

ston, Fred. Craft, O. D. Turner, R. Smith, C. Smith.
Vestry clerk—A. R. Bedell.
Auditors—S. M. Sewell, Arthur Johnston.
Treasurer—H. A. Craft.
Delegates to the synod—H. Lord, S. M. Sewell.
Substitutes—Martin Peterson, W. Lundberg.
Laymen's missionary movement committee—H. Lord, S. M. Sewell, H. Orr, T. H. Johnston, O. D. Turner, M. Peterson, J. A. Maxwell.

St. Jude's.
The annual meeting of St. Jude's church, Carleton, last night, was well attended. The officers elected were as follows:
Church wardens—Charles Coster, W. O. Dunham.
Vestrymen—C. F. Tilson, S. M. Westmore, A. Coster, W. L. Harding, E. W. Ingraham, F. W. DeVeber, Horace Tapley, F. W. Cunningham, S. G. Olive, R. H. Smith, J. F. Smith, A. F. Foster.
Delegates to the synod—Charles Coster, W. O. Dunham.
Substitutes—W. L. Harding, S. M. Westmore.

Woodstock, N. B., April 17—(Special).—The annual meeting of the parishioners of Christ church was held this afternoon. The following officers were elected: Church wardens, F. B. Bull, J. T. Allan; vestrymen, A. F. Garden, T. C. L. Ketchum, George F. Smith, A. J. Raymond, C. H. Smith, Dr. C. H. Smith, C. L. S. Raymond, T. C. Ketchum; substitutes, A. F. Garden, J. T. A. Dibble; vestry clerk, H. W. Bourne; auditor, E. N. Draper, H. W. Bourne.

St. Paul's, Hampton.
Hampton, N. B., April 17—(Special).—The annual meeting of the Episcopal parish of St. Paul's, Hampton, was held this afternoon. E. Allen Schofield, in the chair. The report of the corporation elicited considerable discussion as it involved some details regarding the heretofore pursued with regard to the distribution of the funds. The receipts for the year were \$2,447.80, and expenditures \$2,341.80, leaving on hand \$106.00. The following officers were elected: Wardens, E. R. Demille, E. Allen Schofield; vestrymen, J. F. Giger, Ernest Foster, J. W. Smith, H. P. Smith, C. L. Lyon, Dr. F. H. Wetmore, J. M. Scott, Lawton Fowler, Dr. J. N. Smith, J. R. Crawford, J. L. Wammannaker, E. W. Bourne; delegates to synod, G. O. Dickson, D. O. Giger; substitutes, E. R. Demille, J. M. Smith; auditors, Dr. F. W. Wetmore, J. W. Smith; vestry clerk, J. W. Smith. The meeting was extended to the latter for his valuable services in the past year.

Moncton Church Elections.
Moncton, N. B., April 17—(Special).—At the annual meeting of St. George's church congregation tonight, the reports and statements presented showed a year of progress in every department of the church work. The following officers were elected:
Wardens, J. G. Wray, S. L. Shannon; vestry clerk, J. W. Smith; auditors, W. D. Martin, J. S. O'Dwyer, A. E. Williams, S. Watters, R. W. Hewson, G. W. Willett, H. S. Bell, Wm. Powell, H. Clarke, Dr. L. H. H. C. Martin, W. S. Wm. Gordon; representatives to synod, S. L. Shannon, R. W. Hewson; alternates, E. J. Payson, G. H. Clarke.

WEDDINGS.
Wheaton, Carter.
Tuesday, April 18.
At an early hour yesterday morning, Rev. Wm. H. Sampson, in marriage, Inez Iola C., daughter of Captain and Mrs. W. S. Carter, of the West End. Many beautiful presents were received. All the young couple many years of happiness.

DAYS OF VETO GONE, SAYS ASQUITH

Declares Commons Must Rule House of Lords Must Bend to Will of People

Balfour Calls Liberal Bill to Curb Peers a Monstrous Proposition—Says Electorate Was Not Aware They Were Voting for Home Rule.

Canadian Press.
London, April 20.—The debate on clause two of the veto bill, which restricts the power of the house of lords over measures other than money bills, opened before a thin assemblage in the house of commons this evening.
Clause two of the bill, designed to limit the powers of the house of lords over legislation adopted by the first chamber, provides as follows:
"If any bill, other than a money bill, is passed by the house of commons in three successive sessions (whether of the same parliament or not) has been sent up to the house of lords at least one month before the end of the session, is rejected by the house of lords in each of those sessions, that bill shall, on its rejection for the third time, by the house of lords, unless the house of commons direct to the contrary, be presented to his majesty and become an act of parliament on the royal assent notwithstanding that the house of lords has not consented to the bill."
The question of the veto of bills has been a subject of discussion for many years. Home Secretary Churchill today refused to even consider a motion to limit the operation of clause two to three years. He declared that the government would not accept any time limit of the period in which they should refer the upper house.

The Days of Veto Gone.

Premier Asquith in a fighting speech declared that the government would accept amendments which would exclude from the clause any class of legislation.
The assumption underlying the bill, he said, was that the house of commons, representing the people, provided a check on the house of lords. They were not taking away its veto, but were only limiting its duration and scope. "The veto of the crown is gone," he exclaimed, "the prime minister, it is as dead as Queen Anne. It has gone by dimes; so ought the veto of the house of lords to have gone."
When the house of lords turned itself into a permanent partisan ally of one particular party, continued Mr. Asquith, it became necessary to deal with it by legislation. The Liberal party had received a mandate from the country for the bill and would carry out the objects the party had at heart.
Mr. Balfour, leader of the opposition, said that the claim that the house of commons should be omnipotent in legislation was a "monstrous doctrine."
It meant an absolute single chamber of government. He maintained that the electorate did not know when they returned to the government that they were voting for the whole constitution being modified in a scandalous bargain between the government and the Nationalists.

CAPTAIN ROGERS WRECKS TWO VESSELS IN FIVE WEEKS

lost the Allan Greene in the Bay of Fundy, and Yesterday the Schr. Caroline Gray West Ashore.

Rockland, Me., April 20.—The two-masted Rockland schooner Caroline Gray, wrecked off Cape Cod, is the second vessel in which Captain Samuel H. Rogers, of this city, has been wrecked recently. Five weeks ago today he was wrecked in the Bay of Fundy with the Deer Island schooner Allan Greene, and lost one of his crew. The Gray is valued at \$5,000, and is insured. She was bound from Rockland (Me.) for New York with passengers.

Kid McCoy Bankrupt.

New York, April 20.—Norman Selby (Kid McCoy) is a very much interested in the Ne Temere decree and a sub-committee appointed some months ago will report on it, and it will be fully discussed at the Ottawa district meeting to be held at Dominion Methodist church on May 17 and 18. It will also come up at the Montreal Methodist conference session at Montreal in June at which some twenty Ottawa delegates will attend.

WEDDINGS.
At an early hour yesterday morning, Rev. Wm. H. Sampson, in marriage, Inez Iola C., daughter of Captain and Mrs. W. S. Carter, of the West End. Many beautiful presents were received. All the young couple many years of happiness.

SIR WILFRID FAVORS EMPIRE FREE TRADE

Sees Little Chance of It Soon CONGRESS LIKELY TO VOTE ON RECIPROcity TODAY

The American Farmer Faces Ruin from Canadian Competition, is the Song the Opposition Are Singing Now—Many Republicans, However, Favor the Measure—"Uncle Joe" Enlivens the Debate.

Canadian Press.
Washington, D. C., April 20.—State and party affiliations were repeatedly broken in the course of representatives today in the concluding hours of the fight on the Canadian reciprocity bill. Democrats denounced their fellow Democrats for supporting a Republican protective principle and Republicans hurled criticism against their fellow Republicans for supporting the reciprocity bill. The bill was passed by a vote of 237 to 177.
The American farmer faces ruin from Canadian competition, is the song the opposition are singing now. Many Republicans, however, favor the measure. "Uncle Joe" enlivens the debate.
The star speech of yesterday was that of ex-Speaker Cannon, whose whimsical argument and comical delivery kept the house in a jolly mood for three hours. He is beginning to tell the ex-speaker as he himself freely confessed during his speech. He declared his unflinching devotion to the doctrine of protection, and said that the intrinsic evidences were abundant that only the insistent demands of the agricultural press caused the president to take the initiative for the first time in our history to secure a reciprocity agreement with Canada.
He gave an amusing account of how, in the 60th congress, the bill for free wool pulp was introduced and referred to the ways and means committee, and, with but one vote in its favor, was postponed indefinitely. Then, Mr. Cannon said, Herman Ridder came to him and asked that he recognize a member to make the motion to discharge the committee from further consideration of the bill, to which the speaker replied that he could not do that so long as he had before him his responsibility to the country and to his party.
"There was some nasty talk," observed Mr. Cannon, "but I think God that when I approach the gates of one or the other of those places where men go and where I shall never be admitted, I shall find a muslin halo, I shall go with my head erect, conscious of having tried to preserve my self-respect."

States Split Up.

The Minnesota delegation broke on the rocks of reciprocity. Mr. Nye, of Minnesota, spoke for the bill, and Messrs. Steenerson, Anderson, Davis and Volstead opposed it. The Michigan delegation spoke in a like division, Mr. Doremus advocating the bill and Mr. Smith opposing it. From Pennsylvania Messrs. Bowman and Farr advocated its passage and Mr. Focht denounced it.
From California Mr. Needham spoke for the bill and Mr. Kain against it. Representative Hobson, of Alabama, Murray, of Arkansas, and Curley, of Massachusetts, advocated the bill, and Messrs. Prosty, of Iowa; Moran, of Oklahoma; Burke, of South Dakota; Helgeson, of North Dakota; Frank, of Idaho; Young, of Kansas, and LaFollette, of Wisconsin, spoke against it.

SIX MEN HURT IN TRAIN COLLISION IN BUFFALO YARDS

Buffalo, N. Y., April 20.—Six men were injured, one very fatally, when a freight train struck a passenger train while entering the local yards today. Guy Hubert, of Indianapolis, who had jumped on the passenger locomotive for a ride, was probably fatally hurt. The other, all trainmen are expected to recover. A misplaced switch caused the accident.

EIGHT-HOUR BILL UP IN THE SENATE

Spain and France at Loggerheads? Sir R. W. Scott is Strong for It

Says Millionaires Better Raise Wages Than Build Libraries

Canadian Press.
Ottawa, April 20.—In the senate today, Sir Richard Scott resumed the debate on the bill providing an eight-hour day on the construction of public buildings. He endorsed the measure, declaring that eight hours of willing work was better and more profitable for the employer than nine or ten of unwilling work. The principle of eight hours had already been applied by the government to the printing bureau and in other departments.
The position of laborers was better sixty or seventy years ago, before great fortunes had been created and before employers and men had become so far separated. It was the men who toiled who made the wealth and speaking generally they were being underpaid. The result was dissatisfaction, which was likely to have dangerous consequences.
He could remember when the men with \$10,000 an income could be counted on the fingers of one hand, and then there were no trade unions or strikes in Canada. The effect of the policy of underpayment was that it had a constraining effect on the laborer. An employer who accumulated great wealth could not make compensation to his men by building libraries or aiding public institutions. The only way he could give them just compensation for their toil was in their pay envelopes on Saturday night.
Senator Macdonald, of British Columbia, declared that the next demand would be for a six-hour day, and it would be granted, because parliament was afraid of the voting power held by labor.
Senator Beique stated that the interests of capital and labor were not antagonistic but were common. While a compulsory eight-hour day might work well in some cases, he thought it would be bad for the country and for labor itself if an eight-hour day became general. Unfortunately in Canada, owing to the climate, labor could not count upon employment for more than seven or eight months of the year and to these circumstances the bill touched upon a great economic question. Its application could hardly be limited as the government proposed, for if eight hours was the proper measure of working time for public works, it should be the proper measure of time throughout the country. He did not believe that a working man suffered injury if compelled to work ten hours a day. For thirty years, he had worked at two hours for sixteen hours each day without impairing his health. Senator Beique adjourned the debate.

TROUBLE IN MOROCCO

It is Reported the Policy of Alfonso's Government to Quell the Tribesmen Has the Kaiser's Approval, But Does Not Suit the French.

France and Spain at Odds.

With the development of the revolt in Morocco threatening the security of the Sultan's government and the preparations of Spain and France to protect their interests in the event that order was not soon restored, have come rumors that the two countries were at odds over the measures to be taken and that Germany had intimated to Madrid that it was not in sympathy with the French plan.

SOLDIERS AND CIVILIANS CLASH AT KINGSTON, JA.

Redcoats Used Razors With Deadly Effect on Opponents and Many Were Slashed.

TORONTO DOCTOR ORDERED FROM TOWN

Fined \$50 Also—Had No License to Practice Medicine.

Kingston, Ja., April 20.—Disturbances have been going on here for two days between the soldiers of the West India regiment and civilians, and the police have had serious difficulty in handling the rioters. Serious fighting occurred in various parts of Kingston last night, the soldiers using bayonets with deadly effect. Many persons were treated at the hospitals and one death is reported from injuries inflicted. For a time the residents in certain quarters were panic stricken. Order was restored today.

Toronto, April 20.—Dr. Bach-Garabach, who was charged with practicing medicine without a license, was fined \$50 and costs this morning. He was also ordered to get out of town by the night of charges of fraud and vagrancy would be pressed against him. He claims to be a graduate of Heubelberg, Germany, and London.

FROM ALL OVER THE MARITIME PROVINCES

MILLERTON

Millerton, N. B., April 13—Miss Louise Crocker, of the U. N. B., is spending the Easter vacation with her parents, Mr. and Mrs. James Crocker.

Miss Addie Parker has gone to spend the Easter holidays in Sussex.

William Nicholson, who has been spending the winter at his home in Harcourt, has returned for the summer.

Harry Thurber, of the Technical School, Halifax, is spending the holidays with his parents, Mr. and Mrs. W. G. Thurber.

Miss Lena and Greta Flett, who have been teaching at Doaktown and Covered Bridge, respectively, are home for the holidays.

Miss Lillie Flett and Miss Sarah Saunders, of the Provincial Normal school, came in on the express last night, and will return to Fredericton on Wednesday to resume their studies.

Miss Nellie Crocker has returned from Harcourt and is now the guest of her cousin, Miss Jane Saunders, The Valley.

Miss Frances Cliff, Uppr Derby, spent Tuesday with Miss Dolly Russell.

Stanley MacDonald was here on Thursday in the interests of Albert and P. Coughlan, of Grey Rapids, who purpose going into the lively stable business here.

The young friends of Master Harold Miller will be pleased to know that he is speedily recovering from an attack of diphtheria.

S. C. Miller has gone west on a combined pleasure and business trip.

The ladies of St. Peter's church guild were the guests of Mrs. Cooper, at the rectory, on Thursday.

The warm weather of the past few days has weakened the river ice, making it quite unsafe for crossing. This means a great deal of inconvenience to the people in this section, as many residing on the opposite side, are engaged in various occupations in Millerton.

Millerton is one of the most thriving and prosperous of the North Shore towns, but is seriously handicapped at present because of lack of proper facilities in crossing the Miramichi. A great many attempts of a bridge at this point to accommodate teams and foot passengers. About one year ago the provincial government sent an engineer here who took soundings, etc., and made his report; but no action has as yet been taken thereon.

Now it is said that a bridge is to be built at Newcastle. Surely this cannot be so, where there is a regular ferry service, etc., and where the need is not nearly so great as here.

HAMPTON

Hampton, N. B., April 19—The annual Easter meeting of the Women's Missionary Society of the Methodist church was held in the Methodist hall yesterday afternoon. The Anglican, Presbyterian and Baptist societies of the Station and Village were invited; also the Methodist Auxiliary at Bloomfield. Each society was well represented, about seventy ladies being present.

The devotional exercises were led by Rev. Dr. Evans. Miss Duke, as president, gave words of welcome to the sister societies. She reviewed the work done by their own society and dwelt on the meaning of Easter to womanhood in general. In feeling terms she referred to the loss sustained by the death of Mrs. John March. Miss Beatrice Duke described some foreign Easter customs, referring to the help given by the Hampton Band in Christmas celebrations in the far west.

Mrs. S. E. King sang the solo, Oh! Rest in the Lord.

The heralds of the Watch Tower reported items from a number of fields of work. Miss Dorothy Brewster and Sybil Barnes read papers on customs in China. Miss Margaret Evans reported on the new home in Edmonton for foreign girls, for which the Mission bands are working this Easter. Miss Divo exhibited a small model of an Indian baby's moss bag (cradle) made by an Indian girl in the Morley Institute. Tea was served and a social hour enjoyed. The offering amounted to over \$12.

The hall was attractively arranged with small tables decorated with potted plants. The Boy Scouts gave valuable assistance to the ladies entertaining.

The first Easter party was given at the home of Mrs. R. A. March last evening, when the Misses Kathleen and Constance March entertained a number of their young

LAKEVILLE

Lakeville, Carleton Co., April 15—Miss Fern Page and Miss Annie Lynday, who have been attending Normal school, Fredericton, have come home to spend Easter with their parents.

E. A. Savage and little daughter returned home yesterday after having spent a few days in Fredericton.

Mrs. Wm. McWaid gave an informal party at her home last Thursday. The invited guests were Mr. and Mrs. Robt. Carvell, Mr. and Mrs. Robt. Smith, and Mr. and Mrs. W. F. Anderson.

Quite a number of friends of Mr. and Mrs. Robt. Smith invaded their home on the evening of the 27th of March and took them completely by surprise, the occasion being the tenth anniversary of their marriage. Games and music were the chief amusements. About 11 o'clock lunch was served, after which the gathering broke up, wishing their host and hostess many happy returns of the day.

Miss Ruby Carvell is at home, spending her vacation.

Mrs. H. Carvell is in Woodstock visiting Mrs. C. King.

Colin King has gone to Montreal to consult a specialist.

Mrs. D. Callahan (nee Miss Pearl Kennedy), who went west last August as a bride, died there last week of typhoid pneumonia. Her body will arrive Saturday.

Miss Scott, teacher of Lakeville school, went to Perth to spend her vacation.

FREDERICTON JUNCTION

Fredericton Junction, April 17—Joseph P. and George Alexander, Homer Currie and Marshall Nason, of the U. N. B., were home from Fredericton for the Easter vacation.

Principal A. J. Brooks spent the holiday at his home in St. John.

Misses Addie and Olive Hart, of the St.

SOUTHAMPTON

Southampton, N. B., April 15—Melbourne Patterson left for British Columbia last week, and was well met by Miss Dorothy White, Muriel and Leah Scovill, Jean Schofield, Ruth Humphrey, Sybil and Harriet A. Barnes, Claire Fowler, Dorothy March, Helen Scovill, and Masters Dudley March, Douglass Humphrey, Ren. Smith, Arthur Schofield, Roland Barnes and Cecil Langstroth. Very happy hours were spent with music, dancing, games and dainty refreshments.

Mr. and Mrs. Havelock Hoyt, of Victoria Corner, Carleton county, are visiting Mrs. Hoyt's parents, Mr. and Mrs. Leonard W. Mesereau.

Miss Luella Mesereau, of the Grammar school spent her vacation with her parents at Hoyt Station.

Miss Mary Colman, who has been teaching at Plaster Rock, Victoria county, has had to resign her school and return home because of illness.

ST. MARTINS

St. Martins, April 17—Mr. and Mrs. A. F. Bentley are receiving congratulations on the arrival of a baby boy.

Miss Clara Miller, of Upham, is spending a few days here with her parents, Mr. and Mrs. Cudlip Miller.

Harry Gilmore has returned home from Mt. Allison for the Easter holidays.

Miss Ethel Brown, who has been teaching at Silver Falls, is home for the holiday.

Dr. Harry Moran, wife and son Bernard, of St. John, spent Sunday with Mrs. Moran's parents, Mr. and Mrs. J. Bourke.

Albert Whitney, wife of Yorkwood (N. B.), are the guests of his aunt, Mrs. Joseph Carson.

Deacon Joseph Brown is very ill at his home here, and little hope is held for his recovery. His sons, Gilbert and Austin, and daughter, Mrs. Seely, of St. John, have been called to his bedside.

Rev. Willis Howard, of Mt. Allison, Sackville, is visiting friends here.

Miss Minnie Whitney, of St. John, has returned home for a month's holiday.

John Brown, of Mt. Allison, is spending his vacation with his parents, Mr. and Mrs. Omar Brown, of St. Martins (West).

REXTON

Rexton, N. B., April 18—Cornelius Murphy, one of the oldest and best known residents of this county, passed away at his home in Rexton on Friday, the 17th inst., after a lingering illness.

Murphy was born in Ireland and came to Kouchibouguac 69 years ago. He was 93 years of age and is survived by a family of three sons and two daughters.

At a recent date at Kouchibouguac the death occurred of Charlie, third son of Mr. and Mrs. William Potter, at the age of 11 years. He leaves his parents, four brothers and two sisters.

Gordon Bowser, who for the past two years has been manager of the Royal Bank of Canada at Edmundston (N. B.), spent his vacation with his mother, Mrs. E. Bowser, and left on Wednesday for Edmundston (N. B.). Mr. Bowser has recently been promoted to the position of manager of the Bridge street branch at Vancouver. His place at Edmundston has been taken by John McKendry, of Newmarket, who was manager of the bank here during Mr. Parker's absence to the old country.

HOPEWELL HILL

Hopewell Hill, April 18—Reports from the Albert county sugar woods say the season has been a very poor one.

The roads in some sections hereabouts are in a very bad condition at the present time. Even on the front highways, the mud is so deep in the places that wagon wheels sink almost to the hubs. The snow has been off a long time, but the frost is just coming out, and the result is a condition that makes travelling pretty unpleasant.

Miss Lucy Atkinson, who has been visiting relatives here, left yesterday for her home in New York.

Miss Lizzy Peck has gone to Moncton, where she will spend some time.

Miss Annie Robinson, of Riverside, returned today from a trip to St. John.

Dr. Baxter, who has been on a brief trip, returned to Albert today.

D. W. Harper, manager of the Bank of New Brunswick, Riverside, returned today from a trip to Sussex.

HARVEY STATION

Harvey Station, April 18—Robert H. Robinson, of Vancouver (B. C.), is visiting relatives and friends in this section. He will remain for a few weeks. He was formerly a resident at the station, and

FOR 25 YEARS HE SUFFERED

Well Known Merchant of Sarnia Cured by "Fruit-a-tives"

Sarnia, Ont., Feb. 26, 1910.

"I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors but derived no benefit whatever.

"Finally I read advertisement of 'Fruit-a-tives' and decided to give 'Fruit-a-tives' a trial and found they did exactly what was claimed for them.

"I have now taken 'Fruit-a-tives' for some months and find that they are the only remedy that does me good.

"I only recommend 'Fruit-a-tives' to a great many of my friends and I cannot praise these fruit tablets too highly."

P. A. J. JONES.

FOUR NORTHWEST POLICE DIED ON ARCTIC TRAIL

Bodies Found by Search Parties Many Miles Apart

ALL WERE VETERANS ON THE FORCE

Had Been Selected to Represent Their Corps at the King's Coronation—Inspector Fitzgerald of Halifax, One of the Victims; Had a Splendid Service Record.

Ottawa, April 18—News of the finding of the bodies of Inspector F. J. Fitzgerald and Constables Carter, Kinney and Taylor of the mounted police, near Fort McPherson, was received here today by Lt.-Col. White, controller of the R. N. W. M. P., who characterized the tragedy as the worst in the history of the famous force. He knew the particularly and feature of it is that the four men were chosen as the mounted police contingent to the coronation.

Until today the whereabouts of the men who left for McPherson and Dawson, on December 22, was a complete mystery to the department. Though not until they were forty days overdue was it deemed necessary to start the search party which found them.

"The inspector," said Col. White, "was a man of dogged determination and rugged constitution, with an experience of ten years in the Arctic circle. He knew the ground up there as few men did. The three constables were also experienced travelers, so when the party failed to turn up at Dawson on time, little anxiety was felt.

"Fitzgerald and his little band could weather almost anything, but as days went by with no sign of the expedition, headquarters at Dawson began to feel uneasy and when the men were forty days overdue, a search was begun, with the result that Kinney and Taylor were found thirty-five miles from Fort McPherson. They had perished almost in sight of their goal. The exact cause of the tragedy may never be known, but we believe that they had some difficulty with the dogs and attempted to return to Fort McPherson."

The same wire to Lt.-Col. White conveyed intelligence of the death of Herschell Island, in January, of Sergt. Selts, a native of Nova Scotia.

Inspector Fitzgerald was a native of Halifax, Kinney came from the United States, but joined at Winnipeg. Taylor was an Anstaban. Carter had seen twenty years' service on the force, and married an Eskimo at Herschell, the ceremony being performed by Bishop Stringer.

Toronto, April 18—From information supplied by his brother's family, it is learned that Inspector Fitzgerald was to have retired on a pension of \$1,000 a year at the end of 1913. He had served out his time under the terms of his first enlistment for twenty-one years, and had re-engaged for three years more at a monthly salary of \$100. He had served one year of this latter term.

Sergeant Fitzgerald came east on three weeks' furlough in the winter of 1909. While visiting his widowed mother in Halifax, word came of his promotion to the rank of inspector. While in Toronto he was instructed to recruit men for the force. He signed up 105 men altogether during his stay in this city. He was of particularly powerful build, and it is said of him that he would go anywhere that duty called him and never think about it.

Inspector Fitzgerald took part in the South African war in 1900, being a member of one of the cavalry contingents sent to the Northwest Mounted Police, on the coast of the Arctic Ocean, and he it was while broking the trail to Dawson country by the Edmonton route.

Inspector Fitzgerald was still a young man, his forty-first birthday occurring in some general way in the month of March at the age of twenty-two, and had seen service in the most remote regions of this continent.

The inspector was unmarried, but a announced intention having been to settle down in Halifax with his mother at the end of the next two years.

ST. MARTINS

Thousands now use "Fruit-a-tives." Thousands more will try "Fruit-a-tives" after reading the above letter. It proves, beyond the shadow of a doubt, that at last there is a cure for Constipation and Stomach Troubles.

"Fruit-a-tives" is Nature's cure for these diseases, being made of fruit juices and valuable tonics.

50c. a box, 6 for \$2.50, trial size, 25c.

At dealers, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

RICHIBUCTO

Richibucto, April 18—A fairly attended public meeting was held last evening in the Temperance hall, to hear addresses against the proposed reciprocity agreement between the United States and the Dominion of New Brunswick.

H. James was in the chair and introduced the speakers, A. S. Goodie, M. P., of Kootenay (B. C.), and F. R. Sprout, of the reciprocity party, of the United States. A vote of thanks, moved by Dr. T. J. Bourque, was tendered to the speakers.

James D. Phinney, K. C., of Fredericton, is spending a few days with his sister, Miss B. Phinney.

Miss Sarah Flanagan, of the Wesley street school staff, Moncton, is spending her vacation with her mother, Mrs. Martin Phinney, at the station.

Miss Kate Robertson, teacher at Kent Junction, is spending the Easter vacation with her parents, Mr. and Mrs. Roderick Robertson.

Mr. Robert Patterson is visiting her daughter in Moncton.

James Kavanaugh, who has been in Jacques River for the past year, came home last week to spend Easter with his parents and family.

Grace Wathen, who has been teaching near Kouchibouguac, is spending the holidays with her parents, Mr. and Mrs. Wm. Wathen.

The river is almost entirely free of ice. Most of the fishing boats have been launched.

PETITCODIAC

Petitcodiac, N. B., April 17—Miss Margaret Lear is spending a few days with friends in Fredericton.

Mr. and Mrs. Seymour Powell, of Painsic, Miss Jessie Cuthbertson and Allie Scribner, of Moncton, were guests over Sunday of Mr. and Mrs. R. W. Scribner at the station.

Miss Mary Allen, of Sussex, is spending the holidays with her parents here.

Mrs. Bishop, of Hillsboro, is the guest of her brother, Nathan Steeves.

Mrs. Will Heffer, of Sussex, is the guest of Mrs. C. A. Vallis.

Miss Ethel Turner, of Sackville, is spending a few days with Miss Florence Cochrane.

WESTFIELD BEACH

Westfield Beach, April 18—Mrs. H. Parker Jenkins, of St. John, attended the McKenzie-Finley wedding last evening.

Capt. J. F. Cheyne returned to Bathurst this morning, after having spent a few days with his family here.

Mr. and Mrs. Seth Prime were the guests of Mr. and Mrs. L. C. Prime, St. John, on Sunday.

Miss Elva Machum is spending a few days in St. John.

Hayes Rathburn, of Hibernia (N. B.), spent Sunday in Westfield, and took the train on Monday for Calais (Me.), where they have a contract for double-trucking twelve miles of the C. P. R.

The I. C. R. freight shed at Jacquet River was burglarized Saturday night and Monday morning and a quantity of goods taken. A man named Bryan Dempsey was arrested on suspicion and is now in jail at Dalhousie. A case of liquor, which was among the goods stolen, and the police say, was found on Dempsey's premises. Special Officer Tingley, of Moncton, and Policeman Savoy, of Campbellton, have the case in hand.

NEW JERUSALEM

New Jerusalem, April 17—Among those here to spend the holidays are Miss Hester Sleep, Miss Margaret Burgess, Miss Mabel Short, Miss Margaret Wallace, Miss Sadie Fulton, Misses Addie and Maud Kee, Miss Edith Machum.

Mr. and Mrs. John Brundage, of Oak Point (N. B.), were here on Sunday.

Miss Rheta M. Inch spent the holidays with friends in Jacksonville (N. B.).

HIS IDEA OF IT.

Critman—You ought to know something about flour and that sort of thing. Tell me, what is a "forget-me-not"?

Subbu—Why, it's a piece of string that your wife ties around your finger when you go in town on an errand.—The Catholic Standard and Times.

HE SUFFERED

Well Known Merchant of Sarnia Cured by "Fruit-a-tives"

Sarnia, Ont., Feb. 26, 1910.

"I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors but derived no benefit whatever.

"Finally I read advertisement of 'Fruit-a-tives' and decided to give 'Fruit-a-tives' a trial and found they did exactly what was claimed for them.

"I have now taken 'Fruit-a-tives' for some months and find that they are the only remedy that does me good.

"I only recommend 'Fruit-a-tives' to a great many of my friends and I cannot praise these fruit tablets too highly."

P. A. J. JONES.

FOUR NORTHWEST POLICE DIED ON ARCTIC TRAIL

Bodies Found by Search Parties Many Miles Apart

ALL WERE VETERANS ON THE FORCE

Had Been Selected to Represent Their Corps at the King's Coronation—Inspector Fitzgerald of Halifax, One of the Victims; Had a Splendid Service Record.

Ottawa, April 18—News of the finding of the bodies of Inspector F. J. Fitzgerald and Constables Carter, Kinney and Taylor of the mounted police, near Fort McPherson, was received here today by Lt.-Col. White, controller of the R. N. W. M. P., who characterized the tragedy as the worst in the history of the famous force. He knew the particularly and feature of it is that the four men were chosen as the mounted police contingent to the coronation.

Until today the whereabouts of the men who left for McPherson and Dawson, on December 22, was a complete mystery to the department. Though not until they were forty days overdue was it deemed necessary to start the search party which found them.

"The inspector," said Col. White, "was a man of dogged determination and rugged constitution, with an experience of ten years in the Arctic circle. He knew the ground up there as few men did. The three constables were also experienced travelers, so when the party failed to turn up at Dawson on time, little anxiety was felt.

"Fitzgerald and his little band could weather almost anything, but as days went by with no sign of the expedition, headquarters at Dawson began to feel uneasy and when the men were forty days overdue, a search was begun, with the result that Kinney and Taylor were found thirty-five miles from Fort McPherson. They had perished almost in sight of their goal. The exact cause of the tragedy may never be known, but we believe that they had some difficulty with the dogs and attempted to return to Fort McPherson."

The same wire to Lt.-Col. White conveyed intelligence of the death of Herschell Island, in January, of Sergt. Selts, a native of Nova Scotia.

Inspector Fitzgerald was a native of Halifax, Kinney came from the United States, but joined at Winnipeg. Taylor was an Anstaban. Carter had seen twenty years' service on the force, and married an Eskimo at Herschell, the ceremony being performed by Bishop Stringer.

Toronto, April 18—From information supplied by his brother's family, it is learned that Inspector Fitzgerald was to have retired on a pension of \$1,000 a year at the end of 1913. He had served out his time under the terms of his first enlistment for twenty-one years, and had re-engaged for three years more at a monthly salary of \$100. He had served one year of this latter term.

Sergeant Fitzgerald came east on three weeks' furlough in the winter of 1909. While visiting his widowed mother in Halifax, word came of his promotion to the rank of inspector. While in Toronto he was instructed to recruit men for the force. He signed up 105 men altogether during his stay in this city. He was of particularly powerful build, and it is said of him that he would go anywhere that duty called him and never think about it.

Inspector Fitzgerald took part in the South African war in 1900, being a member of one of the cavalry contingents sent to the Northwest Mounted Police, on the coast of the Arctic Ocean, and he it was while broking the trail to Dawson country by the Edmonton route.

Inspector Fitzgerald was still a young man, his forty-first birthday occurring in some general way in the month of March at the age of twenty-two, and had seen service in the most remote regions of this continent.

The inspector was unmarried, but a announced intention having been to settle down in Halifax with his mother at the end of the next two years.

ST. MARTINS

Thousands now use "Fruit-a-tives." Thousands more will try "Fruit-a-tives" after reading the above letter. It proves, beyond the shadow of a doubt, that at last there is a cure for Constipation and Stomach Troubles.

"Fruit-a-tives" is Nature's cure for these diseases, being made of fruit juices and valuable tonics.

50c. a box, 6 for \$2.50, trial size, 25c.

At dealers, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

RICHIBUCTO

Richibucto, April 18—A fairly attended public meeting was held last evening in the Temperance hall, to hear addresses against the proposed reciprocity agreement between the United States and the Dominion of New Brunswick.

H. James was in the chair and introduced the speakers, A. S. Goodie, M. P., of Kootenay (B. C.), and F. R. Sprout, of the reciprocity party, of the United States. A vote of thanks, moved by Dr. T. J. Bourque, was tendered to the speakers.

James D. Phinney, K. C., of Fredericton, is spending a few days with his sister, Miss B. Phinney.

Miss Sarah Flanagan, of the Wesley street school staff, Moncton, is spending her vacation with her mother, Mrs. Martin Phinney, at the station.

Miss Kate Robertson, teacher at Kent Junction, is spending the Easter vacation with her parents, Mr. and Mrs. Roderick Robertson.

Mr. Robert Patterson is visiting her daughter in Moncton.

James Kavanaugh, who has been in Jacques River for the past year, came home last week to spend Easter with his parents and family.

Grace Wathen, who has been teaching near Kouchibouguac, is spending the holidays with her parents, Mr. and Mrs. Wm. Wathen.

The river is almost entirely free of ice. Most of the fishing boats have been launched.

PETITCODIAC

Petitcodiac, N. B., April 17—Miss Margaret Lear is spending a few days with friends in Fredericton.

Mr. and Mrs. Seymour Powell, of Painsic, Miss Jessie Cuthbertson and Allie Scribner, of Moncton, were guests over Sunday of Mr. and Mrs. R. W. Scribner at the station.

Miss Mary Allen, of Sussex, is spending the holidays with her parents here.

Mrs. Bishop, of Hillsboro, is the guest of her brother, Nathan Steeves.

Mrs. Will Heffer, of Sussex, is the guest of Mrs. C. A. Vallis.

Miss Ethel Turner, of Sackville, is spending a few days with Miss Florence Cochrane.

The McCormick Reel is the Strongest and Most Efficient Ever Placed on a Binder

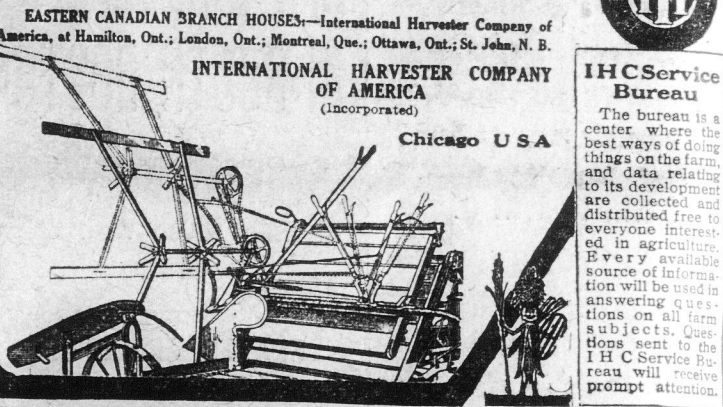

THE McCormick reel offers a wide range of adjustment which successfully meets the conditions encountered in any field, whether the grain is tall or short—standing, down, or tangled. Grain that is filled with green undergrowth is forced upon the platform with ease. The guards are placed so that the machine can be tilted to cut close to the ground without pushing trash and stones ahead of the knife.

The McCormick knotter is a revelation of simplicity in construction, accuracy in tying, and ease of adjustment. Only two moving parts constitute the working mechanism. There is no straining or pulling on the twine, and perfect knotting is assured.

The McCormick floating elevator handles grain of any length or weight without clogging.

The McCormick line of haying machines and tools is as efficient as the binder.

The McCormick dealer will tell you all about these advantages and many others. Why not see him today? If you prefer, write to the nearest branch house for catalogue and any special information you desire.

I PRESENT TO YOU A "HEALTH BELT MAN"

He is 55 years "Young" He poured his vitality into his blood, nerves and tissues until HIS VIGOR WAS RESTORED

My marvelous HEALTH BELT, a Wizard Worker, a mechanical self-treatment of the highest therapeutic value. It stands by you and never abandons its task until you are brought back to a state of vigorous manhood, without an ache, pain or weakness. No drugs, no dieting, no restrictions of any sort, excepting that all dissipation must cease. Wear during the time you are sleeping, it opens its flood gates and drives a great, soft, warm stream of electric vitality into your blood, nerve and weakened organs throughout the entire night; it cures forever the weakness in your back; it cures out and expels from your system all rheumatic pains. The electro-suspensory attachment is there for a purpose; it is the strong feature of my Health Belt, and

The Semi-Weekly Telegraph is issued every Wednesday and Saturday by The Telegraph Publishing Company, of St. John, a company incorporated by Act of the Legislature of New Brunswick.

Veritable Meccas to the immigrant, the steel mills operate day and night; the heating furnaces cannot be allowed to grow cold lest they crack, and the gas is kept burning even through an extended stoppage of the work.

To move fast and are disappointed when the expected results do not follow our eager activities. As the commercial world has been tempted by the doctrine, "Get rich quick," so the social world is tempted by the corresponding formula, "Get good quick."

The industrial development of these provinces waits upon immigration. This season has seen a very large exodus of our own people to the western provinces.

Liberal and Conservative stood shoulder to shoulder yesterday for good government. The desperate attempt of the reactionaries to introduce party politics was a dismal failure—how dismal, the vote shows.

THE DAILY TELEGRAPH THE SEMI-WEEKLY TELEGRAPH THE EVENING TIMES New Brunswick's Independent Newspapers.

Semi-Weekly Telegraph and The News

ST. JOHN, N. B., APRIL 22, 1911.

POINTERS FOR THE FARMER In his noteworthy address on "The Problem of the Indifferent Farmer," Mr. C. C. James of Ontario gave some advice to farmers, and volunteered some rules which are quite as applicable in New Brunswick as they are in Ontario.

It is worth our while to take hold of this expansion in real earnest, that is as though we believe it could be done! The possibility of adding two or three hundred million dollars yearly to our rural income surely makes this a big problem.

And what a solving of other problems there would be. A man in our province who has been a farmer for many years said to me the other day, "Push the drainage of land. Spend money on it. If you can get all the farmers to drain their land, you will solve the problem of good roads, for they will have money enough to build them for themselves."

And what a solving of other problems there would be. A man in our province who has been a farmer for many years said to me the other day, "Push the drainage of land. Spend money on it. If you can get all the farmers to drain their land, you will solve the problem of good roads, for they will have money enough to build them for themselves."

CARNEGIE ON STEEL Andrew Carnegie, before a Nineteenth Century Club, some time ago, dismissed the labor agitation by saying in effect: "Since no man in the United States need be a pauper except by his own deliberate act, there is no labor question. It is estimated that there are about 80,000 men employed in Allegheny County, Pa., in the manufacture of steel. No man is more prominent in the development of that industry than Mr. Carnegie himself.

THE COMMISSION VICTORY By a verdict so sweeping as to banish all doubt about the nature and sincerity of their purpose, the electors of St. John Tuesday turned toward broad-gauge civic government, rebuked and defeated the reactionaries who have sought to give the old evils a new lease of life, and declared most emphatically for the introduction of up-to-date methods a year hence at City Hall.

From several standpoints the city is to be congratulated most earnestly upon the result. It is a clear verdict for reform—so clear that no one will challenge it; at least if any one does challenge it, it attempts should still be made by obstruction and manipulation to defeat the popular will, the obstructionists will quickly find their occupation dangerous.

The commission victory is due largely to volunteers who worked single-heartedly and assiduously for the city in which they live and whose welfare is dear to them. Mayor Frink has long been a commission man, and he has done much for the cause. The advertising committee of the Board of Trade, it must be said, did much to launch the campaign and make possible its success.

What follows the vote? Primarily, the framing of a charter. Here and now it should be said that there will be needed during the next few months, in perfecting this charter, the same frank and friendly co-operation and public-spirited attitude that have marked the campaign resulting in the great victory of yesterday.

NOTE AND COMMENT The "hidden hand" seems to have lost its grip. There seem to be more "Nihilists" in St. John than the Globe suspected.

ACCELERATION Some one has described the American spirit and qualities in the words: "We do not know where we come, or whether we go; and what is more important, we do not know where we are going."

THE CELEBRATION AND THE SINGLE TAX The last council was guilty of serious bungling in many important particulars, yet it is easy to see from the results of the present election that several of the aldermen saved themselves from defeat by the advocacy of popular principles.

THE COMMERCIAL ORCHARD (Continued)
WINDBREAKS.

The natural bush lot or rising ground forms the ideal protection from the wind, but where these are not available, artificial windbreaks often become a necessity in our northern climate and indeed, in some of our southern provinces, the need for such protection in the winter is to lessen wintering which is largely caused by evaporation of moisture from the cells in the twigs and limbs due to the cold dry air over them. Where the soil is a heavy loam, the evaporation is often so large as to prevent the natural respiration of moisture and hence the cells are broken up and the wind force of the winds is far more important. The young growth in the summer is very easily bent before the force of the prevailing wind and the lack of adequate protection is all too evident in the many trees leaning in most cases to the westward. Breakages too, at this time of year are frequent in the unprotected orchard, and the retaining of the optimum amount of moisture in the soil is most difficult where the evaporating effect of the winds remains unchecked. The great value of the windbreak is, however, in the protection afforded the fruit towards harvesting time. Heavy winds at this time may windfall 50 per cent of the crop into windfalls—a very serious loss and one that is well worth while planning to avoid.

Where artificial windbreaks are necessary we can hardly improve them by the high may be successfully transplanted from the bush. A single row may be sufficient to break a double row, with ten feet between the rows, the trees planted alternately, is sometimes necessary. The trees should be set out to ten feet apart, in the row, and to plant the windbreak at the same time as the orchard or a year or two ahead if possible and fully thirty-five feet from the apple trees and is not set so close as to prevent proper air drainage, the objections are not to be compared with the advantages secured. In planting the windbreak, so far as is consistent with proper pollination and convenience of picking, the more tender trees may be given additional protection by planting the hardiest and strongest growing trees, with persistent fruit, on the outside.

APPLE SOILS.
Apple trees may be found thriving on almost all kinds of soils, provided good drainage is there. Good drainage is absolutely necessary since the apple tree is a deep rooted. Avoid any soil with a hard pan or close impervious subsoil. Artificial drainage is often necessary in soils that have every other requisite. In planting an orchard of some size, it is in doubt as to the "natural drainage" being sufficient, but all means supplement with tile drains; they will repay their cost many times over before the orchard is in full bearing. We may say, that as a rule the most suitable soils are those of a sandy loam and clay loam nature. Professor Waugh in his work, "The American Apple Orchard," says: "A somewhat gravelly soil, or even one verging somewhat on stony, has been found by experience to be highly satisfactory for apple-growing, provided only that there is an abundance of plant food present—the gravel and small stones doubtless assist in the drainage and this is generally understood or attributed. The fertility of such soils. As a rule, we may say that gravelly loam, fairly rich in plant food is the ideal apple soil. Much of our soil is of this nature, although some of it is much more stony or gravelly, but the amount of loose stone which may be present in an apple soil is only limited by the possibility of cultivation and special tools may be devised to withstand the extra wear and tear. Stony soils will hold the heat more readily and therefore being warmer are likely to give better results in a northern climate.

PREPARATION OF THE SOIL.
This is a very important point and a great deal more of the failures in apple growing in the province are due to lack of thorough preparation of the soil than is generally understood or attributed. The temptation on the part of the intending planter to get his trees in at once and thus save a year or two, though the ground may not be fit, is often a fatal one. In the same way that it is a recognized principle in stock raising to keep the young stock growing well and going right ahead, so it is with fruit trees; plant them in poor land lacking in tilth and fertility and they will receive a check which in spite of the beneficial treatment after planting will lessen their chances of developing into strong healthy trees. Instead of gaining time by this hasty method of planting, one often loses two or three years. The planter will be time and money in pocket in the end if he waits a while and brings the land intended for his orchard up to a high state of tilth and fertility. The methods of doing this will depend on the previous treatment of the soil. A clover crop turned under will add much humus and greatly improve the mechanical condition of the soil. Land that has been well fertilized and under hoe crop the previous season, if ploughed in the fall and sown in the spring and well worked up should be in first rate condition for planting.

THE KIND OF TREES TO BUY.
On this point a number of our people need to get away from the old idea that size is the main desideratum in buying fruit trees. Don't buy anything older than three years, and give two year old stock the preference. The longer a tree is kept in the nursery the more must it be cut back each year and the greater will be the loss in the root system when it is finally sent out for planting. Trees over three years old have been unduly held in check

in the nursery row—such trees have received a set back; their root system has been badly mutilated—their vitality is depreciated and they are strictly undesirable. A close examination of the trees should disclose the rings marking the cessation of each year's growth and in this way enable the buyer to determine the age of the stock. It would be well for us to go easy in planting one year old trees here until we can see their advantage over the two year old stock. Their slowness and susceptibility to frost-wages would seem to be points against them for this small sized tree should be clean, straight for the variety with the head well formed and branches well branched as to form a bushy crooked. In this respect must be remembered that certain varieties naturally form better heads and grow straighter than others in their early stages. The "Wells River" and "Duchess" will be straighter looking trees from the nursery than the "Flemish" and "Longfield." Those varieties that are apt to be more or less crooked from the nursery should be straightened out as they grow older. But apart from this, there should be no general thrifty appearance about the tree. The root system should contain plenty of small branches and fibrous roots—absence of these is a sure sign of a tree that has been starved or discolored looking back indicates decreased vitality probably due to unnecessary exposure or poor method of storing through the winter.

BUYING THE TREES.
The travelling fruit tree agent should not be encouraged. It is not my purpose to run down the fruit tree agent. His business is to sell trees for the money there is in it for him and not just for love. More trees buyers ought to remember this. It is a pretty safe plan to refuse to buy trees from a man whose selling contract leaves the buyer to take all the risk and put up with any loss that may occur. When the farmer is buying stock he takes greater care to see that he gets good value for his money. Why shouldn't he do so when buying fruit trees? It may sometimes be all right to buy trees from an agent who is a permanent resident of the district and who has a good reputation. Such a man has something to lose by supplying poor stock. Where possible, the best plan is to purchase from a local nursery after personally inspecting the stock. Where this is not practicable a reliable firm should be patronized and great attention and better prices will be obtained where the orders are clubbed together and sent in through some society. Order the stock well beforehand, in the summer or early fall is none too soon. If you wait till the winter the best stock and varieties will be sold. Spring delivery is safest and best as the nurserymen have better facilities for winter storage of trees, and there is a slight danger of trees being dug prematurely from the nursery row in the case of fall delivery.

(To be continued.)

STOCK GREAT TROTTERS

The Ten Greatest Performers in the History of the Track.
Seven experts in the world of light horse racing were recently asked to name which trotters were in their opinion, the ten greatest in the history of the trotting horse, and also to rank them in the order in which they should stand. The opinions of the seven have been given in the form of an article each to the Horse Review.

EARLY SPRING PIGS

Essential Factors in their Care and Development.
We find upon our farm that it is profitable to have some early spring pigs arrive, and in our latitude this means that they must come in March. This also means that at this early period of spring we must look well to the protection of the mother in order to have her in good quarters when the pigs come.

SOME SHEEP POINTERS

A farmer on a small farm may profitably keep a small flock of sheep. A pasture that has become weedy will be much improved if half the number of cows used for the mixed herd as the sheep will eat the weeds and brush and clean the pasture of these undesirable things in a year or two. Sheep are a good herd of cows will come to the barn at night with them if desired and thus the danger from dogs at night.

HORTICULTURE

APPLE CULTURE

How to Plant Trees—Cultural Methods and Fertilization.
In apple orchards the best cultural method for most situations is tillage with a leguminous cover crop while the trees are young. The plowing under of the cover should be completed usually not later than the middle of May, and a soil mulch should be maintained until about the middle of July, when normally the leguminous cover should be plowed or crumpled, mammoth or medium red clovers, should be sown. Where washing is had it may largely be prevented by tilling the ground in the autumn, every other year thus giving each tree annual cultivation over half its roots. Three or four inches is deep enough for tillage over tree roots, and a double action disc or cutaway harrow is often very satisfactory.

Where such tillage is inadvisable, good results may be obtained with the mulch system, accompanied by proper fertilizing. A leguminous cover is preferable as a basis for the mulch. The mulch should be kept deep down to the roots, and the growth immediately over the tree roots, which may require some additional materials such as straw, leaves, swamp hay or manure. Such a mulch treatment has shown distinct value in our experiments in hastening bearing when the trees have reached proper size. After the bearing has been established a return of manure at least every second or third year should be made when possible, increasing the frequency of tillage with the age of the orchard and the demands of the fruit.

Permanent grass covers, however, are usually very objectionable over tree roots, probably on account of the greater demand of grasses upon nitrogen and moisture. The soil should be plowed and returned to the leguminous cover, for which the clover and alfalfa are probably as permanent as any whenever grasses regain possession.

The need and value of soil fertilization is largely a local problem. In general, young trees are less likely to be benefited by it than old, and it is usually bad practice to put any kind of fertilizer in the holes at planting time. In case of any considerable additions of plant food, it is best to try the contemplated application on a few trees before extending it to the whole orchard. Stable manure at the rate of about ten tons per acre is one of the best treatments that can be given to an orchard, either on sod or in connection with tillage.

In buying trees, one should specify only first grade trees, true to name, free from injurious insects and diseases, and not over two years from the bud or graft. The trees should reach the buyer in strong living condition, not shrivelled nor giving evidence of improper storage or stunted growth. Trees with the limbs well separated in point of origin are also much preferable to those in which they all come out at about the same height.

The trees should be examined and "heel-dipped" at once on receipt, pressing the dirt firmly about the roots. The roots should be shortened back to about six or eight inches, and those broken or bruised should be removed with a smooth cut above the place of injury. This pruning is often done before heeling-in.

The planting system most commonly followed is that of squares or oblongs. This is varied into the quinque by planting a tree in the centre of each square. The latter plan is of value when in doubt as to which of the two varieties should be used as permanent, and also when fillers are used. Of late, many people are favoring the triangular or hexagonal plan. This plan enables one to cultivate, spray, and plant fillers in more directions than those above; and better utilizes the space in the orchard. In other words, with a given

number of trees per acre, more space and light are available to each if planted on the hexagonal plan.

Success in planting is largely a matter of avoiding all unnecessary root-exposure and thorough firming of the soil about the trees. Soaking the roots in water for some hours before planting is one of the best means of securing sure growth. "Puddling" them is also often desirable if they are to be long exposed. If the trees are watered it should be done thoroughly, adding the water before the holes are completely filled. Set trees from one to three inches deeper than they were in the nursery, placing the sides with the heaviest roots toward the prevailing winds.

The distance of planting varies from 30 to 40 feet, depending on the size and habit of the variety. The proper distance may be decided by observing the space required by full grown trees of the variety in the soil and locality concerned. It is well to remember, however, that the roots usually extend much farther than the branches and it is always better to plant a little too far apart than too close. Outside rows are proverbially best. When fillers are used a distance of 36 to 40 feet is undoubtedly preferable for the permanency of most varieties, though there are some exceptions.

In planting, much labor may be saved and the work efficiently done by the proper use of a plow. With it deep furrows are turned out for the rows and again plowed shallow after planting. The exact position of the trees can be secured by cross furrows or by the use of a wire long enough to reach the full length of the rows, with the planting distances firmly indicated on it.

To insure productiveness, in the case of some varieties it seems necessary to make some provision for cross-pollination. This may be accomplished by planting not more than four rows of the same variety in a block and alternating them with other varieties that bloom at the same time. From a bulletin issued by the Pennsylvania Experiment Station.

PRIZES FOR FARMERS WHO USE CEMENT

It is only a few years since concrete was generally accepted as a reliable building material, yet the difference which the convenient and economical form of concrete has made in the outlook of the farmer in these few years, has done much to revolutionize things on the farm.

The growing season of the year and its consequent rise in price, has gradually caused that commodity to assume the general aspect of a luxury. So much lumber is used on the farm for building and fences that its extremely high price has made it almost prohibitive to the average farmer unless he has an extra large sum of money to spend on outlay. Wire fencing partially solved the problem, but real relief did not come until concrete was introduced under the auspices of the "What the Farmer Can Do With Concrete." This work contains information which makes it possible for any farmer to do almost any kind of construction work around a farm with concrete, and is given free of charge. This generous distribution of literature and the efforts of this firm to show the farmer how practical concrete really is, have earned for the Canada Cement Company, the highest of commendations.

The most recent plan to enter an outlay, which makes it possible for any farmer to do almost any kind of construction work around a farm with concrete, and is given free of charge. This generous distribution of literature and the efforts of this firm to show the farmer how practical concrete really is, have earned for the Canada Cement Company, the highest of commendations.

Each of the seven men was asked to make his selections and give his reasons therefor, and each has done so, the result being perhaps the most instructive exhibit of what greatness in a trotter consists.

The seven experts who contributed to this symposium were Henry K. Devereux, Murray Hoar, Andrew G. Leonard, John E. Madden, Joseph J. Markey, Dr. J. C. McCoy and Henry Ten Eyck White. From the seven lists which they presented a final one was collected, which was the composite opinion of the entire "jury." The list is as follows:

1. Ulan
2. Lou Dillon
3. Hamburg Belle
4. Crescens
5. Nancy Hanks
6. Alix
7. Sweet Marie
8. Maud
9. Joan (four years)
10. Joan (two years)

It will be seen that among the ultimate "ten greatest" Maud S. found a place, she being the only one of the old-timers whose careers antedated the advent of the pneumatic tire. This is certainly a magnificent tribute to the "class" of the chestnut daughter of Harold, for it is twenty-five years since she disappeared from the turf, in which time her record has been beaten by a large number of trotters. Several other high-wheeled performers go into various individual lists, these including Sunol (2:08 1/4), Arion (2 years, 2:10 3/4), St. Julien (2:11 1/4), Goldsmith Maid (2:14) and Dexter (2:17 1/4), but all of them failed to get into the "hall." A grand total of twenty-two horses only were considered by the seven experts, those not previously named being Major Delmar (2:04 3/4), Colorado E. (2:04 3/4), Directum (2 years, 2:04 3/4), Sadie Mae (2:06 1/4) and Justice Brooke (2 years, 2:08 1/2).

A farmer on a small farm may profitably keep a small flock of sheep. Sheep are a good herd of cows will come to the barn at night with them if desired and thus the danger from dogs at night.

It is not profitable to have sheep feed wholly on brush and weeds although they will live that way. There should be pasture in plenty if sheep are to thrive. Early lambs are far the most profitable but it requires painstaking care to raise them. The ewes should be fed a little grain through the winter and have plenty of quarters when the lambs appear.

Each ewe should be in a pen by herself when the lamb comes unless out to pasture. If a cold, stormy time comes on it is best to drive the ewes with young lambs to shelter. Many early lambs are lost from cold. A little attention to tide over a cold snap would save many lambs and saved a good bunch of money, for early lambs bring high prices—Shirley Burns.

When the weather is very rough when the sheep are in the paddock, place a piece of old gunny sacking to the top of the doorway with a strip of board and some nails and place a single bath in the bottom of this kind which holds it in place over the doorway and keeps out the raw winds.

\$3,600 in Cash Prizes for Farmers

Tell Us How You Did It

You may win a prize by doing so

Send for this book

Suppose your friend Bob Wilson, on the next concession, "pulled up" at your front gate on the way back from market and asked about that silo or barn foundation you built, you would be glad to tell him, wouldn't you? And it wouldn't take you long, either, would it? And as a matter of fact, you'd find as much pleasure telling him as he would in listening— isn't that right?

First you would take him over to view the silo or barn foundation. Then you would start to describe it—its dimensions—the kind of aggregate used—the proportions of cement used—number of hours working time required—the method of mixing—kind of forms used—method of reinforcing, if any—and finally, what the job cost. So that by the time you finished, neighbor Wilson would have a pretty accurate idea of how to build the particular piece of work which you described.

Now couldn't you do the same for us, with this difference—that you stand a good chance of getting well paid for your time?

In Prize "D" of our contest, open to the farmers of Canada, we offer \$100.00 to the farmer in each province who will furnish with the best and most complete description of how any particular piece of concrete work shown by photograph sent in was done. The size of the work described makes no difference. The only important thing to remember is that the work must be done in 1911 and "CANADA" Cement used.

In writing your description, don't be too particular about grammar or spelling or punctuation. Leave that to literary folk. Tell it to us as you would tell it to your neighbor. What we want are the facts, plainly and clearly. Sounds simple, doesn't it? And it is simple. And surely it is well worth your while when you think of the reward in view. Now sit right down, take your pen or pencil—fill out the attached coupon—or a post-card if it's handier—and write for the circular which fully describes the conditions of this, the first contest of the kind ever held in Canada.

Every dealer who handles "CANADA" Cement will also be given a supply of these circulars—and you can get one from the dealer in your town, if that seems more convenient than writing for it.

Contest will close on November 15th, 1911—all photos and descriptions must be sent in by that date, to be eligible for one of these prizes. Awards will be made as soon as possible thereafter. The decisions will be made by a disinterested committee, the following gentlemen having consented to act for us, as the Jury of Awards: Prof. Peter Gillespie, Lecturer in Theory of Construction, University of Toronto; Prof. W. H. Day, Professor of Physics, Ontario Agricultural College, Guelph; and Ivan S. Macdonald, Editor of "Construction."

Having decided to compete for one of the prizes, your first step should be to get all the information you can on the subject of Concrete Construction on the Farm. Fortunately, most of the pointers that anyone can possibly need, are contained in our wonderfully complete book, entitled "What the Farmer Can Do With Concrete." A large number of Canadian farmers have already sent for and obtained copies of this free book. Have you got your copy yet? If not, you'd better send for one to-day. Whether you are a contractor or not, you really ought to have one of our prizes or not, you should have this book in your library. For it contains a vast amount of information and hints that are invaluable to the farmer.

Please send full particulars and book.

This Fence Has Vast Strength

For a fourth less than the price we pay, we could get hard-drawn steel wire. But that kind, though used in most other wire fences, hasn't the life, the springiness, the strength we insist on for Maritime Wire Fence.

So we make this fence of extra-heavy hard drawn steel wire of nine-gauge. Constantly we test it for quality. And so we know this fence has more strength than it probably will ever need.

You can bank on the strength of this fence. Make the test for yourself and your neighbor. The test is simple. It will pay you well. Address NEW BRUNSWICK WIRE FENCE CO., Ltd., Moncton, N.B.

Higher the price of Maritime Wire Fence is no better than you must pay for ordinary fence. But the life of the Maritime Fence is far longer—and the fence surely reliable.

On this extra-quality wire we put a smooth, even heavy coat of galvanizing. We put on

MARITIME WIRE FENCE

GREETED FOR COMMISSION

Magnificent Vote Against Alder- efficiency—Large Number of Merry Time in Board of Trade

would protest against the leap in the dark" proved totally unavailing. The aldermanic contest also furnished many surprises, and it was evident that the feeling in favor of commission extended to the opposition of certain aldermen at the board. Where the vote in favor of commission was the heaviest there was found the largest majority against the aldermen who were defeated.

Although the vote polled was very heavy the day was a very quiet one throughout the city, and the crowds about the polling booths was not large at any time. The workers began very early and a good percentage of the vote was cast by the noon hour. Trams and automobiles were kept very busy until the last minute in carrying the voters to the polls and in the city wards, particularly in Kings ward, the votes cast were very large. In Kings ward, for instance, 472 votes were cast out of 624 on the list, and in Queens ward 670 votes were brought out.

Many Ladies Voted.

A remarkable feature of the election was the number of ladies voting for commission. There were very few on the list who were not asked to exercise their franchise and nearly all cheerfully responded. Ladies voted for the first time in Dukes ward.

The ward boss and the last desperate defenders of the rule made a determined stand and the workers for commission were impressed early in the day with the strength of the organization, which, however, failed to capture the votes of the people.

In the North End powerful influences were used to retain the aldermanic system. A large majority for commission was the result, showing that the independent silent vote, which could not be gauged, was almost solid for commission. There were not many spoiled ballots considering the two plebiscites. Some silly persons with a perverted sense of humor did not put a mark on the ballot beyond writing across the face "Socialism" the only thing for the working man. Another wrote "Socialism the only thing for humanity." The men who cast these votes must have been present at the farce.

WANTED

DOAKTOWN FARMER

COMMITTS SUICIDE

Jared Betts Hanged Himself in His Barn Early Yesterday Morning in Fit of Despondency from Injury to His Head.

Chatham, April 19—Jared Betts, of Doaktown, hanged himself at that place at 9 o'clock this morning. He was in good spirits yesterday and returned last night in good health. He arose about 4 o'clock this morning, dressed in the wagon house in the rear of the house, committed the rash deed.

He was discovered a short time after. Coroner Vier, who was summoned, found that he had come to death by his own hand. He leaves his widow. The deceased had been badly injured some time ago, and it is thought the deed was the result. He was forty-eight years of age.

NEW BRUNSWICK DEER FOR NOVA SCOTIA WOODS

Yarmouth, N. S., April 18—(Special)—Roy S. Kelley, president of the game association and secretary of the guides' association, left here this morning for St. John (N. B.) to receive a consignment of red deer that is being shipped from Piasier Rock (N. B.) to Nova Scotia. Some of the lot will probably arrive in Yarmouth tomorrow night and after being placed on exhibition in this way they will be liberated in the woods.

THE UNDERFERD

How Children of the Ignorant Are Robbed of Oatmeal

A canvass made among the intelligent shows that seven homes in eight were oatmeal. Among the ignorant the canvass shows that not one home in twelve serves oats. The children grow up incapable because bodies are constrained to stress. Nature stores in oats more energy, food, brain food, more nerve food than in any other grain that grows. That's why children crave oatmeal. There is nothing to take its place.

This is a food on which doesn't pay to be careless. There is a very wide difference in oat food. There is a very wide difference in oat food. There is a very wide difference in oat food. There is a very wide difference in oat food.

Only the richest, plumpest grains are used in Quaker Oats. They are selected by a special committee which is appointed by the president of the company. Only ten pounds are obtained from a bushel. The result is a food rich in all the oat elements—the utmost in oatmeal. Yet the cost to you is but one-half cent per dish.

Made in Canada. (17)

REV. MR. ROBINSON'S CASE

Tuesday, April 18.
The executive of the United Baptist church, which is the highest authority in the denomination, met in the mission rooms yesterday to consider the case of Rev. Mr. Robinson. Nothing could be decided last night as to the result of their deliberations. The executive consists of the following members: Rev. H. G. Kennedy, Woodstock, moderator; Judge P. W. Emmerson, Moncton, secretary; Rev. Dr. D. Hutchings, W. E. McIntyre and Joseph McLeod, Rev. B. Noble, St. John, James Patterson, St. John; C. W. Weyman, Apohaig; Dr. W. O. Kierstead and Rev. J. H. McNeil, St. John, St. John, and Dr. C. T. Phillips, of Hartland.

It was learned that at the meeting of Baptist ministers yesterday a private discussion took place on the subject of Rev. Mr. Robinson's standing.

To prevent potatoes from becoming discolored when boiled peel them and let them lie in cold water at least an hour before boiling.

Here's a Home Dye

That ANYONE Can Use.
HOME DYEING has always been more or less a difficult undertaking—But so when you use DYOLA.

Send for Sample Book No. 10. No charge. Write to RICHARDSON'S, 1000-1001, Montreal, Can.

BIRTHS

GRAHAM—At 154 Sydney street, St. John (N. B.), on Tuesday evening, April 18, 1911, to Rev. Angus A. Graham and Mrs. Graham, of St. David's church, a daughter.

PICKETT—At Killam, Victoria county, Charles S. Pickett, aged 63 years, leaving one daughter, two sisters and three brothers to mourn their loss.

DeMAR BREAKS RECORD; WINS B.A.A. MARATHON

Historic Race Goes to Youthful Runner Who Came Second Last Year—Nearly Three Minutes Clipped from Long-boat's Time—Madden Delayed by Accident—Canadians Third and Sixth.

Boston, April 19—A young, but experienced runner from Dorchester, Clarence DeMar, of the North Dorchester Athletic Association, won the 15th annual Marathon run of the Boston Athletic Association today. Covering the 26 miles over the rolling road from Ashland to this city in the record breaking time 2 hours, 21 minutes 35 seconds.

The former time, made four years ago by Tom Loughran, the Canadian Indian, was 2 hours, 24 minutes 24 seconds.

Fred J. Madden, of South Boston, a neighbor of DeMar, was a poor second by reason of an accident two miles from the finish. Then came Ed Fabre, of Montreal, while Hebert J. Fowler, of Cambridge, was fourth.

DeMar ran a well judged race, for he did not become a factor among the leaders until more than a third of the course had been run. He was indebted to Alexis Apigen, of New York, for setting a lively pace for the first twelve miles and, then, as the field swung into the boulevard at Anahurde, he rushed through and challenged Madden, who was then leading at that time and finally pushed out in front.

In spite of two big hills DeMar not only drew steadily away, but hit up the pace so that he captured former records at minor points along the home stretch, notably that at Brookline, held for ten years by Caffrey, of Hamilton, at the time DeMar seemed exhausted, but careful handling freshened him up and he gained steadily on Madden on the last few miles.

The South Boston runner was dashing past Coolidge Corner, two miles from the finish, when an automobile, in seeking to pass him, nearly knocked him into the gutter. He recovered in time to save being passed by Fabre, the leading Canadian, who was coming up rapidly.

DeMar received a great ovation as he staggered across the finish in a much exhausted condition.

The times of the four principal prize winners were as follows: Clarence DeMar, North Dorchester, 2:21:35; F. J. Madden, South Boston, 2:24:31; Ed Fabre, Montreal, 2:29:22 1/2; Robert J. Fowler, Cambridge, 2:29:31.

The next half dozen men to finish came in the following order: R. F. Pigott, Medford (Mass.); Dan G. Sheridan, Toronto; Albert Harpur, Fall River (Mass.); F. H. Galvin, New York; M. J. Ryan, New York, and J. M. Lorden, Cambridge.

DR. BORDEN NEW HEAD MT. ALLISON COLLEGE

Asked Yesterday to Succeed Dr. Allison and Signed His Acceptance—Choice Unanimous, and No Other Names Were Offered by Committee—Those Present at Meeting.

Sackville, N. B., April 19.—An important meeting of the regents of Mount Allison University, held here today which tendered the presidency of the university to Dr. B. Borden, who signified his acceptance of the position. A meeting will be held tomorrow morning to consider the appointment of a successor to Dr. Borden as principal of the lady's college.
