ADVISORS TO PREMIER MEIGHEN --- THE MEN

RT. HON. ARTHUR MEIGHEN Prime Minister. HON. J. A. STEWART Minister of Railways. HON. H. H. STEVENS Trade and Commerce. R. B. BENNETT Minister of Justice. HON. L. S. BELLEY Post Master General. HON. R. MONTY Sec. of State. HON. DR. J. W. EDWARDS Health, Immigration and Colonization

ROUSING RECEPTION GIVEN HON. DR. BAXTER AND COL. MACLAREN AT FAIRVILLE

Temperance Hall Crowded With Electors Who Manifested the Keenest Interest in the Remarks of the Various Speakers, Who Dealt With the Leading Issues of Campaign in Thoroughly Convincing Manner.

Fairville accorded a rousing and enthusiastic reception to Hon. Dr. J. B. M. Baxter and Dr. Murray MacLaren at the meeting held yesterday evening in the Temperance Hall, Main street. The building was crowded to the doors, and the keenest interest was manifested in the remarks of the various speakers who dealt with the principal issues of the campaign in a thoroughly convincing manner. Hon. Dr. Baxter, who returned in the afternoon from Nova Scotia where he had been speaking at Truro and other places, aroused his audience to the highest pitch of enthusiasm in a masterly speech. The policy set out by the Minister of Customs and Excise at Lorneville, on Saturday evening of Canadian goods over Canadian roads was loudly applauded; and Dr. Murray MacLaren declared that he heartily concurred and supported the Hon. Dr. Baxter in that attitude. The chairman for the occasion was Robert Catherwood.

Long and prolonged cheering greeted the Hon. Dr. Baxter when he was called upon by the chairman to address the meeting. In his opening remarks, the Minister of Customs and Excise declared that he always felt very much at home in addressing an audience at Fairville. Some years ago he had first addressed audiences there on behalf of other people, but, subsequently, there came a time when he had spoken on his own behalf in seeking their suffrage. Hon. Dr. Baxter referred to his first election in 1911 as being for St. John County to the Legislature, and the following provincial elections in which he had been re-elected, and thanked the people of Fairville for the support which they had accorded to him. A change had taken place, and he had left the provincial arena on request of Premier Meighen, and a number of occasions with his followers in the Legislature.

When we follow the Meighen Government, declared the speaker, we know exactly where we are going. The same thing applies to the Wood-Crerar party, except that it is heading in a very wrong direction. In regard to the Liberal Party, however, Mackenzie King left us many tracks that no one knew which one would follow and he, evidently, had no desire to be explicit in the matter during the campaign.

When Has Govt. Erred? "What is the matter with the present Government?" asked Hon. Dr. Baxter. "It has absolutely nothing to answer for. Had the country done anything improper in incurring the war debt for the name of Canada and the salvation of liberty?" The Minister of Customs and Excise did not think that the people of Canada would condemn a party which had carried out the policy that had been supported by the country in the election of 1911. "Was it, then, because the Government had been unfaithful in connection with any of the expenditures?" Hon. T. A. Crerar and Hon. A. K. McLean had been members of the Government when the expenditures were voted, and it was open to either of those gentlemen, or any other members of the opposition, to point to any single item that could be questioned. This challenge had been given on numerous occasions by the Meighen Government, and it had never been accepted. The reason was that no improper conduct on the part of the Government could be shown in any manner."

Preference To Returned Men "Again, there possibly might be men who felt disgruntled because they had not been able to secure positions, but the Government had made up its mind that preference had in all cases to be given to returned soldiers. This might not possibly appeal to every person, but Hon. Dr. Baxter felt sure that if the matter received careful consideration, it would be realized that the Government's policy was the proper

GOVIN THE TOOL OF MONTREAL CORPORATIONS

Official Organ of Wood-Crerar Party Makes Sensational Charges Against Quebec Leader.

VESTED INTERESTS SUPPORT LIBERALS

Big Railway Corporations and Other Interests Concentrating Their Guns on Meighen

Special to The Standard Ottawa, Nov. 18.—The Farmers Sun, official organ of the Wood-Crerar party in Ontario, this week featured a sensational charge that powerful Montreal corporations are rallying behind Sir Lomer Gouin in an attempt to make the ex-Quebec Premier, Prime Minister of Canada, and thus promote big business policies. Under the heading, "Vested Interests now Support Liberals," the Sun declares that inquiry on its part has revealed that big railway corporations and certain other branches of big business are parties to the proposed coup, and that this alliance has begun concentrating its guns upon Premier Meighen. The paper goes on to say:

Gouin For Big Interests "Quebec has a friendly spot in its heart for Sir Lomer Gouin, not that he appeals to them as Sir Wilfrid Laurier appealed, but because of what he has done for big business. At a time when Ontario was going in for public ownership, Quebec was offering every possible inducement to private capital to invest in her timber lands, her water powers, her mines, pulp areas, etc. Sir Lomer himself quit the Government, after some fifteen years in office, to become a director of several big corporations. Today he is a director of the Bank of Montreal, a director of the Royal Bank, director of the Laurentide Pulp Company and of various other concerns. As a director of the Bank of Montreal he is persona grata with the C. P. R., the two directors being almost identical. In the Quebec Legislature Sir Lomer Gouin was a czar. No dictator or autocrat ever wielded the sceptre with more disregard for his opponents. He brooked no opposition. His will was law and that will was to give every possible consideration to what is known as big business. In view of the fact it is not very surprising to find the vested interests in Montreal swinging in behind the little Napoleon of French Canada.

Portuguese Sailors Undergo Terrible Experiences

Forced to Subsist Many Days on Beans and Boiled Sea Water.

Madrid, Nov. 18.—Despatches from Las Palmas, Canary Islands, today report the terrible experiences of the crew of the Portuguese schooner Troviscal, which left Havana Sept. 11 for Las Palmas, and finally reached her destination after a voyage which lasted sixty-two days. Driven out of her course by storms, her provisions and water became virtually exhausted after she had been at sea for a month, and the crew was forced to exist for the most part on beans and boiled sea water, supplemented by the small amount of rain water that was caught by spreading sails as receptacles. When the Troviscal reached port the sailors were so weakened by their experiences that they were scarcely able to walk. At the request of the Portuguese consul in Las Palmas the captain was placed under arrest.

Mystery Death At Sydney, N. S.

Body of Man Found by Wayside With Forehead Crushed in.

Sydney, N. S., Nov. 18.—An enquiry was ordered tonight by Coroner Townsend into the death of Wm. Axworthy, 40 years old, who was this morning found dead in a ditch on Vulcan Ave. His forehead was bruised and a large stone covered with blood was lying nearby. Pending the enquiry the police are investigating reports that Axworthy had recently quarrelled violently with an acquaintance. He is survived by a widow and nine children.

CAMPAIGN ISSUES CLEARLY DEFINED BY SIR GEORGE FOSTER AT GAGETOWN

Tells Electors There Is Great Difference Between Farmer of East and Those of West—Reviews Splendid Work of Government in Its Efforts for Returned Men—George B. Jones Ably Discusses Tariff Question.

GEORGE B. JONES Meighen Standard Bearer in Kings Queens

New York City Has Warmest Day of November

Thermometer Recorded 71 Yesterday, Following Few Days of Extreme Cold.

New York, Nov. 18.—Unusual Indian summer enveloped New York today with a record temperature of 71, the hottest Nov. 18 known to the local weather bureau. A "trough" of low barometric pressure, extending from the lake region to the Rio Grande, thus halving the United States into cold and warm portions, was said to be responsible for the meteorological freak. High pressure of the Atlantic coast also caused southerly winds. Weather bureau experts said while the "trough" remained intact the east would get warmer and the west cold or. Continued high temperature was the forecast for tomorrow.

Miramichi Now Full of Smelts

Unemployed to Ask Permit to Fish Ten Days Before Legal Opening Date.

Fredericton, N. B., Nov. 18.—As a means of relieving unemployment along the Miramichi, it has been suggested to Hon. C. C. Ballantyne, Minister of Fisheries, by J. S. Martin, M.L.A., that smelt fishing be permitted in the river ten days before the legal opening date, which is December 1. The Miramichi is now full of smelts.

Gagetown, Nov. 18.—There was not an auditorium in the village large enough to accommodate the electors of Queens who gathered here tonight to hear Sir George E. Foster and George B. Jones, government candidate in Royal, discuss the issues of the political campaign. The meeting was held in the Court House, and long before the hour for opening the programme the room was filled to overflowing. It was an audience that came to hear and be instructed, and all returned to their homes with something to think about. All speakers were given attentive hearing and were well received. Thomas W. Gilbert was chairman. The first speaker was David Hipwell. He was introduced by the chairman and said he, like the rest, had come there to hear Sir George Foster, and would not take up much of their time. He was very pleased to be at the meeting, and extended a welcome to the distinguished speaker from New Brunswick. He was also glad to be on the platform with that prominent labor, millman and farmer, George B. Jones. He thought the qualities of the Meighen Government well worthy of support. While not an active politician, he felt it his duty at this time to do his best to bring about the return to power of the Government which had during the war given the people such splendid administration.

The next speaker introduced was Mr. George B. Jones who on rising was greeted with cheers. He expressed his pleasure at being present at the meeting on the same platform with the distinguished New Brunswicker, Sir George E. Foster, and then proceeded to discuss the issues of the campaign. He first referred to his platform as laid down in his speech of acceptance when the nomination was tendered him at Sussex, the taking over of the Valley Railway by the Dominion Government, the reduction of freight and express rates on the old I. C. R. to pre-war levels, the nationalization of the ports of St. John and Halifax, a fair and equitable tariff, and a promise to support all legislation in the interests of the farmers of New Brunswick. He dealt with some of Mr. Crerar's mis-statements. First, he referred to Mr. Crerar's break with the Union Government which his followers would like to have the electors believe was on high moral grounds. The facts were Mr. Crerar left the Union Government because they refused to guarantee the price of wheat at \$3.77 per bushel. Had this policy been adopted, it would have meant the farmers of New Brunswick today would have been paying \$70.00 per ton for middling and \$20.00 per barrel for flour, instead of \$35.00 and \$11.00. The farmers of New Brunswick might wish as must justice ask the Dominion Government to bonus them for growing potatoes as the western grain growers had for putting up this proposition. Farmers Turn Against Crerar

He then referred to the net that all the farmers of the West, the grain growers, were not in sympathy with Mr. Crerar and his policies and referred to the resignation of Joshua Fletcher, President of the Grand Prairie District United Farmers of Alberta, as a protest against the course being pursued by the Wood-Crerar combination. Mr. Jones made a passing reference to the famous Export Company of Mr. Crerar's which, in one year, showed profits of \$50,000.00 on a cash investment of \$100,000.00, a nice little profit of only 50 per cent. And he also referred to the fact that the grain growers, of which Mr. Crerar is head,

Meighen's Record Clear One Referring to Mr. Meighen and his record, Mr. Jones said even his opponents had to admit that he was a man above reproach and well worthy of support, and referred to the statement of Dr. McAllister, the Liberal candidate in Royal who, on nomination day, said "He was personally acquainted with Mr. Meighen and he wanted those present to understand that G. B. Jones, the candidate of the National Liberal-Conservative Party, was following a real man in every sense of the word."

Mr. Jones quoted a number of figures showing that the duty levied under the Meighen administration was at least five per cent. less than that under the Laurier administration. He also used a number of figures showing the duties which would exist under the new Fordney tariff of the United States and the present Canadian tariff.

The chairman then introduced the speaker on the evening, Sir George E. Foster. Sir George expressed his pleasure, after a lapse of twenty-five years, of once more facing a Gagetown audience and, while judging from the faces of many before him, they would hardly remember him, he had many kindly remembrances of the village. The speaker said he intended to deal with the situation first with reference to the present situation generally in Canada. He then took up the respective forms of government municipal, provincial and dominion, showing the part that each played in the government of the country. The municipal government dealt particularly with local affairs; the provincial, the wider field of provincial politics, and the dominion Provincial Legislature for the Dominion as a whole. Under the present law every person over twenty-one and a British subject, had the right to vote and had put upon him or her the duty of making a study of Dominion affairs and voting for the representative who, in his or her opinion, would best serve the interests of the country as a whole.

The Duty of Voters.

At the present time the voters of the Dominion were called upon to elect 234 representatives who would form the next Parliament. This Parliament would be divided into three groups, the National Liberal-Conservative, the Liberals and the Farmers, and there might possibly be a small group of Labor; but, in the main, it would be the three groups. The question in the minds of the people today

(Continued on page 3)

COLONEL MURRAY MACLAREN Government Candidate For St. John Albert King has been clamoring for an election, but he did not now appear to be so satisfied with his platform as the people and not shown much appreciation of it. Reciprocity Paste It had also been stated by Hon. W. S. Fielding, in a recent speech in Nova Scotia, that Canada should have adopted the reciprocity agreement, but the people had strongly pronounced against it in 1911. Every time any kind of a reciprocity arrangement had been made with the United States, the American Government had put an end to it. It had placed such a duty on Canadian lime, when they decided that they had sufficient in the United States and would manufacture in that country, that it had "ruined" such industries along the Kennebecasis and numerous other places in Canada. The operation of the former Premiers had been encouraged and they increased the industry within that country. This was merely one example of the policy of the American government in protecting the industries of the United States. If the policy of moderate protection was good for the United States, why should not Canada put up a similar barrier against American goods which that country had placed against us? With the advent of the Wilson administration in the United States, duties had been lowered, and Canadians were permitted to send our goods into the country to the south of us without any duty in some cases. The Democrats had been overthrown, and the Republican policy which was brought into effect had shut out such Canadian articles. Surely, if a country with a population of 110,000,000 people considered that it would prosper better by protection, then Canada should take similar action. Tariff Comparisons. An example of the effect of the United States tariff which had been enforced by the administration of President Harding could be shown by a comparison of the exports into that country for three months ending in August, 1920, as compared with a similar period in 1921. During the months of June, July and August last year, 3,000,000 pounds of butter had been exported by Canada to the United States; and in the same period this year the export of that commodity amounted to 201,000 pounds only. A further example was that of preserved milk. The number of pounds exported to the United States during the three months mentioned of 1920 totalled 6,500,999 pounds, as compared with 1,300,000 pounds for June, July and August 1921. Was it possible that the same policy would be good for one country and detrimental to the other? Could it be reasonable for any one to considerable more time. Mackenzie

CAMPAIGN ISSUES CLEARLY DEFINED BY SIR GEORGE FOSTER AT GAGETOWN

Continued from Page 1.
was, which would be the strongest. In my opinion it is impossible for the Farmers, as a class, to get a clear majority of the 254, so that Mr. Crear will not be in a position to form a government after Dec. 6. Will Mr. King be able to get a working majority? Will Mr. Meighen be able to get a working majority in order to carry on successfully? The government of the day must have at least 139 seats. The Farmers cannot get these, neither do I believe can Mr. King. And it is quite possible that none of the groups will have a majority.

Differences Between Farmers.

Mr. Jones, whom I believe you will elect for the constituency of Royal, touched upon one point which I am going to talk about, the difference between the farmers of the East and the farmers of the West. The farmers should be represented in Parliament, but, as I said before, it is impossible that they will ever be able, under present conditions, to control the majority of Parliament as Farmers. No single group can do this. Up till the present time there have been two great parties in Canada, and during the war time we had the Union government and opposition. The old parties looked after and legislated for the farmers, fishermen, miners, lumbermen, manufacturers and all classes. Neither had any time for trying to legislate for one class, and this is the spirit which should still control the voters of this country. Now as to the difference between the farmers of the East and the West. In Nova Scotia, New Brunswick, Prince Edward Island, Quebec and Ontario, the farmers up to the Great Lakes are not specialists; they are what is known as mixed farmers. In these provinces are raised the coarser grains, pork, lamb, cattle, cream, milk, cheese, small fruits and vegetable products for home markets. These are practically all perishable products, and cannot be exported overseas. A little wheat is grown in these provinces, but not nearly enough to supply home demand. To market the surplus of these goods it is essential for you to have a market at your door. Who buys these goods? Not your brother farmer—he raises wheat for himself. They are bought by the people who do not farm, but who live on three square meals a day, men who earn wages and with these wages buy from you what you have to sell. They are men who work in factories, shipyards, foundries, stores, etc., an army of 700,000 wage earners who are responsible for feeding a population of 2,000,000 persons who are not on farms. This is your market.

West Specialists.

The farmers of the West do not farm this way. They specialize in grain, particularly wheat. For many years grain was the only crop they raised. They bought everything that was wanted on the table. It is true that today in Manitoba mixed farming, to a limited extent, is going into practice, but it is still true in the larger sense that the Western farmer is a one-crop man. They raise wheat and sell it in the rough to the Eastern miller or the overseas buyer. The West is the least part of the country which will have extensive manufacturing industries, and until the manufacturing industries are established the home market for the farmer is largely nonexistent.

The Farmers' party started in Saskatchewan and Alberta and was formed to advance the interests of their special production. In Alberta it is known as the United Farmers of Alberta and no man can belong to the organization who is not a farmer. In Saskatchewan it is known as the Saskatchewan Grain Growers' Association, and in Manitoba as the Manitoba Grain Growers' Association. No person can belong to either one who is not a grain grower, and from these three organizations their council has been formed. They came to the Eastern farmer and said: "We are farmers, you are farmers. Therefore, our interests are identical and you should do as we do." But this could not be done on an equality of interests, as the interests of the Eastern farmer are not the same as the Western farmer. The gospel of the Western farmer is free trade. He says: "We sell in the world's market and compete there with the world. We want to buy in the world's market and compete in the same way."

Protect Industries.

The past has income for every one of us, and we would do well to heed some lessons. Our manufacturers had

the wide vision, a vision of a united country growing up, a pipe and prospect on the northern part of this continent. Previous to Confederation we were a people living off our own resources, and then along, we wanted to be manufacturers. In 1878 Sir John A. Macdonald conceived the idea of building up Canadian industries. He went to the country on this platform of protection for Canadian industries and was given a mandate to put it into operation. In 1879 Sir Leonard Tilley made a law which embodied this principle of protection and it has remained the guiding star of our politicians and statesmen up to the present time. In 1881 the total industrial production was three hundred million. Last year under the principle of protection inaugurated by Sir John and carried out by all parties, the industrial production of Canada was three billion six hundred million, twelve times what it was in 1881, and the 700,000 employees at the plants with their wages form the basis of the home market for the farmers of Canada.

Duties Reduced.

With regard to the duty on agricultural implements, it was under Sir Wilfrid Laurier 30.18 per cent. Today it is 15 per cent, on dutiable imports, and making into consideration the agricultural implements which come in free, lumping both together, dutiable and free, the duty is 7 per cent. Can any farmer say that 7 per cent is too much for him to contribute to the revenue of the country when the rest of the people are paying 22 per cent. When the farmer stops to think I am sure that he will say it is not, and I know that no farmer wants to be let scot free at the expense of the rest of the people.

Government War Record.

Sir George also dealt with the war record of the Meighen Government. The Government had been given a mandate to give people to go ahead with the war, and whatever money was necessary to carry on to a successful conclusion. Today Mr. Crear and Mr. King were going about the country holding up their hands in horror at the amount of the debt, about two billion dollars. While this expenditure was being made it was approved by all parties. Every year vote that was passed up till 1917 had the approval of Sir Wilfrid Laurier and his party. It was only when the call came for more than money, for men, that the break occurred. The best of the Liberal party stood up to conscription, and the Government knew it was not popular. It lost them the support of Quebec and considerable support in the Province of Ontario where Barnard's case was taken. Had the Government been looking for votes rather than the interests of the country and the Empire, they would not have had the conscription bill on the statute books.

War's After Effects.

They say Union Government was a war government. The armistice was signed in 1918. This is all true, but the war was not over with the signing of the armistice. The after effects have to be considered. Canada had 258,000 men overseas when the armistice was signed. These men had to be brought home. Transportation was hard to get, yet Canada brought home her 258,000 men, and mobilized them in shorter time and with less trouble than any other nation in the war. In addition to the soldiers there were 48,000 dependents overseas. The country was under no obligation to bring these over, but it felt that the full duty to the soldier would not be done unless they were brought home, and they were accordingly returned to this country with their husbands at the expense of the country. 66,000 were in hospitals overseas and these, too, have all been brought back and cared for in hospitals in this country. The soldiers who were being trained in 450 different occupations. The larger number of these graduated and are now in whole or in part engaged in the various vocations given them by the Government. Some are still in hospitals and will have to be cared for as long as they live. This cost the country one hundred and two million. And all of every country has sent commissioners to Canada to inspect our system of caring for soldiers and in every case these commissioners have reported that we have the most up-to-date and best system in the world.

BRITAIN ORDERS CESSATION OF WORK ON SHIPS

Halt Construction of War Ships Pending Decision of Limitation of Armaments Conference.

London, Nov. 18.—(Canadian Press Cable)—The Admiralty announced today that it had ordered the cessation of all work on the four battleships of the Super-Hood type. The shipbuilding firms were notified yesterday not to incur any further liabilities on new naval construction until further notice from the Admiralty. These contracts were awarded only two weeks ago. Officials explained that the practical effect of the admiralty's order would be the absolute cessation of all warship work pending the outcome of the Washington conference. Three of the ships were to have been built on the Clyde and the fourth at Newcastle-on-Tyne. The Admiralty order halts work on these plants with their wages form the basis of the home market for the farmers of Canada.

Negro Shot To Death And Body Burned In Park

Helena, Ark., Nov. 18.—Will Turner, a negro, charged with assault upon a young white woman today, while being removed to Marianna for safe-keeping. After being shot to death his body was brought back here and burned in the city park.

Headaches from Slight Colds.

Laxative BROMO QUININE Tablets soon relieve headaches caused from Colds. A tonic, laxative and germ destroyer. The genuine bears the signature of E. W. Grove. (Be sure you get BROMO) 30c. Made in Canada.

During this time some of our friends were clamoring for a general election. We thought it best to take care of these people, the soldiers and their dependents, than to enter into the turmoil of a political conflict. In the matter of gratuity the Government has been generous and the sum of one hundred and sixty-four million has been spent in this way. The Government inaugurated a system of employment bureaus and these have been responsible for the placing of 700,000 men at work. Then the pensions. The scale adopted for the million million of protesting being obtained by soldiers at cost without medical examination and the greater part of this could not have been obtained only for the action of the Government. Twenty-seven thousand returned soldiers have been settled on five million acres of land and eighty-five million dollars has been advanced for this. The greater part of this sum will eventually be returned to the Government. Are we to be condemned for these things?

Responsibility For All

In discussing Sir George said the man or woman entrusted with the vote has a responsibility which should not be shirked. They should study and become informed on the various policies of the country, and go to the polls on December 6th and cast their ballots for that party. He said that after they had given the matter consideration and studied the record of the Meighen administration and the patchwork policy of Mr. Crear and Mr. King both of whom are preaching different doctrines in different sections of the country, the voters of the constituency of Royal would be polling day cast their ballots for Mr. George B. Jones.

PLAIN TALK EXPECTED SOON AT CONFERENCE

Japan's Request for An Increase in Her Navy Will Start Something.

Washington, Nov. 18.—Japan's request for an increase in the proportional strength of her navy may lead to a speedy decision on the part of the United States delegation standing ready to dispute stubbornly any material change from the ratio set forth in the Huges plan. The ratio, it was emphasized by the highest authorities today, reflects existing proportional strength and so cannot be altered without upsetting a fundamental principle of the whole plan. The United States figures would give Japan six fighting ships to every ten owned by the United States and every ten owned by Great Britain, and the nine delegations, but never formally announced, that they want seven to ten. The naval experts of the United States really believe that five to ten is nearer the proper allotment. Great Britain has accepted the six to ten plan in principle but her spokesmen have been silent about the new Japanese proposals.

Struggle Expected

If it comes out that the "slightly greater" naval force suggested for Japan by Admiral Baron Kato only amounts to the addition of one battleship to the Japanese fleet, then the emphatic objections of the United States delegates may not be deemed necessary. But if the suggestion comprehends a real change in proportion, it is declared on authority that a determined diplomatic struggle will result. The clear delineation of the United States position on this subject served to turn attention again to naval armaments today, while the Far Eastern negotiations were at a standstill to permit the powers to work out details of their policy. Neither the conference, nor any of its committees met during the day, but the nine delegations will assemble tomorrow in executive session to resume their discussions of the Far East.

Concurrent with the disclosure of the United States viewpoint on naval reductions, it was revealed today that the administration does not propose to limit the armaments agreement.

There is one, to the nations represented in the Washington conference. Whether a treaty, or simply an "understanding" would come out of the negotiations, administration officials would not predict, but it was said that whatever the form of agreement, the other interested nations would be asked to participate.

Landru Failed To Produce The Dramatic Effect

Fulfilled Promise to Give Address of Alleged Victim, But It Was Five Years Old.

Versailles, Nov. 18.—Henri Landru, on trial for murder in the Austres Court here, today fulfilled his promise of yesterday to give the address of one of his alleged victims, but the dramatic effect was somewhat lessened when the address proved to be five years old. The prisoner told the court that Mme. Heon, whom he is charged with having murdered on October 6, 1915, lived six months following that date at the small hotel De Maas, in Paris. He declared the police had never been there to seek any trace of the missing woman.

Responsibility For All

In discussing Sir George said the man or woman entrusted with the vote has a responsibility which should not be shirked. They should study and become informed on the various policies of the country, and go to the polls on December 6th and cast their ballots for that party. He said that after they had given the matter consideration and studied the record of the Meighen administration and the patchwork policy of Mr. Crear and Mr. King both of whom are preaching different doctrines in different sections of the country, the voters of the constituency of Royal would be polling day cast their ballots for Mr. George B. Jones.

HUNT'S ANNUAL FALL AND WINTER SALE

IS NOW IN FULL SWING.
ANOTHER BIG DAY TODAY.

BARGAIN LIST.

Men's Winter Overcoats	\$15.50 to \$45.00
Boys' Winter Overcoats	4.25 to 20.00

CASUALTIES

FOLLOW SEVERE BOMBAY RIOTS

London, Nov. 18.—Four policemen killed and thirty seriously injured constituted the casualties in yesterday's rioting in Bombay, according to an official communication issued by the India Office today, which adds that the situation was well in hand this morning, in spite of disorders in the centre and south of the city. Although statistics are lacking, the casualties among the rioters are believed to be as great as those suffered by the police force. The communication says that the rioters were chiefly Mohammedans. Most of the mills were idle today and large crowds were moving about, but their demeanor was less hostile.

Anxiety in Calcutta.

Another communication, issued by the India Office this evening, reports much anxiety in Calcutta over the activities of the "non-co-operationists," who are bringing pressure on the Muslim members of the police force, by intimidation and molestation, to resign. Muslims make up nearly one-quarter of the police force.

Westerners Face Problems Caused by Severe Droughts

(Canadian Press Staff Correspondent) Moose Jaw, Nov. 18.—Discussing the problem which faced a large number of Westerners due to drought, Premier Meighen, speaking here this afternoon, said that the time had come when the proper authorities must address themselves to solving this problem. The Federal Government should meet the provincial authorities and through the whole matter out in an effort to arrive at a solution, the Premier said. He suggested that the problem might be solved by furnishing the settlers in the dried-out areas with secondary homesteads, but the fact that municipalities had been established, and that money had been expended in the dried-out areas, made the problem more difficult. It must be solved, however, and his part he was prepared to address to his best energies to its solution.

Railway Question.

The railway question had also been mentioned by Hon. W. S. Fielding, who, while Minister of Finance, estimated that the building of the Transcontinental Railway would cost the country about \$13,000,000. The railway policy of the Laurier government had, however, actually cost Canada not less than \$550,000,000.

Before the Laurier administration went out of power in 1911 it had subsidized heavily the building of the Canadian Northern Railway, and by it was intimated today that the government had been generous in its treatment to McKenna & Mann. The Meighen government had been confronted with the problem of either taking over certain railways or allowing them to go into bankruptcy.

Several of the large quantities of bonds to pay all defaulted interest on the bonds and there would have been very little of getting the money back. The Liberal newspapers had said that a large quantity of grain was conveyed over the Grand Trunk railway to Portland; but the one, The Government had never had any voice in the matter. With the acquisition of that system the government will for the first time be able to say what shall go on that line to Portland. "That is one of the reasons," declared Hon. Dr. Baxter, "why I want the Conservative Government returned to power. It is the biggest opportunity which has ever been presented to the Maritime Provinces of straggling the competition which has taken trade away from us. Canada must stand strong and resolute, ready to fight for our commercial life and prosperity within our borders. Such is the policy which the Meighen Government stands for."

Col. MacLaren Discusses Tariff

Dr. Murray MacLaren stated that the first question he desired to discuss was that of the tariff. There had been considerable discussion and difference of opinion as to whether the tariff was the chief issue in the present campaign. He submitted it was the chief issue of the day and there were three reasons for such a decision. The first was that the Progressive Party, which was sometimes also referred to as the Farmers or the Progressives, had made it a leading plank in their platform. This party represented merely the grain-growers of the west, and had nothing in sympathy with the mixed farmers of the east. It was a class party with no other views, which embraced other than its own.

ROUSING RECEIPT HON. DR. BAXTER MacL.

(Continued from page 1)
believe that we should throw our tariff walls to a country that raising her? Hon. Dr. Baxter declared that he felt certain that people did not think so.

Moderate Protection.

The Liberals had issued a circular declaring that Mackenzie King would oppose to high protection. The was not one member of the government that was in favor of high protection. The Meighen government had absolutely placed itself on record in support of a moderate protective tariff, afford employment to the workingmen, but not permit of a profit other than that which was fairly reasonable.

It had been stated also that Mackenzie King was in favor of placing the duty on boots coming into the country at twenty cents per pair instead of fifty cents; and one of the circulars issued by the Liberals had stated that this would save fifty cents on every pair of boots for the householder. This would, it was thought, greatly increase the buying by the consumer, because he would get so much more for his money as it would increase the revenue of the government. That was a most ridiculous proposition. It simply meant that the boots and shoes would be made in a policy, be manufactured in the United States and not in Canada. Every pair of boots or shoes manufactured in the United States means one less pair made in Canada. This would be very injurious to the boot and shoe industry in this country and would result in considerable unemployment. What then would be the use of possibly slightly cheaper boots or shoes if the workingmen in Canada were thrown out of employment and did not have the money with which to purchase such goods? This was only one example of the disastrous effect which such a policy would have on Canada.

The railway question had also been mentioned by Hon. W. S. Fielding, who, while Minister of Finance, estimated that the building of the Transcontinental Railway would cost the country about \$13,000,000. The railway policy of the Laurier government had, however, actually cost Canada not less than \$550,000,000.

Before the Laurier administration went out of power in 1911 it had subsidized heavily the building of the Canadian Northern Railway, and by it was intimated today that the government had been generous in its treatment to McKenna & Mann. The Meighen government had been confronted with the problem of either taking over certain railways or allowing them to go into bankruptcy.

A SURE RELIEF FOR WOMEN'S DISORDERS
10 Days' Treatment Free

Orange Lilly is a certain relief for disorders of women. It is applied locally, and is absorbed into the suffering tissue. The dead waste matter in the congested region is expelled, giving immediate mental and physical relief; the blood vessels and nerves are toned and strengthened; and the circulation is rendered normal. As this treatment is based on strictly scientific principles, and acts on the actual location of the trouble, it cannot help but do good in all forms of female trouble, including delayed and painful menstruation, leucorrhoea, falling of the womb, etc. 75c. per box, which is sufficient for one month's treatment. A Free Trial Treatment, enough for 10 days, worth 75c., will be sent Free to any suffering woman who will send me her address.

Send three stamps and address Mrs. Lydia W. Ladd, Whitman, Ont.

ROUSING RECEPTION GIVEN HON. DR. BAXTER AND COL. MacLAREN AT FAIRVILLE

(Continued from page 1)
believe that we should throw down our tariff walls to a country that was raising her's? Hon. Dr. Baxter declared that he felt certain that the people did not think so.

Moderate Protection.

The Liberals had issued a circular declaring that Mackenzie King was opposed to high protection. There was not one member of the government that was in favor of high protection. The Meighen government had absolutely placed itself on record in support of a moderate protective tariff only, which would protect our industries, afford employment to the workmen, but not permit of any profit other than that which was entirely reasonable.

It had been stated also that Mackenzie King was in favor of placing the duty on boots coming into the country at twenty cents per pair instead of fifty cents; and one of the circulars issued by the Liberals had stated that this would save thirty cents on every pair of boots for the householder. This would, it was further set out, greatly increase the buying by the consumer, because he would get so much more for his money and it would increase the revenue of the government. That was a most ridiculous proposition. It simply meant that the boots and shoes would, under such a policy, be manufactured in the United States and not in Canada. Every pair of boots or shoes manufactured in the United States meant one less pair made in Canada. This would be very injurious to the boot and shoe industry in this country, and would result in considerable unemployment. What then would be the use of possibly slightly cheaper boots or shoes if the workmen of Canada were thrown out of employment and did not have the money with which to purchase such articles? This was only one example of the disastrous effect which such a policy would have on Canada.

Railway Question.

The railway question had also been mentioned by Hon. Dr. Baxter, who, while Minister of Finance, had estimated that the building of the Transcontinental Railway would cost the country about \$15,000,000. The railway policy of the Laurier government had, however, actually cost Canada not less than \$550,000,000.

Before the Laurier administration went out of power in 1911 it had subsidized heavily the building of the Canadian Northern Railway; and yet it was intimated today that the government had been generous in its treatment to Meighen & Mann. The Meighen government had been confronted with the problem of either taking over certain railways or allowing them to go into bankruptcy. In such an event the country would have to pay all defaulted interest on the bonds and there would have been no way of getting the money back.

Several of the Liberal newspapers had said that a large quantity of grain was conveyed over the Grand Trunk railway to Portland; but that it had been a privately owned system. The Government had not yet obtained actual possession, and had never had any voice in the matter. With the acquisition of that system the government will for the first time be able to say what shall go over that line to Portland.

"That is one of the reasons," declared Hon. Dr. Baxter, "why I place the Conservative Government returned to power. It is the biggest opportunity which has ever been presented to the Maritime Provinces of strangling the competition which has taken trade away from us. Canada must stand strong and resolute, ready to fight for our commercial life and prosperity within our borders. Such is the policy which the Meighen Government stands for."

Col. MacLaren Discusses Tariff

Dr. Murray MacLaren stated that the first question he desired to discuss was that of the tariff. There had been considerable discussion and difference of opinion as to whether the tariff was the chief issue in the present campaign. He submitted it was the chief issue of the day and there were three reasons for such a decision. The first was that the Progressive Party, which was sometimes also referred to as the Farmers or the Conservatives, had made it a leading plank in their platform. This party represented merely the grain-growers of the west, and had nothing in sympathy with the mixed farmers of the east. It was a class party with no other views, which embraced other than its own.

The policy of that party called for free trade.

In regard to the Liberal party's attitude on that question, it had held a convention in August, 1919, and had adopted a policy which virtually called for free trade. At any rate, whether designedly or not, it left to the future the very strong possibility of co-operation between the Farmers and the Liberals.

King Unfortunate.

The unfortunate leader of the Liberal party, Mackenzie King, was between the Farmers on one side and the Quebec Liberals on the other. Mr. King appeared to be ready to pour forth a volume of words on every subject other than that of the tariff, but not even his worst enemy could accuse him of verbosity in regard to the chief issue. He prepared to discuss such matters as the number of shells which had been landed at Lewis. The Liberal leader, however, apparently did not disapprove of the Liberal platform adopted in August, 1919, when he was called upon to state definitely whether or not he stood by that platform, he had declared that he regarded it merely as a charade and would surround himself with the best men in the country and construct something out of it, in the event of the election of his party. It was evident that Mr. King had not very much confidence in the men who had gathered at the Liberal convention in 1919, and it was certainly not very flattering to them. Mr. King possibly purposed to get some supermen, and it was very problematical if he would not look for them in the ranks of the Farmers' party.

Encourage Industries.

Dr. MacLaren stated that a moderate protection meant that there should be a Canadian tariff which would tend to encourage the formation of new industries and protect the existing ones. It was a policy that would be graded according to conditions so that our industries will be encouraged, and that preference, not of an undue nature, be given to Canadian industries, so that this country will increase and prosper and Canada would have a splendid home market.

GOULD THE TOOL OF MONTREAL CORPORATIONS

(Continued from page 1)
Sir Lomer will be backed up by his former private treasurer, the Hon. Walter Mitchell, who is a protégé of the ex-Premier. In fact, some go so far as to openly proclaim that Sir Lomer Gould will be the next Premier of Canada, and that Hon. Walter Mitchell will be his Minister of Finance. All practically agree that if the Liberals are returned to power, even with Mackenzie King as their head, he will be head only in name and that the real power behind the throne will centre in this little group of Quebec Liberals.

Monopolists Against Meighen

The Sun's charges are given the widest credence among political observers here. Mr. Meighen, to begin with, has never been popular with extreme big business. He is from the West and he is regarded as somewhat of a radical in his views, and last and not least, he is the man who, in the teeth of opposition from Montreal Corporation, fathered the Nationalization of Railways. When, under the direction of the present Prime Minister, the Borden Government took over the Canadian Northern, one of the leading financial mandarins of Montreal characterized Mr. Meighen as a "dangerous Socialist."

With Mr. Meighen the Prime Minister these big interests, as distinguished from the same business men of Canada, are more afraid than ever. For some weeks past they have been displaying unusual antagonism, and it is, therefore, reasonable opinion of the shrewdest politicians here that they have put Sir Lomer Gould into the field to encompass Meighen's defeat.

Gould, as the Sun points out, is closely supported by Lomieux, also known for his connection with big corporations, and for his hostility to public ownership, and the plot is believed to get control of the National Railways and turn them over to the C.P.R. under the Shaughnessy scheme. Lomieux, indeed, makes but little attempt to conceal this design. Again and again in recent weeks he has stated that he stands for the Shaughnessy plan. Gould

fresh Canadian fish into that country free of duty had been seriously felt in the Maritime Provinces by those engaged in that industry. That was an example of the uncertainty of foreign markets, and should bring home to us the essentiality of promoting our home market.

In comparing the effect of the action in regard to the tariff of the Republican government, Dr. MacLaren showed how our exports had greatly decreased during three months of this year as compared with a similar period of 1920. It was a lesson that we should encourage our own industries, so that we will have a population of numerous and prosperous people.

Why should free trade, or any policy that tended toward free trade, be adopted in this country when all other countries were raising their tariff? The United States had deemed it advisable to protect the industries and farming population of that country by such action; and Great Britain was now carrying out a policy of protection.

In regard to the railway question, Dr. MacLaren declared that he strongly supported the attitude of Hon. Dr. Baxter of shipping Canadian goods over Canadian railways and through Canadian ports. He also severely criticized the Laurier administration for the railway policy which it had carried out and had thrown such a financial burden on Canada.

In concluding, Dr. MacLaren declared: "Hon. Dr. Baxter is fully informed regarding all the requirements of this province and our ports and we can safely leave in his hands the working out of a policy that will be of immense value to the Maritime Provinces; and as far as I am concerned I will give him my support to the fullest extent."

Frank L. Potts dealt with the many policies of the Conservative party which had been carried into effect for the betterment of Canada. He severely scored the disastrous railway policy of the Laurier government, which had resulted in such a heavy financial burden being placed on the shoulders of the people. The policy of the present government was clear and frank; while on the other hand, Mackenzie King manifested a decided desire to dodge discussion of the Wood-Creer group of free traders would hurt the country if put into effect. Mr. Potts strongly voiced his support of Hon. Dr. Baxter and Dr. MacLaren.

THIRTEEN MEXICAN Revolutionists Killed in Battle

Mexicali, Lower Calif., Nov. 18.—Thirteen Mexican revolutionists were killed today in a battle and four more severely wounded in a summary court martial near Almagones, 20 miles west of Mexicali, capital of the northern district of Lower California. It was announced tonight by General Abelardo Rodriguez, commander of Federal troops here.

Blood Poisoning From Perpetual Use of Hair Dye

Montreal, Nov. 18.—A woman named Mrs. Elizabeth Lawrence, 48 years old, who lived at 138 St. Catherine street, died last night in the General Hospital, supposedly from blood poisoning incurred by the perpetual use of hair dye. The coroner has ordered an autopsy to be performed prior to the inquest.

Chairman.

HON. ANDRE FAUTEUX
Solicitor General

more cunning and more crafty, is less definite, but it is regarded as significant that, speaking in Montreal last night, he denounced Government ownership and went so far as to advocate further financial assistance to the Grand Trunk.

CNR Surplus.

The Canadian National Railway, as the statements of the past three months indicate, are beginning to show surpluses. This, say observers here, had convinced a certain group of big interests of Montreal that the time to strike against public ownership is now, as a year or two of successful operation might so trench the policy in public confidence as to make its overthrow impossible. Hence, the appearance of Sir Lomer Gould.

Thirteen Mexican Revolutionists Killed in Battle

Mexicali, Lower Calif., Nov. 18.—Thirteen Mexican revolutionists were killed today in a battle and four more severely wounded in a summary court martial near Almagones, 20 miles west of Mexicali, capital of the northern district of Lower California. Heavy Shipments of Grain Over Canadian Rails

Winnipeg, Nov. 18.—Western grain shipments over the Canadian Pacific and Canadian National Railways this season approximated 130,000,000 bushels, according to traffic officials here.

Based on government figures, this is presumably half the Prairie crop. The C. P. R. transported 75,000,000 bushels and the Canadian National Railway 55,000,000.

Light Fingered Jack Rather Nifty Gent

Montreal, Nov. 18.—Jack Griffin, who was arrested several days ago in possession of \$30,000 worth of stolen securities belonging to C. E. Gault, broker, was this morning found guilty of stealing \$125 worth of clothing from the Eaton warehouse, St. Catherine street, by Judge Babin.

Sentence for this offence will be pronounced on Tuesday next.

GUNNER COULTER MADE COMPLAINTS Veteran Soldier Addressed Small Crowd on King Sq. Yesterday Afternoon.

A small crowd was attracted to the drinking fountain at the head of King street yesterday afternoon to listen to the complaints of Gunner W. H. Coulter, a veteran of the C. E. F., the British Army, and Navy, and the Australian Forces.

Coulter's complaint is that he was made to undergo Field Punishment No. One strapped to a gun carriage of the 1st Battery of the Canadian Army while the 1st Battery was in action at Plug Street.

In an endeavor to bring his case before the notice of the public, he hitched across Canada from Vancouver to Halifax, and is now on his way to Ottawa to place his case before the House of Commons. Yesterday he was dressed in a Sleson hat, dark coat, and blue overalls. Under his coat he wore a sweater coat on which were pinned a number of medals, testifying to the campaigns he had served in. A number of them were medals with bars.

GROWING DEAF WITH HEAD NOISES? TRY THIS

If you are growing hard of hearing and fear Catarrhal Deafness or if you have roaring, rumbling, hissing noises in your ears go to your druggist and get 1 ounce of Parmitin (double strength), and add to it ¼ pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing becomes easy and the mucus stopping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Catarrhal Deafness or who has head noises should give this prescription a trial.

MONKEY ON FIRST DRINK IS WHOLE SHOW ON LINER

Pulls Feathers Out of Cursing Parrot, Makes Coaster of Seals, Demoralizes Young Brother and Lands Here in Chains and Disgrace.

New York, Nov. 16.—Mephisto, a trained monkey, ten years old and also a large part of an animal show, arrived in the United States yesterday on the steamship Uta of the United Fruit Line in chains and in disgrace because of his remarkable appetite for Cuban wine which has more kick than all the bootleg hooch in the country. Mephisto, who was related with sorrow by Capt. Charles Bell in whose charge the animal show travelled, got drunk and behaved in a scandalous manner.

One of Mephisto's stunts in the show is to drink out of a bottle, and until three days out of New York he had never drunk anything but water and sugar. But a sailor whose curiosity got the better of him gave the monkey a bottle of the wine and the monkey drank it. He immediately broke a chain with which he had been bound to a stanchion on deck, and after that he beckoned Toto, a very young monkey, to his side and whiskered in Toto's ear. Toto at once picked up the bottle and threw it at the parrot and the parrot began to curse.

ROME'S STREETS PATROLLED BY ARMORED CARS

30,000 Troops Concentrated There to Handle Strike Disorders.

Rome, Nov. 16.—Though the news that the strike had been officially called off had the effect of calming the excitement last night, work has not been resumed. The Fascists are greatly angered at the edict that they must leave the city and the threat that if they do not they will be arrested and escorted to their respective homes by the police. Incidents have occurred all over the town. The Fascist found a Socialist, seized him and were taking him to their headquarters when the police intervened. The Fascist shouted insults at the police, charging them with being paid by the Socialists, which brought on a battle between the Fascist and the police. Finally a cavalry charge cleared the streets, in which lay several dead and wounded.

A HOPELESS CASE

Had had lost a £5 note. Into the police station he walked and told the sergeant his sad story. The officer was sympathetic. "I suppose you wrote down the number of the note?" he said. "Oh that, sorr!" cried Pat proudly. "And what is the number, then?" "An' I can't find that just what I don't know myself!" "But you said you wrote it down," snapped the detective. "That's the worst of it, sorr. I wrote it on the back of the note."

How to Make Pine Cough Syrup at Home

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose. Pine cough syrup is a combination of pine and sugar syrup. The "syrup" part is usually plain sugar syrup. To make the best pine cough remedy that money can buy, put 2½ ounces of Pine in a 16oz. bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make 16 ounces—more than you can buy ready-made for \$2.50. It is pure, good and very pleasant—children take it eagerly. You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—irritated membranes—and the Pine and Syrup combination will stop too, for bronchial asthma, hoarseness, or any ordinary throat ailment. Pine is a high concentrated essence of genuine Norway pine extract, and is famous the world over for its cough relief and relief.

SOVIETS MORE ACTIVE THAN MOSCOW GOVT

One of Their Latest Performances Was to Start New Brand of Finance.

Tiflis, Soviet Republic of Georgia, Nov. 16.—(By a Staff Correspondent of The Associated Press).—The Soviet government here is much more active than that of Moscow. It is a case of the new broom that sweeps clean. It has been supposed that, since the destruction of the democratic Georgian Republic by the Eleventh Red Army, last February, the government here was of the kind known as "free zone" or "free zone" Germany, that is, a sort of harmless substitute for the real thing.

Head Blown Off By Gun in Hands of Companion

Mount Unlocks, N. S. Nov. 16.—Victor Lloyd Linnock, sixteen-year-old son of George Dimock, of this place, had his head blown off by a gun in the hands of a companion while on a rabbit hunt.

Mount Unlocks, N. S. Nov. 16.—Victor Lloyd Linnock, sixteen-year-old son of George Dimock, of this place, had his head blown off by a gun in the hands of a companion while on a rabbit hunt. Dr. Reed, the coroner, held an inquiry and a verdict of accidental death was returned.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly the corn stops hurting, then shortly you lift it right off with fingers. Truly your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Beavers Scorn Man-Made Home And Tear It Down

Animals in Bronx Also Adjust Dam Level to Meet Their Own Notions.

New York, Nov. 17.—There's a sequel to the story of the beavers that suddenly left their private pond in the Bronx Zoo and journeyed up the little Bronx River in search of a new home. They were all captured or came back of their own accord, eventually, and took up quarters again under their old roof of sticks and mud on the island in the middle of the pond.

Sydney Mills To Receive Further Orders For Rails

That, Early Orders For 25,000 Additional Tons of Steel Rails Will Be Placed at Sydney Have Been Secured From Railway Officials at Ottawa, According to a Telegram from a Civil Delegation Now in the Capital Seeking Business for the Steel Corporation Mills Here.

Sydney, N. S., Nov. 17.—Promises that, early orders for 25,000 additional tons of steel rails will be placed at Sydney have been secured from railway officials at Ottawa, according to a telegram from a civil delegation now in the capital seeking business for the steel corporation mills here. Headed by Senator John S. McLennan, the delegation interviewed Hon. John Stewart, Minister of Railways, D. H. Hanna, Sir Joseph Flavelle and others, who indicated that an additional order for 20,000 tons would be placed soon to be followed, in all probability, by another for 15,000 tons. The Dominion mills started up on Monday on a 20,000 Canadian National Railway order secured some weeks ago.

Skin Disease—What Causes It?

After years of amputation or even torture from some skin disease, without any relief, you may well ask, "What is the cause of skin disease?" It is the skin itself. The skin is the largest organ of the body. It is the first line of defense against the outside world. It is the only organ that is in direct contact with the outside world. It is the only organ that is constantly being renewed. It is the only organ that is constantly being attacked by bacteria and viruses. It is the only organ that is constantly being exposed to the elements. It is the only organ that is constantly being exposed to the sun. It is the only organ that is constantly being exposed to the cold. It is the only organ that is constantly being exposed to the heat. WHAT IS THE PROGRESS AND ADVANCEMENT TO THE WOMEN?

Perhaps you are one of the many Canadian women who have always been vitally interested in the franchise and vote. Or perhaps you are one of those who frankly have not thought or cared about it. Whichever you may be, the time is here now when all of us, young and old, rich and poor, country women and city women, home makers and wage-earners, must decide how we are going to shoulder our own responsibilities—whether we are going to vote, or whether we are going to shirk.

City and Farm

Dependent upon the Home Market Protection Vital to Both

THE HOME MARKET is in the cities and towns where the workers earn money with which to buy and where The Farmer sends his produce to be sold.

Both City and Farm are dependent upon THE HOME MARKET—the City worker for the purchase of Life's necessities, the Farmer for the sale of his produce.

It is evident then that the Farmer's primary interest is in plenty of employment at good wages for those in the towns and cities, which enables his customers to buy what he offers for sale. In fact, the Canadian Farmer is at present relying upon his HOME MARKET for the sale of about 80 per cent of all he produces, at least in Eastern Canada.

THEN if the Farmer with the money he receives from the sale of his produce buys the manufactured products of the towns and cities of Canada he is helping to keep in employment his customers who in turn will use the money they earn to purchase from him.—And so the circle continues.

The Free Trade fallacies of CRERAR and KING would quickly flood this country with boots, shoes, clothes, furniture and other necessities of life made in the United States and other Countries. Our factories would have to close, thousands upon thousands of Canadian men and women in the cities and towns being thrown out of employment.

The Farmer's customers would be driven to the United States for employment, and The Farmer would lose his great HOME MARKET.

The Canadian farmer cannot hope to make up for this loss by selling his goods in the United States, for the farmers of that country have already objected to competition from this side of the line. In fact the Fordney Bill practically shuts out Canadian farm products from the American market—and the Fordney Bill is the outcome of the United States farmers' demand for protection.

The only possible advantage to the Farmer under Free Trade would be the free entry of the foreign-made agricultural implements. This is not an important item, as the duty paid on agricultural implements imported into Canada in 1919 represented ONLY ABOUT 89 CENTS PER HUNDRED ACRES FARM.

NOW— is the HOME MARKET not of vital importance to city and farm alike

Meighen's Reasonable Protective Tariff assures the maintenance of THAT MARKET

Canada Needs Meighen

The National Liberal and Conservative Party Publicity Committee.

SLOAN'S EASES PAIN RELIEVES THE ACHE

TORMENTING, agonizing rheumatic aches are quickly relieved by Sloan's Liniment. Apply it freely and enjoy a comforting sense of warmth. It penetrates without rubbing. Good also for sciatica, lumbago, neuralgia, over-exerted muscles, stiff joints, external aches and pains, back-aches, strains and sprains.

Don't let pain lay you up. Keep Sloan's Liniment handy and you are the first sign of an ache or pain, use it, for it certainly does produce results. At all druggists—5c, 70c, \$1.40.

Sloan's Liniment

Tokio, Nov. 16.—The Yomiuri Shinbun says that a cabinet council on Saturday decided on the withdrawal of the Japanese troops in Siberia as soon as the agreement arrived at the conference at Barfen has been signed. A division of troops which was about to start for Vladivostok to reinforce those in Siberia will not proceed, their orders having been cancelled. It is expected that the Barfen conference will be reopened on Monday.

Many Women Need Better Blood

They Lack Vitality and Color. It is a fact proved by thousands of grateful letters that Hood's Sarsaparilla is remarkably beneficial to women, whose most common ailments drain and weaken the system and sometimes result in anemia, nervousness, general break-down. Women overworked by family duties or overtaken socially, find their nerves all unstrung, face pale, appetite poor, sleep unrefreshing. Hood's Sarsaparilla gives the blood more vitality and better color, makes stronger nerves, and contributes to the enjoyment of life. It embodies a long-tried and found true formula for relief of the pale, weak, nervous and dyspeptic.

SAVE YOUR EYES

If your vision is impaired—if your eyes won't stand the strain of hard, constant work—you owe it to yourself to make up the deficiency by wearing glasses. We grind our own lenses insuring you prompt accurate service. D. BOYANER, Optometrist, 111 Charlotte St., St. John.

Canada Needed Its Women

Canadian women's share in war work was, in its way, an awakening to our possibilities. Canada needed us and we responded eagerly. After we had once tasted the joy of being a necessity to the country we love we could never again be satisfied with purely personal affairs. Women's chief interest always will be the home, but our outlook had broadened and we could never again be indifferent to the national welfare.

There are advantages that are general, and there are vital, immediate, advantages that apply to the coming election, and that will make every woman grateful that she can cast her vote to prevent national disaster.

1. It gives women full citizenship in Canada, and gives them the same political status that men enjoy.

2. Representing over half of the population, it makes women the deciding influence in so many of the political and party candidates or parties out of office.

3. It puts women on the same level of national importance and usefulness as men.

4. It is a recognition of the value of women's opinion.

5. It makes it possible for women and men to co-operate on an equal basis, in all matters of national importance.

6. It gives women a fair share in running Canada.

7. It broadens women's point of view; because women are naturally conscientious, and, using the vote, they will first understand all the issues at stake.

8. It removes the former conditions where an intelligent Canadian woman had less political power than an ignorant, foreign-born man.

9. It gives an opportunity to force a revision of antiquated laws respecting women's legal rights.

10. Women have always taken vital interest in laws relating to the home; to the school; to women; to children; to education; to public health; to child welfare; to the hours of work and minimum wage for women and girls; to conditions of contract for women in factories; to various forms of social service work. Frequently they have endeavored to secure improved legislation on these matters. But petitions of those who "lack vote and influence" are not as effective as voters' petitions. Such petitions presented by women now, will get more consideration than formerly.—That is simply human nature applied to politics.

So much for the advantage and value of the vote in a general way. It is an even more vital advantage at the present crisis, and as briefly as possible let us consider the reasons.

1. The coming general election the issue is the tariff. Canada has a protective tariff. That is to say, Canada imposes duty on imported goods. This serves two purposes.

2. It provides a substantial revenue for national expenses—a revenue that would have to be replaced by increased taxes were the tariff removed. 3. It protects our industries. Without protection these industries which are absolutely vital to the country's welfare, could not possibly compete with the industries of the United States. Were the tariff removed, American goods would swamp the Canadian market. Many of our industries would be ruined, or at best greatly reduced in output, others

WHAT IS THE PRACTICAL VALUE AND ADVANTAGE OF THE VOTE TO THE WOMEN OF CANADA?

Perhaps you are one of the many Canadian women who have always been vitally interested in the franchise and vote. Or perhaps you are one of those who frankly have not thought or cared about it. Whichever you may be, the time is here now when all of us, young and old, rich and poor, country women and city women, home makers and wage-earners, must decide how we are going to shoulder our new responsibilities—whether we are going to vote, or whether we are going to shrink.

No one knowing Canadian women and their record of government service during the war would imagine any shrinking when the call for women's help sounded. It is what is what amounts to, this vote in our power—a clarion call to Canadian women to help decide what Government and what laws are best for Canada and to assist in securing that Government and these laws.

Making History.

On December 6, for the first time in history, every Canadian woman of 21 and over, will have a vote at the general elections.

There is a thrill in the thought that the women of today are making history. Generations to come will point back to the Federal elections of 1921 when, for the first time, all Canadian women had the right to vote. Probably history will tell, too, why the vote came to us at this time—that it was in its way, an awakening to our noble Arthur Meighen says, given voluntarily by the Government of Canada, backed by the party that supported it, as an act of justice, in recognition of Canadian women's splendid patriotic service and untiring devotion during the war.

Canada Needs Its Women.

Canadian women's share in war work was, in its way, an awakening to our possibilities. Canada needed us and we responded eagerly. After we had once tasted the joy of being a necessary to the country we love we could never again be satisfied with purely personal affairs. Women's chief interest always will be the home, but our outlook had broadened and we could never again be indifferent to the national welfare.

Thus it seems providential that on the heels of women's war service there came the franchise, which makes women equally responsible with men for the Government, the laws and the whole development of the country.

And now with this new responsibility, as enfranchised citizens, and the vote in our hand—of what actual, practical value and advantage will it prove to Canadian women?

There are advantages that are general, and there are vital, immediate, advantages that apply to the coming election, and that will make every woman grateful that she can cast her vote to prevent national disaster.

Here are some of the general advantages gained by the power of the vote—all providing that women use their vote:

1. It gives women full citizenship in Canada, and gives them the same political status that men enjoy.
2. Representing over half of the population, it makes women the deciding influence in an election—and so gives an opportunity to keep undesirable political candidates or parties out of office.
3. It puts women on the same level of national importance and usefulness as men.
4. It is a recognition of the value of women's opinion.
5. It makes it possible for men and women to co-operate on an equal basis, in all matters of national importance.
6. It gives women a fair share in governing Canada.
7. It broadens women's point of view; because women are naturally conscientious, and, using the vote, they will first want to fully understand all the issues at stake.
8. It removes the former conditions where an intelligent Canadian woman had less political power than an ignorant foreigner man.
9. It gives an opportunity to force a revision of antiquated laws respecting women's legal status.
10. Women have always taken a vital interest in laws relating to the home; to the school; to women; to children; to education; to public health; to child welfare; to regulation of hours of work and minimum wage for women and girls; to conditions of work for women in factories; to various forms of social service work. Frequently they have endeavored to secure improved legislation on these matters. But petitions of those who "lack vote and influence" are not as effective as voters' petitions. Such petitions presented by women now, will get more consideration than formerly—that is simply human nature applied to politics.

So much for the advantage and value of the vote in a general way. It is an even more vital advantage at the present crisis, and as briefly as possible let us consider the reasons.

In the coming general election the issue is the tariff. Canada has a protective tariff. That is to say, Canada imposes duty on imported goods. This serves two purposes.

1st. It provides a substantial revenue for national expenses—a revenue that would have to be replaced by increased taxes were the tariff removed. 2nd. It protects our industries. Without protection these industries, which are absolutely vital to the country's welfare, could not possibly compete with similar industries in the United States. Were the tariff removed, American goods would swamp the Canadian market. Many of our industries would be ruined, or at best greatly reduced in output, others

Williams' HOLDER TOP SHAVING STICK
 The Perpetual Stick in the holder that holds!
 KEEP the box indefinitely and buy Re-Load Sticks only as needed.
 Re-load sticks are made of metal coils that can't shrink—can't twist—screw tight—hold their shape. This stick doesn't loosen or wobble, and every hair is cut as it goes.

Calcutta Makes Ready To Receive Prince of Wales

H. R. H. Will Be There for the Festivities of Christmas Week.

London, Nov. 18.—(By Canadian Press)—Christmas week in always the big week of the year in Calcutta, with the race for the Viceroy's Cup and other festivities, and the climate is at its best then. The Prince will arrive at Calcutta on the morning of Christmas eve, and will remain there until the afternoon of December 30th. The outstanding ceremonial there will be the opening by His Royal Highness of the Victoria Memorial Hall—some twenty years after its conception by Lord Curzon. One cause of the delay has been the development of the Makram quarries in order that only Indian marble, instead of imported marble, might be used in the construction of the memorial, and another cause has been the development of the war. Calcutta has long been known as the City of Palaces, but it has no building which can compare in magnificence with this wonderful memorial to the great grandmother of the Prince of Wales, which is to be, in its contents, a mirror of Indian history under British rule.

Judgments Given In Appeal Division of Supreme Court

Canadian Distributing Co. Refused Application for Injunction.

Special to The Standard
 Fredericton, N. B., Nov. 18.—Judgments were handed down in the Appeal Division, Supreme Court, this afternoon.

Curry vs Robertson, Chief Justice Hasen read judgment that Chief Justice McKeown, of the King's Bench Division be advised that review be allowed and verdict entered for the plaintiff be sustained. No costs.

The King vs Froopnick, Mr. Justice Grimmer read judgment of the court conviction is affirmed.

Lee Roy Plow Co vs Clark, Chief Justice Hasen read judgment. The verdict for the plaintiff is set aside and appeal allowed with costs.

The King vs Limerick, Mr. Justice Grimmer read judgment. Order given for rule absolute to quash conviction.

This case concerned the conviction of Michael Murphy by Police Magistrate Limerick of Fredericton for violation of the Inland Revenue Act by operation of an illicit still. The conviction on the ground that the information should have been laid by a revenue official and not by a liquor inspector.

Samuel Bronfield and the Canadian Distributing Co. vs John B. Hawthorne, Mr. Justice White read judgment. Chief Justice Hasen and Mr. Justice Grimmer agreeing, Application for injunction refused with costs. This case concerned the seizure of a truck load of liquor at St. John by revenue inspectors. The effect will be that the trial will proceed in the police court the Appeal Division taking the ground that the case should be heard there.

The King vs Thomas Spellman, Chief Justice Hasen read judgment of the court. Appeal is dismissed and conviction affirmed. This case concerned the conviction of Spellman for manslaughter in connection with the death of Alfred Norris in St. John.

National Policy Regarding Raising And Sale of Swine

Ottawa, Nov. 18.—(Canadian Press)—The national policy governing the raising and sale of swine, as outlined at the conference here between representatives of the producers, packers and dominion and provincial departments of agriculture, will be made effective May 1, 1922, according to a statement issued this morning by Dr. J. H. Gristdale, deputy minister of agriculture. Under this policy all hogs, marketed at public stockyards and abattoirs, will be sold according to official grades. This grading will be carried on under the direction of the live stock branch of the dominion department of agriculture, and according to standards acceptable to producers and the trade.

Plant Committee Agree To Accept Wage Reductions

Employees of Chicago Packing Houses to Take Offer of Employers.

Chicago, Nov. 18.—Plant committees of Armour & Company today agreed to accept a general reduction of wages in accordance with the request made by the company ten days ago. The same cuts, it was said, will be accepted in plants of the other packing companies.

This is the first time in the industry that employers and employees have met in plant conferences and agreed on a wage cut. The reductions will run from three cents to seven and a half cents per hour.

Now That Women Have The Vote

Tough Proposition To Keep Liquor Out of Sydney

Commander of H. M. C. S. Margaret Says Cordon of Troops Would be Necessary

Sydney, N. S., Nov. 18.—"Nothing short of a cordon of 25,000 troops around the island will ever keep smuggled booze out of Cape Breton," declared Captain Lacombe, commander of H. M. C. S. Margaret, here today. The Margaret has been on patrol duty off the Cape Breton coast all summer, and has captured seven smuggling schooners as well as over-

"More Men Than Women Have Nervous Troubles"

This is the statement of a specialist on Nervous Diseases who comes in contact with many thousands of cases. The increase in diseases of the nerves during the last five years has been enormous.

Is it any wonder that men's nerves are giving out? Look back over the history of the last few years. Think of the enormous burden of responsibility which has been put upon the shoulders of business executives. The excessive mental strain. The worry and anxiety. The physical effort. This has surely been great enough to break the nervous systems of the strongest men. The war strain. The unsettled conditions of business and employment. These are responsible for the rapid aging of men which you notice everywhere. You feel out of sorts. You do not sleep well. You find yourself losing your grip on business. Your daily task is more than you can stand. There is, perhaps, no organic disease. But you find your energy and ambition petering out. Your doctor tells you to take a rest for a few months. But you do not want to be put up on the shelf. Your business cannot spare you at this critical time.

Perhaps you cannot afford complete rest when living expenses are so high. But you can take things easier. And you can profit by the experience of others and build up your exhausted nervous system by using Dr. Chase's Nerve Food. This is the most rational treatment available, and is endorsed by more common-sense, reliable people than any medicine recommended for the restoration of the nervous system. Dr. Chase's Nerve Food is universally used by women as a means of restoring the nervous system. Your wife, or sister, or mother, will be able to tell you something about its remarkable upbuilding influence. But more men than women now have nervous troubles. And Dr. Chase's Nerve Food is no respecter of persons. It builds up new energy and strength in the most natural way imaginable by enriching the blood. It supplies to the blood in condensed, easily assimilated form the elements which nature requires in order to replenish the depleted nerve cells and restore the vitality of the human system. These certified letters may be from people you know. They are worth reading, anyway. For they are the honest opinion of people who have been benefited by Dr. Chase's Nerve Food. Edmondson, Bates & Co., Ltd., Toronto.

Overwork

Mr. D. F. Armstrong, R. R. No. 3, Mallorytown, Ont., writes:—"Through overwork and an extra amount of mental strain, I became very nervous and rundown. I began using Dr. Chase's Nerve Food, and it certainly 'cured' the right spot. It almost seemed for a time as though I fairly lived on it, and I can recommend this treatment to anyone requiring a medicine of this kind." (Sworn before me at Mallorytown, this 7th day of March, 1921.—D. S. Clow, J.P.)

Sleeplessness

Mr. W. J. Van Dusen, Centre St., Napawan, Ont., writes:—"For some time I suffered from sleeplessness and all the weakness and tired feelings that follow continual loss of sleep. Gas would accumulate in my stomach, and this also caused a great deal of trouble. Upon the advice of a friend I began a treatment of Dr. Chase's Nerve Food, and soon found it to be just what I required. By the time I had completed the treatment my system was in splendid condition and I felt much stronger." (Endorsed by S. Casey Denison, Mayor.)

Rheumatism

Mr. Charles R. Tait, Newtown, Kings Co., N.B., writes:—"I suffered with rheumatism and my stomach was in a very weak state. I could eat no fruit of any kind and suffered nearly all the time. I tried several doctors, but got no relief from any of them. I was at a drug store one day and overheard two men talking, one was telling the other about Dr. Chase's Nerve Food completely relieving him of rheumatism. I bought a box, thinking it would be like all the rest of them, but, after taking this one box, I felt so much better that I continued the treatment, and now I can eat anything and do not suffer any more with the rheumatism." (This is to certify that I am personally acquainted with Mr. Charles R. Tait, and believe his statement is true and, to my knowledge, correct.—Signed, A. S. Mack, J.P.)

Upset Stomach, Gas, Indigestion

"Pape's Diapepsin" gives Relief in Five Minutes

Stomach acidity causes indigestion! Food souring, gas, distress! Wonder what upset your stomach? Well, don't bother! The moment you eat a tablet or two of Pape's Diapepsin all the lumps of indigestion pain, the sourness, heartburn and belching of gases, due to acidity, vanish—truly wonderful! Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapepsin neutralize acidity and give relief at once—no waiting! Buy a sixty-cent case of Pape's Diapepsin now! Don't stay miserable. Regulate your stomach so you can eat favorite food without causing regret.

Two Killed And Seventeen Injured When Trains Crash

Salt Lake City, Utah, Nov. 18.—Two persons were killed, and seventeen others injured when a Salt Lake and Utah Railroad Company train, bound from Provo to Salt Lake, crashed into a northbound train on a siding at Taylorsville, ten miles south of here, today.

Obituary

Samuel Doherty.

One of the oldest and highly respected residents of St. John, N. B., Samuel Doherty, passed away during the early hours of Wednesday morning at the age of 78 years. Mr. Doherty was born at Shepody Road, Kings County, in 1848—his parents being among the old settlers there and were of Irish descent. Forty-two years ago, he married Miss Margaret Buchanan of Waterford, who survives as also a family of four—one daughter Olive, Mrs. H. E. Johnson of Dorchester, Mass., and three sons, J. Burton Doherty of Riverside; Kingston Doherty of Apohaig; and George Doherty at the home in St. John. Mr. Doherty at the home in St. John made her home with them. Miss Gladys Myers. The late Mr. Doherty spent his early life at Shepody Road, but has been a successful farmer in St. John for many years.

NUMBER OF TEACHERS ARE IMPOSING ON SCHOOL BOARDS

Hon. Mr. Veniot Declares Many of Them Are Taking Advantage of the Ignorance of Trustees on New School Act—Convention Closes at Fredericton After Successful Conference of Trustees.

Fredericton, N. B., Nov. 18.—The first convention of the N. B. School Teachers' Association ended this afternoon. The customary votes of thanks were passed, and, in their course, Dr. W. S. Carter, chief superintendent of education, expressed his gratification on account of the success which the convention achieved. Dr. Carter was largely instrumental in organizing the convention.

A feature of the final session was the address by Hon. P. J. Veniot, Minister of Public Works, who displayed a most intimate knowledge of the problems of the rural school districts, and also of the new legislation which was passed at the last session of the Legislature for the purpose of increasing teachers' salaries. Hon. Mr. Veniot made pointed comment upon the fact, alluded to by others, that a number of teachers had imposed upon school boards through the lack of acquaintance of trustees with the new act. The proposition, which was passed at the last session of the Legislature for the purpose of increasing teachers' salaries, Hon. Mr. Veniot made pointed comment upon the fact, alluded to by others, that a number of teachers had imposed upon school boards through the lack of acquaintance of trustees with the new act.

Arkansas Cyclones Kill Twelve And Do Property Damage

Little Rock, Ark., Nov. 18.—Twelve persons were killed, thirty or more injured and considerable property damage done by two cyclones which struck in widely separated parts of this state last night.

One storm, near Mecca, in the extreme western part of the state, wiped out a family of eight persons.

Another storm, striking a lumber camp near Arkadelphia, killed one person, injured 24 others and then swept north to a point near Malvern where three more persons were killed and a number injured.

Would Take The Joy Out of Life

Hamilton, Ont., Nov. 18.—Dr. Mayor George H. Lees, who was chairman of the Referendum Committee, is seeking to arrange a conference with inspector Hales to see if home-brewing cannot be stopped. The temperance people say that the sale of malt extract and hops by the druggists to home brewers is mounting alarmingly and that a laughing stock is being made of the Ontario Temperance Act.

Genuine Bayer Aspirin

Nothing Else is Aspirin—say "Bayer"

Warning: Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances? Accept only an unbroken "Bayer" package which contains directions worked out by physicians during 21 years and proved safe by millions of Colds, Headache, Earache, Toothache, Neuralgia, Rheumatism, Neuritis, Lumbago, and Pain. Made in Canada. All druggists sell Bayer Tablets of "Bayer Cross."

Sees Everything Shaping Towards Japan's Isolation

Tokio Man Predicts Repeal of Anglo-Jap Treaty and Anglo-American Alliance.

Montreal, Nov. 18.—That within ten years Japan will be isolated is the belief of Akimori Ichihara, of Tokio, connected with the Nippon Yusen Kaisha or Japanese Mail Steamship Company, as expressed at an interview here today. Mr. Ichihara predicted the repeal of the Anglo-Japanese treaty and the formation of an Anglo-American Alliance as possible outcomes of the Washington disarmament conference. He could not see anything in the conference agreeable to Japan, declaring the Chinese proposals to be unfair to the Island Empire and not conducive to a satisfactory settlement of Far Eastern problems. The Hughes naval cut proposals were also in his view, far from being to the point as far as his country was concerned.

Meanwhile, he believes that the isolation of Japan is gradually becoming apparent and Australia, New Zealand, Canada, Great Britain and the United States would be in concord and opposed to the wishes of the Japanese people.

Weddings

Drillen-Barron.

Newcastle, Nov. 18.—The marriage of William Edwin Drillen, of Derby Junction, and Miss Amanda Emma Barron, daughter of Mr. and Mrs. George Barron, of Lower Derby, was solemnized at the home of the bride's parents on Wednesday evening, Nov. 17, W. J. Bate, rector of Newcastle, was the officiating clergyman. Only immediate relatives of the contracting parties were present. After the ceremony Mr. and Mrs. Drillen drove to Newcastle, where they boarded the Maritime Express for Wainipeg, where they will reside in future.

"Double the Amount"

would have meant double the satisfaction," said a highly pleased Policyholder a few days ago, when receiving the returns of his Policy the day it was due. "The fact is, I consider this Endowment Policy the best investment I ever made, and I could easily have saved considerably more than double the amount of the annual deposit. From the moment I received the Policy, I enjoyed a feeling of security, knowing that in the event of anything happening, my family would be provided for. My advice to all young people is to 'play safe' and carry a guaranteed policy with The Manufacturers Life Insurance Company."

If you will fill out the form below, full particulars of our guaranteed Plans will be mailed you.

FOR WOMEN

Inspirations At N. Y. Fashion Show

New York, Nov. 18.—One of those inspirations which fashion shows for invited guests ever so carefully select took place recently in upper Fifth Avenue during the season. A very different affair from displays down at the Hotel Commodore, where buyers gather semi-annually to inspect styles for the forthcoming season. These are the inspirations. The little shows up-town present the latest inspirations of leading creators for their patrons, or in the case of the fashion sea this week, present gowns, hats, wraps, shoes and so on down to lingerie, even a dozen places all chosen with perfect taste, and to be ordered from the places whence they come. A small but reasonable commission only goes to the promoter of the show. This time an enterprising and charming young woman with a name well known in New York society, is in her way of being economically independent.

A more or less recent idea that really simplifies shopping for those who must make ten thousand a year go as far as possible, and have and be bored as a dozen shops, all of them crowded. This last show was exclusively of debutantes styles, gowns, hats and several jade secret dainties. One of these made with the semi-fitted waist and swinging "skirt" with dotted broken border of gray fox, also deep collar and cuffs, was original. Most of the party gowns were of rich material, but in simple, youthful lines. Soft silks and brocaded chiffons were made with the fitted basques and full skirts in the 1920 manner. But the prettiest was a straight lined gown with soft straight skirt bordered with scallops with loops of beads or with ribbon loops to make a fringe. This may be an idea for less expensive than gowns designed for whom the show was designed, but an important detail for general application. The skirts were all down to the ten-inch above-the-floor line, although all revers were designed for the very young girl.

For her, also and curiously, was a black velvet skirt and with jet

WHAT HE REMEMBERS.

Sometimes he forgets that his collar is soiled. And carries the sign of the way he has toiled. Sometimes he forgets what is proper to do. He will travel for days without a change of clothes. He forgets his engagements and goes on his way. Unmindful of all that his business friends say. But just ask his wife, and she'll proudly reply. That he's never forgotten to kiss her goodby.

His methods are careless—there's no doubt of that. Men say that he'll promise and let them down flat. Because he forgets, and they frequent his eye.

At his unkempt appearance whenever he comes in; But his children will tell you he makes them his pets.

And the things they have asked for he never forgets. And his wife will declare with a light in her eye. That he's never forgotten to kiss her goodby.

He's not much to look at, his fortune is small. But he owns a treasure that's richer than all. They are happy together, and nobody frets. Because of the duties he often forgets. So what of his clothing and what of his style? The life that he's living is surely worth while. His wife says he's splendid, and like-wise do I. For he's never forgotten to kiss her goodby.

JACKSONVILLE

Jacksonville, N. B., Nov. 18.—Mr. and Mrs. Harry Briggs, of Prince William, were the guests of Mr. and Mrs. Henry Briggs last week. Mr. La Haron Emery is confined to his home through illness. Miss Olla McIlroy, the teacher of the Primary Department of the Maple Leaf School, spent her Thanksgiving holiday in Port Fairfield, the guest of relatives there.

Mr. Frank Hayward, who was ill for a few days at the home of her daughter, Mrs. Waldo Currie, Woodstock, returned to her home on Friday. Miss Blanche Price, of Woodstock, has been visiting friends in Jacksonville for a few days.

Mr. Frank Harvey left this week to spend a couple of months helping his brother-in-law, Mr. Alfred Tompkins, at Newburg.

Mrs. Bertram Gardino and master Gordon, of Woodstock, were the guests of Mr. and Mrs. Chipman Tilley on Thursday. On Friday, Nov. 11th the teachers and pupils of the Maple Leaf School very fittingly paid tribute to those who fought and died, and honor to those who survived the great war, when at two minutes to eleven they marched from the school building to the Soldier Memorial Monument, each carrying a Canadian flag. As they gathered around the monument they sang "We'll Never Let the Old Flag Fall" and recited in concert "In Flanders Field." Then with flags down and heads bowed the school body observed the national two minutes of silence after which two young girls recited "In Memory of the Boys." And as they planted the flags around the monument they sang "God Save Our King." Although a few of the little ones will never need an occasion to keep in mind all that soldier's memorial means to them, the majority of the pupils will be always grateful to their teachers, Mrs. Burpee and Miss Milberry for their loyalty and patriotism in instilling in their young minds when and why those brave boys fought and died. Let they forget, lest they forget!

Obituary

John Walker

In the death of John Walker last night at his residence 124 Mecklenburg street, there passed away one of the oldest and esteemed residents of the city. Besides a wide circle of friends he leaves his wife and three sons, William, John W., and Francis S., all of this city. Mr. Walker although of a very old age had been in fairly good health until about three weeks ago. He came to St. John from Scotland in 1854 and for fifty years was connected with the city water department, holding the position of foreman. He was a member of St. Andrew's Presbyterian church and beloved by all who knew him. The arrangements for the funeral will be made today.

HEAD AND NOSTRILS CLOGGED UP

Could Scarcely Breathe

When you become all clogged up and stuffed up with a cold your head becomes thick, the nostrils become so clogged up you can hardly breathe, a feeling of weight or oppression in the chest and the cough, rams and loose your lungs and bronchial tubes. This is the time to take DR. WOOD'S

NORWAY PINE SYRUP before things get to be too serious. There is no remedy to equal it for clearing up the cold, making the breathing easy, loosening the phlegm and soothing and healing the lungs and bronchial tubes. Mr. Edward Kincaid, 60 Bryden St., St. John, N. B., writes:—"I wish to express my hearty thanks to your valuable remedy Dr. Wood's Norway Pine Syrup and what good it did me. Last fall I contracted a severe cold, the like I never had my head and nostrils were so clogged up I could get no rest, and could scarcely get my breath. I tried remedy after remedy until at last I thought I would try Dr. Wood's. By the time the bottle was finished I was all better. I will always keep it in the house." Price 25c and 50c a bottle; put up only by The T. Mifflin Co., Limited, Toronto, Ont.

SIR ROBERT MET THE NEWSPAPER REPORTERS FRI.

Opened Their Eyes in Discussing How Canada and United States Did Things.

Washington, Nov. 18.—(Canadian Press Staff Correspondent)—Sir Robert Borden, Canada's delegate to the conference on the limitation of armaments, took his turn upon the newsmen's table this evening in a cordial and frank discussion of the plan of the British representatives to have one of the Empire representatives grant an interview to the press. Sir Robert met a hundred of the reporters in the British headquarters at the navy building at six o'clock. He was the third in the list of British targets for journalistic queries. Mr. Balfour and Lord Lee having been interviewed on the two previous evenings. The meeting is something of an ordeal for the delegate, for many of the newspapermen spend most of the time taken up in their long journeying between the different headquarters in thinking up trick questions to hurl at his head, with the object of bringing him into disrepute and firing between a dozen or more indiscreet questions were tactfully and courteously turned aside, and several which were within the bounds of what was legitimate to disclose, were answered. Then some one mentioned the Rush-Bagot agreement and the correspondents found themselves listening with interest to a little talk on the relationship between Canada and the United States. After outlining clearly and concisely the negotiations of 1817, which led to the agreement respecting the exclusion of war vessels from the Great Lakes, Sir Robert explained how the original pact has been extended to dispense with armament along the whole international boundary. The example, which Canada and the United States had shown the world in entering steadily to this agreement for over a century, and living side by side in a complete spirit of friendliness and respect, he suggested might well be considered by the nations assembled here for the present conference. Another remarkable example of international cooperation which was of particular interest at the present time Sir Robert continued, was the creation of the international joint commission in 1909. Sir Robert gave the correspondents a very clear outline of the operation of this unique court for the settlement of international disputes, pointing out the ways in which it had been of inestimable benefit to both countries. Incidentally, Canada's conference representative proved himself a sort of walking Canadian encyclopedia. In response to requests he gave a fund of information regarding the Dominion. Some of the questions posed by the United States reporters indicated a need for the diffusion of information concerning Canada on this section of the globe. One wanted to know whether Canada proposed to scrap her "fortifications" on the Pacific. Another asked whether Sir Robert did not believe

A MAN'S WORLD

And would it be such a very nice world after all if it should become just a man's world? Just suppose that there were no more trills of ninn, no more lights hooded in rose, no more soft voices, no more little houses in which a happy brood played and called to a loved singham-sprong somebody for "bread and jelly"—just suppose? And if this orgy of masculinizing continues that is just exactly what's going to happen. Because who could imagine any child asking a knickered individual to seek the kitchen, slice a thick slab of bread, butter it generously and then find the jelly jar to give the combination a fascinating, tasteful top!

HEALTH TALKS

Every food is open to some sort of objection. For instance, the flesh foods are unstable and liable to putrify. Likewise, they have a tendency to produce acids. In the process of digestion and assimilation there takes place in the body complicated chemical reactions. As a result, the urine contains certain chemical bases, as well as uric acid. These products of the chemistry of the human system are called "urins" or "uric bodies." Their production depends largely on the eating of flesh. This is true of all forms of flesh-meats, fish, fowl and shellfish. A perfectly healthy person may out with propriety anything that does not bite first! But there are some physical conditions where the eating of meat is positively harmful. The most dangerous period of a person's life is between 45 years of age and 65. The figures in England concerning the total deaths among males, between the ages of 55 and 65, are due to diseases affecting the heart and blood-vessels. The most common of all such diseases is hardening of the arteries, or "arterio-sclerosis." It is unfortunate that this condition is considered by too many as inevitable and incurable. It is not a disease in the true sense, like cancer or tuberculosis. It is a symptom merely, one of the results of bad habits or wrong living. If you know how to live, you will never have it, and even if you have its early symptoms, you may overcome the condition by correcting your habits. Some persons with severe cases of arterio-sclerosis have brain symptoms. Dizziness, nausea, headache in the back of the head, roaring in the ears and loss of sleep are some of the worst. The first thing to do to treat hardening of the arteries is to reduce the quantity of purin-producing foods that you eat. In a severe case the diet should consist of purin-free foods. That is, you should not eat meat at all. Good judgment should be used in the preparation of flesh food when there is a tendency to arterio-sclerosis. Rich gravy and thick meat soup are dangerous. Fried meats should be avoided. Stewed or boiled meat is far safer. In any event, the consumption of all kinds of flesh is to be limited and should not be taken at more than one meal per day. Some men seem to think it is better to have loved and married than never to have loved at all.

COVETOUS EYES ON CANADA'S RAILWAYS

Canada had no Railway Problem until 1904. That was the year of the "Railway Crime." The St. John Globe was an accomplice in that Crime with one of its directors a candidate in support of the deal which side-tracked St. John and saddled the country with the largest part of the railway debt. The St. John Telegraph, following the lead of Hon. A. G. Blair, came out strongly against the Transcontinental but the Laurier government carried it through. It was the Laurier government, too, that first recognized the Canadian Northern as a Transcontinental Railway. Truly, the Borden-Meighen governments had to deal with a Railway Tragedy and the whole trouble today, is that as a result of the courage and initiative displayed that this Railway Tragedy promises to be a Tragedy no longer. Those Liberal speakers and papers who dwell upon this issue are talking in terms of a year ago. The Turning Point came early this year and in August, the Canadian Northern lines paid not only operating expenses but also all fixed charges with a surplus over and above to apply to reduction of fixed charges on the Grand Trunk Pacific lines. Income for August was greater than for entire first nine months of 1920, and the September figures were even more satisfactory. Now, the C. P. R. is beginning to feel the opposition of the rejuvenated Government lines and the C. P. R. has powerful friends in the leaders of the Liberal party in Quebec. Corporation directors themselves, Lemieux and Gouin openly advocate a deal with the C. P. R. and Mr. King, in view of his dependence in Quebec control about all that is left of the once great Liberal party are speaking only for themselves as individuals. In their innocence or ignorance, the Liberals outside of Quebec are falling into the trap and a Quebec victory in this election will be the signal for another and Greater Railway Crime—that of handing over the people's property to a private corporation, thus creating the greatest and most powerful monopoly of all history. Mr. McLellan, a candidate endorsed by the Mackenzie King party in St. John-Albert, criticizes the taking over of the Grand Trunk Pacific by the government. Is Mr. McLellan not a believer in the Principle of the endorser of a note paying the note when the signer is unable to do so?

Benny Leonard In Action Tuesday

Fights Sailor Freedman in Philadelphia—Four Bout Only Fighting This Year.

At least one question will be answered when Benny Leonard, boss of the lightweights, and Sailor Freedman, Chicago challenger, collide on at the Los Pasco next Tuesday night. Leonard will reply to the much-asked query: "Is Benny an exception to the rule of champions in far as he can remain virtually fit for a year, show no ill effects of lay-off and still assert superiority over one of the leading boys in his division?"

Over the span of the last 12 months few champions have been as inactive as Leonard. Johnny Kilbane and Jack Dempsey are the only possible exceptions. For the last ten pages of the earlier Leonard has averaged less than three rounds per month. He has engaged in only four ring combats. Some ring critics have pointed out that he fought only twice, but he had Leonard's work, and the records back it up, that he fought four times in the Los Pasco next Tuesday night. Leonard will reply to the much-asked query: "Is Benny an exception to the rule of champions in far as he can remain virtually fit for a year, show no ill effects of lay-off and still assert superiority over one of the leading boys in his division?"

Knockouts were scored by Leonard in two of the four tilts. He dropped Eddie May, Feb. 21; Dayton, O., Feb. 22; and J. J. Wells, Feb. 24, St. Louis. He lost to Jess Kansas, June 7, Harrison, N. J.

Joe Weiling, who last year won fourteen rounds with Leonard before being knocked to sleep, was easily outpointed in eight rounds in a return bout.

It was not necessary for the holder to exert himself to outpoint Rocky Kansas in twelve rounds. Ring champions will tell you more they fight the better they work. There is nothing that dims judgment of distance and shows up the punch more than Kansas, Leonard, however insists that his lay-off has not hurt him. This remains to be seen.

Few followers of the punch are bold enough to pick better. Freedman's outpoint Leonard. Freedman rate high as a lightweight through the medium of his three sensational bouts with Lew Tendler, the first in Montreal and the last two in this city last summer. He has fought other leaders, but this is his first test under the punch fire of a Leonard.

Freedman Has Fought 150 Rounds. Chicago's former mainstay in Philadelphia to complete his training. He is not required to make the lightweight limit of 135 pounds for Leonard, but figures it probably will be convenient to do so.

When the lightweight rivals step into the ring it will be a busy fight or against an idle champion. Freedman has fought eighteen bouts this year. Nelo Lewis, his manager, dropped the word when in Philadelphia the other day that the sailor had had tied through approximately 150 rounds in this time. During the same period Leonard has fought only twenty-nine rounds.

Leonard seldom guesses wrong. Since he won the title from Freddie Welsh in 1917, he has not made one false move so far as jeopardizing his title was concerned. And it is not likely that he would consent to meet so dangerous an opponent as Sailor Freedman unless he was absolutely satisfied with his condition.

THE STANDARD'S SPORTING SECTION

Benny Leonard In Action Tuesday

Fights Sailor Freedman in Philadelphia—Four Bout With George Sutton.

At least one question will be answered when Benny Leonard, boss of the lightweights, and Sailor Freedman, Chicago challenger, collide next Tuesday on the 10th Palace next Tuesday night.

Over the span of the last ten months few champions have been as inactive as Leonard. Johnny Kilbane and Jack Dempsey are the only possible exceptions.

For the last ten pages of the calendar Leonard has averaged less than three rounds per month. He has engaged in only four ring combats.

A complete log of the champion's inactivities this year follows: Eddie Mitchell, Jan. 14, New York 6 rounds.

Joe Welling, who last year went fourteen rounds with Leonard before being knocked to sleep, was easily outpointed in eight rounds in a return bout.

It was not necessary for the title holder to exert himself to outpoint Rocky Kansas in twelve rounds.

Ring champions will tell you the more they fight the better they work. There is nothing that dims judgment of distance and slows up the punch more than idleness, Leonard, however, insists that his lay-off has not hurt him.

Few followers of the punch are bold enough to pick Sailor Freedman to outpoint Leonard. Freedman rates high as a lightweight through the medium of his three sensational bouts with Lew Tendler, the first in Millwaukee and the last two in this city last summer.

Freedman has fought 150 rounds. Chicago's former mainstay is in Philadelphia to complete his training. He is not required to make the light weight limit of 135 pounds for Leonard, but figures it probably will be convenient to do so.

When the lightweight rivals step into the ring it will be a busy fight against an idle champion. Freedman has fought eighteen bouts this year. Nate Lewis, his manager, dropped the word when in Philadelphia the other day that the sailor had battled through approximately 150 rounds in this time.

Leonard seldom guesses wrong. Since he won the title from Freddie Welsh in 1917, he has not made one false move so far as jeopardizing his title was concerned. And it is not likely that he would consent to meet so dangerous an opponent as Sailor Freedman unless he was absolutely satisfied with his condition.

Cochran Broke World's Record

San Francisco Billiard Player Made Run of 384 in Game With George Sutton.

Chicago, Nov. 18.—Welker Cochran, of San Francisco, today broke the world's record for 18.3 ball-line billiards when he made a run of 384 in the fourth inning of his game with George Sutton in the world's championship tournament. The former record of 367 was held by Willie Hoppe.

Y. M. C. I. Senior Girls' League

The following is the schedule of the Y. M. C. I. Senior Girls' Basketball League:

No. 1—M. Floyd (captain), K. Flood, M. McGrossin, G. Cronin, G. Costley.

No. 2—L. Flood (captain), M. Cronin, E. Driscoll, C. O'Brien, M. Brennan.

No. 3—H. Corkery (captain), K. Carter, L. McCluskey, T. Maxwell, E. Maxwell.

No. 4—A. Collins (captain), M. Scully, H. Johnson, S. Robson, K. Kane, F. Casey.

No. 5—M. Keenan (captain), H. Dolan, L. Peterson, N. Conolly, L. McNamee.

No. 6—G. Ready (captain), I. Flood, T. Ready, A. Dolan, C. Nugent.

No. 7—N. Jennings (captain), R. Dwyer, F. Conway, A. Jennings, Z. Higgins.

No. 8—B. Connell (captain), M. Cleary, F. Nugent, M. Sharkey, A. McCarthy.

Schedule of Games

Nov. 9—Miss Floyd vs. Miss Flood.

Nov. 16—Miss Keenan vs. Miss Ready.

Nov. 23—Miss Floyd vs. Miss Jennings.

Dec. 7—Miss Keenan vs. Miss Jennings.

Dec. 14—Miss Flood vs. Miss Corkery.

Jan. 4—Miss Keenan vs. Miss Connell.

Jan. 11—Miss Flood vs. Miss Keenan.

Jan. 18—Miss Corkery vs. Miss Jennings.

Jan. 25—Miss Flood vs. Miss Keenan.

Feb. 1—Miss Corkery vs. Miss Connell.

Feb. 8—Miss Flood vs. Miss Keenan.

"Shorty" Veno Asked To Report

Chatham Hockey Player Wanted on Canadiens' Team.

Montreal, Nov. 18.—Leo Dandurand, business manager of the Canadian Hockey team of the National Hockey League announced tonight that Georges Veno, for a number of years goal tender for that club, has signed a contract for the coming season, and that a letter has been forwarded to George (Shorty) Veno, late of Chatham, N. B., and now of Boston, asking him to report here.

For Stimulating Horse Breeding

The breeding of horses to race is the sure foundation on which racing rests in this or any other country.

That the breeding of the lighter class of horses, i.e., army, gunners, cavalry, saddlers and polo ponies is impossible and impracticable when racing is not carried on, has been proved so often as not to admit of argument.

It is well to place a few instances of what has recently been done, for the consideration of those who seem convinced that the day of the light horse is over, and that racing is a useless and, if we believe some prejudiced opponents, an altogether vicious form of sport only.

A few years ago the Genesee Valley, N. Y., Breeders' Association was formed. This year the show extends over two days, with 38 classes, this extension having been accomplished with the co-operation of the Jockey Club, N. Y., with whom the idea originated, for the purpose of stimulating breeding.

Mrs. Herbert Wadsworth has brought a great deal of knowledge and enthusiasm to bear towards the success of the project and the whole district has benefited from this proposition.

The farmers are here amongst the most prosperous in the United States. They have found that it pays to breed good horses. The association plans to give the custodian a mare or mare free of charge.

Senator Wadsworth calls attention to the fact that the farmers are independent of the failure of any single crop, and in breeding these horses they are producing the best kind of paying by-product on their farms, at the same time doing a big and patriotic service to their country.

A most effective propaganda in favor of breeding was conceived by Mr. J. E. Madden two years ago when he placed young mares in foal with young farmers in Christian County, Kentucky, on the simple proposition to sell their foals, fifty-fifty, and the mare thereafter becoming the property of the farmer.

The result has proved most successful and made enthusiastic breeders of those novices who are not already equipped, many others being anxious to join the ranks of breeders.

Mr. Mosely has already sold six thousand dollars' worth of yearlings and now owns the mares. Mrs. Clyde Smith has obtained four thousand dollars for two yearlings, and now owns the mare.

A thoroughbred horse association in British Columbia, which is now projected, can do an immense deal towards the bettering and assisting of the more fool questioners you ask the more you don't learn.

When a man is unable to bear his fortune he is indeed unfortunate.

PLAN MEMORIAL FOR G. THOMSON

(Halifax Herald) As a striking tribute to the self-sacrificing spirit of the late Gordon G. Thomson, in connection with the activities of the Dartmouth Amateur Association, the citizens of Dartmouth plan to erect a memorial to his memory.

From the inception of the new organization and up until Mr. Thomson passed away, he was an active worker in every undertaking to raise funds to make the new venture a success.

The citizens of Dartmouth, particularly those identified with the association, feel that the success which has attended their efforts is largely due to the zeal and devotion to duty which has made the organization such an important one in the sporting activities of the Maritime Provinces.

Johnny Dundee Awarded Bout

George Chaney of Baltimore Disqualified for Alleged Foul in the Fifth Round.

New York, Nov. 18.—George Chaney, of Baltimore, was disqualified for an alleged foul in the fifth round of his bout with Johnny Dundee tonight, or the junior lightweight championship. The referee then awarded the bout to Dundee.

Dundee's seconds had complained in the earlier rounds that Chaney was hitting low. The referee warned the Baltimorean and when Chaney hit slightly below the belt in the fifth round, he stopped the contest.

Dundee was awarded the Tex Rickard belt, emblematic of the junior lightweight title, a new class for 130 pound pugilists. The bout had been a slugging affair up to the fifth with Chaney landing the more punishing blows.

Dundee weighed 128 1/4 pounds, and Chaney 130.

Syracuse And Dartmouth Elevens

New York Football Followers Will Witness Some Canadian Rugby Features Today

New York, Nov. 18.—(Canadian Press)—Football followers in these parts will have an opportunity to witness some features of Canadian rugby when the Syracuse and Dartmouth elevens meet at the Polo Grounds tomorrow.

Syracuse defeated McGill at Montreal two weeks ago at the American stage, 13 to 0, scoring all the points in the final period. Syracuse players were surprised at the deadly tackling and lateral passing of the Canadian game.

So impressive was the play of their opponents that the Syracuse coaches immediately decided to adopt some of the methods of the Canadian students, which they thought were particularly suitable for use in the American game.

Serious Jam On The Bowie Track

Flying Cloud Started to Circle the Field, Throwing Four Horses into a Heap.

Bowie, Md., Nov. 18.—During the running of the fifth event on today's programme at Bowie, one of the most serious jams ever witnessed at this track occurred, when at the final turn, Flying Cloud started to circle the field, throwing four of the horses into a heap. Jewell V. D., Ferragras, Maudsels, All Over, piling on top of each other, only two of them being able to regain their feet. Jewell V. D. and Mennhelm will probably have to be destroyed. Three of the jockeys were injured but not seriously. They are J. Rowan, Mooney and McNamee.

British Yachtsmen To Issue Challenge

Are After British-American Cup—Race in U. S. Waters of Six-Metre Class.

London, Nov. 18.—British yachtsmen have decided to challenge the United States for another yachting contest for the British-American cup, to be contested in United States waters by boats of the six-metre class. It was said here today that the United States had agreed that the race be held under the international rules. The challengers have suggested September as the most suitable month.

Syracuse defeated McGill at Montreal two weeks ago at the American stage, 13 to 0, scoring all the points in the final period. Syracuse players were surprised at the deadly tackling and lateral passing of the Canadian game.

Boxing Classes Start Wednesday

About Twenty-Five Members of Y. M. C. A. Will be Accommodated.

Boxing classes will be started in the Y. M. C. A. next Wednesday evening as the result of a demand for such classes from a number of the association members. Classes will be conducted every Wednesday evening from 8.30 to 7.30 o'clock and nothing better than good clean boxing could be wished for in the line of athletics. A member of last year's class is selected as instructor, and only about twenty or twenty-five members can be accommodated.

Outsider Won The Derby Cup

Three Year Old Colt Aymestry Finished by a Head Over Willonya at London.

London, Nov. 18.—(Canadian Press Cable)—Captain C. B. Hanbury's three-year-old chestnut colt Aymestry, ridden by Lynch, and quoted at five to one against, today won the Derby cup at Derby, over the mile and six furlong course. The finish was close, with a head separating the winner and C. E. Howard's three-year-old filly, Willonya, ridden by Wells, and quoted at 40 to 1 against. Riverside Fairy, owned by F. McDonogh, ridden by J. Davis, Jr., and quoted at 40 to 1 against, finished third three lengths behind Willonya. Twenty-three horses started. The race furnished a surprise with two outsiders finishing within the first three Crevasse, winner of the Liverpool autumn cup run just a week ago, was included in the also-rans, as was also Tishy, who proved such a disappointment in the Cesarewitch.

The following horses also started: Crevasse, Holback, North Wilham, Mount Royal, Derisla, Flint Jack, Manton, Cavalier, Sorril, Front Line, Potter, Dervish, The Villager, Tishy, Sabbotage, Velvet Glove, Weatherite, Kroom Boy 2nd, Ring True and Dolan. GK—BURNABY

Toronto, Nov. 18.—R. W. E. Burnaby, U. P. candidate, who is opposing Hon. W. L. Mackenzie King, the Liberal leader, and A. M. Armstrong, government candidate in North York, today gave an unqualified denial to a report that he was withdrawing from the contest. He declared he would stay in the fight until the last ballot was cast.

\$30,000

The Man Who Saves can be more easily saved than most people imagine

If you look ahead you can easily picture how useful \$30,000 would be to you. If you were to start in and save \$200 each six months and let it compound at 5 1/2% you would have that substantial sum in 30 years, but— you know many people who could have set aside this amount, yet who are still "drugging along."

You know yourself how hard it is to save cash. Human nature is such that very few people allow ready money to remain untouched for any length of time.

The Canada Life Plan Provides that any sum you name will be delivered to you in cash at any age you desire, or to your beneficiary should you die in the meantime.

You see by this Plan how an IMMEDIATE ESTATE is created in event of death—the full face value of the insurance policy. At one stroke you anticipate years of effort, you capitalize your present health and earning power, you make certain of many years of progress now. Take, for instance, an

Endowment at 65 issued by the Canada Life. It makes saving money attractive, systematic and very profitable.

You can be certain that the full amount will be paid in any case whether you live or not. Other investments may fail—the Canada Life Endowment is a certainty. It will take care of your home, your business, your children's future, or yourself, as nothing else can.

Profits Will Hasten Maturity If the profits are allowed to remain each year instead of being withdrawn and spent, a special clause provides that the face value of the policy will be paid some time well in advance of the due date.

Regular saving, an immediate estate, substantial profits, absolute safety—this is a combination that you should look into today. Ask for particulars.

Canada Life J. M. QUEEN, Manager Canada Life Bldg., 60 Prince William Street, St. John.

At age 19 his kids exceed his income. At age 25 his "bill" includes a "premium" note, which, while counted as an expense, is really a saving. At age 35 he can "repeal" anything in remembrance. At age 50 he has no anxiety for the future, and leisure for his many interests.

For Your Money

Plugs of... the same

may overcome the condition by correcting your habits. Some persons with severe cases of arterio-sclerosis have brain symptoms, dizziness, nausea, headache in the back of the head, roaring in the ears and loss of sleep are some of the worst.

The first thing to do to treat hardening of the arteries is to reduce the quantity of purin-producing foods that you eat. In a severe case the diet should consist of purin-free foods. That is, you should not eat meat at all.

Good judgment should be used in the preparation of fish food when there is a tendency to arterio-sclerosis. Rich gravy and thick meat soup are dangerous. Fried meats should be avoided. Stewed or boiled meat is far safer. In any event, the consumption of all kinds of flesh is to be limited and should not be taken at more than one meal per day.

Some men seem to think it is better to have loved and married than never to have loved at all.

C. N. R. Employees Would Make One Great City

If the 55,000 employees of the C. N. R. were domiciled in one city, instead of being spread from one end of the country to the other, they would constitute a city larger than Hamilton, Calgary or Halifax. For it must be remembered that it is not only the people who actually work for the C. N. R. that are sustained by it, but their wives and families. This tremendous body of workers are actuated by one motive, to make the C. N. R. the most successful publicly owned enterprise in the world, to run as purely a business enterprise, divorced entirely from politics.

Berlin, Nov. 16.—A forecast of what might come to pass in Germany if a second Kapp Putsch should ever occur may be obtained from the sayings of a member of one of the many monarchistic organizations hiding in Germany, who, according to the Vorwaerts, arrived at the conclusion that by hanging and shooting a couple of hundreds "the animal called 'the people' soon would learn to obey."

Remembering the attitude of the government officials during the Kapp Putsch, when they refused to obey the orders of the conspirators, he is quoted as having recommended the following method: "Railwaymen, post officials, government clerks who do not obey immediately, should be shot down and left lying where they have fallen to serve as a warning."

This organization, to which this ex-royal officer belonged, had drawn up a rule to spare neither the lives nor the property of the fellow citizens and to hang them to the nearest lamp-post if they proved to be republicans-minded. The assassination of Erzberger, however, had opened the eyes of the government in time to step in and block the activity of many of these secret societies formed to reinstate the monarchy.

French Anticipate Armament League

Two International Bodies for Peace Not Incompatible, They Think.

Washington, D. C., Nov. 14.—So many and great are the difficulties ahead of the Washington arms conference that at least one of the French delegates expects it to develop quite naturally into an international association of nations.

This is not the official opinion of the French delegation, but merely a private expectation expressed by French circles in close touch with the delegation. No thought is entertained, however, that there is not plenty of room for two international bodies, each dealing with the problems that naturally fall to its particular lot. Neither the French nor the British look to Washington to solve all of the world's problems, and the need for a continuance of the meetings therefore is already foreshadowed.

Rene Viviani, as second French delegate to the Washington conference, would form a living link between the association of nations which will be born in the city of Washington and the Geneva League. There is every possibility that a special department of the French Foreign Office will be created exclusively to handle French policy within the various international associations that may grow up.

The French are beginning to realize that league politics are in a different category to ordinary diplomacy and require special aptitudes. M. Viviani stands out at present as the probable head of the French diplomacy within international associations, although his new status will in no way prevent him from again becoming president of the council if the vicissitudes of politics should call him to this position.

M. Briand, it is understood, desires to the limit of time at his disposal in America, to confer with practically every prominent political personage here in one way or another. He wishes to meet Democrats as well as Republicans and his program will be arranged accordingly. He is quite prepared in some instances to be put through a certain amount of quizzing such as M. Viviani met with on his previous visit to the United States.

M. Briand while out riding this afternoon encountered President Wilson and immediately after returning to his hotel at the Waldorf Astoria he paid his respects to the former American President. Tonight the French Premier with the other members of the French delegation went to the house of Henry White.

For what it is worth it is deemed to give a prophecy which is circulating in conference circles of the substance of the Atlantic City meeting. It will be shown in the arms discussions. America is said to contemplate leaving Japan what she now possesses in Manchuria with the exception of Sakhalin and to give her certain interests in Mongolia. The American plan, however, will insist on the "open door" in China and asks that zones of influence should be done away with by improving the continental created in 1920.

On the question of disarmament American will state her intention to entire good faith in Germany if fortification of islands to which Japan might take objection, and will propose that naval armaments be reduced in keeping with the size of the coast line of the various countries. This would leave England with the largest fleet, subject to the provision that America be permitted to finish the naval program already laid down. In the circles where this American plan is being discussed it is thought that England and Japan will refuse to agree to the last named American stipulation and will make counter proposition.

Regarding land forces it is thought probable that America will ask France for some reduction of her army, without, however, offering in exchange any kind of guaranty such as was previously talked of in Paris.

It also is reported in conference circles that a secret treaty had been signed between Japan and Mexico under which the Mexican Government undertakes to supply Japanese submarines with fuel in the event of a war between America and Japan. Whether this is true or not it will, of course, be denied.

It is better to be beaten in trying to do right than it is to succeed in doing wrong.

PORT OF ST. JOHN, N. B.

Saturday, November 19th, 1921.
Arrived Friday
S.S. Commodore Rollins, New York.
Cleared Friday
Coastwise—Str. Empress, 612, McDonald, Digby.

FOREIGN PORTS

Vineyard Haven, Mass.—Arr. Nov. 18, 18th Miss King, Parsons, N. S. for New York; Fieldwood, St. John for New York; Frederick H. New York for Nova Scotia.

Arrived Here Yesterday
S.S. Commodore Rollins arrived at this port yesterday from New York to load potatoes for Cuba.

S. S. Caserta, Navigazione Generale Italiana, which left Genoa on Tuesday last for this port via Naples, is due to arrive here on November 30th.

S.S. Canadian Leader on Route
S.S. Canadian Leader is due here the early part of next week.

Has Reached Halifax
S.S. Scaevan arrived at Halifax on Tuesday from Liverpool via St. John's, Nfld.

Arrived at Liverpool
S.S. Bergendahlen arrived at Liverpool on Tuesday from Campbellton.

Sailed from Liverpool
S.S. Jobba sailed from Liverpool on Wednesday for this port.

Is on Way to St. John
S.S. James L. Maloy sailed from Vineyard Haven on Wednesday for St. John.

Inauguration Sailings Announced
Announcement was made yesterday by Furness, Withy Company that the opening of the winter port season for its line would be inaugurated by the sailing of the steamer Comino from London for this port on November 22, and the return trip to London on December 15. The Manchester Importer will open the season for the Manchester Line, sailing from Manchester for St. John on November 19, and return on December 10. The steamer Rygia will be the first grain boat of the season. She will sail from Tyne on November 12 for St. John to load grain for Europe.

Steamer Notes
The Furness, Withy Company announced that the opening of the winter port season for the Furness Line would be inaugurated by the sailing of the steamer Comino from London for St. John on Nov. 22, and the return trip to London on Dec. 15. The Manchester Importer will open the season for the Manchester Line, sailing from Manchester for St. John on Nov. 19, and return voyage on Dec. 10. The first grain boat of the season will be the steamer, Rygia, which sailed from Tyne on Nov. 12. She will load grain for the continent.

The tug Springhill, Captain Mowry, came off the Dartmouth Marine Railway yesterday and is to leave for St. John about the middle of next week.

Coming With Coal
The schooner T. K. Bentley, Captain Leonard Berry, sailed from New York on Wednesday for St. John with hard coal.

Made Good Passages.
Two schooners Frances Parsons, Captain Robert Mosher, from Richmond, N. B., and Maid of France, Captain John Haugh, from Bridgewater, are reported arrived at New York. Both made good passages, the former from Riverport, where she put in for shelter.

Loads for South America.

For November 30th
Several Factories Along Washington County Shore Already Closed.

Eastport, Nov. 16.—The sardine canning season on the entire Maine coast comes to an end on Nov. 30, but several factories have closed recently along the Washington county shore, two having taken the last supplies of fish in Eastport last week, and others soon will follow.

The first of the ten large canneries to close in Eastport was factory number 3 of the Seacoast Canning Co. and it was closed by the company's number 7 factory in the southern part of the city.

Since the opening of November, fish supplies had been tight in all parts of Passamaquoddy bay and even in the Bay of Fundy it was impossible to gather up sufficient supplies to keep one of the largest canneries running on steady time, for there are canneries in Eastport that easily handle 100 hogheads daily during the busy season.

From 800 to 1,000 hogheads are often taken in a day at these ten local plants, worth during the entire season \$5 per hoghead, and if there are any plants of herring this week, as also for the balance of November, numbers of the factory owners will continue to pack American sardines as the season has been unusually short, a late opening in July when the canning season usually starts on April 15; and frequently the supplies of fish were very small and only omitted work had for the past few weeks. With less than one million cases of 100 cans each expected to be packed on the coast before the end of the season, it is safe to say that all of the 1921 pack will be out long before the time arrives for another opening. It is safe to say that all of the 1921 pack will be out long before the time arrives for another opening. It is safe to say that all of the 1921 pack will be out long before the time arrives for another opening.

Buy enough herring to continue running their extensive canneries an early closing is more profitable. This is the long looked for week with favorable ideas for schools of herring to arrive.

tain W. B. Armit, arrived at Philadelphia on Wednesday from New York, where she discharged part cargo of pulp from Port Alfred, Quebec, and after getting clear of the balance at Philadelphia will sail for Halifax to load for Rio Janeiro and other South American ports.

Ship Many Apples.
Furness, Withy & Company were expediting the Manchester Mariner to arrive at Halifax yesterday from Baltimore, to load apples for England. They advise that the Hextmore is to sail Dec. 1 from Halifax for Liverpool with apples, the steamer coming here from Philadelphia, and on Dec. 25 the Northwestern Miller will be leaving for London with apples, followed by the Thistlemore on Jan. 7 for Liverpool. The Hextmore and Thistlemore are fast boats, both oil burners, but the Hextmore holds the freight record for crossing the Atlantic from this port, having recently made the run in seven days. The Thistlemore went across in seven and a half days.

R. M. S. P. Caraquez.
The R. M. S. P. liner Caraquez en route to St. John and Halifax from Demerara and the British West Indies, arrived at Bermuda Thursday and left there yesterday, arriving in St. John on Monday.

Fastest Trip Across.
On her last trip from Southampton en route to St. John and Halifax from Demerara and the British West Indies, arrived at Bermuda Thursday and left there yesterday, arriving in St. John on Monday.

THE WEATHER

Toronto, Nov. 18.—In the Western Provinces west of Winnipeg, the temperature is everywhere much below zero, while from the lower Lakes region eastward the weather is mild and cloudy with rain in many localities. Storm signals are displayed at lake ports.

Table with weather forecasts for various locations including St. John, Dawson, Prince Rupert, Victoria, Vancouver, Kamloops, Calgary, Edmonton, Prince Albert, Medicine Hat, Moose Jaw, Saskatoon, Regina, Winnipeg, Port Arthur, White River, Parry Sound, London, Toronto, Ottawa, Montreal, Quebec, and Halifax.

AROUND THE CITY

SPRUCE LAKE MAIN. Only 300 feet of pipe remains to be laid in the extension of the new pipe line to Spruce Lake.

TRAINS DELAYED. A car of grain jumped the track at Fredericton Junction yesterday morning at 4 o'clock, blocking the main line for four hours. As a result the Montreal express due here at 6:35 a.m. did not arrive until 10:30, while the Fredericton train due at 8:55 did not reach the city until 11:10.

MOVIES IN HAMPTON. Two enterprising young men of Hampton have made arrangements to have a motion picture hall and dance studio over the bank of Nova Scotia in that village. It is expected that the hall will open in about two weeks time.

RIVER NOTES. Steamer Hampton returning from the Belleisle on her last trip of the season, tied up at her wharf, Indian-cove yesterday afternoon. She is the third river steamer to go into winter quarters.

WINS SCHOLARSHIP. Allan Gordon Duxton, esquire, son of the late Rev. J. S. Duxton, Halifax, has been awarded a scholarship of \$1,000 by the Dominion Government. This scholarship is given to Mr. Duxton in recognition of his research work, chiefly in Nova Scotia and New Brunswick, and also with a view to making it possible for him to continue and extend his work in entomology.

AT THE G. W. V. A. The four party candidates have accepted invitation of the local branch of the G. W. V. A. to address the returned soldiers at a meeting to be held on Monday, 21st, inst., in the G. W. V. A. Hall, 27 Wellington Row at 8 p.m. Admission is returned men only and by ticket, which may be obtained free, on application to the Secretary.

A COLLISION. At about 5:30 o'clock last evening, at the corner of Dock street and Market square, automobile No. 8396 and a West St. John street car, No. 115, collided. The automobile had a rear mud guard badly bent. The street car had a piece of moulding torn off the door and was scraped on the side. The auto was driven by T. E. Wiggins, and the street car was in charge of C. W. McLean.

RED CROSS PRESIDENT. Mrs. F. S. White was announced as president of the local Red Cross for the ensuing year, following a meeting of the executive yesterday morning. Mrs. James F. Robertson and Mrs. F. Stetson were appointed a committee to arrange for preparing Christmas parcels asked for by Miss Marven, of the Soldiers' Settlement Board. A sum of money was voted for Christmas stockings for soldiers in hospitals.

SEVERELY INJURED. Frank Dunham, a motorman on one of the street railway cars, sustained painful injuries yesterday morning when his car jumped the rails in Union street. West St. John. Mr. Dunham's head went through the front window. One of his ears and the side of his head were badly lacerated. He was given first aid in E. B. W. Ingraham's drug store. Later he was taken to the office of Dr. B. F. Johnson, where it was found necessary to put three stitches in the wound.

REGISTRATION. Hon. J. R. Armstrong was kept busily engaged yesterday morning hearing applicants desiring to have their names added to the voters list for the coming federal election. Several names were accepted and added to the list. In a great many cases applicants have appeared who have not first gone to the sheriff's office to ascertain if their names were on the list. These were referred to the sheriff without further questioning. The registration will continue until Monday.

Been Appointed A Commissioner

Sir Douglas Hazen Will Investigate Claims Through Illegal Warfare. Sir Douglas Hazen, K. C. M. G., Chief Justice of New Brunswick has been appointed a commissioner to investigate claims of persons residing or carrying on business in Canada who have been subjected to loss arising through the destruction of life and property through the illegal warfare of the enemy. He will also investigate claims for damages to which persons residing in Canada have been subjected for breaches of contracts, which contracts were prevented from being carried out owing to the operation of the statutory list of persons in neutral countries with whom contracts were declared illegal.

Detective Kennedy And Jay Walkers

Average Person Doesn't Take Road Traffic Into Consideration. The following from the Halifax Herald in an interview with Detective Kennedy will perhaps apply to any other city and should be warning to all pedestrians.

"In discussing the recent automobile accidents, which have happened in this city, and in which pedestrians were injured, Chief Detective Kennedy stated that although there was no record kept, he felt safe in saying that in the great majority of cases, the pedestrians were at fault. "Looking at the question from the standpoint of a man who drives an automobile, and I do," said Mr. Kennedy, "I believe that 'jay walking' has reached a point in this city where something should be done. The average person walking the streets, does not even take the road traffic into consideration, they don't think drivers have nerves. "They cross the streets where and when it pleases them, and dash out from behind parked cars on the best thoroughfares, without even a glance to right or left. I have often expressed surprise that more people are not injured on the streets. They don't stop to think that they are endangering their lives, and creating a situation in which, if an accident does occur, a car driver cannot rightly be held responsible."

In reference to the last paragraph of an article recently written by a correspondent in Woodstock, re the Women's Institute Convention, there is absolutely no truth in the statement that there was any difference of opinion between Mrs. Harvey, of Fredericton, and myself. Neither is there any truth in the reference to a feud existing between us."

MRS. LAWLOR SAYS NO FRICTION EXISTED

Takes Exception to Press Report Emanating from Woodstock. Mrs. Lawlor, in an interview with The Standard wishes to make the following statement:

In reference to the last paragraph of an article recently written by a correspondent in Woodstock, re the Women's Institute Convention, there is absolutely no truth in the statement that there was any difference of opinion between Mrs. Harvey, of Fredericton, and myself. Neither is there any truth in the reference to a feud existing between us."

THE HIGH Y CLUB ENJOYED SOCIAL

The High Y Club of the Y. M. C. A. held a social last night in that institution. The young gentlemen of the club with their lady friends met at the "Y" at 8 o'clock, and proceeded to the Imperial Theatre. After the show the assembly repaired to their headquarters and held a dance which was very much enjoyed. At the dance a buffet lunch was served, thus eliminating the kitchen drudgery for the boys, and saving time. Mrs. H. D. Friz very kindly acted as chaperone for the evening. Harold Williams was master of ceremonies for the club. The committee in charge were Royden Christopher, Harris Peat and Jack McMurray. The pianist, Charles Case, furnished the music for the occasion.

EARLY MORNING FIRE

An alarm was rung in from box 73 at about 2:30 this morning for a small fire in the Victoria Photo Studio on the north side of King Square. The blaze was caused by a small electric stove which was left going and which caught fire to some papers and articles nearby. The damage done was very slight.

AUTOMOBILES COLLIDE. A slight accident occurred at the corner of Mill and Pond St. at seven o'clock last evening when auto number 11825 operated by William McHugh collided with auto 1263 operated by Albert Horn. Both cars were slightly damaged.

Trades And Labor Council Meeting

Communications from the Los Angeles Council Considered—Unemployment Discussed. At the regular meeting of the Trades and Labor Council, held last night in Labor Hall, there was a large attendance present, and Ira Ferris was in the chair. The meeting was given over largely to matters of routine and the discussion of communications from other councils.

Among the most important of the communications given consideration were two from the Los Angeles Labor Council, which called attention to a picture entitled "The Stead Girl," produced in Los Angeles, which is a capitalization of one of the moving picture stars being convicted in the courts. The local council was asked to see to it that the theatres here did not show this film. The second communication from the Los Angeles council said that the building trades were advertising for all C. I. young men when there is already a large number of unemployed there, and the council asked for copies of advertisements appearing in local papers. The council went on record as endorsing the action of Mayor Schofield in warning labor from outside of the city that there will be no work for them here this winter. The unemployment question was discussed and it was pointed out that Warden Bullock and Premier Foster had not appointed the unemployment committee as talked of at the meeting of the Union of Municipalities. The council endorsed the petition being circulated asking the city council to place the matter of municipal ownership of hydro-electric power before the citizens in a referendum.

SOCIAL EVENING FOR THE Y. M. C. I. SENIORS

Games, Vocal and Instrumental Numbers Enjoyed at First Social of the Season. Auction Bridge Whist, Auction Forty-five, vocal and instrumental numbers, selections from an Edison Re-creation and special numbers, all went towards furnishing a very pleasant night's entertainment to the members of the Senior Y. M. C. I. young men and women, at their first social of the season which was held in the Y. M. C. I. auditorium last evening. The programme which follows was carried out during the course of the evening, and refreshments were served at its close.

Vocal solo, Miss Margaret McCarthy. Electric club singing, L. T. Dow. Vocal solo, W. J. Melody. New Edison Re-creation selections, F. Pickett. Vocal solo, Miss Bernice Mooney. Step dancing, Campbell McFadden. Vocal solo, Ernest Driscoll. Accompanists, Mrs. W. J. Melody, and Miss Anna McGarrigle. The chaperones were Mrs. H. J. Sheehan, Mrs. Fred Lynch, Mrs. J. J. McDonald, Jr., Mrs. Murphy and Miss K. Lawlor.

INDUSTRIAL HOME BOYS ENTERTAINED

About twenty-five members of German street Baptist church Philathea Class went to the Boy's Industrial Home last evening and gave a pleasing entertainment for the boys. The party was in charge of the class president, Miss Winifred Dunbrack and a musical programme along with games delighted the young fellows, who were also served with refreshment.

TRAFFIC CASES

A large part of yesterday morning at the Police Court was taken up with traffic cases. Arthur Northrup, pleaded guilty to the charge of not sounding his horn at the corner of Union and Prince Edward streets. Lewis W. Corey, pleaded not guilty to speeding at the corner of Union and Prince Edward streets. Thomas Linden said that the car was never going more than eight miles an hour. A fine of \$10 was allowed to stand. John Fitzgerald pleaded guilty to not stopping his team at the foot of King street when ordered to do so. A fine of \$10 was allowed to stand. Gordon Waters appeared for Mrs. Waters, reported for driving on the wrong side of Charlotte street, and for speeding, and reported for speeding on Prince Edward street. A fine of \$30 was struck; \$20 allowed to stand. G. E. Wetmore and W. L. Logan, reported for speeding and not sounding their horns, were fined \$10 each. William Webber failed to appear. William Hill, reported for speeding, was fined \$10. E. S. Ritchie for Mr. Hill.

Y. M. C. I. MEETINGS

The first of a series of monthly meetings of the senior members of the Y. M. C. I. will be held in the Y. M. C. I. Auditorium tomorrow afternoon at four o'clock. The meeting will inaugurate the opening of the building on Sunday afternoons and evenings. In the evening at 8 o'clock the Board of Directors, the team captains and other workers will meet to complete plans for the membership drive which will open on Monday and continue throughout the week.

Summer Homes Broken Into

H. S. Wanamaker Finds That His Own and Two Other Cottages Entered. When H. S. Wanamaker at 47 Elliott Row visited his summer home at Renforth yesterday he was surprised to find that the place had been broken into. The person or persons made the break Wednesday or Thursday night. A pane of glass was smashed in a window so the catch could be unfastened and the sash raised so that an entrance could be made. Articles were strewn about the house and the prowler made himself at home as there was evidence of a bed having been occupied. Speaking to The Standard last night Mr. Wanamaker said he was not sure yet if anything had been stolen from him. Finding his home in such a condition, Mr. Wanamaker made an investigation and found that the cottages owned by Mrs. J. T. McInerney and Mrs. Thomas had also been broken into and the owners last evening and it will not be known if anything has been stolen until the owners visit their places. Every year during the time summer cottages have been vacated by the owners in different sections of the country, reports are received of numerous breaks. This year the breaks have occurred earlier than usual and it is remarked that some protection is needed. The discovery of the break was undoubtedly caused other people to visit their premises and make investigation.

Woman Swoons In Police Court

Daughter Remanded to Jail for Abusive Language—Ge. Durant Created Disturbance. A case against Mrs. Gerlie Campbell charged with using threatening and abusive language to Mrs. Mary Frowley was concluded in the police court yesterday afternoon, and the defendant remanded to jail pending the magistrate's decision. George Curtis testified to hearing the noise of breaking dishes and furniture in the Campbell flat, and the evidence of a free fight, whereupon he phoned for the police. He said he heard Mrs. Campbell reply to another woman's proffers of help, that she had a knife in her hand, and that if any one came out of the house she would stab them through the heart. He saw a butcher or bread slicer in his wife's hand, which was in the defendant's hand, he said. Miss Quigg, Charles Mitchell, and 15-year-old Lillian were recalled to the stand and gave evidence similar to that adduced at a previous hearing. Mrs. Campbell in her own defense denied having a knife in her hand, or threatening to shoot any one. Her husband Robert Campbell said he heard the row but did not see a knife in his wife's hand. W. M. Ryan appeared for the prosecution, and Miles Innis for the defense. When the Magistrate gave the order to have the accused remanded, her mother, Mrs. Mason, interceded in her daughter's behalf. The Magistrate refused to listen to her however, saying that such a plea was not a disgrace to Christian people, but told her she might talk with her daughter if she wished. Mrs. Mason entered into conversation with her daughter in the prisoner's dock, and shortly afterwards fell to the floor in a hysterical swoon. She was revived by Police Matron Ryan and taken home.

Further hearing was given the case of George Durant, charged with creating a disturbance in his home 182 St. John street. W. E. Mrs. Durant said her husband came home drunk and used abusive language, so that she was obliged to call the police. On his promise to keep quiet the officer left, but she felt that she was obliged to call him again and give her husband in charge. The case may be settled out of court. James Bruff, charged with wandering about Dock street and not giving a satisfactory account of himself, pleaded guilty and was remanded.

Interested Electors Attending Rallies of Conservatives

Kings Co. Electorate Crowd Auditoriums to Hear Campaign Issues Discussed. Public meetings in the interest of the National Liberal Conservative party were held at Penobscot, Kings county, on Tuesday evening, the 16th, and at Watford on Wednesday. Both meetings were addressed by the Hon. James Murray and Everett J. Chambers, of Sussex. The speakers ably discussed the issues of the election. The fairest stand of the party on the tariff question was placed squarely before the people and the hedging of King and Crerar fully exposed. In spite of the bad roads the meetings at both places were well attended, and the speakers were given a splendid reception.

PERSONALS

Mrs. H. V. MacKinnon, 112 Leinster street, returned home yesterday after an extended visit to Montreal and New York. Halifax Echo: Mrs. J. Gillis Keator has returned from a brief visit to Moncton, where she was the guest of Mrs. J. W. Y. Smith—Mrs. Arthur Brantford, of Armdale, left last night for St. John, where she will visit her son and renew old acquaintances. Rev. W. D. Wilson and Rev. J. B. Doughty arrived from Fredericton yesterday.

H. P. Hayward returned from Montreal yesterday afternoon. A. N. McLaughlin, C. P. R. agent at Sydney, N. S., arrived in the city yesterday on the Montreal train en route to his home. A. E. Lowser of Bathurst arrived in the city on the Maritime express yesterday afternoon. G. S. Mayes returned yesterday after a business trip to Montreal. Rev. J. A. MacKinnon returned yesterday from Halifax, where he has been attending a meeting of the senate of the Presbyterian College, a shipment of 400 head of cattle having arrived in the city last evening from Fredericton.

A. R. Wetmore and W. B. Allen of Fredericton were in the city yesterday. H. Priestman of McAdam Junction is registered at the Victoria Hotel. E. M. Sherwood of Moncton was a guest at the Victoria Hotel yesterday. E. A. Caldwell of Woodstock was registered at the Dufferin Hotel yesterday.

WORD OF CATTLE FROM HERE. The secretary of the Board of Trade was advised yesterday that a shipment of 400 head of cattle would be made through this port early in December. He wired the department of trade and commerce at Ottawa, advising them of this fact, and calling attention to the need for haste in the provision of adequate shipping facilities, which project has been under consideration by the department, for some time.

St. Stephen Women Organize

The lady supporters of the Meighen Government in St. Stephen have completed an organization to be known as the "Women's National Liberal Conservative Organization." The officers consist of a president, vice-president and secretary. Efficient ward committees have been appointed and are already at work.

A club room has been opened in the Biron Building with a lady in attendance both afternoon and evening. It is hoped that this room will be used as a rest room for out of town ladies.

The regular meeting of the organization is held each Monday evening. At a largely attended meeting last Monday two splendid addresses were given by Mrs. John McGibbon and Mrs. A. E. Vesey respectively. The first speaker dealt with some of the issues of the campaign, notably the tariff; the second briefly reviewed the history of the Liberal Conservative party since Confederation.

The meetings grow in attendance and enthusiasm each week. All ladies interested in the work of the organization are invited to be present.

Clifton House, all meals 60c. ALLEGED POISONED CANDY. Detective Donahoe, who has been investigating the poisoned candy case, said that five small boxes of the candy were bought at a local candy stand by the man who thought it was poisoned. Only a part of a box had been eaten. The rest was burned before the detective had been notified, so that it was impossible to have the candy examined. Detective Donahoe found that the whole stock of candy had been sold, and that as far as he had been able to learn, there had been no other complaints. It was not clear that the candy was the cause of sickness.

Another Big Day

Today, Saturday, will be another big day at Hunt's Annual Fall and Winter Sale. Special attention is called to the wonderful values in Men's Winter Overcoats which range in prices from \$15.50 to \$45.00. Last Saturday the store was crowded during the afternoon and evening and customers are urged to shop early today so that they can be given the very best of attention. Extra Salespeople have been employed so that everyone will be looked after. See Ad. on page 2, and see Store Windows. HUNT'S CLOTHING STORE, 17-19 Charlotte St.
