TENEMENT BLOWN UP BY A BLACK HAND BOB

Lives of a Hundred Persons Endangered Today Because an Italian Doctor Disregarded Letters Sent to Him.

NEW YORK, May 20.—A wealthy Italian physician's refusal to comply with the demands of Black Hand criminals resulted in grave danger to the lives of a hundred persons today when a bomb exploded in the tenement house at 215 East 12th street.

USED A RAZOR ON GREEK CLERK'S HEAD

A Cutting Case Last Night—The Criminal Tried to Borrow Money.

Radigione Costantino, a 40-year-old Italian, was today charged with assaulting and wounding George Merrises, by cutting his head open with a razor, or knife, last night.

The assault took place last evening in A. S. Panagouris's fruit store on Main street.

Mr. MacInnes said he was delegated to lay the matter before the committee.

Mr. MacInnes said the resolution plainly stated the charter of the old street railway company to be forfeited.

There was some discussion as to whether the act of 1900 rehabilitated the rights of the old company, but the opinion of gentlemen who spoke was that it did not.

Mr. Robinson said there were three points to consider in this discussion: the rights of the municipality, the rights of the old company and the rights asked by the Westmorland Power Co.

NEW YORK, May 19.—Arrested on a federal warrant issued in Boston on complaints alleging that during the past two years, he had defrauded New England farmers out of the proceeds from the sale of \$100,000 worth of apples, Walter Mills was locked up to-night in police headquarters.

Mr. G. L. Harris, speaking for the Westmorland Light and Power Co., said their application did not interfere with the franchise of the city of Moncton.

The company were willing to deal with the city for any privileges required. They did not consider the Moncton franchise very valuable but hoped to make their profits from a line to Shediac, Point du Chene and Brule, where they would erect a large summer hotel.

The bill asked for by the company had the appearance of wild cat legislation. It looked like the entering wedge of securing power to issue debentures to build railroads to shed towns where.

He thought the city should not have power to go on with the work until a plebiscite had been taken. In reply to a question by the Premier, Mr. Harris said he did not think the Westmorland Power Co.

MOTHER TELLS THAT ESTELLA IS NOT THE DAUGHTER OF RICHARD GREY.

Her Birth Shortly After Their Marriage Caused Separation of Pair—Brother Accuses Sister of Improper Conduct—Sensational Revelations at the Woodstock Trial.

WOODSTOCK, May 20.—Rapid progress was made in the Gray trial this morning. At the opening Judge MeLeod announced his ruling as to the point raised by Hon. Mr. Jones that the third count, one for concealment of birth, should not be tried, as it had been in the power of the former jury to bring in a verdict on that charge.

A LONG DISCUSSION OVER MONCTON'S FRANCHISE BILL

COUNTIES REFUSE TO PAY FOR THE LUNATICS

Provincial Hospital Accounts Show Charges of \$30,000 Which Have Been Disputed.

FREDERICTON, N. B., May 20.—The Union of Municipalities did not meet this morning as many of the members desired to be present at the Corporation Committee of the Legislature, when the Moncton Street Railway Bill was considered.

The Public Accounts Committee was engaged all morning with the examination of the Provincial Public Hospital accounts, Dr. Anglin and Messrs. Kingston and Boyne being present and questioned by the committee.

Mr. MacInnes said he was delegated to lay the matter before the committee.

NEWS FROM FREDERICTON

FREDERICTON, May 20.—Alderman Egerton Everett, representative of St. Ann's ward in city council, died at eleven o'clock this morning, after several weeks' illness from hip disease.

The late Alderman Everett moved here from Kingsclear about twelve years ago, and has since taken active part in civic affairs.

Mr. Everett is a son of the late Mr. Spencer Everett, of the Transcontinental survey, and two daughters, Lily and Mary. Coun. T. C. Everett, Kingsclear, is brother of deceased.

Rev. Fred S. Porter and Miss Edith Spurdin, daughter of J. W. Spurdin, late manager Bank of Montreal, were married this afternoon by Rev. J. H. MacDonald.

The bride's grandfather, the late Rev. Mr. Spurdin, was prominent in provincial Baptist circles in bygone days.

Both are graduates of Acadia institutions and were members of the same church. The bride's father, Rev. Mr. Porter, is a son of the former pastor of the Baptist church here.

WHY DID THEY GO?

There is some discussion as to the value of the trip which the members of the County Council are making to Fredericton today. It is understood that Hon. Maxwell, M. P., telephoned to the city last night saying that it was useless for the delegation to go up as early as this for they would be unable to accomplish anything.

The trip was characterized by some members of the Council as a holiday trip at the city's expense.

The delegation of the city aldermen will not go until next week.

LONDON, May 20.—Play in the preliminaries to the Olympic court tennis contests was resumed at Queens' today. Jay Gould of New York, defeated V. H. Pennell the former British champion in the first set, six games to three.

The Portland Y. M. C. A. and Exmouth street Y. M. A. baseball teams, of the St. John Baseball League, will meet in a practice game on the athletic grounds this evening at 6.30.

SYDNEY, N. S., May 6.—About three thousand school children will meet at the central school grounds here on Friday next, Empire Day, to celebrate the patriotic event and in connection therewith will salute the British ensign recently received from their antipodean fellow pupils in Sydney, Australia.

A like celebration will take place in the latter city on the same date, when a flag from this city will be saluted by the Australian children.

A PAINTER DEAD

NEW YORK, May 20.—Word was received here last night of the death in Berlin on May 15, of Charles Frederick Ulrich, whose paintings have attracted much favorable criticism in America and abroad.

Mr. Ulrich was born in New York in 1855. He studied in Germany for several years, returning to New York in 1879 and following his profession here until 1884, when he went to Venice where he has since resided.

It is a good thing to get up on the tacks, but it takes the tactics of getting up to win a battle.

G.T.P. TO BE ALLOWED TO SUBSTITUTE SECURITIES

Nova Scotia and P. E. I. Ask For Branch Railway Lines OTTAWA, May 19.—Hon. Mr. Fielding has given notice of a government bill to amend the act respecting the Grand Trunk Pacific by allowing the company to exchange some of the securities now deposited with the government in connection with the guarantee of bond issue and which are now in demand on the market, for other securities which are intrinsically as valuable, but which at present cannot be sold to any advantage. The object of the company is to be in a position to raise funds for carrying on construction work on the new line by selling some of the securities now marketable. At the same time the government will not lose, as the securities to be exchanged will be marketable in the future if it is found necessary to sell them. Two applications for intercolonial and island railway branch lines were today made to Hon. George Graham and Hon. W. S. Fielding. A delegation from Cape Breton asked the government to construct or aid to construct branches of the intercolonial connecting St. Peter's, Louisbourg and Sydney. Premier Harnand of Prince Edward Island presented the resolution of his legislature asking the government to undertake the construction of branch lines on Prince Edward Island. The ministers promised to take the application into consideration.

CRIPPLING SCIATICA A Sure and Certain Way to Cure This Terrible Torture.

There is just one sure, scientific cure for sciatica, rheumatism, lumbago, neuralgia, headaches—you must drive the pain from your blood and nerves with Dr. Williams' Pink Pills. Liniments never cure, but the conditions existing at the time of the recent exhibitions were not altogether desirable. A large number of applications have already been received for space and the indications are that the different pills instead of 50 pounds in weight, as of any previous show. Looking over the prize list it is noted that there are some additional classes in the horse list which will enable many of the good animals hitherto barred to be placed on exhibition. For the first time in St. John exhibitions there will be a class for dry cows, etc., and the grain exhibit will have the best animals fresh just at the time of the exhibition. It is noteworthy that in the butter and cheese classes the packages from factories are only required to be 25 pounds instead of 50 pounds in weight. There are additional prizes offered for different varieties of white oats, peas, etc., and the grain exhibit will be more attractive from the fact that inducements will be made to the farmers to show some grain in sheaf.

ARRANGING FOR NEW FEATURES Exhibition Executive Holds Session

Contract Made With Hand Fireworks Co.—Other Matters Discussed A meeting of the executive of the Exhibition Association was held last evening in their rooms, 225 King street, with A. O. Skinner, the president in the chair. Manager Hand, of the Hand Fireworks Company, was present and arrangements were completed with him for an elaborate programme of fireworks. Several features which have never been seen before in New Brunswick or the other lower provinces will be introduced. All the gentlemen present seemed convinced that additional interest must be taken in the different manufactures. It was the opinion of those present that many articles were manufactured in this vicinity which would make a creditable display if the owners could be induced to exhibit them. W. S. Fisher is the chairman of the committee in charge of this department and a large exhibit is looked for. Features such as the special attraction, including music were discussed at length and it was decided to go in for them on a much more elaborate scale than heretofore. The committee which lately inspected the buildings made their report. The suggestions as to the improvements to be made in the Star will be carried out immediately. It was felt by the members that there must be something to take the place of the "Pike," but no definite action was taken. The opinion prevailed, however, that the conditions existing at the Pike in the recent exhibitions were not altogether desirable. A large number of applications have already been received for space and the indications are that the different prizes instead of 50 pounds in weight, as of any previous show. Looking over the prize list it is noted that there are some additional classes in the horse list which will enable many of the good animals hitherto barred to be placed on exhibition. CIVIC BOARDS MEET TODAY

Friday at 3:30 p. m. the bills and by-laws committee will meet at City Hall for the purpose of discussing and considering the bill to be forwarded to Fredericton by the Municipal Council, that affect the city of St. John. Of the five bills that the municipality will send up only one affects the city. That is the one the provisions of which make it necessary that the money granted the General Public Hospital by which should it pass, the city will be liable to heavy damages on account of the Loch Lomond water works extension. Probably a strong and influential delegation from the committee will go to Fredericton to work against this bill. Concerning the bills to be sent up by the municipality considered by the by-laws committee as the committee appointed by the Municipal Council has never met to consider them. At four o'clock this afternoon the Treasury Board will meet for the purpose of dealing with the situation which Ald. Kelley's famous motion concerning civilities has brought about. For some time back the city has been practically without constables as the former constables have declined to furnish the bond that Ald. Kelley's motion made necessary.

COUNT TOLSTOY, NEAR END OF LIFE, CRAVES PEACE.

Begs That the Celebration of His Eightieth Birthday be Abandoned, Lest It Stir up Strife; His Simple Habits of Life.

Count Lyot Tolstoy begs that his 80th birthday be not made the occasion of a celebration. This wish was made known in a letter to the secretary of the proposed celebration, which met April 16-18.

In the letter Tolstoy speaks of his approaching death, and says that he would not like that animosity and strife should break out on his account. The thought that he may be the cause of still more hatred and rancor in this world, is a source of great suffering to him, as he is a source of great suffering to the world.

MA Y REDUCE WAGES EIGHTEEN PER CENT.

Manufacturers and Union Officials Confer at Fall River

FALL RIVER, Mass., May 19—The reduction in wages which will go into effect in the print mills of this city on Monday next will probably amount to 15 per cent, the heaviest cut ever made at one time here, if the six months sliding scale is put in full operation by the manufacturers.

The Textile Council at a meeting tonight will consider the situation and arrange to sign the new agreement which is called for, neither side having given a necessary six months notice that a discontinuance is desired.

The reduction will affect about 85,000 operatives.

Business has been done in the cloth market since December, most of the mills running on half and two-thirds time. The rate of wages paid, however, has been the highest in forty years.

The local manufacturers under the agreement not cutting wages in March and April, when the other northern mills did. The strike situation has somewhat improved this month, and it is thought more machinery will be in operation next week.

It is not known where heavy wage cut in this city. They reduced wages ten per cent, early in the spring and it is thought that if business improves steadily, they will not find it necessary to order a further reduction.

NEW WORLDS RECORD AT BELMONT PARK

BELMONT PARK, May 19—A new world's record was made at Belmont Park today, when Precaptor, a two year old, carrying 113 pounds, won the second race at 4 1/2 furlongs straightaway. He stepped the distance in 51 flat, which is 2-5 of a second faster than the best previous time, made by Tanya, a two year old with 107 pounds up at Morris Park, May 12, 1904. There was a strong wind blowing down the stretch and the youngsters had it forced behind them all the way. Precaptor was a drive to stall off Sea Cliff.

**MEN WANTED.**  
The Synod of Toronto and Kingston which has been in session in Toronto during the past week has found fault with the management of several branches of church work, notably in the congregational support of missions. It has been pointed out that in this wealthiest synod in Canada the contributions to missions average four-fifths of one cent per week from each member. The blame for this is placed on the clergymen who are criticized for not urging their people to greater generosity. Another subject which will be brought before the general assembly next month and which received considerable attention at the meetings of the synod was that fifty new men are annually required to fill vacancies caused by deaths or retirement of pastors, while this year less than forty theological students will graduate from all the Presbyterian colleges in Canada. These colleges it was pointed out are supported to a large extent by the church in order that Presbyterian students and others may be given some assistance in the work of life and also that they may train sufficient men to carry on the work of the church. Magnificent buildings have been erected and very large amounts of money handed over for the maintenance of the colleges, but the church has neglected to furnish the students. At Queen's, for example, there are in all 1,250 students enrolled, as compared with 1,180 last year and 885 five years ago. Yet of all these only thirty-six are taking theology, and only six are in this year's graduating class. The great increase of students is in science. The clergymen of the synod were also criticized for their neglect of Sunday schools and for negligence in sending in reports. Young people's work, it was pointed out, is languishing. The most serious difficulty, however, is in keeping up the supply of new men.

**SIR THOMAS IN LONDON.**  
Sir Thomas Shaughnessy is enjoying what he calls a holiday in Britain, but he is probably doing more effective work than if he were on what he would term a business trip. Today Sir Thomas will appear before the London Board of Trade to tell what he knows about the proposed All Red Line. His statement will be that a service as has been proposed would involve subsidies from the British and Colonial Governments twice as great as would be required by the C. P. R. with all the advantages already possessed, over any new line that could be formed. He will state that fast steamers on the long Pacific voyage would have to carry so much coal, that as cargo boats they would be practically useless or profitless. He will add that the Orient Line has just given an order for more new boats for the Pacific, those to be of seventeen knots speed, and that those disposed of are a twenty-four knot service for six years to come. The president of the C. P. R. has been giving these assumptions wide publicity during the short time he has been in England and it is generally believed that his visit there is almost wholly an effort to weaken the growing feeling in favor of a faster service from Britain to the East.

In July last, the "Star" printed an article dealing with river traffic in which certain statements were made, pertaining to the management of the steamship Elsie and reflecting severely upon the conduct of Captain Peelman, who was quoted as using offensive and profane language. The "Star" at the time believed the statements to be correct and published them, not with any malice or any desire to injure Captain Peelman or the management of the Elsie, but rather in the interests of river travelers. Since then, the "Star" has learned from authoritative sources that the offensive allegations in the article were incorrect and decidedly unfair to Captain Peelman and his employees. We are naturally sorry that any such mistake occurred and take this opportunity to correct it and to express our regret to the captain and the company that the article was published.

Recorder McGovern, of Hoboken, N. J., when four young boys were brought before him charged with staying out late at night, handed a strap to the father of one of the lads and told him to give his son a good thrashing. Each father in turn applied the belt and the walls of the court continued for about fifteen minutes. Since then the boys have been in the house early in the evenings.

Rev. W. F. Wilson, of Trinity Methodist Church, Toronto, has advised the ladies of his congregation to bring their little hats to church and to wear their Percy Wildons at the baseball games. He intimates that the Sunday display of this year's millinery

is a humbug. Rev. Mr. Wilson has reinstated the hats and now refers to them as Aunt Mary's.

**A LITTLE DIRTY FELLOW.**  
There's a little, dirty fellow in a dirty part of town. Where the sidewalks are sooty and the roots are tumbledown. Where the snow falls black in winter, and the willing, sultry heat Comes like pestilence in summer through the ragrow, dirty street, But amid the want and squalor of the crowded, sorry place You can find the little fellow by his happy, laughing face. True that poverty's a burden that is heavy to endure; But the little, dirty fellow doesn't know that he is poor!

There's a box out in the alley that the grocer didn't need. And a withered orange seed; And he waters it each morning with a broken china cup. Filled with happiness and wonder when the leaves come creeping up. It's a yellow tree, and sticky, but a living, growing thing. And he sees in its unfolding all the miracle of spring— All the blossoming of the orchard, all the bloom-strewn meadow land. That he never yet has looked on, but so well could understand!

And at night amid the music of the clanging trolley cars He can look up through the window at the wilderness of stars; And he thinks the baby angels must be very, very ill. For although he's dreadful drowsy, all the lights are burning still. Almost half the lights in heaven he considers with a sigh, And he hopes, with drooping eyelids, they'll be turned out by and by. So he'll know the angel mothers, all the anxious hours passed. By the little golden cradles, have gone off to sleep at last.

Just a little, dirty fellow; yet beside his battered door He has found the one great secret that we all are seeking for!

**ON THE BILL OF FARE.**  
"Well, what's on the bill-of-fare today?" inquired the genial drummer. "Big pardon, sah—Ah guess 'er fly-specs. Ah'll git 'er snudder, sah."

**IDIOTS AND SENTIMENTALISTS.**  
Have these maudlin sentimentalists in Arthur and the Idiots in London who cheered for Moir's victim?—London Advertiser.

**FROM THE OUTSIDE.**  
Little Margie (after watching her small brother devouring several large sections of chocolate cake—"Mamma, isn't it funny how much larger Jimmy really is than he appears to be from the outside?")—Judge.

**SHD SHOWED HIM.**  
A woman in Missouri saw a man heading a horse. Hastily securing a rifle she rushed up and everlastingly lambasted the cruel man over the head.

"I'll show these brutes," she may be supposed to have said, as they carried the victim away, "that there's a lot of first-class humane sentiment left in this community."—Cleveland Plain Dealer.

**THE UNKISSED SAYS HE HAS HAD HIS SHARE**

Never Proposed, Though, to Any Girl, and Will Not Until He Meets One He Wanted to Marry.

**BIG ROBBERIES IN POST OFFICE**

Large Sums of Money Stolen in Winnipeg.

Number of Packages Containing Considerable Amounts Have Mysteriously Disappeared.

WINNIPEG, Man., May 14.—A series of robberies extending over several months has been going on in the Winnipeg post office, and the sum stolen aggregates a very large amount. It is believed not less than \$12,000. Officers refuse to discuss the matter, and consequently it is impossible to ascertain the correct figure, but the sum cannot be less than stated. A number of packages, containing from \$800 to \$2,000 have disappeared as mysteriously within the building as though they had sunk into the ground, indicating that the thief is some person who has the handling of the money entrusted to him, and that he is clever and systematic in his operations. It is thought to be not improbable that an organized gang is working within the postal service, as the robberies have not been confined to the city office, but have occurred at several points throughout the West when large sums have been in transit, the supposition being that a tip was passed to a confederate from some one in close touch with affairs in the head office. So successful and daring has the thief become in the Winnipeg office that the Postal Department has issued instructions to the effect that in future registered mail is to be checked over by the postmaster, his assistant, and the post-office inspector's department. In the meantime, every effort will be made to unearth the criminal whose actions cast suspicion on every one associated with him in the discharge of the public business.

Mr. John A. Morrison has learned that his drive was at Seven Islands, about forty miles above the Ontario limits, on Saturday, and it is expected to be in corporation limits some time this week. Today Van Buren, Edmundston and Woodstock report the water in the St. John river either about stationary or falling a little, and that logs are running thickly. The warm weather this week should keep the water at a very good pitch for driving.—Gleaner.

as having never been kissed or never kissed?" "One of those unaccountable reports, I never claimed to be kissable." "Then it is all untrue?" "Yes, I was first kissed when I was reasonably young—when I was at school. Since then, at reasonable intervals, I have been kissed, and on, and I hope to have many more in the days to come."

"No, never quite. I was very near it once in Zion City, but I have forgotten that romance." "Because of new ones?" "No, but because man's memory is always short for that sort of thing after it blows over."

"How many romances have you had, Mr. Dowie?" "Oh, not so many. You know the conditions under which I was reared were not such as to encourage general or indiscriminate love-making. But I have not been bereft of my share of the little love passages."

"Are you in love now?" "Not really in love. I admire a good many very lovable girls. But I cannot say that any one of them occupies all or nearly all of my heart. The test of being in love, is it not?" "Do you contemplate matrimony?" "I see none in my present range of vision."

"Will you ever marry?" "Perhaps, I have not yet met the woman, though, whom I would, irresistibly to marry."

"Have you ever proposed?" "No—that's where you have me. That is true. I have never proposed to any girl."

"What sort of a young woman do you think could induce you to get on bended knees and ask the question?" "Oh, you must not ask me that. I could not describe her, having never seen her. She must be the right one. I do not know what she will look like or what her disposition will be. But when I find her, if I ever do, I will know at once that she is the right one."

"Gladstone Dowie, the many-times-kissed, is at the Stratford hotel with his mother, widow of John Alexander Dowie. They are looking after their Zion City property."

Mrs. Dowie is said to be determined to start a fight for the place of power that her husband once held and from which he was dethroned by Wilbur G. Volney.

The widow hopes to regain away over the religious cult founded by the late Dr. Dowie. Neither she nor Gladstone Dowie would discuss this subject.

**MRS. GUINNESS' DEATH PROVED BY TEETH**

Fragments Found in Ruins of Burned House

Friends of Three More of the Victims Searching for Clues to Their Identity.

LAFORTE, Ind., May 19.—Louis Schultz, the expert miner today found in the ashes of the Guinness house the upper and lower bridges, containing what the officials here pronounced the false teeth of Mrs. Guinness who, it is thought, murdered a dozen persons. The lower set of teeth tallies exactly with the description and diagram furnished by Dr. L. B. Norton, the dentist, who built the bridge and who today positively identified the teeth as those of Mrs. Guinness. In view of the unmistakable evidence, Coroner Mack stated this evening that he probably would render an official finding that the burned female body is that of Mrs. Guinness. The grand jury continued with the case of Roy Lamphere, charged with the murder of the Guinness family. There is little expectation that the trial of Lamphere will take place this spring. Sheriff Smutser is investigating the claim that Wm. Riedinger, a farmer at Deafield, Wis., was one of Mrs. Guinness' victims. In a letter received today, David Hickman, a friend living at Waukesha, Wis., tells of the disappearance from home of Riedinger who has issued a letter instructing him to sell the stock and farm implements and put the money in the bank. Although the letter was unsigned and not in the handwriting of Riedinger, the hired man followed the instructions and deposited \$800 in the bank where it is today, for Riedinger never returned and was not heard from after that.

Miss Jennie Graham, Waukesha, Wis., is seeking her brother, who left home to marry a rich widow in Indiana and never again was heard from.

What is considered proof that Henry Gurholt, of Scandinavia, Wis., came to Laforte and was put out of the way by Mrs. Guinness, was supplied today by Sheriff Smutser received a letter containing the description of Gurholt's watch, which tallies with one of the watches found in the ruins of the burned house. Gurholt had fifteen hundred dollars in cash when he left home to come to Laforte to see Mrs. Guinness, with whom he had corresponded.

Sheriff Smutser tonight received a telegram from Osnage, Iowa, that Mrs. Guinness had been seen and positively identified by two persons. They asked for instruction regarding her arrest. Sheriff Smutser's answer was that Mrs. Guinness is dead.

The seven unidentified dead were buried today in the Potters' Field.

The C. P. R. employees in the Angus shops at Montreal refused to go on strike yesterday when such overtures were made by western labor representatives. They claim that if they went out they would violate the spirit and letter of the Levesque Act and prejudice their case with the arbitration committee now sitting in Winnipeg.

**U. S. CONSUL AT CHARLOTTETOWN DISMISSED**

**John H. Shirley Had Been Taking Too Prominent a Part in Industrial Promotion**

The London, Eng. Gazette last night published the unusual notification of the withdrawal of a consular exequatur. The individual in this case is John H. Shirley, an American, who is the consular representative of the U. S. at Charlottetown. A despatch from Halifax says that the reason given for the withdrawal of Mr. Shirley is that he has been engaging too prominently in commercial enterprises and the withdrawal was made by King Edward at the request of the U. S. Government, which does not permit its consuls to extend their activities beyond the business of their office.

Shirley was an active promoter of legislation at the recent session of the Nova Scotia parliament, which, under the lobbying, incorporated the Illinois Forged Solid Steel Car Company, a corporation that proposed to erect works in Cape Breton. Shirley presided over the legislature in 1902 and was elected to the legislature to authorize the town of Sydney and North Sydney to give the company a free site, exemption from taxation and other privileges.

"Since the prorogation of the legislature Shirley failed to come to terms with Sydney and he closed with North Sydney, accepting the terms of that town. These facts seem to have been reported to the authorities at Washington, and it is on account of their representations that the British Government has withdrawn Shirley's United States Consul-General at Large G. H. Murphy, whose jurisdiction is the whole of Canada, is in Charlottetown at the present time and is in charge of Shirley's old post at the consulate, awaiting the arrival of Franklin D. Hale, United States consul at Charlottetown. Quebec, who has been appointed to succeed Shirley. The Charlottetown office brings a salary to the consul of about \$2,000 a year. Shirley had been a year at Charlottetown.

More than eight years have elapsed since China granted to France a concession to build a railway from the Tonquin frontier to Yunnanfu, the capital of the southwestern province, a distance of about 20 miles. Labor and climatic difficulties as well as a change in 1901 or the original trace of the line have had much to do with the delay, but work is now proceeding all along the new route, and it is expected that the railway will be open as far as Mongtsai in 1907 and be completed to Yunnanfu, the terminus, in 1908. — London Examiner.

**KAISER'S HINT TO OTHER POWERS**  
Must Not Presume on Germany's Concessions

Official Organ Utters Warning Against Offence to Dignity of the Fatherland.

LONDON, May 19.—When the Kaiser rattles the sabre the whole world immediately pays attention. He has several ways of doing it. Sometimes it is by sending a semi-private despatch to a foreign official, as in the case of the Kruger telegram. Again it may be an ominous phrase in a speech on one of his journeys as at the close of the first peace conference. His latest method is to use the columns of the newspapers for the purpose. The Cologne Gazette, which everybody recognizes as a semi-official organ, yesterday devoted the whole of its first page to an article, warning all and sundry that it would be better not to assume that Germany's direct interests, but to such affairs as the Moroccan and Macedonian questions. It is evident that German diplomacy has been gravely affronted by the tendency to ignore German susceptibilities. The writer says:

"Among German residents abroad the unanimous opinion prevails that Germany wishes to keep the peace in all circumstances, and that other nations may do as they please because she will tolerate anything. It is said that if the sabre is occasionally rattled the notion does not want it, and that if the sabre is occasionally rattled it is only a theatrical manoeuvre."

**KAISER'S HINT NO. 2**  
The treatment of the Morocco question and the attitude of Germany on the Macedonian question are cited as evidence that Germany is inspired by the same idea, as Prussia was 30 years, that the object of her policy is to maintain peace with honor and to avoid a military expedition as well as its diplomacy. But there is a limit to be reached. Continual weakness and constant growing way before her, and other nations, encourage the arrogance of our enemies and directly produce the peril which is desired to avoid. It is the world people should understand that our patience, too, has its limits. Our Fatherland is not to be armed primarily for defence, but it also carries a sharp sword at its side, the necessity of which is shown by the more remote the more foreigners are convinced that we are ready to resort to that extreme if our honor is injured."

**DEANERY DISCUSSED**  
KINGS COLLEGE AFFAIRS

DIGBY, N. S., May 19.—The rural deanery of Annapolis commenced its annual quarterly meeting here this afternoon with a meeting held in the parish hall of Trinity church. A large number of delegates, clerical and lay, are in attendance, and the sessions are being exceedingly well attended. This afternoon's proceedings were largely taken up with the affairs of Kings College, and an exhaustive report dealing with the present conditions and immediate prospects of the constitution were discussed.

Herbert L. Jones of Weymouth was unanimously re-elected as the deanery's representative on the board of governors. Tomorrow and Thursday will be devoted to the reading of papers and their connection. These will be followed by "quiet hours" conducted by the Rev. W. Chas. Wilson of Springhill. Illustrated lectures dealing with the early English church history are being delivered this evening.

Conference Begun at Ten O'clock This Morning

All Night Session Brought No Result—Extensive Use of Dynamite on Tracks.

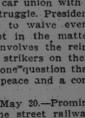

CLEVELAND, O., May 20.—Continuation of the unsettled conditions in the local street railway strike for at least twenty-four hours is the result of an all night meeting of the members of the State Board of Arbitration and the officials of the Municipal Railway Company together with the leaders of the union. The conference adjourned shortly after three o'clock this morning without hour for re-assembling. No announcement was made of either side of the controversy. After a night marked by the most violent conditions since the strike was inaugurated, five days ago the police and county officers began preparations to protect the so-called non-union crews of cars and the public that had the courage to ride.

Here, Harold, take a Mother's Seal Seal Capsule as I did, and you will feel all right again.

To prove that this remedy is harmless and that it can never produce any bad after effects, an analysis was made by Milton L. Hersey, M. Sc., Chemist for the City of Montreal, and Analyst of the Province of Quebec. "I hereby certify that I have personally analyzed a sample of 'Mother's Seal Seal Capsule,' purchased by me in the open market of the City of Montreal, and my tests have failed to detect the presence of opium, morphine, cocaine, or any other alkaloid or chloral whatever."

A party of 600 delegates to the International Sunway School Association Convention that went to Rome, Italy, had a supply of this remedy on hand, and not a single delegate was affected with seasickness.

This discovery at last disposes of the prejudice so many people have entertained against the use of medicines as a remedy for seasickness.

Mother's Seal Seal Capsule is sold in 50c. and \$1.00 boxes at druggists. If your druggist has not got it in stock, send us the money, and we will send you the remedy, all charges prepaid.

Send your name and address today to the Montreal Remedy Co., 125 Cleveland Bldg., Detroit, Mich., for interesting information and testimonials from many who have used this wonderful remedy.

**FRANCE ACCUSED OF INSULTING GERMANY**  
Moroccan Messenger Under German Protection Was Badly Used by French Officers

BERLIN, May 20.—The Foreign Office has received a report from Dr. Rosen, the German Minister to Morocco, regarding the alleged maltreatment of a man under German protection by French soldiers. According to the information received here the man was carrying a letter from the German Legation to the commander of the body of French troops, but the soldiers maltreated him, while the officers spat upon the consular letter. Dr. Rosen immediately lodged a complaint with the German Legation at Fez and the matter is now undergoing consideration at Berlin. Apparently the Foreign Office regards the case as one calling for diplomatic representations. It is assumed here that Chancellor Von Buelow brought this matter to the Emperor's attention at Wiesbaden Monday and possibly this was the cause of the Emperor's cancelling a luncheon engagement with the Provincial Nobility.

**AMUSEMENTS.**

**"The Money-lender" at the Nickel**  
Closely following the magnificent production of Macbeth, the down-east drama How The Mortgage Was Lifted, and other pronounced pictorial successes at the Nickel, comes a picture-play of deep interest entitled "The Money-lender." Commencing at noon today this heart-grIPPING story of "wild oat" sewing in collegiate circles will be presented with special musical setting, and will undoubtedly add another hit to the big picture house's score. The title of the drama suggests the plot; it is one of gay whiff, civil companions, a grasping money lender and his victim. The scenic embellishments are remarkably fine, and the acting superb, particularly the closing scenes in which the fond father "regrets" the bill and welcomes his prodigal boy home again. In the Pathé picture, Female Police, a clever French satire on the American idea is made, the situations warranting untold merriment. A Delightful Dream is an Italian fantasy with colored sets. Miss Wren, the excellent mezzo-soprano, will sing The Story The Picture Blocks Told, and Mr. Maxwell is receiving much applause for his rendering of the cowboy love-song, "When It's Moonlight on the Prairie, Darling Miney." Orchestral novelties and Chelsea fire views.

**AT THE PRINCESS**  
One of the best programmes that has ever been placed before the people of St. John will be put on this afternoon at the Princess. Consented Love A remarkable picture stands in a class by itself. A young girl is stolen from her home by the manager of a circus. She was forced against her will to take part in the performance at the difference between her parents and the manager. She wins the love of a young man in the company, they are caught embracing each other by the manager's wife, who informs her husband and he attempts to whip the girl, when her lover interferes and in a struggle which ensues the manager is stabbed. The young man is arrested and the girl finds a friend in the village priest, who on hearing her story communicates with her parents, who are overjoyed at finding their daughter. They make haste to the village where she is under the priest's protection, and on the day of their arrival her lover is proven innocent of the charge against him and they are married.

**AT THE UNIQUE**  
The management of the Unique wish to call attention to the excellent programme they are putting on this afternoon.

Three brand new pictures, none of them ever shown in St. John before, Mandrel's Feast. The Mandrel Brothers are smugglers and are just starting on one of their perilous expeditions when an enemy of their guides the customs officers to their retreat. The majority of the smugglers are captured, but two of the most powerful make their escape. In travelling through the woods they come upon the informer and murder him. They then join a gang of cut throats and soon after one of them becomes their chief. He procures an invitation under a false name to the house of the chief of police. And when they are all conversing rises and points his pistols at the assembly and begs the ladies for their jewelry, which they gladly hand over. He at once takes his leave and the police give chase and succeed in killing the whole of the gang except the chief and one other. He is, however, taken a little later by the son of a man he killed. The brigand chief is a man he killed.

**AT THE PALACE**  
The best show in the city is at this theatre today and tomorrow when Harrison and Moffat and company will present a one act farce comedy entitled "Is Marriage a Failure?" This act is one of the funniest comedies that was ever written.

Twelve amateurs will also be in attendance. In addition to this four excellent pictures will be shown. Miss Margaret Lee will be heard in illustrated songs.

Don't miss this show at the Palace.

**FISHING SMACK BURNED; BOUND FOR NOVA SCOTIA**

YANAL HAVEN, Me., May 15.—The Dexter smack Electric Light, owned in Boston and bound for Nova Scotia, was burned at her wharf today and sank, the accident being caused by the explosion of gasoline while the engineer was filling a tank.

Captain Webber, of Friendship, who commanded the vessel, rushed aboard the burning craft to cast off the lines with the intention of scuttling in deeper water, but was badly burned and compelled to abandon the plan. The smack is a total loss and is insured.

Fair Means or Foul

By JANE LEE.

(Copyrighted, 1908, by M. M. Cunningham.)

There may have been a time when the rain came down in greater quantities, but certainly not within the memory of the shoppers on Broadway one day early in February.

Some few, without the saving grace of faith, had almost persuaded themselves that a second flood was imminent, while others plodded through the slushy rivers in gutters too wide to be jumped, with no feeling save dumb misery.

The wind blew with such velocity that it was impossible to hold an umbrella, and broken ones had been thrown into the gutter, giving the appearance of a fleet of black ships as they whirled and finally stopped at the corner sewer.

Among the few stragglers the policeman noticed the figure of a young girl who had passed him several times, now peering over the curb as if fascinated by the ebb and flow of the stream.

Her clothes were of a good cut and material. Her curly locks were much bedraggled, and a tiny green stream was running down one cheek, thanks to the combination of rain and green ribbon upon her hat.

Clayton Marshall smiled and glanced at his watch.

the family carriage was at the depot to meet Helen. "Uncle John can thank you better than I," she said as they parted.

"That's a good story, all right! Sure it's true, are you?" he said. "Just then the tall figure of a man, with his hat pulled down well over his eyes, passed them. The girl brightened as she saw him.

"Oh! call that man; please do," she cried, as the tall figure strode on. "He's from Bayville, too." "The policeman ran over and touched the man on the shoulder.

"Lad, over there wants you, sir." The man glanced back, and then, with one agile leap across the gutter, he was at her side.

"Miss Merrill--an it be you? What on earth are you doing out in this pouring rain?" The questions fell thick and fast and without pause for answer.

"I am awfully sorry to hear about your plight, Miss Merrill, and of course I will take you home at once. We have just time to catch the 2.30 train--that is, unless you would rather have a bite to eat first."

eyes twinkled. "But, if you were very very much in love with a man and wanted to know him, would you hesitate to steal a purse in order to accomplish that end--now, honest?" he pleaded, as he drew his chair to a more confidential angle.

"I could have gotten home yesterday without your help," she confided. "All I had to do was to go across the street to the First National Bank and write my check, but I saw you coming, and, well--whenever I asked Uncle John why he didn't have you to dinner like some of the other men he'd just say, 'Wait awhile, young lady, wait awhile'--and I thought I had waited long enough--and you know the rest."

"Not at all, Miss Merrill. I am the man who has the purse," he drew forth from the depths of his pocket the missing trinket. Helen's cry of delight did not seem to be contagious, for Marshall assumed rather a depressed air.

"Mr. Marshall, you are surely a fairly prudent fellow. Yesterday you seemed like a second Noah, scowling me in your modern bark up to my nose," said Helen, gaily. "Today you come like a Santa Claus, giving me back my purse. How can I ever thank you enough?" she added.

"I want to tell you something if I may," said Marshall, as they seated themselves in comfortable chairs. "I saw you talking to that policeman yesterday long before you saw me," he continued. "Again and again I have asked your precious old uncle to introduce me to you, but he always put me off, saying 'Wait awhile, young lady, wait awhile.'"

"I got so I hated the sight of him more and more, and I determined to meet you in some other way, but no opportunity seemed to come until yesterday. As I was about to cross Broadway I saw this man of shinning gold shuffling past me, and as I stopped to pick it up I heard you talking to the policeman. I went on, slipping the purse in my pocket, feeling quite sure that you would call me back. You did, and, well--you know the rest."

"Such a deceitful man!" pined Helen. "And all the time that I was catching pneumonia, you had that purse in your pocket. Oh, how could you?" "That is just what's bothering me," said Marshall, "How could I?" But his

M. P. A. A. BOXING CHAMPIONSHIPS ENDED IN MIX-UP

HALIFAX, May 19--The M. P. A. A. boxing championships tonight ended very unsatisfactorily, both the Langs of Toronto withdrawing after H. Lang lost the decision in the 145 pound class through fouling Murray in the third round. Lang led all the way in this bout and had his man going. In the final round Murray went down and Lang hit him, it is believed, by mistake while on his hands and knees and the local man got the decision. Lang got a great ovation from the crowd as he left the ring.

CLEVELAND STRIKE CAUSES CHILD'S DEATH

Inexperienced Motorman Runs Over Little Girl—Mob Tried to Lynch

CLEVELAND, Ohio, May 19.—Rioting became more general and serious in the street railway strike late today. The first death incident to the trouble occurred when Yetta Wolkinski, four years of age, was run over by a car operated by an inexperienced motorman. The Wolkinski child was killed by a Woodland Avenue car, while she was attempting to cross the street. As soon as he realized what had occurred, the motorman speeded the car several blocks ahead, where the police were notified. The conductor left the car and sought refuge in a nearby drug store. Some persons attempted to reach him, while others tried to catch the fleeing car and assault the motorman. The police arrived just in time to save the conductor, for the mob was yelling "Crush him, crush him!" The little girl's head was severed from her body. By mistake, two more people were killed and one took the girl's head and the other body. The frantic parents of the girl excitedly trying to obtain possession of the severed parts of the body, inflamed the mob spirit and serious trouble was narrowly averted by the police. While the car service was slightly improved today, the general situation appeared so serious tonight that possibilities of a settlement are now regarded as remote. Apparently only one point stands between the union and President Dupont of the Traction Company. Mr. Dupont said today that he would take the strikers back to work as "new men" and that those who remained with the company would be given preference. Vice President Behner of the union positively declined to waive this point. The state arbitrators now are endeavoring to have this single objectionable point removed.

DOGS GRATITUDE CAUSES HIS MASTER'S DEATH

Licked the Hand That Fondled and his Owner Will Die of Hydrophobia

NEW YORK, May 19.—William H. Marsh, an aged wealthy man, when told today that he undoubtedly would die within a week of hydrophobia, calmly turned away with the remark that he would be ready for the summons when it came. Without a tremor he walked down the steps of the Fastr Institute, stepped into his carriage and started for his home in Brooklyn. "You waited too long," the surgeons at the Institute told him, after they had made their examination. "Our treatment cannot help you. You have hydrophobia." There was not a falter in his voice, or a change in the face as he heard them. The muscles about his mouth kept twitching and jumping and his jaws clinched spasmodically, but these things have been happening ever since the disease first manifested itself three days ago. "How much time do you give me?" he asked. "Not long," said the physician. "Probably not more than four or five days." "Well," he said, "if I have to go, I can face it. My business is in shape and a day or two more will see it all settled. I'd rather die some other way, but I'm not afraid."

OSCAR KELSON GETS A LIFE SENTENCE

Former St. John Convict Goes to Jail for Murder of a Somerville Druggist

Five men were given a life sentence in Boston on Monday. One of the number was Oscar L. Kelson who is a St. John man, with a local criminal history. With John J. Killian and George J. Gilmore, Kelson was charged with the murder of Charles E. Busbee, a Somerville, Mass., druggist. The St. John man confessed and turned State's evidence against his companions. The trio pleaded guilty to murder in the second degree and Judge Sherman passed sentence. The murder took place on Sunday night, January 12th. The druggist was alone in his store when the trio entered and knocked him down with a blow on the head from a club. They then robbed the store of a small amount of money. Busbee was sent to the hospital where he died. Kelson was the first arrested. He weakened and told of his companions. He said he made the club and Gilmore wielded it. Gilmore, when arrested, said that it was Kelson who struck Busbee. The other two to get life sentences were Ferdinand D. Ribasso, charged with killing his wife Mary by shooting in Somerville, and Giuseppe Zucolo, charged with shooting and killing young Charles F. Reed, of Watertown.

KELLY REPENTS, SAYS ITS ALL TRUE

Alleged Bogus Detective Talks of St. John Visit

Declares That in Order to Square Himself With Chief Clark He Had to Decey the Original Interview A few days ago the Globe asked whether there had been two detectives by the name of Kelly in St. John looking for the record of W. R. Montgomery. The names given were Robert Kelly and Joseph Kelly. Today the question is, were there three detectives? The Westchester Independent has a column and a half of a bar-room interview in which Kelly relates his experience down here. The references made by Mike to Chief Clark are more picturesque than those of the original interview. Kelly, a fake detective, came down here and imposed on Chief Clark, who he went back to New York and talked to such and such as a result action was taken against him. Failing this he retraced all he had said and has now repented and declared that his original statements were true in every detail. The last article in the Independent is as follows: "Mike" Kelly, the poor, weather-beaten Manhattan process server, who was arrested in St. John, Nova Scotia, several weeks ago, as told in this paper, representing himself as a Central Office detective from New York, and afterwards boasted of how he got under the skin of Chief of Police H. Walker Clark, of the latter's office while commencing with a stein of Wurzburger in a Bronx bar-room, has been stricken with remorse. "Mike," who had run a pickled factory in Astoria, of late years has been employed serving subpoenas for cheap East End installment stores. He had been sent to Nova Scotia to investigate the record there of W. R. Montgomery, former president of the Hamilton bank of conductive delinquencies in the Maritime Provinces, and there has been a desire to know just what stand the various athletic organizations in this section of the Dominion should take in view of the dispute between the A. A. F. of Canada and the C. A. A. U. Boyd, President of the Maritime Athletic Club, to send representatives to a meeting which it is proposed to hold in this city, (being a central point), on Friday evening, the 12th of June, when representatives of the A. A. Federation will be present to present their case. There has been considerable complaint as to the handling of hockey disputes, rowing, skating, baseball, and other sports, which would seem to be in the best interest of clean amateur sport, which we believe is what we are all striving for. It would be well for us to gather together and thresh the matter out thoroughly. If we can improve the present conditions we will have done a good deal to advance the cause of "amateur" sport. We believe that affiliation with the Federation would assist us in this, and the committee wanted all information brought out and were determined to have it.

MAJOR HODGINS MAKES IMPORTANT ADMISSIONS

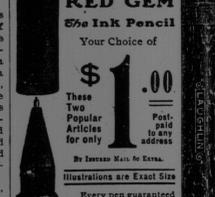

Inquiry Continued at Ottawa Yesterday With the Major on the Stand

OTTAWA, May 19.—The Hodgins inquiry today Major Hodgins on the stand made the important announcement that on the section from Superior Junction 175 miles if all the rock was classified as solid rock and all the earth as loose rock, there would be \$400 a mile added to the cost of the section or a total of \$70,000 for the whole section. In the letter containing his charges Major Hodgins declared that the increased cost due to classification would be between three and four millions. This admission is taken as greatly discrediting his charges. He said that he believed there had been too much solid rock classified on Section B in Quebec but he admitted that he had only been ten or fifteen minutes on the section which covered a hundred miles. Mr. Hodgins complained that originals of papers had not been produced, and Mr. Murphy, counsel for the commission declared the copies were exact reproductions of originals which were too valuable to pass out of the hands of the Crown. Mr. Carvell declared that Mr. Hodgins seemed to be looking for a defence and sought to create the impression that the committee was without helpful information. That is not true, the committee wanted all information brought out and were determined to have it. In the 6th Woodstock regiment, Quartermaster and Honorary Captain H. Carvell is granted honorary rank of major.

At the afternoon session of the police court yesterday Parker O'Leary the keeper of a beer club at 627 Main street, was fined \$20 for keeping his premises open after eleven o'clock at night. Police-constable Finley who made the charge said that about 12 men were in the shop on the night of May 12th, and they left the room leaving a pack of cards and 75 cents on the table. Julia Budovitch complained that Kunison slapped her face. Both Hebrews live in the same house on Chapel street and the girl claimed that Kunison not only refused to allow her to enter the house but slapped her face. The charge was adjourned until Thursday afternoon.

CALLING A MEETING TO DISCUSS AMATEUR SPORTS

Frank White Asks Provincial Clubs to Send Delegates Here on June 12th

Copies of the following letter have been sent to many of the sporting organizations in the provinces by Mr. Frank White: Dear Sir,—As there has been considerable dissatisfaction with the manner in which the Maritime Athletic Club has been handling the matter of the Maritime Provinces, and there has been a desire to know just what stand the various athletic organizations in this section of the Dominion should take in view of the dispute between the A. A. F. of Canada and the C. A. A. U. "THINK TANK" TEA

The first successful production was the earth itself and it is recorded that "it was good" which was true for it has increased and multiplied ever since. Sixty years ago on any ordinary—a certain blend of tea for food—statement is true—where it is possible to collect sudden comparative opinions from each reader by telepathy it would be found that nine of every ten are of one mind on one school, they drink it or not. Apply the same test to the commercial schools and it will be found that nine out of every ten are of one mind on one school. Hence the reason why the Currie Business University, Ltd., controls ninety per cent of this city's business.

HOUSE NEAR SHELL WAS BURNED ON SUNDAY

MONCTON, May 19.—Many friends will regret to learn of the death of Mrs. Geo. H. Cochran, which took place last night at her home, corner of Steadman and St. George streets, after a tedious illness. Mrs. Cochran was a daughter of the late Alfred Robinson, of Portland, Maine, and was a niece of the late Edward Robertson, of this city. On account of her weak condition, Mrs. Cochran was not apprised of her uncle's death, which occurred about twelve days ago. The deceased lady was highly esteemed and enjoyed a wide circle of friends.

HOUSE NEAR SHELL WAS BURNED ON SUNDAY

The residence of Hilarie Melanson, father of H. H. Melanson, chief clerk in the I. C. R. passenger department at Acadia, near Shediac, was burned to the ground last Sunday afternoon with a total loss of about three thousand dollars. Shortly after dinner the blaze was discovered in the roof of the house and as there was a high wind blowing the fire soon got beyond control. Besides the granary and wood-house were destroyed, but the barns were saved after having a hard fight. Considerable furniture and the greater part of the family's clothing was burned in the house. The furniture on the first floor was taken out, but practically nothing was saved from the second floor. There was no insurance on the burned buildings or contents, and Mr. Melanson will severely feel his loss, which he estimates at \$3,000.

The magistrate said that St. John seems to be the dumping ground for the tramps from all over the country. He informed the prisoner that he was liable to two months in jail, but as the court had no desire to put the extra charge of maintenance against the municipality, Abel had better get out of the city and back to the railway town as soon as possible.

### THE COMING MEETING OF CONFERENCE

No Very Lively Business to be Taken Up

Many Changes Will be Made Among the Ministers—The Fifth Time for Moncton

The New Brunswick and Prince Edward Island Conference of the Methodist Church will meet for the fifth time in the Central Methodist church, in the city on Moncton, on June 18th. The previous sessions were held in 1881, 1888, 1892 and 1898. The chief officers on these occasions being respectively Revs. Douglas Chapman, Charles H. Paisley, Charles Conner and George Steele, Presidents; and Revs. H. P. Cowperthwaite, Thomas Marshall, James Crisp and George W. Fisher, Secretaries. Even since the last named, great changes have taken place in the personnel of the conference, familiar faces will be missed when the delegates meet next month, and voices listened to in argument or council will not again be heard. Among the men whose absence will be most noticeable will be John Reel, Job Shenton, Charles H. Paisley and William Dobson. Others who have been in active service have been compelled to retire to private life. The chair will be taken at the opening of the conference by the President, Rev. James Crisp, the secretary being Rev. M. R. Knight.

The conference is composed of all the ordained ministers of the Church, with an equal number of laymen, selected at the approaching district meetings, who must be at least twenty-five years of age and have been for the preceding five years members of the Church. As there are on the minutes the ministers, if all should attend who are eligible, the conference will be a lengthy one.

In making a forecast of the work to be engaged in, ministers will meet on the preceding Tuesday, the 16th, when the business to be attended to will be done with closed doors. This session will deal with questions of character. The supplementary relation examination of candidates and probationers for the ministry, and any or all matters more directly concerning the pastorate. As the districts have not yet reported it is not known whether there will be a shortage of men as there has been for several years of late.

Tumor has it that Alonzo D. McCully and Samuel Howard will be put forward for the presidency, but in the ecclesiastical as in the political world, there is often "a dark horse," and the counting of the votes is to be waited for to be sure.

The bill of fare will contain, as far as is now known, nothing very sensational. There are no heresy trials in sight, no questions of moral delinquency suggested, nothing startling in the air. Routine business will be put through, which, however important, is not very interesting to the general reader. The Temperance Question in Moncton is too live a matter to be passed over quietly, and the Union Scheme will be up again and passed on for further consideration.

Among the visitors, it is announced, will be the Rev. Alexander Sutherland, D.D., general secretary of the Missionary Society. While the Methodist Church in this wide Dominion has many great men, it is generally conceded that in the pulpit or on the platform Dr. Sutherland has no equal. He is to spend a Sabbath in St. John before his return to Toronto.

The removal of Rev. Dr. Sprague will create a vacancy in Centenary church. This has been provided for by the invitation of Rev. Dr. Flinders to the Rev. Dr. Sutherland to fill the vacancy. He is expected in this city. There will, however, be a good deal of moving throughout the conference.

### WANTS A BODY GUARD FOR BISHOP RICHARDSON

Correspondent Suggests That Measures be Adopted to Prevent Accidents in Future

To the Star—It is with the greatest horror that I read in your newspaper last night the news of the accident to the youngest Bishop in the British Empire. I cannot imagine such a thing happening to the Bishop of London, England, whose person is guarded day and night, and I think no less consideration should be shown to our universally and much beloved youngest Bishop in the British Empire. I also think that a letter of condolence signed by every citizen of St. John should be mailed at once, and a movement immediately set on foot to arrange for the Bishop's future safety.

As a whole New Brunswick is aware our Bishop is not a very strong man, and in view of this great Pan Anglican gathering, just now, he needs all the strength he can muster, great as it is, therefore, he is justly attached to those who accompanied his Lordship on this small steamer. The male factor gets a valuable bronze statuette and G. A. Beattie of Fredericton, a portfolio of etchings. There have generally been a number of prizes drawn here each year.

Chief Fitzpatrick and his band of fire fighters in Chatham are preparing for a firemen's tournament this summer.

### LOCAL MEN GET PRIZES

The annual drawing of the Art Union took place on the 1st May when the only St. John man to draw a prize is Mr. P. A. Jones, who can choose a picture to the value of \$10. St. George's Female gets a valuable bronze statuette and G. A. Beattie of Fredericton, a portfolio of etchings. There have generally been a number of prizes drawn here each year.
