vault.**

Last night a staff of masons and others were engaged taking down the masonry around the big vault in the Bank of Montreal, so that it can be removed from its present position to the eastern part of the building. Constable Stamp with four special policemen, employed by the Bank, were on duty there last night, and will be there for the next five nights, when the work is expected to be completed.

**Row Over Sweepstakes**

Two sports of the city are grieving over the loss of \$300 won on a sweepstake on the s.s. Florizel. They gave a young man \$10 to buy a ticket. He did so and drew the s.s. Florizel. When the ship arrived he went and collected the \$300 and now refuses to give up the money or any part of it to the sports who gave him the money to buy the ticket.

**Coastal Boats.**

**REID NELD. CO.**  
The Argyle left Placentia at 6.30 p.m. yesterday for the West.  
The Bruce left Port aux Basques at 6.50 a.m. to-day.  
The Glencoe arrived at 7.30 a.m. today from the West with 9 first class passengers.  
**BOWING SHIPS.**  
The Prospero left St. Mary's at 8.40 a.m. to-day and is due here at midnight. The ship will make a record on this trip, as she only left here at 10 a.m. Wednesday and left Channel coming east at 2.30 a.m. Sunday.

**Here and There.**

**WEATHER UP COUNTRY.**—Along the line to-day the wind is N. W. light; temperature from 25 to 40 above.

**HOP BEER PROSECUTION.**—Tomorrow two vendors of hop beer will appear before Judge Knight in the Magistrate's Court for selling hop beer which it is alleged is over-proof. Mr. Howley appears for the prosecution.

**GLENCOE'S PASSENGERS.**—The S. S. Glencoe arrived from the west at 7.30 a.m. to-day bringing E. Pike, Capt. Rice, H. Lake, Mrs. Hayden, Mr. and Mrs. Sheppard, T. M. McCarthy, A. Burgess, S. Tucker, C. Stranger and five second class.

**SMALL POX SO-CALLED.**—Const. Lawlor telegraphed to the Inspector General yesterday that there were now 24 persons at Little River now ill of the rash called small pox. The houses where they exist are quarantined and the inmates vaccinated.

**A YOUTHFUL INEBRIATE.**—Yesterday afternoon the police were called to a residence in the West End where a youth of 16 was making things lively in his mother's house. The lad was intoxicated and the officers brought him to the station. Whoever gave him the liquor should be prosecuted.

**CHORAL SOCIETY.**—There will be a full rehearsal of the Choral Society this evening at 7.30. Every member is particularly requested to make a special effort to attend. The performance takes place on the 21st, so rehearsals must of necessity be very few in number. advt.

Special to Evening Telegram.  
LONDON, April 4.  
Under Premier Asquith's guillotine procedure the House of Commons to-night rejected by a vote of 257 to 251 the Opposition amendment to the Premier's resolution of the veto power of the House of Lords which was moved by Sir Robert Finlay and agreed that the Premier's motion should go to committee without division. The House was crowded, and many peers and diplomats were present. The announcement of the figures showing that the Government was sure of a majority of 106 for the veto resolutions was greeted with prolonged ministerial cheers.

**Gleanings.**

All one's life is a music, if one touches the notes rightly and in tune. But there must be no hurry.

Japan's chrysanthemum flag is probably the oldest national banner in existence. That of Denmark is the oldest among European nations.

A cheap coat doesn't necessarily make a cheap man, but it makes him feel that way at times.

It is fortunate that the best man at a wedding is content to take second place.

The first trial for breach of promise of marriage in England was in the reign of Queen Elizabeth. France and Belgium had no legislation until about twenty years ago.

Let us consider that day wasted in which we have not lightened the burden of someone else. We will not have to go far to find someone in trouble. It may be only a child who has got a lesson it cannot understand, but if no one else thanks you that child's angel will do so some day.

A poor man served by thee shall make thee rich;  
A sick man helped by thee shall make thee strong;  
Thou shalt be served thyself by every sense  
Of service which thou renderest.

E. B. Browning.

That we have power over ourselves to do  
And suffer—what, we know not till we try:  
But something nobler than to live and die.

—Shelley.

**The Cause of Beri-Beri**

A despatch from Manila, P. I., dated March 11, states that the Far Eastern Tropical Medical Association, in session there, has accepted the proof offered by Prof. Henry Fraser, director of the Straits Settlements Institute of Medical Research, as to the etiology of beri-beri, which he declares is simply a disorder of nutrition brought on by the eating of rice, which lacks phosphorus. Prof. Fraser in this first announcement of his discovery explodes the time-honored theory that the disease is due to infection or locution. He declares that the steam-milling rice process is essentially faulty, because the high polish which produces the best quality of white rice removes the phosphorus contained in the pericarp. Dr. Fraser adds that the use of the cheaper grades of unpolished rice or the mixing of white rice with the polshings restores the phosphorus and eliminates beri-beri.

The Bureau of Health declares that Dr. Fraser's discovery is of the greatest value. Dr. Aron, of the Philippine Medical School, working independently of Dr. Fraser and experimenting on animals and natives, reached the same conclusion as the director of the Straits Settlements Society. Beri-beri is prevalent to a great extent among the masses of Filipinos, especially in the prisons, soldiers' camps and workmen's shacks. The victims number 10,000 every year in the Philippines. The discoveries of Prof. Fraser and Dr. Aron are therefore regarded as of the greatest importance.

**BORN.**  
On Sunday, April 3rd, a son to Mr. and Mrs. M. J. Morris.

**MARRIED.**  
On Wednesday, March 30th, at the C. E. Cathedral, by the Rev. J. Brinton, Mr. Frederick Charles Moore to Miss Ellen Mary Pippy, both of this city.

**DIED.**  
At Holywood on March 30th, of meningitis of the brain, Mary, the only daughter of E. J. and Minnie Quinlan, aged two years and eight months.

**Roosevelt Again.**

Special to Evening Telegram.  
LONDON, April 4.  
The morning newspapers devoted considerable space to despatches concerning Mr. Roosevelt's difficulty with the Pope, and with the exception of the Times they make no editorial comment. The Times thinks that it is very unfortunate that Mr. Roosevelt and the Pope cannot meet since they both desired a meeting and both had the best reasons for desiring it. Proceeding to dilate upon the great part Mr. Roosevelt played in shaping the policy and ideals of a mighty nation, whose Catholic citizens can be counted by the millions, the paper says that such a meeting might have borne good fruits. Even if the charges against the Methodists were justified, the Times doubts whether the Pope's advisers have shown sound policy in the judgment in introducing the subject in reply to Mr. Roosevelt's request for an audience. It made the refusal of an audience almost certain, while had the Vatican trusted in the good sense and good feeling of this great American it could not be imagined that this trust would have been in vain. Mr. Roosevelt might have seen the Methodists afterwards, but if they had expected him to denounce either Papey or the Pontiff they would have been sorely disappointed.

**Fire at Ayre & Sons' Premises**

Ayre & Sons mammoth departmental stores narrowly escaped destruction at 11.30 to-day, and but for the promptness and energy of the employees they might have been badly damaged. In the wholesale hardware department on the third floor Mr. Diamond's men were sealing some tins of paint received in a damaged condition, when in some way a quantity of turpentine was spilled over a gasoline stove near the result was that the fluid caught fire, the flames quickly spread to the windows and walls, the apartment was filled with smoke, and Mr. Jas. Ayre telephoned the Central Fire Department, the men responding with their apparatus. While the firm were rushing to the scene the employees used the "Protector" fire extinguishers kept in the building, and in less than 5 minutes the chemicals coming from the short hose attached to these had quenched the blaze. The window ledges, walls and stock were damaged to the extent of about \$400.

**POLICE COURT NEWS.**

To-day two drunks were discharged with a disorderly; another disorderly was fined \$2 or 7 days. Several civil cases were adjudicated upon in the C. D. Court.

**Personal Notes.**

Rev. J. Roe, P. P. Harbor Main, arrived in town by the shore train to-day.  
Rev. Mr. Payne arrived in town by the morning train on a business visit.  
Mr. Stroud, the erstwhile famous guide and trapper, who is now doing business at Grand Falls and Bishop's Falls, arrived here by yesterday's express.

**Here and There.**

**LOADING FOR MARKET.**—The Water Witch is loading at Bishop & Sons wharf to-day for Brazil.

**MR. McHALE IMPROVING.**—Mr. E. McHale who was stricken with paralysis lately is improving.

**FLIPPER SUPPER.**—A flipper supper will be held at the Whittier Hotel to-night by the People's Club. Fifty guests will be served.

**A FALSE REMOUL.**—To-day a report was about the city to the effect that the Neptune was in Westville loaded with hoods. It was evidently false as Job Bros. knew nothing of it.

**PAINTING SAVINGS BANK.**—Mr. Philip Hays with a staff of men is engaged painting and decorating the Newfoundland Savings Bank. It will be in fine condition when finished.

The sch. Dorothy Baird, Capt. Keeping, left Brazil for Barbados yesterday.

## Littledale Garden Party

We beg to announce that a Garden Party will be held at Littledale Grounds on Wednesday, July 13th, the proceeds to go to the Building Fund. In making this announcement it is confidently hoped that the same magnificent response will be made by the good ladies, who so successfully lent their valuable assistance and contributed in such a magnificent manner to Littledale's venture in this respect last year. Their wonderful

energy and generous efforts last August, under most depressing circumstances, will not easily or soon be forgotten, and give us great hope of what can be done where generous hearts and whole-souled efforts are blended and accompanied hand in hand with unbounded enthusiasm. Any ladies wishing to assist—and there are many such—may commence as soon as possible, at, of course, their own convenience. A meeting will be held later when plans, etc., will be discussed. A deep debt of gratitude is due to all who so

generously assisted last year, and in the same successful hands, with the co-operation of all who desire to help, a great success in the venture of 1910 is fully assured.

## CAPE REPORT.

Special to Evening Telegram. CAPE RACE, To-day. Wind N. W. strong, weather fine. A Furness liner passed west at 5 p.m. yesterday, and schr. Nellie, west, at 9 a.m. to-day. Bar. 29.45; ther. 32.

HAPPENS ONCE IN 80 YEARS.—In the spring of 1913 Palm Sunday will come on the 18th, the day before St. Patrick's Day. It will not happen again for 80 years.

B. L. S. TOURNEY.—Another match in the B. L. S. tournament was played at their rooms last night by Messrs. L. and P. Walsh. The latter won by 10 points.

ST. ANDREW'S L. A.—At the annual meeting of the St. Andrew's L. A. held last night, Mr. R. A. Templeton was elected President; G. Garrick, Vice-Pres.; H. Mitchell, Sec.-Treas. Capt. Linklater occupied the chair. The reports for the year just closed proved that the Society is in a flourishing condition. The membership increased at an unprecedented rate the past year.

MINARD'S LINIMENT CURES COLDS, ETC.

## To the Municipal Electors of St. John's

Gentlemen.—At the request of a number of ratepayers I have decided to allow myself to be placed in nomination at the forthcoming Municipal Election.

If honored with your confidence I shall do all in my power to advance the interests of the city, consistent with due economy as regards the revenue at our disposal.

In particular, in the carrying out of the provisions of the new Municipal Act, I shall at all times consider the individual circumstances of the citizens, as well as the benefit of the community generally.

Respectfully yours,  
ap5.11 P. LARACY.

## C.E.T.S. Meeting.

The following officers were elected at the annual meeting of the C. E. T. S. held last night:—Rev. Canon White, President, ex officio; Rev. Jas. Bell, Chairman; Sir J. S. Winter, H. S. Hayward and Thos. Hussey, Vice-Presidents; Warwick Smith, Treas.; R. G. McDonald, Secretary; Gordon Pike, Assistant Secretary; Mrs. Bell, Financial Secretary; Ada Whitten, Asst. Fin. Secretary; Committee: Messrs. G. Summers, Hobbs, Ryall, F. Udle, E. Loder, A. Rees; Mrs. Bennett, Mrs. Smith, Miss A. Miller, Miss S. Ryall, Miss Ida Lush and Miss E. Crocker.

The meeting was quite enthusiastic. Rev. Canon White presided during the first half, and Rev. James Bell, the second half. The Society has now a membership of 410. The financial standing is good, the increase being \$989; and expenditure \$897. The success of this great Society the past year or two is largely due to Rev. James Bell.

## St. Bon's Association.

The ladies of St. Bonaventure's Association are holding their annual dance to-morrow night in the British Hall. No efforts are being spared to make the dance a big success. A large number of tickets have been sold, and from present indications it would appear that a very enjoyable time is assured for those who attend. By the kind permission of the officers commanding the Newfoundland Highlanders the decorations used at the Highlander's Ball have been allowed to remain up, and the hall in consequence presents a very attractive appearance.

## Painful Stitches in the Back

No one but those who are afflicted with the dreadful Kidney Disease, knows what this means, and you who are so afflicted will forget all about it in a few days if you are only wise enough to take FIG PILLS. FIG PILLS are guaranteed to cure you. If not, your money back.

25c. a box, at all leading drug stores.  
T. McMurdo & Co., Selling Agents for Newfoundland.

## First Allan Liner Here.

The Allan Line Royal Mail Steamship Siberian, Capt. J. Hall, arrived here at 5 p.m. yesterday after a run of 9 days from Liverpool. She left that port on the 26th inst., and had excellent weather all through, it being particularly a summer voyage. Sunday last when nearing this coast she met dense fog, but this did not delay her much, she made in at Cape Race yesterday and had a great run down the shore. She brought 1,000 tons of cargo, 4 bags mail and these passengers:—P. W. Ayre, Mr. and Mrs. Frank Jackman, Mr. and Mrs. H. Knowling and infant, W. H. Peters, Alex. Robertson, Miss Seymour, Mr. Stick, Miss Stick and W. Wright. The ship sails to-morrow for Philadelphia.

## With the Sealers.

Most of the Algerine's crew left here yesterday by the evening train for various parts of Conception Bay. Up to 6 p.m. yesterday the Florizel landed 9,480 young harps which gave the fine average of 45 1/16 lbs. It is expected she will finish Saturday. The Newfoundland discharged 6,800 seals with the big average of 51 lbs. The Ingraham sails to-day with a number of the crew of the Algerine.

## Times May Change

By our quality never does. We always stock high grade clothing and pay the best prices for them. Every article bought in our establishment means the finest quality. So if you are looking for an up-to-date ready-made suit to give you satisfaction, try B. FRIEDMAN, 301 Water Street, Water Side. P. O. Box 5. Phone 546.—ap5.11

## The C. A. A.

A hat debate will be held in the Cochrane Athletic Rooms to-night. The season was a most successful one, and to Mr. Geo. Grimes who had charge of the debates great credit is due for his attention to detail and the creditable manner in which the debates were arranged.

To-night's meeting opens at 7.45 with a half hour's religious service, and the debate begins at 8.15.  
Pianos and Organs. Intending purchasers would do well to call and see our Stock before buying. Terms and prices to suit. CHESLEY WOODS, The White Piano & Organ Store.—mar26.11.

## Here and There.

LECTURE BY MR. GOODLAND.—Mr. W. H. Goodland will lecture in the British Hall next Monday on "Rambles in St. John's during the last century."

Miss Lillian Cowan is prepared to give Music Lessons. Special attention to beginners. Address: 37 Queen's Road.—ap5.31.tu.11s.

MISS TREGAN'S FUNERAL.—The funeral of the late Miss Lillian Tregan will take place to-morrow at 2.30 from her late residence, 24 New Gower Street.

FOUR ARRESTED.—Four drunks were arrested by the police last evening; one being a boy who was given in a charge by his mother.

ANNUAL SPORTS.—The Methodist Guards will hold their annual sports on the 13th. There will be a relay race, tug-of-war and basket ball.

PILES CURED IN 6 TO 14 DAYS. PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.—oct26.11s.

INGRAHAM BACK.—The D. P. Ingraham which took the crew of the lost Iceland to their homes at Greenspond, etc. Saturday last, returned last night.

TAKEN TO HOSPITAL.—The ambulance was called to Monkstown Road yesterday to take to the Hospital a young boy named Cleary, who will undergo treatment for spinal trouble.

Sewing Machines.—We sell one make only equal to any in the world. Call and see them. Terms arranged to suit. CHESLEY WOODS, The White Piano & Organ Store.—mar26.11.

MONEY RETURNED.—On March 19th we advertised the loss of a purse containing a sum of money. The purse, which contained \$40, was picked up by Mr. P. Dalton, of the Boot and Shoe Factory, and returned to the owner.

## In Aid of College Fund.

The Girls' Guild "At Home" in the Methodist College Hall, on Wednesday, April 6th, at 4 o'clock. Afternoon tea and music. Performers:—Mrs. G. W. B. Ayre, Misses Herder, Morison and Story and Master Steele. Cut flowers, candy and cake for sale.—ap2.s.m.t.

Mr. Geo. Sommerville, of Barr's office, who went to England for a trip in February last, says the spring had opened there after the 15th of that month and the primroses were then in bloom. The grass was quite green, the trees budding out like in early June in this country. It was remarked that it was an exceptionally late and early spring even for England.

## First Allan Liner Here.

To whom it may concern: This is to certify that I have used MINARD'S LINIMENT myself as well as prescribed it in my practice where a liniment was required and have never failed to get the desired effect.  
C. A. KING, M. D.

The popularity of the auto bonnets has been so great the past season that their sisters, the real old-fashioned poke bonnets, are being shown for spring wear. They are bedecked with ribbons as well as with flowers, and all, in all, are quite bewitching.

# Forest Fire Protection.

## Conference of Government and Lumber and Pulpwood Owners.

In accordance with a notice given by Sir E. P. Morris in the Legislature during the last session, a meeting on the subject of the preservation of our timber areas from destruction by fire was held last night in the Executive Chambers at the Court House. Sir Edward occupied the chair. Amongst those present were: Hon. Sir E. P. Morris, who presided; Hons. D. Morrison, R. Watson, J. C. Crosbie, S. D. Blandford, M. P. Gibbs, M. P. Cashin, C. H. Emerson, Messrs. H. C. Crowe, Grant, Strong, Otto Emerson, Scott, W. Horwood, Gulnac, Harris, Howe (Chief Ranger), Pelley, Hon. W. C. Job and Hon. J. B. Ayre. In his opening remarks the Premier requested the absence of Mr. W. D. Reid, President of the Reid Nfld. Co., but assured all that Mr. Reid would heartily co-operate in any efforts that might be advanced for the attainment of the object for which the meeting was called. The meeting was convened in response to circulars sent out some time ago, and all who had received them recognized the necessity for immediate action to obviate forest fires in the future. Future losses must be at all hazards prevented. He was appalled at the potential wealth lost to the country by forest fires. Sir Edward quoted from the following letter received from Mr. Mayson M. Beeton, President of the Anglo-Newfoundland Development Co., which he read at the close of the meeting.

### MR. BEETON'S LETTER.

Dear Sir Edward—I greatly regret that, owing to my departure for England next week, I shall be unable to attend in person the conference which you have called between representatives of the Government, the Reid Newfoundland Railway and the owners of timber limits, to discuss the all-important question of forest fires in this island, and the possibility of devising some practical means for their prevention.

Mr. William Scott, C.E., will attend the conference as the representative of the Anglo-Nfld. Development Co. in my place, and there is no one, as you are aware, who is better qualified—from his long experience in the island as an engineer and surveyor, and his knowledge of all parts of the interior of the country—to assist the conference in arriving at some practical solution of this most pressing problem. The urgent necessity for devising some practical and efficient method of preventing the origin and spread of forest fires in this island is now generally recognized by all responsible and thinking persons in the community.

But it is, perhaps, doubtful whether public opinion, generally speaking, throughout the island, and outside St. John's, has yet been sufficiently awakened to a knowledge of the facts of the case, and of the incalculable damage which has already been done through the destruction of vast forest areas by forest fires in this island during the last 15 or 20 years, and especially of the losses which this destruction of the "Forest Capital" of Newfoundland, if it is allowed to continue, must cause to the wage-earning classes of the community.

I do not think that too much emphasis can be laid on this aspect of the question. What the development of its forest resources means in cash to the wage-earners of Newfoundland has been shown as a practical object lesson in the expenditure on the mills which have been and are being erected at Grand Falls and Bishop's Falls. There is no reason why this island should not be dotted with similar enterprises on a smaller scale, just as Scandinavia is to-day, provided effective and immediate steps are taken to prevent the devastation of its forest areas by fire. What the construction work alone which would be entailed in connection with such enterprises would mean to the wage-earners of this Colony, and as a consequence, what a vital and permanent interest they have in the conservation of the forest resources of the interior—on which must depend absolutely the possibility of establishing and maintaining such enterprises—may be equally well illustrated by a very simple calculation as to what the manufacture of every ton of paper produced in this Colony will bring in as wages to the community.

Every ton of paper represents at least \$12, paid to the wage-earners engaged, directly or indirectly, in its manufacture and handling from the time the tree is cut down in the forest to the time that the finished product is put on board ship.

Every ton of paper represents, roughly, a cord and one-half of wood.

**Vapo-Cresoline**  
Established 1875  
FOR WHOOPING COUGH, CROUP, ASTHMA, COUGHS, BRONCHITIS, SORE THROAT, CATARRH, DIPHTHERIA  
Vaporized Cresoline stops the paroxysms of Whooping Cough, ever-dreaded Croup, and whooping Cough. It soothes the sore throat and stops the cough. It is a boon to sufferers of Asthma, Bronchitis, and Croup. Cresoline is a powerful germicide, acting both as a curative and a preventive in contagious diseases. Cresoline's best recommendation is its thirty years of successful use.

Cresoline, Antiseptic Throat Tablets, simple and soothing for the throat, and for the relief of Laryngitis, Whooping Cough, Croup, etc.  
Looming, Mills Co., Limited, Agents, Montreal, Canada.

An acre of good forest land will produce, roughly, 9 cords to the acre. In other words, every acre of good forest land supplies the raw material for about 6 tons of paper, and, therefore, represents not less than \$72 as a potential source of wages. Translated into square miles, this means that every square mile of good average forest land, which is preserved from devastation by forest fires, represents over \$45,000 preserved as a source of wages to the community.

What the loss has been in the past, in view of the hundreds upon hundreds of square miles which have been destroyed, it is impossible to estimate. I know that the late Mr. Miller put it down as being many millions of dollars.

But it is with the future, rather than with the past, that the actual work of the conference will have to deal. If tens of thousands of acres which have been ravaged by fire can be preserved from similar ravages in the future, then Nature will do her work, and, with the natural re-growth of the forests, will re-stock the valleys and hillsides once more with her "Forest Capital," on which future generations may draw.

That forest fires can be to a very large extent entirely prevented, and that when they do occur they can be fought, and the damage very largely minimized, has been amply proved by the success of the measures which have been taken by the Provincial Government in Canada, where the conditions are very much the same as here. I presume that it will be advisable to proceed on the same lines which have proved so successful in their case, by enacting similar legislation and administrative measures, and, above all, by providing for their rigorous enforcement.

I feel sure that with the hearty co-operation of all parties primarily interested—the Government, the railway lessees, and the timber owners—a practical solution of this problem can be satisfactorily worked out, and that for a comparatively small annual expenditure it will be possible to insure for Newfoundland and her people in the future the preservation of the forest wealth with which Nature has endowed her.

Wishing you all success in your deliberations, I am,  
Yours sincerely,  
A. N. D. CO., LTD.  
MAYSON M. BEETON,  
President.

P. S.—You are, of course, at liberty to make use of this letter as you think fit.

Sir Edward here commented at length on the letter, especially on the value of each mile of pulp land to the people of the country. Figuring that 7,000 square miles of the Colony's total area was pulp land, the potential labor value of such property would be \$315,000,000. The late Lewis Millie computed that \$100,000,000 worth of pulp wood had been lost to this country through forest fires. The recuperative capacity of the land was lost and it has been demonstrated scientifically that the destruction of forest growth reduced the waters of streams, whole rivers with their fish life were dried up and climatic conditions were also altered as a result. Areas burned twice or thrice lost their power of reproduction, and if capital was to be induced to come her, our forests should be protected. I had been suggested that persons going into the woods be registered, the fire wardens be appointed, patrol cars be employed, and a system of daily reports be adopted. Sir Edward stated that the Reid Nfld. Co., Anglo Nfld. Development Co., Albert Rice Co., Mr. Gulnac and others would co-operate in the movement. After the Premier's speech the meeting was addressed by Messrs. Otto Emerson, F. Horwood, Mr. Scott, Mr. Gulnac, Hons. W. C. Job, D. Morrison and C. H. Emerson. These gentlemen gave interesting experiences as regards fire in the interior and valuable suggestions as to the means to be taken to cope with or obviate them.

Mr. Otto Emerson stated that patrol cars would cost about \$230 each, and thought that four would be sufficient. The cost of operation would be, for five months, about \$1,050.

Mr. Howe had seen ten fires burning over a mile of territory and did not consider that patrol cars would be sufficient to attain the object aimed at.

Mr. Harris stated that at Grand Falls they had patrolled about 30 miles of railway track, each man being seven miles apart and reporting daily. The whole track was patrolled last year and with one exception all the fires (about 100) discovered were quickly quenched. Patrol cars would not be sufficient, and the different companies should employ men on whom they could rely.

Mr. Horwood said that cinders and coal getting on the tracks were a prolific source of forest fires. He knew the Reid Company were as interested as any others in putting an end to such conflagrations and had instructed their engineers and firemen to be careful, but orders were not always obeyed and this was the cause of many fires. He had seen firemen throw shovels full of hot coal out in the woods, and had told them they should be ashamed of themselves. This conduct should be penalized. Hot ashes should not be thrown on the tracks or in the woods, and spark arresters were a great necessity on engines. Mr. Howe, Chief Ranger, stated he had not been allowed to examine the engines since last June 12 months. He had found the meetings of the spark arresters in good order, but the angle irons did not fit properly on the engines and thus hot coals were forced through. The engines should be inspected every 15 days when sold by the Government inspector, who should examine the spark arresters and matches thrown from

the smoking cars were also a source of fires and windows of such coaches should be fitted with wire netting to prevent this, while warnings against such conduct should be placed in the coaches.

Mr. Scott had a good deal of experience in matters of this kind, and for the past two years found that foot patrols gave much satisfaction and would cost about \$40 per mile for the season. The Railway Company might be induced to take greater interest if two men were employed at each section to watch forest fires, and these could patrol seven miles. He had known of 67 fires in a distance of 15 miles last season, but thanks to the foot patrols none of these got beyond control. He thought motor patrol cars would go too fast for the men on them to notice small fires which might become later big conflagrations. Carelessly discarded matches, cigars and cigarettes were a great danger. There was very grave danger at Deer Lake of fires becoming there would destroy more timber than in any other section of the island. The Humber Valley, the finest in Newfoundland, should receive special protection, and the patrol should extend from St. George's to Terra Nova at least. From Little River to Terra Nova would be at least 300 miles, the patrolling could be done for \$30 per mile, and the cost for the season would be about \$1,170.

Mr. Gulnac sincerely believed in the effectiveness of the patrol. His men had put out 40 fires in 7 miles of territory last year. The men should be in charge of those on the spot when patrolling. Some engines did more damage than others, and last year one engine was accountable for more fires than all the rest together. Hot ashes should be dumped out at the stations or near settlements. He thought our people should be educated to the danger of forest fires, as many had in recent years fought them, saw how they had menaced life and property and realized that they tended to destroy their means of livelihood, so that this would engender a spirit of carefulness.

Hon. W. C. Job thought that the carelessness of firemen and engineers in a great measure caused fires, and that patrols would not be sufficient unless this were checked.

Mr. Gulnac thought patrols would make them more careful because they would have to report fires and the causes which led to them.

Mr. Howe thought old railway ties thrown on the track were a great source of danger, and that early in May inflammable grasses near the track should be burned off.

Mr. Harris thought a daily patrol was necessary. Sparks from engines going over grades blew from 30 to 60 feet from the track.

Hon. D. Morrison said the Government were pleased to see so many interested gentlemen attending to discuss this important matter. About \$15,000 would enable proper steps to be taken to cope without forest fires.

Hon. C. Emerson was assured by interested Americans that they would heartily co-operate in the effort being put forward to abolish fires.

Mr. Scott had the idea of sending men to watch with axes from which to discern fires in their incipient state and thus have them quickly quenched.

The Premier upheld this and said that in the State of Massachusetts wagons were compelled to carry water in the summer and fall months to quench fires, while in New Brunswick, Quebec and in Maine books were used in the schools, lectures given and literature distributed dealing with the losses accruing through forest fires.

Mr. Scott stated that unless stringent measures were now taken not a green stick would be left in the country 20 years hence.

The Premier said that rules and regulations should be formulated and attention given Labrador. The Government would do its utmost.

A committee meeting was held today in the Agriculture and Forestry Office to formulate means to deal with the whole question of the preservation of our forests.

### A New Candidate.

Mr. P. Laracy, Dry Goods merchant, West End, publishes in this issue of the Telegram the announcement that he intends to come out as a candidate in the elections for City Councillors, in June next. Mr. Laracy is too well known in the community to need any introductory remarks from us. Through industry, sobriety and prudence he has built up an independent business, and such a man at the City Council Board would be guaranteed to the taxpayers that there would be an honest and economic administration of civic affairs and that the interests of the public would be well looked after. We believe that Mr. Laracy's candidature will meet the approval of all the voters who know him.

### Twitching of the Nerves

Wonderful cure brought about by DR. A. W. CHASE'S NERVE FOOD.  
It is only by watching the symptoms of nervous exhaustion and applying restorative treatment that you can ever hope to ward off locomotor ataxia and paralysis.  
Mrs. E. J. Vanderburgh, of Eastern Welland Ave., St. Catharines, Ont., states:—"For twenty-one years I was badly afflicted with heart trouble, nervousness and cramps in the limbs, and twitching of the nerves and nervous headaches. I became weak, debilitated and emaciated. My condition was distressing and I was made worse through worry and loss of sleep.  
"I tried a hundred remedies in vain. After having used half a dozen boxes of Dr. Chase's Nerve Food my old trouble had entirely vanished, and I was enjoying better health than I had since girlhood."  
Such cases as this prove the wonderful efficiency of Dr. A. W. Chase's Nerve Food. It acts in Nature's way by enriching the blood and for this reason by enriching the blood and its benefits are lasting. 50 cts. a box, all dealers, or Edmansson, Bates & Co., Toronto.

MINARD'S LINNET CURES DAN-DRUFF.

# EASTER ATTRACTIONS!

The past week has been a busy one with us marking off large shipments of English and American Goods. Each package opened bears evidence of the care and attention given by our buyers to those markets in their selections for our VARIOUS DEPARTMENTS.

## LAWNS!

Our American Buyer has been fortunate in securing an exceptional lot of these always useful Goods, totalling 10,12,14,16,18,20c. yd. 20,865 yards. Prices.....

Also, 50 pieces of SLIGHTLY IMPERFECTS, regular price, 25 cents, now 12 cents.

## American Muslins.

A magnificent display here, in fact the most elaborate range ever shown by us, and consisting of Mousseline-de-Luxe, Florodoro Batiste, Holleybelle Batiste, Ombre Cords, Poplin Traversines, Organdies, Japanettes, &c.

## American Neckwear.

We are showing very attractive lines in this particular, and will be found to be thoroughly up-to-date.

Prices: 20, 25, 35 and 40 cents each.

# MILLINERY!

## Ribbons.

We have made every preparation here for a BUSY Season.

NEWEST MAKES. LATEST STYLES.

We are ready for the EASTER TRADE IN THIS DEPARTMENT. OUR STOCK IS NOW REPLETE WITH ALL THE NEWEST SHAPES AND STYLES in

Children's and Ladies' Trimmed and Ready-to-Wear Millinery. English and American styles.

## Veilings.

This accessory to a Lady is always wanted.

A good display in all the NEWEST STYLES and COLORS.

## Ladies' Belts.

87 dozen of a JOB LINE in ELASTIC, LEATHER and WHITE WASH BELTS.

Price: 17, 25, 35, 40 and 60 cents.

THE NEWEST IN HAIR ORNAMENTS, HAIR PADS and FRAMES, CROWNS, HAIR BRETTEs, SIDE COMBS AND PUFFS.

# LACES!

Our Ranges of Laces, Insertions and All-Overs are now complete with attractive Goods. This is always a strong Department with us.

# MARSHALL BROS

### Lecture by I. C. Morris.

The lecture given by Mr. I. C. Morris on "Newfoundland: A Glance at its Past and a Glimpse into its Future," at the British Hall last night, was as enjoyable as it was instructive.

Mr. W. H. Goodland introduced the lecturer in a few well chosen words. Mr. Morris then came forward and in graceful manner and elegant diction and clear enunciation proceeded to discuss the subject. He referred to the meagre knowledge and erroneous ideas that people abroad have of Newfoundland. They have a mental idea of a small island somewhere near Greenland, enshrouded in fogs and icebergs, devoid of industries, educational facilities, etc. They have read of such things in books and newspapers which have grossly misrepresented our Island Home.

Mr. Morris said that he had travelled much over the country the past 20 years. He had visited the homes of the people, talked with them and learned that our natural resources were so great that not the half of the merits of our country's resources had been told. Mr. Morris reviewed the past history of the colony, giving due praise to the pioneers who by their pluck and industry accomplished great work that we, their heirs, now enjoy. The codfishery, the sealfishery and railway building and its consequent development were dilated upon in a sympathetic and able manner. In taking a "glimpse into the future" Mr. Morris foretold great industrial and educational progress. Party lines will not be so acutely drawn as

### McMurdo's Store News

TUESDAY, April 5.  
The "Revelation" Comb has "won out" wherever it has been used. It is a light and elastic yet very tough and strong comb, being made on a new principle which combines in an admirable degree lightness and strength. We have three different sizes. If you want a really first class comb, ask to see the "Revelation".  
Pine Tree Lozenges should not be forgotten, as the winter is evidently not quite over yet. They are most soothing and pleasant in cases of cold, roughness of the chest, hoarseness, etc. This lozenge has had a great sale and become very popular. Price, 25c.  
Don't forget the standard price of the Ever Ready Safety Razor, \$1.

### CONCERT FOR BLIND MAN.

The entertainment that was to take place during Lent to procure funds to purchase new barrels for the blind man's street Piano, and for which kind permission of His Grace Archbishop Howley was given, comes off on Friday evening next at the T. A. Hall. Some of the best singers and reciters have offered to help. Before the entertainment begins the blind man will render some new pieces on the Piano, which has just been imported from London. Tickets at Atlantic Book-Store, reserve seats 30¢, general admission 20 and 10 cents.

### S. U. F. MEETING.

The regular monthly meeting of the S. U. F. will be held to-night at the usual time and place. A full attendance is desired, as business of importance will be discussed.

### GEORGE STREET SOCIABLE.

The Young Ladies of George Street Church, will hold their annual Sociable Thursday, April 7th, in the basement of the Church. An excellent programme has been prepared, and some of our leading artists will take part including: Misses Johnson, Ivany Messrs. Tuff, Courtney, Mawer, King and several others. Admission 25c. Ice Cream and Candy for sale. Doors open at 7.15. Concert to begin at 8 o'clock sharp, tue.wed.thur.

### Tragic Death of Quebec Woman.

Quebec, March 27.—With her mind unbalanced after a severe illness, Madame B. Giroux, the mother of four children, saturated her clothing with kerosene oil and then set them on fire in her home at Montmorency Falls yesterday.

The woman was burned almost to a crisp before being discovered by her husband. Mrs. Giroux had been ill for some time and her mind had become unbalanced. Before her husband left for work this morning she acted strangely and told him that both he and she were to be hanged to-day. The husband decided that he would go to the factory and inform his employer and then return home. He left the house and had not been gone long when a fellow workman, passing the house later, noticed a brightness there. He continued on his way to his work, and meeting Giroux told him of what he had seen in his cellar, stating he believed there was a fire there.

Giroux hurried home and found his wife in the cellar in the manner described. The young children were in their beds upstairs and asleep and unconscious of the tragedy.

# THE EDUCATION QUESTION AT GRAND FALLS.

Large Public Meeting in the Town Hall  
—The Town's Committee Proposals  
for the Establishment of a First Class  
School Carried by Large Majorities.

For the past few years the educational question at Grand Falls has been given a great deal of attention, and the Town Committee here has been recently working very assiduously towards a solution of the difficulty that would suit, and be agreeable to all parties. The difficulty lies in the fact that each denomination is too small to provide a really first class separate school of its own, as is indeed the case throughout Newfoundland.

The Town Committee's proposals are embodied in the following document, and a mass meeting of all residents at Grand Falls was called together on April 1st to discuss and decide by popular vote whether these proposals should be adopted.

Grand Falls Town Committee,  
March 24th, 1910.  
Gentlemen.—We herewith tender our report on the proposed School including the scope of the syllabus and the ways and means of maintaining the said School.

1. (a). Instructions in Elementary Subjects to the usual Standard.  
(b). The advanced section of the School will provide teaching in the following subjects:—

Literature—English, Logic—Deductive, Mathematics—Algebra, Euclid, Trigonometry, Mensuration, Plane and Solid Geometry, Mechanical Drawing.  
Languages—One Classical, one Modern.  
Physics and Chemistry—Mechanics, Electricity, Magnetism, Sound, Light and heat.

Physiology—Physiography, Natural Sciences—Geology, Botany, Domestic Economy—Girls, Agriculture, including Horticulture or Manual work—Boys.  
2. The estimated cost of maintenance, we judge, \$3,500.00, made up as follows:—

Teaching Staff	\$2,500.00
Rent and Repairs	800.00
Fuel and Attendance	200.00
<b>Total</b>	<b>\$3,500.00</b>

Our suggestion to meet this would be:—  
(1). Educational Grants \$500.00  
(2). Contribution Town Committee 400.00  
(3). School Fees, say 150.00  
(4). Voluntary Contributions, 100.00

Deficit \$1,150.00  
Total \$2,350.00  
This, you will observe, leaves a deficit of \$2,350.00.

We find it difficult to formulate any plan for securing this amount, but it has been suggested that some portion of this deficit would probably be made up very willingly by the residents of Grand Falls, especially those whose children would reap the benefit of the first class educational facilities.

It is well known it is the Company's earnest desire that really first class school facilities should be provided, and we are authorised to say that if the parents and people are willing to come forward as suggested below, the

## The Craving for Drink Often a Result of Weakness.

"I think I would have given up drink sooner if I hadn't been run down and nervous. I had to take it to keep me up," explains Mr. G. H. Eckerd, Toronto. "At the last I had to do something, my hand got so trembly, and I was so easily over-heated and rattled that I could not properly keep up my set of books, and I could see that the boss had his eye on me. Our stenographer had been cured of nervousness by Ferrozone, and when I happened to say I had a nervous night, she told me of her experience, and assured me Ferrozone would suit me just as well."

"As a matter of fact it did suit me. It entirely overcame all nervousness. But it taught me that if a man makes his blood purer and stronger, his nerves get strong too. When this happens he does not need a brace, and gets out of the way of feeling the need of stimulants, and this makes Ferrozone a remedy worthy of taking by everybody whose nerves are weak and blood impure and watery."

Everyone in a nervous, sleepless, run-down condition will be quickly restored to health by Ferrozone. Try it, 50c. per box, six for \$2.50, all dealers, or The Cattarozzone Co., Kingston, Canada.

## Rheumatism Cured In 3 Weeks By Father Morriscy's "No. 7" Tablets.

Mr. James LeB. Johnstone, a prominent member of the Citizen's Band, of Chatham, N.B. writes:—  
"I contracted Rheumatism by exposure five years ago, and was ailing for two months and in great pain all the time. I got Father Morriscy's No. 7 Tablets, and took them for about three weeks, when the Rheumatism all left me, and I have had no return of the pains since."  
"Father Morriscy's No. 7" Tablets have a remarkable record of cures of Rheumatism and Kidney Troubles. They act directly on the Kidneys, which have become clogged with impurities and are therefore unable to free the blood of the poisons it is continually gathering from every part of the body. The tablets clear the kidneys and tone them up for their work so that they can properly purify the blood. Once the Uric Acid is taken out of the blood the agonizing pains stop, and the Rheumatism is cured. "No. 7" tablets cost 50c at your dealer's, or from Father Morriscy Medicine Co., Ltd., Chatham, N.B. 19

ing the last few years by handing over special donations out of their special funds, which were voted as "Grants for Destitute Localities." The chairman went on to say that the Company hopes to make the best paper because it has the best "Stock" (as the papermakers slang terms their "raw material") in the world.

The boys and girls of Grand Falls were also as good as the best "Raw Material" in the world, and they wanted to turn out the best men and women in the world.

The first resolution was then read, and Mr. Frew proposed it.  
Mr. Frew thanked Mr. Beeton on behalf of the audience for his eloquent speech in opening the meeting, and pointed out that the present school building at Grand Falls was not very good, and certainly not large enough, for some children had to be refused on account of lack of space. The offer of the Company was a splendid one and should commend itself to every intelligent man and woman.

Mr. Hickman seconded the resolution, and said that what Newfoundland wanted was energy, which comes from education, and this was the most pressing need in Grand Falls. The education provided for in the Syllabus just submitted is better than any given in any other outpost. "Where is the man who is not going to provide for his children? Surely he is far-seeing enough to realize that his children must have a good education to succeed nowadays. Who would not give 10c., nay, 50c. a month to utilize such a grand offer as has been made us?"

The question was supported in a few well chosen words by Mr. A. Corner.  
Mr. Leary asked the chairman if any provision was made for religious training in the school, and Rev. Fr. Dwyer wished to know what kind of religious atmosphere was to be around the school, for it was essential to Catholics to know.

Mr. Beeton pointed out that under the Town Committee's proposals the people would elect by popular vote a School Committee who would deal with all such matters, and every question appertaining to the management of the schools.  
The resolution was then put and carried amid applause by 121 votes to 40.

The second resolution was proposed by Mr. Josiah Goodyear, who spoke of the miserable means of education in vogue in his youth, while to-day in Grand Falls there was held out a magnificent offer of a school second to none.

"Nothing of public benefit can be had if the people do not pay, and why should not the men of Grand Falls subscribe, each according to his means?"  
Mr. M. S. Sullivan addressed a very

stirring speech, seconding the resolution and supporting Mr. Goodyear. He thanked Mr. Beeton for showing his interest in the welfare of Grand Falls, and also for representing the Company, of which he is President, and which was doing so much in the interest of the children.

"What mother would not like to see her child equipped for the fight of life? What mother would not hasten to avail herself of the opportunities now held out?"  
Perhaps some denominations would not like to join in the Amalgamated School. Well, if that were so they could have their own schools and subscribe for the purpose, and he knew that the Company would give them the necessary land.

It was very hard for all to see eye to eye in such matters, and that was the reason why Newfoundland was so backward in education. But here there would be a school, built by the Company without expense to the people, costing \$8,000 or \$9,000 and given for all time rent free; and not only this but a donation in money proportionate to the amount collected from the people on the monthly subscription system.

It was co-operative work that told, and that alone would solve the complex educational problem in Grand Falls.  
The Rev. Mr. Whittle pointed out that a religious atmosphere was not a detail but a very large factor in a child's life in a Christian country.

Mr. Dover then expressed the opinion that in Grand Falls denominational differences were greatly to be regretted, and that in a small place like Grand Falls all should join together for the common good. The religious side of education could far better be left in care of the parents and Sunday Schools.

The chairman hereupon reminded the audience that such discussion was departing from the order of the resolutions, and that these questions would be decided by the School Committee to be elected under the proposals.  
The chairman's remarks were followed by Mr. Sheppard's opinion that the school should be undenominational.

The second resolution was then read and the vote taken; it was passed by 129 votes to 14.  
The concluding resolution was brought on the table by the chairman, and Mr. Gay proposed it with an exceedingly pleasant oration. He pointed out that he was not a Newfoundland but hoped to stay in Grand Falls and become as one of its own people.

He had experience in his boyhood days of such a school as the promised one, in which he received secular education, while to his mother and father he owed his religious training. His experience was that the importance of up-to-date education could not nowadays be over-estimated.

He had great pleasure in proposing the resolution and did not doubt that the Town Committee would bring the business entrusted to them to a successful issue.

The platform was then occupied by Mr. T. Judge, who spoke as a Catholic. Not being a resident of Newfoundland he was not familiar with the ways and customs here, and was not aware of the keen difference of opinion existing on the subject of education, and how vital was the question. The Catholic Church and the Anglican Church did not look favourably on undenominational education, but the offer made by the Company was generous in the extreme, and the proposals put forward by the Town Committee were the best that could be made under any circumstances. Any other community would be fortunate under like conditions.

Mr. Saunders next gave his views in support of the resolution, the gist of which was the advantages to be derived by working together one and all.

Mr. Willett also contributed some well framed remarks to swell the tide in favour of the motions.

The third resolution was then read and carried by 114 votes for and 21 against.

This concluded the adoption of the resolutions for the evening, and all listened to the chairman's closing remarks with a feeling of satisfaction in having done their best for the future welfare and success of the children of Grand Falls.

Mr. Beeton again emphasized the fact that the school committee would have the power, as the elected representatives of the whole community, to deal with all details of management, and concluded by expressing his sincere belief that the decision come to that night would be remembered by many generations to come with gratitude.—Com.

Grand Falls, Newfoundland, April 2nd, 1910.

### Newfoundlander Drowned.

Another half masted vessel was in the harbor Tuesday, March 29, the fishing schooner Elva L. Spurling coming in with a flag in her rigging for the loss of one of her crew, John Yetman, of East Boston, who was lost from his dory during a heavy blow Monday afternoon while fishing about 20 miles southeast of the Cape Elizabeth Lightship. Capt. Gould, the master of the Spurling, says that during the forenoon thirteen men went out in their dories and at 1 o'clock all but one of them had put back. As Yetman did not show up with the rest the schooner commenced cruising around where he was last seen, and about 3 o'clock his dory was found floating bottom up. The wind was blowing heavy all through the forenoon, increasing to a gale during the afternoon, and the rest of the men had hauled their trawls as quickly as possible, hurrying to the schooner

#### HOW CAN WE COUNTER-ACT

#### THE INCREASED COST OF LIVING?

A second's reasoning will supply the answer. Beef and pork are dear and getting dearer all the time, and the cost is out of proportion with their food-value.

#### EAT MORE BREAD.

There is more nourishment in a shilling's worth of bread than a shilling's worth of beef or pork. But the problem is not done with yet. The shilling's worth of bread is not always the same value. Breadmade from

#### ROYAL HOUSEHOLD FLOUR

contains more nourishment than any other, because it contains the greatest amount of gluten, the health-giving nutriment of wheat.

### SCHOOL SHOES.

#### SAY, POP!

It seems as if all the Boys and Girls in our School are wearing Sage & Wallace's Shoes, so many of them have on their shoes. Said they paid only \$1.50 a pair for them. They are just dandies, and I am sure they will wear well, 'cause all of Sage & Wallace's Shoes do, and I heard some of the Boys and Girls telling each other about the splendid Stout Sole Shoes that they got at Sage & Wallace's, said they sold them at \$1.25 and \$1.35 per pair, and they're beauties too. This is the way the Children talk at home about our excellent School Shoes.

#### SAGE & WALLACE,

The People's Shoe Store, 312 Water Street.
