HE HAD ONE WIFE TOO MANY

A Chatham Man Arrested
In Springfield On A
Serious Charge

ONE WIFE IS STILL HERE

Springfield, Ont., Aug. 11.—Constable Winters received instructions from Crown Attorney McCrimmon yesterday to arrest James See for bigamy, and went to the woods, where he was working, and got his man. See had a wife and family in Chatham, and a few months ago married Bertha McTaggart, of this place.

See was brought to St. Thomas, this morning, says the St. Thomas Times, and had a hearing before County Magistrate Hunt, who took some evidence and remanded the accused till the 17th inst. It appears that See, about twenty years of age, was married by St. Joseph's Roman Catholic Church at Chatham, and he is the father of a young man of 19 years, and has also a daughter teaching school. He worked for a man named McGavin in Chatham, and when McGavin acquired business interests in Springfield, See went there to work for him. He went to the McTaggart home to board, and there an intimacy sprang up between him and Miss McTaggart. It is said Mr. McTaggart formed that See was married, but the latter went to the States and stayed about three months, then came back and claimed he had secured a divorce. After he married Miss McTaggart, the people in Chatham, it is said, were heard from, hence the present proceedings. See has been at Springfield about three years.

GRIST MILL DESTROYED

A Disastrous Fire Occurred
at Wallaceburg On
Sunday

AN OLD RESIDENT DEAD

Wallaceburg, Aug. 13.—About three o'clock yesterday afternoon the people of Wallaceburg were roused by the cry of fire and the alarm was soon rung in. It was quickly discovered that the large grist mill, owned and managed by Messrs. Baker & Morrison, was burning on the inside.

The fire was rapidly spreading to all parts. Owing to a tin covering, which had been put on the building a few months ago, the flames could not be seen until the sides had commenced to fall. Besides, the water could not do much good on account of the metal not giving way to its force. The fire brigade was quite prompt in getting to work, and poured water on the Empire Hotel to keep it from taking fire.

The mill is totally destroyed, as well as a large quantity of grain which had just been bought. The mill is situated on James St., and was one of the old landmarks, having been built over fifty years ago. Additions and improved machinery and an elevator had been installed as business demanded. Baker & Morrison had only recently purchased the property from T. B. West, and had fitted it up in good shape. The fire is supposed to have started from overheated grain, as about \$20,000, partly covered by insurance.

Mrs. Duncan McNaughton, an old and much respected resident of Wallaceburg, died at the residence of her son-in-law, Alex. Williamson, lot 5, concession 2, in the north gore of Chatham Township. Deceased had reached the age of 73 years and had been ill for a short time. She leaves six children to mourn her loss. They are, Mrs. Alex. Williamson, Mrs. Irvine McLinton and Mrs. Albert Thornton, and three sons, William, John and Alexander. The funeral will take place from the home of Mr. A. Williamson, at 2:30 p. m., and the remains will be interred in the Wallaceburg cemetery.

Mr. Killet, a former teacher in the Separate school here, is spending a few days in town.

Mr. Herman Yates, New York, is visiting friends and relatives here.

Robert Tobey and R. Shaw spent Sunday in Chatham.

Clarence Goodreau, of Chatham, called on friends in town yesterday.

Roy McCarron, of Detroit, spent Sunday at his home here. He was accompanied by his cousin, Charlie.

CHATHAM WINS PROTEST

ENGINEER AND FIREMAN HAD A NARROW ESCAPE

Harvesters' Excursion Train Meets with a Mishap in
Chatham—Engine was Nearly Hurlled Into Mc-
Gregor Creek—Train at 4 o'clock.

Engineer L. Roblin and Fireman Phipps, who form the crew on engine No. 819, C. P. R., had about the narrowest escape from death that has ever been experienced by any engineer and fireman. It happened this morning about 11 o'clock at the bridge which passes over McGregor Creek, and if their engine had gone a couple of feet further both would have been hurled into the creek to instant death, and other fatalities might have happened.

The engine was commissioned to carry a harvesters' excursion which was made up in Windsor. They arrived here shortly before 11 o'clock with about eight coaches, and three more were waiting for them here on the siding. The Windsor coaches were left at the station and the engine shunted on to the siding for the others. In order to get on and off the siding it is necessary to pass over the creek bridge. They got on the siding all right and coupled on the cars, and when they were coupling to the left of the main line, the engine was about to cross the bridge. They were going at a pretty good rate, and the force of the shock sent the engine and one baggage car to the left of the track.

The baggage car was thrown against a pilot house and the engine was hurled with considerable force against the end of the house and a semaphore. The abutments of

the bridge were carried away and the engine was left with the front of it projecting over the embankment. A few more feet would have thrown the engine into the creek.

Both engineer and fireman remained at their posts, the shock coming too suddenly to allow them to jump. At the first sign of danger the engineer reversed his engine, and it was no doubt owing to his timely action that the results were not more serious.

The three coaches which were attached to the engine at the time were filled with excursionists, who were not aware of what had happened until they got out to investigate, and were thus quite ignorant of the danger that had been theirs. Fortunately no one was seriously hurt. When the engine turned over, Engineer Roblin was on the under side, and he was thrown violently down to the mouth of the fire box. He escaped with a severely bruised hand and a few other minor bruises. The train was in charge of Conductor Geo. Armstrong.

A large number of spectators soon gathered to view the wreck, and several photographs were taken by the awake photographers. Large steel rails were broken in two, and the engine was badly disabled. The bridge also suffered considerable damage.

The auxiliary from London was immediately telegraphed for, but it had not arrived at noon. It is expected that it will arrive this afternoon, and the track will be cleared as soon as possible. Arrangements were made to have a train from the east to carry the excursionists on to Toronto at four o'clock this afternoon.

be available for claims arising out of class "B."

The report on the admission of wives and daughters of members is sympathetic with the ultimate object of the proposal, but sets forth reasons why in the opinion of the committee it should not become part of the constitution. The great increase in the activity of all branches of the society's work in the different Provinces of the Dominion is responsible for clauses seeking the establishment of Provincial Grand Lodges, who would exercise control over subordinate lodges and in turn be responsible to the Supreme Lodge, which body at the present time is the sole governing unit outside of the subordinate lodge. This entails a vast amount of detail work being done at supreme headquarters, which, it is claimed, would be done more effectively and more expeditiously by the Executive of a body in closer personal touch with the officers of the subordinate lodges.

While the session promises to be a busy one, the local committee has not failed to make ample provision on the social side, and the delegates will doubtless carry away with them pleasant memories of the generous hospitality of the city of Chatham, among the functions arranged being an afternoon on the steamer along the river and out on Lake St. Clair and a lawn social at the residence of ex-Mayor Bro. T. A. Smith.

The General Purpose Committee met yesterday and is still in session this morning. Yesterday, besides receiving of reports and preparing them for presentation, the following committees were appointed:

Laws and Legislation—Bro. Randall, Burns, Miller, Hill and Otter. Finance and Audit—Bro. Clay, Jones, Chambers and Otter. Appeals and Grievances—Bro. Burns, Miller, Dr. Sharpe and T. A. Smith.

Credentials and Returns—Bro. Jones, Clark and Hancock. State of the Society—Bro. Jeffry, Dr. Sharp, Revell, Clark and Otter. Written and Unwritten Work—Bro. Vipond, Chambers, Hancock and Hill.

Printing—Bro. Vipond, Smith and Davis.

"IVANHOE" AT TORONTO

Sir Walter Scott's magnificent novel, "Ivanhoe," will furnish the subject matter for the spectacle at the Canadian National Exhibition this year. An old-fashioned tilting tournament is to be made the great feature. Costumes and scenery will be as exact as artists can make them, agents having been in England and Scotland searching out authorities for the same.

CA NAD AT PAARDEBURG

The Canadian National Exhibition Toronto, has purchased Canon Woodville's famous picture, "The Dawn of Majuba Day," in which the second Canadian contingent is shown in front at the surrender of Cronje at Paardeberg. Critics pronounce it the most striking war picture ever painted.

He never errs who sacrifices himself.

Laziness and rise-iness never go hand in hand.

Mistakes are only funny when they don't hurt.

Success brings many to ruin.

It is the emind that makes the man.

It is disgraceful to stumble thrice at the same stone.

Marine Beet Sugar Factory
Will Probably Locate
In The Maple City

THEY NEED THE BEETS

Traverse City, Mich., Aug. 14.—The sandy loam soil of the Michigan valleys being rich in plant food is well adapted to the growth of the sugar beet, but all such lands as a rule are already taken up and fully occupied by well cultivated farms, fruit orchards and market gardens; while the light sandy soil of the pine stump lands, though adapted to fruit culture and farming in general, is found to be lacking in that quality of plant food which is found in such abundance in rich loamy soils, and without which the growing of sugar beets can never be made a success in any locality. At least this is the verdict of many extensive growers who have given beet culture a thorough trial, not only in Michigan but elsewhere.

During the past season several beet sugar factories located in different parts of the State were unable to secure enough stock to keep their plants running to their full capacity. One large factory located in the northeastern part of the State has already moved its plant to a more favorable locality. Others are preparing to move to more profitable fields, and there is a fair prospect of the Marine City plant, which is at present located just over the border from Canada, being moved to Chatham, the centre of the beet industry of Western Ontario.

STRUCK POPULAR FANCY.

The Toronto News recently had the following to say editorially of a Chatham boy:—

"Arthur Stringer, the Canadian poet, and teller of tales, has struck the popular fancy in his new novel, 'The Wire Tappers.' The action is swift and intensely interesting; so much so, that the book is being dramatized by Owen Davis for production during the coming New York season. The English rights to the story have been purchased by Werner Laurie, and an Australian edition will also be issued. It is a matter for satisfaction that Mr. Stringer has caught the world's ear. Not because he is a Canadian and a 'Varsity man, but because he is a conscientious and untiring worker. His originality of thought is marked, but not so striking as the power and gracefulness of his style. His artistic sense compels the most laborious application to achieve strength and beauty in expression. This self-criticism shows in all his writings, but particularly in his poetry. Mr. Stringer is one of those who believe in the wise old saw that genius is the infinite capacity for taking pains."

A flirtation is in progress between Leamington gas companies and the city of Chatham. If Chatham does not yield soon to have gas carried there, the companies threaten to come to Windsor for a market. On the principle that wooling is easier with a widow than a spinster, the would-be vendors of gas should have come to Windsor first.—Windsor Record.

Who would go to Windsor when there is the least chance of coming to Chatham? After us, Mr. Record man.

Brookville has just had a most successful Old Boys' Reunion, and there is a surplus in the treasury. The Times suggests that it be devoted to a memorial of the event in the shape of an isolation hospital. The Stratford committee is not likely to have much of a surplus, owing to the unfavorable weather conditions, but if a memorial is to be erected the Brookville suggestion is one that should receive consideration. The Stratford Reunion was marked by two splendid souvenir numbers issued by the Herald and Beacon. They were a credit to the city of Stratford.

FASHION HINTS

LITTLE GIRLS' OR BOYS' DRESS.

No. 4174.

For little tots the long-waisted French effect is most popular, and the model illustrated here shows a dress that may be worn by either a boy or girl. Half-inch tucks reach from shoulder to waistline at both waist and back, and buttons and button-holes fasten the dress at the back. The pointed collar gives a yoke effect to the dress and a straight band may be used with it if a high neck finish is desired. The one-piece sleeve is completed with a pointed cuff. Side pleats are used in shaping the skirt and allow for ample fullness, and a belt of the same or contrasting material fastens at the front and is held in place by straps of the material at the under-arm seam. Hand embroidery is popular on garments for the little folks as well as on those for the grown-ups and a pretty design is worked on the front of the waist and collar in the dress illustrated. Blue linen was chosen for the model as illustrated. For making satisfactorily, any of the following materials are suitable: chambray, duck, linen, serge, Scotch, pique, flannel and cambray. White is perhaps most generally favored, but goods in delicate shades will make up smartly, and for everyday wear dark tones of brown, blue, gray and green will be serviceable. The pattern is cut in five sizes, from 1 to 8 years. Size 4 requires 2-1/2 yards of 36-inch material.

Mailed postpaid on receipt of 10 cents, name, size and address to the Fashion Department of C. Austin & Co.

After all, a great man is only a little boy grown up.

HIT, BRUTALLY CHOKED

Owen Sound Excited Over Dreadful Usage of Miss Jones.

Young Woman Found Sunday Morning Lying Unconscious In Roadway 150 Rods From Her Own Home—Had Evidently Lain Out All Night—Her Condition Critical—Police Expect Clue If She Regains Senses.

Owen Sound, Aug. 13.—A brutal assault, which may result in the death of the young woman victim, was committed Saturday night on the outskirts of this city.

At 8 o'clock yesterday morning Miss Louise Jones, aged 21, was found lying unconscious on the roadway. She was taken to the hospital, but up to midnight had not regained her senses. Her condition is declared to be critical.

Miss Jones was missing from home all night. Her father, Isaac Jones, is a market gardener. She was in the city on Saturday night and was probably attacked while on her way home.

150 Rods From Home. When found, she was about 150 rods from her father's house, but in the opposite direction from Owen Sound. Whether she was carried or lured past her destination is yet to be learned.

There is the mark of a blow upon her head, and her throat shows signs of having been brutally choked.

She had evidently lain all night on the road, which runs between Derby and the city.

The only clue to the perpetrator is an umbrella which was picked up on the road near where the girl was found.

The police expect to be able to gain information from the young woman this morning, which will enable them to find her assailant.

The city is greatly excited over the occurrence.

May Have Been Murdered.

Hamilton, Aug. 13.—The local police got a brief message yesterday from Welland, saying that a Hamilton man, whose name is supposed to be Thomas Gofford, had been found dead, and that there were suspicions that he had been murdered. He had been employed as a cook in one of the hotels, and in one of his pockets were tickets issued by a Hamilton pawnbroker for a coat and vest and razor to Thomas Gofford. The police have been unable to learn anything about him, though it is thought he had a brother in Orillia.

SHOULD MAKE GOOD.

Let Sandy Bedore Tell of Alleged Sharbot Lake Tragedy.

Kingston, Aug. 13.—Application is being made to the Attorney-General by Chief of Police White of Perth for a flat to take Sandy Bedore from Kingston Penitentiary to Sharbot Lake to make good his statements in connection with the death of the two Sharbot Lake lads for years ago.

Bedore, who is serving fourteen years in the prison for shooting at and robbing a Syrian peddler, says the lads were not drowned as thought, but that his brother slew them, and he knows where they are buried.

THE BANK-SMASH CASE.

Polish Depositors Curse Kowalski's Body as It Lay in the Casket.

Chicago, Aug. 13.—Ten warrants in the Milwaukee avenue State Bank case were issued Saturday afternoon by Judge Kerwin.

The warrants charge conspiracy to cheat and defraud the bank of money, property and goods, perjury, larceny and forgery.

Bedore was arrested yesterday afternoon and in default of bail was sent to jail.

Forcing their way into the home of Frank Kowalski, the paying teller of the failed Milwaukee avenue State Bank, who committed suicide on Friday, Polish depositors Saturday hurled bitter denunciations at Kowalski's body, as it lay in the casket. Others gathered about the house, disturbing the inquest, which was started in the morning, and one angry woman tore the mourning wreath from the door of the house. Policemen ejected the intruders and dispersed the mob in the street.

Fire At Little Current.

Little Current, Aug. 13.—The Nixon House, with stables, outbuildings and cottages, was completely destroyed by fire Saturday night. Cause unknown. Loss on hotel \$20,000; insurance on contents \$6,000; no insurance on contents.

While the fire was in progress Mrs. Powell, mother of G. R. Powell, merchant, dropped dead. She was viewing the fire from a window in their home. There were over sixty guests in the Nixon House. All escaped with partial clothing.

Accused Marries Again.

Brookville, Aug. 13.—Two months ago Mrs. Margaret Allen and Wm. O'Connor of Lansdowne were charged jointly with poisoning the former's husband, Harry Allen. After an inquest and preliminary hearing, the accused were discharged. The woman has since been stopping with the Edgley family in the Township of Escott, and news comes of her marriage to Fred Edgley, a son. The neighborhood did not take kindly to the affair, and the marriage festivities were interrupted by an old-time charivari.

Incendiarism Suspected.

Brookville, Aug. 13.—The barn of Benjamin Livingstone, a farmer residing near here, was destroyed by fire Saturday, with contents, containing much valuable machinery. Incendiarism is suspected. Small insurance.

Ruined by Family Lawyer.

London, Aug. 13.—Lord Amherst, a popular earl, has lost \$750,000 by the perfidy of his family lawyer, who squandered the funds of a number of clients in gambling.

Abolishing the Queue.

London, Aug. 13.—Local Chinamen have received correspondence from the Orient that the queue will be banished from the Chinese army and police forces.

SHE WAS WILD WITH PAIN.

From Willow Creek Ont. Miss E. Diegel writes: "A few years ago I was drenched with rain and got lambock. It was like a steel rod piercing my back. I also earache and was just wild with pain. I applied bathing soaked with Nerviline to my ear and rubbed on Nerviline for the lambock. That rubbing relieved and in a few hours I was well. No other liniment could do this." The penetrating power of Nerviline makes it superior to all other liniments. Nothing beats it, 25c. at all dealers.

NO. 10. MASTER MINDS ON MUSIC

Being the 10th of a series of ten talks introducing sayings of great men, applicable to the Nordheimer Piano, the symbol to perfect music.

The man that has no music in himself, Nor is not moved with concord of sweet sounds, Is fit for treasons, stratagems and spoils. —Shakespeare

In this last of our series of what the master writers have said about music we have quoted the familiar words of the greatest English poet. Many times Shakespeare has credited music with being the greatest of arts, and in his day music had not reached the summit of its magnificence that it has today with such instruments as

THE NORDHEIMER PIANO

The "concord of sweet sounds" is but another name for the NORDHEIMER TONE, only the concord is is more perfect than can be realized in any other instrument, for the Nordheimer is now accepted by the Canadian people almost as a whole as the leader. Certainly it is the favorite among the most refined music lovers. If you are a music lover we would like to have you visit our ware-room and see the magnificent display.

Imperial Guards Fire Real Bullets at Grand Duke Nicholas.

A Hundred Bullets Missed Their Mark Through Being Fired Too Precipitately—Grand Duke Was Reviewing Firing Practice at Time of the Incident—Evidence of Conspiracy Found Among the Soldiers.

St. Petersburg, Aug. 13.—Grand Duke Nicholas Nikolaevitch, president of the Council of National Defence, narrowly escaped assassination Friday afternoon at the hands of the imperial guards in the guard camp at Krasnoe-Selo.

Grand Duke Nicholas was personally reviewing manoeuvres and putting the troops through blank firing practice when he was suddenly startled by the wasplike hiss of bullets about his head. Fortunately neither himself nor his horse was touched. The command to cease firing was immediately given and

GRAND DUKE NICHOLAS NICHOLAEVITCH.

The soldiers of the regiment from which the bullets came were marched back to their quarters and an investigation was begun in the hope of ascertaining from the barrels of the rifles which of the soldiers fired the cartridges. Several arrests are understood to have been made.

A Hundred Shots Fired.

Afterward it was definitely established that the shots were fired by the First Battalion of the sharpshooters of the guard, who advanced in rushes while making a sham attack on an entrenched position. Fully a hundred shots were fired, but the impudence of the conspirators led them to open fire at such a distance as to frustrate their object. Before the manoeuvres began all the ball cartridges were taken from the troops, and the officers had taken the precaution to make a special examination of the cartridge pouches of the soldiers immediately before the inauguration of the movement of the troops.

One of the grand duke's aides-d'camp advanced the theory that possibly the bullets were fired by accident, but he added:

"It was no more an accident than was the firing of the famous charge of grape from the saluting battery at the winter palace on the occasion of the ceremony of blessing of the Neva by the Emperor a year and a half ago."

Changes Czar's Plans.

This bold attempt on the grand duke's life caused an immediate change in the plans of the Emperor, who had arranged to go to Krasnoe-Selo Saturday and spend a week with the soldiers of his imperial guards.

It was learned that the troops were in extended order and engaged in volley firing when the "accident" occurred, rendering it difficult to determine the regiment from which the bullets came. The grand duke, surrounded by officers and aides-d'camp, was off on one side, out of the line of fire.

This affair has created a deep impression in military circles and is the one topic of conversation in the clubs, but the attempt on the grand duke's life is not generally known here, no word on the subject having been published in the newspapers.

Visit to the Camp.

A correspondent visited the guard camp at Krasnoe-Selo Saturday and ascertained that, though several arrests had been made, responsibility for the shots fired at Grand Duke Nicholas had not definitely been brought home to any particular culprits.

It was only after a long investigation that it was determined that the ball cartridges were fired by the First Battalion of Sharpshooters, one of the elite corps of the Russian army. Suspicion of the conspirators was directed toward the "one-year volunteers," recruits who, in consideration of their educational qualifications and social position, escape with only one year instead of four years service. Many of these men are former students at universities and are the principal spreaders of the revolutionary propaganda among the troops.

Details of the Incident.

The incident occurred during a movement of the Ismailovsky guard and the guards' sharpshooters against a position held by the Semenovskiy regiment. Grand Duke Nicholas was sitting his charger and observing the manoeuvres from the top of an entrenchment. The troops were advancing by short rushes in open order across a wide, level field, firing blank volleys by squads as they came. A few yards behind the grand duke was the band, led by Gen. Zarubetoff, second in command of the guard corps, adjutants and orderlies, and several civilians, including the Countess Nirod.

Bullet Sang Overhead.

Suddenly, when the band saluted the attacking force, a whistling of sharpshooters was heard. A few seconds distant, a bullet sang high overhead, followed by another and still another.

The cry was raised, "They are firing ball!" and the group was thrown into great confusion. After frantic signalling "Cease firing" was shouted, but the shots continued for some little time. "Unpardonable!"

Grand Duke Nicholas remarked when he joined his suite, "It would be more realistic if the troops always fired ball

during manoeuvres; but this is unpardonable negligence."

The attack on the position held by the Semenovskiy regiment was immediately stopped. The troops were marched to their quarters and an investigation was begun.

Nicholas Declines Post.

Grand Duke Nicholas Nikolaevitch has declined to accept the post of commander-in-chief of all the troops of the empire, "where martial law exists," which was tendered to him Aug. 4. Whether this was decided before or after the attempt on the life of the grand duke at Krasnoe-Selo, on Aug. 10, is not known.

PARTY OF REGENERATION.

Manifesto of Count Heyden and Others Advocates Monarchical Rule.

St. Petersburg, Aug. 13.—A manifesto signed by Count Heyden, Prince Nicholas Lovoff and Michael Stokovich, and issued on behalf of the "party of pacific regeneration," says:

"The members of the late Parliament who have held aloof from the aims of the party of popular freedom have decided to unite on the basis of a common program, their main object being the creation of a constitutional monarchial state."

"The regeneration of Russia is dependent upon a strong monarchial power, popular representation and freedom of the rights and equality of all before the law. All nationalities must enjoy equal political rights and citizenship of the highest power and must form a strong constitutional Government, which without arbitrariness, but unswervingly destroying the old order of things must carry into effect the liberties proclaimed by the Emperor's manifesto of Oct. 30, 1905."

"Regarding the agrarian question, this party considers it necessary and without hesitate to demand compulsory expropriation of any amount of private property necessary to create permanent peasant holdings."

"This Parliamentary group styles itself the party of regeneration. It is the enemy of violence and arbitrariness wherever they may emanate. Only through the law can the people's needs be satisfied."

Reign of Terror.

Warsaw, Russian Poland, Aug. 13.—An incredible state of affairs reigns at Warsaw and Lodz. The inhabitants are at the mercy of bandits, anarchists and terrorists. Murders and robberies, reports of which are not published, occur daily. The authorities, apparently, are powerless. At Lodz, Saturday, six anarchists attacked a German factory owner and his clerk, who were returning from the bank, shot and killed them both, and decamped with \$700.

Ominous.

Reval, Russian, Aug. 13.—The workmen of all the factories here struck Saturday as a mark of sympathy with the mutineers of the armored cruiser Pamiaty Asova, who are about to be tried by court-martial.

Tashkent, Asiatic Russia, Aug. 13.—The controller of the Central Asian Railroad was murdered on the street here Saturday.

Libsu, Courland, Russia, Aug. 13.—The postmaster here was killed Saturday and robbed of \$14,000.

St. Petersburg, Aug. 13.—After the preliminary investigations, the military and naval prosecutors have decided to try by court-martial no less than 2,000 soldiers and sailors who participated in the Kronstadt and Sveaborg mutinies.

The prospects of these, however, have been brightened by the decision of the Emperor to appoint two extraordinary commissions to investigate the causes of these outbreaks and to determine the responsibility for the demoralization.

5,000 Gallons of Oil Lost.

St. Thomas, Aug. 13.—The storm Friday evening proved more destructive than at first supposed. Great damage was done at the light, heat and fire departments by water, which damaged machinery to a considerable extent, while 5,000 gallons of oil in the oil tank went down the sewer. Farmers all around the country report the storm as having been very destructive.

Jury Limits His Sanity.

London, Aug. 12.—A jury in Lincoln's Inn, enquiring into the mental condition of the Marquis of Townshend yesterday, returned the curious verdict that his lordship is capable of taking care of himself, being dangerous neither to himself nor others, but that he is of unsound mind so far as managing his affairs is concerned.

Bubonic Plague in England.

Plymouth, Eng., Aug. 13.—On board the steamer Arabia, which arrived here Saturday from Bombay, was a Lascar sailor, suffering from bubonic plague. The man became ill Aug. 6, and was isolated. The liner was fumigated, and passengers were allowed to land. The sailor has been transferred to a hospital ship.

Old Man Missing.

Dundas, Aug. 13.—Willoughby Cowper wandered from his home in Dundas Thursday afternoon. He is sixty years of age, and is 5 feet 8 inches tall, wears a black christy and dark clothes, being cleanly shaven with small grey moustache. Saturday 200 citizens organized a search without result.

Mayor Ellis Explains.

Ottawa, Aug. 13.—Mayor Ellis has made a statement narrating proceedings in council and before Hydro Electric Commission to show that there has been no agreement made with the Electric Co., as alleged. A conference to reach a settlement of difference gave rise to the rumor.

Sea Sick, May Die.

St. Thomas, Aug. 13.—John A. Robinson, barkeeper, of this city, arrived here from England ten days ago. While crossing the ocean he suffered greatly from sea-sickness, and has grown rapidly worse since his return, and yesterday his physicians had little hopes of his recovery.

The Pandora Thermometer

The thermometer on the Pandora range oven means precisely in accuracy to the cook what the square and compass mean to the draftsman. Without the square and compass the draftsman would have to work entirely by guess, just as you do without an accurate and reliable thermometer on your oven.

The Pandora thermometer reduces cooking to an exact science. You know precisely how much heat you have and what it will do in a given time. It is one of the small things which makes the Pandora so much different and better than common ranges.

Lightning Burns Barns.

Dunham, Aug. 11.—The barns and sheds of Robert Durnin were burned Thursday night with a large quantity of hay and some machinery, also some of last year's grain. They were insured for \$500. Lightning was the cause of the fire.

DEAFNESS CANNOT BE CURED.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Caused By Carelessness.

Toronto, Aug. 11.—At the conclusion of the coroner's inquest last night into the death of Kenneth Campbell, fireman on Grand Trunk express train No. 49 early in the morning of July 30 at Mimico yards, the jury after a detailed deliberation rendered the verdict that death came to his death through a collision of the engine of train No. 49, "caused by carelessness and a negligent manner in which cars are handled in the Mimico yards."

Charge Attempted Murder.

St. Thomas, Aug. 10.—The charge against Newton Stonehouse, who was arrested last Tuesday after the discovery of a newborn child in an out-house on his premises, was changed with attempted murder before Magistrate Glenn. The mother, who is still in the hospital, was not well enough to appear and the case was adjourned for a week. Stonehouse was sent back to jail.

BARELY LIVED THROUGH IT.

A terrible experience had Edw. J. O'Connor, of Sault Ste. Marie. "From boyhood," he writes, "I have been a constant sufferer from asthma and catarrh. My nose and throat was always stopped up and I had droppings in the throat. When attacks came on I thought I couldn't live through the night. I would sit up, gasp for breath and endure great distress. Catarrh was made me entirely well." No stronger proof is required. Use "Catarrhzone" and your recovery is guaranteed. TORONTO CARPENTERS' STRIKE.

Refuse Request for Permit For Men to Work at Exhibition.

Toronto, Aug. 11.—Dr. Orr, manager of Toronto Exhibition, called on the executive committee of the United Carpenters yesterday afternoon and implored them to grant him the privilege of having a few men at the exhibition grounds to complete the work there, which must be done at once. He was willing to pay any old price the executive would demand. The executive did not comply.

"The men are worth 35 cents," said Dr. Orr, "and it is a living scandal that a body of men like the so-called Builders' Exchange would stand out against them."

Pickets Report.

Pickets reporting last night gave a very satisfactory side to the situation. Not more than ten union men were working, and it is expected that more than half of these will be at the mass meeting this morning, when the whole force of pickets will lay the situation before all the strikers. The meeting will be important. Every striker will be in attendance.

Some Chance of Settling.
"The strike will be called off," said Business Agent Wells at midnight last night, "if the independent bosses who have signified their intention of forming a distinct and separate organization, will join together, organize and form an association to be known as the Master Builders' Association of Toronto. The membership must be larger than that of the Builders' Exchange, which now has thirty-two members. These thirty-two, however, are dictated to by an executive of six, who will not allow them to open their mouths."

Smith and Post notified the executive committee last night that they were willing to put up \$200 for organization purposes and initial expenses.

A number of independent employers have signified their intention of forming a new association to compete with the Builders' Exchange.

Masters Won't Arbitrate.
The master carpenters evidently intend to fight the strikers to a finish. The mayor yesterday morning received from Mr. John L. Phillips the following reply to his letter, offering to arbitrate between the men and the employers:

"Replying to your favor of the 8th inst., offering to mediate between the master carpenters and the carpenters, I am directed to state that the Master Carpenters' Association do not contemplate arbitrating the matter in dispute."

At noon yesterday 1,800 men had registered as strikers.

CHINESE LABOR WANTED.

Organized Effort to Be Made to Pull Down the Bars.

Victoria, B. C., Aug. 11.—Tangible indications are reported from several sections of British Columbia of an organized and practicable effort at an early date to secure the practical abrogation of the federal restrictions act, under which a capita tax of \$500 is collected upon Chinese immigrants.

This law was passed some three years ago at the behest of organized labor, and has proved effective, completely stopping Chinese immigration.

Now various large interests, railway and agricultural, are seeking to repeal the thin edge of the wedge of a recent law. The Kootenay fruit growers, having led the movement, and Second Vice-President Whyte of the C. P. R., having virtually endorsed their attitude in a careful interview given here Thursday, in which he suggests the exemption of Chinese immigrants intended for farm gardening or laundry service.

Efforts are promised at the next session of both the Provincial and Dominion Parliament in the direction of opening at least a crack in the gate now barred against Chinese.

WIFE WINS ALIMONY SUIT.

Husband Refuses, Is Jailed and She Contributes to His Keep.

Sandwich, Aug. 11.—A novel case is that of Arthur C. Baxter, at present in the county jail here. Several months ago he left his wife. She began suit for alimony. When a decision in her favor was rendered Baxter drew what money he had in a bank and disappeared.

He was located near Wallaceburg, a warrant issued and he was brought back. He refused to pay alimony and was locked up. He tried to get out on bail Thursday, through his attorney, M. A. Hanna, secured an order from Judge McHugh that Mrs. Baxter shall pay \$2 per week towards her husband's board while in jail. This she will have to do besides supporting herself and two children.

French Warships at Quebec.

Quebec, Aug. 11.—Rear-Admiral Rouleau de Lapierre, with the French cruisers Le Desaix and Le Jurien de la Graviere, arrived in port yesterday morning and anchored opposite the Citadel, when the band on board the former and admiral's flagship played the British National Anthem, followed by a salute of twenty-one guns, which was responded to by the Citadel guns.

A puny child is always an anxiety to the parents. There seems generally no reason why the little one should be weak when it is so well fed. But the fact is that it does not get enough food and the child takes it if the stomach cannot extract the nourishment from it. No benefit can be derived from just eating. That is the condition of many a sickly child. The stomach and organs of digestion and nutrition are not doing their work, and the body is really starving. It is little use to give fish foods, like cod liver oil or emulsions, in such a case, because these also have to be digested; they may lighten the stomach's labor but they don't strengthen it. Strength is what the stomach needs. Dr. Pierce's Golden Medical Discovery strengthens the stomach, nourishes the nerves and increases action of the blood making glands. It is superior to every other preparation for children's use, on account of its body building qualities, and also because it is pleasant to the taste and contains no alcohol, whiskey or other intoxicant. Dr. Pierce's Pleasant and Powerful is a valuable aid when the bowels are irregular. They are small. Children take them readily.

Three Children of City Clerk Brown of Winnipeg With Two Others Upset In Red River 100 Yards From Landing Place and In Sight of Their Friends—Mother Rescued, But May Die From Shock.

Winnipeg, Aug. 13.—The worst drowning accident in the history of Winnipeg occurred here Saturday evening. Mrs. Brown, mother of the three drowned children, and Messrs. A. P. Wells and F. Williams were rescued by the boatmen in an exhausted condition just as they were sinking.

Death in Ice Cream.

Toronto, July 13.—Two children, Vera May, aged 4 years, and Allen Clarebelle, aged 2 years, daughters of Mr. and Mrs. George Holloway, of 49 Vine avenue, are dead of ptomaine poisoning, as a result of eating ice cream on Friday evening. Several doctors failed to check the poison, and the elder died yesterday morning, and the younger died last night.

Children Perish in Woods.
Winnipeg, Aug. 13.—Word comes from Wood Mountain that the remains of the two little Hoffman girls, aged 9 and 11, who wandered away from their home while going after horses on May 23 last, have been found by a sheep herder in Porcupine Creek, some forty miles from their father's ranch. They must, therefore, have lived for some days, and finally died of starvation.

Badly Hurt in Runaway.
Kingston, Aug. 13.—Robert Dunlop of Pittsburg, a farmer, 30 years of age, lies in the Kingston General Hospital as a result of a wagon runaway Saturday. Dunlop was covered with lacerations, and finally died of starvation.

Fourteen Men Killed.

A REMARKABLE TEST

Hyomei Has Been Known for Years And Is Guaranteed To Cure Catarrh.

We have given Hyomei a most thorough and remarkable test. The remedy has made so many cures that we have urged its use in the most common cases of catarrh. Breathed for a few minutes four times a day, through an inhaler that comes with every outfit, it soothes the irritated mucous membrane of the nose, throat, and lungs, kills the catarrhal germs, and restores complete health. Its healing, antiseptic fragrance penetrates to the most remote air passages, as no medicine taken into the stomach can possibly do. Immediate relief almost always follows the use of Hyomei, and great benefit is seen after a few days treatment.

The complete Hyomei outfit costs only \$1, and consists of an inhaler that can be carried in the pocket or purse, and will last a lifetime, a medicine dropper, and a bottle of Hyomei. If this is not sufficient for a complete cure, additional bottles of Hyomei can be obtained for 50 cents.

Compare this small expense with the fees charged by specialists. If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write to-day for consultation blank that will entitle you to services of our medical department without charge. The R. Booth Company, Hyomei Building, Ithaca, N. Y.

THE CARPENTERS' STRIKE.

Members of the "Amalgamated" to Get \$10 a Week From England.

Toronto, Aug. 13.—Saturday Secretary A. E. Ford of the executive of the striking carpenters announced the receipt of a cablegram from the headquarters of the Amalgamated Society of Carpenters and Joiners, situated in London, England, which stated that there would be a levy made on every member of the society in England sufficient to pay a strike allowance to the Toronto members of \$10 a week until they go back to work.

The "strike benefits" will encourage resistance to the last ditch. The Amalgamated men will get \$10 a week and the Brotherhood men \$5. The Amalgamated is the biggest trades union in the world.

In Toronto 320 strikers belonged to the Amalgamated and 564 to the Brotherhood a week ago. Numerous additions have occurred since. On Saturday 32 joined the former and 12 the latter, while 37 more men joined the strike.

A prominent member of the Builders' Exchange said last evening that no agreement will be granted the men.

INSTANTLY KILLED.

Toronto Electrician Receives a Fatal Shock At Fort William.

Fort William, Aug. 14.—Joseph Brodie, electrician, employed by the C. P. R., was electrocuted yesterday morning about 10 o'clock. Brodie was working on a dead-wire connection on top of one of the poles opposite the elevator, and absent-mindedly let his pliers touch the live wire which supplies power for the elevators. He was instantly killed.

The unfortunate young man, upon receiving the shock, dropped instantly upon the wires, and when his body was taken down it was found that the flesh was burned to the bones of his hand, and underneath his arm. Brodie was about 22 years of age, a member of the Knights of Columbus and the Electric Union. He was formerly engaged during the construction of elevator E with the Macdonald Engineering Co., an iron worker. His friend in Toronto had been sent to that city for burial.

Woman Electrocuted.
Winnipeg, Aug. 14.—Mrs. Blacklee was electrocuted here Sunday afternoon in the bathroom of her home. Investigation shows that she had probably slipped in stepping into the bath, and in throwing up her hand she had grabbed the lamp socket which was out of order. This threw the full current 110 volts through her body, the circuit being completed by the metal of the bath tub. Life was extinct when found.

Crushed Under Wagon.
Chesley, Aug. 14.—Salida Ruthven, 14 years of age, daughter of Guy Ruthven, a farmer of Elderslie Township, was killed yesterday afternoon by falling off a load of grain. She and a brother were loading the grain on a wagon when the horses became restive and made a move forward. She lost her balance and fell in front of the wagon, both wheels passing over her breast, crushing out her life instantly.

Horse's Kick Kills.

St. Thomas, Aug. 14.—Roy Kelley of Bookstons, Meadehan Township, met his death in a tragic way. He was driving his team, attached to a water trough, when one of the horses kicked him over the heart. The young man sank to the ground dead, with the words, "Oh, dear," on his lips. Kelley was 23 years old and only married 11 months.

Chauffeur Is Blamed.

Montreal, Aug. 14.—Herold Thos. Atkinson, chauffeur for H. A. Dorsey, of Dominion Park, was found criminally responsible by the coroner's jury for the death of Antoine Toussaint on Saturday. The evidence showed that the car was going nearly twenty miles an hour, and was on the wrong side of the street. Atkinson claims he was steering carefully past the man when he plunged in front of the car.

Gives Children Hellebore.

Brockville, Aug. 14.—What might have been a fatal poisoning accident was narrowly averted at Carleton Place. Mrs. Boyer was giving her son a dose of medicine to which she added a little of the essence of ginger, as she thought. On going downstairs she found she had given the boy one and one-half tea-spoonfuls of hellebore. Only the prompt attention of a physician saved the child's life.

Miss Ritchey's Suicide.

Fort William, Aug. 14.—The body of Dina Ritchey was found yesterday morning about 11 o'clock a short distance from where the parcel with her clothes was found on the bank of the Neelung. No inquest will be held, as the friends of the deceased do not wish for one, and no marks of violence were found on the body.

LARGE FIRE IN HULL

Fortunate in the Fact That It Was Kept Down to 32 Houses.

Ottawa, Aug. 11.—Hull, Ottawa's neighbor, was threatened yesterday with a repetition of the conflagration of 1900, but the loss was, with the help of Ottawa's fire engine No. 2, and the management of Chief Provost, kept down to thirty-two houses. Most of these were merely frame structures, and the total loss is within \$20,000.

All afternoon crowds visited the scene, and it was late last night when the firemen shut off the water. The devastated area represents three blocks. Starting at Woburn street, across Wall, Anne, and as far as Catharine street, and between Autumn and Chaudiere streets, north, nothing is left but the stone foundations.

My general health has also greatly improved. It gives me great pleasure to recommend Hem-Roid to all sufferers with Piles, and I feel convinced that what it has done for me it will surely do for them."

King Edward VII Receives Autograph Letter From Nicholas

MONARCHS ARE BUSY

London, Aug. 14.—King Edward and Queen Alexandra returned to London yesterday from Cowes to prepare for His Majesty's annual trip to Marlborough, on which he starts to-day. The King will cross the Channel in the royal yacht Victoria and Albert to Flushing, whence a special train will convey him to Friedrichshof, near Weisbaden, Prussia, where he will meet Emperor William on Aug. 15. There has been much speculation on the political significance of this meeting.

The Pall Mall Gazette says that recently an autograph letter from Emperor Nicholas to King Edward was brought by special messenger to the Russian embassy here, and delivered to the King personally by the ambassador, and that at the same time other personal letters from the Russian Emperor were received by relatives in this country. The Russian Emperor's letter to the King is understood to have been a request for advice on the situation in Russia. A reply is said to have been sent almost immediately afterwards the meeting between King Edward and Emperor William was arranged.

After the conference at Friedrichshof, it is expected that a joint letter will be sent to Emperor Nicholas, containing the advice of King Edward and the Emperor. Grand Duke Alexis is staying at Homburg and probably will represent the Russian Emperor if further royal conference should be necessary.

GAIN FOR REACTIONARIES.

Zemstvo Election Going Against Constitutional Democrats.

St. Petersburg, Aug. 14.—The Government attaches much importance to the defeat of the Constitutional Democrats in the zemstvo elections now under way. For years the provincial zemstvos have been the centres of the Liberal movement, and practically all the Constitutional Democratic leaders have been prominent in zemstvo work. Now, as candidates for re-election, they are going down to defeat. M. Kakoshkine, next to M. Rodicheff, the most brilliant of Constitutional Democratic orators in the outlawed Parliament, has been defeated by Count Sheremeteff, the notorious reactionary, and yesterday two Constitutional Democrats were defeated at Samara.

While these results certainly indicate a reaction of sentiment against the advanced program of the Constitutional Democrats, it should also be pointed out that the nobility and landed proprietors have the dominant influence in zemstvo elections, and the defeat of the Constitutional Democrats probably represents more hostility to the principle of the forced expropriation of land, to which the Constitutional Democrats are committed, than enmity toward the purely political part of their program.

Nevertheless, the important landed interest, reactionary or Liberal, are uniting and lining up in favor of the Government as against the Parliament's radical agrarian program.

John A. Robinson Dead.

St. Thomas, Aug. 14.—John A. Robinson, senior partner of the law firm of Robinson & Green, this city, died at 8 o'clock yesterday morning at his summer residence, Port Stanley. Mr. Robinson arrived home from England ten days ago. While crossing the ocean he suffered greatly from sea-sickness, and had grown rapidly worse since his return. Mr. Robinson was in England representing the Pere Marquette Railway in the appeal to the Privy Council re the deportation of Messrs. Gillhula and Cane, under the Alien Law Law.

Wilson Sent For Trial.

Guelph, Aug. 14.—Peter Wilson was committed for trial by Police Magistrate Saunders yesterday morning, on the charge of shooting and killing Mary A. Berdina Swackhammer, aged 13, daughter of Mrs. A. Swackhammer, on Aug. 4, in Erin Township. The magistrate said there was an element of carelessness and neglect, and that he could do nothing else than send the prisoner for trial. He did not like the idea of committing so young a prisoner to jail, but he saw no other course.

Lacrosse Player Remanded.

Toronto, Aug. 14.—Geo. Finlayson, the Montreal lacrosse player, was in court yesterday and admitted to \$400 bail until Monday next, when the charge of "aggravated assault on Charles Querrie" will be disposed of. Querrie was in court and shook hands heartily with Finlayson.

Will Fight Extradition.

Toronto, Aug. 14.—At 4 o'clock yesterday morning, Detectives Twigg and Sackett met the steamer Argyle and arrested John Taylor, a passenger, who is wanted in Rochester for alleged theft of \$100. Taylor denies it, and says he'll fight extradition.

Upton Arrested.

London, Aug. 14.—(C. A. P.)—W. J. Upton, alleged absconder from Yorkton, Assiniboia, in May last with funds of the Dominion Express Co., appeared at Bow street Police Court yesterday. After evidence the prisoner was remanded for a week.

Briant Case Begun.

Toronto, Aug. 14.—Magistrate Kingsford yesterday began taking evidence in the Briant murder case, and will hear more to-day and Thursday. Witnesses from Kingsford will be heard Thursday.

Sultan Improves.

Constantinople, Aug. 14.—It is stated that the Sultan passed a good night, and that his condition yesterday morning was somewhat improved.
