Declares She Was Too Weak to Stand

Miss Campbell of Winnipeg Regains Both Health And Strength In A Short Time.

"I just can't begin to express my gratitude for all that Tanlac has done for me," said Miss Florence Campbell, 380 River Ave., Winnipeg, Man. "My health gave way about two and a half years ago when I had a bad case of influenza, followed by a slight touch of pneumonia, and was in bed for weeks. When I finally did get up I was too weak to stand and it looked like I couldn't regain my strength. To make, bad matters worse I began to suffer so from stomach trouble that nothing I ate agreed with me and I got so nervous and restless I never got a good sound sleep.

"I am just like a different person now. My strength has all come back and I feel as well as I ever did in my life. I think Tanlac is the grandest medicine ever made."

Tanlac is sold by leading druggists everywhere.

Fishermen! Here's the Boot for You-66 Exec

"EXCEL" Made 'All in One Piece'

The Fishermen's Friend

All fishermen know from experience what happens ordinary boots when used in fishing. You've seen w salt water seems to take the life out of rubber

The "EXCEL" is a different and better kind of boot. It has been made especially to stand up under the unusually hard use a fisherman's boot gets.

The rubber and fabric in "EXCEL" boots are of the very highest quality. But it is the special method of curing, under tremendous pressure, that makes the "EXCEL" so wear-resisting. The pressure forces the layers of rubber and fabric together so that they are actually "one-piece", without losing the least bit of the

life or resiliency of the rubber. Salt water has practically no effect on "EXCEL" boots. The UPPERS remain pliable and weatherproof, and resist the drying-out action of sun, heat and extreme cold far longer than other boots. Consequently they don't crack anywhere near so quickly. The SOLES are almost wear-proof, because they are made like an Auto Tire, with 8 plies of rubber and fabric welded by tremendous pressure into a "tire-tread" sole that rivals an automobile tire for toughness and durability.

These are exclusive features of "EXCEL" boots.

The picture, at the right, of an "EXCEL" boot cut apart, with every detail of construction visible, shows how "EXCEL" boots are reinforced at every point of

And remember, too, that very important point which the picture cannot show, namely, that "EXCEL" boots are cured under tremendous pressure, which leaves the rubber pliable, weatherproof and wear-resisting. It is only by the use of this tremendous pressure combined with highest quality materials that the best results are obtained.

"EXCEL" Boots are sold by all reliable dealers from Coast to Coast.

Roil's Plank for Tenants.

In the course of my Real Estate Business a large number of tenants have complained of the exorbitant rents now being charged for Houses, Rooms, etc. I do not like to judge on any

matter by hearing one side.

After considering same I have deemed it wise to make it a Plank in my Election Campaign and I have pladged myself if elected to go into the matter in a business like way and to work out a system that will be more equitable to both Landlord and Tenant, and, if necessary, move for an appointment of a Commission (that will be a Roil Commission) to deal with all matmission (that will be a Roil Commission) to deal with all matterns concerning the Housing Situation. At present I fear some tenants are at the mercy of unscrupulous landlerds, but fortunately for some of us all are not of the same calibre.

In view of the above conditions—too well known to a large number of you, I want the earnest support of every Tenant in the City to put my Plank in operation.

It is up to all Tenants to give me the power my marking your X opposite the name of

The Real Estate Man. (In my next I will touch on the Sectarian Issue.)

A Liberal Triumph.

The completed returns of the Canadian elections, as announced yesterday came as a surprise to many. Few there were who expected to see the Liberal Party led by Hon. W. Mackenzie King, emerge so triumphant- transmitted from His Majesty: ally was heartily sick of the Meighen administration. Ontario, that stronghold of the R. A. Squires, Colonial Secretary, Conservative Party, which at the last election returned an overwhelming number of the supporters of the then leader, Haddies, the only imported article, at ELLIS'—dec8,tf Sir Robert Borden, this time turned back on its old love and practically routed the Conservative candidates, electing but 38, against 23 Liberals and 21 Pro- at the Penitentiary was given a Malay gressives. The most astonishing feature of the election is that three Provinces, Quebec, Nova Scotia and Prince Edward Island returned solid blocks of of Independents need not be considered. Very likely they will line up with one or other of the

larger groups.

There are two hundred and thirty-five seats in Canada's House of Commons, distributed as follows: New Brunswick, as follows: New Brunswick, maculate Conception, is observed as 11; Nova Scotia, 16; P. The West went largely Progressive, 1889, was dedicated on this feast day, the farmers sticking valiantly 1868. The present Cathedral, built on to their party, while the East the site of the burnt edifice, which was and Quebec made a record, which any future leader or party will find hard to beat, or even to approach. The Liberals have won a great victory and leader and candidates alike deserve all the honor that is accessive. the honor that is accruing to them. To vanquish the Government of the day is no mean feat, yet Mackenzie King did it, Canadian electors obviously were heartily tired of the late Meighen administration. Neither did they want group Government nor free trade. King undoubtnor free trade. King undoubt-edly won the election because of cupied by Mr. P. H. Cowan, was sold hostility to free trade. His set at auction today in the Board of policy was one of uncompromising antagonism to tearing down the tariff wall. The Royal Stores, Ltd.

To the Electors of St. John's.

LADIES AND GENTLEMEN,-

Having been pressed by numerous friends to enter the Municipal contest, I have decided to offer myself as a Candidate in the forthcoming Election. The outstanding features of my policy will be the conservation of the Taxpayer, and amongst the necessary improvements which I intend advocating will be the inauguration of a Public Market Place and the extension of the Street Car Service to the Higher Levels.

TAXATION HAS REACHED THE LIMIT. If this is to be a place fit to call home, we must call a halt and get back to the simple life. Instead of looking for more sources of taxation to worry and harrass the already overburdened Taxpayer, my frank and honest conviction is, if Council work was put out to tender and contracted for, there would be ample funds for all our needs if public monies were conserved and not played fast and loose with. We have a huge city debt, and our duty is to see that it is not increased but reduced. Our slogan must be ECONOMIZE.

PUBLIC MARKET PLACE FOR ST. JOHN'S A NECESSITY.

It is obvious to all who have visited any country outside Newfoundland the great blessing it confers on producer and consumer alike. Beside, the Town or City which posses such has a valuable asset. In Towns in England, Ireland and Scotland, where the population is from 10,000 to about 15 or 20,000, you find a weekly market, and in larger ones a daily one. It would encourage the producer to increased production, lower the cost of living to the consumer. The money that would change hands would go into the shops and stores. Market Day would be our Red Letter Day

The development of Agriculture would be encouraged. Tens of thousands of acres of valuable land now lying waste would be tilled. Idle lands like idle hands are a curse to any country. In 1898 the late Hon. E. M. Jackman got a Government grant of Ten thousand dollars for the above purpose. With accrued interest there is available about \$20,000 (now in Bank). THE STREET CAR SERVICE TO THE HIGHER

Next summer this shall have my hearty support. In conclusion, you can judge best of my merits or I thank you in anticipation for your vote and in-

Advocated.

Dear Sir,-It is not generally known that we have two varieties of pine in Newfoundland, viz., the soft or commercial pine, and the hard pine which in Newfoundland is only ornamental. But it is ornamental and very sturdy, and I write in the hope that some attention may be given to its culture

y those who love trees. Through the kindness of Mr. Geo. Chant, of Middle Brook, Gambe, I have received three nail bags full of cones of both varieties. The soft pine cones are nearly all fertile. By placing them before the fire, the buds soon open and the seeds are easily detected and broken out. They ought then to be dried thoroughly and left

n dry earth, until next April. n dr yearth, until next April. We have had a very wet autumn and most of the seed will rot on the ground unless the cones are gathered. An arbour day in the autumn might add considerably to the wealth of our country in days to come.

Yours truly, AUGUSTUS G. BAYLY. Bonavista, Dec. 5, 1921.

Germans Capturing China's Trade.

GOING INTO PARTNERSHIP WITH

London.—The Germans are gradualthe threads of their former business: not trading for the present under their own names but in partnership with Chinese, says a report on the commercial situation of Chins, by H. H. Fox, Commercial Counselor of the British Legation in Peking, German dyes and paints, needles, metals, drugs and sundries are beginning to appear on the Shanghai market, the report goes on, and it is stated that several important orders for machinery and electrict plant have recently been booked by German firms. There is no doubt, the report says, that the Germans, assisted by the comparative cheapness of their products, will gradually recover the share they held in China's foreign trade before the war, but the process will be slow, as they have lost valuable connections; the business organizations they had so laboriously built up have been shattered, and they have returning to China and picking up

Masonic Dance.

The dance held by the Masonic Entertainment Committee in the Temple last night was a great success from every viewpoint. A large number of people were present and all had a thoroughly enjoyable time. The new dance orchestra, which was recently formed by Messrs. E. Fox and A. Noseworthy, was heard for the first time in public. This orchestra consists f eight members, two of whom perlatest dance selections had been specially imported and were rendered in a manner which drew forth rounds of applause. The time kept was per fect. After the National Anthem had brought the dance to an end, all those present cheered the new orchestra to the echo. During the evening supper was served by the Lafties' Committee under the direction of Mrs. J. R. Bennett. This dance was the first of a

During Mutiny. Capt. George F. Poppe, skipper of

Capt. George F. Poppe, skipper of the schooner Lillian E. Kerr, entered the Federal Court at Boston, November 23, with charges of mutiny on the high seas against Frank Howell, a negro sailor, and with high praise for the conduct of his wife, Mrs. Edna Poppe, during what he said was his fight for life with Howell. The woman held the wheel of the vessel while the men fought on the deck, Howell with a knife, her husband with a pistol. She kept the schooner on its course, the negro crew meantine grouped on another part of the deck offering no help. Capt. Poppe said that after he found Howell, who was shipped at Jacksonville, asleep across the wheel on November 13, Howell attacked him with a knife. Mrs. Poppe gave her husband his reverber and the dainties were a nuisance. So when he saw Dr. Conneau coming he accosted him. "I was lying in wait for you, doctor. My daughter Irene asked me to give you these sweet-meats for your son."

The physician was much annoyed. "I shall return home very late." he said, "and I cannot carry those sweet-meats about with me for hours."

But at that moment the little Prince Imperial rushed in, and the doctor, howing profoundly, cried, "Monseigneur, here are bonbons that I brought de la part le mon fils!"

The prince began eagerly to munch the dainties, but a severe voice exclaimed, "What, Louise! I have forgreat St. John's River, covering it with a raft of vegetation so solid that even tacked him with a knife. Mrs. Poppe gave her husband his revolver and the skipper said he shot Howell when he was attacked a second time. The seaman said Capt. Poppe fired first.
