DEBATE ON COST OF DREADNOUGHT

Opposition Showed Great Thirst for Information—House Sat on Into Early Morning.

OTTAWA, Mar. 3.—(Special.)—Before the orders of the day were called Hon. W. T. Crothers, minister of labor, in reply to a question asked by Hon. Mr. Emmerson, stated that the report of the technical commission would be ready by the end of the month.

The house spent the greater part of the afternoon and evening discussing private bills, not taking up the discussion of the naval bill until after 10 o'clock.

The opposition contented itself with cross-questioning the minister of marine in regard to the cost of every conceivable part of a Dreadnought. The minister maintained that ships could be built in England for one-half of the price they could on this side of the water.

Western Members Allege That Settlers Are Often Misled by "False Promises" of Early Construction of Lines—No Announcement Yet on Nationalizing Telegraphs

OTTAWA, March 3.—(Special.)—The house while in committee of the whole today considered the bill respecting the Canadian Northern branch lines in Saskatchewan and Alberta.

Strong opposition was made to the bill by many of the western members, it coming out in the discussion which followed that it is the practice of many companies in the west holding charters to construct railways to induce people to take homesteads in the belief that the railway would immediately be built.

LONDON, March 3.—(Can. Press.)—That assessment is a matter of equity rather than fixed percentages, is the opinion of Assessment Commissioner Grant. Today he received a circular from the provincial secretary's department on assessing, and he points out the weakness of a hard and fast rule for fixing taxable values.

Police Were Defied by Mob and Women Were Subjected to Indignities Which They Hotly Resented—Indignation Meeting Followed Parade Which Was Successful Despite Drawbacks.

WASHINGTON, March 3.—(Can. Press.)—Five thousand women, marching in the woman suffrage pageant today, practically fought their way foot by foot up Pennsylvania avenue, thru a surging mob that completely defied the Washington police, swamped the marchers and broke their procession into little companies.

Later in Continental Hall the women turned what was to have been a suffrage demonstration into an indignation meeting, in which the Washington police were roundly denounced for their inactivity and resolutions were passed calling upon President-elect Wilson and the incoming congress to make an investigation and locate the responsibility for the indignities the marchers suffered.

Had to Fight Way. The scenes which attended the entry of "Gen." Rosalie Jones and her "hikers" on Thursday when the bedraggled women had to fight their way up Pennsylvania avenue, swamped by a mob with whom a few policemen struggled in vain, were repeated today but on a vastly larger scale.

ETTOR BARRED FROM CANADA

Order Issued at Ottawa Results in Summary Deportation From British Columbia.

BLAINE, Wash., March 3.—(Can. Press.)—Joseph Ettore, a strike leader of the Industrial Workers of the World, returned to the United States today, having been taken from a train at White Rock, B.C., last Friday and deported on an order from Ottawa.

Ettore was kept under guard between trains by immigration officers, who reported that he refused to answer questions. He declared that he was a citizen of the United States on his way to Victoria to lecture, and that he could not be detained. He refused to permit his baggage to be searched.

The order from Ottawa gave no reason for deportation except that Ettore was regarded as an agitator and as such he was not wished in the country. Ettore, since his acquittal at Salem, Mass., on a charge of murder, has refused to desert the Industrial Workers of the World, altho his family threatened to disown him.

Unconfirmed reports are published in Vienna of an Albanian rising against Servian occupation of towns in Albanian territory. According to these reports, communication with Scutari has been reopened and the garrison has been supplied with arms and ammunition. Fighting continues in the Janina district, where the Greeks claim small successes.

St. Mikes Win Final Game 6 to 3 and Lose Round by 2 Goals

ST. MIKES PLAY GREAT HOCKEY T. R. & A. A. WIN ON THE ROUND

Irishmen Cut Down Lead by Three Goals—Torontos O. H. A. Senior Champions by Two Goal Margin.

Two jumps from a championship is what the St. Michaels can rightly claim. T. R. & A. A. were beaten, 6 to 3, in the second game of the senior finals at the arena last night; but, with their lead of five goals from the first game, they were returned the champions, 10 to 8 on the round.

The greatest ever will just about describe the battle. Toronto has never been treated to such a game, and, with a record crowd looking on, there was thrills every second of the hour. The St. Michaels showed on top for forty-five out of sixty minutes, and came mightily close to pulling the round off the first game. Jerry Laflamme put every man on his mettle, and the Saints tore in from the starting bell right up to the final whistle. Laflamme played the best game of his career, and every one of the St. Michaels forwards was with him the whole way.

St. Mikes showed a dazzling turn of speed, and this coupled with close checking, had the Husky Club forwards up in the air in the first half. Torontos could not get away while the Saints kept pecking at addition that kept things in bounds. Jerry Laflamme was a big old trick of lying in the goal mouth for the passes, and eluded the close checking time after time. Richardson and McCamus kept tearing away from their checks, and Thompson scored a goal.

Toronto made it more interesting for the first fifteen minutes of the second half, and it was St. Michaels who had to do the bucking up. Hunter put life into his forwards with some good rushes, and they opened up a nice turn of combination play. Meeking, Mackenzie, Brown and McLean got inside, and Thompson had a lively time.

The players handed out the raps freely after the rest, and the fence was lined with offenders. Jerry Laflamme drew down the most penalties, with Hunter next in line. A spectator grabbed Jimmy Diasette by the hair when he was coming up on the boards with the puck, and Jimmy promptly retaliated with a rap over the head with his stick. It looked for a few minutes as if some of the crowd would have mixed in.

Little Mackenzie gave one of the greatest exhibitions of the year. "Little Hornet" would take nothing from the biggest of them, and skated into Murphy and Diasette like a steam roller. He took the count a couple of times, but lobbed up for more. Meeking was below his form of last week and inclined to take it easy. He missed a couple of chances with an open net.

It opened with Richardson and St. Mikes were first to attack. Diasette rushed up and passed to Richardson on the side. Dutchy was skated to the goal, and Laflamme was bottled up at the goal mouth. Meeking broke the first shot off a face-off at the Saints end, but St. Michaels was up to a notch and bored in. Hunter and Heffernan skated it near Addison, but they never got rushed to the other end. McLean took the puck and started another fusillade back again and his shot was high and wide. The Irish kept turning the puck over and over again, and a minute later with a face-off and set on Richardson, but Dutchy kicked and stopped the play.

Heffernan roved and went down alone. Diasette met him with a body check and both sat down. Laflamme brought it back to the Toronto end, but lost possession when he hit Hunter. Meeking and Mackenzie worked a nice line. They carried the puck to Laflamme, who was equal to the occasion. Laflamme secured from a face-off and set on Richardson, but Dutchy kicked and stopped the play.

few seconds later and Meeking missed the pass with an open net. Torontos were checking much better and kept St. Michaels on the defensive. Rankin at last got it away, and McCamus put the pass right on Addison's pads.

Richardson came in for the rebound, and the Toronto net-minder had to clear it again. Mackenzie was back with it to the Saints end, but Meeking's shot was wide. Toronto broke fast and carried it to the St. Michaels end, where they were held back by the resolute man with a rush right to the other end. Laflamme tried to get it in with the puck in mid-air, but the rubber went over the net. Murphy secured at centre ice and stick-handled himself right to the Toronto end and beat Addison. St. Michaels 4, Toronto 1.

After the teams were at the start, and again Thompson were called out to keep out rush after rush. Rankin tried a couple from the side, but Addison stopped them. Laflamme took the puck from Meeking and nearly netted it. Meeking was next to shoot, with a long one from the side. Thompson just turned it aside. Jack Brown turned one of the most sensational plays of the night when he got away with the puck, and then the whole crowd, and beating the defence, shoved it past Thompson from straight in front. Heffernan was next.

With Torontos having a two-man advantage, Richardson and Laflamme pulled the puck out and forth for some checks, until Heffernan came up to help the checking. Heffernan secured at centre ice, and with nobody to pass, tallied easily. St. Mikes 4, Toronto 3.

A Real Gentle Affair. On Saturday afternoon the staffs of Wickson & Gregg and Chapman & McGiffen met in a fast hockey match for the right to pawn the Matthews Trophy. The first half was featured by the goalkeeper dodging of the W. & G. goal-keeper. As the second half opened he successfully flung himself over the net. Springing eventually reposed in the net. The team's his terrific speed and his situation dizzy. Going after the puck, he would start tearing up the ice. (Tearing up the ice is correct). If he couldn't use his left ear, nose, knees and elbows, he was starting fence-climbing stunt drew repeated tears—mean cheers—from the spectators.

Hare, who played right wing—at least, he was supposed to be there—gave a good exhibition of how not to over-act. His checking back was all that could be desired, especially when he confined his efforts to checking his own team. At half-time the score was two-all, but of either team, as they were innocent of any attempt at scoring. Albeit, on the left, played the best game of his career. TUESDAY MORNING, MARCH 4, 1913

CITY COUNCIL AND OFFICIAL JUDGMENT.

It is a pity that the city council allowed itself to be lobbied by the cement interests into a further delay in the construction of the Bloor street viaduct. The question was fought out and settled last year, and the World dissented from the decision of the commissioner of works before it became final, or was supposed to have been made final, we acquiesced to the score that the public would suffer more by delay that would be gained by a change of material.

Now the city council has reopened the matter and in the most undesirable way. In the first place a rebuff is administered to the commissioner of works. He has already stated his resolve not to accept responsibility for a cement viaduct. No board of directors, dealing with their most trusted official, would so treat him and expect to retain his services. But irresponsible aldermen are quite oblivious to this virtual vote of want of confidence, and cheerfully nullify the recommendation of the responsible commissioner. Yet those who condemn the action and behavior of the council defend the system which makes such a reversal possible.

It is stated that this is due to a lobby of the cement interests, but so far from excusing the situation, it is only making it worse. The council should not be amenable to the influence of lobbies of any kind, and especially should they be insusceptible to influence on questions of declared policy after official decision.

The plea that cement tenders will be cheaper than steel tenders has little or no bearing on the case. If cement cannot be used with safety it matters not how cheap it is. The commissioner of works, after careful investigation, says he could not be responsible for a cement viaduct. Should the council force him to build a structure which he declares will not be safe for public use because of uncertain foundation ground?

PARCEL POST.

So successful has the United States parcel post proved that already have come requests for its extension and development. Some ask for the raising of the weight limit to a hundred pounds, and many more for its placing on an entire position of equality, so far as the public convenience is concerned, with the regular letter postal service. This is only what was expected whenever the public realized that the parcel post would effect as a general medium of distribution. With the express companies it has just been as with other public services in the hands of private companies. Secure in their favored monopoly, they have levied a huge toll on the public, and what made this all the more reprehensible was the fact that they were to all intents and purposes identical with the railway companies, to which they were and are subservient. The Canadian call for equal facilities with those enjoyed by outside countries within the Dominion is too just to be denied.

TODAY IN THE UNITED STATES.

Not only in the United States, but all over the commercial world there is suspense over what President Woodrow Wilson will do. This is in a way a tribute to his personality, because it is universally recognized that his action cannot be prejudged by his party or political affiliations. Yet it will probably be found when forecast becomes history that he will be as president of the United States just what he was as president of Princeton University and as governor of New Jersey—just an intimate student of politics and economics with the courage of his convictions. Woodrow Wilson is a novel personality in the presidential chair. He takes his place, not because he is or has been a partisan, but because of his independence and his fidelity to his announced program. During these intermediary months between his election and his inauguration he has baffled all prognosticators and run counter to all anticipations. The United States, like all other progressive states, is in a transition period when old party lines are being dissolved and the new division is going to be, not traditional, but actual. When its political reconstruction is accomplished President Wilson may stand out as the man whose personal preparation fitted him for the special demands of a new age.

REFERENDUM IS URGED BY MONK

Former Minister of Works Says Farmers Seem Unanimous on Point.

MONTREAL, March 3.—(Can. Press.)—Hon. F. D. Monk, who retired from the Borden cabinet when he found he was unable to accept the prime minister's naval policy without a referendum, and who has been confined to his residence for some time, has recovered sufficiently to be abroad. He still bears traces of illness, but is fairly well restored to health.

Discussing the naval question today, Mr. Monk said: "Our partment, under the terms of the act of confederation, is empowered to deal with the defence of Canada. Another point, the alteration of unanimity of action outside this province is not well founded. I visited many parts of Ontario last summer, taking in almost every part from Cornwall to Niagara and Fort William. I sought to ascertain the exact state of public opinion upon this question from the surest sources.

"The conclusion I arrived at was that the people of Ontario, while quite ready to do their duty in this matter, are by no means a unit as to what that duty is, and I failed to discern anywhere any signs of impatience or restlessness at delay. Farmers seemed unanimous for a referendum."

INSTANTLY KILLED AT LEVEL CROSSING

John Eaves Attempted to Drive in Front of Approaching Train.

An attempt on his part to cross the railway tracks at Dovercourt road and Van Horne street before an approaching train resulted in the death of John Eaves yesterday morning. The engine struck his horse, throwing it forty yards, while he was instantly killed.

Eaves was a driver for Melver Brothers, pork packers of East Queen street. The watchman on the crossing, Thomas Everfield, states that he warned Eaves of his danger, but that the latter shouted he could cross before the train and whipped up his horse.

Eaves was 55 years of age and lived on Blecker street. A son survives. It is likely that an inquiry will be held.

GARMENT WORKERS ARE DISSATISFIED

Ten Thousand Join in Demonstration Protesting Against Strike Settlement.

NEW YORK, Mar. 3.—(Can. Press.)—Ten thousand garment workers dissatisfied with the settlement made by their employers on Friday last, by the terms of which they are to go back to work, paraded through the streets today in protest against the settlement. The parade was followed by a mass meeting in Union Square, where the terms of the settlement were denounced and a resolution passed declaring the determination to carry out a strike unless the employers present to remain on strike until their demands are recognized and all other demands granted.

The settlement, which at the time it was reached, was declared to have been accepted by 150,000 workers, assented to by the manufacturers' terms. These included a raise in pay, a revision of certain working conditions and arbitration as to hours, but insisted upon the open shop. The terms were accepted on behalf of the workers by the executive committee of the United Garment Workers of America.

—Mrs. E. G. Cook, Yorkton, Sask.

Rusty Nail Pierced Finger.

"I ran a rusty nail under my thumb nail while at work. The pain was terrible and I feared blood-poisoning from the dirty, rusty nail! I melted some ZAM-BUK and ran it into the wound, and it stopped the pain almost instantly. It kept away inflammation and in a few days the wound was quite healed."
—Mr. A. H. Shipley, Ont.

A Bad Burn.

ENGLISH BOY SCOUTS FEEL OVERSEAS LURE

LONDON, March 3.—(C. A. P.)—Some uneasiness is felt at the disposition of Boy Scout leaders to encourage members to emigrate. The week-end saw the departure of the first party of scout emigrants to Australia. Assisted passages have also been accepted from the Victoria Government, while the Canadian Government is also likely to be approached. It is said that Baden-Powell, the chief scout, is quite prepared to meet the cry that the home country is being drained of its youthful strength.

SARNIA, Ont., March 3.—(Special.)—It is rumored here that the local cannery company has a good offer to move their plant from Sarnia to a town in Essex County, and that they are considering the move. It appears that the company has not secured the amount of vegetables that it needs to keep its plant in operation. The town of Essex which desires to have the plant has made a good offer to bring the concern along. What will be the action taken by the company has not been announced.

Mothers should never forget this, because it is one reason why Zam-Bak is the best thing for children's injuries. It stops their crying and gives them ease. Right from the instant of application healing begins, and Zam-Bak heals quickly. Note these statements from reliable persons, some of whom you may know.

Sharp Upturn In All Stock Markets---Brazilian Reaches 98

GOOD RECOVERY IN TORONTO MARKET

General Idea is That Worst Has Passed for Time Being at Least.

BRAZILIAN BUOYANT

Another Sharp Rise in the Shares—Usual Favorites Share in Rally.

The Toronto Stock Exchange started the new week in splendid style, almost all-round buoyancy being in evidence yesterday. The more cheerful tone in Wall street and consequent sharp upturn in the standard issues proved a stimulus for local sentiment. It was also apparent that operators were more courageous, the belief that the worst had been passed, for the time being at least, inspiring a more confident feeling. Some wonder was expressed that was found at possible, with the money stringency, and the finance purchases of the 2400 shares of Brazilian which changed hands, but the incident was accepted as an effective demonstration of the capacities of the market.

Brazilian and Canners. The majority of the active issues which suffered during the recent decline made recoveries of greater or less extent. Brazilian opened up 6-8 of a point on a rally in the London market and reached 98 by noon. The range for the day was 97 1/4 to 98, and the close 97 3/4. Left a net gain over last week's final figures at just a shade over a point. The recent low record was 94 7/8. Canners was another prominent buoyant spot, with the price up a full two points to 79, a gain of 7 since a week ago. Toronto Rais moved up a large fraction to 133 1/4. R. and C. sold at 115 1/4, against the previous sale of 113 1/4 last week; General Electric rallied two points to 112; Twin City was at a new high record in these weeks, at 109; Maple Leaf common was about the only weak spot, these shares dropping to a new low since September, 1911, at 59 1/2. They sold at 73 last June. Packers' common changed hands at 150, against 144 a couple of weeks ago.

Investment Demand. Buying of some of the preferred stocks was accepted as an indication of the incoming of investment purchases, and several of these scored slight improvement for the day. The banks Commerce sold below 210 for the first time this year.

CLEARINGS AND THE STATE OF BUSINESS

Slowing Up in Trade Evidenced by Record of Canada and United States.

The customary slowing-up in business which occurs at this time of the year is evidenced by the statement of bank clearings of Canada and the United States. Last week's clearings in the Dominion totaled \$145,588,844 (not including Western) a gain of only 6.7 per cent. over the same week last year. This compared with an increase of 10.8 per cent. in the week ended Feb. 20, 22.4 per cent. in the week ended Feb. 15, and 20.8 per cent. in the previous week.

A. McDONALD CO. DID RECORD TRADE

January Earnings Made Excellent Showings—Big Ratio of Increase.

The January statement of earnings of the A. McDonald Co. Limited shows that the company did a remarkably fine business in that month, the gain over last year being almost ten per cent. Sales in January, 1913, were \$320,000, as against \$327,000 last year, an improvement of \$3,500. For the period ended March 1, 1913, the sales were \$4,320,000, and for the same period ended March 1, 1912, they totaled \$5,440,000, or a gain of \$1,114,000. From all present indications the sales for the present fiscal year will pass the \$8,000,000 mark. The shares scored a small improvement on the close in consequence of the favorable showing.

Averting a Panic

NEW YORK, March 3.—An interesting story is told in a Cairo cable here today. J. P. Morgan recently drove to Luxor to view the famous temple of Karnak. He was not feeling well and asked permission to drive round the celebrated ruins. This was refused, and contrary to the long-standing custom. Finally the eminent financier was offered an invalid chair in which he might be wheeled around. This was refused, and the news would be telegraphed to Wall street, said he. "It would be said that he was too ill to use his legs, and there would be a financial panic." The government inspector considered a matter of greater moment than even this possibility, and refused continued requests for inspection of the temples from the carriage.

LONDON MARKET STARTS WEEK WELL

Cheerful Tone in Evidence—Investment Buying the Feature of Session.

LONDON, March 3.—Money was in better supply and discount rates were easier today. The Bank of England bought the bulk of the \$5,000,000 new gold offered in the open market. The stock market started the week cheerfully under the influence of peace prospects, Paris support and investment orders which had accumulated over the week-end. Mexican rails, Grand Trunk and foreign bank shares led the advance, but the tone in the British section was unsettled later by weakness in home rails, which were offered owing to fears of a general strike.

SMALLER GAINS IN RAILWAY EARNINGS

Record of Last Month Not Up to Favorable Showing of January.

Gross earnings of the Canadian railroads reporting to date for the first three weeks of February show a gain of 10.8 per cent. over the same period of last year, and it is likely that the whole month will show a similar increase. This is considerably below the gains indicated for the previous month. A considerable portion of the difference, however, is accounted for by the fact that the earnings of the Grand Trunk and other lines were swollen by the large amount of freight being carried over the railroads being considerably tied up in that month owing to the inclement weather. This January was a more open month.

Across the border a similar tendency is shown. Gross earnings of all roads reporting for the three weeks aggregate \$23,588,965, a gain of only 3.2 per cent. over last year. For the first three weeks of January the improvement was 14.7 per cent. In the following table are given the gross earnings of all United States railroads reporting:

Year	1912	1913
Jan. 3 weeks	\$23,588,965	Gain \$711,427 3.2
Jan. 5 weeks	\$25,702,702	Gain 3,042,506 14.7
Dec. 3 weeks	\$26,684,062	Gain 1,368,111 5.8

WILL PUT SOVEREIGN BANK IN LIQUIDATION

An application is to be made by the International Assets, Limited, to have the Sovereign Bank of Canada placed in liquidation. It was announced at the time of the annual meeting a few weeks ago that about 12 per cent. of the shareholders of the bank had made no move to take out stock in the holding company, and that unless the delinquent parties joined with the other stockholders in the attempt to conserve the assets, it would be necessary to put the institution into liquidation. Apparently none of the delinquent parties has yet made any return to the International Assets, hence the present action.

TWIN CITY EARNINGS.

The earnings of the Twin City Rapid Transit Co. for the third week of February are \$15,838, an increase over the corresponding period last year of \$7,749, or 5.13 per cent.

NEW YORK MARKET PORCUPINE STOCKS GO SOARING AGAIN

Traders Take a More Cheerful View of the Political Situation.

SUPPLY IS LIMITED PEARL LAKE IN LEAD

Substantial Gains Shown by Some of the Leading Issues.

NEW YORK, March 3.—Operations on the long side of the stock market were conducted confidently today. For the present, at least, there is a reaction from the extreme pessimism of the last few weeks. Many traders held that the lower decline in prices had discounted all the evils which had been conjured up. The supply of range of prices and bear traders were unable to discover a weak spot of any importance in the list. No attempt was made to force up prices with a rush, but the slow, creeping advance went on virtually without interruption until many of the leading showing of strength was impressive enough to drive bear traders to cover. The copper, coalers, Pacifics and There was some profit-taking toward the close, which scaled down prices from the best figures of the day.

It was assumed that national politics would hold first place this week in the talk of the street, although there was a disposition to take a cheerful view of the immediate outlook. Political considerations have led to a large part in the decline of the last few weeks that traders were inclined to await definite indications of the attitude of the new administration before entering upon extended new commitments. An important factor in the day's advance was London buying. Amalgamated abroad, and there was considerable buying of Steel, C.P.R. and Erie.

EXCELLENCE CHANCES FOR INVESTMENTS

All things considered, there are reasons for taking more hopeful views regarding the future. The adverse conditions have been largely if not over-discussed. An important consideration is the fact that many good figures are now selling at such low attractive investments, even considering the prevailing firm rates for the next few days prove of a favorable character, we may expect a further rally in the market. Should we have an unfavorable character develop, because liquidation has already been there and comprehensive Henry Clews.
