WE offer to fill mail orders at a lower price than Eaton's in Toronto or to go away back and sit down. Write for a sample of anything you want

'A man may cut ice upon the Arctic Circle and yet not amount to beans in Boston.'--John Graham.

All persons are treated alike at this store, we don't make any difference. First come first served is a rule. Again about prices, you'll find these in plain black figures which you can see at once the price. We want this price, so don't attempt to cut it, as we don't wish to hurt your feelings by refusing. We guarantee the price is the lowest, quality considered. If we find goods sticking with us we quickly mark them down and don't allow any kind of goods to remain over a season if we can help it. No old goods, but every thing choice, new and up to the minute. Intelligent salespeople to serve you and everything sold entirely as represented. Your money back if you want it.

Blankets.	Yarns.	Stanfield Unshrinkable Underwear.
Coal is going to be, no, is dear this winter and if you want to be warm a great portion of it, you had better get a pair of these beautiful, fluffy, warm, all wool blankets, which we have on sale this week.	Lots of people can tell a yarn, but few people are judges of good yarn. We have a large variety, suitable for all kinds of knitting or fancy work.	Buy the genuine article at this store. Beware of imitations.
I tell you they come pretty close to a person on a cold night. Try them.	Wheeler, Scotch, Beehive, Oxford, Berlin, Royal, Shetland floss, Princess, Shetland wools, Wyvern, Cocoon.	PRICES, \$1.25 each.
PRICES, \$2.00 to \$6.50 per pair.	Checked Gingham.	Top Shirts.
Flannellette Blankets.	Blue and white, yellow and white, green and white, red and white, suitable for cushion tops.	Good knitted shirts. PRICES, 65c 75c 85c.
Some people like them for sheets and they make warm ones too.	New cushion tops in stock, pillows for cushions.	Navy blue flannel, our own make. Quality good. PRICE, \$1.25.
Large size, 65c the pair, crib size, 50c the pair.	Blanketing.	Heavy serge shirts, made large and roomy. Good to wear and good looking. PRICE, \$1.25.
Red Underwear.	Pretty shade of red for children's socks. Very wide color.	Heavy homespun shirts, made from the best materials. Good workmanship and extra heavy. PRICES, \$1.00, \$1.25 and \$1.50.
Are you troubled with Rheumatism? This they say, will drive it out and make your blood a good red color.	Also white lamb linings.	Fleeced top shirts, navy and black. Very heavy. PRICES, 75c and 85c.
PRICES, 75c and \$1.00.

GENERAL BOOTH

Arrived in St John Last Saturday.

LARGE CROWDS

Listen Attentively to his Discourses Sabbath Afternoon and Evening.

General William Booth is an old man--74 he was on his last birthday--and his years have been years of work. But his zeal for the cause of his heart, his burning desire to bring every soul to the truth as he sees it, his untiring energy and spiritual power are as fresh and strong as when he founded the great religious organization of which he is still the main spring.

General Booth is accompanied by his daughter, Miss Booth, and his son, Mr. Booth, who is the general secretary of the Salvation Army. They arrived in St. John on Saturday morning at 10 o'clock.

The general then held a series of meetings in the city, and a large proportion of these were present, and heard the general deliver an address from the text, "Thus saith the Lord, consider thy ways." His speech was an earnest appeal to the people to turn to God and to live a life of holiness.

Several services were held yesterday. The first was at the Opera House, at 7 o'clock. The general was present, and the service was well attended.

The general then held a series of meetings in the city, and a large proportion of these were present, and heard the general deliver an address from the text, "Thus saith the Lord, consider thy ways." His speech was an earnest appeal to the people to turn to God and to live a life of holiness.

The general then held a series of meetings in the city, and a large proportion of these were present, and heard the general deliver an address from the text, "Thus saith the Lord, consider thy ways." His speech was an earnest appeal to the people to turn to God and to live a life of holiness.

FREE BAPTISTS.

Union Considered Impracticable.

WATERVILLE, N. B., via Hartland, N. B., Oct. 14--Rev. A. M. Smith, delegate from New Scotia to the Free Baptist conference, was introduced at the Free Baptist conference here on Saturday and expressed his pleasure in meeting this conference from which he had been separated for eight years.

He extended greetings from his conference. Rev. Dr. Mosher, of Boston, president of the General Conference of the United States and Rev. Prof. A. W. Anthony, of Bates College, Lewiston, Maine, were introduced as the representatives from the United States General Conference. They told how much at home they felt in New Brunswick and again as last year, visited this conference to visit with them.

Mr. D. McLeod Vince said they might as well cease asking this for it was useless. Rev. J. A. Cahill, a Baptist clergyman, was introduced and stated he was strongly in favor of the union of the Baptist bodies.

Rev. F. W. Foster said he believed this to be impracticable at present. Three visiting brethren were on motion invited to seats with this conference after which the conference adjourned.

Saturday night was Sunday School night. Rev. W. O. Kesteven gave a most interesting and instructive address on "Why in Sunday School Work Important?"

Rev. M. L. Gregg, corresponding secretary for Sabbath schools, read a partial report, showing an advancement in all branches.

It was resolved that the next session of the conference be held at Lower Millstream, Kings Co.

Yesterday the annual sermon was presented most acceptably by Rev. F. J. Francis of Norton, at 11 a. m. Rev. A. M. Smith, the United States delegate, preached at 3 p. m. and Rev. Prof. Anthony, of Lewiston, Me., at 7 p. m.

Train Robbery. LINCOLN, N. B., Oct. 11--The Burlington St. Louis Pacific coast express which left Lincoln for the Northwest at 1.30 a. m. was held up by five miscreants. Three men, all masked, boarded the engine after waving lanterns and causing the engineer to stop the train.

The engineer, who was named, was forced to leave the train, and accompanied the robbers to the express car. The express messenger refused to open the door and it was badly wrecked by dynamite, but the messenger, William Lupton, was unhurt.

The big safe was blown open and it was reported the robbers secured the contents. The train was brought back to Lincoln shortly after 3 o'clock. Tracks on the way, after riding the safe, slipped away into a cornfield. A number of policemen left for the scene of the robbery at daylight.

Hallelujah canary in your heart and it will keep singing--singing through all your life. It will sing in sorrow as in gladness. Like the fabled swan, its song will be the sweetest as you near the river, and once across it will sing in the land of paradise and sing sweeter than ever before.

SPAN PLACED

In Position on the I. C. R. Bridge on Sunday.

NO HITCH OCCURRED.

Large Crowd of Spectators Present to see the Work Done.

The first span of the new I. C. R. bridge, over the Northwest branch of the river, was placed in position last Sunday in the presence of a large gathering of spectators.

At 11 o'clock a. m. the large steam pumps were set in motion, taking the water out of the coops which were under the old span, thus lightening them. This, with the aid of the rising tide, gradually raised the span from the piers.

When the span had been lifted clear of the stone abutments it was pulled down towards the highway bridge and made fast, thus making room for the new span which was immediately floated into place being ready to be lowered at twenty minutes past twelve.

The coops were then partially filled, and in this way settled until the span was in the position formerly occupied by the old span. The work of connecting the rails was at once commenced and at thirty-five minutes past four a very heavy freight train passed over the bridge, amidst the ringing of whistles, waving of flags, handkerchiefs and the cheers of workmen and spectators.

A large number of spectators, many armed with cameras, arrived too late to see the span placed, much to their disappointment.

THE COAL STRIKE.

No Change in the Situation.

PHILADELPHIA, Oct. 11--Council for the Philadelphia and Reading Coal and Iron Co. have prepared an answer to the application of N. R. Harbo to the Attorney General of New York for the institution of an action against the company and others under the anti-trust laws of the state.

The answer will be filed in New York. The most important point set forth in the answer are:

A fundamental denial that the company is in any manner connected or identified with any combination.

As to the rights of railroads to own mining stocks.

As to the fixing of the price of coal.

The answer avers that the respondent is a corporation of Pennsylvania, created primarily to purchase, sell, transport and mine coal and incidentally to acquire such lands as it may deem expedient and to purchase the stocks of any railroad or other corporation. It is denied that the corporation has authorized or sanctioned any combination with another corporation contrary to the laws of New York state.

A PAGE OF INTEREST TO FARMERS.

EUREKA HARNESS OIL

Put rain and sweat have no effect on harness treated with Eureka Harness Oil. It keeps the harness soft and pliable. Solvents do not break the oil out. The harness not only keeps looking like new, but wears twice as long as the ordinary harness oil.

Sole everywhere in Canada and all sizes. Made by Imperial Oil Company.

WANTED.

A responsible person, in the Northern part of the province, to represent the

Union Mutual Life Ins. Co.

Established 1848.

The policies of this company are the most liberal and up-to-date plans issued.

A liberal contract to the right party.

Address—

Albert J. Machum,
Manager
St. John, N. B.

WONDERFUL SAYS LONDON, ONT.

Mr. John H. Barnstead, Halifax, N. S.

Dear Sir:

I was afflicted with Rheumatism to my hand, and tried a bottle of your oil with surprising results. The first application relieved the pain at once, and before I had used the bottle my hand was entirely cured. I consider your Ethiopian Rheumatism Oil a wonderful preparation, and shall certainly recommend it to all my friends.

Yours truly,

J. H. BARNSTEAD.

With the London, Ont. and Litho. Co.
June 25th, 1902. London, Ont.

CARRIAGE FACTORY

We make the very finest grade of Carriages, Wagons, carts etc. all hand made and guaranteed to outlive the best of imported stock. A large stock to select from.

Repairing of all kinds and vehicles made to order at short notice.

Liberal discount for Cash.

Truss given if required.

James M. Falconer.

JUST RECEIVED.

Two cases Mrs. Pitt's nickel plated cold handle and iron two saws, five dozen cross cut saws, including the last cutting lance tooth saw saw, I cash (600) sheet zinc to arrive this week. One carload of stoves.

J. H. PHINNEY.

What you should buy for your Farm. Clouting Tubs. Because it is the most reliable. Because it is the most durable. Because it is the most useful. Because it is the most economical. Because it is the most reliable. Because it is the most durable. Because it is the most useful. Because it is the most economical.

STOP THE LEAKS.

In order to pay, farming should be conducted in the same way as other business enterprises. A suitable return should be received, not only for the money invested in the land, stock and implements, but also for the labor and care of management. Every farmer should by a simple system of book-keeping, keep a careful check on his receipts and expenditures, so as to know exactly which of his farming operations are yielding him a profit which are causing him merely to mark time. A little figuring of this sort may reveal to him a number of little leaks which almost imperceptibly drain away the profits which should regard his labor. In these days of fierce competition it is only by keeping down the cost of production and preventing all waste that farming can be made successful. Some sources of loss are here given which will readily suggest others.

Lack of system. One of the chief leaks on many farms is the loss of time and energy because the management is not carried out on any definite system. A study of any old and successful business will show that success has been largely due to a methodical and systematic way of doing things. System may be carried too far so as to become merely mechanical, but as a general proposition it may be said that after a well-defined plan of action has been determined on it should be rigidly carried out. As more knowledge is gained, or new ideas acquired, it will be necessary to make changes in the routine, but no change should be made without due deliberation. All work should be carefully planned in advance and all tools and implements gotten ready so that there may be no delay when operations actually begin.

All men employed on the farm should have well-defined duties to perform so that their time may be used to the best advantage. A good system provides for the feeding of stock at regular hours each day. When stocks are fed and watered at regular hours each day at regular hours they become accustomed to the regularity of feeding, and thrive much better than if fed at different hours on each succeeding day.

A very common source of loss is found in the neglect of expensive farm implements and tools. These are left lying in the fields where they have been used, subject to all the inclemencies of the weather, which are more destructive than actual use. Small tools are frequently lost, and larger implements rust or rot. There should be a place on every farm where implements may be kept under cover, and none should be left outside when not in use. A workman should also be provided in connection with the tool-house so that during rainy days or other slack periods, implements may be painted and necessary repairs made. Much time is lost by farmers during busy seasons such as seeding, haying and harvest because a bullock or some other small part has been lost, and a trip to the blacksmith or foundry is necessary to replace it. This waste of valuable time might be prevented by a little forethought or examination of the implement before it was required for use. In many cases implements are purchased which the farmer could well do without.

Another frequent cause of loss is keeping unnecessary stock. If a farmer has more horses than are required to carry on the work of the farm, he should sell those he does not need, if a figure at all reasonable can be obtained. The cow which does not yield enough milk or butter to pay a good profit on her keep should be disposed of, and her place filled by another. A few weeks' use of the scales and Babcock tester will usually furnish some surprising results in this direction.

Another common profits it is necessary that stock should be fed in a judicious manner. In view of the fact that the cost of feed is so high, it is necessary to secure a proper proportion of a nutritious and palatable ration. Animals should be selected for early maturity and fed so as to be ready for market at an early date. The nearer maturity an animal comes, the greater becomes the cost of growth. Again money is lost by failing to

The Only Liniment

JOHNSON'S Anodyne Liniment

It will double the value of the horse. It should be kept on hand for all emergencies. It is the only liniment that will cure all the ailments of the horse, such as colic, wind, bloat, and all other diseases of the stomach and bowels. It is also a powerful sedative and an excellent remedy for all the ailments of the head, such as inflammation of the eyes, ears, and nose. It is also a powerful antiseptic and a good remedy for all the ailments of the skin, such as itching, swelling, and all other diseases. It is also a powerful analgesic and a good remedy for all the ailments of the joints, such as rheumatism, sprains, and all other diseases. It is also a powerful antispasmodic and a good remedy for all the ailments of the nervous system, such as spasms, convulsions, and all other diseases. It is also a powerful antitoxic and a good remedy for all the ailments of the blood, such as scurvy, leprosy, and all other diseases. It is also a powerful antivenereal and a good remedy for all the ailments of the venereal system, such as syphilis, gonorrhea, and all other diseases. It is also a powerful antineoplastic and a good remedy for all the ailments of the neoplastic system, such as cancer, sarcoma, and all other diseases. It is also a powerful antitumor and a good remedy for all the ailments of the tumor system, such as fibroids, polyps, and all other diseases. It is also a powerful antiparasitic and a good remedy for all the ailments of the parasitic system, such as worms, ticks, and all other diseases. It is also a powerful antiseptic and a good remedy for all the ailments of the antiseptic system, such as infections, abscesses, and all other diseases. It is also a powerful antitoxic and a good remedy for all the ailments of the antitoxic system, such as poisons, toxins, and all other diseases. It is also a powerful antineoplastic and a good remedy for all the ailments of the antineoplastic system, such as cancer, sarcoma, and all other diseases. It is also a powerful antitumor and a good remedy for all the ailments of the antitumor system, such as fibroids, polyps, and all other diseases. It is also a powerful antiparasitic and a good remedy for all the ailments of the antiparasitic system, such as worms, ticks, and all other diseases. It is also a powerful antiseptic and a good remedy for all the ailments of the antiseptic system, such as infections, abscesses, and all other diseases. It is also a powerful antitoxic and a good remedy for all the ailments of the antitoxic system, such as poisons, toxins, and all other diseases.

provide green crops for feeding during the summer droughts incident to this country. Horses in many cases are given all the hay the care to eat—a practice not only wasteful, but injurious to the animals as well.

In the older settled portions of Canada the restoration or maintenance of soil fertility is already an important question. How desirable it is then that all the manure made on the farm should be saved, and used in the best possible condition, without loss from leaching, fire-fanging, &c.

In many cases a partial or total failure of a certain crop is due to the purchase of a cheap or inferior grade of seed. Such seed is usually badly mixed with for eign seeds, so that the farm becomes over-run with weeds which not only replace useful crops, but entail a vast amount of labor to get rid of. The division of a farm into small or irregular fields often provides numerous breeding places for weeds in the fence corners and other uncultivated spots.

Another leak which takes money out of the farmer's pocket is neglect in keeping fences and buildings in proper repair. Inferior fences allow his own and neighbor's stock to injure his crops and are a source of constant worry and loss of time. The old proverb, "For the want of a nail the horse was lost" is very appropriate in such a case. A dollar or two spent for lumber or nails will often result in a large saving of feed and increased comfort to the stock during the winter months. Neglect of a leaky roof is often responsible for heavy losses of grain and fodder and in the timbers of the buildings. Many a good frame has been ruined by a leaky roof.

Nearly all the leaks previously mentioned may be set down to carelessness, but farmers also love because some of them think that nothing can be learned from others, and that a new idea is necessarily nonsense. No matter how good a farmer a man may be, he can still gain ideas from others that will prove of value to him. The experience of the Experiment Stations and of successful farmers should be carefully scanned for "pointers." How many farmers there are who do not subscribe to a paper devoted to farming; these men are certainly losing money by false economy. In this age of progress it is ideas that count a single idea gained from a paper will often, when put into practice, represent a gain of many times the subscription price. The local paper should also be supported and each farmer should do all he can to assist the editor of the agricultural paper and the local paper to produce as good a sheet as possible, and to extend the circulation of each.

SHODDY IN BRITISH AND AMERICAN WOOLLENS.

The article "Why is Wool so Cheap" previously alluded to, further states that shoddy is the great feature in the trade of one of the leading towns of the Heavy Woollen District of Yorkshire, and it is well known that shoddy mills do turn out an enormous quantity of goods, the material being composed of shoddy, cotton and the like. Sixteen shoddy, eighteenpence per yard (broad) is the price of these so called wool goods, and plenty of attractive fabrics are made at less.

It is also stated that Scotch manufacturers of tweeds, who hitherto used no shoddy, have had to resort to its use in order to compete with the composition of similar articles largely composed of shoddy produced in several Yorkshire towns and elsewhere.

The manufacture of artificial wools—and it is somewhat difficult to understand the designation—it said to be a large industry supplying manufacturers with a cheap substitute for the real article.

In speaking of the trade of another town in the Heavy Woollen district, the Yorkshire Observer says it is noted for its classical cloths, cheap dress meltons, dyed in classical shades, which find their chief markets in Greece and the Levantine ports. If all goes well there is a great future for these goods. The tweils and serges produced here are in great favor with wholesale clothiers, and, combined with an export demand, a steady trade results the whole year round. Into the composition of the higher grades a percentage of wool enters, but it is small. The cheap costumes which adorn the windows of many mantle shops are made in this locality. Tweeds and mantle cloths from 1s. 3d. per yard, from another important branch, and are made largely throughout this neighborhood. Speaking of military and police clothes, "strength being the test," there is little room for mungo or shoddy, and even the tender wool caused by the Australian drought is not admissible.

A well-known Yorkshire firm replying to an enquiry on the subject states,—"There is so much mixing done now-a-days to bring goods in at such low prices, that it takes a very good man to tell what there is in some of the manufactured articles."

In the Yorkshire Post's annual trade review of December 7th, 1901, a 54 in. cloth is spoken of which sells at 1s. 1d. per yd., which is composed of all shoddy, but is classed as woollen goods.

The Hon. Geo. W. Wallace, Santa Fe, New Mexico, in an able article on "substitutes for wool," recites a statement by a commission house in the trade that 90% of woollen goods contain cotton, and that in 45% the proportion of cotton is 3-4; and, when in addition to this cotton, the stuff which masquerades under a score of aliases, such as shoddy, mungo, wastes, flocks, loom flyings, wool extracts, noils, wool stock, manufactured wool-jute yarn, &c., the wonder is not that the sales of wool fall of so largely, but that any wool is used at all.

I thoroughly agree with his deduction, and also in his statement that the adulterated cloth has neither the wear or the warmth of honest woollen goods. Mr. Wallace, continues by stating that an expert witness before the ways and means committee of the fifty-fourth congress, testified that the first class large worsted mills of the United States had put in the French and German process by which short-wool-fibres could be used. This is a fact which speaks for itself. Quote further from the same source, and English correspondent of an American paper writes,—"I give designs and particulars for two most excellent cloths. The worsted putting will make a cloth particularly adapted to the American taste, and it can be made very well on a cotton backed cloth

and mungo filling. Again a trade journal in a technical article says:—"the proper finishing of low-grade face goods requires great skill and care, as generally such goods contain a large percentage of cotton in both warp and filling, the amount of wool being only sufficient to form a face to cover the cotton, and it is seldom of the best quality."

Quoting Mr. Mulhauser, the greatest manufacturer of shoddies in the United States, Mr. Wallace gives the annual consumption of shoddy in the United States at 40 million pounds displacing 120 million pounds of wool. The National Live Stock Association of America puts the figures for 1900 as follows:—(and this I presume refers to the U. S. only)—Shoddy used in 1900—74 million pounds displacing 222 million pounds of wool, or equal to 72% of all the wool in the United States that year. In other words it displaced wool equal in quantity to that clipped from 22,000,000 out of the 61,415,000 sheep owned in the United States. Therefore but for this shoddy there would have been used 222 million more pounds of wool.

An instance is given of the discovery by accident of the fact that a most reputable (?) and well known manufacturer, who had a contract to supply the government with 50,000 army blankets, was found to be stuffing the same with shoddy to the extent of 50%. Cotton is also introduced into blankets made in England, and in some cases, exceeds even 50% of the material used.

The rapid increase in the use of shoddy in the United States is shown by the following figures:—In 1860 thirty establishments had an annual output of a value of \$400,000. In 1890 the census showed ninety-four establishments and a product valued at \$9,208,011.

DR. A. W. CHASE'S 25c CATARRH CURE

Is your direct to the diseased parts by the Improved Blower. Heals the disease, cleans the passages, stops droppings in the throat and prevents further trouble. Catarrh and Hay Fever. Blows All Gout, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

Well, that's enough to try the patience of Job, exclaimed the village minister, as he threw aside the local paper. Why, what's the matter, dear? asked his wife. Last Sunday I preached from the text, Be ye therefore steadfast, answered the good man, but the printer makes it, Be ye there for breakfast.

Once when Judge Gary, of Chicago, was trying a case, he was disturbed by a young man who kept moving about in the rear of the room, lifting chairs and looking under things. Young man, Judge Gary called out, you are making a great deal of unnecessary noise. What are you about? Your Honor, replied the young man, I have lost my overcoat and am trying to find it. Well said the venerable jurist, people often lose whole suits in here without making all that disturbance.

A man who had never seen the inside of a court-room until introduced as a witness took a position with his back to the jury, and began telling the story. The judge said: Address yourself to the jury, sir. The man a short pause, but soon continued his narrative. The judge was then more explicit, and said, Speak to the jury, sir—the men sitting behind you on the benches. The witness at once turned around, and making an awkward bow, said, with perfect gravity, Good morning, gentlemen.

The Union Advocate,
ESTABLISHED 1867.

NEWCASTLE, OCTOBER 15, 1902.

THAT CHATHAM MEETING.

To judge from press reports the Opposition political meeting held in the Masonic Hall, Chatham, last Thursday evening, at which addresses were delivered by Messrs. Hazen, Mott, McInerney and McDade, was both a failure and a grand success. The St. John Sun described it in enthusiastic terms while the St. John Telegraph said it was "a very frost" to the opposition; but looked at from an independent stand point the Advocate knows that it was not such a frost. The hall was well filled with electors of both parties, and the speeches were listened to attentively and applause was liberally bestowed as points were made by the different speakers.

To be sure a few people who were obliged to be home early left between 10 and 11 o'clock but the great majority sat and listened patiently to the end of the meeting.

The speeches we all arguments from the opposition point of view but we doubt if they will have the effect of inducing any combination of men to enter the field in opposition to the present representatives. It seems to be the opinion of the electors of this county that its present representatives are capable of looking after the interests of the Miramichi and in looking over the field we hope to see where the opposition can hope to find any combination of men who can successfully oppose the government candidates and present indications are that they will be returned by acclamation when the elections are called on.

A United States contemporary says:—"A significant feature of the parade which President Roosevelt witnessed at Detroit was the presence of a troop of British soldiers in the line of march. The parade itself was memorable. The veterans of the Spanish war were there in large numbers, of course, as the occasion was a reunion of those patriots. But it is stated that included in the body of marchers were representatives of eight other wars. There were men in line who served in the early Indian war, in the Mexican and civil wars, in the more recent Indian wars, in the Philippine insurrection, and also in the Sepoy rebellion, in South Africa, and in the Franco-Prussian conflict. But it is affirmed that never before has a President of the United States reviewed a foreign regiment. President Roosevelt led this honor. The 21st Regiment of Essex Fusiliers came over from Windsor and joined in the march. Resplendent in white helmets and scarlet coats, their equipment burnished to the highest point headed by their own band and a half dozen Scottish pipers, and marching under the Union Jack, the Canadian troops were the soldiers who provoked the greatest interest. When they passed the reviewing stand the President lifted his hat, and when the British flag fluttered before him he accorded it the same salute that he did Old Glory. It was a honor in mind the cordial relations existing between the two countries, this circumstance is significant. It showed that the redcoats were anxious to honor the President, and that the President was likewise anxious to reciprocate the courtesy and to honor the flag of England. What may not these two great nations accomplish for the betterment of this old world if they march shoulder to shoulder together down the future?

Football was Responsible.
CHICAGO, Oct. 11.—Max Henry Fleischer is dead as a result of an injury received in a football game six years ago. Until two months ago Fleischer's parents did not know of the accident, but soon as his father learned of it he had an examination made, which showed that the young man's skull was depressed. The skull was trepanned, revealing a diseased condition of the brain. During the last six years Fleischer had suffered from severe headaches and fainting spells.

The Editor's Mail.

TO THE EDITOR OF THE ADVOCATE.
Dear Sir:—Where is the Sabbath Day Alliance?

Permit me, a subscriber, to use the columns of your paper to call the attention of the Sabbath Day Alliance to a flagrant breach of the law committed last Sabbath and committed with the full knowledge of the public. It is now history that the company operating at the railway bridge at Derby Junction desecrated the sanctity of that day by placing a new span on Oct. 12th. This has been done, too, without even a protest from those who are banded together for the protection of the Sabbath Day, the protection of our rights as a Christian community. The common plea is that this is a work of necessity. If it is, sir, I claim as a member of a Christian community that we have a right to know how this is a work of necessity. Has this company or has it not pledged itself by promises that are more easily carried out on the Sabbath day than any other. Has the Sabbath day Alliance taken the trouble to find that out? Is it possible for a span to be placed without this desecration? Are there not on any day sufficient trains when no regular train passes to have this work done? Surely this matter might be inquired into and some satisfaction given to the Christian conscience that finds offence at this action. A company may be conscientious but it need not be lawless and it is our right to see that it is not lawless. The quiet and sanctity of the Sabbath day has been disturbed and we have the right to know why. But we not only wish to know, we want this not to occur again. Rumor has it that the same thing will be done again next Sabbath. If this is so the Alliance should find it out and take the necessary steps to prevent it.

And what of those who sanctioned this lawlessness by their presence? And they were not a few. Church goes and non-church goes alike were there. There were many there, the stain on whose conscience could be wiped out easily. It is little wonder that a money making company lightly regards such sin when the community looks on with applause. The law of the Sabbath may be thoughtlessly set aside but the sin remains. Let the people be appealed to! It is the people's duty to scan such wrong and when wrong receives its due from the people it can't survive. It is to be earnestly hoped that this imposition will not be repeated and if it is let us hope that the community will treat it as a new position.

Campbellton, Oct. 13th, 1902.
"You can fool some of the people all the time and all the people some of the time, but you cannot fool all the people all of the time."
Editor of the Union Advocate.

Dear Sir:—
In late issues of the Provincial papers Mr. W. A. Mott publishes his card to the electors of Restigouche stating that he had concluded to withdraw his support from the Government party in New Brunswick; and again in later issues he publishes some comments made by St. John papers on his action. Mr. Mott's retirement has been more or less expected by people here for some time, but what surprises some of us are the reasons given. If Mr. Mott were a new man just taking a part in political life and who had not been in a position to point out these grievances and at least endeavor to have proper legislation on those points enacted it might be said that his action was fair-minded and right. But we must remember that the gentleman in question has been our representative during all these years and never to our knowledge made any effort to prevent the Muskoka Co. or any other company acquiring all the lands which they could secure until virtually all the public lands in this county have been tied up. It seems at least a trifle ridiculous to make that a basis of action in

BONE FOOD

Soft and crooked bones mean bad feeding. Call the disease rickets if you want to. The growing child must eat the right food for growth. Bones must have bone food, blood must have blood food and so on. Scott's Emulsion is the right treatment for soft bones in children. Little doses every day give the stiffness and shape that healthy bones should have. Bow legs become straighter, loose joints grow stronger and firmness comes to the soft heads.

Wrong food caused the trouble. Right food will cure it. In thousands of cases Scott's Emulsion has proven to be the right food for soft bones in childhood.

My Lungs

"An attack of la grippe left me with a bad cough. My friends said I had consumption. I then tried Ayer's Cherry Pectoral and it cured me promptly."
A. K. Randle, Nokomis, Ill.

You forgot to buy a bottle of Ayer's Cherry Pectoral when your cold first came on, so you let it run along. Even now, with all your hard coughing, it will not disappoint you. There's a record of sixty years to fall back on.

Three sizes: No. 1, enough for an ordinary cold; No. 2, for a severe cold, cough, croup, whooping cough, etc.; No. 3, most economical for chronic cases.
J. C. AYER & CO., Lowell, Mass.

retiring from the Government ranks. If a genuine desire to benefit small operators, mill owners or jobbing parties acted upon representative, he should, have taken his stand on the floors of the house and prevented any such wholesale tying up of the public lands, or, if not able to accomplish this, he could at least have protested against the outrage and thus placed himself on record for a later move such as he is taking now. It looks at least suspicious that all this information had to be kept until the eve of an election and then this special effort made. One would naturally suppose this should have been a part of his regular work and the people had a right to expect to have their interests safeguarded during the past years when he was a member. They now have other ways of reaching the Government, viz., by their votes. But while representing this country, he should have exercised his right to make himself heard on this and many other important questions which he has not done. Let the electors look at the unsatisfactory and unsettled state of libery business on the Restigouche and other rivers of the province. Federal and Local Governments both claiming rights regarding the control of licenses and other matters and the contemtable and silly attempt to arrange through a series of meetings between Messrs. Emmerston and Tweedie and the Federal authorities. Can the Prov. Government tell us why we were not represented in the case before the Privy Council instead of drifting along in this unsatisfactory way? Perhaps Mr. Mott can give us valuable information on this subject also, as he apparently was working along most harmoniously with them at that time. It may be well to mention this now, in case he takes another rest and wakes up any five or ten years after, and finds we have missed a cog somewhere and things are not just as they should be, in the meantime private citizens having to carry the burden of defraying their own claims which are really the provincial claims.

On the other hand we have the truly amusing spectacle of our respected friend and townsman, Mr. H. P. McLachly being hurled as it were into the breach made by Mr. Mott's defection through the combined efforts of Messrs. Tweedie and Reid. Mr. McLachly must have taken private lessons or else there has been special adaptation for his conversion has been almost a sudden as that of his great leader, Mr. Tweedie who only required to go to Montreal and be interviewed by the Hon. Mr. Borden and he was ready to go. Another thing our country should be deeply grateful for is having combined in the person of Mr. Reid, a Federal representative and Local Government dictator who anticipates the wishes of the people by furnishing a suitable candidate as required. Many of us thought he was merely a representative for Ottawa.

Yours Truly,
VOTER.

THE GOVERNOR'S GENEROSITY.

It was gracious thoughtfulness! The foregoing was the opinion expressed by each and all of the teachers, who enjoyed the pleasure of the trip upon the river at the Governor's expense. The kindness of providing the steamer was further enhanced by the distribution of a free lunch, tastefully served by the private secretary to His Honor.

The trip consisted of a pleasant sail to a point a few miles below Chatham and from thence to the upper end of Beaubear's Island.
To Miss Snowball, in no small measure, thanks are due for the tact which she displayed in making the trip, then by consent opinion, was voted "a success."
The scenic features of the place are appreciated by those who seek its beauty. Because scenery is unnoticed by a subject of good will to all, good fellowship if you please, was the basis of many complimentary remarks about the river. What a far reaching effect has one thoughtful act upon the mental, the physical, the ethical and even the psychical ideals of life.

MARRIED.

At Elmherst, Chatham, on the 8th inst., by the Rev. D. Henderson, Charles A. C. to Miss Harriet Rae, daughter of the late A. A. Muirhead, Chatham.

DEAD.

At Boston, Oct. 6th, Robert R. P., infant son of Frank and Elizabeth R. P., formerly of Chatham, aged three years (born 25th Sept. 1899).
Suddenly at Little Branch, Black River on the 28th of Sept. died of inflammation of the brain, Robert Thon Adams, aged 20 years, leaving a widow and three small children to mourn their sad loss.

THE COAL STRIKE.

(Continued from page one.)

MONTREAL, Oct. 11.—The Star's London correspondent said: One dealer quotes Welsh anthracite to-day at 28 to 30 shillings (\$6.92 to \$7.29) a ton f. o. b. at Swansea, but the market is so unsettled that the dealers say holders can get almost any price they like. Coal is being stored at Swansea until the end of the year.
HARRISBURG, Pa., Oct. 11.—Twenty five cars of anthracite coal mined and broken; this week at the colliery of the Lykens Valley Coal Company were shipped from Lykens yesterday. There was no demonstration as the cars were started from Harrisburg on their way to Philadelphia. The breakers at Lykens and Williamstown are being operated without interference.
SHAMOKIN, Pa., Oct. 10.—Details of the Tenth regiment were placed at various points about town this evening to save non-unionists from being held up by strikers. Non-unionists from the Henry Clay shaft were taken home in a regimental ambulance this evening owing to an angry mob hovering near the mine. The local collieries will be guarded by troops all night to prevent strikers from attacking the non-unionists and to guard against incendiaries.

RECORD MOOSE HEAD.

Joshua Walker, a trapper who spends most of his time upon the Sissou brooks, on the Tobique, the other day shot a moose with an enormous head. The spread of the antlers was exactly sixty inches and carried twenty-seven points, while the palm was exceptionally wide. The carcass of the moose weighed when dressed 800 pounds, and the most was purchased by Mr. R. A. Matey for the men at his lumber camp.
In this connection it is interesting to note the manner in which the woodsmen preserve the fresh meat for an indefinite period. They select a brook of running water of considerable depth and submerge the quarters or side of fresh meat in the water and it will keep in prime condition for any reasonable length of time.—Gleaner.

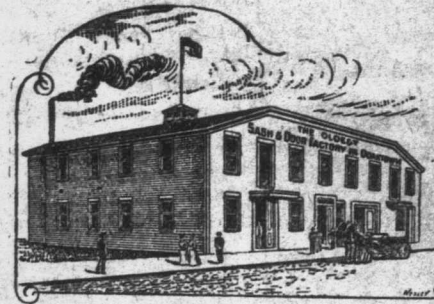

JUST ARRIVED.

1 Car Golden Crown Flour, 1 Car Laurel Flour. Also, Corn Meal, Heavy Feed, Shorts, Pork, Lard, Beef, Ham and Bacon, Sun-dried Codfish, Sugar, Molasses, Tea, Oil.

OVERCOATS, OVERCOATS, OVERCOATS.

We were reminded last week that JACK had come back to visit us for a few months. Did you feel his gentle touch? and make up your mind you would go at once and get your stove up, which we admit was a very good move. But what provisions have you made for yourself after you have left the stove? This is the point we are most interested in. We have imported over 24 pieces of the nicest heavy overcoating that can be produced. Both black and blue, also grays which are the leaders this year. What you want is something like this. It will make you feel almost as warm as if you were beside the stove. They can't help it. We line them with a nice cloth, put good canvas and wadding in them and besides it has that nice sit, shape and neatness that every well dressed man wants. Our prices are \$13.00 to \$20.00. You should see our cloth before purchasing. We are satisfied you would never pay three quarters of the price for a hand-me-down.

McMURDO & CO.

A Little Plain Practical Talk

About Overcoats, Reefers, Jumpers, etc., and where to BUY THEM.

In order to be comfortable and warm during the winter season everyman needs an overcoat or reefer, and where to buy these garments to the best advantage is the burning question at the present time.

Men's Beaver overcoats, blue black, good quality and well made, \$6.50.

Men's all wool Beaver overcoats, blue and black, slick and clean, beautiful cloth, \$10.00.

Men's Oxford, gray, all-wool Freize, well lined great coat for \$12.00.

Men's Reefers at \$4.25, \$5.00 and \$6.25. Made of blue and black Beaver cloth.

Men's Oxford grey, all wool cheviot overcoats extra long slash pockets, regular raglan style make. Only \$10.00. Great snap.

Men's extra long, all wool fringes, fine quality, slash pockets as above. Great coats for the money. \$15.00.
Men's ulsters, \$5.00 and upwards.

Men's jumpers, all wool homespun, full and pressed making them practically waterproof and at the same time strong and durable, the best jumper in the county for the money. \$2.75.

Men's Etoffe jumpers. \$2.00.

Men's Mackinaw jumpers. \$3.50.

Men's genuine Oxford pants, \$2.25.

Men's Oxford grey heavy pants, \$1.75.

FIVE PER CENT. off every cash purchase.

CLARKE & CO.

The Country. An Epitome of Events Gathered by ADVOCATE Reporters

BATHURST.

Fine dry weather after the long spell of rain and wind is being much appreciated by the farmers and all concerned in outdoor work and it is to be hoped that the farmer will now have an opportunity of getting in the remainder of the crops.

On Saturday night a serious affray, which may end the life of the Mate of an American Schooner, loading for the Sumner Company, took place at Bathurst village. It appears that during the voyage the Mate had some trouble with one of the sailors and had to chastise the man on several occasions. As soon as the schooner arrived the sailor came ashore and as once proceeded to get drunk, after which he began to tell what he was going to do to the mate if he caught him on dry land. Unfortunately about this time the mate came into the saloon where the sailor was and an altercation was the inevitable result. After some words and blows the sailor seized a bottle and struck the mate on the head with it rendering him insensible. The blow was a terrible one, and it is thought the skull of the unfortunate man is fractured. He was at once moved to the Marine Hospital where he was cared for by Doctor Duncan. During the excitement the sailor skipped out and has not been seen since. It is said that the life of the mate is in danger.

Corner stone of the new Roman Catholic Church at Grand Ave., Gloucester county was laid on Sunday the 12th, instant with appropriate ceremony, the proceedings being conducted by His Lordship Bishop Barry, assisted by the following Clergymen: Reverend Fathers Varrilly, Martin and O'Leary of Bathurst, Father Allard of Carleton Place, Father Doucet of Lennoxville, Father Trudelle of Paspéville, Father S. Doucet of Grand Ave. and others. A very large concourse of people witnessed the ceremony, about one hundred and forty having gone from Bathurst in a special train provided by the Carleton Place and Bathurst Railway. A number of others having driven to Grand Ave. from Pettit Bay and other parts of the eastern end of the County while many hundreds of people came from the western end of the County. The strangers were suitably entertained by the people of Grand Ave. in the large hall and private residences.

The new church is being built of a beautiful olive and stone, cut in tiers, and will be, when finished one of the beautiful edifices in the Province. We should judge it will be as large as the church of the Sacred Heart at Bathurst, and will be the intention of the congregation to build a new church of the same size and style as the present one has passed away. We are told a collection of several hundred dollars was contributed by the visitors. The visitors continue to arrive from the south end of the river emptying into the Bay and all bring their full quota of game. The number of moose caribou and deer head taken at Bathurst during the past few weeks must have been considerably larger than any former two years put together, which shows that our hunting grounds are well advertised. When the season is about over we shall endeavour to give the readers of the Advocate a list showing how many animals were really killed in this vicinity.

The many old friends and acquaintances of Geo. D. Hay of St. John were glad to welcome him, who, after a long absence of a day last week, returned to the Superior Hay was this morning Village school, now taught by Mr. Mercur. At the same time Dr. R. Hay was now engaged in preparation, and all reported his scholarship, was the best and carter was justly proud of having so much of the best of these boys.

Mr. R. Hay, manager of the Bathurst Hotel, spent Friday night in town. Mr. Hay has ships most of his markets to the westward at present, and that he is forward as fast as he can obtain dimension lumber.

Col. Malby since last week. Mr. W. C. Whitaker, Post office inspector was here on an inspection tour on Wednesday last. He spent a day or two in Bathurst last week.

John O'Brien who was badly injured by the kick of a horse some time ago is able to be out again. His family are visiting friends in St. John.

The death of Mrs. John Donnelly on the 12th inst. was reported by the Bathurst. Mrs. Donnelly's maiden name was DeGrace, a daughter of the celebrated Commodore DeGrace.

WHY DON'T YOU TRY OUR

Druggist

CLIFTON.

The wet weather which we have been enduring for the last week seems to have passed over and we are now enjoying a brisk northwest wind which will be a benefit to the grain that is sowed to the fury of the elements.

Most of the farmers have completed the grain crop and are now busy with the potatoes, which in spite of the wet season that at one time spoke badly for the welfare of this useful vegetable, are a good crop.

The air is full of fallow. Hardly a day passes without some one who has been spending the summer at home and helping to make our little village lively, bidding us farewell and leaving us for the sunny lands of the South, where they intend to spend the winter months.

Misses Cur and Ethel Knowles have returned to Fall River, Mass., after spending about two months with us.

Miss Myrtle Dempsey has returned home from a visit to friends in Chatham.

Miss Emily Scott of St. John's has left us this week to resume her studies in Business College, St. John.

Miss Ella Scott returns to Portland this week after having spent some time visiting her parents, Mr. and Mrs. H. Scott.

Mrs. T. Eddy and Miss Annie McKenzie spent Friday last visiting friends in Juneville.

Miss Belle Eddy spent Saturday and Sunday at her home.

Stetson is the "topic of the hour". Be sure if you see a number of men gathered at some street corner or outside some public building that election for the subject of discourse. Rumor says that the coming election means some excitement. Let us hope so as our little village shows symptoms of dullness.

We are sorry to report that R. Sargeant announces his intention of leaving us in the near future for Sullivan, N.H., where he expects to remain for several years. Mr. Sargeant is one of Clifton's finest young men and by his departure our social circle will sustain a heavy loss. Wishing him all success, we hope he will not become so much enamored with the "sunny land" as to forget his old home and tried and trusted friends.

Several more of our young men are daily leaving us for the lumber woods. We wish them a prosperous winter, and await their return in the spring with the usual expectancy.

Public Worship in the St. John's Presbyterian church was largely attended on Sunday last not only by people from the immediate vicinity but from the surrounding country. We beg to thank our Clifton friends for their attendance.

Herbert Ellis accompanied by his aunt Miss Anne Eddy paid Clifton a flying visit on Sunday last.

Judging by the number of wagon loads of trunks on the roads these last few days, it seems that the population of our little village. It seems as though we will be left to pursue the even tenor of our way.

WEDDINGS.

A quiet wedding took place at the Red Bank manse on the afternoon of Wednesday, Oct. 1st, when Mr. Richard Clifton, Bachelor, and Miss Lillian G. McLeod of Whiteville, were united in wedlock by the Rev. J. H. Murray. The bride looked lovely in a dress of white tulle with train, chiffon waist with applique trimmings, tulle veil and orange blossoms, and carried a bouquet of white roses. Miss Tweedie was bridesmaid. Her dress was an elegant one of crepe du chene and she carried a bouquet of pink roses. Mr. Roy McLeod gave the bride away. Staphelin's orchestra, played till one o'clock. The happy couple went to Newcastle Thursday morning on Mr. Fred Tweedie's yacht and took the train. The bride's presents were very numerous and many of them costly.—World.

CHATHAM WEDDING.

Mr. C. A. C. Bruce and Miss Roy McLeod Married.

There was a large number of guests at the residence of Hon. L. J. Tweedie, Wednesday evening, to witness the marriage of Miss Roy McLeod and Mr. C. A. C. Bruce. Rev. D. Henderson performed the ceremony. The bride looked very beautiful in a dress of white tulle with train, chiffon waist with applique trimmings, tulle veil and orange blossoms, and carried a bouquet of white roses. Miss Tweedie was bridesmaid. Her dress was an elegant one of crepe du chene and she carried a bouquet of pink roses. Mr. Roy McLeod gave the bride away. Staphelin's orchestra, played till one o'clock. The happy couple went to Newcastle Thursday morning on Mr. Fred Tweedie's yacht and took the train. The bride's presents were very numerous and many of them costly.—World.

POOR COPY

Mamma, what is the coffee pot singing? asked little four-year-old Mabel, as she sat in her high chair patiently watching her mother prepare breakfast one morning. O it just singing, answered mamma. I know, mamma, said Mabel: it's singing A Hot Time.

Mistress—Why, Bridget, you surely don't consider these windows cleaned? Bridget—Sure, I washed them nicely on the inside, mum, so ye can look out; but I intentionally left them a little dirty on the outside so them ignorant Jones children next door couldn't look in.

One of the farmers gathered at the village grocery read aloud from a newspaper which stated that oats had become so scarce on account of the swarming of emigrants toward the west that the price had gone up two cents a bushel. What's emigrants? interrupted a farmer. After a significant silence the grocer, whose reputation as an oracle was at stake, spoke up: I don't know exactly that these pesky emigrants is, explained that worthy man, but I know they're powerful destructive on oats.

Nothing Like
PAINE'S CELERY
COMPOUND
FOR CLEANSING AND PURIFYING THE BLOOD.

It Eradicates the Seeds of Disease, Invigorates and Rejuvenates.

Thousands of men and women who have neglected the work of Physical recuperation to the summer months, are now carrying a burden of disease in the majority of cases, impure and poisoned blood and sluggish circulation are the direct cause of suffering and misery. Are you, reader, one of the victims? It is so not to be a moment regarding what you should do. The life stream must be made pure, the health-wrecking luxury of the blood vessels must be corrected, the nerves and tissues must be nourished. Paine's Celery compound is the medicine that physicians recommend for the increase of pure blood in the arteries, and for arousing the purifying organs to cast off the impurities that give rise to disease. Mr. T. F. Mitchell, New Hamburg, Ont., writes as follows:

My mother suffered for five years with a sore leg, and her system was so far run down that doctors could not help her. She could hardly walk about the house. She tried almost everything to procure a cure, but Paine's Compound was what cured her. She is now able to do her own work.

The life of a Methodist minister in West Virginia has been married three times. Her maiden name was Paine, her first husband was named Robin, her second was named Sparrow, and the present one is named Quayle. There are now two Robins, one Sparrow, and three Quayles in the family. The grandfather was a Swan, and the other was a Jay, but he's dead and now he's a bird of Paradise. They live on Hawk Avenue, Eagle Island, and the fellow who wrote this article is a Lyre who wrote the interesting relative of the family.

STOPS THE COUGH AND WORKS OFF THE COLDS.
Laxative, Bronchus, Quins, Croup, Cough, Cold in one day. No cure, 25 cents.

Welderly—Why can't you women get off a street car the way we men do?
Mrs. Welderly—Why not, if we did they would soon quit riding for us.

Minard's Liniment for sale everywhere.
Ella—There's nothing with the right people.
Stella—I know it, I went rowing with a fellow the other night, and he both fell into the water and didn't know how to swim. I should have been down there.

Chronic Biliousness. IN ITS TRIAL FOLLOW HORRIBLE DREAMS, DESPONDENCY MELANCHOLIA AND GENERAL WEAKNESS.

The proper elements needed to promote good digestion, regularity of the bowels, correct action of the kidneys and liver, must be supplied when a bilious condition of the system is once established.

Ferrozone can't help but do this. It gives the stomach perfect rest, and allows you to partake of and enjoy the variety of food that is necessary for maintaining health. Our Ferrozone tablet taken after each meal will separate the nutritious portions of the food from the waste, which is carried off, thus preventing and curing constipation and its attendant evils, piles. Being a potent blood purifier, Ferrozone cleanses the crimson flood of all bile and impurities, and as a result the complexion is restored to a rosy, healthy hue, and the dark circles under the eyes and the deadly pallor of the cheeks, go away never to return.

Taken for disorders of the stomach, commencing with biliousness, and ending with despondency of the liver and kidneys, Ferrozone achieves marvelous results. It is at the same time a tonic and stimulant, and a regulator of all bodily functions, and chronic sufferers should not fail to give it a fair trial. It will do them good without doubt, and if the remedy is curable it will yield to Ferrozone.

With the use of Ferrozone appetite will be better, the blood made rich and pure, sleep will be dreamless and sound. Your muddy complexion will be cleared and beautified, your eyes will acquire a new brightness, and as your spirits rise and good health returns, you will bless the day you learned the secret of Ferrozone's power.

If you think you need Ferrozone go to the nearest drug store and procure a supply. Refuse a substitute and insist on having the genuine Ferrozone, which costs 50 cts. per box or 3 boxes for \$1.25. By mail from N. C. Polson & Co., Kingston, Ont.

The chafing-dish supper was over says the Chicago News, and Mr. and Mrs. Stubbs were wending their way homeward. But, John, said Mrs. Stubbs, who was feeling perfectly well, and consequently was sure that everybody should make an effort to be above indigestion, how do you know that Welsh rarebit is going to disagree with you?—I have inside information, Stubbs returned, promptly and sadly.

Messrs. C. C. Richards & Co., Gentlemen,—In June 1891 I had my hand and wrist bitten and mangled by a vicious horse. I suffered greatly for several days, and the tooth cuts refused to heal, until your agent gave me a bottle of MINARD'S LINIMENT, which I began using, and the effect was magical. In five hours the pain had ceased, and in two weeks the wounds had completely healed and my hand and arm were as well as ever.

Yours truly,
A. E. Shaw,
Carriage maker, St. Antoine, P. Q.

A self-conscious and egotistical young clergyman was supplying the pulpit of a country church. After the service, says the New York Evening Post, he asked one of the deacons, a grizzled, plain spoken man, what he thought of this morning's effort. Well, answered the old man, slowly, I'll tell ye, I'll tell ye in a kind of parable. It reminded me of Sim Peck's first deer hunt, when he was green. He followed the deer tracks all right, but he followed 'em all day in the wrong direction.

MELAN'S VEGETABLE WORM SYRUP.

Always the same safe, pleasant and effectual remedy.

Minister (to one of his members, a venerable old gardener)—You have reached a great age John. John—Deed ha'e I, sir gor gin I leave till the 11th of next month, I'll be an octogenarian.

DR. HAMILTON'S PAIN EXPELLER.

No use o' talkin' said Mr. Ernest Pinkley, dat brother o' mine is a lucky nigger. He allus has money. But you must remember that he is much more industrious than you are. He's at all afraid of work. But jes' to point, He were lucky in bein' so industrious.

The story of a Scotchman who attended a funeral which lasted two days, is told by Norman E. Mack, of Buffalo. On the second day, having imbibed too freely, he rose and proposed the health of the bride and groom.

A friend urged him to sit down saying, This is not a wedding; it is a funeral.

Well, retorted the Scotchman, whatever it is, it is a grand success.

NATURE'S REMEDY FOR ALL SUMMER COMPLAINTS.

It only costs Twenty-five cents to have on hand a safe and sure remedy for all Summer Complaints, Diarrhoea, Cramps, and pains. Buy a bottle of Fuller's Blackberry Cordial to-day there is no remedy "just as good," tried and tested for over twenty-five years, it regulates the bowels and relieves promptly. Useful alike to both children and adults; prepared by the Baud Company Limited.

Enterprising Agent—Pardon me sir, but I heard you tell the gentleman who just left that you would wash your hands of the whole affair.

Business man—Well? Agent—In case you do, may I hope that you will try my patent soap.

LAMENESS IN HORSES, HARDS AND SOFT LUMPS RELIEVED BY LEEMING'S SPAIN LINIMENT.

For curing lameness from whatever cause, sprain, cut, splint, ringbone and for removing obstinate lumps and all similar injuries or diseases. Cures when everything else fails. Do not confound this preparation with spavin cures and other preparations. Leeming's Spavin Liniment is different from any of them, the effects produced by the application of Leeming's Spavin Liniment are certain yet comparatively mild. Prepared by the Baud Company Limited.

Sharpe—On his birthday before their marriage she gave him a book entitled, A Perfect Gentleman.

Whaolton—Any change after a year of married life? Sharpe—Yes; on his last birthday she gave a book entitled, Wild Animals I have met.

Minard's Liniment Cures Dandruff.

It was somewhere in New Jersey that a man got somewhat mixed on Scripture, and said, Brethren, when I consider the shortness of life, I feel as if I might be taken away suddenly, like a thief in the night.

Minard's Liniment Cures Burns, etc.

Church—I see anthracite parties are to be popular this winter.

Gotham—What on earth is an anthracite party?

Why, each one contributes a quarter, and the amount goes to buy a piece of coal, and—no anthracite are around and watch it burn.

YOUR OPPORTUNITY TO GET WELL.

You are offered Dr. Chase's Nerve Food as the most perfect restorative, blood creator and system builder that was ever prepared. Cause of the discovery, Dr. A. W. Chase, is enough to guarantee this, and he has the testimony of scores and hundreds of cured ones in every part of Canada and the United States. It can use it knowing that it is bound to do you good.

He's one of the old settlers, isn't he?

Yes. One of the most persistent old settlers we have.

What do you mean? That he persists in hanging on?

No, I mean that he persists in settling. He has settled for from ten to twenty cents on dollar after no less than five failures, and he'll do it again if he gets a chance.

FOR A CERTAINTY I AM CURED.

Mr. James Tremman, butcher, 226 Adelaide Street, London, Ont., writes that for two years he was laid up with kidney disease and urinary troubles. He became dropsical and his legs would swell so that he could scarcely go round. He never used any medicine that did so much good as Dr. Chase's Kidney-Liver Pills and knows for a certainty that this treatment cured him. One pill a dose, 25 cents a box.

Bingo—I'm going to bring my wife round to call on you to-night. Winterby—To-night? But do me a favor, old man. Don't let her wear her new cloak. I don't want my wife to see it just now. Bingo (grimly)—Why, that's what we are coming for.

CUSTOM TAILORING

Mr. J. R. McDonald has moved to the rooms over J. Demers' grocery store where he will be pleased to see his old customers and friends.

PRESSING, CLEANING, REPAIRING executed with neatness and despatch.

J. R. McDONALD.

Social Agonies—Disadvantages of resembling a Celebrity—She—Oh, how do you do, dear Mr. Lyon? Have you forgiven me for cutting you at Mrs. Leo Hunter's last night? I was actually stupid enough to take you for that horrid bore, Mr. Tetterby Thompson, whom you're said to be so like. It's horrid libel. You're not like him a bit. He—A-a—I wasn't at Mrs. Leo Hunter's last night, a-a-and my name is Tetterby Thompson.

THE DAY OF MIRACLES NOT PAST.

A Toronto "Star" reporter investigated the case of Mr. Geo. Warner, and found that after thirteen years of almost total deafness, he had been cured by inhaling Catarthozone.

This proves that where Catarthozone is inhaled, it is employed, impaired hearing and deafness can be cured. Catarthozone always brings quick relief and is warranted to give lasting satisfaction. All sufferers from impaired hearing, Deafness, Head Noises and Ringing in the Ears are advised to inhale Catarthozone and derive the great benefit it is capable of affording. Price \$1.00, small size 25c. Druggists, or N. U. Polson & Co., Kingston, Ont.

George said, I know what the equator is. What is it, my lad? asked a kindly old gentleman from Lacrosse. The equator is a menagerie lion running round the earth between the north and south poles, answered George.

HOW TO LEAUFIFY THE COMPLEXION.

To have a soft, smooth skin, free from eruptions and pimples, the blood must be healthy and pure. Ferrozone invigorates enfeebled blood, and cleanses it of all impurities and poisons; it brings color to the lips and cheeks, brightens the eyes, whitens the teeth and sweetens the breath. No tonic compares with Ferrozone in rapid action and permanent results. Try it. Price 50c. in druggists, or Polson & Co., Kingston, Ont. Sold by A. E. Shaw.

Pooh! said Daisy scornfully. The idea of your being afraid of a poor old house-dog! Why he eats out of my hand! I don't doubt it, replied Burroughs, dubiously, but what I am afraid of is that he may take a notion to eat out of my leg.

DR. HAMILTON'S PAIN EXPELLER.

Squirts these moving on your Mrs. Snaps. You're sweeping out your shop?

Mrs. Snaps—Not at all, sir. I'm sweeping out the dirt, and leaving the shop alone.

LIGHTNING REMEDY FOR CRAMPS.

Some people have cramps pretty often, others only now and again. But when you do have them it's a mighty quick relief you want. Polson's Nervine is as sure as death to relieve cramps in five seconds—it's instantaneous. Just a few drops in sweetened water and the pain is gone. Buy a bottle of Nervine to-day, and keep it handy. Nervine is a non-narcotic household necessity and only costs 25 cents.

Mrs. Gunning—O Harry! Surely you weren't cruel enough to shoot this poor little bird! Mr. Gunning—Why ye; I thought you might have it stuffed and put on a bonnet. Mrs. Gunning—Oh how kind and thoughtful of you!

DR. HAMILTON'S MANDRAKE PILLS CURE CONSTIPATION.

In Mother churchyard, Monmouthshire, is to be seen this curious epitaph:
John Lee is dead; that good old man we never shall see him more; He used to wear an old drab coat, All buttoned down before.

Age 101.

In the churchyard of Bury, Suffolk, can be read these lines on a punster:
Here interred beneath these stones, Lies poor Jack tiffey's skin and bones.
His flesh I oft have heard him say, Was roaped in time would make good hay.
Quoth I, how can that come to pass? And he replied, All flesh is grass.

A HEAVY IRONING. BEE STARCH.

Try it and prove for all time our assertion. The iron cannot stick to the linen—nor will the latter crack when BEE STARCH is used.

TEN CENTS PER PACKAGE. SAVE THE COUPONS.

SNOWDON, FORBES & CO., 449 St. Paul St., Montreal. 19 A.

FREE.

CANADA'S GREAT FAMILY PAPER.

ABSOLUTELY FREE.

We have made arrangements with the Publishers of the Family Herald and Weekly Star of Montreal by which we can offer a subscription to that greatest and best of all Family Weeklies for the balance of 1902.

ABSOLUTELY FREE.

To every person paying 40c. for a subscription to the Union Advocate for the balance of 1902, we will have the Family Herald and Weekly Star mailed direct from that office for the same period without charge.

This will also entitle you to a copy of our Illustrated Souvenir Edition, containing the celebrated poems, "In the days of Duffy Gillis", "Dungarvon's Contingent is Ready", and "The Man Behind the Boathook."

75c Worth for 40c

This is without doubt the greatest offer ever made to the public of Canada, and the sooner it is accepted the more you get.

TO OUR PRESENT READERS.

Any present subscriber whose subscription to the Union Advocate is in arrears can have the Family Herald and Weekly Star free for the balance of the year by paying up arrears, and 15 cents, and those not in arrears can have the Family Herald and Weekly Star for the balance of the year by paying next year's subscription during September, with 15 cents additional.

We are making a big effort to run the subscription list of the Advocate up to 2000 copies before Jan. 1st, and this offer has been made especially for that purpose.

The Advocate is acknowledged to be the newest weekly in Northern New Brunswick and with some improvements which will be added this fall will make it second to none in this province.

Do not put off sending in your subscription but do it at once.

ADDRESS:--

Anslow Bros.,
Publishers,
Newcastle, N. B.

The WHIRL of the TOWN

SUBSCRIBERS will kindly watch the date opposite their names on the **ADVOCATE** each week, for two reasons--to note when they are in arrears, and help the Publishers by paying up promptly, and when said up to see that the date is changed. If the leaves are commencing to fall.

The coal problem does not bother our citizens.

At **McMILLAN'S SHOE STORE** warm footwear for winter.

Mrs. H. A. Quilty advertises her fall millinery opening for Saturday, October 18.

All the latest fancy millinery can be found at **McMurdo's**. Prices moderate and fit and workmanship guaranteed.

Jas. M. Falconer, the popular carriage builder is manufacturing thirty single and double sleighs, which he will sell at a very low figure. See his ad.

Overcoats at **McMurdo's** ready to put on your back, \$9 to \$15. Made to your own order, from \$12 to \$20. Leave your order early.

Don't forget the fact that we carry a full assortment of paper bags from 1 lb. to 25 lbs which we sell at lowest trade prices. Liberal discounts for large quantities.

A number of Gipsy fortune tellers and fakirs were in town Friday. Officer Gallahue escorted them to the boat and they left for Chatham.

A large number took advantage of the cheap rate to St. John last Saturday to see General Booth. The return fare was only \$2.15 good to Tuesday evening.

Allen Ritchie Roy, left Monday morning on a trip of inspection to the firm's operations on the Little Southwest. This firm has large crews of men at work in this locality.

The foot ball team of Harkins Academy went to Chatham last Saturday afternoon and again were defeated. The Chatham team secured three touchdowns in the first half, making a score of 9 to 0.

Mr. Joseph Petrie with a guide started from Millerton recently for big game and after about two hours travel killed a fine moose. While they were busy engaged in skinning the moose, a deer drawn nearly curiosity, came within rifle shot and was also secured. Joe is to be complimented on his success. Next.

Now that the long evenings are here, we would like to have correspondents devote more time to their notes and let us have interesting budgets every week from every town and village on the North Shore. Start for next week.

A Harvest Thanksgiving service was held last Sunday afternoon in St. Mark's church, Nelson. The church was beautifully decorated with every token of the bountiful harvest which, with the profusion of flowers, spiced the air with the fragrance of the feast. The singing was hearty on the part of choir. The attendance was not quite as large as last year, a number of the men being at work on the railway bridge. The offering was liberal.

William Dempsey, an old and respected resident of New Bandon, Gloucester county, died at his home on Sunday, Oct. 12. He was 88 years of age. He lived under the rule of five sovereigns, George III, George IV, William IV, Victoria and Edward VII. He was born in the year 1804 in Ireland and immigrated to Canada when young. The funeral took place on Monday at Grand Ave. R. C. Cemetery.

In St. Andrew's church last Sunday, the members of this church held their annual Harvest Thanksgiving services. The pretty little church, decorated with grain, fruits, and flowers was more beautiful than usual, owing to the fine floral decorations, and presented a very pretty appearance. Fair sized congregations were present at both services. The congregation is neither a large one nor a wealthy one, but exceeding in generosity. Sermons suitable to the occasion were preached by the rector.

Death occurred at 2.30 Sunday morning at Mr. Crisp's, Mispin, of Edgar Conroy, a native of Chatham and an employee of the Mispin pulp mill. Deceased was about thirty years of age and unmarried. His mother and other relatives reside in Chatham.

Deceased complained of being ill on Friday. Dr. Bookbinder was called. Death was due to acute heart disease. Undertaker Fitzpatrick brought the body to the city early Sunday morning and prepared it for burial. The interment will take place at Chatham, where the body will be sent by train. The body will be accompanied to Chatham by deceased's cousin, Mr. Roy was a member of the team. Telegraph.

Read **McMurdo's** overcoat add.

Thursday is Thanksgiving Day. All places of business will be closed for the day.

The S. S. Feelin Head, captain Cotter, is due at Douglastown to load coal for E. Hutchison.

Good heavy soled **Dongola** Laced boots only \$1.00 at **McMillan's** Shoe Store.

Don't pass **McMurdo's** if you want a winter overcoat cheap. Put up in the best shape, cloth, lining, velvet collar, cuffs on sleeves, slash pockets. Work guaranteed.

Hundreds of people on the north shore will tell you **McMurdo's** is the place to get suit or overcoat made to fit you, also well trimmed and tailored.

Mr. and Mrs. G. M. Barker of St. John and Mrs. A. C. Barker of Moncton went to Tabusintac for a weeks goose shooting Tuesday morning.

National Thanksgiving Day, Thursday. There will be Divine Service in St. Andrew's church at 10.30. Also in St. Mark's church, Nelson, at 7.30.

The new telephone line from Newcastle to Red Bank is nearing completion and in the course of another week will be in operation. This will be a great convenience to people in the district through which it passes.

Just received at **McMurdo's**. Twenty-six overcoat lengths. All the latest patterns and shades. Coats made to your order finished with lined lining and velvet collar, slash pockets, cuffs on the sleeves. Prices \$12 to \$20.

That the large purple grape could be grown on the Miramichi is interesting information to most of our readers and such is the case. Last Saturday the **Advocate** reporter was asked by Mrs. Perrie to step into her garden and see a grape vine from which she had picked about a half bushel of ripe grapes. This was the first year that it produced any fruit and considering that this season was a short one it is remarkable that the fruit ripened. The reporter was treated to a large cluster.

A new joint stock company known as the **Restigouche Foundry and Supply Co., Ltd.**, has been formed at Campbellton to carry on general foundry business with various other branches in other lines. The company is composed of the following gentlemen:—Wm. O. Duncan, Alexander McLeannan, Alexander E. Alexander, Kilgour Shivers, W. Albert Mett, Campbellton, N. B., Richard O'Leary, Richibucto, N. B., Wm. S. Montgomery, Dalhousie, N. B., Thos. Malcolm, Edmundston, N. B.

The beautiful drive from the Northwest bridge to Wilson's point through the old historic graveyard, thence around to the Southwest bridge has been repaired by a condition to drive over but is a little rough. This road should be remembered when the next byroad appropriations are being laid out. A very small sum would suffice to put it in good repair and it would then become a very popular drive. Of late numbers have driven through that way and are loud in their praise of that beautiful drive, also for the thoughtfulness of the gentleman who repaired the road and bridges.

The attention of our readers is drawn to the announcement on another page of this paper, which affords a splendid opportunity to secure that great family paper, the **Family Herald and Weekly Star**, of Montreal, absolutely free of charge for the balance of 1902. The **Family Herald and Weekly Star** is acknowledged to be in a class entirely by itself as a family paper, and the desire to introduce it into new homes has enabled us to make this arrangement with the publishers of that great paper. We learn that the **Family Herald** publishers will shortly announce their new premiums for this season, and the public will get a pleasant surprise. Read the announcement in this paper.

MRS. S. A. DEMERS' GRAND CLEARING SALE

Of millinery and millinery trimmings, also ladies' costumes, shirt waists, dresses and underskirts, wrappers, corsets, wool underwear, white wear, ribbons, lace, hamburgs, veilings, silks, velvets, velvetens, plushes, crapes, etc. Everything is marked away down and greatest bargains will be given. All must be disposed of at any price, as I am going out of the millinery business.

MRS. S. A. DEMERS.

Social & Personal

Mr. Thomas A. Clarke went to St. John on business Saturday morning.

Mrs. C. C. Hubbard returned to her home in Carleton last Friday.

Messrs. Allan and William McLellan of Moncton and Fredericton, spent Sunday with friends here.

Mrs. McLellan is visiting her daughter Mrs. John Russell.

Mr. and Mrs. Harry B. Anslow returned Friday afternoon from Boston. They came via the D. A. R. to Yarmouth and thence down the beautiful Annapolis valley.

Mr. James Corbett, who recently visited his home here and returned to Boston has accepted a lucrative position in the West and left Sunday evening, Oct. 5th, for San Francisco, Cal. His many friends here wish him every success.

Mrs. I. Chisholm went to St. John Saturday.

Miss Annie Craig spent Sunday in St. John with her sister, Mrs. Harry Barker. Mr. Jas. S. Black went to St. John Saturday morning to see General Booth.

Mr. Frank Quinn left on the 29th Sept. for Buhl, Minn., to work in the Stevens mine.

Miss Alexis Murphy left Friday morning for Charlottetown Mass. to visit friends.

The many friends of Mr. Thomas Lawler, Jr. of Redbank will be sorry to hear that he is in the Hotel Dieu hospital, Chatham, where he has been operated on for a throat affliction.

Mrs. Arthur Mills is visiting friends in Woodstock.

Mrs. Calvin Clarke, of Upper Nelson, who went to Victoria Hospital, Fredericton, some time ago, is very much improved in health and is expected to arrive home shortly, fully restored.

We are pleased to see Mrs. R. R. Call about the house as usual after her recent severe illness. The grand child which was also seriously ill is out of danger and on the way to speedy recovery.

Miss Julia Foran has returned home from her visit to Upper Derby and Hallowell.

Mr. George O'Brien spent today in Newcastle.

Mr. Wm. Richards of Boistown, the prominent and well known lumberman, who has been a guest and invalid at the Barker house since he was removed to his home, he having recovered sufficiently to permit of his removal. A special train was provided for his convenience and left the Canada Eastern depot at noon. Mr. Richards was taken from the hotel to the train in the hospital ambulance. He was accompanied by Mr. Richards, Mrs. W. D. Richards, and Mr. H. H. Junt and also by his nurse, Miss Jack. —Gleaner.

Mr. R. N. Wyse has gone to Montreal on business.

Mrs. H. Fairman of Toronto is visiting friends here. She is on her way to Glace Bay, C. B.

Miss Laura Johnston has returned to Boston, Mass.

Mr. R. H. Armstrong was called to St. John by the illness of his brother. He returned Monday night.

We saw an invitation to the one hundred and thirty-fourth annual banquet of the New York Chamber of Commerce to be held on the occasion of the opening of the New Chamber on Tuesday evening Nov. 11th, at the Waldorf Astoria. The banquet hall has a seating capacity of six hundred and fifty and has been engaged for that number. At this banquet many notable men from the London Chamber and others throughout Great Britain will be present as well as many notables of the United States. The subscription for each member has been placed at \$50. Mr. Samuel Adams is a member of this institution.

Extensive repairs are being made to the interior of the **Advocate** office which when complete will make it much more convenient and attractive to our customers and much more convenient for ourselves and will facilitate the rapid turning out of our ever increasing job business. The lower storey is being remodelled so as to contain a neat office and store with the composing room in the rear while the second flat will be devoted exclusively to the jobbing department and pressroom, thus giving adequate room for all. While these alterations are being made we find it a little difficult to keep pace with our work but know our patrons will have patience. The work will be completed in about three weeks, but in the meantime we will be just as glad to have our patrons call as heretofore.

The Strength Makers.

After sickness or when run down from hard work, there is the need of a reliable strength maker. The three agents highly beneficial are Beef, Iron and Wine. Is the great common nourishment of mankind. Beef extract carries strength to all parts of the body. Is the important element of blood and bone. It is always lacking in quantity and quality in all cases of weakness and exhaustion. In medicinal doses is a tonic to the weary organs, reviving strength and encouraging to new efforts. Our splendid combination of Beef, Iron and Wine is needed by those who need a true strengthener. Dalton's Beef, Iron and Wine makes you strong, acts as a food and a medicine. The effect of one bottle is wonderful. PRICE, 75c a FULL PINT.

at **NEWCASTLE DRUG STORE.**
F. R. DALTON, Proprietor,
SUCCESSOR TO E. LEE STREET. QUIGLEY BUILDING.

MILLINERY.

Ladies' and Children's Trimmed and Untrimmed Hats.

Knock about hats, Hoods, Tams, Silks, Velvets, Ribbons, Novelty Materials, Feathers, Ornaments, etc.

Latest ideas in millinery added to our stock as soon as they appear.

Mrs. H. A. Quilty,
THE SARGEANT STORE.

LOST.

A sum of money in a roll, all in bills, lost between Samuel Thomson's residence and John O'Brien's store. A reward of \$5.00 will be given for its return to **ABRAHAM FARRAH,** Newcastle.

Oct. 18th.—1w. pd.

Stoves, etc.

My stock of stoves is now complete, the variety is very large and consists of: Ranges, Cooking and Heating stoves, Stove Pipes and Elbows all sizes and everything that is required to make you comfortable during the long cold winter.

J. H. PHINNEY,
Newcastle.

A cheque for three hundred dollars forwarded by Mrs. Flanagan of New York to Father Dixon of this town. The cheque was for the purchase of the new church at St. Samuel's, Chatham. Mrs. Flanagan is the donor of the very pretty altar which adorns the church, while a former altar given by her father and mother has been relocated by the congregation to the Indian church at St. George's. Mrs. Flanagan is sister to Hon. S. Adams. Generosity is apparently an hereditary quality.

Toronto Appeals to Mayor of Cardiff.
London, Oct. 11.—The Mayor of Toronto has called an appeal to the Mayor of Cardiff to induce the coal mine operators to give Canada the preference in meeting the emergency arising from the American coal strike.
