

EFFICIENCY OF RAILWAY UNIMPAIRED WILL RUSH WORK

Chairman of Commission Announces that Construction is Being Pushed—Transportation of Grain Should Start Next Year.

Special to The Standard. Ottawa, July 18.—Major Leonard, chairman of the Transcontinental Railway Commission, has just returned to Ottawa and lost no time in issuing an absolute final to newspaper assertions that he is increasing the grades of the railway. There has been no change in the grade he declared that will affect the hauling capacity of a locomotive either eastbound or westbound to the extent of a single pound. Neither has he any intention of making any such change. Major Leonard has just completed a long trip in which he went as far west as the Yellow Head Pass in company with Mr. Cochrane, and in particular went over the line east of Winnipeg for the purpose of doing everything possible to hurry on the work and expedite the completion of the road. The track is laid from Winnipeg to a point near Lake Neigoun. There then occurs a gap which by this time is reduced to about a hundred miles. Another gap of about the same length occurs in Quebec. There then occurs a gap which is now a short gap in Quebec on the south side of the St. Lawrence a short distance east of Lévis. While Major Leonard will not commit himself to a definite statement he has some hope of closing the Lake Neigoun gap this autumn so that the line may be available for hauling this season's wheat. It is a matter of largely a matter of conditions; if they prove favorable it may be accomplished. Next year it will be in operation as a grain carrying route.

GREAT BRITAIN KEEPING CLOSE WATCH ON FAR EAST

Russo-Japanese Negotiations Relative to Mongolia and Manchuria Said to Have Been Endorsed by England.

London, July 18.—Great Britain has been kept informed of the Russo-Japanese negotiations in regard to the framing of a new agreement relative to Manchuria. The officials of the British foreign office, however, said today that they were in no position to confirm or deny the reported conclusion of the agreement at Tokio. The report that Great Britain had assented to the agreement on condition that she be given a free hand in Tibet was described at the foreign office as being without foundation.

SUFFRAGE FOR ALL THE AIM OF GERMAN LEADERS OF LABOUR

National General Strike Threatened to Force Universal Suffrage and Absorption of plural Vote.

Brussels, July 18.—The menace of a national general strike in favor of universal suffrage and the absorption of the plural vote is beginning to take definite shape. The labor federation has appointed four sub-committees charged respectively with the development of a propaganda, the creation of a central fund, the acquisition, storing and distribution of food and the convocation of arrangements for quartering the children of the strikers among Belgian and foreign families during the proposed strike.

EMPLOYERS CLAMP IN ARMS AGAINST LAW

Consider General Cut in Wages in View of Insurance Act. One Woman's Struggle—Discharges Eight Servants and Tries to Do All Housework and Gardening.

London, July 18.—Determined to beat the new workmen's insurance law somehow, big British employers held a conference on ways and means Wednesday. The law provides for the payment of part of the premiums by the State, part by the employers and part by the employees. The employers cannot escape taxation for the State's share, but it is understood they are talking of a general reduction in wages to the amount of their own contributions. Then the workmen's attention will be called to the fact that they are paying for their own insurance. Councillor of the Exchequer Lloyd George's open declaration of what the employers have long suspected, that workmen's insurance is only a step in a vastly larger programme of social change, has alarmed some of them greatly and they are desperately anxious to upset his plans before he makes any further progress. Leaders of the movement think they will have their best opportunity during the first six months of the new law's operation, since the period will be one of payment for the insurance while nothing will be paid back to them in return. It is agreed that the proposed wage reduction will precipitate violent labor troubles, but the more trouble there is the more they can lay it to the workmen's insurance law, the better the measure's opponents will be pleased.

The Conservative newspapers continue to attack the act and declare it is a plan to take away the bread from the workers' mouths. The sandwich men's case is cited as a most striking instance. Some hundreds of these men were employed on Monday, and the employers, who were unable to undertake their responsibility under the act, had not affixed stamps to the men's cards. "When the men applied for jobs at other places the next day they were asked if they could produce their tax cards stamped for Monday. They said they had some, but they were not stamped. The employer will not pay 12 cents out of his pocket as the act says he must, unless the stamp is affixed. The men get up at 6 o'clock in the morning. Mrs. Guffey said, "to look after the horses. I give them some corn and water, and then let them out in the paddock. At noon I bring them in and wash and groom them, but I have not yet had time to clean out the stable, which, I am afraid, is the hardest work of all. "Then I look after the chickens, seeing that they have food and water. Then I water the tomatoes in the greenhouse. After getting through this I look down for a little while at the piano. I have composed an operetta and play it through. I do not care to give up music even at such a busy time as this. "The rest of Mrs. Robinson Guffey's day is taken up with similar duties, including the care of the children. Several persons who are interested in her protest. The paper which describes Mrs. Guffey's heroic efforts to do the work of eight servants confesses that she balked at cleaning the front steps.

PLANS FOR VISIT OF COMRADE AT THE RAILWAY TOWN

No Formal Invitations to Reception in Governor General's Honor at Residence of F. W. Sumner.

Montreal, July 18.—Hon. Sidney Fisher, ex-minister of agriculture announced today that an educational campaign would shortly be started throughout the English Protestant rural sections of Quebec. Owing to the small salaries paid, the rural teachers are for the most part untrained and in many districts the attendance is very small. The campaign will consist of a tour by a large number of prominent educationalists who will endeavor to impress upon the people the fact that it would be economy in the long run for them to tax themselves more heavily to obtain a better class of teachers and will also attempt to convince the bearers of the advantages of a good education and the necessity of sending their children to school.

GUBAN REBEL IS CAPTURED AFTER LENGTHY SEARCH

Santiago, July 18.—General Pedro Ibañez, the negro rebel leader, for whom the government troops have been diligently searching since the battle three weeks ago at Vega Bellico, was surrounded and killed this morning at Nueva Escocel, near Casney by troops under Lt. Ortiz.

AUTHORITIES HOT ON TRAIL OF MURDERER OF NEW YORK GAMBLER

Deputy Commissioner Dougherty Believes They are Still in the Metropolis—Several Arrests Soon.

Mayor Gaynor Interviews Lieutenant Accused in Rosenthal's First Specific Charges—Proposes Examination of Lieutenant Becker and Other Officers Implicated in Baffling Mystery.

New York, July 18.—"The trail leads where I thought it did," remarked District Attorney Whitman, last night. This was just after he had heard the statement of "Jack" Rose, the friend of Police Lieut. Charles Becker and the man who hired the grey automobile in which the slayers of Norman Rosenthal, the gambler, drove to the spot where their victim met his fate early last Tuesday morning. "Those who killed him will be found, no doubt, and their motives disclosed. The mayor's letter concluded with an expression of surprise that Lieut. Becker should sit down to dinner with a man of Rosenthal's character. "That he did seems to be admitted," the mayor commented.

Whitman Has His Say. District Attorney Whitman, had his say in a letter which he wrote to Commissioner Waldo today, relating to the commissioner's request for an immediate and complete investigation of allegations of partnership between policemen and gamblers. "When you asked this before," wrote Mr. Whitman, "Herman Rosenthal, that who had made the charge, was alive. I had proceeded so far that he was to appear before the grand jury, and give details and names of other gamblers, to substantiate his charges. On the night preceding the day he was assassinated, evidently by men who feared his testimony or their agents, on the principle that dead men tell no tales. The lawlessness of this situation cannot be glossed over by saying, as you proceed without further delay. "You are the one to determine the real defence rests with the unravelling of this mystery and you have under your direction a small army of detectives and a fund of money applicable to detective work. "The newspapers have printed my autobiographic statement to the effect that I do not charge the police department with the murder of Rosenthal. The intimation that I am moved by a desire for publicity in attacking the large body of policemen on account of the wrong doing of a few is untrue and unfair, and seems to be an attempt to turn public attention away from the vital point. "First, Herman Rosenthal charged that he had been forced into partnership with the murderer of Rosenthal, and other gamblers were in a similar situation. Just as he was about to testify on this subject, and to give details and names he was murdered. Continued on page 2.

NINE DROWN IN HEAVY STORM

John Raymond Took Refuge in Barn and Anxious Friends in Search for Him Overwhelmed.

Jacobs Creek, Pa., July 18.—It became known here today that nine persons had been drowned in Barren Run at the farm of John Raymond, near here, during last night. The dead—Mrs. John Raymond, Mike Rovinsky, brother of Mrs. Raymond; Mrs. Rovinsky, mother of Mrs. Raymond; six children of Mr. and Mrs. John Raymond. A heavy storm which swept through this section Raymond went from his house to the barn located in a ravine near Barren Run. He did not return, and after waiting two hours, the wife, her children and the other members of the family became frightened and went out in search of him. As they reached the ravine, a wall of water swept down and carried them away. Raymond was safe in the barn and escaped. The body of the brother was recovered this morning, and search is being made for the others.

SCHOONER FINED

Ottawa, July 18.—The American fishing schooner Hattie Heckman, seized at Barrington, N. B., for violation of the fisheries law, will be fined and released on a bond. The vessel is American but all the crew are Canadians.

CHINA WANTS DR. MORRISON

Peking, July 18.—The Chinese government, it was learned today, is contemplating offering to Dr. George Morrison, the correspondent in Peking of the London Times, the post of general advisor to the republican government.

ASQUITH HAS AN EXCITING EXPERIENCE

Suffragette Throws Hatchet at Premier's Carriage—No One Injured.

Outrage in Theatre Almost Creates Panic—British Prime Minister Deals With Benefits of Home Rule.

Dublin, July 18.—The British prime minister received a vociferous popular welcome here tonight. On his arrival he was met by Augustin Hillier, chief secretary for Ireland, the national leaders and the mayors of Dublin, Cork and other cities. A torchlight procession, with 40 bands and thousands of lights, escorted the carriage to a hotel amid a sustained roar of welcome, the premier constantly standing in his carriage and bowing his acknowledgements, and Mrs. Asquith scattering flowers among the crowd. The suffragettes chartered small boats at Kingstown, about seven miles from Dublin, with a view of making a demonstration on the arrival of the premier's boat, but were prevented from doing so by the vigilance of the authorities. A serious affair, seemingly of suffragette origin occurred, however, at the Dublin theatre, where Mr. Asquith will speak tomorrow. During an entertainment a blazing chair apparently of oak, was thrown from a box into the theatre. The chair, which was developed later that a second woman was in the box and aided in the incendiary. In the confusion one of the women got away, but the other was arrested. She will be examined by a magistrate tomorrow. She is said to be an English suffragette. Another outrage occurred while the procession was passing Princess St. John river valley as Gastown. He was accompanied on the trip by W. W. Hubbard, secretary for agriculture, and was much pleased and deeply impressed with the possibilities of the country for both agricultural and horticultural developments. Norton Griffiths, Ltd., are anxious to cooperate in bringing settlers from the Old Country to Canada and Norton Griffiths, M. P., on his last visit here from England, told Premier Fleming that if his experts were satisfied that there were good opportunities for settlers in this province, he could have many desirable families come here from the Old Country and settle on the province's ready made farms. This evening Mr. Thompson will go up the Nashwaak valley and over to the Miramichi headquarters, and later he will visit Carleton county before making a trip over the North Shore and other sections of the province. Premier Fleming will be here until tomorrow when he expects to go to his home at Hartland.

PRISON OFFICIALS FIND McNAMARA A TROUBLESOME CHARGE

Convicted Dynamiter Breaks Discipline and is Sent to Solitary Confinement—Persistently Violates Rules.

San Yente, July 18.—After a week in solitary confinement J. B. McNamara, one of the convicted dynamiters of the Los Angeles Times Building, stubbornly refused to conform to prison discipline, and Warden Hoyle said today he would be kept in the dungeon indefinitely. McNamara was placed in solitary confinement a week ago when he refused to obey an order given by a guard in the Jute Mill. He had been punished before for insubordination when Warden Hoyle ordered he be put in the dark cell. McNamara's punishment was the result of repeated acts of insubordination," said Warden Hoyle. "He has been a persistent violator of prison rules, and there was nothing for us to do but to take extreme measures." Warden Hoyle denied a rumor that McNamara had been involved in a plot to burn the Jute Mill.

PLANS EDUCATIONAL CAMPAIGN IN RURAL QUARTERS OF QUEBEC

Special to The Standard. Montreal, July 18.—There will be no formal invitations to the reception of his visit to Moncton next week. After the civic address on the railway station grounds, he will be taken for an auto ride about the city and citizens generally will meet him at the beautiful home of F. W. Sumner, which has been placed at the disposal of the public reception committee. The 15th Field Battery will fire a salute.

MUST ADOPT MR. BORDEN'S PROPOSAL

Standard Says Visit of Canadians is National Tonic.

IDEAL IS SOUND

Press Agrees Upon Need of Closer Imperial Relations But Differs Upon Details—No Announcement Till Ministers Return.

London, July 18.—Speaking generally, the Liberal press thinks that Mr. Borden's declaration that the overseas dominions shall have a participation in the imperial foreign policy and naval control, conditional on the contribution, will take a long time to work out. The Unionist press takes the view that it must be done at no distant date. The Chronicle (Liberal) declares that we have met the cost of defending the dominions, and no war which the British Empire has engaged in since Napoleon's times, with the single exception of the Boer war, has directly involved any dominion in danger or expense. The balance is on the side of the United Kingdom, and there is no immediate prospect of the balance being seriously affected. We are under no compulsion to decide quickly, according to some theory of future formal relations between the Mother Country and the dominions, given the seed which exists, of which Mr. Borden's speech was such excellent evidence. But time and circumstances will work smooth much that is now in the light of abstract reasoning rough and hard. Mr. Borden himself put the problem, but hardly hinted an answer. The Westminster Gazette (Liberal) referring to Mr. Borden's statement that the British parliament is not truly imperial, says the glad idea has been thrown out, and during the next few years it hopes to see it get into the thought and language of the self-governing communities. The British parliamentary institutions are developing naturally in the federal direction, but a definite scheme can hardly be submitted by the United Kingdom. This paper gives as a reason that the dominions would be outvoted, but such a condition may change in Canada, in the life time of children now living here, and, adds the Gazette, Canada's eyes must be fixed to do everything to help and nothing to hinder the effective union within the present century. The "Morning Post" declares the system of imperial partnership must be devised, which will enable the state to play a part in the settlement of questions of common interest. No doubt progress towards the goal will be slow, and an attempt to force the pace can only result in disaster. The Standard says: Apart altogether from specific objects, the visit of Mr. Borden is of incalculable benefit to the British nation. At the present juncture we are in sad need of a tonic. We have found the required stimulant in the presence of the Canadians, representing, as they do, with splendid adequacy, the abundant vigor and shrewd practical insight, and the enlarged patriotism of the great young democracy. There is no doubt, will be difficulties in giving practical effect to an ideal inconceivable, but the thing has to be done at no distant date, and it will be wise to address ourselves to it before it is too late. The usual conference was held this morning between the Canadians and the cabinet. Mr. Borden announced that no statement of negotiations would be made until the ministers return to Canada.

BANDIT AND POLICE IN STIFF TUSSLE—FORMER IS KILLED

Desperado Who Opened Safe of Auburn Post Office Does Battle with Pursuer—Wounds Nine.

Montgomery, Ala., July 18.—In a battle south of Alexander city today one of the robbers who blew open the post office safe at Auburn Monday night was killed by a posse. The bandit himself was shot and covered by the posse. He opened fire on the officers. They gave battle and in less than five minutes the bandit was killed. Nine of the posse were hurt in a pocket of the robber's coat was found \$255 money, but no papers to identify him.

## Fear New Cuban Revolt in Winter

### Estenoz Rebellion is Over, But Election Time is Watched Apprehensively—Sugar Crop Promising.

Havana, July 17.—Cuba's black rebellion, the result of political ambition on the part of General Estenoz, is officially over and Estenoz is buried in a Santiago cemetery, but the belief grows in Havana that there will be a recurrence of revolt in November—at election time or immediately afterward.

Agriculturists, especially sugar men, observe the indications with deep regret, for November is the time when they will want to grind what promises to be Cuba's greatest sugar crop.

Heavy rains of an early wet season have made the cane flourish. Unsettled conditions during the summer made it necessary to leave much cane uncut, and if another revolt comes it will bring further delays and still greater losses to the plantation owners.

But whatever the future may bring the Estenoz revolt is dead, and the planters in Oriente and Santa Cruz are thankful for this. Even its "general commanding," declines to run the fatal risk of opposing the administration forces now busy about the tenets of modern warfare, and is still "in the woods." His "scattered" bands are making it uncomfortable for the isolated farmers and American settlements along the Cauto; the rebels put a bullet through an American resident at Bayate the other night who looked out of his window to see what marauders were prowling around his house.

Both Bayate and Paso Estancia say the sky is hazy with the smoke of burning farm houses, and the air is still with bullets after dark, but the "war is over" and the hand is turning up on "Hall, the Conquering Hero," for General Montenegro is expected home from Oriente soon. From the backwoods an echo answers for the country in a murmur suspiciously like, "What the hell is we care?"

### Agriculturists Apprehensive.

Two million tons is an under estimate of what is in sight from the sugar fields if Cuba is permitted to work as she pleases, but the outlook is not so encouraging for other industries.

None but local buyers appear now in the tobacco districts and they, by mutual agreement, offer half prices; therefore the tobacco growers of the west are not well off, despite the fact that this crop is good. They are losing the reward of its excellence.

Bumper crops of coffee are reported from the east, and the citrus fruit orchards of the whole island are setting magnificent crops. The stevedores' strike here, which held up pineapples when they should have been going forward the fastest; the death of Mr. Mills, Chicago, and the demoralization of the western market, and the same heavy rains that have benefited cane, have continued to ruin this season's pineapple business and have so discouraged growers and shippers that the island's output will doubtless fall off notably next year.

These agricultural conditions are of vital importance to the politicians of the country, for they are the barometer which indicates how much Cuba will stand for at any given period. If the tremendous sugar crop now in sight and world conditions generally co-operate to reduce the price of sugar beyond a point at which returns to growers here are remunerative, then it follows that Cuba must be handled with care or she will "revolt."

## BOMBARDIER WELLS WINS FAST FIGHT

New York, July 18.—Bombardier Wells, heavyweight champion of England, knocked out Tom Kennedy of New York after two minutes and forty seconds of fighting in the eighth round of their bout here tonight.

The knockout came as the culmination of the fastest fight that has been seen here since the days of the Norton Law. The deciding blow was a light smash to the jaw which sent Kennedy down, his head hanging over the lower rope. The referee counted Kennedy out and his seconds carried him to his corner. Once before the round, Kennedy had come down for a count of nine seconds when Wells hooked his left to the face and the right across the jaw.

Wells was far the quicker of the two throughout the fight and his idea of direction was excellent. The Englishman fought the pace from the beginning and worked so hard that he was visibly tired before the fight was half over. Kennedy, in some of the rounds, accepted ordinary punishment to knock out an ordinary man, but he made a plucky fight. Wells, while he cut him man up with a rain of blows, was unable to get Kennedy under control until the middle of the sixth round.

Both men turned the scale at 194½ pounds before entering the ring and both were in perfect condition. The fighting was fierce from the start. Wells, who was the aggressor, jabbed varying with an occasional right hook to the jaw.

In the seventh Kennedy was weak on his legs after Wells had got him into a corner with right and left smashes on the head. Just before the bell Kennedy hooked his right hard to the jaw and the blow shook Wells from head to foot.

In the decisive eighth Kennedy's left eye bled freely, but he was game, and tried to fight back to the body, while Wells was landing lefts and rights to the head. When Kennedy got up from his knockdown in this round he was staggering, and Wells took advantage of an opportune moment and placed his right hand on the head of the blow which Wells from head to foot.

After the fight Wells was given a hearty ovation.

## AUTHORITIES HOT ON TRAIL OF MURDERER OF GAMBLER

Continued from page 1.  
publicly and dramatically. You demand and continue to demand that his charge be investigated. How, by what witnesses, how dead? He has taken the other names with him. In the face of this murder will other gamblers rush forward to tell? Will guilty policemen confess? Is the inquiry one that can be conducted except by the agency of detectives, Assemblyman Aaron Levy, counsel for Louis Libby and William Shapiro, alleged owners of the murder, has intimated that his clients would be glad to tell all they knew if the District Attorney accepted them as witnesses.

"Neither Libby nor Shapiro has given to the police the names of the who were in the car before and after the murder," said Mr. Levy. "The changes in passengers, the conversations in the car are known to at least one of my clients. The other has certain corroborative evidence. Their evidence is necessary. They were themselves innocent of any intent or willingness to commit a crime. It is up to the District Attorney."

### Lengthy Conference.

Sam Paal who delivered the message of Deputy Commissioner Dougherty yesterday to bring Rose to headquarters was closeted with the deputy commissioner and Inspector Hughes for a long time. Another man known as "Jack Sullivan" and four others soon joined Deputy Commissioner Dougherty and Sam Paal. They were all closeted together for a couple of hours.

It was known that Sullivan in his talk with the deputy commissioner, had substantiated some statements of Lieut. Becker, of that official's movement on Monday night. It was also understood that Mr. Dougherty heard that a red automobile was first taken out on Monday night. It was also said that it was intended to do the Monday night job with the aid of this red automobile, but the red car after being in use that night from 6 to 11 p. m., was run up in front of Shanley's place in Fourteenth street, where it blew out a tire. It was then given up and a telephone call was sent to the Cafe Boulevard for a machine.

Mr. Dougherty said after his talk with the men, that he believed the individuals he wants and the men who committed the murder are still in New York city.

"We're going to make three or four arrests right away I'm pretty sure," Mr. Dougherty said.

District Attorney Jerome called at police headquarters this afternoon. He had a wide experience with gamblers during his term of office and it is believed his advice will be valuable in running down the criminals.

Meanwhile the entire police department has been agitated by a report that there is to be a widespread shake-up, and that many police heads are to fall as a result of the scandal into which the department has been plunged as a result of the Rosenthal affair.

## NEW ENGLAND HORSES WIN CAPITAL RACES

Providence, July 18.—New England horses made a cleanup of today's races in the gala day of the Providence park association's meeting. Alcide, Providence, R. I. pacer, driven by D. D. Warrman, won the free-for-all and reduced the track record to 2:13½, while Thomas S. took a new record of 2:19½. The latest heat in the 2:30 class being won by Miss Lightfoot, a Princeton, Me., entry, the race going five heats. Dr. J. T. McGrath, of Providence, drove Miss Winifred the first four heats, then he left to catch a train, and Driver Warrman took her and had a hard job to stop her winning the fifth heat from Thomas S.

## NOVA SCOTIA REGATTAS

The secretary of the Royal Kennebecas Yacht Club has received a communication from the committee of the Royal Nova Scotia Yacht Squadron announcing that the regatta for the Prince of Wales Cup will be held for Thursday, August 15th, at 11 a. m., in the harbor at Port Hood, N. S., in force in America. The committee state that they would be pleased if the R. K. Y. C. would consent to have the regatta held at their club.

H. R. H. Duke of Connaught has consented to attend and present the trophy. The fact that the Duke was originally presented by the Duke's brother, the late King of England, lends increased interest to the presence of His Royal Highness.

The local yacht club has received an invitation to take part in a regatta to be held at Port Hood, N. S., on July 25th, under the auspices of Fishermen's Union Station 30. There will be motor boat races, speed boat races, fisherman's motor boat race, swimming matches and other aquatic sports.

## CURRENT DIVERTED BY A PILE DRIVER, TWO MEN ARE KILLED

Medford, Ont., July 18.—A fatal accident marked by extraordinary features occurred here this afternoon when a pile driver used in the construction of the new Bykes street bridge overbalanced and started to fall upon a group of workmen beneath a metal bolt at the top of the pile driver caught in an electric wire preventing the big machine from falling.

This circumstance, which saved the workmen below, brought death to two others, for the electrical current was diverted to the pile driver, William Cherry of Medford, operating the engine fifty feet away, received the charge through the steel cable and fell dead. A man named Johnson of Owen Sound, working half way up the pile driver involuntarily seized the cable as the frame tripped and was also killed. His body fell into the river. The water was so heavily charged with electricity that George Bandle of Medford, who grasped Johnson's hand to draw out the body, was rendered unconscious. The body was finally pulled out by looping a rope around it.

Several spectators received slight injuries.

Candy Coated  
Chewing Gum

Thousands of people chew Chiclets who would not use any other chewing gum. Dainty morsels of the finest chewing gum, crisply coated with the pearly peppermint. Not the horse-mint or the swamp-mint—but *Mentha piperita*, the peppermint—the true mint—delicately fragrant, cooling and salubrious.

Chiclets En Route.—One's traveling bag is not completely furnished for the week-end visit until a packet of Chiclets is included. The mouth needs a Chiclet or two en route to allay the parched, dusty feeling of travel. Everybody is using Chiclets nowadays. The refinement of chewing gum for people of refinement.

Look for the Bird Cards in the packets. You will find one beautiful bird picture in each packet of Chiclets. Send us any fifty of these pictures with ten cents in stamps and we will send you—free—our splendid Bird Album.

For sale at all the Better Sort of Stores, 5c. the Ounce and in 5c., 10c. and 25c. Packets

ST. JOHN, N. B., FRIDAY, JULY 19, 1912.

## CEMENTING THE BONDS OF EMPIRE.

The information from the West Indies to the effect that the Legislatures of the islands are ratifying the Preferential Trade Agreement with Canada is a very clear indication that the campaign of the United States to prevent the completion of this section of the "Imperial Commercial Band" has been fruitless. The Southern Colonies freely recognize the advantage of securing a reduction of twenty per cent. duty in the Canadian market as a preference over foreign countries. In return they reduce by one-fifth the duties charged on imports from Canada. The schedule includes most of the articles for which this country will find a demand in the West Indies.

With the establishment of a fast line of steamers between St. John and the islands, such as is now proposed, the trade through this port will be appreciably increased to supply the demands of Upper Canada. With the completion of the Panama Canal the West Indies and South American colonies will also become inter-oceanic territory and will find a profitable market in British Columbia. Vancouver will be nearer than Montreal to most of the Southern centres of production, and West India goods destined for the Pacific coast will enter Canada by the Pacific gateway. They will enter into closer competition with the products of Southern California, and the Hawaiian Islands. The sugar refineries on the Pacific coast will have a competitive source of supply. Conversely British Columbia will have ready access to the West India markets with fish, lumber and other products, obtaining considerable tariff advantage by the agreement.

While the commercial arrangement may thus have a considerable effect on the trade of Canada, it is an enterprise of serious Imperial consequence. It should be the beginning of closer relations among all British subjects on and near this continent. There is a growing demand from Canadian people for tropical fruits and other products. The United States has heretofore offered a much larger market than Canada for these products. But the difference will continue to grow less. Canada's population rapidly increases, and she has no Southern territory of her own. The United States has California, Florida, Hawaii, Porto Rico and other states and territories, with Cuba in close relations. It will be found before long that Canada as a market for tropical produce is better than the remainder of the United States market, after the preferred producers have had their lion's share. An arrangement such as that which Mr. Foster and his associates have made may also prove an important step in the solution of a West India problem which has caused British statesmen grave anxiety.

## NEWFOUNDLAND'S LITTLE GAME.

No one would have thought of the Ancient Colony, but if the statements of a former resident at Hamilton Inlet, which is about 200 miles above the Straits of Belle Isle, are true, Newfoundland is engaging in the reprehensible business of land grabbing at the expense of Canada and more particularly at the expense of the Province of Quebec. The story is told by a representative of a Montreal house who has been stationed for three years at the Inlet. He asserts that the "Senior Colony" of the Empire is quite active in the game that—sometimes—makes nations great. As quoted by the Boston Transcript, he claims that it is under cover of Labrador that encroachments are pursued, customs officials being the chief offenders and following the time-honored policy of claiming everything in sight.

Before passing judgment, however, it is well to remember that the most vague and meagre information is available as to the rights of ownership in this vast Northern territory. The peninsula is divided politically between the Governments of Newfoundland and Canada and the Province of Quebec. The people of Labrador themselves do not know where Newfoundland ends and Canada begins, nor does anyone seem to have exact information on that point. Even official handbooks, pretending to lay down the limits of Newfoundland in Labrador, end lamely at 52 degrees north, with the admission, "remainder of boundary undetermined." Other authorities affirm that Newfoundland's share of Labrador is only a strip of the Atlantic coast line running from the Straits of Belle Isle to Cape Chidley and ranging in width from ten to twenty miles. If this view should prove correct, it lends some force to the argument of the Montreal merchant who, in a further statement, declares that Newfoundland officials are collecting dues ninety miles outside the strip and claiming two hundred miles beyond that.

In any event responsibility for such anomalous conditions deserves, of course, to be divided. Canada has never shown any urgent interest in that vast area of interior Labrador, lying north of Quebec, which so recently as fifteen years ago was constituted Ingvava district and named an "unorganized territory"—in order, apparently, that it might be the more spectacularly left alone. The temperate and fertile zones have naturally enough made the greater appeal; the resources of Labrador, its forests, fisheries and minerals, have been left undeveloped, even undiscovered. Such inertia almost invites aggression, and the Newfoundlanders, who, since early in the seventeenth century, have been fighting to hold what they had and sometimes to get a little more, could hardly be expected to ignore this opportunity and consent to "stay put."

Even if the report of these recent doings is true, while they could not be justified on moral grounds, yet it is sincerely to be wished, as the Boston paper points out, that the Newfoundlanders or some other broad-backed and energetic people should acquire and exert the right to enlarge the world's knowledge of the Great Northeastern peninsula. Labrador fascinates the imagination. Dr. Grenfell's studies of the coast have increased a desire, quite general and growing, to pierce the mystery of the interior. Good may come out of evil, if the eccentric activities of the Newfoundland customs collectors shall direct the attention of official Canada to the possibilities of the 511,000 square miles of this almost unknown territory.

## A LIFE-SAVING INVENTION.

The attention of modern science and invention has been directed in many instances towards remedying the fallibility of the human hand and eye. The liability to mistakes, which may involve the loss of many lives, is inseparable from human weakness and the tendency to slay is to get rid of the human agency where this can be done. In this connection a notable advance is reported

in the working of train signals which will remove the uncertainty connected with the working of a signal which has to be operated by some person in a tower and observed by another from the cab of an engine.

This new device is worked by electricity from the contact of an engine with a wire running beside the track, and not only warns the engineer unmistakably by a shrill whistle when the block upon which he enters is not clear, but automatically shuts off his power, applies the brakes and stops the train until it is clear.

A test was made recently on the Great Western Railway in England on a disused section of the system. Two locomotives were started from points two miles apart to make full speed toward each other. The engineers after starting the mechanism climbed out. When the locomotives entered the same block the warning whistles blew, the electric mechanism worked, and the engines stopped within a hundred yards of each other.

The value of an invention of this kind has been demonstrated very forcibly in three railroad collisions which have occurred in the United States since the beginning of this month, by which seventy-odd passengers were killed and over a hundred injured. In two of these cases the disaster was due to a train, running at full speed, disregarding a block signal and crashing into a standing train on the same track. One of these "accidents" occurred on the Lackawanna road in the State of New York, and the other on the Burlington near Chicago. It has not been made clear in either case whether the signal was not properly set or whether the engineer failed to observe it. As in all such cases there is a conflict of testimony. In these two cases of a stalled train run into from behind, the signals seem to have been obscured by fog, and if they were noticed at all, a mistake was made. The automatic system referred to would in each instance have prevented the disaster. It ought to be only a question of time before it is installed on all lines where block signalling is a matter of importance.

## AUSTRALIA'S GENTLE HINT.

Australia seldom loses a chance to remind us that, though only about a quarter our age and not much more than half our population, it is doing much more than we are for the defence of our common Empire. The Antipodeans hint that we are better at talking than at fighting—that we are fonder of putting our patriotism to music than in practice. An extract from a bantering speech by Sir George Reid, High Commissioner of Australia, delivered at our Dominion Day banquet in London, will bear repeating right here:

"So far as helping the defence of the Empire is concerned, Canada has had too much of the eye of faith, and done too little in the way of giving Providence a well-deserved rest. (Loud laughter.) Far removed as we are from the centre of our mighty Empire, and young as we are—twelve years old, according to that way of counting—(laughter)—twelve-year-old Australia says to forty-five-year-old Canada, with twice the population, and six months snow thrown in—(laughter), 'You are a grand race, and we're proud of you. You are beginning to discover that you have two great gateways—one on the Atlantic and one on the Pacific—and we from Australia, who are throwing all our boys into military service, who are building battleships and cruisers and submarines, we say to our older brother, you go and do likewise.'—From the Montreal Star.

## TO TUNNEL THE CAUCASUS.

The immense amount of surplus capital in France, the existence of which has recently been shown by the fact that the new Paris loan was subscribed for seventy times over, lends probability to the report that bankers in Paris are back of the proposed tunnelling of the Caucasian mountains, from a point near Tiflis, in order to join the Black and Caspian seas. It is a stupendous undertaking, as the tunnel will be nearly sixteen miles in length, but it is reported that the Russian Government has been convinced by a body of Swiss engineers that the enterprise is entirely feasible.

The Russian Government had about decided that the project was not practicable, but the Swiss experts have reported that the tunnel can be constructed in approximately seven years. Its expense, of course, will be enormous, but on the other hand the tremendous stimulus to commerce and the development of a vast region will, it is predicted, more than offset the cost, and France can furnish the capital, if its thrifty people care to invest their savings in that way. It is reported that work will be begun on the tunnel sometime in 1913.

Saskatchewan supported the Scott Government on a Dominion issue in which that Government has neither weight nor influence. The Province is no nearer reciprocity today than it ever was. The Toronto Telegram estimates that there has been a distinct waning of reciprocity sentiment, in that while the Laurier Government had a popular majority in September over the Conservatives of 18,224, the figures of the Provincial contest show a Liberal popular majority of only 5,800, or about one-third that of less than one year ago.

## Current Comment

(Toronto Globe, Lib.)

The Borden Government has acted promptly and properly in asking the diplomatic intervention of the British Government to secure the treaty rights of Canada in the use of the Panama Canal. This is a matter in which considerations of political partisanship can have no place, and in the maintenance of the rights of this country to the uttermost Mr. Borden will have behind him the unanimous support of the Canadian people.

(Calgary News-Telegram.)

The greatest wit, unprinted and unbound, in North America. Thus Canadian Collier's once described George Ham, the publicity expert of the Canadian Pacific Railway, and this brief appreciation strikes a responsive note in the hearts of all those who have the pleasure of the acquaintance of the genial George.

(Hamilton Spectator.)

Someone should put wise those misguided Grits who are howling Reciprocity as a result of the Saskatchewan elections. Nothing would suit the Conservatives better than to go to the country again tomorrow on the same issue.

(Toronto Star.)

The diplomatic problem of the Panama Canal which Great Britain must put up to the United States in as soft words as possible is "Why make a blamed hog of yourself?"

(Greenwood, B. C., Ledger.)

If some smooth gink would stake a subdivision on Mars, we feel sure that he could sell quite a bunch of lots on easy payments to many people in British Columbia.

(London Free Press.)

Mr. Borden is creating an impression in England second to that of no colonial statesman and without the aid of a picturesque personality.

(Ottawa Citizen.)

Society note: H. M. C. S. Niobe is not accepting any invitations to farmers' picnics this season, owing to severe indigestion.

## 45 Successful Years

The Last Year the Best of the 45

Thoroughness and progressiveness have always been the dominating features of the trade of this port. Messrs. William Thomson and Company have made good progress with their work and all that can stop them lay down about a mile or so of rails a day for a time now, will be failure of the company to supply the rails. Within the next couple of weeks, two or three steam shovels are expected to be at work, in fact, the first shovel will be at work, as soon as the steel reaches the ground, three and a half miles below Gibson.

Students can enter at any time.

Most Anything

Bill Bullitt, the new solicitor general, owns several banks and a slice of a railroad.

Most Anything Editor: Why don't you muzzle those poets and poetses? Or do you use their stuff so's you won't have to write anything—W. B.

A man will do a lot these blistering days to keep from working.

When an English railway advertised for 300 wooden sleepers, a clergyman offered his entire congregation.

You just watch him kick that money dawg around—NOT!

Maud—When you broke the engagement, of course you returned the ring he gave you?

Ethel—Certainly not! I don't care for John any more, but my feelings have not changed toward the ring.

That first drink is a fluid institution devised to fool the foxy!

Fairville Methodist Picnic.

The annual Sunday school picnic of Fairville Methodist church, was held yesterday at Westfield Beach. Two trains went from the city carrying hundreds of happy youngsters, and large numbers of grown ups. The day was one of festivity, the day being fine and many attractions being provided for young and old. About 600 attended and the picnic proved one of the most successful of the season.

## The News in Short Meter

LOCAL.

New Bridge at the Falls.

Hon. John E. Wilson, M. P. P., and A. R. Wetmore, provincial engineer, have made an inspection of the Suspension bridge at the falls, and as a result a call will be made at once for tenders for renewing the flooring. The work will make the bridge safe until the new one can be constructed. It is hoped that tenders can be called on the plans for the new bridge very soon and that the work will be under contract before the fall of the year. It will take about 18 months to complete the new bridge, which will be a steel structure with concrete floor covered with creosote blocks.

Apartment House on Mount Pleasant.

It is learned that the purchasers of Reid's Castle are Ernest Bolton and Arthur Irvine, formerly of this city, but now of Montreal. They intend to lay out an exclusive sub-division and erect an apartment house on the site of the old convent.

Police Court.

Harry Rogers was before the court yesterday morning, charged with lying across the C. P. R. tracks on Bentley streets with suicidal intent, and remanded. Joseph Devlin, charged with lying and lurking about an L. C. R. car, was sentenced to three months in the alms house.

Grain Shipments in Summer.

In all probability the shipment of grain from St. John in the summer time will be the future be a permanent feature of the trade of this port. Messrs. William Thomson and Company have made good progress with their work and all that can stop them lay down about a mile or so of rails a day for a time now, will be failure of the company to supply the rails. Within the next couple of weeks, two or three steam shovels are expected to be at work, in fact, the first shovel will be at work, as soon as the steel reaches the ground, three and a half miles below Gibson.

GENERAL.

First Rails on New Railway.

Fredericton, July 18.—The first steel on the Gibson and Minto Railway was laid yesterday at Gibson by Messrs. A. T. Tritts and Son. The contractors have made good progress with their work and all that can stop them lay down about a mile or so of rails a day for a time now, will be failure of the company to supply the rails. Within the next couple of weeks, two or three steam shovels are expected to be at work, in fact, the first shovel will be at work, as soon as the steel reaches the ground, three and a half miles below Gibson.

PROVINCIAL.

Methodist Church and Union.

Toronto, July 18.—After discussing the matter at length, the general conference special committee of the Methodist church, yesterday adopted a resolution expressing the readiness of the church to proceed toward the union of the three negotiating churches, on the basis previously arranged, the vote having indicated so decided a preponderance of opinion in favor of the agreement on the part of the officials of the church. This marks another important step towards the consummation of organic union with the Presbyterian and Congregational bodies.

Would-be Assassin Gets Life.

Hong Kong, July 17.—The Chinaman who on July 2, attempted to assassinate Sir Francis H. May, governor of Hong Kong, by shooting him with a revolver, pleaded guilty today. He was sentenced to life imprisonment at hard labor.

HAT FAILS TO HOLD

STREET CAR SEAT

Louisville, Ky., July 17.—Methods pursued by women to reserve seats on street cars for their friends who are not so fortunate as to get aboard when the cars first stop, were aptly demonstrated in one of the parks just after a heavy downpour of rain began. More than twice the number of persons that could be accommodated in the car were clamoring to get on, and one of the women who was more fortunate than her woman companion and their two escorts was one of the first to enter the empty car.

She seated herself near the rear door of the car, and doffing her hat with a big black willow plume, laid it on the seat in front of her. Several people refused to take the seat containing the hat until the car became crowded, when a woman and her escort entered and pushed the hat to one side.

The owner of the hat entered a loud protest and informed the couple that the hat was reserved. The man, however, and informed the infuriated owner of the hat that such a thing as reserving a seat in a street car was absurd and advised his companion to sit down.

At this juncture the hat owner informed the couple that if either of them smashed the hat they would have to pay for it.

Hardly were the words out of her mouth when the man gently lifted the hat from its place of repose and placed it within the lap of its owner in the seat behind and the car wended its way to the city, while the woman companion of the owner of the hat and their escorts, who had been delayed in getting change, were compelled to stand, as the other half of the seat occupied by the woman was taken by a stranger while she was engaged in an argument with the couple in an effort to save the front seat for her friends.

# THE MILLIDGEVILLE MOTOR BUS SPEEDY

With Many Reporters as Passengers Bus Made Trip to Scott's Corner in Twelve Minutes.

The first passenger motor bus of the Auto Suburban Co. made its appearance in the streets of the city yesterday afternoon, when W. C. Rothwell, kindly visited the different newspaper offices and invited the multitude of public opinion for a spin. Needless to relate the bus, which holds about 20 people, was speedily filled with a very amateur bunch of motor enthusiasts, and of whom greatly enjoyed a trip to Millidgeville and return. This bus, which was built at the large Kelly plant in Springfield, Ohio, was especially constructed for passenger work, having a extra large body and is capable of carrying 20 people. The bus is neatly and compactly constructed, presenting an excellent appearance, the cost being about \$3000. That it can make the trip from Scott's Corner to Millidgeville in fast time, was proved yesterday when with 18 passengers, it traversed the distance in 12 minutes, which considering that the engine was not worked before, is excellent time. Although the car is capable of attaining a speed of 30 miles an hour, it runs evenly and smoothly, is a splendid hill climber and can be kept well under control. Another can be built on the same lines, will soon be in commission, the company expecting to start the service at once.

# NEW SHOES MADE WHILE YOU WAIT

Big Montreal Concern Planning Industry Show for Greater St. John Exhibition—Many Applications for Space.

Managing secretary, H. A. Porter, of the Greater St. John exhibition, is in receipt of a large number of applications for space in the main industrial buildings for this fall's show, most of them having reached his desk during the last few days. It is a very encouraging fact that the majority of applications are from outside firms. One of the notable requests for space is that from the United Shoe Manufacturing Corporation, of Montreal. These people want a frontage of 40 feet, as it is their intention to demonstrate twelve important processes or stages in the manufacture of footwear. The experts will make shoes while you wait. The usual large number of applications for space in the food fair section have come to hand, which will be good news for the children and others who take particular delight in sampling all the free edibles. Local firms are also planning their exhibits, and requests are being made for printed floor plans of the building, so that locations can be settled upon. A particularly good feature in this line, will be a combination shop representing leading business specialties. These corporations make of the furniture, radio equipment, typewriter supplies, computing machinery, etc., and the eastern Canadian branches are happily co-operating in arranging this big exhibit which will occupy a large area on the downtown floor of the main building.

# IN THE COURTS

**Circuit Court.**  
In the circuit court yesterday morning the case of Park vs. Millidgeville and fifteen others was concluded and the jury, after being out for over three hours, returned answers to twenty-nine questions. Counsel for the plaintiff then moved to dismiss the case on the ground that the motion was denied pending arrangement as to terms. His honor will base his judgment on the answers to the questions submitted. When the court opened at ten o'clock yesterday morning his honor resumed his charge and at 11:05 the jury retired and at 2:20 returned as above stated.

**M. G. Teed, K. C., and H. H. Hamilton, K. C., appeared for the plaintiff and George W. Fowler, K. C. M. P., and H. H. Pickett for the defendant.**

The civil non-jury case of Pacific Coast Fire Insurance Co. vs. John L. Hicks of Sackville was commenced yesterday morning at 11:30 o'clock. This is an action to recover back money paid by plaintiffs to the defendant under the following circumstances: Plaintiff insured defendant's mill for \$2,000 and consented to allow \$2,500 more to be placed with the Nova Scotia Fire Insurance Co. The mill was subsequently on April 20, 1911 destroyed by fire and the defendant in proof of loss in which he neglected to state that there was any other insurance on the mill of more than the \$4,500 in the two companies. The \$2,000 was promptly paid. The policy contained the usual clause making insurance void in case of additional insurance in any other company without notice. After making payment, plaintiffs learned that there was \$2,500 additional insurance in each of two Philadelphia companies, the Fairmount Mutual Fire and the Metropolitan Fire Insurance Co., of which they had no notice, whereupon the action was brought. The above is practically admitted by defendant, but he contends that the Philadelphia companies are fictitious and non-existing and were fraudulently procured and pretending to carry on business in Canada and that they were unlicensed in Canada. The defendant is represented by Edgar Fairweather, manager of the plaintiff company, the defendant and H. A. Porter, secretary of the defendant.

**H. A. Powell, K. C., Hon. J. R. Armstrong, K. C., and W. H. Harrison appeared for the plaintiff and M. G. Teed, K. C., and Geo. R. McLeod of Sackville for the defendant.**

# GREAT RACES AT STOCKHOLM

Stockholm, July 18.—It was a magnificent race between the Leander and the Australians, the latter leading over three fourths of the course. Both crews were rowed out at the finish. The eight representing the Berlin Rowing Club won their heat in 8:22 1/2. In the third round of the single sculls, Kusik beat Levisky Hungary, by one length in 7 minutes 45 1/2 seconds. The heat between Messaros, Hungary and Vetman, Belgium, in the single sculls, which was at first credited to Messaros,

# OUTSIDE INVESTORS TAKING GREATER INTEREST IN ST. JOHN

Montreal and Toronto Capitalists Willing to Put their Money into St. John Real Estate -- Local Demand Somewhat Lighter but Outlook Is Good.

The feature of the situation in real estate circles is the increasing interest shown by outside investors in larger properties. Several operators in real estate from Montreal were in the city yesterday, among them being Ernest Bolton and Arthur M. Irvine, the purchasers of Reid's Castle, and E. P. Buchanan, and J. Short, who have been looking over some properties here with a view to purchase. Local real estate offices have frequent inquiries from Montreal, Toronto and western cities relative to bargains in realty here. R. H. Bruce, of Armstrong and Bruce who returned from Montreal yesterday said that he had noticed a marked increase of interest among the financial men of that city in real estate opportunities here compared with the interest observed during previous visits. He remarked that quite a number of financial men in Montreal had referred him to an article in the Financial News setting forth in optimistic terms the prospects of property developments in St. John, and calling attention to the opportunities of real estate investment here. The Montreal and Toronto investors are mainly interested in big properties, and it is said negotiations are under way for the transfer to outside parties of several important properties. The Day of the East.

The real estate operators expect that the interest of outside investors in property here will continue to increase. They point out that real estate speculation in western cities seems to have over-reached itself and that the tendency of investors in the future will be to turn their attention to the older cities of the east. As St. John, by reason of its strategic position as a shipping port and railway terminal has prospects of growth second to none of the cities in eastern Canada, it is argued that it must get a good share of the attention directed to the east, as a result of the reaction from the uncertainty of conditions in the west. St. John offers exceptional advantages to the conservative investor.

**Local Demand Falling Off.**  
Locally the demand for building lots is not as great as it was. A goodly percentage of the best locations in the new subdivision put on the market have been taken. But the interest in building lots is fairly well sustained, as is shown by the fact that the prices of lots in a number of subdivisions were made in April, and another advance of ten per cent. during the latter part of June.

# BASE BALL ARGUMENT IS SETTLED

A number of baseball fans had an argument yesterday, and the result was that a number of bets were made. The matter was left to the standard's sporting department to settle. The following letter cites the question in dispute: Sporting Editor of The Standard.

Dear Sir:—Three men are on bases, two men are out. Batter hits to centre field, man on third crosses the plate. Centrefielder drops the fly but recovers the ball in time to put out the runner going from first base to second. Question, does the run count as a score?

The following is the rule governing the play: The Scoring of Runs. Rule 55—One run shall be scored every time a base runner, after having legally touched the first three bases, shall legally touch the home base before the time he is put out; provided, however, that if he returns home on or during a play in which the third man be forced out, or be put out before reaching first base, the run shall not count. A force out can be made only when a base runner legally loses the right to the base because of reason of the batsman becoming a base runner, and he is thereby obliged to advance.

It would take it that according to the rules set forth above the batsman becomes a base runner when the fly ball is hit and the man running from first is forced out at second, the slide is retired and the man crossing the plate does not score. Capt. George Winter, of the Marathons, and the league umpire also say that the score does not count. (SPORTING EDITOR.)

was ordered rowed on the ground of a false start. Vetman won by three lengths in 7 minutes 52 seconds. In the final round of the individual sculls competition Hungary won first second and third. The Leander eight beat the Australian crew by two thirds of a length in 6 minutes, 10 seconds. The Leander boat thus reversed the result of the race for the grand challenges cup at Henley July 6 when the Sydney Rowing Club's eight won by three quarters of a length.

# CAMP UTOPIA BOYS ON A CANOE TRIP

Three of Them Made the River Journey from St. John to Fredericton in Three Days.

When the members of Camp Utopia called for volunteers to take a canoe trip from St. John to Fredericton and look the country over so a canoe trip in which all the members will join might be planned, Frank Phillips and Raymond Penney of Mount Vernon, and George Porter, a son of Dorothy Dix the newspaper writer, of Yonkers, volunteered, with the result that on Friday last they embarked at Indian-town and started for the capital, 84 miles away, making the journey in three days. On the way up, the party had several adventures, the chief of which were caught last Friday when they were caught in a fog off Beyer's Point being unable to find shelter for the night, which they spent on the shore. This, however, did not dampen their spirits as on Saturday they made 33 miles. When the party arrived in Fredericton on Sunday last the alarming discovery was made that all the money had in some mysterious manner disappeared. This, however, was a minor worry, and as one of the boys put it: "We telegraphed home for funds and had a great time." After spending a few days at the capital, the canoe was put on the steamer and sent back to camp, the boys returning on the same boat to Indian-town where they arrived yesterday afternoon. This morning the boys will return to camp and get ready for the canoe trip to Eastport in which 25 of the members will take part. This trip to Eastport is becoming an annual affair and is timed so that they will be five at their destination during the Eastport carnival. Last year a large number of the boys went down and succeeded in taking home a big percentage of the prizes offered for the different sporting events. This year the camp has a strong baseball team and expects to do even better. They also have a strong baseball team and feel sure they will be successful in winning some of the prizes of the intermediate St. John teams, the result will never be in doubt.

**OBITUARY**  
John A. Lilley.  
Woodstock, July 17.—John A. Lilley aged 71 years passed peacefully away at his home in Lower Woodstock July the 17th. He had been ill for some time and a few weeks ago underwent an operation which was successfully performed by Dr. T. W. Griffin of Woodstock, N. B. About nine days after the operation took place pneumonia set in, which lasted for several days. He seemed to improve slowly and the last few days of his life he could move about without assistance. He leaves to mourn his loss a widow and eight children, five daughters and three sons. The daughters are Mrs. Wm. Flemming of Lower Woodstock; Mrs. H. W. Mann, of St. Stephen; Mrs. George Golding, of McAdam Junction; Mrs. Hunter Blackie, Kirkland and Mrs. Wm. Norris, Woodstock, and the brothers are one brother, Aaron Lilley, living at Dyer Brook, Maine. Deceased was respected and liked by all who knew him. The funeral services were conducted at the house by the Rev. Mr. Berry of Woodstock Interment was made in the North Hampton cemetery.

**A TIE GAME.**  
In an exciting game in the intersociety baseball league on St. Peter's grounds, last evening, the F. M. A. and C. M. B. A. teams tied, with a score of 7. The batteries were, F. M. A. McNulty and Harrington; C. M. B. A. Dever and Hansen.

# VETERANS WAITING FOR THEIR GRANTS

More than Fifty Fenian Raid Veterans, in St. John, Apply for their Reward from Government.

The department of finance at Ottawa will be kept busy for the next few days issuing checks to the veterans who did service during the Fenian raid. The arrangements for the payment of the half million dollars, which represents the aggregate to be paid to the veterans have been completed, and the work of issuing the checks is already going on. Of the four thousand or more applications which have been made by those entitled to the grant of \$100, a number have been sent from the city by veterans who did valiant service during the troubled days of 1867-70. While some of the St. John men who saw active service have died within the past few years, there remain, however, a surprisingly large number. Of the local veterans who fought bravely and well, there are at least fifty surviving, many of whom still retain much of their former vigor, and whose recollections of the stirring days of the raid are still clear, and to whom the events of those times are as happenings of yesterday. In conversation with The Standard last evening one of the veterans who, although physically ill, is still mentally as young, and for eighteen years was a member of the New Brunswick Regiment, No. 3 battery, said that all the local Fenian raid veterans who had seen active service had made application at Ottawa for their grant. Inasmuch as the arrangements whereby the payment of the half million dollars had been made recently, none of the veterans had as yet received their checks. Altogether there are in the vicinity of fifty of them who are entitled to the grants, and they are expecting to receive their checks in a few days.

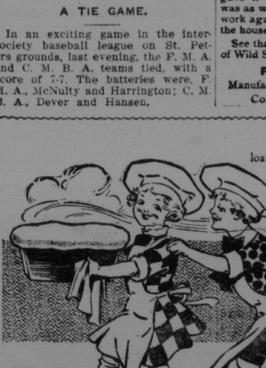

**Band Concert on the Square.**  
A very large number enjoyed an excellent programme of music rendered by the city cornet band under the direction of Bandmaster Waddington on the King Edward band stand last night. Each selection was well rendered and shows faithful training by the musicians. A feature of the programme was a cornet solo by D. J. Gallagher which was loudly applauded.

# Diarrhoea, Dysentery, SUMMER COMPLAINT AND ALL BOWEL TROUBLES ARE CURABLE BY THE USE OF DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

Mrs. Shaw Lunn, Falmouth, N. S., writes:—"I am dropping you a line to let you know what Dr. Fowler's Extract of Wild Strawberry has done for us. Last summer my little girl had diarrhoea so bad she passed blood. A friend told me of the Extract, so I sent and got a bottle of it, and six doses cured her. In December, 1911, my brother came home from the woods very bad with cramps and diarrhoea, and thought he would have to call the doctor. I thought of the bottle of "Dr. Fowler's" I had in the house, and gave it to him, and in three days he was as well as ever and went back to his work again. I would not be without it in the house if it cost twice as much."

See that you get Dr. Fowler's Extract of Wild Strawberry when you ask for it. Price — 35 Cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

There are the golden crusted loaves that fill the kitchen with the aroma of fresh-baked hickory nuts — See the eager kiddies follow their noses to table. To-day — Bake with Five Roses Flour.

CLOSING STOCK LETTER. By direct private wires to J. C. Mackintosh and Co., St. John, N. B.

New York, July 18.—Whether large interests are accumulating stocks or shorts are covering the strength of the market today certainly kept up very well. It cannot be all slight covering and the impression that some of these stocks are going into good hands is a natural conclusion when one analyzes the buying. The buying of some stocks had a characteristic nature that impressed one with the idea that it comes from

STEEL PRODUCTS IN GREATER DEMAND

New York, July 18.—Stocks manifested increasing firmness today after an early period of uncertainty. Trading, however, was of the same dull and perfunctory character as that which has marked most recent operations favorable crop news, undoubted improvement in the steel industry and increasing ease in the domestic monetary situation all combined to create an atmosphere of mild optimism, even though the failure to stimulate business in securities markets. Of the several factors named the increasing demand for the output of the steel mills at higher prices was perhaps the most potent today. Equipment orders are coming along steadily and this fact is beginning to find reflection in the stocks of the companies benefited. Amalgamated Copper was another strong feature, deriving much of its support from a better inquiry for the metal at prices approaching recent high quotations. The steel corporation, according to reports, has made preparations to meet increased business by appropriating large sums to augment efficiency. Various specialties were relatively active and strong, but their movements exercised little or no influence in the way of outside support. The tone of the foreign exchanges offered scant comfort to the constructive side of the account. London turned weak after a cheery opening, with the now familiar tale of another drop in consols. The weekly report of the Bank of England was a negative document, even though it showed a further strengthening of that institution's liability reserves. The Bank of France gained over \$2,000,000 gold and its increased discounts were partly offset by reduced advances. In Berlin domestic securities were weak under realizing, with a good undertone for Americans. Bonds were steady, but without special feature. Total sales, par value, \$1,809,000. U. S. Government bonds were unchanged on call.

CLOSING STOCK LETTER.

By direct private wires to J. C. Mackintosh and Co., St. John, N. B. New York, July 18.—Excessive rains in the belt and lack of moisture in the southwest were perhaps the dominating factors in today's cotton market, for while in neither particular the shorts and sold long interests encouraged fresh outside buying and increased nervousness on the part of bears. The stubborn steadiness of prices even when the market was at its dulled appeared to temper the shorts and sold long interests alike and there was active bidding for contracts from both sources.

THE WEATHER

Toronto, July 18.—Cooler weather has set in over Ontario this evening accompanied by showers in many localities in the west. The tendency has been higher temperature and fine conditions in all districts.

AROUND THE CITY

Bank Clearings.—The St. John, N. B. bank clearings for the week ending July 13th, were \$1,672,875, and for the corresponding week last year, \$1,721,996.

Gloves Found.—Patrolman McFarland found a pair of lady's gloves on Main street yesterday afternoon. The owner can have the same by applying at the North End police station.

Well Boring Machine "Bolted."—Church Avenue, Fairville, was the scene of considerable excitement yesterday afternoon when the well boring machine belonging to the firm of Ryder and Betts became unmanageable, throwing the driver, George Compton, to the street. Mr. Compton was badly shaken up and sustained several severe cuts about the face.

Held Meeting in Motor Boat.—Instead of in the building, the directors of the Y. M. C. A. through the kindness of F. A. Dykeman held their monthly meeting cruising on the Kennebecasis river in Mr. Dykeman's motor boat Ogistah. At the meeting the routine monthly business was transacted the only new business being the electing of A. H. Chipman a director.

Picnic at Municipal Home.—An enjoyable picnic was held on the playgrounds of the Municipal Home yesterday afternoon for the amusement of the children of that institution. The affair was organized by Ven. Archdeacon Raymond and Rev. Father A. J. O'Neill, and it was a success in every way.

Firemen Going to Capital.—The committee appointed to make arrangements for the members of the fire department to participate in the firemen's muster to be held in Fredericton on Wednesday, August 7th, are hard at work and are meeting with much success. At present it looks as if a large number of firemen will go to the capital on that date and while Chief Kerr does not think he will be able to accompany his men he is lending the committee all assistance to make their trip a most enjoyable one.

GOOD WORDS FOR LOCAL FIREMEN.—Lynn Fire Fighter Holds Golden Opinions of Hospitality of the St. John Firemen.—A couple of weeks ago among the visitors to the city was Lieut. Charles G. Sterling of the Lynn, Mass., fire department, who greatly enjoyed his trip to St. John. The following item is taken from the Fireman's Standard: "After looking around the United States for a cool place during his vacation Lieut. Charles G. Sterling of Engine 4, headed east and brought up in St. John, N. B. and right in this place Lieut. Sterling says:—"There is the whitest crowd of fire boys to be found under any flag. When I landed at the Engine 3 quarters which is also headquarters, I was tendered a reception that would warm the heart of any stranger in a strange land. The whole company of Engine 3, James Mills of the salvage corps, and Charles Piercy, the superintendent of fire alarms, made my visit a most enjoyable one."

PERSONAL.—Dr. James Dalton returned to the city from Portland, Me., yesterday afternoon. Rev. Geo. R. Baker of Loomister Mass., and family are visiting Mr. Baker's father, C. P. Baker, of Randolph.

Messrs. Wm. Thomson & Co. have advised that the Purcell line steamer Sissandah will sail from London on July 22. On account of the London strike the sailings have been badly interrupted.

MIRACULOUS ESCAPE OF A ST. JOHN AUTO-PARTY

Heavy Car Containing Mr. and Mrs. James Manchester and Mr. and Mrs. Herbert Guernsey, Plunged from Road on Devil's Back Hill—Occupants Found Under Car -- Mrs. Guernsey Alone Injured.

Five well known residents of this city had about as narrow an escape from death yesterday as they will ever have again. They were James Manchester, of Manchester Robinson Allison, Limited, and president of the Bank of New Brunswick, Mrs. Manchester, Herbert Guernsey, the wealthy Englishman who has been investing heavily in St. John real estate, and who has his home near Manchester's on the Manawagonish Road; Mrs. Guernsey, and Roy Foley, a chauffeur.

The party was motoring from Gagetown to this city in a large Russell touring car weighing in the vicinity of 3,800 pounds, and when coming down the steep hill at what is known as The Devil's Back, on the St. John River, the car skidded and plunged off the road landing in the centre of the bushes ten or fifteen feet below.

Auto Turned Over Twice.—The heavy automobile turned over twice in its flight through the air and fortunately landed on its wheels with the occupants underneath the body of the car. None were seriously injured except Mrs. Guernsey, who had two ribs broken, and it is feared, internally injured, although this could not be determined last night.

A Cause a Mystery.—The accident occurred late in the afternoon and details were in the city about supper, when a telephone message was received at the Pugsley house to send up another car to bring Mr. and Mrs. Manchester to the city. At the same time medical assistance was sent out. Dr. James Gilchrist, of Round Hill, Oak Point, was first on the scene and did all he could for Mrs. Guernsey, whose injuries were most serious. It was deemed inadvisable to bring her to the city last night, and she was taken to Mr. Holder's house near the scene of the accident where she remained all night.

A Miraculous Escape.—How the ladies and gentlemen in the car escaped instant death or at least very serious injury is a mystery. They were found under the body of the car, but the fact that the car had landed on its wheels kept the heavy weight off them and probably saved them from being crushed to death. It is equally mysterious how the accident happened, as the chauffeur said the steering gear did not break and he was at a loss to account for the car's sudden plunge from the road. Had the car gone over a few feet further on the accident would have undoubtedly been fatal to all as the road winds around the top of a rather high cliff in that vicinity. As it was, however, the fall was not very great, and the brush into which the party was thrown served to break the force of the fall.

ISSUED CALL FOR LABOR CONVENTION

Trades and Labor Council will Hold Big Meeting Here on Labor Day—Provincial Delegates Invited.

At the meeting of the Trades and Labor Council last evening it was decided to issue a call to the unions throughout the province to send delegates to a convention to be held in St. John on Labor Day for the purpose of organizing a Provincial Federation of Labor. The committee appointed to look into the matter of arranging for a picnic on Labor Day reported that they had been unable so far to secure a place at which a picnic could be held on that day that could be reached without an undue tax upon those attending. The question of inducing the proprietor of the Labor News to publish his paper from St. John instead of Moncton was discussed, but no definite action was determined on.

PERSONAL.—Dr. James Dalton returned to the city from Portland, Me., yesterday afternoon. Rev. Geo. R. Baker of Loomister Mass., and family are visiting Mr. Baker's father, C. P. Baker, of Randolph.

The Best Quality at a Reasonable Price. Don't put off wearing glasses because you think them unbecoming or a trouble to wear. If you knew the comfort there is for tired, aching eyes in properly fitted glasses and the relief from headaches caused by eye-strain, you would not hesitate, but would have glasses fitted at once no matter how they looked. But there's no necessity for wearing ill-looking glasses. Those we sell not only fit well, they also look well. Come in and see how becoming a pair of properly fitted glasses may be.
