## Spring is Here and Bicycling Has Come Back !

CYCLING SELDOM was so popular in the forty years of its existence as it is today, and this summer it is destined to be the prevailing pastime of men and boys, and even women and girls. In the manufacture of the bicycle great advancements have taken place, new inventions and improvements added, until now the acme of efficiency has almost been attained, and the new 1916 models for men, women and children are a marvel of ease and comfort.

### Besides Being a Healthful and Ideal Pleasure, the Bicycle Has Many Various Uses.

For business men and boys it is used constantly to travel to and fro from home to business in the morning, at noon and in the evening, at a quickness that is a wonderful saving of time and a substantial saving of street car money, as well as permitting the rider to enjoy the freshness of the air. For delivery purposes and messenger services the bicycle is a handy emergency, very extensively used throughout the city by many business firms.

### When Buying a Bicycle it is Important to Note This:

By buying bicycles for cash we are able to make exceptionally good terms with the manufacturer, and by selling them for cash we allow nothing for the collecting of purchase money, allowances on old wheels, agents' fees, etc.

Therefore, when you buy a bicycle at EATON'S you pay a sum which represents but a small, reasonable profit above the actual cost of reproduction.

Hence such high-grade bicycles at such moderately low prices.

### Bicycle Accessories, Emergency Cases and Tires

POSSIBLY you own a bicycle that is without mudguards, or a coaster brake, or possibly the reason you haven't been riding this year so far is because the front wheel needs a new inner tube, or a new pedal or rim is required.

Whatever the need or accessory be to make it navigable, get it now and get your bicycle into shape for a spin next Saturday afternoon:

Clip out this list of prices, it will be handy and useful when you're in need of supplies:

### Use the Bicycle to Take You Out to a Suburban Camp After Business Each Day

THE PICTURE BELOW, which our artist has sketched, illustrates a very enjoyable and convenient plan for an all-summer's outing. Several business men and boys, each with a bicycle, could wheel out each day after work into the glorious picturesque haunts that abound around Toronto, to some quiet, secluded camping spot and enjoy several hours of fun at boating, swimming, baseball, etc., then sleep in comfort and coolness under a canvas tent.

And what could be more enjoyable than to ride along the quiet country road in the cool hours of the morning on the way in to business? How fresh and healthy and invigorated you'd be for the day's work and how you'd appreciate closing time each day to hop on to your bicycle and peddle out from the hot, sultry and dusty city to the pure exhilarating air of the country where if you camped near the lake

shore you could enjoy a duck in the cool waters before sitting in to a camp-cooked meal.

This is a practical plan that can be very satisfactorily worked out for a whole summer season, and it is found that there is nothing that will so conveniently and quickly land a person at his destination during the rush hours of a city as the handy easy running bicycle.

### Y. M. C. A. CAMPAIGN IS SUCCESSFUL

Half of Toronto's Amount Raised in First Day's Efforts.

#### MAJOR BIRKS' APPEAL

With Rev. G. Adam, He Addressed National Club Luncheon Yesterday.

The first day's efforts netted the Y. M. C. A. canvassers considerably more than half of the \$75,000 which Toronto is expected to raise. Treasurer E. R. Wood announced at the National Club luncheon yesterday that the subscription up till noon yesterday totaled \$44,950.

Major Gerald Birks, head of the Canadian Y. M. C. A. in England and France, and Rev. Geo. Adam, in short addresses, laid before the committee the work carried out by the association at the front. Dollars would never be better spent, the major said, than on assisting the Y. M. C. A. to keep up the spirits of Canada's fighters. Without some relief from the monotony of the life, he said, their was grave danger to the moral and physical welfare of Canada's boys.

Everything to Soldiers. Rev. George Adam said the Y. M. C. A. was father, mother and church to the soldiers. He wasn't an association man himself, but would lend his every effort to aiding them in raising money, because in the work the Y. M. C. A. accomplished money really didn't count.

The committee and Major Birks were naturally elated at the response to the appeal for \$75,000. The committee think that possibly one more day will see the necessary amount subscribed.

Subscriptions Received. The larger subscriptions reported at the luncheon yesterday were: Colonel Leonard ... \$10,000 C. D. Massey ... 5,000 E. R. Wood ... 5,000 Sir John C. Eaton ... 5,000 J. W. Flavelle ... 5,000 Canadian Bank of Commerce ... 2,500 Wood, Gundy & Co. ... 2,500 Central Can. L. & S. Co. ... 1,000 Gordon, Mackay & Co. ... 1,000 Byrie Bros. ... 1,000 Firstbrook Bros. ... 1,000 F. H. Deacon ... 1,000 City Hall Employees' War Fund ... 600 H. E. Williams ... 500 Ratzliff Paper Co. ... 500 J. E. Russell ... 500 Provincial Paper Mills ... 500 D. E. Thomson ... 250 G. S. Deeks ... 250

Total subscription ... \$44,950 The announcement of the larger subscriptions was punctuated with Harris announced that the city employees raised \$600 the others were donating. In addition to the foregoing, the Bank of Commerce has promised \$2500.

### MAN OF MANY ALIASES CHARGED WITH VAGRANCY

Believed to Have Hailed From Montreal and Was Known as "Capt. Gunter."

R. W. Gunter, a young man of many aliases, appeared in the police court yesterday on a charge of vagrancy and was remanded pending enquiries in Montreal, where it is believed he hails from. Gunter appeared in Toronto a few weeks ago, and has been known as "Capt. Gunter," "Major" Gunter, V.C., and various other titles. Detective Taylor, who arrested Gunter, told the court that he owed him \$4 for hotel accommodation and the like.

### CHARGED WITH SHOP-BREAKING.

Because he failed to explain how he came to be sleeping on the premises of the City and Jewel Supply Company, 495 West King street, recently, Pte. William Hyland of the 109th Battalion, Lindsay, yesterday appeared on a charge of shop-breaking in the police court. He was remanded till May 1.

### PROROGATION CEREMONY AT LEGISLATURE TODAY

Hundred and Eighteen Bills Will Receive Assent of Lieutenant-Governor.

### EASY ACCESS TO CHAMBER

All Brigade and Commanding Officers of District Will Be Present.

One hundred and eighteen bills will receive the assent of the lieutenant-governor in the name of his majesty at the prorogation ceremony of the legislature, which begins at 3 o'clock this afternoon.

It is indicated that access to the chamber will be much easier than at the opening of the session. Few applications for seats in the Speaker's gallery have been received. Practically all the brigade and commanding officers of the military district will be present. They will occupy the members' benches and the floor of the house.

The lieutenant-governor's escort will be formed by the Royal Canadian Dragoons. The 15-gun salute at his approach will be fired by a detachment of the 48th Depot Battery, C.F.A., C.E.F. The guard of honor will be drawn from the 95th Battalion.

### NEGLECTED TO RETURN TO SCENE OF ACCIDENT

William Robinson Remanded in Police Court and Allowed Out on Bail.

For neglecting to return to the scene of a motorcycle accident at the corner of Queen and Markham streets on the night of April 11, when David Hawthorne, who died later in the Western Hospital from injuries received, was struck by a motorcycle while crossing the street, William Robinson appeared in the police court yesterday, and was remanded until Monday without pleading or electing. He was allowed out on bail of \$2000.

### SOLDIER CHARGED WITH CRIMINAL NEGLIGENCE

Pte. Ghent, Who Accidentally Shot His Stepdaughter, Remanded Till Today.

Private Ghent of the 85th Battalion appeared in the police court yesterday on the charge of criminal negligence, the wording of the charge setting forth that, having a revolver in his possession, he omitted to use precaution against possible danger, in consequence of which he did "shoot any little Dorothy Rumble. Ghent was remanded until today.

### FOR YOU TO WIN A GOLD WATCH.

The Toronto World, in order to assist the 216th Bantams Battalion to get recruits, is starting a competition today. This consists in filling in, in the attached coupon, the name and address of any man you think should join the Bantams, and sending it in to The World. No names will be published, either of the sender or the suggested recruit. But when the names are received a representative of the 216th Bantams Battalion will call on the person named in the coupon in an endeavor to secure him as a recruit. Records will be kept of the names of those who send in other names, and at the end of a stated time the man, woman, boy or girl, whose suggested number of recruits, will be presented with a gold watch worth \$25. To the person whose suggestions result in the second largest number of recruits attested a gold watch worth \$15 will be given. If the winners want the money instead of the watches they can have it. They can have wrist watches of any kind they like. Just remember, no names will be published, and announcement of the close of the contest will be made later. All you have to do is to fill in the coupon and post it to The Toronto World, marked "Bantams Contest."

AT NEWARK, NEW JERSEY, U. S. A. TORONTO OFFICE AT 209-216 DOMINION BANK BUILDING, KING AND YONGE STREETS, THOMAS J. STEWART, Supt.

THE PRUDENTIAL INSURANCE COMPANY OF AMERICA Has no connection with any other life insurance company and should not be confounded with any present or former company of similar name. It has especially earned the approval of Canadians by its liberal policies, its absolutely fair dealings and its promptness in paying claims. Due to wise and efficient management, the rates for Prudential Insurance Company of America policies are unusually low. The field covered by The Prudential Insurance Company of America policies is so wide that there is a policy which exactly meets the need and the pocket-book of every man.

# THE PRUDENTIAL INSURANCE COMPANY OF AMERICA settlements are promptly made

These are several reasons why there are more than 14,000,000 Prudential Insurance Company of America policies in force at the present time, insuring more than 2 Billion \$10 Millions of Dollars. They also in part account for the fact that The Prudential Insurance Company of America wrote \$28,000,000 of life insurance in Canada in 1915—an increase of \$4,000,000 in Canada over 1914, and part of \$581,000,000 written by The Prudential Insurance Company of America in 1915 in the United States and Canada. Payments to Prudential Insurance Company of America policyholders since the organization of the Company, plus amount held at interest to their credit, total more than 738 Million Dollars, and over \$43,000,000 was paid to these policyholders last year. Since The Prudential Insurance Company of America has been mutualized and policyholders have become owners and share in the profits of the Company, there is more reason than ever why when you think life insurance you should think

Safety League Suggestion to Form Patrols Adopted by Board of Education.

### UNIVERSAL TRAINING

Two Motions of Dr. Noble Will Be Considered at Special Meeting.

At a meeting of the management committee of the board of education yesterday afternoon it was decided to adopt a suggestion made by the Ontario Safety League that patrols to further the safety of children leaving school be formed of the senior pupils. The proposal was explained to the committee by a representative of the league, who said that in the States the matter had been successfully undertaken. Senior boys, appointed by the principal and teachers of the school, should be provided with badges and allowed to patrol the boundaries of the school to see that the smaller children were cautious in crossing the streets. On the motion of Trustee Hunter the proposal will be adopted

### TWENTY-THREE MILLS MAY BE CITY'S RATE

Taxes May Be Lower Than Mayor Church Predicted—Controllers Decide Today.

The board of control had all the estimates from the treasury officials yesterday morning, but instead of striking the tax rate as they intended they adjourned for a private conference in the mayor's office. After the meeting the mayor made a statement which somewhat revised his former predictions of a 25-mill tax rate. "So far as I am concerned," he said,

### Back Was Lame and Ached; Could Do Very Little Work

Suffered Much From Kidney Disease for Years, But Cured Came With the Use of Dr. Chase's Kidney-Liver Pills.

Doctors had tried to cure this man but failed to get at the cause of trouble, probably because they relied on medicines which act on the kidneys only. The strong features about Dr. Chase's Kidney-Liver Pills is their combined action on liver, kidneys and bowels. In many of these cases the disease is so complicated that ordinary kidney medicines fail to be of much benefit. Under such conditions Dr. Chase's Kidney-Liver Pills usually touch the spot and effect a cure. Had they been only moderately successful, Dr. Chase would never have selected them for world-wide distribution. As it was, the demand for these pills resulted naturally from their superior merit, and there was nothing else to do but supply them in large quantities. Mr. Simeon Shieloff, Birchbrook Or-

### CITY HALL NOTES

A letter requesting Capt. G. R. Geary, the corporation counsel, to return to Toronto as soon as possible, has been sent by City Clerk Littlejohn. The motion, passed by the city council, is summarized in the communication, and Capt. Geary is left to arrange with the military authorities for his discharge from the service. The city solicitor's recommendation to appeal against the judgment in the Murch case has been deferred by the board of control for a conference. By the terms of the judgment the city is obliged to pay Frederick Murch of Danforth avenue, \$2871, that amount having been paid A. P. Lobb, his solicitor. It is said that the money was never paid to Mr. Murch by the solicitor, and action was taken to recover from the city. Mayor Church is preparing a proclamation to be made in connection with the Tag Day for the benefit of recruiting in the city. His words will urge the citizens to respond generously to the appeal for funds.

There can be little doubt from the reports sent over about the proceedings of the secret session in the house of commons, in London, that conscription is near at hand in Great Britain.

What most astonishes in the statement attributed to Mr. Asquith is the small number of men, comparatively, that are needed. To say that for lack of 200,000 men conscription is necessary would seem to indicate that the limit has been very nearly reached.

Chiefly and comprehensively, the idea is to furnish quarters where the men can resort when they are not actually in the trenches. They wish to write letters. They wish to play draughts. They wish, perhaps, to get a cup of tea or a dish of soup.

There has been no need to tell anybody who has kept in touch with the situation. In a world war like the present every available man is needed, and the idea that the Germans might get to know how short the army was of men, or how few men there were to draw upon, is not one to worry over.

The Germans probably know better than ourselves what our resources are. In fact our policy is to refuse admission to find out what our actual resources are. The sooner we stop this foolishness the better. We ought to have our resources all tabulated, and every man on the lists with his capacity, his willingness or his unwillingness marked against him, and his availability for service noted.

There should be no question of the right of the nation in an extremely to expect the hearty co-operation of the men of the nation. The percentage of slackers is not so great, after all, and those who will not fight can be put to some peaceable service. There should be no man idle in the days when the safety of the whole British policy is in danger.

There is not the slightest doubt that politics have a great deal to do with the reluctance of the British authorities to introduce conscription. The measure is held up, according to various authorities, by the labor men, by the liberals, by the radicals and by the church parties. Were there forcible leadership which would unite the nation as one body for the proper conduct of the war none of these suggestions would have any weight.

The labor men as a group are any other body of men on the war question. No radical has any sympathy with German militarism. The liberals know that their political existence depends upon their loyalty to national ideals. The church parties, which are not enthusiastic about the war, are a negligible quantity. The great bulk of the house of commons would support any ministry which showed strength in proposing war measures.

Grain and Stock Dr. C. C. James, the commissioner of agriculture, looks for a reduction of wheat-growing acreage in the west this year. There is all the more reason why Ontario farmers should get in all the spring wheat they can sow. Labor factors are going to count to some extent in the harvest, but the harvest is always got in in some fashion, and there should be more harvest bees in future if labor is short. Grain will be needed in larger quantities than ever, for the war has occupied the men of the grain-growing countries of Europe to an extent that must decrease production there.

When prices are considered, we may be sure that in the long run wheat is wheat. Prices rise and fall, but other prices rise and fall also, and it is generally a question of whether the prices have much to do with the ultimate prosperity of the farmer. He can be sure that what he gets out of the ground is profit in some form. In such years of war as these he may be sure also that he is rendering sterling service to his country in getting all that he can out of mother earth. Once he gets his grain in the barn he may hang on to it, as some farmers have been known to do, or he may seek around for other channels than the

WHAT HE WANTS

market for disposing of it. He need not seek far. It is going to be demonstrated to a greater extent than ever that the most profitable way to market for grain is down some animal's throat. Dr. James is clear on this point. There are going to be high prices all along the line for live stock. This is true whether the stock is in for killing or for breeding. Horses, cattle, sheep, swine, they are all in demand and will be more and more in demand.

Some farmers have figured on an end to the war this year, and have feared to be left with a large stock of products on hand. They need have no such fears. The war may end this year, but it is just as likely to continue for two years more, and the best judges can see no end to it for another year at least. So the farmer has everything to gain and nothing to lose by going in for an active campaign of crop-raising this spring. It is not too late, with the heavy rains that have fallen, to make headway in this direction yet. And if there should be no direct market for grain, the most profitable market for it in the world lies thru the slaughter house.

Helping the Boys An appeal has been made by the Y.M.C.A. to raise a sum of money to carry on the splendid work done by the association in the field of battle and among the men in the reserve stations. The sum allotted to Toronto, to be raised here, is \$75,000. This is not a large sum for the city, even considering all the immense demands that have been made upon the citizens by the many war causes which have to be supported.

It is unnecessary to endorse the Y.M.C.A. work but it is sometimes understood that it is wholly unsectarian, and that nothing of a proselytizing character attaches to it. In fact objections have been raised against it by some people, because it does not undertake this kind of work. It is an association for Christian young men and we are all Christians of one sort or another. The work it does in the field assists all kinds of men and asks no questions except what is the need. Full information will be given anyone who sends an address to 45 College street, and asks for the illustrated newspaper telling about the activities undertaken by the association at the front.

Chiefly and comprehensively, the idea is to furnish quarters where the men can resort when they are not actually in the trenches. They wish to write letters. They wish to play draughts. They wish, perhaps, to get a cup of tea or a dish of soup. They may wish to be entertained in such innocent but effective ways as the association has devised. All these things tend to conduce to the effective fighting qualities of the men. They are more contented, feel less afflicted with megrims, get toned up with human intercourse, and find themselves not out of touch with the old home ties. These things are essential and count more than pay and honors when the whole rank and file are to be considered. One man may get a V.C., but everybody wants a cup of tea or the chance to write a letter. It is little that we can do for these defenders of our liberties to offer them the cup of hot tea or the pen, ink and paper which may carry a last message to those at home.

The more one thinks of this work the more inclined one is to subscribe and subscribe liberally. And it is not only at the front that work is being done. Every training camp has its hut or tent. There are about twenty Y.M.C.A. tents within the sound of the German guns on the Canadian lines, and the campers are not afraid to be under fire.

It is not a goody-goody, white-haired willy proposition, but a great big-hearted effort to help the boys when they need it most. Perhaps your boy has all he needs and you can send him a parcel every month, but there are some of the boys just as brave as the rest, just as self-sacrificing, just as willing to die, and the Y.M.C.A. helps them.

GERMANS MASS ARMY IN FRONT OF SOISSONS Dutch Report Says Foe Will Attack When Allies Join.

NEW YORK, April 26.—A cable to The New York Journal from London today says: "The Star, of Rotterdam, published a statement that the Germans are concentrating infantry and artillery at the point of junction of the English and French lines in the western front."

The English have taken over the former French positions to a point variously placed. Sections and points north have been named as the place of junction.

LABOR CONSULTED BY GOVERNMENT LEADERS Attitude on New Conscription Scheme is Discussed in Secret.

CARSON IS DISPLEASED He Announces He Will Press His Resolution for "Equal Sacrifice."

LONDON, April 26, 3:20 p.m.—Premier Asquith, Bonar Law and Lord Ritchie, conferred today with a number of radical labor leaders to learn whether labor will offer any further opposition to the general conscription scheme proposed at yesterday's secret session of parliament.

It was officially announced that these attended a meeting of the parliament committee of Trades Union Congress, the executive of the general federation of trade unions, the executive of the labor party, and the executive of the miners' federation, the National Union of Railwaymen, the transport workers' federation, and the Amalgamated Society of Engineers.

Arthur Henderson, president of the board of education, and leader of the labor party in the house of commons, presided at the meeting, the proceedings of which were not made public.

Macdonald, Ben Tillett, Will Thorne and W. J. Wainwright, president of the Independent Labor Conference, attended the conference. Jowett presided at the labor conference on Monday, which voted opposition to the drafting of men.

The government scheme to give the voluntary system another trial, as explained yesterday, has not met with the approval of Sir Edward Carson, leader of the Unionist party, and his conscriptionist supporters.

Mr. Carson again has given notice of his intention to move a resolution, demanding "equal sacrifice from all men of military age."

WHAT A DOLLAR MEANS TO BELGIAN DESTITUATES

Sustenance in Sufficient Quantity to Keep One Person a Month.

The relative purchasing power of a dollar, particularly under the influence of the war, has become an interesting study with those the least interested in finances. Turning to Europe it is interesting to make comparisons. Canada is chiefly interested in the allied nations and particularly in Belgium, whose people have made history that will be remembered for centuries to come.

The Belgian Relief Commission has reduced the dispensing of relief to a scientific basis, and has by much figuring managed to save these millions from starvation in a land now absolutely barren of anything that would provide nourishment for the people.

The dollar—the Canadian dollar—the Belgian means much. To the middle class Canadian family the dollar represents an average meal for the family. In Belgium the same dollar means sustenance in sufficient quantity to keep one person from starvation a month. If every Canadian carry a last message to those at home.

Three million Canadians sending a dollar a month to the Belgian Relief Committee, 55 St. Peter street, Montreal, would save the starvation that today faces three million Belgians. The Relief Committee is now sending out a new appeal to Canadians to help pay the debt that the empire owes Belgium. A dollar will help and a dollar a month will be a guarantee against a future that holds little cheer for these heroic people.

OBTAINED ENOUGH MEN FOR WORK ON FARMS

Campaign Inaugurated by Department of Lands is at an End.

The campaign inaugurated by the department of lands, forests and mines to secure agricultural laborers to relieve the scarcity caused by the war has settled 500 men and is practically at an end.

The department feels that with the assistance of the retired farmers who have promised to go back to work and with the help of high school boys released for the summer the situation can be met.

ALASKA A NEW TOURIST PARADISE. By inaugurating a fine steamship service from points on the North Pacific Coast to Alaska, the Grand Trunk Pacific has unlocked the gateway to Alaska's tourist paradise.

The big, excellently appointed oil-burning steamships of the Grand Trunk Pacific, the "Prince Rupert" and the "Prince George," are providing service this season from Seattle, Victoria, Vancouver and Prince Rupert to the Alaskan points of Ketchikan, Wrangell, Juneau and Skagway. These steamships are lined up with the Grand Trunk Pacific's transcontinental line at Prince Rupert, and passengers are enabled to save at least two days on the Alaskan trip by using this route.

A new folder, describing and picturing this Alaskan trip and the journey through the "Norway America," has just been issued by the Grand Trunk Pacific. A copy of this publication may be obtained by application to C. E. Horning, district passenger agent, Toronto.

NO CONNECTION WITH ANY OTHER COMPANY

Prudential Insurance Company of America, Newark, N.J., is Advertising Thruout Canada.

In order that its thousands of Canadian policyholders might not be confused by the similarity in name, the Prudential Insurance Company of America, with home offices at Newark, New Jersey, U.S.A., is advertising throughout Canada that it has no connection with any other former or present day life insurance company.

The publication recently of notices to the effect that the Prudential, Winnipeg, had gone out of business, prompted the foregoing action on the part of the Prudential of America.

The Prudential of America has never been associated with the Prudential of Winnipeg, and is particularly anxious that all its policyholders as well as those contemplating taking our insurance should understand this fact. The two companies are as dissimilar as day is from night.

The Prudential of America has earned the approval of Canadians by its liberal policies, its fair dealings and its promptness in paying claims, and last year wrote more than \$28,000,000 of life insurance in Canada alone. This is but a part of the \$81,000,000 it wrote in 1915 in the United States and Canada.

It has 44,000,000 policies on its books today insuring more than two billion eight hundred and ten million dollars, and since its organization has paid out more than seven hundred and thirty-eight millions of dollars to policyholders, plus the amount held at interest to their credit. The payments to policyholders last year alone totaled over \$48,000,000.

NEW FACTORY FOR GUELPH.

GUELPH, April 26.—A new sewing machine factory will be constructed at Guelph by the White Sewing Machine Company of Canada, at a cost of \$200,000 and having a daily output of 300 machines as a result of the which has just been concluded with the Raymond Company. Six hundred workmen will be employed by the new factory. Business for the whole British Empire will be conducted here.

HUNDRED BOMBS FELL FROM FOE ZEPPELINS

Insignificant Damage Done in England by Raiding Airships, Tuesday Night.

LONDON, April 26.—"No fresh facts are reported concerning the zeppelin raid of last night," says an official statement. "The zeppelin was visited by the raiders and more than 100 bombs were dropped. Not a single casualty has been reported."

"With reference to the raid over the eastern counties on Monday night, the total number of bombs discovered was about 100. There was only one casualty. The damage consists of the death of one horse, the destruction of a haystack and much broken glass."

The German Admiralty, in an official statement issued this afternoon, claimed that the zeppelins bombarded London, Colchester, Ramsgate and Blackwater.

YARMOUTH BOMBARDED BY GERMAN SQUADRON

Raiding Cruisers Shelled Two Ports at Same Time, Admiralty Reports.

LONDON, April 26.—Yarmouth was bombarded as well as Lowestoft by the German warships which attacked the eastern coast yesterday. Four persons were killed and twelve wounded. The following official account of the raid was given out today:

"Despite the heavy guns employed by the enemy ships, the damage was relatively slight. A convalescent home, a swimming bath, the pier and 40 dwelling houses were extensively damaged. Some 200 dwelling houses were slightly damaged. Two men, one woman and one child were killed. Three persons were seriously wounded, and nine slightly wounded."

Fire was opened on Great Yarmouth at the same time. Here the damage was one large building seriously damaged by fire and another building slightly damaged by shell fire."

LASTED HALF AN HOUR

Two Hundred Dwelling Houses Slightly Damaged and Four Persons Killed.

LONDON, April 26.—Twenty-five casualties, in dead and wounded, resulted from the bombardment of Lowestoft by German warships and the consequent running fight with the British light cruisers' squadron on Tuesday night. As far as can be learned, all the British ships have returned safely. Two of the light cruisers bearing signs that they had been hit by shells, but not in vital places. A few among the crews of the British warships were wounded, but not seriously.

One of the British destroyers, which played a part in the previous battle in the North Sea, was again in the thick of the fight. A shot penetrated her engine-room, and four of her crew were scalded.

After firing into the town of Lowestoft for twenty minutes the Germans retreated. The casualties aboard the British ships occurred in the running fight which ensued. It is generally believed that the British gunners scored hits on the German warships.

FOE RAIDERS SAIL EAST.

LONDON, April 26.—The German squadron, consisting of twenty ships, which yesterday visited the English east coast, was sighted from the Dutch island of Vliet on Tuesday morning going eastward, says a despatch from Rotterdam to The Evening Star. The warships were preceded by the zeppelin dirigible balloons.

ASSIZE COURT CASE DISMISSED.

The case of Leon Schiff against the Imperial Trust Co. and the Bohemia Security Corporation was dismissed in No. 3 Assize Court yesterday afternoon. The plaintiff, who is a Russian Jew, and was not in the court, filed a case to rescind an agreement in the case of land. He understood that land was being sold in Quinlan Park, Dublin, but a later personal investigation contended. No costs were entered in the case.

SIX CASES WERE HEARD YESTERDAY

Judge Coatsworth Had Busy Day in Criminal Court.

Judge Coatsworth's court was a clearing house for criminal hearings yesterday afternoon when six cases were heard. The defendants in three of them were remanded for sentence in two weeks, and in two the defendants were found not guilty.

THREE REMANDED

Case of Malcolm McFadden Adjudged for Additional Evidence.

The case of Malcolm McFadden, charged with keeping a gaming house, appealed from the police court where he was sentenced to thirty days' imprisonment, was adjourned in order that the prosecution could collect additional evidence. McFadden was employed by Mrs. Whitesides as a clerk in a cigar store at 104 Church street.

On the floor above Mr. Whitesides is alleged to have "kept books" for the races, and the prosecution contends that McFadden assisted in violating the law.

William Ramsey and James Hawson pleaded guilty to taking Clara McFadden's motor car on April 8, and joy riding. The police charged them in a taxicab. They were remanded for sentence and released on bail. The former lives at 465 Montrose avenue and the latter, 325 Ontario avenue.

James Heaton, a former milk-wagon driver for Price & Sons, thru his counsel secured \$18 by selling milk tickets and appropriating the money, but denied stealing \$88 thru the same means. He was charged with stealing \$20 from Emily Bradley, but was discharged on this allegation.

Michael O'Brien was found not guilty of shopbreaking and theft. He was alleged to have entered Louis Weisman's business, 121 West Queen street, and stolen \$25.00 in money, cigarettes and tobacco.

Lillie Parker was found not guilty of stealing food from Eaton's and Simpson's stores. She was confined in jail for 8 days.

ONTARIO NICKEL MEN PROCEED TO FRANCE

Inquiries Prosecuted by Commission Extend Across the Channel.

Canadian Associated Press Cable. LONDON, April 26.—Thomas W. Gibson, deputy minister of mines of Ontario, and Dr. W. G. Willard of the department of mines, who are members of the nickel commission which had been enquiring here for about a month, go to France to pursue their investigations.

Richard Reid of Ontario and John Howard of Halifax leave for Paris for the International Commercial Parliamentary Conference.

HAMILTON DUCKWORTH ON PERJURY CHARGE

Brother of Condemned Man Alleged to Have Sworn Falsely.

Hamilton Duckworth, brother of Thomas Duckworth, sentenced to hang on May 12 for the murder of his brother-in-law, Harry Strutt, at Orangeville Nov. 2, 1915, was arraigned yesterday afternoon at Runnymede by County Constables Simpson and Myers on a charge of perjury.

The High Constable Marshall, who is in Toronto at present, Mrs. Nellie Strutt, sister-in-law of Thomas Duckworth, is also sought. It is alleged that Hamilton Duckworth and Mrs. Strutt, witnesses in the Duckworth case, told different stories at the inquest on Strutt and at the trial of Duckworth.

LEAFS ARE UNDER FIRE AT NEWARK, N.J., TODAY

Open Season With Pitching Staff Weak—Yankees Putting Up Fight.

Now for it! The Leafs open at Newark today and don't be too hopeful of a win. The pitching staff is not of the best, but plenty of good stick artists are on hand and they may hammer out a win for the weak hurlers.

Alexander the great fell yesterday. He indulged in a pitching duel with Cheney of the Dodgers and then both blew. Brooklyn won 6 to 3.

Somebody tagged the name "100,000 infield" on the McInnis-Collins-Barry-Baker combination in the penning and riling days of Connie Mack's Athletics, and it stuck until the infield was broken up. There was always the idea, however, that the title was not to be interpreted literally, despite the recognition of worth of the combination. The sale of the famous infield was not over-rated financially; in fact, it was under-rated.

Mack got \$50,000 when he transferred Eddie Collins to the White Sox. Later he got \$30,000 for Jack Barry from Joe Lamin of Boston. Two members of the quartet remained and there was some doubt as to whether Mack would, or could get \$25,000 for the price he paid for Baker has never been officially announced, but it is generally understood that the home run king cost \$25,000 and \$25,000 for Stuffy McInnis. This leaves only \$7,000 to be accounted for by Stuffy McInnis. He has pitched over 300 for six successive years in the majors, and he would have won three times that \$7,000. So that famous infield was more than a \$100,000 proposition after all.

The Yankees are chasing the Red Sox for the American leadership. That is what Markie's yesterday helped a lot.

Jack Dunn celebrated his return to Baltimore with a clean-cut win over Montreal. Sherman gave the Royals four hits, and the Orioles banged two Montreal fingers hard.

Says Hughie Jennings: "Cobb out-classes Benny Kauff. They do not compare, that's all. Benny is a fair ball player, but it is not fair to mention him in the same breath with Cobb."

"Kauff will hit 300 in the National League," the "Eve-Yule" singer declares. "But that is not as difficult a job as hitting 300 in the American League. The former Federal League would be only an average ball player in the American League. We're a lot faster than the National."

"What would Cobb hit in the National League, then?" he was asked. "I can't think of such big numbers." The answer came back. Jennings is an enthusiastic over the year's American League race, and he's fairly fond of his own ball club's chances in that scramble. Billy Sullivan probably has caused a large part of that enthusiasm. The old White Sox catcher has been in charge of the Detroit pitchers this spring, and his name is mighty well pleased with the way his hurling staff looks right now.

The Athletics came thru again. A rain fell all afternoon, and the Washington outfield, full in trying to catch up O'Driscoll's single. It went for three bases and scored the winning run.

Babe Adams got his in style yesterday. Joe Minker's Cubs bombarded him for six hits and five runs in the eighth inning yesterday that tripped up the Yankees supplied a homer, and Yerkes a triple. The Pirates lost.

Scott made another try for the White Sox yesterday. He went well until the eighth and then the Red Sox got on him with a fusillade of singles, and good-night Scott.

The Blues went to places in the sixth in their opener at Richmond. Buffalo had a three-run advantage in this round, but Babe Adams got control and the fielders were slow in fielding and Richmond won out. Rain stopped the game.

Soccer Among the Soldier Clubs Will Flourish in Western Ontario

LONDON, April 26.—Secretary Charles Holton of the Western football association is making preparations already for the three series of military soccer games. He announced that trophies for these series would be adequate, and that gold medals should be awarded to the winners in each of the junior, intermediate and senior sections.

Camp mobilization in this district will bring no less than about 15 battalions under canvas in this city, and every district in this section represents a soccer football playing infantry.

The possibility of a military series in that event is most encouraging, and a suitable reward for the champion teams is highly necessary.

Secretary Holton will approach the local branch of the Sportsmen's Patriotic Association, the board of trade and the city council for financial aid in securing the medals.

Judging from the material harbored in the 14 battalions, there will be at least about 21 teams in this city this summer. The 142nd (London's Own) Battalion has already organized a team and is ready for a senior series.

The 15th (Middlesex) Battalion also will enter one or more senior teams. The 110th (Port) Battalion will in all probability enter two teams, as the whole Listowel Junior V.F.C. champion team has enlisted, while Stratford is the home of soccer, and a great many of the Classie City players are with the 11th.

Referee Suspended

The T. and D. directors, at their weekly meeting, suspended Referee W. Mitchell from further participation in football, and struck his name off the list of referees, for writing untrue statements to the press and anonymously to the military authorities in connection with the appointment of the referee of the recent military v. civilian game.

All arrangements were made for the opening league games of the season.

ALEXANDER WEAKENED DODGERS THE VICTORS

Bunched Hits on Phillies' Star—Babe Adams Got His Bumps.

At Chicago (National).—Williams' home run and Yerkes' triple were among six hits Chicago made off Adams in the eighth inning and they helped to produce five runs, giving the Cubs another game from Pittsburgh, 4 to 3. Score: Pittsburgh, 4; Chicago, 3.

At Philadelphia.—After having a pitching duel for six innings, during which the only score made off each was a home run, both Alexander and Cheney weakened in the seventh inning and Brooklyn won the game 6 to 2. The visitors bunched five hits with three errors in the seventh and piled up five runs, while the home team got its runs in that session on Burns' double and Philadelphia, 6; Brooklyn, 2.

This is Exactly the Sort of Clothing Store You'd Call Ideal--In Service, Quality, Value

A GOOD merchant, like a good theatrical producer, studies his public and runs his business accordingly. The things we believe in have been absorbed reflexly—they're your ideas carried out in the way you'd have them.

THE patterns we show, the styles we feature, the values we establish, all represent our experience in catering to YOU—we're running this store the way you'd run it yourself.

GOLD PRODUCING AREA HIGHEST ON VIPOND

Outcrop of Main Vein on the Hollinger is Considerably Lower.

DIFFERENT ELEVATION

Color as Well as Elevation of Rocks is Important to Prospectors.

Pearl Lake is 1028 feet above the sea. The outcrop of the main vein on the Hollinger is 87 feet higher.

The elevation at the Dome is not shown on the recently issued geological map of Porcupine.

It will be noticed that ore bodies generally occur in the lower ground.

The variations in elevation on the Vipond, Hollinger and Schumacher are, presumably, due to transition from the schistose to the massive rocks.

A feature of the mining market at the Standard Stock Exchange yesterday was the new silver stock Adanac, which was listed on the market.

The market on the whole was more active, with a stronger tendency, as exemplified by McIntyre and Adanac, already mentioned.

Owing to the bullish feeling as regards the price of silver the Cobalts were active and generally strong.

The government reports also show that the schistose conglomerate at Kirkland Lake is more likely to contain a well defined, the narrow vein, than the harder porphyry.

At Three Nations Lake, in the Porcupine district, small veins often dip out together in the tougher rock.

It is important for the prospector in the field to note the color, as well as the elevation, of the rocks.

As was predicted in these columns recently the development of the McIntyre-Darragh property is very encouraging.

President Tells Shareholders That Developments Are Encouraging.

As was predicted in these columns recently the development of the McIntyre-Darragh property is very encouraging.

President Starr's address also referred to the installation of a new process for the larger extraction of silver, by which it is regarded as likely that the greater part of the mill tailings can be worked over again at a profit.

The annual report was adopted and the directors re-elected.

HIGH PRICED STOCKS NEGLECTED FOR SILVER AND GOLD SHARES

UNPARALLELED DEMAND FOR SILVER COINAGE

Excitement of the Early Days Returns, But Confidence is Greater.

GENERAL REAWAKENING

Many Properties Closed Down Will Be Able to Operate Profitably Again.

The technical mining paper printed in Chicago, the Engineering and Mining World, says editorially: "Reference is made to the enormous increase of silver coinage called for by conditions in the eastern hemisphere.

Excitement of the early days returns, but confidence is greater. Many properties closed down will be able to operate profitably again.

The Cobalt, April 23.—Cobalt has stopped watching the soaring prices of silver and is now preparing itself for the biggest development boom of the camp since silver began at 46 cents an ounce and mines ceased to load the market for fear of prices suffering.

In fact Cobalt has hardly awakened to its opportunity. The rise in silver prices last year, which proved so disastrous to the profitable operation of some of the mines that they were forced to close down.

When silver was at its lowest point in years last September most of the Cobalt properties were closed down. Many of these were developing their properties and selling only enough "white metal" to carry on operations.

There is a record of production of 24,814,968 ounces of silver and a dividend record of \$1,427,369 up to the end of last year.

When silver was at its lowest point in years last September most of the Cobalt properties were closed down.

There will be a big expansion of the Cobalt camp goes without question. Many properties with excellent mine prospects never reached the producing stage because of insufficient financing or improper management.

When silver was at its lowest point in years last September most of the Cobalt properties were closed down.

There will be a big expansion of the Cobalt camp goes without question. Many properties with excellent mine prospects never reached the producing stage because of insufficient financing or improper management.

There is a record of production of 24,814,968 ounces of silver and a dividend record of \$1,427,369 up to the end of last year.

MARK HARRIS ON MINES AND MINING

Today Silver is King. Oil and copper have both held the scepter since war began, but at last silver has landed on top and the consensus of opinion is that she will remain there.

Only a short time ago silver was selling below 50 cents an ounce. Yesterday the price was above 67 cents and there is every reason to expect 75 cent silver in the very near future.

Silver differs from copper in many respects, for when the price of copper advanced from 14 to 28 cents, it was comparatively easy for many big copper producers to double and in some cases to triple their output.

This means that copper can, and will, rise to the occasion where the enormous demand will be satisfied, for it is estimated by The Wall Street Journal that United States this year will increase her copper production by nearly 500,000,000 pounds.

The situation in silver is entirely different. There is only a limited number of mines producing silver in quantity, and altho the production will no doubt be pushed to the limit there is no chance of production increasing sufficiently to meet the growing demand.

With Mexico entirely out of it, the trade must depend to a large extent on the two big silver-producing areas of the world—Cobalt and Tonapah—and as Cobalt produces about one-fifth of the world's supply you can readily see what this advance means to the camp.

As an example, let us take one or two of producing mines of Cobalt and figuring on their 1915 production see what it would mean in dollars and cents if they sold their product at today's figure instead of the 1915 price.

Nipissing produced 4,077,391 ounces of silver in 1915, which was sold at an average price of 50.06 cents, amounting to \$2,222,256. The same silver sold at today's price would have yielded over \$2,700,000.

In the above I have taken last year's production figures, but it is safe to say that this year's figures will be considerably higher, as none of the big mines of Cobalt made any special effort at production when silver was selling so low.

Now they are working night and day and in addition they will mine ore that in the past was too low grade for profitable mining.

If you want to see what this advance means to Cobalt and South Lorrain and other silver camps of Northern Ontario, you should jump on a train and spend a day or two on the ground.

While all eyes are centred on Cobalt, don't overlook South Lorrain, for nowhere in the north country is there more marked progress than here.

South Lorrain is located south of Cobalt and many eminent mining engineers have examined the district and given it their stamp of approval.

There is one property in this South Lorrain district that I expect big things from before the summer is far advanced, but it is a trifle early to give details, so I will let the matter rest for a time.

My candid opinion is that now is the opportune time for investors to "cash in" their oil and copper stocks at a profit and to place the proceeds in good silver and gold producers.

Oil stocks especially are selling very high in my opinion, and if I held any Standard Oil stocks today, I would immediately sell and reinvest in gold or silver.

My chief reason for saying this is the fact that the oil companies owe their prosperity almost entirely to gasoline or "petrol," and fuel now ready for the market that will cost less than 2 cents a gallon to manufacture.

No doubt many readers of The World have read the accounts in the different newspapers, but for the benefit of those who have not, I will endeavor to give the details.

A demonstration manufacturer and others, and the editor and owner of The Chicago Record Herald, later made a statement to the effect that he took a new automobile and after carefully emptying all gasoline from the tank, washed it out with water to make certain there was nothing left in it.

He then went to a well and secured a large bucket of water, which he and his friends tasted before placing in the gasoline tank. After placing the water in the tank they opened a small stop cock at bottom of tank and allowed a small portion to run into a glass, thus making doubly certain that it was water.

ADANAC NOW LISTED ON LEADING EXCHANGES

Stock Offering Oversubscribed and Shares Are Now Bringing Premium Over Sale Price.

Adanac stock was listed on the New York Curb and the Standard Exchange yesterday, and dealt in for the first time.

The market on the whole was more active, with a stronger tendency, as exemplified by McIntyre and Adanac, already mentioned.

Owing to the bullish feeling as regards the price of silver the Cobalts were active and generally strong.

The government reports also show that the schistose conglomerate at Kirkland Lake is more likely to contain a well defined, the narrow vein, than the harder porphyry.

At Three Nations Lake, in the Porcupine district, small veins often dip out together in the tougher rock.

It is important for the prospector in the field to note the color, as well as the elevation, of the rocks.

As was predicted in these columns recently the development of the McIntyre-Darragh property is very encouraging.

President Starr's address also referred to the installation of a new process for the larger extraction of silver, by which it is regarded as likely that the greater part of the mill tailings can be worked over again at a profit.

The annual report was adopted and the directors re-elected.

NEW POTATOES ON SALE AT WHOLESALE MART

First Car of Season Arrived This Morning - Cucumbers Also Were the First.

PORTO RICO PINES

Choice Quality Sold at Four Dollars Per Case - Florida Tomatoes Were Choice.

The first car of new potatoes for this season came in to H. Peters, selling at \$3.50 per hamper.

Choice quality of cucumbers for this season also came in yesterday from Florida to H. Peters, and are selling at \$1.50 per bushel, an average of about one hundred cuts.

The Leamington house cucumbers were also received in very large quantities, and were slightly earlier in price, a few extra choice being \$1.50 per bushel, but the bulk of the No. 1's not going any higher than \$1.25, and grading from \$1.00 per bushel.

Apples have been scarce on the market lately, but a car was shipped in by C. B. Bennett of Newcastle to Cloness Bros., which is likely to be one of the best for this season.

The Florida tomatoes which arrived yesterday are of choice quality, some of the finest yet received, and are bringing from \$2.25 to \$2.75 per six-quart crate.

Three cars of new cabbage from South Carolina came in, selling mostly at \$3.25 per case, a few bringing \$3.50.

White & Co. had a car of Porto Rico pines of choice quality, selling at \$4 per case, a car of new cabbage (South Carolina), at \$3.25 per case; also a shipment of mushrooms, at \$2.25 to \$2.50 per six-quart basket.

FOR SALE IN CAR LOTS OR SMALLER QUANTITIES H. W. DAWSON, BRAMPTON

RECORD PRICE OBTAINED FOR HOGS IN TORONTO

Yesterday's Quotation Was Highest Ever Known in Local Market.

WEIGHED OFF CARS Price Only Five Cents Under the Twelve Dollar Mark.

Receipts of live stock at the Union Stock Yards were 107 cars, 1008 cattle, 3408 hogs, 10 sheep, 277 calves and 40 horses.

Cattle receipts were again light, which caused an active trade at another advance of 10c to 15c per cwt. There were a few choice lots and loads agent sold from \$9 to \$9.25, and several loads of stock to choice sold at \$7.75 to \$8.50.

Harry Talbot bought for the Davies Packing Company one load of 20 steers, the best on the market, \$10 lbs. each, sold by the Corbett, Hall, Coughlin Company, at \$9.25. Mr. Talbot also bought two loads, 1000 and 1100 lbs. each, at \$9.25.

The Harris Abattoir Company got three straight loads of choice steers at \$9.05, and heifers sold under \$8; bulls sold up to \$8 and cows \$7.50, and odd ones as high as \$7.15. The main of yesterday's cattle are selling at 50c per cwt. more than a week ago.

Stocks and Feeders—The demand for these classes was as strong as ever. Several of the dealers having received orders from outside points in Ontario and some from the United States. One dealer informed the World that he could find a place for 500 cattle of choice quality, but the quality of the stock was not so good as that of the Ontario stock.

Feeders and Springers—All the local dealers were operating and Arthur Corbett of Toronto, at his father's establishment, it, and will be greatly missed by his many friends and patrons.

Veal Calves—Nearly 400 calves were very firm, but remained steady, the demand being large.

Sheep and Lambs—The same situation continued, not coming forward to make a market, with prices at their limit, but unchanged for sheep and yearling lambs. Several loads of good quality coming; farmers and drovers now let their stock, and the market will let to market. Prices range all the way from \$4 to \$12 each.

Hogs—Hog prices were higher, selling at \$11.85 to \$12.50 weighed off cars and \$11.65 to \$11.75 in the pen. Butcher's calves sold at \$7.75 to \$8.50.

Choice heavy steers sold at \$9.25 to \$9.50; good butchers' cattle at \$8.75 to \$9; medium butchers' cattle at \$8.25 to \$8.50; good cows at \$7.25 to \$7.50; good cows at \$6.75 to \$7; choice milk cows at \$6.25 to \$6.75; choice milk cows at \$5.75 to \$6.25; common milk cows at \$5 to \$5.75.

No. 1.—We control and offer for sale forty acres, patented, adjoining the Drummond Mine, a few rods from the Kerr Lake and Crown Reserve Mines, at Cobalt. The location is of the best. Several prominent veins are known to exist. This property has a good chance to make a mine with a little further development.

No. 2.—We control and offer for sale eighty acres, patented, a few rods west of the Big Dome Mine, and adjoining the West Dome. This is centrally situated in the Dome zone at Porcupine. Considerable development has been done, mine buildings erected, etc.

No. 3.—We control and offer for sale two patented claims adjoining the celebrated Crosses Mine, formerly the Leyson-Dobie, in Munro Township. It is only a short distance from the workings of the Crosses Mine to the south line of these two claims. It is stated that over one million dollars' worth of ore is blocked out on the Crosses Mine at the present time, and they are now shipping.

Consult us re maps, reports, etc., on any of these properties. Can arrange on stock and cash basis, if required.

NEWS OF SPECIAL INTEREST TO WOMEN

MISS KATHLEEN BURKE HONORED BY I. O. D. E.

Presented With Certificate and Badge of Life Membership. SPLENDID ADDRESS On Organization and Work of Women's Hospitals in Europe.

Tribute to the fine patriotic work of Miss Kathleen Burke was made by the Daughters of the Empire yesterday afternoon when the National President of the Imperial Order Daughters of the Empire, Mrs. A. E. Gooderham, presented her with the certificate and badge of life membership in the order.

In presenting the credentials of life membership Mrs. Gooderham referred to the honor that had just been conferred upon Miss Burke by the king of Serbia, that of the Order of the Sava. She also enumerated the many qualities, amongst which courage was conspicuous, that had enabled Miss Burke, young as she is, to do much signal work for the cause of patriotism.

In copying Miss Burke said that while she had been the recipient of many kindnesses in various countries, nowhere had she received more kindness than in Canada, where everyone had been a mother to her. She appealed to Canada generally for financial assistance, and announced that she is anxious to raise \$100,000.

of English, Welsh and other nationalities. The guests present were: Lady Hendrie, Lady Mackenzie, Mrs. E. H. B. Johnston, Mrs. W. R. Riddell, Mrs. J. A.uden, Mrs. John Bruce, Mrs. Crawford Brown, Mrs. McGillivray, Mrs. R. S. Wilson, Mrs. Hamilton Burns, Mrs. Ambrose Small, Mrs. W. Gooderham, Mrs. Angus MacKinnon, Miss Constance Boulton, Mrs. Victor Cawthra, Mrs. Feuchan, Mrs. A. E. Kemp, Mrs. Arthur, Mrs. W. D. Matthews, Miss Elizabeth Dixon, Mrs. W. Mulock.

MISS ELSIE JANIS ASSISTS BEAVERS

Popular Actress Appeared for Recruits at City Hall Yesterday.

Miss Elsie Janis, the popular and talented impersonator, who is appearing this week at Shea's Theatre, addressed a large crowd in front of the city hall yesterday on behalf of recruiting. The meeting was held by the 24th Battalion, and Miss Janis, in a characteristic little speech, spoke of her recent English tour, where she did her bit by singing to the wounded soldiers. She declared that many of her personal friends had fallen on the battlefield and for that reason she felt the situation keenly.

Mayor Church introduced the actress and Lieut.-Colonel Price of the Beavers Battalion, made an appeal for recruits.

CASE SENT TO JURY.

Charged with receiving stolen property, Louis and Jacob Epstein appeared in the police court yesterday. The case was adjourned for a week, when the two men will face a jury.

SYMPHONY CONCERT

The Toronto Symphony Orchestra Concert on Thursday Evening, in MASSEY HALL

Has proved a very timely undertaking. Fortunately a number of former players are in the city and rehearsals are being held this week with great success. A splendid concert is now assured. The plan is now at Massey Hall, and seats are selling at One Dollar to the best parts of the hall. There will be a number of rush seats on sale at the door at Seventy-Five and Fifty Cents.

TWO HONORARY DEGREES CONFERRED BY QUEEN'S

D. H. Brown, Copper Cliff, and Rev. J. P. McNaughton Honored.

Special to The Toronto World. KINGSTON, April 26.—Grant Hall was filled for the proceedings of convocation this afternoon. The chancellor, Dr. James Douglas, New York, was unable thru illness to preside, and the degrees were conferred by the vice-chancellor, Principal Gordon. Two honorary degrees were conferred. David Henry Brown of the Canadian Copper Company, Copper Cliff, was presented by Dean Goodwin for the degree of LL.D., and Rev. J. P. McNaughton, a graduate of Queen's who has spent many years as a missionary in Turkey, was presented by Prof. W. G. Gordon for the degree of D.D. A special feature was the presentation of a portrait of Donald Ross of Queen's Theological College to the university by Rev. N. M. Leslie of Kirkwall on behalf of Queen's Theological Alumni Association.

ASK FOR INVESTIGATION INTO CHILDREN'S SHELTER

No Charges Are Laid by Local Council of Women, Who Claim Sufficient Information.

The Local Council of Women still ask for an investigation into conditions at the Children's Shelter. They make the statement that their wish for action in the matter is not based upon the charges made by Mr. Kelso, but on first-hand information furnished by independent sources. No charges are being laid by the Women's Council, but on the other hand they maintain that the information they have received is sufficient to warrant them in the stand they have taken to insist as far as possible that investigation be made. In their attitude towards the institution the Local Council make full allowance for the hampered conditions under which Superintendent Duncan and his staff are required to carry on their work.

CANADIAN OFFICERS WED.

Canadian Associated Press Cable. LONDON, April 26.—The wedding took place at Liverpool of Lieut. J. M. Stephenson of the 2nd Bn. Canadian Infantry, formerly of the 14th of Montreal, to Edith Jones. Both belong to Manx families. The bridegroom was twice wounded. The wedding took place at Sheffield of Lieut. Frederick Scott of Edmonton, 49th Battalion, to Vera Riley Car, who belongs to a celebrated Sheffield family.

PLAYS, PICTURES AND MUSIC

THE ROBINS PLAYERS.

At the Alexandra Theatre next week The Robins Players, headed by the favorite, Edward H. Robins, will present "Under Cover." Hol Cooper McGree's modern American play of love, mystery and thrills, which proved the melodramatic triumph of the past season in New York, where it ran for an entire year at the Court Theatre. "Under Cover" duplicated its New York vogue in both Boston and Chicago, attracting large and delighted audiences in each of the latter cities for more than six months. The play is based upon the efforts of the customs authorities to ferret out the smuggler and bear's necklace valued at \$200,000, but they are at a disadvantage because of the social and political prominence of those under suspicion. In order to get in touch with those suspected of smuggling, a young woman of refinement and established social position agrees to become a secret service agent. This woman is shrewd and clever and to shield a younger sister and the man who loves her, she outwits the craftiest detectives in the secret service. "Under Cover" reaches its denouement in an ingenious and surprising climax that has caused it to become one of the most widely-discussed plays of recent years. In obtaining this play, Mr. Robins was compelled to pay the author the biggest royalties ever for a stock play, it being a first release at the Alexandra Theatre this week. Here seats will be placed on sale this morning. The regular summer prices will be introduced.

"A PAIR OF SIXES."

Edward Pepple's best farce comedy, "A Pair of Sixes," which will be presented at the Grand Opera House next week for the first time in Toronto at less than a dollar a seat, is being recognized as one of the funniest farces ever seen on the English-speaking stage. It ran nearly a year at the Longacre Theatre, New York, and it is still enjoying a phenomenal success in London. There has been much opinion as to the ingenuity of the farce, and the swift movement and comic entertainment of the enjoyable play. During the week at the Grand the regular seats will be placed on sale this morning. The regular summer prices will be given, both at popular prices.

STAR THEATRE.

When the curtain rises at the opening performance of the Grand Opera House on Monday afternoon at the Star Theatre, patrons will be struck by the wit and sparkle of the best stock burlesque ever presented in Toronto. There are forty people in the chorus. The lines of the show were constructed for laughing purposes only, and the audience will be kept in a state of merriment by the wit and sparkle of the best stock burlesque ever presented in Toronto. Prominent in the company are: White, soprano; English, Bert Saunders and Lew Golden.

THE HIPPODROME.

The headline act offered at the Hippodrome Musical, an unusually strong troupe in singing, dancing, and as instrumentalists. This act comes like a breath in which the Scotch singer, the actress "Annie Laurie" is in itself a strong attraction. Hamilton Revelle, that gifted romantic star, supported by Barbara Tennant, will be at the Hippodrome in a grand entertainment, "The Prince of Malice." It is the lives of days, intimate scenes from the lives of the famous, and it is ably supported by the famous juggling comedians, Valton Bros. and Green, who love making will find some of Harrah and Milroy. The comedy play, "Miss Thanksgiving," must not be overlooked.

THE STRAND THEATRE.

Charlie Chaplin is proving a supreme attraction at the Strand Theatre in his latest success, a burlesque of "Carmen," and Edna Purviance makes a most alluring Carmen. The whole photo-play is one long stream of fun and merriment. Charlie's antics are of even more than their standard absurdity and the fidelity with which the burlesque version is followed in the burlesque version is quite remarkable. The bill for the latter half of the week will also include "A Man's Making," a magnificent drama in five super-acts. Harry Payne and Frank Green, in an acrobatic novelty, promise to thrill the audience, while a particularly strong picture has been secured for the screen.

"SMILING BEAUTIES."

How woman will conduct her campaign when men have finally listened to her pleadings of year after year and granted her the right of equal franchise.

PAPER vs. LINEN FOR THE HOME

HELD CLOSING EXERCISES IN METHODIST SCHOOL.

Despite the War, the Organization Has Been Very Successful.

The Methodist Training School for Christian workers, which was inaugurated last fall, held its first closing exercises at Victoria College on Tuesday evening. The exercises notwithstanding the difficulties and distractions of a war year, has achieved a distinct success. By the generosity of a few friends the financial side of the undertaking has been so cared for as to relieve those responsible of anxiety. Prof. A. J. Johnston's address on "efficiency" was the feature of the meeting. Certificates of standing were presented to the students.

TORONTO HUMANITARIAN SOCIETY—Monthly meeting of members today, at headquarters, at 8 o'clock. Dr. Fowler, S. will be special speaker.

Mrs. G. R. BAKER, honorary organizer of Kitchener Day, wishes to inform captains of districts that support may be called for on Saturday, Monday afternoon. North American Life Assurance Co., 112 King St. West.

Dr. Edward Ryan resigned as representative on the medical council, owing to his absence on military service overseas. Dean Connell was appointed in his place.

The announcement was made of a cheque for \$50,000 from the chancellor, Dr. James Douglas, for the university library, bringing the total gift for the library up to \$150,000, and also a cheque for \$10,000 for the women's residence. The fund now in hand for the latter purpose makes it extremely likely that the board of trustees in the near future will commence the erection of the new residence. The committee having the funds in charge for the new residence have realized \$38,000.

## Why Not Now—Instead of Later?

It's a universal spring impulse—that impulse that makes us want to clean house, to plant things in the garden, to make the outside of the house as inviting as the inside. And every spring there are lots of things for the inside of the house that we need but delay in getting—in many cases not because we can't afford them—but simply because we decide to wait till we can get "that" or "something else."

Do you really "want what you want when you want it"?

The Home Lovers' Club will prove its worth to you this spring if you do WANT to make your home as attractive as you've always intended it to be.

The Club privileges will allow you to purchase from any department devoted to housefurnishing wares, on a system of liberal deferred payments. There is no charge for this Club accommodation, and the Club Secretary—Fourth Floor—will gladly supply you with all information as to Club terms.

## Tons of Fine French China at Much Below Factory Cost

Thursday we group into four big assortments thousands of pieces of fine Limoges Dinnerware.

The large part of these offerings is from well known "stock" patterns. The war has so interfered with deliveries that they have become "top-sided"—too many of these lines—and we cannot wait for the deliveries to balance up the stock. The Simpson policy of quick turn-over caught our department with this big surplus, which we will clear in a big three-day sale, beginning Thursday.
