ROSEBERY SAYS BUDGET PUTS BRITAIN'S FUTURE INTO THE MELTING POT

Speaking at Glasgow, Declares that One of the First Results Would Be Increase of Unemployed.

GLASGOW, Sept. 10.—Lord Rosebery finally cut himself adrift from modern radicalism as exemplified by the house of commons now-a-days and in a straight talk to-day to the business men of the north, vehemently denounced the budget and its authors.

The ex-premier's speech has been awaited eagerly by those opposed to the budget, as it was expected to give a platform for a fight for a general election on which the moderates of all parties would be able to foregather.

Lord Rosebery, characterized the budget as a "revolution which put the future of Great Britain in the melting pot and which in the best interests of the nation should not become law."

He declared that the first result of the budget would be an immediate increase in the ranks of the unemployed thru a great depletion of capital.

The arguments advanced for taxing land applied logically to consols and all other forms of realized property.

Scores of millions were lying idle in the banks at the present moment owing to the apprehensions regarding the financial policy of the government which proposed to treat all landlords as pariahs.

If the Lloyd-George budget was the only alternative to tariff reform, Lord Rosebery declared, many would prefer to defend the doctrine of free trade.

He said the government was dallying with socialism, which was the end of all things.

Lord Rosebery's address was discussed keenly in the house of commons, and the prevailing opinion in the job market seemed to be the fate of the finance bill has been sealed thereby and that the house of lords would reject it.

STRUCK DOWN BY BLOW MAN IS UNCONSCIOUS

Employee of Bird's Restaurant at Exhibition Makes Cowardly Attack on Alfred Bond.

Struck down by a blow on the back of the head, Alfred Bond, of 83 Pears Avenue, is lying unconscious in the General Hospital. His condition is serious.

Bond's assailant, a man whose name is known to the police, is an employee of Bird's restaurant at the exhibition grounds, where the assault took place.

Bond and a companion entered the restaurant about 8 p.m. Both were apparently intoxicated. After eating and paying for a meal, they seemed disinclined to leave.

DEFAMATIONS OF COOK'S REPUTATION IN HARBOUR

Great Popular Demonstration in Harbor as Explorer Sets Sail for New York.

COPENHAGEN, Sept. 10.—Dr. Frederik A. Cook left Copenhagen this afternoon on the first stage of his journey homeward, apparently happy and confident and with the cheers of a great crowd ringing in his ears.

The demonstrators were exchanged between Dr. Cook and committees of the Geographical Society and the University of Copenhagen. He departed the explorer stood alone on the high bridge of the yacht Albatross, which is his last in respect to the shouts of the spectators, who lined the waterfront.

Dr. Cook in reply, "for the great honor that is mine in going home on a Danish steamer. You have been my friends; you have fought my battles. With a full heart I say farewell to the people of Denmark."

Speaking to the Associated Press, Dr. Cook said: "I am perfectly willing to put my records before the American coast and geodesic survey to be compared with those of Cook's voyage. But I do not see why I should ask for such a comparison first."

Asked if he had any message for the public, Dr. Cook replied: "I don't know what that would be rather presumptuous? All I want is to get home to my family and children and to finish my work."

Peary Still in Distance. SYDNEY, N.S., Sept. 10.—The Roosevelt is believed to be still coasting and preparing to Battle Harbor for the run down to Sydney, a distance of about 400 miles. She may remain there for a day or two longer in which event she may not reach here before the middle of next week.

Mr. Bridgeman, John E. Kehl, the U.S. Consul at Sydney, and Mrs. Peary and her two children, have been invited by James Ross, of the Dominion Coal Company, to be the guests of honor at a dinner to be given at the hotel here.

ALLAN LINE FOR G.T.R. ROUNDABOUT WAY

Transfer Said To Be Agreed Upon Between Allan Firms, Thence To the Railway.

LONDON, Sept. 10.—(C.A.P.)—A Liverpool report anent the G.T.R.'s absorption of the Allan Line is generally credited in shipping circles, for some such move has long been contemplated.

The following statement was given out at the Union Pacific offices in this city to-day: "The report published to-day that Mr. Harriman died at 1.30 p.m. is absolutely untrue. He died at 2.35 p.m. as was immediately announced both at his home and at the office."

FISHERMEN RIOTING KILLED BY TRAIN

Force Companies to Increase Payments and Cancel Book Debts. WESTON, Sept. 10.—(Special)—William Mathers, employed as a grinder at the Moffat Stove Works was struck this afternoon by a train at the crossing at Weston, killed instantly.

Mathers was 59 years old, and a widower. He boarded at Mrs. Willey's house on Main-street, Weston, but had a son, two sisters and a brother living in Toronto. Mathers formerly drove a wagon for the O'Keefe Brewery Company.

CONTEST CLOSED

FINISH OF THE RACE OF NOTES

Extraordinary End of Great Struggle for Fifteen Thousand Dollars' Worth of Prizes—Winners Will Be Declared Sept. 18.

The World's fifteen thousand dollar prize contest closed last midnight and the tabulating of the returns will be begun at once. The announcement of the winners will be made in The Sunday World of September 18th.

The finish of what to many was a long campaign came in The World's business office at midnight. Many held off until the last minute to enter cash subscriptions and receive special ballots.

Promptly at twelve o'clock, however, the office doors were closed and looked and only those on the inside, who thru press of work upon the extra force of clerks were unable to receive attention sooner, were allowed to remain.

Most of the candidates who have been running high on the race were in the office watching the clock for the finish and making a few last efforts in the trading of votes with the more fortunate who felt they were too low in the race to stand any chance of winning.

The candidates and their friends began gathering in The World Office early in the evening and kept the extra force of clerks busy writing subscription blanks and giving special ballots in exchange for them. In the ballot room it was almost impossible to keep up with the campaigners seeking to exchange subscriptions for ballots.

Many Express Pleasures. There were many expressions of pleasure at the finish of the race. One of the contestants, who admitted that her best hope was that she might land one of the prizes, said that she was glad to have been in the contest, and that she had had a very happy experience.

I never knew I had so many friends before. One thing I have learned is that the best way to make friends is to give. I have done something for you. Oh, I've made just a host of friends and wouldn't be without the experience for anything.

One of the contestants told of her closing efforts yesterday. "One of the men to whom I went early in the contest had said to me, 'I wish you were running down close to the finish and need more help come to me.' I had made up my mind not to see anybody twice, but I was so anxious that it seemed to me that I could not let the opportunity pass, so I went to see him. He was awful busy, but was interested at what I said. I was well up in the front and had hopes of winning. When I got thru he gave me three extra subscriptions to relatives of his and me. I felt that was doing pretty well."

Keen Rivalry. There was the keenest rivalry evident at the finish. Each candidate kept a watchful eye on the other, anxious to see and know all that they might be doing. The interest was unexpected move that had been held in reserve. The expectation which these contest campaigners exhibited at the last ditch showed that they were all in the fighting spirit, which works to the end. One of the candidates who had been in the office since early in the evening was given a seat behind the counter. At once his nearest opponent wanted to know why he was there and what it meant. "Is he the winner?" was the native question.

The fifty-three winning candidates, who can look forward to the prize of their choice are not known, however, even to the contest manager, and will not be made public until Sunday, September 18th.

KITCHENER A FIELD MARSHAL. LONDON, Sept. 10.—Lord Kitchener, who recently succeeded the Duke of Connaught as inspector general of the Mediterranean forces, has been made a field marshal of the British army.

WE'RE ENJOYING PROSPEROUS TIMES. Big Increase in Fair Receipts and Merchants Report Good Times. The wonderful increase in the attendance at the fair this year is a significant indication of the growth of the country. The merchants have noticed an unusually heavy demand for what you would call goods of quality.

How, therefore there was also a great demand of buyers who wanted anything if it was "cheap." Now it doesn't seem to be a question of price. All of which shows that there is a feeling of confidence in our future; that we are prosperous. Mr. Dineen, the president of the W. and D. Dineen Company, said yesterday: "I've told you that it's a rattling good sign. We're stocked up fortunately with the biggest collection of mink and there had never put together here. Beautiful garments in rare quality Canadian Mink, Arctic Fox, Ermine and Pointed Fox." The Dineen Co. always keep the show-rooms open Saturday evening.

BISLEY SHOTS HONORED BY THEIR COMRADES

Reception tendered by 13th Regt. Presentation to Cobalt's New Fire Chief.

HAMILTON, Sept. 10.—(Special.)—A complimentary reception was tendered at the armories to-night to the three members of the 13th Regiment who were on the Bisley team, Serjt.-Major Higgins, Staff-Serjt. Mitchell and Corporal-Serjt. Freeborn. The reception was given by the regiment and there were also 1500 people present. Each of the men was presented with a gold pocket watch by Lieut.-Col. E. E. W. Moore and speeches were made by Lieut.-Col. Bertram, commander of the Bisley team; Lieut.-Col. A. J. Moore and Mayor McLaren. The officers of the other corps were also present. Serjt.-Major Higgins made a suitable reply on behalf of the team men. A telegram was received from ten officers of the Montreal Regiment extending their congratulations.

The three firemen to-night bade farewell to Lieut. Kappelle, who has been appointed chief of the Cobalt department. Chief TenEyck presented him with a gold watch and for on behalf of the officers and firemen and Second Assistant Chief Atchison gave him a pocket and chain on behalf of the Hamilton Firemen's Benevolent Association. Mayor McLaren and a number of the older men were present. Mr. Kappelle left for Cobalt to-night.

Took an Overdose.
Jennie Shea, 62 West Burlington-street, was found in Robertson's shipyard, at the foot of Mackintosh-street, to-night, in a semi-conscious condition. She had taken an overdose of Pain-Exterminator and was hurried to the city hospital. The stomach was pumped out and at a late hour she was reported to be out of danger.

While handling ice at Massey, Wallace-ice-house, this afternoon, John Harris, 52 West Strachan-street, was injured by a cake of ice falling on him. He was taken to the city hospital.

Rev. Dean Mahony of this city and Rev. Dr. Walters of Walkerton will represent Bishop Dowling at the next council, which will open in Quebec next week.

For threatening a witness in a police court case, James Brooks was bound over to the sum of \$200 to keep the peace. P. W. Scott of Toronto was fined \$30 for speeding his auto in the city limits.

Relatives of Mrs. George E. Carpenter, 43 West Murray-street, are trying to get her released from the insane asylum on the grounds that she is sane. The woman was committed to the institution on Tuesday on the certificates of two doctors. The matter may be referred to Hon. J. J. Foy.

William Burkhoffer and Jas. O'Reilly, who were sentenced last December to 15 months' imprisonment for perjury, have been pardoned. The city council will recognize the good work done by the local members of the Bisley team by presenting them with gold medals. Those in the team were Serjt.-Major Higgins, Corporal-Serjt. Freeborn and Staff-Serjt. Mitchell. This is the beginning of a practice to recognize those who bring honor to the city in any way.

The Girl With the Glasses

has a refined and almost "professional" appearance. Glasses add dignity and scholasticness to one's looks. It is foolish to say they make one look older. As a general rule, they make the eyes feel a deal younger. We are practical opticians and can fit the eyes of young and old with lenses that suit the individual case. EXHIBITION CLOSES TO-DAY

"Star" Beer Can Still Be Had, However, Everywhere.
The Canadian National Exhibition of 1909 is fast drawing to a close. A few hours more and the greatest fair in Toronto's history will be nothing more than an aggregation of pleasant memories. Everybody will want to have some little reminder of the wonderful exhibits, the noisy midway, the music of massed bands, that glasses or two of O'Keefe's "Star" beer had, or ought to have had on the exhibition grounds, was good. There's lots more of it, but suddenly the production is being increased day by day. Hence when you have a moment to spare, and want to have a mental review of the doings at the "Ex," get a bottle of "Star" beer and settle into a brown study. The refreshing qualities of this new beverage—its beautiful flavor, its low percentage of alcohol, will all combine to make you feel satisfied with the past, present and the future.

WEST TORONTO.
While T. A. Russell, general manager Canada Cycle and Motor Company, was circulating up his automobile at the corner of Keele and Dundas-streets this afternoon the crank at first refused to work but suddenly whizzed around, badly spraining his wrist. He was attended to by Dr. Mason.

In getting off a Lamborn car on Dundas-street about 4 o'clock this afternoon a little girl named Mabel Archer, Princess-street, York Township, was knocked down by an automobile belonging to A. H. Daney, 184 Howland-avenue. Her injuries were not serious.

Mrs. Annie Gertrude Nolan, aged 34 years, wife of T. Nolan, engineer on the Toronto Muskoka branch of the C.P.R., died yesterday morning in her home, 184 Howland-avenue, after a long illness. She was buried in the Mount Hope cemetery on Saturday at 9 a.m. to St. Cecilia's Church and thence to Mount Hope cemetery.

E. Cox, 71 Cooper-avenue, found a stray horse on his lawn last night, and he enabled him to come home to claim ownership.

The opponents of the scheme to have Runnymede incorporated as a village are having a counter petition prepared for presentation to the county council.

NORTH TORONTO.
NORTH TORONTO, Sept. 10.—(Special.)—The executive of the North Toronto Ratepayers' Association will meet at the residence of H. H. Ball on Monday evening.

The death of Joseph Shepard, one of the oldest residents in the town, took place here to-night at his residence, Sherwood-avenue. Deceased was 80 years of age, and the funeral will take place to Mt. Pleasant cemetery to-morrow (Saturday) afternoon at 3.30. Undertaker, J. Howe, and Mrs. Howe are expected home at almost any time.

Real estate men report that the sale of building lots has been temporarily checked by the throw down administered to the sewerage bylaw by the mayor and the town councilors, but time will remedy all this. North Toronto is all right and her citizens will not be long thwarted in the carrying out of her plainly expressed mandate.

All the finest brands of wines and liquors at E. T. Sandell's, 523-525 Yonge-street. Special delivery to Davisville and North Toronto. Phone 712.

VARICOCELE CURED

Confined to His Home for Weeks.
"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Dr. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got THE NEW METHOD PATENTED. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn \$12 a week in a machine shop before treatment, now I am earning \$21 and never lose a day. I wish all sufferers knew of your valuable treatment."

Note and Comment

What kind of a champion is this Johnson, anyway? The special reports of his bout with his opponent...

Johnson never once had Kaufman in trouble, never once was he threatened to put him on his feet. He had plenty of openings, for through the greater portion of the millage, Kaufman seemed a child in his hands.

Without Johnson grinning, cracked jokes and alternately pleasantly taunted and pounded the native son through the rounds.

Nobody won, nobody lost—which was as it should be, for before the articles were signed it was specifically agreed that if both men were to win, Kaufman was to be the victor.

By actual count Kaufman landed five punches—four to the body and one to the head.

That the fight fans had the real "dope" on the affair was shown by the very nature of the betting.

Jim Popp, the best of the Canadian fighters, is still anxious to figure in the ring. Popp is in a business position in Chicago and evidently prospers.

LIBRARY BOARD WILL HOUSE ART TREASURES

Gallery to Be Free to Public Two Days in the Week—Formal Opening Oct. 7.

Arrangements have been practically completed by the public library board for a five-year agreement with the Toronto Art Museum, of which Byron E. Walker, E. F. B. Johnston and G. A. Reid are the chief promoters.

The new library building is to be free to the public on two days in the week, a small fee being charged on the other days. It is to be open from 10 a.m. till 8 p.m., except during the exhibition of special loan collections.

Thursday, Oct. 7, was the date selected for the formal opening of the reference library. The chief speaker announced that all the tables and other fixtures would be in place by Sept. 22, when the library would be in full swing.

The new West Toronto branch will be given a formal opening on Monday, Sept. 27.

The librarian announced that he had written Premier Whitney shortly after the parliament buildings fire, placing the resources and facilities of the public reference library at the disposal of members of the legislature during the next session.

In the next six months all public library tickets will be called in. The librarian stated that some 70,000 were out at present, some of them dating as far back as 1894. He had found no less than 14 tickets in one family. It is proposed to make those issued in future only available for three years.

THREE YEARS for a Firebug. OTTAWA, Ont., Sept. 10.—For setting fire to a wood pile immediately adjoining the house of a man as disliked at Wakefield, Que., Oneime Dubois was sent to prison for three years. GORDIAN WALL STREET.
New York Stock Exchange movements for the last three weeks have indicated clearly that the financiers who control them have been utilizing Mr. Harriman's struggle with death for the purpose of manipulating the market from day to day. The gruesomeness of the situation, appalling to the ordinary individual, is but a by-play to the millions of New York, who are capable of using anything that comes their way to gain a profit on their stock market operations.

Nothing could have been more conceivable than the withholding of the announcement of Mr. Harriman's death until after the close of the exchange. The course of trading yesterday showed the extent to which this fact had been used to freeze out the public who are playing New York market. Prices were demoralized during the greater part of Thursday and holders of stocks were scared out on the breaks brought about by big manipulators.

With the market cleared of this following, prices were hoisted yesterday anywhere from 10 to 15 points, and those who were unfortunate enough to believe that they could play the exchange on legitimate reasoning, were badly hit on their short contracts.

Nothing is too big or too small for the highest type of a railroad organizer. In other words, he knew how to finance, and how to build, and run a road when built. Let us grant this. And yet the one thing that can be said of Mr. Harriman is that he used these two great gifts solely and only for two purposes:

First, for the floating out on the public of all the possible issues of securities over the various railway propositions he handled to his own personal advantage, and to the increase of his own personal fortune.

Second, for taking the highest possible tolls out of the public who used the roads so as to pay dividends on the torrents of watered stock that he created.

Never once did he think of giving the public high-class transportation at low rates; he lived for and died in the effort to take the greatest possible tolls out of the public to the aggrandizement of himself, and perhaps for a time at least of those who bought the securities that he created.

Harriman did not improve transportation methods for the public, he mined them for Harriman.

Harriman was the most pronounced instance of "predatory wealth" denounced by Roosevelt, and Harriman probably hated Roosevelt for the statement, more than he did any other man.

The American Republic, the home of democracy, has become the greatest breeding ground of the predatory rich in the world. The United States is not producing Lincolns these days.

C.P.R. WELFARE WORK.
Among the more encouraging signs of the times is the increasing recognition of the community of interest between the employer and his employees. For many years capital and labor were regarded as natural antagonists with incompatible aims and objects. This was the result of the doctrine that labor was a commodity subject to the ordinary law of supply and demand.

The C.P.R. constantly endeavoring to buy it as cheaply as possible and the workman to sell it at the highest price he could get. After the formation of labor organizations the strife was intensified and it was only slowly that the combatants learned the lesson that partnership yielded better results to both.

Of late years the new ideas have spread with increasing rapidity, and the growing consciousness of mutuality of benefit has led in some cases to the introduction of employees as shareholders and in many other cases to the establishment of schemes designed to ensure permanent amelioration of the working conditions and provision for sickness and old age.

Among the latter class the Canadian Pacific Railway takes a leading place. This company employs over 70,000 men in the various divisions of its vast undertaking, and its directors have been alert to perceive that co-operation with its workers meant the greatest good to the service and to its shareholders. There has just been issued by the company an attractively illustrated pamphlet describing the various agencies that are now actively engaged in promoting the welfare of its working army. Its motive is admitted not to be philanthropic and the management frankly confesses that considerate treatment towards its employees is a paying business. Hence the system for training apprentices, for assisting those who exhibit exceptional aptitude to pursue their technical courses at correspondence schools and at the university. Hence also the care taken to instruct the employees in every detail of mechanism and in the operation of the varied and important appliances necessary in the running of

A Typewriter Exhibit

We are holding every day, during the progress of the Fair, a special exhibition of the famous Light-Touch, Long-Wearing Monarch Visible Typewriter at our store, 98 King Street West.

We shall be glad to explain in detail to all visitors the many essential and sensible devices on the Monarch for the rapid and accurate handling of all office detail.

We especially invite an examination of the special machine we are showing, which writes every possible office detail, and which is really two typewriters in one.

We shall be glad to have all our customers, who are visiting the city, make our store their headquarters. A stenographer is always at their disposal.

We have some special bargains in second-hand typewriters of all makes.

SEE MINERAL DISPLAY BEFORE THE FAIR CLOSES

Wonderful Richness of the Cobalt and Gowganda Ores is Strikingly Shown.

In view of the fact that a number of members of the Ontario Legislature are now investigating the mineral resources of the north, and because of the remarkable natural wealth of that country, as indicated by the number of recent discoveries that have been announced during the past two weeks, visitors to the exhibition should make it a point to see the government display of minerals in the horticultural building, before the close of the fair to-night. The wonderful richness of Cobalt and Gowganda ores has proved have on in the revelation to people who previously have known little of the wealth of that country.

Naturally, the exhibits from the mines have Gowganda have created a good deal of comment, for they indicate the great wealth of the mines which are opening up in that camp. Among the Gowganda properties which have on in this collection are the Bartlett mines, the Boyd-Gordon and the Mann mines.

The effect of this display of high grade ores has been decidedly educative, and will doubtless result in interesting a great many men of capital who previously had no conception of what Gowganda means to the mineral interests of this country.

OVERCROWDING IS INDECENT
Cobalt Landlords Responsible for Shameful Situation

Landlords in Cobalt, thru extortionate rental charges and unnecessary congestion, are now facing an epidemic of typhoid, which makes them liable for little less than criminal negligence.

This is the gist of an interview given by Hon. W. J. Hanna, provincial secretary, on the returns prepared by the legislative party which is touring northern Ontario.

The town, he said, consists of a few acres—an area far too small to enable proper sanitary arrangements of water supply and sewerage to be carried out. The whole township should have been laid out in a different manner, and in spots as to outrage common decency.

On Tuesday morning last he pointed out, there were 99 typhoid patients in the hospital and 50 more in their homes, and the number is increasing every day.

"No doubt," said Hon. Mr. Hanna, "Cobalt council has been confronted with great difficulties. But the situation is one that would not have existed if some attention had been paid to a committee of the board of trade last spring."

Dr. Chas. Hodggets and several members of the staff of the provincial hospital of health are co-operating with the local authorities to get the outbreak under control.

AT OSGOODE HALL

Master's Chambers.
Before Cartwright, K.C., Master. Fournier v. Michaud and Levesque—J. Bradford (sturgeon falls), for defendants, moved on consent for order dismissing action without costs. Order made.

Jarvas v. Torney—Grayson Smith, for defendant Torney, moved for an order of adjournment. S. Denison, for a claimant; G. B. Strathy, for a claimant; J. F. Lash, for a claimant; J. G. O'Donoghue, for a claimant. No one for Ottawa Electric Co., who are barred. Order made in terms agreed upon between the parties.

Parascher v. Gegg—F. Aylesworth, for defendant, moved to change venue from Barrie to Osgoode Hall. McLeod Macdonell, K.C., for plaintiff, contra. Re served.

Calvin v. Hunter Bridge Boiler Co.—J. F. Lash, for defendant, moved to strike out paragraphs 3 and 4 of statement of claim as embarrassing. G. H. Kilmer, K.C., for plaintiff, contra. Motion dismissed. Costs in the cause.

Single Court.
Before Macdonnell, C.J.—Beattie v. Dickson—J. Scott, K.C. and H. D. Gamble, K.C., for plaintiff on appeal from the report of the local master at Stratford. E. D. Armour, K.C. and W. Proudfoot, K.C., for defendant. Appeal allowed. Cross-appeal from the report. Judgment (B). One of the principal matters argued was the question as to what nature of the estate of J. S. Dickson, deceased, of A. Beattie and the defendant, Dickson. It is contended on behalf of the estate that the existence of a partnership is established. Every element of a partnership appears to have existed, and notwithstanding the memorandum signed by the parties, I find the existence of a partnership is established.

The result of the findings on the items of account is that the amount found due to plaintiff is increased from \$5,115.82 to \$11,832.22. The report is in other respects confirmed. Plaintiff has had a substantial success and defendant will pay her two thirds of her costs of the appeal, and cross appeal.

Writ Issued.

Clarendon Hotel Site Sold.
T. W. Horn, president of the Luxor Hotel Co., has purchased the Clarendon Hotel property, situated on the north side of King-street, west of Bay-street, and will utilize it for the extension of his business. The site price was \$12,000. Mr. Horn also owns the two lots immediately west of the hotel. The Clarendon was deprived of its license last Friday, when the building out was effected by the commissioners.

Exhibition Free From Liquor.
Acting Chief License Inspector Burrows, who has had special view of the grounds during the exhibition, besides having arranged with the police for the apprehension of any law-breakers as far as the Ontario License Act is concerned, stated to The World yesterday that there had been absolutely no offences discovered. This means a record for the year, for in previous years Mr. Burrows could boast of an absolutely clean slate as regards breaches of the license law. Mr. Bur-

OLD GOLD CIGARETTES

W. Jefferys, vice-president of the Ontario Society of Artists, spoke of the aims of that body. The present practice of selecting foreign paintings, the product of several years, to hang beside the selections of the year's out- put of Canadian artists, made the lat- ter somewhat at a disadvantage, but was valuable to the Canadian artist, as emphasizing where the art of this country was inferior.

efficiency and simplicity of the tests have excited the wonder and admiration of the public. Ken business men foresee the commercial possibilities of this new Richmond in the field of busi- ness. It can be installed in hotels, tenements, hotels, department stores, office buildings, mines and on ships, harbor craft and in private dwellings. Stations will be installed on every post, boat, lake perfectly in the open and heat the water tank at one and the same time. At child care manage- ment. The device is patented in Canada, the United States and in Europe.

A Perfect Player-Piano. Nothing among the piano exhibits in the manufacturers' building has attracted more attention than the \$8-note player-piano shown by the Martin-Orme Company. Its tonal qualities are entirely in harmony with the hand- some case. The Martin-Orme Com- pany also shows a large and varied stock of upright pianos, all in the perfection of design and beauty of finish. This marks the product of the Martin-Orme Company. The management re- ports a highly successful year, the sales being far in advance of former years.

News in Oddfellowship. Over five hundred members of the Oddfellowship order from all parts of the continent called at the comfortable tent of this society at the exhibition grounds yesterday. An interesting feature of the past week in Oddfellowship was the initiation of Senator D. Derbyshire, grand master of Ontario, into the order. He was presented from Hamilton, Ottawa, Belleville, Kingston and other points. Under the guidance of Senator Derbyshire, the order promises most prolific results for the present year.

An Odorless Gas Burner. The Archer Double Gas Mixer and gas burner is something new and ab- solutely odorless. Scientific tests at the Toronto University show perfect com- bustion, whether on the open grate, hot water heater, or whatever burner it may be used. The firm is also show- ing gas burners for bake ovens, steam boilers, etc., at their exhibit in the stove building.

Wireless Telephone the Marvel of the Age. Few people realize what telephoning without wires means. For two weeks financial, scientific and business men have crowded the main entrance to the transportation building and wit- nessed the Collins Wireless Telephone Co. of Newark, N.J., give remarkable order promises most prolific results for the present year.

Championship of America. In typewriting, the championship of America is held by Mr. Otis Blaisdell. He won the title in the spring of 1908, on the Underwood—the machine on which all modern speed records have been made.

PERSONAL. Among the guests at the Queen's are Count Eitel of Berlin, Germany and Judge O'Connor of Sault Ste. Marie, Thomas Kenney of Odesa, Ont., who for many years was manager at the Clyde Hotel under the late H. Lemon, has been in his old position this week assisting Lemon Bros. during the Exhibi- tion rush. Mr. Kenney has a host of friends amongst the farmers and travel- ing public, who were pleased to see him.

British-Canadian League. The British-Canadian League will hold a series of public meetings during the coming winter. The first will be held to-morrow at 7.30 p.m. at the Temperance Hall, 121 Bathurst-street, near Queen, when addresses on "Citi- zenship" will be given. The Welsh choir, under the conductorship of D. Powell, will render a number of sacred selec- tions.

A BIG INDUCEMENT

To Buy One of Those Half-Acre Lots in Dufferin Heights on Saturday

As a special quick-buying inducement to assist us in closing out the remaining lots in this section this great offer is made. The extremely low prices (from \$350 up) remain the same, but instead of the usual terms, \$25 down and \$10 per month, we will say \$10 down and \$5 per month for Saturday only.

This gives you the chance of making a couple of hundred selling again with a very small cash outlay—come early.

\$10 DOWN \$5.00 A MONTH INSTEAD OF \$25 Down and \$10 Month \$10 DOWN \$5.00 A MONTH

IF THIS PROPOSITION INTERESTS YOU Come out just as early as you can for best choice. There never was a lot-buying opportunity like this knocking at your door—grasp it. Each half acre lot will divide up into six 25 foot building lots, and you know the future possibilities of Toronto. We'll meet the Carlton cars at Lansdowne Ave. car line all Saturday afternoon, with automobile, to take you out and back.

THIS IS A RUSH OPPORTUNITY FOR MEN WHO WOULD MAKE MONEY—DON'T MISS IT.

The Sellers-Gough Fur Co. Limited Persian Lamb Jackets Saturday \$89.00

Saturday we will sacrifice thirty-seven Persian Lamb Jackets, made from fine-quality Leipsic-dyed Genuine Persian Lamb.

There are six different styles to choose from, all of them this season's, and all sizes. They are beautifully made, and lined with finest-quality black satin.

Exhibition visitors and the ladies of Toronto will probably never have another such opportunity to buy a Persian Lamb Jacket at this price.

These Coats were made to sell at \$135.00, and we are selling them at this price merely to create an advertisement, as we want every woman in Toronto interested in the fur question to come to this store to see and know our values.

These Coats are on sale Saturday only, and we would advise an early visit.

Don't miss this opportunity, as it is not at all probable that the same chance will ever come your way again.

LOOTING FIRE RUINS

Two Arrested for Theft of Copper From Parliament Buildings.

Two teamsters were arrested yesterday and lodged in the Agnes-street police station, charged with stealing a quantity of scrap copper from the ruins of the west wing of the parliament buildings.

Inspector Duncan yesterday received a letter telling him that the copper, being eaves and other piping about the building, was being sacked and stored in a cement house on the grounds.

From this, it was being removed between noon and 1 o'clock and between 5 and 6 o'clock in the evening.

Detectives Montgomery and Ferguson secured Charles Yoman, 32 years, 387 Sackville-street, at noon. He had two sacks in his wagon and said he had been told to sell them and buy beer.

He offered to give back the copper, but was locked up.

At 6 o'clock Detectives Montgomery and Miller got Gladstone Paris, 25 years, 22 First-avenue on a similar charge.

New Building for Fair Grounds. A great attraction which should be added to our exhibition in the future would be a great convention hall and central court building, having a great Canada as a whole and representative of the provinces.

When lots five miles from the city are selling for \$25 and \$35 a foot, what do you think of buying lots delightfully situated just over the border from the northern city line for \$3 to \$8 per foot? Looks like a bargain. It certainly is, and these prices won't last long.

BUY NOW --- BEFORE THE ADVANCE

Where They Are The Situation The Prospect

These lots are situated in what is known as the Nairn & Parsons Estate, just beyond the city, at north end of Dufferin Street. You can go up there in our automobile if you arrange a date with us.

For Investment For Working Men

No land now offered the investor gives the assurance of profit that these lots do; 400 families moving upon the estate has greatly increased the value, but we are still selling at the original price. That is why it is such a snap for the investor at present figures. Telephone for an appointment to see the property.

OLD FOLKS TAKE MOTOR TRIP

Third Outing for Patients of Home for Incubables.

The inmates of the Toronto Hospital for Incubables had an enjoyable outing yesterday afternoon as the guests of the Ontario Motor League. This is the third outing of the kind, and the old people, who retained happy recollections of previous outings, had been looking eagerly forward to the trip for some days past. About twenty-five cars were volunteered for the use of the party, and most of the owners took charge of themselves. After a delightful drive around the city the exhibition was visited, and the cars made a tour of the grounds, which was greatly enjoyed. Win. Double, president of the league; Noel Marshall, a former president, and E. M. Wilcox, secretary, were untiring in their efforts to make the outing a success.

Glenavy Heights

Building lots in the Glenavy Estate fulfil all the conditions required for healthful homes.

Eliminate the Avenue Road section of Deer Park and there is no property immediately north of the city that has as many natural and other advantages as the Glenavy Estate.

This property is situated on one of the leading thoroughfares of North Toronto and bounded on the east by that main highway, Bay View Avenue.

The lots are one acre sections, and building restrictions have been arranged, so that nothing but first-class residences can be built.

Glenavy is situated 300 feet above the lake level and a beautiful view to the south and east can be obtained from the property.

With the assured growth of the north end of the city these lots offer unusual opportunities to investors.

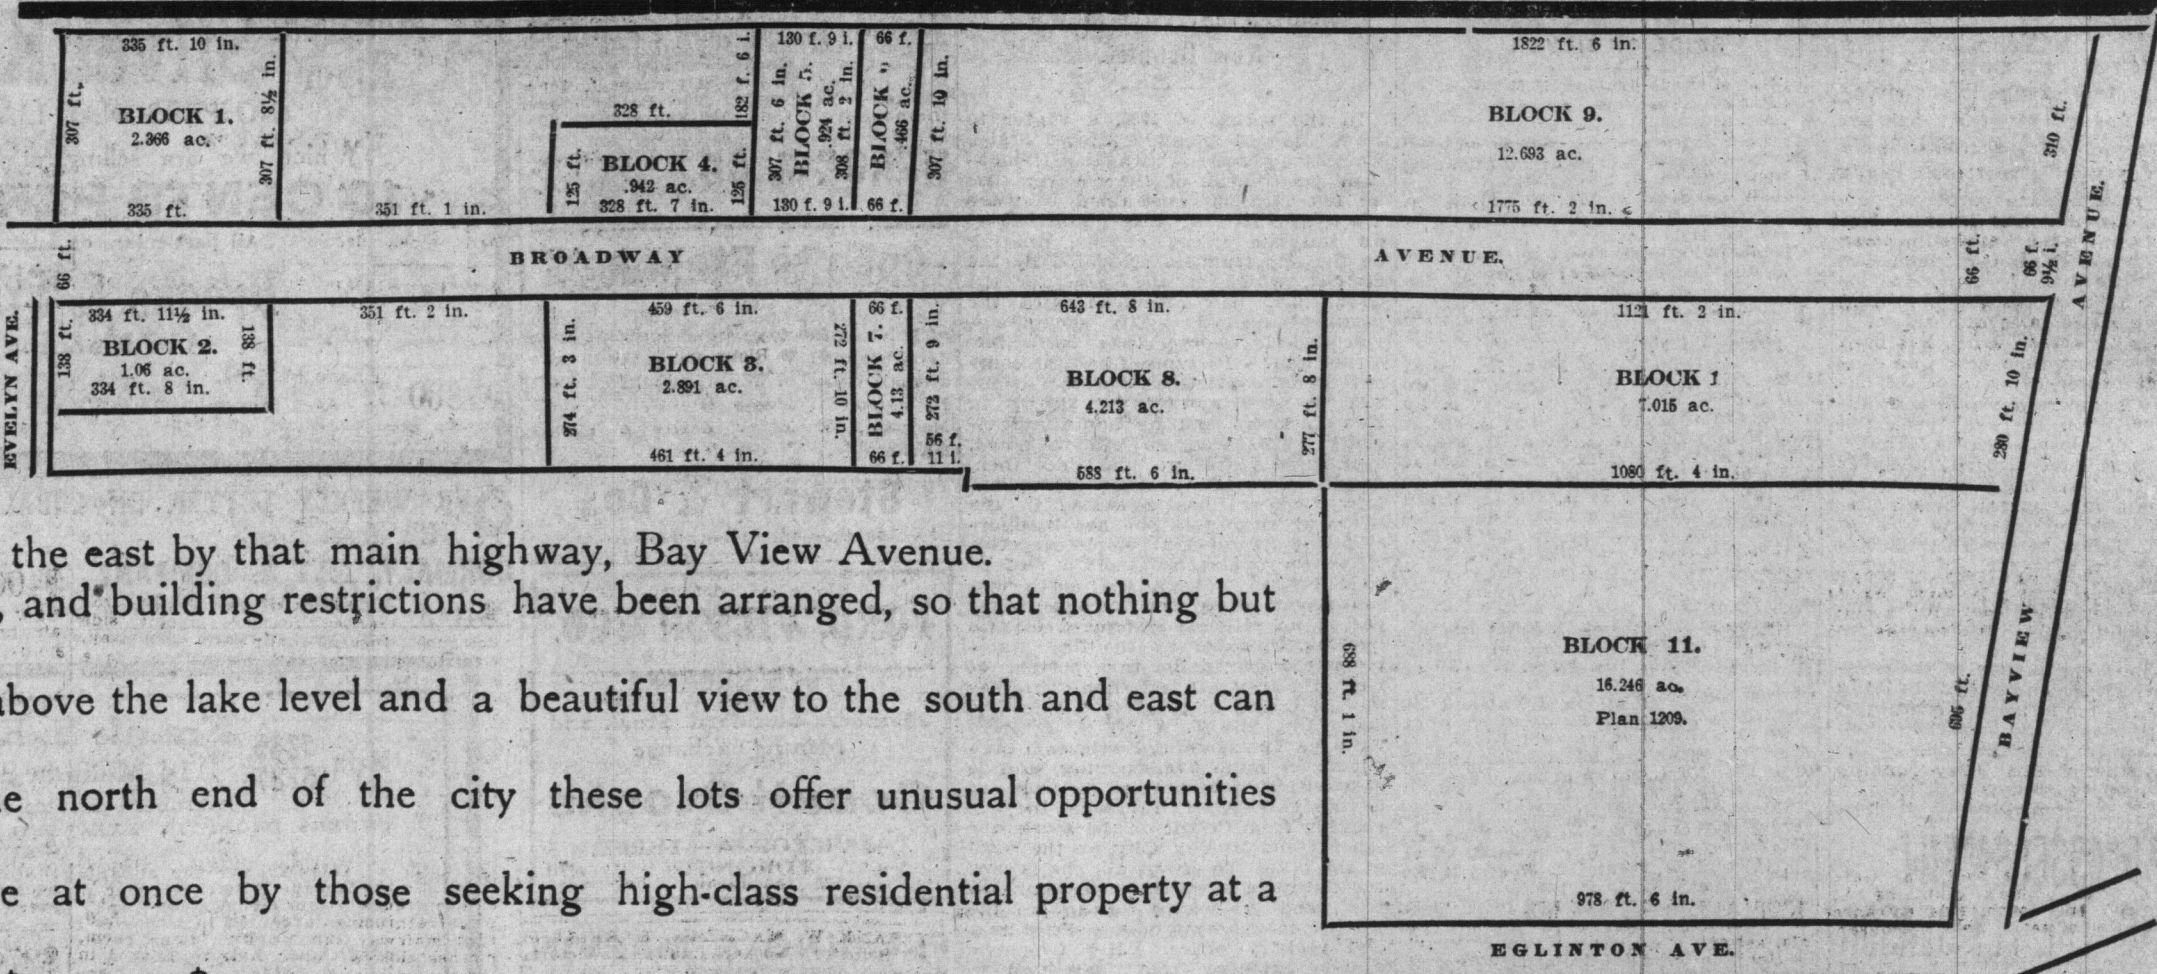

Reservations should be made at once by those seeking high-class residential property at a moderate price.

Prices of acre lots range from \$1500 to \$2500.

GLENAVY HEIGHTS will be handled exclusively by **A. C. Jennings & Co., Real Estate Brokers.** Increased business has necessitated the establishment of offices at **405 Crown Life Building and Corner of Broadway Avenue and Yonge Street, North Toronto.**

FARMS FOR SALE.

W. A. Lawson's List.

YOU CAN LOOK THIS COUNTRY over and spend much money, trying to locate a good farm, and then not find what you want. Half an hour spent in my office will give a better idea of what you are after than two months' travel; the expense here is nothing.

107 ACRES - NOT FIFTY MILES east of Toronto, overlooking Lake Ontario, within two miles of depot. Close to good schools, public and high; best of clay loam; in high state of cultivation, all tillable and level; nine acres good orchard; water in stables; well fenced; ten-roomed frame house, with telephone connections; modern bank barn, best in country; carriage house, pigsty, henery, stables for forty head, ice-house, silo, workshop and large hay barn; all buildings in best of repair. Gasoline power engine, large DeLaval separator, chopper, litter and feed carriers through stables and pigsty; five thousand lb. stock scales, hay forks and slings, ensilage cutter, and many other conveniences. In fact, the most complete equipped farm in this country. If you want something real good, get after this at once. Eighty-five hundred.

100 ACRES, NEAR NEWMARKET. Here's a farm that should suit some party and no doubt will; it's a heavy rich sand loam, splendid producing soil, level, all tillable, well watered and fenced; seven-roomed house, stone cellar, cement floors; large barn with plenty stables. Owned by lady who wants to sell; would take a good house in city as part pay. Six thousand.

84 ACRES, NORTHUMBERLAND, ninety miles east of Toronto, on shore of Lake Ontario, a very pretty spot; good beach; close to nice town; all level; ten-roomed frame house; large barn; drive house, stable for twenty head; pigsty and henery; four acres orchard; good water and plenty of it. Forty-five hundred. Exchange for city house.

IF YOU WANT A FARM AND NONE of these are what you are looking for, just call or write me stating about what you prefer; ten to one I have it right now, as my list of good farms is the most complete in Canada.

150 ACRES, TOWNSHIP CLARKE, forty miles from Toronto, close to two good towns; a farm you would want if you saw it; present owner has made enough money from it to take life more leisurely and is ready to leave it in. A1 condition for his successor; six acres nice orchard, plenty good water and No. 1 fences; first-class buildings all through and lots of them. Eighty-two fifty. Exchange for small property close to good town or village.

200 ACRES, ABOUT THIRTY-FIVE miles north of Toronto, in a splendid farming district, a real good farm, well improved; new bank barn and plenty of other outbuildings; eight-roomed frame house; good water and fences; nine acres orchard; clay loam, level, all tillable; school and churches handy; good markets convenient. Owner wants a smaller farm in Essex or Kent County; might exchange for well-improved hundred acre farm. Ninety-five hundred.

THE SECRET OF MY SUCCESS in selling Canadian farms is—Accurate information and proper valuation of what I offer for sale. My aim is to sell a farm for what it's worth, no more.

200 ACRES, NORTHUMBERLAND, close to village, church, postoffice and school; soil rich loam, one hundred eighty cultivated, twenty mixed bush, watered by wells and spring creek; fenced wire and rails, good repair. Fifteen acres choice fruit, full bearing; splendid frame house with combination heating.

FARMS FOR SALE.

Philp & Beaton's List.

hot and cold water in bath and kitchen; hardwood floors; fancy ash ceilings, large conservatory, one hundred feet veranda; lawn nicely laid out with ornamental trees; large bank barn, two hay sheds, drive and implement house; stables for hundred head. This is one of the best. Sixteen thousand. Terms arranged.

THIS IS A GOOD TIME TO SEE THE great west; the harvest fields show for themselves just what is being done. I can give you some very choice lands, improved or unimproved, at right prices. Have some to exchange for Ontario farms.

IF YOU WANT TO EXCHANGE YOUR city property for a good farm, I have it. Give me a call.

COBALT--dragging Tendency in Cobalt Securities Continues ---COBALT

Cobalt Markets Are Draggy Little Change in Situation

Dullness the Outstanding Feature of the Exchange--Little Change in Current Quotations.

World Office, Friday Evening, Sept. 10.

There was little change in the situation at the local markets for Cobalt securities to-day. Transactions were on about a par with yesterday, while quotations remained comparatively unchanged in the majority of instances. As on yesterday's market trading was somewhat broader than of late, but there was little increase in outside interest, the bulk of the day's dealing representing short sales of insiders.

The earlier undertone which has been apparent for some time now was continued, and Foster, Nova Scotia, Timiskaming, Chambers-Ferland and Silver Leaf were on the easy side, though no declines of consequence occurred. Trading was concentrated in Silver Leaf and Timiskaming. Considerable realizing was in progress through the session, but the buyers were strong in the main sufficient to absorb the offerings.

In the higher priced stock La Rose, Trethewey and Kerr Lake were dull and quotations about steady with yesterday.

There is nothing in sight at the present time which seems probable to bring about any change in market sentiment, and unless some unforeseen developments transpire a continuation of the present apathetic and easy running course is likely to follow.

EXEMPT ASSESSMENT DURING THE FLY SEASON

Harvey Hall Returns From Gowganda Confident of the Future, and Makes Suggestion.

Harvey Hall, the well-known labor man has just returned from Gowganda convinced that it will be among the great silver camps of the world.

"I base my estimate of Gowganda," he said, "on the wide area of mineral enrichment, the nature of the discoveries made from time to time, and the evident permanency of the veins as indicated by development. As development proceeds all doubt is removed that Gowganda has the goods."

"The camp has been handicapped by excessive charges in getting in supplies, but this will moderate with the opening of the winter roads, and the fact that there will be a great deal of return freight next winter in the nature of shipments."

Mr. Hall is interested in ten properties, southwest of Gowganda and near Shining Tree. Every one is in the diabase, and he and his associates are going ahead with development.

"I do not believe that half the big finds are reported," said Mr. Hall. "Some are made on the properties of wealthy syndicates, who keep it quiet, and then buy up the surrounding territory."

"As a result of the month spent on the claims, and carefully observing conditions, I would suggest that the government make a change in the mining laws, making it unnecessary for men to do assessment work during June and July."

"It is unhuman to ask men to work in the bush during these two months, owing to the plague of black flies. I find some of my men in a horrible condition from fly bites, and many men during these months are forced to leave the district."

"I believe this change would be in the interests of the mining industry for men cannot do the effective work under these conditions that they could jately on. Their time is spent more in fighting the flies than in actual mining."

"The men are forced to light fires for self-protection, and as a result much valuable timber is destroyed."

"There are people to-day who do not grasp the importance of this Gowganda mining district," said Hall, "who will be wondering a few years from now how they could have been so short-sighted as to permit a great opportunity right at their very doors to slip thru their fingers."

GOWGANDA KING.

The Gowganda King Mining Company owns 240 acres in Hamilton and Lawson Townships. It is capitalized at \$500,000, with \$250,000 in the treasury. The shares are being listed in Montreal. All the assessment work has been done on the properties and development is now going on.

NEW LISKEARD'S FUTURE GATEWAY OF THE NORTH

In Many Respects the Town is the Most Progressive in the New Country.

In the spring of 1906, a visitor to New Liskeard from the States was so impressed with the tremendous possibilities of the country that he felt himself constrained to write a series of letters since published in an intimate friend of his, dealing on the opportunities presented by the district, which he then saw for the first time. He concluded with the pertinent query: "Why should not you and I, George, take up a few acres of land in the New Liskeard area of his convictions, and since then have invested upwards of \$100,000 in New Liskeard and its immediate vicinity. This was, as will be noted, over three years ago, and since then, despite the intervening depression, New Liskeard has advanced in the following order: She has inaugurated and installed a complete system of water supply; has built a modern steel bridge between the north and south portions of the town and has put in an efficient system of electric lighting, operated by the first water power completed in this portion of New Ontario. In addition, she has now in course of progress a spur line connecting the T. & N. O. Railway with the Timiskaming Navigation Co.'s wharf at Lake Timiskaming, and also within measurable distance of having two electric railroads, the one running from Cobalt on the south, the other from Murray City at the head of the lake. To crown all, she is now the centre of a separate electoral district, and is looking forward to an early establishment of a judicial seat and registry office. Her telephone system extends from Latchford to English Bay, a distance of 45 miles, with branches to many towns in the Province of Quebec, and a complete installation to Hazelbury, Cobalt and the surrounding country. Her bonds and debentures have been readily sold at favorable prices, and she is rightly looked upon as the undoubtedly coming city of the north.

Concrete facts, it should be easy for the investor to decide as to New Liskeard being a safe and satisfactory sphere for investment.

Coming down to statistics, the following figures will speak for themselves. The largest and finest covered rink in the province. A modern steel bridge across the river. A large athletic field and fair grounds. Six churches. A modern, thoroughly equipped post-office. A telegraph office. A well equipped public library. An isolation hospital. Two of the largest and finest covered rinks in the province. A modern steel bridge across the river.

A location on the line of the Timiskaming and Northern Ontario Railroad, and the only protected northern harbor on the St. Lawrence.

The docks of the Timiskaming Steam Navigation Co. and the Upper Ontario Steamboat Company.

The head office of the Timiskaming Telephone Company.

A large foundry and moulding works. A clock factory. Four medical practitioners. Two dentists. Two first-class hotels. Over sixty stores. Two large sawmills. Two cement building block manufacturing factories.

An extensive brickyard. An aerated waterworks. Two lively taverns. Three legal firms. Four medical practitioners. Dental parlors, public baths, etc., etc.

The reason for New Liskeard's supremacy is largely geographical, and the growth of this city is practical of future stability. All experience shows that where the site of a town or village is naturally suited to the growth of the city in practical assured, regardless of artificial aids. Let us see how New Liskeard stands in this respect. In the first place, she possesses a natural source of power on Lake Timiskaming, and in virtue of that position, collects business from every point on the lake, including the Quebec towns lying east, and the C. P.R. traffic from below, via Mattawa and lower Timiskaming. Secondly she stands in the gateway of the great farming belt to the north, being practically at the point of that "V" of fertile land extending from the boundary of the Cobalt mineral region to the famous Height of Land, and beyond. Thus, Lake Timiskaming to the south and the rich productive lands to the north, necessarily use New Liskeard as a distributing centre, and must obviously continue to do so.

Add to these considerations the fact that she possesses a natural source of the purest spring water, which is supplied to the town by an efficient municipal system of waterworks, and it will be seen that the pioneers of New Liskeard were wise in their generation, and pitched their tents with prophetic instinct.

Who will take a share in the development of this coming northern centre?

George Weaver, President Timiskaming District Board of Trade.

Bank Vault Wrecked.

LAKELVILLE, Conn., Sept. 10.—An attempt was made this morning to rob the vault of the Robbins, Burdell & Company's banking establishment. The vault doors were blown open, and the interior of the establishment wrecked.

Surprised the Visitors

New Liskeard's Prosperity a Delight to Legislative Party.

NEW LISKEARD, Sept. 10.—(Special.)—An overflowing meeting gathered in the Methodist Church at New Liskeard to meet the ministers and members of the Ontario Legislature. The party arrived at 6 p.m., and were met by the mayor and president of the board of trade, with the aldermen and committee of the board. A long procession of vehicles, headed by the town band, conveyed the visitors round the town to the church, where the address of greeting was read by Mayor F. W. Haynes, and replied to in hearty terms by the Hon. E. Cochrane on behalf of the legislature. Among the speakers of the evening were: Col. Matheson, E. T. Shillington, M.L.A., Dr. Reid of Ottawa, and Mr. Garr of Renfrew. Many of the visitors were seeing the district for the first time, and the general feeling expressed was surprise at the fertile character of the country, and the up-to-date growth of the town.

Business Is Dead

We have been extremely busy for three weeks, but on the outside traders are kicking because they are not able to make profits. These individuals are playing against public holders of stocks. The profits of these players depend upon public selling. This is not taking place, as good stocks are held tenaciously. Charter.
 Dominion Ores Limited obtained its Charter by Letters Patent, under the Ontario Companies Act, and subject to Part XI thereof, which makes its shares fully paid and non-assessable. Statutory Prospectus filed with Provincial Secretary, Aug. 10th, 1909.

The property of Dominion Ores Limited consists of two hundred acres, forty acres of which is located in the Maple Mountain District. It adjoins the well known White Reserve Mine on the east and has the extension of at least six of the White veins in addition to a number recently uncovered and not known to exist on the White claim. These veins consist of Cobalt and Calcite, with big Silver values. Two veins show solid Cobalt metal on the surface, showing as high as 22 per cent Cobalt. The ore sacked on the White property has been taken out within thirty feet of the surface from open cuts. They found it advisable to put their working shaft down on barren ground and it is only recently that any of their veins have been reached by cross cuts from the 150 foot level. A complete nine drill compressor plant has been installed, equal to any in the whole Cobalt district. A first class wagon road has been constructed to Lady Evelyn Lake and a winter road to Latchford. The first car of five thousand ounces ore is expected to be shipped out at once, a car or two of second grade will follow.

Dominion Ores will at once install a steam plant which has been purchased from the White Mine, and sinking will begin on one of their rich veins. Six other veins will then be reached by a seventy-five foot cross cut. The other 160 acres of Dominion Ores is located in Beauchamp Township three and one-half miles from the T. & N. O. R. R. and consists of four forty acre claims, the formation is all Diabase. Shortly after these were staked the Company uncovered an excellent Calcite vein carrying 435 ounces of Silver on the surface. This is a remarkable surface showing and is sure to develop into a rich shipping mine as some depth is attained. The Directors are elated with the showing and development of this vein will commence in the near future.

NOTE: Smallness of Capitalization. Location of Property. Number of Veins Now Uncovered. Shipping Ore on the Surface. Accessibility to Market. Aggressive Management.

We own and offer 100,000 shares of **GOWMAN & KNIGHT,** this stock at par, Twenty Five Cents. 1007-8 Ford Bldg., Detroit, Mich.

For the convenience of Toronto investors arrangements have been made with Heron & Co. to accept orders for this stock, or you may place your order with any reputable broker.

QUORUM NOT PRESENT AT ROCHESTER MEETING

Adjournment Made For Further Consideration—President a Small Shareholder.

There was not a sufficient number of shareholders' proxies attendant at the meeting of the Rochester Mining Co. yesterday to form a quorum, consequently no official business was put through.

President Wheeler asked for an opinion from the shareholders present as to how the new issue should be allotted, and after considerable discussion, the consensus of opinion was that the 500,000 shares should be issued at ten cents to shareholders of record on Sept. 20, when the next meeting will be held.

The president reported that development work was completed on charges of the shaft. After losing this vein it was decided to stop out the body of ore encountered at 12 feet. This was begun and development showed that the ore was becoming richer. The president said it was impossible to estimate the amount of ore in this stop, as all work was stopped and funds were running low.

Such of the old machinery plant as was no longer needed had been disposed of, consisting of an old hoist which the company had outgrown and their horses. There were left in the treasury five hundred dollars and all debts had been paid up to date.

On being questioned as to his holdings of the company's stock, the president admitted he only held one hundred and eleven shares in his own name.

THEFT OF PHOTO CHARGED

Refused to Return It When He Couldn't Sell Frame.

Here he is again, the man who will enlarge your photograph for nothing if you buy the frame. Mrs. Lillie Smith, 209 Wellesley-street, hailed A. J. Clark of the Mount Royal Art Company to police court charged with theft of a photo of her little girl. Clark had got the photo on the old dodge and then refused to return it when Mrs. Smith refused to give up \$3 for the frame. The case was adjourned till Monday, to allow Clark to produce the photo to avoid conviction for theft.

Jung Sing and Aung Chong, celestialists, were again remanded on charges of keeping a disorderly house, to wit: an opium joint and a common gaming house at 117 West Queen-street.

Adam Aiger accused his son-in-law of stealing \$200 from him, but his worship regarded the transaction as a loan and dismissed the case.

John Sedgewick, driver for John McDonald, 3 McCaul-street, liquor dealer, was fined \$100 and costs for selling liquor from his employer's wagon on the street. A charge against the employer in respect of the same sale was withdrawn.

John Bell, charged with criminal negligence in razing the wall which fell

NO DRUNKS AMONG TROOPS

Militia Department Issue Denial of Glace Bay Rumors.

OTTAWA, Sept. 10.—(Special).—E. F. Jarvis, acting deputy minister of the militia department, has issued a statement in which he denies that there has been much drunkenness among troops on strike duty at Glace Bay.

The report of the officer commanding the militia province has been received at the department, and it is to the effect that a statement made in the press despatches is fallacious, unjust and largely incorrect.

The report says that only a few cases of drunkenness have occurred among over five hundred men scattered into numerous detachments.

\$3.50 Recipe Cures Weak Men—Free

Send Name and Address To-Day—You Can Have It Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, falling memory and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain ordinary sealed envelope, to any man who will write me for it.

This prescription comes from a physician who has made a special study of men, and has discovered it is the recipe in a plain ordinary sealed envelope, to any man who will write me for it.

I think I owe it to my fellow men to send them a copy in confidence, so that any man anywhere who is weak and discouraged with repeated failures may stop drinking himself with harmful patent medicines, secure what I believe is the quickest-acting restorative, and be cured at once. Just drop me a line to this: Dr. A. E. Robinson, 2823 Luck Building, Detroit, Mich., and I will send you a copy of this plain ordinary sealed envelope free of charge. A great many doctors would charge \$2.00 to \$5.00 for merely writing out a prescription like this—but I send it entirely free.

CIVIC EMPLOYEES NEED MORE AUTOMOBILES

But Board of Control Will Talk It Over First—Street Railway Receipts Grow.

Quite a number of civic officials would like the use of automobiles to assist them in the performance of their duties, according to a report presented to the board of control yesterday by Property Commissioner Harris. At least five more cars are required according to the commissioner, but the controllers, after briefly discussing the matter, postponed further consideration till they favored the purchase of a car for Fire Chief Thompson.

Dr. Sheard was modest in his request, stating that he only needed an auto for about four hours a week. City Engineer Rust was more exacting and stated that an additional machine for the use of Assistant Engineer Scott is essential, and that immediately.

He considers that a car would add to the efficiency of the work of his department, Parks Commissioner Wilson at the same time shows a desire to halve the cost of the party thru the organization of the Democratic League, the Democratic conference concluded two days' session to-day.

ST. CATHARINES FRUIT SHOW

ST. CATHARINES, Sept. 10.—The Pomological Society of America will hold its biennial conference at St. Catharines Sept. 14 to 18 on the invitation of the Ontario Fruit Growers' Association, the Niagara District Fruit Growers' Association and St. Catharines Horticultural Society, one of the largest in Canada, and with the approval of the Ontario Government. The date has been selected in order that the members may have an opportunity of attending the Niagara District Horticultural Exhibition, Sept. 15, 16, 17. It is expected that the display of fruits will be the finest ever shown in the Dominion. The flower and vegetable exhibition will be on a large scale.

PILES CURED AT HOME BY New Absorption Method

If you suffer from bleeding, itching, blind or protruding Piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment; and will also send some of this home treatment free for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write to-day to Mrs. M. Summers, Box P65, Windsor, Ont.

\$75,000 FIRE AT ALMONTE

Number of Merchants Suffer From the Flames.

ALMONTE, Ont., Sept. 10.—Fire which did damage to the extent of about \$75,000 broke out at three o'clock this morning in a frame structure in the rear of a business block on Mill-street occupied by James Patterson, druggist; W. Kaufman, hardware; and W. West, general merchant.

Adjoining the building first attacked were several other frame buildings, and these soon fell a prey. It also ran and enveloped the sheds and stables in the rear of the Commercial Hotel, and soon these fine premises and the large three-story brick hotel were in flames.

All the fine business blocks were totally destroyed, together with their contents. It spread in the rear and a stable owned by J. K. Cole was burned

CIVIC APPOINTMENTS

W. R. Sweeney has been appointed contract agent and James P. Ritchie craftsman in the city electrical department, the salaries being \$1,200 and \$200 and \$55 per month respectively. The appointment of Clarence McCall as assistant engineer at \$100 per month salary and Harry Jacob, assistant engineer at \$65 a month are also recommended.

SUGGESTS KING NORTH

Weak Men, Wake Up!

If disease has wrecked your system or you have allowed evil habits and excesses to prey upon your vitality, you need my help. Nature intended you to be a man and that you should make your mark in the world, but you are only half a man if your nerve power is exhausted—if the vital spark has fled from your system. True, your body has not returned to dust, but in other respects you are about as near dead now as you ever will be.

Might just as well send word to your relatives and friends—hold the funeral service and have it over with.

One by one the days go by, and with them the opportunities of life unnumbered.

Are you ready to give up? Oh, no, you are "doctoring" right along, taking medicine. "Getting better?" "No, getting worse."

Why not use a little reason? If you are suffering from weakness, nervous debility or general debility, drugs can't help you. What you need is more Vitality. Vitality is not in drugs. You get that from my Electric Belt, for human vitality is nothing more or less than Electricity.

My Electric Belt is curing case after case that drugs have failed to cure. Let me put this appliance on your body—wear it a month or two every night, and I'll make a new man of you.

See what men say who have used it. I get scores of such letters every day.

HIS RECOVERY WAS DESPAIRED OF.

181 Sanford Avenue, Hamilton, Ont., May 7, 1909.

Dear Sir:—I am well satisfied with your Belt, as it had a wonderful effect upon me, as is shown by the fact that at the time I bought it I was in such poor health that my recovery was almost despaired of, but the wonderful effect of your Belt was felt before I had it on one week. It has given complete satisfaction, and I consider the expenditure I made is a mere trifle as compared with the wonders it has worked in my case. I hope your Belt will prove such a help to others as it has to me. I never neglect the opportunity to recommend your Belt at any and all times. Yours very truly,

CHARLES RUBE.

If you haven't confidence in electricity, let me treat you at my risk. I will give you the Belt on trial, without one cent of risk to yourself. Give me reasonable security, and I will take your case, and

YOU NEED NOT PAY UNTIL CURED

Let me treat your case in my own way. Let me apply a steady current of Galvanic Electricity to your weakened system with my Dr. McLaughlin's Electric Belt. Wear the appliance night after night, for a few weeks, and you will find all these pains and aches; it will restore energy and equilibrium to your nervous system; it will fill your body with fresh strength and energy; it will give you back the powers of manhood, and make you a man among men.

The Dr. McLaughlin's Electric Belt is a cure for all signs of breakdown in men and women. The vitality of the body is Electricity—the force in the nerve cells. My Electric Belt will give you back the power and enable you to fight on in the battle of life.

Chicago Cattle.
 J. P. Blockell & Co., assy at the close of
 the market:

Wheat—Higher. After a slightly lower
 session, values, owing to continued short-
 covering, advanced throughout the session,
 closing at 102 1/4 for No. 2 and a cent and a
 quarter higher than previous close.
 There is not anything new in the situa-
 tion from what we have stated in pre-
 vious letters; receipts continued free, but
 cash demand sufficient to absorb them
 at the close of the market. This
 naturally leaves the short seller at the
 futures at the present discounts under
 cash in an untenable position.
 We caution committing on bulges, as
 there will probably be weak spots in the
 market, occasionally due to short selling
 and profit taking, but we continue to fa-
 vor the long side on all fair declines, bas-
 ed on the close of the market. We
 offer our opinion on the probable excellent
 demand for flour the coming three
 months.

Bartlett Patten & Co. (Beaty & Glas-
cock) wired:
 Wheat—Liverpool opened firm at an
 advance of 1/4 in response to our strength
 yesterday and light shipments from Ar-
 gentine. Our market opened steady at
 about last night's prices for December
 and May, while the September was strong
 at 1/4 to 1/2 advance on covering by
 shorts. Market sold off on weakness in
 the northwest wheat, where receipts were
 heavy. Cash premiums in Minneapolis
 about the same as yesterday. Later in
 the session the northwestern markets
 turned strong and led the advance of 1/4
 from the low point. Commission houses
 were fair buyers on the upturn and sell-
 ing pressure was lacking, which made the
 advance easy.
 Corn—Opened irregular in price, but
 was quickly lower on heavy realizing,
 both for local and outside country ac-
 counts. A decline of about 1/2 took place,
 and the recovery was gradual until wheat
 from shorts in September, which the lead-
 ing houses supplied.

Parade of 300 Prize Winners Closes Canada's Great Fair

Over One Hundred Thousand Dollars' Worth of Canada's Representative Cattle and Horses of All Breeds File Past the Grand Stand.

From the agricultural view point, the Canadian National Exhibition, which closed by interest for the year 1909, when at 3.30 p.m. the parade of prize-winning animals marched out of the west gates. For over half an hour the Toronto Canada's best representative cattle and horses poured past the grand stand.

At a low calculation animals to the value of \$10,000, the pride of scores of Canada's good citizens passed in review. These in all the classes with few exceptions would be declared good by most cautious judges.

The following that passed before the admiring thousands were classed as follows:

In cattle, the beef breeds were: Shorthorn, 21; Herefords, 14; Polled Angus, 7; Galloway, 2.

And the dairy breeds numbered: Ayrshire, 17; Jerseys, 10; Guernsey, 8.

Making a grand total of 115 cattle, which at an average valuation of \$80, would total about \$9,250.

Sir Wm. Van Horne's champion shorthorn cow near the head of the procession alone is held for over \$3500.

Of our fourtooted friends the horse is perhaps the most admired by men, women and children. One hundred and eighty-seven horses, the plaudits of admiration for each successive breed pointed to the hold the whole equine creation has upon the popular affections.

Ponies and Clydesdales had the largest numbers. The numbers of the several classes were as follows:

Thoroughbreds	7
Roadsters	16
Standard-bred	14
Ponies	39
Hickory	10
Carriage and Coach	10
Clydesdale	22
Shire	9
Heavy draught	12
Percheron	5
Cart	3
General purpose	9
Carriage teams	4
Singles	5
Delivery	5
Expressers	4
Saddle	1

All a variation of \$40 each, and this 187 would total about \$75,000.

The Draught Breeds.
 The Clydesdale-well tipped in the lead of the parade—Gartley Eridon is the leading draught horse of Canada. He has drawn himself on the farm and on the pavement. No other breed has been so much the popular demand on this side of the water as yet. Altogether there are many murmuring heard in some quarters as to the advantage to be gained by the importation of the British blood, that sentiment will be hard to cultivate in Canada, and more particularly in Ontario. What the objects of the parade are, is a greater weight in their draught horse. They say the Clyde does not produce the biggest horses. But onlookers at this prize-day re- sponded to the cry of the other breeds for superiority in this line. It is true that the Shires and Percherons were good animals. The Shires had some big ones, quite different from the big, hairy-legged, small-footed animal of a decade ago. The massive restless Percherons had only a few and little of the breed was a credit to the breed. It was a credit to the breed, but not a leader in draught animals.

However, there was no more weight among them, no better feet and legs along the line of twenty-two prize Clydesdale stallions, marks and color. The parade passed off without a hitch beyond the frightened prancings of the high-stepping Hackneys, whose timidity at the dancing girls had some big ones, quite different from the big, hairy-legged, small-footed animal of a decade ago. The massive restless Percherons had only a few and little of the breed was a credit to the breed. It was a credit to the breed, but not a leader in draught animals.

Receipts from Stock Yards.
 The following is a comparative statement of the receipts of live stock at the city market for the corresponding week of 1909, and also for the corresponding week of 1908.

	1908	1909
Cattle	261	254
Hogs	2664	2380
Sheep	7874	1491
Horses	539	53

Union Stock Yards.
 The following is a comparative statement of the receipts of live stock at the Union Stock Yards market for the corresponding week of 1909, and also for the corresponding week of 1908.

	1908	1909
Cattle	123	128
Hogs	2070	2745
Sheep	700	1014
Calves	39	101
Horses	96	120

The Union yards show a substantial increase of receipts for all classes of live stock, while the city yards show a decrease in all classes with the exception of hogs, which shows an increase of 100, and also for the corresponding week of 1908.

WELL KEPT APPLES.
 Wm. Burton of Whitvale presented the agricultural editor this week with a Gravenstein apple picked one year ago. It was perfectly sound and had a fairly good flavor. Another one of the same variety, picked three years ago, was also presented. It had several spots of decay, but was a wonderfully good state of preservation. The apple passed off without a hitch beyond the frightened prancings of the high-stepping Hackneys, whose timidity at the dancing girls had some big ones, quite different from the big, hairy-legged, small-footed animal of a decade ago. The massive restless Percherons had only a few and little of the breed was a credit to the breed. It was a credit to the breed, but not a leader in draught animals.

IMPORTED CLYDESDALE MARES, COLTS AND STALLIONS
 THE PROPERTY OF
JAMES J. HALES, CHATHAM, ONT.
 LOT 3, CON. 2, CHATHAM TOWNSHIP
 adjoining the town limits, on
WEDNESDAY, SEPTEMBER 1st, 1909

"Having other business interests that will make it necessary for me to be away from home for some time, I have at last decided to dispose of the following valuable stock, consisting of nineteen head of Stallions, Mares and Colts, both imported and home bred. My Mares were all selected with an eye to their own individual merit, as well as to their breeding, and most of them have already proven their quality as brood mares. All my Horses, except Stallions, are out on grass, and will be sold in their natural pasture condition, so that their weak points, if they have any, will be plainly visible to the naked eye, and not covered with a couple of inches of show-yard fat; moreover, parties buying any of my Horses will get them in a healthy, natural condition, and will not be troubled with sickness after purchase, as would probably be the case if sold in the usual show-yard condition. I consider every Mare in the catalogue safe in foal, as they were bred early and had the strictest attention paid to the ninth week under my own personal supervision.—J. J. Hales.

TERMS:—Six months old bankable paper, five per cent. discount for cash.

Send for catalogue to-day, and be sure to go to Chatham to the sale.

Simpson's Broadcloth Showing

BROADCLOTH is among weaves what black is among shades—a criterion of a store's standard. We want you to judge our dress goods department's claim to supremacy by our values in broadcloth. In the palatial department of this new store, where dress fabrics are collected and sold, broadcloths occupy a large and important place, and that section is the one we particularly emphasize for to-morrow's visitors.

Beautiful, rich, queenly Broadcloths, the leading favorite for fall and winter. In soft, uncrushable chifon, suede and peon finishes, made from selected Botany wools by one of the best European manufacturers, and dyed by expert dyers in France; a delightful range of new shades, including the new anemist tints, ashes of roses, vieux rose, ox-blood, Burgundy, fustian green, navy blues, Alice, navys, wood brown, seal, peach, light mauve, helio, sky, re-sed, Nile green, champagne, fawn, or grey, cream, ivory, white and black; every wanted shade is represented, whether for street wear, tailored suits, or dainty evening wear and reception gowns. Our Broadcloths are thoroughly sponged; 52 and 54 inches wide. Monday, per yard, \$1.00, \$1.25, \$1.50, \$2.00, \$2.50 and \$3.00.

50c and 65c Silks for 39c Yard

THESE Silks are the fashionable Silks for this Fall—peau de soie, cords, peau de chine—all those bright, glossy silks which came in so strongly last year, and will continue this season more emphatically than ever. We intend to make Saturday a very noteworthy day for visitors to our magnificent Silk Department, and to this end the following very striking offer is made:—

8,000 yards of Fashionable Dress and Lining Silks, French and Swiss peau de soies, French and Swiss peau de chine, French and Swiss colored taffetas. Our special linen and silk, wear guaranteed, taffetas, rich satin, mervelux; every possible shade you want in this collection of fashionable silks, plenty of white, ivory, cream and black. These rich qualities sell usually at 50c and 65c yard. On sale Monday 39c. Mail and phone orders filled for black only. (See Yonge St. Window Display.)

The Wide, Wide World

The well-known and beautifully pathetic picture by Laura Muntz, has been purchased by the Robert Simpson Company, and reproduced in the original colors.

The picture has been admired by thousands—the poor, gentle-faced, little orphan girl, realizing for the first time that she must face the "Wide, Wide World."

For convenience of customers who come from outside points we have had a number of the reproductions framed up in an attractive way, and offer them at a very popular price—98c.

Unframed and packed in tube for mailing we offer these pictures for 25c each.

Were You Warm Enough Last Night?

THE burning question of the day is—who discovered the North Pole?

The far-from burning question of these last few nights is—where can I find another blanket?

Perhaps last winter's blankets are put away—perhaps they are lost or worn out or shrunken. At any rate it is just to know how cheaply new blankets can be purchased just now in this store's annual September Blanket Sale.
