

ARMY AND NAVY ARE A GREAT ECONOMY

Rev. T. Crawford Brown Tells 48th Highlanders That the Militia is a Force for Peace and Industrial Development, and an Inspiration for Virile Manhood.

"Peace and War" was the subject of Rev. T. Crawford Brown's sermon to the 48th Highlanders, who paraded 498 strong to St. Andrew's Church, West King street, Sunday morning, and occupied the whole floor of the auditorium.

The sermon of Rev. T. Crawford Brown, who is chaplain of the regiment, was virtually a reply to those who condemned the upkeep of a militia on the grounds that it weakened the productive capacity of a nation and resulted in burdensome taxation.

Canada's Obligations. The sense of being able to provide for its own security was a great asset to a nation, he declared. It gave virility to the manhood of a country and it produced a noble patriotism.

Democracy, Mr. Brown declared, had the weakness as well as its strength. There was a tendency in England today to level down, to refuse to respect distinctions and achievements.

Just Beginning!

Just Beginning!

—the most original and fascinating contest of "wit and brains" ever conducted in Canada. The object is to solve from a picture (see today's picture on this page) the proverb it represents. The first picture was published on Thursday, October 3rd. The last will be published on December 16th. If you missed the first four proverb pictures you can get them at the office of The World or by mail and enter the contest at once.

Here Are the Rules of the Contest

- 1. The Toronto World Proverb Contest is a test of skill and diligence, designed to encourage thought and research on the part of the young and provide a pleasant mental diversion for everyone. 2. Every day, for a period of seventy-five (75) days, there will appear in The Toronto Daily and Sunday World an illustration, cartoon or other representation of a commonly used and well-known English proverb. The Toronto World will award PRIZES AGGREGATING OVER \$5000 IN VALUE to readers of The Daily and Sunday World who send in the correct or nearest correct answers to the entire series of illustrations. The first proverb picture was published in The Daily World, Thursday, October 3rd. 3. The correct answers, to serve as a basis of awards, are being selected according to their common use by the Contest Manager, and three representatives of The Daily and Sunday World, and will shortly be placed under seal in a Safety Deposit Vault. 4. This list of correct answers will remain under seal until called for by the judges, whose names will be announced in due course, and who will have full control of the examination of the answers and the awarding of the prizes. 5. The correct answers are also included in The Toronto World's Book of English Proverbs, which is published as a guide and reference for contestants' use in the contest. 6. To compete for the prizes, contestants need only to supply the proverbs represented by the illustrations that will appear daily, and send in their answers, at the close of the contest, according to the rules. The person sending in the correct or nearest correct list of answers to the entire series of seventy-five (75) illustrations will be awarded the first prize. The person sending in the second nearest correct list of answers will receive the second prize, etc. Entry may be made at any time before the contest is entirely closed. Rules follow: a. Each picture represents only one proverb. Where contestants are not certain as to the correct proverb represented, they will be permitted to send five (5) answers (not more) to each proverb illustration. If the correct answer is given, in correct answers will not count against a contestant. 7. Only one answer may be written upon a single coupon. Extra coupons must be used for additional answers, and all coupons of the same number must be kept together in making up the set. 8. Different members of a family may compete in the contest, but only one prize will be awarded to any one family or household, and only one set of answers will be accepted from any individual contestant. 9. Answers must not be sent in until the last proverb illustration has been printed. After the last picture has been printed, contestants must arrange their coupons in numerical order, fasten them securely together and deliver or mail them in a neat, flat package (not rolled or rolled, plainly addressed to the Contest Manager, The Toronto World, Toronto, Canada, within the time specified in the following rule. 10. The time of receiving answers will have no effect upon the awarding of the prizes with the exception of the prize which will be delivered at the office of The Toronto World or bear postmark of mailing of not later than midnight, December 28, 1912, twelve days after the last or 75th picture is published. 11. The prizes will be awarded to Toronto Daily and Sunday World readers sending in the correct or nearest correct set of answers to the entire series of seventy-five (75) Proverb Illustrations. 12. In the event of a tie between two (2) or more persons, the contestant sending in the nearest correct list of answers with the least number of coupons will be declared the winner. Where two (2) or more contestants submit the same number of correct answers upon the same number of coupons the value of the prize or prizes thus tied for will be equally divided among those tying. 13. In making the awards, the judging committee, whose names will be announced in due course, will take into account the similarity and exact wording of the proverb answers as selected by the Contest Manager and three representatives of The Daily and Sunday World, and as contained in The Toronto World's Book of English Proverbs; spelling, wording, punctuation, and the correct construction of the proverbs are the essentials that will be graded. 14. Where a set of answers is securely fastened together the contestant will be permitted to stamp (with rubber stamp) or abbreviate his or her name on the space allotted for same, and omit the full address from the greater majority of the blanks. PROVIDED THAT SUCH FULL NAME AND FULL POST-OFFICE ADDRESS IS plainly and distinctly written upon the FIRST SIX AND LAST SIX BLANKS of the set. 15. In sending in the answers at the close of the contest it is important that contestants seal all packages containing answers, and if mailed, contestants should exercise great care to see that postage is fully prepaid at the rate of one cent per ounce, or fraction thereof, in Toronto, and two (2) cents per ounce, or fraction thereof, outside of Toronto, as The Toronto World is not bound to pay postage due on any set of answers. 16. GIANTS AND SOX PLAY TOMORROW

Boston Resting Up Today and New York Playing Practice Game With Highlanders.

NEW YORK, Oct. 6.—Mixed in the usual daily throng of arrivals, a scattered group of visitors from the first of the world championship baseball games between the Boston Red Sox and the New York Giants reached the city today.

The big show may be said to begin at nine o'clock tomorrow morning, when the nine grounds will be the scene of a scramble for the first chance at the 4000 reserved seats, which are all that are to be placed on public sale in advance of the games.

Conspicuous among the day's arrivals were a number of prominent baseball writers from major league cities and smaller places of whom in all there are expected to be over 200, including telegraph correspondents.

The players, upon whom all eyes will be focused, spent the day in relaxation from their regular season's work, which closed yesterday.

The Boston team returned from their quarters in Boston during the night, after conducting the series in Philadelphia and the Giants spent the day in idling in New York.

The latter will have a practice game in an exhibition against the New York Americans at the Polo Grounds tomorrow for the exclusive benefit of the support of the visiting Atlantic team.

The Boston team will take a little warm-up work at Fenway Park in the morning and take an afternoon train for Philadelphia for the opening game on Tuesday afternoon.

Varsity Wins Monday Defeats McGill

Toronto Students Superior in Every Department, Especially Behind the Line—Great Crowd in Attendance.

That Varsity has a back division which can kick, catch, run and pull off trick plays was in evidence at the stadium on Saturday afternoon, when the Blue and White senior football team defeated McGill by the score of 25 to 13.

The Varsity rear guard was always consistent and efficient, and the victory may largely be attributed to their efforts. Maynard, Cunniff, Quarter and Campbell proved a great quarter and ground-gainers and showed real ability in every department of the game.

The Varsity wings had a hard tussle all afternoon, and held their own with the heavier McGill line. At times when it was most needed they displayed ability to both back and stop the plunges of their opponents.

But one great weakness was in evidence. The wings were slow in getting down the field with the ball, and hence Varsity did not get the full advantage of the quantity of Maynard and Quarter.

Practically every seat in the grand stand and bleachers was occupied, and it is estimated that the crowd numbered 8000 people. The Varsity players were in the opening game of the season. The Varsity rosters were out, 200 strong, and went to the stadium for the opening game of the season.

THE HIGHEST PEER IN THE REALM

DAVIS' "NOBLEMEN" CIGAR (2 for 25c)

has convinced most smokers in this country that it is the highest peer in the realm of two-for-a-quarter cigars. There is a community of two-for-a-quarter smokers, because millions of "NOBLEMEN" are smoked annually. It is a mixed community, too, because "NOBLEMEN" is smoked alike by the millionaire and the wage-earner.

"NOBLEMEN" is clear Havana, Cuban made, embodies the experience of fifty years, and is sold at half the price of imported brands.

These are the chief reasons why "NOBLEMEN" has been elevated to such a noble position in the cigar world.

MONDAY MORNING, OCT. 7, 1912

A CLEAN-CUT ISSUE.

Let us not lose sight of the issue involved in the recent action of the Canadian Pacific Railway Company. Financial experts may talk learnedly about debentures, fixed charges and hidden assets and appear to prove almost anything by an array of figures and technical terms, but the fundamental facts underlying the melon cutting can be stated in every day English and in a few words.

Now we take it to be a self-evident proposition that no public utility corporation has the right to burden its plant and its earnings with a stock or bond issue, unless all the money intended to be raised thereby, is necessary for the undertaking.

Now it is also self-evident when a railway company raises money, either by a stock or bond issue, that all the money so realized must be put into the undertaking. The Canadian Pacific Railway for example would have no right to borrow \$100,000,000 on a mortgage and devote one-half of that sum to railway purposes and the other half to foreign missions.

But to those familiar with high finance the melon is modest indeed. Of the 25,000 stockholders of the C. P. R., some 23,000 are foreigners and the Post says:

"To get future money readily it is advisable for the company to retain a reputation for fair and even generous treatment of its shareholders. Such a reputation has made it easier for other Canadian corporations seeking foreign funds."

Any sum of money raised by the company either by a bond or a stock issue is impressed with a trust and must be devoted to the undertaking and to increasing the efficiency of the plant and to making more economical its operation.

The government of Canada and the Canadian Pacific Railway Company are joint partners in this enterprise. What would be thought of a partner who borrowed \$15,000,000 on a partnership plant and put \$10,000 to the credit of the business and gave the other \$5,000 to his wife, or son, for spending money?

It is clear from the development of the plans of the Electrical Development Company and its associated interests that they are very much more alive to

the importance of Greater Toronto than the city council has been for several years past. Many theories have been advanced why the Toronto Railway Company would not extend its lines into new city territory.

The new transmission lines of the Toronto Power Co. is to curve round the northern suburbs, and a large part at least of the strenuous opposition to the annexation of the northern territory must be attributed to the influence of the electric interests, anxious as they are to anticipate and supplant the hydro-electric system in such a lucrative and tempting territory.

We cannot but deplore the fact that the city council, and some aiders and abettors of the city council in petty politics, do not appreciate the future of Toronto as the corporations do.

If the corporations do get ahead of the people, it is very largely the fault of the people's representatives. While all these things are going on, there is no adequate legal adviser at the city hall to protect the people's interests, and the mayor himself, it is understood, blocks the way to any appointment of a man who would scarcely be described, even by himself, as first-class.

Now it is also self-evident when a railway company raises money, either by a stock or bond issue, that all the money so realized must be put into the undertaking. The Canadian Pacific Railway for example would have no right to borrow \$100,000,000 on a mortgage and devote one-half of that sum to railway purposes and the other half to foreign missions.

Dividend From Ontario Bank

Double Liability Call Brings in \$1,400,000—Payment Withheld in Year.

There is a likelihood that a dividend will be paid to the Ontario Bank shareholders within the next year.

## WHEAT MARKET TURNS HEAVY AT WEEK-END

### Chicago Pit Ignores Higher Foreign Markets and Declines Steadily—Balkan Situation Less an Influence—Corn and Oats Lower.

CHICAGO, Oct. 5.—Heavier receipts northwest had a bearish effect to-day on wheat. The end of the day left the market depressed, varying from 1-8c to 1-16c under last night. Corn finished 1-8c to 1-16c down, oats off 1-8c to 3-8c and provisions trading from unchanged figures to 12 1-2c below.

Not only were the arrivals at spring wheat centres more liberal than of late, but country sales increased, and there was said to be active hedging in consequence. The Corn in wheat movement showed signs of becoming brisk. All this took attention from war talk and tended to pull down prices. A moderate rally came about as a result of ascertaining that exports had bid higher at Omaha. There was some comfort also for the bulls owing to predictions of rain or snow in the Dakotas and because a large part of the receipts northwest showed poor quality. No leading influence, however, was exerted, the market slipping down lower than before.

In corn an early speculative bulge gave way to weakness, due to fine weather and to the slowness of cash demand. The down turn in wheat counted further against the bull side. Free selling by commission houses weighed on the oats market. Plenty of receipts on the part of holders brought about an easy feeling in provisions.

### Northwestern Receipts.

Receipts of wheat northwest points, with usual comparisons, follow:

	Today, aro. ago.	Week Year
Chicago	338,396	338,396

Duluth	338,396	338,396

### Foreign Markets.

The Liverpool market closed bid to 3rd higher, wheat and 3rd higher on corn. Antwerp wheat closed bid higher, Berlin 3c higher, Budapest 3c higher.

### LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, Oct. 5.—The market opened with a firm undertone and prices 1/4 to 1/2 higher, and following the opening further advanced 1/4 to 1/2, with December leading the advance. The strength in America and the advance in both American and Canadian offers, together with a further apprehension regarding the Balkan situation caused the covering of Paris to open up and cargoes in good demand, with the continent bidding freely, and predictions are for smaller American shipments this week. Recent arrivals have been largely absorbed and stocks about but a small or disappointing increase. At the close the market was very firm with weak-end covering, and prices 1/4 to 1/2 higher. The bulk of the butter would sell around 32c to 33c per pound.
