Ayer's **Cherry Pectoral** 

C. O. Lepper, Druggist, Fort Wayne, Ind., writes: "My little sister, four years of age, was so ill from bronchitis that we had almost given up hope of her recovery. Our family given up hope of her recovery. Our family physician, a skilful man and of large experience, pronounced it useless to give her any more medicine, saying he had done all it was possible to do, and we must prepare for the worst. As a last resort, we determined to try Ayer's Cherry Pectoral, and I can truly say, with most happy results. After taking a few doses she seemed to breathe easier, and within a week, was out of dancer. and, within a week, was out of danger. We continued giving the Pectoral until satisfied she was entirely well. This indisputable evidence of the great merit of Ayer's Cherry Pectoral has given me unbounded confidence in the preparation, and I recommend it to my customers, knowing it cannot disap-

point them."
"Ayer's Cherry Pectoral cured me of a bad cough and my partner of bronchitis. • I know of numerous cases in which this preparation has proved very beneficial in families of

Young Children. so that the medicine is known among them as 'the consoler of the afflicted.'"—Jaime Rufus Vidal, San Cristobel, San Domingo.
"A short time ago, I was taken with a severe attack of bronchitis. The remedies ordinarily used in such cases failed to give me relief. Almost in despair of ever finding anything to cure me, I bought a bottle of Ayer's Cherry Pectoral, and was helped from the first dose. I had not finished one bottle before the disease left me, and my throat and lungs were as sound as ever."—Geo. B. Hunter, Altoona, Pa.
