40TH YEAR—ISSUE NO. 14,489

TWO CENTS

ALLIES AT SPA CONFERENCE HAND ANOTHER ULTIMATUM TO GERMANY

ON COAL DELIVERIES

Allies Insist on Monthly Consignment of Two Million Tons—German Foreign Minister Protests Against Depriving Germany of Foundation of Industrial Life—Demands Are Modified.

Spa, July 12.—The allies served an ultimatum upon the German delegation to the conference here late this afternoon that the Germans must agree by three o'clock tomorrow afternoon to deliver to the allies 2,000,000 tons of coal monthly. Otherwise, the Germans were informed, the allies will take measures to enforce the terms of the Versailles treaty.

Thus the negotiations with the Germans have reached another tense point. The spirit of conciliation adopted by both sides has been abandoned, but the allies found it was necessary to issue this ultimatum for carrying out the treaty, which would entitle them to a greater amount of coal than is now demanded.

The question of coal was the subject of controversy during a three-hour session of Premier Millerand, Viscount Chinda, Japanese ambassador to Great Britain; Premier Delecroix of Belgium, Konstantin Fehrenbach, the German chancellor, and Dr. Walter Simons, the German foreign minister, who had with them only one secretary each.

The allies began by insisting upon a monthly delivery of 2,000,000 tons. The Germans offered 1,400,000 tons, and the allies reduced their demand to 2,000,000.

Dr. Simons represented that coal being the foundation of the industrial life of Germany, every ton that Germany sent to the allies meant that much less production. He said:

"My contention is in European interests as much as in the interest of Germany, because our payments to you are conditional upon your industrial production. You want your money. We want to pay large sums if you take away large quantities of coal."

The German foreign minister offered then to increase the deliveries of coal from 1,400,000 tons to 1,700,000 tons within six months, and to 1,700,000 tons within a year. This could only be done, he said, if the allies made better conditions possible for the miners and contributed raw materials to build houses for more miners.

The premiers, after prolonged discussion with the Germans in a cabinet session, informed Chancellor Fehrenbach and Dr. Simons that the allies must have their final answer tomorrow.

Will Enforce Demands. If the German reply was rejection of the allies, it was declared, would take measures to enforce their demands, either by occupation mining or by sending their own coal commission into Germany to examine the situation in the mining regions.

The ultimatum was delivered in the greatest tone by the Belgian premier, M. Delecroix. As the meeting dissolved, the British prime minister said to Dr. Simons:

"Think this over and come to our terms."

ARM FOUND AT NIAGARA MAY BELONG TO STEPHENS

Niagara Falls, Ont., July 12.—A right arm, believed to belong to Stephens, who lost his life in an attempt to go over the Horseshoe Falls, was found in a bush at the Maid of the Mist landing this afternoon. It is not possible to identify it with certainty, although there is a design of crocodiles on the wrist which "forget me not, Annie." The arm was taken to the morgue and will be embalmed and kept for a definite period. Inquest will be held.

FRANCE TO DEMAND POUND OF FLESH

Rheims, France, July 12.—France will demand enforcement of the treaty of Versailles to the last article, Leon Bourgeois, president of the French senate, declared today in a speech before more than 100 French and foreign newspaper correspondents at a luncheon in the ruins of the Hotel de Ville.

BONAR LAW ADMITS DEAL WITH SOVIET

Declines to State Whether Aid to Poland Hinges on Russia's Acceptance.

London, July 12.—Further official confirmation was given today that the allies had made proposals to the Russian soviet government for an immediate armistice on equitable terms between Poland and Russia. This confirmation was given in the house of commons by Andrew Bonar Law, the government spokesman.

The question was raised whether the allies had threatened, if the soviet government declined an armistice, that the allies would defend Poland. Mr. Bonar Law would not give the details regarding the armistice, but he did say that the British negotiations did not involve recognition of the soviet government.

MANITOBA LABOR CHOOSES F. J. DIXON

Is Appointed Party Leader at Caucus Held in Winnipeg.

Winnipeg, July 12.—The appointment of Fred J. Dixon, M.L.A., as the leader of the Labor party in Manitoba, decision to contest the deferred election in the Pra, and the carrying out of arrangements for an organizational campaign among workers in the province, were the principal features of the caucus of the Dominion Labor party held Saturday.

The caucus was held in a public hall today by F. J. Dixon, chairman of the provincial executive of the party.

It is intimated that a convention will be called in the near future to select a candidate and a representative of the party, presumably F. J. Dixon, will leave Tuesday to confer with the campaign workers there.

RAIN BOOSTS CROP IN SOUTH ALBERTA

Report Shows Add Five Bushels More to the Output This Year.

Lethbridge, Alta., July 12.—One and one-half inches of rain fell over the whole of southern Alberta from Rookies to Saskatchewan and from Calgary to the boundary last night, and according to experimental farm experts, the storm means an added five bushels to the acre on the Southern Alberta crop this year. It is estimated that the Lethbridge Railway division will ship 25,000,000 bushels of all grains this year as against 24,000,000 bushels in the big crop of 1915. Ten days ago it looked as if Southern Alberta would have a poor crop.

ARMED BANDITS HOLD UP A SUBURB OF JOLIET

Joliet, Ill., July 12.—Plainfield, a suburb, nine miles west of Joliet, was taken by ten armed bank bandits this morning. Seven persons were wounded and the Plainfield state bank robbed of \$12,000 in cash and government bonds.

The bandits, after sweeping the main streets of the town, escaped in two automobiles.

IT DOESN'T RAIN EVERY DAY.

Even though it rained on the 12th that did not keep the crowd from starting in Dineen's Sale of Straw Hats and Panama's. It's just as necessary to buy a hat now as it is to get your winter's coal in before the cold weather starts. It's not only necessary because the prices are more favorable now than they have been for many years. See our windows—see the way we compare our prices. We are also offering extra special values in men's raincoats. W. and D. Dineen Company, Limited, opposite the Yonge Street Arcade at Temperance street.

ORANGEMEN CELEBRATE IN TIME HONORED WAY BATTLE OF THE BOYNE

Nine Thousand March Thru City Streets to the Exhibition Grounds—Congratulations Sent Sir Edward Carson—Says Catholics Control I. O. D. E.

That Toronto continues to uphold its enviable reputation of being the most loyal city of the Dominion, both in its devotion to the causes of civil and religious liberty, was amply demonstrated yesterday when between eight and nine thousand people, men, women and children, joined in the Orange parade. The twelfth of July, the not an officially recognized holiday, is regarded by very many thousands as such, and yesterday's turnout proved no exception to the time-honored custom. A year ago the demonstration was described as a "peace" parade. This year, while there is no actual war between nations, there is that cloud enveloping the cities and villages of Ireland, where those who are desirous that rule and order should prevail are being subjected to sniping tactics from those not in harmony with peaceable desires.

When the huge crowd assembled in Queen's Park yesterday there was a distinct feeling prevailing that their minds were with those in the Distressed Ireland, and many were the remarks made comparing the conditions under which the Toronto demonstration was held and those which, unfortunately, obtain across the seas.

Returned Men There. Shortly after ten o'clock in the morning the muster began. Orangemen from every part of the city gathered in ever-increasing numbers, their ranks being swelled by hundreds upon hundreds of their brethren who went overseas and fought the great and victorious fight against the returned German. Some of these returned men came back from that field of action minus an arm, a leg, or other member, but true to their faith, turned out in force to do honor to the "glorious and immortal memory" of William of Orange. The weather in the early morning was warm and promised well to hold for the rest of the day, but unfortunately rain began to fall before the paraders entered the Exhibition grounds.

The Route of March. As before stated, there were between eight and nine thousand in the parade, and it is interesting to note what the figures were for previous years. In 1912, 6,004 took part in the parade; in 1915, 7,285; in 1916, 8,140; in 1917, 8,231; in 1918, 7,023 and in 1919, 7,816. It will be seen, therefore, that the demonstration yesterday was the largest in the history of Orange parades in the city. Altogether there were 119 lodges in the line accompanied by no less than 51 bands, which provided appropriate music at all points. The procession was two and a half miles in length, and to pass a given point took practically two hours. The march to the Exhibition grounds was in the following order:

STANDS BY THE TAX ON EXCESS PROFITS

Chamberlain Promises Next Year To Reduce It to Forty Per Cent.

London, July 12.—A strong attack was made in the house of commons today on the government's financial policy, especially the excess profits tax. The discussion came up over the finance bill, which is in the committee stage. Austen Chamberlain, chancellor of the exchequer, replying to criticisms, declined to reduce the excess profits duty below 60 per cent. As provided in the budget, but he promised that next year the duty would not exceed 40 per cent.

The chancellor also undertook that there should be no more borrowing, but said that the nation should begin while it was prosperous to make an earnest endeavor to reduce the debt. He was glad to say that on the government's advice the banks were showing more caution in advancing credits for speculative purposes.

TO ELECTRIFY G. T. R. COLBORNE TO DALHOUSIE

St. Catharines, July 12.—Reeve Sutton of Port Dalhousie started today to have received information on the Welland division of the Grand Trunk, which parallels the Welland Canal from Port Colborne to Port Dalhousie, would be electrified at an early date.

The Unused Railway Station. Dark, damp train platforms, reeking with fish and other bad odors; trucks piled with trunks, mail, express, baby carriages, boats, railway supplies packed under staircases and along the walls for the terrified passengers. The finest and best-appointed postoffice in Canada lying for weeks and months unused. First-class refreshment counters and dining-rooms unused; the provisions of dining cars in poorly-appointed store-rooms. What a difference compared with the central station at Ottawa, and the dirty waiting-rooms, the poor ticket offices, the lack of light.

And yet nobody making a move to get the new Union Station into commission. Started long before the war; not used yet, a year and a half after the armistice.

BEATTY SLATED AS ASSISTANT DEPUTY

Inspector in Charge in East Toronto May Be Given Promotion.

One of the principal items of business to come before the police commissioners at their meeting this afternoon is the appointment of an assistant deputy chief of police. Many rumors were circulated to the effect that the board did not intend filling this office, but recommendations have been made that Inspector Robert A. Beatty, according to well-founded rumors in police circles, is the man selected for the position. He is now in charge of the East Toronto police station and has 35 years service to his credit.

He joined the force May 7, 1885, and rose to the rank of inspector in January, 1919. During last Exhibition he had charge of the police on the fair grounds, and while R. Geddes, then assistant deputy, was on his holidays, Beatty relieved him.

If this vacancy is filled today, an effort may once more be made to have Acting Chief Dickson given his appointment as head of the department.

BOLSHEVSKI REACH MINSK OUTSKIRTS

Victories for Poles, However, in Pripet Region and Volhynia Reported.

Warsaw, July 12.—The Bolsheviks, after occupying Simolowice, the town of Minsk, have reached the trenches bordering on Minsk, where fighting is in progress, according to the official communique from the war office today.

Polish detachments have been forced to abandon the line along the River Vilia, the communique adds.

Victories for the Poles in the Pripet region and in Volhynia are reported in advices received here today. The Bolshevik cavalry leader, Gen. Budenny, has been defeated, the advices state, and is fleeing to Rovno, upon which the Poles are marching.

The victory of the Poles in the Pripet region is described as "complete." Enormous supplies are declared to have been taken with the occupation of the town of Ovruch, where 200 prisoners also were picked up.

The troops operating against Gen. Budenny, the advices report, captured 800 and Little Zvolin, taking eight guns, while a Bolshevik cavalry brigade was annihilated.

Bolshevik attacks south and west of Rovno were repulsed, the message adds.

CANADIANS SCORE
WELL AT BISLEY

Shooting For the Prince of
Wales Prize Commenced
Yesterday.

Bisley Camp, Eng., July 12.—(By
Canadian Associated Press)—It was
still very hot today, but shooting
conditions were otherwise satisfactory.
Shooting for the Prince of Wales prize
began this morning. This competition
is open only to winners of National
Rifle Association gold, silver or bronze
medals in the Queen's or King's prize
competitions of any previous years,
and to all winners of N.R.A. silver or
bronze medals issued to rifle associa-
tions under the rules set out in the
charter of the N.R.A. The first prize
is given by the Prince of Wales with
400 pounds added. Ten shots are fired
each of the 300 and 300 yard ranges.
The scores of Canadians at the
former were: Major P. Richardson, Vic-
toria, 49; including 5 centrals; Pte.
W. J. Irvine, Ottawa, 48, including 5
centrals; Capt. C. R. Crowe, Guelph;
Sergeant A. McCabe, Charlottetown, 47,

a, Montreal; Trooper J. Saidler, Edmon-
ton, 41; Capt. F. R. Martin, Calgary,
40; Sergeant, C. A. Hawley, Winnipeg,
41.

Good Shooting This Year.

An indication of the high character
of this year's shooting is furnished
by the fact that in the 500 yards
sweepstakes on Saturday, Major F.
Richardson of Victoria, B. C., with a
possible, was last of six in the prize
list, all others having scored centrais.
Additional sweepstakes winners are
Major Utton, Toronto; Lieut. J. O.
Nix, Winnipeg; and Lieut.-Col. P. E.
Bowen, Edmonton.

In the Alexandra competition at 200
yards, Lieut.-Col. P. E. Bowen, Al-

Allies.

Spa, Belgium, July 12.—"This is a
decisive moment for Poland," said
Ladislav Grabsky, the Polish premier,
to 50 correspondents of all countries,
who called upon him by invitation.
"Our army is engaging the mobilized
forces of Russia, with a population six
times our own, an army equipped with
all the most perfected instruments of
war supplied by the allies to the
armies of Denikin, Kolchak and
Yudenitch—armored automobiles,
tanks, machine guns and heavy artil-
lery."
"The Bolshevik army has much more
to fight with than the Polish army,
and of superior quality, besides masses
of cavalry. The Bolshevik offensive
has created for us a serious situation,
but not a desperate one."

British Have Hanged Eight-
teen Nationalist Leaders
and Greeks Twelve.

Constantinople, July 12.—Bandits
are continuing their raids along the
northern shore of the Gulf of Imid
and the eastern shore of the Bosphorus.
The British have hanged eighteen
Nationalist leaders and the Greeks
have hanged twelve, all found guilty
of instigating attacks at Belkos and
other points near Constantinople in
the Straits zone fixed by the treaty.
British warships are still bombarding
bandits in the neighborhood of Be-
ikos. The Greek villages of Tal and
Kouroussi, near Kerasous on the Black
Sea, have been burned by Nationalists,
who are charged with having mur-
dered many Greeks.
The Nationalists apparently are ex-
tending their attacks to numerous
Greek villages in northern Anatolia,
in retaliation for the Greek advance
ment with Czecho-Slovakia was as
good as completed on all points.
The suggestion that the powers sup-
port Poland's peace proposals is being
discussed by the allied ministers, not-
ably the representatives of France
and the governments recognizing the

FRANCE MAY HAVE
A VICE-PRESIDENT

President Deschanel's Health
Has Revived Talk of Ap-
pointing One.

Paris, July 12.—The state of Pres-
ident Deschanel's health has revived
talk in the parliamentary lobbies of
the necessity of taking measures to
meet the possibility of a prolonged in-
ability of the president, thru illness,
to discharge the duties of his office.
Immediately after the accident
which befell the president recently, it
was proposed to create the office of
vice-president, which does not exist
under the French constitution, but the
idea was abandoned, as President
Deschanel's period of convalescence
then seemed likely to be short.
This hope has not been realized,
however, and the parliamentarians
are again discussing the situation
which would arise if the president
were forced to remain long absent
from Paris, especially at a time when
so many important questions of for-
eign policy are under discussion. If
an ad interim presidency were en-
trusted to a vice-president, it would
necessitate the meeting of the national
assembly if President Deschanel had
resigned.

BRITISH GAS WORKERS' STRIKE

London, July 12.—A widespread
strike of gas workers for higher wages
is causing great domestic hardship
and industrial loss. In Manchester,
where the trouble began, and other
Lancashire towns, there has been no
gas for several days. Bristol and
Huddersfield are now in the same con-
dition.

BUFFALO'S CHIEF OF POLICE IS A MAN FROM THE RANKS

An Efficient Officer Whose Rapid Rise and Fine Work is the Best Possible Argument for Promotion, When a Good Man Can Be Got That Way.

ARTICLE NO. 4.

By George H. Dixon.

What would happen if the traffic cop on duty at the Queen and Yonge intersection was called into the mayor's office on his way home from work one night and calmly informed that he was to be appointed chief of police? It is a safe bet that he would register astonishment, but what would the good citizens of Toronto say and how would they view the matter? Here again any view of gambling proclivities would have his money on a sure thing if he wagered that Torontonians would be stirred up over the matter.

Scandal, followed by Mayor George S. Buck's open declaration that he was dissatisfied with Buffalo's police department administration, resulted in Higgins' selection as chief. Newspapers were clamoring that a change was necessary, and to make certain that the chief's office was in proper hands, the mayor, who is also commissioner of police, decided on a drastic change. Higgins was at that time a lieutenant sergeant here which is only one step above that of a police constable walking a beat. In fact it is almost the same as a lance corporal in the army, who is really nothing but a buck private, but who is next in line for real promotion. Despite this Higgins was jumped over the heads of 14 captains and three inspectors to the exalted office of chief of police.

The Youngest Chief. "Who is this fellow, anyway?" will be the question asked. "He is some gink who doesn't know anything, but had enough political pull to get him the job?" In answering the last question first it should be stated that when Higgins' appointment was confirmed he was not only on the opposite side of politics to those holding the reins of government but was also on the wrong side as regards religion.

It should again be stated that he is in all probability the youngest man in the world holding a position of this sort in a city of Buffalo's size. He is just 43 years old, and looks about ten years younger. In fact, he looks almost like one of those redoubtable movie heroes who always rescue the fair damsels just as the villain is beginning to put in his dirty work. He is also very handsome, and has the reputation of being a hard, conscientious worker square as a die, and honest to the ninth degree.

"Honest Jim" Higgins, as he is known locally, first made his reputation for fearlessness and steadfast honesty as a patrolman on the Canal street beat. As everyone knows who knew Buffalo in the past, this was without doubt the toughest street in the city, being virtually a thoroughfare restricted to gambling joints, dives and houses of ill-fame. He played a leading part in stamping out this breeding place of vice and crime, and it was really his work there that made him chief. "They hated me like poison down there," he told The World reporter, "but it was really their best that I got this job. My honesty is almost by-word in the police department, and that much-abused title, 'an honest policeman,' is his by right. A peculiar thing about

FORCED TO TAKE SON FROM SCHOOL

Grateful Mother Tells How Tanlac Brought Back Her Boy's Health.

"I am more grateful than I can tell you for what Tanlac has done for our son Arthur, for it has completely restored his health and brought him up wonderfully." was the statement made by Mrs. Florence Mulnes of 62 Peter street, Toronto, the other day. "His illness was brought about by the air raids during the war when we were in England, and you people here can't imagine what we went through when those terrible zeppelins and gothas came over, dropping their bombs and aerial torpedoes, and the noise of our guns, trying to shoot down the German aircraft, was as terrifying as though one was actually at the front. As the result of that experience, Arthur, who is just 15, got into a frightfully nervous condition, which affected his general health as well. We had the greatest difficulty to get him to eat, and his stomach was all upset, for he had indigestion very bad, and his food formed gas and turned sour. He was always complaining of terrible headaches, and had spells of dizziness. He got into such a nervous condition at last that we had to keep him away from school. He lost all his bright activity and spirits, and at night would lie awake for hours, trying to build him up and make him well, but nothing seemed to meet his case. "Then, when the war was over, we came out here to Canada and heard of Tanlac, and got some for him. Very soon we noticed that he was eating much better and sleeping before he was playing just like other boys, and was full of life, and everybody was remarking what a wonderful change had come over him. He has gained eleven pounds in weight, and is today a bright, healthy, happy boy. How can I help praising Tanlac? And you can be sure that I shall always recommend it whenever I get the chance."

Tanlac is sold in Toronto by Tam... every town.

ORGANIC CHURCH UNION GROWING IN WEST

Rev. H. D. Raina has sent a report to the Methodist general conference officers, Toronto, stating that a movement is on foot in the Saskatchewan Methodist conference for the establishment of a union theological college in connection with the Saskatchewan provincial university. This regarded as a strong indication of the steady progress of the movement in western Canada for the organic union of the Methodist, Presbyterian and Congregational denominations.

FLIGHT WAS POSTPONED.

The hydroplane which was to have made the return flight from the Royal Muskoika Hotel to Toronto with Col. and Mrs. Bishop, Dr. J. J. Eaton and Col. Barker did not leave today on account of the rain.

HYDRO ACTIVITIES ARE IN NO DANGER

Christian Guardian Cannot See Reason for All the Excitement.

Premier Drury is having an eye-penning in regard to the popularity of Sir Adam Beck's Hydro radial, according to Rev. Dr. Creighton, editor of The Christian Guardian, who, in today's issue of the Methodist official organ, will say:

"As we write, the excitement that had been stirred up over the action of the Ontario government in staying the plans of the Hydro radial schemes has begun to subside somewhat. To one on the outside, the reasons for all the excitement do not seem very clear; that is, if the statements of the premier and his colleagues are to be taken at their face value. According to those statements, the delay was solely that the government might have an opportunity to investigate for itself the whole detail of the scheme, and to understand what obligations might be involved in the carrying of them thru. If that is a full statement, certainly the government action is rather to be commended than censured. It seems just possible that some of the newspapers that have taken a lead in blaming the government, in their zeal to back up a movement that has strong public favor and sympathy, have jumped to the rescue a little too precipitately. Certainly, if the government has had any weakening of will toward the Hydro plans, it has had a revelation of how strongly in favor those plans are held by the public in general. Sir Adam Beck's statements covering the matter have been quite reassuring, and lead one to think that his great projects of development do not stand in the danger that some folks seemed to think they did."

WILLS AND BEQUESTS

George Suthy Longfield, a merchant of Toronto, left his will when he died on Dec. 24 last year. He possessed \$1555.82 in personal property and real estate. Merriott Longfield, his daughter, received \$75; Lillian Parkhill Longfield, \$90.82, and all the estate not otherwise disposed of went to Edith Florence, of 11 Earl Grey road, Toronto, who was eight years old last May.

Charles Edward Hibbert possessed \$7131.10 at the time of his death on May 27, 1920. His widow, Maria Hibbert, and his two sons, Howard Alexander and Charles Russell, shared equally in the estate. An estate amounting to \$5668.60 was left to Mrs. Annie Elliott by the will of Ernest Elliott, who died on May 11, 1920. Elizabeth Lucy Valsey bequeathed an estate of \$6526. Stewart, a nephew, received \$100; baby, \$100; Edith, \$1224.90, while each of eight children received \$670. William Wolfe of Toronto, who died on Nov. 14, 1919, left \$1123.46 to his wife, Ellen Wolfe. The property consisted of \$200 in promissory notes, \$118 cash in hand, and \$814.46 cash in bank.

No Quorum Because Trustees Celebrated

Several members of the board of education finance committee had a mixed up day, owing to the twelfth of July celebrations. It was the regular day for the finance board to meet, and the fact that the ever-glorious twelfth would render it impossible to secure a quorum was forgotten. When the finance board meeting was for the twelfth, an attempt was made to call it off until this afternoon, but all the members were not reached. One L. O. L. member of the committee, who was soaked by Jupiter Pluvius, rushed home, changed his clothes and appeared trim and neat at the committee, only to learn that the meeting had been postponed until 4.30 this afternoon. This meeting and that of the board on Thursday night complete the program at the board of education building for the present week.

Dr. Glover May Devote Time to Research Work

When the board of governors of St. Michael's Hospital met today it was expected that Dr. John Amyot, Dominion deputy minister of health and well-known pathologist, will be present to confer with Dr. T. J. Glover, regarding his cancer serum. There is rumor current to the effect that Dr. Glover may hand over his practice at the hospital to some physician who is sufficiently qualified, in order that he himself may continue his researches.

QUIET AT CITY HALL

Business was quiet at the city hall yesterday, in consequence of the Twelfth celebrations. The property committee meeting was postponed until today, and the board of control will meet tomorrow.

RANEY CHALLENGES TWO OF HIS CRITICS

Asks for Explanation of Statements as to His Hydro Policy.

Attorney-General Raney has come back by ex-Mayor Burgoyne of St. Catharines, editor of The St. Catharines Standard, and Mayor M. MacBride of Brantford, over their allegations that it was not Premier Drury, but Mr. Raney who is the "wicked partner" responsible for the recently announced attitude of the government regarding the delay in the Hydro radial program of the province. Yesterday he wrote the following letters to these gentlemen, asking them to give the public all facts and alleged facts in their possession purporting to show improper moves on his part.

ORANGEISM IN LABOR.

A well-known figure in the freemasonry of Orangeism, who walked in yesterday's parade, was James Shaw, former president of the Canadian Federation of Labor. Another was Alex Davidson of Hamilton, ex-vice-president of the federation. The American Federation of Labor was also well represented in all the lodges.

MOTOR STRIKES CHILD.

Thomas Wayland, aged four years, sustained injuries about the shoulder yesterday afternoon when he was struck down by a motor car on Carlton street. The injured child was taken to the Hospital for Sick Children.

TO MAKE MEXICO DRY.

Mexico City, July 12.—Legislation making all Mexico "dry" is being prepared for presentation to the next congress at the office of Provisional President De la Huerta, says the newspaper Universal.

Remarks of Ex-Mayor.

"Mr. Burgoyne of St. Catharines is reported to have said something similar in referring to me in connection with this matter at a meeting in that city last Friday evening, and I am writing him now and asking with regard to my attitude as to Hydro radial railways I shall be glad if you will give full information to the public."

Second Letter.

"To W. B. Burgoyne the attorney-general writes: "Dear sir: The Toronto Daily Star of Saturday, the 10th inst., contains a report of the meeting in St. Catharines on the evening of the 8th inst., called to protest against the contemplated action of the government to appoint a commission to investigate radial railways."

"A perusal of the report justifies the statement of the reporter that 'the undercurrent running through the speeches was an accusation that the C.P.R. is responsible for the turn of events.'"

"You were, it appears, one of the speakers, and you are reported by the newspaper as saying: "I am free to admit that I would acquit the premier of being a wicked partner in this transaction. I think we will find him in the attorney-general."

"As a veteran newspaperman and a former mayor of your city you will appreciate that some responsibility attaches to language of this nature, and I venture to suggest to you that the public is entitled to an explicit statement from you, if you do not know anything yourself, I suggest that you tell the public just what you have heard or what you suspect. Or were you misreported, or was it just loose talk of which there has been so much lately?"

Control of Industry Says Braithwaite

"One important clause in the Toronto Hydro agreement is that which privileges employees to select one of their number to suggest improvements to the management," said Lou Braithwaite, men's representative on the board, regarding the award which the Electrical Workers' Union at their Sunday meeting refused to accept. "This signifies that the workers are to have a voice in the control of industry."

The award was not satisfactory to the men, granting only 15 cents increase, but James T. Guinn, business manager for the union, stated yesterday afternoon that no blame attached to the men's representative in the matter since he pressed home certain facts and suggestions which made the award more acceptable than it would have been.

The union will hold a special meeting on Thursday to take definite action in the matter. There are several complaints registered against the award. One is that altho John Godfrey, chairman of the board, agreed that the arguments for the payment of wages similar to those paid to the electricians of the Bell Telephone Company were sound, the award is considerably less. Cases of discrimination are still on the lists, but Lou Braithwaite and F. M. Ewart are dealing with this phase of the subject.

ORGANIZATION GOOD.

Officials of the Canadian Federation of Labor yesterday afternoon denied the report that the electrical workers on the Chippewa canal had decided to affiliate with the union, stating that as they were aware there was no foundation for the report. They stated that they had received calls for charters from three new locals in different parts of the province. Paul Giroux of Montreal had organized two locals in Quebec, one for sheet metal workers, the other for boot and shoe workers. There were no figures to hand as to the number of shoe workers organized, but there was reason to believe that they might number more than a thousand men and women. Reports had been received from Robert Hays, general organizer for the Canadian Federation in the west, to the effect that the work among the stationary engineers was progressing well.

TO VISIT FOREIGN MISSIONS.

Rev. S. Stephenson, superintendent of the Methodist Young People's Society department, and several associates, will leave early next week for a visit to the Methodist foreign mission field stations in China and Japan.

GEDESSES WILL TRANSFER EMBASSY TO VIRGINIA

Washington, July 12.—Sir Auckland Geddes, British ambassador to Washington, will go to New York for the international yacht races next Wednesday. After the races he will transfer the British embassy to the mountains of Virginia for the summer. Barton Lodge, in the immediate vicinity of Hot Springs, has been selected as the temporary summer home of the British ambassador and staff.

"MRS. TEMPLE'S TELEGRAM" REGENT.

When Jack Temple told his wife that he had been spending the night with his old friend, John Brown, he had no idea such a person existed. But he did. And when Mrs. T. started to investigate and despatched a telegram to Brown, he appeared on the double and turned out to be no other than the Italian manœuvre artist who had been making so much love to her. "Then— But you'd better see Bryon Washburn in 'Mrs. Temple's Telegram,' at the Regent Theatre this week, and discover how the gay mess turns out. The picture was a hit for many years as a stage play, and has lost none of its spontaneity and rapid-fire humor in the hands of Elmer Harris, the scenarist, in its transition to the screen. Pretty Wanda Hawley is the leading woman, and Walter Hiers and Sylvia Ashton are also in the cast. The picture is a Paramount-Artcraft production.

SHOPLIFTING IS CHARGED.

Charged with shoplifting, Bella Hart, of Mimico, was arrested in a dawn-busting store yesterday afternoon by Detective Stewart.

HOBBY OF FALLS VICTIM WAS SPECTACULAR STUNTS

New York, July 12.—Charles George Stevens, who was killed yesterday in going over Niagara Falls in a barrel, was a barber extraordinary. His hobby was performing spectacular stunts for which he received three ribbons, five gold medals and six silver medals. His specialties included kissing a lion in its den, shaving customers in a lion's den, boxing in a lion's den, and parachute descents from a balloon.

POLICE MAKE BIG HAUL OF WHISKEY

They Unfortunately Dropped One Big "Crock" and Lost Contents.

Harold Brown, 64 Dunn avenue; Chas. Smith and William Dupp, 119 Cowan avenue, were yesterday afternoon arrested by Detective Cronin on charges of housebreaking. The three men are alleged to have forced an entrance into the cellar of W. Inglis, 1386 West King street, and stolen more than thirty gallons of whiskey. One thirty-gallon pail was recovered by the police yesterday; another containing five gallons was recovered in a garage. While the police were carrying this large "crock" from the police car in front of the city hall, the basket covering around the "crock" gave way and the contents ran down the curbstone.

TUESDAY MORNING, JULY 13.

New Brunswick Dry.

The prohibitionists scored a victory in New Brunswick last Saturday comparable with their victory in Ontario last fall. The provincial prohibitory law was sustained at the polls by a two to one vote, and light wine and beer proposals were voted down by a large majority.

For years in spite of the laws to the contrary, there were a number of open bars in New Brunswick and in some places the offending hotelkeeper was periodically arrested and fined and thus made to pay a sort of a license.

The Mills of God.

The late Empress Eugenie lived to learn more clearly than most people the force of the saying "Count no man happy until he is dead." Hurling from a throne into exile, the empress drank deep of sorrow, the climax of her troubles coming with the ill-fated death of the prince imperial.

If the empress had been given absolute power after the Franco-Prussian war she could not have wreaked upon the victorious Prussians any vengeance comparable with what Fate, without her assistance, had in store for them.

So much trouble comes to every one who lives long enough that his worst enemy is likely to have his desire for revenge more than satisfied. And this leads to a popular and somewhat dangerous impression. Some men, perhaps a criminal or a condemned murderer, undertakes to pronounce a curse upon the judge, jury and officials who brought him to justice.

Will There Be a Third Party?

It is hard at this distance to forecast the result of the conventions being held in Chicago, which have as their object the formation of a third political party in the United States. There is first, the convention called by the Committee of Forty-Eight, a more or less self-appointed committee, representing the forty-eight states of the union.

The effort at Chicago will be to consolidate these conventions and groups into a new political party, much as the old-line Whigs, the Free-Soilers and the Know-Nothings were amalgamated to form the Republican party in 1856.

For Senator LaFollette is also prominently mentioned, but says he will not accept unless the third party is going to be a permanent organization.

In his keynote speech at the Committee of Forty-Eight convention on Saturday last, Allen McCurdy, its secretary, declared that he favored the two-party system, but denied that any such system at present existed in the United States.

The two-party system is based upon that quality of human nature which disposes a number of people to caution, and a correspondingly large number of other people to experiment.

The individual voter changes in temperament with age and experience, so that the radical youth may become a conservative old man. And the committee as a whole will unaccountably veer at times from radicalism to reaction, and vice versa.

It may be embarrassed by freaks and faddists, but it may none the less appeal to a large section of the electorate who have lost faith in the old parties.

His worship has taken this action following a recent report of Works Commissioner Harris of the number of cars in operation and in the barns during both morning and evening rush hours.

NEW SOURCE OF PULP.

Quebec, July 12.—It is understood that a very important pulp concern is about to be erected between St. Romuald and New Liverpool at Levis. This company will begin doing business with a capital of \$5,000,000, under the leadership of John Breakey, a prominent lumber merchant. Breakeyville, Levis. The mills are expected to turn out more than a hundred tons of pulp daily.

WORLD'S DAILY BRAIN TEST

BY SAM LOYD. 30 Minutes to Answer This. No. 244.

As is apparent, four similar squares can be combined to form one large square, but it is a different matter when we tackle the proposition of combining three similar squares to produce a single larger square. So we will ask our puzzlers to dissect those three squares into the fewest possible number of pieces which can be fitted together to form one large square.

Answer to No. 243. The average speed for the first two hours was 67 1/2 miles per hour, for the last two hours, 52 miles. Difference, 15 1/2 miles in two hours, or 7 3/4 miles in one hour. Hence the distance accomplished in the first hour was 71 1/2 miles, in the second 13 1/4, in the third 55 1/4, and in the fourth 43 1/4.

JUDITH OF BLUE LAKE RANCH

By JACKSON GREGORY.

CHAPTER XI. (CONTINUED.)

He didn't look up. His fingers, busy with the string at Crowdy's belt, brought away the canvas bag. There was blood on it; it was heavy and gave forth the mellow jangle of gold.

"You wip back your thousand on tonight's play," he said, holding up the bag to Judith, lifting his eyes to her face just how serious she was.

But Judith shrank back; her eyes wide with horror. "I don't want it! I can never touch it!" she whispered.

Suddenly she was, shaking from head to foot, her eyes fixed in terrible fascination upon Crowdy's face. Lee tossed the bag to the bunk across the room, whence it fell clanking to the floor.

"Now she's going to faint," was his thought. "Well, I won't blame her so damn much. Poor little kid!"

But he did not look at her again. He rose away Crowdy's shirt to disclose the wound in the chest. The collar-bone had been broken; the ball had plowed its way thru the upper chest, well above the heart, and could be felt under the skin of the shoulder. Unless Bill Crowdy bled to death, he stood an excellent chance of doing time in the penitentiary.

Lee stashed the flow of blood, made a ride bandage, and then, lifting the body gently, carried it to the bunk. Crowdy's lax arm, extended downward at the side of the bunk, seemed to be reaching again for the canvas bag; the red fingers touched it with their tips.

"Now," said Lee, speaking bluntly, afraid that a tone of sympathy might merely aid the girl to "shake to pieces," "we've got a chance to be on our way before Number Two and Number Three get into the game. Let's run for it, Judith."

Judith went to the bench by the fireplace and sank down upon it. For a moment she made no reply. Then she shook her head.

"We'll stay here until morning," she said, finally, her voice surprising Lee, who had looked for a sign of weakening to accord with her sudden pallor and visible trembling.

"What for?" he wanted to know. "We'll have another fight on our hands if we do. Those fellows, this deep in it, are not going to quit while they know that there's all that money in the shack!"

"I don't care," said Judith firmly. "I won't run from them or anybody else I know! And, besides, Bud Lee, I am not going to give them the chance to get Crowdy away."

"No, I don't. Doc Tripp will fix him up." "Then here I stay. When I go, Bill Crowdy goes with me! He's going to talk, and he's going to help me send Byrne Trevors to the pen!"

Bud Lee expressed all he had to say in a silent whistle. He'd made another mistake, that was all. Judith wasn't going to faint for him tonight.

"Then," he said presently, setting her the example, "slip some fresh cartridges into your rifle and get ready for more shooting. I'll put out the light and we'll wait for what's next."

Judith replenished the magazine of

WINNIPEG CATTLE RECEIPTS.
 Winnipeg, Man., July 12.—(Dominion Live Stock Branch)—Receipts of one week-end: 480 cattle, 550 horses and 60 sheep. Blading today was in line for most classes and grades of cattle. The previous class—Best butcher steers, 11c to 11.5c; fair to good, \$9 to \$10.50; choice, fettle butchers, \$9.50 to \$10.50; fair to good, \$7 to \$9.

Bulk choice veal calves, \$12 to \$12.50. Sheep and lambs quiet, good light sheep ranging from \$5.50 to \$7.50.

CATTLE MARKET WAS STRONG AND ACTIVE

Good Quality Stuff Higher, Common Grades Steady.

With a run of around 1800 cattle at the Union Stock Yards yesterday there was a good strong market for the better class of butchers with the price rallying up a good 25c to 50c, and in some spots higher. The medium class cattle were no better and the bull trade was practically unchanged from last week's close.

While the run was not by any means a big one there were too many common cattle on sale, and the commission houses were unanimous in the opinion that the drovers would be well advised to leave this class of cattle alone for the present.

There is said to be an abundance of grass in all parts of the country and there is no particular need why this class of cattle should come forward at the present time. Good butchers are always wanted.

The better class of milkers and springers are selling all right and are bringing satisfactory prices, but trade in the common cows is slow.

The lamb market was strong, a few odd choice lots selling at from 17c to 18c, medium 15c to 16c, and in some spots higher.

The calf market was a dollar higher, choice veal selling from 14c to 15c, common and medium 12c to 13c.

The hog market is holding steady with the bulk of the sales going around \$12.50 f.o.b., with a few odd choice lots selling at the 14c. While the buyers are naturally talking lower prices, it looks as if the market might hold steady at the prices quoted.

Personal Note.
 Charlie McCurdy, head salesman for the United Farmers' Co-operative at the Union Stock Yards, returned on Saturday morning from a big U. F. O. picnic up at Walton, Huron Co., held on Friday, and which is said to have been attended by around 3000 Huron Co. farmers, their wives and sweethearts. Private advice say the genial C. McCurdy made a happy day, imparting a lot of useful information and incidentally made a big hit with the gentler sex.

GENERAL SALES.

WHOLESALE FRUITS AND VEGETABLES

Domestic fruit receipts were rather light yesterday, as is usual on Mondays.

Strawberries—The bulk of the berries sold at 22c to 25c per box, a few bringings 25c and some closing at 20c per box.

Blueberries came in a little more freely, selling at \$2.15 to \$4 per 11-qt. basket.

Cabbage—Receipts have been very heavy the past week, and prices were held too high, so it began to glut the market, therefore yesterday prices took a tumble—the large crates selling at \$4 to \$4.50, and bushel hampers at \$1.75 to \$2, and it looks as if prices must still go downward.

There is a glut on the market, these being practically no demand, as growers near the city, provide an ample supply.

Ches & Simpson had a car of Georgia peaches selling at \$5.50 per six-basket crate; a car of Georgia cantaloupes selling at \$4 per standard crate and \$3.75 per flat case; a car of California cantaloupes at \$7 to \$7.50 per standard, and \$3.25 per flat case; a car of California plums at \$4 to \$4.50, and peaches at \$2.50 to \$3 per four-basket crate.

Dawson-Elliott had a car of watermelons selling at \$1 to \$1.50 each; strawberries at 20c to 25c per box; raspberries at 40c per box; sour cherries at 75c per six quarts, and \$1.40 to \$1.50 per 11 quarts; sweets at \$1.25 per six quarts; wax beans at \$1.50; peas at \$1 to \$1.25; and asparagus at \$2 to \$2.50 per 11 quarts; hot-house tomatoes at \$2.25 per six quarts; and \$2.50 per 11 quarts; and \$1 to \$1.25 per bushel hamper.

McCart Co., Limited, had a car of California plums at \$4, and peaches at \$2.75 per four-basket crate; a car of California peaches at \$2.50 per six quarts; a car of bananas at 10c per lb.; strawberries at 20c to 25c per box; sour cherries at 75c per six quarts; white turnips at 25c to 30c per doz.; No. 1 new potatoes, \$1.25 to \$1.50 per 11 quarts; No. 2's at \$1.10 to \$1.25 per 11 quarts; No. 3's at \$1.00 to \$1.10 per 11 quarts; No. 4's at \$0.90 to \$1.00 per 11 quarts; No. 5's at \$0.80 to \$0.90 per 11 quarts; No. 6's at \$0.70 to \$0.80 per 11 quarts; No. 7's at \$0.60 to \$0.70 per 11 quarts; No. 8's at \$0.50 to \$0.60 per 11 quarts; No. 9's at \$0.40 to \$0.50 per 11 quarts; No. 10's at \$0.30 to \$0.40 per 11 quarts; No. 11's at \$0.20 to \$0.30 per 11 quarts; No. 12's at \$0.10 to \$0.20 per 11 quarts.
