MANY AMENDMENTS PROPOSED BUT C. N. R. STRUGGLE NEARS END

Bennett, Nickle and Maclean Supported Pugsley's Proposal That Capitalization of Railway's Subsidiaries Be Controlled by Parliament—Oliver Fights for Equalization of Rates.

By a Staff Reporter.
OTTAWA, May 27.—The resolutions authorizing the government in council to guarantee the bonds of the Canadian Northern Railway Co. upon certain conditions, including the grant of 40 per cent. of the capital stock of the company to the Government of Canada, were reported this evening from the committee of the whole without amendment. At tomorrow's sitting the report of the committee will no doubt be concurred in, and a bill founded upon the resolutions will be introduced and read a first time. The second reading of the bill may not be moved until the first of next week, but it is not anticipated that the final stages will occupy much time, and it is generally agreed that the stubborn and somewhat acrimonious struggle is almost at an end.

The opposition have proposed a number of amendments which will be debated and voted upon tomorrow. Hon. Frank Oliver will urge equalization of rates, and Hon. William Pugsley will ask to have limited the somewhat sweeping running rights over the government railways now proposed to be granted to the Canadian Northern. At today's sitting Mr. Pugsley moved an amendment to section 14 of the resolutions, which had for its object the prevention of all stock watering by the subsidiary companies to be included in the Canadian Northern system.

Limit on Capital Stock.
The resolution, as presented by the government, limited the capital stock of the Canadian Northern Railway to \$100,000,000, which cannot be increased without the consent of parliament, but the other companies constituting the Canadian Northern system may increase their capital without the consent of the government in council.

Mr. Pugsley's amendment forbade any of these companies to increase their capital without the sanction of parliament, and received the support of Mr. Bennett (Calgary), Mr. Nickle

public policy, and he thought it was it should apply to all railway companies.

C. P. R.'s Latest Scheme.
Mr. Maclean said that the Canadian Pacific Railway Company was preparing a great scheme for further segregating of assets by which its earnings from steamships, hotels, telegraph, express, timber limits and land holdings would not be regarded as belonging to or derived from the original undertaking. The company had swollen its capitalization by repeated issues of capital stock, all of them sanctioned by the governor in council during the lifetime of the Laurier government. The company had applied to the present government for leave to further increase its capital, and then without waiting permission to do so, had increased its common stock by \$40,000,000 under cover of legislation passed over twenty years ago. Nothing has been done, however, to test the legality of its action.

Should Be General Statute.
The government by introducing the bill now before the senate to revive and consolidate the railway act, had declared it to be in the public interest to assert control over the stock and bond issues of all railways in Canada. The declaration of policy should be crystallized into legislation before the end of this session. It was being so crystallized for this session by the Canadian Northern Railway and all other railways. Why should there not be a general statute applicable to the subsidiary companies of the Canadian Northern and applicable to all other railway companies including the Canadian Pacific?

C. P. R.'s Series of Evasions.
"If we do not do this now," Mr. Maclean continued, "we will see something between now and the next session. The C. P. R. has slipped by this parliament on two or three occasions, sometimes by way of an order-in-council, sometimes by legislation which it says it got passed years ago enabling it only a year ago to increase its capital stock against the public interest, so that it is the duty of parliament this session to regulate the capitalization of the C. P. R. and subsidiary companies and also to regulate the capitalization of all companies and so should come with equal step with this bill now before us, the public bill putting the control of the capitalization of all our railway companies in the hands of parliament."

Capitalization Affects Rates.
"I do not agree with what the prime minister said a moment ago, that capitalization has very little to do with railway rates. I believe that it has had a lot to do with it and all the arguments that are put up in favor of the increase of railway rates, including the argument being put up in the States in favor of an increase in railway rates, are largely based on the idea of capitalization invested, although a lot of the money was unfairly taken away from the undertaking and put into the hands of speculators of various kinds. Therefore I say that in the public interest the capitalization of all railways, the C. P. R. and the C. N. R. and all other roads should be placed in the hands of parliament, and it should be placed in the hands of parliament this session and that we should not put over the general act to another session, thereby allowing all other roads to be free to do as they please."

Pugsley Amendment Defeated.
The Pugsley amendment was defeated upon a rising vote. Messrs. R. B. Bennett, W. F. Nickle and W. F. Maclean supported the amendment. At the afternoon sitting Hon. Frank Oliver gave notice of an amendment requiring the Canadian Northern system to file a schedule of rates for Western Canada with the board of railway commissioners within two months after the passage of the act bringing into force the same rates for Western

Amateurs at the Park
The amateurs at the Park Theatre drew a splendid house. Several amateurs performed for money and ribbons. Miss Ward, the dainty soprano, secured first prize. Mr. Bell, a tenor singer with a beautiful voice, second, and Tom Senior third, in a paper-tearing act, that was well liked.

In no city in the world, at least not in the empire, are there a finer body of policemen than Toronto boasts of. There is a magnificent half page view of them being inspected by the Duke of Connaught on Empire Day. This picture is sepia tinted and will be prized by every friend of law and order in this big city. It appears in this week's Sunday World and can be obtained from any newsdealer or newsboy.

GREAT ACTIVITY IN THE EAST END
Sixteen Hundred Feet Sold to Workingmen in Ten Days.

BIRCH CLIFF HEIGHTS
Buyers of Small Lots Intend to Build Homes for Themselves.

The extraordinary activity of real estate in the east end is again demonstrated, this time by the Globe Land and Investment Company, owners of Birchcliff Heights, who report sales of 64 lots, of 15-foot frontage, in the past ten days; or to be exact, from May 15 to May 26, most of the sales being to wage-earners who intend to build a home for themselves on their lots.

This is remarkable testimony of the advantages seen in this location by those who desire lots for home-building purposes. The situation of the property, over 300 feet above lake level, its position almost in the path of the Danforth road extension; and its proximity to the harbor board industrial sites at Ashbridge's Bay have been the subject of numerous comments in real estate circles lately, and judging by the rapid sale of lots its desirability as an investment is recognized by the public in general.

Realty values promise to increase very rapidly in this section, and for an ideal home location it is hard to find a better situation than this. The lake scenery close at hand, and a fine view of downtown Toronto in the near distance.

C. P. R. MAGNATES MENTIONED IN CASE
Col. Hay's Suit for Partnership Rights is Now Proceeding.

Officials of the C. P. R. played a prominent part in a case in connection with the ownership of oil discoveries in Western Canada. Col. A. M. Hay brought a suit before Justice Middleton yesterday in which he asked the court to order Eugene Coste to disclose to him, all gas and oil discoveries, profits, franchises, leases and concessions in connection with an oil and gas exploration and development enterprise which he alleges has been made, under agreement with the officials of the C. P. R., in Western Canada. The case in brief is this:

In 1905 Mr. Coste and Mr. Col. Hay agreed to form a partnership for the purpose of exploring an oil and gas venture in the west. Col. Hay was to interest capitalists, and Mr. Coste was to do other work. The profits were to be shared equally. Some six years later a tentative agreement was made with the C. P. R. through Sir William Whyte, Sir Thomas Shaughnessy and Mr. Coste, whereby Mr. Coste was to receive \$20 per day for his services in connection with the oil venture.

Valuable gas discoveries were made and later oil was struck. Mr. Coste claims that the agreement between himself and Col. Hay was not a general agreement, but simply dealt with the gas discoveries and urges that he has made no profit except money for personal services. The case is proceeding.

CITY DISPLAYED LACK OF COURTESY

No Member of Council at Union Station to Greet A.B.C. Mediators.

Lowering skies and bare station platforms greeted the peace delegates from Niagara Falls when they steamed into the city yesterday to gain a first impression of Toronto. By some mix-up in authorities no one responsible in the city was on hand to offer a welcoming hand to the visitors, and in consequence much confusion and embarrassment was suffered before the party became ultimately settled in hotel quarters. The situation was especially uncomfortable to Signor Ramo and his two daughters from Mexico, and a half hour wait in the corridors of the hotel added to it considerably. The score or so of visiting newspaper men who accompanied the party became free in sarcastic comment on civic hospitality, and on every hand censure was heard regarding the action or rather inaction, of municipal leaders.

The men who came were Messrs. Da Gama, Nason and Suarez, the A.B.C. mediators; Justice Lamar and Hon. F. W. Lehman of the U. S. Robert

WHY ACID STOMACHS ARE DANGEROUS

Scientific Reports for May: Acid in the stomach is dangerous and frequently fatal, because acid from its corrosive nature has a natural tendency to destroy the mucous lining of the stomach. No one intentionally swallows hydrochloric acid, but it is often present in large quantities as the result of food fermentation in the stomach resulting from chemical action, which so frequently follows the eating of the indigestible and most tasty foods or the use of large quantities of alcohol and stimulants, including beer, wine, liqueurs, etc. This fermentation causes pain, uneasiness and discomfort because of the acid which burns like a red-hot iron, and the formation of gas which distends the stomach, causing shortness of breath and palpitation of the heart. The trouble being entirely due to the unnatural condition of stomach contents, and not in any way to the fault of the stomach itself, physicians have adopted with marvelous success the plan of neutralizing the acid and stopping the fermentation by means of one teaspoonful of simple bicarbonate of soda taken in a little water immediately after eating or when ever discomfort is felt. The immediate relief following the use of this bicarbonate is striking proof of the correctness of medical men that failure to digest food properly is almost invariably due to the acid condition of food contents, and in no way the fault of the stomach or vital organs.

"NATIONAL HERO SERIES" NO. 2

Kosciusko—"The Greatest of the Poles"

NEVER in the history of mankind has there lived a more ardent lover of Personal and National Liberty. He devoted his life to regain the ancient freedom of his beloved Poland. Kosciusko hated any legislative attempt which invaded the Natural Rights of Man. If he were alive to-day, every son of Poland knows that he would revolt at any LAW which declared, "Thou shalt NOT eat this—thou shalt NOT drink that." Kosciusko knew that the light wines of his native land and the barley brews of Germany were good for mankind when used in moderation. He drank them himself to the end of his honored days, and who will DARE say that they in any way injured this mighty personality. For 57 years Anheuser-Busch have honestly brewed honest beers. Their great brand—BUDWEISER—is sold throughout the world and has helped the cause of true Temperance. Seven thousand, five hundred men are daily required to keep pace with the natural demand of Americans for BUDWEISER, its sales exceed any other beer by millions of bottles.

DIFFERENT KINDS OF PLAYGROUNDS

City Planning Convention Discussed the Best to Be Obtained. MEETING IS FINISHED. Half a Dozen Cities Want the Meeting Next Year.

Henry V. Hubbard, assistant professor of landscape architecture of Harvard University, addressed the National Conference on City Planning at the Convocation Hall, university, yesterday afternoon.

Edward H. Bennett of Chicago suggested that the conference should take up this matter thoroughly. He explained the question an important one, as no one could tell what would be required in ten years as the conditions of each district would change materially during that period.

Mr. Fox closed with one important factor which the conference next year should take up. He explained that every school which contained a playground would have a playground which would be left to play by themselves instead of having to be supervised by a teacher.

Later in the day the business end of the conference was gone into. 45 gentlemen were nominated as members of the general committee, and 15 as members of the executive committee.

Letters from Baltimore, San Francisco, Los Angeles, Detroit, and other cities were read, asking the conference to meet at their towns next year. These were left with the executive committee to deal with.

A resolution asking that a special tax land value be levied in order to pay for the cost of playgrounds, was laid over for the executive committee.

At the morning session J. V. Davies, consulting engineer, Brooklyn Rapid Transit Co., delivered an address on "Provision for Future Rapid Transit and Their Influence on City Planning."

This subject was open to discussion and led to several resolutions on the manner in which street railways at the cities were often left in charge of the affairs, and thus practically governed the cities.

H. A. McCollum, New York, spoke in favor of the motor vehicle and advised various cities to try that means of transportation.

The members of the conference were the guests of the city at a midday lunch. Several members of the conference gave their experiences in various towns through the continent.

Refreshments a la Marinere, Roast Tenderloin of Beef, With Stuffed Peppers. The Muscels have been rushed through in refrigerator car, and are as fresh as if you eat them at the coast.

At the close of the races on Saturday, their Royal Highnesses the Duke and Duchess of Connaught and the Princess Patricia will drive in state from Woodbine Park race course to Craigleigh, via Queen street, Jarvis street, Bloor street and Sherbourne street. The procession will leave the race course about 5:45 p.m.

A MELL-MERITED SENTENCE. Frank Cunee was sent to the penitentiary for two years for beating his wife, and will receive ten lashes at the end of two months and ten at the end of four months.

Imperial Bank of Canada

PROCEEDINGS OF THE Thirty-Ninth Annual Meeting of the Shareholders

Held at the Banking House of the Institution in Toronto, on Wednesday, 27th May, 1914, at 12 Noon.

The Thirty-ninth Annual General Meeting of the Imperial Bank of Canada was held, in pursuance of the terms of the Charter, at the Banking House of the Institution, 27th May, 1914.

The Directors have much pleasure in submitting to the Shareholders the Thirty-ninth Annual Report and Balance Sheet of the affairs of the Bank as on 30th April, 1914, together with Statement of Profit and Loss Account, showing the result of the operations of the Bank for the year ended on that day.

The net profits of the Bank, after making full provision for all bad and doubtful debts, for interest on bills under discount not yet matured and for payment of all Provincial and Municipal taxes amounted to \$1,236,984.76 being at the rate of 8.30% upon the average paid-up Capital and Reserve Fund.

This surplus has been applied as follows: (a) For Dividends at the rate of 12% per annum amounting to \$ 834,788.96 (b) Special contribution to Officers' Pension Fund, 20,000.00 (c) Annual contribution to Officers' Pension and Guarantee Funds, 7,500.00 (d) Provision for depreciation in Securities and for contingencies, 250,000.00 (e) Written off Bank Premises and Furniture Account, 74,601.05 (f) Balance of account carried forward, 1,265,919.12

New Branches have been opened during the year: In Ontario—At Preston, Niagara Falls South, Wellesey and Sherbourne streets, Toronto, and at Humber Bay. In Saskatchewan—At Kandahar. The Branches at Michel, B.C., McLean, Sask., and at St. Roch, in the city of Quebec, have been closed.

It is our opinion that it would be advisable to add to the number of Directors; by a by-law that will be presented for your approval, and you will be asked to make suitable provision for the additional member.

Under the Bank Act (1913) you will, for the first time, be called upon to appoint auditors for the Bank and to fix their remuneration. The Head Office and Branches of the Bank, now numbering 127, have been carefully inspected during the year, and your Directors have much pleasure in testifying to the faithfulness and efficiency of the staff.

PROFIT AND LOSS ACCOUNT. Balance at credit of account 30th April, 1913, brought forward, \$1,005,938.55 Profits for the twelve months ended 30th April, 1914, after deducting charges of management and interest due depositors, and after making full provision for all bad and doubtful debts and for rebate on bills under discount, 1,236,984.76

Amount taken from Profits of 1913 to make Reserve Fund \$7,000,000, in anticipation of Premiums on New Capital Stock since collected, 11,830.82

RESERVE FUND. Balance at Credit of Account, \$7,000,000. D. R. WILKIE, General Manager.

LIABILITIES. Notes of the Bank in circulation, \$4,762,347.00 Deposits not bearing interest, \$ 9,060,814.12 Deposits bearing interest, including interest accrued to date of Statement, 49,178,040.42

ASSETS. Gold and Silver Coin, \$ 1,706,919.61 Dominion Government Notes, 11,227,087.00 Deposit with the Minister for the purpose of the Circulation Fund, 338,320.44

Notes of other Banks, 452,979.00 Cheques on other Banks, 2,741,524.13 Balance due by other Banks in Canada, 894,109.74 Balance due by Banks and Banking Correspondents elsewhere than in Canada, 6,989,689.25

THE PRESIDENT'S ADDRESS. Gentlemen,—In raising to move the adoption of the Report I could not enter into an explanation of the year's operations until I had, on behalf of the Board, given expression to our feelings of sorrow at the passing of our friend and colleague, Sir William Whyte, and had invited you to join in a resolution of sympathy and condolence to Lady Whyte and her children, whose affliction is shared in by many thousands from the Atlantic to the Pacific.

PROFIT AND LOSS. The net profits after all losses have been provided for are better than we dared look forward to early and late in the year, as one political or financial disturbance followed the other in quick succession. The net result of the year's operations, as shown by the Profit and Loss Account, as part and parcel of our Capital, is the rate of 8.30% per annum.

Conditions in Canada and abroad are not too promising, and we have endeavored to provide for further possible shrinkages in the value of investments and for contingencies; we have laid aside the sum of \$250,000 to provide for these. Within the past two years stocks and bonds dealt in on the World's Exchanges have depreciated in value considerably.

Before I pass from the Profit and Loss Account let me draw attention to the item credited to Profit and Loss Account, \$211,830.82. This sum was taken from Profit and Loss Account in 1913 to make up Reserve Account upon subscriptions to the Bank. These Premiums have since been paid in, and very properly have been returned to Profit and Loss Account.

Let us turn to the General Balance Sheet. The reduction in this item from \$5,803,794 to \$4,762,347 is the result of shrinkage in trade throughout the country and the depreciation of the value of our investments.

Our Deposits, however, show a respectable increase of \$1,436,000. On the Assets side of the Balance Sheet you will find that we maintain our policy of keeping substantial Cash Reserves, which with liquid assets that are realizable, irrespective of the condition of trade, represent over 50% of our total liabilities to the public.

Shareholders.—Our Shareholders now number 1,729, as compared with 1,586 last year. The staff of the Bank are 985 in number, an increase of 80 during the year.

New Branches and Taxation.—The contraction of business throughout the Dominion has not encouraged the opening of new Branches. Moreover, the policy on the part of some of the Provinces and Municipalities would tend to discourage expansion.

Banking facilities.—The Dominion has exclusive legislative authority over banking, the incorporation of Banks and the issuing of paper currency. It also has exclusive rights to raise money by any mode or system of taxation. Provincial Legislatures are empowered to levy direct taxation within the Province for Provincial purposes.

Sum of \$275,000, of which about \$75,000 has been provided for the Profits of the year. At the moment we have under construction new buildings at Timmins, Thorold, Sparta, and at Yonge and Queen streets, in the City of Toronto. New buildings have been completed during the year at Quebec, Ingersoll, Coburne and Beane. Buildings and sites have been purchased at Victoria, B.C., Galt, Belwood, Niagara-on-the-Lake, Preston, Aurora, and in Toronto at Wellesey and Sherbourne streets, as well as this very building where we are now assembled, No. 80 Wellington street.

of the public, and of the creation of liabilities for corresponding amounts in the Balance Sheet. It would be equally proper to extend the operations of such a corporation by including in its range of purchases from the Bank (of which it would be an adjunct) such assets as overdue debts, real estate, dead and other undesirable loans, etc., etc., and vitalizing these, through a process of bookkeeping, into lively-looking bonds and debentures of corporations, which would later on, until disposed of, make their appearance amongst the Liquid Reserves of the Bank.

Auditors.—You will be called upon to elect Auditors for the now current year, whose duties are fully described in Section 56 of the Bank Act, Sub-sections 19, 20, 21, 22, 23, and Section 56A.

HARVEST PROSPECTS. From Alberta we hear that there has been an increase of 20% to 25% in the acreage under crop. The seed has been put in to the very best advantage, and there has been sufficient rain. It is to be noted that the raising of fall wheat in this Province is on the decline, owing to the greater certainty of a crop from "Marquis" wheat, planted in the spring, and which ripens ten days earlier than the ordinary Red Fife wheat.

In Saskatchewan there is an increase of 150,000 acres in the wheat area, and there is said to be less than 300,000 acres. Barley and flax do not show an equal expansion. The cattle industry is satisfactory. Crop conditions generally may be looked upon as most encouraging.

In Manitoba there is no increase in the crop acreage; the quantity stands at about the same—5,300,000 acres, of which half is in wheat, but the small proportion of the 74,000 acres of acres, which is estimated, is fit for farm land. Manitoba is now an old-timer. Progress is more striking in regard to the growth of manufacturing industries, the creation of electric energy, to say nothing of the great strides made by Winnipeg as an emporium and in attaining to the position of being one of the greatest and the greatest grain centres in the world.

The interests of British Columbia are not so much bound up in agriculture as they are in lumbering, mining and fisheries. These last three furnish 75% of the total amount realized from the various industries. The lumber interests have been sorely tried by the present policy of "Free" lumber, which has almost driven the Canadian lumber companies off the market. The absence of an outside market makes matters so much worse.

Maritime Provinces.—Although we are not represented in the Maritime Provinces, yet we have had opportunities of obtaining information regarding that section, and are assured that general conditions throughout are better than in any other section of the Dominion. The Steel and Coal industries and factories that have been depending on the West as a market for their output are feeling the depression, but lumbering, fishing and agriculture are prospering, and these, after all, are the backbone of the East. The Fox industry of Prince Edward Island is the one threatening the Province, but as it has been wisely said, it is undermining the native thrift for which the Province has always been noted.

Ontario.—In our own Province the outlook for a good crop is improving, and we can only hope that the results will justify the present expectations. The value of Ontario's agricultural products last year amounted to \$185,790,341 of the total yield of the Dominion of about \$500,000,000. The condition of live stock remains generally satisfactory, being reported all over Canada as over 98% of the standard of health and percentage of fat.

POPULATION AND IMMIGRATION. It is estimated that the population of Canada as on 31st March, 1914, amounted to 8,075,000, as compared with 7,758,000 for the corresponding period of 1913. There was an actual addition to the population of immigration of 384,878, of whom 142,822 were British, 107,530 came from the United States, and 134,726 from other countries.

REVENUE AND EXPENDITURE. There has been a falling off in the revenue of the Dominion for April, 1914, as compared with April, 1913, and for the year which ended 31st March, 1914, there was a falling off as compared with the same period of March, 1913, from \$188,690,000 to \$185,215,000. The amount realized was, however, not only sufficient to meet all expenditures on Consolidated Fund account, but furnished \$45,000,000 out of the \$56,000,000 required for capital expenditure. It is gratifying to note that the total imports of the financial year fell short of the previous year by over \$48,000,000—that the exports of the year exceeded the exports of the twelve months only \$172,000,000 as compared with \$240,000,000 for the year ending 31st March, 1913. The adverse balance has been more than provided for by large borrowings abroad on the part of the Provinces, Municipalities, Railway Companies, etc., and it has not occasioned the slightest strain upon the financial resources of the Dominion.

UNITED STATES. The amendments to the Banking Laws of the United States and the incorporation of the "Federal Reserve Banks" have already inspired confidence throughout the United States, and have removed the financial being, at any rate, all fears of money stringency, the result of the crop movement, but more than once intercepted the flow of prosperity. The Federal Reserve Banks will furnish all other Banks who are members of the Reserve Bank System with facilities for borrowing on short notice, and which are not longer to be called upon to bear the whole strain and responsibility of East, West, North and South. I have gone carefully over the "Federal Reserve Act," and although it contains features which might be criticised adversely, yet on the whole it is a great piece of legislation and has removed many of the dangers which are incidental to the National Bank System, but without leaning in the direction of encouraging unhealthy expansion. It places at the disposal of every section of the community and of every industrial and agricultural centre not only the whole Reserves of the District to which they are tributary, but the surplus funds of every other Reserve Centre can be made available. It comes as close as it can to our Canadian system in providing a flexible currency, and in one respect it is better than our system, in so far that it binds its members together in one helpful, sympathetic body, and provides an emergency currency and emergency capital of great value. The time will come in Canada, and come early, when we will find it advisable, yes, necessary, with our growth of the Dominion Government, and with somewhat similar powers to those that have been granted to the reserve Banks of the United States.

In accordance with notice already given, the nomination of Mr. R. J. Dilworth, C.A., of Toronto, and Mr. George Hyde, C.A., of Montreal, as Auditors of the Bank, was made by Mr. Walter J. Barr, and seconded by Mr. John B. Laidlaw, and they were duly appointed to the position of Auditors for the current year, and on motion the remuneration of the Auditors was fixed at the sum of \$5,000.

By-laws were passed increasing the number of Directors to twelve, and providing for their remuneration, also limiting the amount of contributions by the Directors for charitable and other purposes in any one year to \$2,500.

A resolution of sympathy with Lady Whyte and the family of the late Sir Wm. Whyte was moved and carried.

Tests of Human Nature Prove Us All Brothers

By Winifred Black

Copyright, 1914, by Newspaper Feature Service, Inc.

The doctor told me another story this morning, from real life, as most of the doctor's stories are. He's a strange person that doctor of mine. Sometimes I suspect that he is first of all a human being, then a man and after that a doctor.

"I'm a crank about it," said the doctor. "Just crank enough to be always making chances and having them come out just the way I hoped they would."

"All of Us Beggars." "When I want really to test a man who asks me for money in the street I say, 'I've only got a dollar, and I can't afford to give you that, just step down to the corner and change it for me, will you, like a good chap, and I'll give you a quarter when you get back.'

seums, potentillas, iris, gentians and a host more. At one pass, where the watershed dividing the slopes was almost as steep as the roof of a house, a carpet of white and blue anemones was in one side and on the other was one of yellow anemones.

"Oh, Peter, Peter," said mother with a twinkle in her kindly eyes. "Isn't it just a twinkle in the eye that makes the difference between a good man and a bad one?"

Secrets of Health and Happiness

Why You Should Eat Less In Summer Than Winter

By DR. LEONARD KEENE HIRSHBERG

SMALL cheer and a great welcome make a merry feast. Swinish gluttony makes for a joyride through this earthly sphere.

Therefore, such as have need of milk and not of strong meat partake of the latter at great peril to health and fortune. When, to change the old saw, your tissues call for a stone and you give them bread, you elevate your blood pressure, strain your heart muscle and your kidneys, and go into a fair way of such an affliction as high blood pressure.

Each unit of weight added to clothes means an extra added exertion of the muscles. The less clothing worn in the warm days the less work need be done. Among the gargantuan evils of civilization none exceed those two Pantagruels, namely, redundancy of clothing and an excess in eating.

Advice to Girls

By ANNIE LAURIE

Dear Annie Laurie: I am 19 years old, and engaged to a boy whose name is John. He is a very nice boy, but the family will not hear of our marriage. My fiancé has often suggested that we elope. I am very much in love with him and want to get married, but should I elope? He has a very large income. I should be able to live just as well as I do at home.

WELL now, Anxious One, I'd think of a good long while before I would "elope" with any one, be he old or young. It only takes a few minutes to "elope," and it takes years to get over the elopement.

The Good Night Story

By Vernon Merry

ONCE upon a time the proud daughter of a poor widow had three dreams. In the first she became the bride of a nobleman who rode in a copper coach. The second dream was of a nobleman who came to her in a silver coach. And in the third dream she was wooed by a noble lord, with a great train of attendants, whose coach was of gold.

THE GOLD BREAD

"All your food is made of gold. I cannot eat that. May I not have some bread, please?" "What you wished for you possess," answered her husband. "Eat the bread that you have chosen."

UNIONISTS MUST TRY TO AVERT CIVIL WAR. Earl Selborne Endorses More Pacific Policy if Bill Must Pass.

Canadian Associated Press Cable. LONDON, Thursday Morning, May 28.—Speaking at a mass meeting of Ulster Covenanters at Bath yesterday, Earl Selborne defined his attitude toward home rule in a way that certainly not commend itself to the people or the supporters of Ulster in general.

It is clearly our duty to prevent civil war, if we can," he said. "If we Unionists are confronted with the dilemma, will you have home rule for the moment with civil war or without civil war, our clear duty is to say, 'without civil war' if without taking any responsibility for the policy, keeping our hands free for the future and sticking to the fundamental principle that the people only can decide. If while doing all these things we can avert war, it is our duty to do so. We will, however, take no kind of responsibility whatever for the policy of home rule. We believe the policy had and this particular bill infamous."

Remarkable Growth of Work Means That Money Must Be Found.

DEFICIT WAS COVERED

Friends of the Institution Came Forward in Time of Need.

The report of the board of directors of the body of the Young Men's Christian Association of Toronto, which was presented at the annual meeting in the Central Y.M.C.A. building showed a remarkable growth and success in all branches of Y.M.C.A. work in Toronto.

The membership of the Y.M.C.A. of Toronto amounts to 7276 and the indoor attendance during the past year was 171,219. Eighty-six different Bible classes were held, with an attendance of 20,000. Their employment bureau, it was reported, filled 888 positions during the year.

At the conclusion of the meeting pictures of the different activities of the association were shown on the screen along with other pictures, reviewing their work.

COAL MINES SEIZED BY MEXICAN REBELS

Properties of French and American Capitalists Are Declared Confiscated.

Canadian Press Dispatch. EAGLE PASS, May 27.—Acting on what they declared were direct orders from General Carranza, constitutional officials today confiscated five mines near Salinas, Mexico. The mines owned by French and American capitalists are the largest in Mexico.

At constitutional headquarters at Pedras Negras it was stated that the mines would be operated as public properties.

The confiscation order also included 16,000 tons of coal and 25,000 tons of coke, which, it is stated, will be sold and the proceeds used for the constitutional army.

MOTORMEN HURT IN RADIAL CRASH

Lake Shore Cars Collided Head-On Near Humber River.

PASSENGERS BRUISED Injured Car Men Now in Western Hospital Suffering From Severe Cuts.

Two motormen named Fred Harper, 8 East Gerrard street, and Angus McVicar, 17 Grafton avenue, are lying in the Western Hospital, as the result of a head-on collision between two Lake Shore Radial cars, at 2 o'clock yesterday, about 200 yards from Humber Beach.

Harper is suffering from scalp wounds and injuries to his legs, and McVicar from cuts and bruises. About 12 passengers suffered more or less from minor injuries caused by the flying glass and splinters of wood.

The injured were attended by Drs. Godfrey and Richmond. The cars in the neighborhood were thrown open for the dressing of the many wounds and gashes. The passengers were hurried from the cars as they met in the impact, and the fact that the trolleys were traveling at a reduced rate of speed saved their lives.

CHARGE COMBINE AMONG GROCERS

Co-Operative Societies to Demand Investigation Into Alleged Discrimination.

WILL FIGHT BOYCOTTS
 Will Also Consider Application for Probe Under Department of Labor.

At the first provincial conference of Ontario societies affiliated with the Co-operative Union of Canada in the assembly hall of the Preston Society at Preston, resolutions were passed calling on the Dominion Government to redeem its promise to enact a comprehensive co-operative bill, and directing the attention of the attorney-general of Ontario and the minister of labor to an alleged conspiracy between wholesale and retail grocers' organizations to prevent co-operative societies, legally incorporated by the lieutenant-governor to trade in groceries, from obtaining supplies necessary for their business.

Form Sectional Board.
 A sectional board for the province consisting of Mr. Keen, hon. secretary Canadian Union; Mr. Dickson, Galt; Mr. Hoese, Berlin; Mayor Samuel Carter, Guelph; and Mr. Kennedy, Preston, will be formed, and this board will be instructed to prepare a plan for the organization of a provincial wholesale society, or to negotiate with the English Co-operative Wholesale Society, to establish an Ontario depot, and to consider the advisability of applying to a county judge for an order on the department of labor requiring it under the Combines Investigation Act to appoint a board to investigate as to the existence of "a contract, agreement, arrangement or combination, to restrict competition to the detriment of the consumers," and if proven to inflict the penalties provided by section 23 of such Act.

President Edgerton of the Galt society, occupied the chair, and delegates were present from many points.

VIOLATED LORD'S DAY ACT.
 For exercising worldly labor on the Lord's Day, by operating an automatic machine outside his premises, George Janetas was fined \$1 and costs in the police court yesterday. For the same offence, Vincenzo Casentino was likewise mulcted.

MAN'S BODY FOUND IN CANAL WATERS

Remains Discovered After Being in Water Two Weeks—Still Unidentified.

Special to The Toronto World.
ST. CATHARINES, nt., May 27.—The body of a man of unknown identity and age was this afternoon found below the spillway of the old canal in rear of the Welland Vale factory. It had been in the water at least two weeks in the opinion of Coroner Armour, who examined the remains. The man, who may have been a foreigner, was dressed in a pair of dark overalls and striped shirt. A pipe and long knife of foreign make were found in the pockets.

The weight was 160 pounds and height 5 feet 8 inches. Two marks were discovered on the head.

WINDOW SMASHING IS POPULAR WITH SUFFS

Every Night in London Wild Women go on Costly Rampage.

Canadian Press Despatch.
LONDON, May 27.—The refusal of King George to see a suffragette deputa-tion and alleged needless brutality on the part of the police in resisting their attempt to reach the palace appear to have exasperated the militants.

Window smashing in London now is of nightly occurrence. A party of militants invaded Kensington Gardens Square tonight, smashing windows of the houses bordering on one side of the square. The occupants of the houses on the other side formed a guard, the members of which were armed with pipes of boiling water, to watch for miscreants.

SIR THOMAS LIPTON'S CHALLENGER LAUNCHED

GOSPORT, England, May 27.—Sir T. Lipton's challenger for the America's Cup, Shamrock IV., was launched yesterday at noon in reply to toast, Sir Thomas, Designer E. Nicholson, Wm. P. Burton, Joseph Lawrence, one of the pioneers of the Manchester ship canal, spoke.

The advanced stage reached by Shamrock IV. was shown by the fact that before the guests at her launching departed her mast had been already stepped.

The yacht will be ready in ten days for her preliminary sail-stretching spin, and her first trial against her sister Shamrock will take place ten days from today.

MIMICO OLD COUNTRY CLUB WON FROM ST. CYPRIANS.

A St. Cyprian's eleven journeyed to Mimico on Saturday to meet defeat at the hands of the local Old Country Club. The scoring on both sides was low, Stirk of the home team being the only batsman to reach double figures. Wood and Cole of St. Cyprian's did best with the ball, with six wickets for thirteen and four for nine, respectively, while Hines, five for fourteen, and N. Bryer, four for fourteen, trundled for the Old Countrymen.

PLAN TO INTERCHANGE TEACHERS UNDER WAY
 London Education Committee Will Take Action on Proposal From Canada.

LONDON, Wednesday, May 27.—The London Education Committee which has been asked by a number of Canadian authorities to inaugurate a scheme for the interchange of school teachers between the Dominion and the mother country, has called a meeting for today, when a proposal to give immediate effect to the plan will be considered.

None but experienced teachers are to be allowed to exchange, and the transfer will be effected under the auspices of the Hands Across the Sea Association, which will shortly open a home in London especially for Canadian teachers.

The series of school children views which have been appearing in The Sunday World has created an unbounded enthusiasm amongst the school pupils. This week's group is particularly fine one of the Fern Avenue School Girls, and its attractive needs is added to by the fact that it is printed in sepia tint. Every parent should secure a copy of this week's Sunday World, as every face is distinct, clear and easily recognized, in fact, they will want several copies, as the uncles, aunts and relatives in other countries will surely prize one of these pictures. The Sunday World is for sale by all newsdealers and newsboys.

Tanks Will Be Drained During Day So People Can Sleep at Nights.

"Gentlemen, this is rotten," quoth the ruddy-faced orator of the city council, as standing on a dyke at the Morley Avenue sewage disposal plant, he struck an heroic pose and flourished a long pipe, which the moment before he had drawn with a sledge from ten feet of muck. "This is rotten," he reiterated, and the members of the council present repeated "This is rotten."

With two exceptions the city's keen sniffers were all on the job. Ald. Meredith, who went to Atlanta, and Ald. Maguire, who visited Philadelphia, were absent. The odors were not so violent as on some days, because of much storm sewage from the morning rain. But the visit of council to the plant will do good. Ald. McBride intends seeing that the tanks are drained during the day. It is these that drained at night caused the objectionable smell, and if the operation were performed during the day, not so much annoyance would be caused, he says.

No member was heard saying Morley Avenue people had not a grievance. Most of them admitted they had, and in so doing completely destroyed the object of the Imhoff plant in Ontario.

The Imhoff system rose in aldermanic esteem when compared with the Morley Avenue one.

Commissioner Harris seemed to put his finger on the source of trouble when he said the sewage was not left in the tanks for sufficient time to allow it to completely decompose. Only remained there three days. The plant was overtaxed by 10 or 20 million gallons. At Atlanta the sewage stays in the tanks for three to six months, and when discharged is completely odorless.

CITY MAY APPLY COMPENSATION ACT

Widow of Civic Employee Recommended for Yearly Pension.

Toronto bids fair to be the first corporation, public or private, to apply the principle of the new Workmen's Compensation Act. The city may give the widow of William Rudman, who died 20 years ago, an employee of its street cleaning department, compensation as apportioned under the new act.

Yesterday Mrs. Rudman, with the youngest of her five children in her arms, appeared before the board of control to ask for financial aid. Controller Simpson at once expressed a desire to apply the principle of the new act, and on Friday will report the amount. This will be about \$480 per year until the youngest child is 16 years of age.

SPEND A MILLION ON NEW CAR LINES

Ratepayers Will Be Asked to Vote This Sum for Transportation Purposes.

According to Controller McCarthy, the city is on the verge of another advance toward solution of Toronto's transportation problem. He says that citizens are to be asked to vote \$1,000,000 for extension of civic car lines and bus services; one-quarter million for the latter.

This is a development of the proposal to place a bylaw before the people empowering the city to purchase motor buses, at a cost of \$250,000. The car lines proposed will be up Dovercourt road, Avenue Road, and perhaps along other street, to join the St. Clair Avenue line. This seems to promise realization of Controller Church's myriad of motions for these extensions.

P. H. Drayton, K.C., official arbitrator, is hearing a case before the Ontario Workmen's Compensation Act is given by F. W. Hinsdale, the Washington expert whom the government have brought over to set the machinery in motion. The staff needed to enforce it, he states, will not be large in number, and it has been phrased to give maximum efficiency with minimum labor.

The special work of Mr. Hinsdale will be to install a complete office system and enter the names of every manufacturer in Ontario, and the details of his business.

Mr. Hinsdale is secretary of the Ontario commission and was released to Ontario for two months by special permission in the hope that interchange of work would prove beneficial to the operation of both commissions.

VISIBILE SUPPLY OF WHEAT DECREASED

Prices Hardened After Early Weakness Due to Beneficial Rains.

CHICAGO, May 27.—Wheat averaged higher today, helped by a decrease in the world's available supply. The market closed firm at the same as last night to 1 cent advance. In corn the outcome varied from 1c decline to 1/4c gain, oats finished 1-3c to 1-1/4c, 5-8c to 8c provisions with a rise of 5c to 12 1/2c.

Word that the European crop outlook regarding wheat was beginning to cause some anxiety gave particular significance to the fact that the falling off in the world's stocks was nearly double that of the corresponding week a year ago. There was a rather decided feeling that in view of the probable transatlantic dependence on the United States winter crop, the recent decline of four cents in wheat had more than discounted the flattering harvest outlook in Kansas and Oklahoma.

More Showers. Rains over western states and a few showers in the territory nearer Chicago tended to make prices dip at the outset, and also had influence in willingness that holders showed to realize profits near the end of the session. On the other hand estimates were current that the spring wheat acreage in the Dakotas and Minnesota had been diminished 8 per cent, an amount much more than was recently assumed to be the case.

Corn weakened on account of needed showers in various parts of the domestic belt, but deferred options hardened later as a result of advices that the wet weather in Argentina had again become unfavorable for shipping. Besides, country offerings here were small and cash demand good.

Oats ruled easier because of the drought being somewhat relieved and owing to signs of additional moisture at hand. Shorts in provisions took to the buying side. The incentive was knowledge that arrivals of hogs were fewer than expected.

ADVANCE IN SUGAR

Sugar has made another advance. The price in bags per cwt. now is: Extra granulated, St. Lawrence, \$4.51; Republic's \$4.51; Beaver \$4.41, and number 1 yellow \$4.11. This is a rise of 10 cents on each item.

KENWORTHY PARK

Near the Terminus of the Danforth Car Line Fronts on Danforth Avenue

Three years ago we sold land near St. Clair avenue and Dufferin street for \$18.00 to \$20.00 per foot. Today the same land cannot be bought under \$60.00 per foot. This is due largely to building activity and the operation of the St. Clair car line.

We are now offering you a better chance to make money near the Danforth car line. The line is already in operation and the east end is growing much faster than the west.

The lots in Kenworthy Park are beautifully wooded and 136 feet deep. Nothing else can be found in the vicinity at the price. Three years to pay.

We are making a special feature of this subdivision on Saturday, May 30th. Motor cars will be waiting at end of Danforth car line. Phone or write for appointment, or watch for our sign on motors.

STEWART MANOR

Department of Railways and Canals, Canada TRENT CANAL

SECTION 3, SEVERN DIVISION. NOTICE TO CONTRACTORS. SEALED TENDERS, addressed to the undersigned, and marked "Tender for Section 3, Severn Division, Trent Canal," will be received at this office until 12 o'clock noon on Thursday, June 18th, 1914.

Plans, specifications and form of contract to be entered into can be seen on the file at this office at 11 o'clock in the forenoon, and at the office of the Chief Engineer of the Department of Railways and Canals—Ottawa; at the office of the Superintendent of the Trent Canal, Peterborough, Ont.; and at the office of the District Engineer, Public Works Department, Ottawa, Ont.

Copies of plans and specifications may be obtained from the Department on payment of the sum of fifty dollars. To bona-fide tenderers this amount will be refunded upon the return of the above in good condition.

Parties tendering will be required to accept the fair wage schedule prepared and to be prepared by the Department of Labor, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered unless they are strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the date of the occupation, and place of residence of each member of the firm.

An accepted bank cheque on a chartered bank of Canada for the sum of \$58,000.00, made payable to the order of the Minister of Railways and Canals, must accompany each tender, which will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderers will be held as security for part security for the due fulfillment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

L. K. JONES, Asst. Deputy Minister and Secretary, Department of Railways and Canals, Ottawa, 21st May, 1914.

Wedding Presents

Suitability, rather than cost, will govern you in the choice of wedding presents. You don't chase after bargains when you wish to pay a compliment to the bride. You might just as well, however, get the best for your money, and we invite you to inspect a collection of

BRIC-A-BRAC. COALPORT AND CROWN DERBY CHINA. STATUARY AND MANTEL ORNAMENTS. TABLE DECORATIONS IN CHOICE CUT GLASS. ARTISTIC THINGS FOR DEN AND DRAWING-ROOM. CUT GLASS.

Some of these are exhibition pieces of celebrated makers. All are extraordinary value. It will interest you and will repay you to compare and criticize this collection on Friday before spending the money you had thought of for June weddings. You will say the values are astonishing. It is another of those instances of the buying power of your dollar being doubled at Simpson's. The list is too long to be printed here. Come and see the goods Friday morning.
