Kingston Casualties Exceed a Thousand

THE DISASTER MORE SERIOUS THAN A FIRST REPORTED

The Best People Supposed to be Among Those Killed
In the Apalling Disaster.

THE CONDITIONS ARE SAID TO BE INDESCRIBABLE

But News and Minute Particulars of the Earthquake
Are Very Incomplete Even Yet.

St. Thomas, B.W.I., Jan. 16.—Reports received here from Jamaica say that it is estimated that a thousand persons have been killed by the earthquake and fire and that twenty thousand persons are homeless. The damage to Kingston alone is placed at fully ten million dollars.

Kingston Harbor Closed
Santiago, Cuba, Jan. 16.—Kingston harbor, as a result of the earthquake, is closed to shipping, but Bowden is open. There is need of quantities of provisions. Famine and pest conditions prevail and there is stench and misery everywhere. Both rich and poor at Kingston are homeless.

Bowden is a small port about 80 miles from Kingston. It has no railway communication with Kingston.

Havana, Jan. 16.—Rear Admiral Evans, in command of the United States Atlantic fleet, has sent a message to Governor Magoun, by wireless telegraphy announcing that the battleships Missouri and Delaware sailed for Kingston, Jamaica, at noon today.

The battleship squadron when last heard of was at Guantanamo, Cuba.

Hundreds are Lost
Washington, Jan. 16.—The following cablegram was received at the state department this afternoon:

Jamaica, Jan. 16, 3.31 p.m. Secretary of State, Washington:

Terrible earthquake followed by fire. Kingston destroyed. Hundreds of lives lost. Food badly wanted. Consulate probably destroyed. Airproof safe.

(Signed), AMERICAN CONSUL.

The last sentence of the despatch is supposed to have referred to the consulate papers.

THE MISERY IS INDESCRIBABLE

Famine Imminent, Negroes are Looting, Prominent Man Killed

St. Thomas, Jan. 16.—Later advice received here from Jamaica declares that all people have been urged to keep away from Kingston. Stench there is described as awful. There is no fodder for animals, and famine is imminent. Money is useless. The banks have been burned but the vaults are supposed to be safe. The misery on all sides is indescribable. Rich and poor alike are homeless. Provisions of all kinds are urgently needed. It is impossible to say where anybody can be found. Sir James Ferguson, vice chairman of the Royal Mail steamship company is among the killed. The loss of life is very great, but the exact number are yet unknown. The dead are being buried under smoldering ruins. The mercantile community suffered most severely, warehouses falling in many places. Many professional men are dead or injured. The negroes are looting, ghastly scenes are being witnessed. All the shops have been destroyed and buildings in and around Kingston are in ruins. Very few of them are safe to live in. The governor and his party are safe. It is reported that an extinct volcano in the parish of Portland is showing signs of activity, but this has not been verified. No news has yet been received from other parts of the island of Jamaica, communication being very difficult.

BRITAIN HOPES FOR THE VERY BEST

But the News Received There is Very Limited

London, Jan. 16.—The brief despatches received here, including some from Kingston direct, declaring that one hundred persons were killed in the earthquake on Monday leaves the country a prey to renewed suspense as to the fate of the capital of the island of Jamaica. Earlier reports including despatches, has tended to minimize the worst features of the first messages received and although there is an inclination to credit these official accounts, in the absence of the firm of the later reports, the relief felt this evening tends to give place to despondency over the possibility that the worst features will be realized when the full accounts of the disaster come to hand. Two features brighten the general gloom and bring intense satisfaction to the British public. The first is the fact confirmed tonight in a despatch from Sir Alfred Jones himself that the Jones party are all safe. The second is the prompt and active steps taken by the American Government to meet the conditions and afford the necessary succor to the unfortunate city. Special appreciation is felt to Secretary Metcalf's decision to act without waiting for congressional sanction.

All possible steps are being taken here to the same end, but America's generosity is none the less appreciated. The King and Queen, and also the premier, Sir Henry Campbell-Bannerman have hastened to telegraph expressions of their sympathy and horror at the terrible calamity and the public bodies are arranging to hold meetings to express their sympathy and afford relief to the victims.

At a late hour today, the colonial office had no news to communicate to the public.

It is estimated that a hundred persons have been killed, and a

thousand injured. The public offices and hospitals are in ruins.

Among the killed are Sir James Ferguson, and many prominent merchants.

On Way to Rescue

New York, Jan. 16.—The Hamburg American Steamship Co. late today received this cablegram from its agent at Havana:

"Governor of Jamaica yesterday cabled British Charge D'Affaires here asking for medical supplies for the injured in earthquake. Magnitude of disaster not specified. Governor Magoun cabled Admiral Evans at Guantanamo to dispatch quick torpedo boat to Kingston with supplies for the injured."

Damage Was Considerable

The following cablegram from its agent at Santiago was received by the same company:

"Only news received from cable office at Holland Bay concerning the earthquake, considerable damage. Cable office destroyed. Particulars not known. Communication interrupted. News expected shortly. Will cable again."

LARGE APPROPRIATION FOR THE WEST

The C. P. R. Making up its Expense Account Now

Montreal, Jan. 16.—Why estimates with the year's estimates and is going over them with this present in mind. There will be a large expenditure in the west this year and great quantities of rolling stock will be purchased. Changes forecasted for weeks will undoubtedly be made public in the near future.

WRECKED SAILORS ON WAY BACK

Crew of Carleton on Way to Can Francisco

Victoria, Jan. 16.—The shipwrecked crew of the bark Carleton, which was wrecked on Midway Island last month, left for San Francisco today. The crew of the old American bark reached here on the Commercial Cable Company's cable steamer Restorer which came here for repairs from Midway Island.

Captain Melville of the Carleton and his crew of fourteen, reached Midway Island in open boats after their vessel drove ashore and was embedded on one of the reefs. They took to the boats after the bark struck head-on in the early morning of December 24th. Captain Melville and his men express their heartfelt thanks to the officers of the Restorer for many kindnesses to the castaways.

Very Big Deals In Calgary Property

Palace Hotel Corner, Ramsay Block, Pitman Block and Other Valuable Property Changes Hands.

Despite the very cold weather there have been some big deals in city property and real estate during the last few days.

One of the largest was the sale by Mr. Pitman of the Pitman block. It is understood that forty thousand dollars was paid for this block.

S. A. Ramsay has disposed of the Ramsay block, the purchasers being Mr. Arnell and R. E. Bishop. Mr. Arnell is proprietor of the bakeshop at the corner of Eighth Avenue and Second street, east. Mr. Bishop is a member of the firm of Bishop & Freese. The selling price was \$47,000.

T. A. Hatfield has disposed of his interests in the Western Cartage Co., for the sum of ten thousand

dollars. The purchaser is David Williams of Canmore.

The purchase of the Palace hotel property will be completed the first of next month. The purchase is being made by a syndicate of people. It is not known what will be done with the property, but it is believed that a very large and up-to-date hotel will be put up. The purchase price was \$70,000.

T. A. Hatfield has disposed of the property on Ninth Avenue, east, known as the Lambeth property, to Messrs. R. R. Jamieson and C. R. Dixon.

Hatfield and McLaren report the sale of eighteen hundred lots during the last few days. Other real estate men report business as very active.

No Hope of Getting the Strathcona Horse

The Military Forces of West Are Going to Medicine Hat and Edmonton.

Military men have about given up all hope of having the Strathcona horse located in Calgary, as it was at one time believed it would be located. This opinion has been reached after certain interviews have been held with men who know pretty well how things are going.

The Strathcona horse force will be located in Medicine Hat. Some branch of the permanent force however, will be located in Edmonton, and between these two cities it seems more than likely the military institutions of the province will be divided.

This is a very serious disappointment to military men in Calgary, who were led to believe very different things.

RESULT OF THE WEATHER.

Owing to the continued unprecedented severity of the weather, the Canadian Pacific railway, announced, on Jan. 16, that the following trains will be annulled till further notice: No. 15, leaving Calgary 12:45, and No. 16, leaving Strathcona at 10 o'clock. This will make No. 14, the morning train from Strathcona to Calgary, a daily train. No. 102, leaving Calgary at 8:35 and No. 101, leaving Macleod at 11:35, are annulled. Also Nos. 113, leaving Lethbridge 6. 5, and No. 114, leaving Macleod at 12:25. In other words the afternoon train from Calgary to Strathcona and the afternoon train from Strathcona to Calgary are withdrawn. The morning train from Calgary to Macleod and the afternoon train from Macleod to Calgary are withdrawn. Also the local train between Lethbridge and Macleod. At 12:25 in other words the afternoon train will not again be operated till the weather has given sufficient assurance of moderation.

Lincoln v. Laferty. This case was a medical test as to the right of practicing in Alberta and appeared under the above heading, though it was not personally between the doctors, the defendant being registrar of the College of Physicians and Surgeons, but a test case in which several were concerned.

SOMETHING TO HAPPEN TO CALGARY

The City of San Francisco Defied Almighty God and Was Swept Out of Existence.

A STARTLING PREDICTION BY EVANGELIST HUNTER

God Will Not be Mocked, Either in Calgary or in San Francisco, Said the Evangelist.

Notwithstanding the cold weather, a large congregation assembled at the Central Methodist church yesterday evening, when Messrs. Crossley, Hunter, and Messrs. Kerby, Patterson, Buchanan, and Adjt. Byers of the Salvation Army and others were supporting the evangelists.

Mr. Hunter chose his text from the 19th chapter of St. Matthew, the 9th and following verses: "What shall I do to obtain eternal life?"

"The all important question of the day is not how many lots shall I turn over, but eternal life.

"Some people are so crooked that they wouldn't touch the ten commandments if they lay right beside them.

"Never read the murders dished up in the newspapers. Murder spelled backwards is red run. Is there any one here who would open a bar, a slaughter house of hell?"

"I shall have something more to say about the liquor traffic before I finish with this city.

"If a see a murderer kill a little boy as I go home from the service tonight, I'll fight him to the death, so will I fight the liquor traffic.

"I don't know what the devil will do with the dirty rascals that are bearing false witness in this city. Are you here tonight? If so stand up—(fortissimo)—you were here last Wednesday.

"You know the man who does you a kind action, is your neighbor, not the man who is next door. That may be the man who is selling diluted whisky to your boy.

"Boys, be good to your father and mother, and to people be sweet and natural; don't go snarling around.

"Some girls walk around the street with a big fat sign in your mouth, looks like a pig in a poke.

"Friday night I'll tell you older people not to sign away all our property before you're through.

"Just in passing I tell you to be careful. Mr. Crossley was left a fortune and he spent it all before he was 25. The fortune was only \$20, but he managed to spend it before he became that age.

"It is very unfortunate to be rich. Bros. Crossley, Kerby and Patterson all started life with next to nothing.

"San Francisco denied God till their city was swept out of existence.

"So something is going to happen to Calgary.

"I am not a prophet nor am I the son of a prophet. God is not going to be mocked, whether in Calgary or California.

Mr. Crossley, in addressing the congregation on the "Unpardonable Sin," said: "This should make everyone very thoughtful.

A great many people were in the asylum and many had committed suicide, believing themselves to be guilty. What is this unpardonable sin? Some say it is not mentioned in the Bible, thus giving infidels and wicked persons an opening.

"He that shall blaspheme against the Holy Ghost shall be guilty of eternal sin"—that is describing works evidently due to the Holy Ghost as due to the spirit of the devil. This sin is in reality a state of mind reached by sinning against light and knowledge; where people are past feeling, given up to a reprobate mind, seared with hot iron, and have no inclination to come to Jesus.

"I want to speak to two classes of people this evening: those who feel they are guilty of the unpardonable sin but for whom there is hope, and those who have no fear of committing the unpardonable sin.

"No person has been guilty of this sin who is afraid of having done so.

"The man who is always sure of a good reception, vide the prodigal son.

Men with no feeling may think they are guilty, but he would assure them that the emotions that were of sinners were the deepest.

The second class of people were those who had some secret or open sin by which their heart and conscience were becoming callous and hardened.

"Self righteousness is like rust; the magnet of the cross has not the power to penetrate through it and attract.

The evangelist compared the case of a hardened sinner to a man freezing; as soon as they ceased to be uneasy and in any pain, spiritually or bodily, they would surely die.

Mr. Hunter gave the usual appeal and many responded.

The Coal Situation in Calgary at Present

The Mayor and the City Clerk Make Official Tour of Investigation Into the Fuel Supply.

On Monday afternoon Mayor Cameron and City Clerk Gillis started out to investigate the coal situation in this city. They found that though there was undoubtedly a slack supply, yet there was a moderate supply of coal and that there was no danger of serious trouble on account of scarcity of coal.

They visited number of the coal men in the city and found that the coal supply was somewhat larger than people had believed. They found that there were about 500 tons of coal in the city.

They learned from the dealers that they had little fault to find with the always and that the company was doing everything possible to hurry matters along.

The unprecedented weather was not a large extent responsible not only for the unusual demand for coal but also for the shortage, as the output of the mines was affected somewhat seriously on account of the cold weather. This was particularly the case with the Bankhead mines, where some out-of-door work was necessary and it was difficult in these bitter days to get men to do it at any price.

The investigation was not complete, for time did not permit of a complete round to all the dealers, and the mayor caught cold and was unable to proceed further yesterday afternoon.

Though no report was adopted by the two gentlemen, yet it was thought that it would be better under the circumstances to wait for the weather, but they made no investigation regarding any likelihood of an immediate change in weather.

SWEPT ALL BEFORE HIM

The Minister of War in Venezuela Simply Demolished all Before Him.

AROJO GREAT FIGHTER GOOD STORY-TELLER

The Eyes of all Venezuela Fastened on the Invalid Castro

Caracas, Jan. 16.—Minister of War Arojo returned from the Colombian frontier, whither he went to do battle with General Mantilla, the revolutionary guerrilla, officially reports that upon his approach the brigand fled. Mantilla's previous record of four battles and four victories against government troops has started a rumor that Arojo's bloodless victory was obtained by collusion with the guerrilla chieftain. In the anti-Castro circles Arojo is credited with being a supporter of Vice-President Gomez for the presidency.

The all important subject here is the health of President Castro. Since he became ill, over six months ago, his condition has been jealously guarded. For political reasons all official information concerning his condition has been optimistic. For the same reason reports from antagonistic quarters have been pessimistic. The Associated Press correspondent learns that he is suffering from gastric fever, as his physician, Dr. Revenga, states, it is merely a contributory ailment. His real malady is more serious, requires long and careful attention, sometimes results fatally, and seldom fails to leave its victim weakened in some way.

Castro is reported better by a source of information apparently unprejudiced.

The country suffers from the lack of an active head. Public building has ceased. Dr. Ravenga, secretary general to the president, exercises every power of government, and even the sale of stamps has been monopolized. The cost of living in Caracas is little less than in New York. There is sufficient popular discontent for a dozen revolutions, but no leader strong enough to bring about concerted action.

It is reported here that President Roosevelt will send to congress a special message dealing with Venezuelan affairs. It is hoped by commercial interests that if such a message is delivered it must bring about a change for the better in the economic condition of the country. A merchant recently in conversation with the Associated Press stated emphatically that 80 per cent. of the business men of Venezuela would welcome American intervention in almost any form. They view with envy the prosperity of Cuba, Porto Rico and Panama.

THE FIRE THAT RAGED IN ALIX

Considerable Damage Caused by the Conflagration

Alix, Jan. 13.—A fire which did considerable damage to the little town of Alix broke out on Saturday night between 9.30 and 10 o'clock. It occurred in the drug store which formed part of the premises of Dr. A. Wilson and seemingly arose from overheating of the furnace. Before any attempt at salvage could be made the building was in flames and the windows fell in at once. One or two people strove to enter by the back, but were driven out by the smoke. The general store of D. G. Campbell was adjoining, there being practically no space between them, and it was not above 15 minutes before that too caught. Possibly some personal effects might have been saved had not Mr. Campbell been in bed at the time, but the ordinary contents of the store were of such an inflammable nature that as soon as the fire got a hold the building was doomed. It burned like match-wood. The post office adjoining the store, and with great promptitude and self sacrifice Mr. Campbell and his assistant burst into it and succeeded in saving the mail and postal books, etc.

The buildings destroyed formed a block by themselves in the main street of Alix and so the army of workers were enabled to prevent the fire spreading to neighboring stores and stables, though powerless to prevent the entire destruction of the block, which is now a bare, black, smoking patch.

Dr. Wilson's store and premises were quite recently built and practically uninsured. There was no fire engine or fire fighting implements available, though it is doubtful if they could have saved anything. Seeing the fire that occurred within in the last few months at Lacombe, the recent fire at the Imperial hotel in Alix, the conflagration at Stettler, and this last serious loss by the same means, this district has paid very heavy toll during the early part of the winter to the most ruthless of all destroying elements.

GAS HERE VERY SOON

The Well Down Deeper Than any Other in Alberta

WORK PROGRESSING DURING COLD WEATHER

Gas will be Ready to be Utilized by Citizens at Early Date

Notwithstanding this long continued and extremely cold spell progress has been made at the big gas well, and it is now down some 1650, the greatest depth yet reached in the province, and it is being pushed vigorously onward day and night.

The different strata being gone through in formation and character are remarkably close in line, with the calculations made from the geological standpoint, before starting, and consequently a very successful issue is confidently looked forward to. In this connection it must be remembered by the council and the citizens generally that the work now being done by the Calgary Natural Gas Co. must necessarily have an important bearing upon, not only the question of cheap power, but particularly upon the street railway question.

If natural gas is found in abundance, then the question of the source of cheap power for the street railway, for the electric light station, and the water power station is settled, and settled beyond the successful competition from any other source.

We assume that when the council of 1905 framed the agreement with the Natural Gas Co., and the electors voted favorably upon it, the object then sought was to have this question determined as in the event of natural gas being found in abundance, as at Medicine Hat, there should be no incentive to look for or negotiate in any other direction for a source of cheap fuel, power. It is evident from the work which has already been done, and the great expenditure incurred up to the present time, that the Natural Gas Co. have gone into the undertaking in good faith and in accordance with the terms of the agreement. It is but common sense to suppose therefore that the Natural Gas Co. are looking to the council and the electors under the agreement as well as the interest of the citizens, so that when natural gas is to be had, the municipality and electors generally can avail themselves of it.

Until the question then, the probability of developing natural gas for Calgary has been determined, it would not only be premature from every point of view, but diametrically to the trend of municipal legislation at the present time, as well as very poor business to place the municipality in a position where it could not avail itself of this great potential energy when brought to its door, which, it is very likely to be, as a result of the work now being prosecuted so vigorously.

STILL THEY COME

A Large Trust Company Coming to Calgary

The Trusts and Guarantee Company, Limited, of Toronto is opening an office in Calgary in the new addition to the Molsons Bank building, at 711 First Street, West. This company is one of the largest and most successful of the large Trust companies in the east. Its subscribed capital is \$2,000,000 and its paid up capital, including the reserve amounts to over \$1,200,000. Its board of directors is composed of some of the most prominent and most successful business men in Ontario, under whose management the operations of the company have been carried on with marked success.

The company will spend a large amount of capital for investment in mortgages throughout Alberta, on both town and farm properties, thus indicating the confidence in the future of the province. They have been fortunate in the selection of a local address in Calgary who will deal with all matters connected with the business of this branch. It is occupied by D. W. Marsh as chairman, Mr. P. Turner Bone, and Mr. Wm. Pearce. These men are all well and favorably known throughout the province and have long been prominently identified with the business affairs and development of Calgary and have the confidence of the public.

The charter of the company permits of its services being taken advantage of by the public in a great variety of ways. Its chief function is to act as administrator of estates of persons dying without a will, and as executor under wills. In this age of rapid development and large transactions the services of a specialist in any line of business are sought after. The Trusts company has very apparently been termed a specialist in its capacity as executor and administrator of estates. It offers not only sufficient security in its large subscribed and paid up capital but offers also expert service, as its officers are skilled from long experience in dealing with estate affairs. It has to account to the judges of the supreme court of the province for all estate property committed to its care, and the compensation to be allowed it for acting as executor or administrator of estates is fixed by the judges.

The company also undertakes trusts of various kinds and acts as trustee for issues of bonds, and for syndicates or companies organized for any purpose. It also acts as treasurer or agent for syndicates or companies during organization and receives any way out as directed the money to be contributed by the members. It also receives moneys on deposit, allowing interest, or for investment or on such trusts as may be created by agreement with the depositor. There are many other ways in which the public may be served by this company.

A real estate department will be opened in connection with its business, for the handling of its estate properties, and for the purchase and sale of property on commission, selling certified engineers, write to the collection of rents and general man-

agement of property in the absence of ability of the owners. The company expects to open its office about the middle of this week at the address above named. The manager is Mr. A. G. Ross, who has for many years been assistant manager at the head office of the company in Toronto.

SMALL POX FOLLOWS FAMINE

The Trouble in China is Increasing Rapidly

Shanghai, Jan. 16.—To the horrors of famine have been added an outbreak of small pox among the refugees at Sing Kaing, necessitating the demolition of the mat sheds erected to shelter the thousands who have arrived there in search of food. Captain Kirton, who was sent out by the relief committee to investigate the situation reports that three hundred thousand destitute persons have been driven back towards their homes, and that terrible scenes are being enacted along the line of retreat. He estimates that a quarter of a million persons are likely to be doomed at Sing Kaing alone, and four hundred thousand at Antung, where small relief works have been started. The official records, however, are generally puerile and amateurish. The distress is largely due to lack of means of communication, and fear that Chinese officials might appropriate any works they undertake. The dykes being dilapidated, renewed rains are certain to cause fresh floods. Every house in the neighborhood of Antung visited by Captain Kirton contained dead bodies or dying persons.

The relief committee, which has 150,000 tons of supplies, has instituted relief works under foreign supervision.

A BURGLARY IN CARDSTON

Young Man Charged With a Serious Offence

CONDITIONS ARE IDEAL FOR WINTER WHEAT

Items of Interest About Thriving Southern Town

Special to the Albertan
Cardston, Jan. 17.—Last Saturday morning, Mr. J. T. Brown one of the proprietors of Cask and Brown pool and barber shop, upon entering the shop noticed that the rear transom was open and the room (which is a rock structure) unusually cold. He also discovered that the rear door was unbolted. Thinking no more of the matter he proceeded to make his fire and carry out the ashes. Later, upon going to the cigar till to transfer change into the pool and barber till, he discovered that all the change had been taken and the only thing that remained was a ten dollar cheque. When Mr. Ed. Anderson, an employee, arrived later in the morning, he was questioned as to what he had done with the change in the till before locking up the night before. He stated that he had not in the till and that there was besides the ten dollar cheque about six or seven dollars in small change and 14 one dollar bills and a two dollar bill. It was evident therefore that some one had broken in through the transom. Near the rear door they found a button which had been torn off in the act of crawling through the transom. The room having been carefully swept the night before by Mr. Anderson it necessarily followed that the button had been dropped between the hour of closing and the opening of the shop in the morning. They also noticed that a wheel which had been standing by the blacksmith shop about sixteen feet from the back door had been removed and trailed towards the door beneath the transom and back again. Both Brown and Anderson employed the same young man at a date after a consultation with the town constable, Mr. Martin Woolf, Mr. Brown went before Mr. Taylor, inspector of the R. N. W. M. P. and laid the following information against Boyd Dingman, a young man who has been living in Cardston for the last six months but originally in and really a resident of Raymond where his parents lived. The information of Mr. Brown was as follows: "That he did unlawfully break into and enter the barber shop of Cask and Brown on Daines street in the town of Cardston, Alberta, and commit an indictable offence therein, viz., the sum of money, from out of the till in the said shop."

Armed with a search warrant, Messrs. Keena and Woolf, the former a corporal in the R. N. W. M. P. visited the accused's room, there found a coat minus a button the buttons on the coat being exact counterparts of the one found by Messrs. Anderson and Brown that morning in the barber shop. The young man was also searched and upon his person was found about six dollars made up of nickels, quarters and dimes. Further search through his effects revealed the sum of \$14 in one dollar bills and a two dollar bill. He was therefore arrested and taken to the R. N. W. M. P. barracks. This morning his preliminary examination commenced under the direction of Inspector Taylor.

The facts as related above were given in the course of the preliminary examination. As this mail leaves the preliminary is still on.

A Very Delightful Time at the Drill Hall Last Night

The Calgary musicians made merry last night at a very successful banquet, which was held at the drill hall. The banquet was well attended, about 75 persons being present. The banquet was a successful one. After the banquet was over a number of toasts were given. "The King," followed by a short speech by the president of the band. To the toast of "Honorary Members," Mr. Howells rendered a violin solo. R. H. W. Barber responded to the toast of "The Ladies," and was ably assisted in this labor of love by Richard Vandersleys and R. Mackay. H. Flumerfelt sang an appropriate song and "The Army and Navy" was proposed. To this Aid McMillan, Capt. Bagley and A. W. Oakes responded. Mr. Tivy took care of the toast to "The Press." Mr. Dallison sang another song. "Our Federation," W. I. Shaw and M. Duell responded and Mr. Barber sang a song. Cummings & Crist, who were responsible for much of the good time, being the caterers, responded in modest fashion to the toast of "Our Hosts." God Save the King was sung and the party dispersed.

Washington, Jan. 16—Secretary of State Root and Senator D'Avolas, the Mexican charge of embassy today signed a treaty regulating the disposition of the waters of the Rio Grande. The basis of the treaty is the recognition by the United States of the right of Mexico to the use of certain proportion of the waters of the river now impounded by the great dam at El Paso for irrigation purposes on the Mexican side of the boundary.

The precedent set will, it is understood, have an important bearing on negotiations concerning the vexed questions of international rights to the use of streams of the Canadian border.

Washington, Jan. 16—The national board of trade today rejected the report of a committee recommending tariff revision.

FASHIONABLE WEDDING IN BANFF

Miss Pearl Brewster Married to Phil. A. Moore

Banff, Jan. 15—The wedding of Pearl E. Brewster, daughter of Mr. John Brewster of Banff, took place here in St. George's Church, to Lieut. Phil. A. Moore of Banff, Rev. G. B. Hall officiating. The church was crowded, as the bride was the first to be married of the native born population of Banff and she had won a warm place in the affections of the people by her many lovable qualities.

She was attended by Miss Viva Galletly and Miss V. Asjley, while the groom was supported by L. Lowry. Rev. Mr. Haggith was called upon to respond and did so in fitting terms. Dr. Brett, one of Banff's pioneers, proposed the health of the bridegroom in a characteristically witty speech, and J. Lowery responded in an appropriate speech.

After the breakfast was partaken of by a company which included all of Banff's old timers, and was a most pleasant function. The bride's health was proposed by Rev. Mr. Hall, who, in fitting terms, spoke of the respect in which the bride was held, and congratulated the groom on the prize which he had secured. Rev. Noxious Seeds and a Law Suit

Two cases were recently tried at Clarholm which ought to be of aid to farmers in Alberta.

A farmer who had rented a piece of land from another went to the elevator and prepared a quantity of screenings containing seeds of noxious weeds which he proceeded to throw out as feed for his stock.

The owner of the land very naturally objected to having his land polluted with samples of all the weeds in the country and requested the elevator to desist. This the latter refused to do, whereupon the objector informed the R.N.W.M.P., leaving a sample of the screenings with the chief weed inspector of the province who found in them several species of weed seeds classified as noxious and made affidavits accordingly. The case was tried before Mr. Hotchkiss J.P., who found the delinquent guilty and fined him ten dollars and costs.

The other case grew out of this one, for the police promptly laid information against the manager of the elevator from which the screenings had been taken for allowing screenings containing seeds of noxious weeds to be removed from his premises without having been crushed. He was fined twenty dollars and costs.

CALGARY -- ALTA.

SELF-RAISED

BY
EMMA D. M. SOUTHWORTH

"That I have not years enough left to live to see all the wonders of the world."

"None of us—not the youngest of us have, professor. But you will live to see a great many. And by the time that you have seen everything that is to be found in Washington, I shall be ready to go to Europe; for I expect to see Europe some time or other, professor, and you shall see it."

"Oh," ejaculated the odd job man who seemed to think that the millennium was not far off.

And at that moment the carriage drew up before Ishmael's lodgings. And the driver and the professor carried the luggage into the front hall.

And when the carriage was paid and dismissed Ishmael conducted the professor to the inner office, where the two clerks who were in charge of it arose to welcome their principal.

When he had shaken hands with them he led his retainer into the bedroom, and showed him a small vacant chamber adjoining that, and told him that the latter should be his—the professor's own sanctuary.

Then he showed the old man the pleasant garden, all blooming now with late roses, cypripediums, dahlias, and other gorgeous autumn flowers, and told him that there he might walk or sit, and smoke his pipe in pleasant weather. And finally he brought the professor back to the front office, where he found his hostesses, Miss Jenny and Miss Nelly Downey, waiting to welcome him.

"Nice, delicate, refined looking old maiden ladies they were—tall, thin, and fair complexioned, with fine grey hair and cowslip late caps and pale grey dresses, and having pleasant smiles and soft voices."

After they had shaken hands with their lodger they turned looks of enquiry upon the tall, grey haired old man that stood behind him.

"This is a very old friend of mine, my rooms; his name is Morris, but on account of his skill in many arts he has received from the public the title of professor," said Ishmael, turning with an affectionate look upon the old odd-job man.

"How do you do, Professor Morris? We are very glad to see you, I am sure; and we hope you will find yourself comfortable, and also that you will be a comfort to Mr. Worth, who is a very estimable young gentleman, indeed," said Miss Jenny, speaking for herself and her sister.

"I cannot fail to be both comfortable and happy under this honored roof, my ladies," said the professor in a most reverential tone, laying his hand upon his heart and making a profound bow that would have done credit to the most accomplished courtier of the grave and courtly old school.

"A nice, gentlemanly old person," said Miss Jenny, nodding her head to her sister. And Miss Nelly said "Yes!" and nodded her head also.

"If you can fit up the little chamber adjoining my bedroom for the professor, I will arrange with you for his board," said Ishmael aside to Miss Jenny.

"Oh, certainly, if shall be done immediately," replied the old lady. And she left the room, followed by her sister, to give orders to that effect.

And before night the professor was comfortably installed in his neatly furnished and well warmed room, and Ishmael's apartments were restored to order, and he himself in full career going over the office business of the last two weeks with his clerks.

He found plenty of work cut out for him to do, and he resolved to be very busy to make up for his idleness during his holiday.

Ishmael did not really wish to tax his old servant with any labor at all. He wished his office to be as much of a sinecure as possible. And he continually urged the professor to go abroad and see the city sights or to walk in the garden and enjoy his pipe, or rest himself in his own room, or visit his daughter, the hackman's wife.

The professor obediently did this for a time, but as the days passed Ishmael saw that the old man's greatest happiness consisted in staying with and serving his master, and so he at length permitted the professor to relieve the chambermaid of her duties in his rooms, and take quiet possession and complete charge of them.

And never were rooms kept in more perfect order. And, best of all, love taught the professor the mystic art of dusting without deranging papers and demeriting their owner.

Ishmael's present position was certainly a very pleasant one. He not only found a real home in his boarding house, and a faithful friend in his servant, but a pair of aunts in his landladies. Every good heart brought in contact with Ishmael Worth was sure to love him. And these old ladies were no exception to the rule. They had no relatives to bestow their affections upon, and so, seeing every day more of their young lodger's worth, they grew to love him with maternal ardor. It is not too much to say that they doted on him. And in private they nodded their heads at each other and talked of its being time to make their wills and spoke of young Mr. Worth as their heir and executor.

Ishmael for his part treated the old ladies with all the reverential tenderness that their age and womanhood had a right to expect from his youth and manhood. He never dreamed that the "sweet little courtesies" which it was his happiness to bestow alike on rich and poor, had won for him such signal favor in the eyes of the old ladies. He knew and was happy to know that they loved him. That was all. He never dreamed of being their heir; he never even imagined that they had any property to bequeath. He devoted himself with conscientious zeal to his profession, and went on, as he deserved to go on, from success to success.

QUALITY

**Eyes are
Seldom Mates**

After middle life, and frequently earlier, the eyes are apt to be of unequal strength.

If this inequality is not corrected, the weaker eye will be overworked and be thus made weaker still.

This shows the necessity of always having each eye separately examined.

We fit spectacles that will correct every defect of vision and strengthen weak eyes.

**BONSPIEL TO
BE BEST EVER**

Most Successful Ever Held it is Expected.

The local bonspiel which will come off on Feb. 2nd is expected to be one of the best and most successful ever held, and already a large number of rinks from all over the province have signified their intention of attending.

Lethbridge will send three rinks, and rinks will also be sent by Innisfail, Stettler, High River, Golden, Banff, Banff, Lacombe, and fifteen rinks will represent Calgary.

The games will be played in the Victoria and Calgary rinks. On Tuesday evening at eight o'clock, a banquet will be held, and afterwards the annual general meeting will take place.

The C.P.R. has granted half rates to all curlers coming in to the bonspiel on Tuesday.

CALGARY BONSPIEL RATES.

For the Calgary Bonspiel, Jan. 2 to 26, the C.P.R. announce a rate of single fare for the round trip, from stations on the main line, Dunmore Jct. to Revelstoke, Crow's Nest section, Dunmore Jct. to Macleod, and all stations Macleod to Strathcona, including the Wetaskiwin and Lacombe branches. Tickets will be on sale Jan. 18 to 23, inclusive; good to return till Jan. 28.

In the McNeill trophy last night the following games were played:
Parker, 8; Walker, 12.
McLeod, 10; Freeze, 19.
The games tonight are the semi-finals. The draw is as follows:
Fletcher vs. Teller.
Walker vs. Bone.
Bryan vs. McKelvie.
Cameron vs. Freeze.

Hockey Notes.

The intermediates will play Medicine Hat this evening at the auditorium at 8.30 sharp. The locals have out their strongest seven and as the boys from the Hat have a fast hockey team, a good game should result from the meeting of these two teams.

As the intermediates have a game on this evening the seniors will not play this week. On Tuesday next Lacombe will be here for a game, and on Friday evening local hockey enthusiasts will have an opportunity of seeing the Olds team play, as they are scheduled to meet Calgary on that day.

This evening the Kenora Thistles play their first game against the Montreal Wanderers for the Stanley Cup. The Kenora boys are confident of being able to life the mug, and Tommy Phillips thinks his team is much better than the one Ottawa defeated after a hard struggle two years ago.

During the past week, Kenora has considerably strengthened their team by the addition of Ross of Brandon cover point player, who is one of the best in the business at that position. Their line-up will be:
Goal—Gorau.
Point—Griffith.
Cover point—Ross.
Rovers—McGinnis.
Centre—Hooper.
Right wing—Phillips.
Left wing—Beaudro.
Spare—J. Hall.

The Wanderers are confident of being able to retain the cup and after their success over Ottawa and with Lester Patrick and Hod Stuart playing great hockey, they will enter into the fray with the greatest possible confidence.

Both teams are evenly matched, and great games should result from the meeting, but with Kenora's good defence, being swift skaters, they are also valuable to the forwards and several authorities think that this will just about pull them through victorious.

This evening at Edmonton Lacombe will be the visitors in a league game. The last meeting of these two teams played at Lacombe resulted in a win for the latter, and this evening the Capitals will put forth all they know to get revenge.

On Friday evening Calgary senior hockey team will meet Wetaskiwin at the auditorium. As the visitors are one of the best teams in the Central Alberta district league, a good game should result, though it is safe to say that they will have to go some to beat the locals.

The following are the games to be played at the Auditorium rink during the next few days:
Jan. 17—Medicine Hat v. Intermediates.
Jan. 18—Wetaskiwin v. Calgary.
Jan. 22—Telegraph operators v. Rovers.
Jan. 23—Business College v. W.C.C.
Jan. 23—Lacombe v. Calgary.
Jan. 25—Olds v. Calgary.

Checker Match

A match between teams captained by F. S. Kettleson and D. G. Lyon was played off at the rooms of the Bow River Checker Club at the offices of the Canadian Grain and Stock Co. last night. Mr. Kettleson's team winning by 9 wins to 4. 8 draws. Four men a side took part. The following is the detailed score:

Wins	Draws	Wins
0 Lyon	2	Kettleson 2
3 Taylor	1	Stewart 0
0 Shelley	0	Simpson 4
1 Berg	0	McDonald 3

A return match between the same teams will be played next Wednesday night, and all members are requested to be on hand.

Presbyterianism is well Supported in Western Provinces

**MANY MINISTERS
ARE COMING WEST**

Annual Meeting of the Congregation of Knox Church

At the annual meeting of the congregation of Knox Presbyterian Church, Rev. Dr. Herdman gave some interesting facts about the growth of Presbyterianism in this province. He said that Alberta was better supplied with missionaries at the present time than any of the other provinces. There were in Alberta 130 stations and in British Columbia 108. Ministers from Eastern Canada were very anxious to come to Alberta, and at present he had letters just received from a number of Presbyterian ministers in Ontario asking for openings in the province.

Dr. Herdman thought that the time was opportune for strengthening the forces of Presbyterianism in the province.

The board of managers reported that during the year in the congregation, the sum of \$14,551 had been raised, which was used for ordinary expenses and for reducing the floating debt of the church and for mission work.

The managers recommended that the salary of Rev. Mr. Clark, the pastor be raised from \$1800 to \$2500, which was unanimously adopted by the congregation.

The session reported that the membership of the church during the year has been increased by ninety-one, bringing it up to 634.

It was suggested that the weekly printed calendar containing announcement of the services, which are distributed in the church Sundays, be discontinued. The congregation, however, did not think favorably of it, and the service will be continued.

Five of the fifteen members of the board of managers retired, the following being appointed to fill the vacancies—

J. T. Macdonald, James Grierison, R. J. Stuart, T. S. Burns and Dr. Gow.

After reviewing the financial affairs of the province during the last year the budget shows the estimated revenue for 1907 of \$2,470,497.46. There is cash on hand in the consolidated revenue funds of \$812,700.26, and the balance is made up of extraordinary expenditures amounting to \$81,007.84.
