Donahue of The London Advertiser staff was the speaker of the evening and he addressed a large gathering of out-oftown managers and store employees.

Introduced by Mr. J. Hickey, manager of the local store, Mr. Donahue began his talk with reference to the establishment of Grafton & Co. 73 years ago. He dealt in an interesting way with the history of the company up to the present day. Courtesy, ob-servation, selling ideas, and other topics were discussed in new ways by using as illustrations actual happening daily activities.

At the end of the sales talk, which covered 14 headings of three minutes each, Mr. Hall moved a hearty vote of thanks to the speaker and suggested that the salesmen for one-half hour "harpoon" Mr. Donahue for further criticisms and ideas. A lively discussion took place and many valuable ideas were brought out. Mr. Donahue was invited to go to

BOHEMIAN GIRL

Splendid Production, Both Artistic and Entertaining, Witnessed at the Grand.

It was an exceptionally fine production which the Brandon Brothers brought before a London audience last night in the presentation of the Bohemian Girl at the Grand Opera House. London only too rarely has the opportunity of hearing so distinguished a musical score sung by a company which is artistic and entertaining.

The Balfe opera, always a popular one, was played with distinction. The voices of both chorus and principals are good, and seemed to show off :0 better advantage than in The Mikado, played on the first two nights of the week. And not only were the voices good, the opera was presented with dramatic force and ability.

Esther Snyker, as Arline, daughter of the great Count Arnheim, stolen by the gypsies in her childhood, carries the leading role with perfect ease. Her voice, although not powerful, i

crystal pure and sweet. She has a winning personality and beauty. Her solo, "I Sometimes Dream of Marbie Halls," was one of the lovellest num-bers of the performance. Playing op-posite her as Thaddeus, an exile in posite her as Thaddeus, an exile in the gypsy camp, but a man of rank, is Lee Bright. His rich tenor mingles beautifully with the soprano of Miss Snyker. His acting is excellent.

Not a few of the honors of the performance to go Jessie Evans, the passionate gypsy queen who tries to sionate gypsy queen, who tries to thwart the progress of true love be-cause of burning jealousy. Her deep, rich and powerful contraito voice is of a lovely quality, and her solos were among the best of the whole presentaamong the best of the whole presenta-tion. Her acting, too, is forceful. F. Harlan Erickson, as Devilshoof, chief of the gypsies, was an outstanding figure in the opera. He is not so well cast, however, as in The Mikado, where he was given sufficient scope for his ability as comedian. He dominates The Mikado with his remarkable characterization of the Lord High Executioner. In The Bohemian Girl, his role is much smaller, but he plays it effectively, and displays a rich bass voice of nice qual-

Chester Bright, as Count Arnheim father of the stolen child, has an ex-cellent part to play, and carries it well. His baritone solos were enthusiastically received, for he sings well. V. A. Bird exhibited some very fine comedy as Florestine, while Walter Lund enacted the role of Captain of the Guard. As a whole, the opera was excellently presented. The costumes were artistic and the stage settings effective.

VICTORIA PARK CHOSEN AS SITE OF CENOTAPH

→ Memory of Soldiers Will Be Placed in Southern Part of Park.

The southern part of Victoria park, between Clarence and Wellington streets, and directly opposite to the London Life property, yesterday was chosen by the cenotaph committee as the site of the proposed cenotaph to the memory of the soldiers who fought and died in the great war. Other sites were proposed, such as the "V" at the intersection of Richmond and Clar-ence streets and the northern part of the park, but it was shown tha neither of these sites were as desirable as that chosen.

Dr. L. H. Douglass reported that the

"V" would cost too much. He also pointed out that it was not favorably situated for a cenotaph on account of traffic. This was also an objection to traffic. This was also an objection to the northern part of the park.

Lieut.-Col. F. B. Ware submitted de-signs to the committee and suggested that the cenotaph be made one of field stone, having three or four steps lead-ing to a platform. At both ends there ere to be slabs inscribed either with the names of London's dead or with battle honors of London regiments. Col. Ware's suggestion was approved, and it was decided to make him convener of the committee to choose the design from those submitted by the architects and designers of the city. Col. Ware's committee will include Mrs. A. E. Miller, regent of the Municipal chapter. I. O. D. E., Mrs. M. A. Ross Thomas, Lieut.-Col. E. N. Chesham, Dr. L. H. Douglass, and others to be chosen at

JUVENILE SPEEDSTERS TURNED OVER BY POLICE

Two young lads of tuvenile age, were last night turned over to Probation Ofcer Major A. G. Bradshaw. They were charged with speeding. When the mother of the two boys had stopped to use a telephone, they decided to have a short jaunt around the block in the car. They also realized that the trip would have to be made in "jig" time if they were to arrive back before mother did. With this fact momentarily haunting them, the boys stepped on the gas to such an extent that a local traffic officer, who was unfortunately in the vicinity at the time, rode up alongside and ordered the youthful speed demons to "pull into the curb. Unable to offer a satisfactory explan ation for their misdemeanor, the boys were obliged to accompany the officer to the police station, from where their mother was duly informed of the eventful happenings of the evening.

Associated Press Despatch.
London, Dec. 2.—The house of comons today heard a version of complaint often raised by the British papers that United States motion-picture films give an entirely false impression of British life and manners. Sir William Henry Davidson, Con-servative member for Kingston, said it was desirable that British life should be presented by British-made films and and he wanted to know whether the government intended to introduce legis-lation compelling British motion-picture theatres to include a certain percentage of British films in their programs, so as to stimulate British pro-

TAX ARREARS HIT ASPIRANT Hamilton Man May Be Eliminated

Canadian Press Despatch.
Hamilton, Dec. 2.—Announcement of
City Clerk Kent last night that all
candidates for civic office had qualified
was followed today by a discovery which, it is said, may eliminate one of

the aspirants.

After nominations, candidates are required to sign a declaration that they owed no tax arrears to the city. E. A. Fernside, seeking re-election as alder-man, signed the declaration, but it has since been learned that there is a bill against him for about \$350 for two years' tax arrears. His opponents may enter a protest.

TOBACCO COMPANY PROFITS

Canadian Press Despatch. Montreal, Dec. 2.—The annual finan-cial statement of the Imperial Tobacco Company of Canada, Limited, for the year ended September 30, shows net profits at \$3,312, 729, as compared with \$3,602,135 in the preceding year.

Mr. Meighen In Quebec.

Quebec, in the riding of Bagot, and there repeated in French much of his address given at a Conservative banquet in Hamilton on November 16. In Quebec Mr. Meighen is appearing as the leader who will call for a general election before endorsing Canada's participation in any

Mr. Meighen apparently has two policies on this point, one for Ontario, another for Quebec. On September 15, 1922, there was what appeared A secret official cable, inspired by Mr. Winston Churchill and Mr. Lloyd George, was sent to Premier King inquiring if Canada wished to send troops to that field.

Mr. King immediately called his cabinet and who were abroad. In all, this would take at once without even calling parliament, let \$50,200,000 per year. alone holding a general election such as he now

It is hard to find two more contradictory it is safe to say that none will be forthcoming. opinions than the two views of Mr. Meighen in 1922 at Toronto and in 1925 in Quebec. Placed versed in the subject on which he writes, but his story relates that "Constable Pickup responded side by side this is how they read:

If power no troops will be declaration is sent out of the country Made then I will be at without the people be the back of the govern- ing consulted."

When Mr. Meighen spoke in Toronto he had only one object in view-to discredit and embarrass the King government. He desired above all else to make it appear that the government was lacking in the cardinal principle of loyalty

to the mother country. Today Mr. Meighen is in Quebec. He has a new objective, a great personal and partisan ambition that seeks to win enough seats in Quebec in the event of another election to place him in power. Therefore he must have a Quebe

Leadership that points to one way in Quebec and the opposite in Ontario is indicative of neither courage nor sincerity.

Protest Rightly Lodged. The Medical Council of Britain has struck

from its list several throat and nose specialists. It was not charged that they were not compe tent, for their membership in the council indicates that they were. Neither was it urged that they had been guilty of malpractice.

Their offence was that they had written articles for the British press, prepared in nontechnical language, describing the best methods for the treatment of hay fever.

The British papers knew there were many suffering from this trouble; they also knew that these specialists had information that would be useful in bringing relief or effecting a cure. It was sensible and right that they should seek to wash-out make this information as widely known as

Cutting these doctors off the medical council for this action will be explained on the ground of non-professional conduct, but the explanation is not valid enough to go down with the layman. The action has aroused much unfavorable comment in Britain, and it should. No form of autocracy should stand in the way of a professional man of authority giving useful information to the people.

The Free Press never would have been able to see the prospects of making money out of cheering at a political meeting; it would have been for calling an officer and putting the paid tub-thumper out of the hall so the rest of the people could get along with their sleep.

The Free Press has been busy lately on constitutional affairs, urging the governor-general coal strike

to show the sort of spine he owns by going right over to Mr. King's house and telling him to fork out his resignation at once. If the Globe wants to give quotations from the Free Press, now there's a good chance. But when we came out with a good detailed explanation of how people can earn an honest shilling by applying a little hypodermic enthusiasm to political meetings

W. G. Young was nominated for something or other, but refused to stand. He was a farsighted gentleman who couldn't see any thrill in making a midnight address.

Working the Bees.

A beekeeper, or rather an aplarist, as he is known in technical circles, has shipped thirty pounds of bees and ten queens from British Columbia to New Zealand, where summer is it just getting under way.

His idea is that instead of his bees staying indoors all winter they will get out and work for him. He gives them a trip to New Zealand in exchange for an extra six months' work.

His next move will no doubt be to train them to fly back home to save shipping costs.

Banished Grafter and Wire-Puller and "DAY LABOR" GAVE LONDON

Fighting the People's Battle against entrenched opposition, POCOCK GAVE LONDON "DAY LABOR" on all Hydro-Electric and Waterworks constructionan example since SPREAD TO ALL CIVIC DEPARTMENTS.

He banished Grafter and Wire-Puller and SAVED TENS OF THOUSANDS OF THE PEOPLE'S DOLLARS.

The Public Utilities Commission and POCOCK SHOWED THE WAY for all other civic departments in REDUCING COST and INCREASING EFFICIENCY BY DAY LABOR. This is the policy that has brought the verdict of the people, and of all three London newspapers that the P. U. C. is the most efficient of all civic departments.

POCOCK POLICY and Savings.

Under POCOCK'S Chairmanship the Public Utilities Building was built by DAY LABOR at the amazingly low cost of \$150,000, and PAID FOR OUT OF SURPLUS EARNINGS WITHOUT BORROWING. is the ONLY PUBLIC BUILDING EVER BUILT IN LONDON WITHOUT addition to the DEBENTURE DEBT.

When Consulting Engineers reported that the new 10,000,000 gallon Springbank reservoir would cost \$150,000, the P. U. C. built it by DAY LABOR and SAVED \$45,000 for the people.

The P. U. C., by DAY LABOR installs electric ranges at an average cost of \$35, as against as much as \$60 in other Hydro Municipalities.

The Past---A Brilliant Record of Promises Fulfilled The Future -- A Definite Program of Constructive Effort

MAYOR GEO. A. WENIGE

Mayor George A. Wenige has broadcast without fear the record of his work as mayor for all the people of the City of London and he now places before you a definite program of civic activities for 1926. Get behind him in his tireless enthusiasm for the upbuilding of a greater London. All the work detailed in his program for the coming year is not only essential, but will provide employment for the unemployed. And don't forget that we are on our honor, our pride is being appealed to and our reputation is at

stake in the conduct of the great centennial cel-

est ideals of Canadian citizenship. Mayor George A. Wenige has inaugurated plans that cannot fail to put the centennial over with a glorious record. Already 4,000 towns and cities all across the world are giving us invaluable publicity. He can be depended upon to work night and day for a centennial that will live in recorded history of the Dominion of Canada.

RECOGNIZED IN U. S.

Teachers Claim Study Is Often Dropped On Entrance To Collegiate.

There has been a movement in Ontario for a year or more to place the study of music on an equality with other subjects in the regular high school course. In Toronto Dr. Vogt is the prime mover, while in London Mr. and Mrs. A. D. Jordan of the Institute of Musical Art have been trying to bring about this change in the educationa program of secondary schools. About a year ago a petition was circulated in Toronto, asking the department of education to support the movement.

The idea is to give pupils studying quite charming. music credits for that subject, so high school years.

If music were credited as one subject, she believes it would encourage boys and girls to continue

Teachers of music find that it is just when their pupils are at an age when they are able to do something with them, when they are beginning to show promise of success, that they give up the study and devote their time to the subscribed studies of a secondary education course. They point out that music is a brain stimulant, as well as other subjects, and is often of more practical use to girls than some of the subjects which they are Teachers of music find that it is just

QUEEN'S COUNSEL

This is a dear little story about my grandmother, Queen Victoria, which

shows a very human side and makes one love her. One day she was to receive some great man, and the elderly daughter who, although already a widow, still lived with her and assisted her in a thousand small and useful ways, was preparing her for this audience by relating to her mother some of the great man's peculiarities.

"Among other things, he is a woman-hater," said the daughter. "He is known for being extraordinarily rude with ladies."

Queen Victoria listened with her quiet little smile, putting her head a bit on one side, giving a little sniff of her arched nose as was her way, and whilst she listened, her coming interview with the great man seemed to increase in interest.

It is also told that a very old lady, and titled, came to condole with Queen Victoria upon the loss of one of the numerous members of her their musical study throughout their family and in guise of consolation she declared that "we should all meet

selves with a clear run to the Sarnia goal line, they dribbled the ball into touch in their eagerness.

There were many fumbles, but none of them directly affected the score. The touchdown was scored by Red Wilson, who waded through the St. Mike's line after the first down from ten yards out in the second period. This was after a Toronto player had grabbed his own kick and Karn ran the ball round the visitors' left end. One of the features of the game was the hefty punting of McPhedran for Sarnia, and in this department he overshadowed Lowery, although the latter several times, and Lebel also, displayed a rare turn of speed.

The Sarnia line was rocklike and what acadway the visitors made was by neat passing and end work. The first point came in the first period when McPhedran punted and Lebel was forced to rouge. The second was a repetition. In the next period came Wilson's touchdown, which McPhedran failed to convert, and Karn threw to safety behind the line for the Irishmen's first point. The points were even in the third Lowery kicking into touch behind the line for the visitors and McPhedran doing likewise for Sarnia. He kicked to the deadline again in the last period PLAY BY PLAY.

First Quarter.

McPhedran's toe gave Sarnia a two-point lead in the first quarter after a run and two bucks for yards had brought the ball up to St. Michael's 30-yard line. O'Brien tried a delayed run on the first kick back of the goal line, but was nailed before he got out. On the second occasion Lebel took a long chance with a pass to Morrow, but the latter was downed in his tracks behind the lines. Sarnia 2, St. Michael's 0. The Sarnia line was rocklike and what

Second Quarter.

Five minutes after the start of the second period Sarnia regained an offside on St. Michael's 15-yard line. Karn made eight yards on a cross-field run. On the second down Wilson was sent through on a buck and went over for a try. McPhedran's attempt to convert was a failure. St. Michael's tallied one point when Lowry made a short kick and Karn stepped out of touch behind the goal line. The ball was on St. Michael's 20-yard line when the period ended.

Fourth Quarter.

Fumbles cost St. Michael's a chance to knot the count in the last quarter. After an exchange of punts Karn ran out of touch after receiving. Two bucks failed to gain yards and Sarnia kicked. With two minutes to go St. Michael's got the ball back to Sarnia's 25-yard line and Lowry tried a short kick. Karn recovered for Sarnia and after failing to make yards Sarnia kicked out of danger as the whistle blew.

SEEMS CERTAIN TOOLE WILL LOSE PREXY JOB

Associated Press Despatch. Some time ago it was reported that Billy Evans umpire, would be his suc-Billy Evans umpire, would be his successor, but this report soon met denial and although Evans' name is still heard in the discussinos it is considered doubtful that the International league could pay him more than he obtains now through various lines of endeavor. Jack Dunn, manager of the one-time champion Baltimore Orioles, is said to head the move to oust Toole, and the major leagues are also reported to have a hand in it because of Toole's stand in the matter of draft.

Joe Egan, president of the Toledo club in the American association, and J. E. Jamleson, Jr., president of the Blue Ridge league, are said to be candidates for Toole's post.

Grain Markets

Winnipeg, Dec. 3.—Given a boost by strong Liverpool cables, wheat prices on the early dealings here today advanced into new high ground for the present movement, gains ranging from 2½0 to 5%c. At the high point December touched \$1.58, May \$1.59 and July \$1.58. A subsequent reaction carried prices down fractionally. Coarse grains were all stronger with wheat.

Winnipeg, Dec. 2.—Heavy selling had a depressing effect on wheat prices nere today, and the close ranged from

featureless. Only an ordinary demand existed for flax. Cash wheat met a fairly good demand, but coarse grains lacked activity.

MONTREAL

Montreal, Dec. 2.—There was some demand from foreign buyers in the local market today for wheat, oats and barmarket today for wheat, oats and barley, and exporters with supplies in nearby positions or on passage were credited with making sales of a few leads but the volume of business was only moderate. In Ontario malting barley the feeling was stronger, and prices advanced to per bushel under a keener demand for supplies, and sales of earlots were at 86½c per bushel, extrack ights. lev-Malting, 67c to 69c.

CHARGE ANSWERED

Replies to Trades and Labor Council.

John Putherbough, London general contractor for the new Beck collegiate institute in East London, flatly denies the charge of the London trades and labor council that four of the five men employed in operating hoisting machinery on that job have not the necessary certificate.

"As a matter of fact," declared Mr. Putherbough this morning, "there is only one engineer on the job at the present time and he has an engineer's ertificate. We will be using more engineers later, of course, but you may be sure that they, too, will have the ertificate as required.

"It's untrue to say that we are offer ing 20 cents an hour for laborers on the new collegiate," pursued Mr. Puthrbough, "because we are paying standard wages and our minimum is 00 cents an hour, and our pay sheet is pen for inspection at any time to prove

SURE, THERE'S A REASON!

WE have often been asked if there was any special reason why we could give such remarkable bargains at such remarkable low prices. Here is the reason: No matter what car we take in we will never give a cent more than what it is worth, not even to save a sale, and that means that when we resell a car which has been purchased right, we can sell it at a price that makes it one of our exceptional bargains. At present we have some exceptionally good cars on our floors.

LONDON'S THREE NEEDS

Vote "Yes" For Them On December 7th

THE NURSES' HOME

A new Nurses' Home has been needed at Victoria Hospital for years. The present quarters are hopelessly inadequate, lack proper sanitary arrangements and are a source of needless expense to the public.

Although the hospital has doubled in size in the last 15 years, no extra housing has been provided during that time. Many nurses are being accommodated in the Children's Hospital, occupying rooms that should be used for sick and crippled children. Others are occupying wards needed for scarlet fever cases. As a result the hospital cannot give

proper service and is losing revenue thereby. The cost of a new residence will only be about 20 cents per thousand of your assess-

Vote "Yes" on the Nurses' Home Bylaw and provide your hospital with that which it most urgently needs.

THE RIDOUT STREET BRIDGE

The present unsightly structure has been condemned and is neither wide enough nor strong enough to carry present-day traffic. Heavy loads cross it at their own risk and the Street Railway Bridge has been closed by order of the Ontario Railway Board.

The proposed new bridge will not only promote safety and re-establish car service—it will also improve the view and eliminate the present ugly overhead bracing.

A new Bridge is a public necessity. Vote for it.

THE AGED PEOPLE'S HOME AND THE VICTORIA HOME FOR INCURABLES

There are many needy aged persons desiring admission into one of these homes, who cannot be taken in because of lack of accommodation.

At a meagre individual cost these homes provide for board, lodging, clothing, medical attendance, nursing, medicine, laundry and a final resting place and decent burial. More accommodation is absolutely necessary if the homes are to continue to take care of the aged and incurable. This accommodation will cost \$75,000—less than 10 cents per year on each thousand dollars of your assessment.

These old people must be taken care of. You can help by voting "Yes" for the bylaw.

Trouble Brewed by Transportation Problem-John M. Moore Given Good Reception.

Ratepayers of Ealing, crowded in the kindergarten room of Ealing school last night, went through a hectic hour of wrangling, reaching a peak of turmoil and confusion when Mayor George A. plained in bylaw 916, which should by now be known backwards, forwards, up and down."

He explained that the railway board, as bylaw 916 was interpreted by City Solicitor T. G. Meredith, had complete control of the railway situation in London. The city must abide by decisions of the railway board on questions of matter and facts, and the council has no appeal on the question of fact.

His stand on the bus question was explained by narrating his action of 1923 when he and other councilmen journeyed to Cleveland in an effort to get an estimate on the cost of laying out a complete bus system in London and complete bus system in London and complete bus system in London and the councilment of the council of the man whom you think is best, 'h ead.
