HUGE OUTLAY ON VANCOUVER HARBOR

British Engineering Firm Secures Thirty Million Dollar Contract to Carry Out Big Extension Scheme, Involving Many Miles for Industrial Sites and Railway Terminals.

LONDON, Sept. 24.—(C. A. P.)—J. H. White & Co., eminent British harbor engineers, announce they have secured a contract involving some six million pounds sterling, for a scheme of harbor extension in Vancouver, where the provincial government recently granted foreshore rights to the Vancouver Harbor and Dock Extension Co.

Messrs. Huddleston & Vigers, and Mr. Hansley Hoeman, late British admiralty engineers, are also joint contractors. It is intended to provide 25 miles of dockage at Lulu Island and Sea Island, and many miles for industrial sites and railway terminals. The company agrees to give the government control over the dockage rates that are to be charged, and also undertakes to allow all railways and steamship lines equal privileges. The agreement gives the government the right to purchase, at an arbitrated value, the works which the company as a private promoter has placed at the disposal of the industrial world.

NO EUROPEAN AIRS WHEN DAY IS DONE

Jap Works in Trousers But Dons Kimono For Evening Wear.

NORRIS, Wash., Sept. 23.—Woman suffrage has gained no apparent headway in Japan, says Mrs. Wesley L. Jones, wife of the senator from this state, who has returned after spending several months as a guest of Consul-General Thomas Sammons of Yokohama. Mr. Sammons was formerly a resident of Tacoma.

"I did not see a Japanese woman in European dress while I was there, and I visited practically all of the large cities," said Mrs. Jones. "The women approach the suffragist idea, in that all of them work, however.

"The men wear European clothes in the daytime, but change to kimono in the evening. The Americans and English people there always dress in evening clothes for dinner."

Wall Street Fears Mob

WASHINGTON, Sept. 24.—(Can. Press)—Secretary Garrison has not yet passed upon the petition of New York bankers asking that additional barracks erected on Governor's Island, the quartering of a full regiment of troops. The bankers fear a mob attack.

MRS. PANKHURST IS NOT DAUNTED

Suffragette Leader Coming to America to Make Reply of Miss Asquith's Statement.

PARIS, Sept. 24.—(Can. Press.)—Mrs. Emmeline Pankhurst, the English suffragette leader, informed the Associated Press today, that she did not anticipate the slightest difficulty in entering the U.S., on her proposed visit to that country, and had received no communication whatever on the subject.

"The object of my voyage to America," she said, "is to answer the question in the minds of the American people, which Miss Haldane did not answer, namely, why militants do the sort of things they do in England."

The Miss Haldane referred to by Mrs. Pankhurst, is Miss Elizabeth S. Haldane, who recently visited America with her brother, Viscount Haldane, the lord high chancellor of Great Britain. While in favor of woman suffrage, she has expressed pronounced opinions against militancy.

"Fortunately," continued Mrs. Pankhurst, "on account of the reasonableness of American men, American women appear to be getting the vote by peaceful means.

"Nevertheless, I think that even American women owe some gratitude to English militancy for helping to make 'Votes for Women' the burning question of the day. I have no reason to expect anything but a sympathetic welcome from the nation whose past history shows it to have been a militant itself."

AFRAID TO CURB SPECULATION IN COTTON

Deadlock Reached at Washington on Proposal to Tax Trades in Futures and Commodity Exchange—Foreign Tariff Policies Are Now Definitely Settled.

WASHINGTON, Sept. 24.—(Can. Press.)—The tariff bill conferees late today came to a final disagreement over the proposed tax on trades in cotton futures. It was found impossible to agree either upon the Clarke amendment adopted by the senate or the compromise known as the Smith-Lever-Burleson plan. After a conference at the White House, participated in by President Wilson, Senator Simmons and Representative Underwood, and a long debate in the conference committee, it was decided to report a disagreement to both houses of congress.

The conference report on the balance of the tariff bill will be harmonious. When the measure gets back to the senate, and house it will be accompanied by a report that no agreement would be reached upon the so-called Clarke amendment. Imposing a tax of 80 cents per bale on cotton sold for future delivery, but not delivered.

It was predicted tonight that a strong movement in behalf of the compromise plan that has received general endorsement. For southern senators and representatives would be started as soon as the disagreement is reported.

The compromise would compel all contracts for future cotton delivery to specify grades and will compel cotton to be at that grade, or close to it. This plan, modeled on the bill of Senator Smith of South Carolina and perfected by Postmaster-General Surgeson, Senator Hoke Smith and others has the strong support of the house conferees.

As a result of a conference with President Wilson, the committee also settled finally the foreign policies involved in the tariff bill. The most important developments were:

Agreement on the five per cent tariff rebate on goods brought in American owned ships, with a provision that it should not affect countries with which the United States has treaties prohibiting such discrimination.

Defeat of the retaliatory tariff provision of the senate that would authorize the president to assess extra tariff duties on certain articles from countries discriminating against the United States.

Defeat of the anti-child labor provision that would have excluded foreign goods made by child labor. The house provision excluding convict-made goods was retained.

THIRTY PER CENT. OF WHEAT THRESHED IN SASKATCHEWAN QUALITY ESTABLISHES RECORD

Average Yield Per Acre is Placed at Twenty Bushels, But Price Level is Much Below Last Year's Oats and Flax Disappointing.

REGINA, Sask., Sept. 24.—With about one-third of the total grain yield of the province threshed, experts are in a fair position now to compare the general situation with that of last year. In an interview today, Wm. Grant, president of the Wm. Grant Grain Company, said:

"The recent rain has been general throughout the province, causing a temporary check to threshing operations, from which a report will be given in a few days. I believe that thirty per cent. of the yield has been threshed. The quality of the crop establishes a record.

"Of three hundred cars handled during the past two weeks, none was graded lower than No. 2 northern and more were graded No. 1 hard. This is a remarkable achievement in view of the fact that last year not a single car was graded that high.

"The Regina district, the average yield per acre is only 23 bushels, but for the entire province is conservatively estimated at 20 bushels. It is true that there has been a falling off in prices, especially during the past few days. The closing price yesterday was 85 cents, but this means roughly 90 cents to the farmer, as compared with 80 cents last season."

Oats and Flax Poor.

The oats and flax made up by the increased yields, it is regrettable that both flax and oat crops are disappointing in view of the large yield looked for earlier in the season. Oats are running from 40 to 50 bushels to the acre, while a yield of 60 to 70 was confidently expected. The same holds good when speaking of flax. This crop has been sadly over-estimated, and the latest returns show a return of 7 to 12 bushels an acre against an estimated one of 15 to 20.

The general movement of the crop in the three great divisions, wheat, oats and flax, is a vast improvement over any other year. The demand for wheat is being promptly met, and the greatest crop in the history of the province is being moved without a hitch.

SHIPMENTS ARE HEAVY

MOOSE JAW, Sask., Sept. 24.—(Can. Press)—Over 8,000,000 bushels of grain have been shipped from the Saskatchewan division, with headquarters in this city. Yesterday, owing to the inclement weather, necessitating a halt in the shipping operations, shipments fell off slightly, 564 cars of a total capacity of 372,517 bushels being recorded.

Shipments from points along the Soo line to Wayburn are heavy. At Milestone over 200,000 bushels have been marketed, and 150,000 bushels shipped out. There appears to be no danger of any car shortage.

CADET SYSTEM GREAT SUCCESS

Governor-General of Australia Tells British Parliamentarians Reports Are Misleading.

MELBOURNE, Sept. 23.—(C.A.P.)—The British parliamentary tour came to a close last night with a banquet in the federal parliament house. Lord Denham, governor-general who presided, took occasion to emphasize upon the visitors the success of the Australian cadet system. On every hand he said, the defence department was being congratulated. He much regretted that a section of the English press had published untrue and inaccurate reports as to the working of the system and appealed to the British members present, especially Liberals, to use their influence to prevent unfair and biased reports from appearing unchallenged.

Premier Cook proposed the toast to the visitors and Mr. Fisher seconded. Lord Emmott said the visit had been a most valuable experience and a great success. No one had failed to notice the different judgments formed in the different parts of the empire on the various questions. He was appalled at the ignorance of Australian conditions prevailing elsewhere. The imperial consciousness of Australia had much awakened of late, particularly in regard to defence problems, and he was sorry that some of the methods employed by her in making her contribution to imperial defence had been controversial at home. The essential difference in conditions should be understood before arguments applicable to one country were employed in dealing with another.

Heath's London-made Coats.

The House of Commons of London, England, have placed with W. & D. Dineen Company an assortment of men's coats in Bannockburn, Scotland, checked, herringbone and other similar cloths. These coats are most exclusively stylish, tailored with the thoroughness that characterizes the English-made coat. There is no other importation of coats in Toronto can compare with this Heath selection. There is a cap to match every coat. You are invited to consult the display. Dineen's, 140 Yonge street.

Record Grain Movement

FT. WILLIAM, Sept. 24.—(Can. Press)—The Canadian Pacific Railway today broke this season's grain hauling record at the head of the lake, 800 cars or about 1,000,000 bushels of grain having arrived between 7 o'clock last night and 2 o'clock this afternoon. The total amount received over all three roads during this period was 1429 cars.

CURRENCY BILL CHANGES ASKED

Credit Men Would Cut in Two Number of Proposed Federal Reserve Banks.

WASHINGTON, Sept. 24.—(Can. Press.)—Views of the banking and currency committee of the National Credit Men's Association, endorsing the pending Democratic currency bill in principle, but strongly urging numerous material amendments, were presented today to the senate committee.

J. H. Trege, secretary of the association, submitted a brief outline of proposed changes. He suggested reducing the number of proposed federal reserve banks from 12 to 6 in order to strengthen the resources of each; criticizing the bill's failure to provide for representation for bankers in the federal reserve board, opposed making federal reserve notes government obligations and urged that the notes should be redeemed solely in gold; declared the government should not collect interest on its deposits with the reserve banks, and vigorously condemned the plan to allow national banks to do a savings account business.

With extended hearings on the bill practically assured, the senate committee settled down today to secure all information available. A suggestion by F. E. Kenason, one of a delegation of northwestern merchants, that the committee visit various parts of the country and get in touch with business interests, was not thought feasible.

G.T.R. NOT READY TO BUILD LINE

President Chamberlin Says Financing of Southern New England Branch is Not Completed.

PROVIDENCE, R.I., Sept. 24.—(Can. Press.)—Hope that work on the Southern New England Railway, the line that was planned to connect the Grand Trunk Railway with the sea, by way of Providence, would be resumed speedily, was dispelled today by a telegram from President Chamberlin of the Grand Trunk. The message read:

"Regret to say that Southern New England has not yet made financial arrangements which would warrant its resuming work in Rhode Island."

HEARTY IN YOUTH AND LONG OF LIFE

Was W. H. Gouldin's Goose, Which Passed Half-Century Mark.

MARION, O., Sept. 23.—Ohio's oldest goose, which was taken from Marion by Wesley H. Gouldin to the California gold fields in 1849, is dead.

When Wesley Gouldin and his family left Marion County for the Pacific coast, driving oxen, they took with them the best specimens of their barnyard fowls. The only bird which survived their journey was a white goose. So attached did the family become to it that it was always regarded as a household pet.

For fifty years the goose laid from three to ten eggs every spring. Of late years the supply dwindled until this spring only one small egg was produced. When the gnawed feet of the aged bird failed longer to bear up its body the bird died.

Seeds for "The Garden of Allah."

When interviewed regarding "The Garden of Allah," which comes in his third week, Manager Sheppard of the Princess expressed the opinion that this would be a record-breaking engagement. The demand from outside points for seats has been enormous, and this means that there will be stirring scenes at the Princess this morning when the advance sale opens.

AVIATOR FACED GREAT PERIL IN FLIGHT

Garros, Who Crossed the Mediterranean, Was Almost Compelled to Drop In to the Sea When Sixty Miles From Goal, But Motor Suddenly Resumed Operations.

BIZERIA, Tunis, Sept. 24.—(Can. Press.)—The great flight yesterday of Roland G. Garros, the French aviator, across the Mediterranean from St. Raphael, France, to this port, a distance of 153 miles, was of a much more adventurous character than at first appeared. The motor of his aeroplane was taken to pieces today and several serious defects found. One of the segments was completely burned and other parts had been rendered useless.

Garros, in describing his flight, said that when about sixty miles from the French coast his motor began to work badly, and about the same distance from Bizerta it stopped altogether. He then had to alight, but to his surprise he found the chance that he might be rescued by torpedo boats. But suddenly the motor started again and kept running until he reached land.

SKELTON IN TOMB HALTS A FUNERAL

Unlooked for Discovery Necessitates a Change in Plan of the Burial Arrangements.

NEW ORLEANS, La., Sept. 23.—A halt was called in the burial of Savannah Richman, a negro, in Louisiana Cemetery, when it was discovered that the tomb in which it had been planned to place the remains was occupied by a skeleton.

A large funeral party had accompanied the body of the Richardson woman to the tomb. When the vault was opened and the skull of a skeleton revealed to their astonished gaze, a mad-rush resulted. The ministers who were present saluted the frightened members of the party, and the tomb was closed without further examination.

The skeleton was that of a man. The hair appeared intact, and the burial robe could be seen by the members of the party. The tomb in which the skeleton rested is one of a long row about six feet from the ground. It is believed the body was originally buried in a valuable casket, which was stolen from the tomb. The sexton in charge could not remember that the tomb had been opened since he has been employed there.

LOT TO KILL MINISTER.

TOKIO, Sept. 24.—(Can. Press.)—A plot to assassinate the Japanese minister of foreign affairs, Baron Nobuski Makino, and dynamite the foreign office has been unearthed by the police. A miner, who had stolen explosives for this purpose, has been arrested.

INDICTMENT AGAINST CITY IS ASKED BY EAST ENDERS

Odors From Sewage Plant Are Unbearable, and Residents Apply to Judge Morgan to Have Steps Taken to Put a Stop to the Nuisance.

As a sequel to fourteen months of neglect on the part of the department of works, the city is threatened with an indictment by residents in the Carlaw avenue locality. W. E. Raney, K.C., yesterday morning entered application for an indictment before Judge Morgan in the general sessions, and judgment will be made public today.

"After reading in this morning's World the state of feeling in the Woodbine Beach district I have little doubt that the city will be indicted," said Mr. Raney last night. "Until a week ago, when a diversion was made to the sedimentation beds further east, a great quantity of untreated sewage was being deposited daily in Ashbridge's Bay from the mouth of the storm sewer opposite Carlaw avenue.

"During the past few days the domestic sewage has, I believe, been deflected further east. But the mass of filth which has been pouring into the bay for more than a year remains."

Mr. Raney pointed out that the Keating Channel, which was originally constructed for sanitary purposes, has been allowed to fill up and no longer has any influence in draining Ashbridge's Bay.

The current in the channel often reached five miles per hour when it was new, but latterly there has been hardly any movement perceptible. This is in some measure due to the construction last spring of the semi-circle of piles bordering the sewage beds west of the Ontario Jockey Club. This wall of piles was placed directly opposite the eastern outlet of the bay and by its position checked the current passing between this eastern channel and the Keating cut.

"Terrible and Unhealthy."

In the course of the hearing before Judge Morgan yesterday Mr. Raney produced a statement prepared by Dr. Bell, of the provincial board of health, in which Dr. Bell said that in the whole course of his experience he had never witnessed worse conditions than those existing at the foot of Carlaw avenue during the month of August. He declared the stench to be terrible and unhealthy.

"The reply of the city's counsel to this was that smell could not harm anybody.

"You must drink water to get typhoid fever," he said.

Commissioner Harris declared that the nuisance had been alleviated by the laying of new sewers last July.

Judge Morgan adjourned the hearing with the intention of holding a conference with Crown Attorney Greer last night, and the case will be re-named this morning in the judge's chambers.

NEW BISHOP OF PETERBORO, DR. O'BRIEN, IS CONSECRATED

First Time in the History of the Catholic Church in Canada of the Elevation to the Hierarchy of One Born and Reared in His Episcopal See.

By Margaret L. Hart.
Yesterday was a memorable one for the city and diocese of Peterboro, for it witnessed, the first time in its history, and perhaps in that of the Catholic Church in Canada, the elevation to the hierarchy of one born and reared in what is now his episcopal see. Right Rev. M. J. O'Brien is a son of the people amongst whom he now exercises prelatical jurisdiction, and his priesthood, people and citizens generally are proud and elated at the knowledge that this "prophesy" reared in his own country, has been recognized by the head of the church and appointed chief pastor of the city and place of his birth.

The consecration of the bishop, which took place in St. Peter's Cathedral at nine o'clock, was the occasion of bringing another honor to the city, a visit from Mons. Stagni, the Pope's representative in Canada, who was consecrator at the imposing ceremonial of the elevation of Right Rev. Doctor O'Brien to episcopal rank.

From the west, from the east of Canada and from the dioceses near, came prelates and ecclesiastics to honor their confrere and to add dignity and grace to the occasion, and the people of Peterboro were one in the spontaneity and generosity with which they entered into the sentiment of the moment.

Most of the visiting clergy arrived the evening before and were the guests of the citizens, who opened their homes to them for the night.

Crowds Gathered Early.
Early Wednesday morning the crowds began to gather at the Cathedral doors, which, when opened, revealed a beautiful interior fittingly prepared for the impressive event soon to take place. The galleries were swathed and draped with billowy yellow and white, accentuated with groups of small papal flags. In the chancel the Union Jack and the Pope's ensign were intertwined. The high altar was rich with gold, lights and flowers. A small additional altar erected to the left was later used by the bishop, the main altar being reserved for the consecrating delegate.

Notice that the ceremonies were about to begin was given by the strains of *Ecce Sacerdos Magnus* from organ and choir, and the great concourse rose to greet the ecclesiastical procession which preceded the ceremony of consecration. They entered thru the main door and proceeded to the centre aisle to the chancel.

Headed by the tall glittering cross, in black cassock and white surplice,

Then came the monsignori, bishops, and archbishops in biretta, and purple or crimson soutane and cope. The most important figures came last, the bishop-elect, his purple train borne by two assistants, any his crimson cope enveloping his shoulders, while the delegate was robed in the black cassock and cloak of the Servite order, of which he is a member, only the purple of his biretta revealing his episcopal rank.

All classes and all creeds were represented in the body of the church. Sisters of the community of St. Joseph and Notre Dame filled the side galleries, the front pews accommodated the overflow of the white surpliced clergy, and the sanctuary was one great note of harmonious light and color.

A Long Ceremony.
The ceremonies lasted nearly four hours. The most impressive points were at the anointing of the head and hands of the postulant, the moment of the imposition of hands, the anointment of the new prelate in his cathedral chair and the bestowal of the mitre, crozier and ring, the seal and insignia of his elevation to the plenitude of priestly power and admission to place amongst the princes of the church. Assisting Mons. Stagni, the consecrator, were Archbishop Bruchet of Montreal and Archbishop Spratt, head of the Kingston diocese.

All the way from Calgary came His Lordship Bishop McNally to preach the sermon. The right reverend speaker took for his text, "I will give you pastors according to my own heart, which will feed you with knowledge and with doctrine."
The Sermon.
"Today we have witnessed the consecration ceremony by means of which a man among you is separated from men to bear the kinship of David," said Bishop McNally in referring to the consecration of Bishop O'Brien. "This diocese," he continued, "has offered up prayers which have been answered by the Almighty God, as borne out by the appointment of a new spiritual leader. The venerable episcopate of the province presented his name and the apostolic mandate which was read this morning, confirm their choice. The church in its beautiful and impressive service of consecration prays that the newly consecrated spiritual leader may have the strength and grace to fulfil the arduous duties connected with the bishopric. A new name has been added to the apostolic succession. It is needless to speak of him whom God has given to you as

spiritual leader. The consecration bears witness to his piety, and apostolic faith. I can speak of the kindness which he manifested upon his recent visit to me in that far distant land, when he kindly consented to bestow the spiritual assistance of a priest of his own diocese in order to further the cause of Christianity. Would to God that all men were guided by the same self-denying disposition, and the same generous impulses. It remains for you to lighten his ministry by loyalty, devotion and obedience."
Scholarly Address.
The address was a scholarly presentation of the necessity for the acceptance of revelation and of the claim of the church as the authoritative guardian of the doctrines of Christ, given by Him to the apostles and vested in the bishops as their lawful successors.

At the conclusion of the consecration the new bishop, in full pontifical, circled the church, giving his first episcopal blessing to those assembled. He was escorted by Rev. Dean Hand and Rev. Father Erick of Toronto. The great notes of the Te Deum meanwhile filled the cathedral.

Afterwards the priests of the Peterboro Diocese presented an address and a purse containing over a thousand dollars in gold. Everyone in turn then expressed his hearty thru the ceremony of kissing the ring.

The Bishop's Reply.
Bishop O'Brien in acknowledging these tokens of reverence and affection made a most telling reply. He knew his priests and they knew him, and there was nothing but the kindest sentiment existing between them. Knowledge of their loyalty gave him confidence and hope in his new field, and where and they would talk as one family.

Afterwards his visitors were entertained at a banquet given at St. Alphonsus Lyceum. Among the guests to Bishop O'Brien were the episcopal ring, presented by his late parish pastor, Rev. P. J. Flanagan of Barrie; Rev. G. McShane, Montreal; Rev. Dr. Burke, Toronto; Rev. M. Cline, Ottawa; Rev. W. Collins, Ottawa; Rev. E. J. Devine, S.J., Montreal; C.S.S.R., Toronto; Rev. M. Sullivan, Toronto; Rev. Father Sullivan, Toronto; and Father Sullivan, Toronto; and Father Sullivan, Toronto.

It is reported that Rev. Father Fitzpatrick, the well-known scholar and pastor of Ennismore, is the one given to the diocese of Calgary by Bishop O'Brien.

His excellency, Mons. Stagni, the apostolic delegate, arrived the evening previous for the purpose of officiating at the consecration of the new bishop. This was the first visit of the representative of his holiness, Pope Pius X, to the city of Peterboro, and his coming was made the occasion of a magnificent and impressive civic and ecclesiastical reception. On arrival of the delegate, the bishop-elect, O'Brien was met by a large delegation of clergy, civic officials, local societies and laity generally.

Four mounted marshals and a huge Union Jack headed the procession. The city band followed the route. His lordship, Bishop-elect O'Brien drove with a delegation in an open carriage drawn by four magnificent light grey horses.

At the cathedral square, outlined by electric bulbs, an immense concourse had collected to witness the presentation and reception of the children of the diocese, and a delegation of a semi-circle within. The girls were in white with wreaths of flowers in their hair, and the boys in blue and white. The great number of the children broke into the strains of "Vival Delegratus" all at the same time waving their flags of yellow and white with the papal insignia engraved upon them.

The scene at the moment was strikingly impressive. The delegate, Mons. Stagni, swung out in the air, the pealing organ emphasizing its meaning. The great trees on Reid street formed a leafy archway, under which the carriage halted. The delegate and Bishop O'Brien sat with bare heads, and the clergy and laymen of the diocese, Mons. Stagni was earnest with attention as he listened to the song of welcome from the hundreds of youthful voices, while the countenance of the bishop fairly beamed with proprietorship and pride as he looked out upon the children.

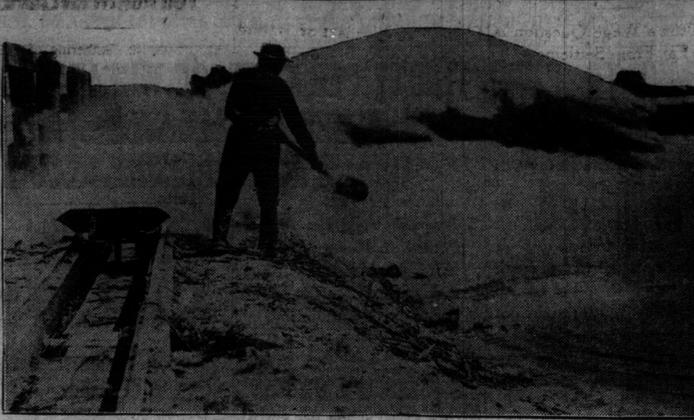

Two little boys handsomely uniformed in white with yellow sashes presented the guest of honor with a crown of crimson and white roses. The delegate responded by rising in his carriage and bestowing his blessing upon the little householders.

In the Cathedral.
In the cathedral addresses were read to the delegate by Bishop O'Brien for himself, and the clergy and laymen. Mr. L. M. Hayes, K.C., on the part of the laity. His lordship referred to his predecessors in the see of Peterboro, to Bishop Jamot, the pioneer prelate; to Bishop Dowling, the present venerable head of the Hamilton diocese, and to his immediate predecessor, the lamented Right Rev. R. A. O'Connor. That he might carry on the work according to their admirable example was his hope.

In replying, Mons. Stagni spoke of the magnificent spectacle, the edifying and soul-stirring example shown that evening by the men of Peterboro. He thanked the non-Catholic members of the city for their sympathetic attitude during the celebration in connection with the consecration of the new bishop, and congratulated them in the name of his holiness for their co-operation. At the conclusion of the addresses benediction of the Blessed Sacrament was given by Rev. Father McColl. Three thousand five hundred men were in line.

Among the Visitors.
There were about one hundred and fifty of the visiting and local clergy. Amongst them were: His Excellency Mons. Stagni, apostolic delegate; Archbishop Bruchet, Montreal; Archbishop McNally, Toronto; Bishop Spratt, Kingston; Bishop Budke, Winnipeg; Ruthenian bishop for Canada, Bishop MacDonnell, Alexandria; Bishop O'Leary, Charlottetown; Bishop Ryan, Renfrew; Bishop Latane, Halifax; Bishop Scollard, Saint John; Bishop-elect Forbes, Joliet; Bishop-elect Bouchard, Montreal; Mons. Laurier, Ottawa; Mons. Gauthier, representing Archbishop Gauthier; Mons. Signe, Ottawa; Mons. Ayl-

WHY USE DISINFECTANT IF WATER IS PURE?

The man with the wheelbarrow is shoveling chloride of lime on the sewage-polluted water lying stagnant in the sewage beds at Ashbridge's Bay. Commissioner Harris said yesterday that an Imhof tank will be constructed, which will do away with all odors from the sewage beds. Until this is done, the best remedy is to throw chloride of lime on the dried-out solid sewage, which has thru carelessness been allowed to get into the water and soak there, fermenting and emitting the strongest of odors.

ward, London, representing Bishop Fallon; Mons. Mahoney, Hamilton, representing Bishop Dowling; Chancellor L. O. Roberts, St. Hyacinthe, representing Bishop Bernard; Rev. H. E. Le Tang, Pembroke, representing Bishop Lorraine; Very Rev. George Corbett, Cornwall; Very Rev. D. J. Casey, Lindsay; Very Rev. N. Roche, C.S.B., Toronto; Rev. Dr. Kidd, Toronto; Very Rev. Dr. Zinger, C.R. Berlin; Dean Coty, Hamilton; Dean Hand, Toronto; Dean Moynagh, C.S.S.R., Toronto; Rev. M. Barrie, Dean Murray, Brockville; Rev. G. McShane, Montreal; Rev. Dr. Burke, Toronto; Rev. M. Cline, Ottawa; Rev. W. Collins, Ottawa; Rev. E. J. Devine, S.J., Montreal; C.S.S.R., Toronto; Rev. M. Sullivan, Toronto; Rev. Father Sullivan, Toronto; and Father Sullivan, Toronto.

Processes for producing artificial silk continue to multiply. New means of rendering the silk strong, supple and brilliant are constantly being discovered, and the industry has now attained a high degree of perfection. The dry-weaving process, by which the thread is directly obtained, has replaced the reeling process. In spite of this, the market for reeled silk is disappearing from the province, as it is being replaced by a simpler process and which are cheaper and more solid.

The first of these rival productions was obtained by dissolving cellulose in cuprous ammoniacal liquor. The difficulties encountered in this operation brought about the discovery of cellose, an acetyl cellulose, soluble in acetone, which might be used for cinematograph films, being rendered insoluble by treatment with formaldehyde, which operation is called "atherosage." A new application of the viscose process has been its use in the

manufacture of netting by the Compagnie Francaise des Applications de Cellulose at Fresnoy-le-Grand, which is called undine velting or tulie.

The report, issued by La Soie Artificielle, gives a net profit of \$201,100, against \$155,000 the previous year. The capital is \$259,500. It is stated that the price agreement entered into along with the Soie Artificielle d'Alsace, the French viscose artificial silk concern, and the leading foreign producers, has proved satisfactory. The French sales bureau, the Comptoir des Textils, thru which all the French business of the various interested concerns is conducted, is working smoothly.

CONDUCTOR ARRESTED.
Frederick Walker, 3 Conway avenue, a street car conductor, was arrested last night and looked up in the Claremont street police station, on a charge of assaulting John Blake, 82 Nassau street. Blake was riding on a Queen street car and proved talkative. When he left the car Conductor Walker got off also, and it is alleged that he beat Blake up so badly that he had to be taken to Grace Hospital. Blake was intoxicated.

Call and See This Book

Mere words cannot describe it—an illustration such as is herein presented cannot portray its beauties. The French would call it an "Edition de Luxe." We have no phrase so fitting. It is indeed a superfine edition—a book of surpassing elegance—the grand triumph of art in magnificent colorings, interwoven with word pictures none the less artistic.

Judge its Merits for Yourself

CONDUCTOR ARRESTED.

Frederick Walker, 3 Conway avenue, a street car conductor, was arrested last night and looked up in the Claremont street police station, on a charge of assaulting John Blake, 82 Nassau street. Blake was riding on a Queen street car and proved talkative. When he left the car Conductor Walker got off also, and it is alleged that he beat Blake up so badly that he had to be taken to Grace Hospital. Blake was intoxicated.

"BRITISH FINGERS MAKE THE BEST THINGS IN THE WORLD"

For the Workman Knows That Inferior Goods Do Not Hold a Market—Lord Northcliffe at Canadian Club Pays Tribute to Strength of British Industry.

Lord Northcliffe is 48 and looks as if he didn't realize it. This is probably because he was born in Chappell, where a man is a boy all his life and a woman's a girl till she marries.

Sir John Willison—And most of the offices. "Quicker to Walk than Phone." "And most of the offices, I am told," echoed the Harcourt peer.

"We have skilled fingers. We make the best things in the world. (Applause.) Go to Paris, St. Petersburg, New York, you see English hats."

Toronto's Papers Best. Lord Northcliffe considered Toronto "the most highly newspapered city in the empire."

"We have grown out of that sort of thing in England, I trust," he remarked in the outcry. "I'm a strong conservative."

Publicity a Safeguard. From this he diverged to Publicity, which he called "the great Crippler" and a victim caught by the net.

"A Prosperous Nation. "A more prosperous nation does not exist on the face of the earth," he asserted.

Housekeeping, Nursery Gardening and News of Interest to Women

AT THE THEATRES

Lankow Sings Tonight.
Edward Lankow rehearses yesterday morning at Massey Hall for the benefit of the newspaper critics some of the songs he will give at tonight's concert. He displayed a voice of remarkable richness, and sang with a verve and expression that won him unreserved admiration. The importance of his vocal management has impressed the singer with the necessity of being at his best and the large and fashionable audience will experience a delightful surprise when they hear this hitherto unknown artist. Much also is expected of Miss Mary Campbell, the trust accompanist, and Mr. Joseph Sheard, cellist, the assisting artists, each of whom has a strong local following. The demand for seats has become very pronounced and few musical people are allowing the opportunity to pass of hearing Mr. Lankow before he sets out on his tour across Canada. A limited number of rush seats will be sold tonight.

The Garden of Allah.
In its pictorial beauty and the strong flavor of the desert which it suggests, "The Garden of Allah" which comes to the Princess Theatre next week, is a stage creation of exceeding beauty and vastness. It is proclaimed the most massive stage production of the American theatre, and justly so it seems, judging from the peasants of praise bestowed upon it by theatre-goers. The play is a dramatization of the novel of that name by the author, Robert Hichens, and Mary Anderson Navarra. Readers of the book were impressed with the tale of the renegade monk and his eventual return to his monastery, as well as with the description of the Northern African country, with its Oriental mysticism and the singular charm of the great silence of the Sahara. The same is true of the dramatic version. The story still thrills with its romantic fervor, and again the scenes so picturesquely described in the book are faithfully reproduced.

Oh, I Say.
Arrangements have been made for the presentation of "Oh, I Say" at the Alexandra Theatre week beginning Sept. 29, with the usual matinee on Thursday and Saturday, now running in London and Paris. It is a French farce by Kerou and Barre, the brilliant French authors, but has been given a musical score by Jerome Kern for the American presentation. Sam S. and Lee Shubert (Inc.) have been pleased to make the offering. "Oh, I Say" will return to the Lyric Theatre, New York, after its presentation here, for a run. The piece has been running for two seasons in London and Paris, and it is believed it will make a sensational hit in Canada. The story—rather action—develops the amorous adventures of one Sidonie (Alice York), a Toronto girl, a French actress. She is engaged to marry Marcel (Bert Clarke)—but Marcel meets Suzette—Mabel Hamilton—falls in love with her and marries her without breaking off the engagement with Sidonie. The authors have so arranged the movement of the farce thereafter that Marcel and Suzette, bride and groom, are introduced to the audience in the flat and villa of the bride, Sidonie. It behooves Marcel to pass himself off to Sidonie as the best man for the contracting parties rather than the

groom of Suzette, with consequential complications and surprises for Sidonie. As Sidonie is a young woman with many admirers, one being the father of Suzette, added interest is given thereby to the telling of the story. The farce was adapted by Sidney Blow and Douglas Hoare and staged by J. C. Hanna and A. H. Hallbrook. The cast will include Walter Jones, Alice York, Bert Clarke, Mabel Hamilton, Joseph Phillips, Claude Palmer, Tyler Brooks, Flavia Arcaro, and Elizabeth Ariana. There are a large chorus of pretty girls and an augmented orchestra of twenty-two.

Cyril Maude Coming.
Cyril Maude, England's foremost comedienne, whose coming to America within the next ten days is the biggest individual star tour since Mrs. Patrick Campbell, will open his American tour in this city at the Princess Theatre, on Oct. 6. This will be the great actor's first appearance outside England during the 29 years he has been a lion of the London theatre-going public. Last Saturday, Mr. Maude, who has always been a great favorite of royalty, was made "godfather" in a particularly graceful manner by King George and Queen Mary, when they gathered around him all his illustrious friends at command performance given at Balmoral Castle. Mr. Maude will appear in Toronto in the pieces on which he earned his great renown in England. For the opening bill there will be "Toldies," an adaptation by the late Clyde Fitch of a very successful French comedy, called in the original "Triples." Another play in the Maude repertoire will be "The Second in Command" which is another production to originate at the London playhouse. In "Beauty and the Beast," the splendid story that W. W. Jacobs once wrote, Mr. Maude will be seen as Capt. John Barley, a Thames River character. The full strength of Mr. Maude's Playhouse company of 30 will be seen throughout the Canadian engagement. Prominent in his support will be his daughter, Margery Maude, Lennox Pawle, remembered for his delicious comedy in the Lebler company's "Pomander Walk," is the only member of Mr. Maude's company previously seen in America; Montague Love, Edward Combermere, Arthur Curtis, John Harwood, for many years Mr. Maude's stage director; Lena Halliday, Mary Merrell, Margaret Swallow and Emma Chambers, are a few of the score and a half of British celebrities who will aid the distinguished visitor.

Denman Thompson's "The Old Homestead."
Denman Thompson's charming play "The Old Homestead," will be seen at the Grand next week. There are many reasons why "The Old Homestead" has been so successful for twenty-seven years. One of

Fresh From the Gardens

of the finest Tea-producing country in the world.

Try it—it's delicious. BLACK, MIXED or GREEN.

THE EYES OF THE HOUSE

THE windows are the eyes of the house, and, like all eyes, are intended to be looked thru. They should be kept shining and bright, ready for use every hour of the day and at night, their lids, the curtains, should cover them and protect the intimate family life from the stare of passersby. Some whole-hearted people deserve praise for not drawing the blinds when the wind blows, but let the bright light and the cheer glimpe thru the filmy lace to give happiness to some one homeward bound thru the darkness. Hangings are more graceful than shades and are coming into general use. The color scheme of a room may be helped by them. But it is not an extravagance to have dark shades for summer to break the glare of the sun, and white or cream blinds to brighten the dull light of winter. On the contrary this adds to the comfort of the family, and the life of the shades.

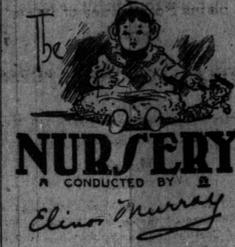

There is no lack of suitable material for every window's need. If the gaze of your next door neighbor disconcerts you buy a "pane" curtain. These are of delicate material and large weave that will permit you to see out without being seen. They are made firm with tape around the edges and fastened to the frame of the window to the glass. These may be paneled and match the curtains in the glass door of the reception hall or they may be very inexpensive indeed. For the hangings madras cloth or soft silk material faced with something heavier and weighted with small lead discs will make them hang evenly. But whatever material you choose, prithe do not loop them back and tie them at either side of the window with a sash of ribbon, leaving a diamond-shaped space in the centre of the window to peer thru. This stiff, hard style is foreign to the nature of lace or silk, and destroys the use of the window, which we've already agreed to look thru. Hang the curtains on strong small rods that fit between the casings of the windows, leaving the wood uncovered to show the fineness of its grain and color. Sew tiny brass rings to the curtains, slip them over the rod, and your window will be sensibly dressed, while the curtain may be pushed aside to admit the light and air. Upper sashes are often filled with colored glass, which is not so expensive as in years past, and there is a colored, transparent paper sold by the yard that may be used to advantage in bathroom and hall, and a glass stain or paint that is quickly applied. The dotted lawns, scrims and figured muslins are always liked in bedrooms and here each curtain is a necessity. Draw them to the inside of the casing, or in a window may, or raised without disturbing them. When closing time comes, use the prithe and give the windows a thorough brushing with a small whisk broom. Wipe the glass with a soft, dry cloth and clean the woodwork with warm water containing a little borax and ammonia. Soap is scarcely ever needed in the water, if clouds the fine varnish of natural woods. Painted surfaces, of course, require different treatment. The water for the glass needs to be softened with borax, or washing soda and ammonia. Wet an old, soft cloth, that is free from lint, wring it almost dry; for the less water used the better. Follow the wet cloth instantly with a dry cloth and polish with a chamol or oil silk. In winter when it is difficult to clean windows the glass may be wiped off quickly with a soft cloth moistened with wood alcohol. This removes all marks and soil.

The most important of them is that the character is drawn from real life. The audience seems to appreciate the fact that Of Prime, Aunt Matilda, Seth, and the other characters, Eb, Gansey and dear Uncle Josh are real, live people and not fictions of the author's imagination. Denman Thompson lived among these people for many years before he gave Uncle Josh to the stage. He became intimate with their life, and his copious notes of the humorous and pathetic incidents with which New England country life is crowded, made so the thing seemed to grow in his mind as the years went by, until he had prepared a series of sketches and pictures. In the trust sense of the word which became in time the finished drama, and which he aptly called "The Old Homestead" by giving to the stage one of the few really successful plays of this generation. When the history of the American drama comes to be written, no play will occupy a more conspicuous page in its annals than that of Denman Thompson. The grand old play, dear to millions the country over, will be seen with the original company under the personal direction of Mr. Frank Thompson.

Dolly Dimple Girls.
There is abundance of variety in the "Dolly Dimple Girls," which offers a much valued, and quite above the average, comedy in the Star. The story is a rattling good comedy in itself, and the music is so much valued, and quite above the average. J. Theo. Murphy, Gloria Martinez, Hazel Ford, Rose Forrest, Harry Warner, Charles Cole, May Burns, Jack Sutter, Wm. H. Smith and others.

Great Behman Show.
Seats for the "Great Behman Show" at the Gaiety Theatre next week are on sale. The "Behman Show" with Lew Kelly (Prof. Dope) and his imaginary dog, "Rogue," also Fred Wyckoff, Lon Hacoal and the best supporting company in the burlesque field, makes the machine of an entertainment that you cannot afford to miss.

Mrs. Meila's Arrival.
Mrs. Meila and her concert party, under the care of Mr. Powell, her English manager, will arrive on the C.P.R. Empire steamer at Quebec tomorrow. In addition to the famous prima donna, the party will include Edmund Burke, the Canadian baritone, Marcel Moyse, the pianist, and Gabriel Lapiere, accompanist. Because the first two concerts of the tour are in Montreal next week, and in Toronto the following week, it has been found advisable to bring in the company by way of the Canadian port of Quebec. New York, which is the usual point of departure of the local concert, is Oct. 7, and the last sale will begin on Wednesday, Oct. 2. A goodly portion of the seating plan is being taken up by mail orders.

Investigation.
At the age of 2 or 3 years, according to the maturity of the child, the instinct of investigation begins to show itself, developing in various ways an appalling power of destruction. The child tears his tearable toys to pieces, and smashes anything that will smash. It is a critical period, and a time when mothers are wont to talk of "destructive little monkeys," "mischievous young scamps," and the like. They overlook the fact that this very instinct is what makes for progress in our civilization. If it were not for this instinctive activity, this impulse to find out what and why things are, and how they are put together, we would have had few inventions, few of the marvelous results of scientific research that we enjoy today. Instead of vainly attempting to suppress this power in the young searcher after truth, guide it aright. Give him playthings which can be taken to pieces and put together again without injury; dolls that can be dressed and undressed; horses that can be harnessed and unharnessed and attached to carts. Blocks are one of the best toys to provide for this period. They can be built into various new forms, and they encourage the child to work out his own ideas in their arrangement; and the more of his own ideas he can put into the rearrangement the better. It is the divine right of each human being to reconstruct in his own way when that way does not interfere with the right of others. Remember, build up the positive side of your child's nature and the negative side will not need to be unbuild.

GOOPS
By GELETT BURGESS

HAROLD HOLSTER
When Harold Holster stubs his toe, He cries and whimpers in his woe; But when by accident he falls, simply bawls! If he were not a Goop, he'd just Rise, laugh, and then wipe off the dust!

Don't Be A Goop!

TOOK CARBOLIC FOR HORN OF WHISKEY

James Thompson in Hospital From Poison, But Likely to Recover.

James Thompson, August 25 evening, was arrested yesterday afternoon, on a charge of being drunk. The police at Clarence street station summoned Dr. Badie, who had the man taken to the General Hospital, where it was found he was suffering from carbolic acid poisoning. He will recover.

THE DIFFERENT PLAYER-PIANO.
What is Accomplished by the Aluminum Action.
The aluminum action, which is a distinct feature of the player-piano made by the old firm of Heintzman & Co., Limited, gives it an exclusive place among the player-piano manufacturers anywhere. This kind of action is found in no other player-piano. It makes the instrument proof against air leakage, a common weakness in the average player-piano. Where air leakage takes place the efficiency of the instrument is seriously impaired. Again the aluminum action preserves the instrument against climatic changes, with the result that the Heintzman & Co. player-piano has found a large sale in all parts of Canada, many having been placed in the north-west provinces. You are invited to witness the daily demonstration of this different player-piano in the warerooms of Heintzman & Co., Limited, 198-197 Yonge street, 2d floor.

Every Columbia Record can be played on any disc instrument of any make. Double value for your money—a selection on each side. Standard price, 55c. Others at higher prices. Guaranteed to have five times the life of other makes.

Health and Beauty Aids
BY MRS. MAE MARTYN

Florence: Indeed, I do most certainly advise against the use of astringent shampoos. Why should you cover your hair with sticky, slimy animal matter which quickly coaxes, when it is already greasy with excess oil? It is an absurd practice which is rapidly driving you to make a bad thing worse. Beautiful and lustrous there is nothing equal to this simple shampoo. Just a level teaspoonful of crystals in a cup of hot water. This is a favorite shampoo with actors and actresses, and it will make the most of the "crowning glory" nature gave.

Mabel: Objectionable hair or tux is easily and quickly hidden by the following simple treatment: Make a stiff paste with powdered delatone and water, apply to hairy surface two or three minutes, then rub off, wash the skin and it will be free from snags or blemish. Rarely is more than one application of delatone necessary, excepting where the growth is very stubborn.

Mild: Rubbing pyroxin on eyebrows makes them grow thick and gives the eyebrows straight lashes. Apply at last with thumb and forefinger, and they will come in long and curly. Be cautious and don't get any pyroxin where hair is not wanted.

Katie: You are mistaken when you think there is no cure for dandruff. I would use this simple hair tonic and the dandruff will disappear and the itching scalp be promptly relieved. To an ounce of pulsatilla add a half ounce of tincture of camphor and a half ounce of tincture of nuxom. Dip the ends in well. This tonic will strengthen the hair, clipping the ends is not necessary. For the right shampoo, read reply to Florence.

Lillian: Yes, it surely is alarming when you begin to grow fat to wear your best gowns. But here is a neat remedy to start in. In all my experience have never known a dieting fail. Get one ounce of pulsatilla, one ounce of nuxom, one ounce of cardene and 1/2 pint of alcohol. Then add enough hot water to make a quart. Take spoonful before meals will invigorate in every way. Your appetite will improve and the purified blood in your veins will give the beauty of fine skin, bright eyes and health restored.

Ma: You are right to want to stop these wrinkles before they start. They come fast if you let them. Have never known a dieting fail. Get one ounce of pulsatilla, one ounce of nuxom, one ounce of cardene and 1/2 pint of alcohol. Then add enough hot water to make a quart. Take spoonful before meals will invigorate in every way. Your appetite will improve and the purified blood in your veins will give the beauty of fine skin, bright eyes and health restored.

Ma: You are right to want to stop these wrinkles before they start. They come fast if you let them. Have never known a dieting fail. Get one ounce of pulsatilla, one ounce of nuxom, one ounce of cardene and 1/2 pint of alcohol. Then add enough hot water to make a quart. Take spoonful before meals will invigorate in every way. Your appetite will improve and the purified blood in your veins will give the beauty of fine skin, bright eyes and health restored.

Building a Rockery.
The rockery is without doubt one of the oldest forms of garden decoration, and when properly built, is a delightful piece of work. There is lots of fun in building a rockery, just as there is in all sorts of garden work. There is something actually exciting in making the stones fit in just so, in coaxing a rugged boulder to keep happy company with a small smooth stone, or in showing a large flat slate exactly how best to help his neighbor form a suitable pocket to hold a bit of earth for fern, or wild flower. There are several important rules to be observed in building a rock work. This work cannot be done just any old way at all. But, strange to tell, any small boy will be able to solve many a twisted problem, along this very line. First, in constructing any form of rockwork, the most important thing to consider, is how to avoid stiff, unnatural, or formal effects. Anything approaching the straight line should be avoided, because such is absolutely untrue to nature. Above all things, you must strive to be true to nature. Even long lines of stones, certainly must not be tolerated, although such are frequently seen, used as edgings to beds and borders, and walks—often, low, blue-painted white, or white-washed. Whenever a bold, rugged effect is desired, several large boulders should be arranged in as natural a way as possible, in order to give the effect of one large unbroken rock. The cracks and crevices must be filled with good soil, because rock plants must have the proper amount of nourishment provided for them as well as other plants. For this reason, if you wish to have the body of the rockery composed of carefully prepared soil, rather than be filled in with natural soil, as is so usually done.

CHANGES ASKED IN IMMIGRATION ACT

Trades Congress Puts Through Number of Resolutions at Whirlwind Session.

ENTRY DURING STRIKES

Legislation to Prohibit Workers Being Admitted When Trouble is On.

MONTREAL, Sept. 24.—(Can. Press.)—Resolutions dealing with the immigration law and its proper enforcement, the inland revenue laws, the increasing death rate both among adults and infants in large cities, the employment of armed men by private corporations, the importation of Asiatic labor, the attitude of the police towards legitimate picketing, monthly pay days, the licensing of bartenders, and the wages and clothes of letter carriers, were put thru by the Trades and Labor Congress at a whirlwind session this morning.

Access to Immigration Sheds.

Herman T. Campbell, St. John, submitted a resolution in which the committee was asked to urge the government to gain access to the immigration buildings at the points of entry into Canada, and the motion made that in time of strikes it was necessary, where artisans were being brought from England and other countries by the business interest concerned, that labor be placed in a position to ascertain as to whether the immigration law was being enforced and to advise artisans of the exact conditions of employment here.

Want Changes in Act.

The allegation that the immigration law compelling males and females on arrival in Canada to be in possession of at least \$25 had been rendered void by a decision of Judge Graham of Halifax, on March 23, 1913, who contended that money loaned to a man could be considered as his absolute property until redeemed, was next taken up in a resolution submitted by C. W. Perry of the International Photo-Engravers' Union. The resolution explained that by this decision unfair workmen were allowed to enter the country who had been given drafts to enable them to evade the law, and decided that the section of the act evaded should be amended. A further resolution on this subject

asked that the executive adopt ways and means to secure the enactment by the government in council of a law prohibiting the entry into Canada of immigrants in the branch of industry affected during a strike, because during trouble experience had taught that there was always a greater influx of labor in the class of work affected.

Increasing Mortality.

The problem of the increasing death rate of adults and children in large cities was taken up thru the resolution of John W. Bruce of the Steam-fitters' Union.

The resolution contended that the high mortality rate was due in large measure to the insanitary systems of heating, ventilation and sanitation existing, and the lack of effectiveness of many of the provincial laws governing these things.

The matter of armed employees by corporations came up in the recommendation that the congress use its powers to amend into law a bill similar to that being considered by New Jersey, which seeks to make it illegal for any individual, corporation or association, to employ bodies of armed men on their premises.

TRAINMEN'S CASE NOW CONCLUDED

Railroads Prepare to Combat Demands Made for Higher Wages.

NEW YORK, Sept. 24.—(Can. Press.)—After offering evidence to show in effect that the increased cost of living for the trainmen of the eastern roads can be met only by the wage increase they demand, the employes closed their direct case today before the federal board that is arbitrating the trainmen's grievances under the Newlands Act. The roads at once began presentation of their testimony, calling one witness before the hearing adjourned until tomorrow.

FLAGRANT CASE OF NEGLIGENCE.

KINGSTON, Sept. 24.—(Special.)—The Children's Aid Society, acting in the case of the Arden family of Frontenac County, found a disgraceful condition of affairs. Three children, one aged ten and another twelve, had never been at school in their lives. The court ordered them to be sent forthwith.

Free Concert Saturday.

Our readers are asked to watch these columns Friday for programme of Saturday's Free Concert in Recital Hall. Ye Olde Firme Heintzman & Co. Limited, 193-195-197 Yonge street, city.

GREAT JOURNALIST TO TELL HISTORY

Arthur Spurgeon, J.P., Explains Possibilities of Newspaperdom.

TELLS TORONTO PRESS

His Experience From Cub Reporter to That of General Manager.

From "cub" reporter to general manager of the great publishing firm of Cassells, Arthur Spurgeon, J.P., who occupies one of the highest positions among the journalists and publishers of Great Britain, in an address before the Toronto Press Club, at the Tea Pot Inn, tonight, will tell the writers of the city how he did it. An idea of his standing among British journalists may be gained from the fact that he was president of the British Delegates to the International Press Congress held at Vienna.

When Mr. Spurgeon took over the management of Cassells the company was in a bad state, but he immediately set himself to the gigantic task of raising the firm from its low estate to the enviable position it now holds. Anyone familiar with Cassells in the old days, who goes to the office today will find how closely his organizing ability has been applied. The very appearance of the place has changed, and the methods of the staff, while the output of the firm, which is increasing constantly, has altered completely in character.

Effective as a writer, Mr. Spurgeon is perhaps more so as a speaker, and with clear vantage and facile delivery, he combines with it a large sense of humor.

GO FORTHY DOLLARS.

KINGSTON, Sept. 24.—(Special.)—Thieves secured entrance last night to the real estate office of Norman & Webb. The safe door had been accidentally left open, and prying one of the drawers the thieves secured \$30, which very luckily was all the money in the safe at the time.

Pianos to Rent.

Good pianos to rent on application to Ye Olde Firme Heintzman & Co. Limited, 193-195-197 Yonge street, Toronto, phone Main 6587.

CHINESE INVASION CREATING ALARM

Increase in Smuggling Stirs U. S. Authorities to Greater Vigilance.

WASHINGTON, Sept. 24.—(Can. Press.)—An increase in the smuggling of Chinese into the United States, alarming in its proportions, has induced the immigration authorities to redouble their vigilance, particularly along the southern and western borders of the country. Early next week Richard H. Taylor, immigration inspector at large, will begin a trip along the southern border of the country to see that the law is rigidly complied with. Later he will extend his trip to points on the Pacific coast. Scores of Chinese recently have been apprehended in the United States who gathered entrance across the Mexican border.

SPECIAL MATINEE SATURDAY MORNING.

Unique Feature in Toronto Theatricals Will Be the Extra Matinee of "Snow White and the Seven Dwarfs."

It is unusual for a theatre to give a morning performance in Toronto, but owing to the large demand for seats for the matinee performance of "Snow White and the Seven Dwarfs," Mr. Ames' beautiful production of the fairy tale, with which so many children are familiar, the management have deemed it necessary to give an extra performance on Saturday morning, which will begin at 11 o'clock. Snow White and her little friends have become so popular in Toronto that the Alexandra Theatre is a real treat for the grow-up people to see every afternoon. The pretty little children that are coming to see these charming little actresses and actors in "Snow White and the Seven Dwarfs" make one of the most pleasant scenes that anyone could witness, and the lobby of the Alexandra Theatre looks like a kindergarten on a holiday. The usual matinee will be given on Saturday afternoon.

A committee comprising the heads of leading Italian scientific institutions and presided over by the King of Italy has been formed to obtain money by public subscription for paying suitable honor to the memory of Professor Giovanni Schiaparelli, the distinguished astronomer. It is proposed to erect a monument to him at his birthplace, Savignano, in Piedmont, and to place a memorial tablet in the Brera Palace at Milan. To the world at large Schiaparelli was chiefly famous for his discovery of the so-called canals of Mars in 1877.

HYDRO COMMISSION AFTER MORE MONEY

Extensions in Lighting and Car Line Current Necessitate Larger Plant.

COL. GRASSETT IS O.K.

Says the Colonel in His Letter Was Not Impertinent.

Mayor Hocken announced in the board of control yesterday that the Hydro Electric Commission will have to raise an additional \$700,000 for extensions of the system. These extensions have been completed. "Extensions of the street and park lighting, and supplying current for the civic car lines have necessitated considerable enlargement of the plant," Mayor Hocken explained. "The commission wants our approval to go before the municipal council, and to secure permission to issue \$700,000 of bonds. The annual revenue from the extensions will be \$130,000, and the annual charges will be \$177,000. This will leave an annual surplus of \$40,000, and thus the enlargement of the plant will be self-supporting."

"Why was not the board informed of this before the work was done?" Controller Church demanded. "You can get any information you ask for at any time," Mayor Hocken told the controller. The request of the commission was granted by Controller Church said. "Their letter to us bordered upon impertinence."

"When you talk of Col. Grasset, who wrote the letter, being impertinent, you exceed the limit," Mayor Hocken admonished. "The colonel is a gentleman."

This board does not want to interfere with the police commissioners," Controller Church said. "You are trying to get at me, I suppose," Mayor Hocken said. "I am willing to state that I voted for an increase in the pay of the police because the council favored it."

"We want results, we don't want any tampering with the police force," Controller O'Neill interjected. "We cannot guide the commissioners into increasing the pay of the police. If we go at it in a quieter way we may get the increase," Controller Church complained. "We've never had proper representation on the police commission."

"We'll have to change the mayor," Controller Foster put in.

"We ought to get some report on the sewage disposal works," Controller Church swung into. "I think the plant is doing badly. We should find out if we can collect damages from the experts."

"What of what Mr. Church wants, and then ask for the information he is after," Mayor Hocken said to Clerk McQueen.

"McCullough said at Regina that he did not find in Europe an effluent from sewage works that is safe to turn into streams," Controller McCarthy stated. "That means there are no experts in Europe qualified to advise us on the betterment of our sewage disposal works. We will have to work out the experiments ourselves. At present nine-tenths of the sewage is being dumped into the harbor. The old way and the other tenth is being experimented upon. It is from the great bulk of the sewage that the smell is coming."

Motor Bus Service.

Corporation Counsel Geary and Commissioner Harris recommended against a motor bus service, contending that it would not solve the transportation problem. They stated that the report Controller Church asked for would take six months to complete and a fund of \$5000 would have to be made available at once for it.

"Geary and Harris are only bluffing out of a report," Controller Church declared. "They are against a motor bus service."

"Do you want to report \$5000?" Mayor Hocken asked.

"No, no," Controller Church was quick to reply. "The report of Arnold and Myles on motor bus service is only trivial nonsense and generalities. We don't want the advice of experts at all."

Deputy Treasurer Patterson reported that lands to be sold for arrears of taxes are so few that the sale should be postponed until next year. This was adopted.

A big batch of tenders was opened, and while this was going on Controller Church directed attention with an editorial in The World, the clipping of which he kept passing to his colleagues and directing their attention to it. The editorial dealt with the fact that the projected purchase of the rapid transit and electric light and power properties is being forwarded strictly upon a basis of a business proposition.

"You fellows should get out from under or you will have lots of trouble," Controller Church said, looking directly at Controller O'Neill.

"You are the one who is doing most of the troubling," Controller O'Neill retorted.

"You are a piker, the way you have acted on it," Controller Church fired back. "When he had got thru fingering the clipping there was not much left except the sting."

Before the C.P.R. will have finished the reconstruction of the Windsor Station at Montreal with offices and tracks and yards, the Place Viger Station with the elaborate system of trackage which is now virtually completed, it will have spent close on \$8,000,000.

The most expensive kind of work which, nevertheless, does not offer any

bulk for the money, is terminal trackage. The work is so complex, the figures and figures so numerous, the accuracy so important, that large sums of money are spent without anything of a commensurate nature to show for it. These particular works do not include the extensions at Outremont, the Glen Sorlin, nor the constant quiet acquisition of plots of land in various parts of the city for trackage or yard purposes.

The company is spending over \$30,000,000 in the west at the present time, and in no part of the system is quality disclosed. In every centre in the west the C.P.R. has work going on either in the city or about it.

When the complex and diversified nature of the organization is considered, it will not appear remarkable that constant betterments are necessary, nor that these cost scores of millions of dollars per annum.

An ingenious glare-reducer for headlights is an aluminum rack just behind the glass of the lamp. The plates are polished on the lower side and blackened on the upper, and are placed horizontally an eighth of an inch apart. At 400 or 500 feet away the light shining thru appears undimmed, while on approaching it steadily diminishes, until it almost disappears at a few feet.

Just a Short Flight up to Guaranteed Service in Grafonolas and Records

THE Toronto Grafonola Parlors are up one short flight of stairs, at 141 Yonge Street. At the top you will find a brand new kind of service.

- Complete Stock—Every Columbia Record listed. A full line of Grafonolas from \$20 to \$650. Easy payments arranged.
- Expert Attendants—Courteous salesmen who know the goods.
- Express Delivery—Records or Instruments ordered before 4 p.m. delivered same day.
- Telephone Service—No waiting, no switching from department to department, and the kind of help from our end that we know you will appreciate. Order your records over 'Phone Main 6339.
- Records on Approval—No need to spend an hour making selections—do it at home. We call on these for you do not keep. No red tape—no restrictions.

This kind of record service will double your Grafonola pleasure

The "Favorite" \$65.00

The most complete and reliable musical instrument, costing less than \$100. Will play any disc record of any make. Its tone is as sweet as a 'cello, its motor as silent as the foot of time, its cabinet as beautiful as Greek Temple. Convenient terms arranged if desired. Have it sent home on approval. 'Phone Us To-day.

THE TORONTO GRAFONOLA COMPANY, 141 YONGE STREET

Just a short flight up from the street.

'PHONE MAIN 6339

Other Models at \$20.00 to \$650.00

Send 10c in stamps for the Columbia Demonstration Record, worth 85c.

The Toronto World

FOUNDED 1850. A morning newspaper published every day by the Toronto Newspaper Company of Toronto, Limited; H. J. Maclean, Managing Director.

STRAPS AND DOUBLE FARES FORWARD SEVEN.

Explanations and apologies filled several columns of our worried evening contemporary last night. It imagines "deals" and doings of the most nefarious kind going on all over the city, and it can't lay its finger on any...

THE CATTLE TRADE SHOULD IMPROVE.

At the present time the live stock industry is much in the limelight, not only in every province of Canada, but throughout the United States, Great Britain, Australasia, South Africa, South America, and elsewhere.

DECKHANDS NOW ARE UNDER ARREST

Buffalo cattle market is the headquarters for the distribution of stockers, all railways radiating from that centre. The World does not counsel the Ontario and Quebec farmers to cater for the supply of "stockers" to the Buffalo market.

NO AGREEMENT TO DISCUSS.

There is no demand by members of the city council for information upon the agreement between the city and Sir William Mackenzie, to carry on proceedings towards the municipalization of the Toronto Street Railway Company and the Toronto Electric Light Company properties.

AN OLD ONTARIO HANDBOOK.

A most excellent handbook of old Ontario has just been issued by the provincial government for the use of the immigration officials in Great Britain and elsewhere. It covers such features as farming, dairying, fruit-growing, forests, mines, fisheries, manufactures and education.

THE WORLD FORM CHART

WOODBINE RACE TRACK, Toronto, Sept. 24.—Fourth day of J. C. fall meet.

Weather clear. Track fast.

FIRST RACE—Six furlongs, purse \$500, for three-year-olds and up, selling.

Horse	Wt.	St.	Str.	Fin.	Jockeys	Str.	Pl.	Sh.
Tom Holland	105 1/2	6	5 1/2	4-5	4-5	1-1	Gould	92-20 23-20 1-2
Bobby Cook	94	2	4-2	3-1 1/2	3-1	1-1	Taylor	85-10 10-10 4-5
Jim L.	106	1	1-1	2-1 1/2	1-1	3-1	Skirvin	49-10 49-10 13-20
Lelaha	104	8	8	7-1/2	6-1/2	4-1	Rightmire	15-1 15-1 15-1
Patholona	94	3	2-2	1-1	1-1	5-1/2	Gray	29-10 29-10 15-1
Fundamental	105	4	3-2	1-1	1-1	6-1/2	Oberst	108-10 108-10 108-10
Dahomey Boy	112 1/2	5	7-4	6-1/2	8	7-2	Caldwell	108-1 108-1 108-1
Lewis	108	7	6-1	8	8	8	O. Connolly	12-1 12-1 12-1

Time 1:10.4. Start fair. Won driving. Place same. Winner N. B. Davis b.g., a. by Elanades—Flying Girl. Trained by N. B. Davis. Value to winner, \$495.

Mutuels paid: Tom Holland, straight \$11.30, place \$4.90, show \$3; Bobby Cook, place \$5.80, show \$2.90; Jim L., show \$3.20.

Tom Holland show to get going closed stoutly last furlong, and was going away at end. Bobby Cook outlasted the going Jim L. Latter used up following the pace and quit last furlong. Lelaha as good as left, closed lot of ground last quarter. Dahomey Boy, Fundamental, L. Lewis, Tom Holland 1 1/2, Dahomey Boy 1/4.

SECOND RACE—Six furlongs, purse \$500, for two-year-olds, selling.

Horse	Wt.	St.	Str.	Fin.	Jockeys	Str.	Pl.	Sh.
Harbard	103	6	6	4-1/2	2-2	1-1	Gray	24-5 5-4 3-10
Stevasta	107	1	2-1	2-1 1/2	2-4	1-1	Oberst	12-5 8-4 1-5
Tiktok	110	3	1-1	1-1	1-1	3-6	Skirvin	8-5 8-5 1-4
Malik	95	5	5-1/2	6	1-1	4-1/2	Taylor	12-5 12-5 12-5
Requiem	105	2	2-1	2-1	1-1	3-1	Gould	155-10 155-10 155-10
Transformation	105	2	2-1	5-3	6	6	Rightmire	73-1 73-1 73-1

Time 1:10.4. Start good. Won driving. Place same. Winner Harbard b.g., a. by Elanades—Flying Girl. Trained by L. A. McGroarty. Value to winner, \$380.

Mutuels paid: Harbard, straight \$11.60, place \$4.50, show \$2.60; Stevasta, place \$2.80, show \$1.40; Tiktok, show \$2.50.

Harbard broke very slow, and was in middle of track all the way, closed a big gap, and finishing gamely, got up in final stride. Stevasta, a forward contender all the way, flattered after disposing of Tiktok. Latter made too much use of and tired badly in home stretch. Requiem stopped as if short. Winner entered for \$800; no bid.

THIRD RACE—One mile and seventy yards, purse \$500, for three-year-olds and up, selling.

Horse	Wt.	St.	Str.	Fin.	Jockeys	Str.	Pl.	Sh.
Calgary	104	1	1-1	1-1	1-1	1-1	Skirvin	8-9 8-9 8-9
Luther	102	2	2-1 1/2	2-1 1/2	2-4	2-3 1/2	Gray	11-1 11-1 11-1
Kalinka	101	3	3	3	3	3	Rightmire	12-1 12-1 12-1

Time 3:35.4. Start good. Won easily. Place same. Winner R. Davies' ch.c., 3, by Ogden—Star of the West. Trained by J. Nixon. Value to winner, \$385.

Calgary outbroke his field and drew away into an easy lead on back stretch; had plenty in hand when Luther challenged in home stretch. Latter made a determined effort last furlong, but could never get to the leader. Kalinka shut off when she attempted to get thru on inside at first turn.

FOURTH RACE—1 1/4 miles, purse \$1500, for three-year-olds and up, foaled in Canada.

Horse	Wt.	St.	Str.	Fin.	Jockeys	Str.	Pl.	Sh.
Hearts of Oak	122	5	1-1	1-1 1/2	1-3	1-2	Peak	17-10 1-4 1-4
Lindsta	119	4	2-1 1/2	2-1 1/2	2-6	2-5	Burns	17-10 1-5 1-5
Calumny	111	7	4-2	4-2	3-2	3-5	Caldwell	34-5 34-5 34-5
Ondramon	121	2	3-2	3-1	4-25	4-20	Watts	43-1 43-1 43-1
Frolic	110	5	5	5	5	5	Warrington	43-1 43-1 43-1

Time 3:42.5. Start good. Won easily. Place same. Winner H. Giddings' b.c., 3, by Basettlaw—Lady Lightfoot II. Trained by H. Giddings. Value to winner, \$500.

Mutuels paid: Hearts of Oak (entry), straight \$5.40, place \$2.50; Lindsta, place \$2.40.

Hearts of Oak opened up an easy lead first quarter, and rated along in front until the end of the race. Lindsta tired last half, after making determined effort to get to leader. Calumny easily disposed of Ondramon last half.

FIFTH RACE—Steeplechase, purse \$700, four-year-olds and up, about 2 miles.

Horse	Wt.	St.	Str.	Fin.	Jockeys	Str.	Pl.	Sh.
Turbine	132	2	2	2	1-1	1-6	Kernath	8-9 8-9 8-9
Young Morpheus	122	3	1-1	1-1	1-1	1-1	Kohler	98-10 98-10 98-10
Bilberry	125	4	4	4	4	4	Bernberton	3-1 3-1 3-1

Time 10:25. Start good. Won easily. Winner G. R. Tompkins' b.g., 4, by Gold—Garret—Waterhouse. Trained by G. R. Tompkins. Value to winner, \$500.

Mutuels paid: Turbine, straight \$7.50, place \$2.90; Young Morpheus, place \$2.80.

Turbine trailed off Young Morpheus to fourteenth jump, where he took the lead and drew away without effort at the end. Young Morpheus fenced badly and showed lot of speed, but tired last quarter. The African lost rider at second jump, but was remounted, and after running out at several of the jumps finished, but was not within the time limit. Bilberry refused at second fence. Scratched: Bronseau.

SIXTH RACE—Selling, purse \$600, three-year-olds and up, 1 1/16 miles.

Horse	Wt.	St.	Str.	Fin.	Jockeys	Str.	Pl.	Sh.
Sheerwood	114	5	1-1 1/2	2-1 1/2	1-1	1-1	Watts	63-20 7-10 1-2
Brvnlmsh	105	5	5-1 1/2	3-1 1/2	4-1	2-1	Gray	7-4 11-20 7-20
Golden Treasure	111	1	1-1	1-1	1-1	1-1	Watts	8-1 8-1 8-1

Time 1:18.5. Start good. Won easily. Winner W. Martin's b.c., 4, by Armeth II—Renovar. Trained by W. Martin. Value to winner, \$400.

Mutuels paid: Sheerwood, straight \$9.70, place \$3.80, show \$3.00; Brvnlmsh, place \$2.40, show \$1.20; Golden Treasure, show \$5.10.

The Bruno showed speed on inside running first turn, and after stalling off Dynomite at stretch turn drew away at end. Brvnlmsh closed with a rush and won Golden Treasure in final stride. Latter was a keen contender until 1/4. Winner entered for \$100. No bid.

SEVENTH RACE—Selling, three-year-olds and up, purse \$500, 6 furlongs.

Horse	Wt.	St.	Str.	Fin.	Jockeys	Str.	Pl.	Sh.
Sheerwood	114	5	1-1 1/2	2-1 1/2	1-1	1-1	Watts	63-20 7-10 1-2
Inlan	108	2	1-1	1-1 1/2	1-1	1-1	Gray	7-4 11-20 7-20
Trankard	95	3	3-1	3-1	3-1	3-1	Gray	8-1 8-1 8-1

Time 1:18.5. Start good. Won easily. Winner W. Martin's b.c., 4, by Armeth II—Renovar. Trained by W. Martin. Value to winner, \$400.

Mutuels paid: Sheerwood, straight \$9.70, place \$3.80, show \$3.00; Inlan, place \$2.40, show \$1.20; Golden Treasure, show \$5.10.

The Bruno showed speed on inside running first turn, and after stalling off Dynomite at stretch turn drew away at end. Brvnlmsh closed with a rush and won Golden Treasure in final stride. Latter was a keen contender until 1/4. Winner entered for \$100. No bid.

Scratched: Pluviosus, Overweights; York Lad, 3. Winner entered for \$100. No bid.

They Set the Pace in the Quality Race

O'Keefe's Quartet of Beer excellence has never been beaten in any field or under any conditions.

Competitors study their form and try to imitate their style; but the real excellence of O'Keefe Beers places them in a class by themselves.

O'Keefe Favorites

For a light Beer O'Keefe's Pilsener Lager, "The Light Beer in the Light Bottle" excels all other Lagers imported or otherwise. Ask for the "Light Beer in the Light Bottle" otherwise also described by its friends as the beer that is driving imported lagers out of Canada.

Lovers of mild ales find O'Keefe's Special Extra Mild Ale a constant delight. Pure, sparkling, delicious, mild in stimulating properties, it is "the Beer that is always O.K."

O'Keefe's Gold Label Ale is for the man who desires a stronger full-bodied Ale of rich, creamy, mellow flavor. It is the "Beer with a Reputation."

"The Beer that Builds" is O'Keefe's Special Extra Mild Stout. A Stout rich in tonic and nutritive values; but extra mild and guaranteed not to make you bilious.

Play one of the O'Keefe Favorites to-day for home use. Order a case from your dealer.

Tommy Burns Writes
Of the Pelky Episode
Sporting Editor Toronto World: Enclosed you will find a copy of the letter

I sent to Tom McCarey yesterday. It will show you how they tried to ruin my character and how they made Pelky believe that I was trying to steal \$300 from him, and how they poisoned his mind against me. He is with me now and has told me everything. It will also show you how they can get away with

this dirty stuff in the States. I never did anything dishonest while in the boxing game and that I would not do over again.
Calgary, Sept. 20.
Tommy Burns.
Note: The letter is a lengthy one and is as indicated.

The Don Rowing Club had an excellent practice at Scarborough Beach last evening. All players who wish to make the team for the game against New Beach on Saturday, are requested to turn out in uniform at 1 on the regular practice grounds.

Polly and Her Pals

It Was a Shower, But It Wouldn't Shower

Fall time is time for INVALID STOUT

YOU will get extra bodily comfort and warmth in the cold weather if you start now drinking this blood-enriching, body-building, tonic-beverage.

A tonic and a beverage in one

NOTHING heavy about Invalid Stout to make you bilious, but a snappy, enjoyable something to its flavor that suits the palate and aids digestion.

Try a dozen to find just what delicious stout really is. Sold by dealers. Also served at hotels.

WEAK SPOTS IN LOCAL MARKET

Brazilian Was Unloaded in Afternoon Trading, Losing a Point.

TORONTO PAPER LOWER

Spanish River Preferred Stronger, But Common Shares Again Declined.

A decline in Brazilian, which is usually responsive to the trend in foreign markets, was perhaps the most outstanding feature of trading of the local stock exchange yesterday. The stock was unloaded quite liberally in the afternoon trading, dipping to 84 at the close after a steady opening at 85 1/4. Doubt as to whether the dividend to be put on higher basis in November seems to be growing, also no new advices have been received and in the meantime earnings are showing satisfactory increases from week to week.

HEAVY TONE IN LONDON MARKET

LONDON, Sept. 24.—Money supplies are shrinking and rates were higher to-day. Discounts were firm on the foreign demand for gold. The general condition is proceeding on the stock exchange at unchanged rates. The markets were quiet and generally weak. Consols were lower on the auction prices, 100 four per cent. Canadian gold bonds underwritten. Greek bonds lost a point and home rails sagged after an early advance. Copper shares were weak with the metal, but rubber stocks hardened in sympathy with an advance in the auction prices.

UPS AND DOWNS IN N.Y. MARKET

Erickson Perkins & Co. report average New York Stock Exchange prices of 10 leading industrial stocks for the week ending Sept. 20, 1913 as follows:

HAVANA ELECTRIC EARNINGS.

The Havana Electric Railway, Light and Power Company's net earnings for the week ending September 21st were \$53,379.378, an increase of \$4,686, and from January 1st, \$2,061,220, an increase of \$201,388.

INSPECTED JUPITER MINE.

TIMMINS, Sept. 24.—Mr. F. A. Robbins, manager of the Hollinger Gold Mines, has made an examination of the Jupiter within the last few days. Mr. Robbins acted for outside interests. The mine was closed down, but kept dewatered for this purpose.

OTTAWA BONDS AT PREMIUM.

The \$228,706 City of Ottawa 4 1/2 per cent. bonds, recently purchased by Messrs. G. & S. Stinson & Co. have been successfully floated on the London market at 98 1/2, and the issue has been over-subscribed by the public. The bonds are now selling at one-half premium.

BERLIN AND PARIS WEAKER.

BERLIN, Sept. 24.—Trading was dull and prices generally were weaker on the Bourse to-day. Exchange on London, 20 marks, 41 pence on checks. Money, 4 1/2 per cent. 53 1/4 per cent. of discount, 63-8 to 53 1/4 per cent.

ADDITION TO DOME MILL.

SOUTH PORCUPINE, Sept. 24.—The concrete work for the new 40-stamp battery addition to the Dome Mines mill was completed within the next two weeks when the steel work for the structure will be commenced. It is not expected that the new machinery will be in running order before March 1.

REORGANIZING CANADIAN COAL.

MONTREAL, Sept. 24.—It was stated that the plan for the reorganization of the Canadian Coal and Coke Company, which have been under way for some time past are now nearing completion, and that the interests at the head of the company have secured arrangements which will result in an entirely new working capital being made.

FINANCIAL SKIES AGAIN OVERCAST

New York Stocks Reflected Various Disturbing Influences in Europe.

STEEL TRADE LAGGING

Losses Were Distributed Among Standard Shares—A Belated Rally.

NEW YORK, Sept. 24.—Bearish sentiment was again in the ascendency today and the stock market received another setback. The pessimistic attitude of traders found some justification in the trend of events both at home and abroad. The foreign influence was an important one. The great markets of Europe were unsettled by fears of renewed disturbances in the Balkans and by uneasiness over the monetary situation. The German position has not yet been adjusted to the requirements at the end of the quarter, and word came from abroad that Berlin was already reaching out for next week's consignments of South African gold. These conditions were reflected here in liberal selling for foreign accounts. London disposed of about 20,000 shares here on balance. Berlin selling was the principal factor in the drop. Canadian Pacific.

WEAKER TONE IN MONTREAL MARKET

MONTREAL, Sept. 24.—Deals in stocks today were characterized by a heavy tone. Lower prices for C.P.R. bonds and a further decline in New York were the main features. American securities were quiet and irregular during the forenoon. A few shares advanced, but most of the list sagged under light realizing. In the afternoon Wall Street offered stocks freely and prices declined.

LOSSES RECORDED IN NEARLY ALL ACTIVE ISSUES—SPANISH RIVER RALLIED.

MONTREAL, Sept. 24.—Deals in stocks today were characterized by a heavy tone. Lower prices for C.P.R. bonds and a further decline in New York were the main features. American securities were quiet and irregular during the forenoon. A few shares advanced, but most of the list sagged under light realizing. In the afternoon Wall Street offered stocks freely and prices declined.

KERR LAKE IS IN STRONG POSITION

Ore Reserves Estimated to be in Excess of Six Million Ounces.

The strong financial position of the Kerr Lake Mining Co. is indicated in the annual report. The surplus on hand at the end of August 1912, totaled \$37,454 whereas at the end of the present fiscal year the Kerr Lake Mining Co. has increased to \$202,830, making the amount now available \$1,061,284, or \$1.77 cash surplus per share in the treasury.

ADDITION TO DOME MILL.

SOUTH PORCUPINE, Sept. 24.—The concrete work for the new 40-stamp battery addition to the Dome Mines mill was completed within the next two weeks when the steel work for the structure will be commenced. It is not expected that the new machinery will be in running order before March 1.

REORGANIZING CANADIAN COAL.

MONTREAL, Sept. 24.—It was stated that the plan for the reorganization of the Canadian Coal and Coke Company, which have been under way for some time past are now nearing completion, and that the interests at the head of the company have secured arrangements which will result in an entirely new working capital being made.

BULL MARKET IN MINING STOCKS

Pete Lake, Great Northern and Others Bought on Heavy Scale.

RICH VEIN FOUND ON TECK-HUGHES

Width of Two Feet of High Grade Ore is Reported.

Deals in mining stocks on the local market yesterday was on an extensive scale, with sharp gains in impressive display of all-round bullishness. It has been witnessed for a long time that the movement took on the past week or ten days that a steady process of accumulation was going forward, but it was not until Tuesday that the movement took on the appearance of a genuine bull market. The public, after withholding substantial support for months, now seems disposed to scramble for mining stocks, and it would be idle to suggest that inside manipulation was responsible for such a show of strength that of yesterday, when more than 72,000 shares were traded in at percentage advancing prices. Among the objects of attention was largely directed to Peterson Lake and Great Northern. The street inclines to the belief that the near future negotiations will be closed whereby Peterson Lake will be taken over by the Seneca Superior interests, which lately brought in a new partner in the Peterson property. Whether the report is inspired or otherwise, the certainly been augmented by the prospect of royalties. On dealings of nearly 16,000 shares yesterday, the price advanced to 27 1/4, with the close. Great Northern sold up to 14 1/4, reflecting news of the discovery made on the Teck-Hughes, on which Great Northern holds a considerable interest. Kerr Lake was quiet but firm at 10 1/4. The annual report proved fully up to expectations of the most sanguine. In the Porcupine, Pearl Lake took a foremost place, responding readily to the demand and selling up to 9 3/4. Some short sales came out and the price reacted to 31.

SILVER MARKETS.

In London, yesterday, bar silver closed at 27 1/4, and per ounce. In New York, commercial bar silver was 81 1/4. Mexican dollars, 46c.

THE DOMINION BANK

Notice is hereby given that a dividend of three per cent. has been declared upon the paid-up capital stock of this institution, for the quarter ending 30th September, 1913, being at the rate of twelve per cent. per annum, and that the same will be payable at the head office of the bank, and at its branches, on and after Wednesday, the 1st day of October, 1913; to shareholders of record of 26th September, 1913. By order of the board.

C. A. BOBERT, General Manager. Toronto, 22nd August, 1913.

ADVANCE WARRANTED

The rise in Peterson Lake, Great Northern and Kerr Lake was forecasted in my MARKET DESPATCH. Such is warranted, as mine conditions were never better. Did you profit by this advance information? ANOTHER ADVANCE COMING. My Market Despatch will tell you all about this stock. Send for this without delay. Mailed free of charge.

HAMILTON B. WILLS

Member Standard Stock Exchange, 710 Traders Bank Bldg., Toronto—M. 7468

MINING STOCKS

Undoubted signs of improvement are in evidence on the mining exchange. The facts seem to be these: (1) That investors regard values as unusually low and (2) That the amount of stocks for sale are small. The rise in Peterson Lake, Great Northern, Hollinger, Kerr Lake and others, is clear evidence of this. There are numerous reports listed issues which will readily respond with advance when buying power has been extended. The time is certainly opportune for investigation by prospective buyers. Orders executed and information furnished.

PANICKY FEELING IN CHICAGO PIT

Big Wheat Receipts at Winnipeg Caused Break in Prices.

CHICAGO, Sept. 24.—(Can. Press.)—Huge receipts at Winnipeg and apparently unlimited quantities to follow, pulled down wheat prices here today, notwithstanding a previous five-day decline. The market closed nervous, 1-8 to 3-8 net lower. Corn finished 1-2 to 5-8c off, oats unchanged to a setback of 1-4c and provisions less expensive by 2-12 to 12-1-2c.

Feeling that verged on semi-panic showed itself in the wheat pit late in the day when estimates were made public, showing nearly 1,500 carloads of wheat expected at Winnipeg tomorrow in addition to almost 1,200 carloads which arrived today. There were signs that much of this wheat was being used in Chicago, and the market gave way, three long liquidating and short sellers becoming aggressive.

Buying on a large scale by leading concerns rallied prices somewhat during the final half hour, but bearish sentiment prevailed in the end. Corn fell with wheat. Lower European trade prices and diminished shipping returns were disappointing, and that offerings from the country were smaller proved insufficient to stem the effect.

Oats were bearishly affected by reports that large shipments from Canada, duty paid, had been sold in the west at prices lower than those current in Chicago or elsewhere west.

Texas buying at Kansas City and St. Louis helped steady the market. Provisions ruled steady, influenced by declines in the hog market. Packers were credited with much of the selling.

WHEAT FUTURES EASIER.

Wheat futures closed at Liverpool today 3/4 to 3/8 lower. Corn 1/4 lower to 1/8 higher.

CATTLE MARKET PRICES RULED FIRM.

Lambs Easier—Sheep, Calves and Hogs Were Steady.

Receipts of live stock yesterday were: 160 cars, 3612 cattle, 1453 hogs, 3636 sheep and lambs, 535 calves.

There was an active market in all classes of live stock at Tuesday's prices, excepting for lambs, which were about 10c per cwt. lower.

There was an excellent demand for good to choice feeders.

Choice butchers' steers sold at \$8.50 to \$9.00; medium, \$8.00 to \$8.50; inferior to common, \$7.50 to \$8.00; cows, \$6.50 to \$7.50; calves, \$5.50 to \$6.50; common bulls, \$3.75 to \$4.75.

Stocks and feeders. There was a strong demand for choice feeders, one extra choice load bringing \$6.25.

Sheep. There was a strong demand for veal calves at steady prices. Choice veal calves sold at \$9.00 to \$10.00; good, \$8 to \$9; medium, \$7 to \$8; common, \$5 to \$6.

Sheep and lambs. Receipts 1200; sheep, active, \$4.50 to \$5.50; lambs, \$4.50 to \$5.50; mixed, \$4.50 to \$5.50.

Hogs. Receipts 1400; market, active, \$18.00 to \$19.00; heavy, \$17.50 to \$18.50; light, \$17.00 to \$18.00.

Veal calves. Receipts 2000; market, mostly steady, \$10.00 to \$11.00; 10c lower; light, \$9.50 to \$10.50; heavy, \$8.50 to \$9.50.

Sheep—Receipts, 4800; market, active, \$4.50 to \$5.50; lambs, \$4.50 to \$5.50.

CHICAGO LIVE STOCK. CHICAGO, Sept. 24.—Cattle—Receipts, 18,000; market, steady, \$10.00 to \$11.00; Texas steers, \$7.15 to \$8.10; stockers and feeders, \$5.50 to \$6.50; cows and heifers, \$3.50 to \$4.75; calves, \$5.00 to \$6.00.

Sheep—Receipts, 23,000; market, mostly steady, \$4.50 to \$5.50; 10c lower; light, \$4.00 to \$5.00; heavy, \$3.50 to \$4.50.

Hogs—Receipts, 14,000; market, active, \$18.00 to \$19.00; heavy, \$17.50 to \$18.50; light, \$17.00 to \$18.00.

Veal calves—Receipts, 2,000; market, mostly steady, \$10.00 to \$11.00; 10c lower; light, \$9.50 to \$10.50; heavy, \$8.50 to \$9.50.

MR. W. S. DINNICK TELLS OF HIS TRIP

Says Agricultural Prospects Are Now Most Encouraging Out West.

TOWNS OVERCROWDED A BUSINESS DEAL. Prophecies That British Columbia Will Soon Regain Her Prosperity.

After a trip of over five weeks to the Canadian west, W. S. Dinnick, of the Standard Reliance Mortgage Corporation, returned to the city yesterday.

Mr. Dinnick went on to say that the outlook for the west was by no means gloomy. Mistakes had been made, but these were irremediable and the lessons now being taught would prove of lasting benefit to the Dominion as a whole.

Did you make much inspection of the crops, Mr. Dinnick, was asked? "Yes, I motored thru sections of the three prairie provinces and in every direction the agricultural prospects were excellent, and it is the opinion of those who have a knowledge of the facts that it is the best crop the west has ever had. This crop is going to bring in a great quantity of new money—the borrowed kind—but the west owes a lot and their debts are now travelling toward better times, and the present conditions in the west will soon be history. What the west is losing sheaves it is also finding safe obstacles in the way of another long period of stagnation."

Continuing, he said, "I found that the farmers are beginning to realize the necessity of better farming. All over the country the weather has been propitious and the amount of land in summer fallow is the best evidence of another bumper crop. The west also found out that the crops of 1911 and 1912 had made the farmer more careful and he is much less in debt to the storekeeper and others this year."

Asked as to the conditions in the towns and cities, Mr. Dinnick did not speak quite as cheerily. "The trouble with these," said Mr. Dinnick, "is that they are temporarily over-populated. The new arrivals, in many cases, have located in the cities and towns. They were attracted there because of building and other activities, although their intentions were to go on the land."

Estate Speculation. "As a matter of fact, estate speculation bedevilled the whole of the west, and it will be twenty years before you hear of subdivisions again around the smaller cities. It is here, he grew enthusiastic, "the new-comer has seen in this year's crop the true element of wealth and seeing it will get to the land, and report upon it to do his share in the upbuilding of that great country. Many farmers also, who neglected their farms for a rich-quick real estate speculation will return to their homesteads."

And your impression of the coast? Mr. Dinnick was asked. "I report as confident that British Columbia will recover its prosperity as readily as the other provinces. At the moment, even the great natural resources of the province are not producing the best results and this further handicaps the recovery."

A Lasting Lesson. "I am glad to get back to Toronto and Ontario. Conditions are on a more normal basis here, and while we express sorrow at the temporary western troubles, we should feel gratified at our own strong position," concluded Mr. Dinnick.

It should be understood and appreciated by all the ratepayers that the electric light and power company according to the report of the valuator. In this way the purchase of the electric light and power company according to the report of the valuator. In this way the purchase of the electric light and power company according to the report of the valuator.

Should the ratepayers be called upon to make a contribution they will have the assurance that the city council and the provincial hydro-electric commission have passed upon the purchase and that they will be fully protected at the outset. If the commission gives approval, then the ratepayers alone have the power to refuse to pay for the purchase.

When the report of the valuator is made, the ratepayers will have to show value equal to the price asked before the provincial hydro-electric commission would be asked to approve the purchase of the electric light and power company according to the report of the valuator.

When the report of the valuator is made, the ratepayers will have to show value equal to the price asked before the provincial hydro-electric commission would be asked to approve the purchase of the electric light and power company according to the report of the valuator.

When the report of the valuator is made, the ratepayers will have to show value equal to the price asked before the provincial hydro-electric commission would be asked to approve the purchase of the electric light and power company according to the report of the valuator.

When the report of the valuator is made, the ratepayers will have to show value equal to the price asked before the provincial hydro-electric commission would be asked to approve the purchase of the electric light and power company according to the report of the valuator.

When the report of the valuator is made, the ratepayers will have to show value equal to the price asked before the provincial hydro-electric commission would be asked to approve the purchase of the electric light and power company according to the report of the valuator.

When the report of the valuator is made, the ratepayers will have to show value equal to the price asked before the provincial hydro-electric commission would be asked to approve the purchase of the electric light and power company according to the report of the valuator.

COUNCIL MAY ORDER VOTE ON UTILITIES

Valuators of Street Railway, Light and Other Franchises to Report.

Bylaw May Be Submitted if Valuators Cannot Fix Property Values.

"The time is drawing very near to the receiving of the report of the valuator of the street railway, electric light, gas and water, and the several franchises being held for development," said Controller O'Neill.

"Upon the report of the valuator will depend the action of the city council to either submit to the ratepayers a bylaw which provides for the cleaning up of all the franchises within the city limits for public utilities. It is a time for all parties concerned to act as business men act towards a business proposition."

"If the valuator is in accord with the price asked by Sir William Mackenzie, then the purchase of the properties becomes a business proposition to be accepted or rejected by the ratepayers. It is the ratepayers who own by law the franchises, and give to them all the necessary information."

"If the valuator cannot find the value in the properties that will be given by the ratepayers, the city council will undoubtedly decide that the submission of a bylaw to the ratepayers will be inadvisable. The purchase of the properties would have ceased to be a business proposition."

"I see the present situation therefore, and I am sure that the ratepayers will be glad to buy out the properties if they can be had at a fair price, a price has been given by the valuator, the city has employed stockholders to value the properties, and the stockholders have completed taking stock. They are now waiting for the report of the valuator to be received. It is futile to prolong the value to the city of the properties."

"When the report of the valuator is made, the ratepayers will have to show value equal to the price asked before the provincial hydro-electric commission would be asked to approve the purchase of the electric light and power company according to the report of the valuator."

"When the report of the valuator is made, the ratepayers will have to show value equal to the price asked before the provincial hydro-electric commission would be asked to approve the purchase of the electric light and power company according to the report of the valuator."

"When the report of the valuator is made, the ratepayers will have to show value equal to the price asked before the provincial hydro-electric commission would be asked to approve the purchase of the electric light and power company according to the report of the valuator."

"When the report of the valuator is made, the ratepayers will have to show value equal to the price asked before the provincial hydro-electric commission would be asked to approve the purchase of the electric light and power company according to the report of the valuator."

GOWGANDA SWEDEN ESCAPES LOCKUP

Case is Puzzling Northern Police and Burglary.

GOWGANDA, Sept. 24.—(Special.)—George E. Ericson, a Swede, whose arrest was asked for by the Swedish authorities on charges of burglary and burglary, has made a mysterious escape from the local lockup.

Arrested by Provincial Constable Stalwood, Ericson was locked away behind the bars. He was given a preliminary hearing, but made his disappearance shortly afterwards. It was claimed that friends of his had threatened the authorities. Inspector Powell made an investigation and found that the only way Ericson could get away would be thru a hole 14 inches square.

As he weighs 175 pounds and would have had to reach six feet to get thru it, it looks very suspicious. No trace of Ericson has been secured yet.

TWO WANT JOB OF HANGING TAYLOR. Sheriff Ross Has Received Their Applications—Dr. Bruce Smith Pronounces Prisoner Sane.

BRANTFORD, Sept. 24.—(Special.)—That James Taylor, the self-confessed murderer of Charles Dawson, the 12-year-old boy, is sane was the statement made by Dr. Bruce Smith, provincial inspector of jails and hospitals, after a visit to the jail here.

Dr. Smith visited Taylor in his cell and propounded several problems in arithmetic to him. Taylor enjoyed the diversion and did well in his examination. As a result Dr. Smith pronounced him sane.

Although Taylor has already confessed to the crime he had been charged with, two applications have been received, however, for the position of hangman owing to the publicity the case has received. These applications are in the hands of Sheriff Ross.
