

BERNIER AGAINST TARTE

Continued From Page 1.

question, evidently inspired by the Minister. La Patrie says: "The Globe, The Herald, The Winnipeg Free Press and The Halifax Chronicle are demanding a reduction of the tariff. Have they fully reflected on the consequences of their attitude. In 1897 a revision of the tariff took place. It is useless to play in words or to disguise the truth. The readjustment for which the Liberal party is responsible was simply so to speak to put in better order the already existing tariff. There were some reductions, but there were also increases. The Liberal party, realizing the impossibility of adopting free trade as a policy, understood the necessity of creating an upheaval. The results of the policy adopted in 1897 have been excellent and fruitful. Any attempt to lower the tariff is simply out of the question. It would be the ruin of the country. We urge our friends not to follow the shortsighted attitude of a number amongst whom I should include during a discussion which should not be marred by the violence we have witnessed. The Government should employ public men strong or powerful enough to destroy the immense interests engaged in the development of our industries and manufactures, interests which are intimately bound up with the interests of our farmers and laborers. Not only can the tariff not be lowered, but it has been demonstrated that reform to increase it at certain points to destroy our own, as Mr. Peilding so well said in his last speech. The Government take account of the attitude of other countries. The United States and Germany are not going to give up their tariffs, while they shut us out from theirs. If we would continue to be a nation of affairs to continue we shall arrive at no other result than a financial and industrial catastrophe. It is our duty to do that to adopt as our watchword the patriotic device, "Canada for the Canadians."

NO SYMPATHY WITH RIOTERS.

Philadelphia, Pa. American: The strike in anthracite mines has been mentioned repeatedly by those who believe their cause to be substantially just by resorting to violence and intimidation that may cause general economic distress. It is not possible for the public sympathy which is indispensable to their success to be directed to the strikers who assault a non-union man, who most of them are ignorant of the labor law, and he is pleased with their manner. The strikers themselves do not make any effort to suppress the lawless behavior. They have developed suddenly in hitherto remarkably quiet districts. They will forfeit the support which has been given to their cause for the last four months which they have spent in the streets. The coal combine's whole plan of campaign is to cause a general economic conflict with the state, and thus obscure the real cause of the strike. ALMOST A HAY FAMINE.

Good Timothy Hay for \$18.50 in Toronto.

The Province of Ontario from one end to the other has harvested this season one of the largest crops of hay ever known in its history. But right here in the city there is such a scarcity almost to amount to a famine. Good Timothy hay sold on the market yesterday at \$18.50 per ton. The local demand for hay is so great that it is difficult to get any. Car lots of baled hay are scarce and hard to get. Farmers have been so busy gathering in the harvest that they have had no time to bale their hay.

CANADIAN COTTON LOSSES.

Companies Claiming for the Production of Higher Tariff.

New York, Sept. 26.—Cotton manufacturers are claiming for increased tariff protection. R. R. Stevenson, sales agent, today that the Dominion Company had \$32,000,000 worth of cotton. PUBLIC OWNERSHIP AND THE FARMER.

The friends of public ownership are many of them mere expressionists. They do not favor doing anything when it is practical, or where the principle is at their own doors.

Sir William Mulock recently made a deliverance in favor of public ownership in New York and got great credit therefor in the American press and also in the Canadian press.

The citizens of Toronto have declared on two separate occasions that they desire to exercise the right to take over the gas works in this city, now owned by a private corporation, known as the Consumers' Gas Company.

Mayor Howland knows this to be the case. Mayor Howland at the present moment finds himself compelled to do something in regard to the scarcity of anthracite coal, and he proposes that the city should establish municipal fuel piles. This may or may not be good policy, but the one practical thing in the direction of public ownership and the one thing that would substantially lessen the fuel bills of the citizens of Toronto is public ownership of the gas plant and the production and the sale of gas to the citizens for 50c a thousand cubic feet, which public ownership would undoubtedly confer upon the city.

There is no doubt of the fact that gas can be made and sold for less than 50c a thousand. Public ownership would do it. Why doesn't Mayor Howland come out for placing Toronto in a position independent of labor strikes in the United States? American coal is not needed for the manufacture of gas. Soft coal is, and we have an abundance of soft coal in Canada, and all the other materials needed in the manufacture of fuel gas are convenient to the city. Ten times the amount of gas now used in Toronto would be used if it was 50c a thousand instead of 90c as at present. It could be largely used for the production of power, and thus be a competitor of electricity.

The Globe newspaper professes to be in favor of public ownership and the municipalization of franchises. If the Globe newspaper is in earnest, if Mayor Howland is in earnest, and above all, if Sir William Mulock is in earnest, public ownership of the gas plant in Toronto can be realized in twenty-four hours. But Mr. Ross, the Prime Minister of Ontario, and Col. Gibson, the Attorney-General, must assist in the movement. They must tell the Gas Company that, as they have not carried out the agreement with the city, legislation will have to be passed forcing it on them. As we said before, none is in such a position to realize public ownership in connection with the gas plant in Toronto as Sir William Mulock. He knows all the internal workings of the company, and how the special legislation was obtained in the interests of the company. He knows, or he ought to know, why the Attorney-General refused to make any move in the public interest in connection with this matter.

We ask the citizens of Toronto who fear a coal famine and who fear being at the mercy of the coal strikes and labor difficulties and transportation companies in the United States what they think of municipalizing Toronto's gas plant and securing 50c gas for light, power and fuel.

It is the easiest way of realizing the principle of public ownership we know of. It is right at our doors. Some body has so far prevented it. Who is that somebody? Why is he not unmasked? Why is not the well-versed wish of the people of Toronto in favor of it not realized? This is practical politics, and it comes to the people of the city of Toronto, to every representative man, and to every representative newspaper that professes to be guardian of the public interest. Let us read all this academic talk of public ownership and let us see where we are in its practical application to ourselves in connection with the gas plant. Would you, as a ratepayer, not like to have an abundant supply of a first-class fuel gas for fuel, light and power at 50c a thousand? If you would, make the public man and the newspaper and the aldermen stand up and confess where they are.

slaughter of cattle and by the economical use of the ofal. As Minister of Agriculture and as member of a cabinet whose main object should be to look after the farming interest in this province, we think these gentlemen are bound to investigate the situation. In fact, it would not be a bad idea if they were to appoint a commission to investigate the question and show that they really do take an interest in the welfare of the Ontario farmer. Such a commission ought to be able to reach a definite conclusion in four weeks. It does not take a live man long these days to size up a business proposition.

What has Mr. Dryden to say to this suggestion? The responsibility is on him, and if it is necessary for the Ontario government and for the legislature in the interest of the farmer to make a move in the matter, then they ought to do it. In the meantime the City Council is bound to back up City Commissioner Coatsworth's report and increase the facilities of the cattle market that we now have in the west end.

In another column of this issue our readers, who have been following this discussion, will find a letter from Mr. Webb, the English cattle dealer, who is now in this country, and who has several times explained that one of the principal reasons for the difference in the price of prime cattle at Toronto and Chicago is the careless way in which we handle the by-products. Mr. Webb's letter of this morning is well worthy of perusal. Whether the difference in price is as great as he says or not we cannot say. The farmer himself is a better judge. But certainly Mr. Webb is able to show that with better handling of the beasts and the ofal the farmer ought to get better prices. Mr. Dryden is bound to consider what Mr. Webb says, and he is bound by the duties of his office to take it, to rectify the trouble. He need not stop at the question of expense. The farmers of Ontario are entitled to have a fair portion of the revenue of the province directed in their own interest. If it is a small commission of practical business men can reach some plan of reform that will lead to the centralization of the meat trade of this country Mr. Dryden ought to appoint such a commission. Or if it should be necessary for the government to establish stock yards or assist the City of Toronto in establishing them, it ought to do it. As Mr. Webb points out they are not doing it for the city so much as for the farmer who breeds stock. It is up to Mr. Dryden to find a way of centralizing the cattle trade here so that the Canadian breeder will get just as good a price for his finished cattle here as the breeder in the United States can get for his in Chicago. In fact, seeing that Toronto is 600 miles nearer an ocean port than Chicago the Canadian breeder ought to obtain more than does his rival in the Western States. The president and executive of the Board of Trade might well look into this question if they desire to see the business of Toronto greatly increased.

In the meantime Toronto can make no mistake in improving its cattle market. If Toronto is to hold the trade that it now has it must enlarge the present cattle market. There is only one way to do this, and that is by taking in part of Stanley Park. The plans that Mr. Coatsworth has brought forward will give the increased accommodation without any disfigurement of the streets of the locality, will not interfere with the park area of the city and will be a substantial contribution toward building up Toronto's business. The sentimental reasons that have been advanced against the extension of the cattle market in this way must not count in the matter. Notwithstanding all we have said that Mr. Dryden ought to do, or that the government ought to do, it is certainly the duty of the City Council to realize Mr. Coatsworth's plan at the earliest possible moment.

ALBERTA CATTLE FOR THE EAST. G. P. Ashe of Alberta marketed 44 head of 1394-lb. cattle at \$5.75 yesterday. These Canadian cattle are coming pretty good but duty is an ever present handicap to marketing any but the best.

This little item from the Chicago Live Stock World of Sept. 18 contains a moral or two. It shows for one thing that they can raise good beef cattle out in Alberta, for cattle must be good to stand such a long haul, pay the heavy American duty and still net the owner a profit; and for the purpose of this argument it must be taken for granted that the shipper would not take his cattle to Chicago unless he could see his way to making a profit on them.

But the important deduction to be taken from this particular shipment is that if Alberta cattle dealers can, after paying the United States import duty, afford to sell in Chicago, these same animals should more easily and with better results be brought to Toronto. And, what is more, it would pay the Canadian Pacific Railway to grant Albertans such freight rates on cattle for Toronto as would lead the western Canadian to ship their spare animals over that company's line to this market. Alberta cattle have recently been received on the Toronto cattle market, and this phase of the trade should be developed.

PULPWOOD, WOOD PULP AND PAPER.

Since the Washington government raised the tariff against Canadian wood pulp, The World has devoted attention to the apparent unwisdom of Canada allowing the United States to utilize Canadian raw material in building up American industries—especially when the said United States makes tariff regulations designed to kill Canadian enterprises. As a matter of fact, does the Canadian paper, or pulp, or pulpwood industry depend upon the goodwill of the Yankee? Is it not a more reasonable proposition that the United States paper industry depends to an extent at least upon the Canadian pulpwood forest? A British journal, known as The Paper Maker, recently published an editorial bearing upon the relationship existing between Canadian pulpwood and American paper; and this English paper advises Canadians to manufacture their own pulp and paper for the British market. The Paper Maker says:

"The visit of representative manufacturers to Lord Strathcona is a step which ought to bear fruit in the relations existing between Canadian paper-makers and British machinery manufacturers. Some few months ago we were discussing the question of Canadian tariffs, and pointing out to the British manufacturer the duty of Canada, instead of being about trifling alterations in both directions, is a strong stand in the direction of preventing the export of pulpwood to America. The world which favors protection which would allow its raw material to be carried a few yards across its border, the finished product to be returned again to compete with its own manufacture. Canada ought to—and probably will within a very short period—make it impossible for this competition to exist, and, as a natural consequence, it will go one step further, and, in addition to sending over to us very large quantities of half-stuff, will make a greater proportion of paper and sell the finished article."

Is it not a fact that we Canadians, in allowing the American paper manufacturers to denude this country of its valuable raw material, and in thus enabling them to compete with us in the world's market, are pursuing a suicidal policy? Hundreds of thousands of cords of Canadian pulpwood are annually going into the United States, for which, perhaps, \$4.50 or \$5 per cord is left in this country, whereas, were the paper manufactured here, and were a market found for it, the same amount of wood would realize to Canadians between \$25 and \$30.

RELIGION AND THE LABOR PROBLEM. United States Commissioner Carroll D. Wright, who represented President Roosevelt in an investigation of the anthracite coal strike, has after a thorough study of the labor problem, from the most favorable vantage points, come to the conclusion that only in religion will his solution be found. Many a treatment of man is the measure of his advancement, says Mr. Wright, perhaps, believes that the relations of capital and labor must be worked out thru the domination of an altruistic religion in industry and commerce. The golden rule that man should do as he would be done by, when it comes to be universally observed, effect the abolition of strikes and lockouts; the general permeation of society by the Christian spirit of altruism will bring in a new era for both employers and employed.

An Important Subject. Ignorance is no excuse in the eyes of the law, and a man's business to know certain things, and he is punished for not knowing them. If a man fails to act upon his knowledge of such things, even though he is well aware of his neglect, he is liable.

Have you carefully considered how your family will be left in the event of your sudden death? Do you live in the way you have kept them should you be called to your account? If it is your duty to do so, you will, and the fact that you never thought of such a thing will not avail you in the event of your death.

Examine into your position carefully and if you find that your dependents are not amply protected act upon such knowledge and apply for a policy in the Imperial Life Assurance Company of Canada, Toronto. The payment of a premium will create an estate for your dependents, which will take care of them in the event of your decease. With an Imperial policy in your strong box you need have no fear of the future.

MOUNT ETNA ACTIVE.

Toronto Also Sweeps Over a City in Sicily. London, Sept. 26.—A despatch from Rome to-day announces that a severe tornado had swept over Catania (a city on the east coast of Sicily). Catania is flooded, and many houses, including the cathedral, have been damaged. The railroads have suffered seriously. The tornado also swept havoc at Modica (40 miles from Catania, Syracuse), where several persons were killed. Mount Etna, a short distance from Catania, shows further signs of activity, and the Sicilian Strait off the north coast of Sicily, is still active.

Tale of a Dog.

Niagara Falls, N.Y., Sept. 26.—Roy Swartwood, father of little Cornelius Swartwood, who was drowned by hydrophobia, short time ago, will bring suit against the Niagara Falls Hydrophobia Commission. It is claimed that the dog that bit the boy was manured with a chemical which was waste chemicals deposited by the company in a run of a creek, and was raised and was so badly burned by the damped chemical used that it went mad. An experiment made with another dog in this manner sent it mad in four hours.

Murderer Commits Suicide.

Bridgeton, N.J., Sept. 26.—The body of a woman, who was drowned by hydrophobia, short time ago, will bring suit against the Niagara Falls Hydrophobia Commission. It is claimed that the dog that bit the boy was manured with a chemical which was waste chemicals deposited by the company in a run of a creek, and was raised and was so badly burned by the damped chemical used that it went mad. An experiment made with another dog in this manner sent it mad in four hours.

PRICE OF PROSPERITY.

We suffer more than did our grandfathers Who Pared Less Sumptuously. This is an age of luxury and self-indulgence. Prosperity has brought with it a disposition to take it easy and to live well, but results in the most unproductive of the men and women of to-day.

A LINIMENT FOR THE LOGGER

Loggers lead a life which exposes them to many perils. Wounds, cuts and bruises cannot be altogether avoided in preparing timber for the drive and in river work, where wet and cold combined are of daily experience, coughs and colds and muscular pain cannot but ensue. Dr. Thomas' Electric Oil when applied to the injured or administered to the ailing works wonders.

Blood Poison Cured Free

The Remedy is Sent Absolutely Free to Every Man or Woman Sending Name and Address.

The Illustrations Above Plainly Show What This Grand Discovery Will Do.

A celebrated Indiana Physician has discovered the most wonderful cure for Syphilis or Blood Poison ever known. It quickly cures all such indications as mucous patches in the mouth, sore throat, copper colored spots, chancres, ulcerations on the body, and in hundreds of cases where the hair and eyebrows had fallen out and the whole skin was a mass of boils, pimples and ulcers. This wonderful specific has completely changed the whole body into a clean, perfect condition of physical health.

William McGrath, 48 Guilford Street, Buffalo, N.Y., says: "I am a well man today, where a year ago I was a total wreck. Several doctors had failed to cure me of syphilis. I was rid of my sores and my skin became smooth and natural in two weeks, and after completing the treatment I was not a sore or plump on my body, and to-day I am absolutely well."

LEFT HOME TO DIE. Had Brother Send Him Away to Spare His Family. Detroit, Mich., Sept. 26.—Dr. George E. Metcalf, a well known veterinary surgeon, was buried to-day, a victim of hydrophobia. While treating a dog four months ago the animal bit one thumb. The doctor paid no attention to the wound, but last Friday he became ill, and symptoms developed, which left no doubt of the nature of the disease. Dr. Metcalf sent for his brother, Dr. W. F. Metcalf, and said to him: "There is no hope for me. All I wish is that you will take me away that my family may be spared the horrible sight, and that you stand by me until death releases me."

Through the entire eradication of Independent Forestry the most encouraging signs are beginning to be seen as the fall approaches. All the courts are feeling the social and financial effects of good times, and a lively campaign is already under way. The Wallacey of this city had a most successful meeting on Monday evening—music, vocal and instrumental, and a special issue of a new paper called "The Forester" formed the chief features of the program. The initiation of several candidates gave an opportunity for witnessing the beautiful ritual of the order.

Court Prosperity and Court Brook met Tuesday evening, Court Queen City Wednesday evening and Court Sherwood Forest Thursday evening. All of these meetings were well attended, and excellent and entertaining programs were carried out.

The Supreme Physician, Dr. Millman, continued to report the medical examinations received to be in excess of the same period last year. The Supreme Secretary, Lieut.-Col. McMillen, is at the Niagara Falls learning the very latest in drill and war tactics.

Election Trials To-Day. Judges Falconbridge and Street will try the election petition between Robert Bell of West Durham and Colborne and the petition against E. G. Porter of West Hastings at Belleville to-day.

REGAIN YOUR MANHOOD. There is Happiness in Vigorous Health.

You can have freedom from pain and again be given life energy and the vigor of youth if you wear Dr. McLaughlin's Electric Belt with suspensory for weak men.

Such Gratifying Reports as These Come From Everywhere:—JAMES LENNIE, 102 Lock Street N., Hamilton, Ont. I have used your Belt one month. I have gained five pounds; I sleep better, and that awful nervousness is gone.—JAMES LENNIE, 102 Lock Street N., Hamilton, Ont. I was troubled with indigestion. I now feel like a new man without a pain or an ache and have gained eight pounds.—CHAS. T. SMITH, Macville, Ont. I was not able to walk across the floor; now my rheumatism is entirely cured. Your Belt is a grand thing.—WILLIAM HASLET, Malton, Ont. The rheumatism is all gone now, as the result of using your Belt, which I wore regularly for three months.—A. MACHAN, Reston, Man. I have tried your Belt and it has proved satisfactory. I was troubled with a weak back.—E. BRYAN, Mountain, Ont. I also now sleep well.—JOHN NICHOLSON, Plantagenet, Ont. I am not advertising that I give my Belts away. I am willing to cure you before you pay me. All I ask is that you give me evidence of your honesty and good faith by offering me reasonable security. You may then use the Belt at my risk and

PAY WHEN CURED.

Beware of Imitations.—There are dozens of them, and the bait is always a supposed "FREE GIFT" or a Belt for a few dollars. Many who have been victimized by such offers lose faith in electricity, as the only result given them is a burned back (if they get any current at all). I have hundreds of these old burners that have been exchanged for money which I make no use of. I make no use of money. I make no use of my office and let me show you the difference and the pleasant sensation of a properly applied electric current.

FREE, FREE—I have a nicely illustrated book which every man should read. I will send it, closely sealed, free.

SPECIAL NOTICE.—I have the only electric appliance in which your case receives special attention of a practical physician, who has made a life study of electricity. The success of any electric appliance depends upon intelligent application. Agents or drug stores not allowed to handle my Belt.

Dr. M. O. McLAUGHLIN, 130 Yonge St., Toronto, Ont. OFFICE HOURS—9 a.m. to 8.30 p.m.

Public Amusements

F. C. Whitney will present the Grace Cameron Opera Company at the Princess Theatre for the first half of next week, in "A Normandy Wedding," a new comic opera by Cheever Goodwin and William Furst. This is Miss Cameron's first tour as a star, altho she will be remembered as having been the leading soprano with the Bostonians for three years, and was the prima donna of the "Foxy Quiller" Company for the past two seasons. In the company are many well-known and popular comic opera players, including Harry Brown, Genevieve Reynolds, Daisy McKim, Mary Cressy, Stephen B. French, William Herbert and Clarence Cook, ren together with a large chorus of pretty girls.

That most enterprising manager, William A. Brady, will be in evidence in this city soon, for one of the best plays under his control, Lottie Blair Parker's "Way Down East," will be the attraction at the Princess Theatre the last

half of next week. "Way Down East," as its title clearly indicates, is a play of New England life, yet its story is such that it appeals to the sympathies of theatre-goers everywhere. The fact that it has been presented 532 times in New York, 248 times in Boston, 190 times in Chicago and 100 times in Philadelphia proves this.

"York State Folks," the big rural drama to be presented at the Grand Opera House next week, has been staged in a way to strengthen its effect of realism. The scenes, which there are five, all from the studio of Arthur Voegtlin, are said to be the most artistic.

RAY L. ROYCE.

As Myron Cooper in "York State Folks" the mountings ever given a pastoral play. Two car-loads of scenery are utilized in the presentation, and the last detail of setting is given minute attention. The company numbers fifty people, including nineteen principals and a choir of thirty boys.

"The Man Who Dared," the melodrama in which the popular young actor and author, Mr. Howard Hall, is starring, will be presented at next week at the Toronto Opera House, commencing with a matinee on Monday.

Arthur and Jennie Dunn will be the lead actors at Shea's Theatre next week in a sketch entitled "The Messenger Boy." Mr. Dunn was last seen in Toronto in "The Runaway Girl." Miss Dunn, who in private life is Mrs. Ezra Kendall, has not been seen on the stage for four years. Her brother, who has Miss Dunn supported her brother in his vaudeville work, and he has succeeded

in getting her to play a few weeks in vaudeville before he opens under the management of Klaw & Erlanger on Nov. 10. Mr. Dunn is to star in "Huckleberry Finn," a creation of Mark Twain's. "The Messenger Boy" is very funny and ought to be the laughing hit of the show.

There are several bands traveling about the country, but the Duss organization, due in this city, is said to be the largest and most expensive gathering of musicians. Usually a touring band consists of thirty or forty people, and this one is accompanied by no less than sixty picked musicians, among them the choicest instrumental soloists of the Metropolitan Opera House of New York. The ordinary traveling bandman is paid \$30 a week, and a musician receiving \$40 or \$50 a week is considered a special artist. Duss pays his most insignificant players \$50 a week, and his special piece men—for instance, the Reiter brothers, who play the French horn, and Simon Bernstain, who performs on the chimes and kettle drums—receive as high as \$80 and \$100 a week. The band is to play at the Grand Opera House on Friday and Saturday evenings and Saturday afternoon. The sale of seats begins on Wednesday.

Manager Star of the Star Theatre has selected as the attraction for his popular house next week, the "Dainty Paree Burlesquers," who come here with the idea of having made a distinct success in other cities where they have appeared this season.

Fine Weather. Fine weather all the year round can be enjoyed in Bermuda and the southern islands. It is a fact, though not generally known, that the roads in these coral islands are as dry fifteen minutes after a rain shower as if there had been no rain. The ticket agent will tell you all about it. Bacterio Cumband, 72 Yonge Street.

Improved Service—No Increase in Fare. The addition of a dining car on an evening train from Toronto for New York has materially improved the service, but the fare remains the same and is no higher than other lines. Ask C.P.R. agents about it.

607 Persons Killed. Simla, Sept. 26.—Further reports received here regarding the earthquake in Eastern Tibet, lasting from Aug. 22 to Sept. 3, show that besides causing other damage, the town of Artush was reduced to ruins, that 607 persons were killed and that 1000 others were injured.

We have not advanced the price of our tobaccos. Amber smoking tobacco, Currey and Fair Play chewing tobaccos are the same size and price to the consumer as formerly. We have also extended the time for the redemption of Snocoshoe tags to Jan. 1, 1904. The Empire Tobacco Company, Limited.

One Volley Kills Four. Vienna, Sept. 26.—The Neue Wiener Journal announces to-day that, as the result of a revolt of peasants in the district of Baidobny, Hungary, the military were called upon to suppress the disorder, and fired a volley, killing four persons and wounding others.

Cures Weak Men Free

Send Name and Address To-Day—You Can Have It Free and Be Strong and Vigorous for Life. INSURE LOVE AND A HAPPY HOME.

HEALTH, STRENGTH AND VIGOR FOR MEN.

How any man may quickly cure himself after years of suffering from sexual weakness, lost vitality, night losses, varicocele, etc., and enlarge small, weak organs to full size and vigor. Simply send your name and address to Dr. Knapp Medical Company, 830 Hull Building, Detroit, Mich., and they will gladly send the free receipt with full directions, so any man may easily cure himself at home. This is certainly a most generous offer, and the following extracts taken from their daily mail show what men think of their generosity.

"Dear Sirs,—Please accept my sincere thanks for your recent date. I have given your treatment a thorough test, and the benefit has been extraordinary. It has completely braced me up. I am just as vigorous as when a boy, and you cannot realize how happy I am."

"Dear Sirs,—Your method worked beautifully. Results were exactly what I needed. Strength and vigor have completely returned, and enlargement is entirely satisfactory."

"Dear Sirs,—Yours was received, and I had no trouble in making use of the receipt as directed, and can truthfully say it is a boon to weak men. I am greatly improved in size, strength and vigor."

All correspondence is strictly confidential, mailed in plain sealed envelopes. The receipt is free for the asking, and they want every man to have it.

Fine Wall Papers

The success that has come to this department is ample justification for our adding wall papers to our other home furnishing stocks three years ago. Home furnishers appreciate the opportunity to select papers that will conform with the carpets, curtains and other furnishings they are buying for the home. Real art in our beautiful English, French and American wall papers.

- In Wall Papers we deal specially in exclusive things. The new goods include a lot of English Wall Papers, everyone a distinct art treasure. Prices for our papers range from 10c to \$6.50 a roll.

First in Art Pottery

The little odd and ends—an artistic piece of pottery—a dainty piece of bric-a-brac—how far these things go to make the home beautiful. You find them here in our large assortment of pottery and ornaments.

- We can say unreservedly that our stock of Art Pottery has no equal in Canada—goods purchased from the largest and best factories throughout the world—and specialties will be arriving right along until November.

JOHN KAY, SON & CO LIMITED

"CANADA'S GREATEST HOMEFURNISHERS"

FIRST IN THE EYES OF HOMEFURNISHERS

It is always so that some one individual—some firm—stands out peer in his particular field. This is the position of this great store in the world of homefurnishings. Ours is not the only house trading in Carpets Curtains, Draperies, Furniture, Wall Papers, but here it is that these things are found at their best in quantity and quality, assortment and distinctiveness—yes, and price.

To these particular lines our entire effort and thought is given. The immense floor space of this immense store, covering six great floors—one of the palatial business places of the Dominion—is stocked from end to end with goods noted for their magnificence and which are sold direct to the individual consumer—a great retail homefurnishing house.

In all our long business history never did these conditions hold so strongly as they do in this year of Canada's greatest prosperity. We have anticipated shoppers' wants and invite everyone—the people of Toronto and the thousands who are constantly visiting this city—to see the exhibition par excellence that we make for this Fall's trade.

FIRST IN CARPETS

There is no doubting our supremacy in Carpets. Five minutes' observation of the wonderful range of Carpets on the first floor supplies indisputable evidence. It is a remarkable gathering of floor coverings from the most noted of the world's manufacturers. Years of experience and closest study of the tastes of the best shoppers—whom our trade furnishes as no other does—enable us to present an array of carpet stocks that has no near parallel in any other house in Canada. Our long experience in the business and our large buyings have given us entire control of the best output of many of the greatest manufacturers. They will sell to no other house in Canada. Many of the goods shown represent designs of the best artists made after our own suggestions specially for ourselves—in colorings the newest and most desirable. The particulars that follow will interest you:

BRUSSELS CARPETS

—800 pieces of the famous Bobbin Brussels have come to us from a leading English manufacturer, who did not wish to place them on the home market. The same quality of Brussels is usually sold at \$1.25 a yard; we bought this lot to enable us to sell them at 90c. Small patterns prevail, suitable for halls, libraries and bedrooms.

AXMINSTER CARPETS

—We recommend Axminster for drawing-rooms, rather than Brussels, and have over 75 patterns to select from—beautiful verdure self-color effects in rose, greens and blues, and also some beautiful designs after the style of Oriental rugs.

—The Royal Albert Axminster has perhaps no equal for hard wear. We can always recommend it.

—The silky worsted Victorian Axminster is a carpet made in fine delicate tones for the most luxurious drawing-rooms. We have a few lines of Victorian Axminster to clear at \$1.75 that were \$3.25.

—This season we have gone in for 44 stair carpets in Axminster. These are used to match Oriental rugs in lower halls.

—Our seamless Axminster Carpets are made in colors and designs to correspond with the decorations of the home, and are sold at \$6.50, \$8.00, \$9.00, \$10.50 and \$12.50 square yard.

WILTON CARPETS

—This is a great carpet for hard wear, and we have imported more strongly this season than in any former year. The "Crown Velvet" in Wilton we specially recommend for wear. Per yard, \$1.50.

—Our Wilton Carpets at \$1.35 and \$1.75, and extra superior at \$2.25, are wonderful values.

ENGLISH WOOL CARPETS

—These make up well as a carpet for use in bedroom or dining-room. The colors can be guaranteed. Special price, per sq. yd., \$1.00.

FIRST IN LINOLEUMS AND OILCLOTHS

You'll find these in the basement—a name you may say that is a misnomer as you understand a basement—a light, roomy, cheerful section of this big store. Linoleums and oilcloths here in quantities sufficient for the largest order of hotel or public building—or in smallest quantity for most modest wants of individual customers—all the best qualities and at special prices:

- Wilton Rugs, 12x6, \$25.00.
- Axminster Rugs, 10.6x9, \$30; 12x9, \$35; 13.6x10.6, \$45, and up to \$12.50 per square yard.
- Antique Rugs, 3.11x2.10, \$8.50; 4.8x 3.4, \$12; 4.9x3.4, \$12; 5.1x3.4, \$12.50; 6.10x4.10, \$17.50; 6.10x5, \$22; 11.9x 2.1, \$25; and many other sizes and prices.
- Yaprac Rugs, 9.6x3.11, \$26.50; 12.8x 8.5, \$42.50; 13.8x10.6, \$70, and other sizes.
- Afghan Rugs, 9.6x3.10, \$75.
- Donagan Hand Tufted Rugs, the product of the Industries of Ireland, size 12x6, \$85, and size to order at same rate per square yard.
- Wool Squares, in heavy yarns and in the newest designs by Voysey, colors, blues and greens, mixed with other art shades, 9x10.6, \$11; 9x12, \$12.50; 9x13.6, \$13.75; 10.6x12, \$14.25; 10.6x13, \$18.
- This is a large feature in the Rug Department. Indian Durries to go on plain covers, suitable for cosy dens, colors very durable.

BUSINESS WITH MAIL ORDER CUSTOMERS

The business of this house extends from the Atlantic to the Pacific. In the leading cities and towns of the Dominion you will find homes made more beautiful because furnished in part or whole from the stocks of this store. It may be a carpet for one room or several rooms; one or more pairs of lace curtains; a single piece of furniture or the whole house to be furnished. Distance from Toronto does not prevent you from profiting by the facilities of this store. We give completest attention to mail orders. Write us about your smallest or largest wants.

First in Fine Furniture

This is, indeed, a large department—the range of furniture on exhibition covering two whole floors and overlapping onto a third floor. We say frankly that the common run of furniture that is found in furniture stores does not constitute any part of our stock. We have something different to show shoppers. Not how cheap and disappointing, but how valuable and lasting is our thought. The taste exercised in the buying of homefurnishings in other departments extends to furniture. All the new features that give charm to a piece of furniture mark the goods of this store. Whether Drawing-room or Dining-room, Library or Hall, Bedroom or other room, one will not be disappointed in what we show them. Beautiful things in furniture, it may be remarked, does not mean high-priced things. Our furniture catalogue, showing about 150 cuts of furniture, sent free on request.

DINING-ROOM FURNITURE

Our great success in Dining-room Furniture is in the attention we have paid to special classes of furniture. We emphasize particularly our mahogany.

—Weathered Oak and Antwerp Oak dining-room specialties. Some beautiful art treasures in Sideboards, Dinner Wagons and Chairs.

—Special Sideboards, copies of the old Chippendale, Sheraton and Colonial styles.

—Some very fine samples of English Sideboards from the original designs at reduced prices.

—Glass Cabinets, a good variety in mahogany and oak, suitable either for drawing-rooms or dining-rooms.

DRAWING-ROOM FURNITURE

—Odd pieces for the drawing-room in Chairs and Small Sofas.

—Some very artistic pieces for drawing-room, specially imported from Europe and America. Remember the beautiful coverings for these goods listed in the Draperies.

LIBRARY FURNITURE AND OTHER SPECIALTIES

—Large assortment of Writing Tables, Desks and Secretaries, a beautiful variety in many different designs, in mahogany and English oak. Card Tables and Five o'clock Tea Tables, to fold, some very uncommon things. These specialties fit in nicely for a wedding present, and are found in prices from \$4, \$5, \$7, \$8.50, \$10, \$12, \$15, \$20, \$25, \$50 and \$60.

BEDROOM FURNITURE

—Mahogany Beds in colonial and Victorian styles, many with four heavy posts, that can be dressed simply or very elaborately.

—In our own make of Bedroom Furniture we show many designs in the early English style, some in green and blue room pattern; pretty six-piece sets that are sure to interest.

—Gentlemen's Wardrobes. The demand for wardrobes, as we make them, no longer constitutes this piece of furniture a heavy, cumbersome thing, but an article of beauty and utility. Ours are so made as to add greatly to the convenience of the room. A large range of English, American and Canadian Brass and Enamel Beds in many different styles.

MATTRESSES

—We specially recommend our Box Spring, guaranteed not to sag in the centre; prices \$15 and \$20.

—"Kay's Special" All Hair Mattress, size 6 ft. 4 in. x 6 ft. 3 in. in one or two parts, \$17.50.

First in Rugs

Here victory is easily achieved. Other stores make no pretence to carry a stock of rugs of the variety and quantity you find here. They are gathered in many cases from the most distant parts of the Orient—beautiful Indian and Turkish goods—with all the charm of color and all that is characteristic of the Orient. More and more—and ever more—rugs are becoming popular as floor coverings. We go into details:

—Stained Inlaid Linoleums and other well known makes, 6 feet wide, per square yard 75c, \$1.10 and \$1.35.

—Many new designs this season in the best Inlaid Linoleums for public buildings, as well as for kitchens and pantries.

—Cork Carpet—in view of the increasing popularity of Cork Carpets we have had made up for us special design in new green, very soft effect when put down, special per square yard \$1.05.

—New Inlaid Wood Surround, that can scarcely be detected from the wood itself, per square yard 75c.

—Some very beautiful effects in Inexpensive Linoleums and Oil Cloths, well suited for bathrooms. These are in colors to match the walls in blue and white, green and white, etc., per square yard 50c and 60c.

—Cocoas, Mattings and Mats, in different widths and sizes.

Parquet Wood Floorings

The making of handsome Parquet wood floors is very much the vogue in the best homes. We have done a good deal of this work. Our designs are approved and our staff of workmen are skilled. Estimates given for one room or many—in city or out.

CANT PREVENT EMIGRATION.
London, Sept. 26.—The government at Roumania, thru its Minister in London, has submitted a long exposition of the question of the treatment of Jews from

the Roumanian standpoint, explaining that the government is not in a position to prevent the emigration of Jews.

Body Washed Ashore.
Ridgeway, Sept. 26.—Last evening, about 6 o'clock, the decomposed remains

of a man were washed ashore in the vicinity of Bate's fishing grounds, on the shores of Lake Erie. The remains were perfectly nude, with the exception of one shoe. The features were so badly decomposed as to defy recognition. It is supposed that the body may be one

of the crew of the two boats that were in collision off Ridgeway light some six weeks ago.

Killies' Shoot To-Day.
Several thousands thronged the Armouries on Friday night, and witnessed the

manoeuvres of the 48th Highlanders and listened to an enjoyable program of music rendered by the brass band and pipers.

The regiment turned out 413 strong, in command of Lieut-Col. Macdonald, and paraded the usual route. On returning to the Armouries company and battalion drill

was practised.

In the orders of the regiment it is announced that 26 have been taken on the strength, one re-called, and seven discharged. A company was transferred from H to F Company.

The annual rifle match of the regiment

will be held at the Long Branch range on Monday. In addition to the series of matches there will be another match at 500 yards, which will be open to all members of the regiment. Ten prizes have also been added to the general match, but

Fairweather's A Famous Hat Store

Who's Your Hatter?

We don't sell all the good hats that are sold, but we sell nothing but good hats—no hat leaves the house that does not carry with it the makers, and our own guarantee for good style and "most-for-the-money" quality—made a name for ourselves that's the envy of the whole "country side" of shopkeepers, and the secret of it is that only the best makers in the world are asked to contribute to the stocks we handle in our trade—and yet there are hats at all prices—the low, the medium and the highest—hats for the plain man—hats for the dresy man—a good becoming style no matter what his taste is—we're "head dressers to the people" whether it is a cap at 35c, and a stylish felt Derby or soft hat at \$2.00 and up or on to the "Silk" at \$5.00 and up.

RACE WEEK SPECIAL

Races start to-day and there's not a whit of an excuse for stepping into the paddock with a hat that's a bit off style or seedy—We'll back our Derbies and soft Hats at 2.00, 3.00 and 5.00 against the field and give odds for value on extra values at 2.00

Reliable Market Forecasts

are based on a clear understanding of general market conditions only, and are the result of sound and logical reasoning. While the influences affecting stock market values are too numerous and conflicting to enable one to predict, with any degree of precision, yet a correct analysis of the main factors which govern security values will indicate the general trend of the market.

OUR DAILY LETTERS are based upon such principles, and their accuracy and reliability have been amply confirmed by the actual situations of the ensuing day.

These letters mailed free to subscribers for a short period. OUR SPECIAL LETTERS on leading securities, comprising the following: Union Pacific, Southern Pacific, Missouri Pacific, Wabash, St. Paul and Erie, contain valuable data upon which to base correct opinions as to the intrinsic value. Mailed on request.

PRINCIPLES OF STOCK SPECULATION, being practical hints for the successful dealing in stock exchange securities, will prove invaluable to traders. Mailed on receipt of ten cents.
