STATUE TO GENERAL WHO WON FAME IN THE REVOLUTION

This spiendid statue of General Nathanael Greene, of Revolutionary fame, designed by Francis Herman Packer and wrought in the Roman Bronze Works, at Brooklyn, N. Y., was unveiled at Greensboro, N. C., on July 3. The statue, with its pedestal and borate platform, stands on the site of the field on which was fought the battle of Guiror Court House. The figure of the Revolutionary warrior, whose tactical ability caused General Cornwallis to any he was "as dangerous as Washington," is clothed in conventional garb of Colonial times, with high riding boots and a three cornered hat. A sword hangs at the left side and the eyes of the General are fixed to the front, as hough awaiting an attack. On the pedestal supporting the statue are inserthed the names of the various battles hat General Greene figured in, together with a brief statement making known ", date of his birth and death.

London, July 7.—The Turkish forces completely falled in the big at ack which they began on July 4, against the Anglo-French forces on the Dardanelles, according to a statement issued today by the British Officia Press Bureau, which added that the Turks lost heavily. The text of the statement follows:

"General Sir Ian Hamilton reports that the night of July 3-4 was quiet in the northern section, but at four a.m. the enemy started a heavy combardment of the trenches. All the guns previously used against us and some new ones were in action but the bombardment died away about six a.m., without doing much damage. During the bombardment about twenty 11.2 shells were dropped from a Turkish battleship in the

"In the southern section the Turks kept up a heavy musketry fire ong the whole line during the night and did not leave their trenches. At four a.m. their batteries started the most violent bombardment that has yet been experienced. At least 5,000 rounds of artillery ammunition were expended by them.

"Meanwhile this shelling of our lines on the peninsula proved the preliminary to a general attack on our front, with special efforts at certain points. The principal effort was made at the junction of the Royal Naval Division section with that of the French.

"Here, at 7.30 a, m., the Turks drove back our advanced troops and assaulted a portion of the line held by the Royal Naval Division. Some fifty Turks gained a footing in our trenches where, nevertheless, some men of the Royal Naval Division held on to our supports and the men who had retired counter-attacked immediately and hurled the Turks out of the trench again.

"Another attack on the right of the Twenty-ninth Division section was practically wiped out by rifle and machine gun fire. On our left the Turks massed in a ravine, to the northeast of our newly-captured trenches and attempted several attacks. None of these was able to get home owing to the steadiness of our troops and our effective artillery support. The bombardment died down towards 11 a.m. though it was resumed

"Not only was the result a complete failure, but while our los were negligible and no impression was made on our line, the enemy added a large number to his recent very heavy casualties. It seems plain from the disjointed nature of his attack that he is finding it difficult to

THE WAR SITUATION.

The news from the war theatres is distinctly brighter today; indeed there is more evidence of success in all areas of fighting than has been the case since the Austro-Germans incept ed their drive across Galicia and Poland several weeks ago. In the east the Russians have been reinforced both with men and munitions and as a result have inflicted a severe blow on the enemy. As a result of the Russian success of the past day or two it is said that the future of the German attack on Warsaw is in grave doubt in the west the tide of battle seems

T. R. should come to this port. That statement he knows to be untrue. Admitting that he has vaulted the party fence so often that, as a political acrobat he is almost the equal of his leader. Hon William Pursiley, we confess that we cannot quite adjust our mental vision to grasp the methods he will use to reconcile his attitude in 150 with that in 1915. Of course his conversion to the merits of the N. T. Hugh McAlpine a Prisoner of War - Dr. L. A. McAl pine is an Uncle.

The official casualty list issued Tues The official casualty list issued Tuesday at Ottawa includes the name of a former St. John man, Hugh McAlpine, as being a prisoner of war in Germany. He has many friends about this city, where he was born and reared. He removed west to Edmonton, Alta., where his father, Charles McAlpine, is now located. Besides Hugh, who is the youngest son, about twenty-two years of age, two other brothers, Al-bert and David have joined the colors. Dr. L. A. McAlpine, an uncle of the Dr. L. A. McAlpine, an uncie of the young soldier here, received a letter a day or so ago from Mrs. Tait, wife of Lieut. Tait, from Shorncliffe, England, where she went to join her husband, saying that she had received word from her brother. Hugh McAlpine that he was a local health and pine, that he was in good health and pine, that he was in good neatth and was being fairly well treated. Mrs. Tait was formerly Miss Ava McAlpine of St. John, but after being married in Edmonton, went to England to join her husband, who had gone with a western unit.

The place illustrated is Dinant, one of the most beautiful of all the Belgian towns dotted along the course of the River Meuse. Readers will recall how drastic was the treatment which it suffered in the early stages of the war. When in full blaze the scene, as witnessed from the opposite heights of the river gorge, must have appeared like some gigantic furnace. When fire and explosion had spent themselves it was found that the streets were choked with the ruins of numberless bouses. The towering bulbous spire above the church had gone. Now, after many menths, summer sunshine has come again to the figures for 1914 are not available, but the production for 1913 is officially diversed to traffic, the nave of the church has been revoited, and the two towers have been temporarily capped, and there is, of course, no reason in German eyes why Dinant should not be perfectly happy, busy and successful. These pictures show the actual condition of the shattered town as greater number of women, children and babies, still live among the shattered ruins of their former homes. A walk through the streets recally alternately memories of Pompeli and Messina, so complete has been the destruction in certain parts, and yet here and there a building will be little damaged amid the surrounding ruin.

Italy, 62,464,000; Denmark, 28,551,090; Sweden, 52,642,000; The production in Germany reached the enormous total of 1,680,000,000. In other countries the figures for 1914 are not available, but the production for 1913 is officially given as follows: France, 477,115,000 Russian at 1915 and 1915 an

HARTLAND ASSESSMENT FOR COMING YEAR REMAINS UNCHANGED

on Tuesday - Death of Mrs. Fred. W. Dickenson.

Hartland, N. B., July 6—The annual 'town meeting' was held in the hall over the hose house Monday evening. The accounts of Secretary Simms and A number from this place were at South Branch Sunday attending service there, which was held by the Rev. C. J. Steeves, pastor of the United Baptist church, assisted by the Rev. A. W. Currie. Previous to the preaching service baptism was administered to ten young people in the nearby stream, the service was an impressive one. Mr. Steeves since coming to his field has done splendid service. He will hold service in the United Baptist church at this place Sunday morning at 11.

GRIT AGENT TROUBLED BY CONSCIENCE

Chambers Says He Tried to Give Back Money For Deal. But Couldn't Get Anyone To Take It. THE FERIN

Winnipeg, July 7.—Chief Justice Howell, of Manitoba, was called as first witnes before the Royal Commis-sion when it resumed this morning. He said on Saturday, May 8. Mr. Phip-pen and Mr. Hudson called on him. pen and Mr. Hudson called on him.
Phippen did practically all the talking,
Hudson merely saying a word now
and then. The interview was private
and confidential and he resented the
idea that it had ever been made public. It had strafted the relations be-It. It must strained the relations between one gentleman and himself. Phippen told the Chief Justice that he was acting for Kelly and did not think it was fair to go on with the Royal Commission investigation into Kelly's affairs, when it was proposed to institue a civil action against him. Phippen produced a memorandum

Phippen produced a memorandum stating that Roblin would admit, in his letter to the lieutenant governor, that all the charges made by Hudson were substantially correct. It seemed to the chief Justice that since the government had pleaded guilty, it was not necessary to go on with the commission. The terrible expense to the country of the commission was discuss.

When you wash your hair, don't use soap. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified cocoanut oil, for this is pure and entirely greaseless. It's very cheap, and beats soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

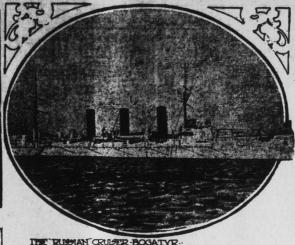

Simply moisten the hair with water end rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

THE LARGEST WAR |QUOTATIONS IN LOAN IN HISTORY THE CUBAN MARKET OF N.Y. MARKET BY

post of chancellor of the exchequer has fallen upon Reginald McKenna, who, fortunately for the Allies, seems to be capable of filling the place vacated by his gifted predecessor.

The first task of the new chancellor was to float a loan of five billion dollars, which is the biggest war loan in history. Of necessity, to open the pocketbooks of the wealthy class, it was necessary to offer 4½ per cent. interest, and the fixing of the interest rate at this high point would make the former consols bearing 2½ and 3 placing his loan his predecessor.

rate at this high point would make placing his loan his predecessor, the former consols bearing 2½ and 3 per cent. drop below par.

To obviate this discrimination against old government creditors the chancellor announces that all holders of consols totalling 100 pounds shall, if they loam £100 or more at 4½ per cent., obtain the same interest on the old consols as on the new. This at may be stated that the expenditure the consols as on the new. This at may be stated that the expenditure the consols as on the new. This at may be stated that the expenditure once makes holders of capital willing ammunition up to the present time to take the new securities. It is calculated that the new loan will cover only another year of the war, so that if hostilities continue for a longer period a further loan will be necessary.

House of Commons, the French ground the property of the period a further loan will be necessary.

CANADA DOING WELL WITH MUNITIONS FOR THE ALLIES SAYS HON. J. D. HAZEN

Speaking of what has been done by Canada to meet the problem of supplying munitions to the Allies, Hon. J. D. Hazen, Minister of Marine and Fisheries, who is spending a few days in the city, said that Canada could only fill the orders as they come to hand. "Not one order from the British or other Allied governments has been refused and shells are being delivered as quickly as they can be. So far, we have been able to meet all demands and there is no Indication that we will not continue

We are prepared to go and manufacture all the War Office wants but we cannot give orders more quickly than the War Office asks for them. Not an order has been refused and there is absolutely no truth in the statement made in some opposition quarters that Canada cannot handle the work given to her. The government has endeavored to place all orders in Canada and the result has been very satisfactory. A goodly portion of these orders have come to New Brunswick. In leather goods alone one St. John manufacturer has had orders to the extent of \$250,000 for the Russian government and

Referring to recruiting the Minister said men were coming forward well, not as many from the Maritime Provinces as from the west but that was accounted for by the fact that there were fewer men here. Already in the west some concern is being felt for the supply of labor for harvesting owing to the very large number of volunteers for the front. He had no doubt that all the mor required from Canada would front. He had no doubt that all the men required from Canada would be furnished.
