SHOULD BOARD PAY SALARY AT WINNICO

Trustee Noble Wants to Know
if it is Legal to Pay Mr. Fer-
rier, in Whole or Part, When
His Duties Do Not Include
Teaching - Superintendent
of Education Discussed.

Trustee Hartney's motion for a special committee on the question of the appointment of a superintendent of education or a chief inspector, in succession to J. L. Hughes, was adopted by the board of education last night. A letter was received from Inspector W. F. Chapman applying for the position of chief inspector. The letter went to the management committee.

Mr. Ferrier's Salary.
Dr. Noble gave notice of this question: Is it legal that this board pay salary, whole or in part, of the superintendent of Mimico Industrial School, as his duties do not include teaching? Trustee Brown said, while deferring a formal answer, it was many years ago since the board appointed Supt. Ferrier, who was then one of the public school teachers. Trustees Hiltz and Lewis were appointed representatives on the Industrial School board.

Had No Friends
DIED IN JAIL
That there should be some place other than the jail where old men and women who for the time being are unable to provide for themselves could be kept was a rider attached to a verdict returned by a jury which was empaneled to pass upon the death of William Pegley, 81 years old, who died in the jail yesterday morning from senile decay. On Nov. 2 last Pegley was sent to jail for five months in order that he would be cared for thru the winter. He had never been in the jail before, and during his stay there no one went to see him, so it is supposed that he had no friends in Toronto.

SPECIAL COMMITTEE REFUSED TO NOMINATE ENGINEER JAMES

Board of Control Favored Good Roads Engineer as Head
of Waterworks, But Other Members of Council Do
Not Agree.

The special committee appointed to recommend to the council a new head for the waterworks department met yesterday afternoon, and refused to concur in the recommendation of the board of control that A. E. James be appointed to that position. Beyond this, the committee did nothing, claiming that they had not sufficient data to make a recommendation themselves, nor sufficient evidence of Mr. James' qualifications to warrant their endorsing the board's recommendations.

COST OF LIVING MUST GO DOWN

Hon. Geo. E. Foster Says Question is One That Demands Immediate Investigation and Solution - Rearrangement of Trade and Commerce Department When Canal Opens

Hon. George E. Foster told the North Toronto Conservatives at a banquet in the St. Charles last night of the great, complicated problems facing the government. He touched upon a great question, but still, he voiced the opinion that this was one complexity that demanded immediate investigation and solution.

SAT THRU NIGHT ON BOUNDARY MEASURE

Government Determined to Force Manitoba Settlement Thru, Resolutely Declined to Fall in With Opposition's Plea for Adjournment - Amendments Voted Down.

OTTAWA, March 7.—(Special.)—Parliament has settled down to a sleepless night. The government has determined to force the Manitoba boundaries bill thru the committee stage, even at the cost of an all night session. In order to proceed with the third reading to-morrow, the opposition has proposed that the house will not adjourn till luncheon to-morrow, if, indeed, it adjourns at all.

At 12.30 a.m. a vote was taken on the amendment of Hon. Wm. Pugsley, calling for the deferring of the financial settlement with Manitoba until a court of the representatives of the provinces could be held, with a view to a readjustment more favorable to the maritime provinces. The amendment was declared lost by 101 to 62.

LABOR MEN CLAIM THAT THEIR STORY OF EATON STRIKE WAS NOT PUBLISHED.

A committee was appointed at last night's Labor Council meeting to confer with the Eaton Co. in regard to the present strike of the garment workers' union. The committee will act immediately and if the factory answers a special meeting is to be called.

FIVE KILLED IN INDIANA WRECK

LOGANSPORT, Ind., March 7.—Five persons are dead and fifty injured in the wreck of the Continental Limited on the Wabash at West Lebanon, Ind., according to the official bulletin sent to Superintendent J. C. Sullivan of the Peru division of the road. The wreck occurred at the Rockwood Bridge, near the Indiana state line, part of the train going thru the bridge. The injured are being taken to Danville, Ill.

Katie Irvine, an employee of the Western Hospital, was knocked down by a motor car on College-street last night and sustained a serious injury. She was carried into the Hospital for St. Nicholas and afterwards removed to the Western Hospital. The wound required six stitches.

AMUNDSEN REACHED SOUTH POLE DEC. 14 STAYED THREE DAYS AT ANTARCTIC GOAL "FRAM" CAPTAIN CABLES TO CHRISTIANIA

Probation Officer.

J. H. Feeley has been appointed probation officer, representing St. Vincent de Paul Society, to work in conjunction with Commissioner J. E. Starr of the children's court.

Rev. Dean Hand, J. J. McConvey and Patrick Hynes have been appointed an honorary juvenile court committee, and will also co-operate with Commissioner Starr.

Sir Ernest Shackleton, Who Previously Held "Farthest South" Honors Unqualifiedly Expresses Belief in Norwegian's Great Achievement, But Hopes British Flag Was First Planted at South Pole - Amundsen Discovered New Route and Made Record Time - Skis and Dogs Gave Norwegian Advantage Over Rival.

Amundsen May Have Met Scott at Pole Itself—Three Days' Observations With Theodolite Would Clearly Show He Had Reached Earth's Axis—Started Dash From Winter Quarters About First of October.

Reached Goal on Dec. 14
CHRISTIANIA, Norway, Friday, March 8.—I have received the following message:
"HOBART, Tasmania, Thursday, March 7, 1912.—Pole attained: 14th-17th December, 1911. All well. ROALD AMUNDSEN."
(Signed) LEON AMUNDSEN.

CLEARS AIR OF RUMORS

The statement that Capt. Roald Amundsen, the famous Norwegian explorer, is the victor in the south pole race confirms the announcement given in yesterday's World. Within the past two days there has been a chapter of south pole rumors. On Wednesday a report from an indefinite source reached London that Capt. Robert F. Scott, the British explorer, had reached the goal. Early yesterday morning a bulletin from Hobart, Tasmania, announced Amundsen's return, and later a despatch from Wellington, New Zealand, credited the Norwegian captain with having said that Capt. Scott had succeeded. This was unconfirmed. Capt. Amundsen's terse cable to his brother, however, clarifies the situation.

By Sir Ernest Shackleton

(Specially Contributed to The New York Times, From The London Chronicle)
London, March 7.—Analyzing the somewhat brief cable to hand, announcing Capt. Amundsen's attainment of the south pole, one, from previous experience, would assume that the journey was done with extreme rapidity and under very favorable conditions as regards the weather.

FOUND NEW ROUTE.

There is no indication in the cable whether Amundsen followed the route of my expedition in reaching the mountains that guard the approach to the pole. It may be possible that he found a new route, and an easier one, up to the plateau which lies about 9000 to 11,000 feet above sea level. He may have had good weather.

VALVE OF OBSERVATIONS.

"Assuming that an explorer took a noon observation of the altitude of the sun, and found that he was at the pole, a degree of uncertainty would still exist, because of the slow movement of the sun, which completes the circle with hardly any perceptible rise or fall. If an observation is taken for the second day at the same spot, and the difference of declination of the sun in its north or south path corresponds with this observation of the day before, and it does this for the third day, he may safely assume that his position is accurate.

FORTY-FIVE DAYS FROM QUARTERS.

"If Captain Amundsen left the pole on Dec. 17 he would very likely, with a fair wind behind him, return to winter quarters in about forty-five days. We left our 'farthest south,' which was, roughly speaking, 100 miles north of the pole, on Jan. 9, and reached our winter quarters on Feb. 29. They were 650 geographical miles from the pole, approximately the same length of journey that Amundsen would have covered from the pole to his winter quarters, as they were ninety miles farther south than ours.

WHAT OF SCOTT?

"The question naturally arises in one's mind: Did Captain Scott reach the pole before Dec. 14? "If so, the honor flies with the British flag, but the same endurance, the same skill and the same need of endeavor must be granted to Capt. Amundsen as the Norwegian people would grant to Capt. Scott if the positions were reversed.
MAY HAVE MET AT POLE.
"It would be quite possible that the two expeditions, having reached

LODGE GRIPPED BY POLAR FEVER

Vague Reports Alternately Indicated Triumph of Norwegian and Briton Until Definite News Came at Midnight—Simple Cipher Told of Amundsen's Conquest.

Special Cable to The New York Times
LONDON, March 8.—London was in a fever of excitement all day yesterday, and during the evening over the result of the race to the south pole. An early report from Wellington, N. Z., had credited Capt. Roald Amundsen with the statement that his English rival, Capt. Robert F. Scott, had reached the pole. At that hour no news direct from Capt. Amundsen had been received by The New York Times, which had obtained exclusive dispatches and the narrative of his expedition or that of the king of Norway, to whom Capt. Amundsen naturally wished to send an early report of the result of his dash to the pole. The New York Times office in Pall Mall was besieged by enquiries.

FIGHT LEADS TO STABBING

Toni George in St. Michael's Hospital and Arthur Orr in Police Station Charged With Wounding.

Toni George, 5 Mutual-street, is in St. Michael's Hospital with a severe knife wound in the lower art of his body, which was inflicted during a fight over a broken pane of glass.

MRS. GEO. BELL LAID TO REST

Mother of Three Well-Known Men Came to Canada 46 Years Ago, and Was Aged 86.

The funeral of the late Mrs. George Bell, 11 Roxton-road, took place yesterday afternoon to Mount Pleasant Cemetery. Mrs. Bell was in her 86th year, and death was due to old age.

ALL NEWSPAPERS ARE CRITICIZED

Labor Men Claim That Their Story of Eaton Strike Was Not Published.

A committee was appointed at last night's Labor Council meeting to confer with the Eaton Co. in regard to the present strike of the garment workers' union. The committee will act immediately and if the factory answers a special meeting is to be called.

STRUCK BY MOTOR.

Katie Irvine, an employee of the Western Hospital, was knocked down by a motor car on College-street last night and sustained a serious injury. She was carried into the Hospital for St. Nicholas and afterwards removed to the Western Hospital. The wound required six stitches.

Japan Holds Neutral TOKIO, March 7.—Vice-minister Uchida, the Japanese foreign minister, replying to an interpellation to-day in the house of representatives, reiterated Japan's adherence to the policy of strict neutrality in the Chinese situation. He emphasized Japan's special interest in the south of Manchuria and also expressed the readiness of Japan to dispatch more troops should the necessity arise.

INSUFFICIENT WARNING

After two hours' deliberation and three sittings, Coroner Wisnietz's jury at twelve o'clock last night returned with their verdict in the death of Thomas Snaka, the Macedonian who was killed at East Toronto two weeks ago when he was thrown from a Grand Trunk flat car and run over by a shunting engine. The verdict reads: "We find that Thomas Snaka came to his death by being run over by a Grand Trunk engine and that insufficient warning was given him by the train crew."

Military, French and American.

If any interested party should desire to know what is absolutely new in French and American military, Diven's big spring opening should not be overlooked. There are no two hats alike in this display, and the selection has been carefully made by a milliner of continental fame. Diven's military showrooms are at 140 Yonge-st., first floor.

COMPENSATION FOR MINERS DISCUSSED IN CONVENTION

Suggestion Made that Separate Legislation Be Enacted Covering the Industry—Cobalt Production Will Be 250,000,000 Ounces, Says C. A. O'Connell

Considerable discussion followed the reading of a paper on workmen's compensation at yesterday's session of the Canadian Mining Institute. It was finally decided to appoint a committee of five members to draft a resolution, which, if approved by the meeting, will be forwarded to the government.

Mr. C. A. O'Connell of the Trethewey mine stated that the question of compensation for workmen in mines was much different than that of other industries, where the ordinary manufacturer was able to affix the extra cost to the products turned out in proportion to the amount of money paid for compensation. The mine owner had no power to regulate the price paid for his output. He thought that if an act was put thru insisting on a certain amount, or if the silver mine owner was in any other way tied down, there was a possibility of the owner making a reduction in the wages to meet the increased demands, and this might react to the disadvantage of the workmen.

It was suggested that the mining industry should be looked after by a separate piece of legislation and that the government should appoint an inspector to visit the mines frequently, and protect the employer from the negligence of the men.

Compensation Rate. As a rate of compensation Mr. O'Connell was in favor of giving to the victim's relations or those dependent upon him three times his yearly earnings, with a minimum of \$100 and a maximum of \$2000 where death or total disability resulted.

Two very interesting papers were read on "The Past, Present and Future of Cobalt," by Mr. C. A. O'Connell of Cobalt, and "The Copper Mine Country," by Mr. H. Tyrrell. Both speakers were optimistic as to the futures of these mining districts.

Room for Thought. "I have read in the Cobalt seven years ago," said Mr. O'Connell. "When you realize that the proven ore zone is a rectangle 5 by 3 miles in area and from within this zone there has been produced in seven years 125,064,189 ounces of silver, there is room for much deep thought. We engineers there can give a full meed of praise and devout thanks to our good friend, Dr. Wm. G. Miller, for without his aid and skill, we would not be sure that old 'Cobalt' would have a niche in the hall of fame. Seven years ago, when I arrived in Cobalt, it was not much to look at. I do not think that there has been a camp as rich as Cobalt, which was a long time producing before it was given any particular notice.

"Many reasons have been advanced for this apathy, both by the profession and the public, but it was not until the year 1906, three years after the first discovery was made, that anything more than passing notice was given to the camp. At that time there were about 15 producing properties in the camp. The whole of the Township of Coleman, or whether we are to claim 'Cobalt bloom,' or symptoms thereof, could sell it for coin of the realm.

"Some have said there was an orgy of speculation and other high-sounding adjectives have been used to describe the conditions that prevailed, but, believe me, gentlemen, that was largely fabricated. I know very well that all the statements issued by the department of mines warned the public against speculating on the purchase of claims not located within the proven ore-bearing zone.

Good Producers. "The properties on what is termed the West Ridge," extending from Hudson Bay on the north to the Buffalo on the south, have been extremely consistent producers. This is largely accounted for by the multiplicity of

WELLWOOD STORE CHANGES HANDS

Well-Known Fruiterer and Confectioner is Retiring From Active Business Next Week.

W. B. Wellwood, who for over thirty years has conducted a fruit and confectionery business on Yonge-st., for the last 10 years at 161 Yonge, and formerly in the Simpson building, is retiring from active business. After next Thursday, March 14, the premises pass into the hands of The United Cigar Stores.

Mr. Wellwood was born in Cartwright Township, County of Durham, in 1857.

HIGH PARK RATEPAYERS

Series of Four Evening Entertainments Has Been Arranged.

Through the activity of the horticultural committee of the High Park District Ratepayers' Association, a series of four evening entertainments have been arranged for. Beginning on Friday, 22nd inst., the following schedule will be carried out:

March 22, Mr. Roderick Cameron, general superintendent exhibition park, W. J. Potter, superintendent, exhibition park. Subject, "Ferns." Chairman, J. L. Hughes.

March 23, Mr. Wm. Scott, B.A., principal Toronto Model School. Subject, "Wild Flowers." Chairman, His Worship Mayor Geary.

April 4, Prof. H. L. Hutt, B.S.A., of Ontario Agricultural College, Guelph. Subject, "Urban and Suburban Gardening." Chairman, J. Lockie Wilson, superintendent, Ontario Horticultural and Agricultural Societies.

April 12, Subjects, "Canadian Birds." Mr. John Maughan, provincial taxidermist, "Butterflies," Mr. H. Kenyon, Chairman, W. D. McPherson, M.L.A.

Each address will be fully illustrated by special stereopticon views, thus adding entertainment to these interesting and educative meetings.

Through the co-operation of the board of education, the use of Howard School has been secured and the series of meetings will be held there. Although not now publicly announced, much interest has already shown itself in this work, so well planned by the horticultural and parks committee of the High Park Association, and it is expected that interested citizens from other districts will make it possible to be at the meetings. Tickets for the full course of the four evenings will cost only 25 cents, and will be ready in a few days.

HOWARD PARK W. C. T. U.

The monthly meeting of the new Howard Park W.C.T.U. was held in the Roncevalles Baptist Church with Mrs. Gray in the chair. There was much interest manifested and some new members added. After the completion of the organization arrangements were made to hold the next meeting on the 26th inst., which is to take the form of a social.

Niagara Falls \$2.25 Return, Buffalo \$2.70 Return, Saturday, March 9th via Grand Trunk Railway System. Tickets good going via Grand Trunk 9 a.m. "Buffalo Express," return limit Monday, March 11. The Grand Trunk is the only double-track route to Niagara Falls and Buffalo.

Secure tickets at City Ticket Office, northwest corner King and Yonge-sts. Phone Main 3208.

Merry Wives of Kingston. KINGSTON, March 7.—(Special.)—Henceforth wives given relief to-day when the prices of butter and eggs took a drop, the former to 30c and the latter to 28c. In a few days it is expected prices will go still lower.

ON THE WRONG DOORSTEP

Good Roads. N. W. Rowell is still anxious for good roads. He will introduce a motion to the effect that "this house is of the opinion that a thorough system of good roads in this province would increase the value of farm lands, lessen the cost of transportation, improve marketing facilities, increase the comfort and convenience of farm life, and greatly promote the general progress and prosperity of the province." In addition, Mr. Rowell will mention that the legislature is gratified at the progress so far made in road improvement under the Highway Improvement Act passed in 1901, but that the time has come for a more comprehensive and adequate policy to promote the construction of good roads throughout the province, and expended by roads leading to market towns. He desires of satisfaction are to be made to the proposals of the Dominion Government to contribute out of its revenues towards the establishment of a good roads system in the several provinces and a suggestion that such contributions should be on a fixed basis, which would prevent the possibility of provincial political "log rolling," to secure a larger share of the money appropriated by the Dominion.

Another suggestion will be that the construction, repair and maintenance of such highways be under the exclusive jurisdiction of the legislature and municipalities of the province, and that all grants made by the Dominion Government to assist in the construction of good roads in this province be paid over to the province, and expended by it, together with adequate provincial appropriations.

DR. STEWART'S FUNERAL

Many Well-Known Ministers and Laymen Attended Services.

Amid many manifestations of the esteem in which he was held by his friends the remains of the late Rev. Dr. Stewart were laid to rest yesterday afternoon.

The services were held at Dr. Stewart's late home on George-street. Rev. John McNeil of Walmer-road Baptist Church officiated, and he was assisted by the Rev. Dr. Wallace of Bloor-street Presbyterian Church, Rev. Mr. McNell paid a deep tribute of respect to the dead pastor, telling of his efficient service as a teacher in the Bible

Estimates of Ontario's Revenue Show Surplus of Nearly a Million

Hon. I. B. Lucas Presented the Budget Speech in the Legislature Yesterday and Showed That Under the Present Administration the Revenues of the Province Have More Than Doubled in the Past Seven Years.

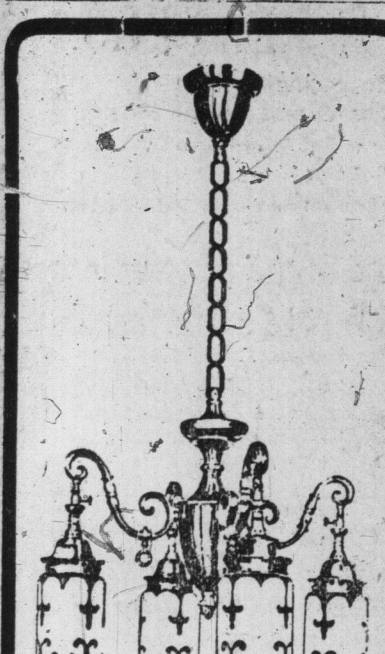

"In opposition your theories were excellent. In office your practices are admirable." Winding up his remarks, after presenting the budget speech in the legislature yesterday afternoon, the Hon. I. B. Lucas thus characterized the import of the criticism of the opposition members, who made general attacks on the expenditures of the present government without going into detail. The large and growing expenditure was what the opposition protested against, but they did not mention details, said he. They dare not attack any individual item in the expenditure, and at any moment they might be beset by a delegation of their constituents, wanting an expenditure of money for something or other in their district.

Out of an expenditure of ten million dollars or thereabouts annually by the government, the opposition had failed to criticize any amount much above \$300, and even then their protest was feeble and almost in the nature of an apology. A great experiment in public ownership was the life way Hon. I. B. Lucas explained the T. & N. O. Railway. The ordinary revenue of the province had reached \$2,370,838.90 during the past year—the largest amount in the history of Ontario. In fact, the revenue has been more than doubled since the present administration came into office seven years ago. In spite of all this, Hon. Mr. Lucas showed how the government's expenditures for all sorts of purposes had increased in comparison with that of the late Liberal regime.

Figures were given illustrating the tremendous difference. For instance, during the last year of the Ross government \$178,000 was devoted to colonization, while the present government gave \$451,000; last year \$58,000 was given by the late government for public buildings, while \$124,000 was given for the same purpose during 1911. The grants for agriculture for the same years had increased from \$300 to \$25,000, and for hospitals and charities in New Ontario from \$200 to \$41,000, and enforcing liquor laws thru out the province the old government in their last year of office gave nothing, while last year \$10,000 was used for the purpose.

The T. & N. O. Railway. In commenting on the progress and extension of the T. & N. O. Railway, Hon. Mr. Lucas referred to the fact that the railway was now a revenue-producer, and he pointed out how favorably cheap fares were regarded by the people, the point should not be lost sight of that the efforts of the commission to extend the railway thru the territory that was to be organized, should not be handicapped by a reduction in fares, thereby cutting down the revenues of the government railway.

In his opening remarks Mr. Lucas regretted the illness of Col. Matheson, the provincial treasurer. He then drew attention to the fact that the sources of revenue in Ontario were such that they could be estimated with some degree of accuracy. They were to a certain extent fixed, not like they were in the house of commons. Between the revenue and the strong box of the

During March, fixtures such as the one illustrated are subject to a discount of from 10 to 20 per cent. These prices place some of the most handsome and serviceable gas fixtures within everyone's reach. The line comprises a complete range of gas fixtures, from a composition tip to the most ornate crystal chandelier. There are designs suitable for every kind of a house, regardless of the style of furnishings. The fixture illustrated is one of our Craftsman lights, and is strikingly effective in a room where mission furniture is used. Take advantage of the March discount.

The Consumers' Gas Co. 12-14 Adelaide Street West Telephone Main 1933 -OPEN EVENINGS-

if the policy of the government had not been adopted. After going over the various items in the public accounts, the minister showed increases in every case, and contrasted the methods of the government with that of the former administration. The late government, in the last two years of office, had received more than \$3,000,000 by selling timber limits whenever they wanted more money.

The tax on bar receipts in the provincial secretary's department had reached \$118,801 in five months, and indicated an annual revenue of \$250,000 or upwards from that source. A new source of revenue was the stock transfer tax. From the earnings of the T. & N. O. Railway \$215,000 had been received. For the year the earnings of the road had been \$393,152, but owing to the fact that accounts had to be wound up, the full amount had not been paid over. The expenditure represented on the road was now \$155,582. The province owned 378 miles of track. Operating expenses had been reduced from 73.2 to 66.4 per cent. The Nipissing Central was bought last year for \$250,000 and earned \$11,029, which amount paid all charges and left something. The demand in some quarters for a reduction of rates on the T. & N. O. was not justifiable at the present time, although the revenue was increasing rapidly. It had not yet reached a stage where it would meet the full interest and sinking fund charges.

Hon. Mr. Lucas pointed out that the T. & N. O. Railway was a great experiment in public ownership. "And we want to prove," said he, "that such a road can be conducted on a sound financial basis. Every member of the house should be behind the commission in seeing that this road is run as a business proposition. Success has attended the efforts of the government in issuing provincial loans. The Dominion subsidy, he explained, had, as a result of the efforts of the government, been increased from 60 to 80 cents a head, making a total of \$2,351,758. Owing to the fact that the money for capital expenditure was spent earlier than was expected, there was a slight falling off shown in interest. An increase of \$110,000 was shown in the revenue from crown lands. The minister pointed out that of the \$1,223,892, received since 1906, from that source, not one dollar would have reached the provincial treasury.

In his reply to the budget speech, Hon. A. G. MacKay waxed very cynical and endeavored to belittle portions of the government's policy. He scored the administration of the T. & N. O. Railway because, he declared, the government looked more to the receipts from the road than to the necessary improvements.

"Hon. Mr. Lucas tried to show that the railway made a big surplus," said Mr. MacKay. "But he didn't consider the uneven, excessive freight rates. It seems to be the object of the commission to make this road a great paying proposition when it ought to be made a colonization road, in order to fill up the country with settlers, which are absolutely necessary. Complaints fairly flooded the government regarding excessive rates and inadequate transportation generally. But, oh, no, they don't bother their heads about this end of it. They like to see money pour into the treasury so they can say there is a big surplus as a result of wise, efficient administration."

"Do you wish to benefit the road by placing it under the jurisdiction of the Dominion Railway Board?" asked Mr. Lucas. "I never said I wished it placed in the hands of the Dominion Railway Board," answered Mr. MacKay. "Well, then, you differ with your leader," retorted Mr. Lucas. This remark brought forth an outburst of laughter.

Scored Sir James. He tried to show the government how to get an additional revenue of \$500,000, to wit, by means of an increased Dominion subsidy. He wondered why Manitoba should get a greater subsidy than Ontario, and he attacked Sir James Whitney, whom he characterized as the people's guardian, but not living up to his title. He said that when the federal government fixed the subsidies for Alberta and Saskatchewan the figures were a little in the extreme, and in order for Manitoba to equal them an increased subsidy was necessary. There was no reason why Ontario should not come in for a greater subsidy, like the sister province in the west. He wasn't in the confidence, sorry to say, of the premier of Ontario, but he saw no reason why Ontario should not assert her rights and get a fair and square share.

"What should be done," advised Mr. MacKay, "is the calling of a meeting of all the provinces, so that the matter may be discussed. Surely, then, a fair adjustment would be made and all provinces would be treated alike."

Forest Depletion. Speaking about the government's great prosperity, whose source chiefly was the north country, Mr. MacKay issued a warning against the depletion of the forests and mines, so that the government would be enabled to retain itself on its same old self-created pedestal. "A wise administrative government," when the forests and mines, the principal sources of revenue, were

depleted, Ontario would go broke, as asserted. In the Party, He Says. Naturally, Mr. MacKay declared, that the finances were fixed largely by the old government and not by the so-called "magnificent Conservative administration." The Conservative government had increased the net debt of the province to \$3,398,715. As a remedy for the liabilities the government should learn what was causing the current expenditures, to run behind the current receipts. Hon. Mr. Lucas had a great talent in befogging the question of surplus and debt. He claimed that if everything was shown in its true light the province would have a deficit of \$2,000,000. Neither government had made the current expenditures meet the current receipts. The government's principal pastime, said Mr. MacKay, was "basking in the sunshine on the banks watching the strong silver current flow past and into the treasury." "Some people have said they never saw the like before. And they're right, I hope we never see the like again," was his last shot. Mustn't Waste Time. Just as the house was about to adjourn, Sir James Whitney gave the members of both parties a heart-to-heart talk regarding the rate of progress that had been made so far this session. Sir James referred to the small attendance at the Monday and Friday sessions on account of the desire of a large proportion of the members to spend the week-end at home. "I am not criticizing the procedure at all or objecting," Sir James explained, "but if we want the session to close by Easter, as has been the custom other years, we'll have to make more progress."

DUNLOP

Dunlop-Made Means Quality

The Dunlop general line of rubber goods is just as well known and favorably thought of as Dunlop Tires.

What we Make
Dunlop Packing
Dunlop Rubber Belting for all Purposes
Dunlop Hose for all Purposes

So insistent and widespread is the call for Dunlop Goods that our plant is kept busy the year round, and we have located branch warehouses from the Atlantic to the Pacific to effect a speedy distribution. Our factory additions for this year alone are nearly as great as the total area of the plant seven years ago when we commenced the manufacture of rubber goods.

The Dunlop Line

Dredging Sleeves
Valves
Moulded Goods
Tiling
Railroad Necessities
General Rubber Specialties

That is pretty good evidence of how the popularizing of the "Rubber-made Goods" idea has also popularized the Dunlop line, for Dunlop factories could not have grown in floor area unless Dunlop goods had grown in the estimation of the public.

League Scores

Note and Comment

Last night's friendly games will about finish the curling for the season. The Grand Prix finished their club matches Wednesday night, when Davy Prentice defeated S. Rennie for the Marshall medals, 15 to 9. There was a remarkable ending at Queen City for the Fawcett Cup, when J. C. Scott scored four on Dr. Frawley in the final end, tying the score and winning out on the extra end. Dr. Frawley won the Fraser Trophy final last night at Parkdale from J. A. Hetherington by 12 to 9.

According to press reports Manager Bob Fleming of the Toronto Lacrosse Club is going to have his signed players show up or he will know the reason why. Also upon the field they'll have to play their best, otherwise some of the sharpes will report it to E. J. and he will inflict fines just like as if they were mere workmen or conductors.

Owing to the late season on the Hudson Canal, Jimmy Rice is working his Columbia crew on the country. He says it's fine for the oarsmen's wind.

Billy Allen of Ottawa has boxed the past year under a manager in Syracuse, N.Y. He won nearly all his bouts and was hailed everywhere across the line as from the town of his mentor. However, the turn came on Wednesday at Rochester, when Jess Cross had an easy time beating the Canadian lightweight champion. He battered Allen so badly that before Charlie White stopped the affair in the fifth round. In the four rounds and part of another Allen was twice down for the count of nine. He was a slight, says the despatch, and now the Empire State papers forget all about the Syracuse boy who is once more Billy Allen of Canada.

The Canadian Baseball League meeting will be held within the next week here, when the schedule will be drawn up and everything made ready for the season. Eight teams are expected to be members of the league franchises now being owned by Ottawa, Hamilton, London, Toronto, St. Catharines, Brantford, Guelph and Peterboro.

Davisville Land the North Championship

Defeat Cartons in Final Game of the Series by 3 to 2—At Half-Time the Score Was 2-2.

Davisville defeated Carlton 3-2 at the Excelsior rink last night and won the senior championship of the Northern City Hockey League.

The brand of hockey put up was of a high order and the game was well matched. At half time the score was 2-2.

Referee Tackaberry, who handled the game, proved himself a good official, keeping the game clean and allowing no useless delays. The teams were: Davisville (3): Goal, McKennedy; point, Murphy; cover, Stewart; rover, Guthrie; centre, Wey; right, Metch; left, Lee-worthly.

Carlton (3): Goal, McCullough; point, Avery; cover, Lavigne; rover, Gault; centre, Ecclesstone; right, Carr; left, Tre-leaven.

Referee, Tackaberry.

Governing Body for Amateur Lacrosse

Adjusting the Situation in Ontario—Olympic Tryouts to be Held in June.

At the quarterly meeting of the Ontario section of the Amateur Athletic Union of Canada last night it was decided to sanction the games of the Eaton A.A. at the Island stadium on Saturday, June 1, as the Olympic try-outs for Ontario, under the supervision of a committee of the union. This most will supply the funds for the expenses of the Ontario team to Montreal for the Dominion trials on June 8.

The meeting was held at the union offices on College street, the president, Rev. Dr. D. Bruce Macdonald, in the chair. The other most important business was consideration of the report of the lacrosse commission appointed at the annual meeting of the union and which was composed of provincial associations throughout the Dominion. Messrs. P. R. Sinks, Murdoch McDonald and Tom Robertson are the union committee and it is hoped to have matters in shape to be laid before the C.L.A. at the annual convention on Friday.

Ontario will apply for the Dominion track and field championships for this fall.

Talking Football in Hamilton.

Altho the Football season is some distance off and the fans are devoting their time to discussions on baseball, the football lovers are on the job, and from present indications it looks as tho both Mallett and Binkley will be the best players who started with the Argos last season. It was found on the Tiger squad this fall that Mallett and Binkley are the best players in the city, and it is understood that negotiations are under way whereby both boys will become residents of this famous burg. Both are anxious to get back to this vicinity, as by residing here they would be closer to their valley town. Neither of the boys is eager to turn out with the Argos next year. With Mallett and Binkley to do the booting and McKelvey, Oliver and McNelly to carry the ball for the Tiger rear division, some division would sure be shown, and the fastest and best back division ever rounded out in the Big Four would result. Mallett showed last fall that he is one of the best punters the game has seen. He also uses his nose, and has the important faculty of being able to place the ball, a point at which Parley McNelly was not any doubt a proficient. Binkley's career is familiar to the local men, and he is undoubtedly one of the best leaders the game has produced, aside from his kicking strength—Hamilton Spectator.

EATONS PLAY FIRST GAME ON SATURDAY

WINNIPEG, Man., March 7.—(Special.)—Today it looked as though the Eaton team was going to beat the Victorias, but the final score was 3 to 2 in favor of the Winnipeg aggregation. At half time it was Calgary 3, Victorias 1, and until the last ten minutes the Alberta team had a lead of two goals and had far the best of the contest in every way. Victorias were within six feet of their manly goal, but they did not want to run any risks, being satisfied with the big score of 11 to 9 on Tuesday night. The goal tally for the series is Victorias 19, Calgary 6, so that the locals retain the cup by a margin of 13 goals.

As the day for the first game with the Eatons approaches excitement increases, and much money is offered on the Victorias, but there does not seem to be any Eaton money in sight. There have been a few scattered bets made to-day, but the ruling odds are three to two on the Victorias. There are thousands of dollars available to bet on the Victorias but none seems offering from the Eaton camp.

The big contest between the Eatons and Winnipeg Victorias is scheduled for Saturday night at the auditorium. The Victorias received word from the Eatons that if Monday and Wednesday were suitable dates for the Eatons then the games could be played on that date, otherwise Saturday and Monday must be the dates. The Eatons insisted on playing the first game this week, so Saturday and Monday will be the big days.

Greg Caldwell of Barrie has been agreed upon as referee for the match. He was agreed upon yesterday afternoon at the meeting held between the officers of the clubs, but announcement was not made until it was learned whether he would accept or not. It was learned to-day that he has accepted and was leaving on night Caldwell has a splendid reputation as an official, and has handled many of the most important games in the Ontario Association. He was chosen out of a group of players from the Eaton Club. He will probably handle the game also.

Billy Keen and Billy Breen of Winnipeg will control the play in the matches under western rules.

STANLEY CUP GAMES NEXT MONDAY AND WEDNESDAY

OTTAWA, March 7.—The games between the Montreal and Quebec clubs for the Stanley Cup will be played on Monday and Wednesday next. This was decided when Senator Choquette, president of the Quebec Club, had an interview with Trustee Wm. Foran, today. The Montreal Club has agreed to play on Monday and Wednesday, but the Quebec Club has insisted that the games be played on Monday and Wednesday next. The majority of players are from the Montreal Club. He will probably handle the game also.

PRESTON WILL BE HERE

Play an All-Star Senior Team on Saturday Night at Excelsior

Preston are running an excursion to the city for the game on Saturday night at the Excelsior rink between the Preston team, Intermediate O.H.A. champions, and an All-Star team picked from the different senior teams in the city.

Preston figure that their club is as strong as any of this year's senior teams and are very anxious to run up against an All-Star team. The plan goes on sale this morning at 139 Yonge street, and the game will start promptly at 8.15 Saturday night. The team: point, Bowman; rover, Bernard; rover, Walker; centre, Eltinger; right, Kahn; left, Mulroy.

All Stars: Goal, Addison (Archie); point, Hunter (Parkdale); cover, Hanley (Vancouver); rover, Romani (Ganong Club); centre, McLean (T.A.A.C.); right, Brown (T.A.A.C.); left, McCannan (T.A.A.C.).

Traction Tread

Another Opinion:
"I have run my Dunlop Traction Treads over 3,000 miles and am particularly impressed with the traction qualities; also the quality of the rubber, as there is no perceptible sign of wear, although I give my car a rough road."

SIMCOES IN FORM TOPPLE PINS FOR BIG TEAM TOTAL

In the Athletes' Association last night the Simcoes, who look like the champions for the season, showed their class by turning in one of the biggest counts of the year when they collected 228 pins, against the 189 of the Toronto Rowing Club. Every one of their games was away over the 500 mark and in the second they looked to have a thousand clinched, when the jinks stepped in. The Rowing Club gave a game fight all the way and were always in the running, putting in a 223 count in the middle string. The high rollers for the night were Jennings with six and Andy Sutherland with six, while Daddy Vick finished up with six straight strikes for a 241 count, giving him high single status. The scores:

A LEAGUE	
Jennings.....	217 217 194-628
Stringer.....	190 183 168-541
Howard.....	189 189 158-536
Vick.....	166 171 241-578
A. Sutherland.....	130 200 219-559
Totals.....	
.....	929 961 938-2828

Rainy weather is keeping the recruits at the Southern League camps from working out as much as they would like.

Roger Breenahan has the Cardinals playing football instead of baseball. The grounds are in such bad shape that he is considering taking the players farther south and passing up the idea of training at the grounds in St. Louis.

Billy Bailey, the Browns' southpaw, is to get another tryout this year. He has reported in St. Louis.

President Hedges of the Browns is determined to have his club train at home. He says the weather will not change his plans.

Harry Davis is working out in a Cleveland uniform.

Jerry Downs, the former Tiger infielder, is at Hot Springs with Bill Dah-

Special Fish Dinners To-Day.

Albert Williams is serving hot fish salmon to-day in his special fish dinner. Other lines, too, equally as tasty. Table d'hôte, 40c, comprising shell oysters, fish and turkey, with a nice line of desserts. Branches: Queen and Yonge, King and Yonge and 17 Adelaide-street west.

Invigorating on a cold day.

In the Derby Hats for Men we particularly feature for Saturday an English hat of an extra fine fur felt, in fact English hats are noted for their excellent qualities—in the popular low round crown block, with medium flat brim and trimmed with silk band and binding, and real Russia leather sweats. It is a shape that one readily becomes used to, and it fits in well with the new styles in Men's Suits. The price is... 2.50

A CIGAR WITH CHARACTER

The distinctive character which makes the "New Ten" Cigar such a satisfying smoke is not based on strength, for it is rather a mild cigar. Neither is it base don color of leaf, for the "New Ten" is medium in shade.

The World's Selections by CENTAUR

FIRST RACE—Twallin, Billy Mayhue, Brighton. SECOND RACE—Leut. Sawyer, Ramay, Colide. THIRD RACE—Droml, Evelina, Hardy. FOURTH RACE—Clint Tucker, Bob Lynch, Fundamental. FIFTH RACE—Ear Louise, Jas Blackstock, Transparent. SIXTH RACE—Mamac, Horetic, Little Marchmont.

Western Buyers Not Coming East For Their Horses

The attendance at Maher's Exchange yesterday was large, nearly eighteens. The firm's auctioneers, Jackson and Pich, stated that buyers were hard to find at the prices the breeders are holding horses at in the country. The exchange had to offer to offer this week and the dealers complain that they cannot buy good horses from the breeders and offer them in the Toronto market and break even on the shipments. The management of the exchange are warning the dealers they must buy \$20 to \$30 per head cheaper from the breeders if they wish to find a ready sale.

THE BILINGUAL QUESTION. Dr. Merchant's report has made us all sure that we saw what we were looking at, and this tribute to our sanity will be gratefully received. There is a story of a waiter reassuring a guest at breakfast who exhibited symptoms of queer-absorption, when a specimen of muss domestic scampers over the table: "Do not be afraid, sah. It's a real mouse." There are many who will be grateful for Dr. Merchant's testimony to the reality of the mouse.

We do not believe there is any great danger of Ontario becoming a French-speaking province. That is not the difficulty to be grappled with. Those who have the welfare of the citizens of all the citizens of Ontario at heart are concerned about the real disability imposed upon those who are not able to speak the language of the land in which they dwell. No considerations, whether sentimental, hereditary, political or religious, weigh against the positive evil of isolating a man or a family, or a group of families, from their fellow-citizens by the Chinese wall of a strange tongue.

English people who live in French communities learn and speak the French language without any complaint, and in an English community like Ontario there should be no difference of opinion about the advantage to the Frenchman of knowing the language of the people with whom he makes his abode, does his business and gets his living.

Abuses of this kind undoubtedly exist in Ontario. Now that Sir James Whitney has Dr. Merchant's report, it is his business to get rid of the anomaly without any equivocation. He has seen the mouse. What he needs is an efficient cat.

A NEW POLITICAL PARTY. And now comes Mr. W. J. Treigulus, president of the United Farmers of Alberta, and says there has been no car shortage in the west, or, at any rate, that lack of cars had nothing to do with the crop situation. If there had been more cars, he says, they could not have been moved, and if they had been moved they could not have been handled for want of terminal and storage facilities. The need of the west, in his opinion, is more railways and outlets north, south and west, as well as east.

Of course, Mr. Treigulus speaks from the standpoint of Alberta. The breakdown in the transportation which followed the sudden cold snap last December occurred in Saskatchewan and bottled up all the country west. It is strong for the Hudson Bay Railway, and is busy organizing a new political party, which will enable the farmers to dictate to both parties. This has a familiar sound, but the president of the United Farmers seems to be in earnest. He accuses the motion of secession from eastern Canada, pointing out that the western farmers can get anything they want from the Dominion Parliament by forming a new political party.

An Authorized Trustee Investment

The Debentures issued by this Corporation are a security in which Executors and Trustees are authorized to invest Trust Funds. They bear interest at FOUR PER CENT. per annum, payable half-yearly.

Canada Permanent Mortgage Corporation

TORONTO STREET, ESTABLISHED 1855.

working women should try to be present, and bring her friends. GERMAN INSURANCE EXTENSION. So successfully has been the operation of national state insurance in Germany that a law was passed in December last, extending compulsory insurance to salaried employees whose "social status" is held to be superior to that of the "work people," for whom the benefit was originally intended.

For the class now included no general provision had previously been made otherwise than by the accident insurance law, which, as recently amended, covers work superintendents earning up to 2000 marks—about \$1235—per annum. The number of persons affected by the compulsory clauses of the new law is estimated at 1,800,000, and includes the following classes: Employees exercising managerial functions; work superintendents, etc., and members of office or counting house staffs; shop assistants and chemists' assistants; members of theatrical and orchestral companies, teachers and masters, officers, pursers and others occupying responsible positions on German vessels, whether sea-going or engaged in inland navigation.

Insurance is now compulsory for all persons belonging to any of these classes who have completed their sixteenth year and had not reached the age of sixty at the time of entering upon the occupations in which they are engaged, provided they are fit for work and are in receipt of a salary not exceeding that already mentioned. The provisions may be extended by the federal council to persons working on their own account, subject to certain limitations.

Insured persons are divided into nine classes, according to their salaries, the contributions per month varying from 38 cents where the yearly salary is not more than \$185, to \$6.54 where the salary is between \$985 and \$1220. The benefits afforded are two kinds—pensions for old age and premature infirmity, and pensions to widows and orphans. In the first case they become payable when the insured person attains the age of 65 or becomes unfit for work—if not permanently incapacitated, an infirmly pension may be granted temporarily if unfit for work during twenty-six consecutive weeks. Pensions are also payable to widows of insured persons and to orphans up to the age of 18 or widowers who, owing to infirmity, had been dependent on their wives for support.

Provision is also made for the treatment of those suffering from diseases which threaten to incapacitate them from work. The cost of this elaborate system of insurance has been imposed equally on employers and employees without assistance from the state. Government stamps for the amounts contributed by employers are issued and have to be attached to cards obtained and kept by the employees.

BRITISH POLITICAL INDICATIONS. As the home rule bill was, according to the original intention of the British Government, to take precedence of the Welsh disestablishment and manhood suffrage measures, the postponement of its introduction will throw the whole official program out of gear. Even under the most favorable circumstances the attempt to drive through highly controversial propositions thru the house of commons within the compass of an ordinary session, is no light undertaking. But with the complication introduced by a strike menacing the foundations of the industrial fabric, and therefore superseding all other undertakings, the outlook becomes anything but hopeful. No doubt with the weapons now available for forcing governmental measures thru the house, the attempt can become achievement, but at a cost which may deprive the result of all moral weight.

measure should have been national in principle and non-contributory at least on the part of workmen. Greater acquaintance with its character may modify the antagonism, but so far its effect has been adverse to the party in power. After South Manchester no industrial seat can now be considered safe for a government candidate.

THOSE WHO PAY SHALL SAY. There are now two newspapers sold on the principle of no taxation without representation. We reproduce an article from The Evening News, summing up the situation we have been keeping before our readers for two months past. There is, of course, two sides to the question. The minority who control the expenditure of the taxes see one side. The people who pay the taxes have another view of the matter. The city council very nonchalantly put aside the whole question the other day. The people have votes for the aldermen, if they have no votes on money bylaws, and they will take care that the aldermen have more interest in the question before the end of the year than they display at present.

GOVERNMENT BY LANDLORDS

Toronto News: While the citizens of Toronto have been busy fighting corporations and other trusts imposed by law, the Ontario Government, being held by franchisees, they have allowed an unorganized body of land owners to rule them, as shown by the recent tax law. The land owners have the power to retaliate. All who pay taxes should have a voice in deciding how those taxes should be spent. In Toronto the tenants pay most of the taxes and they are not allowed to vote on money bylaws which really settle the trend of civic policy.

In this way the robbed of the power to seek relief from high rentals by securing facilities for living in the suburbs. The land owners have the citizens boxed within the city limits, and they are sitting on the lid of the box. There is only one man in Toronto who has the courage to stand up to the landlords, so no relief can be expected from this direction. Citizens will have to look elsewhere for redress.

Taxation in the City. Those who own big estates in Toronto are able to rent their houses and add their own taxes to the rent. In many agreement forms the tenants are made to undertake to pay all taxes and dues on the property rented. The tenants must also pay income tax. He is bearing his share of the cost of local government and also the burden of the wealthy land owners. But he has no voice in the matter. The city council vote on money bylaws. He taxes and his landlord decides how these taxes shall be spent. This system is endorsed by a city council in a democratic country.

Every tenant who is dependent on the street railway has to contribute daily to the relief fund for the unemployed. About a million dollars will be paid to the city this year by the Street Railway company. And these land owners have decided that the money shall come out of the pockets of tenants and boarders. A million in relief. Every tenant who is dependent on the street railway has to contribute daily to the relief fund for the unemployed. About a million dollars will be paid to the city this year by the Street Railway company. And these land owners have decided that the money shall come out of the pockets of tenants and boarders.

A Land Bosses Council. To acquire sufficient merit to sit on council, a man must own a few dollars worth of land. Gribboedov has said that it does not take a wise man to be the father of a large family. He might have added that anyone can buy a small plot of land. There is no special virtue in land which gives to its owner the necessary brain power to govern a city. Certainly our present restrictions have not secured remarkably intelligent administration. In English cities a man who is general in vote is eligible for selection to council. This is real democracy.

COURTESY TITLES. Editor World: For the information of some of your readers who please inform me why the title of Lord does not descend from Lord Randolph Churchill to his son, Winston Churchill, and also how Lord Randolph Churchill received the title of lord. Also when an alien takes out naturalization papers in Canada does he swear that he will take up arms in defence of the British Empire or Canada, as the case may be. Enquirer.

At Osgoode Hall

ANNOUNCEMENTS. Thursday, March 7, 1912. Judge's chambers will be held on Friday, March 8, at 11 a.m. Peremptory list for divisional court Friday, March 8, at 11 a.m.: 1. Shaw v. Lynch. 2. Kelly v. Blackie. 3. Bishop v. Knowlton. 4. Pearson v. Lancaster.

Editor World: I notice in to-day's issue of your paper, page 8, a reference to me in connection with the 100 years of peace celebration; up to date I have not seen or heard of any other proposal either "rusty" or "rusty" or otherwise. Nothing can be accomplished, however, without the aid of the government of the United States and of America and United States of America. A head tax of two cents each would produce \$2,000,000, enough to build the bridge as I proposed for the big celebration, in other cases not reported. F. McCarthy for plaintiff.

WILL PROTESTS CEASE ASKS GUARDIAN

Roman Catholicism Can Find No Quicker Way to Ruin Present Conditions to Continue, Says Official Organ of Methodist Church. The current issue of The Christian Guardian, published to-day, replies to Bishop Fallon of London, who at the dedication of a Roman Catholic church, referring to the agitation which is being stirred up against the Roman Catholic Church and the members, indignantly demanded: "Why are we pilloried in the press? 'What have we done?' and went on to say: "The temerarious decree is an arrangement purely for the Catholics, affecting their conscience and having no more to do with the law than the man in the moon."

Passengers Were Endangered. KILGUSTON, March 7.—(Special)—The lives of the passengers on the Bay of Quinte train were endangered when a mixed train, running south from Bridgton and Queensboro, was derailed, but as the train was running slowly no one was injured. The engine stayed on the track.

A Man With Piles Cannot Work. The depressing, undermining influence of piles seems to affect mind as well as body until the sufferer is unable to carry on his ordinary, honorable and useful life. The itching, stinging sensations which accompany piles are bad enough. The search for cure and the sight of a surgical operation do not tend to relieve the sufferer. Many get discouraged and allow their faculties to be ruined by this wretched ailment.

MAIL ORDERS A STUDY. JOHN CATTO & SON 55 TO 61 KING STREET EAST, TORONTO.

DUFFERIN HOUSE New Y.W.C.A. Home Was Formally Opened Yesterday

The formal opening of Dufferin House, Y.W.C.A., took place yesterday afternoon.

Rev. Dyson Hague, Rev. W. B. Caswell, Rev. S. E. Grigg and Rev. A. L. Giege gave short addresses on the benefits and Christian influence of such work to the girls of the city.

Mrs. R. D. Fairbairn, president of the Toronto Association, who presided, also spoke on the work of the association.

The Dufferin House Y.W.C.A. is the third branch opened by the association this year, the buildings and furnishings costing \$25,000.

It will accommodate fifty girls with dining room accommodations for more than seventy-five. A commodious reception room, reading and recreation rooms are three of the delightful features of this new branch.

At the conclusion of the address, the guests were shown about the building, tea being served in the dining room.

This is Your Opportunity for a Week-end in Buffalo. Only \$2.70 return from Toronto, Saturday, March 9, via C.P.R. 9.30 a.m. train. Real Estate and Building---News and Opportunities

APARTMENTS TO BE CONTROLLED BY GOVERNMENT

If Dr. Forbes Godfrey's Bill is Passed by the Ontario Legislature—Would Regulate the Construction and Use of All Tenements, Etc.

Dr. Forbes Godfrey of West York will introduce a bill into the legislature empowering the government to make regulations concerning apartment or tenement houses. It is his intention to have it considered as part of and to be read with the Public Health Act.

The proposed measure is most comprehensive in its nature and provides that the lieutenant-governor in council shall have power from time to time to make regulations with reference to the erection, construction, reconstruction, alteration, repair and use of tenement houses, as may be deemed necessary, advisable or convenient to ensure the health and safety of the occupants and of the public generally.

Dr. Godfrey would have the bill apply to cities of 10,000 population and over, and to any other city or town where the council passes a bylaw providing for the bill to apply to that municipality.

Not only is the bill to include buildings now used as apartment or tenement houses, but special provision is made regarding any such house to be erected in the future.

Infractions are to be punished by a fine totaling a fixed sum per day after conviction till the cause of offence is removed, with the option of a maximum term in jail of three months.

BUILD IMPERIAL BRANCH IN RICE LEWIS CORNER

Rumor Has it That Front Part Is to Be Considerably Changed—Retail Hardware Store to Move Onto Victoria Street.

It was stated yesterday by one who apparently spoke with authority that the Imperial Bank is to rear down the front of the Rice Lewis building on King-street, east side of Victoria-street, and establish a branch there.

The front part of the building, which is 42 feet by 105 feet on Victoria-street, was purchased some months ago by Elias Rogers. Mr. Rogers is a director of the Imperial Bank, and it is said he bought the property for the purpose of establishing his retail store in the rear part, on Victoria-street.

If the Imperial Bank do use this corner for a branch, it will be a year or so before they make any move. What lends considerable authority to the statement are the facts that the lease of the corner which they occupy as a branch at Victoria and Adelaide-streets runs out shortly, and that the C. P. R. purchased this property on the south side of King-street next the new railway building.

Bank officials are averse from discussing the matter, stating merely that they are quite satisfied to keep their head office where it has been for many years, on Wellington-street, at Leadenhall.

Tim O'Rourke Buys Eastern Ave. Hotel

Tim O'Rourke, for eight years manager of the Grand Central Hotel, is now a proprietor.

Yesterday he closed a deal for the Grey House, Morse-street and Eastern-avenue, the price being in the neighborhood of \$28,000. George E. Grey, the former owner, will devote his time to horses.

Nelson and Churchill

In connection with the story which appeared in The World of Monday, under an Ottawa date, to the effect that Chief Engineer Armstrong, who is in charge of the construction work of the Hudson Bay Railway, made a report that Fort Nelson would be preferred to Fort Churchill as the terminus of the new road, Mr. William Beech, who has spent six years in Churchill, called on The World to state that Engineer Armstrong is considerably in error in his statements.

Mr. Beech maintains that Fort Churchill is open for a longer time in the fall and earlier in the spring, than Fort Nelson, leading this statement on his own practical experience. Mr. Beech also says that Fort Churchill is a much better natural harbor, and can already accommodate ocean-going vessels without any dredging or artificial work of any kind. During the last 300 years vessels coming to Fort Nelson

LOCAL IMPROVEMENT NOTICE

TAKE NOTICE that the Council of the Corporation of the City of Toronto has constructed as local improvements certain pavements on the following streets, between the points mentioned, the cost of the work being payable in ten annual instalments, and the estimated lifetime of the work being ten years:

STREET	SECTION	Cost of Work	Portion Payable by City	Rate per foot frontage annually	Life in Years
Gilead Place	21 ft. south Eastern-avenue to King-street	\$972.11	\$385.01	14	10
Lane, first west of Dovercourt-street	College-street to 160 ft. S. in north	468.11	180.58	15	10
Lane, first west Spadina-avenue	Harbord-street to 144 ft. 10 in. north	321.19	127.19	10	7-10
Lane, first west Yonge-street	Braveline-street to 3rd Avenue-street	818.81	414.90	15	10-12

A Court of Revision will be held at the City Hall on Tuesday, the 19th day of March, 1912, at 2:30 o'clock p.m. for the purpose of hearing complaints against the proposed assessments or accuracy of frontage measurements and any other complaints which persons interested may desire to make, and which are by law cognizable by the Court.

City Clerk's Office, Toronto, March 8th, 1912. W. A. LITTLEJOHN, City Clerk.

ESTATE NOTICES

IN THE MATTER OF THE ESTATE OF Fanny Fitzgerald, Late of the City of Toronto Deceased.

NOTICE is hereby given that all persons having any claim or demand against the late Fanny Fitzgerald, who died on the 15th day of November, 1910, at the City of Toronto, are required to send by post prepaid or deliver to the Toronto General Trusts Corporation, or to the administrators of the estate of the said Fanny Fitzgerald, their names and addresses and full particulars in writing of their claims and statements of their accounts and the nature of the securities, if any, held by them.

And take notice that after the 15th day of March, 1912, the said administrators will proceed to distribute the assets of said estate amongst the persons entitled thereto having regard only to the claims of which they then shall have had notice, and the administrators shall not be liable for the administrators shall not be liable for any person whose claim they shall not then have received notice.

Dated this 22nd day of February, 1912. ROBERT G. GODFREY, PHELAN & HENDERSON, Solicitors for the Said Administrators.

THE CENTRAL Y.M.C.A. UNDER TAKES AN IMPORTANT WORK

One of the problems before the Canadian people at this time is the assimilation of the thousands of young men who are pouring into the country every month. The members of the Central Young Men's Christian Association, alive to the question, have plans on foot to welcome and help as many of these immigrants as possible and try to help them to adjust themselves to the new conditions of life. In the interest of this special work, a meeting will be held in the parlors of the Central Association, 415 Yonge-street, on Friday evening at 8 o'clock, when Mr. J. P. Hagerman, provincial county secretary, the Young Men's Christian Association, will speak outlining the work to be attempted.

Dr. W. E. Taylor of Shanahall will also speak on China's awakening and Canada's responsibility thereto. The meeting will be for men and all will be cordially welcomed.

CARS COLLIDED

The bad condition of the rails on Queen-street at the corner of McCurtain-street, was the cause of another street car collision yesterday morning. A Queen and a Queen car collided on the curve, but fortunately no one was hurt. The Queen car was broken about the front vestibule.

Porcupine Camp is Coming Into Its Own--Interest Widens

Free Selling by Speculators Brought Decline in Wheat Pit

CHICAGO, March 7.—Free selling by speculators in wheat today hardened the market down. Rose-colored reports of the condition of the winter crop furnished a pretext. Closing prices were steady, 1 1/2 to 1 3/4 under last night. The outcome in corn was a decline of a shade to 1-3/8, oats finished 1-1/4 to 3-8c and hog products at a decline of 10c to 30c.

Wheat started higher on account of cables showing a stock strike in Australia, harvest rains through northern India and light offerings from Argentina, Russia and Manitoba. The strength, however, was soon at an end. Construction given at Chicago and St. Louis Street West, Toronto, Ontario, Canada.

Wheat—No. 1, 1 1/4 to 1 3/4; No. 2, 1 1/4 to 1 3/4; No. 3, 1 1/4 to 1 3/4; No. 4, 1 1/4 to 1 3/4; No. 5, 1 1/4 to 1 3/4; No. 6, 1 1/4 to 1 3/4; No. 7, 1 1/4 to 1 3/4; No. 8, 1 1/4 to 1 3/4; No. 9, 1 1/4 to 1 3/4; No. 10, 1 1/4 to 1 3/4.

Chicago Gossip. The market opened a shade higher, sold off nearly one cent from the high point. The Winnipeg market showed steady strength, as it was little or no demand. Locally there was little or no demand. The market shows ability to rally, and we are still inclined to advise the long side on weak spots, preferring the July delivery.

Confidence in Porcupines Is Definitely on the Mend. Dome Extension the Star Performer in a Generally Buoyant Market—Silver Leaf Suffers Relapse. World Opinion. Thursday Evening, March 7. Dome Extension was the star performer in the market today. The extension of the mine was the subject of the mining exchanges today. Trading was of a fairly substantial nature in most instances, but not up to the record established on and on the whole the list accomplished nothing more than the maintenance of a firm range of quotations.

Porcupine Handbook. The inception of bullion shipments from the Porcupine District will bring the Northern Ontario gold mines before the spotlight of public opinion, and from all present indications the coming spring will witness a material revival of interest in the operating companies of the camp. The Porcupine Handbook presents a ready method of tracing the result of developments at the mines and prospective mines, and will prove a decided acquisition to the library of everyone interested in mining in this Province. It will save you to get a copy. PRICE, 25 CENTS, POST FREE. ILLUSTRATED, MAPS, ETC.

BUY AT MARKET GREAT NORTHERN BUY AT MARKET. March 6th Great Northern sold at 101-2 cents per share. We believe it will be in demand at 20 cents in the near future. Buy now for big profits. INVESTMENT EXCHANGE CO. 58 COLBORNE ST. TORONTO, ONT.

MYSTERIOUS BULGE IN TRADERS' BANK STOCK

Local Street Kept Guessing by Nine Point Rise--Toronto Market Apathetic.

World Office, Thursday Evening, March 7. The recent upward movement in Rio in the Toronto Stock Exchange and the relative buoyancy shown by some of the other issues had evidently exhausted all the acumen of the bullish interests for the time being. This is the market to-day dropped back again to the rut of apathy and on the whole made no progress. Trading was generally on a low plane and showed little initiative. Closing prices were in the main comparatively unchanged from last night.

Rio Moves lethargically. Rio did not succeed in getting up to the previous day's high point, but on the other hand, neither did the shares decline to the low level of yesterday. The price range for the day was 117 1/2 to 118 1/4, and at the close the best bid was at the former figure. Some scattered profit-taking was observed, but the market took care of itself without any apparent difficulty.

Bank Rate Unchanged. LONDON, March 7.--The rate of discount of the Bank of England remained unchanged at 3 1/2 per cent. to-day.

WALL STREET POINTERS

Bank of England rate unchanged. London despatches say there is hope for settlement of coal strike next week.

Government rests in beef packers' trial.

Anthracite coal operators reply to miners' demands will offer no compromise.

Attorney-General Wickham orders that investigation of activities of Standard Oil in manipulation of subsidiaries.

Iron and steel markets more active with new business light, but producers optimistic.

Copper market strong, with good demand from abroad.

Pittsburgh Railroad Co. to buy 200 steel cars and extend plant.

OPTIMISM EXTANT

Charles Head & Co. to J. E. Osborne: Railroad earnings show up better, which may explain the more optimistic feeling regarding shares of the leading systems. Amalgamated Copper was actively bought, on talk of an increase in the dividend rate to 4 per cent, the metal situation being decidedly favorable. It looks as if the rise would go further, as the short interest is still large and the big interests more disposed to foster a spring advance. We would discriminate in favor of the better class issues, taking advantage of all recessions to purchase.

W. E. FLEWELL, President. J. W. KINLIDY, General Manager. Z. A. LASH, K.C., Vice-President. E. R. WOOD, President.

Wall Street Sentiment Ignores Unfavorable Status of News

After Early Period of Dulness, Stock Market Hardens--Sharp Advances Shown in Special Instances.

NEW YORK, March 7.--Early dulness and irregularity, followed by greater activity and a pronounced hardening of prices which sent some of the active issues to the highest level of the present movement, summarizes to-day's operations on the stock exchange. So far as could be learned none of the day's developments was directly responsible for this change. News from abroad respecting the British coal strike was virtually unchanged. At the outset there was a disposition to view the general situation with more discouragement, one of the adverse factors being found in the announcement that the government at Washington purposes to institute fresh proceedings against the Standard Oil Company because of the alleged attempt of that corporation to acquire some of the larger independent companies in the southwest.

Business on the Mend. As an offset to these conditions, it became evident in the dulness of yesterday's market that stocks were pressing for sale. Outside of the financial district there is evidence that business is on the mend, especially in the west and southwest. This is demonstrated in part by more liberal offerings and acceptance of commercial paper. The steel trade is the most backward of all this condition, it is said, being confined in the "unfilled tonnage" figures for February, which the U. S. Steel Corporation is to issue on Saturday.

ON BARGAIN COUNTER. C. I. Hudson to J. G. Beatty: We will, at times, have reactions but I will make a prediction that before the year is out, stocks of all kinds will sell very high. The fact is that really favorable signs outweigh the unfavorable, and shrewd people have been quietly picking up the bargains. At 89 U. S. Steel is very cheap, if we are to see any further expansion in business. The grangers also have good possibilities, if early promises of the crop come up anything. The grangers have generally led any bull market that we have had.

STEEL TRUST HOLDS \$50,000,000 IN CASH

The actual cash holdings of the United States Steel Corporation at the present time are around \$50,000,000, which is only slightly below the average since organization. At times the corporation held more than \$75,000,000 cash, but this was during periods of large earnings of the last few months. The proportion of the corporation has been comparatively small, and no new high record in the matter of actual cash on hand can be expected.

NO DIVIDEND ON CANNERS COMMON

HAMILTON, March 7.--The annual meeting of Dominion Canners, Ltd., held here yesterday, was characterized by the same secretive policy as has marked the progress of the company since its inception. No details of the financial report were obtainable, tho it was stated that the year's operations had shown an increase over the preceding period. The election of officers resulted as follows: D. Marshall, M.P., chairman; S. Nesbitt, M.L.A., vice-president; R. L. Innes, secretary; W. P. Innes, treasurer; Directors: W. P. Innes, E. Simons, N. Dunn, Strathroy, T. E. Owens, Bloomfield, G. P. Grant, Toronto; A. H. Mackenzie, Montreal; H. W. Richardson, Kingston, and the officers.

STEEL ORDERS WILL SHOW FAIR INCREASE

NEW YORK, March 7.--Contrary to general expectations, unfilled tonnage of U. S. Steel Corporation for February will show an increase over January of from 50,000 to 75,000 tons. It has been generally estimated that tonnage would show a decrease of from 50,000 to 100,000 tons. For the current quarter a small surplus, perhaps less than that last reported, will be earned for Steel company. Statement is expected to be published Saturday. The earnings are expected to be near \$23,000,000. Carnegie Steel Co. has sufficient business to keep it busy.

Local Bank Clearings.

This week's local bank clearings were as follows: Last week \$23,233,589; Last year \$23,233,589; Two years ago \$21,213,653.

Bank of England Statement.

LONDON, March 7.--The weekly statement of the Bank of England shows the following changes: Total reserve, decrease £1,555,000; Circulation, increase £34,000; Deposits, increase £1,117,000; Other deposits, decrease £2,574,000; Public deposits, decrease £1,831,000; Notes reserve, decreased £1,831,000; Government securities, unchanged. The proportion of the bank's reserve to liability this week is 44 per cent.; last week it was 45 1/2 per cent.

Tractions in London.

The South American traction stocks were active as follows: The London market (Canadian equivalent) Rio de Janeiro 114 1/2 @ 115 1/2; Sao Paulo 100 @ 114; Mexican Power 79 1/2 @ 80; Mexican Tram 114 1/2 @ 115 1/2; Mexican P. bonds 92 1/2 @ 93 1/2; Rio bonds 102 1/2 @ 103 1/2.

BUSINESS MORTALITY ACROSS THE BORDER

The number of commercial failures across the border in February, 1912, reported by R. G. Dun & Co., was greater than in the corresponding month of any previous year, with the exception of 1908. The total of liabilities amounted to \$21,477,923, a sum which has been exceeded in February in only two years, namely, 1910, when the amount was \$27,484,829, and in 1908 when the amount was \$27,064,571.

FEBRUARY FAILURES EXCEEDED LAST YEAR

Commercial failures in Canada as reported by R. G. Dun & Co. continue to fall well below the average, although being considerably above the unusually light mortality in the early months of 1911. During February, there were 148 insolventcies with an aggregate indebtedness of \$663,028, against 108 suspensions with liabilities of \$299,804 in the previous year, 142 for \$1,789,067 in 1910, and 156 for \$1,059,574 in 1909. In manufacturing lines the number of defaults last month was practically the same as in the two years immediately preceding. In respect to the sum of money involved, 108 concerns reported bankrupt owing only \$451,484, whereas in the previous year the indebtedness was a most identical \$451,484. In the insolventcies there were fewer by 30 in number.

Pulp at New Record in Montreal Market

MONTREAL, March 7.--Several stocks showed small gains to-day and the general tone of the market was firm, altho the amount of business done continued very small. The largest gain of the day was scored by Laurentide, which climbed to a new high record of 17 1/2, holding 1/2 point over the previous day's price and its old record in the last transaction. At present level, Laurentide is selling 32 points over its low of the year, and at the equivalent of 35 1/2 for the old shares of the company. Price changes of the day were small, with more in the nature of gains than of losses. The bank stocks were unusually quiet, only thirteen shares changing hands.

MONEY MARKETS.

Bank of England discount rate, 3 1/2 per cent. Open market discount rate in London for short bills, 3 1/2 per cent. New York call money, highest 1/2 per cent. Lowest 2 per cent. Duke Censured by Moral Reformers

Sanction Given to Sunday Sports of Fends Ottawa Presbytery. OTTAWA, March 7.--The social and moral reform committee of the Ottawa Presbytery is out with a strong criticism in its annual report, directed at the Duke of Connaught. It is worded: "Sabbath observances have received a blow in our city and the Dominion through the head of our Dominion giving by his presence sanction to sports at Rockcliffe Park on the Lord's Day. He cannot not be a Puritan, yet there is a large and important part of the nation over which he presides who believe in a day free from the common run of life, and as he would not willingly hurt the religious susceptibilities of the Hindus, he might at least care for the conscience of feeble fellow-Christians."

GOLF IN UNITED STATES.

Estimate of Enormous Cost of Game Across Line. A golf enthusiast, with a mathematical turn of mind, has attempted to estimate the annual cost of golf to the United States. He calculates that approximately \$40,000,000 is expended each season in this fine outdoor recreation.

What the Mexicans Want

Here in Mexico we are every few days, being told that the people want this or that; the politicians keep their ears close to the ground and are sure that they are correct interpreters of the people's desire. But we are not so sure that any person knows what all the people of Mexico want. One might venture the opinion, however, that the great majority of sensible people here want a rest from the ceaseless din and turmoil caused by the politicians. They want a day free from the common run of life, and as he would not willingly hurt the religious susceptibilities of the Hindus, he might at least care for the conscience of feeble fellow-Christians."

Duke Censured by Moral Reformers

Sanction Given to Sunday Sports of Fends Ottawa Presbytery. OTTAWA, March 7.--The social and moral reform committee of the Ottawa Presbytery is out with a strong criticism in its annual report, directed at the Duke of Connaught. It is worded: "Sabbath observances have received a blow in our city and the Dominion through the head of our Dominion giving by his presence sanction to sports at Rockcliffe Park on the Lord's Day. He cannot not be a Puritan, yet there is a large and important part of the nation over which he presides who believe in a day free from the common run of life, and as he would not willingly hurt the religious susceptibilities of the Hindus, he might at least care for the conscience of feeble fellow-Christians."

Technical Education

Prof. Kemp, of the chair of Columbus University, and the American Institute of Engineers, took the place of Douglas, who was unable to attend at the Empire Club. He contrasted the problem of technical education with that of the engineer. He pointed out that the early stages of technical education should be given by the parent, and that the young man should be trained in the practical aspects of engineering. He pointed out that the young man should be trained in the practical aspects of engineering. He pointed out that the young man should be trained in the practical aspects of engineering.
